D.C. Stations Fined Over Lottery Spots

Seven Washington D.C. area radio stations were fined last week by the FCC for broadcasting lottery information, which is a violation of the U.S. Code. The lottery was part of a local pant store promotion which was advertised on the seven stations. The commercials that were broadcast explained that when a person bought a pair of slacks (consideration) he could then spin a roulette type wheel (chance) that contained various dollar amounts which would be deducted from the total purchase price (prize). All three elements of a lottery seemed to be apparent and the Commission moved in with the fines.

Fined were WASH-FM, WEEL, WHFS-FM, WMAL-FM. These four stations were ordered to forfeit \$3000 each. The other three stations, WEAM, WPGC and WPGC-FM were fined \$2000 each.

R&R learned that WMAL-FM attorneys had called to clear the spot with the local FCC office and received clearance from a staff advisor. The clearance was informal and in no way can be used in defense by the station. The interesting part is that when the FCC did decide to fully investigate the commercial and made the decision that the advertisement was of a lottery, the station was never advised by the field staff

Lujack Back

"Superjock" Larry Lujack returns to WLS/Chicago to do the morning air shift. Lujack, who left WLS to join WCFL a few years ago, was most recently playing the beautiful music sounds of the new WCFL awaiting the end of his contract. John Gehron, WLS PD, told R&R: "There's no doubt that we have the strongest personality lineup in the country, and it's really good to have Lujack back."

Jay Thomas To 99X/New York

Lee Douglas, PD of WXLO-99X/New York announced that Jay Thomas has joined the air staff and will do mornings. Thomas was formerly PD at WAYS/Charlotte. The kickoff campaign planned to welcome Thomas to the Big Apple will be gigantic. Thomas told R&R: "I'm the happiest I've ever been and that means I'll do the best job I've ever done."

that their opinion had been changed.

Several of the stations are going to fight the case on the grounds that it was not truly a lottery. One Program Director commented that since the awareness level was upped about

lottery content in commercials he has noted that he is now rejecting several spots a month. Because of the seriousness of this problem, R&R is re-running a column about lotteries this week on page 10.

INS & OUTS

This was a big week for changes on both sides of the industry, here's a quick overview.

Radio

Tom Adams Resigns

Tom Adams resigned his morning air show at KGU/Honolulu in what Adams described as "a dispute over financial remuneration." Adams, the publisher of the "Electric Weenie," stated he took the mornings at the station from 12th to 2nd and didn't feel management financially appreciated him. Adams will now devote his full energies to the "Weenie."

New PD at WIBG

George Johns, National PD for the Fairbanks Broadcasting Company announced the appointment of Chuck Knapp as Program Director of WIBG/Philadelphia. Knapp had a great level of success as PD at KSTP/Minneapolis. Bill Gardner has been named Assistant PD.

Magid Expands

Ferguson Exits Q

Ted Ferguson left his PD position at WDRQ/Detroit Monday (13). He is currently looking for a programming position and can be reached at (313) 543-6693.

96X Changes

Jerry Clifton, PD of WMJX/Miami hired Eric Rhodes as the new Music Director of the station and 10pm to 2am jock. Clifton also brought in Kid Curry from 15Q/Knoxville to do 6pm-10pm.

Galveston

Ken Rush is the new PD at KILE replacing Dan Gallo who is going to WWUN/Jackson, Miss. New morning man at KILE is Gary O'Brien, formerly of KULF/Houston.

Records

Grieff To VP

Jerry Moss, President of A&M Records, has appointed Barry Grieff to the position of Vice President of Advertising, Merchandising, and Special Projects for the label. In his new position, Grieff will report directly to Moss.

Schreiber To UA Country

Jerry Seabolt, Natl. Country Promo Director for United Artists Records announced the appointment of Carson Schreiber to the position of Western Regional Country Promotion Manager. Previously Schreiber was with Farr Records and before that Music Director of KLAC.

RSO Expands

Al Coury, President of RSO Records appointed Bob Smith to the position of West Coast Promotion Manager. Smith was with Columbia Records in Seattle.

Bonneville Expands

Bonneville Broadcast Consultants announced the introduction of a new format, its fourth. Called "Soft Rock," the format is made up of current and past hits, plus significant album cuts, etc.

President Marlin Taylor stated that "two outstanding industry persons with a great deal of experience are associated with Bonneville to handle the new format. Dick Drury joins as Manager of Special Projects and is responsible for management, sales and station relations for "Soft Rock." Bob Henabery, while continuing his own station consulting activities, will be handling the creative format development and music programming functions.

Disco Dees and George Klein
Exit—John Long To WHBQ

This was a big week for Program Director changes in this Southern city. On Monday morning, WMPS PD/morning air star and RSO Records recording artist, Rick Dees was terminated from his PD/air position. John W. Rhea,

Later that same day, Dick French, GM of WHBQ, announced that George Klein, a 14 year veteran of the station, "...had voluntarily terminated his employment with WHBQ Radio." French announced that John Long, formerly

Rick Dees

George Klein

VP/GM of the Plough Broadcasting facility told R&R: "Rick was terminated for his continued refusal to follow company policy with regard to conflict of interest and company interpretation of FCC policy." A replacement will be announced soon, according to Rhea.

PD of WAPE would be the new Program Director beginning September 20. French also noted that because Klein was holding down the PD position and the morning shift they would now be looking for a super talented morning man and emphasized that WHBQ will be paying competitive dollars for talent.

KRUX BACK TO ROCK

After barely a year and a half with the NBC News & Information Service all News format, KRUX/Phoenix has announced that they will return to a Rock format on September 27. Richard Ruiz will be the Program Director for the new format. Ruiz is a 3 year veteran of KRUX, having served as PD during the previous Rock period, and remained during the News format. Ruiz is currently looking for an air talent staff for the station.

STATIONS FIGHT MD

A great number of radio stations and personnel gave their time and energies to join in the Jerry Lewis Telethon activities to battle Muscular Dystrophy.

WJON/St. Cloud helped out the Central Minnesota headquarters for the 6th straight year. Total pledges for the area came to over \$30,000.

KRKE/Albuquerque's King Kong Kirby and Dr. Wu helped MC the Lewis Telethon, urging viewers to pledge over \$170,000.

David Ross and Charlie "Rock & Roll" Simon, of WISM/Madison, acted as honorary co-hosts for the city's Telethon, raising \$65,000.

The air staff of KEWI/Topeka became disco-jocks for the station's Disco Dance A Thon. The 12 hour event raised funds for the Dystrophy charity.

On Labor Day, WGBB/Merrick, New York held the WGBB/Jerry Lewis Muscular Dystrophy Balloon Launch. Listeners bought balloon kits, with all the money going to the charity, and launched the balloons from a local shopping center. Prizes were awarded to those who's balloons travelled the farthest. Afternoon drive personality Don Rosen also appeared in the New York Telethon.

WCVS/Springfield, Illinois presented a check to MD during the local Telethon. To raise the funds, the station held a dance featuring a local group, charging \$1 admission.

WFIL MAKES PHILADELPHIA RICH

Thousands of dollars are being offered in WFIL/Philadelphia's latest contest. Air personalities make call-outs in the hopes of finding a listener who will answer the phone with "WFIL's Gonna Make Me Rich." If they do, they automatically win \$5000. On top of that prize, if the listener knows the "secret word of the hour," they win an additional \$5000.

SPORTS PREDICTIONS

WAAY/Huntsville is offering \$155 cash to listeners who can correctly predict scores of upcoming major

football games. Calls are taken all week to log listeners' predictions. In addition, the nighttime hours are devoted to the same contest, but predictions are made for local high school games.

WAXY CLASS REUNION

Over the Labor Day weekend, Rock & Roll DJ stars of Miami radio in the 60's gathered together for the "Class Reunion" at WAXY/Ft. Lauderdale. Starting Friday afternoon, the station featured nothing but hits from 1955 through 1972, with the personalities who had played the hits then. Included in the reunion were; WLW/Cincinnati President Charlie Murdock, WMAQ/Chicago personality Lee Sherwood, and current WAXY PD Rick Shaw.

SUMMER-END BEACH BOYS' PROMOTIONS

The entire month of August was "Beach Boys" month at WROR/Boston. Beach Boys kites, frisbees, albums and T-shirts were given away, as well as tickets to the late August Providence Beach Boys' concert. Wrapping up the special month was the airing of the "Best Summers Of Our Lives" Beach Boys special.

KFXM/San Bernadino held a Battle of the Beach Boys vs. the Beatles recently. Records by the two groups were challenged against each other. The winning tune was then put up against a new record. The final play-off saw "Hey Jude" against "Good Vibrations", with Good Vibes winning.

WISM/Madison gave their listeners

a chance to go "back to the beach one last time" at the end of summer. The Labor Day weekend "Splash" promotion featured giveaways of T-shirts and complete Beach Boys' LP libraries.

SUPER SKATEBOARD PROMOTION

WBJW/Orlando is testing their listeners' knowledge of skateboard slang in their "Super Skateboard Saturday." Jocks ask the skateboard trivia questions on the air, the first correct caller wins one of the 20 skateboards given away that day.

ON AIR CONCERT

A recently scheduled outdoor concert featuring War and Labelle in Columbus, Georgia, was rained out, so War stopped by WCGQ for an on-the-air concert instead. The group answered request lines and played their latest LP "Greatest Hits."

"BOOGIE" SHIRTS

Limited edition "Boogie Shirts" were given away to WERC/Birmingham listeners during Labor Day weekend. At the designated signal, callers who said "WERC is my favorite radio station" won the shirts.

WFOM FOOTBALL REPORTS

WFOM/Marietta has given added incentive to high schoolers who call in reports on local football games. Every time a report is called in, the reporter is awarded a hit LP. At the end of the football season, WFOM will hold an appreciation banquet for the reporters with an award for the most consistent reporter.

WHAT KIND OF PERSON EATS R&R?—In this case, it's Dennis Locorriere of Dr. Hook, who recently visited KLEO/Wichita during the group's tour. KLEO also arranged for a meeting between Dr. Hook and one of their biggest fans. The young lady pictured here sustained gunshot wounds in a sniper incident recently, while waiting in line to buy tickets for the group's local concert. Dr. Hook felt that anyone who went through that much for one of their shows deserved something special. Group members visited the girl's house, presenting her with an autographed copy of their new LP and a KLEO T-shirt.

13Q/Pittsburgh was recently visited by the Average White Band. One of the Band's members is shown here with (left to right); morning man Michael Sarzynski; afternoon man Don Cox; AWB's Alan Gorrie; and PD Dennis Waters.

WROR/Boston's Arnie "Woo Woo" Ginsburg is shown here hosting the WROR 'Revival/Survival' Blood Drive, held in conjunction with a local TV station. Despite extremely hot temperatures, over 150 people donated a pint of blood each to the cause.

WAKY/Louisville recently gained some new staff members when WEA Promotion Exec Ross Grierson (right) presented the two live rabbits pictured here to Bob Moody (left) and John Randolph (center). It was all a part of Grierson's promotion efforts for the Eddie Rabbitt single.

Even a rainstorm did not dampen the activities during WCOL/Columbus' Great American Races and Concert. Ten WCOL listeners were chosen to compete in the paddle-boat races, the first and second place finishers are pictured here. Race attendees enjoyed a free concert featuring a local group, and free Coke was offered to all.

American Tears recently appeared at WLCY/Tampa's "World's Largest Family Beach Picnic." The weekend affair included promotional displays and entertainment, highlighted by two Sunday concerts by the group. Pictured with American Tears are WLCY personalities Steve Kelly and Jeff Lawrence (kneeling).

WHN/New York submitted this picture of their latest belt buckle. The buckles were awarded to random callers of their "Listener's Choice Awards" voting contest.

KEWI/Topeka all night personality Cheri McSpaden proves that she has the muscle to compete with the rest of the KEWI Good Guys. She and the rest of the air staff participated in a recent softball game against the Topeka City Commissioners.

96KX/Denver personalities Brant Miller and Rick Brady prepare their "dragsters" for a race against Muscular Dystrophy. KXXK on-air staff broadcasted a remote helping raise over \$2500 for the charity.

Division champion ice hockey team the Indianapolis Racers, continued their winning off the ice when they recently beat the WIFE/Indianapolis personalities in a softball game. The benefit game attracted hundreds of spectators, with all proceeds given to the State Chapter of Cystic Fibrosis.

KFAC-AM-FM/Los Angeles, the city's only Classical music outlet, devised this great advertising promotion for distribution to West Coast ad agencies. The "Incredible KFAC Sales Generating Machine" pictorial display also allows agency personnel to get involved in a contest. Below the machine cartoon, a calendar is printed with "Profithoughts" on each days date. Each day during September, the station calls a poster recipient and asks them to identify the Profithought of the day. Prizes are awarded to all correct ad reps, and a grand prize drawing will be held at the end of the month.

Being Relatable To Your Audience

From Mike Butts In The A.M.—

What are the most important ingredients in preparing a morning show...playing music that's right on target...a great voice...information...funny bits? The first two items are certainly important, but as an air personality, these shouldn't be the top priorities in your mind. The Program Director does his job...and the music is right...in the pipes department, that's out of your hands too, you got what you were born with and short of being contrived, there's nothing you can do to change that. Information is naturally expected, but the way you do creative bits...one liners, etc...anything over and above the basics will help you win or drag you down.

Please allow me to share with you what most pros have known for years, and what my dearest friend taught me years ago. Don Barrett, now with Columbia Pictures, was my G.M. at K100/LA, WWWW/Detroit, and National Program Director when we both worked for the McLendon Corporation. His thoughts were, "If you can't do anything else...at least be sure you do what's important to a morning show or any airshift...be relatable." Be relatable to your audience...relatable to what's happening where you're at. It's been of great help to me...it's a tool of success, and if nothing else, it's a great crutch.

Maybe you don't have the best voice in the business...join the club! There's only one Charlie Van Dyke...maybe you don't have a one liner ready for every situation...so what...I've never heard anybody more polished with that style than Dr. Don Rose. So it's important that the things you say, and do, make it.

I always write my own material...ego is one reason, and I love to create bits and perform them. The alternative to this, of course, is subscribing to a joke service. Great for stand-up comedians...good for stimulating my mind with fresh input so I can write more of my own stuff, but basically those bits will be done by thousands of jocks all over the country...same bits...same days...bits of jokes that were written "in general"...and not for my market. You can get closer than that.

A legal pad in your car will help you to remember to jot down "relatables" as you see or think of them. Something visible that has some humor in it that you can print here, but you could point out that huge, but concealed chunk out of the road at the intersection of _____ and _____ that you discovered. It relates first of all...provides a service in some cases...makes you sound on top of things, and then if some of your relatables can be made into comfortable humorous bits, well that's even better. Just keep your eyes and ears open and a pad and pencil ready to write 'em down so you don't forget. Be on the outlook for "hooks" or "tie-ins" with local TV personalities, sports figures, newspaper columnists. You can do it with the music in some cases...here in the Twin Cities, of Minneapolis/St. Paul...from time to time...it's Lovin' You by Minne-Apolis Ripperton...or Silly Love Songs by St. Paul McCartney...or Chicago with Saturday in _____ Park.

How about being relatable in the weather forecasts...On a humid day, it could be as sticky as the "Stadium Issue" is...or something making headlines locally...the skies could be as grey as _____'s hair! _____ being the anchorman on Channel 4 or whatever...there was sooo much ice on my car this morning that Garry Unger could've scored a hat trick on my windshield.

Hopefully you won't think I'm trying to come off as an expert...I'm not, and furthermore, I'm not even a Program Director. The intention is simply to make a contribution to those who can use it, and to add some fresh input for you if it fits.

Being relatable will set you apart from the others, because believe me, not everybody does it. Some jocks may have a great voice, be technically perfect, and have many other qualities, but you'd never know they live where they do by listening to their shows. It takes more than just three or four hours a day...it takes extra work, knowing where you're at, being visible from time to time to those who might be listening...it's a knowledge you have and a feeling that you get. It's recruiting new listeners, self-promotion and establishing yourself as a real, live member of the community. Here are some ideas on what I mean:

Fan Mail

Rather than have your programming secretary or anyone answer your mail for you...and certainly before you'd mail out a form letter, answer your own fan mail, personally. It's worth it in the long run even if it is a lot of extra work. People really appreciate it, and it's good PR for you and the station.

Don't just wait to get it...solicit it. For instance, when you give away a prize on your show...get all the info, and send out thank you notes to people who have won on your show. It will be appreciated by the person who received your letter...they are sure to tell someone else, and if by some chance your station takes a long time to mail out prizes, your letter could buy some time to keep the winner from getting upset.

Survey Pictures

Each day on your way to work, carry along a supply of survey pictures...stop at different newspaper boxes...buy a paper, and then insert a survey picture inside each one of the news-

papers...you should have reached somebody with that trick.

Jukebox Numbers

Talking about relating right? Go to a popular spot where they have big crowds...you must select a good relatable place everybody is aware of...copy down the numbers on the jukebox...to be used on the air in such a way, i.e., Elton and Kiki Dee...all over the country that song is Number 1...and number 5-5 on the jukebox at Henry's Place, or whatever.

You can help promote your show by establishing a "regular" spot in all areas that you trade and do business with...such as the gasoline attendant where you get gas...the waitress at the same place where you have your meals or coffee before work...the clerk at the dry cleaners and so on. Be their friend...offer them a T-shirt or something from the station...be glad to give them an autograph for their kids, and for no reason at all, drop off an album that you thought they might enjoy...they'll appreciate it, talk about, and all of a sudden, you're no longer just somebody on the radio...you've become a personal friend, and to them, a very special member of the community.

A couple of rating periods ago, from the time I got off the air at 9AM until sometimes as late as 8 at night, I would just go out all over my cities and create situations that would enable me to meet people, introduce myself in a way that wasn't obvious hype, and do something nice for the people I did come in contact with. Try it...load up your car with station prizes...shirts, key chains, bumper stickers, patches, albums, station paraphernalia, survey pictures of yourself, etc. Pull in a gas station to get a dollars worth of gas that you really don't need...so you can ask directions to a place that you may already know how to get to...just so you can say, "Thanks..."

I really appreciate your help...what's your name...Oh Bob, Well Sue, It's nice to meet you...I'm Mike Butts, I do the morning show on KDWB...thanks again for your time and help." Drop a Beach Boys' album or T-shirt in their hand, and be out the driveway or door in seconds flat. It's a lot of extra work...granted, but it just can't do anything but huge positives for yourself and the station...those people that you came in touch with will check your show out at least once...Be Great!

Even though I have been fortunate to always have worked in major markets at great stations with good numbers, it isn't surprising that you don't know me and may be asking yourself, where does this Butts guy get off giving advice? True, I don't write articles very often...I don't send my picture in everytime I'm at an industry party, or when an artist comes by the station to say hello and promote his product...and if my dog had puppies, Claude Hall would be the last to know. Industry publicity is great...don't get me wrong, and maybe I don't promote myself that way enough. It's great for the ego, nice for your friends, you can send five copies to your mother, BUT...the bottom line on publicity for me is this...will my article in R&R reach an 18-34 male in my market...will it increase my teens or help my adult women numbers? Will that energy I'm spending on my ego relate to where I'm at and help make me successful? The next time I get a shot in the trades, that'll be nice, and I'll be grateful...but it won't mean as much as a local story that my audience can see that might help me win. Winning and being number one is all that matters to me...and I'm not where I want to be yet, but being relatable has gotten me this far...THANKS DON!!!

BUSINESS NEWS

Senate Passes Anti-Trust Bill

A Senate Bill which would affect sale of broadcast properties has passed the house of Congress by a wide margin. The anti-trust legislation has been lobbied against by many broadcasters and other industries. Also included in the bill is an anti-price fixing clause. A compromise bill is being readied for discussion by the House of Representatives. Many experts expect President Ford to veto the bill when it reaches his office.

3 Way Station Selling In S.F.

CBS has completed negotiations to purchase KEAR-FM/San Francisco in a three way exchange of properties. CBS' KCBS-FM would be sold to Golden Gate Radio, KMPX sold to Family Stations, and KEAR would be bought from Family by CBS.

White OK'd for FCC Spot

The Senate Commerce Committee has approved President Ford's nomination of Margita White to the FCC. White takes over a 2 year term left vacant by Charlotte Reid.

EEOC Cuts Down Backlog

In an effort to take care of nearly 120,000 job discrimination complaints, the Equal Employment Opportunity Commission has initiated new procedures to speed up action on the complaints. Charges by complainants who cannot now be located will be dropped, and cases found to have no base will be dropped as soon as possible. In addition, the EEOC will attempt to make settlements between employer and complainant before the cases are put on the books.

Station Renewal Denied

The Federal Communications Commission has turned down the license renewal application of WBRL/Berlin, New Hampshire because of false billing practices covering a three year period.

Record Budget For Lincoln-Mercury

An increase of 15% for Lincoln-Mercury's advertising budget for the first quarter is projected for introduction of their new models. The Ford Motor Co. division says that their ad schedule is based directly on consumer research. Lincoln-Mercury's full sized cars will be pitted against General Motors new cut-down sized models in ads. Television is scheduled to take up nearly 70% of the ad budget. The Continental Mark V commercials will be placed in radio and TV.

Big Budget For New Soup

In direct competition with Lipton's "Cup-A-Soup," Nestle's will introduce their new "Souptime" soups with a huge advertising budget. The ad plans, expected to be in the multi-million dollar range, will follow the initial introduction in West Coast cities, after test-marketing in Buffalo and Portland, Oregon. Celebrity Peg Bracken will be featured in the commercials.

Anti-Freeze Companies Pray For Bad Weather

Big inventories of anti-freeze from last winter have urged manufacturers to start their advertising campaigns early this year. Dowguard brand will use local radio and TV spots to drum up business. The nation's leader in anti-freeze, Prestone II, will place up to \$3 million worth of advertising during the cold weather season.

Mars Ad Tie-Ins

The recent Viking exploration of Mars has led some American companies to use the "red planet" in advertising. Radio spots for TRW, Inc. tell listeners about the role the company's equipment plays in the Viking's search for life on Mars. Rockwell International's advertising salutes the Viking's research, and reminds Americans that they are working hard on upcoming Space Shuttles.

Football Star Buys Into Radio

KAGB/Los Angeles has been bought by former football star Willie Davis for \$225,000. The sale is still subject to FCC approval. The outlet has been off the air and bankrupt since last December. New call letters will be requested by Davis' new company, All Pro Broadcasting Inc.

New Computer For ARB

Arbitron has installed new advanced computers in their Beltsville research center. The new system is scheduled to be in operation for the October/November 1976 Radio survey. It is expected that the new computers will speed the processing of market and special reports.

How Much Does Your Car Cost

The cost of using a new car is \$7.44 per day this year for standard sized autos, \$4.83 for compact and \$3.95 for sub-compact models. Costs continue to decline with each year of use, and the margin of difference between the costs of each size of car decreases.

Skateboard Parks

A San Francisco company is betting on the continuation of skateboard popularity. They plan to open 100 custom skateboarding parks within the next year. The full acre parks will feature slopes designed for varying skills, and shops selling equipment and service on boards.

THE FCC

[So You Can Understand It]

This column, from an issue of R&R two years ago, is being printed again as an information service to our subscribers because of the recent FCC action against seven Washington D.C. area radio stations for broadcasting lottery information within a paid commercial.

LOTTERIES

It is generally agreed that in order for a particular contest and/or promotion to be labeled a "lottery" it must contain three elements—prize, chance and consideration. For purposes of general guidance, a lottery is generally understood to comprise a game of chance for the purpose of raising funds, attracting customers, increasing product sales, and so on. Thus, a prize must be offered; chance must be involved; and the participants must have been required to pay money or give some other valuable consideration in order to be eligible to win. As set forth above, all three elements must be present for any particular scheme to be classified as a lottery.

CLIENT LOTTERIES

In many instances station advertisers hold prize drawings to increase their business and announce that the chances are "free," when in fact some type of merchandise must be purchased or a payment made before a customer receives his chance. Such a situation constitutes a lottery despite the absence of an extra charge for the chance, the consideration being the necessity for making a payment to the store or making a purchase in order to become eligible for a prize. Admission to a night club or dance with a door prize drawing being held is advertising a lottery if you advertise the door prize on the air.

EVERYBODY WINS

Moreover, where all participants who buy a chance or make a purchase win something, but the value of the prize depends on chance, or where one may participate in a drawing without payment or purchase, but payment or purchase makes one eligible for a larger or "bonus" prize—in both cases all of the three necessary elements are present for the particular scheme to constitute a lottery.

PUBLIC SERVICE ADS

Many questions confront a broadcaster on a daily basis concerning events such as church carnivals, state fairs and other local activities where lotteries (bingos, door prizes, games of chance, etc.) are featured. The broadcast of announcements concerning such a carnival and/or state fair or any other event will appear to be proper so long as the announcements make no reference to any game or promotion which is a lottery, and so long as the carnival and/or event includes other activities which are not lotteries and to which the announcements can reasonably be said to refer.

CONSIDERATION?

The most difficult element to define is obviously consideration. The FCC has held that consideration is present if an automobile dealer requires a customer to take a demonstration ride in a new automobile in order to win a prize. While a mere trip to a store and/or any other place of business to obtain a "free" chance is acceptable, particular care must be taken that the "free" chance is readily available to the members of the public in a convenient and conspicuous place.

action plans for year two

ARE NOW BEING CAREFULLY EXECUTED TO ALLOW FOR A WELL DISCIPLINED GROWTH PATTERN.

The main concern of RADIO INDEX is not with becoming the largest Radio research organization in the industry. Rather, we are dedicated to becoming the service that most responsible programming executives prefer to refer to when seeking a mirror of their market.

• RADIO INDEX is now a subsidiary of Swanco Broadcasting, an affiliation that will enable INDEX to not only continue providing unique personal service to clients, but will supply the necessary financial structure to support endeavors into new related research fields of importance.

• RADIO INDEX Central Headquarters have been moved to the United Bank Building in the uptown Phoenix business corridor district, affording greater expansion flexibility in accommodating the special needs of INDEX clients.

• ALL RADIO INDEX computer programs have been streamlined to offer improved and expanded service elements. Two important off-shoots of the new mechanicals include guaranteed Monday morning mailout of all printed Weekly Reports and faster delivery cycle of Monthly Trend Summaries.

• Installation of incoming WATS-lines has further systemized the RADIO INDEX Monday morning telephone-advance procedure, while giving clients instant toll-free access to INDEX answers to any research questions.

• The RADIO INDEX "breakthrough system" of music research, MARS/MUSIC (The Mass Acceptance Response Study), has been re-marketed with greater flexibility of application at a lower cost to you.

• RADIO INDEX will continue to arm clients with more usable programming information more frequently than any other on-going measurement service. A full complement of depth research services is available to accent RADIO INDEX weekly market measurement: Stratified Audience Studies, Mutual/Exclusive Studies, Preferential Profiles, Talent Recognition Reports, Day-Part Focus Reports, Ethnic Extracts, Geographic Extracts, Promotional and advisory Program consultation.

• Coming Soon:

• A new way to look at your ascertainment requirements: The RADIO INDEX Market-SCAN (Synchronized Community Ascertainment of Needs)

• RADIO INDEX Day-Part Demo's and Demo-Combo's

• The RADIO INDEX Trend Portfolio

• The RADIO INDEX C-P-M Matrix (Computerized Pre-Programmed Music), custom-designed to match your station's specific needs

...and in the end...

THE RADIO YOU MAKE, IS EQUAL TO THE FEEDBACK YOU TAKE.

If you view Radio as a continual learning process, and share the philosophy that Radio's greatest "teacher" is the mass audience, we should be working together. RADIO INDEX is now actively providing custom audience research for 69 stations in 30 of America's Top 100 markets. If we're not already in your market, we plan to be in the next year.

Dear Ray:

What can I say? Last night was incredible! As you know, it's been sometime since the Los Angeles audience had a free concert and we here at K-WEST are so pleased to not only present a free show at Santa Monica Civic but to be the first West Coast radio station to present STARZ.

From the first day we went on the air with the announcement of the show our phones didn't stop ringing -- and today calls for STARZ are countless (I'm not surprised considering the daZZling STARZ stage show.)

Ray, thanks to you and CAPITOL as well as everyone at AUCOIN Management for helping to make K-WEST'S "End of Summer '76" a STARZ-struck night.

Sincerely,

Dear Ray,

I've got to let you know what happened yesterday in Buffalo. Every year WGRQ puts on a free concert in the park -- and every year I get an ulcer trying to coax groups, managers and agencies for help. I sincerely want you to know what a fantastic group of people Starz are and what they did to Buffalo. After one phone call to Barry Houghfin at Capitol, we got Starz and 18,000 people showed up and went berserk.

It was such a pleasure to work with everyone involved with the group and the phones are going crazy today for Starz. They even cancelled a paying gig to help us out.

Thanks so much to Aucoin Management, Barry Houghfin and one hellava rock n' roll band - Starz.

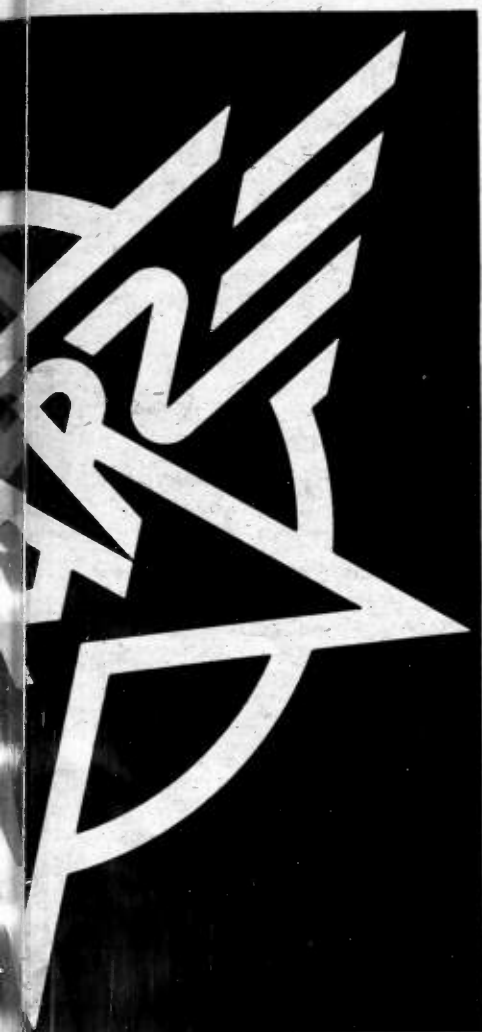

Sincerely,
John McGhan

Chart Summary

Its one of those changing of the guard type charts with eight debuts and no bounce backs. **RONSTADT** squeezed by the **STARSHIP** to take over the top position after a couple of very solid weeks at number two. Needless to say, the **STARSHIP**'s 9 weeks in a row as number one has got to be hailed as one of the outstanding accomplishments in the history of this chart. **MILLER** remains at number three, an airplay monster. **BOZ** continues to regain momentum and broke back into the top five, ground he spent much time in weeks ago. **H&O** is solid. **AMBROSIA** repeated last week's sensational debut performance. **BOSTON** racked up more solid support. **HEART** maintained. **FRAMPTON** didn't budge from the top ten. **YAMASHTA** inched up. **GINO** enjoyed healthy gains. **CLARKE** came on very strong. Many programmers are saying very nice things about the album. **CHICAGO** was stable. **HAVENS** was welcomed back to AOR turntables with opened arms as the album is this week's highest debut. **MANN** debuted impressively. **AUTOMATIC** continues to grow. **WINCHESTER** debuted. **MAC** inched up. **BEE GEES**, **CALE**, and **GUTHRIE** debuted. **PARIS** is hanging in there. **LYNYRD** debuted with a special airplay only promotional album. This album is not the new live package which hadn't yet been released at the time these reports were taken. **STEELY** resurged a bit. **MONTROSE** debuted. **KLEMMER** maintained. **JUDY COLLINS**, **TED NUGENT**, and **FLO & EDDIE** almost made the chart in that order.

This chart is based solely on airplay and does not attempt to fabricate a trend. The artists in italics are those receiving the most rapid gain in airplay.

WABX, Detroit, held a picnic at Camp Nehalu for it's staff. Shown enjoying the festivities are (l-r) Al Wilson, General Manager; Bob Burch, Nat'l PD for Century Broadcasting; and Shelly Grafman, VP of Century Broadcasting.

Recently Playboy Records named stations all across the country who have been selected to receive the label's version of baseball trading cards, as part of a current promotional campaign of its artists. Designed to depict the Playboy roster in full uniform, all cards feature a 4-color photo on one side, with the second side offering a "Mini" bio on each performer. Assembled together in 6-pak kits, the cards are being presented in a wrapper that is clearly identified as the Collector's Series for 1976, and will be made available on a limited basis. The promotion was created by Playboy's National Promotion Director in Nashville, Nick Hunter.

WIXZ/McKeesport, PA morning man Ross Merante was jailed recently at a local shopping mall to help raise funds for Muscular Dystrophy. Listeners had to go to the mall and spring him from the slammer by contributing a total of at least \$300. Ross made several on-the-air pleas for clemency despite the efforts of General Manager Tony Renda to keep him locked up. Sympathetic listeners contributed nearly \$1000.00. The promotion was considered by all to be a big success.

WHBF/Rock Island, Il was lucky enough to be paid a visit by United Artists recording artist Billie Jo Spears while she was in the area for two weeks. Pictured (l to r) Dick Stuart, Program Director; Billie Jo; Joanne, Music Director; (seated) Brian Melby, Air Personality.

INSIDE NASHVILLE

\$200,000 worth of songwriter's dreams were completely destroyed last Friday just after midnight when HARLAN HOWARD's custom-made home on the hill was wiped out by fire. HARLAN's 23 year old daughter JENNIFER and two house guests were evacuated without incident as the place burned to the ground.

LIFE'S LITTLE UPS AND DOWNS: LORETTA LYNN's six radio commercials for Amex Coal Company in Indianapolis seemed a natural thing to do. About the time LORETTA's spots went on the air, Amex Coal got mixed up in an unauthorized wildcat strike. Now United Mine Workers officially are denouncing LORETTA as being associated with a scab outfit...So far, BOBBY BARE and RCA are ahead in the "Public Reaction Poll" on BARE's new "Dropkick Me Jesus" record, but many stations will continue to "wait and see" what happens before they jump on it...GARY S. PAXTON rush-released this week a new LINDA K. LANCE cover on the current Pop hit by FLEETWOOD MAC on his own GARPAX label. He negotiated a complete distribution deal with DICK HEARD at GRT this week.

Music Row mumbles are "Well, WAYLON and WILLIE will take all the marbles this year" in the CMA Awards, with virtually every category representing either WAYLON or WILLIE or both...GLEN CAMPBELL signed in for the Pro-Celebrity Golf Tourney next week...MIKE DOUGLAS, SONNY JAMES, RAY CHARLES, RONNIE PROPHET and RIP TAYLOR hosted or co-hosted syndicated "MUSIC HALL AMERICA" segments this week...Three super giant influentials in Country Music history, all in different ways, celebrated birthdays this week; GEORGE JONES, BILL MONROE, and ROY ACUFF. My, how they have affected this business!!!...Yes, JOHNNY CASH and WAYLON JENNINGS will have a single duet "I Wish I Was Crazy" released week after convention. CASH is seriously considering the Mid-Term Weekly TV series start as a result of the early good looks of his current CASH mini-series...Songwriter LIZ and CASEY ANDERSON, LYNN's folks, sold their new one year personally designed house and built mansion on the lake here, sold her 200-song catalog to ACUFF-ROSE, and are moving to LAKE TAHOE to "Just take it easy and write songs," LIZ says.

CLOSER: BEN SMATHERS, square dance-clogging family patriarch, played me a Texas-Country master by a new girl protege and described it as a "Pearl Beer and Hard-Boiled Egg" song!

POP/ADULT NOTES

BY MIKE KASABO

Football season is in full swing and Bobby Bare has the right idea. His upcoming single "Drop Kick Me Jesus Through The Goalposts Of Life" was tested at KCRA last week...and with favorable results. The song is from an old album and has been getting Country play in recent weeks. Asked about possible lyric problems, Bare informed RCA personnel that he wrote the song with absolutely no intention of it being irreverent, but rather wanted to make a positive statement using the sport of football as a common basis so that everyone could relate to the lyric.

The Bay City Rollers are making their fastest rise yet with Pop/Adult stations. Late add WCBM...check New & Active for other new play.

Natalie Cole's "Mr. Melody" comes through with the strongest week yet...see New & Active.

Barry DeVorzon & Perry Botkin Jr. are proving to be a solid team with "Nadia's Theme." It jumps 4-1 at KRMG and is reporting super hot at WHIO, WJNO, KSL and WIP.

Steve Miller's "Rock 'N Me" went on KULF and K149.

The new Candis Stator "Run To Me" went right on Milwaukee powerhouse WTMJ and is already hot at KDWN.

Tanya Tucker's "Here's Some Love" rockets 5-2 on the Country charts, and appears to be showing some good signs of crossing over. Many comments, notably from Steve Bell-KMBZ, suggest that Pop/Adult listeners are showing strong support for the record in terms of phone responses and sales. Bell reports it as one of his hottest. Other strong moves... 15-12 WSAV, 16-11 KULF.

Although the Wild Cherry record has yet to find complete acceptance at the Pop/Adult level, several key stations show solid moves. 9-4 WNBC, 6-2 KIIS, are a couple of examples.

We'd like to welcome Bill Holiday as our new reporter from WVOV. He most recently was with WGMZ, Flint...and now takes over the music direction at VOV, Huntsville.

The new England Dan & John Ford Coley "Nights Are Forever Without You" should be in your hot little hands shortly. WNEW is playing it from the album.
