**B**roadcasters could see revenues drop if the Senate adopts a proposal to restrict business deductions for advertising. A bipartisan Senate coalition, working on an alternative health care plan, has added a stipulation that would allow tax writeoffs for only 80% of ad spending in the year they occur, forcing businesses to amortize the remaining 20% over a longer period. Proponents say the proposal could raise some \$35 billion-\$40 billion to reduce the federal deficit.

The ad proposal is part of a \$100 billion, 10-year deficit-

■ **18-year RCA vet Schreiber joins imprint as L.A.-based VP**

Curb and Atlantic Records Group have entered into a multi-level deal that includes the formation of a second Curb label and WEA distribution for both Curb imprints, effective January 1.

Curb, Atlantic, and Warner Music-U.S. execs celebrate the companies' new pact: (l-r) Curb Sr. VP Dennis Hannon, Warner Music-U.S. President/COO Doug Morris, WEA President Dave Mount, Atlantic Records Chairman Ahmet Ertegun, Curb Chairman Mike Curb, and Warner Music-U.S. Exec. VP Mel Lewinter.

**Mike Curb's** duties as Curb Chairman will extend to the new label, **Curb AG**, while former **RCA/Nashville Director/Regional Promotion Carson Schreiber** — who left Nipper last month after 18 years — has been named VP. Former Curb President/A&R **Dick Whitehouse**, who spent 30 years there before retiring last September, has signed on as a consultant. Curb AG will feature both country and pop acts and field its own regional staff.

**'Dramatic New Phase'**

**Warner Music-U.S. President/COO Doug Morris** commented, "Mike Curb is among a

**Atlantic President Danny Goldberg** noted, "The new Curb/Atlantic association signals the beginning of a new era at the Atlantic Group, as we continue to forge dynamic new alliances for the '90s and beyond. **FCC To Get New Headquarters**

The FCC will be moving to the Portals development in southwest Washington — whether it likes it or not. The **General Services Administration**, without consulting the Commission, ended the three-year dispute between the FCC and the office complex's developers by signing a lease on August 12.

**No Say In Talks**

The agency is scheduled to move into its new home, which will occupy 315,000 square feet of an as-yet-unbuilt building, between February 1996 and February 1997. Some FCC offices, however, could be moved into an existing building at the Portals as early as next May. The FCC's current offices, spread over five different downtown Washington facilities, encompass 358,314 square feet.

The agency will pay \$29-\$35 per square foot for its new space, standard for Washington office rentals.

**Location Dictates Listener Reaction**

**L**isteners react to "negative" songs much as they do to a commercial stopset — the closer the listener is to the buttons, the more likely the station is to be changed, according to a **Paragon Research** survey of 400 radio users. While two out of three in-car listeners would switch away from an undesired song, only one out of seven at-work listeners would do the same. Men are somewhat more likely than women to switch stations in stationary locations, but both sexes are equally anxious to tune out an unwanted song while in a vehicle.

Dimick told R&R, "This has been a great ride. But it's long been a goal of mine to see if I could make it programming with

the 'big boys.' I may get kicked around a bit, but I'll probably kick back.

"Fisher is an excellent people-focused organization. They're interested in hiring the right people who will help make their plans come true. To be able to walk into a situation like this is very exciting."

Dimick previously programmed KBLQ/Logan, UT.

## FCC Answers Questions On Regulatory Fees

■ **Due dates, new AM classifications, fiscal responsibility addressed at seminar**

The FCC revised its regulatory fees in June, changing some of its procedures and dollar amounts. Here are answers to some of the more common fee questions raised at a recent FCC seminar:

**Q** Where do I send my regulatory fee payments?

**A** If you are sending your fee via U.S. Postal Service, it should be mailed to: FCC, Regulatory Fees, P.O. Box 358835, Pittsburgh, PA 15251-5835. However, if your fee is hand-delivered, direct it to: FCC, c/o Mellon Bank, Three Mellon Bank Center, 525 William Penn Way, 27th Floor, Room 153-2713, Pittsburgh, PA 15259-0001; Attention: Wholesale Lockbox Shift Supervisor. The inside envelope must be addressed to Box 358835.

**Q** If I am paying for several licenses that have different filing due dates, when is my regulatory fee due?

**A** All your regulatory fee payments are due on the latest date.

**Q** Must FM translator or booster licensees pay a regulatory fee?

**A** No. Neither FM translator nor booster licensees are subject to paying fiscal year '94 regulatory fees.

**Q** If a radio station is transferred, who is responsible for the fee — the buyer or seller?

**A** Whoever is holding the license on the date the regulatory fee is due to the FCC is responsible for payment. However, the buyer and seller can negotiate on that issue.

**Q** What are the new classifications for AM stations?

Old Class	New Class
Class I	Class A
Class II & III	Class B
Class II.D, II.S	Class D
Class III.D, III.S	Class D
Class IV	Class C

**Q** If one provides a call sign for an AM station, can the FCC tell what class the station is?

**A** Yes. The FCC Fees Hotline — (202) 418-0220 — can provide the necessary information.

## EARNINGS

### Radio, Related Groups Show Mixed Reports

**S**outhern Starr Broadcasting Group Inc. (Nasdaq: SSBG) reported net income of \$188,000 (11 cents per share) for its fiscal first quarter ended June 30, down from \$310,226 (19 cents) a year ago. Broadcasting revenues were \$3.3 million, up from \$2.9 million. Income from operations was \$665,000, up from \$631,000.

Southern Starr owns six radio stations. It has announced an agreement to be acquired by **Multi-Market Radio Inc. (R&R 8/19)** for more than \$25 million. The exact value of the deal depends on whether shareholders choose an all-cash option of \$13.75 per share or a second option of \$10 cash and \$5 in Multi-Market stock.

**M**ulti-Market (Nasdaq Small Cap: RDIOA) reported a second-quarter net loss of \$166,000 (five cents per share), compared to net income of \$392,000 for the same stations a year earlier. Net revenues were \$1.9 million, up from \$1.3 million for the same stations a year ago. Multi-Market began operations on August 1, 1993.

Multi-Market owns five radio stations. In addition to its acquisition of the entire Southern Starr group, it is acquiring one other station.

**T**M Century Inc. (Nasdaq: TMCI) reported net income of \$27,000 (one cent per share) for its fiscal third quarter ended June 30, down from \$151,000 (six cents) a year ago.

Revenues were \$2.0 million, down from \$2.2 million.

"This decrease is due primarily to a decline in specialized computer equipment and software sales, in addition to a continued decline in compact disc music library and production library sales," said CEO **P. Craig Turner**. However, he predicted increased sales of a new radio automation system, the introduction of which was delayed by software enhancements.

TM Century sells CD music libraries, radio station jingles, music scheduling software, and other products for radio stations worldwide.

**C**hildren's Broadcasting Corp. (Nasdaq Small Cap: AAHS) reported a second-quarter net loss of \$805,000 (15 cents per share on 5.4 million shares), compared to a loss of \$980,000 (31 cents per share on 3.2 million shares) a year ago. Net revenues were \$946,000, up from \$185,000.

"We view the losses incurred to date as an investment in building the foundation of our children's radio system," said President/CEO **Chris Dahl**. "To date, the investment has been rewarded through strategic alliances with **Disney** and **Warner Music**, alliances which would have been very difficult to accomplish two years ago."

CBC owns seven radio stations and distributes the **Radio AAHS** network to affiliate stations nationwide.

**S**ony Corp. (NYSE: SNE) reported net income of 3.91 billion yen (approximately \$39 million at the current ex-

change rate) for its fiscal first quarter ended June 30, down 49% from 7.69 billion yen a year ago. Revenues were 864.52 billion yen (approximately \$8.66 billion), up 4% from 828.71 billion yen. Music group sales rose 12% to 108.15 billion yen.

Tokyo-based Sony is a major international electronics company. Its entertainment division includes music and movies. It is developing a U.S. radio network with **Time Warner**.

**G**aylord Entertainment Co. (NYSE: GET) entered second-quarter earnings of \$28.4 million (32 cents per share), up from \$13.4 million (25 cents) last year. Revenues rose to \$195.4 million from \$174.6 million. Broadcasting revenues increased to \$44.9 million, from \$42.7 million one year ago. Broadcasting cash flow was \$10.1 million, up from \$9 million.

Gaylord Entertainment owns three radio stations, four TV stations, **TNN**, **CMT**, theme parks, and the **Opryland Hotel**.

**W**estinghouse Electric Corp. (NYSE: WX) registered second-quarter earnings of \$75 million, down from \$84 million. After accounting for preferred stock, earnings fell to \$63 million (16 cents per share) from last year's \$72 million (20 cents). Revenues also decreased, from \$2.2 billion to \$2.1 billion. The company said broadcasting was one of its best-performing divisions.

Westinghouse, a major manufacturing company, owns 16 radio stations and five TV stations.

# We Build Franchises

With great broadcasters like...

Carl Hirsch

“To build a group of market franchises for the '90s and beyond, I need the next generation of strategic thinking. I use Stratford because their professionals and their branding discipline are simply the best.”

*Carl Hirsch*  
CEO, OmniAmerica Communications

Carl Hirsch relies on Stratford Research to help build his stations into branded franchises. That's because only Stratford provides the Fortune 500 research and brand marketing techniques that were previously reserved for the world's top consumer marketers. That's also why the NAB asked us to write *The Franchise*, the industry's definitive book on building radio brands.

Stratford's branding discipline represents a true source of competitive advantage for radio stations. That's why Carl Hirsch wants it in *his* arsenal. He looks to Stratford for strategic research, music testing, focus groups and brand marketing.

## Emmis Disputes Pellegrino Petition

**E**mmis Broadcasting Corp. (Nasdaq: EMMS) has told the FCC that *S.I.N.* magazine Publisher **Vince Pellegrino** has "advanced no credible reason" to deny Emmis's purchase of **WRKS-FM/New York**.

Emmis charged Pellegrino's petition to deny the sale (R&R 8/12) was "an obvious attempt to gain leverage against Emmis" in his civil suit. Pellegrino blames Emmis for scuttling his effort to develop weeknight dance programming on **WNWK-FM/Newark (New York)**, which would have competed with Emmis's Rhythmic CHR **WQHT-FM/New York**.

In its response, Emmis said Pellegrino "nowhere contends that Emmis has violated any provision of the Communications Act or of the Commission's rules." It said the deal to acquire the Urban outlet from **Summit Communications** clearly complies with the duopoly rule and should be "granted promptly."

Emmis said the dispute with Pellegrino should be left to the New York state courts to decide. Even so, it said in a footnote it would demonstrate in court "that its actions were entirely appropriate and that the only anticompetitive acts were those of [Pellegrino]." It did not explain what accusations it would make against Pellegrino.

## DAB Company Reduces IPO

**S**atellite CD Radio is going back to Wall Street with a public stock offering that has been scaled back from the original \$54 million to \$7 million-\$8 million.

SCDR's parent, **CD Radio Inc.** (to trade on the Nasdaq Small Cap exchange as CDRD), postponed its IPO in June (R&R 6/17) after lead underwriter **Seidler Amdec Securities** couldn't find enough buyers. The satellite DAB hopeful has switched to **First Marathon Securities** for a second try.

CD Radio is offering investors units of two shares of stock and a warrant to purchase another at an estimated offering price of \$10-\$10.50 per unit.

## RIAA: Music Piracy Declining

**T**he number of counterfeit cassettes seized in the first half of 1994 is 60% less than in the first half of 1993, according to a study by RIAA's anti-piracy unit.

"We've been extremely aggressive over the past few years in our pursuit of the major counterfeit cassette manufacturers and distributors, as well as going after the companies or individuals that supply them, and our strategies are paying off," said RIAA Exec. VP & Director/Anti-Piracy **Steve D'Onofrio**. "The factories simply aren't as big as they once were."

Earlier this year, RIAA, representing 26 of its member companies, sued 10 manufacturers and suppliers of raw materials allegedly used for making counterfeit cassettes.

Despite its successes, RIAA calculates that piracy still costs the U.S. recording industry more than \$1 million a day. "The music industry is preparing to enter the most crucial quarter of the year, and we intend to turn up the heat on the illegal marketplace," stated D'Onofrio.

To report suspected music piracy to the RIAA's anti-piracy unit, call its hotline at (800) BAD-BEAT.

## Vriesman Addresses Digital Era

**R**adio broadcasters must reinvent themselves for the coming digital era, NAB Joint Board Chairman **Wayne Vriesman** told an information superhighway seminar in suburban Chicago last week (8/19).

The **Tribune Broadcasting VP/Radio Group** said the digital broadcasting scheme emerging in radio and TV will be more mobile, inexpensive, and user-friendly than any approach offered by cable and telephone firms.

Vriesman also noted, "No media business can survive if it does not provide the public with original programming transmitted through its own distribution system."

## July Radio Revenues Pointing Up

Preliminary results indicate that radio is poised for another strong increase when July revenue figures are released next week. Of the 82 markets surveyed, 84% have shown gains in national spot sales and 74% have seen increased local revenues. Overall, 82% have seen total revenues rise.

Nearly half of the markets posted national gains in excess of 20%, but just 10 of the markets' local growth surpassed that figure. The third quarter of 1994 is bidding to become the fourth consecutive double-digit revenue quarter for radio — an event without precedent during the '80s or so far this decade.

## Environmental Group Seeks Return Of Fairness Doctrine

A California anti-smoking group that wants the Fairness Doctrine re-imposed has petitioned the FCC for an "emergency declaratory ruling" that broadcasters comply immediately.

The petitioners argue that "unless the Commission takes prompt action to provide the requested ruling, broadcast coverage of election-related issues during the fall election season will be more limited and, in many cases, there will be significant imbalances in presentation of particular viewpoints in broadcasters' overall coverage of such issues."

The petitioners are the Coalition for a Healthy California (whose sponsors include the American Cancer Society, American Heart Association, and American Lung Association), Consumer Action of California (a San Francisco-based consumer education and advocacy organization), and individuals described as "regular broadcast viewers and listeners." The petition was filed by Media Access Project.

The group characterized broadcasters' decision whether or not to sell time for non-federal elections as a "dollars and cents" determination, citing "Maximizing Political Advertising Dollars," an article by Maxgrid International COO Shane Fox that appeared in the July 29 issue of R&R.

### Tobacco Row

The anti-smoking groups are seeking more airtime for opponents of Proposition 188, the California Uniform Tobacco Act, which would strike down local smoking bans and weaken recently adopted statewide restrictions on smoking. According to the petition, tobacco giant Philip Morris USA has already spent about \$491,000 in an attempt to pass the proposition.

Several media groups that oppose the Fairness Doctrine — including RTNDA, NAB, the Media Institute, and the Reporters Committee for Freedom of the Press — have fought back by filing responses with the FCC.

Moving into wide release this week is "Corrina, Corrina," starring Whoopi Goldberg and Ray Liotta. The film's RCA soundtrack showcases vintage tunes by Duke Ellington, Billie Holiday, Dinah Washington, and others as well as new recordings by Oleta Adams/Brenda Russell and ex-Go West member Peter Cox with Niki Harris. Big Joe Turner and Ted Hawkins each perform renditions of the title tune.

## 'ZINE SCENE

### Scary Oxymorons At Monster KROQ!

The leading lights at KROQ/L.A. sound off on their success in Los Angeles magazine's feature on the station. GM Trip Reeb notes KROQ uses elements of college radio in its "planned spontaneity" — "an oxymoron for sure. A scary notion, but because of the competitive environment we're in, it's what we do." Production Dir. John Frost adds, "We think of the station as a living, breathing entity — a monster we all just kind of feed."

#### Radio Daze

People devotes a page to Mike Kasem, the 21-year-old host of Westwood One's "Inside Track," a new monthly "audio magazine" sold in record stores. "Sometimes I don't enunciate correctly, and my dad will give me pointers. But how can you say, 'Get off my back!' to Casey Kasem when it comes to voice work?"

People's "Insider" column claims Howard Stern settled with a woman who'd brought an \$11 million defamation of character suit after he set her up on a date with Eric Douglas (one of Kirk's sons) and later discussed with Douglas on-air whether they had slept together. Douglas says he did nothing wrong and won't settle.

WQBK/Albany APD Jo Anne Calcagno wrote in to Rolling Stone to express her listeners' anger about the Eagles' concert ticket prices: "So far, 2000 faxes and signatures are waiting for them."

#### Frankly Female

For Women First cover star Kathy Mattea talks about growing older ("I want to savor the aging process"), her future ("Maybe I'm supposed to make folk records or get off the road and have babies"), and her feet: "They're too big, and when I stand sideways I look like a capital 'L' if I'm not careful!"

Ebony cover star Anita Baker says if she designed her own live shows, "There would be two spotlights, the rhythm section, and me in a cotton shirt and some jeans. And we'd just whip it!"

#### Nine Inch Tales

Rolling Stone cover goth Trent Reznor admits, "Essentially, Nine Inch Nails are theater. What we do is closer to Alice Cooper than Pearl Jam." He says he gave up a promising career as a classical pianist because "I'd just discovered Kiss... [and] I knew I wasn't going to get laid studying piano with a nun."

"All you can do with a guy like Trent is to believe in him and let him go," observes Interscope co-chief Jimmy Iovine. "No matter how odd what he's doing may look to us now, it will all seem exactly right in a year or so."

### Elvis Okd The Wedding!

Calling itself the "most reliable source" on the Presley-Jackson marriage, the National Enquirer swears Michael said he didn't feel right marrying Lisa Marie without Elvis's permission. So he hired a psychic and got it! The tabloid also says he persuaded her to have plastic surgery on her chest and thighs — to help him make her a star.

Time reports the judge who married them says the union may not be valid because her previous divorce wasn't printed in Dominican newspapers, as required by law. And the oft-wedded Liz Taylor gave Lisa Marie tips on how to make the marriage work (Globe).

### Complete Control

David Foster

Producer David Foster — spotlighted in Time because he's working on Jackson's new album — admits "I'm a control freak." He sometimes cuts demos on which he plays every-

thing, lays on a session singer's vocal, then presents the tape to the artist he wants to work with and says, "This is what your song could sound like." Hence Whitney Houston's "I Will Always Love You."

"I see my music as a stimulation to make love," says Julio Iglesias. "When I see a couple in the audience married for 20 years and I know they are going back home to make love, I feel great. I put a match to something and cause them to go home and make love like crazy" (People).

### Perfectly Tony

"I loved Tony Bennett. I couldn't bear the thought of this guy leaving [the label] — I mean, he's classy, he's great, he's brilliant," says Columbia's Don Ienner in the New York magazine story on Bennett's comeback. "So I said to him, 'Tony, don't go. Come back to me with an album idea. Make it a concept I can do something with. I need a concept, something I can sell.'" (Bennett came back with "Perfectly Frank," a Sinatra tribute.)

MTV's Rick Krim adds, "People were really into him [on the '93 Video Music awards]. So when he came to us with a video for his new album, we figured, 'Why not?' We put it right on in the MTV Buzz Bin, which is usually where we put all our alternative stuff. And Tony fit in great. We left it on for a week." He explains, "The MTV audience is as fickle as it gets."

Ad Amortization

reduction plan advanced by Sens. David Boren (D-OK) and Bob Kerrey (D-NE), along with 17 other senators, part of a group dubbed the "Mainstream Coalition."

Just how much the tax change could reduce broadcast revenues isn't known, but NAB is calling on its members to let Congress know that broadcasters don't like the proposal. NAB President/CEO Eddie Fritts fired off a letter to key senators spelling out the group's opposition.

Fritts said NAB cannot remain neutral on the question of health care proposals if it is funded "on the backs of radio and television broadcasters and the advertising industry. Businesses' share of health care costs should not depend on the percentage of their expenses or revenues which are allocated to advertising," he pointed out.

FCC

Continued from Page 1

The FCC was shut out of the lease negotiations between the GSA (the government agency charged with managing government property) and the developers, known as the Parcel 49C Limited Partnership.

"The GSA wouldn't permit us to participate," said FCC spokeswoman Maureen Peratino. FCC employees learned of the move in an internal memo distributed August 19 by its Office of Managing Director. An internal task force is working on organizing the move.

The GSA's action followed an August 1 ruling by a federal Circuit Court of Appeals stating that the FCC's three-year "campaign to scuttle" its relocation was illegal.

By complying with the ruling and signing the lease, the GSA was simply "exercising our authority to assign space to government agencies," explained spokesman Hap Connors. He noted that although the FCC was not fully involved in the lease agreement, GSA lawyers kept in touch with the Commission's lawyers on the decision. He said his agency now hopes to work with the two parties to "turn around an adversarial relationship."

Coalition Roll Call

Here are the 19 senators who make up the Mainstream Coalition — and how you can reach them (all phone numbers are area code 202):

- Sen. Jeff Bingaman (D-NM) 224-5521
- Sen. Chris Bond (R-MO) 224-5721
- Sen. David Boren (D-OK) 224-4721
- Sen. Bill Bradley (D-NJ) 224-3224
- Sen. John Breaux (D-LA) 224-4623
- Sen. John Chafee (R-RI) 224-2921
- Sen. William Cohen (R-ME) 224-2523
- Sen. Kent Conrad (D-ND) 224-2043
- Sen. John Danforth (R-MO) 224-6154
- Sen. Peter Domenici (R-NM) 224-6621

- Sen. Dave Durenberger (R-MN) 224-3244
- Sen. Dianne Feinstein (D-CA) 224-3841
- Sen. James Jeffords (R-VT) 224-5141
- Sen. Nancy Landon Kassebaum (R-KS) 224-4774
- Sen. Bob Kerrey (D-NE) 224-6551
- Sen. John Kerry (D-MA) 224-2742
- Sen. Herb Kohl (D-WI) 224-5653
- Sen. Joseph Lieberman (D-CT) 224-4041
- Sen. Richard Shelby (D-AL) 224-5744

Connors said the only alternative to signing the lease was to take the case to the Supreme Court, an option opposed by both the Justice Department and the GSA.

'Dangerous Precedent' Averted

The lease must now meet with congressional approval. Rep. Eleanor Holmes Norton (D-DC), Vice Chair of the Public Works Subcommittee on Public Buildings and Grounds, which oversees such decisions, signaled her approval in a statement released after the Appeals Court made its decision. The court "has averted what could have been a dangerous legal precedent — allowing federal agencies to arbitrarily and illegally cancel procurement contracts," she said.

One perceived drawback of the Portals location is the absence of many of the communications law firms and other communications-related associations and businesses that now dot the area surrounding the FCC's current address. But Steve Grigg, President of Republic Properties, which is overseeing the complex's development, said he is close to securing lease agreements from Fortune 200 communications firms, although he declined to name them.

Gannett

Continued from Page 1

strong aspect of Gannett Radio's culture is our consideration of personal and family matters. We're pleased to be in a position to allow Marc the opportunity to return to his Tampa home.

"During his previous [Tampa] tenure, Marc did a great job in guiding WUSA to a dominant position. I'm sure his market knowledge will once again benefit the station."

Regarding Laughlin, DeFrancesco continued, "This promotion represents our vote of confidence in his wide-ranging talents. His vision, enthusiasm, and determination to win will assure KIIS's continued success and future growth."

Prior to his first stint at WDAE & WUSA, Kaye was GSM, then Station Manager at KKBQ/Houston. Before joining KIIS in 1992, Laughlin was GSM at KKBQ and LSM for KTRH/Houston.

dramatic new phase in the company's history.

"Curb's share of the market is almost 2%, and our plan is to double that — we're building a second label to do just that. The WEA distribution network is second to none — working with WEA is icing on the cake."

Curb's return to WEA for distribution (WEA distributed Curb in the '70s) brings to an end the label's five-year distribution/joint venture agreement with CEMA.

Schreiber Set

Commenting on Schreiber's move to Curb AG, Curb told R&R, "Carson is an outstanding promotion and artist development person. He was a major factor in the success of the Judds. He's the perfect person to build the new Curb AG label."

Schreiber, who will be based at Curb's Burbank, CA offices and will initially handle Curb AG's day-to-day operations, told R&R, "My 18 years at RCA are filled with fabulous memories. Everyone was so great to me over the years that it was like leaving home. I'm thrilled to be associated and working with Mike Curb. I'm looking forward to my new responsibilities and I'm excited about the challenge to excel at Curb AG."

Schreiber joined RCA/Nashville in 1976 as Manager/West Coast Regional Promotion and was promoted to Director/Regional Promotion 14 months ago. He worked on the air at KBBQ/Burbank from 1965-71 and was MD at KLAC/Los Angeles from '71-76.

Chesnut commented, "Darcy brings a unique style and level of music expertise that will add to VH-1's continued development."

Schoenfeld, who joined MTV Networks nine years ago and has been with VH-1 since 1988, will focus on the channel's long- and short-form music programs, including "Francis Ford Coppola Presents VH-1 Music Cinema" and the upcoming music documentary series "Naked Cafe."

"Norm has forged new inroads for the network," said VP/Production & Original Programming Jack Sussman, "and this new position will further allow him to explore that creative link."

STREET TALK

Limbaugh Asks Listeners To Boycott ABC-TV

**R**ush Limbaugh is steaming over a parody of himself on the ABC-TV summer replacement series "SHE TV." The takeoff character admitted he hates black people in one of the program's skits, which impelled the real Limbaugh to protest straight up the ladder to Cap Cities/ABC Chairman Thomas Murphy — but to no avail.

The TV show's producer — George Schlatter (of "Laugh-In" fame) — used "Rush" again in a skit Tuesday night (8/23), in which the character railed against the use of females as prosecuting attorneys. Schlatter promises to make the Limbaugh parody an ongoing element of the show. In turn, the offended Limbaugh is asking his radio listeners to start boycotting ABC-TV programs.

Meanwhile, the hyperactive gumslinger has put USA Talk Network in legal limbo by countersuing in a Denver federal court to block USA's proposed liberal talk show, hosted by Aaron Haber, from using the name "After The Rush." USA previously sued in a preemptive move to claim the right to use the name.

Garth's Management Team Dissolves

After seven years of co-managing Garth Brooks, partners Bob Doyle and Pam Lewis will dissolve their partnership at the end of the year. Brooks reportedly will make a management decision when he returns from his international tour. Doyle/Lewis Management's other clients — Great Plains, Hank Flamingo, and Buddy Mondlock — have not yet made any management arrangements.

Dave Darus exits his nat'l promo post at Interscope. He won't be replaced, but look for the label's Lynn McDonnell and Rob Tarantino to assume more responsibilities.

Taddeo Still An L.A. Star

Setting the record straight, Viacom Hot AC KYSR/L.A.'s consultant has been and — by virtue of a newly-signed extension — will continue to be Jack Taddeo. He is the station's exclusive consultant.

WJR-AM & WHY-FM/Detroit will remain part of the Motown skyline. The stations had been contemplating a move to suburban

Southfield (next to their co-owned Cap Cities/ABC TV facility), but pleas by civic leaders convinced the Full-Service/CHR combo's management to remain in the Motor City's historic Fisher building.

ST hears Westwood One will launch what it claims is the first '70s-based national radio format. Details expected soon.

Fast-growing Spanish group owner Heftel Broadcasting has closed its merger acquisition of Rodriguez Broadcasting, which owns KICI-AM & KESS-AM/Dallas-Fort Worth. Meanwhile, Heftel and Rodriguez have a deal pending to buy KICI-FM and an option to buy KMRT-AM, both also in the Dallas-Fort Worth market.

Liberty Broadcasting closed its \$13.5 million buy of WGNA-AM & FM/Albany, NY from Barnstable Broadcasting. William Steding of Star Media Group brokered.

Two OKC stations — Cat Communications' KATT-FM and Desert Communications III's KYIS-FM — have entered into an LMA with intent to merge the outlets into a new company.

WLEV/Allentown midday personality Joe McClain is out after a "No Repeat Workday" snafu. The 14-year station vet reportedly played the same song twice in a no-repeat segment. A flood of listeners hoping to win a \$1000 cash prize for noticing the lapse called in to claim it.

PD Tony Rogers would only confirm that McClain is no longer with the station.

State Of The Reunions

Top 40 KDWB/Minneapolis signed on 35 years ago as "Channel 63," eventually moving to FM at 101.3. To celebrate, KDWB is hosting a reunion weekend September 30-October 2, inviting all KDWB alumni, industry media, and radio junkies to attend. Anyone with old KDWB airchecks, memorabilia, and info on the whereabouts of former staffers should contact PD Mark Bolke at (612) 340-9000.

KADA/Ada, OK will be celebrating its 60th anniversary with a reunion bash on October 1. Among the invited alumni: ABC Radio's Paul Harvey. Other former station staffers can contact VP/GM Roger Harris for details.

With his litigation against KROQ/L.A. still pending, exiled "Loveline" co-host Jim "Poorman" Trenton has found an alternate means of dispensing love advice. He'll debut "The Love Channel," a live love-talk show airing nightly beginning Monday

Music meetings — especially in the product-saturated Alternative format — can be lively affairs. KUKQ/Phoenix hopes they'll be lively enough to make good radio: Beginning next Monday (8/29), the station will broadcast its weekly music meeting — under the *nom de aire* "Monday Morning Music Meeting" — live from 10am-noon.

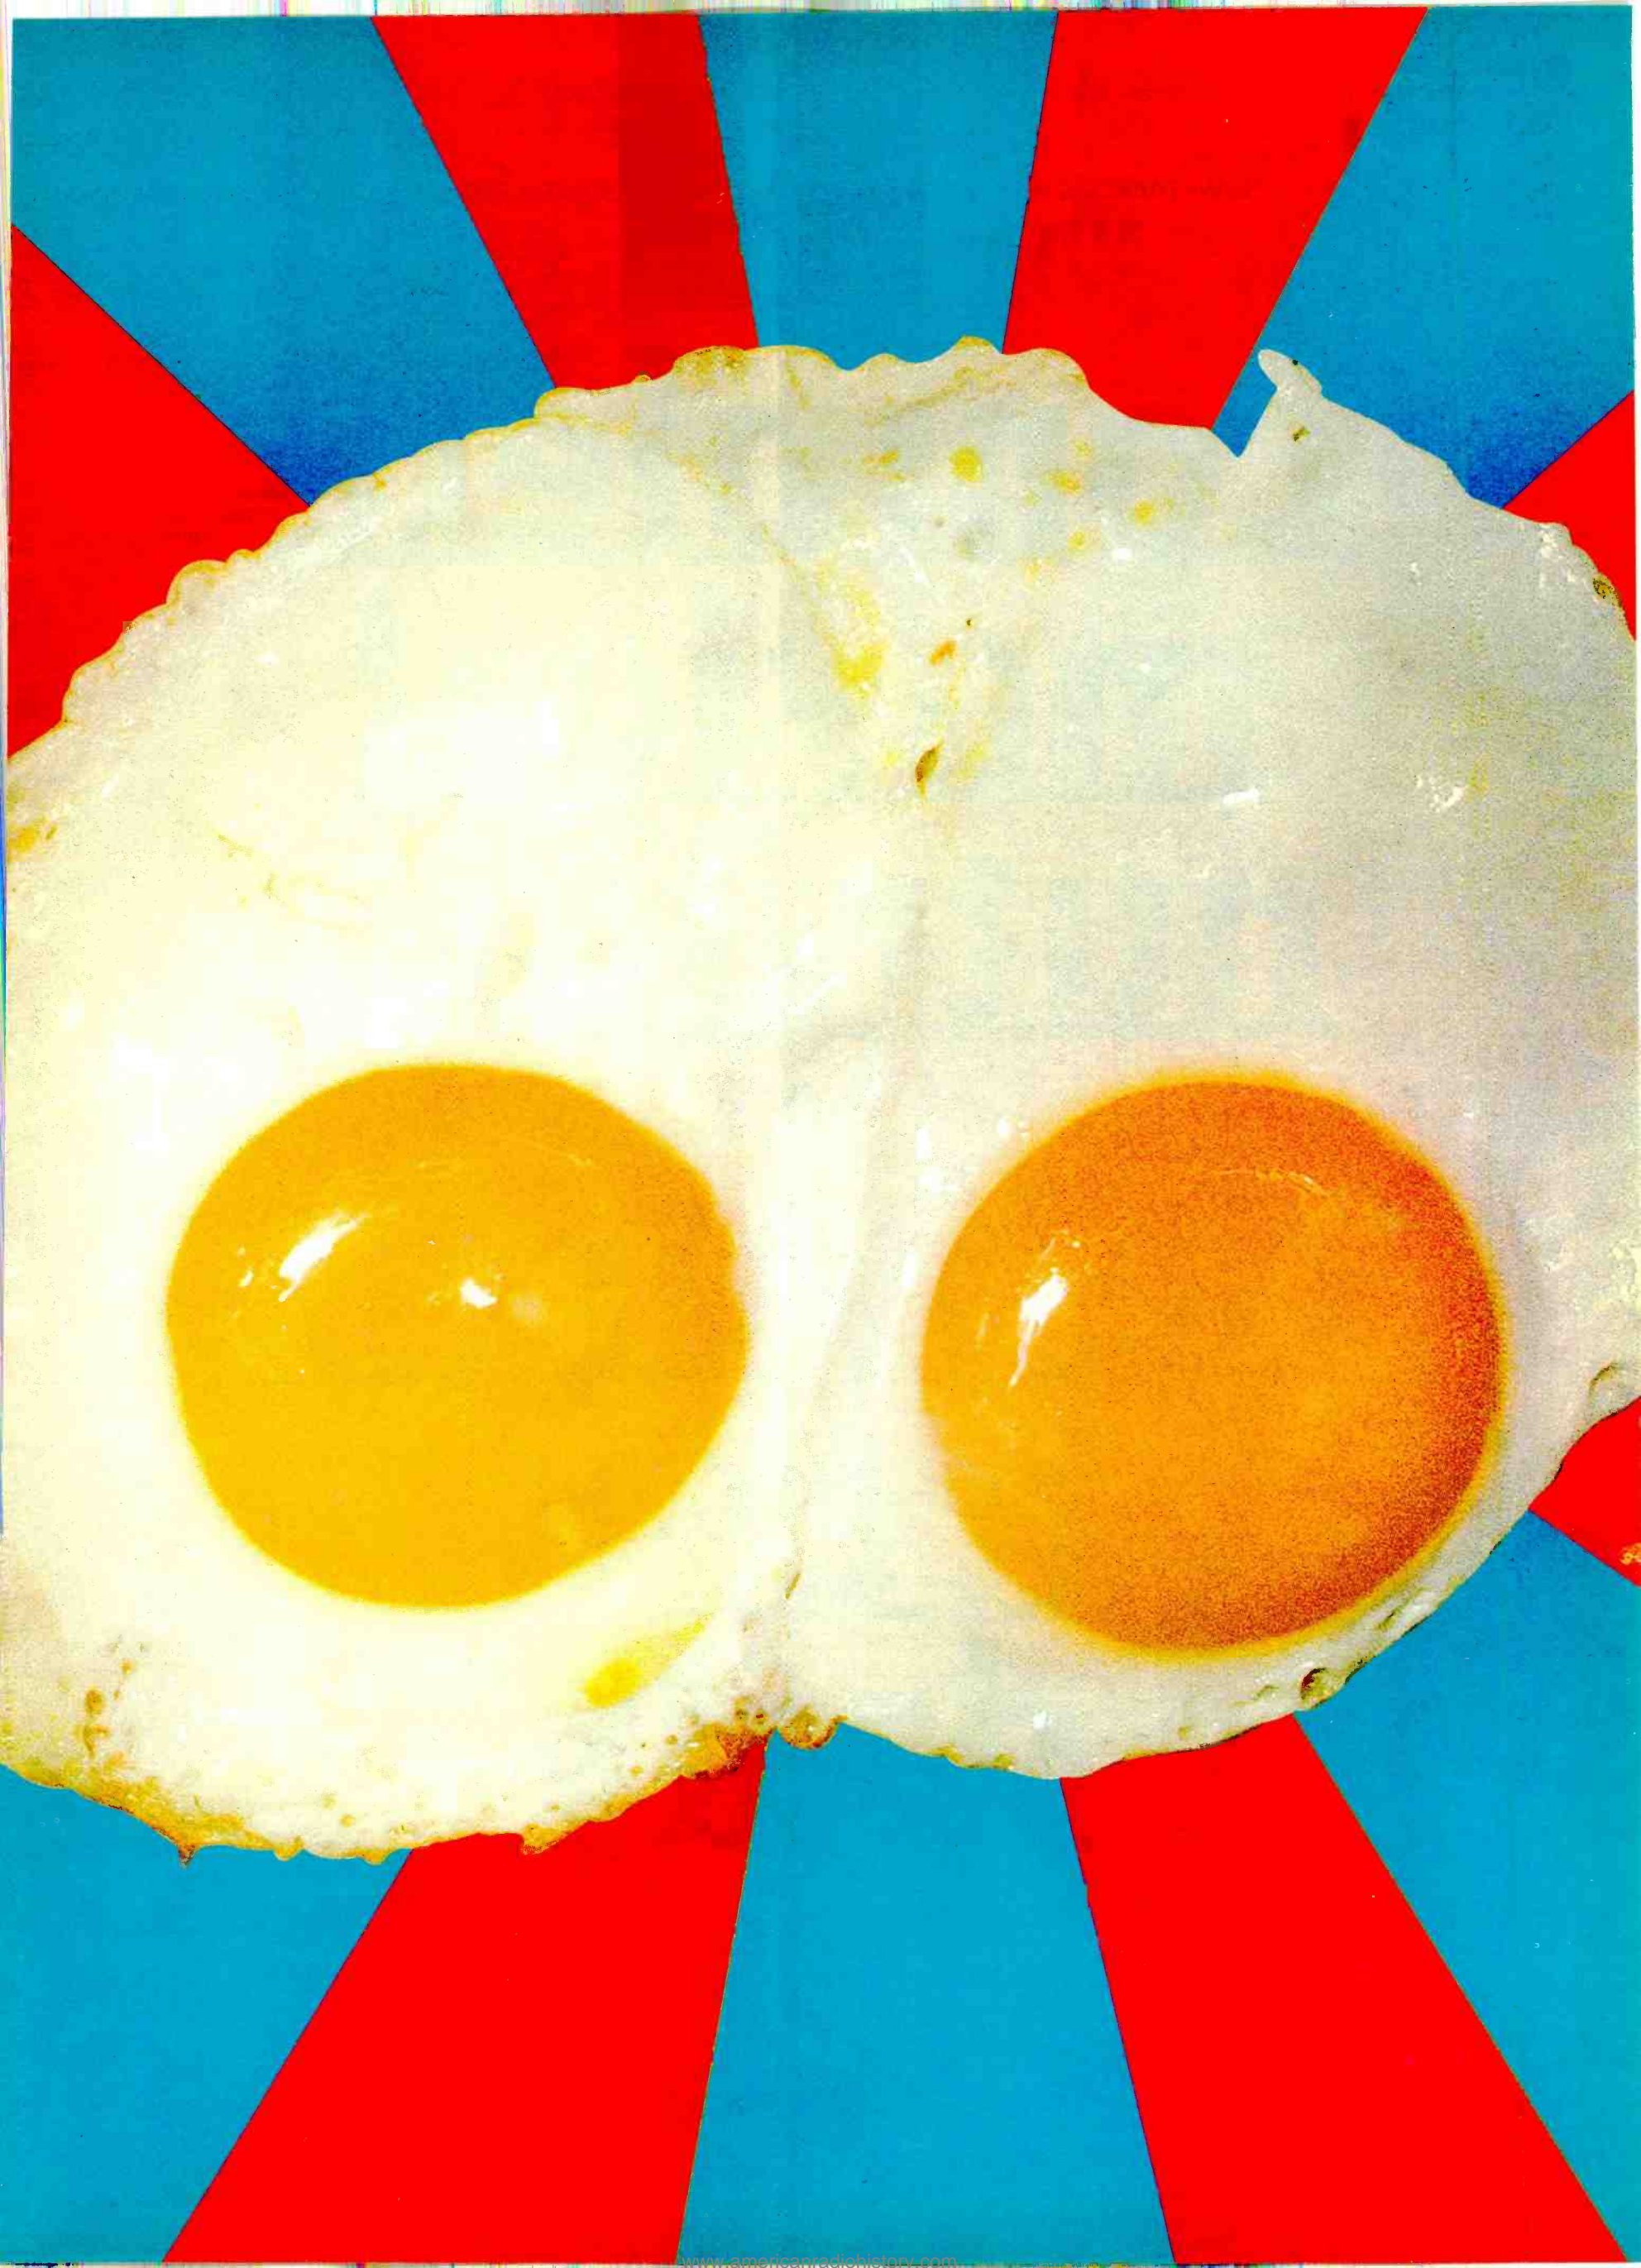

Each week, PD Jonathan L. Rosen, MD Larry Mac, and AMD Alisson Strong (formerly middays at crosstown Alternative KEDJ [The Edge]) will interact with listener phone calls and a designated record exec. Chaos Dir./Alternative Promo Geordie Gillespie will be the first to pit his persuasive powers against the KUKQ trio.

"When I came back to radio, I was asked to do something that was challenging and different," Rosen told ST. "I've been trying to come up with new ideas as I recycle what Alternative radio is all about. This is something I've always wanted to do."

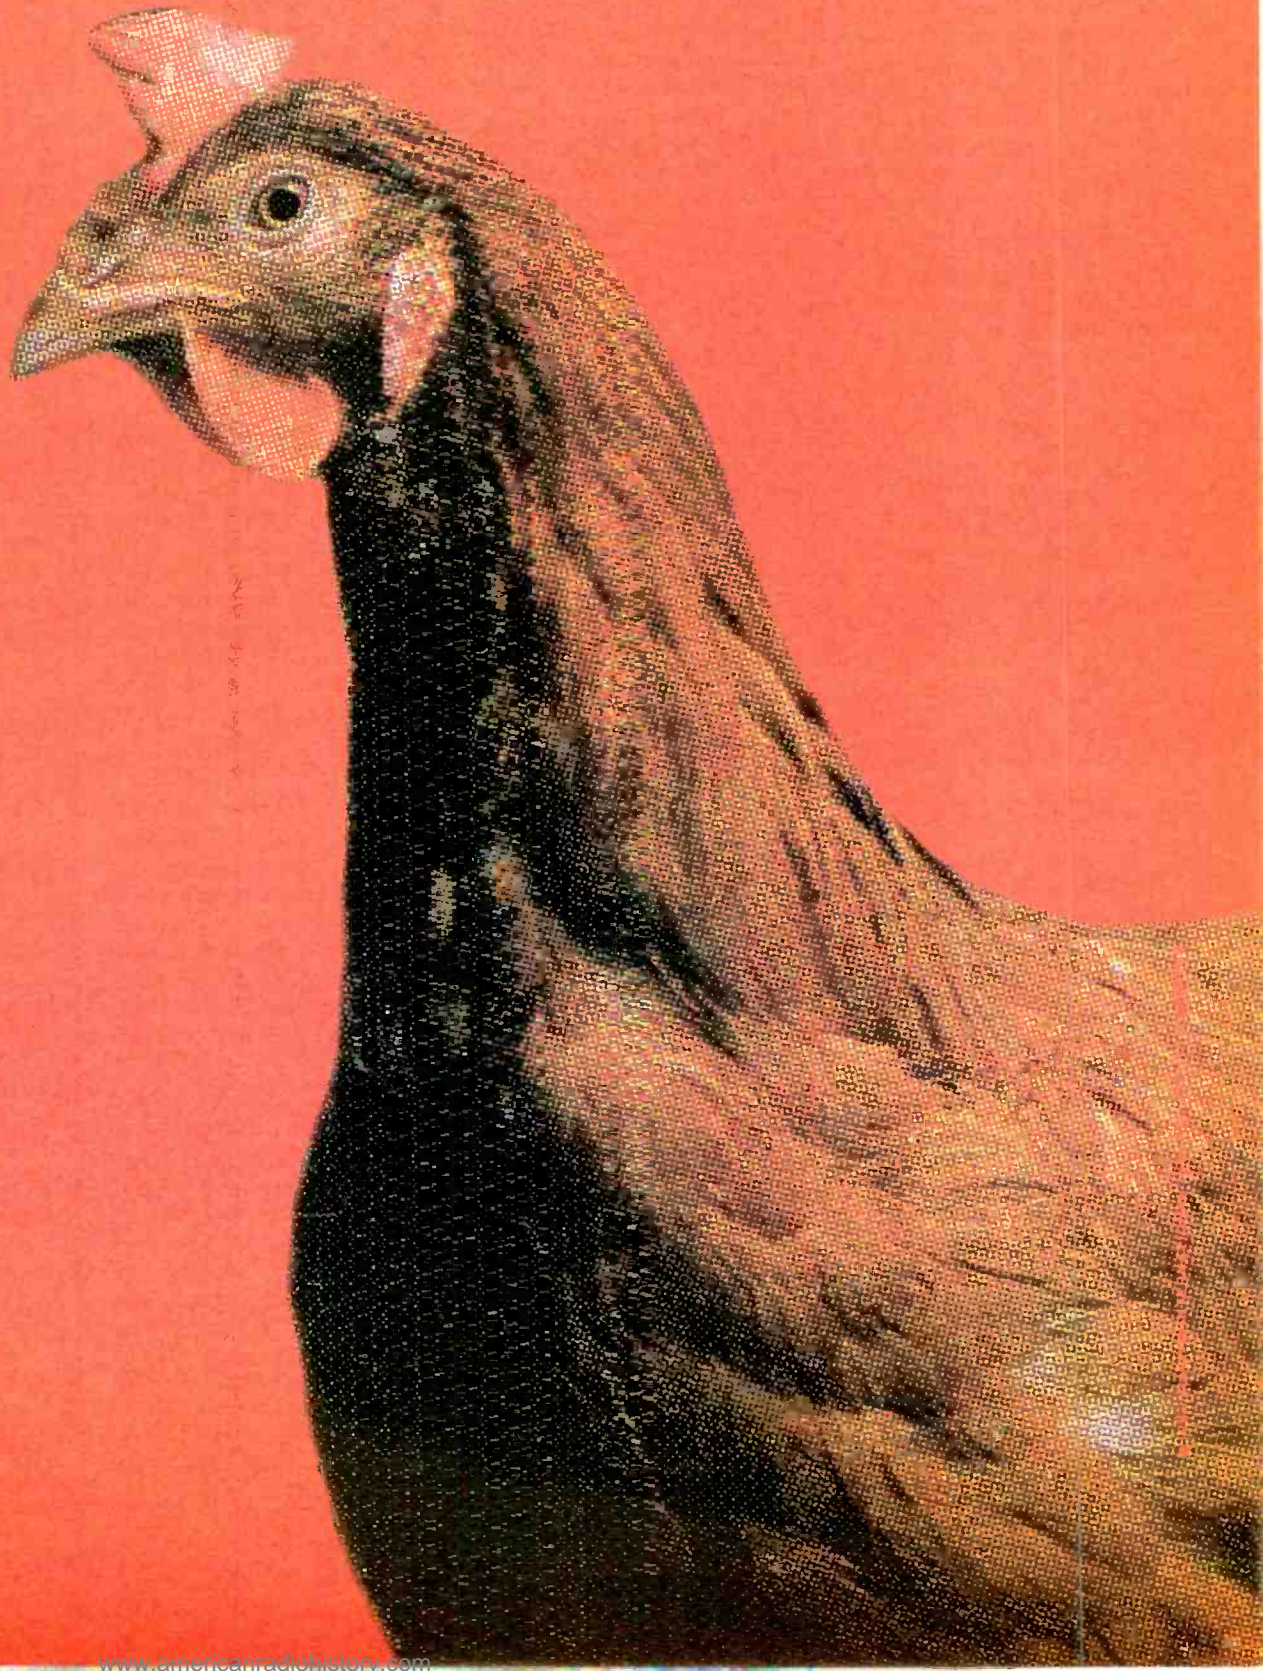

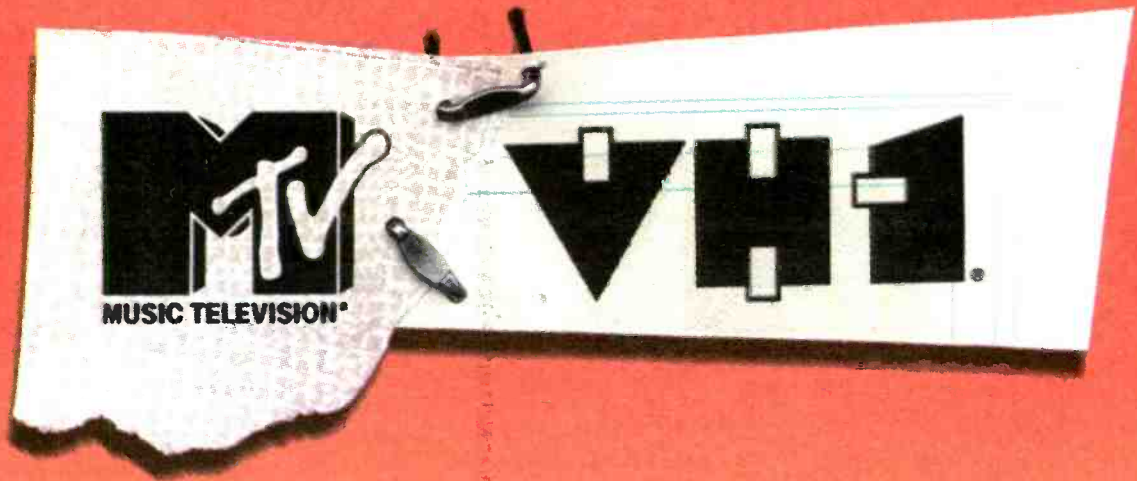

## Records

• Liberty Dir./West Coast Reg. Sales Bill Kennedy steps up to Dir./Nat'l Sales for the label. He's relocated to Nashville.

## R.E.M. Ready To Unleash A 'Monster'

On the heels of their two biggest albums, R.E.M. offer up "Monster," an album said to differ markedly in sound from their previous efforts. The band recorded the set in L.A., Atlanta, Miami, and New Orleans with their longtime producer, **Scott Litt**.

"What's The Frequency, Kenneth?" arrives at Rock and Alternative via special service Wednesday, September 7. (In the '80s, deranged New Yorkers took to accosting CBS-TV newsmen **Dan Rather** with that question, which remains unexplained.) Other titles include "Star 69," "Crush With Eyeliner," "Bang And Blame," and "Tongue."

Harmonies come courtesy of several guests, including **Sonic Youth's Thurston Moore**, **Lynda Stipe** (singer **Michael's** sister), and **Rain Phoenix**. The Warner Bros. LP — expected in stores September 27 — is dedicated to her late brother, **River**.

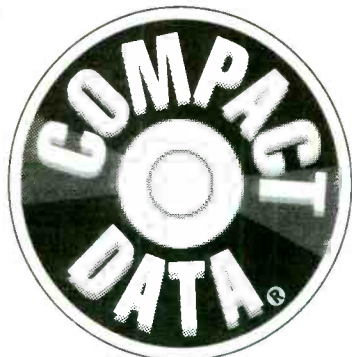

### Cranberry Zombies

On their sophomore set, "No Need To Argue," the **Cranberries** deliver a rougher sound than on their debut. Like that record, this **Island** set was produced by **Stephen Street** (**Morrissey**, the **Smiths**). "Zombie" — a tune about Northern Ireland — goes to Alternative in mid-September. The full LP arrives October 4.

### Baker Back

**Anita Baker** returns after a three-year maternity leave with "Rhythm Of Love," her fifth album — and first without producer **Michael Powell**. Producers this time include **Tommy LiPuma**, **Arif Mardin**, **George Duke**, and **Baker**, who helmed the title track and wrote/co-wrote five tunes.

She also interprets **Hal David & Burt Bacharach's** "The Look Of

Love," **Carly Simon & Michael McDonald's** "You Belong To Me," and **Rodgers & Hart's** "My Funny Valentine." "Body & Soul" is at UC radio; the LP goes on sale September 13.

### Virgin Ferry

**Bryan Ferry** makes his **Virgin** debut stateside with "Mamouna." **Ferry** produced with **Robin Trower**, but the album marks something of a **Roxy Music** reunion: **Brian Eno** co-wrote "Wildcat Days" and plays keyboards throughout. **Roxy** guitarist **Phil Manzanera** and saxman **Andy MacKay** are also heard, as are **Nile Rodgers**, **Maceo Parker**, **Steve Ferrone**, and many others.

The title track ships September 2 to Alternative, Progressive, and NAC. The set hits the streets September 20.

### Carpenters: The Next Generation

The tribute albums keep on coming. On September 13, **A&M** will release "If I Were A Carpenter," an alternative-leaning collection of re-

makes overseen by producer **Matt Wallace** (**Faith No More**) and rock scribe **Dave Konjayan**. The release of this set coincides with the 25th anniversary of the **Carpenters'** signing to **A&M**.

Among the 14 tracks are the **Cranberries'** "Close To You," **Cracker's** "Rainy Days And Mondays," **Sheryl Crow's** "Solitaire," **4 Non Blondes'** "Bless The Beasts And The Children," and **Sonic Youth's** "Superstar," which is at Alternative now. It's backed with **Bettie Serveert's** "For All We Know," **Richard Carpenter** himself contributed to **Matthew Sweet's** take on "Let Me Be The One," which is at AC and Progressive now. Look for the box set of seven seven-inch 45s (!).

### Crows' Sordid Past

Before **Counting Crows** hit the nation's airwaves, two of their members were involved with the San Francisco band **Sordid Humor**. That band cut several tracks from 1990-92 that never saw the light of day — until now. **Capricorn** is releasing "Light Music For Dying People," which features **Crows** singer **Adam Duritz** on backing vocals behind frontman **Tom Barnes** (now of **Laundry**). **Crows** axeman **Dave Bryson** produced seven of the tracks.

"Barbarossa" (co-written by **Duritz**) shipped to Rock, Alternative, and Progressive this week. The full set arrives September 20.

### Mountain Stage 7

As long as we're counting **Crows** cash-ins, "The Best Of Mountain Stage Live, Volume 7" features a live version of "Mr. Jones" originally performed on **PRI's** syndicated "Mountain Stage" radio show. The disc, which shipped in sampler form to radio this week, also features such acts as **Cowboy Junkies**, the **Violent Femmes**, **Hot Tuna**, the **Judybats**, **Ben Harper**, and **Morphine**. Nashville-based indie label **Blue Plate Music** will have the set in stores September 20.

### Sounds Like Dinosaur Jr

"Without A Sound" is **Dinosaur Jr's** third **Sire/Reprise** release. Band mastermind **J Mascis** produced and sang, as usual, and drummed and played keys this time as well. **John Agnello** engineered and mixed, as he did the last time. Come singer **Thalia Zedek** sings on three tunes. "Feel The Pain" is at radio. The set arrives in stores next week.

### Major Bad Religion

"Stranger Than Fiction" is the first album Southern California punk survivors **Bad Religion** have created for **Atlantic/AG** (last year's "Recipe For Hate" was originally released on **BR** guitarist **Brett Gurewitz's** indie label, **Epitaph**, in June '93 and was picked up by **Atlantic** that August. **Epitaph's** roster currently boasts the **Offspring**.)

**Andy Wallace** (**Nirvana**, **Sonic Youth**) produced "Fiction," the band's eighth LP. The title track is at radio, but **KROQ/L.A.** is playing "Infected." The LP arrives September 6.

## 'Lost' '70s Sounds Captured In Print

Despite all the swings and Arrows of outrageous fortune that have catapulted '70s rock and "old school" funk and disco into the nostalgia hot seat, one genre from the complex tapestry that is the '70s still languishes without radio airplay or critical respect — the pure pop and bubblegum of artists such as the **DeFranco Family**, **Helen Reddy**, and **Shaun Cassidy**.

Veteran Boston air personality **Barry Scott** has carved a career from fighting this tide of oblivion, hosting shows on several stations dedicated to preserving and reviving "My Girl Bill," "Alone Again (Naturally)," "Billy, Don't Be A Hero," and songs in a similar vein.

Now he's taken his crusade to the printed page with "We Had Joy, We Had Fun" (**Faber & Faber**/ \$14.95). (The 237-page paperback's title is, of course, taken from a line in **Terry Jacks's** sprightly ode to

early death, "Seasons In The Sun.")

**Scott** interviews and profiles 21 largely forgotten hit artists, and the delights of discovering where they are now and the odd trivial nugget (did **Link Wray** really lend his "Rumble"-style guitar to the aforementioned **Jacks** hit?) far outweigh the occasional minor error and prosaic approach. Artist discographies and a Top 100 "Lost 45s of the '70s" list supplement this exhaustive nostalgiafest. Smile. Have a nice day.

## KWNZ Upgrade Earns High Marks

■ New female 18-34 focus pays off for Reno outlet, which vaults 6.1-8.1 12+

It seems most of 1994's winning CHRs recently underwent some sort of music and presentation facelift. PTI Broadcasting Pop CHR KWNZ/Reno is no exception.

Chuck Geiger

The changes made by PD Chuck Geiger since arriving in February were enough for a positive effect on the 12+ Spring '94 Arbitron (6.1-8.1), translating to third place in females and adults 18-34, fourth in females 24-54, and top honors — again — in teens. Among his adjustments:

- Moving currents from left-center to right-center for the female 18-34 target
- Scaling back and refocused gold to relevant titles that profiled in appeal with currents
- Tightening music rotations overall
- Changing production voice; adding new jingles
- Implementing a unique outdoor media campaign
- Revamping the morning show.

### Winds Of Change

"Changes were made because the library and systems hadn't been updated and refocused to present-day tastes," Geiger explains. "You can't

### Success Secrets

Here are the five philosophies that drive KWNZ/Reno's success, according to PD Chuck Geiger:

1. President/GM Roy Robinson's commitment to the format and dedication/passion for the business
2. An airstaff "hungry" for a turnaround in ratings and revenue
3. Receiver-versus transmitter-oriented radio that pays attention to preference listener's likes/dislikes
4. Teamwork among airstaff/programming/sales to brainstorm clever promotions that benefit listeners/clients that coincide with station's mission/vision
5. The mission statement: *fulfilling the market's desire for fun, exciting radio instead of the bland, boring radio they were getting.*

expect the library titles that appealed to 18-34s five years ago to have the same appeal to this group of 18-34s.

"We also tightened the rotations to provide more familiarity. The station operated under the impression that TSL would grow if the rotations were long and nonrepetitive. I've begun playing hit songs in higher rotation just a bit longer than in the past to keep that familiarity up."

Geiger discovered another problem: Music was slotted each quarter-hour following a prescribed pattern. "It was a formula — like pop, black, rock — with a few open breaks and a lot of sweepers and cold segues into new music titles. I changed jock content to a more open clock [see "Content Clock"], and the music flow became more dependent on how songs sounded following each other."

### Kinder, Gentler Station

KWNZ found it would benefit from a friendlier listener presentation. "We replaced the growly voiced 'attitude' sweepers with J.J. McKay, who's warmer and friendlier. We also added KIIS/Los Angeles's 'We play the hits' package from TM Century and began turning our listeners' words into sweepers and positioners. In research, we found listeners were telling us 'the new 97.3 is playing more hit music more often' — a good example of one of our key positioners."

Geiger credits KIIS, KHKS/Dallas, and KKFR/Phoenix with these

winning ideas. "I stole 'The new 97.3 KWNZ, we play the hits' right from 'KFR PD Rick Stacy.'" But one outdoor marketing idea came from a local advertising exec who suggested KWNZ *not* use its call letters.

"The product needed changing before marketing, but we needed to get the word out for the spring book. We opted for outdoor instead of TV. R.G. Horn Advertising's research suggested we use the slogan 'Extremely new radio 97.3, punch us up now' and not mention the calls. Horn said this would direct people to the dial position and derail preconceived notions about being just a teen station. If they liked the product and were surprised it was KWNZ, the calls would have renewed value. Don't get me wrong — we want teens to listen. But females 18-34 are our main target."

Two key airshifts needed fine-tuning as well. "In the market for six years, morning man Bill Cody was talented. But he was doing a junior Howard Stern on a female 18-34 station and was replaced in May by Brian Lee. We recently moved late-nighter Jana Wyld to

## 'WNZ Rotation Information

At KWNZ/Reno, "We play the hits." Here's how PD Chuck Geiger lives up to that positioner:

### Currents

- As: 7 titles; 3 per hour, 2½-hour rotation; middays 2 per hour, 3½-hour rotation  
Bs: 11-13 titles; 3 per hour, 4½-5-hour rotation  
Cs: 5-6 titles; 1 per hour, 5½-hour rotation  
Ns: 5 night titles; 6pm-midnight 2 per hour, 3½-hour rotation; midnight-5am 1 per hour, 5½-hour rotation

### Recurrents

- Hs: 11 power recurrent titles; 2 per hour, 5½-hour rotation  
Rs: 22 recurrent titles; 2 per hour, 10½-hour rotation

### Gold

- Ps: 40 power gold titles; 2 per hour midnight-6pm; one per hour 6pm-midnight, rotate every 24 hours  
Gs: 72 medium gold titles; 1 per hour midnight-6pm, rotate every 3 days  
Ls: 96 spice titles; 1 per hour midnight-6pm, rotate every 4 days

**You can't expect the library titles that appealed to 18-34s five years ago to have the same appeal to this group of 18-34s.**

mornings as News Director/sidekick, joining Brian and Kidd 'Danger Boy' Cooper. We replaced [MD] Michael Gamby at night with APD/MD Fast Eddie Valen-

tine, who's been compared to KIIS's Domino."

### 'Street Cash' Pays

KWNZ instituted the tried and true "Street Cash" promotion. "It was amazing — all we had to do was tell people to keep the new 97.3 KWNZ on their radios [to win] \$100, and it worked. We always had someone recording the encounters. It really picked up steam to where we ran it from February through June."

Geiger, who also serves as Promotion Director, says the creative process is an all-station event, assembling jocks and AEs for lunchtime brainstorming sessions. "We turn those sales-only ideas into sales/listener benefit weekends or promotions. The end result of these sessions are followup meetings between me, Sales Manager Julie Steiner, and Production Director/middayer Rick Carter.

### Modernized Promos

"We've worked hard to make our promos sound like the '90s with verbal and audio punctuators instead of star wars-type sounders, which we overdid in the '80s. In addition to having all-digital studios using Broadcast Electronics' 'Audio Vault' — all music is on CD, except for promos and sweepers — our five marti units always are in use with remotes and appearances at client/listener-based events. Our '97 Days of Summer' promotion [unites] us with Coca Cola to give out jet-skis and home entertainment centers. Now we're continuing to win with 7Up.

"I'm as research-oriented as most PDs, but I'm more street-oriented. We've done a lot with guts and common sense and now are getting ready to test 30 currents and recurrents weekly in callouts. We're using Nevada's Job Opportunities Program, which helps workers aged 16-20 gain paid experience at the state's expense. If you're having trouble with a research budget, your state might provide a similar service. I can't help but think that some fine-tuning and a bit more innovation and creativity will position us for a great Fall '94 book with a winning staff."

Biggest career mistake: "Twice quitting programming to return to air talent slots."

Advice to other PDs: "Become as sensitive as you can to the station's administrative and sales needs. Play the hits, and build a team with winners only."

Predictions: "Flavor of the month' formatic directions will fail you. Stick to 18-34 female-based CHR to win longterm."

# WBLX's Upward Mobility

■ Huge spring jump cements Mobile market-leader's grip on top spot

Under the guidance of a first-time programmer, longtime Mobile market leader WBLX shot up 9.8-15.3 12+ in the Spring '94 Arbitron book. Morning co-host J.B. Louis, who assumed the PD/MD mantle last April, tells the story behind the success.

Not only does the April & May Broadcasting station beat 15 other Mobile signals (plus eight from outside the market), it's ranked No. 2 in nearby Pensacola, FL, which offers 17 signals of its own.

### Opportunity Knocked

Louis says the "main reason" for 'BLX's huge increase can be found in Pensacola at WJLQ, which was "one of our main competitors." When that station dropped its Urban AC format last March, WBLX naturally made a play to pick up the disenfranchised listenership. (The only other black-targeted station in Mobile is WGOK-AM, where the eclectic programming mix includes blues and gospel.)

☞ **We adjusted our music a bit by adding some classic oldies. That let us go a little more 25-54, and we opened things up musically to attract a larger variety of listeners.**

"We adjusted our music a bit by adding some classic oldies," says Louis. "That let us go a little more in the 25-54 direction, and we just opened things up musically to attract a larger variety of listeners."

"To really seal things, we started getting out in the streets even more. You can't really win without getting out there. You name it, we've gone there. For example, when schools call us and ask us to do a career day, we're there. Not just me, but the entire airstaff."

Louis started doing mornings at the station in 1987. Four years later, PD Skip Cheatham joined the show. When he left to become PD at KKDA-FM (K104)/Dallas, Louis added the PD title and took on a new partner, APD Jimmy Mack. "Now we call the morning show 'J.B. & Jimmy In The Morning,' and we're on from 6-10am," he says.

### Working With Sales

WBLX is second in the market in sales revenue, and it's often sold in combo with sister station Country WXBM in both Mobile and Pensacola. Louis explains his attitude toward sales: "Some programmers just fight tooth and nail with the GSM, but I believe programmers can and must work hand in hand with sales."

"One way to do that is to be what I like to call a marketing consultant to the client. That way, you can not only help them maximize their airtime, you can make sure the station

keeps sounding good. It's also an opportunity to make the client a part of the station. Our philosophy is to make sure the commercials we run are not a turnoff. Our creative production department spends the time to make commercials that sell product and keep our station sounding good.

"It's all about getting people to listen longer so you can get larger shares of the audience and sell more commercials for more money. The clients are happy because more people are buying their products or frequenting their businesses, and everybody's getting what they want and need."

☞ **Some programmers just fight tooth and nail with the GSM, but I believe programmers can and must work hand in hand with sales.**

"I'm always hearing PDs say, 'You have to have more nonstop music hours,' or 'We need more commercial-free music hours during the day.' Some of these programmers have to face the business reality of the 21st Century. There are things you can do

## Spotlight On Ratings

The demo and daypart numbers tell an impressive tale of WBLX's dominance in Mobile.

Among 18-34s, the station was No. 1 with about a 21 share from 6am-midnight Monday-Sunday. The closest competitor was Rock WGCX with around a 12 share. Monday-Friday, WBLX was No. 1 with 18-34s in every slot, ranging from a 17-plus share in mid-days to more than a 30 share in nights, where they were also No. 1 with 25-54s (almost a 20 share).

In weekends, WBLX was No. 1 6am-midnight 12+ with well over a 17 share. And taking a page from the Pensacola book, WBLX ranked No. 2 among 18-34s Monday-Sunday from 6am-midnight with roughly a 15 share.

to keep your sound fresh, the music playing, and the commercials running so the revenue is coming through the doors and keeping you in business."

Maybe that attitude is one reason Louis can say, "Management gives us the tools we need to get the job done, and they're always willing to listen to constructive ideas that will help the station continue its success."

### Meet 'Miss Mitchie'

"Let me give you a good example of something we do," Louis continues. "We have a fictitious character we call 'Miss Mitchie' — an old lady who talks like she's got a lip full of chewing snuff. Down here, almost everybody's got an aunt like this. She's always in church, and then she's always telling you what 'Pastor says.' We have listeners who tune in for her just because they think she's funny. And . . . she helps us sell eyeglasses and cars."

"Anytime we go out into the streets, people ask, 'Who's that old lady you guys have on in the mornings?' They even ask us to play some of our commercials just because they're fun to listen to."

Later this year, WBLX will celebrate its 20th anniversary. There's a note of pride in Louis's voice as he

☞ **We have listeners who tune in for our 'Miss Mitchie' character just because they think she's funny. And . . . she helps us sell eyeglasses and cars.**

concludes, "People here know everyone who's on the air, and our staffers are indeed special personalities. We stay involved in our community, and we're always out doing what we know is best for our city and our citizens."

## Comparing 18-34 and 25+ Targets

Paragon VP Mike Henry outlines the musical similarities & differences

Alternative's continuing evolution has spawned yet another fragmentation: stations targeting adults 25+. Paragon Research conducts studies for the younger and upper-end Alternative stations; VP Mike Henry discusses the musical appeal of both demos.

### Current- Vs. Library-Driven

"The musical differences between the 18-34 and 25+ Alternative stations are tough to [define]," admits Henry. "The 18-34 Alternative format distinctions still are in the developmental stages, and not many Alternatives target 25+. To my knowledge, The Peak [KXPK/Denver] is the only pure Alternative in the country targeting a 25-44 audience. As Alternative format distinctions become more obvious, 18-34 stations will be more current-driven and musically polarized around hard alternative and dance alternative styles.

Mike Henry

product has muddied the waters even more; the ability to establish a core sound is hampered.

"As the format evolves, I think we'll see 18-34 Alternative split into two distinct format variations: hard alternative for males and dance alternative for females — similar to the historical AOR/CHR 18-34 split. Regarding 25+, I believe significant adult formats will be developed for library-driven alternative music. Using the same AOR/CHR analogy, we'll see Classic Rock and AC versions of Alternative unfold."

### Three Music Styles

Henry continues, "Look at what we're doing with SBR at the Peak: We've built a 25-44 format around three accessible styles of alternative music. Pop alternative — the Cranberries, 10,000 Maniacs, Counting Crows, Sarah McLachlan, Crowded House, Soul Asylum, Matthew Sweet, Gin Blossoms, etc. — has received heavy airplay from AC to CHR and represents a totally new universe of contemporary music with a deep well of new product.

"Mainstream alternative, represented by the real core artists of Alternative — Peter Dinklage, U2, R.E.M., Talking Heads, Pretenders, Eurythmics, and the Police — is a great source of library and new material. Classic alternative is represented by many of these same artists, but you can throw in Roxy Music, Elvis Costello, Clash, Squeeze, and tons of other bands with smaller libraries that exhibit the

classic sound. These three unique styles tend to be compatible with each other — all have 25+ appeal."

### 'Universal Music'

Now that we know the differences between 18-34 and 25+ stations, what are the similarities? Henry explains, "The universal music: Pop, mainstream, and classic alternative can exist in an 18-34 environment just as the best of hard rock and dance alternative product can work in a 25-44 environment. It's a matter of texture, tempo, and creating a consistent and unique core sound.

**As the format evolves, I think we'll see 18-34 Alternative split into two distinct format variations: hard alternative for males and dance alternative for females.**

The primary core thread running through 18-34 and 25-44 stations is the music they won't play — the traditional contemporary music Alternative listeners have rebuked."

Henry discusses how 25+ stations capture the essence of Alternative radio. "The 25+ listeners found Alternative the hard way — from college radio, personal music collections, or early music videos. With a few rare exceptions, there were no commercial outlets for listeners before '85 or '86. In the early '80s, about the only place you could find these real weird bands — like U2, R.E.M., and the Talking Heads — was on college radio."

### Hard Rock Umbrella

"The listeners who first balked at mainstream radio and found alternative music in the late '70s and early '80s were skipped over. The musical roots of Alternative were born and then died on college radio by the mid-'80s. The music and support was there, and now those listeners are 25-44. A 32-year-old Alternative listener doesn't wake up one day and say, 'You know, I really don't like CCR anymore; Elvis Costello is really cool.' In all likelihood, the listener who likes Elvis today liked Elvis 10 years ago, and that music is viable library material today. The same holds true for many other artists from that era.

"Music that falls into the classic alternative category is underutilized on Alternative stations. It has significant appeal, heritage, and integrity for the upper-end of the Alternative life group. It takes a knowledge of the format's roots to program late-'70s to mid-'80s Alternative music. Progressive stations have probably come closest to appealing this 25-44 Alternative core, but certainly not to

the extent possible. Progressive stations have incorporated alternative music into their mix, but I'm not sure that would be the case if 25-44 Alternative formats were in existence."

According to Henry, "Harder-

Henry says one can determine if a market is ripe for both stations "with a great set of ears, market research... preferably both. Market segmentation is a proven methodology to uncover and take advantage of format opportunities; Alternative formats are no exception. It takes a certain amount of subjectivity and a properly focused market segmentation study. Many markets could support 25-44-targeted Alternative formats today. College towns and cities that have had either a young-end Alternative or Progressive station for a number of years are especially ripe.

"The 12-34 Alternative stations are planting seeds daily for 25-44 library material for the future. It's reasonable to theorize that the best of the younger-end alternative product from the past several years will become library material on 25-44 targeted stations for years to come."

- LP: "Everybody"

• Essentials: Founding members Chris Seefried (vocals, guitar, mellotron) and Gary DeRosa (keyboards, vocals) grew up together in Huntington, NY. Following several incarnations while playing New York's club circuit, Gods Child settled on high school mate Bip Ruda for bass and recruited highly recommended drummer Alex Alexander. They then accepted an offer to perform at a Czech Republic rock festival. The festival was cancelled after they arrived, but they spent the next month playing in small Czech towns. They returned to New York and were signed to Qwest. Their debut release, "Everybody," is self-produced under Seefried and DeRosa's pseudonyms, Bullfrog and the Elephant. The band is heavily influenced by beat poetry.

• Artist POV: Seefried explains, "We're exposed to a heavy club culture in New York — rap and all kinds of street music. That in-

fluenced us to express ourselves with sound and color — groove first, then writing classic rock chord structures over it.

"We were doing it sort of like a rap record by taking sound bites; we updated classic rock songwriting structures with production. It was a real gas finding a great drum loop, putting a great bass line over it, then writing the song. It was like doing a dance record, but instead of writing house tunes, we wrote rock tunes."

• Label POV: WB National Promotion Director/Alternative Radio Jimmy Dixon says, "These guys make music with no regard to the format puzzle. They do it because they love the art — and it shows. Fans sense this immediately, especially live. When 'Everybodys 1' gets played for real, it kicks in very positively."

## KTYD Wins With Music, Technology

■ Small-market station maximizes resources for a big-market sound

Those in smaller markets know all too well the multiple tasks each person must do to help accomplish the station's goals. The personalities often work on-air six days a week in addition to their daily production duties and promotional appearances. The program director doubles as promotion and marketing director; the music director doubles as research director; and both have airshifts as well.

David Perry

The time demands can be taxing and all but unavoidable. But KTYD/Santa Barbara has found technology to be a friend in improving the sound of the station — both in terms of audio fidelity and in programming. And its 12+ numbers reflected that effort; KTYD was No. 2 overall with a 7.4 share, but Monday through Friday it was No. 1 10am-3pm and tied for first 3-7pm.

Criterion Media Group VP & KTYD GM David Perry says the station targeted adults during the 6am-7pm weekday time period specifically for sales purposes. "KTYD has been the No. 1-billing station in the market for years regardless of whether we've been No. 1 or 2 12+.

I'm not really concerned with the 12+ numbers as long as we keep our demos. Nobody buys off 12+; I call it the 'ego demo.'"

**"We can add or delete songs and commercials, change breaks — literally run the station from our homes."**

Perry credits the market size for helping the station win in both the upper and lower demos. "In a smaller market you have to be more things to more people. We're able to play the best from each type of rock — classic rock, alternative, progressive, and mainstream — that all work together so one type doesn't offend a fan of another type. In the daytime, the progressive songs worked very well for us and allowed us to cut into the ACs' numbers. But we still maintained the 18-34s because we're playing a lot of new music.

"We now play over 50% current music 7pm to midnight with no classic rock at night, not counting recurrents. The adults listen during the day — over 60% of our audience listens away from home or in the car.

**"Technology doesn't have to be sterile. You must have the creativity and the talent to make it work with the same results you'd get from being on the air live."**

When they leave work they may listen on their way home, but by 6 o'clock they turn off the radio until the next day. So we decided to go after the more alternative audience at night. Santa Barbara is a big college town, so there is a huge available audience.

"Also, we've evolved into more adult types of promotions. We have fewer bar parties, but when there is one we have more adult music playing. Last December we brought Counting Crows and Cracker to a bar. We've had the Freddy Jones Band here, too. The college listeners appreciate that type of music, too. It's interesting how those artists allow us to draw from both sides of the audience. KTYD has played artists like Big Head Todd & The Monsters, Toad The Wet Sprocket, Gin Blossoms, Sarah McLachlan, and Ian Moore for a long time. We also play reggae in a regular rotation here. We have an eclectic mix, which certainly works well for Santa Barbara."

### Technological Breakthrough

Technology also played a big part in KTYD's success, according to Perry. "We used technology to improve our overall sound. We added a new B.E. transmitter and went to a digital modulator which gave us a full, rich sound without harshness. It helped eliminate audio fatigue and allowed people to listen for longer periods of time. The high, shrill sound you get from processing is gone.

"We use the BPI/Sentry system for a couple of reasons. It allowed us to automate the overnight show, which helped us save money. It also permitted me to do middays in 30 minutes by cutting voice tracks in the morning, yet gives me the flexibility of doing as many live breaks as I want. The automation of the show hasn't hurt us at all, either; in fact, in middays Monday-Friday we're No. 1 12+, 18-34, and 18-49, and No. 2 25-54. That's a testament to the fact that the system itself doesn't have to cost you anything in terms of listenership.

"All of our commercials, prerecorded liners, and promos are loaded on the hard drive. You can go into

**"When we first got the equipment the personalities thought, 'Oh-oh, I'm being replaced.' But after about three weeks their new thinking was, 'Oh, I'm being improved.'"**

either automation or live assist very easily; everybody here switches back and forth all the time. But we always use live assist for drive time. We have more than 2000 songs loaded in 24 CD players and we have our own CD recorder on-site so we can maximize the number of songs per disc. We record the primary songs

### Personality Pluses

Perry has nothing but praise for the computer equipment. "It's great

with the PC in which we take requests at the site and change the songs without anyone at the studio. However, to abide by FCC regulations, there is always an operator on duty at the station.

"It's given us a cleaner and more professional sound and we have the flexibility to do with less people. In a small market, everybody has to cut their costs. While we've been able to do that, we're also able to give the few people we have more money so we maintain a high-quality staff. In smaller markets, personalities are always working their way up to bigger market sizes. But I can afford to keep high-quality talent."

### Product Enhancement

"Technology doesn't have to be sterile," says Perry. "You must have the creativity and the talent to make it work with the same results you'd get from being on the air live. Once you achieve that level of creativity and talent, technology only enhances your performance — it doesn't hold you back. It's fairly simple: The majority of people turn on the radio, and if they like what they hear, they listen to it. If they don't, they switch stations or turn it off.

"Some ad agencies in L.A., San Francisco, Seattle, and New York send their commercials to us via modem, which are downloaded directly into a hard drive. We get a fax notifying us that the spot was delivered. Then we transfer it to the hard drive in the control room without ever touching tape. It's a complete digital transfer, so there are no lost audio generations. We only get 35-40% of our national and regional spots that way, but it's increasing all the time.

"We've used a lot of high technology. It's improved the product and given us greater flexibility — and a little more financial security."

## Focus, Identity Are KKSF's Key Elements

■ PD Feinstein guides station through competition, tough radio market

KKSF/San Francisco PD Steve Feinstein has the longest continuous tenure at the same station of any NAC PD — signing on with GM Dave Kendrick in August '87. His background includes R&R AOR Editor from '83-'87, a Classic Rock show on KLOS/Los Angeles from '84-'87, and a seven-year tenure with AOR WYSP/Philadelphia, serving as MD his last two years.

Feinstein credits owner Brown Broadcasting for "a major leap of faith to go with the then-unproven NAC format after purchasing the facility in '87. It was also either extraordinary foresight or sheer madness to give me my first programming job in a market as competitive as the Bay Area." He gives his thoughts on how the unique competitive climate has influenced KKSF's NAC presentation.

### Great City, Tough Market

"San Francisco, the City: charming, cosmopolitan, culturally diverse, politically progressive, magnificent architecture, superb restaurants, quick access to Wine Country, Lake Tahoe, and Yosemite getaways; great place to live.

"San Francisco, the Radio Market: hellacious terrain problems for FM signals, more signals-per-capita than any other major market, less revenue per station than in smaller markets such as Philadelphia, Minneapolis, Detroit, Washington, and Houston; tough place to do radio.

"San Francisco radio market" is a misnomer; we actually operate from the Bay Area radio market. Check out these fun facts:

"Virtually all the signals from San Jose (market #31; 60 miles south of San Francisco) show in the San Francisco book. For instance, Rock

"About a third of the diaries in the SF metro come from Santa Clara West (San Jose) County. The county of SF contributes under 10% of the diaries to the SF metro.

"All the diaries from the San Jose book are also folded into the SF book.

"Additionally, News/Talk stations, aided by AM's superior ability to handle the Bay Area's hilly terrain, perform better here than in any other major market. It's not uncommon for two, and sometimes three, of the Top 5 25-54 slots to be occupied by perennial #1 Talk KGO, along with either Sports KNBR or News KCBS. (Although Arbitron doesn't list public radio — NPR KQED-FM often makes the Top 5 in Accu-Ratings, as you might expect in a sophisticated market such as San Francisco)."

### Read 'Positioning' Book

"To capture the ears of listeners in this hyper-fragmented market, you've gotta know exactly who you are — being focused is all-important. Make sure to read your 'Positioning' book before you come to play [here]."

### We generally avoid the crossover pop vocalists that other NACs employ to broaden their appeal.

"That's why KKSF doesn't sound quite like most other NACs. Our core artists are the same — Kenny G, Sade, Rippingtons, Al Jarreau, et al. — as most NACs. To position ourselves against Urban AC, Hot AC, and traditional AC competitors, we generally avoid the crossover pop vocalists that other NACs employ to broaden their appeal (such as Michael Bolton and Whitney Houston).

"In place of pop/urban material, we lean a bit more on soft rock vocals by the likes of Sting, Chris Rea, Bonnie Raitt, Icehouse, Steely Dan, and Bryan Ferry than most NACs. We'll also find an occasional folksy or bluesy tune that works for us — select tracks by David Wilcox, B.B. King, Shawn Colvin, and Mary Black find favor with our listeners."

### 'World Flavor' Artists

"Instrumentally, while the bulk of our mix is contemporary jazz, we add a bit of spice with world-flavored artists, structured solo piano and guitar pieces, and even a soft blues tune by someone like Stevie Ray Vaughn. Specialty shows also contribute to our diversity: 'A Taste of Brazil' adds to our 'music without borders' (an early marketing slogan) appeal. And our Sunday morning showcase of ethereal sounds by the likes of Vangelis, Enya, George Winston, and Kitaro is our highest-rated daypart of the week.

"Don't get me wrong — 80% of

what we play is common to most NACs. But the flavor cuts keep KKSF from lapsing into smooth jazz homogeneity and predictability. We've used the 'smooth jazz' handle in our outside marketing to attract the uninitiated, but only sparingly on-air because it's a bit too narrow a term to capture the full range of our mix.

"We're far from wildly eclectic, of course. What holds the mix together is a consistent sense of texture and melody. A piece of music has to have that trademark smooth, polished NAC sound that makes the format so appealing for at-work listening. But it must also, in the

marketing whiz. We've never done TV — it's prohibitive in the Bay Area. Instead, Dave and Director/Marketing, Special Projects Tom Hopfensperger built come by pioneering our cassette aircheck mailer. He touches our core with the quarterly *Music Notes* magazine we mail to our database and distribute via KKSF end-aisle displays at 13 Tower stores.

"Promotions Director Susan Pfeifer master-plans our quarterly free listener parties and bimonthly 'Rising Star' showcases.

"Chief Engineer Tim Pozar and morning ace Roger Coryell put us on the Internet last year, making us the first commercial station in the country to offer its listeners the ability to communicate with it via e-mail and access station info on gopher and World Wide Web servers. This has played well for us in Silicon Valley."

"All of our efforts combined, plus those of our savvy sales team, have contributed to our success story. The most recent Arbitron had us #3 in 25-54s behind KGO and KNBR. We're generally among the Top 5 adult stations, and in three books have been the number one music station, outranked only by perennial N/T leader KGO.

"On a personal note, I'd like to thank John Sebastian, KIFM/San Diego PD Bob O'Connor, Frank Cody, and KTWV (The Wave)/Los Angeles's start-up for inspiring me to enter this format."

words of former MD Nick Francis [now KYOT-FM/Phoenix] PD], 'enhance, not just fit' the format. To avoid becoming yuppie muzak, we strive for music that has substance and character, and try to skip generic jazz fusion.

"Instrumentals have to be lyrical; if it's just pleasant and inoffensive without a solid hook, we'll pass. What separates Kenny G from a wealth of sax soundalikes is his composing as much as his playing. He writes catchy pop songs that happen to be instrumentals."

### Who's Who At KKSF

"Working from the notion that the whole is greater than the sum of its parts, our music committee has three different perspectives. I have a Progressive lean (I consult our company's Progressive KQPT (The Point)/Sacramento), MD Dore Steinberg is an effective advocate for adventurous world music and jazz sounds, and Programming/Promotions Coordinator Julie Nakahara-Stoekel — the closest among us to a true NAC partisan — keeps us grounded.

"Our announcers are personable and informative, with a style that's sort of a hybrid of public radio and AC. They're the primary reason we get high marks for customer service. They actually pick up the phone and help listeners with music questions.

"In addition to being remarkably protective of our product's integrity, GM Dave Kendrick is a targeted

# 'The River' Rolls Back To Basics

There may not be many, but nearly every hybrid Rock AC boasts impressive spring Arbitron numbers. This week, I look at two Rock ACs that share the unusual distinction of performing well in multiple metros.

Chris Tyler

"Our version leans more Classic Rock than the typical Rock AC," notes WRVV (The River)/Harrisburg PD/morning co-host Chris Tyler. "Unless you can hear this format in your head, you can screw it up royally. If you don't know the total stationality, you won't be successful."

Tyler admits he hasn't endeared himself to record companies. "I don't feel the need to jump on anything out of the box. That's not why people listen to us. We don't even have a current category. Current music automatically goes into a very slow recurrent category.

"People try to position us as an oldies station, but we play a lot of '90s music. Currents are used for spice — they aren't the most important thing on the station."

According to Tyler, the River's core artists include Chicago, Eric Clapton, James Taylor, Billy Joel, Elton John, Steely Dan, Bruce Springsteen, Eagles, David Bowie, Jackson Browne, and John Mellencamp.

## Worst To First

The River first flowed in March 1992 — and grew rapidly. "We had a few billboards, but we succeeded strictly by word of mouth," Tyler recalls. The station, which then sported the WHP-FM calls of its previous B/EZ incarnation, went from last to first in six months.

Noting that Harrisburg more closely resembles an ADI market than a metro market, Tyler explains, "We wanted to do a format that would succeed in Harrisburg, Lancaster, and York. We try to be a magical station, stuck among all three cities. We're a Harrisburg station, but in our first year, I told our personalities to avoid saying where we were located."

The result: In the 25-54 demo, the River leads in Harrisburg and places fifth in York. "We just had our best-ever 25-54 numbers in York. That's been a tough market to crack because [Classic Rock] WGRX/Baltimore's transmitter is just south of the Pennsylvania border, and they bomb into York."

As for the station's aquatic appellation, Tyler says, "We wanted something different. This is a green and earthy format, and the main topographical feature that runs through the three cities is the Susquehanna River. If we were stuck somewhere

with no rivers nearby, we'd probably call the station 'The Mountain.'"

## Adult Approach

Although Tyler identifies his target demo as males 30-44, he states, "We've been pleasantly surprised with our female numbers. In the last three books, we've actually done slightly better with females."

He attributes the River's success among females in part to the station's adult approach. "Radio people would accuse us of having no per-

— Chris Tyler

sonality, but we think we have a '90s personality. We say enough to make friends with our listeners without getting in their faces."

When it comes to service elements, Tyler says the River's main rival is CHR WNNK (Wink). "They win because they've been doing it so well for so long. We try to counter them by playing music when they stop down for long newscasts [at :00 and :30].

...and Harrisburg — and Lancaster, and York. We try to be a magical station, stuck among all three cities. We're a Harrisburg station, but in our first year, I told our personalities to avoid saying where we were located."

# Scoring Points With Tampa Bay's Best Buffet

"Combining Progressive, Classic Rock, and AC's rock edge gives listeners a musical smorgasbord," opines WHPT (The Point)/Sarasota-Tampa PD Bob Cummings. "How many times can you hear Michael Bolton and Mariah Carey before you get sick?"

Within a base library of approximately 1000 titles, some of the Point's representative artists include Counting Crows, Gin Blossoms, John Mellencamp, Stevie Nicks, Spin Doctors, and Toad The Wet Sprocket.

Bob Cummings

Unlike Rock AC WRVV "The River"/Harrisburg (see accompanying story), the Point is aggressive with new music. "We won't wait until a song charts before we play it,"

"For a music-intensive station, our service elements are excellent. [Morning partner] Dina Joseph and I interact twice an hour leading into her information breaks [at :26 and :56]. We still play the lightest commercial load and absolutely the most music in the morning."

## No Hype

The River indulges in very little hype and contesting, Tyler claims. "All the other stations are promotionally active and frequently run several contests at a time. We're the anti-clutter station — no bells, no whistles, back to basics. When we must give something away, we keep it as simple as possible. We take write-ins on a first-come, first-served basis — so technically, it's not a contest."

As Pennsylvania's designated "Rivers Month," June overflowed with promotional tie-ins for the River. "We took listeners out for a riverboat cruise on the Susquehanna," notes Tyler. "We'd rather do things like that than give out McDonald's certificates to the eighth caller. Our listeners point that out as being one of the station's biggest benefits."

As for the River's ratings outlook, Tyler says Harrisburg AC WIMX hasn't been a significant factor, but longtime market leader WNNK has been treading on his station's format turf. "They're not really CHR anymore — they're Hot AC. For marketing reasons, they call themselves CHR, but they play everything. I feel very good that we're doing this well when Wink is sliding in my direction. We hope someone buys WIMX and takes the guts out of Wink. Until that happens, we probably can't be No. 1 [2+."

## Dual Identity

While the Point is licensed to Sarasota, Cummings pays considerable attention to a nearby market to the north: "The revenue's in Tampa-St.

Pete. Fortunately, the musical tastes of Sarasota and Tampa listeners seem to be the same. We don't want to forget our roots, so we try to keep a streetwise presence in both cities.

of television points each week, but our philosophy is that the product will speak for itself. If people sample us, they'll like us and stay."

## Refinement Process

Cummings shares his thoughts about why Rock AC, which has enjoyed solid ratings success, has spread into relatively few cities. "The format is very market-specific. Programmers must be familiar with AC and Rock audience compositions and should attack weaknesses in both formats.

"You must pick AC and Rock songs that people haven't heard in a long time. It comes down to refining the mix to make sure the station is familiar, but you still want to challenge listeners and give them music they won't hear anywhere else."

## Talk Faces Its Own O.J. Mystery — What To Air During The Trial

With prosecutors and defense attorneys gearing up for a September trial date in the O.J. Simpson double murder case, Talk programmers across the country are facing their own mystery: How much O.J. coverage should they provide during a trial that could stretch over several weeks?

Here's what some of those PDs are currently thinking. WWDB/Philadelphia PD David Rimmer says the question of coverage hinges on two things: the expectations and needs of

radio," he adds. "I'm just not sure people are going to be glued to the radio for the trial. I suspect the die hard [trial addicts] will use television."

development, we'll air an update or go live with it. If we have advance notice that a particular piece of testimony will be really hot, we might decide in advance to air it.

"This way, we can be talking about the hot topics — we have local elections this fall — and go to the newsroom for an O.J. update whenever we need to. It's the best of both worlds."

KABC/Los Angeles, located at ground zero, is planning a similar approach, albeit a bit more hands-on. "We'll have a reporter in the courtroom who will feed us reports on major events," reports OM Al Brady Law. "We'll also carry the ABC Radio updates. We have television monitors in our studios, so if the hosts see something developing, we can cut to ABC's live, unanchored coverage."

Al Brady Law

Law adds that KABC's sister Talker, KMPC/Los Angeles, will do significantly less O.J. coverage. "[KMPC] is much younger-skewing and less news-oriented," he says. "We don't feel like it needs that kind of [extensive] coverage. But it will certainly be a topic on the station — we'll just let the callers and hosts vent."

Law offers this observation about the ratings impact of the Simpson

### Conduit For Listeners

Bob Lewis, PD at all-Sports WHK/Cleveland, says his station will also forego extensive trial coverage in favor of listener feedback. "We'll do regular updates during our sports talk shows, but we won't take any testimony live," he says. "I think a lot of that is technical and tedious for listeners. Instead, our hosts will talk about the case and we'll let the listeners take it where it goes. We want to be a conduit for people to react and respond to what's happening."

WWRC/Washington PD Gary Burns explains that he will treat the Simpson trial like any other major news story.

"We'll be all over it in a variety of ways," he predicts. "We probably won't go wall-to-wall, but we may go live with some segments and I would consider preempting some programs [to air the trial]. We'll decide on a daily basis."

WBAP/Dallas-Ft. Worth OM Tyler Cox downplayed his station's coverage plans. According to Cox, there's been so much O.J. coverage, and there will be so many ways to follow this trial,

Tyler Cox

"that it doesn't make sense for his station to jump on the heap. "We're not going to get into continuous coverage," he says. "That's deadly radio. If it comes to a point where there is expected to be some pithy testimony, we might air it live. But the trial is not going to become the focal point of this station."

regular WWDB listeners, and whether radio is the right medium for extensive trial coverage.

### Importance Factor

"I have to figure out whether it's more important for listeners to know they can count on us for [lots of live O.J. broadcasts] or that they can count on us for our regular hosts," says Rimmer. "There's a lot of other stuff going on in the world, like health care reform, and I wonder whether people will be upset about not being able to comment on those issues."

"I'm also wondering whether wall-to-wall trial coverage is interesting

WBAL/Baltimore Station Manager Jeff Beauchamp says he and his staff have answered those questions. "We ascertained from the pre-trial hearings that the courtrooms are not miked in a way that lends itself to great radio," he says. "It's not good for wall-to-wall coverage."

### Best Of Both Worlds

However, he adds, Baltimore is clearly obsessed with the Simpson case. WBAL's answer: "We'll assign a staffer to monitor the trial broadcast in the newsroom," says Beauchamp. "If there's a newsworthy

## Summertime . . . And The Jell-O Is Slimy

Summer's almost over, and you know what that means — the days are numbered for those warm-weather promotions. Yes, it's already time to begin planning your fall events. Here's a look at some promos you probably won't see again . . . at least until next summer, anyway.

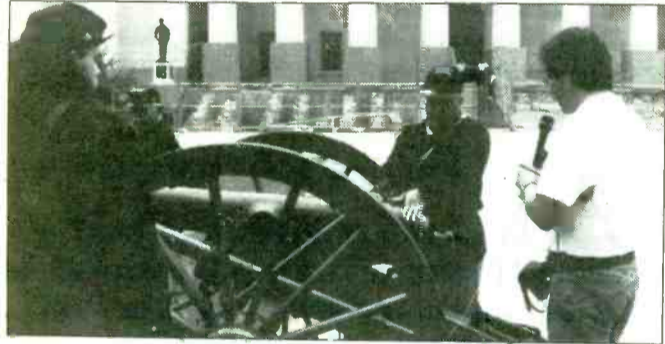

**JELL-O JAMBOREE** — WWWWDetroit morning man Rob Mason slides into a pool of Jell-O at a local mall. He was one of several participants in the eighth annual Leukemia Society Jell-O Jump who collected pledges for the organization. No word on whether there was a pool of Cool Whip on the scene, but there was a fire hose handy.

**A HANDS-ON EXPERIENCE** — What would you do to get your hands on two Jeep Wranglers, two Sea-Dos, and a Sea-Doo trailer? KBEQ/Kansas City listener C.J. Coon (c) spent 146 hours — a full six days — with her hands on a Jeep to win the \$36,000 prize package during KBEQ's "Hands On Marathon." Pictured with Coon during the 147th hour are VPIGM Kathy Stinehour and Sonny Hill, manager of the dealership.

**TRITT'S A HIT** — Travis Tritt, Joe Diffie, Lee Roy Parnell, David Ball, and Victoria Shaw took the stage at WGNA/Albany's first annual Countryfest, a listener appreciation concert attended by more than 25,000 people. Posing before the show are (l-r) WGNA's Russ Benblatt, Ruth Tietz, Al Vicente, Dawn Morrison, and PD Jon Allen, Tritt, and the station's Brenda Horstmann, Richie Phillips, Gary Briggs, and Bob Jennings.

**CANNONBALL RUN** — The shot wasn't heard 'round the world, but it was heard as far as 10 miles away when WCOL/Columbus morning co-host Skip Mahaffey fired a cannon on display at the Ohio state capitol. Egged on by his partner, Dixie Lee, Mahaffey was arrested by Capitol police after his attempt to see whether the 130-year-old relic still worked. (It did.) Charges of unlawful discharge of a firearm, reckless endangerment, and malicious mischief were later dropped.

**FLOODED WITH DONATIONS** — In a drive to collect donations for Georgia's flood victims, WESC/Greenville, SC afternoon personality T. Gentry (l) broadcast live around the clock until the semi pictured above was full. Two days (51 hours) later, it was packed with more than 38,000 pounds of goods and headed to Albany, GA. Above, Gentry gets a little help loading up from Country 92 PD "Long John" Landrum.

**COLD CALLIN'** — KSAN/San Francisco PD Lee Logan loves a challenge. So when Polydor West Coast promo rep Michael Moore challenged him to play Chely Wright, he did — and his payoff was getting to see Moore go for a dip in the icy Pacific. Enjoying (?) a cold, windy, foggy day at SF's Ocean Beach are (l-r) KSAN MD Richard Ryan, Moore, and Logan.

Now that  
**THE TRACTORS**

we'll let radio

“It’s bizarre! Couldn’t help but smile the first time we heard it. A fun record. A good change of pace from the serious songs we’ve had lately.”

-NICK UPTON, KSON/SAN DIEGO, CA

“The hottest new group of the year. Just moved them up to Medium after two weeks in Light. ‘BABY LIKES TO ROCK IT’ is the hottest record in the Dance Club, #2 on the Hot 5 At 5 and #2 on the Hot 9 At 9.”

-CRAIG POWERS, KIK-FM/ORANGE, CA

## CMT Expands Reach To Include Asia

Country music will have an even bigger opportunity to expand on a global level when CMT is launched in the Asia-Pacific region next month.

Millions of residents of China, Japan, Australia, Hong Kong, Singapore, and the Pacific Islands will soon be able to enjoy country music 24 hours a day via new PanAmSat satellites. Through a 10-year agreement, CMT has leased a channel on PanAmSat's PAS-2, which launched last month for service to the Asian market. The network has already linked with its first affiliate to launch the service — Sydney, Australia's Cable Television PTY Ltd. Until recently, cable operators in New Zealand and the Marianna Islands had been carrying CMT on a tape-delay basis, but now those operators will be able to relay the

signal from the new satellite service.

The network is also poised to bring country to Latin America through a channel on PanAmSat's PAS-3. CMT Latin America will begin telecasting in early 1995. The network's expansion will undoubtedly help boost country's growing worldwide popularity, especially in areas like Japan, which already boasts its own fulltime Country radio station and successful annual country festival.

### Japan Strikes Gold

For the sixth year in a row, the Country Gold Festival — which draws 25,000 fans annually — will

TCR, a Nashville-based PR/video company with offices in Tokyo, reports that country videos are now being played on TV Kanagawa in Yokohama, which also covers the Tokyo area. Nearly 28 million Japanese just might end up with a "Thinkin' Problem," since the David Ball clip reportedly was the first video requested to air.

• In other international news, the 13th annual **Canadian Country Music Association Awards** have been set for September 19 during Canada's Country Music Week. Among the nominees are **Michelle Wright**, **Charlie Major**, and **Shania Twain**. Hosted for the fourth year in a row by **George Fox**, the show will be telecast on the CTV Network and rebroadcast October 1 on TNN. For the fifth year, the show will also feature the Bud Country Fans' Choice Award, selected by fans who dial an 800 number to cast their vote. Up for that award this year are **Patricia Conroy**, **Charlie**

**Major**, **Prairie Oyster**, the **Rankin Family**, and **Michelle Wright**.

### Holdin' Heaven

**Dolly Parton's** new TV series, "Heavens To Betsy," has been put on hold temporarily just two weeks before production was scheduled to be-

gin in Florida. Shooting has reportedly been delayed three weeks for script revisions. Parton portrays a woman who undergoes a near-death experience in the show, which is on CBS-TV's slate as a midseason replacement.

## Archer/Park

### NEW ARTIST FACT FILE

**Label:** Atlantic/Nashville  
**Single/Album:** "Where's There's Smoke"/"Archer/Park"  
**Influences:** Merle Haggard, George Jones, Waylon Jennings, Willie Nelson

#### Background

Randy Archer and Johnny Park shared more than a musical background when they met in Nashville two years ago. Though they collaborated on six of the songs on their debut LP, neither came to town with the desire to be a writer.

• Georgia native Archer's country roots run deep, although he got his start playing gospel with his mother and aunts. He spent years honing his vocal skills in high school bands and on the club circuit before making the move to Nashville. "I just couldn't stand the thought of being retired and wondering what could have been," he remembers. Archer paid the bills by building cabinets for a year, but soon discovered a knack for writing that would later lead him to partner Park.

• Park grew up in Texas influenced by country's outlaw movement. He began playing guitar at an early age, and by 20 he was performing six nights a week in clubs around Texas, Oklahoma, and Louisiana. He also spent two years on the road touring around the country with a band before deciding to take his chances in Music City. "I decided that music was all I'd ever wanted to do, so I packed up the family and moved them to Nashville. All the other relatives thought we'd lost our damn minds, but we did it anyway," he jokes.

#### Signing

The two happened to meet at their mutual publishing company, and at their first writing session

Archer/Park

battled around the idea of working as a duo. Their first time singing together at a demo session for four of their songs yielded them a record deal when co-writer **Bobby Barker** passed along the tape to manager **Estill Sowards**. Sowards alerted Atlantic/Nashville to the duo, and they signed with the label soon after.

#### Songs

Each an accomplished songwriter and singer in his own right, Archer and Park trade vocals (four each) on their LP. Their debut single, "Where There's Smoke," was co-written by **Mark Collie** and appeared on Collie's "Hardin County Line" LP.

• Archer also has cuts on **John Michael Montgomery's** "Kickin' It Up" LP, **Tim McGraw's** "Not A Moment Too Soon" project, and a recent album by **Hank Williams Jr.** He says their almost instant success has taken him somewhat by surprise. "I was real shocked — it came out of nowhere. Neither one of us came to town planning on being a partner in a business or onstage, but I'd have to say it feels great! Now I can't imagine not being a part of this."

"The blues is what I do best. And that's been given to me to do. As much as I've questioned it and railed against it, and been stubborn about my path, I'm back on it. This is me, in terms of my musical identity; where I've come from and what I mean. And wherever I go in the future will be as a result of this."

Clapton plugs back in August 24.
