KSAN Tower Takes Tumble In Tumultuous Torrent Of Wind

Brutal winter weather battered radio stations around the country this week. Stranded staffers at **WSJZ/Bufalo**, for instance, dined on microwave popcorn and coffee over the weekend while 38 inches of snow fell outside in just 24 hours.

But no station suffered as badly as **KSAN/San Francisco**. The Country outlet's 205-foot tower atop Mt. San Bruno was felled by 100mph wind gusts Tuesday morning (12/12), silencing the station for five hours. It returned to the air — thanks to the facilities of **Shamrock** co-owned **KBBG** — with **Aaron Tippin's** "There Ain't Nothin' Wrong With The Radio."

Evergreen Awarded Short-Term Waiver For Chicago Stations

■ FCC issues approval with some reluctance

In an unprecedented step, the FCC last week allowed **Evergreen Media Corp.** to temporarily own a record-setting seven Chicago radio stations — five FMs and two AMs. Evergreen also won permission to exceed the ownership limits in Charlotte, NC.

Evergreen had requested a 12-month waiver of the local ownership rules in order to facilitate its acquisition of the **Pyramid Communications** stations. However, the agency granted only a six-month grace period for Chicago. Two commissioners — **Andrew Barrett** and **Susan Ness** — offered reluctant support for the waiver. Barrett's concern stemmed from worries about excessive media concentration. Ness's hesitation was prompted by the fact that Evergreen has not sold two Chicago stations it is operating under a prior waiver.

"Evergreen has not sought expeditiously to divest the two FM stations it now temporarily owns

[in Chicago]," said Ness in a written statement.

Waiting On Telecom

Evergreen may not feel pressed to sell because of the proposed telecommunications bill, which would remove ownership limits. "We obviously want to see what the telecom does," said Evergreen President/COO **Jim de Castro**, who added that the company was prepared to sell the stations in the event the bill does not pass before the waiver expires. "We have been looking at all kinds of deals," he said. "There are plenty of people interested in performing Top 10 stations. There is a tremendous amount of interest in Charlotte as well."

Evergreen's Chicago holdings now include **WMVP-AM**, **WEJM-AM & FM**, **WLUP-FM**, **WNUA-FM**, **WRCX-FM**, and **WVAZ-FM**. Unless pending legislation to eliminate FCC ownership caps becomes law, Ever-

ARS-Marlin Marriage Latest Merger To Hit The Skids

■ What's the deal with the dying deals?

By **ROY FURCHGOTT**
R&R WASHINGTON BUREAU

American Radio Systems last week withdrew from its \$70 million agreement to buy **Marlin Broadcasting's** three stations, and the industry is trying to understand why group sales suddenly seem to be struggling and falling by the wayside.

Just a few weeks after the **Citicasters-OmnAmerica** deal fell through, more sales appear to be faltering. U.S. Radio may announce at any time that it is taking its stations off the block. And **Prism Radio Partners** has been besieged by rumors that low bids would cause the group to scrap its plan to sell, although the group says it's going ahead — even though the sale may take longer than expected.

What's happening to the radio station market? A soft advertising climate, regulatory jitters, and

dropping stock prices have put a lid on the seemingly unlimited ceiling for radio pricing. And as dollars drop off, it has become harder to close deals.

Lenders Get A Grip

"There's a reason deals are falling through," said broker **Gary Stevens**. "The business got a little bit ahead of itself, and for a few minutes there was a prevailing belief that there was no top. The money lenders have gotten a bit of a grip on it."

ARS is not commenting on the Marlin deal,

but sources familiar with the negotiations said the company asked for a lower price at closing because the Marlin properties had underperformed projections. Marlin President/CEO **Woody Tanger** would neither confirm nor deny the assertion.

Tanger said that in the wake of

WLS-FM President/GM Gregg Lindahl commented, "Ted is one of a handful of people known as premier architects

of successful Country radio stations. He's done it for **Capital Cities/ABC** before in Atlanta and Dallas, and he heads up the product effort for three No. 1 radio stations right now. He's the perfect first addition to our team and solidifies our serious commitment to our success in Chicago."

Stecker said, "It's a thrill to be coming back to **Cap Cities/ABC**. It's truly a wonder-

Christmas music could be an important element of your programming next week, particularly if your station appeals to young adult women.

A **Paragon Research** survey of 321 adults found that nine in 10 people were fond of listening to Christmas music during the week leading up to December 25. The results were rather even across the adult demographic spectrum.

Radio was the preferred choice as the source of holiday music — it was selected by nearly 80% of the respondents. (CDs and cassettes were chosen by 72%; no other category came close.)

The deal is the culmination of discussions between Resource and CMI partners **George Kristie, Michael O'Shea, and Lance Anderson**, who were interested in buying the Resource stations. Telecommunications Bill Stalled As Time Runs Short

Sen. Larry Pressler (R-SD) opened the telecommunications session on Tuesday (12/12), saying, "It would be my dream that we could be signing the conference report at the end of the week."

But the committee said there would be no bill this week.

The bill, which would eliminate the FCC's radio ownership limits, seems mired by conferees who sniped at each other and voted to accept preliminary recommendations on cable and phone issues.

No Final Resolutions

Pressler acknowledged that the conferees had yet to discuss several major issues, including broadcast ownership. Rep. Sheila Jackson Lee (D-TX) complained that the committee didn't seem to be moving the bill forward. "Many of us came to this committee with the

intention of rolling up our sleeves. There have been only three meetings."

The first of those meetings was largely ceremonial. During subsequent meetings, participants voted to accept 46 resolutions worked out by staff members. But this is basically meaningless — none of the resolutions has been written in final form. Committee members will vote again on the resolutions before they go to the floor for a general vote.

The proposed resolutions include several that would directly affect radio:

- Lengthening license terms from seven years to eight years
- Streamlining the renewal process
- Boosting the penalty cap for broadcast obscenity from \$10,000 to \$100,000

Rep. Thomas Bliley (R-VA), Chairman of the House Energy & Commerce Committee, said, "These are principles" that were being voted on, which raised the ire of Democrats, who implied the Republicans were trying to draft the bill privately and force it through for resolution.

'Pushing Jello Uphill'

Rep. Pat Schroeder (D-CO) complained that her staff was being kept away from working sessions, an accusation that Republicans denied. Following an exchange with Pressler and Bliley, Schroeder left the meeting,

muttering under her breath.

Democratic conferees fretted they wouldn't have time to review final amendments before voting. "Are we rushing to judgment to get a vote on the floor this week?" asked Jackson Lee. And Bliley conceded, "There is no way we are going to be ready for a floor vote on Thursday [12/14]."

Pressler, who chairs the conferees, urged the committee to press ahead and get the bill resolved before Christmas break. "This is like pushing Jello uphill," he lamented.

Jackson Lee said broadcasters shouldn't lose hope if the bill does not go through before the break. "I don't want the consumer public to perceive a post-Christmas continuation as a lack of commitment to get this done."

Asked if it was even possible to reconcile the weighty issues before the break, she said, "I am a girl who is still ready to roll up her sleeves."

FCC Backlog Defies Thaw Effort

The FCC's attempt to thaw a backlog of frozen radio licensing proceedings has apparently had about as much success as using a lighter to melt a glacier.

With the Thursday (12/14) deadline looming, few applicants had taken advantage of the Commission's temporary waiver of the greenmail rules to settle frozen licensing proceedings.

The greenmail rule bars license applicants from paying a competing applicant more than out-of-pocket expenses to withdraw its request.

90-Day Waive Not Helping

The FCC waived the rule for 90 days to clear a logjam caused by the agency's decision to freeze license proceedings in the wake of two federal court decisions questioning the agency's criteria for awarding broadcast frequencies. At issue are the Commission's minority preference and owner-management integration policies.

The FCC had believed that waiving the greenmail rules would allow the parties involved in 500 pending applications to settle their differences among themselves. But with just days to go, only seven settlements representing 16 applications had been settled.

However, the agency was braced for a last-minute flood. "I know a bunch [of settlements] are in the works," said FCC Supervisory Program Analyst James Crutchfield. "I hope we receive at least 20 to 30."

Crutchfield suspects that many applicants may be holding until the deadline. Communications attorney Harry Cole, who hopes to clear three to five settlements by the deadline, said other cases were held up by a bottleneck with the FCC's administrative law judges (ALJs).

According to Cole, there are cases before ALJs in which one party is ineligible for a license for reasons other than comparative standards — such as not meeting financial or engineering requirements. But the judges aren't issuing rulings on those matters until the freeze is lifted, so applicants who would be disqualified are holding license proceedings hostage, demanding payment to go away.

Cole has petitioned the FCC to order the ALJs to winnow applicants who can't meet basic requirements. The petition also asks that applicants eligible for the waiver but held up in this way be given an additional 90 days to settle.

Another Merger Gets FCC's Blessing

The FCC granted Chancellor Broadcasting a 12-month waiver of local and national multiple ownership rules to enable the company to complete the \$395 million purchase of Shamrock Broadcasting.

It also granted a 12-month waiver of the local ownership limits. Chancellor owned nine FMs and five AMs. Shamrock had 12 FMs and seven AMs.

The waivers permit Chancellor to own three FMs and two AMs with overlapping signals in the Minneapolis-St. Paul area. Although that exceeds the number of allowable stations in one market, the market share of the five stations is 17.1% — well below the 25% limit.

Chancellor is privately held by Hicks, Muse, Tate & Furst and Chancellor President/CEO Steve Dinetz. Shamrock was primarily owned by the Roy Disney family.

Media Groups Want Pirate To Walk The Plank

The FCC is attempting to obtain an injunction against private radio operator Stephen Dunifer. He claims he has a constitutional right to broadcast without an FCC license at a power level that exceeds FCC limits. Dunifer is also

arguing that the Communications Act of 1934 unconstitutionally restricts free speech.

The NAB, Radio Operators Caucus, and the Association for Maximum Service Television have filed a friend-of-the-court brief supporting the Commission with the U.S. District Court in Oakland, CA.

The media groups say because some of Dunifer's arguments attack FCC rules, they fall under the jurisdiction of the U.S. Appeals Courts, not the District Courts. They also argue that the Communications Act is constitutional, and the FCC's licensing policies are reasonable. In their brief, the groups claim that there is evidence Dunifer broadcast on three different FM frequencies and interfered with the signals of surrounding stations.

Dunifer could not be reached for comment.

FCC Shifts Towering Responsibility

Late last month, the FCC adopted new rules which make painting and lighting towers the responsibility of the tower owners — not just the licensees.

To make things more fair for all concerned, the Commission now says that tower owners will be the primary contact if problems arise, but licensees will have to stay on top of their towers — so to speak — since responsibility shifts to them when the Commission can't reach the tower owner. The FCC also has indicated that it doesn't have to notify licensees when they

can be deemed responsible for the tower.

Owners are responsible for registering their towers with the FCC if they require FAA approval.

As a result of the new rules, the FCC estimates that the time for processing a clearance request will be reduced from 32 to 10 days. Licensees should save about \$17 million.

"Left Bank is a forward-thinking company that can focus on an artist's needs, from recording to marketing to touring," Tenenbaum said. "It's innovative and creative and refuses to do things the old-school way. That's why I'm excited to be here."

Tenenbaum began his career in college promotion at Atlantic Records, where he spent a dozen years in local, regional, and national positions before moving to MCA.

Kaplan Promoted To Dayton Trombo OM

Great Trails Broadcasting has promoted WGTZ-FM and WING-AM & FM/Dayton PD Louis Kaplan to OM, overseeing all three properties.

"Over the last three years, Louis has done a great job as PD of CHR Z93, News/Talk WING-AM, and the Classic Hits format on WING-FM," GM David Macejko remarked. "When I saw Louis was wearing a name tag home so his wife would recognize him, the thought crossed my mind that perhaps the 14-hour days were a bit much."

Kaplan commented, "Working with all of these stations has been an exciting juggling act. With increased competition in the market and increased resources at Great Trails Broadcasting, one of my first orders of business will be to bring in another programmer to focus full attention to WING-FM."

Kaplan's resume includes positions as WJHO/Opelika, AL PD; WAPI/Birmingham Research Director/Asst. PD; and most recently WYHY/Nashville PD.

Plummer Steps Out From Shadow, Becomes Flinn Broadcasting Group Head

Kaysie Plummer has been named Group Head for Memphis-based Flinn Broadcasting. She most recently served as Sr. AE for Shadow Broadcasting in San Diego.

Plummer will supervise management, sales, and programming for Nostalgia WNWZ-AM/Memphis, Sports/Talk WHBQ-AM/Memphis, and Alternative simulcast KDRE-FM/Little Rock & KFTH-FM/Memphis. She will have similar duties for Flinn's television properties — WFBI/Memphis, KDEN/Denver, and WCCL/New Orleans.

"Everybody is very excited about having Kaysie join us," President George Flinn told R&R. "She brings a spark of enthusiasm that hasn't been seen in the Memphis market for a long time."

"I appreciate the confidence and responsibility George Flinn has given me — to work with his organization and bring these stations to the top of their market potential," Plummer commented. "There are opportunities for growth in the sales departments and in raising the awareness and identity of the stations."

Plummer previously worked as an AE at KYXY-FM/San Diego, KCBQ/San Diego, and XHTZ/San Diego.

Fleenor Adds WDOL/Dayton PD Duties

AC WLQT-FM/Dayton programmer Mary Fleenor has taken on additional duties as PD of co-owned Regent Communications Oldies outlet WDOL-FM. WDOL midday personality Kathy Lane segues to afternoons and becomes Asst. PD.

VP/GM Don Griffin remarked, "Mary's become a very valuable person for WLQT, and we feel she should be the person leading WDOL's programming efforts. Since WDOL is a new station, the company expects a slow growth pattern."

Fleenor was promoted from WLQT MD to PD this past August. She previously was OM for WVUD (WLQT's previous incarnation) and spent 10 years at KHOZ/Harrison, AR — the last four as PD.

'ZINE SCENE

Black Music Moguls: Notable Quotables

While *Newsweek's* five-page feature on black-owned record labels' struggle for control of their assets mentions **Russell Simmons, Dallas Austin, L.A. Reid & Babyface Edmonds, and Suge Knight**, it's **Andre Harrell** ("I had fake control"), **Sean "Puffy" Combs** ("We create the pie and get to keep the crust"), and **Clarence Avant** ("They've got to learn to count well") who provide the most-telling quotes.

Meanwhile, producer-rapper-**Death Row Records** principal **Dr. Dre** — the subject of a related story — adds, "**Quincy Jones** is my mentor in every aspect, and I want to be out there just like him, doing things, still being in the mix."

Love & Happiness

People cover star **Whitney Houston** is the subject of a six-page feature that centers on her recent reconciliation with hubby **Bobby Brown**. Meanwhile, the *Globe* publishes the list of things the couple has agreed to do to make their marriage work. And ... the *Star* reports **Brown** went to **Sean "Puffy" Combs's** 25th birthday party — and left with a leggy beauty — the same night that **Whitney** was being honored with an artistic achievement award.

The members of **Van Halen** and their wives are pictured at the party following frontman **Sammy Hagar's** recent (11/29) marriage to model **Kari Korte** (*People*).

The *National Enquirer* publishes an excerpt from **Jermaine Jackson's** former common-law wife's book ("Jackson Family Values") that claims **Joe Jackson** fathered a child with a "party girl." **Jermaine** showed his love child to his pregnant wife, and that **Jermaine** stole brother **Randy Jackson's** live-in lover and married her.

And ... **Julia Roberts** and estranged hubby **Lyle Lovett** were spotted a-huggin' and a-kissin' in a Sante Fe cafe (*National Enquirer*).

Madonnarama!

Two highlights from cover girl **Madonna's** *Spin* interview: "We have to realize that the same country that acquitted O.J. is the same country that makes a complete piece of shit movie No. 1, that buys **Mariah Carey** records" and "I am fascinated by her [**Courtney Love**], but in the same way I am by somebody who's got Tourette's syndrome walking in Central Park."

Meanwhile, the *Globe* reports **Madonna** and ex-hubby **Sean Penn** were seeing each other for weeks prior to their "impromptu" reunion on the **VH1 Fashion & Music Awards**. (The *Star* says this ain't so.)

The *Star* also reports that **Madonna** offered to pose for the cover of **John F. Kennedy Jr.'s** new *George* magazine — in exchange for a date.

Sick, Sick, Sick

Wynonna Judd underwent liposuction for the second time in six months (*Globe, National Enquirer*).

Although **Howard Stern's** "secret battle with mental illness" makes the cover of the *Globe*, the story is just a rehash of the obsessive-compulsive disorder recounted in his book.

Howard Stern

While **Kathie Lee Gifford** tells *TV Guide* "I always pray for those who decide to be my enemy," noted **KLGB** basher **Howard Stern** answers, "she's still singing **Rosemary Clooney** songs. What's that all about?"

"In the old days words like sin and Satan had a moral certitude. Today they're replaced with self-help jargon, words like dysfunction and antisocial behavior, discouraging any responsibility for one's actions" — **Don Henley** analyzes the message behind his new "The Garden Of Allah" single (*People*).

Radio Picks Hits

AC WEAT/West Palm Beach MD Chad Perry (**Jude Cole's** "Believe In You"), **CHR KLDK/Grants Pass, OR's Chad Bower** (**Natalie Merchant's** "Wonder"), and **WFUV/NYC's Rita Houston** (**Ron Sexsmith's** "One To Watch") pick the future hits in *Entertainment Weekly*.

"I love her, and all of us in the music department respect her enormously as an artist. So even though we didn't hear 'Down By The Water' as a hit, we were like, 'Just maybe.' We had our fingers crossed" — **KROQ/L.A. MD Lisa Worden** on *Spin's* Artist Of The Year, **PJ Harvey**.

So You Wanna Be A Multi-Media Star?

Chrissie Hynde showed up wearing a loofah as a hat at the **VH1 Fashion & Music Awards** (*People, Entertainment Weekly*).

Courtney Love will play the late wife of **Hustler** publisher **Larry Flynt** in the forthcoming "The People vs. Larry Flynt" film (*Entertainment Weekly*).

Speaking of multimedia crossover potential, the recent film appearances of musicians **Robbie Robertson, Henry Rollins, Marky Mark, Lou Reed, Ice-T, Harry Connick Jr., John Doe, and Jon Bon Jovi** are charted in *Entertainment Weekly*.

"You won't ever see me walking into a room and saying, 'Who here could benefit my career?'" — *Rolling Stone* cover star/**Green Day** frontman **Billie Joe Armstrong**.

Each week *R&R* sneaks a peek through the nation's consumer magazines in search of everything from the sublime to the ridiculous in music news. *R&R* has not verified any of these reports.

STREET TALK®

WWDB-FM/Philly – Money Talks!

Talk WWDB-FM/Philly is airing infomercials in prime dayparts. Any business that has advertised on the station during 1995 is eligible to buy an on-air interview with a WWDB host — including morning driver **Paul W. Smith**. According to GM **Dan Sullivan**, the segments can last anywhere from 15 minutes to an hour — with the air personality asking questions suggested by the advertiser.

The infomercial programming — which Sullivan refers to as "an extension of our customer appreciation efforts" — started around Thanksgiving and will run through December. Sullivan said he doesn't know how many of the paid interviews have aired, adding the station hasn't received any complaints about them. However, the segments haven't gone unnoticed.

ST hears WWDB has aired at least 20 of the paid chats, and that recently the station aired infomercials on either side of an interview with the governor of Pennsylvania.

RED Distribution Prez **Sal Licata** adds duties as President of **Sony's TriStar Music Group**, replacing the exiting **Bob Buziak**. In his new post, Licata will oversee TriStar — a label formed to introduce Sony's foreign artists to the domestic market — as well as Sony-owned **Relativity Records**.

KMXV/K.C. PD/MD **Steve Wall** exits. **KMXV OM** and sister **KUDL OM/PD Tom Land** takes over interim **KMXV PD/MD** duties. Look for the station to evolve into an Adult CHR direction.

Rumors

- Are most of the candidates for the **KYSR (Star 98.7)/L.A.** starting off on the wrong foot by sending traditional morning show tapes? Is **KYSR** looking for a show that thinks out of the box? Is former **KGGV/Riverside** morning dude **Hollywood Hamilton** a serious contender?

- Will the **Z100/NY** morning slot be filled by recently resigned Hot AC **WPNT/Chicago** morning star **Steve Cochran**? Or **Atlantic** comedy recording (and film) stars the **Jerky Boys**? Or will Cochran be making his new home in Boston?

- After extensive market research, has **KXEZ/L.A.** decided to remain AC? Will a new PD arrive shortly?

- Is **Atlantic Sr. VP Janet Billig** leaving to form her own management company?

Abbey Konowitch exits his **Maverick Records** VP post.

The Box Is History

Time-Warner Cable-New York will drop the **Box** for the **History Channel**, effective January 2. The **Box** is battling back with a "Back The Box" campaign, mailing subscribers more than 2 million protest letters geared toward getting cable operators' support.

Meanwhile, support is pouring in from artists — ranging from **Madonna** to **Michael Jackson** — as well as label heads, including **Arista's Clive Davis** and **Virgin's Phil Quartararo**.

KZLA/L.A. PD **R.J. Curtis** exits. **APD/MD Cary Rolfe** becomes acting PD. Although **Chancellor** will take over the **Shamrock** outlet shortly, it intends to keep the station Country.

Although **WAXQ/NY** won't be bringing **Mancow Muller** in for mornings, the station has announced plans to find a prolific, personality-driven morning show.

Urine The Money

During a recent discussion about bathroom advertising, Alternative **WXWX & WXWZ/Greenville, SC** GM **Sam Church** and PD **Rick Schmidt** came up with an innovative, low-dough ad campaign — station urine screens.

Last week, **WXWX & WXWZ** received 400 urine screens imprinted with the station's 103X logo and slogan ("Another Peon Radio Station"). Station staffers dutifully deposited the screens at local restaurants, bars, and clubs.

The campaign has already generated such comments as "Hey, when I was going to the bathroom I saw your thing. That's pretty funny." The screens cost 103X less than a buck a unit and reach a captive audience. Can we call this the promo leak o' the week?

WLUP/Chicago afternoon delight **Danny Bonaduce** was tapped to fill in for late-night TV talk host **Stephanie Miller** this week. **Bonaduce** took the week off to host the L.A.-based TV show.

Condolences to the friends and family of former **Billboard** editor-in-chief/publisher **Lee**

IT'S MORE THAN A JINGLE. IT'S A FIGHT SONG IN THE BATTLE FOR RATINGS.

Perhaps the single most important weapon in your promotional arsenal is your ID package. It also happens to be our specialty. We create knockdown, blow-back-your-hair, station ID's that really stand out. No *same* musicians *same* singers another *snooze pill* jingle like your competitors get in Dallas. Armed with the hottest composers, musicians and singers in LA and New York, we'll create an ID that makes your call letters dominate the dial, not to mention your market. Some of the biggest stations in the world have come to us, like B-96 / Chicago, Rick Dees Weekly Top 40, Capital Radio / London, RTL/Berlin, N-Joy Radio / Hamburg, Antenne Bayern / Munich, Kiss-FM / Athens, Tokyo FM, WMZQ / Washington D.C., WKLB / Boston, BBC Radio 1 U.K., and (your station here?). For a world-class ID package of your own, call us. Because if ratings are truly a war, it's best to have the other guy sweating bullets.

Marlin's sales underperformance was not extreme, according to the source, who attributed it to two causes: the softening ad sales market and AEs who — knowing the station was being sold — spent as much time gossiping and job-hunting as selling.

Another factor that affected the ARS-Marlin deal most likely affected the Citicasters-OmniAmerica deal

Santos said no decision has been made regarding a possible split.

Santos, who has consulted market-leading **Spanish KLVE/Los Angeles**, recently resigned his position as **Director/Programming** for **HefTel Texas**. He has also programmed such Spanish outlets as **KKHJ/Los Angeles** and **KMMM/Fresno**.

"**KEYH** will sound very upbeat with a Mexican appeal, playing **Los Bukis**, **Ramon Ayala**, with a little bit of **Banda Machos**. It's really dance music with an accordion beat," **Santos** explained.

While **Tichenor's KTLN & KLTO** simulcast leads all Spanish-speaking **Houston** properties in the latest **Houston Arbitrends** with a 3.5, the combined strength of **El Dorado's KEYH** (which had been **Classical** until four months ago), **KXTJ-FM**, and **KQQK-FM** makes it the **Spanish broadcaster** with the broadest reach, with a 4.7.

"The **Spanish market** here is like **L.A.** 10 years ago," **Santos** told **R&R**. "It's just growing and growing."

Talk Radio's 'Year Of The Juice'

□ Limbaugh, Liddy, Cuomo, and baseball figure into format's story in '95

It's December: time for holiday parties, angst about a possible bonus in your paycheck, and far-too-predictable year-in-review stories.

Have fun at the first and good luck with the second. As for the third, most Talk radio pros will remember 1995 as "The Year Of The Juice."

O.J. Simpson's trial and acquittal on double-murder charges dominated the format for the better part of 10 months. Moving to capitalize on the public's seemingly insatiable appetite for this real-life soap opera, News and Talk stations took every conceivable approach to the story.

At least 15 stations (including major-market outlets KNX/Los Angeles, KPIX/San Francisco, WOL/Washington, and WMAQ/Chicago) offered gavel-to-gavel trial coverage. Many stations carried network-fed hourly updates on the case. Others aired nightly summaries of the day's proceedings.

Masses Responded

According to a Katz Radio Group study, stations carrying gavel-to-gavel coverage of the Simpson trial during the Winter 1995 Arbitron survey averaged a 173% increase in 25-54 AQH over the Win-

ter 1994 book (R&R 7/28).

Many winners (and losers) in the spring and summer Arbitron races owed their fate to Simpson trial coverage. Among O.J.'s victims: WFLA/Tampa and WGR/Buffalo, both of which blamed their weak summer numbers on crosstown all-O.J. outlets (R&R 11/3).

After the verdict, things began changing. By the time O.J. had winged to Florida with Paula Barbieri in mid-October, most Juice-upped stations were feeling a little lonely. According to a recent study by Paragon Research, 42% of those who tuned to O.J. coverage have since abandoned their trial station (R&R 12/1). Among the 18-34 crowd, the exodus is even more dramatic, with 54% of trial addicts in that demo no longer tuning to their O.J. outlet.

Rush's Soft Summer

The public's fascination with O.J. also received partial blame for one of the most talked-about phenomena of the year: Rush Limbaugh's

soft summer numbers. The big man's numbers were flat or slightly off at many stations, including some of his Top 10 outlets.

Many PDs speculated that some of Rush's "dittoheads" temporarily defected to eavesdrop on the Simpson circus. But Limbaugh's performance also prompted a debate over whether Talk listeners are sick of political shows (R&R 9/1). When the navel gazing is over, most programmers agree the audience isn't tired of politics. They're just tired of poorly done political talk shows.

Talk's Big Bang

The May bombing of an Oklahoma City federal building was a hot talk topic — and more. The tragedy shoved the format into the white-hot glare of public scrutiny as President Clinton and others suggested that

the often-angry rhetoric heard on Talk stations fuels anti-government extremism.

Chief lightning rod for those allegations was Westwood One macho talker G. Gordon Liddy, whose anti-ATF rantings and tips on shooting body-armored federal agents drew the ire of his critics. In a bid to show support for Liddy (while gaining some publicity for itself), the National Association of Talk Show Hosts (NARTSH) leadership voted to give the controversial yakker its 1995 Freedom of Speech Award. Unfortunately, that decision led to internal dissension that exploded into public spectacle at NARTSH's June convention in Houston (R&R 6/30). In the wake of the confab, several NARTSH stalwarts resigned from the group and announced plans to form their own talk host organization.

The Oklahoma bombing did prompt some discussion of just how much venom callers should be allowed to spew (R&R 5/5). Most PDs came down on the side of allowing as much freedom as possible, even for obvious nut cases. As KARN/Little Rock OM Dale Forbis explained, it's best to allow the hatemongers to have their say, especially since the host can rip them apart after the idiocy of their ideas is exposed.

Spring 1995 brought the long-anticipated Talk debut of former New York Gov. Mario Cuomo, who had been on many PDs' fantasy "dream lineup" for years. As the year winds down, the verdict

is still out on Cuomo. His SW Networks Saturday morning show is carried by some 42 affiliates, including two Top 10 market stations. The summer Arbitron, his first book, offered mixed results. One possible sign that Cuomo has strong potential: Rival network execs are loudly and shamelessly bashing his show to everyone who will listen.

Major League Concerns

Spring was a bitter season for some News/Talk stations that carry Major League Baseball, with fans venting their anger over the 1994 baseball strike by staying away from the stadiums in droves. Among the stations suffering baseball-induced spring ratings slumps were KDKA/Pittsburgh, WGN/Chicago, and WGMP/Philadelphia (R&R 3/10, 8/4).

Running like a babbling brook beneath all the hoopla were the usual never-ending stories, including: the continued limited role of minorities and women in Talk radio (R&R 4/21, 5/26); when and how to use syndicated programming (R&R 9/8, 9/15); the future of FM Talk; the format's impact on politics (R&R 2/24); and the continued glut of syndicated programming.

1995: The Best Of R&R

□ A year filled with cutting-edge innovations

This past February, R&R introduced *Callout America*, the first and largest weekly national/regional survey of radio listener attitudes about popular music.

With a weekly sample size larger than MTV's and VH1's combined, *Callout America* gave CHR/Pop programmers an invaluable tool to help them find the hits every week. Data could be sorted by total score, by demos (12-17, 18-24, and 25-34), and by region (East, South, Midwest, and West). Programmers looking for the *real* hits without the hype have found them in *Callout America* every week ... only in R&R.

Custom Charts

It's no secret that a majority of radio programmers examine the playlists of stations they respect to spot music trends or identify how particular songs may be performing. To assist these programmers, R&R developed Custom Format Charts. Custom Charts allow you to create music charts using any combination of sources you'd like. You can cross-reference music data any number of ways: by market size, formats, or even pick out stations individually. For example, if you're at KIIS/Los Angeles — and each week you look at the playlists of KHKS/Dallas, KKFR/Phoenix, and KQKS/Denver — you can create one chart based on those three stations' playlists. The service is free to all R&R reporting stations and labels that subscribe to R&R ONLINE.

Taking the Custom Chart concept a step further, R&R debuted two new weekly charts in September. R&R is the only place you can get Pop/Alternative and Hip-Hop Top 20 charts. R&R developed these custom charts to give proper recognition to the increasing number of titles crossing between Pop and Alternative, Urban, and Rhythmic formats.

The Pop/Alternative Top 20 can be found on the CHR/Pop New & Active page, and the Hip-Hop Top 20 can be found on the CHR Rhythmic New & Active page.

On The Web

As the year came to a close, we debuted the R&R New World Wide Web site at <http://www.rronline.com>. Designed with your input, the R&R Web site includes links, news, Street Talk, ratings info, photos, info booth, and coming soon music, videos, and Job Opportunities.

dollar week with the sale of CBS Radio to Westinghouse and Capital Cities/ABC to Disney ... WABB/Mobile PD Cruze exits for KTBZ/Houston ... XHTZ/San Diego PD Lisa Vasquez adds OM duties ... AN R&R SANDWICH — As you can tell, we were more than happy to play host to Chynna Phillips when she paid a visit to our offices. Flanking Phillips are CHR Asst. Editor Paul "Damn Bueno" Colbert (l) and CHR Editor Tony "C'mon man" Novia.

FOOD-A-BAGO A GO-GO — WOVV/West Palm Beach's Joe Mama and Taylor Morgan filled a Winnebago during a holiday food drive. It was the duo's last promotion before 'OVV flipped to Country.

ALL-2-ONE — Half of All-4-One paid a visit to WBHT/Wilkes-Barre for an on-air interview. Gathered in the studio are (l-r) WBHT Promotion Dir. Tim Puttrie and overnigher A.B. Love, All-4-One's Delicious, 'BHT PD Kid Kelly, the group's Tony Borowiak, and station APD/MD Danny Ocean.

GET THEIR MOTORS RUNNING — WFKS/Daytona Beach's Marc and Mindy morning team donned biker gear to help celebrate Bike Week, which annually draws 50,000 bikers.

Mary J. Blige & Notorious B.I.G. with the Hot 97 Posse

STRAIGHT OUTTA THE SUBWAY — WQHT (Hot 97)/New York is having great success with its new outdoor campaign, which shows Hot 97 staffers with several artists. One problem, though: As the posters, like this one, are being put up, fans and listeners have been stealing them before the glue dries!

STAYS FUNNY EVEN IN MILK! — The KYLD (Wild 107)/San Francisco Doghouse had a soggy good time broadcasting from inside the world's largest bowl of cereal. Swimming in crunchy goodness are Doghouse members Elvis, George Lopez, J.V., and Hollywood, along with KTVU-TV reporter Sal Castenada.

WALT LOVE

One Tough Year

Like other formats, we had a lot to shoulder as movement was tumultuous for Black radio stations and music divisions over the past year. The format witnessed major consolidations, fragmentation, and record executive shuffling. Adding to the fray was the continued creation of duopolies. Yet through it all, Urban grew in both staying power and maturity.

The silver lining is that the format posted exceptionally good ratings. And every VP/GM and GSM I've spoken with tells me revenues are up for the year. **WBLX/Mobile GSM/NSM Lee Armstrong-Clear** says his No. 1-rated station had over a 100% power ratio (revenue-to-ratings ratio) as the top-billing station in the market. And his situation is unique.

Major Changes

Among the biggest events in the format was the sale of **Broadcasting Partners Inc.**, one of the largest black-owned media companies, to **Evergreen Media Corp.**, which acquired powerful new duopolies and a large major-market Urban presence. This was also the year that Congress repealed the FCC's Minority Tax Certificate program, which has been devastating for black/minority/female ownership opportunities.

Community Involvement

One of the mainstays of UC radio has been its community involvement all over the country, and during the past year our stations have fought for the betterment of society perhaps more than any other format. We've organized events aimed at curbing violence, im-

proving education, and imparting self-respect among our teenagers.

WQUE-FM/New Orleans staged its third successful "Teen Summit," drawing approximately 10,000 young people and their parents to the University of New Orleans arena. **WUSL/Philadelphia** and crosstown **WDAS-AM & FM** did similar community-oriented annual events in their city to huge crowds. And stations such as **WBLK/Buffalo** held annual town meetings where local community leaders fielded hard questions from citizens.

Shared Secrets

In several columns during the course of the year a number of PDs and other radio executives shared their secrets of success in the hope that others might learn. Among my favorite columns was one I wrote in February with **Darryll Green**, VP/GM at **WGCI-AM & FM/Chicago**, about an **RAB UC** workshop that addressed unique ways to generate revenue and respect for the format. I also enjoyed exploring the benefits of tapping into the new digital technology with **WRKE/Ocean City** owner/GM **Tony Quartarone**.

My thanks go out to others who contributed valuable information throughout the year, including **WJTT-FM & WNOO-AM/Chattanooga** OM/PD **Keith Landecker**, **WWWZ & WMGL/Charleston** owner/PD **Cliff Fletcher**, **KQXL & WXOX/Baton Rouge** PD **Chris Clay**, **WJN/Dothan, AL** PD **Larry Steele**, **WENN-FM & WAGG-AM/Birmingham** VP/GM **Charles Richardson** and PD **Dave Donnell**, **WJLB-FM & WMXD-FM/Detroit** President/GM **Verna Green** and her two programmers — **Michael Saunders** and **Skip Dillard**, **WVAZ-FM/Chicago** PD **Maxx Myrick**, and **WHQT/Miami** PD **Tony Kidd**.

Another Solid Ratings Year For Urban

Earlier this month when the Summer '95 ratings came out, a number of UC radio stations were ranked #1 in their markets. **WJLB/Detroit**; **WVEE/Atlanta**; **KKDA-FM/Dallas**; **WENN/Birmingham**; **WQUE/New Orleans**; **WEDR/Miami**; **WJIZ/Albany, GA**; **WJMI/Jackson, MS**; **WFXA/Augusta**; **KQXL/Baton Rouge**; **WHRK/Memphis**; **WWWZ/Charleston**; **WWDN/Sumpter-Columbia, SC**; **WBLX/Mobile**; **WOWI/Norfolk**; **WQOK/Raleigh**; and others are positive beacons of hope. It takes a lot to win in this format, competing in the general market for their place of excellence, and these accomplishments should not be glossed over.

The year nearly upon us is shaping up to be a very pivotal one for our format. Now that all the fragmentation has taken place, it's time to see what shakes out and what has the staying power to show positive cash flow and revenue gain for the long haul.

Who Went Where & What Went On in '95

Here's a chronological look at the some of the moves that mattered.

January

- **Ernest James** returns to radio at **Clear Channel/New Orleans**, where he replaces **Jim Snowden** as VP/GM of the company's four-station duopoly: market-leading **UC WQUE-FM**, **UAC WYLD-FM**, Gospel **WYLD-AM**, and Sports **WQUE-AM**.
- **Ollie Brown** becomes Sr. VP/A&R at **Click Records**, the newest division under the **Dick Clark Productions** banner.
- **Doug Daniel** returns to **Elektra** for the second time as Sr. VP/Black Music Promotion.

February

- **Evergreen Media** purchases **Broadcasting Partners Inc.** for an estimated \$243 million. Evergreen — already in the Urban business in a big way with **KKBT/Los Angeles** — also nabs UAC format leaders **WVAZ/Chicago**, **WEJM-AM & FM/Chicago**, and **WPEG-FM & WBAV-AM & FM/Charlotte**.
- Congress repeals the FCC's Minority Tax Certificate program.
- Former **WVAZ** PD/Operations Director **Ron Atkins** joins **WAMO-FM/Pittsburgh** as PD.
- **Maxx Myrick** is promoted from MD/interim PD to PD at **WVAZ/Chicago**.
- **Manny Bella** joins **Capitol Records** as VP/Urban Promotion & Marketing.

March

- **WCKX/Columbus, OH** VP/GM **Vince Fruge** moves up to the VP/GM post at **WIZF/Cincinnati**.
- **Denise Brown** becomes Sr. VP/Black Music at **Warner Bros. Records** while Sr. VP/Marketing & Promotion **Ray Harris** remains a consultant to the company. **Greg Peck** is named Sr. VP/Black Music Marketing & Promotion.
- Longtime black music industry executive **Skip Miller** leaves **RCA Records**, where he was Sr. VP/Black Music.

May

- At **WIZF/Cincinnati**, PD **Tori Turner** exits and **Phil Davis** becomes interim PD. **Frederick "Fritz" Valentine** ascends to the newly created position of VP/Sales & Marketing and **Jim Wood** becomes GSM.
- **WEDR/Miami** continues its winning streak in the Winter '95 Arbitron with No. 1 rankings in the 12+, 18-34, and 25-54 demo. In 25-54, **WHQT/Miami** ranks No. 2 behind 'EDR.
- **MCA** President/Black Music **Ernie Singleton** exits and is replaced by co-heads **Hank Shocklee** and **David Harleston**, who become Sr. VPs.

- **Ron Sweeney** becomes **Epic Records** Exec. VP/Black Music as well as **Sony Music Entertainment** Sr. VP.
- **Elektra** names **Richard Nash** Sr. VP/Black Music.
- Urban radio stations enjoy record turnouts for community involvement events too numerous to list.

September

- **KJMZ/Dallas** flips from Mainstream Urban to Urban Gold. The station has since become **UrbanAC KRBV**, which plays more currents.
- **WJBT/Jacksonville** is purchased by **Jacor**, which flips it from UC to CHR/Rhythmic. They change PDs, bringing in **Paco Lopez**, once of **WQHT/New York**. **Nate Bell** is moved over to crosstown **WHJX**, which **Jacor** flips from Rhythm/Crossover to Urban AC.
- **WJFX/Ft. Wayne** celebrates its fifth anniversary.
- **Paris Eley** becomes VP/Black Music Promotion for **Atlantic Records**.

October

- The **Carter Broadcast Group Inc.**, which owns **KPRT-AM & KPRS-FM/Kansas City**, promotes **KPRS** PD **Sam Weaver** to Operations Director of the parent company. Weaver gave **KPRS** its highest Arbitron ratings in the station's history and the station is now ranked No. 2 overall 12+ in the market.
- **WQUE/New Orleans** attracts 12,600 kids and parents for its third "Teen Summit," held at Kiefer University's Lakefront Arena, while an estimated 2000 more have to be turned away because of fire regulations.
- Black radio plays a big part in the Million Man March on Washington, DC.

COUNTRY

More Labels, Fewer Stations; Pressure Rises, Ratings Drop

Country has experienced incredible growth in recent years, with the number of stations and labels growing dramatically. But in 1995, format debuts slowed while new labels continued to proliferate, yielding the year's newest bumper crop: pressure.

Pressure to play records and get records played ... pressure to get concert "presents" and keep the other guy from getting anything ... pressure to chart, go Top 10, and hit No. 1. Pressure-induced friction between radio stations and record labels — and *within* both camps — reached new levels this past year.

On the radio side, intra-market Country battles heated up as the shares being fought for began to shrink. Rival stations thrust Nashville into the middle of their skirmishes like never before. In their desperation, some stations stooped to holding labels and artists hostage as demands escalated to unprecedented levels.

Few changes in music programming or selection occurred in 1995. What changed most — and was responsible for the feeling of increased pressure on radio — was the way the label landscape changed.

Fewer Records

Some say the pressure intensified because "more labels mean more records" at any given time. That's a huge myth. There are fewer records out now at any one time than in the past.

In an admittedly unscientific survey, I looked at random weeks in previous years:

- For the last two years, we've ranged between 58-66 active records (50 charted, 8-16 in New & Active, which means a record is on 10 or more stations).

- In 1991, just before the start of the new-label onslaught, the number of charted/N&A records ranged between 65-75.

- Charts from 1989 reveal the active-record count ranged between 70-90, with N&A listings averaging

25 titles. At that time, seven labels — Capitol, Columbia, Epic, MCA, Mercury, RCA, and Warner Bros. — accounted for more than 90% of the charted/N&A songs.

There aren't more records out now; the pressure comes from the way records are spread through the companies. In the days of six or seven labels, each promotion staff might have worked as many as 10-12 records at a time. (A 1989 chart showed RCA had three records in the Top 50, with another two in N&A. That same week, MCA had 10 on the chart and two more in N&A.)

Today, that number is cut by more than half. In the past, labels would get off records that weren't working and try to shift stations over to those that were. There was a natural, self-imposed thinning process. Today, with labels working three to five records at any one time, each is a priority — labels rarely get off of anything. That creates a huge amount of pressure in the entire system.

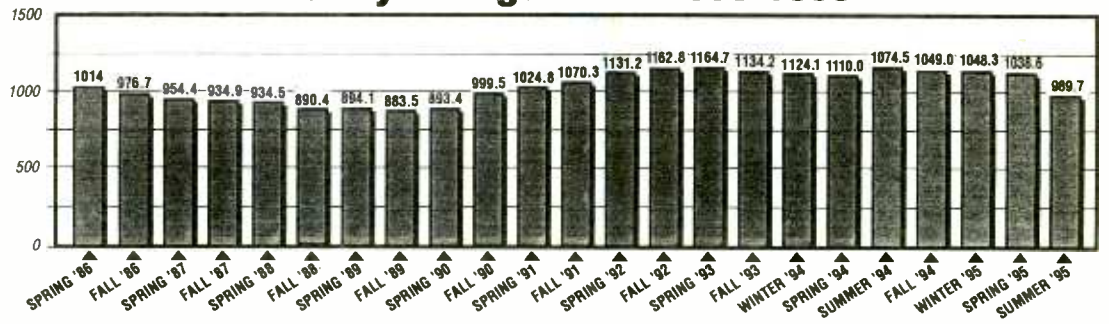

With the increased stakes on both sides of the business, it's doubtful the pressure will subside soon. That means we'll all have to learn to get along — it's critical for the format's long-term success.

Lack Of Passion?

1995 will also go down as the year programmers, consultants, and researchers detected waning "passion levels" for the music among Country listeners. The audience just didn't seem to be as excited about our music this year as it was from 1989 to 1994.

The duality that currently exists is perplexing. Today's audience is being fed a musical diet high on up-tempo records. How can radio expect high passion levels, but not play records that evoke passion? Haven't this format's biggest, longest-lasting, best-testing records historically been ballads?

While 1995 remained an active year for companies doubling up in many markets, we lost a handful of major-market Country-Country tandems. The mainstream/18-34 duopolies bore the brunt of the storm, with the young-skewing sides of Country combos in Orlando (the "Bee"), San Antonio (the "Armadillo"), and Pittsburgh (the "Rebel") all biting the dust.

The format's 25-54 shares were down 8% from a year ago and 15% from the CRI's all-time high.

LABEL MANIA

Music City Keeps Charging Forward

Nashville's label landscape underwent major changes in '95 with the return of Capitol/Nashville, the arrival of Arista/Nashville's sister label, and the emergence of several brand new labels operated by industry veterans.

Industry tongues began wagging in March with news about Arista/Nashville's Career sister label, launched with flagship artist Lee Roy Parnell and new act Brett James. However, the greatest grist for the rumor mill occurred when Liberty/Patriot President/CEO Jimmy Bowen announced in January that health problems were forcing him to resign at the end of March. When the dust settled, independent record producer Scott Hendricks had won Bowen's job.

Hendricks was among Nashville's top producers by virtue of his work with Brooks & Dunn, Alan Jackson, Faith Hill, and John Michael Montgomery. One of his first moves was to abolish the Liberty and Patriot monikers and revive the Capitol/Nashville name and logo.

New Labels Bow

Several small, independent labels set up shop in Nashville during '95. However, three companies — Almo Sounds, Veritas Music Entertainment, and Rising Tide/

Nashville — began positioning themselves as major players with plans to release their first product in '96.

Herb Alpert and Jerry Moss, who founded A&M Records during the '60s, established a Music City office for their new label, Almo Sounds. Producer and former RCA/Nashville VP/A&R Garth Fundis was named to head the operation. The first signing: singer-songwriter Paul Jefferson. He who co-wrote Aaron Tippin's "That's As Close As I'll Get To Loving You," which hit No. 1 last week (R&R 12/8).

Former Sony Music/Nashville President Roy Wunsch and High Five Productions chief Bud Schatzle announced the formation of their new label, Veritas Music Entertainment Inc., which had its initial public stock offering in July. Veritas will be releasing product in '96. The label's first signing is singer-songwriter Bob Woodruff. The artist roster also includes Gretchen Peters, who wrote Martina McBride's "Independence Day."

MCA Music Entertainment Group Chairman/CEO Doug Morris was in town last week (12/5) to announce the appointment of artist manager Ken Levitan as President of the company's new label, Rising Tide. Levitan immediately named independent producer Emory Gordy Jr. as Sr. VP/A&R. As of yet, no acts have been signed.

Country On TV

For years, it was virtually impossible to get a country act booked on a national late-night talk show. That attitude continued to change

in '95, with television talent bookers concluding that country's popularity could not be denied. On one recent night, John Michael Montgomery and Alan Jackson appeared simultaneously on shows hosted by Jay Leno and David Letterman.

Some country stars focused on acting. In April, Randy Travis appeared in two film projects — James Michener's "Texas" (ABC) and "Frank & Jesse" (HBO). Lorie Morgan starred with Tiffani-Amber Thiessen ("Beverly Hills 90210") and Gerald McRaney ("Major Dad") in "The Stranger Beside Me," which aired in September on ABC. After months of creative problems, Dolly Parton's CBS sitcom, "Heavens To Betsy," was scrapped before it ever hit the airwaves.

Ralph Emery returned to the small screen with a TNN morning show that debuted in July. It was canceled in December.

Actor-singer Tom Wopat was tapped by TNN and Dick Clark Productions to host "Prime Time Country," a variety-talk show that bows in January and replaces "Music City Tonight." Lorianne Crook and Charlie Chase, in conjunction with Jim Owens Productions, severed their ties with TNN, later announcing plans to begin a nationally syndicated daytime talk show in January.

Publishing Roundup

Michael Jackson's decision to let Sony Music in as a co-owner of his ATV Music Publishing empire means the Beatles' song catalog will eventually be administered in Nashville by Sony Tree Publishing.

SESAC Vice Chairman/Director Vincent Candilora became Director/Licensing for ASCAP. Connie Bradley was promoted to VP at ASCAP. BMI Asst. VP Jody Williams became President of MCA Music Publishing/Nashville.

In Other '95 News ...

Academy of Country Music Exec. Director Bill Boyd, 64, died in February of a heart attack. He enjoyed a 29-year career with the ACM.

Roger Miller and former Country Music Association Exec. Director Jo Walker-Meador were inducted into the Country Music Hall of Fame.

BMI President/CEO Frances Preston was presented with the Nashville Entertainment Association's Master Award, which recognizes those who have helped make the city a major music center.

In May, Pam Lewis filed a lawsuit against former partner Bob Doyle, alleging he undermined her position in Doyle-Lewis Management, which had managed Garth Brooks.

The Unprecedented Explosion Of 1995

■ Bigger shares, sign-ons, consultant involvement hallmarks of current success

NAC's achievement at every level during the past year clearly signifies its superior performance on the radio spectrum. Ratings reached an all-time high, and more than 35 stations joined the format. One consulting firm dominated, moving client stations to unprecedented success.

Ratings Surge

In 1995, ratings eclipsed even 1994's dramatic accomplishments. In major markets, long-established NAC outlets — as well as more recent sign-ons — continued their upward momentum, routinely ranking Top Five with adults.

Medium-sized markets enjoyed a fair share of the ratings pie, too. Today, Top 5 status in the coveted 25-54 demo has been earned by more stations across the board than ever before in the format's history.

Top Five Markets

• **WQCD (CD101.9)/New York** made a noteworthy recovery from the effect of Urban AC **WRKS**'s debut. With the summer **Arbitron**, CD101.9 rebounded considerably with substantial 25-54 gains, particularly at night, when CD101.9 ranked second in one of this country's most dizzyingly competitive markets.

• **KTWV (The Wave)/Los Angeles** came back strongly and really hit the mark, moving into the Top Five in the spring book from 14th one year before. By mid-year, the Wave had captured the market's top slot at night in the target demo in both cume and AQH. By Phase Two of the Fall **Arbitron**, they catapulted to first place 25-54 among English-language stations, moving 3.8-4.5.

• **WNUA/Chicago PD Lee Hansen** moved the station into fourth place 25-54. MIDDAYS, they went to third 12+ and tied for second 25-54.

• For the fifth time in its history, **KKSF/San Francisco** was that market's top-rated music station 25-54 — a feat never achieved by another NAC more than once, much less five times — registering a 0.1 share off of first place. Consistency, thy name is **KKSF**.

• First-time PD and newcomer to the format **Anne Gress** propelled **WJJZ/Philadelphia** Top Five with a 5.1 share 25-54 and demonstrated massive gains in TSL — nearly 12 hours!

More Markets

• **KOAI (The Oasis)/Dallas**, under the guidance of PD **Jim Teeson**, took the Triple Crown in July's **Arbitron**: No. 1 12+, 25-54, and 35-64. In the summer book, the Oasis remained Top Five, taking fourth place 25-54 with better than a five share. By year's end, the station barely registered the effect of Urban AC **KRVB**'s sign-on, maintaining Top Five ranking 25-54 with nearly a 5.0.

• **KCIY/Kansas City**'s debut can only be described as "stellar." In his second book, PD **Doug Gondek** catapulted "The City" to Top Five 12+ with a 4.3-6.2 move and to second 25-54 with an 8.5.

• The year's most stunning debut was **WJCD/Norfolk**. By the summer book — its second — the station was second 12+ with a 5.5-7.5 jump and No. 1 in the 25-54 target with a 10.8!

Other stations making a strong showing in 1995 included **WJZW/Washington**, **WNWV/Cleveland**, **KIFM/San Diego**, **WSJZ/Buffalo** (the market's top music station at night with better than a 10 share), **KCJZ/San Antonio**, **KYOT/Phoenix**, and **WGUF/Ft. Myers-Naples**.

Sign-Ons & Sign-Off

Another indication of NAC's good health was the large number of new sign-ons — more than 35, including **SW Networks**' Smooth FM affiliates — in 1995. **Interp** quantified the format's growth at a whopping 33%, second only to **Alternative**.

Operators and GMs in markets of all sizes recognized the format's potential, and a record number of new outlets joined the fold. In addition to stations already mentioned in **Norfolk**, **Kansas City**, and **Buffalo**, new members of the NAC family included **KMJZ/Minneapolis**; **WVAE/Cincinnati**; **WFSJ/Jacksonville**; **WSJT/Tampa** (which debuted with nearly a six share 25-54 — without the benefit of a complete ratings

cycle); **WZZJ/Columbus, OH**; **KOAS/Tulsa**; **KUCD/Honolulu**; **KXDC/Monterey**; **WLBI/Birmingham**; **KJZY/Santa Rosa, CA**; **KAJZ/Austin**; **KNWB/Hilo, HI**; and a **Broadcast Architecture**-consulted outlet set to debut before year's end, but still unidentified at presstime.

SW's digital satellite-delivered Smooth FM format gained converts, too. By the first week of 1996, Smooth FM is expected to have more than 20 affiliates nationally. **SW** enjoyed additional success this year with the syndicated show "Personal Notes," hosted by saxman **Dave Koz**, which contributed significantly to ratings increases at most of its affiliates.

The format lost several outlets this year, including AC convert **KACD/L.A.** Longstanding **NPR/NAC** outlet **KJZZ/Phoenix** bowed to pressure from commercial NAC **KYOT** — proving the adage "this town's not big enough for both of us" — and made a transition to Jazz with former MD **Bill Shedd** assuming OM duties. And **Noble Broadcasting**'s **KNJZ/St. Louis** flipped to Urban.

The Cody-Kepler Connection

Any serious discussion of NAC's tremendous gains in 1995 would be incomplete without examining the role of Princeton-based consultancy **Broadcast Architecture**. Indeed, many broadcasters consider **BA** the single most influential force driving the NAC format forward — and not just the legion of owners and GMs whose stations are the di-

Format Faces Trading Places

Here's a rundown of NAC luminaries who changed jobs within — and out of — the format this year.

In the face of a format change, **KACD/Los Angeles PD Monica Logan** returned to her Texas-based consultancy. **KSSJ/Sacramento PD Tony Schondel** exited for the VP post at **Paradise Concerts**, where he helped mount Labor Day's Maui Music Festival; he was replaced at **KSSJ** by **Ken Jones**. Longtime **WFAE/Charlotte MD Paul Stribling** was upped to PD, with **Tena Simmons** taking over the music reins.

Bernie Kimble left his PD post at **WJJZ/Philadelphia** and returned to **WNWV/Cleveland** as PD, succeeding **Steve Hibbard**. **Kimble** was replaced at **WJJZ** by AC defector **Anne Gress**. Former **KOAI/Dallas PD Tom Miller** filled the Asst. PD/MD vacancy left at **WNUA/Chicago** by **Mike Fischer**, who joined **SW Networks** as PD of Smooth FM. Veteran AC programmer **Jim Teeson** then became **KOAI**'s PD.

WLVE (Love 94)/Miami PD Rich McMillan joined **Heritage Media**'s new NAC sign-on, **WVAE/Cincinnati**, as PD. He was replaced at **Love 94** by **KLJZ/New Orleans PD Shirley Maldonado**, while **Michael Grayson** succeeded **Maldonado** at **LJZ** from AC **WRRM/Cincinnati**'s night-time NAC specialty show.

Ross Block joined **WSJT/Tampa** as its first PD. **KBZN/Salt Lake City MD Leigh Armistead** left radio for the **National AC Promotion** post at **Discovery Records**. **Jim Seagull** filled the long-vacant PD post at **WNND/Raleigh**, only to be replaced at **Halloween** by NAC veteran **Bob Linden**. PD **Bill Harman** exited **WMTO/Panama City, FL** for **WZZJ/Columbus, OH**.

KHIH/Denver PD Jaime Kartak exited, returning to AC at **Bonneville's WTMX/Chicago** as Asst. PD. **KKJZ/Portland PD Chris Miller** went to program crosstown **Classic Rock KKRH (Earth 105)**; **KKJZ** upped MD **Shaun Yu** to PD. **KCJZ/San Antonio PD Matt McCann** also departed after making significant ratings inroads.

rect beneficiaries of the company's counsel.

Recently (**R&R** 11/17), **KKSF/SF PD Steve Feinstein** — whose station does not retain **BA**'s consulting services, but utilizes its music testing — said, "Every format seems to need a strong consultant to elevate it from a handful of successful stations to a nationally dominant force. In NAC, **BA** had the foresight, programming skills, and business savvy to assume that role."

Using its **MixMaster** methodology, **Broadcast Architecture**'s music research projects have changed the very face of playlists at stations in Top 10 markets, like **Philadelphia** and **Dallas**, to smaller markets, such as **New Orleans** and **Fresno**. Stations that played close to 100 currents only a year ago, such as **WGUF/Ft. Myers-Naples**, now rotate as few as 35; library tracks have been reevaluated, too. **BA** asserts — and results seem to prove the assertion — that ratings increases experienced by client stations are the direct result of presenting well-researched, highly focused music to listeners.

Another ramification of tightened playlists is increased resentment from record label representatives as competition for precious-but-dwindling playlist positions intensifies. In fact, during the **NAC Label Summit** organized by **R&R** in September, record executives could barely contain their outrage regarding the extent to which **BA**'s influence has changed the format. Among other things, they are concerned that a narrowed musical universe will adversely affect their artists' careers.

There is no question that it's

harder to break a record on NAC radio today than at any time in the format's life. The trade-off seems to be that even in the face of tighter playlists, the potential for music sales is vastly increased as the number of NAC radio outlets — and the audience shares it delivers — expands.

While the promotion community's concerns about the changing face of NAC are legitimate, they do not dovetail with the goals of station owners and GMs. An operator or GM knows that a station's success — and the very longevity of the NAC format itself — is ensured by delivering Top Five ratings in the target demo. And that's the very bottom line.

Editor's Note

Photos accompanying a column on the state of NAC music (**R&R** 10/6) revealed a disturbing situation that begs our collective attention: Six of those pictured are men, and one — an MD — is a woman. With the departure of **KHIH/Denver PD Jaime Kartak** for another format (see "Format Faces Trading Places"), there are only three female PDs in NAC for a total of 6%.

As a new millennium approaches, perhaps GMs will reconsider the role of female programmers in their station's future successes. When that happens, NAC will be able to claim with moral certainty that it is truly innovative.

NAC NOTES By Carol Archer

With several notable exceptions, NAC currents are going into stasis as airplay of holiday music in creases. Those exceptions include **Randy Crawford's** "Give Me The Night" (Bluemoon), which moved 16-11* and is among the Most Increased at +43. This track is on 89% of our reporting stations and getting good rotation at WJZF/Atlanta (15 plays), WQCD/New York (11 plays), WLVE/Miami (10 plays), and KOAI/Dallas (nine plays); it doubled from five to 10 plays at WJCD/Norfolk.

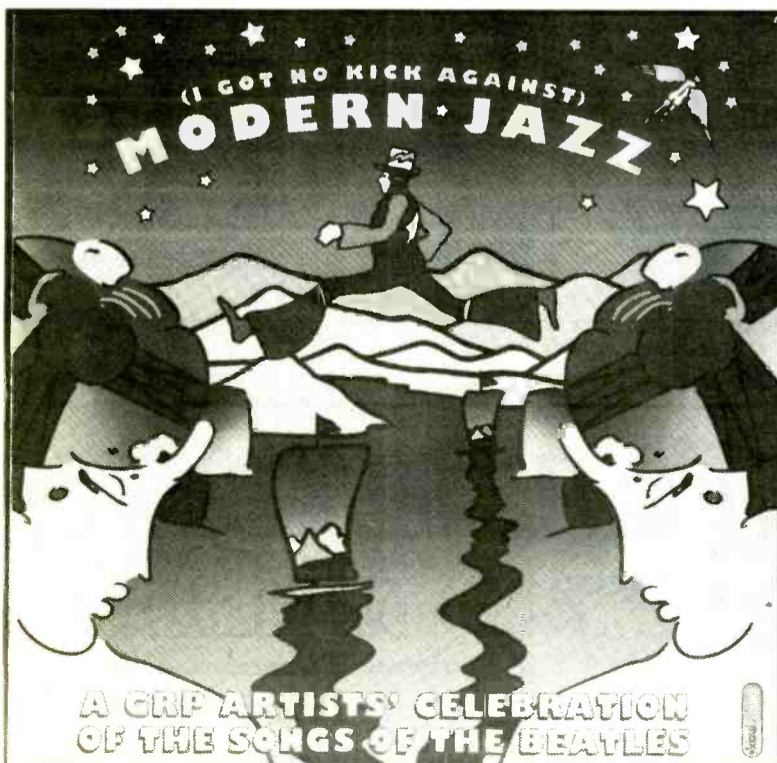

Jonathan Cain's "journey" up the charts continues: His "Elegance On The Catwalk" (Higher Octave) moved 20-

16* and is being played at 72% of the panel. While confidence in the track is obvious at influential stations like KOAI, WJZF, WLVE and KIFM/San Diego, major-market powerhouses such as WQCD, KTWV/Los Angeles, WNUA/Chicago, and KKSF/San Francisco are not supporting it at present.

Quincy Jones's "Do Nothin' Till You Hear From Me" (Qwest/WB) is getting an impressive head start on a January breakout: It's top Most Added (10 stations, including WNWV/Cleveland, WJJZ/Philadelphia, WJZW/Washington, and KOAI), plus top Most Increased with +54 plays. This one's a classic!

Enya's "Anywhere Is" (from the Reprise CD "The Memory Of Trees") is enjoying play at "non-aligned" stations such as KIFM, WLOQ/Orlando, WOTB/Providence, WNND/Raleigh, KKJZ/Portland, and KNIK/Anchorage. It's one person's opinion — mine — that the hidden value in this track may rest with its cryptic, elliptical lyrics, to which women and other lyric-sensitive individuals will respond: "... it's one way or the other/it should be one direction/ it could be on reflection/the turn that I have just taken/the turn that I was making/I might be just beginning/I might be near the end." Indeed!

Happy Holidays to all. May we make a better world in 1996.

MD Dispenses Hot AC Prescriptions

A 1995 reflection wouldn't be complete without mentioning the unique impact **O.J. Simpson's** trial had on radio's overall listening patterns. Fall books could demonstrate the significance the case specifically had on AC. Whatever the reason(s), format shares continued to shrink in '95. The decline, however, can't be attributed to bailouts — something we witnessed when ACs jumped on the '70s bandwagon.

But perhaps the year's most intriguing development was the return of several Hot ACs (**KWMX/Denver, WMXQ/Birmingham, WSSX/Charleston**, among others) to CHR roots. One could wonder if more such defections are likely.

Mason Dixon

Fielding that and other year-end queries is Hot AC **WMTX/Tampa** VP/Operations **Mason Dixon**, one of CHR's most talented PD/morning talents. He first arrived in Tampa in 1978 and made the Hot AC transition look easy. Despite competing in a crowded field that includes ACs **WWRM** and **WUSA**, Country **WQYK**, and CHR **WFLZ**, he guided "Mix 96" to No. 1 Arbitron 25-54 finishes in '95's Winter, Spring, and Summer books.

"CHR has become much more palatable the past six to eight months [so] it's make it or break time for Hot AC. You'll either show what you can do or get blown away by a good CHR or Oldies-based AC. Hot AC can't die because, when done properly, it's very viable. Stations that probably shouldn't have been in the format will leave in '96.

"Some younger Hot AC programmers probably want to get back to CHR. Those of us [who've been in CHR] wars are now fighting to get

adults, and it's not easy. Music has to be tested and moved very slowly."

Vintage Era

CBS O&Os like **KCBS-FM/Los Angeles** have helped fuel a '70s oldies craze. Playing two or three '70s songs a day, Dixon believes the '80s presents a greater window of opportunity. "This is the next uncharted music territory and will help get Hot AC through this lull. It's a great way to compete against CHR — without sounding like one. Some killer songs like **A-Ha's** 'Take On Me' and **Madness's** 'Our House' aren't being played anywhere else. CHR doesn't play them because the songs are too old.

"You'll get freshness and familiarity, but you can't play **Duran Duran's** 'Hungry Like The Wolf' followed by **Jimmy Buffett's** 'Mexico.'

Elton John's 'Blessed' and **Peter Cetera's** 'Forever Tonight' are prime examples of huge callout songs for daytime play, but they disappear after 7pm."

Forget The Fickle

Leaving little doubt that 25-54s are his prime P1 target, Dixon acknowledges, "It's fine with me if we don't do better than No. 3 18-34. Hot AC's best bet is to concentrate on adults rather than fickle younger demos. Hot ACs doing damage in 25-54 can maintain [provided] they don't stray. But some Hot ACs are getting nuts by playing Alternative stuff right out of the box. Adults don't [react] well to it and that's *not* what this format is all about. The biggest mistake Hot ACs make is they play too much unfamiliar music. If they do that, they'll die."

Cutting-edge Hot ACs are vulnerable when competitive CHRs enter the picture. Remarks Dixon, "[By not having] the traditional AC's 30+ audience, you might wind up on a ledge with no way back. But there's room for both formats in a market.

"[WFLZ] is a strong and very good teen/18-34 station. I'm very content to be a [secondary] station for their listeners, but my adults don't tend to make them a [secondary] station. You can't be all things to all people. If you want to dominate 18-34s, you have to go head-to-head with the CHR."

Last week's column focused on morning drive, and Dixon explains major personality morning shows are of utmost importance to a Hot AC's success. "Adults want to be entertained. Humor has to be contemporary, but confrontations and [irritants] must be avoided. Most [Mainstream ACs] are music machines and don't hang their hat on entertainment. Hot AC should be what CHRs were in the '80s — without being offensive."

CYNDEE MAXWELL

Caught Between Rock And An Alternative Place

1995: The year when formatic lines blurred, battle lines were drawn, and labels and artists found themselves stuck in the crossfire

The single biggest issue of 1995 was the war between Rock and Alternative stations. At stake were concert presents, station free shows, and even CD leaks. Labels found themselves choosing which stations to try to piss off the least.

R&R tackled the question "What is the difference between today's Rock and Alternative stations?" in a historical merging of the two format columns (R&R 2/24). Record execs and programmers from both formats gave their perspective on the matter.

• **Warner Bros.** National Promotion Director **Dave Lombardi**: "For some reason, Alternatives are considered a bit more important than a Rock station that does the exact same thing. It's disappointing, because most of the music is mainstream rock."

• **Geffen** National Director/Alternative Promotion **Ted Volk**: "What really comes into play is what the payoff is for these radio festival shows. If you take care of some people and not others, then people are going to be resentful. If you do something in a competitive market, you have to be prepared to lose that particular record across the street, and maybe more."

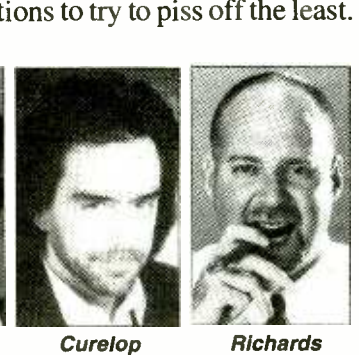

• **KLOS/Los Angeles** PD **Carey Curelop**: "When you listen to [crosstown Alternative] **KROQ** and **KLOS**, what is the difference? We'll play **Van Halen**. They won't. They'll play **Veruca Salt**. We won't. We both play **Pearl Jam**, **Gin Blossoms**, and **Soundgarden**. The real difference between the two is the presentation and **KLOS**'s greater depth on rock-leaning library material."

• **Alternative WFNX/Boston** PD **Kurt St. Thomas**: "There are definitely some real problems with the format right now. What is Alternative? There's almost something really wrong with **Green Day** selling as many records as they are. Punk bands aren't supposed to be big. Anytime something gets too big, it's very vulnerable to being torn down."

Storm Intensifies

The debate continued to rage with responses from a variety of industry execs. Consultant **Joe Kelly** remarked (R&R 3/31), "The 18-34 demo is hungry for new rock and sick and tired of most classic rock. In markets where there's a Rock station re-

sponsive to that, Alternative radio can't effectively compete. Rock must get hip — playing two to four current/recurrents an hour will no longer get it done."

of Alternative stations getting more support from record companies despite their own contributions to the act's success.

Regarding the timeline labels use to work the two formats, Richards said, "It's unfair to give a 'presents' to the Alternative based on them playing the record first when they were worked [on it] first." The idea of combining the Rock and Alternative charts became a hot topic, and Masters commented, "The real difference will be how the labels respond to these problems, not a new chart."

Regarding the timeline labels use to work the two formats, Richards said, "It's unfair to give a 'presents' to the Alternative based on them playing the record first when they were worked [on it] first." The idea of combining the Rock and Alternative charts became a hot topic, and Masters commented, "The real difference will be how the labels respond to these problems, not a new chart."

Label execs went on record regarding the Rock vs. Alternative hoopla (R&R 4/28 & 5/5).

• **Geffen's Alan Orem**: "Each market is different, as is each band and each artist. There may be more history with an artist at one station than at another, which definitely goes into the decision-making process."

• **I.R.S.'s Karen Lee**: "The real problem I have isn't with Rock — it's with Alternative tightening up. In the past, I.R.S. never had a problem getting a shot on a good record on Alternative. But now, Alternative has turned into the new corporate rock."

For the historic Rock Promotion Summit, record executives were invited to R&R's headquarters to work on finding solutions to some of these Rock issues (R&R 5/12). Eighteen execs met in a lively and spirited atmosphere, where the idea of separating the Rock reporters into two groups evolved. That evolution was formalized, and the charts were rechristened as "Active Rock" and "Rock" (R&R 6/23).

The birth of the Active Rock chart continued the discussion about the differences between Active Rock and Alternative (R&R 7/21).

• **KSJO/San Jose** PD **Dana Jang**: "Active Rock stations have a bigger gold category, while Alternative stations seem to play a lot of music from the '90s and one-hit wonders."

• **WRIF/Detroit** PD **Doug Podell**: "Rock's problem previously was being too far behind. But now, having caught up to Alternative, we're really giving

Christmas Music Update

Here is a presstime update of the latest Christmas tunes. More holiday titles can be found in my October 27 Rock column.

Better Than Ezra's CD maxi-single for "Rosealia" (Elektra/EEG) includes the band's "Merry Christmas Eve."

Emerson, Lake & Palmer have commercially released their EP "I Believe In Father Christmas" (Rhino) with two versions of the title cut and the rare **Greg Lake** track "Humbug."

Warner Bros.' latest holiday tunes include: **Flaming Lips'** "Christmas At The Zoo," **Jeff Foxworthy's** "Redneck 12 Days Of Christmas," **Porno For Pyros'** "Pete's Dad," and **Adam Sandler's** "The Chanukah Song."

Island's "Radio Holiday Sampler" has famous favorites and new surprises, including **Yello's** "Jingle Bells" and **Tracy Bonham's** "Santa's Hungry."

Kofi's "A Very Reggae Christmas" (Atlantic) is a skankin' collection of traditional Christmas cuts done in a rastaman style, including "Deck The Halls" and "We Three Kings."

P. Hux have put their **Beatlesesque** "Here Comes The Savior" (from the "Deluxe" album) on a promo single (Black Olive).

Danny Tate's promo-only Christmas EP "Lovin' Little Christmas" (Charisma) includes the Tate-written title track, four Christmas favorites, and a radio greeting.

The **Ugly Americans'** "Back Door Santa" (Giant) is a limited edition radio-only CD; likewise, the **Urchins'** "Christmas Crush" (Alley Cat Music).

The **Whirling Dervishes** unleash "You're A Mean One, Mr. Grinch" (Foundation). The song was originally recorded four years ago for a radio station Christmas compilation; it's now available in select outlets nationwide.

them a run for their money."

The "Rock Revolution" special issue (R&R 8/4) devoted 30 riveting pages to the Rock format — past, present, and future. A variety of Rock luminaries, including programmers, record execs, and consultants, all shared their thoughts about the format.

Rock's Formidable Web

Another topic that grew in importance as the year progressed was the emergence of the Internet as a way for radio to reach listeners, market itself, and sell more than just on-air inventory. The number of stations with their own home pages grew dramatically, with the Rock and Alternative formats clearly in the lead.

• **WLUP/Chicago** built its page through **America Online** (R&R 4/7). But the majority bypassed consumer services and went straight to the Internet (R&R 6/30).

• **KZRR/Albuquerque** PD **Frank Jaxon**: "One benefit of being on the Web is that we can improve and increase our marketing database. It also provides another way to sell the station off-air."

• **WZLX/Boston** PD **Buzz Knight**: "This is one of the tools that we, as a Classic Rock station, can use to sound relevant in the '90s. Eventually, it will also become a source of revenue aside from value-added. We're still in the education process with agencies and listeners."

Throughout the year, R&R chronicled the rapid rise of the industry's presence on the net by publishing comprehensive lists of World Wide Web addresses.

Upper-Demo Delight

As the year progressed, a growing number of upper-demo Rock stations became increasingly comfortable with playing more new music by such demo-com-

patible artists as the **Dave Matthews Band**, **Sheryl Crow**, **Edwin McCain**, and **Blues Traveler**. The upper-demo viability of the current crop of new artists was discussed by consultant **Tom Barnes** and **WKLS/Atlanta** PD **Michael Hughes** (R&R 9/1).

• **Barnes**: "The 18-34 cell has been serviced and saturated; it's now the upper demos' time. Everybody's figured out the young end. And if you haven't moved on it by now, it's too late."

• **Hughes**: "As with anything, the audience dictates where your station goes. There's a lot of good music out now that appeals and matters to adults, and it plays well with our library."

Other upper-demo leaders talked about how their respective stations did well in both the upper and lower demos (R&R 10/13).

• **KLOS** PD **Curelop**: "It's done strictly on the sound of the record and what we believe appeals to the target demo, which has always been 25-34."

• **WEBN/Cincinnati** OM **Marc Chase**: "The trick is putting together a music flow that doesn't alienate either the upper or lower demos. We do that by first defining 'center' for WEBN, then never stepping off it two songs in a row."

Thanks to everyone who contributed their ideas and opinions to my columns this past year. It's been fun watching from the sidelines, and I hope that on at least a couple of occasions you've found some worthy information on these pages.

More Stations Vie For Bite Of The Pie

□ Competition from inside and outside the format raised key issues this year

Following the format's tremendous growth (see last week's column), several hotly debated issues cropped up this year (also see Hot Topics).

Music Overlap

After being surpassed by Alternative stations last year, many beaten Rock outlets shifted to a "join 'em" strategy. They began playing more new music — often the same music aired by their Alternative counterparts. This led to the often-asked question: "What's the difference between Alternative and Rock stations anymore?"

"All of the good current music is what the industry now labels alternative," said **KROQ/Los Angeles GM Trip Reeb** (R&R 2/24). "Is it really alternative? Whether the music is reminiscent of another era and other bands, these bands are playing great music and they're young people. Rock is trying to do what it initially did back in the old days, which is play the most popular new rock music."

While Rock stations started to reap the rewards of freshening up their music, Alternative stations began slipping in the ratings, according to the Fall '94 survey. Although plenty of new success stories continue to be written, after a good winter book and even better spring, the recent release of the Summer '95 **Arbitron's** caused reason for concern.

WKQX (Q101)/Chicago PD/consultant **Bill Gamble** reasoned, "A lot of us were playing songs that weren't hits. We might have been a little aggressive and playing a lot of one-hit wonders, and I think that hurt us. I think more stations will reduce the number of current slots and rely a little more on recurrenents." (R&R 11/17).

More Direct Competition

Not only is the music being mirrored by crosstown Rock stations, there are now 25 markets with multiple Alternative signals.

WNRQ/Pittsburgh PD Phil Manning is a veteran of one of the first head-to-head battles. Nearly three years ago, when he programmed **WOXY/Cincinnati**, Manning witnessed crosstown Rock **WAQZ's** flip to Alternative. In the past year, Manning has seen himself involved in two other direct format battles — at **WNRQ** and at **WENZ/Cleveland**.

"Two varying shades of the same type of radio station can co-exist," Manning said. "Competi-

tion makes you try so much harder. Therefore, if there are two stations in a market, maybe it makes both stations better. [Alternative] is a pretty valuable piece of real estate right now. A lot of people see it as the rock of the future."

Winning the battle, Manning explained, "requires a complete team effort, from marketing to having the hippest jocks and performing the best promotions — both big-ticket and street-level. It's easy to let the competition distract you, but if you do, you're dead in the water. The way you become the best station is by focusing on your product."

Morning Drive

Getting the morning daypart to perform as well as the rest of the station is another area of concern. "Many stations that have recently switched to the format are trying to find the secret formula," commented **KROQ PD Kevin**

ber and said the station has already seen a significant ratings increase. "If you want to win the rock battle you have to fix mornings. As hot as alternative music is, there's a point where this honeymoon is going to level out. We have to be a great radio station and not just rely on the music. Part of being a great station is getting a great morning show. Howard is quite frankly one of the easiest decisions you could make nowadays, if you have the money."

"Part of the Classic Rock trend was simply because that's where he was previously," acknowledged **XTRA-FM (91X)/San Diego VP/GM Mike Glickenhau**s. "Howard's been cutting-edge as long as he's been on the radio, which is why we made a slight adjustment in our identifier: '91X — The Cutting Edge Of Rock And Everything Else'" (R&R 8/25).

Music Festivals

The growth of the format has led to more than 30 Alternative station holiday concerts. (Several other stations tried and eventually threw in the towel.)

With all stations trying to secure marquee names for their shows, it's become a nightmare for all parties involved — even the bands, some of whom are heading home for the holidays rather than jump aboard the chaotic merry-go-round of shows.

Spivak Entertainment's Arthur Spivak is not a fan of these events. "It's very counter-productive for artists. A lot of artists are going into venues that are too big based on one song. In a lot of cases the audience sits on their hands and only claps for the one song they know. The focus is more on the station and it's really hurting the development of the artists."

"More artists are breaking from radio today and fewer of them are sustaining. Everybody is in a hurry to rush through the process by having these bands play their Christmas show, birthday show, etc. Then radio wonders whatever happened to our core artists."

"I don't know what the answer is because radio is a tough job, and they're competing their asses off. If I was at a radio station, I would do the same thing. It's easy to point to the record companies and say don't do it, but their job is to get the record played. It's up to managers to stay tough and do what they feel is right for their act."

Weatherly. "You can't really overthink it. There is no secret formula. It's about hiring talented people, letting them do their thing, and having the patience and confidence that it will eventually pay off" (R&R 8/11).

While building your own morning show is one solution, the quick fix is picking up **Howard Stern's** syndicated show, if it's still available in your market. Of Stern's 22 affiliates, suddenly eight are now Alternative stations (**WBCN/Boston** broadcasts Stern's show tape-delayed in evenings). And rumors continue to swirl that other Alternative stations are exploring the possibility of picking up the shock jock.

NEW MUSIC SCENE

- Artist: Poe
- Track: "Trigger Happy Jack"
- LP: "Hello"
- Producers: RJ Rice, Dave Jerden, Jeffrey Connor
- Label: Modern/Atlantic

• **Essentials:** At age 10, New York City native Annie Danielewski attended a costume party dressed as "Death" from Edgar Allen Poe's "The Masque Of The Red Death." She named herself Poe for the evening and it stuck. Poe began her music career at age eight when she began writing songs. She fronted a band known as Bones for four years while attending Princeton University. When the band broke up, Poe ventured into sampling.

Her debut release, "Hello," was put together by Poe and eight different co-writers, as well as producers RJ Rice, Jane's Addiction/Alice In Chains vet Dave Jerden, and band member Jeffrey Connor. It was recorded in seven different studios in L.A. and Detroit, using a combination of computers and live musicians, including Guns N' Roses drummer Matt Sorum. Poe recruited Cameron Stone (cello), Dan Jones (drum), Toby (bass), and Darus Atkins (guitar) as her touring band and for future recordings.

• **Influences:** Poe notes, "I wanted to incorporate the influences of working with a band for four years with what I had gotten into with looping and sampling. I've been influenced by so

many different things, from jazz to punk. I've gone through phases of loving so many different types of music intensely. All of these influences would pop into my brain depending on what kind of song I was writing."

• **Artist POV:** "A lot of the songs on the record sound different from each other," explains Poe. "Trigger Happy Jack" demanded a more edgy sound, because of the topic of the song, which is about a psycho. It was inspired by this guy who tried to run me off Sunset Blvd. upon my arrival to L.A. It was like out of a movie. He started bashing my car on the side of the road, having a gun. I would have liked to have stopped and talked to the guy rationally. It became sort of a metaphor for a kind of relationship I was having at the time. The song came out of both experiences combined."

New Music Scene highlights breaking artists charting for the first time.

Format Struggles With Growing Pains

By Cyndee Maxwell

The format experienced a great amount of growth in 1995 — not necessarily in the number of stations, but rather in growing pains — like all emerging formats. Throughout the year, one of the issues that divided the format centered on how it should grow, specifically in relationship to new music.

The record industry shared its views on the format's upcoming music decisions (R&R 1/6), in-

Jeff Cook Chris Mays Pat Gallagher Nancy Stein Doug Clifton

cluding Capricorn VP/Marketing & Promotion Jeff Cook: "The research I've seen shows that when a station plays a record one or two times a day, it's usually six weeks before even its core listeners hear it."

Former Island Sr. VP/Promotion Sky Daniels: "The good news is the industry is recognizing the format and acknowledg-

□

ing it as a safe haven for developing high common denominator artists. However, for the format to get to the proverbial next level, it's going to have to start to formalize some parameters, as in the taboo notion of tightening up."

KMTT/Seattle PD Chris Mays argued that the problem with the format lies with management who didn't treat their outlets like *real* stations (R&R 2/3). Commenting on the station's recent ratings wins, Mays said, "We had things going for us in the fall book that many stations in this format simply don't have — the tools needed to do the job. There is good radio and bad radio. Too often, Progressive stations deliver bad radio for want of the proper tools required to be competitive in today's environment."

Three programmers increased their current rotations and explained why (R&R 3/17). Among them, former WVG0/Richmond PD Paul Shugrue: "The idea is to create hits, and you can't really create a hit unless you force-feed it to listeners." WMMM/Madison, WI PD Pat Gallagh-

a little over an hour a day. People just aren't hearing the music."

The traditional album base of the format vs. track thinking was another topic that's dogged the format from the beginning, along with whether non-comms share anything with commercial broadcasters aside from the music. An R&R survey revealed some of the following responses (R&R 6/23). KBXR/Columbia, MO PD Mike Perry: "The criteria for adds and airplay on commercial vs. public radio stations are often quite different. Public radio must get a financial contribution of support from their audience in order to survive. Commercial radio must satisfy as many people as possible within the context of the format."

Former KZON/Phoenix PD Dave Logan: "Do both [an album and tracks chart] if you wish. But definitely include a tracks chart. This is a song-driven format. Fifteen plays on an album doesn't help identify important tracks."

The record community subsequently shared their responses (R&R 7/7). Warner Bros.'s Nancy Stein: "We had a very strong song at Progressive radio called 'Going South' by Wolfgang Press. This was the only track getting played from the album, and we were never able to crack the Top 15 on the Progressive album chart. If there had been a singles chart at the time, we would have had a Top 5 track. This might have helped us prove how big this song

was in the format and perhaps helped us spread it to other formats. On the other hand, my fear is that we don't want to see this format become singles-driven. Being an album format is one of the things that makes this format so unique, and we don't want anyone to lose that focus."

MCA's David Fleishman: "I have no problem with non-commercial stations being in the panel, especially in the larger markets. In smaller markets, I think a criterion for inclusion should be that they must be considered a factor in their market."

A Format By Any Other Name ...

While station uniqueness has always been emphasized and applauded in this format by its proponents, that same fact inadvertently contributed to its general misunderstanding by all except those closely involved in it. Different trade paper names, includ-

ing our own, did little to help. After researching the matter, we changed our name for the format to Adult Alternative (R&R 9/22).

A growing number of stations either segued or outright flipped to SBR/Paragon's Rock Alternative way of executing the format. KXPK/Denver PD Doug Clifton and WNEW/New York PD Ted Edwards characterized the format essentials. Clifton said he'd describe the station as "an Adult Alternative station, based in an '80s music library, targeted toward 25-44-year-olds. We have always felt from the day we signed on that we weren't a Modern Rock station, we weren't an AAA or Progressive station. We were something that was niched right in between those two. It's very familiar-based."

Edwards added that Adult Alternative makes "financial sense because the qualitative on this audience is excellent — it's educated and it's wealthy."

THE CRITICS RAVE ABOUT THE NEW ALBUM

ACE OF BASE

THE BRIDGE

"The Bridge gives Ace Of Base a more textured production, edging closer to the sweep of prime Pet Shop Boys. BASE bridges decades...You have to love 'em."

Entertainment Weekly

"Delve deeper and you'll find considerable depth to the songs. What makes Ace Of Base interesting is the basically bittersweet nature of its music. What The Bridge delivers is something more complex - a sound that speaks simultaneously of heartache and hope, melancholy and joy, despair and release. Even better, it does so in songs that boast all the immediacy and accessibility of great pop music."

The Baltimore Sun

"The new Ace Of Base album is what's on my mind and on my stereo. I think they're very, very smart. They've actually furthered their sound here. The singing is great, and it's catchy as hell. I just can't resist it."

J.D. Considine

VH-1

**Features the first smash
"BEAUTIFUL LIFE"**

SoundScan Top Singles Chart 16 - 12*

Billboard Hot 100 Singles Chart 15*

"ACE sidesteps any reggae-tinged repetition to expand their musical palette. 'Beautiful Life,' the first single, offers a blast of jumpy techno, 'Strange Ways' kicks in with serpentine Middle Eastern flourishes and 'Whispers In Blindness' puts some hip-hop in ACE's bass. Ultimately, their pure Pop instincts rule."
