Exclusive Arbs Winter Tally Shows Not Exactly Business As Usual

by Sean Ross

The impeachment trial ended, but the nation didn't exactly return to business as usual. While N/T radio's numbers returned to its pre-Monicagate level, national radio listening is different than it was when the scandal started last winter, judging from the results of Airplay Monitor's na-tional format tally of the winter '99 Arbitrons. How different?

- · R&B radio, taken as a whole, has its highest numbers ever, spurred by the rise of the R&B oldies format. That said, there's considerable evidence that the booming format is cutting into the numbers of both mainstream and adult R&B outlets.
- Top 40 radio has its best numbers in 3 /2 years, almost tying country radio for overall listenership.

 • Country radio posted its lowest

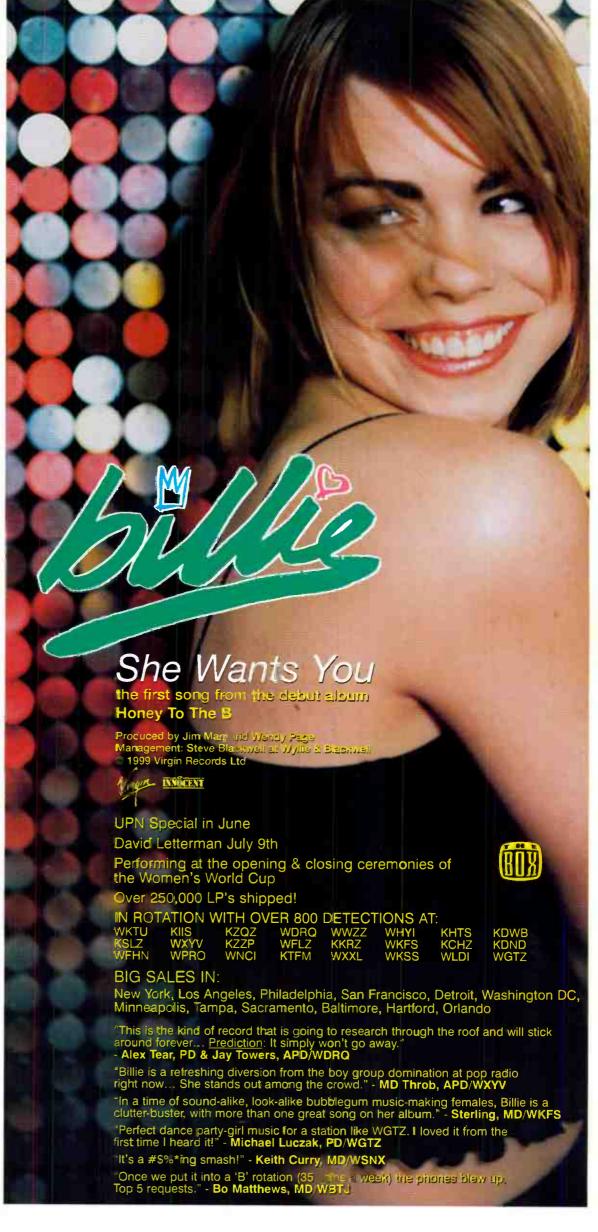

numbers since the summer of 1989. Its losses mean that the format is basically back to where it was when Garth Brooks debuted.

 Album rock radio, which had been fragmented over the past three years by the modern rock revolution and a second wave of classic rock successes, seems to be reclaiming some of its turf. It also probably benefited this winter from N/T's decline.

The only thing that hasn't changed is adult contemporary, which—when its various permutations (adult top 40, mainstream AC, soft AC, etc.) are counted together-remains the No. I music format throughout Arbitron's 94 continuous-measurement

News/talk radio was off 16.8-16.1 in the wirter. NT was at a 16.2 a year ago but exploded in the summer and

Invasion Of The New Top 40s Resumes

With top 40 showing its best national numbers in several years (see story, page 1), the format's ranks swell again. Weeks ago, we reported that Clear Channel/Jacor's Cleveland religious outlet WZLE was using the nickname Kiss 104.9. Now, WZLE has flipped to mainstream top 40, filling the hole created by WZJM's switch to R&B oldies. Meanwhile, with Radio One using the Kiss nickname for its new R&B outlet, WENZ, expect a dispute over ownership of the name.

Journal Broadcasting flips soft AC KESY Omaha, Neb., to rhythmic top 40 as Channel 977 under director of operations Phil Wilson and consultant Tracy Johnson. Erik Johnson, ex-MD of adult top 40 sister KSRZ (Star 104.5), is the PD.

MANAGEMENT: BUSH ELECTED Modern AC WYST and AC WCOD Cape Cod, Mass., GM (and veteran programmer) Randy Bush joins AC WGKS and modern AC WCDA Lexington, Ky., as GM, replacing David **Curtis**, now corporate VP.

PROGRAMMING: NO LONGER HARTLESS IN SEATTLE

Modern KEDJ (the Edge) Phoenix PD Shellie Hart returns to her old stomping grounds as OM/middays for KUBE Seattle. MD Chris Patyk is currently interim PD at the Edge. With Hart's arrival, MD Julie Pilot comes off the air.

Billboard Bulletin reports that MTV/VH1 senior VP of programming enterprises Matt Farber resigned May 20, the same day MTV announced its acquisition of the Box and SonicNet. Meanwhile, WKTU New York adds "MTV Jams Countdown" host D.J. Skribble to its Saturdaynight mixer lineup. Skribble also co-hosted mornings at R&B rival WOHT (Hot 97).

Adult top 40 WFLV (Live 105) Tallahassee, Fla., flips to rhythmic top 40 May 27 with new calls WHTF (Hot 104.9) and a new PD/afternoons, Steve King, from country WAIB (B103). King, who was also PD at now defunct top 40 WWLD (Wild 106), replaces Bob and Sherri in mornings. Also at Hot 104.9, classic rock sister WWFÖ (the Fox) PD Jeff Horn is named MD, WFLV afternoons Brian O'Connor shifts to middays, WWLD APD/afternoons Buzz Craven joins for afternoons, and top 40 KCLD Saint Cloud, Minn., night jock Lackey Boy joins for nights.

With KKOB Albuquerque, N.M., moving in a hotter adult top 40 direction, PD Roger Scott moves to AC sister KMGA as PD, replacing Jim Walton, who left at the beginning of the year.

R&B KBXX (the Box) Houston makes P/T Carmen Contreras permanent in middays, replacing Shelly Wade, now morning co-host.

KKFR (Power 92) Phoenix ups p.m. driver Charlie Huero to APD/MD. Mark Medina segues from nights to afternoons and will be teamed with former KYLD (Wild 94.9) San Francisco night jock C.K. to form "The Sideshow." Medina will relinquish music duties to focus on the new show.

WBLI Long Island, N.Y., PD J.J. Rice promotes MD Al Levine to APD/MD and taps veteran New York talent Holly Levis for middays.

Modern adult WKCD (Channel 107.7) New London, Conn., unveils its new lineup. Mary Lou Wright, a holdover from the previous jazz format, is doing middays. Top 40 sister rhythmic **WWKX** (Hot 106) Providence, R.I., P/T Tom Collins joins for afternoons. Hot 106 overnighter Tony D. transfers for nights, and WWKX P/T Bradley Ryan takes overnights. At WWKX, weekend mixer Jenny Boom-Boom takes overnights.

The construction sounds didn't signal a format change at **KQAR** (Q100) Little Řock, Ark., but morning man Kevin Clay is replaced by APD/afternoons Jason Addams. PD Gary Robinson will inherit Addams' music duties (at least for now).

At adult top 40 KURB (B98.5) Little Rock, Ark., p.m. driver Ron Allen moves to mornings on soft AC sister KVLO. Aaron Anthony from Champaign, Ill., is the new p.m. driver. R&B **KPRS** Kansas City P/T **John Alexandria**

Some Hits Develop In Unusual Ways

Songs don't always build steadily, as witnessed by Pearl Jam's "Last Kiss" (Epic), which debuted on the adult top 40 audience chart two weeks ago, failed to bullet last week, then regained its bullet this week. The title, which shows a healthy 28% increase in audience, makes its first appearance on the modern adult detection chart but not the corresponding audience chart. Pearl Jani last charted at modern adult with "Wishlist" last July.

The same can be said for "Baby, Don't You Break My Heart Slow" (Jacket), Vonda Shepard's duet with Indigo Girl Emily Saliers, which first debuted on Monitor's AC and modern adult detection charts three weeks ago. This week, "Baby" debuts on the adult top 40 detection chart. Interestingly, the title has yet to garner enough audience to appear on any of the corresponding adult audience charts.

Edwin McCain's "I Could Not Ask For More" (Lava/Atlantic) makes its Monitor debut on the adult top 40 audience chart. Often, songs that appear on audience charts before debuting on detection charts are getting the bulk of their airplay on a select number of large-market stations that are playing the song in heavy rotation. "More" is receiving airplay in large markets such as L.A., Seattle, and Philadelphia but is also being detected in Little Rock, Ark., and Montgomery, Ala. "I Could Not Ask For More" has been receiving airplay in some of McCain's Southern-stronghold markets for several months, although it's only now being worked to radio, suggesting that it's in higher rotations at some stations, which you might expect on a brand-new title.

N Sync's "I Drive Myself Crazy" (RCA) gets driven crazy this week at rhythmic top 40, as impressive leaps by Trick Daddy, JT Money, and Jordan Knight push the title back from No. 22 to a bulleted No. 28, despite an increase in detections.

PERSONNEL FILE: Motown ups senior VP of pop promotion Barbara Seltzer to executive VP and senior director of pop promotion **Davey Ingenioff** to VP of pop promotion. Former VelVel promo rep Laura Bender joins TVT as a Chicago-based Midwest regional.

REPORTER MONITOR: WKIE (Kiss 92) Chicago joins the mainstream top 40 panel this week. WXXM (Max 95.7) Philadelphia is dropped from the adult top 40 and modern adult panels following a format change. There are now 112 mainstream, 73 adult top 40, and 32 modern adult reporters. In addition, due to problems at the Honolulu monitoring site, KSSK, KQMQ, **KXME**, and **KIKI** will be temporarily removed from the AC, mainstream top 40, rhythmic top 40, and rhythmic/crossover panels, respectively.

Chancellor Enters Internet Services Arena

After courting such Internet giants as AOL, Chancellor Media has instead opted to reposition itself and go it alone for now. It will also change its name to AMFM Inc., matching the company's Nasdaq symbol, although the company will apply to join the New York Stock Exchange under the AFM symbol. Chancellor/ AMFM also becomes the first major traditional broadcasting company to announce specific plans to enter the growing field of Webbased radio services.

AMFM will form three new business units aimed at leveraging the company's radio portfolio. One unit will develop informational, city-based Web sites paired with its 465 radio stations. Another will exchange commercial time for equity in emerging new-media companies and Web sites, similar to CBS/Infinity's deal with Sportsline and Marketwatch. A third division will provide audio and video programming on the Internet, with some content coming from its radio stations.

Chancellor CEO Steve Hicks is still not ruling out deals with a company such as AOL. "It's like building an office building; we needed the blueprint first. We're still talking to potential partners." The company will create a central office to handle its streaming efforts, and, Hicks says, AMFM will also charge its radio stations for its streaming service.

While Chancellor expands on the Internet, radio CEO **Jimmy de Castro** tells The Dallas Morning News that the company is "actively marketing" its billboard division.

CAPITAL: CD RADIO DOWNGRADED

Standard & Poor's has revised its rating outlook on CD Radio to negative, citing concerns about the rising costs of building the satellitedelivered radio service, delays in its launch, marketing costs, and public acceptance. "CD Radio is spending heavily to develop an unproven media service to compete with conventional broadcast radio. Consumer demand may not be sufficient to support two or even one satellite radio operator. Once the service is operational, the company faces at least a twoto three-year start-up period before its viability is established," said S&P analysts.

CAPITOL: IBOC PROPOSAL DUE

The FCC says it will offer its proposal for converting the industry to in-channel onband digital radio sometime this summer. It has also extended the deadline for comments. on its microradio proposal to Aug. 2, as requested by the National Assn. of Broadcasters. which says its engineers are still studying its impact on existing stations. Also, the FCC is now taking comments on its station-license auctions. More than 150 new station licenses will be auctioned in September.

The FCC has flagged Sinclair's proposed purchase of Phase II's AC WLTS and oldies WTKL New Orleans, citing concentration concerns. Sinclair currently LMAs the pair.

SALES: TRIAD BUYS IN DAKOTAS

Triad Broadcasting is buying classic rock KPFX, album rock KQWB, country KVOX, and AC KLTA Fargo, N.D., and classic rock KFXS, country KOUT, classic country KBHB, AC KKMK, and top 40 KRCS Rapid City, S.D., plus their AM sisters, from James Ingstad Broadcasting for \$37.8 million.

Regent Communications is buying AC WXKC, country WXTA, and N/T WRIE Erie, Pa., from Media One Group Erie for \$13.5 million . . . New Northwest Broadcasting is buying AC **KQEZ** Anchorage, Alaska, from Ubík Corp. for \$1.1 million.

CHUM Ltd. is buying AC CJMJ/sports CFGO Ottawa from Rawlco Broadcasting.

Promo Force With 'Menace' As Film Debuts

Promoganda panelists found a variety of ways around the paucity of free tickets for "The Phantom Menace." With the film's debut, it reclaimed the Topical Barometer crown over radio-station concerts. Father's Day and Independence Day finished third and fourth.

Country KSON San Diego took five "Star Wars" virgins (those who have never seen the original trilogy) to view the laserdiscs of the films at an electronics store on a big screen with surround sound. "After they watched all three films, we limoed them to a midnight showing of 'The Phantom Menace,' " says Greg "May The Farce Be With You" Frey.

Adult top 40 WOMX (Mix 105.1) Orlando, Fla., staged Thaw Wars, where contestants had to use only their body heat to melt a ball of ice with Han Solo frozen in the middle. The frostbitten winner was flown to a special screening in Washington, D.C., at which Angela Gooslin sang "I Melt With You" in modern English.

For country KYGO Denver's "Menace" ticket giveaway, listeners were blindfolded in the station's lobby. "By using 'the force,' they had to find the KYGO studio," Garret R2Doll2 says. "Our building is two levels with five studios, production suites, regular offices, conference rooms, and restrooms. It was really furny when the sister stations were unaware of what we were doing and the listeners walked into their studios unannounced or when they

walked into the opposite-sex bathroom."
Top 40 KIIS Los Angeles morning man Rick Dees hosted a \$10,000 Star Wars Scavenger Hunt. Twice each morning, he asked for two items, such as an original "Star Wars" ticket stub and a photo of George Lucas' star on Hollywood Boulevard. On May 19, the scavengers displayed their collections, and the best-looking one won. Von Freeman was the

PROMO TOPIC OF THE WEEK: BREAKING 'PROMO BLOCK'

Even Promoganda panelists concede that they occasionally suffer from "promo block," when they seemingly can't come up with a good promo idea. The solution? Brainstorming in a variety of ways, from simple things like reading the paper and surfing the Web to networking with other promotion directors and talking to jocks, sales staffs, receptionists, and

Stephanie Hogerman at country WBEE

Rochester, N.Y., cites staff think tanks: "Each week, we have a sign-up sheet for client promos, events, etc., for our brainstormer meeting. Everyone is welcome to participate; it's [held at] the same time every week, and it's a lot of fun. We get munchies and go through the list. Some clients take 20 minutes; others take two minutes. I can usually get great nontraditional ideas because the non-promo people can be pretty creative. They're not held back [by worrying] how 'it will sound on the air.' By Friday afternoon, everyone is pooped from a full week, and our ideas get wacky at times, but quite honestly, that's when we get the best ideas."
"Rule No. 1 in brainstorming—no idea is a

bad idea," says Vanessa Thill of rhythmic top 40 KLUC Las Vegas, while Anne Marie Strzelecki of modern adult WBMX (Mix 98.5) Boston suggests that you "fantasize if money were not an issue, what would you do?"

One of the more novel ways to break promo block comes from Sheila Silverstein of country **WPOC** Baltimore. "I sing out loud and dance through the hallways here," she says. "Once I feel free to express myself, I find that the energy helps me come up with good concepts.'

What outside sources are good for promo inspiration? On the tube, there's MTV, BET, and CNN. Some tape Letterman and Leno's monologues and comedy bits for water-cooler current-event topics. Check out the specialty channels your core demo watches, such as the Food Network, Lifetime, and Comedy Central. Ditto magazines such as Maxim, Details, Men's Health, Cosmo, McCall's, and Spin. On the Internet are a variety of Web sites from specialty consumer sites to radio trade posts that feature promo networking. Loren Condron of KEGL/KDMX Dallas also suggests "a great creativity book called 'Shaving The Inside of Your

QUICK HITS

Modern adult KDMX staged a Plane Pull. Teams of 15 competed to see who could pull a FedEx 737 cargo plane 12 feet the fastest. Hundreds of area businesses competed, raising more than \$60,000 for the Special Olympics.

For KLUC's Freeze Your T's, 10 contestants received a frozen T-shirt. The first one to unfreeze it and put it on his or her body won a prize package. "This can also be done with a five- or 10-pound block of ice," says Thill, whose promo gave new meaning to the term 'ice chest.

Our Truth in Advertising Award goes to modern rock KXTE Las Vegas, which gave away tickets to NASCAR racing at the local speedway and WCW wrestling, plus six-packs of Busch beer (which "is legal in Vegas," notes Carly "Stone Cold" Johnstone). It was billed as a White Trash Paradise weekend.

With the Backstreet Boys breaking Garth Brooks' debut-week sales record, top 40 CKIK Calgary, Alberta, threw a listener party at a local movie theater. "They have the best sound systems," says Michael Godfrey. "We played the CD, and our jocks discussed the songs with the audience. Someone at the party won a pair of tickets to the upcoming (though not-yetannounced yet) show. The response was huge.

If You Seek Moms, Don't Chase Daughters Away

Had an interesting conversation with **Tom Feran**, the radio/TV editor at The Cleveland Plain Dealer, about the demise of **WZJM** (Jammin' 92), the 5- to 6-share top 40 that went "Jammin' oldies" anyway. Since the format change, Feran says, he's been getting complaints from disenfranchised top 40 listeners who are "trying to pick up **WHOT** Youngstown, Ohio, on the skip" because they have nowhere else to go. And, Feran emphasizes, these aren't just teens calling. They're also 40-plus women, one as old as 49. "Two mentioned that their kids like top 40, but all called mainly for themselves," he says.

You'd expect a certain amount of upperdemo loyalty to top 40 in Cleveland because of that market's long top 40 history: WIXY, CKLW Detroit (which also doubled as a Cleveland station for many years), and even WMMS during the '80s. But it's good news for the format overall. We've known for a while that some moms were along for the ride. We haven't thought that they were so passionate about the format that they'd call a newspaper to complain when it went away. And WZJM, significantly, had remained unapologetically heavy on Britney Spears, B*Witched, and the Backstreet Boys when other PDs began to experience teen-act overload.

I'd been wondering about the moms recently and whether they (and the other people outside top 40's immediate target demo) are still attracted to the format. The P2 listeners who came to hit radio because of "Wannabe" and "Quit Playing Games (With My Heart)" and stayed because of "Walkin' On The Sun" and "Semi-Charmed Life" haven't had as many uptempo across-the-board hits to latch on to over the past 12-18 months, and for a while, the format's upper-demo numbers (and numbers overall) showed it.

In my upper-demo female focus group (namely, my girlfriend and her best friend), I'd seen mixed results. My girlfriend, a former rocker who began listening to WHTZ (Z100) New York because of me, was now listening mostly in mornings and less likely to mention individual songs. Her friend, however, was more new music conscious than ever, asking me not only about Z100's hits but songs like Faith Evans' "Love Like This" that were never played on top 40 in this market but that she'd seen once or twice on video.

Over the past few weeks, the quality of the music available to top 40 has again improved dramatically. From "No Scrubs" to "All Star" to "Livin' La Vida Loca" to "Wild Wild West," we

have more obvious, all-ages records than we've seen in more than a year. And at least a few of them are records that top 40 will own. Now, the key is making sure that adults are around to hear those records.

In some ways, the odds are good. Top 40's million-dollar giveaways have done a good job of restoring some promotional excitement to the format this spring. And with 18- to 21-year-olds starting their summer jobs, there's going to be a lot of forced listening by adults who will, as they do during every top 40 boom period, surprise themselves by not hating our music.

That said, the best way to reach adults is still through their kids. In recent months, programmers whose teen-act fears had abated a little when "... Baby One More Time" started to test and went to No. 1 are again expressing concern, citing test scores on individual boy-group records and focus-group complaints about "cheesy" or "disposable music." With the teen acts no longer supplying the only uptempo pop music in the format, it would be easier than ever for PDs to steer away from that music altogether now. But it wouldn't necessarily be wise to blow off the teens this summer when they could bring their parents along. Ironically, it may take teen acts to prove to adults that top 40 is again more than teen acts.

Targeting the listeners on both sides without alienating 18-24s is, of course, tricky. But it's both a good problem to have and a new one. While top 40 also had to deal with a rift in the early '70s between the boppers and the rockers, there wasn't another generation in the mix at the time. Whether you liked "Heartbeat—It's A Lovebeat" or "Aqualung," chances are that your parents never liked rock n'roll in the first place. Top 40 did have adult listeners, but adults had fewer alternatives back then.

I've never been in favor of top 40 trying to super-serve adults; doing so in the late '80s/early '90s brought us the **Bolton**-ization of the format. But over the past few years, we've been lucky enough to have adult listeners with some predilection for (and grounding in) the format, even some with an appreciation of hip-hop elements (witness the adult top 40 success of "Fly," "Better Days," etc.). And the 25-plussers raised on top 40 understand the concept: They don't expect to like every song, as long as the next one is different. By the summer's end, they have the opportunity to be even happier with the format than they were two summers ago. PDs don't have to remove every record adults night not like—programmers just have to make sure they're tuning in.

John Christian Discovers The Ideal Jam As Programmer Of KXJM Portland

Veteran programmer John Christian had just settled into his new PD gig at KWIN Stockton, Calif., and had no intention of moving. Then a veritable opportunity of a lifetime came his way: the chance to start up a station in a large market that had a huge R&B/crossover hole. Furthermore, the station boasted a mom-and-pop ambience despite being owned by one of the richest entrepreneurs in the country. The PD post at KXJM (Jammin' 95.5) Portland, Ore., owned by Microsoft co-founder Paul Allen, was truly an offer he could not refuse.

"If you look at the amount of research that went into this project when it signed on, the hole . . . was very obvious," he says. "It was also obvious from my first conversations with Paul Allen and GM Tim McNamara that they were in this to win. Throw in the fact that the station was being consulted by Steve Smith and Michael Newman, both of whom I worked with at KQHT [Hot 97.7] San Jose, Calif., and this was an opportunity I could not pass up."

John Christian Program Director KXJM Portland, Ore.

'Z100 will have to decide which end [of the demo] to keep, upper or lower'

Owner: Rose City Broadcasting

KXJM, in Christian's eyes, leans heavily rhythmic but is more a top 40 than an R&B station. (It's a dual R&B and crossover reporter to Airplay Monitor.) "I think we're a true top 40 station," he says. "Obviously, we lean rhythmic, but to label [us] an R&B station isn't correct at all. We are Portland's new hit music station, and what we play reflects that. Look at the research: A prime example is Lauryn Hill, who won a fistful of Grammys but received little airplay here until we signed it on. Judging by Portland's SoundScan numbers, it's obvious that a big audience segment was being overlooked by [crosstown mainstream top 40 KKRZ] Z100. They're more or less ignoring what the masses were saying by not playing those artists.

"On top of Lauryn Hill, Whitney Houston,

"On top of Lauryn Hill, Whitney Houston, Jay-Z, DMX, and Dru Hill are our core artists who are driving this format," Christian continues. "A lot of people are under the impression that this format wouldn't work in Portland because it's very white. Yet according to Time magazine, up to 70% of all hip-hop sales are to white kids. A whole generation of kids have grown up immersed in hip-hop. Obviously, you're never going to hear a matchbox 20 on this station. They're a great band, but Z100 will play them."

Here's what you will hear during a typical hour: Whitney Houston Featuring Faith Evans & Kelly Price, "Heartbreak Hotel"; Next, "Too Close"; Naughty By Nature, "Jamboree"; Usher, "My Way"; Keith Sweat, "I'm Not Ready"; Lauryn Hill, "Can't Take My Eyes Off Of You"; Notorious B.I.G., "One More Chance"; Mya, "My First Night With You"; Mo Thugs Family, "All Good"; Mase, "Get Ready"; Tyrese, "Sweet Lady"; 2Pac, "Changes"; K-Ci & JoJo, "Tell Me It's Real"; and TLC, "No Scrubs."

"We'll run a very tight list, very focused on the hits," Christian says. "A lot of hip-hop will come from the streets, which more or less reflects the culture, so I'm not afraid to play records around the clock. There won't be a lot of dayparting. I

certainly won't daypart Jay-Z's 'Can I Get A...,' which is an anthem. For other songs that might be perceived as being harder in content, we'll have to deal with each song on its own merits in how it performs in this market."

Jammin 95.5's hot rotation is in the low 70-spin region. "It'll be interesting to see how Z100 reacts to our newest stuff," Christian says. "TLC is great example. I'd guess that TLC is one of their core artists, too, but we started playing 'Unpretty' three weeks ago, and Z100 just started playing it as well. If we're beating them to those artists, we'll see how they'll react differently and what the burn factor will be on records we share. In the long run, it'll make both stations stronger in exposing new music."

Despite the fact that KKRZ is the market king

Despite the fact that KKRZ is the market king with an enviable heritage presence, Christian is confident that KXJM will give it all it can handle and more. "I wouldn't want to be [the] PD who had to counter what we're doing," he says. "Make no mistake, Z100 is a great radio station, but they've grown old. When we signed on, they were promoting their 15-year anniversary show with Rick Springfield and Hootie & the Blowfish. We feel that we're doing a better job positioning for the younger end.
"In this last book, Z100 was No. 1 in 35-64,"

"In this last book, Z100 was No. 1 in 35-64," Christian notes. "I don't know how anyone can continue to program a station as broad as they have. They'll have to decide which end [of the demo] to keep, upper or lower. They can't have both. They've been very fortunate in that a lot of people grew up listening to them. They've been able to grow with the audience.

"Our strategy is very simple: We want every-one—young, middle, and old," he says. "We don't need to be No. 1 25-54, but we think we can have pretty impressive 18-49 numbers. I'm not going to predict anything, but this station can be healthy for many years to come."

At first glance, it would seem that KXJM has its work cut out for it, going up against Clear Channel/Jacor. But with Paul Allen footing the bill, it won't have to cut corners to market and promote the station. "We're doing a lot of traditional and nontraditional marketing," Christian says. "We've already bought a lot of TV, and our new billboards will be up by about the time this comes out. [Our ads] will also be on every movie screen in the market during the summer."

However, Christian maintains that grass-roots word-of-mouth has generated the biggest buzz. "The first week we were on the air, we got calls from a high school [official], complaining we were putting ads up in their hallways without getting proper authority," he says. "The thing was, we didn't do it. Students were putting up signs, telling everyone to listen to Jammin' 95.5.

"A while later, we went to a local dance club, and instead of a mixer, they were just running the station through their sound system. It was the first time I'd ever seen that in a club in my entire career. The thirst for this format in this market is a lot bigger than many of us had thought. It has been incredible."

The lion's share of KXJM's air staff is set, with Mario Devoe from KCMG (Mega 100.3) L.A.; Rene Taylor from KYLD (Wild 94.9) San Francisco; Alexa from WPYO (the Party) Orlando, Fla.; and Louie Cruz from KWIN on board. The final hole to fill is in mornings.

To be sure, Christian appreciates the opportunity afforded to him: "I feel like I've died and gone to radio heaven. This is my 20th year in broadcasting. For a few years, I got out and started my own business. I got to be a listener for the first time in my life. Radio has always been my passion. I feel fortunate that people like Steve Smith, Michael Newman, and Tim McNamara have rolled the dice on me. I don't want to screw this up. I'm so committed to winning, I'm looking forward to buying a house and settling down."

JEFF SILBERMAN

Exclusive Arbs Winter Tally Shows Not Exactly Business As Usual

fall '98 books, spurred by a combination of Bill and baseball. In Rush Limbaugh's midday daypart, the format was off 17.9-17.3, putting it exactly where it was a year ago. N/T's 3.5 share in teens, significant not because the format targets them but because it shows that the format was hot enough to grow outside its intended demo, has also dissipated. N/T has a more normal 1.5 share in teens.

AC was up 14.4-14.5 overall. That's within its range for the last three books but down from the 15.1 it had last winter. It was off 8.4-7.2 in teens, not surprising now that more of them have a top 40 station in their market and are less often forced to use an adult top 40 station by default. But the format was up in all adult demos, including 15.5-15.7 18-34, 16.7-17.0 25-54, and 16.2-16.5 in 35-64.

AC is one of the formats that might reasonably have been expected to lose some upperdemo bodies to the new "Jammin' oldies" outlets, but the fact that its 35-64 numbers were up suggests otherwise. Traditional pop oldies stations of the Elvis/Beatles/Beach Boys variety were another logical target, but they held in 12-plus listenership (where they were steady at a 5.5) and in 25-54 (flat at 6.4) and 35-64 (where they were up 8.7-8.9).

But clearly R&B oldies stations picked up some audience from somewhere. In the first book for which we've done a separate measurement for R&B oldies outlets, they came in at a 2.2 12-plus, meaning the format already has the same national strength as religious outlets and the classical format. And that's with a relatively small number of outlets, albeit a good representation in markets that control a strong amount of national listening—i.e., New York, Chicago, L.A., Houston, and Dallas. And there are plenty of classic soul sign-ons that won't be counted until the spring.

WHO'S BEING JAMMED BY **R&B OLDIES?**

While some R&B oldies outlets primarily target African-American listeners, the most publicized major-market sign-ons have been deliberately universal in appeal: mixed air staff, few or no titles that aren't familiar to the pop audience, etc. A Monitor analysis of the first R&B oldies ratings books last fall showed the format drawing only a 25%-40% African-American cume, although black listeners seemed to be contributing a disproportionate amount of quarter-hours.

Based on our first numbers, however, it looks like the bulk of listening to R&B oldies stations came from other R&B stations and from smooth jazz outlets, another format with a similar listener profile. When you include mainstream, adult, and classic R&B together, the format is up 11.9-12.4. But subtract a 2.2 share, and the format is at a 10.2. Adult R&B stations, broken out separately, lose more than a half share, off 3.6-3.0. Combine this with relative stability for AC and oldies, and it appears that much of R&B oldies' audience is coming from other R&B oldies formats or smooth jazz, which was down 3.1-2.9.

Could the bulk of R&B oldies' shares come from R&B radio when African-Americans are only about 40% of the cume at "Jammin' oldies"? Well, these numbers do include some more traditionally formatted R&B oldies outlets, such as WRBO Memphis, WNPL Nashville, and KMEZ New Orleans, all of which had good books this time and all of which are closer to 85% African-American in their minority composition. Beyond that, R&B radio's non-ethnic listeners seem to be a particularly likely target for the new format. And again, the black audience that listens even to the determinedly pop version of the format does contribute a disproportionate amount of the listening.

1t's also possible that mainstream R&Bs lost

some listening not to R&B oldies but to top 40. R&B, like adult top 40, had been picking up the slack in some markets that didn't have a top 40 station. Top 40 had its best 12-plus number in 31/2 years, up 8.9-9.2, but it still has a way to go to return to the 15.9-share level it was at when Arbitron and Monitor/Billboard began crunching these numbers a decade ago. While R&B is hardly the defining flavor at top 40 radio, the format certainly plays more R&B than it has in several years. And the format's last major uptick, in spring '96, also coincided with a more rhythmic bent. And despite PDs' longstanding concerns about the impact of R&B and hip-hop on upper-demo numbers, the format was up 13.5-13.9 in 18-34, 7.1-7.4 in 25-54, and 4.5-4.6 in 35-64.

COUNTRY: BACK TO ITS ROOTS

By contrast, country radio is almost exactly back to where it was when we started looking at these numbers in 1989, meaning that country PDs can no longer say that despite their format's leveling off, they're still better off than they were before Garth, although the format remains formidable, No. 4 overall.

In most dayparts, country's shares are almost exactly what they were in 1989. Consider these stats: mornings (9.4 now, 9.6 then); middays (9.7 now, 9.8 then); afternoons (9.4 now, 9.5 then); nights (7.0 now, 7.1 then).

Demographically, the format has a 9.5 now in 25-54, vs. a 10.6 then. It has a 10.6 35-64. vs. a 13.1 in 1989, despite the format's very adult feel at the moment. It's at an 8.9 with men, vs. a 10.1 in 1989. Where is it up compared with a decade ago? In teens, with a 4.8 now, vs. a 2.8 then. In 18-34, with an 8.4 now, vs. a 6.8 in 1989. And with women, 10.4 now, vs. 9.7 then.

Country could have contributed some male listeners to album rock's rise. Album rock was up 7.1-7.5 overall, its best number since spring '96, and 10.2-10.9 with men. N/T is probably also a likely contributor, since it's down 20.9-20.0 in the adult male demo. Rock radio seems to have gotten some help from a decline in the availability of modern rock, particularly

in markets where the modern rocker returned to album rock outright.

CLASSIC ROCK **DOESN'T REALLY** ROCK

Classic rock, on the other hand, showed its lowest 12-plus number since fall '96, suggesting that it wasn't getting a lot of help from the proliferation of stations positioning themselves as "Classic rock that really rocks." And of all the non-R&B formats that could have been hurt by the rise of R&B oldies, classic rock seems like a pretty good candidate, off 5.4-5.1 in 35-64.

Mødern rock radio, by the way, should have been hurt a lot more

during the winter. It was off 3.9-3.8 12-plus, returning it to the level where it spent most of 1998. But the format went from 74 stations in the continuous-measurement markets to only 61, suggesting that those that hung around had pretty good books.

Spanish radio, which was off 6.5-6.1 last time, rebounded to its previous levels in the winter. This despite lower than usual numbers

Finally, in our analysis of the fall numbers, we suggested that the adult standards format would probably be off in the winter, following the departure of its New York flagship, WQEW. But much of WQEW's audience showed up at, surprisingly, suburban adult standards outlets, meaning the format was off only 3.3-3.2 overall.

If two records are tied in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this chart in conjunction with the Mainstream Top 40 Airplay chart.

Songs ranked by number of detections. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records that attain 600 detections for the first time. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Records showing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, ever if it registers an increase in audience. If two records are tied in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this chart in conjunction with the Rhythmic Top 40 Airplay chart.

Songs ranked by number of detections. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records that attain 900 detections for the first time. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Records showing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in audience. If two records are tied in total audience, the record being played on more stations is plaked first. Records become recurrents and are removed from this chart in conjunction with the Crossover Airplay chart.

Songs ranked by number of detections. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records that attain 900 detections for the first time. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Records showing a increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks with not receive a bullet, even if it registers an increase in audience. If two records are tied in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this chart in conjunction with the Adult Top 40 Airplay chart.

Songs ranked by number of detections. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records that attain 700 detections for the first time. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks.

Songs ranked by number of audience, computed by cross-referencing exact times of airplay with Arbitron listener data. Records showing an increase in audience over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in audience. If two records are tied in total audience, the record being played on more stations is placed first. Records become recurrents and are removed from this data in conjunction with the Modern Adult Airplay chart.

The chart, reprinted from Rock Airplay Monitor, is compiled from a national sample of data compiled by Broadcast Data Systems. 68 modern rock stations are electronically monitored 24 hours a day, seven days a week. Songs ranked by number of detections. Records showing an increase in detections over the previous week, regardless of chart movement. A record that has been on the chart for more than 20 weeks will not receive a bullet, even if it registers an increase in detections. Airpower awarded to those records that attain 1,100 detections for the first time. Greatest Gainer awarded to the record with the largest increase in detections. Most New Stations awarded to the record registering six or more detections at the most stations for the first time this week. If two records are tied in number of detections, the record being played on more stations is placed first. Records below the top 20 become recurrents and are removed from the chart after 26 weeks. ©1999 Billboard/BPI Communications
