## SALES ANALYSIS

### U.S. \$4 BILLION PACES WORLD SALES

The U.S. prerecorded music market continues to pace world sales though it reflects dramatic shifts during the 1978 study period, most noticeably in the rise of cassette sales.

U.S. manufacturers' sales of recordings in 1978 show an 18% upsurge in retail list value hitting \$4.131 billion compared to \$3.5 billion in 1977 reflecting in part the rise to \$8.98 pricing.

However, were it not for tape unit sales, the unit sales barometer would have not remained on the up side. U.S. unit sales are up only 4% and LP unit sales actually slipped 1%.

Cassette, coming on strong in recent years with a 70% unit sales burst in 1977, continued with 1978 up 66% in units to 61.3 million units from 36.9. Thus, cassette drew closer to 8-track where the U.S. now remains as the only significant market. U.S. 8-track sales were up 5% in units for 1978. Cassette to 8-track ratio in 1978 was 2:1 compared to 4:1 a year prior and 6:1 six years ago.

In other highlights of world market sales, reported elsewhere, Japan and West Germany continue a competitive pace. To offset currency fluctuations, these world sales charts are now expressed in unit sales primarily focusing on LPs. This barometer shows West Germany gaining 14 million units during 1978 and Japan slightly over one million. The U.K. is up four million in LP unit sales.

# HISTORICAL REVIEW

## RECORDED MUSIC REVIEW 1979-1877

<b>1979</b>	Label mergers and the energy/economy crunch rocked the industry just coming off an all-time 1978 sales surge that saw U.S. prerecorded volume shoot past \$4 billion. Major mergers: Paramount acquires 50% of EMI's music operations (earlier, Capitol Industries-EMI had acquired UA); Ariola-Eurodisc planned to acquire Arista; RCA acquired A&M distribution; and MCA acquired ABC.	Formation of Capitol Records.	<b>1942</b>
<b>1978</b>	As \$7.98 becomes the standard U.S. list price sales leap past \$3.5 billion in a recording boom that taxes the nation's pressing facilities. Movie soundtracks enjoy renewed popularity, and combined with the continuing disco rage, boost "Saturday Night Fever" to record-breaking sales levels. Digital recording enters the scene and video gains wider acceptance despite format confusion.	Record industry charts bow in Billboard. In Germany superior magnetic tape recorders are produced.	<b>1940</b>
<b>1977</b>	New Revised Copyright Law passes, the first since 1909. Direct-to-disk recording is revived. Visually-pleasurable concept in retail arrives, and death of Elvis Presley rocks industry.	First experimental FM goes on air.	<b>1939</b>
<b>1976</b>	Disco breaks as potent promotion and sales source. Columbia Records hints of higher-priced super act releases.	Popularity of jukeboxes boosts industry.	<b>1936</b>
<b>1975</b>	Spiraling inflation raises singles prices from \$1 to \$1.29, LPs and tapes jump \$1. Budget lines disappear from majors, replaced by \$4.98 lines of steady catalog sellers. Record/tape retail chains proliferate.	American Decca is launched. A record-player-radio combination is marketed inexpensively by RCA Victor.	<b>1934</b>
<b>1974</b>	Continuing material shortages elevate production costs by 35% for singles and 60% for LPs.	EMI forms through Gramophone Co. and Columbia Graphophone merger. First 33 1/3 long-playing record demonstrated by RCA.	<b>1931</b>
<b>1973</b>	Surge of state antipiracy statutes cuts illicit tape flow.	Depression adds to record industry decline but radio turns more and more to recordings.	<b>1930</b>
<b>1972</b>	RCA, Japan Victor Co. and Panasonic debut 4-channel discrete disk system. Sound recordings afforded greater federal protection against piracy.	Victor purchased by RCA. Warner Bros. buys Brunswick Radio Corp.	<b>1929</b>
<b>1971</b>	CBS/Sony preview the "SQ" disk, a compatible 4-channel disk system. First international conference on video recording (VIDCA).	Brunswick's all-electric Panatone bows. Columbia and Victor issue electrical recordings.	<b>1925</b>
<b>1970</b>	Compatible 4-channel 8-track cartridge system, Quad-8, introduced by RCA and Motorola.	Record boom shows due to radio. Electrical recording perfected by Bell Laboratories.	<b>1924</b>
<b>1969</b>	Trend toward bigness on all levels of the music business with all areas involved in the merger game.	First commercial radio broadcast over WEAFL, N.Y..	<b>1920</b>
<b>1967</b>	Manufacturers raise monaural prices to stereo level as major step in creation of all-stereo industry.	Victor releases first jazz record by Original Dixieland Jass Band, and the first Leopold Stokowski/Philadelphia Orchestra recording.	<b>1917</b>
<b>1966</b>	Breakthrough of tape cartridge.	Cylinder abandoned, many new labels formed.	<b>1912</b>
<b>1965</b>	U.S. excise tax on records rescinded.	Odeon issues first large-scale orchestral recordings.	<b>1909</b>
<b>1964</b>	U.S. record sales hit all-time high with Beatles invasion and great gains in LP sales.	Victrola, first enclosed-horn phonograph, appears.	<b>1906</b>
<b>1962</b>	Summer season one of best in history for singles. Racks register 24% gain over 1961.	First double-sided records issued by Odeon. Caruso becomes exclusive Victor artist.	<b>1904</b>
<b>1961</b>	FM stereo gets FCC okay; racks show gains.	First royalty system for compensation of recording artists. In Berlin, formation of International Talking Machine Co. (Odeon).	<b>1903</b>
<b>1960</b>	Stereo booms to offset singles dip. ("Persuasive Percussion" scores big.)	Columbia and Victor share patent on disk recordings, and cylinder drops from favor. Enrico Caruso records opera for the Gramophone Co..	<b>1902</b>
<b>1959</b>	LP sales surge ("Flower Drum Song," "Peter Gunn," "Kingston Trio At Large").	Marketing of disk recordings moves ahead with formation of Victor Talking Machine Co.	<b>1901</b>
<b>1958</b>	First stereo LPs.	Columbia Phonograph Co. opens London office.	<b>1900</b>
<b>1956</b>	First appearance of high quality stereophonic tape recordings. Elvis craze booms.	Deutsche Grammophon Gesellschaft, oldest record manufacturing company, established in Hanover.	<b>1899</b>
<b>1955</b>	Columbia starts record club, while other companies cut LP prices.	International expansion starts with American Graphophone's London office.	<b>1897</b>
<b>1954</b>	"Sh-Boom" by Crew-Cuts heralds dawn of rock n' roll, "Rock Around The Clock" is out, but sleeps a year.	National Phonograph Co. formed by Edison, manufacturing and distributing spring-driven phonographs for homes.	<b>1895</b>
<b>1952</b>	RIAA founded.	Berliner manufactures gramophones and disks in Washington, D.C. while Pathe brothers in France manufacture phonographs and cylinders.	<b>1894</b>
<b>1950</b>	78 r.p.m. sales dwindle as RCA announces intention to produce LPs.	Columbia Phonograph Co. founded to market American Graphophone products. In Germany, first commercial gramophones and records are manufactured.	<b>1889</b>
<b>1949</b>	45 r.p.m. introduced by RCA sets off battle of speeds. Three-speed phonograph introduced.	Edison improves phonograph, using wax, forms Edison Phonograph Works. First celebrity recordings made in Edison's laboratory. North American Phonograph Co. formed.	<b>1888</b>
<b>1948</b>	Columbia issues 33 1/3 r.p.m. LP, with 23 minutes per side.	Flat phonograph disk patent application by Emile Berliner and formation of American Graphophone Co. launch recording industry.	<b>1887</b>
<b>1947</b>	Limited use of magnetic tape recording in America and Europe. MGM Records bows.	Bell & Tainter patent "graphophone," replacing tinfoil cylinder with wax-coated cardboard.	<b>1885</b>
<b>1945</b>	Mercury Record Corp. is born.	Chichester A. Bell and Charles Sumner Tainter work on phonograph improvements.	<b>1881</b>
<b>1942</b>	Nationwide recording ban by AFM, lasting until Nov. 11, 1944. High fidelity technique used by English Decca.	Edison Speaking Phonograph Co. and London Stereoscope Co. formed. Phonograph interest in limbo.	<b>1878</b>
		First reproduction of sound by Edison on tinfoil cylinders and device called "phonograph." Microphone invented by Emile Berliner. France's Charles Cros writes paper describing process of recording and reproducing sound.	<b>1877</b>

Because world currencies fluctuate continually, this chart now reflects unit sales. Spain's 1978 LP sales provide an excellent example: Whereas dollar value was up nearly \$4 million over 1977, unit sales were actually down 800,000. LPs are the top row and singles the bottom. In some cases, reports combine all units or combine some units. Consult individual notes. For an approximate dollar sales volume, consult the individual country by country listings where this figure is sometimes available. Also often available is the individual unit price for each configuration.

# WHICH NEW HIGH BIAS TAPE WINS WITH MAHLER'S FOURTH SYMPHONY?

Original manuscript sketch for the first movement of Gustav Mahler's Fourth Symphony. Courtesy of The Newberry Library, Chicago.

Choose eight measures of Mahler's Fourth that are really rich in the high frequencies. The type of passage that high bias tapes are designed for.

Record it on your favorite high bias cassette, using the Chrome/CrO<sub>2</sub> setting. Then again on new MEMOREX HIGH BIAS.

Now play back the tapes.

We're convinced you'll have a new favorite.

New MEMOREX HIGH BIAS is made with an exclusive ferrite crystal oxide formulation. No high bias tape delivers greater high frequency fidelity with less noise, plus truer response across the entire frequency range.

In short, you can't find a high bias cassette that gives you truer reproduction.

## LENE AUTOMATED RECORD PRESSING SYSTEMS

Eliminate hand operations in the production of 7", 10" and 12" phonograph records. A single machine tender can operate a battery of these units, simply by providing stacks of labels and removing stacked and sleeved records at the delivery end. Proven for 14 years. In excess of 600 installations in the U.S., Canada, Europe, the Orient, and other areas.

Write, telex, or phone for information regarding Lened systems... or for information about Lened's other equipment for the industry including packaging, handling, counting, imprinting, and tape duplicating machinery.

# We create sound packages...

For those of you who may not be familiar with what we do, we have been designing ads, album covers, labels, catalogs, tape graphics, etc. for over 20 years. We also set the type, do color separations, do the printing, make the jackets. Part of the reason we are still around and growing is that our clients know they can count on us — we're honest, tell it like it is and de-

liver a commendable job, usually on time. Since most of our work (layout, art, typography, camera, printing, etc.) is done internally by our own people and our own equipment we can maintain control of all work and at the same time be very competitive.

**Small run and/or low budget: see our full color "Instant Album Covers" free catalog available.**

## INVEST IN A MIND. IT'S AS GOOD AS GOLD.

Each year the United Negro College Fund pays off with thousands of black graduates with valuable training America's industry needs today. It's no wonder that UNCF member schools have become a natural resource for accountants, managers, engineers and technicians.

And that's only scratching the surface, because there is so much raw talent out there. Take this 11-year-old child, for example. Right now his mind is like raw material ready to be developed. But this can happen only if you are willing to invest in the United Negro College Fund.

Your contributions give our young people the opportunity to attend the 41 private, predominantly black, four-year colleges and universities sponsored by the UNCF. If we couldn't keep our tuitions low and grant financial aid, some 70% of our students couldn't attend college at all.

UNCF graduates have proven to be a precious commodity to the business community. And that's as good as gold.

Send your check to the United Negro College Fund, Box N, 500 East 62nd St., New York, N.Y. 10021. We're not asking for a handout, just a hand.

## GIVE TO THE UNITED NEGRO COLLEGE FUND. A mind is a terrible thing to waste.

© 1979 April • Blackwood

Copyrights. In the business of music publishing, they're the single resource we seek, develop and market.

We're proud that 1978-79 has seen our catalogue of copyrights yield the fastest and largest growth of any year in our history—with more awards, honors and hits than anybody could've imagined.

We firmly believe the talents of our creative family are second to none.

With our aggressive commitment to excellence, we'll sustain our record of converting great songs into great hits. And strengthen our reputation as the company with the copyrights that mean more than a name and a date.

Give a little today. Take a lot tomorrow.  
 That's what makes United States Savings Bonds  
 a great way to secure your future. And why over  
 nine million people like you have already joined the  
 Payroll Savings Plan.

You see, once you sign up, a small part of each  
 paycheck is set aside to buy Bonds. Saving is so  
 automatic, you'll soon forget about it.

So buy United States Savings Bonds.  
 Automatically, through the Payroll Savings Plan.

You won't even feel like  
 you're giving, until all those  
 Bonds are yours for the  
 taking.

# Satisfied Customers make PRICE RITE RECORDS

The exporter you can rely on!  
Can you say this about your supplier?

VIA WUI JUNE 30/79

YOU MAY BE INTERESTED TO KNOW THAT I GOT A CALL,  
FOLLOWED BY A MILE LONG TLX, FROM JIM LEVENTHAL  
OF RECORD SHACK TELLING ME HOW AMAZING THEY WERE,  
THE BEST IN WORLD, BIGGEST IN US, PERSONAL FRIEND  
OF PRES. CARTER, THAT SORT OF THING...AND THAT I  
SHOULD DEAL WITH THEM AS THEY TURN ROUND ORDERS  
IN 24 HOURS, HAD BIGGEST INVENTORY IN WORLD, SUPPLY  
MOST OF WESTERN HEMISPHERE, HAVE A STAFF OF 2  
MILLION...AND VARIOUS OTHER STORIES...HIS PRICES,  
APART FROM SPECIALS (AND WHO THE HELL CARES ABOUT  
THEM) ARE DEARER THAN YOU...SO I TOLD HIM POLITELY...:  
NO THANKS. IF HE'S THAT BIG HE CAN'T GIVE ME  
THE PERSONAL SERVICE THAT YOU CAN, AND HE ALSO  
DOESN'T NEED MY FEW BUCKS TO ADD TO HIS PILES  
KEEP TAKING THE TARTAN TABLETS.  
BEST WISHES, GORDON.

VIA WUI 1317 12/19:

IF I DON'T SPEAK WITH YOU AGAIN THIS WEEK HAVE  
A NICE XMAS AND TNKS FOR ALL YOUR HELP OVER  
THE YEAR I DONT KNOW WHAT WE WOULD DO WITHOUT  
YOUR SUPERB SERVICE.

## STOP WASTING TIME AND MONEY!

If you're devoting a sizable portion of your time to accessories and blank tape that represents only 10 to 15% of your sales, you're using time that could be spent on other areas of your business. If you're NOT devoting adequate time to accessories and tape, you're most likely not developing the sales that you could. If this seems like a paradox, at least it's one with a solution.

We'd like to show you how we can help to make YOUR blank tape and accessory business more profitable. Contact us anytime on our toll-free number, (800) 523-2472.

## THE SHEAR-SHAFT\* EXTRUDER

*The Right Choice for All Reasons*

Extruda-Products Inc. has the *only* extruders that are currently in phonograph-record production lines employing Hamilton, Lened and SMT automatic presses. In fact, EPI extruders adapt to every production line, manual or automatic.

The secret to the success of the EPI extruder line is a patented shear-shaft invented by EPI's extruder designer, Bob Tillis. By eliminating costly breakdowns caused by broken screws, this exclusive feature has proved to save users thousands of dollars.

Take your choice: the EPI Horizontal Extruder, the EPI Vertical Bottom-Drive Extruder, or the EPI Vertical Top-Drive Extruder.

The best news of all: EPI maintains a complete stock of interchangeable spare parts for all extruders, and offers quick delivery and very competitive prices.

# IT'S FANTASTIC!

You spent a fortune getting the right sound. Make sure it gets on record. You deserve the best quality pressing available and intend to get it. Sounds easy. But it's not. Why? Because all records are "Pressed" or molded from metal stampers. These stampers contain the fortune you just spent getting "The Sound." If these stampers fall short in quality, there can be no quality records pressed. Get the picture! Don't take chances with your product! To get quality records, you've got to get the best stampers available and we think we make the best, but you be the judge. We think our Record Presses and Extruders are also the best. Ask around.

## GRANDMOTHER HANDLED DOWN A LOT MORE THAN HER CHINA.

Grandmother was a child abuser. No one ever taught her how to be a good parent. Or how to cope with her problems. Helpless as she was, Grandmother took those problems out on her daughter. Today that daughter has children of her own. They endure child abuse from a mother who learned it from Grandmother. Help destroy a family tradition. It is estimated that there are at least one million cases of child abuse in America every year. And many of the children in those cases grow up to be child abusers themselves. Child abusers can be helped. Find out how.

**EMPHASIZE  
QUALITY.**

The cost of doing business—both buying and selling—keeps going up, and up, and up. And along with it, the importance of quality. Data Packaging quality products—cassettes, C-0s, and 8-track cartridges—stay sold. That means fewer returns, more reorders, and a lower cost of sales for you. In a word, value.

At Data Packaging we've been designing and building the world's highest quality cassettes and 8-tracks for over a decade. We're not about to change now.

# LEADER LOCK

## THE HEART OF YOUR CASSETTE

That little piece of staking rod is the big difference in the quality of your cassette.

Our Leader Lock is better because of our unique Double Extrusion process which delivers a rod diameter tolerance of not more than  $\pm .0005"$  (.0127mm).

— Sizes from .049" (1.2446mm) to .068" (1.7272mm).

— Extruded in increments of .001" (.0254mm).

— Tolerance not more than  $\pm .0005"$  (.0127mm).

— Popular sizes — .052" (1.320mm) and .062" (1.575mm) stocked for immediate shipment.

Designed and engineered for the cassette industry by the Burnhams of New York, our staking rod virtually eliminates cassette failure due to leader tape pull-out.

We also make special extrusions for particular requirements.

# Why buy tape from a giant?

When you buy industrial tape to record on, it has to be dependable. Defective and rejected tapes can be very troublesome.

And our High Speed bulk cassettes give you AudioMagnetics Low-Noise/High-Density tape in our premium cassette housing. They feature specially engineered components and assembly, designed for high speed duplicating.

Not to mention expensive. That's why it makes sense to buy from the world's largest tape manufacturer, AudioMagnetics.

So whether you buy tape or bulk cassettes from AudioMagnetics, you're getting the best quality tape available.

When you buy our cassette tape or 1/4 inch lubed tape you get a combination of ultra high-density gamma ferric oxide particles and an advanced binder system that gives AudioMagnetics tape the characteristics necessary for creating the finest quality recordings.

And that takes one giant load off your mind.

# "We can cut the red tape out of your import tape business."

Bill Dawson, Vice President, Marketing  
Ultra Specialty Inc.

**Q:** How does U.S.I. overcome the pricing difficulties and unreliable delivery dates of importing cassette tapes?

**DAWSON:** We have the complete series of quality *Ultra-sound Cassette tapes*, manufactured to our specifications, at a budget price. We also import a complete line of *duplicator quality cassettes* as well as C-O's. And we have the facility to warehouse them here.

**Q:** So when you receive an order?

**DAWSON:** We can ship them immediately.

**Q:** Is this the only venture Ultra Specialty deals with?

**DAWSON:** We have a network of contacts both worldwide and domestically, and we do business in almost every area. For example, many of our overseas clients also come to us for *Duplicating and Record Manufacturing Equip-*

*ment.* If we don't have it, we find it. You see, our philosophy is based on the trading concept. Our services for our clients works both ways. One day we can be buying the next, we can be supplying. It's quite unique, and it makes for good business.

# There are other ways to improve your sales record besides selling records.

Scotch® Recording Tapes—they make a profit center all on their own. And no wonder—because you can't sell a line of tapes with truer, purer sound than Scotch Recording Tape. And we have a very effective advertising campaign to make them very easy to sell. *Sports Illustrated*, *People*, *Playboy*, and the audio buff magazines are just some of the publications. There's television advertising too—plus

extensive merchandising.

Maybe that's why we're the best-selling brand of all blank tape in America.

So, get in touch with your local Scotch Recording Tape representative and find out how you can make another profit center right in your store.

Before you know it, you'll be recording big sales with more than just records.

Scotch® Recording Tape. The truth comes out.

# When The Others Don't Come Up To Level

## AGFA-GEVAERT Magnetic Tape will ... and then surpass it!

It doesn't matter if your needs are studio mastering tape, video tape, or bulk audio tape, AGFA-GEVAERT has been answering the high level requirements of a demanding professional European and U.S. market for a long time. And surpassing it everytime—with quality, performance, reliability, and availability.

Our PEM 468 Studio Mastering Tape has been accepted on the highest level as "the tape" for top quality original recording. It's available to the discerning as a low-noise, high-output, low-print, in 1/4", 1/2", 1" and 2"; Bintape in 1/4", 1/2" and 1"; and in Duplicating Tape, 1/4" x 3600'.

When your needs for video tape are varied, AGFA-GEVAERT Video Tape has the range to fill them. From 2" Quad to 1" Helical; 1/2" VIDEOCHROM to 3/4" U-matic cassette; and 3/4" bulk tape to magnetic film. Whether you're producing professional, semi-professional, or amateur programming, with our Video Tape you'll project a high level image.

The Professional Cassette Bulk Tape has long held the reputation as the one tape that really "stacks up". Supplied in pancake form

on stacking hubs, it is offered to the blank loader and duplicator as a Super High Density Tape, or a SUPER FERRO DYNAMIC Tape, in lengths up to 11,500'. Also available is a Mini-Cassette Tape with 2 micron foil, and a Splicing Tape in 150' lengths.

When your standards for recording and duplicating demand the highest, come up to that level, and surpass it, with AGFA-GEVAERT Magnetic Tape. We've been helping others to do it for years. Contact us TODAY!

VIDEOCHROM and SUPER FERRO DYNAMIC are the trademarks of AGFA-GEVAERT, Antwerp/Leverkusen.

# Stevie Wonder and TDK. Both bring great music to millions.

There's nothing like music to bring people together. Your TDK cassette customers care about music. And Stevie Wonder makes the kind of music they care about. With seven gold albums and 22 gold singles, it makes perfect sense to bring Stevie Wonder and TDK together.

Beginning this fall, Stevie Wonder will be singing the praises of TDK's full line of quality cassettes. Exciting TV and radio advertising will turn on your customers across the country. A full schedule of TDK magazine and newspaper ads will be read by millions. And Stevie Wonder in-store displays and posters will create the kind of store traffic you've always dreamed about.

As our featured cassette this fall, TDK D offers co-op and promotional opportunities unprecedented in the history of premium cassette merchandising. Tie-in with TDK advertising and take advantage of special promotions including TDK D in multi-packs. Remember, with hardware sales slowing down, tape has never been a more important profit-center. And economical TDK D has never been a more attractive value. Your customers recognize TDK quality, and the D cassette delivers it consistently. Watch for Stevie Wonder and TDK D this fall. Millions will.

# The Self Feed King

This Self Feed King automatically positions, loads and ejects blank or pre-recorded tape cassettes faster and more reliably than any cassette loader made. And you need fewer operators. Companies around the world depend on this King.

# The Manual King

The "Basic One", the new manual King produces blank and recorded tape cassettes faster, more accurately than any manual cassette loader made. This King is designed for smaller companies with low labor costs, high import duties, who need a faster more accurate cassette-loader.

## Introducing The "Basic One"

- High Production — Users report over 1200 C 60's per operator on one machine per 8 hour shift with perfect splices.
- Fast and Simple — Full electric motor drive, self contained vacuum. Only 5 simple manual switches to produce precise length blank or pre-recorded tapes at high production speeds.
- Low Cost — \$5890 (U.S. Dollars FOB our factory) including complete operations manual.
- Minimal Maintenance — The "Basic One" has been designed to be virtually maintenance free and includes complete operation service and repair manual. Designed to King's exact, proven engineering standards.
- Maintenance Training Film — A 25 minute Super 8 sound and color training film on the King Splicer is available for just \$128.00.

# IF IT'S GAUSS, YOU'LL HEAR

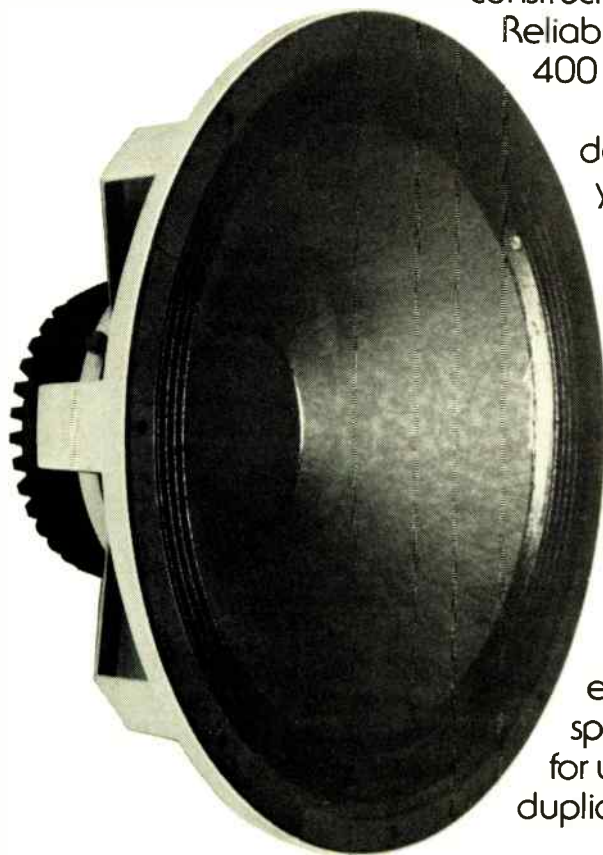

**G**auss offers a complete range of speakers and monitors. From compression drivers to compression tweeters. From 10" to 18" loudspeakers. Studio monitors. Disco monitors. Horns. And now, a new and more powerful line of 12," 15" and 18" dynamic cone loudspeakers. Loudspeakers that typically offer double the power, (400 watts RMS), at the same prices you used to pay for our 200 watts RMS speakers.

New speakers. Better speakers. But, with the built in reliability and cast iron warranty you've come to expect from Gauss. Reliability that comes from our unique double-spider construction and die cast frame.

Reliability that comes from hours of 400 watts RMS testing.

Gauss' quality standards in both design and manufacture add up to quality you can hear. But don't take our word for it. See your professional equipment dealer. Test one of our speakers against two of theirs. You'll hear the difference.

**W**henever you turn on a high quality stereo tape, you're probably hearing Gauss. Because Gauss high speed audio tape duplicating systems are operating in major duplicating facilities worldwide. It's no accident. Gauss high speed tape duplicating equipment was developed specifically for superb quality for up to 8 track, 1/4" or cassette duplication.

# THE DIFFERENCE.

With a duplication ratio up to 64:1, Gauss' closed-looped dual capstan drive virtually eliminates wow and flutter. And, the Gauss 10 MHz bias system assures less noise and distortion on the duplicated tape. But that's not the only reason Gauss is in the leading studios.

Gauss systems are modularly engineered. That means you can start with a master and slave...then add up to 20 slaves as your business grows. And, Gauss' modular design means you'll never have to own a system that's out of date. As we improve the equipment, we improve it modularly. You add the improved modules (like 64:1 duplicating), when you need them.

Gauss engineering brings you a better product in sound. In speakers. In high speed tape duplicators. Listen. You'll hear the difference.

# Studer announces the ultimate cassette QC machine

The new Studer A80RQC cassette pancake tape reproducer with dual capstan tape drive provides bi-directional playback to a level of quality previously unattainable in volume cassette production. In addition to flat frequency response to 16kHz, the A80RQC delivers Studer's traditionally superior signal-to-noise performance with negligible flutter, wow and distortion. Need record capability? It's available too! To improve your pancake inspection, call or write for complete information on the Studer A80RQC.

### 1 PERSON OPERATION

## AUTOMATED CASSETTE LOADING

THROUGHPUT per operator can be significantly increased using Automatic Cassette Feeders on Recortec loaders. One operator will then be able to handle up to 10 units loading C-90 length cassettes. The operator's only task is to keep the loaders supplied with C-zeros and tape pancakes.

QUALITY of output is improved by automated cassette handling and leader threading. The constant tension packing of tape in the cassette assures no tape stretching and trouble free cassette operation. Defective C-zeros and high friction cassettes are automatically rejected and segregated by the loader.

EFFICIENCY of Recortec equipment is evident when the same unit can handle C-10 to C-180 tape without adjustment. The same loader can be used for loading either prerecorded or blank tape. The unit is also less dependent on operator proficiency because of the automatic functions.

**1 PERSON OPERATION**

**32 OR 64 TIMES**

**AUTOMATED CASSETTE DUPLICATOR**

COMBINING duplication and loading into one operation is Recortec's contribution to cutting your labor costs. And, the Bi-Directional Master eliminates the master bin loop! With the system pictured, one operator keeps the C-zero hoppers supplied, puts on new pancakes and spot checks the finished product.

QUALITY is built into this professional equipment to provide the best in open reel type duplication systems. The standard 32 times duplication ratio provides the highest fidelity attainable in high speed duplication. Even at 64 times, the bandwidth is sufficient for most recording applications.

PRODUCTIVITY of your operation can be continually expanded from a start-up 1 x 1 system, to a 1 x 8 as pictured and even to larger configurations. Our systems provide highest productivity, and a quality product with fewer operators. Only Recortec offers automated duplication and loading in one operation!

# From Electro Sound everything you need for tape duplicating

## QC V all-new quality control reproducer

The indispensable machine to audio-test pre-recorded tapes before loading, and to align and maintain any duplicating system.

## ES1800 Cassette Loader

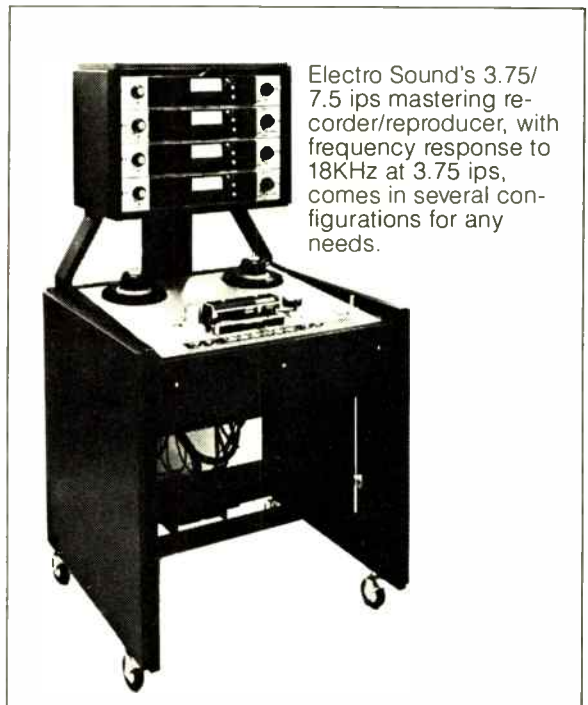

with new improvements and refinements including these major features:

300 ips wind speed. One operator can handle 3 or 4 loaders. Master air supply control on front panel. Lift-top cabinet design for easy internal component access. Dual

mode counter operates as safety stop in cue tone mode. Accepts European standard and NAB standard reels. Accepts all C-O shells without adjustment.

## The first mastering equipment designed especially for 64:1

Electro Sound's 3.75/7.5 ips mastering recorder/reproducer, with frequency response to 18KHz at 3.75 ips, comes in several configurations for any needs.

# The all-new Electro Sound Series 8000

The most advanced microprocessor-based 64:1/32:1  
cassette duplicating in the world

System 8000 uses sophisticated microprocessor technology and completely redesigned electronics to achieve a real breakthrough in duplicating quality, ease of operation and maintenance, and over-all cost effectiveness.

From its sparkling cabinetry to its smallest component, System 8000 is a real milestone in the advancement of the tape duplicating art.

Here are just a few of the features: The microprocessor introduces automatic process safeguards by continuously monitoring bias, Q-tone and tape speed. Tape handling is all new, with a constant-tension system and torque motor that eliminate eddy-current clutch motors, and with a packer arm system for smooth and consistent tape pack. Slave redesign affords complete access from the front, including tilted, lift-up top plate for easy operation and maintenance and saving of floor space.

And you won't believe the sound of the finished tapes.

Call or send for details.

We have all the equipment and accessories you need for a complete duplicating plant.

# How's 100 Cassettes per minute for starters?

In just one short minute, Passavant's precision cassette-handling system turns out one hundred finished tape cassettes — completely labeled or printed, encased and ready for final packaging.

The fully-automated cassette processing system does the entire job from presorting through counting and stacking quickly and efficiently. And we've engineered quality right into every moving part to assure a system that's dependable and virtually maintenance-free.

Of course, if you don't need the complete system right now, the Auto-sorter, Printer, Labeler, Encasing Machine, and Collecting Table are available as individual units which can be engineered into your present system in record time.

So, take a minute and give us a call or drop us a line.

If you put over a Million Dollars into the design, development and manufacturing of a Cassette Box, you would certainly want to be the leader in the field.

We did... We are... And it will only cost you a few pennies!

Because we are the leaders and produce more Cassette Boxes than all other manufacturers combined, we specialize in this product. So you can count on us for delivery.

We could sell you on the quality of our molds, or the unique radius edge for improved handling, or even our recessed scuff-resistant-clear lid. But what really makes Poly-Matrix number one is the way we manage our huge stocking and inventory program. Standard colors are black and clear, with custom color on request.

Don't settle for less. For a few pennies you can make your product look like a Million Dollars.

Once a year — and only once — United Way raises money to support really needed human services.

And once is enough, thanks to the outstanding efforts of the dedicated people who work without pay for United Way each year. Because one efficiently run campaign not only minimizes fund-raising costs and volunteer time devoted to fund-raising. It also reduces the number of times you're contacted each year and asked for a contribution.

United Way's continued success year after year proves a very basic point. People who really want to help don't have to be asked twice. When you ask the American people for help, they respond.

Thanks to you, it works. For all of us. **United Way**

## Good ideas sound right...

WITH PFANSTIEHL & PFANTONE PRODUCTS

If we aren't careful, we think of ourselves as being in the phonograph needle business. Or the 8-track cassette business. Or the cable and connector business. Or the complete audio accessory business.

While it is true, of course, that Pfanstiehl is in all of those businesses, in reality our *ultimate* business is the superior reproduction of sound. Our first requirement for any product that bears the Pfanstiehl (pronounce it fan' - steel) or Pfantone (fan' - tone) label is that it delivers superior sounding results.

That's the idea behind every one of our products... and in our business, the only good ideas are the ones that sound right!

Write in for complete needle and audio accessories catalogues.

See if we don't sound right to you!

Sweeping the Country... because it really works!*

# Permostat™

*from Stanton*

eliminates record static permanently  
with only **one** application!

© Stanton Magnetics, Inc. 1979

**UNTREATED RECORD**

**BRAND X**

**PERMOSTAT**

Permostat from Stanton is a new and uniquely formulated fluid, which permanently eliminates record static and accompanying noise with a single application... with no degradation in sound quality.

To demonstrate Permostat's anti-static qualities, Stanton constructed a dust chamber to perform accelerated dust pickup tests. Three records were suspended vertically within the chamber... the first untreated... the second treated with anti-static products currently available (piezo electric guns, fluids, cloths and conducting brushes)... and the third treated with Permostat.

Only the Permostat-treated record showed no visible evidence of dust and no residual charge.

Each Permostat kit provides permanent protection for 25 records (both sides). Just spray it on, buff it in and eliminate static for the life of your records.\*

You'll never play a dusty record!

**Suggested retail:**  
**Complete Kit:... \$19.95**  
**Refill:... \$15.95**

\*Normal considered record life expectancy is 100 plays.

# If you're not selling Sound Guard™, you're only scratching the surface.

If you sell records or audio at the retail level, you know that accessories are a highly profitable and increasingly important part of your business. Last year record care products alone accounted for \$40 million in retail sales. With higher record prices and heightened consumer awareness, this segment of the market can only continue to grow.

At Sound Guard we make the record care product line that gives you a selling advantage. Our Record Preservative is a revolutionary dry lubricant that virtually ends record wear. Our superior Record Cleaner, for both touch-up and thorough cleaning, is a proven sales winner. Our Total Record

Care System combines both the preservative and the cleaner at a competitive retail price point. Our Record Care Work Pad, Stylus Care Kit and Refills complete our unique line of fast selling record care products.

And to support your retail efforts, we have developed aggressive, far-reaching marketing and merchandising programs:

- Attractive full-color packaging
- Heavy national advertising
- Attention-getting POP pieces

- Musical event sponsorship program
- Retail sales contests
- Special college programs

In short, we'll be doing more than ever to get customers into your store and turn your sales force on to Sound Guard.

Remember, everyone who has a record collection is a potential Sound Guard customer... a profitable Sound Guard customer.

Sound Guard. Everything else is a lot of noise.

**“CBS has increased their overseas sales 300% in the past 2 years, and it's still growing.”** Gary Lyle, President Ultra Spec. Intl.

**Q:** You're the sole distributor worldwide for CBS. How did U.S.I. create this incredible growth?

**LYLE:** Well, that's a long story. The bottom line is, we have exceptionally good products. *CBS Professional Tapes*. And, we deliver what we promise, on time. So as the word gets around, more and

more people want to do business with us.

**Q:** Are you doing business this way with any other products?

**LYLE:** Oh, with many products. We have a network of contacts and clients worldwide. For example, we export *U.S. Duplicating and Record Manufacturing Equip-*

ment and we have just taken on a product we're very excited about: *The Ultra Sonic Film Splicer*. It's the only one of its kind, (used here by Technicolor and MGM) and we want to introduce it to the rest of the world.

# We speak the language of music all over the world.

**Music. The Universal Language.**

At CBS Records International (CRI) we have nearly 8,000 people around the world fluent in that language.

In fact, CRI is America's most comprehensive, diversified and sophisticated international music organization. With more owned companies in more countries than anyone. So we can provide the international coordination artists need to achieve international success.

In addition to bringing American artists to the rest of the world, our subsidiaries are constantly adding to their own local rosters, developing talent not only for their own marketplace but for other territories as well.

And tying all our local companies together are regional offices that allow us to spread our success from one country to another.

Because of all this, CRI has been able to grow in new ways each year. Toto, Cheap Trick, Bob Dylan, Earth, Wind & Fire, Billy Joel, Meat Loaf, The Jacksons, Art Garfunkel, Frank Zappa, Supertramp\*, Anita Ward\*\* and Julio Iglesias are just a few of the artists who have grown with us this year — to new levels of international success.

In short, we speak music all over the world. And that's real communication.

# AUSTRALIA

Population: 14,000,000  
 Rate of exchange: \$1 (US) = 0.86 Australian dollars.  
 Per capita income: \$5,540.  
 No. of homes with record players: 95%.  
 Holidays: January 1, January 26 (Australia Day), Good Friday, Easter Monday, April 25 (Anzac Day), Queen's Birthday, December 25, December 26 (Boxing Day)

**RECORDS & TAPE:**

**Total records & pre-recorded tape sold:** \$200,000,000.  
**Average retail price per record:** LPs \$8.50; singles—\$1.50.  
**Average retail price per tape:** Cassette—\$8.50.  
**Stereo sales:** 99% of total.  
**Quadraphonic sales:** 1% of total.  
**Record club sales:** 3.5% of total.  
**Discounting:** Approximately 5% of total.  
**Type of distribution:** Manufacturer-to-retailer predominates.  
 Rack jobbing is virtually unknown. Budget racking has all but disappeared in the last three years. EMI is the only company that runs its own retail outlets (Palings stores).  
**Type of promotion:** Radio exposure predominates, but TV film clips have usually been very effective and discos have had an increasing influence. The music press is still relatively unimportant, but its influence is increasing. Free-form government rock radio station 2JJ (Sydney) can have a large influence on out-of-mainstream product sales.  
**Jukeboxes:** 5,000.

**RADIO STATIONS:**

No. of commercial 126; No. of government 88.  
**Comment:** Primarily independent operations, with specialized programming occurring only in metropolitan areas. Pop/rock stations are usually dominant in the metropolitan areas, with MOR and country stations dominating elsewhere. Jazz and black music is nonexistent. There's a 20% local performance content regulation.

**TELEVISION STATIONS:**

No. of commercial 50; No. of government 87.  
**Comment:** American and English shows are dominant, with locally produced shows accounting for approximately 20% of programming.

**IMPORT/EXPORT REGULATIONS:**

Import duty is 35% on tapes; there is no import duty on records. Government sales tax: 27 1/2% imports, 27 1/2% local manufacturer.

**MARKET ANALYSIS:**

1978 in Australia was the year of the "gorilla." The record market was dominated by a small number of multi-platinum sellers which effectively took away the bucks from standard hit sellers and back catalog.  
 Despite this proliferation of "gorillas," actual growth in the overall market was stagnant if—in fact—it did not actually regress. PolyGram, which handled the two biggest selling albums of the year ("Saturday Night Fever" and "Grease"), estimated a nil growth, as did the independent Festival Records.  
 Such was the huge gap between the sales of the top three albums and the remainder of the chart that No. 1 became a somewhat inadequate term of achievement.  
 1978 also saw radio lose a great deal of its hitmaking power as more and more singles were broken by discs and television. Disco itself grew enormously in the Australian marketplace during 1978, accounting for approximately a quarter of all hits.  
 Not so dramatic, however, was the chart action of local artists. 1978 was the worst year since 1968 for the number of Australian singles in the top 100 (only 10) and likewise for albums (only nine), ironically, 1978 was the year when Australian recording truly came of age on the world's charts. **Glenn Baker**

## IMPORT/EXPORT REGULATIONS:

Record imports from EFTA (European Free Trade Ass'n) and EWG (European Common Market) countries are tax free; those from the USA are taxed 18%. Tape imports from EFTA countries and EWG countries are tax free; those from the USA are taxed 10%.

## MARKET ANALYSIS:

1978 was a good year for the cartel dominated Austrian record and tape industry. The cartel member companies showed a strong yearly sales increase amounting to 20%, while the non-member firms and the increasingly important record clubs both posted an 18% average increase. Unit sales of singles are on the rise, posting an impressive 29% jump over 1977. Pop and country categories accounted for 82% of sales, while classical rounded out the remaining 18%. As in recent years, direct imports continue to gain importance.

Although pre-recorded cassette sales increased almost 20% over 1978, sales of blank cassettes are becoming more prominent, outselling their pre-recorded cousins by almost 3 to 1. Even with the jump in both formats, it is felt that the market is still not saturated.

As is the case for most of the rest of the world, the incidence of piracy is on the rise even though the industry is attempting to combat the problem in the courts via test cases.

**RECORDS**

Records sold domestically: LP's 1978—53,865,405 units; 1977—45,979,151 units. Singles 1978—17,277,632 units; 1977—19,821,491 units. Records, record blanks & pre-recorded media imported from USA: 1977—\$10,720,369. Records exported to USA (factory value, FOB): LP's 1978—2,764,989 units. Singles, EP's & blanks 1978—835,975 units. Stereo sales: 99% of total. Quadraphonic sales: 1% of total. Record club sales: 8% of total. Discounting: Frequent. Type of distribution: Approximately 91% of all distribution operates through manufacturer to sub-distributor (rack jobbers & one stops) to retailer arrangements. The remaining 9% is manufacturer to retailer. Type of promotion: Radio still stands as the major

promotional vehicle in English Canada. Television has some music shows but they appeal to minority record buying audiences, such as ethnic, MOR & country. Artists on these shows generally are not picked because of outstanding record sales. The major daily newspapers are devoting an increasing amount of space to music coverage. Quebec, which is predominately French speaking, receives complete support from all the media for local and international acts.
