

"COINTOONS"

A 1944 COPYRIGHTED FEATURE OF: THE CASH BOX, 381 FOURTH AVE., NEW YORK (16)

WHO'S THE
"SUCKER"

*"The Coin Machines Merry-Go-Round"*By *Bill Gersh*FOREWORD

A large number of subscribers have referred back to the following item which appeared in the November 2, 1943 issue of The Cash Box, and have asked that it be repeated for the benefit of some who seem to disregard its tenets. These subscribers are adamant in their belief that this industry should help correct the impression of those men who feel that only by "sucker" sales can they continue to exist. The opposite has too many times been proven to be true fact. In addition, and in a great many cases, these so-called "sucker" sales have been discovered to mean "location sales" which do anything but good for this industry.

WHO IS THE "SUCKER"

Many times in the past we have written in regard to the misnomer, "sucker". This expression developed in this industry when it was very young. It happens to have originally been a popular slang expression (which developed after the last war) and seems to have endowed its application to a great many misnamed purposes and persons.

It was taken up years ago by a very few individuals in this industry who believed, that because they tremendously overcharged newcomers to this industry or who, meeting with men hidden in the small villages of the nation, and were able to sell them at exorbitant prices, called these men, "suckers". And bragged about the fact.

To the dismay of these first, sharpshooting salesmen, these so-called, misnamed "suckers", in the very great majority, have risen to financial independence and even leadership in this industry, whereas most of the name-calling salesmen who started them on the road to success in this business have long ago disappeared.

For the record then, there is no such persons existent in this industry, now or at any time to come, who can be termed a "sucker". A man who pays a high price for a machine today is most certainly not a "sucker", (Many a man wishes he had the machine back today he thought he had sold to a "sucker" at a "sucker's price" a month ago.)

If a man has the right location, and needs the machine, and knows that the spot will amortize the cost over a period of time and still earn him a decent profit on his investment, then how in all the world of good business logic can such a man be termed a "sucker" regardless of what he pays for the machine?

We believe that the time has arrived when those engaged in this industry should insist that it be cleaned of all misnomers of this type. We feel that most coinmen are earnest and sincere in their endeavor to raise the level of the business ethics of this industry. We also fully believe that they are all striving for one purpose, - a better, cleaner business, one that they can own up to and be proud to be members of, for the sake of their families and friends.

Certainly using such a word as "sucker" will not help raise the level of this (or for that matter) any other industry. In fact, it only creates suspicion and disdain on the part of any intelligent business man who may be planning to enter into this trade. It surely will frighten the right sort of people away from this industry if it does nothing more. And most certainly it isn't going to help with civic authorities and national business leaders nor financiers who may want to back members of this industry.

Every single member of this business has, by his own record, proven that there is no such thing as a "sucker" remaining in this industry, or anything that can even be so termed. Because a man makes a foolish purchase now and then, this word surely will not describe him. All business men in all industries make mistakes, a great many mistakes. But thruout industry no one challenges a man's intelligence and future desire to remain in business by terming him "a sucker".

If you believe that the man whom you have just started in this business is a "sucker", you still have much to learn. Not only will he find himself earning more than he ever did before, but he's going to fall in with the spirit and the excitement and sportsmanship and keen business action of this industry. Just like you did. (Are you then a "sucker"?) And before long, as you probably already know, he becomes everyone's customer, and not just your own.

"The Coin Machines Merry-Go-Round"

If you did use him for what you term a "sucker" then what have you accomplished for your own business betterment? You have only created another good customer for one of your competitors and a man whose vitriolic dislike of you will travel far and wide for many years.

You can only fool a man once. From then on, if you still believe you are fooling him, you're only kidding yourself. And you can, instead, apply the same ugly misnomer of "sucker" to yourself that you so wrongly apply to him.

HONORABLE MENTION AWARD

To Walter Tratsch of A.B.T. Manufacturing Corp., Chicago, Ill., for his impartial and exemplary efforts in behalf of this industry which obtained for him the Chairmanship of this trade's WPB Industry Advisory Committee.

To George Jenkins of Bally Manufacturing Co., Chicago, for his efforts in behalf of this industry to gain for it the greatest possible recognition.

LOOKING AHEAD

The frenzied, frantic efforts on the part of leading industrialists at this time, who now foresee a sudden cessation of much war production and a possible unemployment roll of over 4,000,000 by this late Fall, while arguments go on regarding reconversion to peacetime production, is naturally exciting to all the business world.

The Baruch-Hancock report urging that some sort of machinery be set up to handle a fast return to domestic production seems neglected. New rulings by USES (United States Employment Service) regarding registration of all labor, and warnings by Paul V. McNutt, War Manpower Commissioner, that large labor shifts are to be expected, all have their effect on present business.

Tho the general labor situation is as yet not serious, it is expected to become so in a few short months. As estimated by some economists and researchers a possible 12,000,000 may be unemployed as 1945 swings into being.

The general public is being urged to pay up all debts it may have contracted. It is also warned on the loss of war plant jobs. At the same time families are being told to begin to expect return of service men. The rate of such return is expected to exceed 100,000 per month late this Fall.

All these factors add to the already known proposition that coin operated equipment is enjoying its greatest boom period, and culminate into an even greater promise for the future of this industry.

There is also no doubt that if people find themselves with more time on their hands that coin game action can be expected to jump even above present play records. This situation, when it comes into full force, will be somewhat similar to that of 1929, 1930, 1931 and 1932. The last known depression was then in effect and gave rise to the greatest growth this industry has ever enjoyed.

The difference this time will be that the average worker will have money (as is evidenced by the fact that there are over 125 billions of dollars on deposit in the nation's savings banks at this time) and the fact that labor will realize that this is but a temporary situation until complete reconversion gets under way.

The public will therefore seek to enjoy itself as a relaxation from the nervous tenseness it has undergone during these years of all out war production. Most people have worked harder during this war period than ever before in their lives. They will probably let go with just as great an all out relaxing reaction. The play on coin operated equipment should then zoom far above all former known records when this unemployment period comes into full force.

Most disturbing to coinmen will be the fact that they cannot obtain equipment nor sufficient labor to carry on with greater emphasis during this record play period. It is already known that coin operated equipment will not be among the first to be given the green, go-ahead-light, as reconversion comes into being, even at an increased pace. This will somewhat hamper complete advantage being taken of this situation.

As this temporary unemployment period gets under way, unless the manufacturers can convince WPB of an earlier return to domestic production, present prices will seem reasonable compared to what will come into being for equipment of all types. More revamps of necessity will appear on the market. Revampers are again starting to increase in numbers after a short slackening off in this direction. These revampers can help save the day for coinmen until the manufacturers get under way once again.

"The Coin Machines Merry-Go-Round"

The tendency at present to shut out these possibilities is like the ostrich burying its head in sand in an attempt to completely hide itself. These are facts. They have been brought to light by the nation's leading economists and business researchers.

The Treasury Department is also giving long and serious study to this matter. This department realizes that the war production peak was passed this year. Whereas in normal years large corporative incomes amounted to $2\frac{1}{2}$ billions they passed the $23\frac{1}{2}$ billions mark this year. Now they are slackening off and the trend is definitely downward. The Treasury Department will again be forced, regardless of the excess profits tax, to seek for greater revenue. This search may enter into many and devious channels.

This industry will also suddenly find, as this unemployment period becomes more pronounced, that much new blood will seek to enter into this business. And this will occur when this industry is entirely unprepared to welcome such addition to its ranks. This may have the tendency to urge many to great commitments. It will cause others to seek for means to obtain equipment of any type. This will bring encouragement to many to enter into revamp work to satisfy demand.

Many hectic days are therefore in store for this industry because of the nation's general economic situation. It is hoped that good common sense and level-headedness will prevail and that no rash promises nor hurried attempts at premature pre-production sales will be made.

Calm coolness will be of paramount importance as this coming expansion era culminates into a boom race for this and all other industries.

MUSIC

Possibly no other part of this industry looks forward so eagerly to the post-war period as does the music division. Music men are champing at the bit to get into peacetime action all over again.

This division assumed leadership in '39 and continues this leadership today. As a survey conducted by The Cash Box and reported in the November 23, 1944 issue showed, 84% of the firms now engaged in this industry are either operating, jobbing or distributing music. (Next closest was the pinball division with 71% of the men engaged in this field.)

Music men have reached that stage where, tho they are eager and even anxious to see as well as be happily surprised by the unusual, and what they also believe will be outstandingly beautiful and impressive developments in post-war equipment, they are willing to purchase the last models manufactured. They hope that the additions and improvements discovered during this war period will be incorporated into those last known machines. They are convinced that these last models will be just as well accepted the first year or so after production starts again.

Music equipment has been wearing out at a very rapid rate. This is due to the fact that play action during this war period has been greater than ever before. Most music coinmen claim they can use new equipment in a hurry. Not only to cover present good locations, they report, but to also take advantage of a great many new locations which have come into being since the war started.

It is also believed by the average music coinman that when manufacture of music machines is again allowed that the making of all accessories will also be allowed. In short, osmium tipped needles, virgin shellac records, tubes, etc., will once again be available and the music boom will actually get going from where it was forced to halt when war was declared.

Most important to music coinmen is the knowledge that the music manufacturers have kept pace with them and recognize all the facts brought to light during this war period.

The music division feels that it will not only retain its leadership but that it will most definitely establish itself as an outstanding American institution. It looks forward to developments that will be truly startling some years after peace. It believes it is actually another moving pictures industry in embryo.

License fees, unionization, organization, are all considered as part of the growing pains of this field. Music men are of the belief that all these will eventually settle themselves and that music operation and sales will become a gigantic and complete field in itself.

This sort of faith in their division of this field, and this earnest belief in its future, are certain to pay off grand dividends.

"Talking Out Loud"

Fred Mills Passes Away

Internationally Famed Coin Machines Pioneer Succumbs To Year's Illness

Fred L. Mills, President of Mills Industries, Incorporated, 4100 Fullerton Avenue, died this morning, Wednesday, at Delnor Hospital, St. Charles, Ill. He had been in bad health a year ago, but had apparently recovered and was at work practically every day of the past year directing the three large Mills war plants in Chicago. Mr. Mills was born in Chicago, December 8, 1894; his parents were Herbert S. Mills, founder of Mills Novelty Company, and Mrs. Leonie Mills.

FRED L. MILLS

E. Blower, of Ann Arbor, Michigan, and Marcia Isabelle Mills. The family home is in St. Charles. He is also survived by three brothers, Ralph, Herbert and Hayden, officials of Mills Industries, and four sisters, Mrs. George Woods, Mrs. Martin O'Brien, Mrs. Wm. Shipp, and Mrs. Robert Rohn.

Funeral services were held at the family residence on Dean Street, St. Charles, Ill., Friday, July 7, 1944 at 2:30 P.M. Burial was at All Saints Cemetery, Chicago.

The Mills Company name was changed from Mills Novelty to Mills Industries, Incorporated, on July 16, 1943. Fred Mills became General Manager of the company in 1915, and on his father's death, February 3, 1929, became President. The firm was greatly expanded under Fred Mills' direction and now has 2800 employees and is entirely in war work.

Fred Mills is everywhere regarded as one of the pioneers of automatic merchandising and was the inventor of many devices and improvements on vending machines. He was widely known in business circles and in Chicago society. He attended Notre Dame University, and studied law at Illinois University. Was a member of the Chicago Athletic Assn., Illinois Athletic Club and the St. Charles Country Club.

He is survived by his widow, Mrs. Isabelle Sullivan Mills; son, 1st Lt. Fred L. Mills, Jr. of 101st Cavalry, Ft. Riley, Kansas; daughters, Mrs. Paul

URGE ACTION ON TAX PLAGUE

A flood of letters was received this past week in answer to the item which appeared on this page in the July 4 issue relative to the fact that the "tax plague" is again hitting at the trade. Of these many letters two were chosen as most typical and are being reprinted here for the benefit of the members of this business and to thereby allow coinmen to decide for themselves regarding a "National Tax Council" for which The Cash Box has been crusading these many months.

Prior to reprinting these letters we should like to mention here the fact that a report has just come thru from an arcade owner in Oregon to the effect that this state is now taxing arcade machines from \$1 to \$50 each and that arcades are being billed back for taxes from July 1943 to June 1944 and from July 1944 to June 1945. This arcade owner is not only shocked by this new tax but believes that if this is the case, for this is the first time he has heard of it, that the arcades in Oregon will simply have to give up the ghost.

Here again is a pert example of what taxation can do to this industry. This is the time to get the men in this business together into a "National Tax Council" to help prevent confiscatory taxation and to better explain this business to taxing bodies thruout the country.

A "National Tax Council" is an absolute necessity. It will become an even greater necessity as time goes on. This is the only sort of body that can help prevent the road to tomorrow's great industry being strewn with rocky tax boulders which will halt all progressive development.

Earl E. Reynolds of the Texas Coin Machine Assn., Dallas, Tex., writes:

"I have just finished reading your article 'Tax Plague Hits Again', and I hasten to write you my urgent request that you (who seems to be the only one that can get action) insist upon immediately getting together men from different parts of the country in (Chicago preferably) some centrally located place to formulate plans as you have been suggesting so earnestly and so often.

"Just a few days ago I was talking with a very close friend of mine who is one of our local State Representatives, and he told me if the operators in Texas had any idea what some of the members were figuring on doing to us

in the way of taxation, every man in the business would be pleading for an active State Association. He happens to know a little of how hard I have tried and am still trying to get the damn dumb bells to come into the organization.

"The reason I am so anxious for immediate action on the National set up is the fact that I feel if such a Council were formed at this time, and I could advise the operators of the State of it's having been formed, they might listen a little more to my pleas.

"Bill, I of course know that the Democratic Convention is going to be held in Chicago next month, but it seems we could get together immediately after that and by that time we could arrange for Hotel and transportation reservations.

"Again assuring you that the entire industry is counting on you Bill, and thanking you personally for the million things you have done and are doing all of the time for the industry."

Max Hurvich of Birmingham Vending Co., Birmingham, Ala., writes:

"In reading the Cash Box this morning I was impressed with the 'tax plague' as you call it. As you know we have been affected by this 'plague' for many years. Fortunately for us, several years ago we had a clause inserted in our tax law that no city could charge more than half of the state license. This has saved us considerable.

"Now comes word to us that at the next meeting of the legislature next January a concerted effort will be made to repeal this clause. If this is done, we will be faced with confiscatory licenses by many municipalities in Alabama. Because of lack of organization, we are subjected to persecution of all kinds.

Mfrs and Distribs Donate Games

Present Vaughn General Hospital With 60 Machines July 10th

Monday, July 10, 1944, coin machine manufacturers and distributors will present the Vaughn General Hospital in Maywood, Ill., with 60 machines. These amusement machines, phonographs, etc., are part of a plan to help rehabilitate wounded soldiers.

The manufacturer's committee that worked hard on arranging for these 60 machines was composed of John Chrest, George Jenkins and Dave Gottlieb. Jim Mangan of Mills Industries, Inc., is handling all publicity for this presentation.

All the machines will be delivered on Friday and Saturday (July 7 and 8) and the manufacturers and distributors are urged to meet at the Vaughn General Hospital at 2:00 P.M., Monday (July 10) at which time they will be introduced to General Carroll, Commanding Officer.

A tour of the entire institution will then take place and those present will be able to see the machines in their respective places. Photos of the group will be taken with the General.

Vaughn General Hospital is located at Roosevelt Road and First Ave., Maywood, Ill.

There is no doubt that a great deal of good publicity will result and the general belief is that the trade will tremendously benefit from this fine effort. This is in keeping with the donations which have already been made by hundreds of coinmen in their own communities throughout the country. They have been presenting machines of all kinds with great regularity to hospitals and other institutions for the armed services.

Wichita Beacon Editorials

The Wichita Beacon, Wichita, Kans., ran two editorials in the past few months directed against what this paper terms "one-armed bandits" and claims that these machines are "robbing soldiers".

There is no doubt, after reading these editorials, that the writer could have done much more good for his readers to devote this valuable space to the very pressing problems confronting this large and busy war center. Secondly, the editorials definitely indicate that the writer knows little, if anything at all, about coin machines.

This is the type of newspaper editorial that again proves the necessity for a "Public Relations Bureau" which The Cash Box has been urging this industry to create now, prior to the finish of the war, and prior to the rushing jam that will result in the post-war era.

This is exactly the type of editorial which can be cured by a better understanding of this industry among the members of the press. There is no doubt that the editor of The Wichita Beacon would be more inclined to better material were this industry carefully, completely and honestly explained to him by trained and intelligent public relations men.

"We have noted for several weeks your efforts to create a tax council. We believe a strong national coin machine association could create this tax council and it would be far more effective than to have a council formed merely for that purpose. If such a council is called, we hope better plans will be made in advance for this than were made at some of the other conferences called.

"I sincerely hope that this organization can become strong enough so as to head off various legislatures that will meet this fall and next spring."

Above list effective until July 14 — Write for our twice-monthly tube inventory release

IMPORTANT INSTRUCTIONS

1. Send no deposit with your order — shipment will go forward express C.O.D. for full amount.
2. Minimum order filled is for 25 tubes, each type within rationed limits shown above.
3. Do not phone or wire for tubes — shipment cannot go forward until receipt of Supplier's Certificate.
4. Tear out, sign and attach to your order the Supplier's Certificate at bottom of this advertisement.
5. If you personally cannot use the minimum shipment of 25 tubes, contact another operator and place a single order including your friend's needs.

FEATURES OF OUR SERVICE

All tubes are in individual cartons. Shipment goes forward within 48 hours after receipt of your order. An Airmail copy of Invoice reaches you at least 24 hours ahead of shipment. We never substitute types, but will forward G's or GT's for the Metals you order. We've operated 17 years, and know your machine problems. Our list of tubes is revised every 15 days and we are filling over 95% of orders completely which are placed in compliance with current lists.

THE CONFIDENTIAL PRICE LISTS

AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED EVERY OTHER WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past two weeks, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the two week period: Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST TWO WEEKS
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS
7. MEANS NO PRICES QUOTED FOR PAST SIX WEEKS
8. MEANS NO PRICES QUOTED FOR PAST EIGHT WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading these past two weeks.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.

Copyrighted 1944 by The Cash Box, 381 Fourth Ave., New York 16, N. Y. Production in whole or part forbidden without written permission from the publishers.
