**ARE YOU GETTING
MORE RECORDS?**

"The Coin Machines Merry-Go-Round"

by Bill Gersh

ARE YOU GETTING MORE RECORDS?

At long last, after many weeks of bringing to the fore the anger of this trade against the "big three" record manufacturers, namely: RCA-Victor, Columbia and Decca, The Cash Box was able to publish, this past week, a letter from RCA-Victor to the effect that they were making a most complete check of their distributors in an effort to ascertain just where, and whether, there was any discrimination against the coin machines music operators.

A letter from Columbia Record Corporation's Mr. Paul Southard, who is vice-president of this firm, has also arrived. Mr. Southard advises that his firm have set up a comprehensive allocation system in each distributing point. He writes, "The reason we did this is because we fully appreciate that we must distribute our merchandise equitably or affect our reputation for fair dealing." Mr. Southard also advises that his firm have purchased an additional factory at King Mills, Ohio, and as soon as they can get this new plant into operation, they feel that the extra output will eliminate many complaints regarding lack of service.

As yet, The Cash Box has had no response from Decca Record Corporation. With Decca at present producing some of the best numbers they have ever recorded, the coin operated music machines man is anxious and even eager to hear from this firm. It is imperative that some sort of equitable distribution arrangement be made whereby the cointrade will feel that this record manufacturer, too, desires to most fully cooperate with it.

As far as the new Majestic Record Corporation is concerned, which is headed by New York's former Mayor Jimmy Walker, and which is a division of Majestic Radio & Television Company, no response has been received. The Cash Box immediately wrote to this new firm (created after the purchase of Eli Oberstein's Classic Record Company and placing Mr. Oberstein in this new firm as one of its executives) asking whether they had set up a program for distribution to the coin machines music trade. This firm is handling their records thru their present radio distributors and it is now believed that they will favor their own radio dealers. Many other of these smaller firms have been contacted but as yet no response has come from them. (It is also now rumored that because of the anger of the cointrade against the present record manufacturers that a new and extremely large record manufacturing firm will introduce itself within a few weeks).

Most important to all in the coin operated music machines industry are the "big three" record manufacturers. It is generally conceded that if these three come to the fore and institute a program for the coinman, that the smaller record manufacturers will follow suit. The fact of the matter is that the record manufacturers, as in the case of Victor and Columbia, are shipping their products to their distributors in the complete belief that their distributors are equitably distributing these records to both the retail stores and the music machines operators.

The entire bone of contention is now at the door of the distributor. That is why both firms are making a complete investigation of their distributing points. And this investigation was brought about by the many letters published in The Cash Box which were received from music coinmen from all over this nation and Canada.

The Cash Box is not stopping at this point. It believes and knows that sometimes such investigations fall far short of their mark. The manufacturer and his executives may be most sincere and earnest in their endeavor to rectify whatever mistakes have been made in the past and bring about a cure for whatever will arise in the future. Therefore, to make certain that the distribution situation definitely betters itself for this trade, it will be up to the music coinman himself to note whether these investigations have bettered conditions for him as far as obtaining Victor and Columbia records are concerned.

Many surrounding factors must be taken into consideration. When The Cash Box

"The Coin Machines Merry-Go-Round"

first complained to Decca regarding the fact that Savannah's coinmen had not received records for many months, and that the branch office of this firm in that territory had attempted to foist lamps and lumilines on these coinmen without first obtaining orders for this merchandise, each one of Savannah's coinmen suddenly received 200 records from Decca's branch office where they had formerly received nothing. This proved that they could have received records all along.

It also proved that coinmen are lax in cooperating with each other and coming to the front so that Decca's main office could help adjust their problem. As yet, tho, Decca has not written to The Cash Box in regard to its attitude for this entire industry. Whether they, too, are investigating their branch offices because of the many complaints music coinmen have made against them, and which were published in The Cash Box, so as to arrange for more equitable distribution to this industry, is not known.

But even this is only the beginning of this record problem. One noted needle manufacturer has just learned that operators are being loaded with his needles. His needles are distributed to coinmen by one of the record manufacturers. One noted music coinman reported to this manufacturer, thru The Cash Box, that he now has 5,000 of his needles on hand and is willing to sell these back to him at a loss of 6¢ on each needle. When questioned as to how he obtained so many of these needles, this music coinman answered, "Because I simply have to get records to operate my 700 machines."

It is also known to The Cash Box that many retail record store dealers have also complained to the record manufacturers. Their complaint was based on the theory that the record manufacturers were showing preference for the coin operated music machines trade. (At least this is what one of the noted "big three" record manufacturers reported to The Cash Box.) What was most interesting to The Cash Box was the fact that these retail record store men came together in a group in New York City and met with the record manufacturers in an effort to gain more equitable distribution for themselves. This is exactly what The Cash Box has been urging this trade to do.

Since The Cash Box has already received and openly published the letters of both Victor and Columbia, perhaps there is no need at this present moment for a meeting of coinmen. But, The Cash Box urges that music machines men, everywhere in the nation, now keep their eyes peeled to note whether these record firms have been capable of convincing their present distributors that they should give this trade more equitable distribution.

There are coinmen who are receiving a goodly share of records. There are others who received very few, if any at all. For example, one noted midwest music operator who has approximately 600 machines in operation, received only 15 of a very popular number. This number has now been manufactured for more than ten weeks.

But if this man did receive an equitable share, when he received these 15 records from this record distributor, as compared to the entire shipment of records which this distributor has received in these ten weeks, then, regardless of this small number of records, this could still be considered equitable distribution. Yet, it is extremely difficult to conceive that a distributor, whose territory includes the metropolitan Chicago area, would receive so few of so outstanding a number to give so prominent a buyer as this operator of 600 machines but 15 of that record. Still, The Cash Box asks all music coinmen to be fair and careful in their judgment as to what equitable distribution can mean.

There is no doubt that music coinmen have not been getting the number of records they need for their equipment, in comparison to the numbers they received even 12 to 18 months ago. The record manufacturers themselves now realize this. Under present restrictions, whereby they have been cut to a very low percentage of output, it is impossible to expect to receive the very same number of records from the record firms. But, there is a surety that whatever is being sold to coinmen is not of a fair and equitable number, as compared to former quantities of even a short period ago.

Some record distributors claim that they will not appoint any more dealers. Yet in every community, clear across the nation, new retail record stores are popping up at the fastest and greatest rate in all the history of the record business. (A survey is now being made by The Cash Box in one community and figures in this regard will soon be reported to the trade.) What is more, these record stores start right into business completely equipped with records. Not just albums, but also with the very latest recordings.

Therefore, there is inequitable distribution somewhere down the line from the manufacturer to the user. The further fact that the coinman is forced to purchase from 75% to 90% of his records from retail stores, which include dime stores, furniture, electrical appliance, drug and cigar stores, does not lend itself to logical reasoning. The average music man has always been in the "dealer" category. Today he is likened to a "consumer".

"The Coin Machines Merry-Go-Round"

Many music operators, who were formerly classified as "dealers", have suddenly been advised by the distributors in their area that they are no longer dealers. Some who always received shipments of records on regular advance orders, are now being told that they must call in person for whatever they want. In short, in every fashion music operators are being shunted about and actually being advised that the best place for them to obtain records are at certain designated retail outlets. In fact, in one noted city, operators are paying under the table. In another they are being over-charged and are forced to keep quiet. In a third, fourth, fifth and up to many hundreds they have to loan trucks, tip porters, stand on their heads, buy candies, bring cigarettes, entertain, and do a hundred and one other ridiculous stunts to get records in a number anywhere near the quota which the record manufacturer has most sincerely allotted for them.

Now that both RCA-Victor and Columbia have come to the fore, and are attempting to cure whatever flaws might exist in their present record distribution, so that a more equitable share of records will go to the cointrade, much hope is now being held forth for the members of this coin operated music machines industry.

IT WILL BE UP TO THIS COIN OPERATED MUSIC TRADE TO CAREFULLY NOTE WHETHER EQUITABLE DISTRIBUTION DOES RESULT FROM THE INVESTIGATIONS WHICH BOTH THESE RECORD MANUFACTURERS ARE CONDUCTING. IT MEANS THAT EVERY MUSIC MACHINES MAN MUST SPEAK UP NOW AND TELL THE TRUTH ABOUT RECORD DISTRIBUTION IN HIS TERRITORY. SAVE THIS ITEM. WITHIN A FEW WEEKS SEND US YOUR ANSWER TO -- "ARE YOU GETTING MORE RECORDS?"

IS AN INTERNATIONAL COINMAN ARISING?

This war, it is generally believed, has brought about the end of isolationism. It has also brought on international thought. Not only among the statesmen of the world but also among the plain peoples of every country.

The men and women who comprise the nations of this earth are now thinking far beyond their borders. Perhaps the airplane had much to do with this. Perhaps many other factors. But whatever has brought this about - it is also striking deep into the heart of every industry in this great industrial nation.

It is a known fact that this country, for many years after the war is over, will be working hard to help other nations get back on their feet again. The orders which have already poured in to the manufacturers of every conceivable type of merchandise in the United States are almost beyond calculation. The figure runs into billions of dollars. And this is only considered the first part of what will eventually result.

The same is true in this industry as far as future expansion is concerned. It has been said time and time again by men who know this business that the British coin machines market alone would use the entire first two year's production of the present coin operated machines manufacturers. And this is only one of the foreign nations interested in purchasing coin machines as their peoples struggle back to normality and eventual prosperity.

Will the result therefore be that the average coinman, who has always regarded his own little territory as the world domain, become internationalized and begin to think in terms of buying and selling over many miles of earth and ocean?

This war nationalized the average operator. There is no doubt of this fact. Men in New England are selling to and buying from men in California. Men in Montana are dealing deep into Mexico. From New Orleans to New York and from Spokane back to Savannah - a most completely nationalized business hums for every coinman. Men who never before shipped a machine - are today buying, selling and trading equipment over distances they never before believed they would cover.

All this was brought about by the fact that as the industry became more and more highly concentrated and parts, supplies and machines became scarce, men went many, many miles out of their way to get what they needed. Of course the trade realizes that when production again returns to normal that distributing factors will arise to cover the territories. In this way much national exchange is expected to halt. Yet, there are many who have learned to like this sort of wide coverage business and want to continue it.

There is an air of internationalism prevalent in this business. Many months ago The Cash Box predicted that salesmen would fly from New York to London with as much nonchalance as they formerly flew from Chicago to Los Angeles. This business is bound to internationalize itself. It has a tremendously fine head start over a great many other industries that never before did enjoy the advantages which this trade's products offer to foreign markets.

"TALKING OUT LOUD"

TAX BUGS WANNA GO HOME - THANK GOD

Many State Legislatures Seeking To Adjourn. Coin Machine Bills Die In Committees As Other Matters Come To Fore.

NEW YORK—With great sighs of relief coinmen thruout the nation are reporting that their state legislatures are seeking to adjourn so that the law makers can get back to their homes, businesses and farms.

This is probably the most heartening news the trade has had in months. When over 45 state legislatures opened their sessions this year this trade was extremely fearful of the results, and justly so.

Tax bug after tax bug stood up in state Assembly or Senate and introduced a bill to tax coin-games, music machines and venders at extreme rates.

Coinmen in some states became panicky. Attorneys were hired, funds were raised, and much effort was expended in an attempt to halt inequitable and confiscatory tax legislation.

Some succeeded. Other bills are still pending. Some bills are now reported to have died in committees. Yet, coinmen fear that before the last tax bug's bags are packed more increased license fees will come into vogue.

In the meantime, coinmen in those states where the tax bugs are yowling to get home and adjourn, are breathing sighs of relief as these legislators take up the most important matters before them and allow coin bills to fade into the distance.

Each and everyone of these men is asking that a National Tax Council come into being as soon as possible. As one coinman writes, "This year we really learned how necessary your suggestion that this industry create a National Tax Council really is. There is no doubt anymore that such an organization guided by real, national leaders, is a tremendous necessity for this field.

"This is the time to get really serious about taxation. These 'tax bugs' are not going to lay off of us. They are after our hides. They now want a percentage of our gross collections and even tho some of them have been stymied this time, they will bring it up again and again and again—and some of the boys are going to get hurt—but bad.

"Let's get a National Tax Council into action right away. Let's be prepared for these 'tax bugs' when they meet again."

IDAHO OFFICERS CLUB HAS HITLESS SLOTS

MOUNTAIN HOME, IDAHO — Of interest to slot men thruout the country is the sign that tops the slots located in the Officer's Club at the Army Air Base here.

The sign reads: "In case of air raid—stand near these machines—they haven't been hit yet."

Ops in this section vociferously deny this statement. They claim that these slots have been hit "like a sonofagun" time and time again.

ATTENTION - DECCA, VICTOR COLUMBIA-READ THIS LETTER

Gentlemen:

"It is about time some one was doing something about the record situation. I've been wondering just how long we operators are going to set back and take the 'guff' the Decca, Columbia, and Victor distributors are handing out.

"It really did my heart good to read the March 6th and 20th issues, to find some one, who would stand up and speak their piece about this terrible record situation. And brother, I mean it's terrible in this locality.

"Before the war, we could buy one or one hundred records direct from the distributors, at wholesale price. They were begging for orders, and even put in printed title strips.

"But now, well that's a different story. Decca and Columbia have cut us 'off' entirely. We must buy from the retail stores. We still get a few records from Victor, but no choice. You take just what they send, about four records a month, and these are usually the poorest releases.

"We buy our records from all over the country. Send on an average of ten orders a week to various record houses. Always have to pay retail prices, plus express charges, from as far away as New York state.

"For example. A short time ago, Decca made a record, 'Rum and Coca Cola' by The Andrews Sisters. The two music houses, here in Lewiston, received a total of two hundred and fifty of these records. But they would sell us only two records at each store. We could have used eighty records. We had to send our friends in to buy for us. And order from all over the country. At the present, some of our locations still do not have 'Rum and Coke' on their machines.

"We will go 100% on a boycott. Personally, I believe the thing to do is form a company to make records exclusively for the operators. Let the operators buy shares to finance the company."

Texas Tax Bills In Committee

New 5 Man Sub-Committee Studying 3 Proposed Bills. Ops Hope This The End.

AUSTIN, TEX. — After many weeks of hectic efforts on the part of Texas coinmen it is at last believed that the three proposed tax bills tremendously increasing license fees on all types of coin machines will now remain in the newly created five man sub-committee until this session of the legislature is over.

The first bill presented was to increase the yearly state license fee for phonos from the present \$2.50 to \$50.00. This alarmed all music men in this state for it meant that Counties and Cities thruout Texas could charge half as much, as per state law, for their licenses. And this would mean an average of \$75 per year per phono.

While this first bill was in the process of being turned over to the 21 man tax committee in this state, another bill was introduced asking that the pin game license be increased from \$30 to \$100 per year and that merchandise venders be upped from \$2.50 to \$30 per year.

This created a storm of protest from all over the state by

merchandise machines men who pointed out that such a tax was definitely confiscatory. The legislator in this case hastily withdrew the proposed \$30 yearly fee on venders. This caused consternation in the tax committee.

To offset this a special three man tax committee was created to handle the coin machines situation. Before this committee could get the facts, another bill was introduced, seeking to obtain a yearly license fee of \$60 on phonos plus 5 percent of the gross receipts, and a yearly license fee on pin games of \$100 plus 15 percent of the gross receipts.

When this occurred an addition was made to the three man tax committee and five men are now on this special sub-committee to study the coin machines situation.

Because of the puzzle created by these three different tax bills, Texas coinmen are of the belief that the present session of the state legislature will be finished before these bills can be untangled.

Pinball Plane Is New Aid to Gunners

DAYTON, O.—Aerial gunners at Wright Field here are sharpening their eyes on the army's newest and fastest fighter plane, the Bell P-63 Kingcobra, which has been turned into a "flying pinball machine" for this purpose.

Gunnery students use bullets made of lead and plastic and which are designed to shatter into powder on contact with armor plate. They blaze away at the Kingcobra and see their hits recorded on lights flashing in its cockpit and its propeller hub, just the same as they would flash on a pin game.

This system, which was developed by the air service technical command here, permits gunnery students to simulate combat conditions to every extent except anti-aircraft fire and return fire from the attacking plane.

(There is no doubt that if the air service technical command wants this latter accomplished one of the pinball manufacturers will be able to do that for them.)

Golumbo Rock-Ola Distrib

BOSTON, MASS.—Jerry J. Golumbo, who has just sold his interest as president of Trimount Automatic Sales Corp., this city, reports the creation of a new firm to be known as J. J. Golumbo and Company which will act as exclusive distributors for Rockola Manufacturing Corp. in this area. Jerry also reports, "We will also represent as distributor the leading manufacturers of coin-controlled machines."

Westinghouse Optimistic About Record Future

NEW YORK—Westinghouse Electric & Manufacturing Co., in a recent release, take a very optimistic view regarding the record manufacturing future. Tho they admit that this is a highly competitive field they believe that the demand for recorded music and sales of records are headed for new peaks.

Surveys cited show that today only 5% of all radio families have a radio-phonograph, while nearly 40% plan to invest in a radio-phonograph combination after the war.

Lovelady Suggests Panoram Be Used For Mechanics

BALL GROUND, GA. — A. J. (Jack) Lovelady, Lovelady Music Machine Co., this city, offers the suggestion that old Panoram machines be used for helping teach new mechanics the intricacies of coming post-war equipment.

"Why can't manufacturers make films showing how their new machines should be repaired?" he writes. "By running off the films our mechanics would be able to learn all about the machines, as well as how to correctly handle and repair them."

Look To The GENERAL For LEADERSHIP

NOT A ONE-MAN SHOW

It's our belief that the coin-machine industry is not a one-sided endeavor. It requires a perfect meshing of gears . . . the manufacturer, distributor and operator working hand-in-hand to devise and plan what's best for the betterment of the business and we believe it's the distributor's job to act as the coordinating gear in this plan. Our files contain many a case-history that proves the soundness of such a policy.

PHONOGRAPH OPERATORS - NOTICE!

NEW POLICY ON OUR UNIVERSAL AMPLIFIER IDEA...

Due to W.P.B. regulations we are in a position to accommodate you in the following manner: Ship us a coin operated phonograph amplifier (charges prepaid) regardless of make and we will renovate and alter it for Universal use. COST - \$36.50 F.O.B. N. Y. and includes minor repairs. However, if major parts are missing or defective and have to be replaced, an additional nominal charge will be made.

WHAT A UNIVERSAL AMPLIFIER WILL DO FOR YOU

Saves you time, money and expense. When you have an Amplifier service call, replace with your Universal, your machine keeps working and your customer is satisfied. Complete renovation with sockets, for speakers and pickups for all the following models:

THE CONFIDENTIAL PRICE LISTS

AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED EVERY WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past week, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth \$150.00 whereas someone on the East Coast may think it worth but \$75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the past week. Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST WEEK
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST TWO WEEKS
7. MEANS NO PRICES QUOTED FOR PAST THREE WEEKS
8. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading the past week.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.
