What You Can't See In the AMI Display

In our big exhibit at the Coin Machine Show, you'll see the newest and finest automatic music products. You'll see the simple, single AMI mechanism which plays both sides of twenty records to give forty selections. This mechanism has altered the whole course of music operating, and given the American people a new and mighty appreciation of modern phonograph entertainment. We want you to see our display, to talk shop with us, to know all AMI products and AMI people better. We'll have plenty for you to see!

But what you won't be able to see in our display are the things that count the most: the ingenuity of our inventors; the skill of our engineers; our careful policies of planning, manufacturing, inspecting; the countless helps and benefits of our sales and service departments. Most of all, we want you to know about the PROFITS that the AMI Phonograph earns. Profits are something which you can't see at a Convention, but which mean everything to you; and the year just past has presented to the whole world irrefutable evidence that the AMI MAKES MORE MONEY. We have more than an exhibit for you to visit and study: we have the simple answer to your demand for bigger music profits.

AMI

*The Coin Operated Phonograph
That Plays Both Sides of Twenty Records
To Give Forty Selections*

Tomorrow Begins Today

By Bill Gersh

"COINTOONS"

This is tomorrow—today!

With the opening of this 14th Annual Convention and Exhibition of Coin Machine Industries, Inc.—tomorrow—is being presented—today.

This is what every coinman worked and waited for all during the war years.

This is the day coinmen looked forward to—while enduring gas rationing, lack of parts, lack of help, lack of almost everything, but, just keeping going thru the darkest wartime period and hoping for the day when once again a convention would be called, new machines would be presented, meetings would be held—and optimism would once again swing on high.

Every coin machine man and woman in the nation has looked forth to this first post-war "Big Show". With a sudden buyer's recession which has hurt all business—these men and women of the coin machine field knew they must have new equipment to stimulate the public to ever greater appreciation of their industry. Therefore, this is the beginning of tomorrow—the opening of this show on February 3, 1947.

Many recall the days when fear that no further shipments of coin machines would be allowed as more and more war products rolled over the transport system of the nation. Many also recall the sudden entrance of OPA into the coin machine scene. All will remember how gas and tire rationing hurt servicing and how operations were pulled in closer together so that too many miles wouldn't have to be covered.

This industry, from manufacturer to operator, covered itself with great glory during the war. Manufacturers won "E" Awards from Army and Navy. Operators donated time, effort and money, as well as machines and help to the armed services. Distributors and jobbers carried on thru all difficulties to somehow bring machines, parts and supplies to continue a solid and strong nucleus on which could be built a greater, more prosperous, more outstanding coin machine business. All this, with optimistic outlook—for tomorrow—the first post-war convention—opening—today.

Many will also recall how *The Cash Box* came into being during the war period when others decided to close shop. When the trade agreed that it needed a confidential medium which would maintain its business within itself and which would be able to reach coinmen as their very own medium for an interchange of ideas and views and news among themselves.

It was *The Cash Box* that called the leaders of the trade together into the First Wartime Conference at the Waldorf-Astoria Hotel in New York to discuss the problems presented by the new OPA regulation drawn up for this industry.

And, to meet with the great demand of the members of this industry, *The Cash Box* again called the trade together at the Second Wartime Conference in the Morrison Hotel in Chicago. Here men met with each other for the first time in years. Talked over their business. Made deals. Went away confident and happy and sure of themselves.

All looked forward to tomorrow. Now—tomorrow is here. The new products which the manufacturers will present at this convention will open the path for great growth of the industry—which has long been its due. Many want to enter the field and are simply held back by lack of production. But, should production of coin operated equipment return to normal—the membership of this business is bound to zoom to a new and greater height.

This, then, with the opening of this 14th Annual Convention, is tomorrow. It is the glimpse into the promise of the future. It is the opening of a new, peacetime era for the industry. It is the promise long waited for during the dreary years of war.

This is the beginning of a new and better coin machine industry.

PLAN TO ASK "CURLEY" ROBINSON TO HEAD NAT'L OPS' ASSN.

Ops Believe Robinson's Record as Head of AOLAC as well as Cooperation He Has Given Other Ops' Assns and His Work in Washington Makes Him Logical Man. Report Leaders to Confer With Him at CMI Convention

NEW YORK — If plans go thru as proposed by leading ops and various associations thruout the nation, Samuel (Curley) Robinson, managing-director of the Associated Operators of Los Angeles County, Inc. (AOLAC), will be asked to take over the management of the "National Coin Operated Entertainment Association, Inc." (At least this is the name which will be proposed for a national association of operators.)

The public relations work which has been accomplished by "Curley" Robinson in his many years as managing director of AOLAC is well known to the trade. This work has produced some of the most remarkable results in all the history of the industry. At the same time his efforts in behalf of all the operators nation-

ally in Washington, D. C. attempting to lower the taxes now in effect has ~~won him great commendation~~ won him great commendation thruout the country.

These leading operators are, therefore, of the belief that "Curley" Robinson should become manager of a national association. His experience and his success with one of the most outstanding associations in the nation qualifies him for this position, they claim.

There will be certain operators and association leaders of amusement groups, especially, who, it is reported, will confer with "Curley" Robinson at the CMI convention in Chicago and will ask that a general meeting be called wherein they will present to the operators their pro-

posal that "Curley" Robinson head a national group.

It is believed that he will be asked to take over the work of the amusement section of the industry. His efforts were in this behalf in the past. Robinson has not bothered with music in his part of the country, tho he has many times been approached to do so.

One noted association leader stated, "There is no need to go outside of our industry to find a man to head a national operators' association. We already have that man. He has proved himself over many years. That man is Samuel 'Curley' Robinson who is at present the managing director of the Associated Operators of Los Angeles County, Inc."

MORE MIXED ROUTES FORESEEN AS RESULT OF CONVENTION

Big Attendance of Music and Vender Ops Seeking Equipment to Bolster Take Causes This Report. Claim Mixed Routes the Answer. Many Ops Seek Exclusive Operating Franchises.

CHICAGO — The belief is general here that there will be more mixed routes after the 1947 convention than at any other time in the history of the industry.

This belief is being based on the fact that so many music and vending machine operators, jobbers and distributors intend to attend this 1947 exhibition.

Many of these men have already called at the offices of leading manufacturers and have stated that they are interested in bolstering their collections by the addition of other equipment than what they now operate.

Most of the vending machine men are also interested in obtaining exclusive operating franchises in their areas. This new wrinkle will present

an unusual problem for the amusement machine manufacturers it is reported, but, it is believed, no such franchises will be granted.

One noted music operator stated at the office of a well known manufacturer, "Mixed routes are the answer. We can't go on ahead in our territory specializing as we did during the war period. We have found that our servicemen can handle other equipment without using too much extra time while they are in the location. Therefore we believe that the time has come when we have to purchase other equipment to get the largest possible collections and be assured of a general pool of profits from all of our equipment until conditions straighten themselves out."

He is also reported to have said, "The only operators who will see

any profits during this forthcoming year will be those who will be in position to meet any competition which may arise. This is only possible when the operator has every type of machine on hand and can answer the call of his locations for whatever merchandise they want. At the same time, this gives him complete control over each one of his locations and gives his route men a chance to earn more money, too."

This sudden swing to mixed routes was reported many weeks ago in *The Cash Box*. Now it has made itself most apparent by the number of reservations made in Chicago for the convention from music and vending machine coinmen.

There is no longer any doubt of the trend to the mixed route as the answer to greater operating profits.

DISTRIBS EAGER TO FORM NAT'L ORGANIZATION

Mfrs Cooperation Will be Asked to Halt Bootlegging and Price Cutting. Want Credit Bureau. Will Ask That Jobbers' Status be Set. Many Other Problems to be Presented. Hope for Formation at CMI Meet. Look to Leading Distributions to Call First Meeting.

NEW YORK—Since first scoop of the fact that leading distributors met in this city to discuss the formation of a national organization, more and more distributors throughout the nation are now eager to see such an association created at the 1947 convention.

"One of the first things we should do", one distributor stated, "is to ask the help of all of the manufacturers to halt bootlegging and price cutting. These simply must stop."

Others are just as adamant that a "National Credit Bureau" be created. One of these men stated some weeks ago, "This suggestion by *The Cash Box* is in keeping with the many great ideas this magazine has brought forth, like the 'National Tax Council',

the 'Public Relations Bureau', a new commission basis, and others. We must have a 'National Credit Bureau' to assure us of our financial future in this industry."

The jobbers, too, have interjected themselves into these discussions since the first distributors who met believed that the organization to be created should be only for direct factory distributors. The jobbers are burned up about this statement and have demanded that an organization be created among themselves if the distributors don't take them into their association.

In regard to this, one distributor said, "We must also arrive at some ar-

angement with the jobbers. This should be decided on a national scale so that we can all work together in harmony. We admit that the jobber is important. But, we also want to be sure of who should be classified as a jobber. That's why we must have an understanding regarding the jobber at the very first meeting."

A great many other problems will also be presented. Smaller distributors look to the leaders in their field to call the first meeting while the convention is in progress in Chicago. They believe that everyone of the nation's distributors will join and will work to create a strong body of great benefit to all the industry.

COMPLETE LISTING OF ALL EXHIBITORS, THEIR BOOTH NUMBERS PRODUCTS ON DISPLAY, ALSO EXHIBITS OUT OF THE CONVENTION HALLS

(Continued on Page 86)

THE TIME TO PLAY SANTA CLAUS HAS PASSED

The excuse to play Santa Claus ended December 25th. This is a new year. Yet, in our opinion, every Music Merchant still operating on a basis of 5¢ play is still playing Santa Claus and it's a poor pay job!

When you close your books, it should open your eyes to these facts.

The cost of operating phonographs is up—'way up! The take from phonograph operation, while still above pre-war years, is down from the war days.

To stay in this business, a Music Merchant must operate good phonographs, keep them supplied with good records and render his locations good service.

The minute lowered income forces him to lower his standards he starts

to lose locations and patronage. It is Wurlitzer's belief that, as a matter of self-preservation, the Music Merchant is entitled to make more money.

It is Wurlitzer's belief that common sense calls for conversion to "3 for 25¢ —1 for 10¢" play.

We say the time to play Santa Claus has passed. Let's take off the whiskers and get rid of such bewhiskered ideas as a belief that the public won't go for quarter-dime play.

They will. Actual tests have proved it. It will work to the benefit of any operator and for the benefit of the industry. All it takes is the courage to work it! The Rudolph Wurlitzer Company, North Tonawanda, N. Y.

THE CASH BOX*Record Reviews***"Snootie Little Cutie"****"Tom Foolery"**

TOMMY DORSEY ORCHESTRA

(RCA Victor 20-2116)

● Here's a wax package loaded with talent and a heap of star recording artists. It's a re-issue of TD's "Snootie Little Cutie," as done by his original ork, with vocal refrain—now get this! —Frank Sinatra, Connie Haines and The Pied Pipers. It's a good bet for the trade if offered to the customers with adequate billing for all the folks who participated in it, and from that it will get plenty of curiosity play. The piece itself is a pleasantly effective little novelty. On the other deck, TD's men have cut a solid instrumental hunk of swing that's heavy and full. If your customers want melody that's powerfully beat out, you can certainly use this offering.

"Sleepy Time Down South"**"I'm Stuck With A Sticker"**

BUDDY BAKER ORCHESTRA

(Exclusive 11)

● One of the few disks to come along that features an orchestra well worth hearing, an orchestra for which a host of predictions can sincerely be made, is heard here, with Buddy Baker taking and deserving full starring honors. What has happened here is a pair of instrumental sides that are refreshing to the ear, and the trade would do well to give this disk and this aggregation important attention. Offered are "Sleepy Time Down South", which has become a standard, and "I'm Stuck With A Sticker," a novelty to which Vivien Garry adds an effective vocal. But it's to the ork and the arrangements they play to which the customers will bend eager ears. By all means, give it a try.

"I Want To Thank Your Folks"**"You Should Have Told Me"**

KING COLE TRIO

(Capitol 356)

● Here's another profit platter from The King Cole Trio. Again offering another item strictly for pleasant listening, guitar, bass and piano combine to produce the light, effective backing for Cole's hushed warbling of "I Want To Thank Your Folks," a very effective ballad made all the better by the treatment it gets here. It's certainly worthy of a try. On the flip, with King Cole again taking on the vocal chore, the Trio does "You Should Have Told Me," a tune more romantic than the topper, but not up to it for commercial appeal.

DISK O'THE WEEK**"All The Things You Are"
"My Silent Love"**LEE RICHARDSON &
THE LUIS RUSSELL ORCHESTRA
(Apollo 1035)

LEE RICHARDSON

● He does it again! "Mister X," revealed at last to the public as Lee Richardson, has twice before been given the top spot on these pages, and twice he has come thru on location to fulfill the glowing predictions made for his recordings. It might be added, this is the third record he has cut with the able Luis Russell Orchestra. This time, Lee offers for heavy profit a pair of great standards, "All The Things You Are" and "My Silent Love." What he does with 'em via his voice is to turn in one of the most refreshing, most effective interpretations either of those ballads have ever before had on wax. As usual, Luis Russell and his orchestra give their boy full support, spotlighting his great talent with the skillful use of their instruments. Here's a record few members of the trade can afford to be without. You can take it from there.

"Among My Souvenirs"**"Blues To End All Blues"**

ETTA JONES

(RCA Victor 20-1998)

● That Etta Jones holds an established place among the nation's better blues warblers is established, and on this, her latest dinking, she proves the point, because that's the treatment she gives to the well known "Among My Souvenirs." Whether that was the wisest thing to do, however, remains to be seen, for had she done it straight, as the romantic ballad it was intended to be, it might have been even more effective than it turns out. As it's done, it's an item for race spots where they like Etta's styling first, with what she uses it on being a secondary consideration. Her "Blues To End All Blues" is good race stuff, and ops who have spots for it would do well to give it a try. The backing, provided by the J. C. Heard Orchestra, is worth anybody's listening time.

"Somebody's Rose"**"Everyone Knew It But Me"**JIMMY WAKELY & HIS ROUGH RIDERS
(Capitol 360)

● Kicking off to a good start with this, his first waxing for the label, Jimmy Wakely really sends this ditty tabbed "Somebody's Rose" to a strong recommendation for phonos that can use disks cut from the boots and saddles mold. Backed by the Rough Riders, Jimmy chants a tender love message in western style, and ops would do well to give it careful hearing. The flip, "Everyone Knew It But Me," is an effective filler, but not up to the standard set on the top deck.

**"Give Me Something
To Dream About"****"That's Where I Came In"**

JO STAFFORD

(Capitol 355)

● Sultry-voiced Jo Stafford's latest is "Give Me Something To Dream About," a ballad tailored for her vocal styling. Right for any and all locations where hand holders gather, Jo offers the piece as one of her more effective vocal efforts. In this she is aided with a lush backing provided by the capable Paul Weston Orchestra and a vocal group. Flipped, Jo does "That's Where I Came In," another ballad that'll be favored in locations where they like 'em sweet and romantic.

**"At Your Command"
"I Keep Telling Myself"**

JOE ALEXANDER

(Capitol 359)

● A new vocalist, Joe Alexander by name, makes his first appearance for the trade with this disk. "At Your Command," the top deck, is an oldie first brought to national acclaim when it was done by Bing Crosby in the early Thirties. It's still a good song. To it, Alexander adds a powerful baritone vocal treatment that comes out without tricks, and with few distinguishing features that passes as style. He has a good voice, and he does "Command" well, but until he develops a more commercial delivery, you'll have to peg this disk as a filler to have around. The flip, "I Keep Telling Myself," is equipped with the same good voice quality, but as material it doesn't match the top deck.

**"Thursday Blues"
"Good Morning Blues"**

JIMMY RUSHING

(Excelsior 502)

● Set in a deep blue mood; with orchestration style similar to that of ole New Orleans, Jimmy Rushing steps to the bandstand to do "Thursday Blues". His rich, full voice adds splendor to the side and where they go for slow, melodic stuff, they should go for this. Flipped, we find "Good Morning Blues", in which Jimmy spins his tale to Santa for a good gal. Ops will have to pick their spots on this pair, which should appeal to the somber set of race record customers.

THE CASH BOX

Record Reviews

"Baby Dee Blues" "I Want To See My Baby" BILL CAMPBELL ORCH. (Apollo 380)

● Peg "Baby Dee Blues" as a number packed full of possibilities. The Bill Campbell ork make music here, and the lass that chirps, Baby Dee, pipes pretty all through. The chanteuse has a husky quality in her voice and blends well with the theme of the ditty. It's strictly race wax, and ops would profit well by latching on. Backed by "I Want To See My Baby", Baby Dee hits the high notes again and turns in a fair performance. This side adds a bit more bounce and the jazz hounds will like it.

"My Heart Goes Crazy" "Connecticut" PAULA KELLY & THE MODERNAIRES (Columbia 37220)

● Looking for top action—you'll find it in "My Heart Goes Crazy". Paula Kelly and The Modernaires do this number up in resplendent fashion. It's got rhythmic room, novelty noise and a bounce that the kids will go crazy for. The backing books another getter, "Connecticut" by name, and the group combine again to offer ops more coin action. Bend your ear and listen to this pair.

"Sweet Jam Jam" "Triflin' Woman Blues" CLYDE BERNHARDT (Sonora 100)

● Latest pair of sides to invade the race field are this duo titled, "Sweet Jam Jam" and "Triflin' Woman Blues", with Clyde Bernhardt twirling the baton and doing vocal honors. Topside tune offers plenty of bounce and the dance fiends should go for this. The backing, in a slower mood, turns up as a stock item that has possibilities. Clyde adds a spot phrase leaning on the suggestive side which might add or detract from the disk's appeal, depending on your spots. Both sides deserve your listening time.

"Calling You" "Never Again" HANK WILLIAMS (Sterling 201)

● Bound to catch coin in western territory is Hank Williams' latest waxing tagged "Calling You". Lyrics lean on the spiritual side, although the disc itself is strictly for the wide open spaces. Hank's warbling fills the bill, and his boys back him up in top manner. The backing with "Never Again" is nothing unusual but nevertheless holds promise. Western ops can expect biggest action from the topside tune.

"The Sidewalks Of New York" "Sweet Rosie O'Grady" HILDEGARDE & GUY LOMBARDO ORCH. (Decca 23550)

● Never before that we could remember, would we have considered a platter by Hildegard for tavern spots. But here is one. Featuring two long established standards, "The Sidewalks Of New York" and "Sweet Rosie O'Grady," Hildegard handles the vocal chores in complete keeping with her material, delivering with a fair imitation of a fair brogue, as well. And when you add that to the fact that the Lombardo crew have here also caught the full flavor of the tunes in their instrumental interpretation, you have a platter worthy of strong recommendation. Ops know their routes well enough to know where to place it.

SLEEPER OF THE WEEK

"A Sunday Kind Of Love" CLAUDE THORNHILL ORCH. (Columbia 37219)

CLAUDE THORNHILL

● Orchids go to the Claude Thornhill crew and chirp Fran Warren this week for their superb rendition of a ditty that's bound to catch on fast. Titled "A Sunday Kind of Love", the lass turns out a top romantic ballad that the starry-eyed crowd will go for. Putting plenty of feeling into the song, she makes you think the number was built for you. The Thornhill men back the gal up in fine fashion, blending with rich harmonic tones that make you sit back and relax. Aimed at the somber spots, ops should do well with this side. Flipped we find the up and coming "Sonata", featuring Buddy Hughes doing vocal honors and some of Claude's wonderful pianology. For plenty of action, latch on to the top-mate.

"Isn't This Better Than Walking In The Rain" "Please Be Kind" RAY ANTHONY ORCH. (Sonora 3037)

● A promising tuneful ballad by the Ray Anthony ork steps out here as a ditty which music ops should listen to. Billy Johnson is the lad with the pipes and he offers the trade a pleasant rendition of this fireside fable. On the backing with "Please Be Kind", Dee Keating chirps pretty for the boys in another romantic setting. Both sides are nice, and ops with light spots could use this pair as fillers to good advantage.

"Texas and Pacific" "I Like 'Em Fat Like That" LOUIS JORDAN (Decca 23810)

● They'll eat this up not only from the "Texas and Pacific", but from the coast of Maine down to the tip of Florida. Louis Jordan's Tympany Five make merry here, as Louis warbles his spiel concerning the T & P. It's got that familiar bounce and beat, and has all the makings of becoming hot—not only in race spots, but in locations the nation over. The backing displays Louis' wares again as he tells why "I Like 'Em Fat Like That". It's a getter also with plenty of riff and holler, altho we like the topside for coin action.

"It's A Great Day For The Irish" "A Pretty Girl Is Like A Melody" JUDY GARLAND (Decca 25043)

● Here's a re-issue of one of Judy Garland's most popular numbers, and it comes just in time for action from the folk who are starting to think again of St. Patrick's Day parading, and all that goes with it. The tune is "It's a Great Day For The Irish," and it's the same one Judy did when they were playing it years ago. The instrumental backing by David Rose again reflects the talent of the lad, so all is well on that score. As for Judy's performance, well, standards change thru the years, and this platter reflects it. But the side will show big in the tavern spots nonetheless. On the flip, Judy does a tune said to be "A Pretty Girl Is Like A Melody," but after a straight intro, she delivers it heavy with rhythm, and it fails to come off.

"The Man With The Horn" "Jalousie" HARRY JAMES ORCH. (Columbia 37218)

● Where the Harry James fans flock, they'll go for this. Turn that title and the disc anyway you care to, and it still is "The Man With The Horn". All instrumental, Harry's string and reed sections flavor the tune in fine style to give it added punch. Flipped we find Harry displaying his crew's best on the popular "Jalousie". Strings open the ditty with a light pop touch, and Harry bounces back in a pepped up chorus. This pair deserves your ear.

"Margie" "I'm Walking Through Heaven With You" JIMMIE LUNCEFORD ORCH. (Decca 25016)

● Here's an oldie, brought back to life by the Jimmie Lunceford ork, and "The Harlem Express" does it up brown. It's a re-issue, and should net coin play where they like to reminisce. Johnny Young does the vocal chores and the kid is good. Flipped, "I'm Walking Through Heaven With You" turns up as a fair side that ops might use to good advantage as a filler. Dan Grissom renders the lyrics, and altho the boy is good, he doesn't quite reach top pitch. Topside tune for the asking.

"Beware My Heart" "The Pleasure's All Mine" VAUGHN MONROE ORCH. (Victor 20-2084)

● From the forthcoming flicker "Carnegie Hall", a ditty which rates high on our hit parade is Vaughn Monroe's latest offering "Beware My Heart". Vaughn and The Moon Maids gather 'round for this one and it comes out in perfect setting for the hand holding crowd. With the great following the Monroe crew have, this one should catch coin for a most of music ops. Backed by another winner titled "The Pleasure's All Mine", Vaughn and the gals combine again to turn up a sweet ballad set in slow tempo. A bright moon and magnolia trees, plus this pair, add up to good action in the phonos.

Only Records Considered Best Suited To The Requirements Of The Trade Are Reviewed On These Pages.

The Presentation of The Cash Box "Oscars"

(1) Marshall Micon of THE CASH BOX, Los Angeles offices, presenting the "Oscar" on the "Road to Rio" set to Bing Crosby, whom America's juke box operators voted, "The Best Male Vocalist of 1946". . . . (2) Bill Gersh of THE CASH BOX, New York offices, presenting the "Oscar" to Eddy Howard at the Aragon Ballroom in Chicago for "The Best Orchestra of 1946". . . . (3) The very popular young comedian Peter Lind Hayes awarding THE CASH BOX "Oscar" to Dinah Shore, whom America's phono operators voted "The Best Female Vocalist of 1946". . . . (4) Ralph Emmett, music editor of THE CASH BOX, awarding two "Oscars" to Billy Kenny of the Ink Spots on stage at the Apollo Theatre in New York for "The Best Male Vocal Combination of 1946" and "The Best Record of 1946". . . . (5) Marshall Micon of THE CASH BOX, Los Angeles offices, awarding the "Oscar" to Eddie and Leo Mesner of Aladdin Records for their recording of "Drifting Blues". . . . (6) Dave Kapp of Decca Records, Inc., holding THE CASH BOX "Oscar" awarded to his firm for their recording of "The Gypsy" which was voted "The Best Record of 1946". . . . (7) Ralph Emmett awarding Johnny Moore and his Three Blazers THE CASH BOX "Oscar" on stage at the Adams Theatre in Newark, N. J., for "The Best Race Record of 1946". . . . (8) The Dinning Sisters receiving their "Oscar" at Radio Station KFAC, Hollywood, after being voted "The Best Female Vocal Combination of 1946". (Pictures not appearing here are those of Al Dexter who received an "Oscar" for "The Best Western Record of 1946" and Columbin Recording Corp. who recorded "The Best Western Record of 1946".)

NEW YORK—The most memorable and the most outstanding event in all the musical entertainment world during 1946 was the First Annual Record Poll sponsored and conducted by The Cash Box in behalf of the Automatic Music Industry of America to determine the best money-making records and the best recording artists of 1946.

From the very first moment of its announcement the poll clicked tremendously with all the music machine operators in the nation. One vote was awarded for each juke box, each wall and bar box, each wired music shell the operator owned. This was decided upon at a meeting of leading music operators who believed this would be the only impartial method which could be used.

Neither The Cash Box nor the music operators were as much interested in the musical ability of the recording stars as they were in "how much money did the record earn for me? and how much did the public like the artist?" This was the complete basis of the voting. By their votes the Automatic Music Industry of America told the record companies and their stars just how well they could pull nickels, dimes and quarters out of the pockets of the public.

The votes poured in like a deluge.

They continued to come in by the thousands. Operators who had 3,000, 4,000, 5,000 and more votes were just as anxious to get in their votes as were the smaller operators who could offer but 10, 25, 50 and 100 votes.

For a while it seemed that the votes would never stop. The Cash Box then decided on a final and closing minute and the trade was so notified. From every town, village and large cosmopolitan center in the nation—the votes piled in. The contest waxed hotter and hotter—week after week.

It caught the attention of the press—columnists from Walter Winchell to those of the weekly newspapers—began to report the standings. Radio stations picked up the votes. Disk jockeys called them off each week for the benefit of their listeners. Magazines all over the nation told about the poll. It gripped the imagination of the entire musical world.

This was the first time that the Automatic Music Industry of America had decided to tell just which records and which artists had done the most for it during the year.

Every outstanding orchestra, every record of any worth whatsoever, made and played during 1946, every vocalist

who had waxed a disk in 1946 appeared on the cards which were returned to The Cash Box.

This was the answer to America's music industry. This was what publishers, artists and record companies alike wanted to know. And—they learned that the juke box men knew their records—knew their music—played no favorites—voted but one way — voted for those records and artists who had helped them to earn greater profits in 1946.

Already record companies and artists are pointing to the Second Annual Record Poll of the Automatic Music Industry of America to be conducted by The Cash Box in 1947—to again determine who will be awarded the "O-cars."

"This," one of America's greatest music publishers stated, "is the most outstanding, most meaningful and most important event in the music business. We know that every juke box operator in the nation wholeheartedly joins in The Cash Box contest. We've learned that from the survey we've just completed. And, we want to compliment The Cash Box on its impartiality as well as its complete devotion to sticking to the facts."

VICTOR
RECORDS

I'm packing my carpet bag in between pecks at this column, 'cause I'm off to the Big Show in Chicago, and from February 3-6, 1947, please send my bills to the same address that'll house practically every other laddie and lassie who make up this great cointrade society — Hotel Sherman, here I come!

* * *

It's going to be a great few days for the music folks. They're coming from Broadway and from Sunset and Vine, and from all points in between. They'll forsake Lucy's and come climbing out from under the Brown Derby, they'll crawl thru the smoke rings at Lindy's, and forsake the hatnapers at Shor's — 'cause everybody's goin', everybody's comin' to Chicago!

* * *

The telephone rings. . . . It's Monroe Postrel, Sonora's flack chief. He wants us to get a suite for Sonora's New York delegation. Joe Gerl, the label's prexy, Milt Benjamin, the veepee, and Monroe need room. . . . Is there a room in the house? . . . Here's hoping that Glenn Wallichs, Capitol's executive vice president and general manager, takes time out from his jaunt East to shoot the breeze with us in Chi, same for Floyd Bittaker, the chap who knows all the whys and wherefores on the label's up-curve sales chart.

* * *

The telephone rings. . . . It's Dan Priest, Signature Records' flack chief. He wants to know who's in charge of the CMI Entertainment Committee. . . . Dick Hood's your man, Danny boy, and you can probably reach him at the H. C. Evans factory in Chicago. . . . By the way, Danny tells us that Bob Thiehle, Gerry Ross, Water Hellawell, and Mr. Priest will make up the Signature delegation — Oh, and Monica Lewis. Hubba-Hubba! . . . Herb Allen and Jack Williams are coming. They wouldn't miss a coinmen's conclave if they had to come by burro. They'll keep the RCA-Victor banner flying in the Windy City day and night.

* * *

The telephone rings. . . . It's Irv Katz of Apollo Records. He wants some statistics on juke boxes. He gets them. He says Apollo Records will be at the Show with bells on. . . . And speaking of belles, one of our better paid informers rattles on Signature with the news that on Wednesday, February 5th, four models from the Walter Thornton Agency will make an appearance on the convention floor boosting the label's wax products, and if they don't loose a wolf cry from a thousand coinmen's throats, the boys—and probably the girls—will all be very disappointed.

* * *

The telephone rings. . . . Harry Bank, Cardinal Records prexy, wants a drawing room on the Commodore Vanderbilt, skedded as the "Coin Machine Special" for its February 1st run to Chicago. He wants a drawing room for himself and assistant, Milt Barnett. We tell him the right guy at New York Central to fix the deal. . . . Decca Records ad chief Ed Manning laboring away to complete details for the label's booth at the Show. If it's coming from Ed, expect it to be strikingly effective. . . . Dick Kuhn, the noted ork leader and head of Top Records, arranging things for a quick jaunt to the Show. . . . Majestic Records chieftains, headquartered at St. Charles, practically within earshot of the Sherman—on a windy day—will have the advantage of native sons getting to and from the Show.

* * *

The telephone rings. . . . Oh, hell! I gotta catch a train!

WHAT'S A
CONVENTIONAL
WELCOME?

When SIGNATURE rolls out the royal carpet it will be for the first coin machine convention since the war. We will be well represented at the Chicago conference, from the President, Bob Thiele, through our field representatives. Our artists in the Chicago area will also be a part of our good will caravan.

Those beautiful Pin-up girls you will see on the floor giving out records and souvenirs will be from the Thornton Agency. They will be there to help you enjoy the convention and will direct you to our suite in the Sherman Hotel. To one and all we extend a hearty invitation to come up and join the party.

Picking Records For Harlem

By Robert A. Hazelton
Ideal Music
New York City, N. Y.

Every Thursday night my ears begin to ring.

That's because Thursday is record buying day for me, and, in an effort to let nothing new pass by without a listening, I try to get an earful of every newly released record that has been slanted for my customers—who are probably the nation's most critical—up Harlem way.

I blame a lot of record companies for those earaches. I blame it on the people they employ to choose the numbers to be made for us.

Somehow, they're off the ball. Either they're under the impression they are still living in the days of Uncle Tom, or else they must be of the impression that we are.

At any rate, they can certainly stand a bit of suggestion on their choice of repertoire. Suggestions that have their roots in the demands passed on to me from the locations that provide me with the stuff to keep the landlord, bank and wife in a reasonable state of contentment.

And it all boils down to this: For the love of a better sales reception, for bigger and better orders from the members of this industry, and, in turn, from the retailers located in this and like territories, stop this unbalanced concentration on music that passes as blues or jive. There's so damn much of it that's bad and so damn little that's good.

Believe me when I say our people are getting so very tired of having records pushed at them that are composed in the main of hollerin' and wailin'. Records that suggest not the slightest dignity nor the slightest reflection of the finer emotions to which all people are kin.

I know that all the wise acres will point to a batch of astoundingly successful records that exemplify the type I've just condemned. Okay, but, on the other side of the picture I can point to as many astounding successes that have been at least as profitable, and, in the long run, done more for the record company and the performer involved. And so few of these ever were made compared to the others.

Look at Johnny Moore's Three Blazers, The King Cole Trio, The Ink Spots, Lee Richardson, Billy Eckstine, and the many, many others; their greatest successes have been with material that was music, not a lot of mumbo-jumbo. The people up here can't wait for enough of their recordings.

So the wise acres will point to Louis Jordan. Okay, so can I. How many musical combos are there that can measure up to his greatness, a greatness that has broken down all lines that measure off this Harlem?

It all boils down to this: The majority of us contend that we are civilized people with civilized musical appetites.

How about it?

Salute To The Coin Machine Industry

The Coin Machine Industry's first post-war convention climaxes a critical period for music operators and record manufacturers—one of the most uncertain in the histories of both industries.

For five years we shared a mutual problem, that of attempting to meet consumer demand during a national emergency which seriously restricted operations. Perhaps in this respect record manufacturers were a bit more fortunate than coin machine manufacturers. Although we faced serious production curtailments as a result of material and manpower shortages, we were still able to continue manufacture of records. Our problem was attempting to distribute our limited production among the consumer market—music operators, record stores, and other retail outlets.

We still have not quite succeeded in overcoming this problem, despite the fact that for the past six months or more, RCA Victor plants in Hollywood, Minneapolis and Camden have been producing at maximum capacity. However, we did make substantial gains in 1946, and the opening of a fourth plant this year will help us considerably in expanding production still further.

The coin machine industry, on the other hand, was faced with almost complete curtailment of production during the war, and 1946 was the first year during which individual manufacturers were able to think of a resumption of production on a pre-war basis.

This has posed many problems for record men and coin men. RCA Victor and other record manufacturers, who realize how important the coin machine industry is in the exploitation of our merchandise, are doing everything possible to supply coin operators with records in sufficient quantities to service machines.

While the unit percentage of records allocated to coin operators has averaged about 20% for the industry as a whole, the unit volume has increased tremendously, despite individual production allo-

By JAMES W. MURRAY
Vice-President in Charge
of RCA Victor Record Activities

cation problems. This percentage of 1945 record production, estimated at 165 million records, is dwarfed by the volume of records made available to music operators in 1946, a year which found the industry as a whole producing about 275 million records.

Estimates for production in 1947 vary, but it is generally agreed that 350 million is a reliable prediction. Barring difficulties with basic suppliers, in the form of labor strife or material shortages, the coin machine industry can look forward to a greatly expanded volume of records being made available during the year.

Our efforts have not been confined to assuring more production for use in coin machines. At RCA Victor we have been spending considerable time perfecting manufacturing techniques that will ensure maximum wearability of records on new coin machines as well as on older ones that have been in service without

replacements and beyond normal life expectancy of the machines.

The importance of manufacturing high quality records for use on coin operated machines cannot be stressed too strongly. It is a point that RCA Victor plant personnel keep uppermost in their minds. The coin machine is the showcase for RCA Victor records—the device through which thousands of record purchasers first hear our product. If an RCA Victor record stands up under constant playings on a coin machine, the record collector has ample assurance that he will find the same playing quality in the record purchased for home use.

The other consideration, and currently, perhaps as important as the one just cited, is the fact that coin machines today have become as important as the radio disc jockey in building the hits of the record industry. Surveys of best sellers show a close relationship between the records "coming up" on disc jockey programs, and those most played on coin machines. While there is no way of estimating comparative listening audiences, and such comparisons might prove invidious, the fact remains that each playing on a coin machine represents a conscious desire—backed up by the investment of a coin—on the part of some one person to hear a specific record. Such is not the case on the disc jockey program, where the choice of records is to a large degree an arbitrary one, and where audience requests for a specific recording frequently can be rigged.

This company will not forget that it was the coin machines which served as an impetus for the comeback of the industry as a whole. Recognizing that the future success of both industries is a matter of mutual interest, RCA Victor will continue to do its utmost to provide music operators with a product that will attract new customers to the machines, and in so doing, increase the home market for recorded music.

"Thank You operators for your wonderful assistance in making our numbers click on your jukes."

We Are Here —To Stay....”

By FRANK B. WALKER
General Manager, M-G-M Records

It is with great pride that I take this opportunity through the pages of *The Cash Box* to announce the marketing early in March of M-G-M Records.

Born over a year ago in the minds of the executives of Loew's, Incorporated of which M-G-M Records is a division) my staff and I have done our utmost to carefully nurture the growth of M-G-M Records to a point where we are entering a competitive field with a child whose youthful enthusiasm will cause excitement in the trade through progressive and aggressive promotion; yet, one whose destiny is under the guidance of mature experienced heads who will temper this youthful exuberance with sound business judgment, and who will follow tested methods of merchandising.

M-G-M Records, as must be obvious by Metro-Goldwyn-Mayer's reputation in the entertainment field, is no independent or fly-by-night company. We are here to stay and we want to make our stay pleasant to the coin operators. Executives of our record company have been in the record business for many years and know the importance of the automatic music trade. We know that if we treat you fairly you will receive treatment in kind. This policy of fairness, which we insist upon being carried out by our distributors, is completely consistent with the record of Loew's Incorporated, which through the many years has been fondly referred to by all in the entertainment field as "The Friendly Company". We are determined to continue that reputation in our newest venture and we pledge our cooperation with automatic music operators to the fullest extent.

I don't think it is necessary to tell you of the resources of Metro-Goldwyn-Mayer. The reputation earned by M-G-M as "The Greatest Name In Entertainment" is no mere figment of a copywriter's imagination. M-G-M is famed for showmanship in entertainment, showmanship in advertising, showmanship in merchandising — in short, that type of showmanship which has made it the leader in the entertainment field. We hope and expect to carry that tradition to a new high in the record industry, thereby causing a demand for our records in your machines and benefiting us both equally.

We shall try to supply a repertoire covering a wide range, for all types of locations. Not too much sweet, not too much swing, but a diversified saleable portion of each. We are striving for the same type of balance with our artists. We know that names mean volume take; we also know that new talent is the lifeblood of the industry. In other words, our aims are your aims—and we will make your aims ours.

Being fully cognizant of the fact that record quality is of the utmost importance to automatic music operators, I wish to say that in our opinion M-G-M will turn out quality records! It is our belief that they will be as good as any, and better than some.

University Records Sells Trade Direct

JIMMIE RICHARDS

LOS ANGELES—Something new in record sales policy has been instituted here by University Recording Company, Inc. with the announcement that they are now selling their platters direct to the trade via mail order and eliminating a distributor's profit which they are passing on as a saving to the purchaser.

Thus, under present sales policy, their disks, which carry a 75c list, are made available to the trade for 37½c, a 50% discount in lieu of the usual 40%.

That the firm is all out to register with phonomen is apparent from a recent announcement issued by the diskery, claiming a 23% shellac content in their pressings, which, they say, have been tested to give better than 250 plays.

Jimmie Richards, president of University, has been in the music field for many years. A veteran of the Majestic circuit, he headed his own orchestra which was billed as "Jimmie Richards And His Southerners." In addition, he is an established songwriter and, during the past few years, has produced and written a number of radio programs.

His background of 21 years in music and songwriting prompted him to organize the University Recording Co. and University Publishing Company, Richards said. In his announcement, he declared that his objective is to give unknown songwriters their well deserved "break," as he feels "there are a great number of songs written from the heart, with more music appeal than a great number of songs written by the professional writers of today."

M-S Named Aladdin Distrib For Illinois

CHICAGO — M-S Distributors has been appointed exclusive distributors of Aladdin Records for the state of Illinois, it was announced here recently by Milt Salstone, head of M-S.

Appointment of the firm to handle the line here is expected to boost the importance of the label in this territory, since Salstone is well known to the contrade and carries heavy experience with wax merchandise.

The label, best noted for its big race appeal, looks forward to heavy action thruout the state, one of the better areas of the nation for the material they offer.

"We're In This Together...."

By Tom Saffady

President, Vogue Recordings, Inc.

It is indeed a pleasure and an honor to be asked by *The Cash Box* to direct a personal message to you, the Automatic Phonograph Operators.

In my association with you and your allied businesses I have come to know you as one of the most "live-wired" and alert groups of businessmen now operating in the entertainment field. Your problems are many and complex but you have met them with resolution and industry.

Unfortunately, by the very nature of your business, you are reduced to a large group of individuals, all operating more or less "on your own hook." This situation makes it difficult to have your ordinary problems known to the record industry except through isolated articles and letters published in *The Cash Box* and similar publications.

I feel that it is necessary for the record manufacturer to be cognizant of your problems. I feel this so strongly that I have made it my avowed personal program as President of Vogue Recordings Incorporated to keep in mind your importance to our industry and to help you lick the elements that are now operating to your disadvantage. I shall seek new ways to make your business a more pleasant and profitable one (for after all, we're all in this together).

I want to thank you for your splendid reception of our record in its first year and want to assure you that we shall continue to improve our product to your advantage.

Best of luck and a prosperous 1947 to the Automatic Phonograph Operators and all their associated industries.

Musicraft Lists Reps For Chi Show

NEW YORK—Musicraft Records, one of the first independent labels to be awarded an associate membership in Coin Machine Industries, Inc., announced this past week that at least three members of the firm would be present to man their display booth at the Hotel Sherman.

Mentioned were Lee Savin, sales manager, Harry Sultan, president of Musicraft's distributing organization in this city, and Oliver Sabin, vice president in charge of sales.

Hillbilly Is Our Business

By **SIDNEY NATHAN**
President, King Records Dist. Co.

The entire staff of the King Record Distributing Company welcomes you to the Coin Machine Industries Convention and may you all have a pleasant and successful stay in Chicago.

To you, the juke box operators of America, we offer our most sincere thanks for playing such a great part in the phenomenal growth of our company.

Less than two years ago King pressed its first record and today we have the largest hillbilly catalogue in the world, and have become the number one manufacturer of hillbilly, western and folk phonograph records.

Speaking of number one . . . that, coincidentally, is the number of our display booth in the main exhibition hall of the Sherman Hotel. We are anxious for each of you to pay us a visit and talk over any problems of the business. Your suggestions, as always, will be deeply appreciated. Remember . . . booth number one in the main exhibition hall.

Now a word about hillbilly music. More and more the operators are realizing that hillbilly, western and folk records pay off and are becoming stiff competition to pop platters. Better song material, excellent musicianship and trained voices are largely responsible for this rise in popularity. The so-called hillbilly music has found its place in American music. It is American music.

The King Record Company is constantly on the lookout for new outstanding talent and our recording sessions are held at key cities throughout the country. We were the first company to specialize in hillbilly, western and folk music. King was first with such tremendous hits as "Filipino Baby," "Rainbow At Midnight," "Hillbilly Boogie," "Freight Train Boogie," "Steel Guitar Stomp" and many others. We have brought many new artists into the field that have become stars overnight.

The King Record Company is self sustaining in production. We operate our own mill room for the manufacture of biscuits, have one of the most modern and efficient plating departments in the country and maintain a round the clock schedule in our press rooms. In addition we have a complete printing plant.

Our engineering department is constantly striving for better quality and longer life of record. After two years of development we will put up our label against that of any other company for quality, tone, and longevity.

Record Roundup, our monthly publication, is the only magazine of its kind that offers complete and unbiased coverage of the hillbilly, western and folk field. It is distributed to record retailers throughout the country for free pickup by the customer. You will receive a souvenir copy at the convention.

We would like to thank *The Cash Box* for this opportunity to address the Coin Machine Industries.

Happy convention and we'll be seeing you there.

1947 - The Turning Point Year

By Paul E. Southard
Vice-President
Columbia Recording Corp.

As music machine operators gather for their first postwar convention, there is, happily, an industry-wide inclination to look at 1947 as the "turning point year". In the months that lie immediately ahead, new instruments will be forthcoming in larger quantities and more records will be available to operators than ever before. This means more business for the smart phonograph operators who realize that they are no longer in a sellers' market and keep their machines loaded with the "Hot" numbers, eliminating all "Dogs".

For those operators who have gone back to fundamentals, there is no limit to the development of their businesses. We are certain that the music machine operator will be a more important factor in our business than ever before. We expect our business in 1947 will be at least double 1946. When you realize that 1946 was far and away the biggest year in the relatively brief but eventful history of Columbia Recording Corp. then you know that we're not talking about "peanuts" in '47. Playing a vitally important part in our plans for this year will be you, the music operator, from whom we expect to realize not a small part of our anticipated 1947 increase.

We believe that during 1946 Columbia, by retaining the 50 cent price for pop records, became increasingly important to the music operator and, surely, the music operator is becoming increasingly important to us. We have long believed and, more importantly, we have actively practiced, a policy of low prices for phonograph records. We pioneered fifty cent popular records. Today, despite rising costs, we still market Columbia popular records at 50 cents. We will continue to retain this price just as long as our costs permit. And at this low price we continue to improve our quality and the length and strength of our artist list. As the operator, motivated by these factors, turns more and more to Columbia, he will become an increasingly important part of our business.

I should like to use the good offices of *The Cash Box* to invite you to visit our display while you are in Chicago and to extend to you my belated but sincere New Year's greetings and my best wishes for a prosperous 1947!

Prosperous Year Ahead!

By BOB THIEHLE
President, Signature Records, Inc.

To the music operators and the industry I extend my greetings at the first convention in five years. The year of 1947 will undoubtedly see, not only a continued, but an even greater volume of sales in the record business. Since the new machine and the record company complement each other, it looks like a prosperous future for all concerned.

True to our policy to make the music operator's job easier, and make more appealing displays, we are the first to restore title strips. They are available in unlimited quantity to all operators and are part of our releasing systems.

We have taken into consideration the valuable criticism of music operators concerning the coupling of the tunes. Quite often it has been the custom for one good record to sell on its merit alone while the reverse side was almost completely neglected. We have adopted the policy of coupling two hit tunes on one record so that the operator can alternate the sides to obtain maximum playing time for each disc.

The quality of a record has always been of primary importance to us. The great pains that we have undergone to achieve a high quality product have been well worth the effort. Impartial coin machine operators have written us, without solicitation, to tell us that after repeated playings, the record is still in excellent condition and reproduces as though it were new.

Signature records will be well represented at the convention in Chicago. Our representatives will be available at the Sherman Hotel in their suite and extend a hearty welcome and standing invitation to drop in and join the party.

Music Op Market Always A Factor

By GLENN WALLICHS
Executive Vice-President & Gen'l Mgr.
Capitol Records, Inc.

From the beginning, Capitol Records has maintained an operating policy to service music operators in the best way possible.

This policy provides that juke box operators have the same status as dealers. They are invited to purchase records and record supplies directly from our distributors on that basis. It is believed this is the most effective arrangement possible.

That policy was maintained throughout the war and still exists. Its value is indicated in the comments we have had from operators who felt the procedure was well worth while.

A check of our current and future release schedule shows a number of records especially valuable to operators. You may be sure that needs of the operators are given full consideration in all stages of our planning.

We are anxious to give operators just the service they need. We will always aim at a high level of service for your industry. Hence, we will appreciate comments and suggestions from operators.

I wish to extend greetings of the entire Capitol organization to all branches of the Coin Machine Industry.

His "Guitar Polka" having been voted the "Best Western Record of 1946" in the recent poll conducted by *The Cash Box* of the nation's music operators, Al Dexter displays the trophy awarded him by Art Satherley, Columbia Records' vice president in charge of country, folk and race music, following the presentation ceremony held in Los Angeles. In the

accompanying photo at right, Bill Gersh, publisher of *The Cash Box*, is seen with Mannie Sachs, center, Columbia vice president, who received an "oscar" awarded the record company for having produced the prize winning "Guitar Polka." Bob Austin, also of *The Cash Box*, is at his right. The latter presentation was made in New York.

"Congratulations On The Convention Of '47"

By Harry C. Kruse

Vice-President In Charge of Sales
Decca Records, Inc.

It is especially pleasing to be able to greet the operators of the Coin Machine Industry and congratulate them on the opening of their first post-war convention in Chicago.

But then it's never tough for us here at Decca to prepare a message to the operators of Coin Machines. Probably, this is because we are never out of touch with these men who have done so much to further the record industry. There is never a day that passes when we, here in New York, or our representatives all over the United States are not trying to find ways in which our company and the operators can mutually benefit one another.

And we know, because we operate through our own branches, and our own Decca men, just how best to gratify the operator's desire for hit songs, for service and for the assurance of fair play that he must have to carry on his business when production is still less than demand.

We feel that it was not simply flattery when so many of these men told us during the past year "Decca kept us in business" and for that we are more than grateful. Let it be our privilege then, to give full assurance that the factors that make their industry and our industry so closely akin will continue to be serviced fully, honestly, and thoughtfully by Decca.

Again, congratulations to the Convention of 1947 . . . may it herald the beginning of the biggest year we have ever known.

New Disk Firm Will Specialize On Standards

NEW YORK — Rainbow Records, a new label, has set up a program that will concentrate on only two issues—the building of a standard catalogue and the production of special albums. Full details of the new outfit's program will be revealed at a later date by Harry Fromkes, president. Other officers of Rainbow are Herb Hendler, vice president in charge of recordings, and Eddie Heller, vice president in charge of sales.

Catapulted To Fame

Ted Weems' "Heartaches" No. 1 in Charlotte

DUSTY FLETCHER

NEW YORK—Twenty-three years of presenting his "Open The Door, Richard," comedy routine on stage and nite club boards all over the country suddenly exploded in what looks like a jackpot of gold for Dusty Fletcher, veteran Negro comic. Short-

ly after it was released on wax by Jack McVea on the Black & White label, it leaped to tremendous demand on the West Coast. Dusty's version, released by National Records, appeared shortly thereafter, and now it appears as tho "Open The Door, Richard" will open the door to greater fame and fortune than Dusty has ever before known. Demand for the record is reported mushrooming in every city of the nation.

NEW YORK — Reports from music operators located in Charlotte (N.C.) indicate the unanimous choice of Ted Weems' seven-year old "Heartaches," which he waxed for Decca, as their No. 1 disk on the phono

Quizzed by *The Cash Box*, Decca execs headquartered here declared

the situation was as surprising to them as to anybody, and what was more, it was added, the disk appears to be catching hold in many other Southern areas

Prior to the sudden surge in demand, the disk hadn't been pressed in quantity for years.

"... tavern locations would do well to get a batch of these disks."

Kenton To Make Disk Series For Jukes

NEW YORK—Stan Kenton, whose well known musical styling known as "Artistry In Rhythm" has been successfully received by many members of the trade, will issue a juke box series especially for the phonos, it was announced this past week by Walter Rivers, Eastern representative for artists and repertoire for Capitol Records.

According to Rivers' statement, Kenton will make 24 sides this year, twelve of which will come under the juke box category. For the trade Kenton is planning disks featuring popular romantic ballads backed by rhythm novelties created and intended only for juke box consumption. In so doing, he hopes to present a platter to the music operator that can be used successfully in divergent kinds of locations.

This move, said to be the first of its kind to have ever been attempted by an artist so far as presenting custom made music for the trade is concerned, is expected to achieve a highly favorable reaction from musicians who have long sought records especially fitted to the requirements of a juke box operation.

P. S.

Watch for the first of this Series to be released Feb. 10

Capitol's B'klyn Branch Opens Feb. 3rd

BROOKLYN, NEW YORK—On Monday, February 3rd, the doors of Capitol Records' newest addition to its fast growing distribution network will open here, it was announced this past week.

The branch will be managed by Louis Ferrara, well known to the cointrade in this area for his past association with other Capitol distributing points in neighboring territories.

The new branch, located in a recently constructed, modern building at 156 Prospect Avenue, will service

music ops and retailers headquartered in Kings, Queens, Nassau and Suffolk Counties, relieving the New York Branch of part of the ever increasing business load which it has been servicing since its establishment.

In this connection, John Coveney, the New York branch manager declared that as soon as conditions permit he would make arrangements for members of the trade to make over the counter purchases at intervals more frequent than current schedules allow.

CMI To Fete Stars At Celebrity Luncheon

CHICAGO — Claude Jarman, Jr., MGM juvenile star, will make a personal appearance at the Coin Machine Industries Show on Monday, February 3. He will bring with him "Flag," the deer, who plays such an important part in the MGM picture "The Yearling" in which Claude is starred. Both will be on hand for the Celebrity Luncheon being held on Tuesday, Feb. 4, in the College Inn.

Pineapple Entertains Vets

NEW YORK — Johnny Pineapple, popular Hawaiian maestro and Mercury recording artist, is donating, at his own expense, 126 albums of his "Along The Pineapple Trail" to Veterans Hospitals throughout the country.

When learning of the acute need for music, records, and entertainment, Johnny immediately contacted the Red Cross and told them of his plans. Not only has he donated the albums, but Johnny also entertains at Vet Hospitals in the metropolitan district on Sundays, his only day off. Johnny informs *The Cash Box*, that any ops who have members of their family in a veteran's hospital, who need entertainment, to write him so that he can do his utmost toward that end.

Johnny is currently appearing at the Hawaiian Room, Hotel Lexington, this city.

'Richard' Booming in N. Y.

NEW YORK — As the demand for "Open The Door, Richard" threatened to break into the "sensational" bracket in this city, record distributors of the Jack McVea version, on Black and White label, and Dusty Fletcher's waxing for National, reported difficulty in meeting current orders.

Cosnat, National's distrib here, was said to be receiving and immediately selling out their allocation of 1500 disks daily, while Runyon Sales Co. of New York, Black & White outlet, were expecting 10,000 McVea copies by air to bolster their empty shelves.

Importance Of Phonos To Entertainment Industry Expected To Increase Tremendously In 1947

NEW YORK—The status of the individual music operator, and music operators in association, is expected to increase mightily as among the most influential factors affecting all industries which compose the entertainment world.

Always among the greatest exploitation mediums for the sale of records via retail outlets, the tremendous demand for home phonographs built up and pent up thru the war years is now rapidly developing into a sensational run on purchasing the equipment as fast as it can be built, set up on display, and delivered.

With increasing numbers of record players finding their way into the nation's homes, the spurt in demand for records is climbing to zenith proportions.

Every new record player in the home spells a demand conservatively estimated at 50 records for the first year. When the number of record players being purchased for private use is considered, the total potential record sales reaches staggering proportions.

And as these retail record sales increase, the proportion of records the music op market purchases decreases in ratio to the complete volume. For example, when the juke

box was born record purchases made by the members of this industry accounted for as high as 40% of total record sales with many record companies. Since the rise in popularity of record players for the home, built and fostered to a large extent by the juke box, that sales percentage has been on the decline.

But!

The importance of the juke box as a medium for record sales has spurred by leaps and bounds and is continuing to soar to new heights among its allied industries which compose the entertainment world. And here's why:

1. Whereas in former years the comparatively small number of home phonographs in use caused but a small minority of juke box listeners to have reason to purchase a record to which they were originally attracted on the machine, the increasing number of players going into homes is fast developing into a situation where just about every juke box listener represents a customer to the retail record outlets.

2. Thus it follows that the juke box, as the showcase of the record industry, will become even more actively sought as a plug medium by artists, music publishers, and the record manufacturers.

3. Importance of the machine to the artists is evident. If record sales in the nation are tripled, as leading observers conservatively estimate they will be, then an artist with a record can expect to net three times the figure he did with a click of equal magnitude in years past. (Where the sale of a record reached the one million mark in 1946, it was considered a "sensational" amount. Should the sale of home record players hit the figure they're expected to in the next two years, a big click record should be good for three million copies of the platter).

4. By the same token, the music publishers, who have in the past looked upon record royalties largely as "gravy" and as a plug supplement to their biggest profit source, which is in sheet music, can look to tripled record royalty incomes as a much more important profit source, and respect it accordingly. This, of course, in addition to the established fact that there is a direct and almost constant ratio between records and sheet music sales.

The record industry is growing to ever increasing prominence in the entertainment world, and with it in proportionate size the juke box grows to ever increasing prominence as the record industry's No.1 showcase.

NOTICE!! ALL NEW EQUIPMENT APPEARS ON THIS PAGE ONLY UNTIL RELEASED BY MANUFACTURER TO BE ADVERTISED AS "USED". BE SURE TO ADD FREIGHT AND SALES TAX CHARGES WHERE NECESSARY FROM MANUFACTURER'S HEADQUARTERS TO SALES POINT!!

...the big hello!

We're leaving the secretary behind to take care of the switchboard — and the office boy to keep her company — then the entire Runyon Sales staff is

OFF TO CHICAGO!

We can't wait to see all our old friends at the CMI convention and give you . . . the big hello!

HAVE WE GOT THINGS TO TALK ABOUT!!

As the outstanding distributor in the East we're handling the country's outstanding music machine . . . the AMI. We're proud of our position and even prouder of representing the AMI.

We'll be seeing you at the AMI booths . . . numbers 38 - 38A - 40. All we ask is that when you start telling us how wonderful the AMI really is . . . just let us get a word in about our set up in New York, New Jersey and Connecticut!

February 3-4-5-6 • Hotel Continental, Chicago

*J*he leader in the field for over 40 years welcomes coinmen to their biggest convention

AT this first Coin Machine Convention since 1941, I wish to extend my sincere greetings and best wishes to distributors and operators from all over the United States. I know that this show is the biggest and best that's ever been held and will be a most successful one in the exchange of ideas and developing of new plans for the coming year.

We at Jennings have just gotten back into production on our own machines after several years of intensified war work. We expect during this year to be able to meet the ever-increasing demand for our well-known equipment.

In the meantime, we're looking forward to seeing you at the big show and to renewing old friendships which we prize so highly.

Solotone

STILL A YEAR AHEAD — NO CHANGE IN DESIGN

Keep ahead with Solotone in '47. Solotone gives you ALL the features that add up to more take. Any location is a *better* location with Solotone.

MORE PROFITS — The Solotone take can double . . . treble what you have been accustomed to with phonographs. With Solotone, numerous boxes are installed in every location and each box earns its own revenue.

MORE MONEY — Solotone has double coin chutes. Because of this original feature the 10c added take can increase your profits as much as 30% over any individual music system.

MORE LOOKS — Brilliant, striking colors give Solotone boxes extra attraction value . . . and with many Solotone boxes in each location more customers are exposed to the Solotone play habit.

MORE TONE — Listen to Solotone. The genuine 6-inch speaker plays the kind of music customers expect to hear . . . and the nickels and dimes keep repeating.

Get the full Solotone story today. See it in Booths 31-32 at the Coin Machine Industries Show, Sherman Hotel, Chicago, or wire us today for complete details.

Here are 4 Brand New Firestone Winners!

SEE THEM IN BOOTHS 100, 101, 102, 103

SANTA ANITA HANDICAP

For a brand new money maker don't miss this sensation! It's been tested and proven irresistible to players everywhere! A two player game packed with plenty of player competition! SANTA ANITA HANDICAP is an exciting race game where the score and the winner depend strictly on the skill of the players. And its hard wood cabinet can really take it! A flashy progressive backboard peeps up the play to a terrific fever pitch! A natural fast play in any location!

ROLLOBALL

This roll down game gets every player with its chance at a big score! ROLLOBALL'S hard wood cabinet with chrome trim will stand up under a lot of kicking around. And its sparkling lite up backboard keeps them playing and playing! Interchangeable units make for easy servicing. Large cash box quiet operation . . . everything you could want! It measures 5'9" long, just the right size to go into that location and earn big money for you!

BONUS ROLL

A typically "different" Firestone-designed game. Boasting the very finest features ever included in this kind of game—PLUS a "Firestone First"—a thrilling rotation "Bonus Pocket," which changes with each roll. New excitement — Bigger scores — Greatly increased popularity. New Wider playing field. Mechanically perfect! 10 ft. x 26 in. (Also 12 ft. and 14 ft. sizes. Prices on request.)

AT-YOUR-SERVICE-RADIO

THE COIN-OPERATED RADIO THAT IS LOCATION-TESTED, PROFIT PROVEN

Showtime

By R. R. (Rudy) Greenbaum
Vice-Pres. & Commercial Sales Mgr.
Aireon Mfg. Corp.,
Kansas City, Kans.

It has been over five years since all of us have had an opportunity to get together for the big convention, known to the industry as "Showtime".

It is a rare opportunity presented to all of us to renew old friendships and to meet new acquaintances.

The opportunity of "Showtime" this year, I am certain, will leave much to be remembered. Many of the oldtimers that we knew and loved will not be with us this year, for some have gone to the great beyond, and some are ill and cannot attend, and others have moved into other fields. There will, however, be many of the oldtimers. There will be plenty of newcomers and it is for us who have been in this industry many years to welcome the newcomers with open arms and show them the proper way, insofar as we are able, from our past experience.

The manufacturers, all of them, will undoubtedly display many new and novel ideas. Some of these ideas will not be manufactured—but most of them will.

It will be an unusual and wonderful display of the ingenuity, the imagining, and development of thousands of fertile minds, concerned only with the continued success of operators everywhere. It will be a show par excellence. It will give birth to many more innovations.

I, personally, am looking forward with great anticipation to this wonderful display at "Showtime".

Whether you are a manufacturer, manufacturer's representative, distributor, jobber, operator, or supplier, it is incumbent upon you to be present during this show of shows for the most obvious of reasons.

It certainly will not be the stereotyped show of years ago. The glamour, the excitement, the novel innovations, the tinsel, and the ballyhoo will all be there and I am looking forward to seeing you, meeting you, and talking to you personally at "Showtime".

The Welcome Mat Is Out

By J. Raymond Bacon
Vice President and General Mgr.
O. D. Jennings & Co., Chicago

Five years have whizzed by with the speed of a rocket since the last coin machine show. Five years packed with the kind of action that leaves you just a little breathless when the shouting dies and the cold figures list so many wounded, so many dead.

Twice in those five years the industry has rolled up its sleeves and tackled new jobs. First, head-on into new machining, new assembly, new personnel problems to come out tired but happy to receive Army-Navy "E" awards by the bushel.

Then just when we thought that everything was under control—zingo the second sleeve roller came along in the shape of reconversion. It took most of last year to iron out the big kinks but again the coin machine industry emerged with finer, smoother running, better looking products.

We at Jennings, like the rest of the manufacturers, are looking forward to the big trek to Chicago on February 3rd. Operators, dealers and distributors from all over the world are going to have a chance to see what's new and have a swell time doing it.

Best of all though, I think is the chance this show affords to renew acquaintances, to shake hands with old friends and to make a lot of new ones. Yes sir—there will be a lot of smiles, jokes and belly laughs tossed around in the first week of February—and that's a good sign.

It's good to know that folks are going to let down and really enjoy themselves for the first time in five years. Hope you have a swell time and be sure you drop in to see us so we can share the good fellowship with you.

WHERE THE NORTH MEETS THE SOUTH

you'll find AMI's and Automatic Hostess! But regardless of your location, our location is where smart operators are replacing their equipment.

We'll give you a liberal trade on your equipment (if you fuss long enough about it), and we'll even work out, on your terms, an arrangement to convert your entire route to AMI's over a 3, 6, or 12 month period.

If you have had just one of these trouble-free machines on location we won't need to sell you — you'll BE sold!

Beginning Another Great Decade

the rewards of a greater, stronger industry.

By HERB JONES

Advertising Manager
Bally Manufacturing Co., Chicago

As the curtain rises again on the first coin-machine show since 1941, we look back to another great show ten years ago—the 1937 show.

At the 1937 show Bally presented two games which were destined to exert a powerful influence on the entire industry. The first of these games was "Bumper," which overnight revolutionized the novelty field by introduction of the bumper-idea. The second game which caused the 1937 show to be a memorable event in coin-machine history was "Fairgrounds," the game which popularized the multiple-coin idea in the

automatic one-ball field. Together the two games injected new life into an industry which had begun to worry about the future.

The 1937 show was the beginning of a great decade in the coin-machine industry — a period of tremendous progress, not only in the development of new and better coin-operated equipment, but also in the prestige which the coin-machine industry gained. The progress of the industry was, of course, interrupted by war, and half of the past decade was devoted, not to coin-operated equipment, but to the production of material of war. The five years which the industry lost to war were, however, fruitful in the development of new improved techniques and the industry—which received a large proportion of Army-Navy "E" Awards—proved its ability to fight in the front ranks of industrial warfare.

Now in 1947 the industry is again entering a new, exciting decade of rapid progress. The coming ten years will witness a tremendous expansion in the use of coin-operated mechanisms to provide all manners of services and amusements. While the problems of the industry will increase, opportunities for great success will also increase. The men in the industry—operators, distributors and manufacturers—who meet the increasing problems squarely and labor to solve those problems as they arise will be the men who will reap

'All For One And One For All''

By JAMES A. GILMORE
Secretary Manager
Coin Machine Industries, Inc.
Chicago

At all too frequent intervals some-
e in the coin machine industry,
no is doubtless seeking some per-
nal aggrandizement, comes forth
ith the statement that operators of
rtain types of coin operated ma-
ines are on a higher plane of oper-
ion than the operators of the other
pes.

This is pure unadulterated bunk.

The individual who preaches it knows
it is bunk. Every person familiar
with the coin machine industry
knows it is bunk and the general
public is not in the least concerned.

Every machine that operates by
the insertion of a coin is a coin oper-
ated machine—always was and al-
ways will be. The manufacturers, dis-
tributors and operators of all types
of coin operated machines are each
and every one an integral part of the
coin machine industry. The problems
of one *should be* the problems of all.
Legislation, taxation and regulation
are directed against all types of ma-
chines in the great majority of in-
stances—seldom against any one
type.

The operators of these machines
very seldom operate only one type,
quite the contrary, the great majority
diversify their operations. Experience
has taught them that diversified oper-
ation is more profitable. It is a well
known fact within the industry that
many a vending machine operator
and many a music machine operator

pays for his vending machines and
his music machines from the profits
of his amusement machines—always
has been doing it, probably always
will be doing it.

The coin machine industry should
be an all for one and one for all
industry. Naturally, there are prob-
lems of special interest to each type
of machine but by and large the
problems of the industry as a whole
are the problems of vending machine
manufacturers, distributors and oper-
ators just the same as music, amuse-
ment and service machine manufac-
turers, distributors and operators.

Coin Machine Industries, Inc., does
not subscribe to the idea that oper-
ators who combine their operations,
either vending and amusement or
music and amusement, exude an ob-
noxious effluvia that makes stinkers
of those who associate with them.

Coin Machine Industries, Inc. wel-
comes to membership all reputable
operators, distributors, jobbers or
manufacturers of any type of ma-
chines that operate by the insertion
of a coin.

Operators—The Chain Store Owners of Tomorrow

By Henry T. Roberts
Vice-Pres. & Director of Sales
United States Vending Corp.
Chicago

The progressive coin-machine operator of today will be the prosperous chain store owner of tomorrow. Years of experience in design and development of automatic merchandising have at last developed an "Automatic Store" with a vending mechanism that will sell many types of product from a single unit. For example, a typical refrigerated model with ten different selections might sell candy, cold sandwiches, milk, carbonated beverages, apples, oranges, cigarettes, chewing gum, cookies and canned juices.

The public acceptance of this type of service is proven, especially during the acute labor shortage of the war years.

From the public's point of view, it is now more necessary than ever to minimize the labor factor in postwar sales of these items to keep prices down.

Operators everywhere recognize the pronounced preference for self-service in the sale of many vastly different products. Economically, the sale of packaged and bottled merchandise through a coin-controlled vending mechanism has many fundamental advantages:

1. Eliminates expensive labor.
 2. Sells its products twenty-four hours a day
 3. Permits relocating equipment easily and readily to maintain maximum customer traffic.
 4. Provides more rapid customer service than can be accomplished manually.
 5. Effects savings in original cost of items because of quantities and quick turnover.
 6. Eliminates consumer credit problem.
 7. Prevents pilferage and spoilage.
 8. Develops new profitable outlets because of attractive illuminated display of "impulse items".
 9. Recognizes inner desire of people to help themselves.
 10. Emphasizes inherent ability of equipment to be located where purchasing is more convenient for customer.
- The personnel of the United States

Vending Corporation recognize these fundamental facts. As a result, our equipment has been developed for the operator to "cash-in" on this self-service trend. Each model possesses the maximum adaptability for a variety of products and at the same time is easy to service and operate on a profitable basis.

Service to the operator goes beyond merely developing and producing the equipment. The distributors in the respective territories are as interested as our organization is in assisting the individual operator to properly place, service and maintain his equipment to achieve its maximum earning possibilities.

Extensive market research in the carbonated beverage, beer, frozen food, ice cream, dairy, cigarette, meat packing, railroad, busline, manufacturing and eighty-odd other industries confirms the fact that there are nearly 500 undeveloped locations for "Automatic Stores" to each existing location for coin-operated games or music. Automatic Stores work for the operator twenty-four hours a day three hundred sixty-five days a year.

The return of American thinking to sound business principles has emphasized our concentration on supplying the operator with the greatest income-producing equipment in the history of automatic merchandising.

Show Epitomizes Coin Machine Progress

By Dave Gottlieb

President,

Coin Machine Industries, Inc.

The coin machine is a couple of hundred years old—some say a couple of thousand. But we all know that the business was an infant in America in the 1890's. Early pioneers struggled and their struggles were profitable. Still, with all the struggles, all the inventions, all the factories and shops, the business didn't reach stature as an industry until the 1930's. Then all coin machine minds and hearts joined in challenge to the depression; as friendly and inspiring competitors we all united to beat the depression and establish ourselves as one of the most solid and permanent industries in our national economy.

During the thirties the Annual Coin Machine Show became the big event of

each year—for operator, distributor and manufacturer. The Show became an event no person could possibly miss—and he didn't. It's a matter of real pride to me to look back and realize that each Annual Coin Machine Show has always been a little bit better, a little bit bigger than the preceding show, and has left everyone in the industry a little more satisfied, a little more proud than he ever was before.

Established as a full-fledged and acknowledged American industry, coin machine factories received their real challenge during the war. We were among the first called up to enter into defense work. The trickiest problems in development, engineering and production were given to us. We were asked to specialize in the new things of war, the delicate things, the things that must do amazing but unflinching work. It gives me greatest satisfaction to know that not a single coin machine factory failed in the war job assigned to it. For this work the Government was not reluctant to give its complete and full-hearted commendation. The list of awards received by our industry present a higher score of accomplishment than many other industries normally considered much larger and more essential than ours.

The show this year epitomizes all the coin machine progress of the decades gone by. More people today earn their livelihood from coin machines than at any time in the past. More individual coin machine businesses are established

and flourishing. More money is invested in real estate, machinery and physical equipment. The whole world doffs its hat to us and, as we take our bow in February, in the first Coin Machine Show in seven years, we know we've got more on the ball than most industries and that we, ourselves, were never in better shape.

The show this year presents this happy fact: ours is a general industry, a fluid industry, with no one type of equipment dominating, but with every possible variety of coin machine supporting every other variety. The income from one type of equipment helps the operator to purchase still other types, so that in diversifying his equipment he makes his own business more stable, and meanwhile he is giving his business to a dozen different factories! That's the magic of the coin machine dollar; its origin can't be isolated nor its destination predicted. That's what I call free enterprise! Each day, as our industry grows older, the business becomes more diversified, offering still more opportunities for everyone in it.

We have taken our place in public esteem and in the esteem of all other businesses unrelated to us. Here and there a man who does not know us may wonder if the coin machine industry is on as high a plane as some other American industries. But bankers, business men, and other producers never wonder; they know coin machine customers pay promptly, deliver volume, and make the finest outlets in the world.

Optimistic Outlook

By H. F. Dennison
President, Personal Music Corp.

"The coin-operated music business has grown to be one of the great industries of America and we look for continued advancement in 1947.

"From reports of operators in all sections, we are gratified to know that Personal Music has been accepted as an important part of this industry.

"These reports prove that forward-looking operators have obtained many new locations with Personal Music which were previously barred to coin-operated music. They have also found that Personal Music equipment has operated with a minimum of trouble and that the profits have really been excellent.

"All of these attributes of Personal Music have made it an important part of a successful operation and we are very happy to hear of our contribution to the coin-operated music industry."

Build A Pin Game — It's Easy

By C. B. (Billy) De Selm
Salesmanager, United Mfg. Co., Chicago

A Pin Game must have streamlined flash, dancing lights, color, animation, eye-appeal, smooth action, high score, skill features, bonus pockets, suspense appeal, tantalizing ball action, build-up, sequence, all over appeal, as well as "if"—and infuriating, satisfying, challenging, amazing, flattering, amusing, relaxing appeal—a beginning but never an ending; all wrapped up in a fine cabinet, operated by a trouble-free mechanism that can stand pushing, bouncing, jabbing, shoving, slapping and bobbing—all this constructed from hard-to-get materials, shipped in unavailable cartons by carriers, uninterested in picking-up, to Distributors—for Operators—to place on Locations—for "Amusement Only". Build a Pin Game—it's easy.

KILROY

IS

~~WAS~~ HERE! ...and HOW!

EVERYBODY tells us it's the greatest five ball they've EVER seen. Action—lively action all the way down the board—yes siree—from top to bottom. Kick up holes 'n everything. See Kilroy at the show or at your distributor.

EVEN KILROY COULDN'T LEAVE WHEN HE SAW THIS GAME!

AND HERE'S THE SHOW PIECE OF THE SHOW—CHICAGO COIN'S

BASKETBALL CHAMP

WITH BRILLIANT FLOODLITE DIRECT and INDIRECT LIGHTING

It looks easy to shoot those baskets—BUT how many can YOU shoot in a row. The balls are automatically fed to the shooting manikin and then you time your shot to avoid the guarding manikin. Extra large cash box (it needs it).

It's Real Basketball

FRIENDLY PERSONAL SERVICE

HERE'S THE JUKE BOX LEASE THAT WON FOUR FAVORABLE COURT DECISIONS

NEW YORK—The demand for copies of the "lease" which we have reprinted on three different occasions has been so great that we are re-producing it once again. This "lease" has already won four favorable court decisions for the California Automatic Music Operators Association of Oakland, California.

Repeated here, then, is this lease which has stirred so much comment.

The average juke box operator realizes that to protect himself from losing his locations he must enter into some sort of a legal agreement with his location owners.

A great many location contracts have been presented and as many are in use today. All these are

worthwhile for there is a definite psychology back of getting a location owner to sign an agreement with legal wordage which, more than anything else, makes him stick to the contract he has signed.

And, naturally, this benefits the operator who has his machine in that storekeeper's location.

This "lease" prepared for the Oakland, California operators by its attorneys has already won four court decisions in its favor. As George A. Miller, executive manager of this association reported, "We have never since had any trouble where our operators have signed the location owner to this lease."

Miller is also favorably inclined

to give juke box operators thruout the country as much information as they require regarding this lease. His address is 128 East 14th St., Oakland, Calif.

There is no doubt that this "lease" has a tremendous power in court. It actually rents the space desired from the retailer. Therefore, the juke box operator has a very strong stake in the location.

Should the storekeeper decide to throw out his machine, without first settling this lease with the operator, there is no doubt that other courts in the country will probably use the precedents already set by those California courts which acted so favorably for the operators in such cases.

LEASE

THIS AGREEMENT made and entered into on the.....day of, 1940, between

..... hereinafter called the Lessor:

WITNESSETH :

The Lessor does hereby lease unto the Lessee for such a period as the Lessor, or his successor, shall be operating the hereinafter described premises, not exceeding.....years from and after this date; such space or spaces (as is shown on the diagram appearing on the back hereof) in the main room of Lessor's..... located at.....

No. Street City, California, sufficient for the purpose of installing, maintaining and operating.....for hire by the public during such times as said place is open to the public at the yearly rental of \$..... payable in advance. In addition to the above yearly rental, Lessee agrees to pay Lessor, weekly, per cent of all monies paid by the public for the use of said.....after deducting a weekly service charge of..... Dollars (\$).

IT IS FURTHER AGREED that Lessor will not during this lease permit any similar competing device to be installed in said premises; that Lessee or its agents may enter said premises at any and all reasonable times to service said device. All expenses of installing, maintaining and operating said device, except the electricity consumed in the operation thereof, shall be paid by the Lessee.

IT IS FURTHER AGREED that if the Lessor shall transfer his business he will transfer it subject to all the terms of this lease, and that he will compel his successor in writing to assume the obligations of this lease, and failing to secure said assumption Lessor shall pay to Lessee, as and for liquidated damages, the sum of Two Hundred (\$200) Dollars; if legal action is brought for the enforcement of any of the terms of this lease there shall be paid to the successful party in said litigation a reasonable attorney's fee, together with all legal costs incurred therein.

IT IS FURTHER AGREED that the Lessor shall be liable for any and all damage, except fire, to said device and accessories from the time of their installation until repossessed by the Lessee, reasonable wear and tear excepted.

IT IS FURTHER AGREED that if the Lessee shall at any time during this lease tender to Lessor the sum of One Dollar (\$1.00) with intent to terminate this lease, then the lease shall wholly cease and terminate from the time of said tender and said Lessee shall have five (5) days thereafter in which to remove its property from said premises and be relieved from any further rental payments or from any damages caused by said installation or removal.

THIS LEASE shall be binding upon the successors, assigns, and legal representatives of the parties hereto.

IN WITNESS WHEREOF the parties hereunto have set their hands the day and year first above written.

Opening Columbus Rock-Ola Offices

WARREN C. DEATON, SR.

WARREN C. DEATON, JR.

ON, O.—Warren C. Deaton, Sr. of this city, direct factory representative for Rock-Ola Manufacturing Co., announced this week that he is opening offices and showrooms in Columbus, Ohio.

According to Deaton, "These will be the most outstanding offices for the distribution of music equipment in the nation."

Deaton also reported, "Warren C. Deaton, Jr. will be the manager of the Columbus offices and will from their opening about March 15, reside in Columbus."

Deaton reported that he plans to build the most beautiful salesrooms in the trade and, in addition, he also believes that his offices, conference rooms, repair and stock rooms will create a sensation among all those who will view them on the official opening day.

Deaton's plans are already under way, Deaton stated, "to make our Columbus offices the most impressive and outstanding in the industry. We will, he continued, "continue our operations here in Galion and eventually add more offices thruout the state of Ohio so that the music operators will have complete and direct distribution and will be able to get all Rock-Ola merchandise, right at their finger-tips."

Will Show New Type Game At Convention

CHICAGO—The Esquire Games Co., this city, will show an entirely new type of amusement game during the forthcoming convention at the Hotel Morrison in Room 3931.

Both Leon Berman and Charles Katz of the firm report, "Tests on this machine, especially those made in Elizabeth, N. J. by Dave Stern, proved that it could outearn and out-pull any pin games which had ever been on the same location."

The game is reported to be set up for high score novelty action but is easily adjustable to replay action.

Katz and Berman also stated, "The speed and suspense which is incorporated into this new machine is sure to win the commendation of every coin machine man who sees it. There is no doubt anymore, after the fact that the nation's leading coin machine firms have waited a year to get the game, that it is the finest new development in amusement machines in the nation."

Both men report that they will be on hand during the entire convention to show the machine. They also state that territories are still available.

Klein Has Surprise Plan for Wisc. Ops

HAROLD KLEIN

MILWAUKEE, WIS. — Harold Klein of Klein Distributing Co., this city, reports that his firm are preparing to present one of the most unique plans for the operators in this state during 1947.

Klein reports, "We have just completed a survey of the entire state and note the condition of the trade here requires some daring and different plans so that the men will be assured of the greatest possible profits during the years of 1947.

"Our firm", he continued, "has therefore decided that the plans which we have just developed will prove the salvation which the operators in this state require to assure themselves of earning greater profits than they ever have before in all their history.

"We believe further", he said, "that when we make these plans public everyone in the industry will go along with us to help assure their customers, too, this type of cooperation and effort."

New Equipment**

WM. (BUD) PARR

LOS ANGELES, CAL.—Wm. (Bud) Parr of the Solotone Corp., this city, is reported ready to surprise the music-machine trade with new equipment which will be presented for the first time at the convention.

Parr is reported to have stated, "This is the time when the music operator must get the maximum returns from every location. We are sure that, with the new equipment which we have prepared for him, he will definitely enjoy greater collections and will also be in a more solid position in everyone of his locations." He also said, "For a long time now our factory has been working on the theory that the operators' profits are the most important consideration for

IRVING L. MITCHELL

ROBERT SCHER

BROOKLYN, N. Y.—A new manufacturing company, Skill Games Corp., this city, was formed this past week to manufacture amusement games.

Irving Mitchell and Robert Scher, experienced coinmen head the firm.

Mitchell is well known thru his previous association with Dave Robbins, as well as the inventor of many of the games produced by the Chicago manufacturers before the war.

The first product of Skill Games Corp. is a counter game named "Bouncer". It features an entirely new playing principle.

"'Bouncer is a 100% skill game' informs Mitchell," and it can be operated in any territory as a strictly legal game.

"We are now in full production and shall be in a position to make immediate deliveries."

Distributors thruout the country are being lined up by Scher, who will be in charge of the sales division."

Both Mitchell and Scher anticipate one of the greatest years in their history and are preparing to meet all demands for the products which they will create by arranging for one of the most impressive manufacturing plants in eastern coin machinery history. Both men are well acquainted with the needs of the operators.

"First in 1946--First Again in 1947"

Music Leads Way

LEO J. DIXON

CLEVELAND, O.—Leo J. Dixon of Triangle Music Co., distribrs for Aireon Mfg. Corp. and one of the most noted music machine ops in the nation, reported this past week, "Music leads the way once again for all the coinmen in the nation."

He also stated, "A new type of music operator has arisen since the war. He now realizes the worth and value of what he is offering to the merchants everywhere in the nation. He is on a par with big business". He also said, "and there is no doubt that he will grow greater as newer and better music ideas are developed and presented for his benefit."

Dixon is of the belief that, "The music business has just started. We are still a long way from being perfect but we are slowly but surely approaching this era."

A large advertisement for David Rosen. At the top, it says "DAVID ROSEN" in a large, bold font. Below that, in a smaller font, it says "Music and Automatic Equipment", "855 No. Broad St., Phila. 23, Pa.", and "Phone: Stevenson 4-2258-2259". In the center, there is a cartoon illustration of a man in a suit sitting on a cot in a booth. A thought bubble above him shows a booth with a sign that says "BOOTH No. 97". To the right of the cartoon, there is a block of text: "Rosen's got Booth No. 97 at the show and you're all invited — but not too early in the day — because Rosen couldn't get a hotel room so he's got a cot in the booth (don't tell Gilmore)." At the bottom right, it says "See You in Chicago, Ad Man".

SHOW GIRL...

it's the hit of any show!

Team - Play

By WILLIAM H. KRIEG
President & Gen'l Counsel
Packard Mfg. Corp., Indianapolis

"Nothing great was ever achieved without enthusiasms!"

Voiced more than one hundred years ago by Ralph Waldo Emerson, these famous words are just as applicable today as they were then.

And I believe it can be said with equal truth and sincerity that—nothing great was ever achieved without team play!

Individuals working together in harmony and unity of purpose. That's a tried and true formula for success in any line of endeavor. In sports it means extra points in the win column. In business it means a sounder structure and increased profits.

So, if every one of us in the music industry will remember that *we're a team* . . . 1947 will be the best year in the history of the coin machine industry.

And to round out the analogy, I might point out that we have three key players on our team. The Operator! The Distributor! The Manufacturer! Three key players . . . with every hour and every day of the new year an "inning"! And each of us playing the game for all that's in him. Not for *himself* alone. But for the *team*!

And on every play of the game, each member of the team must carry out his own particular assignment and responsibility.

The Operator must give good service to his locations. He must consider the requirements of each with a view of creating goodwill and increasing patronage. He must keep every piece of his equipment properly serviced and up to the minute.

Upon the Distributor rests the responsibility of selling products only to established Operators. He must formulate and administer sales policies that are in the best interest of the industry as a whole.

The responsibility of the Manufacturer is to produce merchandise of quality and character . . . both sales-wise and performance-wise. Merchandise that will constitute a sound investment for Operators.

That, in a nutshell, is the way for all of us to have a winning year in 1947 . . . with TEAM PLAY! And to quote another very famous author, our winning slogan could well be—**ALL FOR ONE AND ONE FOR ALL!**

Daval Plans Ahead

BEN LUTSKE

CHICAGO — Ben Lutske, general salesmanager of Daval Products, this city, reports that his firm are making plans far into 1947 and intend to present equipment which will meet with all territorial conditions everywhere in the nation.

He stated, "There is no longer any doubt that the trade needs machines which will assure it continuous, profitable operation over a long period of time. Counter games have proved themselves to be able to continue on location for years and have brought in consistent profits."

He also reports, "In addition to our regular line, at the convention, we are presenting an entirely new idea in counter games which allows two players to play each machine and which keeps the competitive idea right up on top, assuring the operators of the biggest profits."

"Orders already placed have astonished us," he continued, for all who have seen these new games have rushed us larger orders than we ever expected. We are working at top speed to reach the highest possible production by showtime," he concluded.

Philly Music Ops Look To Big Year In '47

RAY C. BERNHARDT

PHILADELPHIA, PA.—Ray C. Bernhardt, president of the Philadelphia music ops association, reports that everyone of the members look to 1947 for one of their biggest years, regardless of the fact that there is supposed to be a recession period under way.

He says, "Our operators know that working together as a strong and solid body we will progress forward during 1947 and achieve our goal of better profits."

Haddock Amplifies Phono Excise Tax Stand

JOHN HADDOCK

John Haddock, President of A.M.I., incorporated, is urging phonograph operators everywhere to push for the cancellation of the 10% Federal Excise Tax on phonographs.

Haddock says, "The new Congress

is in session ;the Republicans are in power and promising tax cuts; Washington dispatches reported that early action on the reduction of excise taxes was being urged to accelerate purchasing during the first half of 1947 and thereby minimize the effects of the recession which is being felt in some lines.

"It seems to me that automatic phonographs should be at the head of the list and could be put there if the industry and, particularly the operators, awaken to the situation.

"While the function of excise taxes is to raise money, most of the items on the list are luxuries. Music may be a luxury in the home but it isn't

to the operators of machines nor to the locations who depend in part on the revenue from juke boxes. Automatic phonographs are one of the few capital goods items on which there is an excise tax.

"There is nothing to indicate that automatic phonographs have been considered separately from home phonographs and radios. I think the door is wide open to getting some fairly fast action. The elimination of this excise tax would, of course, benefit the entire industry.

"For obvious reasons the operators can best accomplish this. I urge all operators to write or wire their Representatives in both the Senate and the House."

Production Under Way While Show Goes On

IRVING KAYE

GEORGE PONSER

NEW YORK — George Ponser and Irving Kaye of Amusement Enterprises, Inc., this city, announce that production will be under way at their factory in Brooklyn of every machine we will display in Chicago while the show is on."

They also stated, "We will deliver equipment in rotation as orders are taken at the show and some of the pinmen who place orders with us will be pleasantly surprised to find equipment waiting for them on their return."

Both Kaye and Ponser reported that they have developed some of the most outstanding machines in their career as manufacturers and believe

that these products will open much territory for operators who are up against problems of this kind at this time.

Louis Boasberg

SAYS:

ask any operator or distributor who has purchased a NEW ORLEANS NOVELTY COMPANY used game, and he will tell you that our games are the finest used games on the market. Before we sell any game, said game must be checked in the following ways.

1. It must be mechanically perfect with worn-out parts replaced by brand new factory parts.
2. The game must be cleaned, brightened and made as attractive-looking as possible with the finest materials obtainable.
3. The game must be percentage perfectly to give the correct number of free plays to insure maximum player appeal.
4. The game must be thoroughly checked and rechecked before leaving our office. This insures the game's being ready to be played just as soon as it is placed on location.
5. Our games are packed properly by experts.

MFERS WILL TRY TO STOP BOOTLEGGING

Many Will Call Meetings of Their Distribs at Show & Advise Bootlegging Must Stop. Some Plan Immediate Dismissal of Any Distrib Caught Shipping Out of His Area. Other Mfrs. Arranging for Check Up System on Deliveries and Production.

NEW YORK — Since the first open published announcement of the bootlegging now rampant thruout the country, many manufacturers have contacted *The Cash Box* to advise that they have already been in touch with the situation and have received various letters and other documents which have caused them much concern.

These manufacturers also advise *The Cash Box* that they are planning to do something about the present bootlegger's rampage and do something both stern and drastic.

Some of their plans call for meet-

ings with their distribs at the convention wherein they will "lay the law down" regarding shipments out of designated and franchised territories.

In addition, some of the manufacturers also plan a system which will result in a most complete check up on their deliveries and production with receipt of shipments and other data instantly registered for the information of all their distributors so that there will be little or no inclination on the part of anyone of their dealers to ship equipment outside of their present areas.

Not only has there been great loss on the part of some of the factory's distribs because of bootlegging operations, but there has also been much equipment hurt on the sales market with manufacturers losing prestige because of the acts of certain distributors. They feel that, tho the distrib might not realize these factors, he must be brought to an immediate halt.

As one manufacturer stated, "We will not tolerate any bootlegging of our equipment. Anyone of our distributors found doing so will be immediately dismissed from handling any of our equipment."

Leads Cleveland Phono Ops To Big Show

JACK COHEN

CLEVELAND, O.—Jack Cohen, president of the phono operators association of this city, is leading one of the largest delegations of coinmen to the big show in Chicago, it is reported.

Cohen is well known thruout the trade for his great efforts in behalf of the automatic music industry. He looks forward to meeting with many association leaders from all over the country at the show and, it is reported, he has many plans which will prove of tremendous interest to the phono trade.

At the same time, as Solotone distributor, Cohen's firm is planning to enlarge on the display of the California factory by arranging for a unique set up in the large suite which his men will have while at the convention.

To Meet Juke Box Leaders In Chi

JAY BULLOCK

LOS ANGELES, CAL.—Jay Bullock, managing director of the Southern California Music Operators Assn., will have the opportunity of meeting with many of the nation's juke box leaders at the convention, it is reported, and will probably obtain some of the new plans which have come into being in the past years.

Bullock is reported to be working very hard at this time to consolidate everyone of the operators in Southern California into one of the strongest phono associations in the country. He has presented many fine plans, it is stated, and will now be able to go over some of these with other juke box leaders at this 14th annual convention.

Bullock will come along on the special train from Los Angeles which is expected to bring one of the largest delegations of coinmen to the convention.

N. Y. Assn Attorney Writes Appreciation Letter

SIDNEY H. LEVINE

NEW YORK — The following letter was received from Sidney H. Levine, attorney for the Automatic Music Operators Assn. of this city. Levine has been their attorney for many years. This letter was sent to *The Cash Box* this past week.

"For many years I have been reading coin machine publications and I have always noted that they take up the cause of the distributors and the manufacturers and always discuss the value of various products for the distributors and the manufacturers, without regard to the operators.

"When *The Cash Box* was first brought to my attention — I was somewhat skeptical of it — as a publication. I expected to read the same sort of editorial which I had been reading in these other publications. Therefore, even tho I read *The Cash Box*, and noted how well it under-

stood the operators' problems — I still remained a skeptic.

"Today, I am a firm and faithful follower of *The Cash Box*. This is the one and only magazine in the history of the coin machine industry which has come forth with facts, truth and a fighting fearlessness for the operators. It is the one and only magazine which has clearly, concisely, truthfully, fearlessly and factually presented the case of the operators. It has brought the problems of the operators out into the open. It is the one magazine which has made the operators — THINK. It is making them think more and more — and OPENLY — about their problems — and the operators, THEMSELVES, are now bringing their problems in to the open and, in almost every case, they are mentioning *The Cash Box* — as THEIR magazine.

"I want to go on record here and now to tell you people at *The Cash Box* how much I have appreciated your articles and how interesting they have been to me. I am frank to state that these problems have been brought into such clear perspective that anyone I know would immediately understand them. This is a tremendous and marvelous thing for the trade. It is one of the most outstanding things which has happened to this industry. For the very FIRST time — the operators now have a champion — a REAL MAGAZINE — a MEDIUM they can call THEIR

OWN — and KNOW THAT THIS MAGAZINE — *THE CASH BOX* WILL BE IN THERE FIGHTING FOR THEM EVERY SINGLE SECOND OF THE DAY.

"From my many years of experience as attorney for the New York operators' music association, I can safely state that the operators have had a great many problems to overcome and always have had to take care of these themselves. Since *The Cash Box* came into being — all of us — and all executives of associations everywhere in this nation — have rested much easier — for *The Cash Box* has brought out the problems of the operators much, much better than we, at our meetings, have been able to do.

"I can only state here and now that it is worth the time, effort, energy and money for every operator in the country to subscribe and read every page of *The Cash Box*. This is really the operators' magazine. This is the kind of magazine I had always hoped for.

"Sure it's great to back advertisers — like distributors and jobbers — but, what would these people do without operators — their customers. Therefore, any magazine which doesn't recognize this fact is simply kidding itself. And since *The Cash Box* has come to the front, we, of the operators music associations everywhere in the country, know that now we, at last, have a REAL FRIEND."

Big Crowd Attends Active's Official Opening

Joe Ash Shows Philly's Coinmen Beautiful, Modern Offices and Showrooms in Impressive Building and Completely Air Conditioned

JOE ASH

PHILADELPHIA, PA.—Joe Ash of Active Amusement Machines Co., this city, opened his new building at 666 No. Broad Street officially to the cointrade this past Sunday (January 19) and won tremendous commendation for one of the most beautiful and modern coin machine buildings in the country.

Completely modern thruout and extremely beautiful in decor with hidden neon cove lighting effects and ultra-modern showroom display arrangements with large private offices, conference rooms, lounges, repair and parts departments as well as one of the largest storage spaces in the trade and, in addition, the complete building air conditioned, the coinmen from all over the east, as well as the manufacturers who were present, marveled at this gorgeous new building.

This official opening was one of the most lavish ever presented. The huge crowds far exceeded anything the firm had imagined would attend. Dinners, entertainment and refreshments were arranged for a crowd of approximately 500

The complete opening can be summed up in the words of Nate and Sol Gottlieb of D. Gottlieb & Co., Chicago, who were present when they stated, "This is the most impressively beautiful building I've yet seen in the coin machine industry."

lies Pace Bell Order to Nevada Senator

SAN FRANCISCO, CAL.—Dan King III, exclusive distributor for the Pace Manufacturing Co. in the eleven eastern States, returned from a flying tour of these states in time to make a hurried trip to Carson City, Nevada in his twin-motored airplane to deliver 14 Pace Bells to Senator Johnson.

ATTENTION! NEBRASKA and IOWA OPERATORS
Meet **HYMIE ZORINSKY** at the
SHERMAN HOTEL

We Represent All The Leading Manufacturers

H. Z. VENDING & SALES CO.
1205-07 DOUGLAS ST. OMAHA 2, NEBR.

Senator Johnson, state Senator of Nevada, with the purchase of these

14 machines is now a 100% Pace user in all of his casinos. Some of his most popular clubs are the Senator Club, Hunter's Lodge, and the Esquire Club.

King's twin-motored, five-place plane is a beauty with its specially designed and copyrighted green and silver paint job. The interior is luxuriously upholstered in green and rose silk.

The world famous Harold's Club of Reno, Nevada has just ordered 100 more Pace Bells from Dan King III, for their spectacular club, which has an attendance of over 5,000 daily. It's quite a sight to see the hordes of people standing in line in Harold's Club and awaiting their turn to play the machines.

the trade at this convention. The photo shown on this page was taken at the famed Melody Lane Cafe in this city where the original mirror phono was located and is still in operation. This location has been visited by music coinmen from all over the country to look over this installation.

The firm have built a large number of these mirror cabinets for installation by wired music operators all along the Pacific Coast. These have been found to help increase the collections. In addition, they have added tremendously to helping decorate the locations themselves and have, therefore, won the support and following of location owners.

The Pantages Maestro Co. report that, after five years of effort, they have now developed a new all mirrored phono cabinet of unusual beauty and utility that will fit into any location and can be adopted to all types of phono use. "In addition," they state, "to supplying these cabinets with the 1947 Maestro Wired Music Systems we will sell these separately to both wired music and mechanical phono operators who wish to modernize their present equipment."

The firm entitle their story to the trade, "Mirrored phonographs are a true reflection of coin machine progress."

Years of Experience With 5¢ and 10¢ Play

Extends Invitation

MANUEL EHRENFELD

CHICAGO, N. J.—Manuel Ehrenfeld of Music Service, this city, who has been in the music operating business for 25 years, wrote the following letter to The Cash Box this past week which is a new angle to light with his experiences in 5¢ and 10¢ play.

For months now I have been reading articles in The Cash Box giving the pro and con on nickel and ten cent play for jukeboxes.

The lack of cooperation between operators is a known fact, but, when managers cannot get together for their mutual benefits, how can one expect the operators to do so?

If one manufacturer advocates 10¢ play, and another manufacturer advocates 5¢, the business is dependent upon the nickel bobby-sox trade.

With regard to the 10¢ play, we have been using it since last May, and find our collections stayed within 5% of the 10¢ play that we received prior to May. This to me is proof of the benefits of 10¢ play.

Another manufacturer insists upon a 5¢ play maintaining that, as their models will not be put out more than once in two years, machines are amortized in that time.

This may be true of perhaps 10% of a man's operation, but is definitely not of a full operation. This manufacturer also maintains that the bobby-sox trade will not put in more than 5¢ for a jukebox. As an operator, I can tell you that 95% of the locations in the State of New Jersey are not where there are jukeboxes, but in taverns where music is absolutely necessary.

After having spent twenty-five years in this business, I would like to give my opinion, in my opinion, is the one and only answer. It is a known fact that

where we have strictly a wall box installation in conjunction with a hideaway, obsolescence becomes a negligible factor. Inasmuch as the machine is concealed and you receive increased play on such an installation, obsolescence is not a factor, and these locations definitely can be operated for a nickel.

"It is when new machines are put on the floor and locations insist upon a new model each time one is produced that keeps the operator broke. If all floor machines came through with a 10¢ slide, 3 for 25¢, I believe that operating wall box jobs for a nickel and floor jobs for a dime would prove profitable.

Of course this may not be a satisfactory solution from a manufacturers' viewpoint—limiting the field for floor machines—as it would cut the sales of these instruments. It is, nevertheless, the only way the operator can keep from going broke.

"I wish to take this opportunity to congratulate you on the wonderful job you have done during 1946, and am confident you will continue to do the same in 1947."

BEN COVEN

CHICAGO—Ben Coven of Coven Distributing Co., this city, extends an invitation to all coinmen to visit with his firm at their offices, 3181 Elston Ave.

Coven believes that many of the coinmen will want to see how his firm operates and that they will also be interested in seeing the complete display of Bally products which he features.

HIRSH DE LA VIEZ

WASHINGTON, D. C.—Hirsh de LaViez of the Hirsh Coin Machine Co., this city, held a special showing of all Packard music equipment, including the new Packard Pla-Mor phono this past week (Jan. 19) and reports that the showing attracted one of the very largest crowds in the history of this city.

In addition to the many operators and jobbers who were present from this city as well as surrounding territory, Homer E. Capehart, Chairman of the Board of Packard Mfg. Corp., Indianapolis, Ind., also attended.

Many of the ops present also made arrangements to be on the "Coin Machine Special" train of the Pennsylvania Railroad which Hirsh Coin Machine Co. are sponsoring and which will leave from this city for the convention in Chicago on February 2.

"We expect to have a crowd almost as big as the one that came to our showing here of the new Packard line", Hirsh de LaViez reported.

Good Year For Music

GEORGE A. MILLER

OAKLAND, CAL.—George A. Miller, managing director of the California Music Operators Association, this city, reports that all members of his organization look forward to a "good year for music."

Miller has helped the music ops here to arrange for a better commission basis and this, in addition to the many other plans which the organization has, he believes, will prove of great value in helping to bring about a "good year for music".

Miller will attend the convention in Chicago with a large delegation of music operators from his area and is looking forward to meeting with other music leaders.

Leads Delegation from Mills Sales

A. H. (ART) BOUTERIOUS

AKLAND, CAL.—A. H. (Art) Bouterious, general manager of Mills Sales Company, Ltd., whose headquarters are in this city, will head one of the largest delegations attending the CMI convention in Chicago from any one firm in the country.

Not only will the managers of the firm's offices in Portland, Ore. and Los Angeles, Cal. be present, but many of the firm's executives from their headquarters here will also attend.

Warren A. Taylor, General Salesman for the firm, is of the belief that the firm's sales staff will find the convention inspiring as well as very informative and that the men will return with greater confidence in their work during the rest of the year.

The firm will pay special attention to the displays of Mills Industries, Inc. and International Mutoscope Corp. whose merchandise they represent.

Advocates More Per Play And More Play Per Phono

M. G. (MIKE) HAMMERGREN

"Disagreement regarding 'three for c—one for 10c' phonograph play," says M. G. Hammergren, The Rulph Wurlitzer Company's Vice-president and Director of Sales, "falls to two major categories—those who advocate more pay per play, and those who talk more play per phonograph. Certainly no one denies the urgent need of increasing operator income by one method or the other, under today's conditions.

"Wurlitzer has had the courage and foresight to take bold action in both of the solutions suggested," Hammergren's statement continues. "Just about a year ago, we launched the Wurlitzer national consumer advertising program, the only concerted drive ever attempted in this business to sell the American public on the

fun, relaxation and entertainment value of juke box music. Further, we started exhaustive tests many months ago to determine income results possible through quarter-dime play.

"Those results," says Hammergren, "have proved conclusively that the

new basis of play returns more money to the operator. We would never have been foolish enough to recommend it if it had been only an idle hope or unproved theory.

"Time and again people have re-

More Per Play

(Continued from Page 135)

marked, 'Your Wurlitzer advertising program benefits all juke box play—not just on Wurlitzer phonographs,' states Hammergren. "That is true. We know that our ads in national magazines and on coast-to-coast bill posters have contributed substantially to juke box play regardless of make or model. Soon to come is another powerful Wurlitzer campaign aimed at boosting play right at the point-of-purchase, in the locations themselves.

"Let's consider this objective of getting more play per phonograph. Assuming that proper record selection, maintenance of equipment, efficient service, and such accepted musts of operating are well executed, what can the operator do to further attract more money into his cash box? The obvious answer is: by merchandising his music to the public—by selling the advantages and benefits of phonograph music to the people who can enjoy it, young and old, rich and poor, the millions to whom music is virtually a necessity of life.

"That is exactly what our Wurlitzer national advertising program is doing," declares Hammergren. "We are not selling phonographs themselves or merchandise as such in those ads. But we are selling what the operator delivers to the public. Call it music. Call it fun. Call it a plain, old-fashioned good time. What it adds up to for the operator, is more play per phonograph.

"Our contention, however, is that

"The Douglas Automatic Shoeshiner"

- DEFENDABLE
- ECONOMICAL
- SAFE

This new automatic shoeshiner is very simple in construction and operation. It is built with the view of the least amount of trouble calls to the operator. It will give the public a satisfactory shine for 10c in one minute with the minimum effort and motion. There is no other machine like this outstanding automatic shoeshiner. A truly great money-maker for the operator.

more phonograph play is not the only answer to the grave problem of meeting today's high operating costs. It comes down to this fundamental of any business: If you can't make a profit at your present price, raise the price. All the good will considerations in the world can't change the arithmetic of phonograph operating expenses under current conditions."

Hammergren concluded his statement supporting quarter-dime play with this observation: "There is a feeling in some quarters that differences of opinion voiced by leaders of our industry provoke disunity and unrest. I do not agree. Discussion of the means of reaching a mutual objective is always beneficial to those whose interests are at stake."

PROFESSIONAL OPS PLUNGE AHEAD AS "JOHNNY-COME- LATELY" HOLLERS HELP

Experience, Efficiency and "Know-How" Keeps Pros On Top. "Guts, Work and Brains Again Begin to Really Count Now," Pros Confidently State.

NEW YORK—In a quick, national, telephone survey among the old-timer, professional ops, made this past week by *The Cash Box*, the following statements came forth, "Well, it last 'Johnny-Come-Lately' is hollering for help."

Some of these old-timers quietly and confidentially stated, "There's no depression to a man in this business who has been in it long enough to know what it's all about."

One of these men said, "Some of these newcomers, who have been in the business for the past few years or so, may have something to holler about. But, we have been in it long enough to know what really counts is a complete understanding of the business as well as thoro efficiency, damn hard work and plenty of guts. And," he continued, "you'll find that

the old-timers in this game have the guts and aren't afraid to get their hands dirty and know what efficiency of operation really means."

Another one of these old-time pros said, "If some of these young guys would have learned the hard way — grubbing for pennies in the salt of the old peanut machines — then he'd know what hard work was and he'd also know that there aren't any bad times in this business. I can remember," he continued, "when we were getting only \$3 per week, our end, from phonographs and a lot less from other equipment. But," he laughingly stated, "we fought our way thru and we didn't holler for 'help.' We made it. And we're doing the same kind of hard work just as efficiently as we ever did and meeting conditions as they come and, believe me, it's a

helluva lot of fun winning out — in the right way."

One old timer went further than that. He stated, "Some of these guys came into the business when all they saw were collections which made them more per week on each game they had than what they were used to earn in a month. They just got accustomed to taking too much money out of their cash boxes. Now, they're back to normal, and they're hollering bloody murder. Hell, if they knew what it was to operate 20 or 25 years ago — they'd think they were in heaven today. Brother, this is one helluva good business. But, it takes some real brains, real guts and lots and lots of hard work to keep ahead. Let 'em holler, I say. We're doing okay."

Frankel Opens S. D. Service Offices

SIOUX FALLS, S. D.—“Larry” S. Frankel, of Frankel Distributing Co., Rock Island, Ill., this past week announced the opening of a new office at 604 S. Eighth Street, this city.

The new office will be used primarily as a service function. These offices have a staff of trained men who, in addition to installing Packard and Personal Music wall boxes, will also service operators in the South Dakota, West Iowa and Southern Minnesota area.

Altho new machines are on display, neither sales nor shipping will emanate from the South Dakota office, Frankel emphasized.

Two other Frankel Distributing Company display and sales offices are located in Omaha, Nebraska and Des Moines, Iowa.

Frankel's strategically situated offices are reported to make good their slogan, 'Serving the Heart of America', according to executives of the firm.

Meet Capehart

NEW YORK — Teddy Seidel (left) former noted lightweight boxer and Dave Lowy (right) meet Homer E. Capehart, Chairman of the Board of Packard Mfg. Corp., Indianapolis, Ind., when he arrives in this city.

Seidel, now employed as roadman for Dave Lowy & Company called Capehart "boss" Dave Lowy over to the offices and showrooms of Joe Eisenberg & Sons to meet Capehart, where they viewed the new Packard Pla-Mor phonograph and other Packard music equipment.

Sees Big Future For Mirrored Music Cabs

H. A. (HUM) BROCKAMP

HOLLYWOOD, CALIF. — H. A. (Hum) Brockamp, Vice-President and Salesmanager of Pantages Maestros Company, this city, reported that, after the years they have spent in completing the new mirrored cabinets for music operators that there is no longer any doubt these will prove of tremendous value to everyone in the automatic music business.

Brockamp looks to the mirrored cabinets to lift the strata of the automatic music business in other locations thruout the nation as it has already done in the west coast operations of the firm.

It is his prediction that the music operators will find that the mirrored music cabinets not only gain the applause as well as the commendation of all the location owners but that the public, too, appreciates them and that their value to the operator is such that his collections immediately start upward and reach new high peaks in everyone of the spots he installs them.

He says, "There are operators in

certain sections of the country who have never seen, and probably never heard of a phonograph with plate glass mirror front and sides. However," he continues, "if they could observe in person the hundreds of successful mirrored installations on the Pacific coast, any possible doubts in their minds as to the practicability and beauty of these cabinets would soon be dissolved."

WELCOME!

I join my fellow exhibitors in a hearty welcome to you at this 1947 COIN MACHINE CONVENTION, the greatest ever. It will be a pleasure greeting you at Booth 206.

One look is worth a thousand words. Come up and see for yourselves the many outstanding features of our Double Up Skill Bowl. Proven on many locations to outearn any bowling type game ever made.

Also, see our fast selling, quick profit Star Card Vendor. The key to successful operation is diversified equipment. And, think of it! For the price of one music machine, you can purchase a whole route of these legal and tax-free proven money-makers.

One more thing — we expect to have a new surprise to open your eyes.

See you at Both 206,

Barney Kahn

A New Type Music Op For '47

JOE BRILLIANT

DETROIT, MICH. — Joe Brilliant, president of the Detroit phono ops association, reports, "There will be a new type of music operator in 1947. He will be more alert, more dynamic, more 'on the ball', and much, much more astute as far as his business is concerned than ever before."

Brilliant also stated, "We want to take this opportunity to thank *The Cash Box* for the grand work which it has done in behalf of all the operators thruout the nation.

"Never before has a publication worked so well and so hard for the operators. We feel that *The Cash Box* is the 'operator's friend'."

Edelman Delivers First Truck Load

DETROIT, MICH. — In keeping with his promise to make volume delivery of his new bowling game, "Bang-A-Fitty", I Edelman of Edelman Amusement Devices, this city, submits the above picture as proof.

From left to right: Robert Morford of King Pin Equipment Co., Detroit, and Guiseppi Cacciola also of Detroit, are shown accepting delivery of a complete truck load of the new "Bang-A-Fitty" bowling games from I. Edelman who is shaking hands with them. Standing above Edelman, in his shirtsleeves, is Robert Begin also of King Pin Equipment Co.

Edelman reports, "We have never yet failed any of our distributors or operators in delivering equipment when promised. Tho we are producing record speed we can safely assure everyone in the business that

when we promise a certain day of delivery for 'Bang-A-Fitty' we will be there with the games, or else the trouble will be that the delivery firm hasn't been able to fulfill their promise."

Edelman also stated, "This is the first time we have ever released information on the 'Bang-A-Fitty' game. After appearance of our first ads in *The Cash Box* we were absolutely deluged with requests for more information. We have been on long distance phones and have been wiring and writing letters ever since. We hope that all the inquirers who were so kind to contact us will be at our booths at the show and will be able to see and play the 'Bang-A-Fitty' bowling game for themselves."

TRADIO INTRODUCES T.F.R.P. ...Revolutionary Merchandising Plan to Keep Operators Way, Way Ahead of the Field

We thank Tradio distributors and operators all over the country. Their confidence and cooperation has been of inestimable value to us as pioneers in the embryonic coin-operated field. Today, the word "Tradio" is synonymous with coin-operated radio. We are proud of our leadership in this industry and are fully aware of the responsibility it entails. We are working incessantly on research and experiments designed to improve Tradio and to introduce new items. Our new Tradio-ette and TradioVision are tangible evidence of our ceaseless efforts to open profitable fields to the operator. Knowing that our success is wholly dependent upon the success of the individual operator, we shall continue to keep the operator's interest paramount in our efforts. Every coin-machine operator owes it to himself to visit Booth 154. We are looking forward to renewing old acquaintances and making new friends at the Coin Machine Show.

The enormous volume of orders already placed by our distributors for the coming year, plus our ability to stock-pile component parts for steadier production, enables us to offer our new Tradio at a considerable reduction in price. In doing so, we are not forgetting our established Tradio operators. The consideration they deserve will be effected thru the Tradio First Reduction Plan, which we are labeling T.F.R.P. This plan will enable original Tradio operators to double their present route, more than average out their cost, and be further ahead than any other coin-operated radio operator.

As manufacturers, we are a young organization. However, our previous experience as operators, servicemen, retailers and dealers, has taught us how we would like to have manufacturers treat us. We are happy to have this opportunity to be on the other side of the fence where we can apply the knowledge gained by this experience. Some of our policies may be revolutionary but we intend to stick to them 100%.

Tradio operators all over the country are urged to contact their distributors at once for complete details of T.F.R.P.

MUSIC OPS

Which do you want?

THE FOLLOWING, VARIED COMMISSION METHODS ARE NOW BEING USED BY MUSIC OPERATORS THRUOUT THE NATION. TELL US WHICH ONE YOU LIKE BEST AND WHY. WRITE NOW TO THE CASH BOX, 381 FOURTH AVE., NEW YORK 16, N. Y.

- 1—10c Play, 3 for 25c, Collection split 50-50
- 2—10c Play, 3 for 25c, Collection split 70%-30% (70% to Op, 30% to Location)
Plus a guarantee Location will get at least as much as formerly on 5c Play.
- 3—10c Play, 2 for 15c, 4 for 25c, Collection split 50-50.
- 4—5c Play, Collection split 50-50
- 5—5c Chute blocked (or taped up as "out of order") 2 Plays 10c, 5 Plays 25c,
Collection split 50-50.
- 6—5c Play, 70%-30% Commission Basis, 70% to Op, 30% to Location.
- 7—5c Play, 75%-25% Commission Basis, 75% to Op, 25% to Location.
- 8—5c Play, 60%-40% Commission Basis, 60% to Op, 40% to Location.
- 9—5c Play, \$3.00 Per Week "Front Moey" (or "Service Charge") Balance Split
50-50.
- 10—5c Play, \$5.00 Per Week "Front Money" (or "Service Charge") Balance split
50-50.
- 11—5c Play, \$10.00 Per Week "Front Money" (or "Service Charge") Balance split
50-50.
- 12—5c Play, 1% of complete equipment installation cost as "Front Money" each
week until cost is amortized, Balance of collection split 50-50.
- 13—5c Play, \$15.00 Per Week Flat Guarantee. If less in collection (than \$15) Lo-
cation makes up the difference. If more, balance is split 50-50.
- 14—5c Play, \$15.00 Per Week Rental Basis. Location gets all over \$15 in collection.
- 15—5c Play, Rental basis on yearly lease or sublease between Op and Location
for space occupied by phono and all other music equipment. Op pays Lo-
cation rent agreed upon for the year in 12 installments — each installment
is paid on the first of the month. Op takes all collections. Lease also speci-
fies no other music allowed in same location.

NOTICE: In most of these cases Ops have contracts with Locations for exclusive operation of music equipment for at least a two year period. These contracts vary according to the laws of each state.

IF YOU ARE USING A COMMISSION BASIS DIFFERENT FROM ANY OF THOSE LISTED ABOVE, PLEASE BE SURE TO INCLUDE THIS IN YOUR LETTER TO "THE CASH BOX".

What Price Pin Games?

By C. B. (Billy) De Selm, Salesmanager, United Mfg. Co.

CHICAGO—The question is not what pin game costs the operator but how much will it earn on location — how long will it earn it — what will the game be worth on a trade-in basis.

A pin game must have appeal of a lasting nature, not mere novelty or freshness that soon wears off.

A pin game must have durability stand constant heavy play over an extended period of time.

Both of these facts have a direct bearing on the trade-in value, as does the quantity made.

Do not over-produce.

Cost is based on time, material, overhead and risk. An inferior game may cost many times more to produce than a fine money-maker.

It is important to determine what the public wants in the way of a pin game and to present it to them the way they like it.

The cost of manufacturing is high today but can be reduced — without cheapening the product — just as soon as material is available in sufficient quantity to permit increased daily production without the risk of costly shut-down.

ees Big Year Ahead

JACK GUTSHALL

LOS ANGELES, CAL.—Jack Gutshall of the Jack Gutshall Distributing Co., this city, sees a big year ahead for the music trade.

"In the first place," Gutshall reports, "our line of Packard Pla-Mor music equipment is beginning to go over the top thruout this area and we are firmly of the belief that the operators will be earning bigger and steadier profits once they completely set up to correctly merchandise their music."

He also reports, "Our line of independent record labels has caught on everywhere with music operators and orders are increasing daily. We believe that we will establish a new sales record for our labels in 1947."

Happel Wins Praise For New Badger Sales Bldg.

Grand Opening Party Jan. 15 Attracts Big Crowd of Coinmen

LOS ANGELES, CALIF.—The pictures on the opposite side give some idea of the beautiful new Badger Sales Building which was officially opened by W. R. (Bill) Happel, Jr. on January 15 with a big party for the many hundreds of coinmen who called here and were tremendously amazed and pleased with the outstanding beauty of the showrooms, offices, parts and supplies departments and the many other facilities.

Shown on the top picture are (left to right): S. L. Warlick, Office Manager; J. S. Duarte, Export Manager; W. R. Happel, Jr., General Manager; W. E. Happel, Asst. Salesmanager and J. R. Leonard, Manager, Parts Dept.

The center picture shows Bill Happel in his luxurious private office.

The bottom picture gives a front view of the new parts department with Jack Leonard in charge.

A beautiful display of the Rock-Ola phonograph and Rock-Ola music accessories has been arranged in the showrooms and just as effective a display of the Keeney line of machines is also on view.

In addition, there are a great many outstanding features of the building which makes it one of the most efficient in the country for coin machine distribution.

Operators who attended the official opening not only enjoyed luncheon and dinner as well as other refreshment but were taken on a tour thru-out the entire building and their praise is reported to still be ringing in the ears of the Badger Sales Company executives.

Tremendous storage space is also concentrated into this one building which allows the firm the room necessary for their ever growing export department as well as for the storage of new games for the operators and jobbers in this area.

Happel stated, "I want to take this opportunity of inviting every coin machine man in the country to call around and see our new building. We are open to any good suggestions and criticisms and will do everything in our power to make the operators comfortable. Therefore, call around and tell us what you think of our new headquarters."

HARRY H. BROWN

CHICAGO — Dave Martin, well known coin machine man, in the business since 1929, has just been appointed sales manager for the American Amusement Company as per announcement by Harry H. Brown, president of the company.

"We are very happy and proud to have Martin become a part of our organization" stated Brown.

Martin has been in close contact with leading distributors and operators for many years during which time he has covered all parts of the country. He has been instrumental in installing many new innovations during his many years of operation. In 1946 Mr. Martin invented an escalator conversion which answered the need of many coin machine men.

Buster Looks 'Em Over

CHICAGO—"Buster" Williams of Music Sales Co., Memphis, Tenn., made it his business to get here earlier than the rest of the boys attending the convention and spent sometime calling around at the various factories.

According to officials of United Mfg. Co., here — "Buster" stepped right into their display room to look over the "Sea Breeze" game of the firm just as Bill DeSelm got his camera all propped up and — bing — there's "Buster" in pictures.

Elky Ray Opens New Showrooms

LOS ANGELES, CAL.—"At last, at last and at last," reports Elky Ray of Gold Coast Coin Machine Exchange, this city, "I can actually, truthfully and factually show you a picture of our new showrooms."

For some months now Elky has been tearing out his hair watching carpenters drive nails at the rate of one every twenty minutes and also watching some

of the plasterers plaster themselves with plaster instead of plastering the walls. "But," buts Elky, "that's all over now and we're all set to go with Dave Gottlieb's new machines. You can tell the boys for me," Elky continued, "that if I knew what getting a new building put together meant these days — I would have better stood in bed — like they say in Brooklyn."

Budweiser Beer May Soon Appear In New "Beertender" Vender

CHICAGO — According to United States Vending Corp., this city, Anheuser-Busch have discussed the possibilities of vending their Budweiser beer thru the new "Beertender" vending machine.

At the annual sales meeting of Anheuser-Busch a model of the "Beertender" was demonstrated and was heartily endorsed for its many advantages.

"It is designed to aid already licensed establishments," U. S. Vending Corp. reports "in selling a greater quantity of bottled beverages more profitably. The 'Beertender' features rapid cooling," the firm continues, "instant delivery, point of sale display, maximum load on minimum floor space and is available with or without coin controls."

The capacity of the "Beertender," according to an illustrative circular enclosed with the above news release, is 220 bottles or cans of 12 ounce size, regardless of shape.

The firm also states, "A unique feature of the equipment is that it not only offers 10 different selections of beverages in various sized bottles or cans, but will also vend sandwiches, potato chips and pretzels from a single unit in such outlets as Army camps, hotels, tourist courts, taverns and country clubs."

Extra advantages of vending bottled or can beer thru the "Beertender" are listed as, "Insures rotation of stock. Provides 24 hour service in hotels and tourist courts. Produces extra sales by offering product at point of advertising. Builds customer goodwill."

The firm list over 17 different types of locations where the "Beertender" is bound to prove profitable.

Biloxi's Mayor Sees Telomatic System Show

BILOXI, MISS.—Mayor G. B. Cousins, Jr. of this city dropped in on United Novelty Company's Telomatic show and is shaking hands with John Bertucci of United in the above picture, complimenting John on the Telomatic System.

Also in the picture from left to right: Ed. Holyfield, Manny Ehrenfeld, president of Telomatic, Inc.;

George Schwan; John J. Bertucci of United Novelty Co.; Mayor G. B. Cousins, Jr. of Biloxi; Jack J. Mittenick of Runyon Sales Co., New York, national sales agents for Telomatic; Anthony Ragusin (who with George Schwan, third from left) are members of the Industrial Committee, Biloxi Chamber of Commerce, and W. H. (Skeet) Hunt.

Buckley Consoles

TRACK ODDS and PARLAY LONG SHOT

BUCKLEY TRACK ODDS has long been recognized as the only seven coin race horse console that would stand up month after month — year after year — and out-earn all other coin machines.

Buckley operators know this to be a fact. Experience has proved that no other machine can even come in a close second from the standpoint of earnings. Every day new operators are finding out that the new BUCKLEY TRACK ODDS are even more profitable to operate than they hoped for.

NOW PARLAY LONG SHOT

Is proving to be a profitable companion machine for locations now operating Track Odds.

PARLAY LONG SHOT pays odds of 10-15-20-25-30 to 1 plus Jackpot of 500 to 1. Start today with TRACK ODDS and PARLAY.

Juke Boxes Being Given Away

PHILADELPHIA, PA. — It's happened. They're giving juke boxes away free of charge in this city.

Operators said that this might happen someday.

Most of the coinmen who listen to

radio station WFIL in this city received the shock of their lives when they heard the announcer on the "Teen-Age Quiz" program announce that juke boxes would be given away as prizes to the lucky boys and girls.

Plans Expansion

GIL KITT

CHICAGO—Gilbert Kitt of Empire Coin Machine Exchange, this city, revealed optimistic plans to expand more than ten times the company's present size. Having recently purchased two buildings conveniently located at 1012-14 Milwaukee Avenue, the firm report they will have 28,000 square feet of space for display, offices and shops.

Empire Coin's new location on one of Chicago's main thoroughfares is said to be less than ten minutes from the "Loop" and also is reported to be easily accessible to all the factories in the city. The buildings are so located as to afford parking facilities on both Milwaukee Avenue and Augusta Boulevard.

What's News?

MINNEAPOLIS, MINN.—According to The Minneapolis Star, leading newspaper here, sent to us by Don Leary who owns "The Northwest's Most Talked About Record Shop," and who is also one of the leading musicops here, Don told one of the reporters from this newspaper all about the juke boxes. And the headline in the Jan. 10 issue read, "Juke Boxes Great for Kids, Says Expert," which helps everyone in the automatic music industry and which is a real piece of public relations work in itself.

CINCINNATI, O.—The Automatic Phonograph Owners Assn. are planning to give one full day's receipts from their juke boxes to the Sister Elizabeth Kenny Foundation for Infantile Paralysis. This covers all Hamilton County. It should be a nice piece of change for the Sister Kenny Foundation.

LONG ISLAND CITY, N. Y.—The Star-Journal, leading paper here, published an item this past week (Jan. 11) that, "ASCAP, after years of mulling, will finally try to collect royalties from the country's 400,000 juke boxes."

LEWISTON, IDA. — Seven clubs here paid up their annual coin machine licenses amounting to \$3600. This got them a headline in the local Tribune. The money covered the \$50 per annum fee the city imposes on coin operated machines, including slots and pinballs.

NEWARK, N. J.—Talking about a "Rise in Small Business Seen" the Newark Evening News of this city reported that the number of pinball games now in operation here is 828, which is reported to be an increase of 153 over last year, also that there are now 46 operators where formerly there were only 14.

MILWAUKEE, WIS. — The Milwaukee Journal is on another crusade. It wants to get rid of the cigaret machines. In

an editorial this paper wrote, "The very fact that they are installed in places where supervision is lacking makes their use by children easy. The law forbids the sale of tobacco products to children. To prevent sidestepping the law, it is imperative that sale of cigarets thru automatic devices be prohibited."

OLYMPIA, WASH. — According to the Olympian, pinball and slot machines contributed a record take to the state coffers this past September and October. The

amount collected was \$565,632 an increase of \$56,174 over the previous two month period.

SYRACUSE, N. Y.—A new drink dispenser is being produced here by C. C. Bradley & Son, Inc., 423 N. Franklin St. The Bradley automatic beverage dispenser won a complete column of comment in the Post-Standard newspaper here.

THRU THE COIN CHUTE

CHICAGO CHATTER

Well, it's here at last—the 14th Annual Convention of Coin Machine Industries, Inc. The convention and exhibition that you and I and everyone else, in any fashion whatsoever connected with the coin machine business, has awaited all these long and dreary war years. And, like everyone else, we're a little bit excited—with the excitement working itself up daily—to the point that, when the doors to the exhibit open, we'll all probably be weak in the knees and praying and hoping that the products which the manufacturers will display at this first post-war show will be just what everyone in the trade has so long wanted. Yep, it's thrilling—and, at the same time, it's one of those things that makes the feathers fly about in your stomach—while you wait to hear the comments from the boys and the gals who will be walking along the rows of displays looking over the machines—and thinking things out—to buy or not to buy.

A lot of water has passed under the bridge since the last convention. Remember all those humorous incidents — as well as the serious ones? How the boys used to sit around in the lobby until the dawn broke down on them—talking things over? How they toured from room to room looking for some excitement? How the cops had to keep order at the elevators which were jammed going up and coming down? How the waiters in the Celtic were working extra hours—and, believe you me, enjoying it for they sure do like the way coinmen spend? And remember, too, how someone would suddenly rush a new machine into his booth the third day of the show and everyone would dash to see it after someone passed the word around that so and so was showing something new? And the liquor — whew — what a morning smell to be greeted with? Yep, wonder if it'll be like that this convention, too, with noise and noise and noise and running and laughter and shouting and all the boys and gals having a grand and gorgeous time and everyone happy again?

Can just see Walter Tratsch off in a corner with Lee Jones and Ray Moloney and some of our other old timers all talking things over and picking out this and that . . . Then Georgie Jenkins and Herb Jones whispering things out at those big Bally booths and deciding on this and that . . . Pat Buckley strolling along and looking things over calmly and quietly and smiling all the time . . . Al Douglis of Daval Products greeting his many friends in the biz and telling them about his plans . . . Dick Groetchen gazing out at the crowds as they mill by his booth and sticking out his hand to shake with some Columbia friend as he or she walks by . . . George Sax of Superior around and about and, as per usual, smiling and happily greeting dozens of his friends as they rush up to say "hello" to him . . . David C. Rockola in the big factory and over at the Morrison looking things over and talking with the firm's many followers.

Yep, I wonder if that's the way its going to

be . . . Myer Gensburg of Genco at his booth greeting the firm's fans . . . Sam Wolberg and Sam Gensburg smiling at the boys as they barge down to see Chicago Coin's latest games . . . Harry Williams and Tony Gasparro grinning and greeting and smiling and shaking hands here and there and everywhere . . . Sol, Nate and Dave Gottlieb busier than ever at their booths . . . Dick Hood laughing with some of his friends . . . Gil Kitt . . . Morrie and Eddie Ginsberg . . . Oscar (Shvitzbood) Schultz and Irv Ovitz . . . Leo Lewis . . . Al Stern . . . Ray Bazelon . . . Al Sebring and Harry Salat . . . John Chrest and Percy Smith . . . Gerry Haley . . . and DeWitt (Doc) Eaton of AMI along with John Haddock and Henry Boston of the firm . . . Lyn Durant and Billy DeSelm of United Mfg. Co. . . Jim Mangan . . . Art Weinand of Rock-Ola . . . R. R. (Rudy) Greenbaum of Aireon with Fred Mann, Ben Palastrant, Dan Brennan and dozens of other Aireon men . . . Henry T. Roberts and Clarence Bayne.

Dozens upon dozens of men you haven't been able to see before—all in one spot—and all at your beck and call—names and names and faces and more faces—and hand shakes and hellos and "good to see yous" and all the things that make up a convention, like, "can I buy you a drink?" — or "how about a cupacoffee?" — or "what're ydoin' t'night?"—or "drop around to our suite and get a drink"—or "c'mere I wanna show you somethin' special

I can see that big open house party over at O. D. Jennings & Co. attracting a big number of the coinmen and J. R. Bacon and all the others here saying "hello" to all who will be attending . . . Over at Pace Mfg. Co. there'll be lots of doings, too, with lots of coinmen calling around to hear "what's new"? . . . Joe Beck and his Telequiz machine will be meeting with coinmen from everywhere . . . Frankie Garnet of Automatic Distributing Co. telling all and sundry about AMI's phonos . . . George Dick and Howard Pretzel and the whole bunch from CMAC visiting with everyone and talking things over . . . Leon Berman and Charley Katz and their showing at the Morrison Hotel of their Spotlite game . . . Wico showing 10,000,000 parts for the ops and plenty of attention to their booths . . . Harry Brown and all the boys and gals of American Amuse. meeting with people they haven't seen in many a moon . . . Ben Coven asking the boys to drop in and say "hello" . . . Ted Rubenstein smiling proudly over the many good achievements of his firm . . . Dan Gould getting acquainted with men he sold from all over the nation . . . The boys at P & S greeting the crowds.

All in all—it's still a thrill—to get together with everyone else—and just chew the rag—and listen—and hear—and believe you me—IT'S A GRAND AND GLORIOUS FEELING TO ONCE AGAIN SEE YOU AND YOU AND YOU—AT A CONVENTION!!

THRU THE COIN CHUTE

EASTERN FLASHES

ALL ABOARD — grab those trains, planes, cars, and snow shoes, and let's go. Let's go to the 1st coin machine convention in six long eventful years. There'll be the usual fun; greeting old friends, whom you haven't seen in many years; plenty of new and startling equipment to see; and meetings that will seriously undertake to help you solve your problems. A great many Eastern coinmen will be on the special trains. Frank McAuliffe's New York Central train, leaving New York City Saturday, February 1st, will probably carry the largest group; and the special coin machine train being put together by the Pennsylvania Railroad will start off from New York the same day, and then pick up passengers along the way.

Sunday, January 19 saw two big distributor parties in the East. Joe Ash, Active Amusement Machines Co. opened his new sumptuous offices at 666 North Broad St., Philadelphia, with a party that will linger long in the memory of those who attended. Joe had intended to play host to some 100 coinmen, but before the day was over it was estimated he had about 1,000 visitors. Among those seen were: Sol and Nate Gottlieb, D. Gottlieb & Co., Chicago; Mr. & Mrs. George Ponser, Amusement Enterprises, Inc., N. Y. C.; Irv Blumenfeld and Harry Hoffman, two of the three generals from General Vending Sales Corp., Baltimore, Md.; Mr. & Mrs. Art Nyberg of Calvert Sales Co., Baltimore, Md.; I. H. Rothstein of Banner Specialty Co.; Al Rodstein; J. D. (Si) Lazar, B. D. Lazar Co., Pittsburgh, Pa.; Jack Kauffman, K. C. Novelty Co.; Sol Silverstein, Hub Enterprises, Baltimore, Md.; Ben Hankin; Mr. & Mrs. Max Brown, Philadelphia Coin Machine Exchange; Mr. & Mrs. Bill Gersh, McKim Smith, Atlantic City, N. J.; Frank Engel and Bill Chaitt, Automatic Equipment Co., Mr. & Mrs. Irv Morris, manager of the Newark office of Active; and Martin Blatt of New York.

Hirsh de La Viez, Hirsh Coin Machine Co., Washington, D. C., ran a party for the Washington, D. C. music operators, showing the new Packard Pla-Mor phonograph and equipment. Homer E. Capehart, director of the Board of Packard Manufacturing Co., was on hand to greet the many ops.

Mike Munves, after a great deal of thought, finally made up his mind to take the special New York Central train with the majority of coinmen . . . Barney (Shugy) Sugerman of Runyon Sales Co. and some of his staff will fly, leaving a few days early . . . Jack Mitnick of Runyon, claims he's been in the air more than on the ground for the past few weeks. After his visit to John Bertucci (United Novelty Co.) Biloxi, Miss. to set up the Telomatic system, Jack flew to Texas, then home, then to Upper New York State, then home again. Now he's flying to Chicago for the show . . . Al Price, Lester Paul, J. Breidt and Bill Moore of U-Need-A Vendors, Inc., will be in Chicago before the official opening . . . Dave Lowy would like to fly, but his missus says "no" — so Dave'll be on the train.

Dave Stern, Harry Pearl, Tom Burke and Everette Masterson of Seacoast Distributors (Rock-Ola distrib.) have agreed on the name of their recently

purchased airplane — it's "Seacoast Flyer." The winner of the \$25. wasn't named — Dave claiming this matter will be disclosed during the show . . . Like many other exhibitors, Murray Goldberg and Jack Firestone of Firestone Enterprises, Inc., Brooklyn, N. Y., are leaving the city a few days early so they can set up their display . . . The Phonograph Operators Association of Eastern Pennsylvania and New Jersey, under the leadership of its manager, James L. O'Brien, have offered music machines to various police districts where established youth centers are in operation, free of charge. This same program was worked out for Fairmount Park, one of the largest parks in the world. The program was sanctioned by Judge Harry S. McDevitt and John B. Kelly. The association looks for the establishment of a great deal of good will with the public.

As usual, Nat Cohn and Earl Winters of Modern Music Sales Corp., have worked out a great promotion idea for the music ops who will visit their display of the Mills phonograph. All ops will receive a souvenir Vogue record . . . Ed Hartman, Allied Electronics, Inc., manufacturers of complete music systems, will be at the show, but Joe Henkle, his associate, will have to remain in the office to take care of all their biz . . . Al Denver, President of the music operators association, completely recovered from a throat ailment — just in time to accompany the bunch to Chi . . . George Ponser and Irving Kaye, Amusement Enterprises, Inc., leaving early for the show, will have some real surprises at their booth . . . Lee Rubinow, Seeburg distrib. in Miami, and former president of the music operators' association, in town for a few days, and then back home.

Barney Berkens, executive secretary for the Arcade Owners Association for the past year, resigns as of February 1. Berkens has made no plans for the future . . . Davey Friedman, former local op, now operating an arcade in Buffalo, in town, and will join the bunch on the train for Chi . . . Jack Fitzgibbons leaves for Chicago a full week before the show begins, and expects to remain a week after it ends . . . And what would a show be without Charley Aronson and Bill Alberg of Brooklyn Amusement Machine Co. They'll be on the special coin machine train out of Grand Central . . . Jackie Berman, Economy Supply Co., Baltimore, Md., in town for a few days, then on to Chicago . . . Harry Berger, West Side Distributing Co., flying with his wife to Cleveland, where he'll leave her. Then on to the show. On the way back, Harry'll pick his missus up . . . Hymie Rosenberg, H. Rosenberg Co., completing his travels thru the south and southwest before heading for Chicago. Mrs. Rosenberg flying to meet Hymie in Chi . . . Al Bloom, Speedway Products Co., with his blond hair and "Gold" plastic cloth, will light up his booth plenty on the exhibit floor . . . Joe Eisen and Sid Mittleman, who drove to Miami, Fla., will return home before leaving with Phil Mason and Buddy Eisen (Joe Eisen & Sons) for Chicago.

THERE'LL BE PLENTY OF EXCITEMENT AT THE SHOW — DON'T FAIL TO LOOK US UP.

THRU THE COIN CHUTE

CALIFORNIA CLIPPINGS

Lots and lots of excitement along Coinrow these days. Everyone is looking forward to that Eastward trip to the icy blasts of the Windy City and all are so excited that there's no doubt few will even know it's really cold or blizzardy when they land. It's very interesting listening to the coinmen as they talk about the forthcoming show. Many are looking forward to this trip with mixed feelings, to put it mildly. Everyone, tho, believes that he or she is going to have a grand time — and that's one consolation for leaving the sunny clime of good ole California for Chicago. Well, anyway, guys and gals, here's most sincerely hoping you'll all get what you are wishing for.

* * *

Had a long and interesting visit with H. A. Brockamp, vice prexy of Pantages Maestro Music, and learned that the firm will have an elaborate display at the show. He reports that they have their plant all set to ship their gorgeous mirror phono cabinets in any quantity — anywhere in the world. And they believe that quantity shipments are going to start right after the music ops at the Show see what they're talking about . . . Lyn Brown, a native Californian, just recently back from the Commonwealth of Pennsylvania, has formed his own distributing firm — Lyn Brown Co. — and will be factory agent for Scientific Machine Corp. of New York. A quick peek at the new game which Lyn has already convinced most of the boys that it will go places out here.

* * *

Bill Happel, Jr. can well be proud of that gorgeous new coin machine building he has. It's considered to be one of the most outstanding in the nation. And Bill's private offices are something to really rave about. Bill threw one big party on January 15 officially opening his new place which attracted hundreds of coinmen from everywhere out here. Everyone who attended was tremendously impressed with this terrific building. A swell buffet was served, and you can believe me, that this added tremendously to the festivities . . . Al Silberman of M. S. Wolf Dist. Co. just returned from a Midwest trip and was much impressed with conditions generally. Al reports the state of Montana to be an operator's paradise. By the way, Bill Wolf is doing a lot of work in preparation for his trip to Chi. He reports that he has lots of deals on the fire and plans on leaving early to complete a few of the deals before the show gets under way.

* * *

Ops continue to tramp into AOLAC for the latest info on the county situation. At this writing, things are still quite critical. We hear that a public hearing is planned on the proposed County Commissioners' plan to outlaw all forms of coin operated equipment. The report is that the hearing is set for February 4. The future of many coinmen is at stake in this present situation. It is also feared that any unfavorable action here will have lots of repercussions elsewhere thruout the entire state . . . This past week was rather quiet along coinrow as far as visitors were concerned. But, we did see; Anton Jeppeson of Maywood; Mr. and Mrs. Bert Polin of San Luis Obispo; Jack Arnold of Barstow; Milton Noriega of Colton; W. H. Shorey of San Bernardino; J. B. Mullenaux of Calexico; Stewart Metz of San Bernardino; Chris Torres of Westmoreland; S. W. Ketcherside of San Bernardino; Alex Koleopules of Bakersfield and Raymond Stewart of Tipton.

* * *

The SCAMOA (Southern Cal. Music Ops Assn.) have just moved into their new offices. Jay Bullock, managing director, informs us that his organization is the

fastest growing of its kind in the country, according to reports he has received. Bullock is hoping for a 100% strong membership within the next few weeks. He also invites assns from all over the nation to communicate with SCAMOA for an exchange of ideas which can be of mutual benefit to all concerned with the automatic music business . . . Visited with Paul and Lucille Laymon — two of the swellest of the swell people in the coin machine business — and found both of them in something of a quandary. Seems that Paul was given notice to move and suddenly the landlord changed his mind and let Paul stay on. This leaves both Paul and Lucille wondering just what it's all about. But, they won't make any definite decision until they return from the Big Show in Chicago.

* * *

Jack Gutshall and a number of the Packard distribs, I hear, are traveling together to the show. Jack is now the champ gin player of Washington Blvd., otherwise known as Coinrow's annex, therefore we look for some heavy action with Jack on that train. By the way, we also hear that Jack has got himself a new salesman — but no one, as yet, seems to have his name . . . Many of the local record firms plan to have booths at the show. These include — Exclusive, Aladdin, H.I.R., University and many others. This will give the platter firms an excellent opportunity of meeting with the ops personally and discussing many, many items for their mutual benefit . . . Ray Powers has been delegated to represent the E. T. Mape firm of Los Angeles while the rest of the crew joins Ray in the trip to the convention.

* * *

In a recent trip upstate to the Bay City area discovered that most, if not all, the local distribs and jobbers are planning on being present at the Big Show in Chi. Looks to me like it's safe to state that the Golden State of California will be well (but very well) represented at this first post-war convention. One of the things everyone hears up in the northern metropolis is the worry over what will happen to the boys down in L.A. if the powers that be shut off the games . . . George Ehr Gott, Warren Taylor, Art Bouterious and other members of Mills Sales are getting away a week early for some important confabs with the Mills Industries factory which, of course, will be plenty about the Mills phono . . . Danny Jackson and Sam Donnin of Automatic Games Co. are bidding for some important connections for the distribution of coingames. The boys have made some big strides and are now really getting under way — but good.

* * *

Len Micon reports that he has some important meets slated at the show and hopes to come out of these with something really hot . . . Merle Connell of Quality Pics has a nice booth at the show and hopes to meet with all his distribs who are handling his 16mm film . . . Nels Nelson just keeps right on adding to his staff of mechanics. He has been doing a bang-up job of remodeling and reconditioning used phonos. Nels will also be on the way East with the boys . . . With all the excitement and talk about the forthcoming convention "California Clippings" wishes here and now to apologize to anyone it may have forgotten to mention. We're rushing around to get our reservations all set and to be sure that we'll have some place to lay down our weary head as the wee hours of the dawning pile into the lobby of the Sherman. From what they tell me — it takes a strong man to hold up for those four days and nights of tremendously intense excitement — and so we're going into training in an effort to be in perfect shape for the day when the show opens — and, especially, when it closes and we can relax once again. Happy Show Time!!

THRU THE COIN CHUTE

ST. LOUIS PITTSBURGH

Nickel flow in St. Louis is a source of constant surprise to most of the ops who had pulled in their ears for a January slump. The cash boxes are full at every stop, in most instances hitting a few percentage points above December. "Just one of those things" said veteran musician Jimmy Carmody. "Christmas and New Years were a little quiet, so the folks are out having fun now." . . . All eyes, naturally, are on the CMI show, but in some cases with anxiety. Dale Smith, of Advance Phonograph has been keeping the wires buzzing to find out what happened to a reservation made many moons ago, but now off the Sherman's books. Ed Watzek, who runs California Distributing Company's many enterprises, is another bemoaning lack of space for the big event.

We dropped in on John LaBan to take a look at Automatic Hostess equipment John is currently decrying. John started out in 1940 with one location, and now has 40 of them going at peak. Though Automatic Hostess hasn't spread through the city, John is enthusiastic. He has a string of phonos which give him a one-two punch in acquiring new spots. A few days study shows which machine will pull in which location, and in she goes. Laban and frau will be on hand for the opening gun in Chicago . . . While major domo Ed Randolph, of Ideal Novelty is home sick with an uproar in his stomach, the executive offices of Ideal Novelty Company are being enlarged. Doors aren't big enough to accommodate Carl Trippe bustling about the Ideal front office. So they'll wind up double the old size. Carl plans to exhibit his Ideal Football Game, resurrected from the old arcade equipment of the past, in one booth at the show.

Art Anderson of Waynesville, Mo., was calling on distributors during the week. He reports inability to get sufficient records for his Waynesville routes, and a falling off of play as a result . . . The Missouri Amusement Machine Association has announced a pleasant surprise for the 100 or more ops who will journey Chicagoward. The train special will include a club car with tables, bar, etc., as well as two deluxe chair cars for the group. "We got 'em to pull the club car off an extra-rate train" Lou Morris, prexy, announced, happily. John Gazolo, Star Novelty head, immediately announced that he would earn the fare back from Abe Jeffers at gin rummy or some game closely resembling it.

Mike Cobetto, Taylor Springs, Ill copped a couple of Rockolas during the week past, and rushed home with them. Plenty of big phonograph orders have been placed of late, now that we've reported dozens turned over since October 15 . . . Friends are hoping Frank Schear, St. Louis music op, snaps out of the illness which has kept him in bed for several weeks . . . We hereby extend an invitation to all to pop into the St. Louis open house, in the Sherman, during the Show.

Angelo Cangelier, at American Coin-A-Matic reports that "Open The Door Richard," by Dusty Fletcher, is sweeping their territory like a new broom . . . Angelo must be expecting some sort of an event, he's stocking up on large Havana Cigars . . . Angelo will be along with Sam Strahl at the Convention . . . Sam has a crowd of 24 ops joining in an all Pullman Party, which will represent American Coin-A-Matic in Chicago. Sam says there will be something doing every minute . . . Eddie Steele, of Coin Machine Distributing Co. is in the advance guard descending upon poor little Chicago . . . Eddie will attend the Mills Phonograph unveiling and pre-convention school . . . Eddie says advance notices on the new phono claim it to be a honey . . . Howdy Levine, at Mechanic's Service is sweeping the floor clean of old stock and expects to roll with a new game show room after the show.

Phil Greenberg, of Atlas Novelty Co. says, "marriage is a cinch, compared to the problems confronting a man in the coin biz . . . Phil will greet friends and customers at the Show . . . Lou Popkins, from Pittsburgh Coin Machine Exchange will greet customers, old and new friends at the Sherman Hotel. Lou has seen many of the new games which will be shown at Chicago. He believes the manufacturers are building equipment better than ever and predicts the new games are the best bet the ops ever had. Pittsburgh Coin Machine Exchange plans to remain open, with Meyer Popkins in charge of the office. The firm has added Mike Bond, with a background of years of experience as an outside salesman.

Sam Horovitz — Acme Novelty Co., will hold open house during the show at the Morrison Hotel . . . Lakie Grossman, a pioneer op, was caught in the act buying up machines at Johnny Peters' Pittsburgh Amusement Co. . . . Johnny and wife will descend upon Hotel Sherman for the Show . . . Ben Herman, at Standard Dist. Co., is kept quite busy selling Greek Records . . . Ben's best bet at the moment is "Evil Gal Blues" by Dinah Washington . . . B. D. & J. D. Lazar accompanied by Eddie Goldvarg, will meet their customers and friends at the Hotel Sherman.

Herby Rosenthal of Banner Specialty Co. is quite enthused at op acceptance of United's new games "Rio" . . . Ben Long and Jack Mulligan of Mulligan Dist. Co. will be at the Sherman . . . Ben hints for the purpose of meeting ops and friends . . . Joe McGlenn, the horseman around McGlenn's Dist. Co. will be greeting old op friends and new ones too at the Show . . . Look for Joe around the Sherman.

THRU THE COIN CHUTE

MINNEAPOLIS H O U S T O N

We just heard yesterday that Matt Ingalls of the Mayflower Distributing Company suffered a heart attack Sunday and was rushed to Midway Hospital, St. Paul, Minnesota. Upon checking on it today, we heard that Matt was resting and feeling better. Hope you get well quick, Matt . . . LeRoy Oftedahl, Glenwood, Minnesota, spent a day in Minneapolis visiting a few of the distributors. His first visit in the last four months . . . Mr. and Mrs. Henry Klein of Sioux Falls, South Dakota arrived in Minneapolis Sunday, and after making quick calls on some of the distributors in the Twin Cities, left for home early Monday afternoon.

We haven't seen Mr. H. H. Krueger of Fairfax, Minnesota for quite a long time. We wonder if they are snowed in for the winter . . . Judd Cossette has been with the Twin Port Sales Company, Minneapolis for the past two months. Judd is their traveling representative for their territory representing Packard . . . Morris Gillerstein of the Novelty Sales Company, Fargo, North Dakota drove in to Minneapolis last week. He arrived in Minneapolis in time to enjoy some of the spring weather and was very much surprised, as it's been very cold up there in Fargo. The road conditions were very bad until he got to Alexandria, Minnesota, and from then on it was a pleasure . . . E. H. Kromroy of Spring Grove, Minnesota just spent the day calling on a few distributors.

Paul Hayes of Rochester, Minnesota is finding a lot of time to do a lot of ice fishing, since flat tops and other coin device machines are down in his territory . . . Kelly Diedrich, of the Diedrich Supply Company, Chaska, Minnesota was also seen in Minneapolis just for a few hours . . . Louie Schmidt of Owatonna, Minnesota in town just for the day. He still serves the best steak in town . . . Ben Martell and his son of LeSueur, Minnesota also in town just for the day . . . Hy-G Music Company received a card from Jonas Bessler who is enjoying the warmth of Mexico City.

Gordon Moody, former operator at Fergus Falls, Minnesota is now at Brownsville, Texas operating a motel there. Wally Jones of the Hy-G Music Company attended a service school in Chicago, given by the International Mutoscope Corporation . . . Joe Topic and Phil Stang of the Scott Novelty Company, Shakopee, Minnesota, both in town looking the situation over . . . Martin Hagness of Grand Forks, North Dakota dropped down to Minneapolis for a few days calling on distributors . . . Andy Benna of Ironwood, Michigan in town for a couple of days visiting the distributors. Said it was 22 below when he left home and our Minneapolis weather seemed like spring to him.

Houston Coinmen attending the Chicago show include: A. H. Shannon, M. R. James, Coin Machine Sales Co.; Jack Renfro, Sam Ayo, Standard Music Distributors; Jack Prock, General Distributing Co.; Jack McDaniel, Southern Distributing Co.; A. E. Andres, Southwest Amusement Co.; H. W. Daily, South Coast Amusement Co.; Clyde Atkins, Fred McClure, Atkins & McClure Amusement Co.; C. O. Harrington, Harrington Amusement Co.; Fred Troy, Taylor & Steele Music Co.; C. M. Robertson, Automatic Amusement Co.; Bill Siros, Amusement Enterprises; L. R. Gardener, Houston Amusement Co.; Morris Pinto, Big State Amusement Co.; Harold Horton, Horton & Williams Distributors.

* * * *

The death of Walter Zaboroski, service man for Parker Amusement Co., was solved when Nolan West, two time ex-convict confessed that he shot when Zaboroski resisted a hijacking attempt. The gist of West's statement was that he had intended to rob R. E. Parker, owner of Parker Amusement Co., and hid in the back of Parker's car for that purpose. Zaboroski instead of Parker got in the car and started home. West proceeded with his plans, regardless, and when Zaboroski made a move to resist, West shot him once through the head.

* * * *

Jack McDaniel, with over 20 years experience behind him, now at the helm of Southern Distributing Co., Rock-Ola distributors. He is ably supported by Noble Sills as office manager . . . So much attention being paid to the new A.M.I. phonograph on display at Southwest Amusement Co., that attractive Joyce Evans, secretary of the outfit, is getting sort of jealous . . . Hudson & Martin, a brand new operating firm in nearby town of Trinity, Texas.
