Dwight Yoakam

Dwight Yoakam doesn't fool around. His first single, "Honky Tonk Man," went to No. 1 on the Cashbox country chart. That's the first No. 1 debut single in six years (Alabama did it then). March 22, he made the cover of Cashbox. This week, Dwight Yoakam's first album, Guitars, Cadillacs, Etc., Etc., is No. 1 on the Billboard country chart. Dwight Yoakam makes music that's real country, no fat and plenty of fire. He knew all along if people had a chance to hear him, he could go all the way. Dwight was right.

On Reprise records, cassettes and, soon, Compact Discs.
Guitars, Cadillacs, Etc., Etc.

Seeburg's Compact Disc

Laser Music™

Maintenance-Free, CD Technology

Seeburg's "Laser Music™" system laser-reads digital light impulses, translates them into analog signals and then into music. This new music system delivers immense dynamic range and startling clarity. Record manufacturer's commitment to consumer demand guarantees compact disc availability.

No stylus or magnetic head touches the disc's coated surface... eliminating scratches, static, hiss and other tape deck/turntable-related problems. Pure music reproduction during every play. Many money-making options available.

More Overlay.

Seeburg's "Laser Music™" system allows patrons to select/play an entire disc or individual song titles. For \$5, patrons can play a disc and still have play credits for additional song titles. Disc selection, by artist, is as easy as turning the pages of a book. System also features a programmable artist/patron monopoly restriction format.

More Dollars!

The "Laser Music™" bill validator accepts \$1, \$2 and \$5 bills, eliminating tedious coin counting.

Easy Rotation!

Single key entry and removable magazine and title cover holder facilitate disc installation and changes.

Super Location Opener!

There hasn't been a more attractive location opener since the advent of 45's. Patrons can now preview future purchases, and industry experts estimate that compact discs will total 50% of recorded music purchases within five years. "One-stops" are already stocking thousands of titles.

Can you find a better location opener?
