Bonadonna Named PD At KDKB/Phoenix

Joe Bonadonna

Former WMMR/Philadelphia PD **Joe Bonadonna** has accepted the PD position at Sandusky's Mainstream Rock **KDKB/Phoenix**. Bonadonna replaces **Tim Maranville**, who exited the station in August (*fmqb* 8/27).

"Joe completely understands the mission and sees both the opportunity and necessity of separation among our three Rock properties," Sandusky VP/GM **Chuck Artigue** told *fmqb*. "Joe shares with me the vision and the operating path to put this together. He brings a great deal of experience and confidence to the table. I already like his approach. The reaction of my staff is incredible. They have rallied around him in less

than 24 hours. I'm very, very pleased, that a person of Joe's caliber is joining the Sandusky staff. He's a first class guy."

Bonadonna added, "After being at WMMR for 22 years, and programming that legendary station in Philadelphia, the chance to come to Phoenix and program the legendary KDKB was extremely appealing. Working for Sandusky with **Chuck Artigue** and the KDKB staff is a premium opportunity I couldn't pass up: heritage radio station, great company and growing city. Besides, I came out here to improve my golf game!"

Bonadonna spent the last 22 years at WMMR, the past nine as Program Director. He joined the station for afternoons in 1977, and served as APD/MD from 1981-1990, when he was named PD. While at WMMR, Bonadonna received numerous industry awards including Program Director of the Year in 1993 and 1998. A New York City native, Bonadonna began his career at **WLIR/Long Island**. He also logged time consulting the programming departments of **WNEW/New York** and **WIOT/Toledo**.

What Does The Infinity-MTV Marriage Mean To The Music Industry?

That question has been making the rounds ever since the September 7 announcement of Viacom's acquisition of CBS.

"There's a great deal of promotional opportunities that exist between Infinity, CBS, and Viacom," said CBS Corp. President/CEO **Mel Karmazin** during the press conference that announced the merger, offering a clue to where the Infinity-MTV synergy will come in.

As far as the music industry is concerned, Infinity's 160+ radio stations and MTV's reach and promotional prowess is a combination that has potential for unequalled and unprecedented power. The merger "just increases the power of Viacom to become the hit makers and star makers in all genres of music," **Michael Nathanson**, a New York-based music industry analyst, told

TheStreet.com. "They're going to be so influential."

Dual Rock Format Flips In Albany

Moving to intensify its grip on the Albany Rock market, **Clear Channel** flipped Modern Rock **WQBK** to Active Rock on September 25, and Jazz **WHRL** to Modern on October 2. **WQBK** programmer **Rod Ryan** is now PD of both stations.

"Today's Jazz" **WHRL** is now known as "Channel 103.1, The New Music Alternative." **WQBK**, meanwhile, has modified its handle to "Rock Radio - The Edge."

The **Howard Stern Show** continues on **The Edge**, but now it's followed by a music mix that ranges from **Led Zeppelin**, **Pink Floyd**, **Ozzy**, **AC/DC**, and **Van Halen** to **Alice In Chains**, **Pearl Jam**, **Stone Temple Pilots**, and **Metallica**. Currents include **Godsmack**, **Creed**, **Bush**, **Live**, and **Foo Fighters**.

Regarding the second of two flips in eight days at his seven-station cluster, **Clear Channel-Albany** market Manager **Dennis Lamme** told *fmqb*, "Jazz is a niche format. [HRL] had only 42,000-44,000 listeners. Channel 103.1 offers a greater ratings and revenue opportunity."

Of 'QBK's flip, **Ryan** commented, "It's time for **The Edge to Rock**. Research indicated that this was the best direction to move towards in order to keep all those males who are listening to **Stern**. We are now a focused Rock station 24-hours-a-day, tailor made for this region."

Lamme says the two stations won't have too much music overlap.

Only one 'HRL employee lost his job as a result of the change: Station Manager/Sales Manager **Pete Bauermann**. The rest have accepted other positions within the cluster, **Lamme** says.

Both stations sport new talent lineups. **Edge** mid-dayer **Jason Keller** takes Channel 103.1 mornings, followed in middays by **Rachel**, from part-time/fill-ins at **The Edge**. **WQBK MD/night-timer Bizzaro Jeff Callan** has been re-assigned to afternoons on Channel 103.1; nights go to **Tim Noble**, most recently running the board at 'QBK during the **Stern** show.

At **The Edge**, **Ryan** moves from p.m. drive to middays; **Mrozek** takes his place in afternoons from the same shift at **Classic Rock** sister **WXCR**. Nights are open. **Edge** Programming Assistant **Chris Osborn** gets the MD slot formerly occupied by **Callan**.

Tolkoff Nabs Y-107 PD Seat

Max Tolkoff

Seasoned industry veteran Max Tolkoff has been named to fill the PD position at Big City Radio Modern Rock trimulcast Y-107 (KLYY, KSYY, KVYY)/Los Angeles, recently vacated by John Duncan.

Y-107 VP/GM David Howard told *fmqb*, "The ability to bring Max into the Y-107 family is a major coup for both Y-107 and Big City Radio. Max's background and thorough knowledge of radio, music and the record industry is an ideal combination to maximize Y-107's full potential. He is a visionary, a leader and a great ambassador!"

"Big City Radio has the resources and the desire to do great things," added Tolkoff. "You can feel it in the hallways. I'm practically vibrating with anticipation. My programmer's crystal ball predicts an interesting future for Y-107. To quote Al Pacino in *Godfather III*: 'Just when I thought I was out, they pull me back in!'"

Tolkoff's previous programming positions include WFNX/Boston and 91X/San Diego. He's also consulted for Jacobs Media and Time-Life Music, in addition to serving as Alternative Editor at *Gavin*. Tolkoff most recently served as Sr. Director/Alternative Promotion at A&M Records. Currently you can hear Tolkoff nationwide as host of the syndicated *Modern Rock Live*.

John Griffin Upped To PD At KOMP

KOMP/Las Vegas APD John Griffin gets the official nod as PD of the Mainstream Rocker, replacing Mike Culotta, who dropped the title in January. Culotta remains in middays.

"If the press makes it official, consider it official," Griffin told *fmqb*. "Actually I have been running the ship here since January. I took over the reigns under OM Richard Reed and GM Tony Bonnici back then. They like how things have progressed, they like my vision for a station that has been Rockin' for 18 years and they want me to take it into the new millennium. So they took a day off and they gave me a raise. It's cool to work for a station with two awesome managers, Richard and Tony, who get it and a great MD in Big Marty. It's a great combination, and it makes radio fun again."

Griffin joined KOMP in '97 after a successful Programming run at Modern Rock KEDG/Las Vegas, where he spent five-and-a-half years. Other stops along the way included an on-air stint at KBER, the APD/MD position at KZHT, and an on-air position at KCPX, all in Salt Lake City.

Griffin will eventually drop his night shift once a replacement is found.

-Jay Gleason

Station Store Fronts

These days there isn't a radio station that doesn't have a Web site, and if you find the rare station that isn't online, chances are they are in the process of developing a site. With zillions of choices on the Internet, even Web sites are becoming competitive. A simple page with jock bios and station information doesn't entice your listener to visit again. But what if you had, at the listeners' fingertips, shopping, general information, downloadable music, editorial content from top publications and more? A company named Global Media can make it a reality for your station site, without it becoming a headache for you.

"We absorb the back-end costs and give existing radio stations a store front," Global Media VP Corporate Affairs Monte Burris tells *fmqb*. "It is the station's responsibility to

market the site and bring its existing customer base into the new medium." As a Global Media Broadcasting Network Associate, stations can link their audience with the opportunity to buy millions of entertainment products, without having to secure agreements with hundreds of other sites.

There is a small start-up fee, but other than that, the service is free to radio. Burris explains how both sides can benefit: "We (the station and Global Media) share in the revenue generated from the store front, which we generate, manage and maintain on behalf of the station. It is labeled "WXYZ Store" so that the station can extend their brand name from top to bottom. The customer only knows the station's storefront and never leaves the station Web site to purchase items. The station gets the name branding and an untraditional revenue source while holding on to their customer base."

Global Media also supplies several services to stations trying to get their sites up and running. Their goal is to make your site entertaining. In addition to high quality streaming

audio, Global also provides other compelling features: Editorial comments, music, book and concert reviews, music news, magazine articles, and chat lines. They are also in the process of making live pay-per-view events available.

Current e-commerce revenues are estimated at \$98.4 billion dollars. Wouldn't it be nice to make sure your station gets a piece of that pie? It would create non-traditional revenue, making the GM happy. It would give the listeners a place to do one-stop surfing, making them happy. And it gives the station a higher profile and a more marketable Web site, making programmers happy.

What Does The Infinity-MTV Marriage Mean To The Music Industry?

continued from page 3

Judging by initial reaction to the Viacom/CBS announcement, the thought of so much influence under one umbrella has more than a few people troubled. Most of the concern comes from speculation that the new Viacom will be able to control what music Americans are exposed to on a daily basis. The distress runs deep into record label executive quarters where the thought is that labels may potentially find themselves being held hostage by a unified and powerful entertainment coalition.

"There is a tremendous opportunity for the combination [of MTV and Infinity] to command the music industry," said one anonymous label exec. "MTV is already in bed with the major Infinity stations and this combination is just going to give the Infinity radio programmers a bigger head than they already have."

It's a harsh opinion, but these are the surface fears that have been stated by more than one label executive behind closed doors or under the condition of anonymity. But, a look underneath the surface reveals a group of programmers who understand that each is just a part of the greater vision held by Viacom Chairman/CEO Sumner Redstone and Karmazin.

"They're not an abusive lot," defends Universal Senior VP/Promotion Steve Leeds. "The potential exists, but knowing the people involved, from Mel Karmazin to [MTV President of Worldwide Productions] Judy McGrath to [Sr. VP/Music Programming & Talent] Tom Calderone to the individual PDs of the Infinity stations, those people are not cut from that cloth. If they wanted to be mean-spirited, they could. If you want to be paranoid, then you will think that they will, but I don't think they ever would or will."

While potential for abuse of power certainly exists, today's sprawling media landscape could well keep that in check. There are too many choices for people to turn to for information. If the Infinity-MTV combo did decide to boycott a particular song or artist, people would most likely find out about it via the Internet or through one of the other media options at their disposal.

"The implications of scrolling call letters and frequencies across MTV is a little scary," says WWDC/Washington, D.C. PD Bob Neuman. "But, you have to wonder if MTV will work exclusively with Infinity stations. I doubt that will be the case. There are some brilliant people in those companies and they will see past putting all their eggs in one basket in any given market. Certainly there are a lot of implications for anyone not working for an Infinity station. We'll just have to see where the chips fall."

Neuman, who is a staunch competitor with Infinity's WHFS, has a valid point. What happens when MTV wants to do a Ricky Martin promotion with a radio tie-in in New York City? There's very little chance that Infinity's WXRK or WNEW will get the promotion, as good business sense should override the inclination to stay within the family.

"It's too big for it to be one encompassing voice," maintains Leeds, who sees a lot of positive upside for record labels in the potential for exchange of information. "Collectively, getting everyone within that organization on the same page will be a distinct possibility."

While the currents of opinion are flowing between fear and faith, only time will tell what the Infinity-MTV marriage will yield for the music industry.

- Michael Parrish

Gehrig Peterson Named WCKG Director Of Operations

WCKG/Chicago has promoted Gehrig Peterson to the newly created position of Director of Operations, overseeing programming, NTR sales, and marketing. Peterson replaces PD Reid Reker who exited the Package in August for the VP/GM post at Infinity sister KYNG/Dallas (*fmqb* 8/27). "I am truly excited as this position encompasses everything that I have been doing for WCKG in the past seven years and adds a new dimension to my responsibilities," Peterson said. "Ironically, I moved to Chicago 13 years ago to work with [WCKG afternoon host] Steve Dahl and I look forward to many more. With a line-up of Dahl, [Howard] Stern and [Jonathan] Brandmeier on WCKG, you don't program, you're a train conductor and responsible for keeping the train on the tracks and avoiding crashes." Commenting on his new boss in the *Chicago Sun-Times*, Dahl said, "Program Directors? We don't need no stinkin' Program Directors. We are the Federales...

the Mounted Police!" Peterson most recently oversaw the station's NTR department.

Infinity's WLLD/Tampa Subject Of Indecency Complaint

Infinity Broadcasting's Rhythmic CHR in Tampa could be in hot water with the FCC after broadcasting live a station concert that allegedly contained profanity and blatant talk of sex. A Tampa-area watchdog group, the Florida Family Association, has filed a complaint with the FCC against Wild 98.7 for airing "extremely indecent content of a Rap concert," according to the *St. Petersburg Times* (9/24). The concert was the September 11 station-sponsored *The Last Damn Show* at Tampa's Ice Palace which featured Eminem, Busta Rhymes, Destiny's Child, Trick Daddy, and DJ Skribble, among others. The FFA enclosed a taped copy of the broadcast with their complaint. A partial transcript included a glut of four-letter words, along with the comments, "Lift up your shirt and let me see those big breasts. We molest girls three times a day. Three

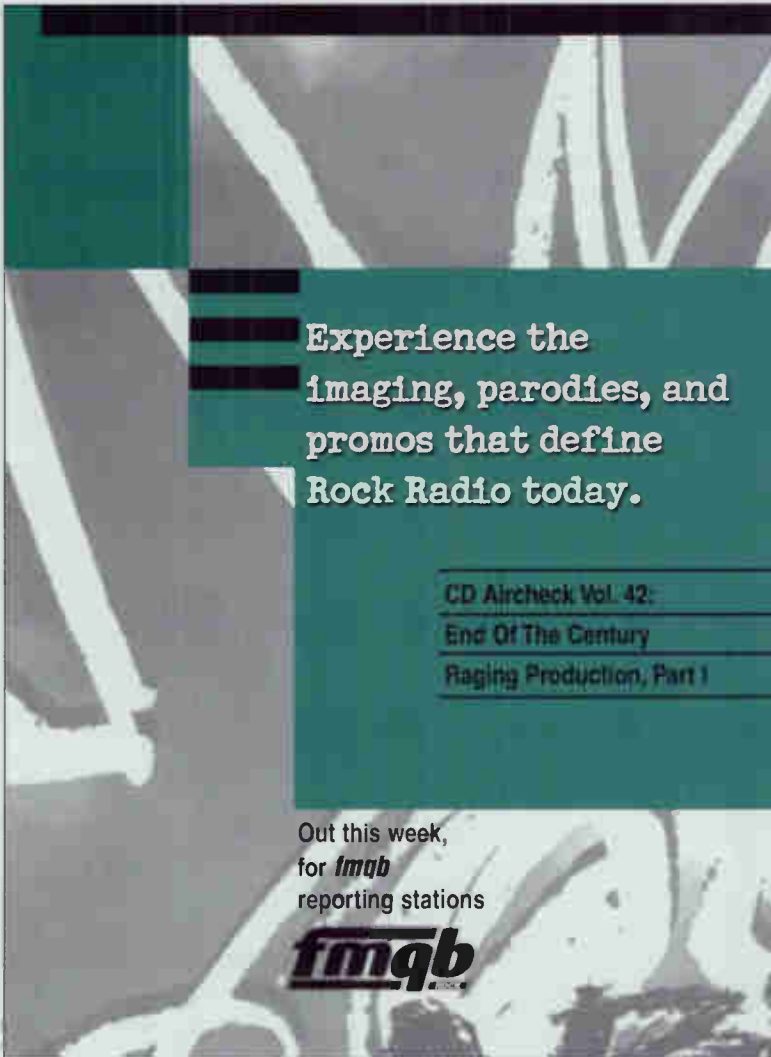

times a night." "We have never seen this much un-bleeped profanity on any radio station in Florida," FFA President David Caton told the newspaper. A possible FCC inquiry and fine would be ill-timed, since Infinity parent CBS needs FCC approval before it can close its merger with Viacom. The FFA is the same group that, in the past, has targeted crosstown Clear Channel Active Rock WXTB morning man Bubba The Love Sponge.

Entercom-Sinclair Deal Heads To The FCC

Entercom's \$821.5 million acquisition of 43 radio stations in nine markets from Sinclair (*fmqb* 7/30) has found its way into the FCC's docket. The only regulatory issue here involves Kansas City, the sole market where the two companies overlap — Entercom already owns seven stations and Sinclair holds four. In addition to exceeding FCC ownership caps, the combined portfolio would account for nearly 58 percent of K.C. radio revenues, well north of what the Justice Department is comfortable with.

Entercom is talking with both regulators about spinoffs that would satisfy their antitrust and ownership concentration concerns.

- AMFM/Houston has named Eddie Martiny to the newly created position of VP/Rock Sales, overseeing Mainstream Rock KLOL and Classic Hits KKRW. Martiny comes to he stations from the Director of Sales position at Guaranty Broadcasting's nine stations in Louisiana... Progressive KISM/ Bellingham, WA PD Ken Richards segues to the same position at Active Rock KHTQ/Spokane, effective October 11. Richards replaces Gary Allen who remains in mornings... MTV Networks Online has appointed Mark Pasetsky Vice President of Communications. He most recently held the Director of New Media position at PR firm Middleberg & Associates... CBS has taken a 40 percent stake in the Women's Consumer Network, an online consumer service that targets women. CBS will provide \$50 million in advertising and promotion in exchange for their stake.

Big Name Artists In Short Supply On Microradio Tour

The Washington-based Low Power Radio Coalition is finalizing plans to stage over 30 club shows in over 20 cities in support of the FCC's polarizing proposal to create a new low power radio service. Artists participating in *Left Off The Dial: 10 Days For Low Power FM* are representative of the types of musicians that are rarely heard on the air. Mike Watt, Amy Ray of The Indigo Girls, Jenny Toomey, Girls Against Boys, and Archer Prewitt are among those scheduled to perform.

Watt is set to play nine shows on the tour. Ray intends to invite the FCC Commissioners to discuss low power radio before her October 8 show.

Other artists, like Bonnie Raitt and Jackson Browne, signed a letter to the FCC in support of LPFM but aren't involved in the concerts.

The shows are designed to raise public LPFM awareness, not money for the Coalition, its spokesperson told *fmqb*. Meanwhile, on the other side of the microradio issue, NAB President/CEO Eddie Fritts wrote a letter to Senator John McCain (R-AZ), reminding him the new service would "cause severe interference problems for existing FM radios" and "cause serious disruptions in service for literally millions of FM listeners — including your constituents." Is Fritts preaching to the choir? The powerful Senate Commerce Committee Chairman (and presidential hopeful) has been a vocal opponent of the proposal since FCC Chairman Bill Kennard first introduced it.

"You can't believe a word any of us says, let's get that straight right off the bat."

- Kevin Cronin, REO Speedwagon

"When you go all the way back to the dormitory, it was 1967, but we went through lots of people before the band started to define itself, which was right before the first album in 1971. So we start our official history then. We've caused a little confusion. Of course, you can't believe a word any of us says, let's get that straight right off the bat." - Kevin Cronin

For Neil, would it be scarier to play a guitar solo, sing, or answer a question about HTML?

(L-R): Rockline Producer Dominic Griffin; Rockline guest host Dave Adelson of E!; REO Speedwagon lead singer Kevin Cronin (center); REO Speedwagon manager Tom Consolo (far right).

If you ask me to sing, I and everyone else would run out of the building! And the main problem with these [headset] microphones is you can't get the beer to your mouth. The Web thing I can kind of do. The guitar, I can play one song, "Gloria." I have a good look now. Dave used to

yell at me for looking at my fingers, saying 'you don't look like a guitar player.' Now I look at the girls in the front row. You know, it's fun." - Neil Doughty

Programming:

- **WQCM/Hagerstown APD/morning man Mike Holder** has been upped to PD in the wake of **David Miller's** exit to the OM position at **AMFM's** Winchester, VA. cluster... Former **WCKW/New Orleans** morning show producer **Jack Storie** has joined Louisiana Rocker **WKSJ (Eagle 106.1)** as morning host/MD. Storie is in need of record company service which can be mailed to: **WKSJ, 200 E. Thomas St., Hammond, LA 70401.** Call Storie at (504) 345-0060...

- **Westwood One CEO Joel Hollander** tells *Radio Business Report* (9/27) the company is planning to roll-out a 24/7 Hot Talk format. News of an impending network comes on the heels of the recent conversion to Hot Talk of **WNEW-FM/New York** and **KYCY-AM/San Francisco** — both **Infinity** stations. **WNEW's** **Opie & Anthony** afternoon show may be the next program offered for syndication through Westwood One. Other **Infinity** and **WW1** talents that may help complete the network are **Howard Stern, Jim Bohannon, Larry King, David Essel, Don Imus, Don & Mike, G. Gordon Liddy, Tom Leykis,** and **Loveline.** Hollander said the network would also be offered to non-**Infinity** stations. **Westwood One** will present the *Net Aid* con-

cert event exclusively to radio on October 9. The network will also present the *Tibetan Freedom Concerts 1999* the weekend of December 10... **United Stations** will launch *The Net Music Countdown*, a new weekly countdown show based on tabulations of the most purchased or downloaded songs on the Web. The show will debut on October 25 with customized versions for **Modern Rock, CHR** and **Hot AC.**

Air Talent:

Barsky

- Still no PD announcement at **WMMR/Philadelphia** but the veteran rocker has secured a new morning host. **Paul Barsky** has been on **Greater**

Media's Philadelphia payroll since February, when he joined **WXXM** for wake-ups, after sitting out a non-compete with crosstown **WPLY (Y100).** But two months later, "Max" flipped to "Jammin' Gold" and Barsky was sidelined. The company began researching the 'MMR audience to see if *The Barsky Show*, which had aired previously on female appeal stations, would fly with male lis-

teners. "We tested a lot of people and determined that Barsky works for this audience," Greater Philadelphia Radio Group Director Of Marketing **Scott Segelbaum** tells *fmqb.* "Comedy is comedy." So Barsky, accompanied by his producer, **Ben Maxwell**, takes over 'MMR mornings October 4. That marks the end of the line for **Sack & Davis (Paul Sacilowski and Mark Davis)** — 'MMR's morning team since January '98, and newsman **Earle Bailey**, a 15-year station vet. Unlike past versions, 'MMR's *Barsky Show* won't be primarily Talk. Both parties agreed to play a minimum six songs an hour and to keep the 8:20 a.m. 20-song "Music Marathon" intact.

- **Modern Rock WPLA/Jacksonville** night guy **Dick Dale** moves to the morning chair at **WMMS/Cleveland.** Dale will still be voice-tracking his night show to 'PLA, along with **WZAZ/Columbus.**

- **St. Louis** market mainstay **J.C. Corcoran** is suing **KTRS-AM** for 90 days pay — equal to \$36,986 — for firing him without proper notice, according to the *St. Louis Post* (9/27). In the suit, Corcoran, who worked at **KTRS** June 14 - August 11, claims he was due a 90-day written notice prior to being let go... *Mancow's Morning Madhouse* has been picked up by

an AM "Extreme Talk" simulcast in the Worcester, MA market: **Chowder Broadcast Group's** **WORC** at 1310 in Worcester and **WGFP** at 940 in nearby Webster. The two simulcast as "The Raven"... **WPYX/Albany** afternoon drive host **Joel Marshall** will exit the station on October 8. Marshall has been named Webmaster at **WTEN-T/Albany...** **WWWV/Charlottesville** part-timer **Luke Church** has been named afternoon host/Promotions Director... **Mainstream Rock** **CHEZ/Ottawa** has hired crosstown **CKQB's** morning team of **Dan "Doc" Halen, Connie Bernardi** and newsman **Randall Moore.** They replace **Jim Hurcomb, J.R. Rogers** and producer **Dave Brown** who exit, according to *The Ottawa Citizen...* The syndicated *Bob & Tom Show* adds **Classic Rock** **KPEZ/Austin** to its affiliate list, displacing **Alan Price** and **Darren Todd**, who exit... At **WRAX/Birmingham,** PD **Dave Rossi** comes off-air, MD **Suzy Boe** slides from nights to middays and part-timer **Mark The Sideburned One** takes over nights... Former **KXUS/Springfield** afternooner **Tim Austin** joins crosstown **KZRQ** for middays... Former **WKQQ/Lexington MD** **Radioboy** joins **WKLS/Atlanta's** **The Regular Guys** as producer.

- **Connoisseur Communications** is in negotiations with **Regent Communications** to sell their radio station group, according to *MStreet.* No contract has been signed yet, but CEO **Jeff Warshaw** has told his staffers about the possible sale. **Connoisseur** currently owns 33 stations in medium markets including **Classic Hits** **WYFM/Youngstown,** **Rock** **WRQK/Canton,** **Modern Rock** **KORB** and **Classic Rock** **WXLP,** both in **Quad Cities,** **Rock** **WTRI/Evansville,** and **Classic Rock** **KCRR/Waterloo...** **Westwood One** has completed its acquisition of **Metro Networks** for \$1.2 billion in stock, creating the nation's largest provider of traffic news. **Westwood One** swapped 1.5 common shares for each share of **Metro.** **Metro** Chairman/CEO **David Saperstein,** **Metro** Director **Dennis Holt** and **Westwood One** President/CEO **Joel Hollander** have been named to **Westwood's** Board of Directors. The Board of Directors also approved a buyback of \$200 million of its stock...

AMFM has agreed to sell eight radio stations in Puerto Rico to **Spanish Broadcasting Systems** for \$90 million in cash. The stations involved are **WIOA-AM, WIOB-FM, WIOC-FM, WCOM-FM, WZMT-FM, WZNT-FM, WOYE-FM** and **WCTA-FM.** **AMFM** bought the stations late last year and turned a \$15 million profit on the deal... **Cumulus** has acquired **Cape Fear's** six-station group in North Carolina for \$47 million. As part of the deal, **Cumulus** picks up **AC** **WGNI-FM** and **R&B** **WMNX-FM** in **Wilmington,** **Hot AC** **WQSM-FM,** **Talk** combo **WFNC-AM/FM,** and **Rock** **WRQC-FM** in **Fayetteville.** **Cumulus** also closed an additional two deals involving 11 stations worth \$59.3 million. In **Eau Claire,** **Cumulus** snags six stations from **Phillips Broadcasting** for \$14.8 million. In **Lexington, Kentucky,** the group picks-up five stations from **HMH Broadcasting** for \$44.5 million.

Inc./Sony Corp.'s jointly held **Columbia House** and **CDNow, Inc.**... Sire/London VP/Promotion **Barry Pinlac** exits. Reach Barry at (212) 420-7027.

• According to *The Hollywood Reporter* (9/27), declining sales figures released this week by the **International Federation of the Phonographic Industry** are "arousing concern among music companies." Among the figures released this week by the IFPI are a 4 percent decline in global music sales during the first half of 1999. The London-based IFPI sites competition from other media vying for con-

sumers' money, plus an increase in piracy via the Internet and the emergence of alternative online distributors, as the reason for the overall decline in music sales... *The Hollywood Reporter* this week also reported that **Denon's Savoy Jazz** label, along with **Denon Classical** and new Rock/Pop imprint **Straight Line Records** (home to **Glimmer**), have agreed to combine forces and form **Savoy Entertainment Group**. SEG will sell its music and videos through a distribution agreement with **Atlantic Records**.

How To Get Authenticity On The Morning Show

A recurring theme in our society is authentic human emotion. In the new movie *Fight Club*, the characters beat the daylights out of each other, just to have some real human contact. What if we make it easy, by putting some real human emotion and contact on the radio!

Despite the obvious desire by the audience for authenticity, some morning shows remain stuck in the *Entertainment Tonight* and *People* magazine mold, although those concepts are ancient. The response we often hear from programmers is something to the effect of "But, that's what the audience is interested in."

Yes, the subject of Cher's battle with plastic surgery sells tabloids at the supermarket. And, an interview with the Backstreet Boys will drive ratings for *Entertainment Tonight*. Yet these mediums are very different from radio. There's nothing wrong with Cher and the Backstreet Boys as content, but don't forget radio has the potential to forge an emotional and intimate bond, which the listener never forgets.

Wouldn't it be great for your radio station to be able to claim such a bond? It starts with the morning show. Making it happen starts with learning to be authentic. You can't force being real. And "being real" is not doing the "Me-Show!"

At the Morning Show Boot Camp, **Randy Lane, Adam Goodman** and myself just scratched the surface of how to develop authentic content. We start with an exhaustive character map for everyone on the show. Exhaustive means you go deeper than, for example, Joe likes to drink beer and likes animals. List all your likes, hates, and hobbies. Write down where you live, where you were born, where you want to live, what foods you like and so forth. Leave no stone unturned.

As an example, remember Michael Corleone in *The Godfather*? Think of how well drawn a character he was. We knew he was 'the quiet one', the one they never wanted in the family, the war hero. Michael was the most unlikely guy you could ever imagine as the head of a crime family. His brothers said so! Well, that almost writes the story in itself, doesn't it? Michael had to ascend to become The Don. A solid character map is a great filter for all the content in the world.

The next step is show prep.

One of the things I do, both as a service to Randy Lane Company clients, and because I like doing it, is our daily show prep service "The Bobline". I'll send it to you for free, if we don't have any conflicts in your market. Just e-mail me at Bdavis7843@yahoo.com.

Anyway, I bring it up because reading out of the newspaper live on the air isn't show prep. You've got to go deep on a regular basis to find content to put through the character screen, or you'll be right back to Cher and the Backstreet Boys. As a morning show or personality, you are a reporter. You're always out digging for feature material.

Show prep services only scratch the surface. Every day there are many stories I exclude, just because I can't figure an angle, or I don't care. If you don't read voraciously then you have to have some other method of information intake. While watching TV is important, I think it sometimes is really just an excuse to do nothing. Read. Go out amongst the people. You take that material and combine it with the events of the day, and run it through your character profile and boom! Authentic Content! The next step is deciding what tactic to use to highlight the content and show off facets of your character.

It could be a conversation, a phone bit with the president, or using sound in some way. The main thing is to be real. Don't try to sound *like* someone you're not, or be something you're not. If you've done your character development work properly, this part is easy.

Tired of doing the same old benchmark? For example, current content refreshes "Battle Of The Sexes" to highlight how a man and a woman might react differently to being stranded on a ship in the Gulf of Mexico for four days. "The woman would have complained about the toilets, but as long as the man had cold beer, he could pee off the deck! The Coast Guard agreed. They said things weren't that bad, but you know, women are whiners!" See! That's a whole topical conversation wrapped around a benchmark. And that's just one item. Every day there are tons of things to talk about.

For example as I write this:

1. Bill Clinton is suing the tobacco companies for lying! Can you imagine?
2. Diana Ross beat up a security guard in London.
3. Scientists discovered the oldest known instruments (and they had "Elvis Lives" etched into them!)
4. A rave in Miami ended with two dead and two others in the hospital and hundreds of drug-related arrests. (Take this anyway you want: Anti or pro drug, or, like wow, what a party, dude!)
5. Heidi Fleiss - the Hollywood Madam - was released from jail. (Party at Charlie Sheen's!)
6. Drew Barrymore may reprise Jane Fonda's role in *Barbarella*. (Wow!)
7. Pamela Anderson Lee may run for office. (There are just so many possibilities with this one depending on your character.)
8. There's a new Clash compilation CD and documentary. (For the '80s fan in you.)
9. Shania Twain and the Dixie Chicks won CMA awards (sound).
10. Axl Rose made a statement about his new song that a philosopher would have trouble decoding.

All of these items have applications in the personal lives of the morning show, filtered through their character maps. The result is real, authentic content, tied to the events of the day. Stuff the audience can react to, and remember, depending on what you make of it on the air.

The storytelling dynamic of the spoken word is the bedrock of our medium, and it is ever more important for personalities. It gives us an opportunity to share our thoughts and reactions to the day's events, and form human bonds with the audience.

While they may be interested in Cher's facelift, they're going to think a lot longer about what it would be like to be stranded on a ship with their boyfriend, if you do it right. And they'll remember you because you'll be deeply associated with that emotional memory.

Zen Mafia
"California," Kneeling Elephant/RCA

(www.zenmafia.com; www.kneelingelephant.com)

- This fun song cribs its riff and chorus from Lynyrd Skynyrd and features a vocal contribution from The Cult's Ian Astbury.

- of "Sweet Home Alabama" will perk ears up and make phones ring.
- Three (KRXQ, KZGL, CFOX) have already come home to "California."

Ben Harper
"Burn To Shine," Virgin

(www.benharper.com; www.virginrecords.com)

Laidlaw
"Send My Baby Home" Beyond Music/Americoma

Rage Pick A Title And Hit The Road

Rage Against The Machine

If you can't wait until the November 2 street date to get a taste of Rage Against The Machine's third album, *The Battle Of Los Angeles*, you can download two tracks from the album at www.realguide.com/ratm. You can hear the lead track, "Guerilla Radio" (which goes to radio on Tuesday - 5), along with "Testify," beginning October 12. Additionally, fans who buy the album will be able to download an exclusive live track via a private RealJukebox Web site. Rage has scheduled a handful of secret club dates in the U.S. in advance of the album. Dates include tomorrow night (2) in New York (with special guests Public Enemy), Halloween in Washington, D.C. and L.A. on November 5, which will be broadcast by KROQ. Rage will also be taking part in the *Coachella Festival* in Indio, California on October 10, and will be taping a concert for MTV in Mexico City on October 27. Rage will be performing in the street for *Letterman* on November 2, and will hang with Carson Daly on MTV's *Total Request Live* the next day. They will also perform on an L.A. edition of *Late Night With Conan O'Brien* on November 11. The complete track listing for *The Battle Of Los Angeles* is as follows: "Testify," "Guerilla Radio," "Calm Like A Bomb," "Mic Check (Once Hunting, Now Hunted)," "Sleep Now In The Fire," "Born Of A Broken Man," "Born As Ghosts," "Maria," "Voice Of The Voiceless," "New Millennium Homes," "Ashes In The Fall," "War Within A Breath."

Third Eye Blind Ready Sophomore LP

The members of Third Eye Blind have been burning the midnight

Third Eye Blind

oil to get their new disc done in time for its slated November release, regularly putting in 18-hour days. The album remains unnamed, but the band reportedly has 20 songs already committed to tape. Production for the album will be credited to The Mudd Sisters, which is actually a pseudonym for lead singer Stephan Jenkins. TEB will play New Orleans' *VooDoo Fest* on Halloween, and plan on hitting the road in earnest in February.

R.E.M. Go To The Moon

With their *Up* tour in the books, R.E.M. are prepping for their next release, the soundtrack to the Andy Kaufman biopic, *Man On The Moon*, which is due in November. The album will feature "The Great Beyond," which R.E.M. debuted on their recent tour. An orchestral version of the track will also appear. *Man On The Moon*, which stars Jim Carrey, opens on Christmas. Speaking of films, lead singer Michael Stipe's Single Cell Pictures will have its *Being John Malkovich* (directed by Spike Jonze), in theaters on October 29. Word is that Single Cell is also trying to develop a TV show that would take a behind-the-scenes look at the music biz.

Nine Inch Nails Hit The Road

While it looks as if Nine Inch Nails won't be gigging in the U.S. until at least early 2000, their official Web site - www.nin.com - has posted a slate of European dates. The band's European tour kicks-off November 14 in Barcelona, and winds down with two dates in London on November 29 and December 1. These shows mark Trent Reznor and company's first shows in five years. We'll have U.S. dates as soon as they become available.

More NetAid News

Organizers for the upcoming *NetAid* shows, set for October 9, claim it is going to be the largest live radio broadcast ever. The New York, London and Geneva event will be broadcast in over 120 countries and territories by syndicator Radio Express. New artists joining the *NetAid* shows include The Black Crowes, Sheryl Crow and Jewel. All three will perform at the Giants Stadium show, which kicks-off at 5:00 p.m., Eastern. The London show starts at 5:00 p.m. local time, and the Geneva show at 10:00 p.m. local time. For more information, visit www.netaid.org.

Axl Speaks, And Speaks, And Speaks, And Speaks, And...

So you say you tuned into the 1999 MTV Video Music Awards just to hear the 20-second snippet of the new Guns N'Roses song, "Oh My God," in the *End Of Days* commercial and want to hear more about the song? You're in luck, because Axl Rose has issued a statement about the song: "So here's the story behind the music... The chorus: OH MY GOD etc. deals with the societal repression of deep and often agonizing emotions - some of which may be willingly accepted for one reason or another - the appropriate expression of which (one that promotes a healing, release and a positive resolve) is often discouraged and many times denied. Emotionally the song contemplates several abstract perspectives drawing from personal expression as well as from the film (*End Of Days*) and its metaphors. The appropriate expression and vehicle for such emotions and concepts is not something taken for granted.

"Musically, the song was primarily written by Paul Hufe over two years ago, with Dizzy Reed writing the musical hook of the chorus. Former member Duff McKagan as well as former employee Matt Sorum failed to see its potential and showed no interest in exploring, let alone recording the piece. When the demos were played for the new band, Josh (Freese, drums), Tommy (Stinson, bass) and Robin (Finck, guitars) were, as they say, 'all over it.'

"Once the opportunity was presented, the song was given prior-

ity in our recording process. As the verse, performance and lyrics were decided on, for us (that especially includes Interscope chairman Jimmy Iovine) the choice became obvious. We were more than pleased Mr. Roswell (the film's music supervisor) agreed! Our thanks to Arnold and all for the consideration - it is an association in which we have always felt honored.

"Paul Hufe, Gary Sunshine and Dave Navarro appear on the song as well as Robin Finck. Robin's part was written by Paul and extensively manipulated by our producer, Sean Beaven. Robin was not involved in the writing of the final recording though did participate in the arrangement. All lyrics were written by myself. Additional programming (jack boots, screeching tires, etc.) was by Stuart White.

"The fight of good vs. evil, positive vs. negative, man against a seemingly undefeatable, undeterrable, unrevealed destiny, along with the personal and universal struggle to attain, maintain and responsibly manage freewill can be and often is frustrating to say the least. In America, our country's constitutional right to freedom of expression gives us a better chance to fight for that expression than many in other countries enjoy. It can be a big gig, like kickin' the crap outta the devil!

"Power to the people, peace out and blame Canada, Axl"

Former Judas

Priest singer Rob Halford has pulled the plug on his Two project and is planning on diving back into his more traditional Metal roots. According to his Web site (www.two-online.com), Halford has severed ties with Trent

Reznor's nothing label (which released the Two album), and his next project will be dubbed simply "Rob Halford." To help with the transition back to Metal, Halford has enlisted the aid of former Priest producer Tom Allom, and the producer of Halford's first solo project, Fight, Atti Bauw. Halford

also plans on collaborating with songwriter Bob Halligan, who co-penned the Priest tracks "Some Heads Are Gonna Roll" and "(Take These) Chains." No word on if any members of Two will join Halford for his next album, but guitar whiz John Lowery (now John 5), left last year to join Marilyn Manson. Halford is currently looking for a new label.

A who's-who of Rock and Metal have turned-out to help Black Sabbath axe-man Tony Iommi with his first official solo album.

Sabbath's Web site reports that an ad running in Todd McFarlane's *Ozzy Osbourne* comic book lists guests including Billy Corgan, Pantera's Phil Anselmo, The Cult's Ian Astbury, Queen's Brian May, Rob Halford and Ozzy himself contributing to the album. Other sources say that Dave Grohl and Type O Negative's Peter Steele also laid down some tracks for the album. Iommi's manager has said that although a number of artists did contribute to the album, due in

February, there's no guarantee that they'll all make the final cut.

Once The Black Crowes wrap-up their handful of dates with Jimmy Page, they'll head back into the studio to work on the follow-up to *By Your Side*. The Brothers Robinson have already penned nine songs for the album, including the tracks "Bled To Death" and "Cypress Tree." Chris Robinson has been quoted as saying the new material is much heavier and darker than previous efforts.

With their ninth studio album, *Risk*, closing in on gold and "Insomnia" scaling the Rock radio charts, Megadeth has announced dates for the first leg of their North American tour. Kicking-off next Saturday (9), the tour will take them through November. Here's where you can catch Megadeth: 10/9, Phoenix and Chula Vista; 10/10, San Jose; 10/15, Tucson; 10/16, Albuquerque; 10/17, Amarillo;

rock report

It's no surprise

that obtaining a ticket to Bruce Springsteen & The E Street Band's reunion shows has been tough. Through the kindness of strangers, the *Rock Report* scored a ducat for The Boss' fourth show out of six in Philadelphia. According to long-time Springsteen supporter, radio personality Ed Sciaky, the show was one of the Bruce's best on the tour. Performing in front of over 20,000 dyed-in-the-wool fans at Philly's First Union Center, this marked Bruce's last live gig before turning the big '50.' While Springsteen's show does have its mainstays in the set — "Badlands," "Prove It All Night,"

"Born To Run," "Thunder Road," "Promised Land," "Ghost Of Tom Joad," "Light Of Day," "Murder Inc.," and "Youngstown" among others — the 9/21 show offered up a surprising selection of seldom performed material. Opening with a playful rendition of Chuck Berry's "Little Queenie" (it was so unexpected that Bruce had to tell the band what key the song was in), The Boss treated the crowd to such rarities as "Take 'Em As They Come," the B-sides "Be True" and "Janey Don't You Lose Heart" (first-time airing on this tour of both cuts), an elegiac reading of "Meeting Across The River," and "Cadillac Ranch." Unlike earlier shows on this U.S. trek, Bruce's performance seemed less staged and calculated and more inspired. Near the end of the show a gigantic roar from the crowd cascaded through the arena when a huge "Happy Birthday Bruce" banner dropped from the ceiling. While many other reunion tours come off as forced and less than inspired, last week's show was another striking re-affirmation of the untamed power and glory of Rock and Roll.

Several weeks ago we told you about The Who's reunion show at the House of Blues in Chicago on November 13 and their appearance at The Bridge School Benefit show on October 30-31. Now the band has announced a new date at the MGM Grand in Las Vegas on October 29. Don't be surprised if additional shows around the country are booked. Stay tuned for more developments.

The female poet laureate of the '70s, Patti Smith, is profiled in a new tome, *Patti Smith: An Authorized Biography* (Simon & Schuster). Written by N.Y. scenesters Victor Bockris and Roberta Bayley, the book offers a compelling portrait of the legendary

female artist, drawing on scores of interviews with friends, family and fellow musicians along with archival conversations with the priestess of Punk, Smith herself. Tracing her beginning in South Jersey and Philadelphia, Patti Smith paints in vivid detail Smith's meteoric rise from a Greenwich Village street poet to worldwide acclaim as one of the most arresting and seminal artists of her time. You'll learn about the rise and fall of Smith's dedicated band, her friendship with idol Bob Dylan, the effect of the Velvet Underground's John Cale on her decision to become a musician and, lastly, Smith's ultimate self-imposed retirement from the biz and her resurrection in the late '90s.

BITS & PIECES... Estranged member Cindy Wilson is slated to reunite with her former B-52's band mates for a special AIDS benefit to be held on October 7 in Athens, Georgia, home of both the B-52's and R.E.M.... Black Crowes fans should swoop down and pick up the band's new import maxi-single for "By Your Side." Along with the title cut, the record features three previously unissued tunes: "Grow A Rose," "Peace Anyway," and an acoustic rendition of "Horsehead."

The Fragile Could Have Been Three CDs

More than a million copies of the first new Nine Inch Nails album in five years were waiting in stores for fans on Tuesday, September 21. Will it be a hit as big as *The Downward Spiral* or another high profile flop? Even Trent Reznor sounds like he doesn't know what to expect. "You can't worry about that in the studio," he says. "I made the record I wanted to make and I am just hoping for the best in terms of audience response. We're not where we left off in popularity. I don't know where we are." In an interview with the *New York Times* a year ago, Reznor said he expected to have a new album out by the end of 1998. He blames the long break between releases on the two-year tour he did for *The Downward Spiral*, other projects like film soundtracks, personal pressures such as a death in the family and his falling out with Marilyn Manson, and being treated for a slight case of depression. The realization that he loved performing and listening to music finally helped him start recording but even then it still took two years to finish *The Fragile*. Reznor said at one point he was working on as many as 45 songs. "Every time it seemed like the album was complete," he explains, "there were already five more songs ready to go. I finally realized that if I didn't stop, I was going to end up with three CDs."

Bush Single Only To Be Sold On Web

One of the fastest rising songs in the U.S. is only available on the Internet. Trauma Records announced that Bush's "The Chemicals Between Us," will be sold for 99 cents on www.Emusic.com. Fans can

also pre-order the album and get the song's video as a bonus. *The Science Of Things* will be in stores on October 26. Bush, meanwhile, is already preparing to shoot their next video for the song "Jesus Online."

McCartney To Release Third Classical Album

Some of his most popular ballads inspired the string quartets on Paul McCartney's third Classical recording which will be released October 16. "Maybe I'm Amazed," "Warm And Beautiful" and "My Love," along with "Calico Skies" and "Somedays" from his last album, *Flaming Pie*, are among the songs that inspired the quartet arrangements on *Working Classical*. After launching his latest Rock album, *Run Devil Run*, in the U.S., McCartney will be back in Liverpool on October 16 for the World Premiere of his latest Classical pieces performed by the Royal Philharmonic Orchestra under the direction of Andrea Quinn. The Loma Mar String Quartet, who performed at the memorial service for Linda McCartney in New York last year, perform 11 of the 14 compositions on the recording and will perform at the Liverpool premiere. The London Symphony Orchestra is on the recording's other three pieces.

Stars Flickering Out For Down Under Millennium

For a while it looked like Down Under was going to be the place to be to ring in the next millennium with concerts by David Bowie, Michael Jackson, Sting, and a WARPED tour date. But Bowie withdrew last month from the *First Light Festival*, Sting got a better offer in New York, and now the promoter has pulled out of Michael

Jackson's planned Sydney concert. Jackson's concert was to be his first of two for the millennium. After the Sydney show, he was to fly across the International Dateline to Honolulu where it would be New Year's Eve again and do a second concert. Reps for Jackson are still trying to work it out, but because time is running out, few expect the show to go on. Meanwhile, WARPED tour promoters say they have nothing firm to report at this time.

Family Values Ticket Upgrade

Fans hoping for better seats at shows on the *Family Values* tour should check out the tour Web site at www.artistdirect.com/family-values. Winners of Karaoke contests will be able to turn in their nosebleed seats for premium seats. The site also has the usual news and tour info.

All-Star Version Of "It's Only Rock And Roll" For BBC

An All-Star version of The Rolling Stones' "It's Only Rock And Roll" will serve as the BBC's Millennium Celebration theme. Annie Lennox, Jon Bon Jovi, James Brown, The Spice Girls, Chrissie Hynde, and Fun Lovin' Criminals have all recorded a line from the Top 10 hit from 1974. Stevie Wonder and B.B. King are also expected to contribute to the project. The idea has already sparked controversy in England where critics say it's inappropriate to mark the 2,000th Anniversary of the Birth of Christ with song lyrics that refer to sticking a knife in a heart, suicide and teenage lust. The song will be sold as a single with all the proceeds going to the Children's Promise Organization. Workers

are also being asked to donate their wages from the final hour of 1999 to the cause.

The Crowes Sell Out, Again

A sixth show in the U.S. by Jimmy Page And The Black Crowes, October 16 in Worcester, Massachusetts, was a sell-out the first day tickets went on sale. New York and Los Angeles are the other cities on the itinerary in the week-long run.

Genesis Return

"The Carpet Crawlers 1999" with new vocals by Peter Gabriel and Phil Collins is available for download from the Genesis site at www.genesis-web.co.uk until October 25. The next day *Turn It On Again*... *The Hits* will be in stores.

Hootie Gives Lecture On "Careers In Rock Bands"

Hootie And The Blowfish shared secrets of their success with students at San Diego State University last week. They know what they are talking about. They managed themselves all the way to the top, setting up their own company to handle their affairs instead of relying on a manager. About 40 students attended the hour-long free lecture titled *Careers In Rock Bands*. Guitarist Mark Bryan told the students that Hootie is quite satisfied with the two million sales of their latest album, *Musical Chairs*, even if it's not as much as *Cracked Rear View*. "What a place to level off" is the way he put it. After the lecture the band played a concert in the school's outdoor theater.

ACTIVE ROCK 18-34

the insidetrack

A number of stations have come to the aid of the victims of Hurricane Floyd. WXRA/Greensboro, NC held a "Rock 'N' Roll Auction" featuring a boatload of music and sports memorabilia. Over \$60,000 has been raised, so far. Over in Nags Head, WOBR held a "Rock-A-Thon" pledge drive which pulled in \$13,000. Here in Jersey, WDHA/Dover played anything for money, during "Floyd Aid Friday" (9/24). Pledges started at \$25.00 per request, with the more off-the-wall requests pulling in \$105.00! All monies raised went to the New Jersey Red Cross... We told you last week that KEGD/Dallas was looking to double its lineup for this years *Freaker's Ball*. Well, they've done that, and then some. The bill to the October 30 show now boasts 12 bands on two stages. The "Metal Mayhem Mainstage" will feature Megadeth, Danzig, Sevendust, Coal Chamber, Static X, Chevelle, Loudmouth, and Slipknot. The "Carnage In The Cage Sidestage" will feature Machine Head, Orange 9mm, Dope, Amen and more bands to be announced later. The Eagle is working on getting a few celebrities to help

MC the show, which will include a costume contest. PD Greg Stevens says expect a "three-ring circus Halloween debacle. Tickets are priced at \$22.50... WWDC/Washington has secured the rights to the End Zone bars, at both ends of the concourse at Redskins Stadium. The DC101 Rock Bars did brisk business during the season opener against the Dallas Cryboys. (View pictures at www.dc101.com.) The Redskins Band plays in the west bar before the game; the station spins tunes in the east bar. The bars remain open after the fourth quarter for people waiting for stadium traffic to clear out... CFOX/Vancouver's Larry & Willy awarded one lucky winner a salary of \$30,000 tax-free. The 30 grand was the big prize in *The Fox's Payroll Contest*, where listeners became employees earning an hourly rate of \$100.00 to \$150.00 an hour.

Singles/EPs

COUNTING CROWS "HANGINAROUND" (DGC)

We're not normally bettin' folks, but we'd wager a nice chunk of change that

"Hanginaround," the first track from Counting Crow's forthcoming album, *This Desert Life*, is next week's most added. Two listens to this gem and our heads were infected with the melody like some sort of satanic plague. We suggest you calmly obey and do the same.

CROSBY, STILLS, NASH & YOUNG "NO TEARS LEFT" (REPRISE)

This Rocks. Stephen Stills vocals and great guitar work make it very relevant for

today while giving more than a nod to the band's history. And, if it Rocks too much for you, check out the Neil Young contribution, "Looking Forward." We'd tell the band to "break a leg" but Nash has that covered. We're hoping his recuperation is speedy, getting them on the road as planned!

LORI CARSON "TREASURE" (RESTLESS)

"Treasure" is the first single from Lori Carson's fourth solo album, *Stars*. Those famil-

iar with her work will be pleased. Carson remains as intoxicating as ever; her whispery vocals continue to set her apart from the plethora of female singer-songwriters available for airplay. She sounds as good as ever.

JOHN OSZAJCA "BACK IN 1999" (INTERSCOPE)

John Oszajca's debut album, *From There To Here*, won't hit until early next year, but

the first cut from the album is sure to pick up lots of airplay before, and hopefully after, Y2K reeks disastrous havoc around our planet (in less than 92 days). This song's an obvious hit on one listen, so play it now before your station has to trade off the transmitter for water and supplies.

GARBAGE "THE WORLD IS NOT ENOUGH" (MCA)

Yet another amazing band gets "Bonded." James Bonded that is. What is it

about .007 that sends even the most interesting artists and bands into Shirley Bassey territory? Not that that's a bad thing, by any means. So Garbage gets to be the latest modern band to unite the over-the-top Bond theme style to their own. We were shaken *and* stirred.

EURYTHMICS "17 AGAIN" (ARISTA)

Since everyone else in the free world has reunited, why not Dave Stewart and Annie

Lennox? Their first new track since the Bush administration, "17 Again," captures the duo in fine form. The time spent apart hasn't diminished their spark one bit. *Peace* will be in-stores on October 19 with extensive touring to follow.

THE SMITHEREENS "SHE'S GOT A WAY" (KOCH)

One of the most underrated Power Pop acts of all time returns with an invigorating

dose of hook-filled guitar Rock. You've probably got half-a-dozen Smithereens tracks in your library that always sound great on the air, if not more than a full dozen. Make room for one more. When you get the album, you'll want to make room for at least four more.

BARENAKED LADIES "GET IN LINE" (ELEKTRA/EEG)

Who knows if 'ol Hank Hill is a Barenaked Ladies fan, but the format sure will

groove on this new track from those zany Canucks, the first one from the soundtrack to Fox's *King Of The Hill*. A soon-to-be Barenaked Ladies classic. Who would have thought that these quirky Canadians would become so popular (other than us chickens)?

FIONA APPLE "FAST AS YOU CAN" (CLEAN SLATE/EPIC/550 MUSIC)

"Fast As You Can" is from *When The Pawn Hits The Conflicts He Thinks Like A King What He Knows Throws The Blows When He Goes To The Fight And He'll Win The Whole Thing 'Fore He Enters The Ring There's Nobody To Batter When Your Mind Is Your Might So When You Go Solo You Hold Your Own Hand And Remember That Depth Is The Greatest Of Heights And If You Know Where You Stand Then You Know Where To Land And If You Fall It Won't Matter 'Cuz You'll Know That You're Right*, Fiona Apple's second album and the undisputed winner of world's longest album title. The first track is great, changing textures at least three times. We can't wait for the title track.

Albums

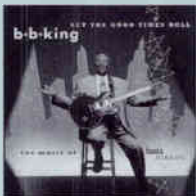

PAULA COLE BAND AMEN (IMAGO/WARNER BROS.)

Paula Cole is a great talent. Her many abilities, from producer and songwriter to remarkable lyricist and vocalist, should continuously make her a format favorite for years

to come. Her latest offering, *Amen*, has been released with a great deal of expectation and fans will be delighted to know that it delivers. Like her breakthrough, *This Fire*, Cole's brilliance is not heard in one listen. Give *Amen* time and it will pay off. Spin "I Believe..." "Be Somebody," "Pearl," "La Tonya," and the title-track.

B.B. KING LET THE GOOD TIMES ROLL (MCA)

B.B. King is like what? 107 years-old? And he's released what? Like 600 albums? All you young whipper-snappers take heed: B.B. King is a living legend who continues to

put out quality product, perform live shows that are more like church than a concert, and generally persists in kicking major ass. *Let The Good Times Roll: The Music Of Louis Jordan* is a fine jewel in the King's crown. A tribute to the late Jazz/Blues/Swing vocalist and saxophonist, this album boasts 18 tracks to choose from.

DAVID BOWIE HOURS... (VIRGIN)

While everyone seems to be pegging *hours...* as a return to mid-'70s form for Bowie, everyone is overlooking the quality of the songs. One of Bowie's most song-intensive

efforts to date, *hours...* finds him giving a nod and a wink to his past (on tracks like the agitated "The Pretty Things Are Going To Hell"), while simultaneously beaming headlong towards the year 2000 ("Something In The Air," "What's Really Happening?"). The lead track, "Thursday's Child," is Bowie's most radio ready track in ages.

PAUL MCCARTNEY RUN DEVIL RUN (CAPITOL)

This album presents Sir Paul having what must be the best damn time that he's had in quite awhile. If you can stop your toes tappin', you're a prime party pooper.

You'll find 12 covers of tunes that McCartney has loved since he was in his teens and three originals that match sonically. *Run Devil Run* may not always sound compatible with today's playlists, but some of the tunes are timeless. "Blue..." "All..." "Brown..." "What..." "Shake..." and "I Got..." are all as worthy of air-play as the originals.

JULIAN SMITH NOBODY KNOWS (BAJABOY)

After one listen to the smooth grooves and dreamy vocals on Julian Smith's *Nobody Knows*, it's clear why he's getting air-play on stations like

WXPN, WYEP, KMMS, WNCW, WMNF, and WNKU. The Nashville-bred, L.A.-based Smith has been described as "a cross between Chris Isaak and Aaron Neville." That's an apt description of Smith's sound, but listen to the disc and you'll unearth much more. "Get Back," "Man Enough" and Smith's excellent cover of "Bridge Over Troubled Water" are enough proof.

WILLIAM TOPLEY SPANISH WELLS (MERCURY/DJMG)

With his rich baritone voice way up front, and subtle bursts of liquid guitar racing around in the background, William Topley's forthcoming LP, *Spanish Wells*, sounds like

his most realized offering to date. Tracks like the slow-burning opener "Kingston Morning," and the lilting groove of "Ten Ten" spell out as much in the album's first ten minutes. Elsewhere, Topley exercises his creative guile in fascinating and vibrant ways. Highlights include "Upon The Vine," "Walk Like I Do" and "Cowpoke."

Emphasis Tracks

VERTICAL HORIZON "EVERYTHING YOU WANT" (RCA)

The title track from Vertical Horizon's major-label debut should put this band over-the-top. Make it a priority.

PRETENDERS "POPSTAR" (WARNER BROS.)

The next from *Viva El Amor!* Not playing this yet? What are you waiting for, permission?

CIBO MATTO "MOONCHILD" (WARNER BROS.)

"Moonchild" finds the ladies in Cibo Matto exploring a Trip-Hoppy territory that sounds like a winner.

Bipartisan Concert?

At the suggestion of President Clinton and First Lady Hillary Rodham Clinton, VH1 has lined up artists including B.B. King, Eric Clapton and Garth Brooks to perform at a charity concert in Washington D.C. next month. *The Concert of the Century for VH1 Save the Music* will be broadcast live October 23 from an as-yet-undetermined venue in the nation's capital. VH1's *Save the Music* program raises funds to re-establish music programs at schools across America. The Clintons have committed to attend the concert, and are expected to speak. Ben Affleck, Angela Bassett, Meryl Streep and Billy Bob Thornton will serve as hosts. Other artists that have signed on for the concert include Aretha Franklin, John Fogerty, John Mellencamp, Bono, Susan Tedeschi, Sheryl Crow, Lenny Kravitz and 'N Sync. Paul Shaffer, leader of the *Late Show With David Letterman* band, will serve as the event's music director.

No Giants In Candlestick

Grateful Dead members Bob Weir, Phil Lesh and Donna Jean Godchaux MacKay sang the national anthem Thursday (9/30) prior to the final San Francisco Giants baseball game at 3Com Park, the windy stadium formerly known as Candlestick Park. The Giants will move to a new baseball-only ballpark dubbed Pacific Bell Park next season, leaving the building to the San Francisco 49ers. The Giants opened their final home series at the much-maligned stadium Tuesday (9/28) against the Los Angeles Dodgers with the Doobie Brothers (another Bay Area-based band) performing the anthem. The 39-year-old Candlestick Park is the second-

oldest ballpark in the National League. Chicago's Wrigley Field, built in 1914 is the oldest. The Weir-led band Ratdog embarks on a theater tour on October 21. Phil Lesh & Friends will hit the road with Bob Dylan in late October.

Man In The Moon

R.E.M.'s new album, the soundtrack to the Milos Foreman-directed film *Man In The Moon*, is set for release in November through Warner Bros. The film, based on the life of comedian Andy Kaufman, is set to open in the U.S. on Christmas Day and stars Jim Carrey and Courtney Love. The title was inspired by the R.E.M. song which was also about Kaufman. The album was recorded in Los Angeles with Pat McCarthy at the studio belonging to Eric Erlandson (Hole) in June.

Mother Of All Box-Sets

Sony Music is to release a 500-track, 26-CD collection of some of the most important musical moments from the Columbia Records archive next month. According to the Sony Web site, the mammoth box-set is to be released on October 12. No details are yet available on what the box set will contain, though it is believed to go back to the earliest available recordings in the archives. Notable artists who have recorded for the label include Bob Dylan, Bruce Springsteen, The Byrds, Michael Jackson and Frank Sinatra. There is speculation that the *Soundtrack For A Century* will contain the original 1962 Bob Dylan audition tape which won him his recording contract with the label. The set is expected to cost more than \$300. We're sorry to report that Sony is not accepting sacrifices of co-workers or barn animals in exchange for this set.

Runner-Up

Rhino Records has done it again. On October 5 they will release the first-ever overview of women in recorded music, *R-E-S-P-E-C-T: A Century Of Women In Music*. A 5-CD box set boasting a head-turning 114 songs, *R-E-S-P-E-C-T* spans from 1909 to 1998 and includes an enormous range of influential artists, as well as sound bites throughout offering commentary on various events by prominent women, such as Marilyn Monroe and Billy Jean King. Musically, everyone from Ethel Merman, Sophie Tucker, and Billie Holiday to Ani DiFranco, Yoko Ono and Sarah McLachlan is present in this expansive set. Also featuring an original painting on the cover by artist Christine Haberstock, Rhino's latest boxed offering should top many Christmas lists and is certainly a Grammy contender. It's effortlessly one of the year's best.

And Again...

Forty years' worth of Grammy winners will be featured in a new 4-CD set. To be released November 16, *The Ultimate Grammy Box* (Columbia/Legacy) will comprise 73 musical performances and artists that have either won a Grammy or been voted into the Recording Academy's Hall Of Fame which was established in 1973. Tracks from the Rock, Soul, Pop, R&B, Latin, Jazz, Folk, Country, and Classical genres are represented. The selections will be sequenced in non-chronological order, in order to take the listener through a journey of tastes and times. Acts represented on the set include Billie Holiday, Marvin Gaye, the Beach Boys, Paul McCartney & Wings, Stan Getz, Vladimir Horowitz, Bonnie

Raitt, Herb Alpert & the Tijuana Brass, the Jimi Hendrix Experience, the Bee Gees, Yo-Yo Ma, Roy Orbison, Santana, Gloria Estefan, and Miles Davis, among others. In addition, the box will be packaged with extensive liner notes by journalist and Grammy insider Robert K. Oermann.

Bid Early And Often

Squirrel Nut Zippers sax player Ken Mosher says that he isn't sentimentally attached to his gold records. Mosher is selling the gold record he received for the band's 1996 breakthrough album, *Hot*, on the Internet auction site eBay. In an e-mail posted at the auction, Mosher explains that he recently found a "terribly expensive '54 Les Paul Junior" that had become available, and that he was selling some vintage microphones, as well as the gold record, in order to finance the purchase. "The responses of concern from friends and fans has been overwhelming," Mosher writes. "We have not been working in the past 10 months. I just don't want to go broke, and collecting expensive equipment when you aren't working will bankrupt you." The band is currently scheduled to head into the studio in October to record its next studio album, having taken a break following the release of its holiday album, *Christmas Caravan*, late last year. In that time, they've lost a prominent member, multi-instrumentalist Tom Maxwell, and have had to contend with legal issues surrounding their name. Mosher started the bidding at five dollars and only expected the record to bring in "a sale amount of \$50 to \$75." The latest bid was just over \$200, with more than nine different fans having bid.

On The Cafe

Look for these artists on the *Acoustic Cafe*: Week of 10/4 - Dido; Week of 10/11 - All covers show; Week of 10/18 - Bruce Cockburn; Week of 10/25 - Cindy Bullens; Week of 11/2 - TBD. Coming in November Willy Porter, Catie Curtis and many more.

MUSIC MAILBAG:

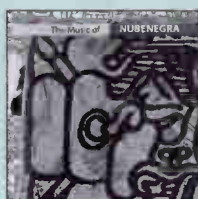

The catchy antics of **Andrew Bird's Bowl of Fire** is captured on disc, *Oh! The*

Grandeur!, by our friends at Ryko and is the bee's knees. A comparison to the **Squirrel Nut Zippers** is inescapable, and while the group is in the same genre, Bowl Of Fire has a mysterious and melodic undertone that makes for great late night listening: "Candy Shop," "Wishing For Contentment," "Vidalia," "Beware," "Coney Island Shuffle," and "Confession."

Any group that covers the "Beef: It's What's For Dinner" song is okay by us! That song is

better known as "Hoedown" by **Aaron Copeland** and it's given the Celtic treatment on *Grand Hotel* by **Mad Pudding**. The vibrant group from the Great White North merges traditional and contemporary styles: "Léon Accordéon," "Cool Fount Of Love," "First We Take Manhattan," and "Robika." For service call **Biff Kennedy** at (215) 641-0459.

Nubenegra is a label that was founded in Madrid by **Manuel Domínguez**. Since 1994

he's been releasing albums of music from around the world.

The sampler, *The Music of Nubenegra*, features 20 songs from Cuba to the Sahara. Our favorite is "Ausencia" from **Buena Vista Social Club** singer **Omara Portuondo**, but we also liked "Ami cu Awini," "Mirándote," "Cuando Se Canta Bonito," "Alma De Coral," "Rea," and "Go Braucha." For service call **Elizabeth Thompson** at (919) 286-1788.

Love Gotcha (Blind Pig), the new album from **Lloyd Jones**, has got us in a tizzy. This is not some cheesy bar band, it's real Blues, baby! Jones is no newcomer to the music scene, he's been playing professionally since the early '70s and hasn't stopped since. Check it out: "I Declare," "Treat Me Like The Dog I Am," "Old News," and "Fools Gold." For service call **Armando Silva** at (415) 550-6484.

The Gospel Accordion II (HTS) is the second album from **Alt. Country** group

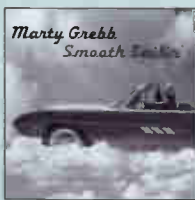

Mulehead. An esoteric mix of religious references and redneck hobbies, **Mulehead** is a band that defies description. You'd be better off just listening to the album: "Cheap Red Wine," "Out Here In The Pines," "Ozark," "When The Dope Ran Out (So Did She)," and "Dig My Grave." For service call **Mark Pucci** at (770) 804-0027.

Speaking of Country, **Katy Moffatt** has a new album out produced by **Dave Alvin**,

Loose Diamond (Hightone). **Alvin** knew exactly what would make **Moffatt's** voice sound great. With a crack team of musicians in the studio behind her, this could possibly be **Moffatt's** most commercially accessible effort to date.

Check out: "Fools Fall In Love," "The Cuckoo," "Whiskey Money & Time," "Stoned At The Jukebox," and "So Long Baby Goodbye." For service call **Darrell Anderson** at (510) 763-8558.

If you've heard **Bonnie Raitt** (and we know you have) you've heard **Marty Grebb**. His

new album *Smooth Sailin'* (Telarc) features a duet with Ms. Raitt on "Soul Mate." **Taj Mahal** and **Doyle Bramhall** also appear on this album. "High Wire Walker," "Mississippi Muddy Water," "Hen House," "A Godsend," "Bad Blood," and "Memphis Shelter." For service call **Vikki Rickman** at (216) 464-2313 x.228.

Blues On My Back (Telarc) is the new album from Texas Bluesman **Troy Turner**.

With chops as good as **Stevie Ray's** and a voice like **B.B.** (no kidding!) this man is the real deal and he packs a whallop. **Troy Turner** will kick your bootie all over the place! Check out: "Baby Let's Play House," "Later Than You Think," "Hide Away," "If This Is Love," and "Mojo Boogie." For service call **Vikki Rickman** at (216) 464-2313 x. 228.

Putumayo has put out another exciting album of World music. On *Cape Verde*, the music hails from the Cape Verde islands off

the coast of Africa. Mysterious and romantic, the music of **Cape Verde** combines

many different styles including **Fado** and **Samba**. We liked "Pays Sol," "Cabo Verde Manda Mantenha," "Injuria," "Tchon di Massa Pé," and "Galo Bedjo." For service call **Jennifer Daunt** at (510) 526-8221 x. 104.

Louisiana is a great state, it has all the good food and culture of **France** without any of the

snooty **French** people. It has voodoo and gris-gris bags and grits. The instant party music of the **Cajun** and **Creole** population is captured on *Allous En Louisiane* (Rounder). This set also comes with a CD ROM with all sorts of Louisiana secrets contained within. Laissez les bon temps rouler!: "Lake Charles Connection," "Bon Temps Rouler," "Hey Bébé," "Jeunes gens dela campagne," "Who Stole My Monkey?," and "H-Town Zydeco."

Progressive Picks are written by **Kevin Boyce**, **Sybil McGuire** and **Pat "Freebird" Berkery**. *Progressive News* is written by **Sybil McGuire**, **Theresa Meire**, **Pat Berkery**. *e•qb* and *Progressive Pro-Former* are written by **Kevin Boyce**. *Music Mailbag* is written by **Theresa Meire**. All sections are edited by **Sybil McGuire**, **Kevin Boyce** and **Mike Boyle**.

Lynch Mob

Smoke This, KOCH International, (www.georgelynch.com)

Yeah, we know. The Lynch Mob's third album sounds more like Lynch Bizkit than new music from the guy that jammed with Freddy Krueger and wrote a song called "Mr. Scary." But after a few listens or so, the album starts to take hold. Instead of clinging desperately to his past, former Dokken guitarist George Lynch has recruited a young new band and kept on rocking without Dokken. Sure, it's a drastic change, but in the end, it's all about the groove anyway. Listen to "Hype-o," "Beg" and "When I Rise" in addition to the tunes you're already spinning.

#1 modern

Red Hot Chili Peppers, "Scar Tissue" (Warner Bros.) Hanging on for the umpteenth week at #1, "Scar Tissue" continues to amaze with its seemingly infinite shelf-life. Up 71 spins (2807 total) from last week.

The Offspring, "She's Got Issues" (Columbia/CRG) Tied for the #1 Most Added spot with Blink 182, the Offspring's latest offering from their multi-platinum *Americana* should be a no-brainer. New this week at stations such as KWOD, KTEG, KNRK, WXDX, KEDJ, KKND, KMYZ, WBCN, WAVE, and WPLY.

Filter, "Take A Picture" (Reprise) The unanimous opinion on this record is that it is destined for the top spot on the chart. Quite simply, this is the best track that Filter has ever offered to radio. The album, *Title Of Record*, is considered by many to be the album of the year. We agree. Already on at 42 *fmqb* Modern Rock stations such as WHFS, WLIR, WBCN, Live 105, KROQ, and KTBZ. New this week at 91X, Q101, WXSX, WPLA, and WZAZ.

Fuel, "Sunburn" (Epic/550 Music) 22 stations added the title track from Fuel's debut, well over a year after its release. This track will shine and rekindle your audience's passion for the band. New at KPNT, KTBZ, WBCN, WKRL, WKRO, WMRQ, WRAX, and WZPC.

Counting Crows, "Hanginaround" (DGC) 19 stations couldn't wait until the official add date to get this track on the air...and for good reason - it's damn good. This record creates a celebratory atmosphere that should make it an instant hit. From their forthcoming CD, *This Desert Life*, co-produced by David Lowery. Early at 99X, WPLY, WHFS, WEND, Q101, and WXDX, and 91X.

Blink 182, "All The Small Things" (MCA) Tied for the #1 Most Added track this week, "All The Small Things" should pick-up right where "What's My Age Again?" left-off. Already on at KXRK, KNDD, KROQ, 99X, 91X, KXPK, WHFS, Live 105, and WROX. New this week at KEDJ, KKND, KPNT, WBCN, WRAX, and WZPC.

Feeder, "Insomnia" (Echo/EEG) An office favorite, Feeder's first single from their sophomore release, *Yesterday Went Too Soon*, definitely won't put you to sleep. High-charged, rich in melody and hard to resist, "Insomnia" should make waves in the oceans of major releases due out before Y2K. On at KPNT, KNDD, WMRQ, CIMX, KTCL, and KMYZ.

Marcy Playground, "It's Saturday" (Capitol) Steadily collecting adds every week, Marcy's latest exhibits an undeniable quality much like the one that attracted many of you to "Sex & Candy." If you give it the spins it deserves, it'll work for you. New this week at KTBZ, WCYY, WIXO, WXNR, and WZPC.

Static-X, "Push It" (Warner Bros.) As they say, timing is everything. The current musical climate couldn't be better for this band to make a name for themselves. Rock is back in a big way, and the boys from Static-X do just that. Play it, we guarantee it'll react. New at WBCN and WEDG. Already on WROX, KXTE, KXPK, WNFZ, KMYZ, WMRQ, WRZX, WXRK, and WFNX.

Ben Harper, "Burn To Shine" (Virgin) Ben Harper is an artist that deserves airplay, period. His music is both original and melodic, and could easily make a connection with any Modern Rock listener. Even though you're overwhelmed with all the major releases that continue to come your way, make it a point to give this track a listen in the music meeting. On at WBTZ, WDST, Y107, WEQX, WMRQ, CFNY, KWOD, and WWCD, just to name a few.

modernpriority

Rage Against The Machine, "Guerrilla Radio" (Epic)

When has this band ever disappointed? Their latest dropped like a bomb on radio stations all across the country last weekend, reminding us all just how huge this band has become and how important they are to your listeners. Bank on their third effort, *The Battle Of Los Angeles*, schooling all of their counterparts in the ways of Rock and Rap (without using samples or turntables, of course). Before-the-box at KEDJ, KROQ, WXRK, KNDD, KDGE, KROX, WCYY, WHFS, WMAD, and WXDX.

TALK of the revolution

While the world waits for a new Screaming Trees album (please guys, sometime before Y3K), we can drown our sorrows in the nicotine-stained baritone of lead singer Mark Lanegan and his new solo effort, *I'll Take Care Of You* (Sub Pop). For his fourth solo disc, Lanegan serves up covers from artists who have influenced and inspired him over the years, including troubadours like Buck Owens and Tim Hardin, along with acts like The Leaving Trains. Like his past solo efforts, *I'll Take Care Of You* is rooted in dreariness and despair, with Lanegan's voice guiding the hand-selected batch of songs down the darkest of paths. Highlights include the title track (sounds like something out of a David Lynch nightmare), "Badi-Da" and "Little Sadie." Good stuff, Mark. Now, back to your day gig!!!! Contact: Janda Baldwin (206) 441-8441.

Folks like Chris Carter (Y107) and Jerry Rubino (WLIR), have been spinning "Forever" as an import for months now. Finally, we common folk have The Charlatans' fab new track in hands (MCA). Call it timing, luck — whatever. But the band's 1997 album, *Tellin' Stories*, never got its just-due, overshadowed by other Brit-Rock records like Radiohead's *O.K. Computer* and The Verve's *Urban Hymns*. With the coast clear (as far as we can tell), The Charlatans are poised to make some serious noise this time around with *Us And Only Us* (out 10/19). Rounding out this three-song single is the acoustic-rooted "AA Great Place To Leave," and "When Your Ship Comes In." Excellent stuff from a band that's long overdue for their stateside break. Contact: Michelle Doram (818) 777-4022.

It never ceases to amaze us how many insanely-hyped Anglo bands make their way to our CD tack each month. What's equally amazing is when we come across one that we can actually stomach! We can stomach Idlewild, but from all reports, they'd be perfectly content with making you lose your lunch. With a strong U.K. buzz, thanks to a string of successful singles and a full-contact live show, Idlewild make their U.S. debut with their year-old LP, *Hope Is Important* (Food/Odeon/Capitol). NME describes the band's frantic mix of '70s Punk spirit and latter-day Brit-Pop sensibility as "a flight of stairs falling down a flight of stairs." We call it an angry mix between the Sex Pistols and some of Blur's more amped-up moments. You decide for yourself. Check out "A Film For The Future," "I'm A Message" and "Paint Nothing." Look for the band in a town near you this fall. Contact: Steve Nice (323) 871-5174.

Y100 AIDS Walk Auction: As of September 23, Y100/Philadelphia was more than half way to their goal of raising \$10,000 for the Philadelphia AIDS Fund's annual AIDS Walk through an on-line auction. What makes this auction unique is the fact that Y100 is the first radio station in the country to utilize the on-line auction site, ebay.com, to host all of the items. Potential bidders can link to all of the auction items by logging-on to y100.com. Y100 collected an impressive assortment of items from artists as they came through Philadelphia. Dave Matthews, Beck, R.E.M., The U.S. Women's Soccer Team, Scott Rolen of the Philadelphia Phillies, Sheryl Crow and Barenaked Ladies have all donated items to auction. Other items being auctioned-off include two passes to any six Y100 Sonic Sessions, one year on the Interscope Records mailing list, and a copy of the Sonic Session Dave Matthews recorded for Y100.

Operation Radio Relief: In an effort to help the thousands of people in the Carolinas affected by the devastating wrath of Hurricane Floyd, WXNR/Greenville has set *Operation Radio Relief*, a benefit concert for Floyd's victims, into motion. The floods have killed over 30 people, put over 7,000 Carolinians in shelters, ruined over 2,000 homes, caused food and gasoline shortages and 1.5 billion dollars in crop damage. At present, there are thousands of volunteers, including 3,000 National Guardsmen, working non-stop to help flood victims. Evacuation and relief efforts are still underway, as the situation continues to worsen with each new rainstorm. WXNR and the Beasley Broadcast Group have raised over \$200,000 in relief funds. They need your help. WXNR is looking for nationally recognized bands who understand the devastation that has taken place in Eastern North Carolina and are willing to donate their time for a "Hurricane Floyd Relief Concert" with ALL proceeds going to the victims. Other radio stations in North Carolina will also be involved in the concert. The possible date of the show is 10/29. Please contact WXNR PD Jeff Sanders at 252.634.2048.

All In The Family: Peter Cornell (older brother of Chris Cornell) and his band, Grace, have become all the rage in St. Louis, of all places. KPNT Operations Manager, Allan Fee, discovered the band's EP recently and was completely floored. After playing some of the band's material on the Point's morning show, demand for the band skyrocketed. Grace subsequent-

ly flew out to St. Louis for several on-air interviews and performances on the Point and played a sold-out show at Blueberry Hill's Duck Room. An in-store appearance, along with the live performance and air-time, have spurred sales of the band's self-titled EP to over 150 pieces in one week. Grace is currently unsigned and "beyond ready" for a record deal, according to little brother Chris. They'll be spending the next week on the road showcasing in Atlanta and New York before returning home to Seattle. To sample the band's music, go to the Point's Web site, www.kpnt.com, and download a free MP3 of "Falling."

Showtime: We'll start off by looking back at a couple shows this week. This past Saturday (9/25) saw *HFStival: Fall Edition* hit Washington, D.C.'s RFK Stadium. Once again, the WHFS staff walked away knowing they put on an excellent show. The sold-out crowd showed up early to see Fuel kick-off the mainstage and stayed until Limp Bizkit closed out the show. In between were performances by 311, Bush, The Chemical Brothers, Everclear, Long Beach Dub Allstars, Buckcherry, Jimmie's Chicken Shack, Filter and more. A surprise appearance by Run-DMC, dressed in Adidas garb, also delighted the crowd. The WHFS staff seemed nostalgic about returning to RFK for the show after this past spring's *HFStival* at PSINet Stadium in Baltimore. "It's like going back to your old high school," PD Robert Benjamin said in a moment of reflection during the show. WHFS also got to world premier Bush's video for "The Chemicals Between Us" during the event. Congrats to the staff on another great *HFStival*. On September 12, WXEG/Dayton held its annual *X-Fest*. "Another fabulous *X Fest* is in the books," exclaimed PD Jeff Stevens. "One of the highlights was Fastball flying in from Los Angeles the night before, playing our show, then playing Minneapolis later the same night! Men at Work were really fun and the band sounded great! They started right out of the shoot with 'Overkill' and ended with 'Who Can it Be Now' and 'Down Under.'" *X-Fest* drew over 9,000 people. Coming up next is the KXRK/Salt Lake City *Big Ass Show* (10.2) with Primus, Cake, Ben Folds Five, Eve 6, Luscious Jackson, Unwritten Law, Jimmie's Chicken Shack, and Face To Face. Also on the upcoming show slate is WRAX/Birmingham's *Xtival 3* (10.9) at Oakmountain Amphitheater (cap. 14,000) with Live, Marvelous 3 and more.

Q101 Gets Reflective

The nostalgia factor is going to rise off the meter very quickly as the end of the year, decade, century, and millennium approaches. WKQX (Q101)/Chicago is off to an early start with the "101 Events That Shaped The '90s" countdown. The feature, which got underway on Wednesday, September 22, highlights different events that shaped the past decade by using soundbites and factual recaps. Different members of the Q101 airstaff will voice the James VanOsdol-produced feature. The events are not being placed in any order of importance and will include political, international, and musical events. "101 Events That Shaped The '90s" runs six times a day and can also be found on the station's Web site (<http://www.q101.com>) with additional stories and links.

order to have it off the air within 36 hours. Right now, the station has no identity. On air it's called "The Station That Seriously Rocks."

Other than the OM duties that you have at 'XTB and Thunder, what other projects are you involved with for Clear Channel?

From this year's Livestock (L-R): Mid Rock, Joe C (from Kid's band); 98Rock's Max Logan and Brad Hardin.

Whenever [Clear Channel Director of Programming] **Gene Romano** needs me to do something, whether it be **Selector** maintenance building, **Selector** databases for sign-ons or format flips, things like that that Gene calls me. I'm a "Special Forces Commando" for Gene and Tom Owens. I've been doing it for sometime. With the close proximity of Sarasota and **WYNF** being a Rock station, it's logical for me to be involved. For the last year, I've been working very closely with **WTUE** in Dayton. We had a huge Spring Book; the station was up to a 9.3. In the last couple of weeks, I started working with **WTFX/WQMF** in Louisville. Less than a month ago we signed on the new Rock station in Panama City, **94.5 Pirate Radio** and I'm working very closely with them. There are also more things I'm doing on a special case-by-case project.

What's the addition of Gene been like for the company?

Gene's great. It goes without saying that he is one of the most successful and respected programmers to ever do what we do. He guided **WDVE/Pittsburgh** to huge successes for a decade. He's a great

guy. It's a wonderful opportunity to work so closely with him. I'm glad he works for Clear Channel and not the competition.

How has Prophet changed the way that you run the radio station, and how are you using it day-to-day?

Prophet is a little misunderstood. It's used differently on a station-by-station and market-by-market situation. We use Prophet on the two stations in Tampa. On **98Rock**, overnights are voice-tracked by a talent outside the market. On **Thunder** we import news for the morning show from the award winning **WFLA-AM** newsroom, and the midday jock will lay down portions of his show and assist the Production Director in doing some production. In Tampa, it's been more like a time saver; a thing where we can get more things done. **Ted Kamikaze**, PD at **Thunder**, also does middays on **98ROCK**. There are times when we have meetings or need to get things done and he can lay the shift down (or portions of it). On the flip side of that, it's been wonderful for the jocks in the area of production because before (and this is on a market-wide situation), if **Budweiser** bought **WXTB**, **WTBT**, **WFLZ**, **WSSR**, there are four different people dubbing that same commercial. Now it only has to be done one time, so it's cutting down on the production load tremendously. It has also allowed our weekends to sound better, because all of a sudden, the full-time jocks can be on six or seven days a week, but only have to work the five days and can have most weekends off. The full-time jocks love it. There's always the issue — Will it cut jobs? There's a little bit of that happening. I will say that I have the same number of part-timers employed now as there were before Prophet. They may not get as many hours as the used to, but the same number of people are doing fill-in and swing, and they perform other duties such as assisting in promotions, etc. In other markets, like San Jose as an example, **Ricker**, who does nights for me, is doing nights for **Jim Richards** there. It's a great way for us to spread around the tremendous talent that [Clear Channel Radio President] **Randy Michaels** has built in this company. It's an improvement for the listeners. And that's what we are all about, making the listeners happy and making them listen to the radio stations longer.

One criticism is that using Prophet may take away the local sound of the radio station, especially in an emergency. How do you deal with that?

That's all in the execution of the program director on the receiving end. Daily, if not several times a day, via the fax machine, **Ricker** gets the music log, the liners, everything he needs to know about San Francisco and San Jose and the things they're doing there. He also stays in touch with the Program Director. They have their big show coming up this month and they're flying him out there. If an earthquake happens and **Ricker's** in the box, obviously they'll do something about that. The emergency-type situations that you speak of are few and far between. I haven't been directly involved in something like that.

Let's crow about your ratings, starting with 'XTB.

In the Fall of '96, 'XTB was tenth 25-54 Adults. It was somewhat unfocused. We took a lot of flack in the industry by tightening up the currents and relying a little more on the library, but that's what we needed to do, because the basic core of **98ROCK** was not happy with the more Alternative direction the station was going in. They were not listening and, at the same time, new listeners weren't coming in. We regrouped, put the cards closer to the vest and made that core happy before we started to expand. The station was tenth 25-54 when I arrived. Consistently over the last two years, we've been a Top 3 player. The last two books we've been second, 25-54, and number one with Men 25-54 and Men 18+. At the same time, we

98Rock/Thunder's Ted Kamikaze and Econoline Crush's Trevor.

"Prophet is a little misunderstood. It's used differently on a station-by-station and market-by-market situation."

have managed to maintain our #1 Adults 18-34 rank, even with more competition targeted at that demo. The big catalyst of that has been the morning show. 'XTB never had a personality-driven morning show. Before **Bubba The Love Sponge**, the morning show was twelfth 25-54. In the past 2 years, Bubba's been a Top 3 player. In the last Trend and the last Book, he was number one 25-54.

How about 98ROCK's other dayparts?

Every daypart is first or second in our desired demographic. Bubba's newspaper, Anita, provides a bridge from morning drive to middays by holding the 10am-12noon show. Ted Kamikaze, 98ROCK's veteran, kicks-off the noon hour with the music that made 98ROCK infamous...the highly rated and award winning "Perfect Hair" program, featuring the hair bands of the late '80s and early '90s. Max Logan provides fast paced comedy and topical entertainment in afternoon drive. We have a history with Max. He worked with me at 'EBN and was Gene's night guy at 'DVE. The only reason he remains employed is the library of photos he has of me with small farm animals. Ricker opens nights up to a whole new dimension, with lots of extreme music and the attitude to match. For all the sexually dysfunctional listeners in Tampa Bay, we have *Loveline* as a public service.

What about Thunder?

When I arrived, Thunder was a 6,000-watt radio station licensed to New Port Richey, Florida. The station had a 1.8 12+. We focused the music to target males 35-44. (We were due for a power upgrade, which didn't happen until a year after I got here.) But, just by fixing the music, 25-54 increased immediately. Labor Day weekend, 1997, we increased to 50,000-watts and went from worst to first in one book. In that Fall Book, we debuted at number one 25-54, and with the exception of one book, we've been there every since. The power increase was a two-step process. In April of this year, Thunder upgraded again to 100,000 watts, giving it the best signal in

the market. It's a huge radio station. When Randy Michaels talks about, "stick radio stations," ones that we take and turn around to become cash cows, this is the one of the stations he mentions. We literally took a 6,000-watt radio station and turned it into the number one or number two billing radio station in this market.

What has made Thunder so successful, other than the power increase?

There was a major hole for Classic Rock. 98ROCK was Active Rock before that term was even coined. It's always been a current, intensive, tempo-driven radio station, and there was no one in the market play-

legend in the market. Ron speaks to what 35 to 44-year-old guys want to talk about. We also have another former 'YNF personality on the air: **Scotty Phillips**, who did nights at 'YNF and **KLOL/Houston** when they were doing *Outlaw Radio*. He does afternoons for us. **Scott Ledger**, who did afternoons on WXTB for a better part of this decade moved to Thunder for mid-days and has been a great fit. **Brother Sam** is Thunder's Music Director and handles nights. Thunder is number one 25-54 everywhere, except for morning drive (and it would be if wasn't for Bubba The Love Sponge).

Speaking of Bubba, what have you enjoyed most about watching his show grow in Tampa Bay?

The transition from night jock to morning host is a difficult one and I looked at it like the first step into the great unknown! I had experience in Cincinnati with Bubba where he was on nights, via syndication. He had done well for us there. The big question was, "Can we take this raw night show that is really one-hundred-percent about sex and put it in morning drive, and make it work?" That same show in morning drive is not going to work. We had a lot of skeptics and critics. A lot of people in the industry and clients wrote it

Brad prays to the Arbitron gods.

ing Rolling Stones, Eagles, Beatles, Led Zeppelin and The Who — so the hole was tremendous. WCOF [now WBBY] was doing '70s-based Classic Hits, and was very Poppy-sounding and had an image of being wimpy and targeted females. A 40-year-old guy had no radio station to listen to. That's the biggest reason for Thunder's success. Other than that, we've marketed Thunder very well. We've focused on at-work listening: 9:00 to 5:00 is where we're the biggest. We do workforce promotions every day, and gear a lot of the stuff we do into that. The music is very well researched, and on target. Not to mention the personalities. **Ron Diaz** was a free agent when I arrived and it was crazy not to put him on in mornings. He debuted with the first power increase of 50,000-watts and has been a Top 3 player ever since. He's a

off and said it would die a horrible death! We put it on, and it had its growing pains for the first six months. But every day he does a better show and a better show; there's less sex and it's more what guys 18-34 talk about. Yeah, we talk about sex, but we also talk about sports, politics, whatever's on Bubba's mind. He's very well rounded now, as compared to before. It was also rough for him; he didn't know what to expect. It was the first time he did it. He'd been a Top 40 disc jockey all his life, but really a Rock guy that grew up in the Midwest and who listened to Rock radio. But, he happened to get into this, as I did — my first job was at a Top 40 station, too. He's a proven talent, the best kept morning secret out there.

continued on page 60

"We took a lot of flack in the industry by tightening up the currents and relying a little more on the library."

For as much bad press as Bubba has received in the past, there's a lot of good things Bubba does that people don't know about.

Bubba The Love Sponge is a down-to-earth, caring individual. What he does on the radio — like all of us do — is somewhat himself and somewhat an act. It's show business. He's here to entertain. He's very involved in local charities, specifically his pet projects: battered women and child abuse. He's very pro law enforcement.

Right now we're in the process of being the major financial contributor behind building a memorial for the Florida Highway Patrol, for all of their officers killed in the line of duty. Believe it or not, that agency doesn't have one of those monuments, and it's going to be erected in Tampa. We've already raised \$60,000 for it, and we have another \$30,000 - \$40,000 to go. We started in May, so that goal is easily obtainable. He's very involved in wrestling, another thing he talks about that male listeners are into. He's taken underprivileged children to wrestling matches and had them meet the wrestlers. He does warm and fuzzy things like that, and the media in this town will never do a piece on that about Bubba The Love Sponge. The only time we get talked about is when it's something bad; but we'll take any press we can get!

Well, on the subject of those bad things, how do you handle ideas for Bubba's show that might put the radio station at the center of a controversy?

We brainstorm. Certainly there are things the show does that they just do and we find out after the fact, and have to put out fires, etc. Bubba's been real good on the learning process. If he has an idea that he thinks may cause some ruffles with some people, we'll talk about it and maybe say, "Hey, that's a great idea; let's do it, but maybe we should think about this and this and cover these bases before we do." On the flip side, some of the best radio is spontaneous, and I'm sure he's like most people, it's easier to beg for forgiveness than to ask for permission. For example, we're working on a billboard campaign for the Fall that's going to be very controversial. Everyone's involved in it, so we're all going to take that heat

98ROCK's first anniversary. It's gotten bigger and better each year but it's reached the point where we need to do something different. When *Livestock* first happened, the first five - six years, it was special because not many stations did a show of this caliber. It's still the most unique event in the country. It's a cross between *Woodstock*, *Apocalypse Now* and *Fear & Loathing In Las Vegas*. Listeners camp out all weekend and consume vast quantities of legal and illegal substances while checking out established and new talent. It's not a one-day deal at a shed where it's just like any normal concert. *Livestock* is special and different. I'm looking to take it to the next level.

Has *Livestock* traditionally been the biggest NTR event of the year?

No one ever thought of it as an NTR event until a few years ago. It was just an excuse to have a good time, as long as we paid all the bills and didn't lose our ass. In the last couple of years, it has been 'XTB's major NTR event. We have done some other very successful NTR events on both 98ROCK and Thunder. Bubba's CD sold 15,000 copies each of the last two years, and we are currently working on producing his third release. The Ron Diaz Thunder Classic Golf Tournament is one of Central Florida's biggest tournaments, attracting a variety of celebrities. Both projects have benefitted both charity and the bottom line.

Let's talk about Randy. I was really impressed when I saw him on the Group Executive Panel at the NAB in Orlando. At one point, he reached in his pocket and pulled out that Walkman radio he carries with him everywhere, while making a point. What does that say about the guy

when the shit hits the fan.

You recently told me that 'XTB's annual festival blowout, *Livestock*, would evolve next year. Can you tell me about that?

Livestock has been a big part of the radio station. The first one was done to celebrate

who is at the top of your company?

Randy Michaels IS radio. There's nothing else he'd want to do. As long as I've been working for this company (going on six years), every time I've seen Randy, he's always listening to stations. That's just the way he is. He likes to go to towns, listen to his radio stations, listen to other radio stations. He can tell you the tower heights and frequency of any AM station in this country; he has that top-of-mind. He's a fan, a student of the radio business, and that'll never change. What it says about him leading our company is, he's not a banker, (the heads of some radio groups are bankers), he's not a sales guy (the heads of some radio groups are sales guys). He came from programming, has an engineering background as well, but he is a product-driven guy. And that's what made Jacor successful. It made Clear Channel want to purchase our group because we have a great product. Every one of the Jacor stations you listen to, whether it be in this market or Casper, Wyoming, have incredible things on the air. He's the best.

Tell me about the last conversation you two had.

I saw Randy recently in Cincinnati for the annual 'EBN fireworks show. We had several conversations; we talked about a variety of things. From some high-jinks that he and Marc Chase got into in Nashville at Y107, Indonesian cigars, the competitive landscape in Tampa and a magnet's effect on body piercing. Talking with Randy is never boring and always quite interesting!

How are you dividing your time between 'XTB, Thunder and these other projects you're working on for Clear Channel? It's a lot on your plate.

It starts with having a great staff and delegating to qualified and competent people. Everybody from [WXTB/WTBT GM] Dan DiLoreto down to the part-time staff... The way I have it set up is I do the day-to-day stuff at WXTB, and technically I am the PD here as well. Ted Kamikaze handles the day-to-day stuff on Thunder — takes care of the music, weekend schedule, etc. We also have Carl Harris, our APD/Creative Services guy, who puts together every image piece you hear on both radio stations. He also does a good deal of writing, copy, promos, liners, etc. Mike Oliviero is one of the best Promotions Directors in this busi-

ness. I've never worked with a person who had as many connections as Mike. He's been at 98Rock for almost 10 years. When I came here we had a fleet of vehicles, billboards all over town, it was a very well marketed radio station. He's taken that and extended it to Thunder as well. That's my immediate staff that helped me with balancing my time. I keep in touch with the other stations I'm involved with several times a week. I've become quite a juggler! Everybody's doing that these days. It's just the nature of the business.

There's a lot of great music out now that listeners have been waiting a long time for. Does that have an effect on the numbers? Will it be beneficial for Summer and Fall numbers?

It's great because Rock went through a real dry spell — a couple of years dry spell. The last time Active Rock had this amount of quality songs was the Seattle explosion of the early '90s when bands like Alice In Chains, Pearl Jam, Nirvana, Soundgarden and STP hit the mainstream. Right now there are artists like Creed, Godsmack, KoRn, Rob Zombie, Kid Rock, and Limp Bizkit that have taken off. These artists are not only selling, but researching. KoRn has done a good job of becoming more mainstream. Someone over 24-years-old has accepted "Freak On A Leash" and "Got The Life." They're in the studio now. I'm sure that their next record will probably be like Metallica's "Black" album, where there will be four or five of those kinds of songs. At the same time, Kid Rock has broken through. When my Music Director, Brian Biller, first played it for me, I thought it was a novelty, but it looks like this guy has legs. He's very charismatic on stage; he is the David Lee Roth of the next millennium. The band that started this whole resurgence is Creed. They were the first band in a long time that came from the Rock world that had depth. We played six songs off of that album, two before the rest of the country knew who they were. I can't remember the last time that happened, if it wasn't Metallica. Of course that's going to translate into ratings. Top 40 has its ups and downs when the music's hot. Right

now, they've been going through a tremendous period with the Ricky Martins of the world, the whole Latin thing and the new kid groups that are hot right now. That allows us to open up our playlist a little bit and play some more currents because there's more available. I've always said, "You can say I'm going to have five As, ten Bs, and x-amount of night records, but you've got to expand and contract if there's a whole lot of great product out there." Right now it's a pretty good time.

One of the gripes you hear, as a result of consolidation, is that radio is sounding homogenized. This was even brought up on the Executive Group Panel at NAB. You travel around the country enough, is that a true, fair assessment?

It has nothing much to do with consolidation. For years, you could travel around the country and drive the interstates and hear the same records on the same Rock radio station with the same sweepers and stations promoting "Rockline's coming up tonight." — and that was about it. There have always been stations that have sounded homogenized. A lot of it had to do with the big consultants — the Burkhart/Douglas', the Jeff Pollacks of the world — controlled 50 - 100 radio stations because they were putting the same thing on all those radio stations. It was a lot more homogenized then than it is now. I can only speak for our group. We share promotions, billboard campaigns or television spots because they are great ideas that cut through the crap. That's maximizing the creative talent working for this company. My station doesn't sound like WZTA/Miami and WZTA doesn't sound like WKLS/Atlanta, WKLS doesn't sound like 'EBN. In our group, we work real hard. Everybody's got the same records and everybody can buy the same amount of TV time if you have the budget. It's the creative that goes into the things between the records; the image that you put on the bill-

board; and whatever you think about putting in the TV spot. You can look at a reel from any of the syndicators and you might find some quality stuff, but I've always tried to put my own little twist on it so it makes it unique.

What are your thoughts on the Viacom/CBS deal?

It's a continuation of what's been happening in the last several years, ever since deregulation, and it's smart. It's a good fit; it's a chance for MTV and the Infinity Rock stations to work more closely. If they have a great *VH1 Unplugged*, what's wrong with putting that on the CBS Network or vice versa? It's a great way to have synergy and spread your word across your various mediums. Randy was the one who started this synergy with the purchase of *Premiere Radio*. We were the first group to really duopolize and cross promote with WLW and 'EBN who are both targeting male audiences in Cincinnati — promote that the Reds are going to be on 'LW that night. It's a greater extension of that kind of thinking. There's going to be more of it. You will probably see that NBC will all of a sudden have a movie studio to pair with, too. If they want to compete with Fox, Disney and Viacom, they're going to have to take that step as well. It could still get very interesting. What would the media landscape look like if [Microsoft CEO] Bill Gates decided he wanted to get a piece of the action?

How's your self-proclaimed "Rock n' Roll Golf" game progressing these days?

I still play Rock n' Roll golf, but only in the big money events. The funny thing is, ever since I moved to Florida, one would think that since the weather's better year-round, I'd be playing all the time. There's a golf course right across the street from the radio station. But I've played less golf in the three years I've been here than I did in Ohio ever, and my game's gotten worse. But, it's still Rock n' Roll golf. I try to concentrate my

leisure activities on auto racing, surfing the Internet for celebrity nude sites, and upholding the Second Amendment.

The CZAR

OF TAMPA

UP CLOSE WITH WXTB/WTBT OM BRAD HARDIN

As *fmqb* recently pointed out, one would be hard-pressed to scour the Spring '99 Arbitrons to find a more successful Rock combo than Clear Channel's one-two punch of Active Rock WXTB (98Rock) and Classic Rock WTBT (Thunder 103.5) in Tampa. In Persons 18-34, 'XTB rules the roost with a 16.2. And in Persons 25-54, Thunder is number one with a 10.7.

Naturally, you'd expect 'XTB to rule Men 18-34, but dominate is more the word as one out of every four males in the demo is listening to the station at any given time. That translates into a 25.1 share, and only morning man Bubba The Love Sponge beats that with a 30.1 share.

The man charged with 'XTB and Thunder's programming, Brad Hardin, got his start in radio right out of high school, doing overnights at the station he grew up on, WLRS/Louisville. That's also the station he cut his programming teeth on as he eventually rose to APD over his five-and-a-half-year stay there. Dayton, Ohio was next for Brad, as he was chosen to be PD at WAZU. After WAZU, he began doing a little work for Jacor in Cincinnati, handling, among other things, swing at WEBN. Then it was off to Columbus, Georgia as PD at WVRK. After 'VRK, then-Jacor VP/Programming (now Clear Channel Sr. VP/Programming) Tom Owens and Jacor Cincinnati Operations Manger (now Clear Channel "Facilitator of Change") Marc Chase hired him as APD at The Point (WPPT)/Cincinnati, which was doing a '70s format. A few months into that job, Brad added MD responsibilities at sister 'EBN, and, in early 1996, was named PD. Later that same year, Brad shifted to his current position, OM at 98ROCK and Thunder.

Interview by Mike Boyle

How has the competitive landscape of Tampa changed in the last year?

It's changed a bunch, mainly due to the Clear Channel/Jacor merger and the spin-offs that we had to do. In the last year, even before that, LOVE 101.5 (the AC station) was one of the first stations to jump on the Jammin' Oldies bandwagon. They had some initial 25-54 success, but they seemed to have peaked and have settled. Other than that, WLLD (a move in signal from Holmes Beach - south of here between the Sarasota and Tampa markets) came on a year ago May and they're doing the Rhythmic CHR thing. Entercom first signed them on, then Infinity bought the radio station. They've

mainstreamed from just a Hip-Hop sound to playing the Backstreet Boys and the current crossover hits. They're doing extremely well. They beat our sister station, WFLZ, in the Spring Book 12+ and 18-34 and some dayparts, and continue to give 'FLZ a good run for the money. About a year and-a-half ago, Mix 96 left the Hot AC business for the "then format of the month": Modern AC and have carved out a significant niche. Since I've been here, for almost three years, WHPT has done various forms of AAA, some current-intensive, some gold-intensive. On July 8 they changed once again and went hard Classic Rock, playing a lot of the hair band music with Skynyrd, etc., not

much Stones, Pink Floyd or Doors. It's pretty guitar-oriented, and they seem to have shoved themselves right in between 98Rock and Thunder. On the next day, Cox blew up WCOF and changed format to Soft Rock with new calls WBBY.

Have the legal problems between Thunder and WHPT been settled?

Yes, that's been settled. They started using the positioning statement "Classic Rock That Really Rocks." Thunder had that phrase service-marked in the State of Florida before WHPT even thought of changing format. Obviously, they didn't do their homework. They were forced by court
