

THE GAVIN REPORT #1210
WEEKLY SUMMARY
(Editor, Gary Taylor)

Smash of the Week: THREE TIMES A LADY-Commodores (Motown) The immediate success of this beautiful ballad was apparent from the start.

Hot: LIFE'S BEEN GOOD-Joe Walsh (Asylum) Powerful chart moves across the country have propelled this into prime rotation at most stations.

Top Tip: LOAD-OUT/STAY-Jackson Browne (Asylum) Some programmers play the single, others the album edit - whichever - both are finding positive acceptance.

Record to Watch: YOU-Rita Coolidge (A&M) Despite the short research week, the record has all the earmarks of her third hit in the last year.

Sleeper of the Week: I CAN'T STAND THE RAIN-Eruption (Ariola) Limited airplay will prohibit this from becoming a national hit, but where it's played it does well. Charts include: WVOV (1), WFOM (3), KZUE (3), WGUY (7), WAAY (7), KQDI (8), WAPE (10), KSEL (10), WBBQ (10), WLCX (14), WAYS (19), 96X (19), etc.

Top New Adds: AN EVERLASTING LOVE-Andy Gibb (RSO)
HOPELESSLY DEVOTED TO YOU-Olivia Newton-John (RSO)
KISS YOU ALL OVER-Exile (Warners)

Adult Contemporary Programming
(Associate Editor, Ron Fell)

Most Active: YOU-Rita Coolidge (A&M) The album's a month old and the single even younger, but both are doing very well in A/C airplay.

Worth Watching: EVERLASTING LOVE-Andy Gibb (RSO) Few stations will "wait and see" on this one.

Country Club

WFMS-Indianapolis and the Jaycee's co-sponsored the fourth annual "America 202 Celebration" on July 4, and, according to Herb Allen, the police estimated 100,000 people attended. Johnny Duncan and Janie Fricke were the headline acts. The festival, held in a downtown Indianapolis plaza, lasted from 2 PM to 9 PM. It ended with a fireworks display--"the second largest in the country (next to New York's)".

Big Jon Anthony, P.D. of WLWI-Montgomery, reports their first Fourth of July picnic featuring Hank Williams Jr. attracted 20,000 people. Proceeds were donated to charity. Ronnie McDowell and Jessica James also performed. The station has been on the air since January 1978 and according to the recent book, is making definite inroads in that market.

KRKT-Albany, Ore., broadcast the four day Timber Carnival live, July 1-4. The world championship logging competition drew 40,000 people. The station also participated in a Fourth of July parade. Some jocks drove the station's van while others rode on a 14 foot station float built to resemble Willie Nelson's guitar.

KCKN-Kansas City personalities participated in a 48 hour radiothon for the National Asthma Center in Denver in late June. The effort raised \$16,000 for the facility.

Jobs: We listed "KMBY-Billings" in the Jobs section of the June 30 issue. Actually, the station looking for future air personalities is KBYM-Billings. Contact Brian Bennett, Box 20316, Zip 59104.

KCMX-Medford, Ore., is still looking for air talent with production abilities for mornings. Tapes and resumes to Mel Tynan, Box 128, Ashland, Ore., 97520.

Service: WTCR-Huntington/Ashland, Ky., needs re-service on the Charlie Rich single on Epic. KANI-Wharton, Tx., needs service from all sources.

WBIC-New Bern has not received the Charlie Rich and George Jones singles from Epic.

KCIL-Houma, La., would appreciate re-service of the Johnny Cash/Waylon Jennings hit single.

KOTM-Kennewick also needs re-service of the Mel Tillis single.

KSJB-Jamestown would like a copy of WALTZ OF THE ANGELS by David Houston.

Gavin's Gab

Transitions

Sterling Recreation Organization just purchased KXRX-San Jose. The format will change to News/Talk effective July 10, according to M.D. Bill Stone. KNBR-San Francisco's Don Chamberlain will join the station as a talk show/news host. No other personnel changes have been made. The format was previously Adult Contemporary with blocks of news and talk primarily during drive times.

Tom Brokaw of NBC and Tom Kerns, general manager of KYNT-Yankton, bought KTOQ-Rapid City. "Tom Tom Communications, Inc." purchased the station from Steve Hughes of Midland Broadcasting. Except for a heavier emphasis on news and information, the format will remain Top 40. Brokaw will act as advisor while Kerns will be General Manager starting the second week of July.

KMOX-St. Louis replaced a "heavy" with a "heavy" when Arthur Godfrey came out of retirement for one week last month to substitute for vacationing Jack Carney. Hopefully he tuned his ukulele. Dave Michaels informs us he's returning to radio after a year's absence. Dave was a mid-day man at WRKO-Boston and has worked with John Rook Associates, NBC, Kent Burkhardt, Bartell, and others. He's looking for an air talent or P.D. position in a major or medium market, and can be reached at 617-523-4474 (days), or 617-527-2043 (evenings and weekends).

Larry Groves, music director of KEZY-Anaheim, and Rick Carroll, former P.D., have formed a consulting firm, "Rick Carroll Consultants." Their first client is KEZY. They request singles, albums and oldies service from all sources. Address: Box 27, S. Laguna Beach, 92677.

KEYN/FM-Wichita had its power increased from 58,000 watts to 100,000.

KJCK/AM-Junction City, Ks., will switch to an all gold format August 1. KJCK/FM remains Top 40.

KEFM-Omaha, sister to KOIL, will remain a beautiful music station. Earlier the station had informed us they would change to soft rock (Gab, 5/5).

KOZA-Odessa and 14ZYQ-Frederick, Md., changed their I.D.'s to Z123 and Z104 this month. Both are running "A Thing of the Past" promotions. Z123, under newly promoted P.D., J. Michael Scott, aired lots of oldies for a week. Z104 ran the "Evolution of Rock" July 4-5.

Awards

A number of stations have been recognized for journalistic excellence the past few months.

KEWI-Topeka received top honors from several sources. It ranked first place in the commercial category (locally produced) of the Topeka Professional Advertising Club's annual competition. News Director Mike Manns won first place in local sports-news coverage in the same competition. KEWI was named the "1978 Radio Station" by the Kansas Easter Seals Society. The station also won top honors for both 30 second and 60 second commercials from the 1978 Kansas Association of Broadcasters.

The General Manager of WKYX-Paducah, Gary Morse, won first place for "best editorial" in the Kentucky Associated Press news awards. A WKYX talk show took two second place awards, "Women's Programming" and "Half Hour Public Affairs Show."

Two stations were named winners of regional awards by the Radio Television News Directors Association. KOY-Phoenix received the "Edward R. Murrow" award and "best entry for spot news coverage in the Western region." WCBS-New York won the Murrow award and the editorial commentary award in the Northeastern region.

The New Mexico Press Women's Association awarded Tracey Miller and Lynda Sparber of KOB-Albuquerque first and second place awards for Special Radio Reporting. Both women also won second place awards, Lynda for Radio Publicity, and Tracey for General News Reporting.

The Ohio Associated Press Broadcasters' award for "Best Investigative Reporting" in 1977 goes to WTVN-Columbus. This is WTVN's ninth Associated Press award. In the past 12 years, the station has received 21 major awards for journalism.

The Mississippi Music Association named Kirk Kilpatrick and P.D. Bob Burton of WJDX-Jackson, "D.J.'s of the Year." Kirk and Bob are the morning team at the station.

Billy Joel is O.K. in Waterloo

Jay Douglas, P.D. of KXEL/FM-Waterloo, Ks., asked a group of Catholic students and a priest for their opinions prior to adding Billy Joel's ONLY THE GOOD DIE YOUNG. He had previously decided not to play the record because he thought the lyrics might offend the many Catholics in Waterloo. The group from the Catholic Student Center in Cedar Falls discussed and analyzed the lyrics in depth at KXEL. Their conclusion: "It says nothing that Catholic children haven't already heard, and it is one man's belief." They also thought it strengthened the image of Catholic girls, and that it might provoke thoughtful discussions between Catholic parents and their children. Jay added the record the day of the meeting, June 28.

Inside Progressive Radio

(by George Meier, Editor of Walrus)

There are only a few artists who operate on a higher level than everyone else. Two of those artists release albums at the same time: one is Bob Dylan and the other - the Rolling Stones. About Dylan it must be said that he is no longer the enunciator of truth for a whole generation. The chance to become that important comes only once in a lifetime. Still, Dylan's way with the English language is genius and even when he is only writing about the world and they that dwell therein, he does it better than anyone else in the rock medium. Add to his lyrics an organic sense of melodic structure and you have the formula for his rebounding new LP. The Stones rebound, too. These former bad boys of rock and roll demonstrate clearly that as old men they still can challenge all comers.

A surprise comes in the package of the Steve Gibbons Band LP. In the past he has been good, but not more. Here Steve shows a two-edged writing and performing sword which is not to be taken lightly. Producer Tony Visconti is the secret weapon who gave creative life to the arrangements.

There are several albums which are very good by substantial artists who demand attention. There is the reformed Moody Blues. They bring back their MOR rock with a recording which argues that they never left. Also on the sweet side is the new Dave Mason album. Both artists succeed, in spite of the sweetening, because they write consistently terrific songs. Now the Alan Parsons Project is another breed of cat. Parsons is a masterful producer and a good writer. What inevitably results from that kind combination is an album which sounds better than it is. It is the kind of record which does well immediately but which has a tough time holding up for the duration. Then there is the second LP by one of last year's biggest new groups: Foreigner returns with a batch of top notch rock songs and they know how to rock them.

The two finds are The Cars and The Motors. (Next week it will be The Bumpers and The Wheels). The Cars rearrange familiar rock elements as the old Studebaker Hawk did. While the Study was ahead of its time, The Cars seem made for the moment. The Motors had a sex change operation. Their first LP was punkish with a strong sense of melody. No. 2 sounds like a Beatles restatement, again with a strong melodic sense.

Finally, two more major subject concept albums find their way to issue. Jeff Wayne's "War Of The Worlds" relocates in England, losing little of its fun to jet lag. But a loss does result from "The Bible - A Rock Testament". There must have been a commandment that read something to the affect: THOU SHALT NOT REDUCE THE ENTIRE BIBLE (OLD & NEW) TO A TWO RECORD SET.

Gary Taylor's Personal Picks

ALMOST LIKE BEING IN LOVE-Michael Johnson (FMI) This quasi jazz interpretation of the Lerner & Loewe standard makes for enjoyable listening, thanks to the contemporary approach of the arrangement and the vocal.

AN EVERLASTING LOVE-Andy Gibb (RSO) Many tend to overstate the continued Gibb influence on contemporary music, yet this superstar phenomenon occurred in the sixties when any and all Beatle records were played as soon as they were released. Simply put, Andy Gibb and the Bee Gees have reached that level.

YOU NEVER DONE IT LIKE THAT-Captain & Tennille (A&M) Maybe it's my imagination, but this Captain & Tennille release sounds different. There seems to be an outside influence that wasn't apparent on their other records. Regardless, it's a fun, energetic, tightly packaged concept.

Other Recommended New Releases

LOVE IS IN THE AIR-John Paul Young (Scotti Bros.) THINK IT OVER-Cheryl Ladd (Capitol)
 HEART ON MY SLEEVE-Ringo Starr (Portrait) TREAT HER RIGHT-Russ Ballard (Epic)
 SO MUCH FOR DREAMS-Dave Loggins (Epic) DANCE (DISCO HEAT)-Sylvester (Fantasy)
 DAVY'S ON THE ROAD AGAIN-Manfred Mann's Earth Band (Warners)

Boston Regional Meeting

Our final "mainland" regional meeting takes place in historic New England on the weekend of July 22 & 23 at the Hyatt Regency in Cambridge.

Registration Fees: Radio - \$30.00 advance, \$35.00 at the door. Covers 2 sessions Saturday, Lunch & Cocktails and one session Sunday.

Discount: 4 or more from a station: \$25.00 each.

Non-Radio: \$25.00 includes Saturday cocktails and Sunday session.

Schedule of Events: Saturday, July 22. 8:30AM - Registration and coffee.
 9:00AM - First session. Al Brady (WHDH), moderator.
 12 noon- Lunch
 2:00PM - Second session. Special guest, Lee Abrams of Burkhart/Abrams Associates
 5:00PM - Adjourn.
 6-7:30PM - Cocktails

Sunday, July 23. 9:30AM - Complimentary coffee & rolls.
 10:00AM - Third session. Gary Berkowitz, WPRO/FM, moderator
 1:00PM - Adjourn

Early returns for the April/May Arbitron indicate the album radio stations consulted by Lee Abrams have shown a marked increase with few exceptions. The reasons why are not the purpose of these notes, but the fact that they are consulted by Lee and his associate, Lee Michaels, is certainly worth noting. We feel fortunate to have Lee Abrams as our guest in Boston. He plans on sharing some of his thoughts with us and then answering questions from the audience. His ideas are not limited to any specific format but to radio in general. The Saturday morning session will be moderated by Al Brady, P.D. of WHDH-Boston. He will lead the discussions on all aspects of broadcasting. Sunday, Gary Berkowitz, P.D. of WPRO/FM-Providence, will moderate the combined session directed toward the mutual problems of the record-radio industry. This is our 7th regional meeting of 1978. The final gathering will be at the Kahala Hilton in Honolulu on Saturday, November 18. We suggest that those planning to attend make their reservations immediately. November is a busy tourist month and late registrants will have to find hotel accommodations elsewhere on the island.

Mailbag

We received several letters from programmers about our Houston regional meeting, June 24-25. Mark Shannon of KPUR-Amarillo writes: "There are not enough positive adjectives available, at least in my vocabulary, to express my feelings about the Houston gathering. Thanks to you and the entire 'Gavin Family.'"

From Bill DeMore of KSEL-Lubbock: "Once again, my hat is off to you and your fine staff for giving those of us who are still optimistic about the future of our industry, the rare opportunity of sharing ideas and a closeness in the exchange of those ideas. Unlike many 'conventions,' the Gavin regional meetings afford us an opportunity to break down competitive barriers in a sharing of information that can mean only positive results. My only regret is that the regional meeting comes to Texas just once a year."

And finally, Gordon K. Marcy of KINE-Kingsville writes: "The Gavin seminar was good...small, friendly and stimulating...more intellectually stimulating than any seminar I've been to and I know why. There was no pomp and circumstance and that kept attendance down to only those people really interested in an improved industry. I only hope the costs are not exorbitant enough to halt the Gavin. Here's a suggestion for next year: Concentrate on attendance from small-medium market people assuring them their problems, concerns and opinions will be discussed 'on their level.' After all, the little people at the small-medium level constitute a majority."

Note: Thanks to the many correspondents around the country who made that special effort this week to get their reports to us on time. We realize how difficult it is to work up a chart and make important decisions on new records with a major research day wiped out by a holiday.

THE GAVIN REPORT #1211
WEEKLY SUMMARY
(Editor, Gary Taylor)

Smash of the Week: GREASE-Frankie Valli (RSO) Granted the movie had a great deal to do with the record's success, but without the total commitment of radio it easily could have been lost.

Hot: HOT BLOODED-Foreigner (Atlantic) Most assuredly the hottest record of the week; chart averages jumped from 32 to 22 and airplay increased from 21 to 12.

Top Tip: SHAME-Evelyn "Champagne" King (RCA) Every indicator points upward.

Record to Watch: FOOL (IF YOU THINK IT'S OVER)-Chris Rea (U.A.) Last week's Top Prospect is off to a strong start in: Atlanta, Boise, Des Moines, Los Angeles, Louisville, Philadelphia, Rapid City and Seattle.

Sleeper of the Week: STUFF LIKE THAT-Quincy Jones (A&M) The South, which usually goes on stuff like this, is starting another record. WFLB (3), WANS (4), WLAC (8), WHBQ (8), KRBE (8), WAUG/FM (17), Z93 (18), WAPE (20), 96X (23), WAYS (24) and WAKY (27). Elsewhere: WORC (20), KSLQ (22), KDOK (22), KNDE (22), KSLY (22), KBEQ (23), KJAS (26), etc.

Top New Add: None of the newer adds were significant enough to warrant a headline.

Adult Contemporary Programming
(Associate Editor, Ron Fell)

Most Active: COPACABANA-Barry Manilow (Arista) Combining the huge airplay this cut received in the months prior to release as a single and its complete acceptance since; this may well become the most played song of 1978 at the A/C level.

Worth Watching: TOOK THE LAST TRAIN-David Gates (Elektra) A mellow Boz Scaggs style arrangement coupled with the magic David Gates voice account for many A/C adds during the past two weeks.

Gavin's Gab

Ratings for Stevens Point and Tampa Bay

Pat Martin of WSPT-Stevens Point sends Mediastat data showing his FM rocker to be number one in 12+, adults 18-49 and teens. Sister station WXYQ, with its new country format, came in number four overall.

In Central Florida, WLCY's Ron Parker expressed his satisfaction with the recent Tampa Arbitron which he said shows WLCY #1 in 18-34 and 18-49. He noted that the station had been outrated by the FM's in the past but has come back the last two books. He also said this was "the best book in five years."

New FM's and Openings

A brand new FM station in Santa Rosa, Ca., is looking for a Program Director with automation experience. North Coast Communications built the new outlet from the ground up. The company also owns country KUEN-Wenatchee, Wa. Airdate is set for September 1, according to Keith Jones, general manager and part-owner. Pending FCC approval, the station's call letters will be KNRG and the format, soft rock. The signal will cover Sonoma Valley and reach into Marin County. Keith can be reached at 707-525-8224.

KIOK/FM-Tri-Cities, Wa., sister to KALE, will also debut on September 1. The 100,000 watt album-oriented outlet will be "the only totally live FM in Eastern Washington," according to Tom Mann, P.D. of KALE. Tom is looking for full and part-time air talents. Address is Box K, 99302, and phone, 509-586-2151. Tom said the positions at KIOK can lead to positions at other Sterling Recreation Organization stations in the West.

WDLP-Panama City needs a creative, resourceful, extroverted air talent to drive the station van around town for six hours at night. The driver, called the "Night Crawler," will hand out money and prizes, entertain and attract attention while driving. The position is permanent and full-time. Call Alan Dean at 904-763-1777.

More Water Races

WMAK-Nashville and the beer company with gusto sponsored a second annual Ramblin' Raft Race on July 8. The race took place along a six mile stretch of the Stones River. Michael St. John said all 10,000 registration blanks were turned in. In mid-June, the station also organized a canoe race at Nashville's Hermitage Landing. The WMAK jocks raced against each other, and the station gave away albums, posters, suntan oil, radios, T-shirts and hats.

KGHO-Hoquiam, Wa., also held canoe races in mid-June at a local lake. The team of Steve Larson, P.D./M.D., and Richard Dee, won the race ahead of all the jocks. The station gave away three canoes, and set up a disco next to the lake for dancing that evening.

KSXO-Redding held a raft race on the Sacramento River July 2. From 50 to 75 homemade rafts, carrying up to 12 people each, raced for six miles, according to John Stall.

On July 30, KALE-Tri-Cities, Wa., will participate in the Columbia Cup Hydroplane Races. Every year, businesses sponsor hydroplanes to raise funds for charity. This year, the money will go to the Tri-Cities "Out Reach Programs." KALE, although not racing a hydroplane, will organize a big Tug of War during the day. The annual event draws 2-3000 people to Columbia Park.

Inside Progressive Radio

(by George Meier, Editor of Walrus)

Established Progressive Airplay

Rolling Stones
Bruce Springsteen
Bob Seger

Joe Walsh
Moody Blues
Pablo Cruise
Alan Parsons

The Kinks
Dave Mason
David Gilmour
Tom Petty
Gerry Rafferty

Notes: In recent months, we have spoken of the lack of great intensity in airplay, as if programmers were not overly interested in the music which was around. That feeling is confirmed now that the first three artists have taken over the chart. All three are getting 20-25% more airplay than any number one record of the spring. Notable, too, is the great response to the Moody Blues. After years, it is as if they never left. The underlying regional story is in the conservatism of the south. It even outstrips the Midwest. Virtually every artist in this list is getting their heaviest concentration of airplay in that region. Concentration of airplay in the top 10 or 12 denotes programatic conservatism because it means heavy airplay on a broader spectrum of music is impossible. Only Tom Petty, the new kid on the street, does less well in the South.

New Progressive Airplay:

Bob Dylan
Foreigner

Laura Nyro
Prism
Peter Gabriel

Notes: Dylan and Foreigner power into radio rotations, again with the most strength in the South. They also show that the heightened enthusiasm among programmers will continue for some time. The numbers for Nyro, Prism and Gabriel are much less significant so we'll have to wait and see with them.

Singles: The City Boy single is by far the leader among a list of singles which includes Steve Martin, Nick Gilder, Sammy Hagar, Plastic Bertrand, Steely Dan, Walter Egan and Chilliwack.
Imports: Among the imports, The Rolling Stones 12 inch, pink vinyl job is a runaway leader. It is followed by Greg Kihn, Rocky Horror Show and Camel.

The following new tracks are filling the progressive air:

Rolling Stones-MISS YOU/BEAST OF BURDEN/ FOREIGNER-HOT BLOODED/DOUBLE VISION
WHEN THE WHIP COMES DOWN/FAR AWAY EYES/ Bob Dylan-CHANGING OF GUARDS/BABY STOP CRYING/TRUE
SHATTERED/SOME GIRLS/BEFORE THEY MAKE ME LOVE.../WHERE ARE YOU TONIGHT/WE BETTER TALK...
RUN/JUST MY IMAGINATION David Gilmour-THERE'S NO WAY OUT OF HERE/SHORT &
Moody Blues-STEPPIN'...SLIDE ZONE/DRIFTWOOD SWEET/MILHALUS
The Cars-JUST WHAT I NEEDED Alan Parsons-WHAT GOES UP.../ONE MORE RIVER
The Motors-AIRPORT Dave Mason-SHARE YOUR LOVE/DON'T IT MAKE YOU WONDER
Laura Nyro-MR. BLUE

Country Club

KVET-Austin's July 3rd benefit for a local Children's Fund was held at Austin's "Silver Dollar Club," and featured Dale McBride, John Conlee, Don Schlitz, Jimmie Peters and several local artists. The entertainers and musicians donated their time and talent, and a hotel donated the lodging for the artists. The club easily reached its capacity of 1200 by 10 PM.

Kenny Roberts, P.D. of KTRB-Modesto, says he will once again attempt to set a world record for time spent in a glass elevator. His record of last year, 128 hours, was beaten by one of the personalities from rock KSLY-San Luis Obispo, in February. Kenny will begin his stay in the elevator on July 17. He hopes to remain through July 31, more than doubling his previous record. The promotion will benefit Muscular Dystrophy, and Kenny requests artists call the KTRB studios (209-526-8600) for taping of one-liners.

WIRE-Indianapolis tells us its fourth annual Country Picnic, scheduled for July 30, will feature Tom T. Hall, The Kendalls, Ronnie McDowell, Steve Wariner, Kelly Warren and some local entertainers. Charities and public service groups will set up game booths and concession stands. WIRE expects 60,000 people to attend the free picnic at Indianapolis Raceway Park.

KEEN-San Jose sponsored a benefit "Western Day" at a local amusement park on July 15. Four hundred children from the Crippled Children's Society camp of Santa Clara County were guests of honor. Additional highlights included live entertainment and free admission.

John Conlee provided entertainment for WKKN-Rockford's first annual "Summer in the Country Flea Market" on July 15. Businesses, organizations and individuals were invited to set up booths and sell their wares. In addition to John Conlee, three local bands performed.

Tim Tyler and Mark Allen challenged each other to a race at "KIKX' Night at the Tucson Dragway" on July 15. The two personalities used their own cars in the race. The event included many other challenge races. Drivers from other towns in the area raced against Tucson drivers. KIKX gave away many prizes throughout the evening.

WBAM-Montgomery opened its doors on the Fourth of July, offering station tours, prizes, apple pie, lemonade and ice cream to the visitors. In addition to people from Montgomery, many travelers stopped at the station. (WBAM is located on a busy highway.) Diane Brennan tells us she was surprised to find a lot of the visitors were confirmed rock radio listeners who stopped because they'd been listening to the country station. "We hope they were converted."

WPAP-Panama City gave away "Fun Kits" on the Fourth of July. The kits consisted of amusement park tickets, copies of the Declaration of Independence, complimentary meals, T-shirts and coolers.

Congratulations to Mr. & Mrs. Mike Edwards (WFAI-Fayetteville). They were married on June 17th.

Correction: We failed to list the Don Williams record on the chart (pg. 5, 7/7/78). It should have debuted at #28. Sorry.

Jobs: WTCR-Huntington, Ky., is looking for an intelligent, experienced programmer. E.O.E.-M/F. Contact Richard Holcomb, Box 2186, Zip 25722. Phone: 304-453-4600, (9-10 AM).

Service: KERE-Denver is now featuring album cuts throughout the day. The station would appreciate better service from all sources.

WTCR-Huntington/Ashland, Ky., still hasn't received the Jacky Ward/Reba McEntire single on Mercury or the Charlie Rich single on Epic.

KSJB-Jamestown, N.D., needs the David Allan Coe single.

KINE-Kingsville, Tx., desperately needs the Johnny Rodriguez single on Mercury. They also would appreciate albums from Mercury and Capitol.

KSHA-Medford, Ore., has not received the latest Kenny Rogers, Crystal Gayle and T.G. Sheppard singles.

KFEQ-St. Joseph, Mo., requests better re-service on all RCA product.

KTIB-Thibodaux, La., would like a copy of Mundo Earwood's latest single.

WDYX-Buford, Ga., has not been serviced with the Charlie Rich, Kenny Rogers and Crystal Gayle singles from U.A.

KKEE-Rochester, Minn., would like to have better service from CBS.

WKCE-Amery, Wis., needs service from ABC. It still hasn't received Larry Gatlin's NIGHT TIME MAGIC.

Seedy Station in Detroit or what do you do in Detroit after you've seen the rind?

What started out as a gag, became a huge hit in Detroit. WCAR had a watermelon carving contest, but the carvings had to be in the likeness of the city's mayor, Coleman Young. It was held during "Watermelon Week" June 17th at Detroit's famous Eastern Market. Every contestant received a watermelon to work on and the sculptor with the best likeness of the mayor received \$100.

Album of the Week
(reviewed by Ron Fell)

"Sgt. Pepper's Lonely Hearts Club Band Soundtrack"-Peter Frampton, The Bee Gees and Various Artists (RSO) Here we go again folks. "Pepper Fever" is gonna be with us for the next few months and programmers would be hard-pressed and fool-hardy to ignore it. Highlights include Robin Gibb's OH DARLING, Earth, Wind & Fire's GOT TO GET YOU INTO MY LIFE, Barry Gibb's A DAY IN THE LIFE, Sandy Farina's STRAWBERRY FIELDS FOREVER, Steve Martin's MAXWELL'S SILVER HAMMER, Peter Frampton's LONG & WINDING ROAD and all three medleys. Now let's see how well they come off in the movie.

Also recommended from the following LP's:

- "Goodbye Girl"-David Gates (Elektra) GOODBYE GIRL/TOOK THE LAST TRAIN/CALIFORNIA LADY/LORILEE/NEVER LET HER GO
- "That's What Friends Are For"-Johnny Mathis & Deniece Williams (Columbia) YOU'RE ALL I NEED TO GET BY/UNTIL YOU COME BACK TO ME/HEAVEN MUST HAVE SENT YOU/THAT'S WHAT FRIENDS ARE FOR

Gary Taylor's Personal Pick

GOT TO GET YOU INTO MY LIFE-Earth, Wind & Fire (Columbia) Earth, Wind & Fire incorporates their own thoughts and style into this classic Lennon/McCartney composition which stands out amidst the other "Sgt. Pepper" entries. The 12-inch release unfortunately clocks in a full minute longer than the album version.

Other Recommended New Releases

Highlights & Fragments of our Discussion

Atlanta - July 7 & 8

1st Session - Moderator: Don Benson

Personality album radio substitutes animation for high energy...outside visibility - e.g. bumper stickers, billboards, newspaper & TV sales - very important for new stations and for those who have changed formats...PD should have carbon copy of each day's sales report - advance knowledge of spot schedule will help programming. Sometimes PD can write letters to advertisers with copies to salesmen...helpful to have PD or other programming people accompany salesmen on some calls - offers a new dimension for sales and better appreciation of radio's programming values. Broadcasters' reservations about Arbitron accuracy are often shared by advertisers and agencies. Positioning of spots in stop set clusters: should most professional sounding spot come first?--or last?..Listeners not so aware of spot length as of numbers of spots - sensitive to changed thought. Management has to set policy regarding adjacencies and separation of competitive advertisers...Example: Sears & Penney spots can be adjacent if products not competitive. Some PD's favor "forward motion" - no back announcing of records except when two or more are segued. Back announcement of record title often redundant - artist's name all that's required. Record ID not required with top rotation group. More listeners are complaining: "Don't talk over the music." Long version vs. short version - often determined in proportion to threats that AM's feel from FM competition.

"How you're perceived in your market is the whole key to your success" (Benson). "AM radio has to offer something that can't be found anywhere else" (Benson)...The "magic" element. "Some chief engineers are 20 years behind the times. They'll cut from 125% to 75% just to save the tubes. FM superiority in sound not automatic - AM's can sound just as good as FM's" (Davenport). In Birmingham, AM's are still beating the FM's. You've got to get the maximum out of your transmitter."

In promotion - identification with community - WLAC ties in with Welcome Wagon (recommended by Dick Kent). Community service motivation must be genuine - not self-seeking. Encourage jocks to join JC's, Kiwanis, etc., to pull station into community activities.

Public service spots can be vignettes within newscasts as has been done successfully by KFRC. Selection of music - not by statistics alone - always determined by "how will each record work for you?"

2nd Session - Moderator: Bill Engel

Saturday afternoon, Arbitron's Bill Engel took us deep into an explanation of that ratings service. His main message was that radio is a business. Programming must be approached with a full awareness of marketing requirements. "Radio is not show biz...it's marketing." He said, in discussing the programmers' involvement in research, "If you're going to make the effort, be attitudinally oriented." Do not just research music, research your audience. "The most successful programmers in the country are those who do good radio. The most consistent are those who do the best marketing mix." In others words, "Quality radio is the best."

Bill spoke of the AM/FM wars, explaining that AM stations are losing most of their loyal audience to FM. (Country radio excepted.) AM's are depending on the fickle, casual listeners to fill the void. (They make up 60-70 percent of the A.Q.H. and Cume.)

He underscored Arbitron's willingness to help radio by suggesting that programmers write for a copy of "Research Guidelines For Programming Decision Makers", a booklet described as a programmer's guide to the dynamics of radio.

Not only did the entire audience get a new understanding of the ratings service, they also came away realizing that marketing definitely applies to radio.

Our thanks to Don Benson for his contributions, to Bill Lowery for his wonderful wit and wisdom, and to Jim Davenport, a likely candidate for the "Moderator of the Year" award, for masterful leadership during the Sunday session.

THE GAVIN REPORT #1213
WEEKLY SUMMARY
(Editor, Gary Taylor)

Smash of the Week: LIFE'S BEEN GOOD-Joe Walsh (Asylum) This former Record to Watch (6/16) has settled comfortably into a top ten position.

Hot: KISS YOU ALL OVER-Exile (Warners) The country has confirmed what Houston uncovered.

Top Tip: GOT TO GET YOU INTO MY LIFE-Earth, Wind & Fire (Columbia) The biggest chart jumps are in Seattle, Atlanta, Los Angeles, Tallahassee and Sacramento. The additional airplay support points the direction this "Pepper" release is headed.

Record to Watch: NEW ORLEANS LADIES-Louisiana's LeRoux (Capitol) Several programmers contend that the record's acceptance outside of bayou country dispells the likelihood of its being just a regional hit.

Sleepers of the Week: YOU NEEDED ME-Anne Murray (Capitol) Charted at: WKMX (22), WCRO (23), WKLN (23), WBBF (25), KJRB (27), WPGC (28), KRTH (30). Airplay: KILT, KJR, WROA, Z93, WNUE, etc.

JUST WHAT I NEEDED-The Cars (Elektra) This big New England area record is now spreading into Eugene, Pascagoula, Cleveland, Bakersfield, Schenectady, Gainesville, St. Louis and Augusta.

Top New Add: WHENEVER I CALL YOU "FRIEND"-Kenny Loggins (Columbia) Kenny and his "friend" are off to a sound start.

Boston Comments

For a day and a half, a spirited exchange of information filled the meeting rooms of the Regency Hyatt in Cambridge. As a group, the participants voiced their obvious concern about the talent of the future and where they'll come from. One programmer recently received over 100 tapes: "It's hard to find that one 'great' talent. I'm not looking for a format jock, I'm not looking for a personality, I'm looking for a combination of the two" (Mark McKay-WRKO). "You can't find talent if you wait until you need it to look for it" (Gerald Adolph-WTBS-Cambridge). The programmers spoke of the industry's pre-conceived notions of hiring - of the voice bigots. Erica Farber (G.M. of 99X) talked about the female influence. Outside media was another topic. "There are so many billboards that they lose impact - TV advertising is much stronger" (Lee Abrams). "I really believe in outside promotion, especially TV for reinforcement of call letters" (Bobby Rich-99X). Al Brady (WHDH) offered some stimulating thoughts about "the death of AM". Has it died? If so, why? In general: (1) Ownership greed was the cause of excessive spot loads, (2) AM was overly confident about their ratings and waited too long to change. This made it easy for FM. (It should be noted that WHDH-AM, under Al's guidance, is enjoying impressive rating success.)

Saturday afternoon, Lee Abrams shared some of the results of recent research which showed that musical interest peaks are in a down cycle. New progressive music is not happening because the record industry is not into the research and development of the album buyer's taste; therefore, the tightening up of album radio playlists is caused by the lack of material. The standards have changed, the attitude of musical snobbery is gone, the listeners no longer care who plays guitar as they did in the days of Cream and other groups. "The profile of the album buyer has changed dramatically"...This is one of the reasons Top 40 has invaded the album radio domain. "AOR is getting into a minute by minute battle with Top 40...72% of the 18-24 demo listen to AOR as background music...AOR is no longer counter culture...There is no longer the musical intensity, AOR does not have a 'hot' group."

Since there is a musical downside the other elements of the program must be very good. It is time to invest in a solid news department. "The MOR/AC giants have proven this over the years" (Judith Brackley, WCAS-Cambridge). The dinosaur thinking about news must change. Why is the weather always last - why not run it in the front and middle - why not run lighter human interest content in the middle when the listeners' interest level is starting to decrease? 18-34 news, if done right, should be in all dayparts...and heaviest in the morning. "The technical aspect is the most overlooked area in programming."

Sunday's combined session, moderated by Gary Berkowitz (WPRO/FM-Providence), focused on the critical relationship between the local promotion representatives and the radio stations in their territory. Stations felt that even the physical appearance of the promotion reps can hurt their presentation. Promotion representatives have to fully understand where the station is headed and how music helps steer the course. Just as a good station has a "plan" designed to increase ratings and hopefully revenue, so should the good promotion person. The promotion people have to consider the psychological consequences of pressing for airplay from a station, trying too hard to get a particular record played.

Our thanks to Al Brady and Gary Berkowitz for their outstanding moderating efforts and to Lee Abrams for his eye opening comments. This was a stimulating meeting from start to finish and we look forward to returning to the beautiful New England area.

Inside Progressive Radio
(by George Meier, Editor of Walrus)

ESTABLISHED PROGRESSIVE AIRPLAY:

- Rolling Stones
- Bruce Springsteen-----
- Bob Seger
- Bob Dylan-----
- Foreigner
- Joe Walsh
- Moody Blues-----
- Alan Parsons
- Pablo Cruise
- David Gilmour

Notes: Except for Dylan and Foreigner, both of whom popped into the top rotations after very good starts, the list has remained rather stable. The Stones and Springsteen stay at the summit and even manage to get stronger in their relative intensity of airplay. All of a sudden radio has some genuine superstar material and it seems to be responding. Nothing on the regional front is worth mentioning, which in itself is worth mentioning.

NEW PROGRESSIVE AIRPLAY:

- Chilliwack
- California Jam II-----
- Randy Meisner
- Steve Gibbons
- Crusaders

Notes: Chilliwack starts stronger than ever before and that is good because fewer bands have made as much good music and gotten such little recognition for it. Another point of interest is the first solo LP by Eagles member Randy Meisner. The history of these adventures is littered with the cutouts of those who could not transcend their origins. Meisner seems to start well. We'll have to wait and see.

Singles: Far and away the leader of this swifty pack of picks is the City Boy single. It is followed by a bunch including the Stones, Steve Martin, Nick Gilder, Plastic Bertrand, Gerry Rafferty, Spirit, and Walter Egan.

Imports: In a similar situation the imported record pile is led by the 12" pink vinyl Rolling Stones. Grouped together behind the Stones are Steve Hillage, Magazine, Rock Horror Show (which is actually a domestic release), Camel and the Vibrators.

The following new tracks are finding favor on progressive radio stations:

- | | |
|---|--|
| Kenny Loggins-WHEN I CALL YOU FRIEND/
NIGHT WATCH/EASY DRIVER/ANGELIQUE | Peter Gabriel-ON THE AIR/P.I.Y./PERSPECTIVE/
ANIMAL MAGIC |
| Randy Meisner-BAD MAN/TAKE IT TO THE LIMIT | Thin Lizzy-BOYS ARE BACK IN TOWN/JAILBREAK |
| Meatloaf-PARADISE BY THE DASHBOARD LIGHT/TWO
OUT OF THREE/YOU TOOK THE WORDS RIGHT OUT
OF MY MOUTH/ALL REVVED UP & NO PLACE TO GO | Chilliwack-ARMS OF MARY
Gato Barbieri-LATIN LADY
Bill Champlin-WHAT GOOD IS LOVE |

Country Club (cont'd. pg. 6)

KCKN-Kansas City made a special effort in June on behalf of the National Asthma Center in Denver.

In addition to a 48-hour Radiothon held at a local mall, KCKN jocks acted as waiters at a restaurant that donated half the price of an "Asthma Special" to the cause. Everyone who ordered the "I'm Fighting Asthma Special" was waited on by someone from KCKN. The Radiothon raised \$16,000. Roy Head provided live entertainment and helped answer phones.

Three thousand underprivileged kids, senior citizens and handicapped people enjoyed ringside seats at the circus recently as guests of KSON-San Diego. Dick Warren, KSON air personality, performed as guest ring master. The event took place at San Diego's Sports Arena.

The "I Love You..." promotion is apparently sweeping the country. KBMY-Billings started theirs early this summer and reports continuing success (and laughs). KHEY-El Paso recently presented the city's council members with "El Paso" T-shirts. The station is also giving the shirts to listeners who can correctly answer questions about historic landmarks and facts. Ray Potter said people enjoy the consciousness-raising aspect of the promotion. It arouses pride in a city's history.

"Open Road" magazine, popular among truckers, is conducting a "Trucker's Country Music Awards" competition. The contest will name the "D.J. of the Year" and the "Top Trucker Station." Five nominees in each category were printed in the July issue along with ballots for readers. The nominees for "D.J. of the Year" and "Trucker Station" are Larry James of WBT-Charlotte, Big John Tremble of WRVA-Richmond, Jack Reno of WLW-Cincinnati, Bill Mack of WBAP-Fort Worth and Charlie Douglas of WWL-New Orleans. Winners will appear in the September issue of "Open Road." *****

Jobs: WXOR-Florence, Ala., is still looking for a 6 PM-mid. air talent with good production abilities. Tapes and resumes to Paige Ferris, Box 932, Zip 35630.

WIRK/FM-West Palm Beach, Fla., has an air talent opening. Contact Barry Grant at 305-965-9213.

KTRM-Beaumont, Tx., needs an all night air talent. Tapes and resumes to Bob Shannon, Box 5425, Zip 77702. Phone: 713-892-4990.

KPRB-Redmond, Ore., is looking for air talents for future positions. Send tapes and resumes to Harry Gift, Box 787, Zip 97756.

Changes: Johnny West moves from WLAS-Jacksonville, N.C., to KSO-Des Moines as Program Director.

Pat O'Neill leaves WIRK/FM-West Palm Beach to attend the University of Wisconsin. Pat will be majoring in communications and working part-time at WXYQ-Stevens Point.

Hail and Farewell

For the first time in almost a quarter of a century, Paul Drew is no longer actively associated with radio broadcasting. His new activities have been widely reported elsewhere and need not be repeated here. We comment only on the departure of a loyal and trusted friend.

Twenty years ago, when we first invited Eastern and Southern broadcasters to join our family of correspondents, Paul was the first to accept. When we organized the short-lived Disc Jockey Association in 1959-60, Paul had membership card number one. He studied radio in Stevens Point, Wis., practiced it in Atlanta (where he steadfastly refused to eat grits), Detroit, Philadelphia, San Francisco and Los Angeles.

Radio has never had a more dedicated disciple than Paul Drew. Radio will miss him.

Transitions

WKVO-AM/FM-Havlock, N.C., is going through some changes. Both stations, previously simulcasting Top 40, now have new call letters and separate formats. WMSQ/FM is a live, full-time adult contemporary station. WCPQ/AM is automated beautiful music. The stations serve Jacksonville, New Bern, Moorehead City and the Atlantic Beach area, according to Ken Betts, P.D. The company is also planning to heighten its 3000 watt tower to improve its capabilities.

WANS/AM-Anderson, S.C. will exchange formats with its 100,000 watt FM August 7, according to Bill McCown, P.D. of the FM and M.D. of the AM. WANS/FM will take on the live, contemporary format, and the AM will go automated adult contemporary with emphasis on news, sports and community affairs. Bill said the stations plan to install a new 1000 foot tower to increase the stations' coverage area.

KAAY-Little Rock's 100,000 watt FM, KEZQ, will change its format effective August 1, according to Assistant P.D. Stewart McRae. The Multimedia-owned outlet will switch from beautiful music to Lee Abrams-consulted album rock, and will be billed as KQ94. The new lineup consists of Stewart McRae (from WZXR-Memphis, 6-10 AM); Karen Williams (KARN-Little Rock, 10-3 PM); Don Payne (KAAY, 3-7 PM); Blake Brodersen (KDKB-Phoenix, 7-mid.); Boyce Barber (KAAY, mid.-6 AM). C.David Hamilton remains P.D. of both AM and FM. Larry Henthorn is News Director of KEZQ.

Stations Offer Travel

This is the season for big vacation giveaways...

KLWN/FM-Lawrence, Ks., sent a couple "anywhere on the planet" they wanted to go via the station's "106 Where in the World" contest. Weekly drawings awarded smaller prizes to registrants such as motorcycles and mo-peds. The grand prize winner also received \$500 in extra cash.

The winner of KKRC-Sioux Falls' Secret Sound contest chose Frankfurt, Germany, as his vacation spot. "Removing a plastic cap from a salt shaker" was the secret sound.

KASH-Eugene debuted new air talent Gary Liberty by "marrying" him on the air...by guessing the name of Gary's bride (Candy) correctly, a couple won a "second honeymoon" on the Oregon coast. Gary, doing 7-midnight at KASH, is from KIXY/FM-San Angelo, Tx.

WFBC-Greenville will fly 25 families to Myrtle Beach, Fla., for a week's vacation each. Listeners had to answer trivia questions to win a "Beach Bash."

WLEE-Richmond sent a couple to Atlanta as a grand prize. Other participants received six-packs of cola and copies of a paperback called "How to Speak Southern."

Album of the Week
(reviewed by Ron Fell)

"A Touch On The Rainy Side"-Jesse Winchester (Bearsville) One of the highlights of last year's music scene was finally having a chance to see this superb recording artist in a live performance. His sensitive delivery of flirtatious and melancholic lyric is spellbinding in concert and on "A Touch On The Rainy Side" the gap between live and recorded Jesse Winchester is narrowed as never before. Songs like WINTRY FEELING, A TOUCH ON THE RAINY SIDE, and CANDIDA soften even the hard-hearted. HIGH BALL and HOLLY alter the pace with an effervescence usually not associated with the man.

Also recommended from the following LP's:

- "Larry Carlton"-Larry Carlton (W.B.) WHERE DID YOU COME FROM/NITE CRAWLER/I APOLOGIZE/DON'T...UP
- "More Songs About Buildings And Food"-Talking Heads (Sire) THANK YOU FOR SENDING ME AN ANGEL/ARTISTS ONLY/TAKE ME TO THE RIVER

- "Never Even Thought"-Colin Blunstone (Rocket) I'LL NEVER FORGET YOU/TOUCH AND GO/PHOTOGRAPH/YOU ARE THE WAY FOR ME
- "Life Beyond L.A."-Ambrosia (W.B.) LIFE BEYOND L.A./DANCIN' BY MYSELF/NOT AS YOU WERE
- "Midstream"-Debby Boone (W.B.) GOD KNOWS/ANOTHER GOODBYE/I'D RATHER LEAVE.../WHAT BECOMES..WORLD
- "Under Wraps"-Shaun Cassidy (W.B.) HARD LOVE/LIE TO ME/IT'S LIKE HEAVEN/OUR NIGHT
- "Sunbean"-The Emotions (Columbia) SMILE/WALKING THE LINE/LOVE VIBES
- "Footwork"-John Hammond (Vanguard) PREACHING BLUES/WHO DO YOU LOVE/ASK ME NICE/EVERYBODY CRYIN' MERCY/GO NO FURTHER
- "Do It All Night"-Curtis Mayfield (W.B.) DO IT ALL NIGHT/YOU ARE, YOU ARE/PARTY, PARTY
- "3-Way Mirror"-Livingston Taylor (Epic) GOING ROUND ONE MORE TIME/TRAIN OFF THE TRACK/I'LL COME RUNNING
- "Circle of Love"-Lorna Wright (Rocket) I'M GONNA LOVE YOU TONIGHT/WHAT'S GONNA HAPPEN?/NIGHT MUSIC
- "Open Door Policy"-Soul Children (Fantasy) STIR UP THE BOOGIE/SUMMER IN THE SHADE/CAN'T GIVE UP...
- "Dottie"-Dottie West (U.A.) EVEN IF YOU WERE JESSE JAMES/GOODBYE IS THE LONELIEST WORD/THE GOOD OL' NIGHTS

Program Notes

In the midst of all the talk about callout research these days, little is being said about "callouts to whom". In any form of market research, a small, selected sample supposedly reflects preferences and attitudes of an entire group. In callouts, the persons called - and responding - comprise the sample.

But wait a minute. Before sticking pins at random in our telephone directories, what are we trying to find out? Which of our records do you like most? Least? What about radio listening patterns and preferences? What do you like (dislike) about this station? That station? News? Jingles? Promos? Contests? Commercials? Responses to all the non-music questions are lumped under the tag of "attitudinal" research.

So we start our random calls. Our initial questions enable us to identify present or potential listeners to our station and to eliminate those who have little or no awareness of our programming. No matter how much attitudinal info we draw from the others, our real core sample consists of our listeners, either actual or potential.

Just how much their answers can help us is debatable, and this isn't the time or the place to debate it. They must provide something or other of value, or so many programmers wouldn't be using callouts as a part of their research. In any case, what could be better than being able to talk to some of the people who listen to our station? Unless, that is, we could talk to some of the very people who have received audience research diaries that feed the computers that print out our audience shares that sometimes tell us whether we have a job next week or not.

Well, of course, the rating services that use diaries don't give out lists of the homes where they're placed. But we do know that at least one major research company gets its diary placement lists from an independent computer operation, which sorts its placement instructions from the local phone directory, organizing it according to zip codes. We can't get their list, of course, but we could go to the independent computer people and have them do a similar sorting for us. We wouldn't get the same addresses that went to the audience research company, but what we'd have would be a density pattern of which zip code areas contained the heaviest concentration of diaries - and which the fewest. This pattern - though not the addresses - would duplicate that provided to the audience research company. Then we could come much closer to our "diary home" targets by concentrating our calls in these heavy diary density areas and ignoring the others..

Pretty expensive to obtain such computerized zip code sorting? Probably so. But think what else you could do with that kind of information: heavy billboard advertising in the preferred zip code areas; special localized publicity in markets, stores and shopping centers; special station vans cruising the areas with prizes and giveaways; even goodwill door-to-door ambassadors giving away promotional trinkets - or even more valuable gifts where radios happened to be tuned in to the right station.

Such a utopian dream sounds like fantasy - but it isn't. Such information is currently available from reputable sources. According to reports, both from subscribers to the information services and from those who wish they were, it works. And it works impressively well.

Ever since the dawn of top 40 radio, critics have deplored radio's trend toward mechanized programming - the substitution of statistics for the element of human choice and individual showmanship. Few readers of this magazine heard Mitch Miller's famous luncheon speech at the Todd Storz 1958 DJ convention in Kansas City, in which Mitch took radio to task for permitting itself to be "programmed by baby sitters". The record business soon embraced such an arrangement - and bade Mitch farewell - when it was found that those baby sitters also bought records - bought them by the hundreds of millions. The complaints grew again as Bill Drake and Rick Sklar and Paul Drew and hundreds of other programmers cut their singles playlists shorter and shorter. Today's gripes are voiced mainly in opposition to radio's use of research data other than record sales in determining, not only what to play but also how often to play it. (And let's not forget to add: determining what has burned out and what not to play at all.)

Essentially, radio is only following a course charted over a quarter-century ago, when the top 40 concept demonstrated the superior audience building advantages of objective data over the programmer's personal, subjective evaluations.

Throughout all its trials and tribulations, however, broadcasters have assumed that radio's program objective is pleasing its listeners. It has been axiomatic that the station most capable of entertaining its audience - "the greatest good for the greatest number" - would wind up at the head of the ratings parade. Axiomatic, that is, until now. Now it is becoming increasingly apparent that many broadcasters are trying to program, not to people, but to a computer. And many more probably wish that they could.

Our present ultra-computer trend may, however, contain certain built in weaknesses. In spite of all the surface hoopla about "the numbers", broadcasting is not sustained by the numbers in the rating books but by the numbers in the bank books. Advertisers, traditionally influenced by audience survey results in determining their critical "cost per thousand" estimates, could speedily become disenchanted by printed survey shares that were seen to reflect an excess of promotional pressures on diary keepers, rather than as a reasonable projection of a station's total audience.

As we get closer to George Orwell's 1984, radio might wisely pause in its corporate pursuit of profits in order to estimate the probable consequences of its present drift toward statistical anonymity. If the radio audience is to be replaced by the computer as the common denominator of program content, then this computerized radio faces the danger of alienation from its source of strength. Programmers who become so dependent on computers that they turn their backs on people may find that people eventually will turn their backs on them.
