## ANALYSIS

PRINCE hangs on to number one, with STEVIE WONDER looking like the best bet to move in as his replacement. Most of this week's chart activity is centered in the top twenty. Three new titles, "Dark Side", "Some Guys", and "Caribbean" enter the top ten, all showing excellent strength. Power Trio welcomes a new member - MADONNA - which is this week's top record in overall airplay, with a total of 248 reports out of a possible 263. CHICAGO remains a close runner-up in both average chart and airplay statistics. ELTON JOHN makes another good move, helped by a strong airplay profile, falling in behind MADONNA and CHICAGO with 242 reports. DENNIS DeYOUNG's "Hit Factor" increases from 10% to 29%, helped by TOM CUDDY at WPRO/FM-Providence taking it 26-20, DAVE ROBBINS, B-96-Chicago 22-16, JIM REITZ, WRCK-Utica 21-16, and 62 others who already have it inside their top twenty. West Coast leading the way on WHAM! with Los Angeles' KIIS/FM topping the list, charting it 18-8 and logging heavy requests. Also on the Go-Go at KUBE/FM-Seattle 16-9, KOZE-Lewiston 18-9, XTRA-San Diego 20-8 and KKHR-Los Angeles #11. An obvious teen favorite as nearly unanimous consensus on immediate phone action. Only PRINCE and POINTER SISTERS survived the log jam on the bottom one-third of this week's Top 40. Those records with slower one and two point moves are unfortunately penalized by the remarkable number of "Up And Coming" new records piled on top of weekly deliveries of singles by major

artists. PRINCE'S "Purple Rain" got a head start with so much early play as an LP cut, but a lot of new additions still coming in. 83 adds this week, including Z100, Z-93, KIMN, KRQ, WCCC, WSPT, WSPK, WPLJ, WLS, KFYZ, etc. Consensus from most programmers is that they are doing their own edits, going with slightly longer versions at night. Expect bigger moves on TINA TURNER next week, with key indicators Q104 charting 29-21, WRKR/FM 20-14, WCRO 30-22, KMEL 19-12, B-94 27-19, B-97 24-19, KKXX 21-14, and KMGX 29-21. KENNY ROGERS, CARNES & INGRAM showing similar chart movement. Although not as much overall airplay, J.J. HEMINGWAY at WORD-Spartanburg lists it number 10, plus moves of 17-9 at KLBQ/FM-El Dorado, 20-12 at FM102-Sacramento. HALL & OATES easily pulls off "CERTIFIED" status, with an easy to believe 227 reports and already charting at 53 stations! Seems to be crossover time for this week's "Record To Watch" by NEW EDITION. Three week trend on Black Radio's chart is 22-16-11. New York confirms, charting #17 at WKTU and #29 at Z100. 18 adds including I-95-Miami, WBBQ-Augusta, Q105-Tampa, WHYT-Detroit, KILE-Galveston, Q96-Norwalk, etc. Also keep an eye on the huge European and British hit by FRANKIE GOES TO HOLLYWOOD, "Two Tribes". STEF RYBAK at KC104-New Haven, CT notes "unbelievable" sales on the 12-inch with virutally no airplay in the market. MTV plus Album and Alternative stations are already bangin' it. MIKE SCHAEFER at KIIS/FM is getting significant calls for a record that's not on the air.

## FROM THE WINDOW ABOVE Art Roberts

"I can sure use that bio I asked for" said Ron.

"I'll send it."

I was born on the third floor of a walk-up apartment building in New York City. When I was but a toddler I would open the front window and holler down to my friends in the street below. I found I could reach more than one person at a time that way. It was my first introduction to communications.

After a while I entered the Hardknocks School of Radio. I got my formal education at KTBB, Tyler, Texas. Scored enough points to snag a "Bachelors of D.J. Degree" at KLIF, Dallas. Got my "Masters Of The Microphone Degree" at WKBW, Buffalo, New York. And was awarded a PHD (Peer Hype and Devotion) at WLS, Chicago, Illinois. (That one took ten years.)

Eighteen months ago I accepted the position of Advertising and Promotion Manager of Century Analysis Incorporated, one of the nation's leading software manufacturers. I guess I needed to find new challenges and new horizons. It's an interesting job, all right, but somewhere along the line I realized that I missed my window. Ron Fell offered me this one, so every-so-often I'll open it and holler down to you in the street below. Well, since it's already opened ...

Lets talk about "bad design." Toilet paper, ferrinstance. Ever meet anybody who used only one piece? And how about those plastic guards that hang over salad bars? They're patented head-bumpers. Every time you reach for a portion of something, half of the food falls into the pot next to it, while you struggle to maneuver an oil-slicked clear plastic spoon to a tilting plate — which is why the dressing always has green stuff floating on top. BAD DESIGN!

Formats can have "bad design." One of the worst I experienced was at a 50KW station in San Francisco that programmed an instrumental every other record. That wasn't

nearly as bad as the selection of music. A good many of the instrumentals turned out to be movie themes from "B" movies that never got past the drive-in circuit. There were also too many restrictions on the vocals. For example, James Taylor was banned because he sounded "too nasal."

The winner of the "Worst Designed Format Of The Century", at least on my dance card, was a country station in Milwaukee, Wisconsin. It was number one in the market when the home office hired two consultants with a "one-size-fits-all" mentality, who promptly re-designed the format by adding unfamiliar songs and sprinkling-in some of the soft rock hits of the day. The station went from number one to number seven in one book. BAD DESIGN.

Designing a format is like cleaning out a garage. First, everything is removed and piled up on the sidewalk. Then all the essentials are put neatly in place. The rest of the "junk" is scrapped. After all, the two cars not only have to fit, but there has to be enough room for the doors to open easily.

Well designed formats seem to have similar qualities. They are uncluttered. The music has room to flow. People on the air fit comfortably into their designated parameters. Features, such as news or station promotions never sound out of place. The station develops a recognizable personality.

Badly designed formats have none of the above. So they use-up a lot of energy trying to convince the audience how "great" they are. Which reminds me of a story ...

Gary Cooper and his wife were standing in line to see a show in Las Vegas. Gary's wife was urging him to go to the front of the line and remind the Maitre d' that one doesn't keep a star of Gary Coopers' stature waiting in line. Being a man of few words, Gary said:

"Honey, if you gotta tell 'em, you aint."

## Tony Richland: To Tell The Truth

This past week . . . and with inspiration from Michael Jackson, your reporter was moved to call a virtually unprecedented press conference to straighten out a myth and put some rumors to sleep once and for all.

For some time now, a small but vicious band of my fellow record promoters have perpetuated the false notion that I have only been tall for the past few years.

This cruel and undeserved fable has, by nature of repetition, spread among my peers and caused me great personal pain and suffering.

For those reasons I felt it inherent upon me to gather together the music and radio press to set the record straight.

For those of you who could not attend, here is the gist of my formal statement

"It saddens me that many of you in the record and radio industries have chosen to believe the growing flurry of wiseguy remarks about my height and/or lack of it. Having risen to the pinnacle of success in the promotion field, I have been the recent target of malicious gossip. All of these cracks are unfounded and I have instructed my attorney, Mervyn Harmon of the law firm Harmon and Krelv, to institute legal action should this continue. As a role model for young promo-persons I feel it is my duty to clear up this rotten drivel and set down the facts as they

are. And so . . .

NO! I have never had bone and flesh implants attached to the bottom of my feet to falsely rise me to the height of Bill Drake and Cousin Brucie Morrow.

NO! I have never worn 3 ft. high elevator shoes to enable me to see over **Elma Greer** at NAB conventions.

NO! I have *never* had silicone alteration performed on the inside of my Dodger cap to make it appear as though I was addressing Al Herskovitz eye to eye.

YES! I am and have been my present height of 6 FT 5 Inches and am not in fact **George Chaltas** or **Terry Powell** wearing a Tony mask.

YES! Dr. J. is really my nephew and will be happy to swear under oath that he attended my Bar Mitzvah, at which time I was already well over 6 ft.

"With these facts now stated, I can assure you that those who would, from this day forth, continue the myth that I am falsely tall will be prosecuted to the fullest extent of the law.

Young promo-people are very impressionable, and to feel, even for a moment, that they might view me as less than 100 percent legitimate would hurt me terribly. I want their continued adoration and will stop at nothing to get it. Let this be a stern warning. I have no further statement. Thank you." ■

## ANALYSIS

415-392-7750

As predicted last week, the top four remain the top four. With no appreciable slack above and ten consecutive underlines below, it looks as though Neil Diamond and Huey Lewis are gonna be squeezed like toothpaste in a tube. Actual statistical momentum was favorable for Neil this week but as we all know ranking is a relative thing. Seven of the first eight A/C records to be CERTIFIED are in the top 20 right now; Ralph MacDonald, Kenny Rogers etc., Donna Summer, Barry Gibb, Dennis DeYoung, Elton John and Madonna. Lionel Richie's fifth single from "Can't Slow Down", PENNY LOVER, is now on the A/C page. The last week he didn't have a song in this section was September 2nd 1983. (the week before ALL NIGHT LONG broke).

# PROMOTIONS

BETTY HOLLARS  
LISA SMITH

left to right: Mark Adams, P.D. of WRRK/FM-Manistee, MI. and Frankie Banali, Carlos Cavazo, Kevin DuBrow and Rudy Sarzo from Quiet Riot. (Photo by Eric Munson)

## TRIPLE HEAVY METAL

**WRRK/FM in MANISTEE, MICHIGAN**, took 35 contest winners to a triple bill Heavy Metal concert, starring Quiet Riot, Helix, and Kick Axe, as "The Castle" in Charlevoix, Michigan. Program Director **Mark Adams** (pictured here with Quiet Riot) with the help of local sponsors, took these winners via the WRRK Concert Express, and were given prizes, including a t-shirt that reads: "I Kissed The Summer Goodbye With WRRK/FM" and an album or cassette of Quiet Riot's latest.

## OUT TO LUNCH

**Bill St. John**, new P.D. of **KIIZ/AM KILEEN, TEXAS**, tells us about their contest called "Z/WENDY'S OUT TO LUNCH." Winners of the contest (random drawing) get to go to Wendy's Hamburgers for lunch with anyone from their office, courtesy of the station. Some winners took up to 12 workers with them and Bill says, "The contest will continue until Clara finds the beef!"

## WHO SAYS THERE'S NO SUCH THING?

**Gary Zane**, air personality at **K104-SAN BERNARDINO, CA**, has become a very popular lunch date in the San Bernardino area. Gary has been asking listeners to send him their business cards and for the next month, he will be drawing some of the many cards that have been sent in. Zane draws one business card during his Wednesday show at 9:05 AM and that person, along with twenty of his/her co-workers, are treated to a free lunch on the following Friday.

## K-HOP'S FOR THE SCOUTS

**David Allyn Kraham**, P.D. of **KHOP/FM-MODESTO, CA** reports a very successful promotion called "Bike-A-Thon '84" Pledges are being collected from listeners for the September 23rd bike race through Modesto. Money collected will be donated to the Muir Trails Girl Scout Council to continue the building of a Girl Scout House for their meetings and overnights—where the scouts learn important skills.

## PRESIDENTIAL CANDIDACY ANNOUNCED

**Carl "The Tall Dark Stranger" Drake**, afternoon personality and program director at **KRPT-ANADARKO, OK** has announced his candidacy for President of the United States, naming KRPT mascot Kerpit The Frog, as his Vice Presidential running mate. They are running as independents. He announced his candidacy on a broadcast news conference on his radio show, and the campaign continues daily on the show in which he rotates a large number of 30: "unpaid political announcements" furthering the cause. Since the campaign began, Drake and Kerpit have been flooded with requests for campaign appearances all over KRPT's three county listening areas, where Drake delivers a speech outlining the campaign's platform, meets and greets the people, and hands out campaign brochures and buttons. Drake and Kerpit are accompanied on these appearances by up to four "secret service" men, and often a police escort and chauffeur driven limousine.

## SILVER ANNIVERSARY

**Jim Pewter** at **KRLA-LOS ANGELES**, sent us a 25th Anniversary edition of their "Hit List". What was so unique about that? On the flip side of the current list was a reprint of their VERY FIRST Hit List from SEPTEMBER 1959 so listeners could save it and enjoy it as a souvenir.

## CELEBRATION CRUISE

The **OSMOND FAMILY** will be the first private entity to take over the S.S. Norway when it sails from Miami December 1 on a "Silver Jubilee Celebration Cruise". A portion of the proceeds received from each cabin booked will be received by the non-profit organization sponsored by the family that supports children's hospitals across the United States. The Osmonds will hold several performances on board and the cruise is the culmination of their 25th anniversary celebration as professional performers.

**BRUCE SPRINGSTEEN**

The B side of his current single COVER ME, is a Tom Waits song, JERSEY GIRL, which Bruce recorded live in the Summer of '81.

**POLICE**

The L.A. Times reports that the band will have a live LP out by this time next year, but a solo LP from lead singer, Sting, should make the rounds in the Spring

**DAVID BOWIE**

He nearly became blind in one eye (his left) as a result of a fight as a teenager. Surgery to save the eye left him with a paralyzed pupil.

**PRETENDERS**

Chrissie Hynde and husband Jim Kerr are expecting their first child (his first, her second) in March. Chrissie revealed the blessed event at the conclusion of the Pretenders Tour.

**BILLY OCEAN**

He was born in the southernmost Caribbean on the island of Trinidad, but moved to London at the age of eight.

**BARBARA MANDRELL**

She has been the Country Music Association's Entertainer of the Year twice, 1980 and 1981.

**CAT STEVENS**

The October release of an album titled "Footsteps In The Park" will essentially be a Greatest Hits Volume Two. The package also will include songs he performed for the movie "Harold & Maude."

# BIO FEEDBACK

**FRANKIE GOES TO HOLLYWOOD**

As a result of the BBC banning the video of their hit, RELAX, Frankie Goes To Hollywood has banned the BBC from playing the new video for "TWO TRIBES".

**HERB ALPERT**

His Tijuana Brass is a nine man unit, including three originals from the 1965 band which first toured with Herb.

**WILLIE NELSON**

For a brief time in 1958, Willie was a disc jockey at KVAN in Vancouver, Washington. It was in Vancouver, Washington that Willie recorded his first song, "No Place To Go." Willie had 2,000 pressed up and sold 'em all.

**POINTER SISTERS**

Since signing with Richard Perry's Planet Records in 1978, the Sisters have released six albums, all produced by Perry.

**LIONEL RICHIE**

His 1981 duet with Diana Ross, "Endless Love" (from the Franco Zeffirelli film of the same name) won him an Academy Award nomination.

**STEVIE WONDER**

He had his first hit twenty-one years ago at the age of twelve, but had actually signed on with Berry Gordy's Motown Recording Co. two years before that.

**RONNIE McDOWELL**

His tribute to Elvis Presley, "The King Is Gone", recorded only weeks after EP's death, proved to be one of the biggest selling records of that year.

**ANNE MURRAY**

She has won a Grammy for Best Country Vocal Performer in both 1974 and 1980 and for Best Pop Vocal Performance in 1978.

**Y&T**

Bay Area metal rockers recorded two LP's under their elongated moniker, Yesterday & Today, named after the Beatles' LP.

**BRUCE COCKBURN**

The title of his new LP, STEALING FIRE, was taken from the Greek myth of Prometheus. He stole fire from the gods to share with mankind. His punishment was to have his gizzards eaten by vultures.

Releases

Pride/Wire/Unforgettable Fire/Indian Summer Sky/A Sort Of Homecoming-U2 (Island) A band revered by grocery boxboys and urban sophisticates alike, U2 keep the ball rolling by experimenting with high decibels and daring rhythms. As listed above, there are more songs in the tradition of their hit Album twelve inch, yet there's also songs that are one-step-beyond with an emphasis on the cerebral. U2 can take listeners to the same places pioneers like PINK FLOYD, and early DEAD took their legions--that is, far away from the commotions of the modern world. I love their music because it's both a hard and fast jerk of reality at the same time it's a pleasant escape.

Knees-Out Of Touch/Method Of Modern Love/Some Things Are Better Left . . . /Going Through The Motions/Possession Obsession/All American Girl-HALL&OATES(RCA) I keep expecting these two to let up, but no go. From the Intro ("Dance On Your Knees" straight into the single) to the last note of JOHN OATES' "Possession Obsession", BIG BAM BOOM is eight straight trax of solid hit music. There should be no reason in the world BBB will be any less HUGE than, say, their last three platinum efforts. We'll be hearing hit singles and twelve inchers off this right into '85 without rest. Sold American!

Running/Standing In The Line/Luck Don't Last Forever/Clean Cut Kid -THE TEXTONES (Gold Mountain/A&M) Not only is CARLA OLSON quite fetching on the cover of her LP, her music is equally sharp and biting. On the progressive side of PETTY or THE STONES, THE TEXTONES play from the heart minus the usual prefab posturing plaguing a lot of young American bands. CARLA and THE TEXTONES (originally formed with GO-GO KATHY VALENTINE) have been releasing music for quite some time. Yet up to now, they've only enjoyed an artists' artists status. Now that they've gone public with a cool batch of tunes

(including "Running" first cut by CHUBBY CHECKER) maybe we'll start seeing some of this blonde hair fly nationwide.

I Love You Love/Someday/Push And Stomp/Talking Bout My Baby-JOAN JETT & BLACKHEARTS (Blackheart/MCA) Using a jury of production talent, JOAN JETT follows up her overlooked previous ALBUM with more scowling convictions of hard rock, bubble gum, and even doo-wop. To me, "I Love Rock N Roll" was icing on the cake. The way JJ straddles the line between metal, pop, and punk is almost death defying. Thanks in part to the record collection of mentor/manager KENNY LAGUNA, JOAN's music is a mixture of R&B rooted rock and modern grunge. Whether speaking or singing, JOAN has a raunchy earthiness that makes it impossible to apply any cheap pretense to her style of rock n roll. You could call her the MADGE the MANICURIST of rock n roll right down to her cuticles. When she shouts "Listen", believe me, you do.

Sea Of Love/Rockin' At Mid./I Get A Thrill-HONEYDRIPPERS (Esparanza/Atlantic) A delightfully lush homage to the music that made the earth move. Ironically distributed by one of the few companies that was there from R&B's birth, ATLANTIC. Robert Plant shows his age as well as his deep talent.

The Prize/Protection-DANNY O'KEEFE (Coldwater) Though a longtime O'KEEFE fan, even I wasn't ready for this. No acoustic blues this time, uh-uh. Instead, O'KEEFE tackles some tough new material with eighties instrumentation. If CHRISTOPHER CROSS or KENNY LOGGINS sang with urgent passion, they might sound this good. "The Prize" and "Protection" are good starting points. Side two unfolds with each listening. Call 415-331-9153.

ANALYSIS

After 16 weeks at number one (and not necessarily the last) BRUCE SPRINGSTEEN makes way as DAVID BOWIE makes a dramatic three way sweep of POWER TRIO, MOST ADDED, and CERTIFIED. Not exactly out of obscurity (the single was already doing quite well), BOWIE is only the second artist (aside from SPRINGSTEEN) to debut at number one, sweeping the whole shabang. JOHN CAFFERTY (and label mates SURVIVOR, for that matter) continue an aggressive upward climb. A few markets are even reporting stronger sales than SPRINGSTEEN whose shadow I doubt they'll ever escape. Next week DAVE EDMUNDS should go TOP TEN. A second rack would help.

TINA TURNER jumps nine points with her new single much better suited for ALBUM RADIO. Thank THE FIXX, who incidentally hang on to the number two position with a fury. In the middle of the chart at numbers 19-25, all are underlined and are jockeying for position. THE RED ROCKERS (see page 29) and KROKUS are making lateral but upward moves thanks to the jammed up, clogged up midriff of the chart. A couple of STYXISTS, DENNIS DEYOUNG and TOMMY SHAW debut close together in rotation points. The new HALL & OATES album is a monster. Next week it will dwarf the twelve inch depending a lot on the U.S. Mail system. CYNDI LAUPER's new single "All Through The Night" (penned by JULES SHEAR) will revive her already giant LP once again, so be prepared. JETHRO TULL will debut next week based on it's strong start and out-of-the-box reaction this week. This is the first week we had less than five ALTERNATIVE CROSSOVERS. Besides BOWIE and EDMUNDS, YOKO ONO's album is doing quite well. It should be pointed out, though, that each format is on a different track. ALBUM RADIO is high on the EDDIE MONEY track while the runaway ALTERNATIVE favorite is overwhelmingly ELVIS's version of "Walking On Thin Ice". A turnaround this week for ELTON JOHN. His new single is reviving the album as "Restless" begins to fade. STRANGE BUT TRUE DEPT. I don't know about you, but I spend time browsing through record stores. This week I saw a first—a LEATHER record cover. I've seen SHEET METAL before, but never leather. It did happen to be a MOTORHEAD LP. However I'm having trouble deciding if history is worth \$20.

The lull in last week's storm of new releases has passed. This is one of our most turbulent chart's in recent months. Next week should also be more of the same, as the barrage of new albums begin pushing fatigued music aside.

The HOODOO GURUS score a fourth quarter TD, leap-frogging the RED HOT CHILI PEPPERS to number one. Together the GURUS and PEPPERS lead the pack by a substantial margin and make up two-thirds of the POWER TRIO.

Last week's GAVIN CERTIFIED, THE CHURCH, enters the POWER TRIO. Airplay will increase further when their tour begins.

LET'S ACTIVE moves into the top ten for a GAVIN CERTIFIED and will waste no time entering the GAVIN POWER TRIO.

A mid-chart POWER TRIO exists with U2, TALKING HEADS, and DAVID BOWIE all poised to increase their positions dramatically. BOWIE'S support is initially coming from the Alternative commercial reporters, while the TALKING HEADS airplay now includes a large non-commercial sampling.

The dB'S long-awaited album gains almost instant endorsement, debuting within the upper half of the chart. They were the fourth most added this week (the MOST ADDED last week) and should translate into station rotations in the coming weeks.

Look for big gains for AZTEC CAMERA and the REPLACEMENTS. Both are still just getting added this week. The REPLACEMENTS will likely be a giant record especially after the full album is out.

GAVIN ALBUM INDICATORS

# RED ROCKERS

## ON THE EVE OF CONSTRUCTION.

**THE GAVIN REPORT** spoke to **DARREN HILL**—bassist for **THE RED ROCKERS**. *SCHIZOPHRENIC CIRCUS*, their third album for 415/Columbia Records is entirely honest, urgent, poignant and (thank god) American. Darren has youthful exuberance yet is very realistic that there are no short cuts on the hard road to rock'n'roll nirvana.

What are your thoughts on video as a medium for recording artists? How will **THE RED ROCKERS** fit into the video scheme of things?

The directors tried to make us put a lot of girls and stuff in our videos, which is not what we're about at all. This time we're having a lot more control over how we want to present ourselves. It's going to mainly be a performance piece, but we're going to cut in a lot of images. It's hard to do a song like *EVE OF DESTRUCTION* without being real cliché. We didn't want to get into too much protest footage.

Who do you expect to reach with your new album *SCHIZOPHRENIC CIRCUS*?

You're always looking to reach new fans of course. I think it's going to go beyond the last album and reach into Album Radio. We still have a lot of college support. I think all of our old fans will like this new album. We're still going to have our ground support and our street support. Hopefully getting more radio airplay will reach a whole new audience and that's real exciting.

What's the significance of Red in the name **RED ROCKERS**?

Red in the sense of urgent or emergency. We want people to pay attention to us and to what we're saying. That's what the Red stands for. It doesn't connote Communism or Marxism or anything like that.

Your new album *SCHIZOPHRENIC CIRCUS*, is produced by Rick Chertoff and Bill Wittman. How did the sessions go?

We wanted to make sure we got the sound we really wanted. On the last two albums, we were happy with them but we weren't quite satisfied with the sound. We wanted a tougher sound, a bigger sound. A lot more time was spent on this album. The last album was recorded in two weeks and *Condition Red* (the first album) was recorded in about two days. This time we spent about four months, total, including studio time and pre-production time.

You decided on using Chertoff before Cyndi Lauper broke.

Yes. He used to work with a band called **THE A's** (on Arista). They had a good sound. The guitars and the drums were big. Bill Wittman did engineering for people like Springsteen and Dylan.

On your very first album, early songs like *GUNS OF REVOLUTION* were almost brash and hardcore sounding.

We were just kids. We had only picked up guitars about 2 years before recording *CONDITION RED*. It's a whole learning process. As we get older and grow with age, we also grow with our musical abilities. With every album, we seem to take a big step. It's working out real well so far.

You were compared to **THE CLASH** in the early days. Did that bother you?

Oh yeah. We weren't trying to be that way. It's really hard being compared to somebody like that. It seemed like writers wouldn't take the time to get into us in any depth. They would just label us as the American **CLASH** and take the easy way out. It was difficult to fight that for a long time.

On the second album you brought in a new drummer.

**JIM REILLY**. He was in a band called **STIFF LITTLE FINGERS**.

So you backed off a little on the political nature for the second album. What about *SCHIZOPHRENIC CIRCUS*?

A really terrible thing happened to us last year in the middle of our tour. Jim, our drummer, is from Ireland. His brother was murdered in the streets of Belfast last year ... when he was walking down the street. Something like that can't really help but make you more political and angry. Right after that, we started to write new songs. A lot of that has to do with our stance on the latest album. It rubbed off on the lyrics quite a bit.

What gave you the idea to cover the song *EVE OF DESTRUCTION*?

We like to do cover versions of songs that are as socially relevant today as they were back in the Sixties. On the last album, we did *BALL OF CONFUSION*. We played around with a lot of **BEATLES**, **STONES**, and **DYLAN** songs and it just seemed that *EVE OF DESTRUCTION* came out with a magic touch. When it was finished, it turned out so well, we said 'wow' this could be a single.

Do you understand more about the practical aspects when it comes to attracting airplay? Or do you write 'em and hope for the best?

A little bit of both. Of course, you write and record your songs and hope for the best. But as time goes on ... you start to understand how the whole thing works with programmers. We felt the times are right for *EVE OF DESTRUCTION* to be popular again. We also figured that since the song was number one in 1967, it was probably when most DJ's and Radio programmers were growing up and listening to music. We like the lyrics. We're really behind it. Just maybe Radio will get behind it as well because they remember it and it means something to them. We can pass the song on to a whole new generation.

What are your memories of the earliest days of **THE RED ROCKERS** in New Orleans?

A lot of closed doors. New Orleans is a terrible place for a new band to start out. No place to play. No hip press. We loaded up a Hertz truck and ended up in San Francisco. We kept ourselves alive until we met **HOWIE KLEIN** from 415 Records.

Do **THE RED ROCKERS** have a final message to radio programmers out there?

Take a chance on some new American music. There's a lot of great young American bands around who are getting neglected.

## FOCUS GROUPS: A Means—But By No Means An End To Your Research

by Terry McNiff

Focus groups have become one of the most valuable tools in a radio station's research arsenal. They have proven extremely beneficial when their values as well as their limitations are thoroughly understood.

For those who are not familiar with this research approach, a focus group can be described as a brain-storming session—guided by a trained moderator—involving a group of 8—12 people who share one or more common characteristics (e.g., women 18-49 who listen to your station as well as to your prime competitors).

If you embark on focus group research as a way to uncover and better understand particular aspects of your station's strengths and weaknesses, you will undoubtedly find the results to be well worth your time and expense. If your objective is to find solutions to those problems, focus group research will often fall short of your expectations. That's because focus groups are a place to begin rather than a cure-all.

I will admit to having reached heights of excitement (as well as depths of boredom) sitting behind a one way mirror in a darkened room observing a focus group in action. But, let's face it, 8 or 12 carefully screened individuals, gathered around a table, do not constitute a statistically significant sample—even if they all agree on something.

These 8 to 12 listeners are "golden" to you *not* because they've got the answers but, rather, because they've raised the questions. Knowing and understanding the questions raised by your audience, or potential audience, is the key to developing future studies—designing audience research that *is* quantifiable and projectable—research from which you can make decisions.

In short: what I'm saying is that focus groups are research for doing further research. They should *precede not preclude* other research efforts.

### What You Can Learn From Focus Group Research

Let me cite some examples of what you can expect from focus group research:

- \* broad-based perceptions of your station and the competition and the image they project to listeners
- \* general attitudes regarding the music played by your station and the competition or, in the case of talk shows, attitudes towards subjects covered.
- \* general feelings towards your on-air personalities (focus groups may identify specific and potential problems with elements such as delivery style, accent, pacing...)
- \* perceived changes in the station over a period of time; i.e., is it getting better or worse?
- \* insight into problems and opportunities with respect to news and information provided by your station
- \* initial reaction to promotional ideas, story-board concepts, proposed on-air features, etc.
- \* insights into signal problems
- \* attitudes toward commercial content as well as specific commercial copy that may offend the listener

\* exploration of new formats. (Sometimes this can take the form of idea generation, investigating potential unfulfilled programming needs)

\* and, most of all, focus groups enable you to gather ideas and information which will assist you in designing larger, quantifiable studies.

My company, Information & Analysis, Inc. (I&A) has found that focus groups do not provide enough information to justify making decisions with regard to music rotation, on-air staff, and specific daypart programming. Problems in these areas can be uncovered in focus groups; however, confirming the problems and finding the solutions requires a broad-based random sample telephone survey that will provide data which is projectable to the entire population.

### Number of Groups

Focus group research should not be limited to one group. At I&A we recommend three separate focus groups. Reliance on only one group raises the possibilities that one or two participants may behave in a way that minimizes the effectiveness of that focused panel. In addition, a study based on three separate panels increases the likelihood of obtaining representative insight into the subject being researched.

### Role of the Moderator

The moderator who handles the focus group session plays a vital role in determining the success or failure of the research. A moderator with expertise in this field can keep the discussion on target. He or she can prevent one or two participants from dominating the discussion at the expense of other people in the group while drawing out those who may initially appear to be playing a more passive role. In addition, a smart, experienced moderator can sense from the participants' tone of voice, facial expressions and even identify from body-language, attitudes and opinions that may not yet have emerged during the discussion. This is one of several areas where you save nothing by using in-house staff. Only a trained outsider can maintain objectivity and order.

### Conclusion

The focus group is an excellent research technique when used properly—as a preliminary approach for designing a quantitative research study.

But fault us for being human. It's a lot easier to warm up to the comments made about your station by a roomful of people than to the impersonal figures displayed on the pages of a rating book or printout. However, it's "the numbers" that stations live by, and many times a quantitative survey developed from focus group research is the best way to improve those numbers.

**ANALYSIS**

They've done it again! Alabama usually holds onto the number one spot for more than one week, and they've been in this position more often than any other country act so far this year. If we still had a PRIME MOVER, Earl Thomas Conley would have been it this week. Anne Murray & Dave Loggins are now being

embraced by A/C stations - and even a few Top 40 stations. John Anderson, Lee Greenwood, The Statlers, Johnny Lee, and Don Williams continue to steadily ascend the charts. George Jones and the Nitty Gritty Dirt Band are the only two debuts this week.

Expect several debuts next week, as stations weed out to make room for the newer product bursting at the seams to go up, up, up. Speaking of bursting out, the Judds are doing just that. It would be redundant to keep mentioning Pinkard and Bowden as a Top Request record. Radio people may be "burned out" on it, but listeners can't seem to hear it enough. Obviously, there are many chart contenders listed in the Action Sides, with a few weaklings continuing to hang in there. We'd like to list which ones look strong and which ones look weak, but we can't predict how the phones are going to influence the charts. Wouldn't it be great if they could all go Top 10?

## P.D. NOTEBOOK by Eric Norberg

## C.D.'s

In banking, a CD is a Certificate of Deposit, and you can receive an interest penalty for early withdrawal. In radio and the stereo consumer world, the CD is the newest way to reproduce music: A 7-inch "Compact Disc," putting an enormous amount of pure music in a very small space using the technology developed for the remaining videodisc system — a laser, reading digital information from the disc's surface, and converting this stream of numbers into clear sound without ever touching a needle to the record. CD's are largely impervious to clicks and scratches, and there's no hiss or background noise, and no distortion. Pure sound — the way it was originally recorded, with the original dynamic range (loudest-to-softest ratio).

Since CD's are now being played by a number of stations, and some programmers are calling them the salvation of radio while others warn it's the death of radio, let's look at some facts. The euphoria and the forebodings both relate to the phenomenal sound quality of these rather expensive little records. The fact is, that radio as it is now constituted, cannot produce the sound they provide. AM is capable of reproducing most of the sound quality (frequency response); FM is not, because of the pre-emphasis curve FM must transmit with, but that's true of regular records too. They have the capability of an enormously wide dynamic range, and often make use of it, more than radio on either band can make use of. The CD's potential for better than 90 db dynamic range compares to a dynamic range of as little as 1 db on some heavily compressed radio stations! Since this huge dynamic range goes from near-

inaudibility to massive crescendo, and on the best classical CD's this full range is used, stations must turn around and start eliminating the dynamic range all over again! And your limiter will have one heck of a time coping with that wide a range. Most limiters do real well to handle a 30 db range, and some top stations find they have to hold their board output levels to 15 db dynamic range or less if they are to avoid heavy distortion on the loud parts, and undermodulation on the soft parts.

The stations that really like CD's like their cleaner, clearer sound, their insensitivity to damage, and the extreme ease with which songs can be cued by most of the CD players. Those who fear CD's realize that no radio station today can match the sound they can produce... perhaps making radio seem rather archaic in the sound system of the future. (And for some stereo-philos, that will be true).

The reality is somewhere in between. The sound *is* better on the average radio receiver when CD's are played; CD's are hip and some people would

think they were hearing better sound if you said you were playing a CD and you weren't. Radio cannot presently fully reproduce CD's, but then we live in a compressed society — people have heard compressed sound all their lives from radio, TV, records, and even public address systems — and they feel comfortable with it. They can keep the volume down and still hear the soft parts! So for the mass audience, the purity of sound (particularly dynamic range) may never be as much of a plus as it could be. Not for the current generation anyway. Distortion reduction is very significant, and all stations will benefit from that; most people are not consciously aware of distortion, but it's fatiguing to them and may shorten their listening spans (and that's a real hazard of overprocessed radio audio). CD's do reduce distortion to essentially nothing, within their dynamic range, provided the original master recording was not distorted.

And one of these days, radio stations will find a way to transmit this very high density digital data within their available bandwidths, and whatever is on the disc is what they'll hear on the radio! (AM may well prove better able to do that than FM; TV sound is FM, but TV pictures are AM, because the very complex picture signal is more efficient to transmit that way.)

**ANALYSIS**

Stevie Wonder moves easily into the number one position, but Prince is still so strong it only falls to #2. That makes it tough for Chaka Khan and Diana Ross, who will be fighting Stevie for the top spot soon. Better be good to Tina - she's out for another number one single no matter what the competition may be. New Edition moves faster and faster up so many charts - the big ones look like this: #4 for Sonny Taylor at WRKS-New York, #4 for Chris Turner at WJAX-Jacksonville, #6 for Ken Rush at KNOW-Austin and Bill St. John at KIIZ/AM-Killeen, #7 for Scotty Andrews at V103-Atlanta, #8 for Bob Collins at WNOV-Milwaukee, #9 for Kelly Karson at WTLC-Indianapolis, #9 for Jim Brown at WLUM-Milwaukee, jumps 16-9 for Quinn Mark at KROF-Abbeville, #12 for Howard Tomas at KHYX-Ojai, #15 for Donnie Taylor at WYLD-New Orleans, #17 for Neil McIntyre at WKTU-New York, #18 for Fred Buggs at WUSL/FM-Philadelphia, #18 at WJKX-Moss Point for Jeffrey Paul, #19 for Dean Dean at WDMT-Cleveland, #24 for Andy Henderson at WQKI-St. Matthews and for Andre Marcel at

WDX-Rochester - and those are just a few. "Purple Rain" will never fall at the rate it's going now - it will only reign up! Could go top 10 as early as next week! Ashford & Simpson looks pretty "Solid", debuting at #25 after only two weeks on the page. Several new items could overtake the ones that have been waiting to become "Chartbound" for several weeks. New threats will be Lionel's "Penny Lover" (can you believe - his 5th from the album?), Jeffrey Osborne's "Don't Stop",

Hall & Oates' "Out Of Touch" and Dazz Band's "Let It All Blow". Lionel and Jeffrey get the "Most Added" positions this week, but Dazz Band wasn't too far behind, as you can see from our "Up and Coming" listing. A couple of flip sides that you should be aware of (if you don't have a commercial copy) are the "Erotic City" side of the Prince single, getting a lot of airplay - both edited and non-edited (stations are doing their very own creative edits), and Whodini's "5 Minutes of Funk" is starting to get attention from listeners where it has been getting played.

SEA OF LOVE-The Honeydrippers (Es Paranza/Atl.)

OK everybody...make room for old wave music. The Honeydrippers bee happenin'! This supergroup (ala Blind Faith & Asia) is comprised of Robert Plant, Jimmy Page, Jeff Beck, and Nile Rodgers. Judging by the quality of this effort these gentlemen definitely have a reverence for the greats of yesterday. Late during the summer of 1959, Phil Phillips original version became the country's number one hit, and I waited for it to come on my new transistor radio. Twenty-five years later here's a brilliant production that is smoother and sweeter than honey. Record of the week.

PENNY LOVER-Lionel Richie (Motown)

Lionel follows format and based on his track record, how can he miss? Can't name too many artists around today that can come with a fifth single from an LP and pull in over 100 adds out of the box. Must be common cents programming.

AFTER ALL-AI Jarreau (Warner Brothers)

Heavy lineup of Jarreau, Graydon, and Foster cover all the bases. A/C radio's a natural of course, but this sentimental ballad is so tasty it's mass appeal enough to warrant Top 40 airplay as well. Season is ripe for this type of sound.

NO MORE LONELY NIGHTS-Paul McCartney (Col.)

Here's the warm up for a major event - the release of a new Paul McCartney feature length film. Always plenty of audience interest for pop musics most successful songwriter and this entry should be no exception. Check out David Gilmour on guitar.

ALBUMS OF THE WEEK

"Big Bam Boom"-Hall & Oates (RCA) If there was even the slightest doubt that Darryl and John had rhythm rock down cold, this will put it to rest for good. As paragons of palpitating pop, H&O have now produced, with the help of my hero, Bob Clearmountain, the most urban, street-wise set of their career. They even bring in mixologist Arthur Baker for some boost, master-blasted style. The first single, OUT OF TOUCH, gets a prologue with DANCE ON YOU KNEES (Baker-style) and it is that first single which has the most endearing and durable melody. But H&O and their millions of rabid fans will work themselves into a tizzy over tracks like: METHOD OF MODERN LOVE, BANK ON YOUR LOVE, POSSESSION OBSESSION, and two of John Oates' best ever performances on COLD DARK AND YESTERDAY and ALL AMERICAN GIRL.

"Don't Stop"-Jeffrey Osborne (A&M) Jeffrey Osborne is on the verge of becoming one of pop music's true stars. Blessed with one of the mediums most powerful and true voices, Jeffrey has set a calculated course to the top and as his repertoire of hits expands, so will his universal appeal. "Don't Stop" though laced with an occasional ballad, appears to be an attempt to ammend his image as a crooner/balladier by picking up the tempo and laying in some more punctual rhythm tracks. "Don't Stop" thusly becomes the most danceable and energetic set in his brief, three LP solo career. DON'T STOP, LET ME KNOW, THE BORDERLINES, CRAZY 'BOUT CHA, LIVE FOR TODAY.

"Volume One"-The Honeydrippers (EsParanza/Atlantic)

Robert Plant (with cool aid from Jeff Beck, Jim Page, and Nile Rodgers) steps back into the vinyl time tunnel for some sweet soul music - fifties style, The Honey Drippers pay dues, not lip service, to an era of innocent simplicity where do-wops and rockabillys were the latest waves. It was a time for mind videos. Phil Phillips' SEA OF LOVE is awash with multiple choice imagery with equal portions of ambiquity and suggestivity. I GOT A WOMAN (a Ray Charles tune first made popular by Jimmy McGriff) is as boastful as any previous version. If the title of this five song set, "Volume One", is any indication, there may be more to come. Hope and the classic styles of popular music spring eternal.

"The Unforgettable"-U2 (Island) Indelible, decibels from whining, sorrowing guitars, orchestration of anthemic proportions, and lyrics of poetical prose, all combine to absorb, consume, and exhaust the listener. U2's intensity and commitment to their craft (From lyric to cover art) send important messages to all who will listen. As Ireland's premiere musical messengers, U2 neither abuse their forum, nor do they over politicize their preachments. All they ask you to do is listen.

# WE'RE OFF AND RUNNING IN THE RACE TO BEAT CANCER

Join us for the first annual  
Neil Bogart Memorial Laboratory

**Wednesday, November 14 5:00 P.M.**  
**Pavilion Of The Stars, Hollywood Park**

Barbra Streisand, our Honorary Chairperson and the other people on this page, are already at the starting gate. Join them for an evening of good times for an even better cause:

- ◆ The public running of the Neil Bogart Memorial Lab Purse: a special 9th Race.
- ◆ Scrip betting on a private 10th Race with horses sponsored by rival entertainment corporations.

◆ Casino gambling for high-roller-sized prizes. Trips by private jet to exotic places, jewels, furs and dreams come true.

◆ An "Autumn Elegance" dinner dance.

It's all at Hollywood Park. And all to support The Neil Bogart Memorial Laboratory for children's cancer research.

With your help we'll cross the finish line in this vital race.
