INSIDE TOP 40

by Dave Sholin

Robin Williams' portrayal of Armed Forces Radio personality Adrian Cronauer in the film "Good Morning Vietnam" may not be totally factual, but there is a great deal of truth in the attempts to suppress rock and free expression. The battle has been waged ever since Alan Freed got in front of a mike and played "Work With Me Annie." Watching Cronauer skirmish with his small-minded higher-ups reminded me of my college radio days where I fought to get more Motown and less Mathis on the air. In "Good Morning Vietnam," the more the Williams character defied authority and stretched the rules, the more you could sense the audience cheering him on to go even further. It would be interesting to take a survey and see how many of the class clowns we all remember in school are now morning air talents. The appeal of hearing someone break the rules is so universal that some stations stage situations that make it sound like a staffer is getting away with something, although it takes skill to make it believable these days. Robin Williams, in his role in this picture, reminds us that taking chances and having fun is an integral part of entertaining radio. Those who play it too safe eventually get left behind.

Arriving in the top twenty five on schedule, **THE JETS** are showing no signs of slowing down. KDWB Minneapolis charts 'em top ten with a 12-8 gain. Other hot moves include KMEL 15-10, KSTN 16-9, B95 11-8, KFIV 25-17, KTDR 28-16, KCPI 28-18, WZOK 24-20, WTNZ 25-17, WAAL 20-12, WZYQ 17-13, ISLE 95 27-21, KS104 18-15, etc.

In only two weeks time, **BILLY OCEAN** scores airplay with more than 75% of our correspondents. Quick debuts in the top thirty for Bill McCown **WANS** #27, Clarence Barnes **Z94** #25, Rick Gillette and Mark Jackson **WHYT** #23, Randy Kabrich and Bobby Rich **Q105** #22, Patty Johnson **POWER 105** #27, Lisa Tonacci and Kevin Davenport

B93/FM #27, Brian White **FM102 #29**, Gary Wall & Lisa Dent **Q106 #26**, etc.

KEITH SWEAT is getting closer to the 200-report total with a 19% **HIT FACTOR** and top ten numbers at **KMGX**. **POWER 106**, **Z100**, **WHKW**, **KKFR**, **Z95.5**, **KIIS**, **KMEL**, **B95**, etc. Added at **KUBE** Seattle, **WHIT** Harrisburg, **KWK** St. Louis, **WCIL** Carbondale, **Y95** Dallas, **WNCI** Columbus, **WOVV** West Palm Beach, etc.

WHITESNAKE rocks into **CHARTBOUND** territory, with another long list of new believers, including Jonathan Little and Matt Hudson **Z104** Madison, Sunny Joe White and Jerry McKenna **WXKS** Boston, Jeff Christenson **KKQV** Wichita Falls, R. Charles Snyder **KTMT** Medford, Jack Alexander **KKAZ** Cheyenne, Bob Beck **KYYY** Bismarck, Greg Lawley **WDBR** Springfield, etc.

After a long chart absence, **RICK SPRINGFIELD** makes a triumphant return, with strong early results. Already in the top twenty for Bob Harlow and Gary Weinstein at **KATD** San Jose/Los Gatos with a 22-18 move. Also doing well at **K-STAR** 29-22, **Z104** 27-20, **KBAU** 30-17, **WZYQ** 27-21, **OK95** 30-25, **KUBE** 27-20, **KGOT** 33-27, **KYYA** 30-26, **KIIK** 32-26, etc.

Only 16 stations are reporting **L.L. COOL J**'s latest, but chart activity is strong at a number of them. Kevin Carter at **KMGX** Fresno says it has been his "number one requested song for seven weeks." Climbs 5-3 at **KSTN**, 9-4 **KMGX**, Debuts #24 **Z93**, #21 **KMEL**, #18 **B95**, #23 **KKFR** and #24 **KZZP**.

KIIS OFF THE COVER GIRLS BAD KARMA FOR SUTRA

"Everybody I've talked to has told me I've done the right thing," says Sutra Records President Art Kass of his telegram last week to KIIS-Los Angeles PD Steve Rivers, demanding that the station stop playing 'Because of You' by The Cover Girls. "For the past eight weeks, you have played the record consistently, and have refused to report it to the various industry trade magazines," the wire said. "The artist's career, and the independent record companies, Fever and Sutra Records, have been jeopardized 'Because of You.'"

Kass says his dramatic move came after repeated attempts to contact Rivers by phone—"three times a day, and no response." Within hours of receiving the telegram, Rivers was on the horn. "I've never had anyone tell me to

stop playing a record," Steve told Chinwag. "I asked him if he was serious, and he said, 'If you're not going to report it, don't play it.' So, based on his request, we are no longer playing it. How does he feel now?"

Noting that the record charted number one at rival POWER106, Kass says, "He's entitled to do whatever he wants. If he didn't like the record, he doesn't have to play it. But if he does play it and doesn't report it, he gets all the benefit, and I get none. He told me he could do whatever he wants. What he really can do is put a record company out of business." Kass says the problem is afflicting many independent labels. "Hey, we all cry a little, but how many hits do we get a year? One? Two? They (programmers) figure, 'Ahh, they'll never bring it home, so why should I even report it?'"

Rivers asserts that the record was only a so-so performer in sales, requests and call-out research. "It just didn't make the cut. Obviously, the guy should be grateful for any airplay he's getting, anywhere and at any time. To make a request like that is asinine."

ABC SAYS NO DICE TO NEW DEAL KASEM CLOSED?

ABC Radio and "American Top 40" host Casey Kasem have reached an apparent impasse in extending Kasem's contract beyond next January. "It's an amicable parting and we wish him well," says ABC VP Entertainment Programming Tom Cuddy. "The problem was strictly a financial one."

Kasem has been with the network since July 4th, 1970. "It's going to be difficult to find someone of his caliber," Cuddy concedes, adding, "We are making the appropriate moves and the show will continue with a new host."

Asked whether the bottom-line orientation of network owner Cap Cities was a factor, Cuddy demurred. "We feel we were very generous," he asserts. "But he declined our final offer."

NORM N. UNITED

Norm N. Nite, seated in center, has signed on as host of a new weekly national request oldies show for the United Stations Radio Networks. The show, scheduled for debut Feb. 28th, will feature hits from the '50s to the '70s, with an 800 number for requests from all over North America. With him are USRN Executive VP/Programming Ed Salamon and VP/GM Bill Hogan.

DISTRIBUTION ARM GETS NEW NAME

NEWS FROM NIPPERLAND

RCA Records Label President Bob Buziak has announced the formation of a Business & Legal Affairs Department. Daniel Hoffman has been named VP/Business & Legal Affairs. Reporting to him will be Roger Skelton and Martin Olinick, the East and West Coast Vice Presidents for Business & Legal Affairs. Eric Levine and Beth Schillinger join the department as Associate Directors, along with Recording Administration Director Amanda Armstrong.

RCA's corporate parent, the Bertelsmann Music Group, is also restructuring its Legal and Business Affairs departments, promoting Dorothy Schwartz to the position of Director of International Contract Administration.

In an effort to "eliminate confusing abbreviations," RCA/A&M/Arista Distribution has changed its name to BMG Distribution. Says Distribution President Pete Jones: "We have found the name has been too cumbersome for people in the industry." The division has also promoted Bob Anderson to New York Branch Manager. Lou Vaccarelli has been named Director, Production for the RCA Records label.

EZ DOESN'T DO IT

NOBLE BID FOR EZ FAILS

A mega-sale involving the transfer of 13 EZ Communications stations to San Diego-based Noble Broadcasting fell through at the last minute Feb. 8th. Noble was offering well over \$100 million for the group comprising KMPS AM/FM-Seattle, Y98-St. Louis, KAMJ and KMYL-Phoenix, KRAK AM/FM-Sacramento, B94-Pittsburgh, B97-New Orleans, WEZC-Charlotte, HOT105-Miami and WAIV/WOKV-Jacksonville.

"It was a handshake deal," says Noble President John Lynch. "We had worked out all the paperwork. We had our funding in place and had chartered a jet to visit all the stations around the country, but then they just asked for more money." EZ President Alan Box says, "The deal was subject to the approval of both boards, and ours didn't approve. I have a lot of respect for John Lynch, but they approached us about selling. Our stations were not for sale beforehand and they are not now."

Another pending Big Deal, the sale of NBC's O&Os, is rumored headed in the direction of Emmis Broadcasting. At press time, Emmis head Jeff Smulyan had left his Indianapolis HQ for New York, but there was no word of a done deal. ■

INSIDE A/C

With 22 new HEAVY reports, Patrick Swayze leaps into the number one slot, giving "Dirty Dancing" its second number one.

Expose is on the verge of their first number one A/C record. "Seasons Change" has taken a steady 13-week climb to the number two position and it may yet have the legs to top the chart.

Rick Astley's "Never Gonna Give You Up" is now top ten, thanks to 17 more adds and an 84% HIT FACTOR.

James Taylor's 35 to 14 two-week chart move comes as much from his 69 adds in that time as from his whopping 51% increase in HIT FACTOR.

George Harrison's Beatlesque "When We Was Fab," a song about all those years ago, is striking responsive chords in A/C land, moving to 23 on the chart this week.

While still a hundred reports short of unanimous, Michael Jackson's "Man In The Mirror" is moonwalkin' his way to the upper echelons of the chart. With 133 adds in his first three weeks he's bound to vault many records in the next few weeks.

Jonathan Butler and Belinda Carlisle, with 60% and 61% HIT FACTORS, respectively, are proving to be solid airplay records despite their hundreds of players in waiting.

Debbie Gibson is growing up before our very ears. "Out Of The Blue," our RECORD TO WATCH on January 29th, is now our highest chart debut with a HIT FACTOR of 55% thanks to B100, KYJC, WMT/FM, WTUN, KKOB and many more. Adds this week from KFMB, KLZS, WGSV, WFPS and KAAK.

The wonderful duet from Ray Parker and Natalie Cole, "Over You," leaps from UP & COMING to the chart. New this week include KGY, KLZS, WAHR, KBMG and WFEB.

Justice will eventually be done for the Brenda Russell record, "Piano In The Dark." Last week's RECORD TO WATCH closes out this week with 23 more stations, including KKHT, WSKY, KDES, WBTH, and B100.

This week's RECORD TO WATCH, David Foster's "Winter Games," picked up 18 adds on its way to Calgary. Now among its medalists and KGW, KHLY, WTRX, WTMJ, WLS/AM, KEFM, WJXL, WTIC/AM, WEBE/FM and WJON.

JUDY HAVESON, MD, KKHT-Houston, TX
"Feelin' Happy" is a happy feelin' song once you hear it. You want to hear it again and again . . ."

JOHNNY WILLIAMS, air personality, WNIC-Detroit

REVIEWS by Ron Fell & Diane Rufer

WHITNEY HOUSTON
Where Do Broken Hearts Go (Arista)
Whitney's gettin' the last laugh as she continues one of the most incredible streaks of success in music history. This one arrives right at A/C's front door ready to roll.

BRUCE SPRINGSTEEN
One Step Up (Columbia)
He'd rather have one yesterday than two tomorrows. Bruce plays it simple with this bluesy acoustic piece from his "Tunnel Of Love" album.

MERRY CLAYTON *Yes* (RCA)
Another winner from "Dirty Dancing." It's from one of the movie's high points and has the bounce and brilliance of past Pointer Sisters hits.

TOTO *Pamela* (Columbia)
The precision of a drill team marching to the beat of a tight rhythm track. "Pamela," the subject of their collective attention, is on the threshold of departure and she'll get one last warning from the guy who'll miss her the most.

EARTH, WIND & FIRE
Thinking Of You (Columbia)
One of those classic EW&F songs which lifts the spirit. A crisp rhythm track supports swirling harmonies for a song of obsessive possession.

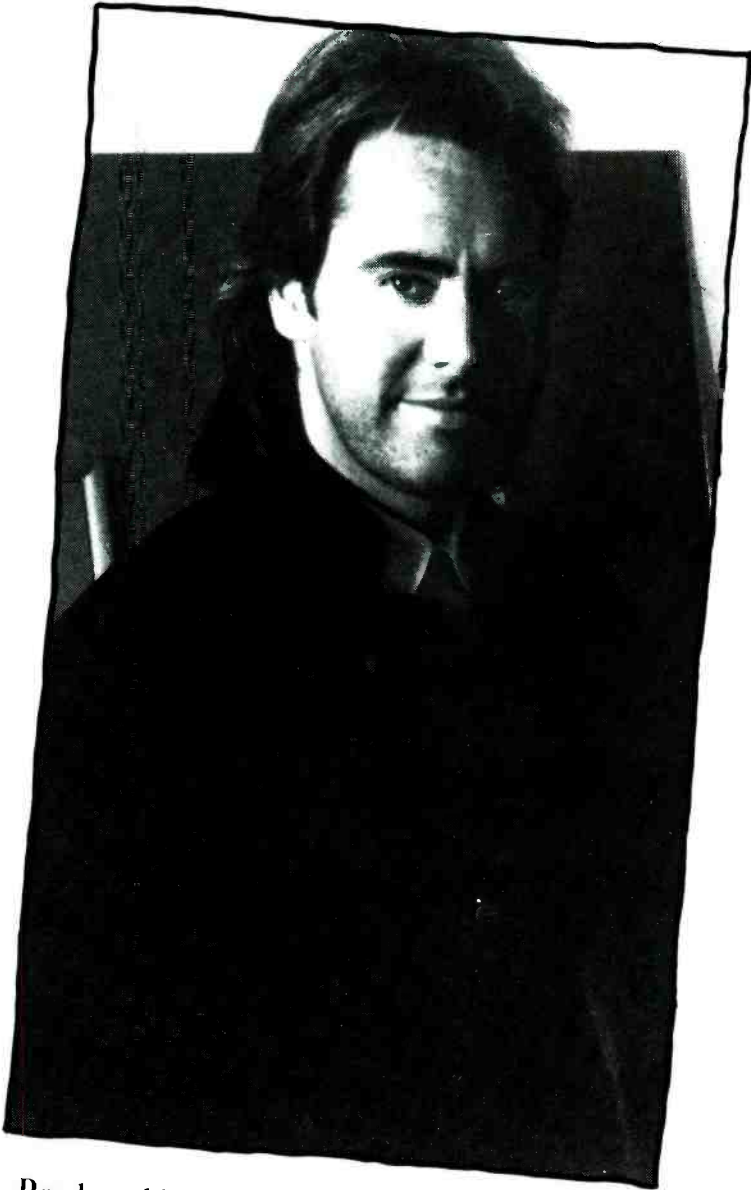

BASIA *Time & Tide* (Epic)
Once you get over the hurdle of pronouncing her name correctly - it's BASHA, you're home free unless you try her last name--Trzetrzelewska. She can sing with the best of them as she showcases her blue-eyed soul style this time around.

"After All This Time"

(AM 3008)

the debut single from

THINK OUT LOUD

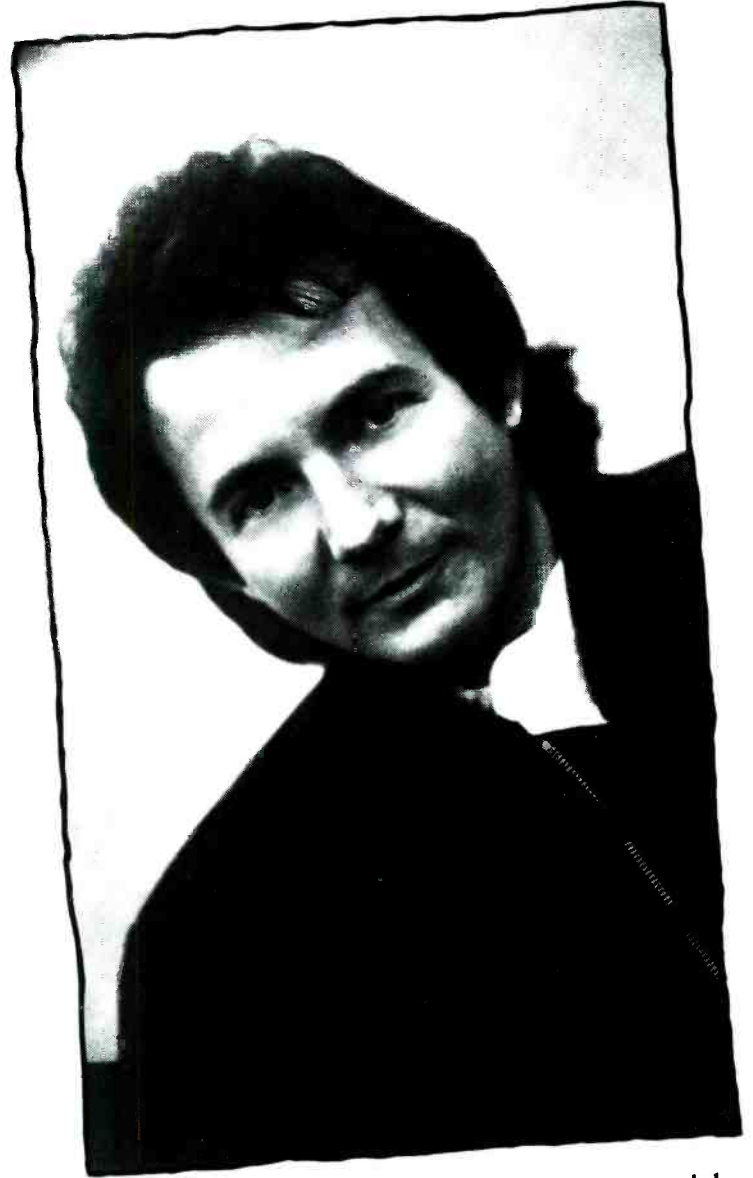

Produced by Humberto Gatica, Peter Beckett,
and Steve Kipner.

From the album

THINK OUT LOUD

(SP 5187)

In a time when every single arrives with
videos, T-shirts, stickers, buttons, and
assorted other paraphernalia, when it
seems like people promote everything but
the song,

"After All This Time"

is the song.

CART MACHINE OF TOMORROW

I've written before about the efforts to develop a "computer disk" alternative to the cart machine, and the alternative now exists. It's expensive, and it has not been fully perfected, but it's workable and available now, and by the end of the year should be fully "de-bugged."

The machine in question is the CompuSonics DSP1200 (playback-only) and the DSP 1500, which also has a recording capability. Both machines use digitally encoded audio for stereo CD quality, flat to 15,000 cycles. The machine uses 5 1/2-inch floppy disks, with approximately seven minutes of audio time per disk (longer in mono or with reduced fidelity). The disks are enclosed in flat, hard-plastic cases, much more expensive than standard floppies, but easier to handle and less subject to damage from control-room use. A 25-disk package sells for about \$600 through CompuSonics and is available from other sources, such as Radio Shack, for the same price. Presumably, as sales increase, the price will fall dramatically.

CompuSonics has developed this system specifically to replace broadcast cart machines, and thus the DSP 1200 and DSP 1500 are designed for on-air use: no computer terminal, no keyboard--just a few buttons, switches and pots, just like a cart machine. It is possible to interface the unit with a PC for video display of data, but it's not necessary. It comes with a 50-page manual.

If you use this unit for spots, you can erase and re-record a cut without affecting other cuts on the disk, but it doesn't appear that automatic rotation of several

cuts on successive plays is possible, as it is on a continuous-loop cart. On the other hand, a specific cut of a multi-cut disk can be accessed and cued up as easily as on the most sophisticated broadcast-use CD players. There is protection against automatic erasure of cuts on the disks by the need to confirm the desire to erase before the disk will do it. This unit has obvious usages in production, since pieces of the audio can be recorded for "digital quality" playback, and instant cueing and playback but it is capable of only partial electronic editing, and full cut-and-paste editing is still in the future.

So how much does all this cost? The recording/playback DSP 1500 costs \$1,500, and the playback-only unit is \$5,000. A bit steep for a single-slot device, compared to cart machines, but for larger stations, it's certainly affordable. The question would be: Buy it now, or wait for an improved version, reportedly right around the corner? Other major companies are working along the same lines, but CompuSonics has a couple of years' head start.

If you are interested in this machine, and have come to San Francisco for the Gavin Seminar this weekend, you might call CompuSonics in Palo Alto about 30 miles south of the city, to see if you can arrange a visit and demonstration. Their number is (415) 494-1184.

As I've been mentioning in previous columns, I'm here in San Francisco for the Seminar, and as usual am looking forward to meeting you and hearing your suggestions and contributions for future columns. I'm staying across the street at the Villa Florence Hotel, and will be attending as many sessions as possible. Don't hesitate to come up to me and introduce yourself at any time! As productive as the sessions always are at Gavin meetings, my experience has always been that a good portion of the value at radio get-togethers comes in the halls and corridors, before, between and after the meetings.

And a special suggestion from me to everyone in San Francisco for the Seminar: The Bay area is a wonderful place to visit, and the Seminar meetings go on whether you attend or not, but don't cheat yourself of the professional stimulation you came for! Work your sightseeing in around the meetings, not during them. Even meetings that you

A specific cut of a multi-cut disk can be cued up as easily as on the most sophisticated broadcast-use CD players.

think are not directly applicable to you, or which don't look promising to you, always have their value. Don't miss the good stuff the Gavin staff has for you, in your desire to sightsee! ●

HOLLYWOOD

by Tony Richland

On this Gavin Seminar weekend, we had a real brainstorm...one so obvious in its simplicity that we can't believe no one's thought of it before. And THAT'S what once occurred to the guys who came up with the hula hoop, Trivial Pursuit, aerosol cheese spread and most important, The Super Bowl. Even if you're reading this after the seminar...even if you weren't present, we want your feedback:

You might have noticed, especially if you live in Vermont, that the past three

SUPER seminar

Gavin Seminars, and presumably the next fifty, have San Francisco as their venue. Okay, that's nice. The City they call "The City" is a City that's pretty, an acknowledged vacation spot and the home of Gracie Slick, but it's a helluva drive for WAFL's Tim Brough and anyone else from Milford, Delaware or East Providence.

You get the idea--and maybe you're ahead of me. Has there ever been an event bigger than the ever-tedious Super Bowl? We don't think so, and interest is maintained by moving the game to a different hamlet each year. We say that the Gavin Seminar for Medium Professionals should adopt the same format. The possibilities, both PR-wise and financial, are endless.

Consider this scenario: All-powerful Gavin publisher Ron Fell and staff announce they'll be accepting bids for the next three or four conventions. Learning, via research, that record-radio conferences are populated by people who out-spend every other profession at hotel bars and drop millions into city coffers at sushi palaces, the towns will romance the Gavin people with some heavy-duty zeal.

Let's say, for instance, that Cleveland is in the running. The Mayor him- or herself, accompanied by hot-shot lobbyist, visit Ron and crew, offering a giant sum of cash as an, er, inducement for hosting the

affair. Gavin could announce that THAT fee will go--in its entirety--to selected charities. The sum could be astronomical, when you consider that Cleveland will be bidding against Montpelier, Yankton, the South Bronx and a bunch of bigger burgs. During Super Seminar week, local papers in the fortunate town will be loaded with stories, sidebar stories, and sidebars to the sidebars. Local press will run features on Betty Hollars, John Fagot, Oren Harari and the rest of you *ad nauseum*. Gavin T-shirts, caps and satin jackets will be sold on every street corner, and the Gavin Report will find itself bigger than the Grammys and Joe Smith's roasts. So whaddya think?

TYPICAL SUPER STORIES, ITEMS, NEWS AND ASSORTED STUFF which, as inspired by Super Bowl coverage, we predict you will soon be seeing:

Brent Fussburger: So, Norberg, how do you feel going into this week's Gavin thing?

Eric: I'm up for the technical panels, Brent. I mean, this is the big one and while we're enjoying Cleveland, catching all the cultural sites...dining at the one French restaurant in town, etc., the seminar is first and foremost. I plan to be in A-1 shape for Friday morning's keynote address by John Davidson.

FLASH! Rooms at Cleveland's Riot Regency House have been upped to 400 big ones a night during Super Gavin Week. For the sake of economy, Quantum's Dick Williams plans to share a room with Capitol's Dennis White and L.A. Gear's Don Wasley. Thrifty record legend Ron Alexenburg plans to crash in his budget Rent-A-Wreck.

Tours to Cleveland's famed Rock & Roll Hall of Fame have been organized by Gavin rock historian Dave "It Looks Good For Next Week" Sholin. David will emcee the induction ceremonies for Skip & Flip, Lulu and Funkadelic.

Dan Wrather of KGOY-Foonman, Ohio: So, Mr. Jenner, would you care to tell us about your part in the Iran/Contra/Whitney affair?

Donny Jenner: Hey, get off my back. Iran and Whitney never HAD an affair. And by the way, these are my own teeth!

Galin-Morey top promo exec Danny Davis was arrested this morning for scalping tickets to the Friday p.m. Gavin cocktail party. Local gendarmes dis-

covered tuna canapes, rumaki and previously eaten dim sum in the pockets of Davis and he was placed in solitary with Gavin guy Kent Zimmerman. Commented Davis: "Being with Zimmerman IS being in solitary. The guy talks of nothing but Buckwheat Zydeco."

CONVENTION WILL GO AS FAR AS QB CARRIES IT

Observers are in agreement that Gavin QB Ron Fell is a key to a winning Seminar. Erstwhile important person Fell has been heading up for the conference by reading his last 50 weeks of LP reviews and trying to figure out what he was saying. In addition, he's taking a quick-study flash photo memorization course so he'll recognize most of you in the lobby and will really know who's who when he greets you with the familiar, "Whenja get in, babe?" Ron's still embarrassed about mixing up Juggy Gayles and Guy Zapoleon.

THERE'S MORE TO SHOLIN THAN HIS SIDELINE STARE

Gavin Top 40 editor and self-proclaimed radio legend Dave Sholin might LOOK catatonic as he sips his Miller Lite in the hotel lobby, but those who've crossed him are well aware of his "still waters run deep" proclivities. David keeps a computerized file of PDs who don't add his Personal Picks. Many of these programmers have been shocked at the cavalier manner in which they've been arbitrarily and summarily dropped from reporter status. THIS reporters advice? Kiss his ring, even if it's affixed to the seat of his pants.

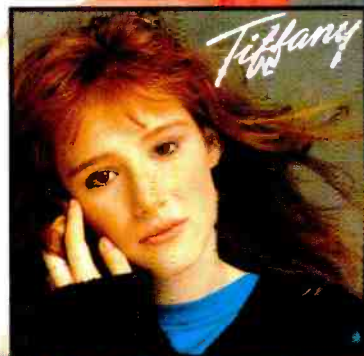

GOLDBERG AND GOULD TO PERFORM COMEDY SKETCH AT AWARDS BANQUET

These two actors were a cinch to sign for the performance, each having made show-biz history by appearing in twelve movie losers in a row--yet continuing to get jobs. Realizing that they must have Polaroids of execs in high places, Gavin's convention staff thought they'd deserve one more chance to bomb in front of a most critical audience. Looking for acting stretches, Whoopi will portray a foul-mouthed cop-ette with sausages for hair, and Gould will play an aging Jewish street kid who's a hit with beautiful women despite his complexion and nose. ■

TONY MARTELL

FIRST RECIPIENT—

BILL GAVIN HUMANITARIAN AWARD

By Joe Belden

Each year, it has been a tradition for the Gavin Report to recognize those members of the radio and music industries whose professional accomplishments have paid off in ratings and airplay success, bringing gratification to their associates and consternation to their competitors.

For its 30th anniversary, the Gavin Report is proud to inaugurate a new kind of honor, one in which everyone can share the benefits, and there are really no losers. The purpose of the Bill Gavin Humanitarian Award is to acknowledge those individuals who inspire the healthy and wealthy to improve the condition of those less fortunate.

While contributing to our spiritual well-being, contemporary music also generates billions of dollars in revenues for those who create, merchandise and broadcast it. It is only right and proper that a small portion of the profits make their way back to humanitarian causes.

Those of us who were fortunate enough to have experienced the benevolence of Bill Gavin know that his good will extended well beyond the pages of his publication. Bill was a man who measured his wealth in deeds done, inspiration given and satisfaction taken from improving the quality of life for all around him.

We are pleased to give the first Bill Gavin Humanitarian Award to Tony Martell, who 13 years ago transformed the tragic loss of his son into a living memorial that has raised more than \$20 million dollars to fight leukemia, cancer and AIDS. More importantly, the T.J. Martell Foundation has inspired thousands of people in our industries to give of themselves unselfishly, unified in purpose and dedicated to the foundation's truly humanitarian efforts.

"It's not so much what he says as his actions," says Judy Libow of Atlantic Records. "He set an example--instead of just crawling into a hole and feeling sorry for himself, he turned it around and tried to make something positive."

Tony Martell was born in Scranton, Pennsylvania, which is where he got his first job in radio as a disk jockey at WEJL. In 1958, he joined CBS Records, climbing the corporate ladder from salesman to Regional Sales Manager. In 1968, he joined MCA Records as Vice President of Marketing, and helped to make superstars out of artists like Neil Diamond, The Who and Elton John. After a stint as Vice President, East Coast Operations for ABC Records, he rejoined CBS as Vice President, General Manager of its Nashville office. In 1977, he assumed his current position as Vice President, General Manager of The CBS Associated Labels.

While his professional career flourished, Tony's personal life suffered a tragic blow when leukemia claimed the life of his 21-year-old son, T.J., in 1975. "Before he died, I used to sit in his hospital room and talk with him and his doctor. Dr. James Holland--he's now the scientific director of the Foundation-- was saying how there wasn't enough money for research. My son said to me, 'Isn't there some way you can help him?' I told him, 'He's talking about more money than I can come up with.' But I began thinking, and a week later the three of us were talking again, and Dr. Holland mentioned how much money was needed. I just said, 'I'm going to raise a million dollars for you!' Then I clapped my hand over my mouth. What had I just said? But my son just said, 'You can do it, Dad.'

"So I got together with a few people in the industry--Floyd Glinert, Clive Davis, Bruce Lundvall and some others. When we raised a million dollars, I said, 'That's it. We did it. But then I saw the wonderful work that had been done and the progress that had been made. It's obviously not going to bring my son back--I wish it could--but it has raised over \$20 million to help others. Today, leukemia in youngsters is 70-80 percent curable. That wasn't true when my son had it."

Today, the T.J. Martell Foundation sponsors a major laboratory at Mount Sinai in New York City, and a laboratory named in memory of

Neil Bogart at USC. It is also involved with a cancer group in Boston, as well as the European Organization for the Research and Treatment of Cancer. "They can try things faster, and they give us their results," says Tony.

Recently, the Foundation has also addressed the need to find a cure for AIDS. "Doctor Holland first mentioned AIDS at one of our dinners six years ago," Tony recalls. "People came up to me and said, 'What's he talking about AIDS for? That's a homosexual disease.' But it's not. I read a study a couple of weeks ago that said one out of 61 babies born in New York City carries the AIDS virus. And you'd be surprised at how much we've learned about AIDS from studying cancer cells."

In its early years, the Foundation relied on traditional fundraising methods, including an annual black-tie dinner at the Waldorf-Astoria in New York, and direct solicitations. Tony's appeals to colleagues rarely went unheeded. For Bill Bennett of MCA Records, helping out was an automatic call. "He's a big-hearted guy--he's always been there for me, and I hope I've always been there for him."

Tony's fervor reached beyond the boardrooms and inspired such events as the yearly Rock 'N' Bowl parties in Los Angeles organized by sponsored by Jon and Lorraine Scott of Music Awareness Travel Promotions.

"We originally held them as social get-togethers," says Scott, who at that time was working in record promotion. "We'd lost our house to a flood in 1980 and were looking for a place to entertain people. We started inviting folks to midnight parties at the local bowling alley. John Cougar Mellencamp, Def Leppard and Tom Petty would show up--you'd need a password to get in. Somebody--I forget who--said, 'Hey, we ought to turn this into a charity.'"

For Scott, there was only one choice. "The Martell Foundation is the music industry's charity. I'd watched it evolve. Then I met with him and saw what a devoted person he was. He just had a tremendous heart. I'm not sure he knew what to expect, but the first year, we raised \$28,000, and the second year we doubled it."

Last year, the Rock 'N' Bowl Party and associated golf tournament brought in \$175,000. This year's event, scheduled for May 19th-21st, will also feature a tennis tournament--and a list of participants that reads like a Who's Who of rock.

"We in Album Radio had always felt we had been a little misunderstood as a community," says Libow. "The bowling party has become our fundraiser, our way of contributing, of saying we're a part."

Through the hard work of people like Jon Scott, WMMS-Cleveland's Kid Leo and WNEW's Scott Muni the radio industry has begun to extend its benevolence in recent years.

"I've found out what the word 'give' means," says Jon Scott. "It really opened my eyes. So many people need help, and our industry is one that can help."

MCA's Bennett adds, "It's a great cause. We all grew up in the '60s and always wanted to give something back. This is something I can directly relate to."

Martell returns the credit. "This foundation could never have been successful if it were not for the record industry," he asserts. "We have a saying --'It's all in the grooves,' meaning you can't promote a record if it doesn't have it in the grooves. These people have been in the grooves for the foundation. They really made it happen."

Asked how he has been affected by the experience, Martell quotes the historian Will Durant, who once said, "I've met so many wonderful people that I'm quickly losing my faith in the wickedness of man."

The Gavin Report salutes Tony Martell and the efforts of the T.J. Martell Foundation. We urge the radio industry--music's biggest ally--to explore the potential and rewards of involving their stations and listeners in this extraordinary cause. ●

STARFISH-THE CHURCH (ARISTA)

These are damn good times for this talented Australian band. Pre-orders for Starfish have already surpassed what the band has sold in the U.S.A. on all their past records combined. As **The Church** slide into this week's Alternative Top Ten (hence getting some additional exposure on Rolling Stone's chart page and MTV's "120 Minutes"), mainstreamers have all the more reason to check out from where "Under The Milky Way" was culled. Besides the usual **Beatles/Byrds** influences, leader **Steve Kilbey** cites some interesting roots like **Be-Bop Deluxe, Big Star, Steve Harley, Can, Neu and Amon Duul**. Guitarist **Marty Willson-Piper** is an innovative sparkplug who supplies the band with an additional dimension of integrity while Kilbey's writing is ethereal and airwave-friendly. Choice trax also include "Destination," "Blood Money" and the Dylanesque "Antenna."

THE GIFT-JOE LOUIS WALKER (HIGHTONE)

Joe Louis Walker hones in on a tight rockin' blues direction. Capable of R&B and even salsa-flavored blues rock, he plays with confidence and experience, well outside any traditional or cliched presentation, giving way to a high-tech, crisp mix. Like **Albert Collins**, Walker shoves blues onto a higher plane of sonic appreciation. The opening "One Time Around" is an example of how tight and focused **The Gift** is. Also check out "Thin Line" and the shuffling "747."

NEW Releases

DEL-LORDS

SHAMELESS-THE DYNATONES (WARNER BRDS.)

Though you certainly can hear it in the music, I KNOW the **Dynatones** have seen this country from the back of a van-load of equipment. I used to receive their club tour itineraries. Some of the towns they played were so small, the only thing living and breathing besides a church and a gas station was the radio station and a record store. Think about that for a minute. The hard road has turned the Dynatones into entertainers. I recently saw them turn a stage into tough home turf. Vocalist **C.C. Miller** screams like **Wayne Cochran**. Bassist **Randy McDonald** has dynamite (or is it dynatone?) stage presence. **Shameless** impressively captures that live fire. My faves include "Heartbreak Radio," "Take The Heat," "Back For A Taste Of Your Love" and "Italian Shoes," a revised New Orleans R&B Mardi Gras song ("New Suit") rewritten (or should I say shamelessly lifted) by **Willy DeVille**.

KINGDOM COME (POLYGRAM)

There's a message painted on a cement truck that drives around town. It reads, "Find a need and fill it." **Kingdom Come** sound like they spent a few years as a **Zeppelin** tribute band. Let's face it, "Get It On" is Zep's "Kashmir" sideways. But the album's opener, "Living Out Of Touch" shows the band treading towards more of an original sound. If a void still exists that the originators can't be bothered to fill, who can blame a young band from Vancouver for stepping in and mooning the metal masses? Expect this one to sell a ton.

"JUDAS KISS"-DEL-LORDS (ENIGMA)

A banner week for bands who take off the gloves and hit hard and true. The **Del-Lords** have always been working class heroes of mine. According to Del-leader **Scott Kemper**, "This is the most fun I've had recording a record since my days with the **Dictators**." New York tough and staying alive through publishing deals and odd jobs, the Del-Lords are more than just survivors. "Judas Kiss" marks their vital return. "I ain't gonna tell you it's been easy," admitted Kemper. That honesty shows in this song's documentary-style lyrics. Based On A True Story couldn't be a more perfect name for the upcoming album.

"I THINK SHE LIKES ME"-TREAT HER RIGHT (RCA)

If I recall correctly, we first reviewed this back in late '86, based on a Beantown tip. In fact, didn't we telephone singer **Mark Sandman**, waking him up after a hard night's gig? Now that their record now bears the **Nipper** logo, thankfully, the original track has pretty much been left intact, preserving the magic qualities of the original. Actually, this blues-tinged number was a couple years ahead of its time, which makes February of '88 just about right. Dig in. **KZ**

AROUND THE HORN. That **Harvey Leeds**. He's such a kidder. I almost choked on my corn flakes when I read the news from **Oedipus**, "Help. Harvey Leeds just offered me his job at Epic." I was thinking, has **Oedipus** finally...er, defected? From **WBCN** to **Epic**? Upon closer inspection, it was going to be a temporary arrangement. Says **Oeddy**, "Harvey offered to fly me to New York and put me up for two whole days in order to call all of you on Monday and Tuesday. Although the idea of speaking with all of my colleagues is intriguing, New York in the dead of winter is not. Besides, I'm a

programmer, not a promotion dude." The whole point of the Mailgram was to alert all of us about **The Godfathers' "Birth School Work Death."** Heck, Gavin readers are already hip to the fact that they moved up our Album Chart this week, 39-37...Speaking of **Harvey Leeds** and **Epic**, what about this **Henry Lee Summer** campaign? Not another tall and lanky guy from Indiana? Does that mean guys from Indiana are generally tall and lanky? Surely it's not a reference to **John Mellencamp** who is anything but lanky. Then again, we met him early in his career. Maybe he's grown some since. Incidentally, **HLS**

was #1 Most Added.

CONGRATS TONY MARTELL. Peter and I want to spread a little ink and officially congratulate **Tony Martell** on receiving the very first **Bill Gavin Humanitarian Award**. From the Album Bunker to **Tony Martell**, we salute you!

REQUESTS REQUESTS REQUESTS. As you probably already know, there are three super huge request-getters on this week's **Gavin Chart**. We're referring to **White Lion**, **Joe Satriani** and **Kingdom Come**. Is it co- incidence that all three fall in the hard rock/guitar hero category? Methinks not. An interesting aside is that **Joe Satriani** once served as **Greg Kihn's** lead guitarist. And is it true that **Satriani** has been tapped to tour Japan as **Mick Jagger's** lead guitarist?

HIDDEN SECRETS UNDER YOUR NOSE. A couple of industrious reporters are playing the **Robert Palmer** track, "*Sweet Lies*," found on the **Island** compilation CD. Yes, that's the one with the deli CD sausage.

COLD COLD COLD. **Jane Frederickson** always has a few surprises on the **KTCZ-Minneapolis** playlist. This week I noticed **Mark Place** in heavy rotation. Check out **Place's** new album on **Columbia**. It's a guitar album with some distinct power sounds. Yet it's applicable to adult ears. To celebrate **Minneapolis' -30** degree weather, **KTCZ** presented a day of tropical songs...you know, **Jimmy Buffett** and the like. This stunt made the evening news with a shot of a radio digitally tuned to **KTCZ**.

GEORGE WASHINGTON SLEPT HERE. Just as a quick reminder, we will be closed **Monday, February 15**. That means **Tues- day** will be a one-day report week, so call as early in the day as possible. Album calls will be taken starting 8 a.m. Pacific Time.

RAMBLE ON. **Al Scott** at **KZEL-Eugene** asked if we could please please print that he can accept music calls **Monday** and **Tuesday, 2PM-4PM** only...**Laurie Roberts** is now officially **Assistant PD** at **KSJO-San Jose** where **Kingdom Come** is king... Meanwhile back to **KZEL's Al Scott** who described **Toto's "Pamela"** as "**Rosanna**" with a guitar.

INSIDE ALTERNATIVE RADIO

by Peter Standish

Welcome to those of you who have traveled far and near for the 3rd Annual **Gavin Seminar**. **Robyn Hitchcock** still holds a 15% solid lead in chart points over two bolting competitors. Although **Hitchcock** has topped the chart for three weeks, he's still drawing raves from **Faith Henschell-KCMU** ("#1 by a landslide"), **Seanna Baruth-WUSC** ("lots of requests"), **Ivar Hamilton-CFNY** ("picking up"), **Mike Summers-KRPN**, **Matt Potlosky-KDVS**, **Jason Cohen-WNUR**, and **Steve Balcom-WXYC**. The **Godfathers** are waging war on the chart as they assault the #1 spot. **Midnight Oil** is racing, on high octane, narrowly behind the **Godfathers** and catching fire for **George Spillman-KUCI** ("ripping the hell out of things"), **Margaux Tenenbaum-WUOG**, **Kandy Wilkens-WXCI** ("tons of response"), **Susan Kennedy-WWVU** ("#1 in sales"), **Mike Marrone-WHTG** ("takes over #1 requests") and **Brian Davis-WDCR** ("people really like it"). The **Church** is our only new entry into the top ten as their "Under The Milky Way" has soared like a rocket, an amazing performance on just a single. The **Pogues** are on a rampage with enthusiastic supporters including **James Lien-WTUL**, **Tim Ziegler-KUSF** ("our #1 record"), and **Rob Maxwell-WPRB**.

T-Bone Burnett is making dramatic gains on the our chart and attracting the endorsement of **Mark Miller -KABL**, **Josh Rosental-WCDB** and **Bob Showacre-WHFS**. **Echo and the Bunnymen** caught everyone by surprise with a certified debut behind the strength of a re-mixed single and three new live tracks. **Brett Greene-KUNV** says "12-inch singles usually don't get much airplay but this has jumped up our playlist" while **Bruce McDonald-WFNX** feels "**Bedbugs And Ballyhoo**" has "some neat grooves." **Scruffy The Cat** leaps nine positions and **Pato Banton** is our other certified debut. Last week's **Record To Watch**, **Lyle Lovett**, turns in a good gain and great response from **Ray Diggins-KOTR** and **Charlie Turner-WKXE**. The **Jazz Butcher**, **EIEIO** and the **Triffids** look stronger than their debuts indicated. Our **Record To Watch** is the **She's Having A Baby Soundtrack**. This record could be a major force on the chart with previously unreleased tracks from **Dave Wakeling**, **Bryan Ferry**, **XTC**, **Everything But The Girl**, **Love & Rockets** and **Kate Bush** among many others. Also!!! The **Gavin Report's** **Alternative Top 10** is now featured every week on **MTV's "120 Minutes"** Sunday evenings 12:00 to 2:00 A.M. Eastern time.

"Tower of Strength" - THE MISSION
(Mercury UK-12")

The Mission (UK) rebound back on "Tower of Strength" like a Dominique Wilkins slam-dunk. This new import single represents the finest song they've recorded yet. The pounding bass line is sure to make this huge in the dance clubs while the dramatic arrangements and string parts will whet the appetites of radio programmers. Produced by Led Zeppelin's John Paul Jones, of all people.

"Inside Out" - MIGHTY LEMON DROPS (Reprise-12")

The Mighty Lemon Drops have already developed a devoted following with two alternative charting releases throughout last year. The only criticism leveled at them was their similarity to Liverpool neighbors, Echo & the Bunnymen (a good band to sound "too much" like). "Inside Out" will help them shake that tag. It's a compact song and most important represents growth and maturity in the band's songwriting skills. Look for a full new album the first week of March.

Inside Album Continued from Page 51

These guys meet girls, fall in love and write songs about them"...The Carterman at WBCN is seeing BIG BIG BIG retail on Sinead O'Connor...KLOS adds Henry Lee Summer and Kingdom Come out-of-the-box...This week's Vital Vinyl at WFRD- Hanover was Danny Wilde's album. John Aguilar joins WFRD as their new MD...Ty Banks is getting calls on the big three, Robert Plant, Joe Satriani and Guns 'N' Roses. He's encouraged by Midnight Oil as well... Jim Kelly at KATP-Amarillo mentioned that the station has added White Lion three times. He's getting big phones from both sexes...Ginger Havlat at KBCO noticed Robyn Hitchcock on the number one slot of the Gavin Alternative chart and gave "Balloon Man" a spin. On it went onto the playlist right alongside the McCartney import "Once Upon A Long Ago" and "Back On My Feet" (co-written by Elvis Costello)... Terence Trent D'Arby requests are coming in both at WNCS-Montpelier and WMVY- Long Branch, NJ. Long Branch...isn't that Springsteen country?...Nathan Hale at WQBZ-Macon is getting #1 White Lion requests as is Alan White at KILO. Alan hears a big buzz on Kingdom Come.

DIAL A RECORD. Gregg Steele at KNOX-Grand Forks is high on a Minnea-polis band called Mile One. If you need a copy, give Gregg a shout at 701-775-4611... Tonio K landed on a few more playlists this week, just missing a chart debut. Play is on "Without Love" and "Stay"... Wasn't that Lin Brehmer sitting in the crowd at the NBA All-Star game, yelling for Michael Jordan? Yes, it was. Some of us feel that Jordan stole the slam dunk contest, but never mind. What we like are those NBA commercials directed by Spike Lee. Speaking of slam dunk, wait until you hear the upcoming Mink DeVille CD Best-of titled *Savoir Faire*. If it weren't for Champagne Ray Tusken, DeVille might never have seen the light of digital day. And we salute you Ray. Stay well. Yer pal, KZ.

PROMOTIONS

by Lisa Smith & Betty Hollars

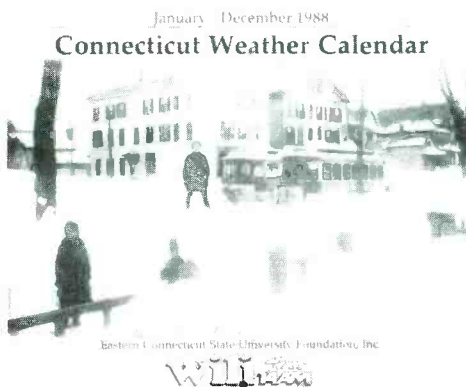

THE LAST TO KNOW ▼

WWQM-Madison's Jeff Davis (left) and Mark Hunter (right) thank Reba McEntire and Michael Martin Murphey for their participation in WWQM's latest promotion, offering listeners a choice of trips to San Diego, Orlando or a weekend in New England. Winners who called the station after hearing Reba's "The Last To Know" won a cassette from Reba or Murphey, and a chance at the grand prize drawing during their concert, between Murphey's and Reba's performances.

A WEATHER SALUTE ▼

The most popular stocking stuffer in Willimantic, CT, this past Yuletide was the WILI Weather Calendar. PD Wayne Norman tells us Eastern Connecticut State University approached him with the idea with the hope of using the calendars as a fundraiser to help scholarships. Since this is the 100th anniversary of New England's legendary "Blizzard of '88", they obtained photos of the storm from the New Haven Colony Historical Society to use in the calendar. Wayne expects sales of the calendar (\$3 a piece) to continue briskly through the early months of '88.

SPOTLIGHT PROMOTION OF THE WEEK

BOSS WHEELS

By the time you read this, this pink Cadillac should be covered with signatures of WZOK-Rockford, IL, listeners who are trying to convince Bruce Springsteen to make a concert stop in their town. 'ZOK plans to use the Caddy to drive Springsteen to Rockford for his performance, and

then the car will be awarded through a random drawing from the names of the WZOK listeners who signed the car. The station has some experience in successful petition drives. In 1981, the Rolling Stones made a concert appearance in Rockford after 'ZOK gathered 35,000 signatures.

UP TO HIS NECK IN WORK ▲

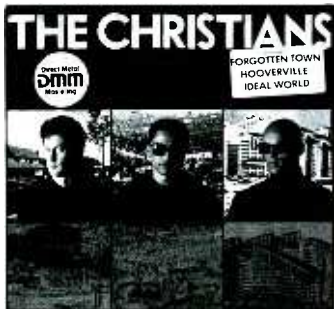

Whatever happened to those cards and letters? Eddie Edwards of KLAC-Los Angeles found out when over 10,000 postcards arrived in response to the station's "I Wanna Win Eddie Edwards" contest. Listeners were asked to send in postcards with the name of their place of business on them. The business with the most postcards would win a live KLAC broadcast from their business or office with Eddie Edwards. Word has it that Eddie will now use his 10,200 votes as a springboard into national politics...Lord help us all.

FROZEN PEACHES ▼

Georgia is not known for its blizzards, but when "Snowjam '88" brought Atlanta to a sliding halt, Power 99.7 offered listeners a chance for lucrative entertainment. The station awarded a \$1,000 prize to the best snow sculpture that included the Power 99.7 logo. Hundreds of masterpieces were received, but three were chosen to win the cash. This winner was created by a group of chefs from the Hyatt Hotel.

CHARTBOUND**

THE CHRISTIANS

Produced by Laurie Latham

At the root of The Christians' music is the human voice, probably the most powerful instrument of all. The group is from Liverpool, where Gary and Russell Christian have been singing as long as they can remember, first with three other brothers in an acapella group. In 1984, the two were joined by ex-It's Immaterial keyboardist Henry Priestman, and The Christians were born. Earlier this year, the Christians scored a major hit in the U.K. with "Forgotten Town."

By the time this album was released, the band had amassed enough of a following to enter the British charts at #2. Highlighted by the hit "Forgotten Town," the funky "Hooverville" and the sweetly melancholic "Sad Songs," "THE CHRISTIANS" is now being released in the U.S. Deeply anchored in the tradition of soul harmonies, yet taking in elements of pop, rock, funk and blues, The Christians' music will speak to the heart of every music lover.

**GAVIN ALTERNATIVE
CHART 27*-11***

THE POGUES

"IF I SHOULD FALL FROM GRACE WITH GOD"

Produced by Steve Lillywhite

Staunchly uncompromising and brilliantly innovative, The Pogues have been called "England's best band" by the New Musical Express and "the best punk band since the Sex Pistols" by The Face. Shaped by the sound of "folk" instruments (tin whistle, accordion, mandolin, dulcimer, fiddle, etc.), the London-based band's music owes as much to its members' Irish roots as it does to their post-punk sensibilities. The recklessness of their live shows is matched only by the extraordinary songwriting of Shane MacGowan, whose songs echo the words of Oscar Wilde: "Celtic myths and legends, where the loveliness of the world is shown through a mist of tears." Having already released two LP's (including the Elvis Costello produced "RUM, SODOMY, AND THE LASH") and an EP, The Pogues now make their Island debut. "IF I SHOULD FALL FROM GRACE WITH GOD" delivers music that is at once sweet, hauntingly human and boldly contemporary.

**GAVIN ALTERNATIVE
CHART DEBUT 38***

THE TRIFFIDS "CALENTURE"

Produced by Gil Norton

The Triffids (David McComb - lead guitar, vocals; "Evil" Graham Lee - pedal and lap steel autoharp, dobro; Robert McComb-violin, guitar, and harmonica; Martyn Casey-bass; Jill Birt-keyboards, vocals; Alsy MacDonald-drums) originate from the suburbs of Perth, Australia. Based in London since 1984, they have embarked on numerous tours of Britain and of the Continent, establishing a reputation as one of the most devastating live bands around, and a loyal, devoted, and growing fandom. The title of the Triffids Island debut refers to a tropical delirium in which sailors imagine the seas to be rolling green fields and leap overboard. With moods ranging from the delicate folk rock of "Bury Me Deep In Love" to the psychedelic touches of "A Trick Of The Light" to the dark undertones of "Unmade Love," CALENTURE emanates a timeless, mesmerizing quality that's only heard from the best of rock 'n' roll bands.

WORLD AT A GLANCE "BURNING OUT" Advance 12"

Produced by Bob Musso/Remix by Francois Kevorkian

The lyrics are relevant and cynically humorous. See if the phrase "It's a great big world without any Mercy for the Innocent," doesn't serve as the first distraction. This New York City-based quintet has enjoyed much success in the downtown club circuit. Their music is big and thick with swirling, fluid guitars and massive hooks. The LP ships February 15th.

SURVEYS OF REALITY

Regular readers of this column know I'm basically an optimist. Despite my criticism of inept management, I've taken care to point out those managers who are taking bold, innovative steps with their employees and customers. On the other hand, we cannot grow complacent. Consider the management of people--managers and non-managers alike. The fact remains that effective people-management is still definitely the exception rather than the rule. Let me share with you the results of a few survey and research studies and you'll see what I mean.

"Most workers don't trust their bosses," one study concludes. "Fully 78 percent of American workers are suspicious of management, developing an 'us-vs.-them' syndrome that interferes with their performance. These workers spurn innovation and create unrest."

What about management itself? Is it all rosy in that sector? Not at all. One study suggests that "top management may be insulated from reality if it really thinks middle management morale is strong. People in middle management are very unhappy, not only about their pay and benefits, but also about a growing lack of communication with the top level... Middle management people have lost confidence in the leadership ability of their superiors... Today we see 69 percent of middle management complaining of eroding authority, of seeing too many decisions made 'at the top' that up to a year ago were made by them at their level... Almost two-thirds of middle managers complain of stress and burnout."

Other research findings indicate that, on issues such as lack of job security or lack of appreciation for loyalty and hard work, "Attitudes of middle managers seem to parallel similar views held by clerical and hourly workers."

Moreover: "Seventy percent of employees believe management has lost touch with the rank-and-file worker."

"Nearly 75 percent of lower-echelon workers see little relation between job performance and economic reward, and 53 percent see inequities in compensation."

Now I have a confession. Most of the above studies were conducted in the late 1970s. So why waste time with ancient history? The answer is that it is by no

means ancient history. In fact, I suspect that if these studies had been replicated within the last four years, the results would have been even more distressing.

With the marketplace in all industries becoming more turbulent and unpredictable, an increasing number of senior managers have been looking to quick deals and financial shenanigans for salvation. In the short term—which seems to be the obsession of many senior managers—the deals and shenanigans may look promising, but in the long haul, these strategies are blueprints for disaster. Among the many reasons for this is that these strategies view people as variables to be controlled, costs to be minimized and factors to be optimized, rather than as the ultimate source of "value-added," strategic differentiation and, yes, growth, market share and profitability. Let's examine this in a bit more depth.

As senior managers turn their attention towards the glitter of mergers and acquisitions, financial sleight-of-hand and legal maneuvering to fend off corporate raiders, and simultaneous (sometimes contradictory) asset-reduction, retrenchment and consolidation, what happens to those not blessed with senior job titles and golden parachutes? Those human beings have been ignored, jerked around or discarded like pawns in a chess game. And what do you think that does in terms of product quality, customer service, loyalty, commitment, absenteeism, turnover, alcoholism and drug abuse, stress and burnout—even theft?

One researcher noted, "More and more employees today have a negative attitude towards their employers. There's a direct correlation between low morale and high theft." Absenteeism, turnover and stress alone have been estimated to cost industry up to \$100 billion annually in direct and opportunity costs, as well as lost productivity. Problems in quality and service, ultimately arising from untrained and unmotivated employees, have been important contributors to our massive trade deficit and our loss of competitive vigor in the international marketplace. Small wonder that one of the above surveys concluded that the situation "poses a serious threat to reviving sagging productivity and boosting bottom-line performance."

Remember, I am not condemning any

Deals and shenanigans may look promising, but in the long haul, these strategies are blueprints for disaster.

firm's decision to reorganize or even downsize if such actions may lead to a competitive renewal. I am instead criticizing a highly counterproductive short-term mindset which—other than occasional lip service, overlooks the critical value of people in any competitive strategy. Given senior managers' attitudes and behavior vis-a-vis middle managers and employees over the past few years, I propose that the results in the above-cited studies may very well underestimate the current problems faced by our labor force. And it doesn't matter whether we're talking about the radio or record industry: To the extent that low morale, low motivation and low loyalty are commonplace, the implications are alarming for our work lives, or businesses, our economy and our national standard of living. Good managers—we need you more than ever!●

INSIDE COUNTRY

IT'S HERE! Welcome to the third annual Gavin Seminar For Media Professionals. We're looking forward to seeing a lot of you here and - like you - are anxious to find out the winners of The Gavin Awards. For those of you who can't attend, we'll be printing the winners' names in next week's issue.

PROGRAMMERS ARE TALKING ABOUT...The new record by Skip Ewing really impressed a lot of you. Roger McDowell, KRMS-Osage Beach, reports immediate positive reaction, ditto for Bill Lecato at WKRE-Exmore and John Gatlin at WKNZ/FM-Collins. Steve Small tells us the George Hamilton V (the fifth, not V) is pretty hot at KKAABerdeen. Jay Roberts at WSUN - St.Petersburg is getting a lot of calls for the "Survivor" cut from George Jones' LP. The most requested song for Cliff Desmond at WTRS- Dunellon is "Dancin'" from The Shooters album. Cliff adds, "It's the Country-est song on the whole album." Paul Scott at KORD-Tri-Cities suggests you give a listen to the cut "The Stairs" from Reba McEntire's new album. He tells us, "It's about wife abuse. The calls we get are from people

who both love it and hate it, but the response has been incredible nonetheless."

A LOOK AT THE CHART. Whew! Look at those Judds turn it loose. A jump from 10 to 1 in a single week is something else. Mario Garcia at KMLA-Texarkana and Sean Lisle at KNBA-Vallejo were two of the first to predict this one would go all the way. Close on the high heels of the Judds is that charmer, Ricky Van Shelton, who's bound and determined to make this his first #1 record. It's already the hottest record in town for Ray Romero - WFPR/Hammond, Lou Lunden, KCMJ/Palm Springs, Steve Gary - KASE/Austin, Pat Garcia - KCRS/Midland, Carl Brown - KNEW/KSAN-Oakland/San Francisco ("pulling in incredible calls - it must be the muscle shirt") and Kevin Chase - KRLC/Lewiston. Kathie Baillie and the boys (and her soon-to-debut baby) burst into the Top Ten this week, and they're starting to make a lot of noise on the phone lines for Dave Torkelson at KBRF-Fergus Falls, Lee DeCastro at WZYQ-Frederick and Johnny Randolph at KTDO-Toledo. Listeners are

apparently welcoming the new Eddie Rabbitt single with open arms. Kurt Phillips at KMIT-Mitchell says, "It's really starting to come on strong here." George Strait is usually an automatic phone ringer, and this latest single is no exception. It's already burnin' up the lines for Kelly Thompson, KMDL/Kaplan, Tim Larson, KYCK/Grand Forks, Tommy Samoray, WKCQ/Saginaw and Greg Cole, WPOC-Baltimore.

Talk to you next week. The Gavin Country Crew

REVIEWS

By Lisa Smith & Cyndi Hoelzle

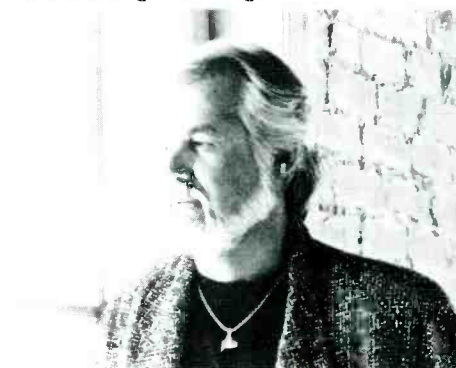

RICKY SKAGGS - "*Angel On My Mind That's Why I'm Walkin'*" (Epic)

This single from his soon-to-be-released *Comin' Home To Stay* LP finds Ricky "heartbroke" once again. Country programmers and fans have come to expect the best in truly classic Country from Ricky, and we have yet to be disappointed.

NEW GRASS REVIVAL - "*Can't Stop Now*" (Capitol)

These pickers can really rock, and

"Can't Stop Now" is an excellent example of the boys going all out. A manic bluegrass song.

KENNY ROGERS - "*The Factory*" (RCA)

Kenny always does well with songs that tell a story. This moving tribute to the working man will touch your listeners much in the same way that Alabama's "Forty Hour Week" did.

BARBARA MANDRELL - "*The Angel And The Badman*" (EMI-America)

Here's another selection from the popular new writing team of Waylon Jennings and Roger Murrah. Once again, Waylon offers to sing with artists who record his songs, and his presence in the song adds just the right touch of the "Badman." Could be Barbara's best in a while.

MOONLIGHTING

by Moon Mullins

AND NOW THE NEWS

This month, we'll continue to probe the area of news, to see what, if anything, we can do to compete against the onslaught of television into our territory.

In most market studies, the top three items people want from their radio stations are time, weather and traffic. Even the least news-conscious demos usually want two or three of the day's top stories, if only in headline form. After that, the lifestyle and age bracket of the market segment you're attempting to reach will impact the content of your news.

WRITE FOR THE EAR, NOT THE EYE

The language we speak differs in many ways from the language we read. Yet many radio writers think they're writing for print. Maybe that's because most of them are composing their newscasts on typewriters or word processors. I read that David Brinkley always hand-wrote his news copy on legal pads so he wouldn't sound journalistic. Good idea!

Radio news should employ minimum word usage. By using few words, we automatically simplify the story into understandable terms. Some news stories are complicated and require some explaining. The fewer words you use to explain, the clearer it will be.

Paul Harvey is at the vanguard of those who write properly for radio. In a recent newscast, he delivered 12 stories using 409 words. Of the stories, five were national, three were features and two were health-related.

Some news writers don't use periods or punctuation. They claim this helps them sound more conversational or "off-the-cuff." Other writers use "... between phrases where they want to pause for effect. Either approach will help you compose in short phrases.

Bring your audience into the newscast. Use "you," "our" and "your" phrases.

Write with warmth and feeling (See last month's article on "subjectivity."), not in a staid, pompous formula. Putting some heart into the story will immediately begin to eliminate bureaucratese terminology.

Some examples:

Instead of "Officials say," tell who those officials are--don't they have names? Don't always say "allegedly" when "he claims" or "they say" gets the job done. An "automobile accident" is a car wreck. No one "perishes" they either die or were

killed. When you have a story filed by another reporter, just go to it. Don't bother with boring introductions like "in a related item" or "so-and-so files this report." They can always identify themselves at the end of their report, or you can include their names at the end of the news. No one knows a "weatherman"--he or she may be an Accuweather person, a weather specialist, staff meteorologist or a person from the U.S. Weather Service--so let's give a name.

Dick Layman of WSM/AM-Nashville, an extraordinarily gifted radio writer, wrote about a local assault case this way:

"I'm not recommending this...it's not even a suggestion... but a Murfreesboro woman may have come up with a way to scare would-be rapists into keeping their pants on. Last night as man with a razor broke into the woman's apartment... forced her into the bedroom...and while he had his pants down to his ankles, he dropped the razor...She grabbed a 44 Magnum kept nearby and forced him to call the police."

Recently, he described a transvestite as a "she in he's clothing," a hurricane as "licking its chops and getting ready to feast on Haiti."

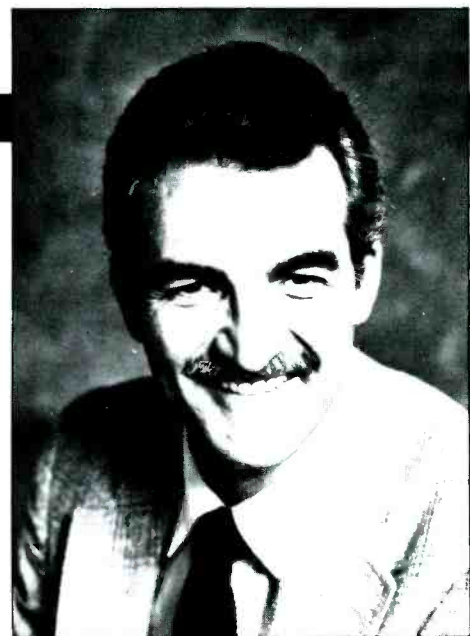

INNOVATION

The most innovative thing in news I've ever tried was "singing news." A few years ago, a part-time deejay of mine was also a would-be singer/composer. She wasn't bad and I asked her if she could translate news copy into poetry and sing it. She agreed, and, until the manager had me take it off, it was one of the most fun things in radio with which I've been associated. Someday, I might get to do it again (*editor's note--KTWV in Los Angeles is doing it now*). Of course, we had no news image--but we might have gotten one if we had continued. However, I'm not convinced it would be the one we wanted!

Some innovations to consider:

• **Sound effects** to create *Video in the Mind*. Television uses "file film" because they must have a picture. Well, we use audio, so why not put a sound effects library on cart in the newsroom? If we can't really be there to get the audio, let's re-create it the way it might have sounded. We don't have to say the audio came from the scene. We don't have to SAY anything.

• **Never introduce news.** Have it appear on the air as suddenly as a commercial

Even the least news-conscious demos usually want two or three of the day's top stories.

break. Don't mention the word "news." Just tell what's going on.

• **Report the news in the present tense.**

If a story took place last night, phrase it so as to reflect what's happening with that story right now. If, say, a plane crashed yesterday, report, "The FAA is going over the crash site..."

• **Use networks.** They will free your people to concentrate on local stories.

• **Develop long-term series.** Use your resources to examine community problems in a "mini-documentary" fashion. Play one part in mornings and promote the afternoon segment. Do the same in the afternoon for the next mornings.

• **Develop short-term series.** Topics might include "Teaching your children to help others," "Medicine you and your children should take," "How to shop for bargains" or even "The ten toughest questions ever asked on Jeopardy." Plug upcoming segments.

• **Watch trends.** Be prepared to add features to the news. In recent years, business news has become commonplace on almost all stations. Perhaps in your market, it's time to return to school lunch menus, fishing reports, hospital news. How about horoscopes, television schedules, do-it-yourself tips, lawn and garden techniques?

• **Use microphone flags.** You can get extra print and TV exposure if your logo ends up in a photo.

The list is endless--but again, let's consider doing all we can to reduce the erosion of our listeners to television in the coming years!●

INSIDE URBAN RADIO

To those of you who are reading this in beautiful downtown San Francisco, a great big WELCOME to the best GAVIN SEMINAR ever, with record-breaking crowds expected at all the events and sessions. We're very pleased and impressed with your support and appreciate your efforts in getting here to join us in celebrating our 30th Anniversary!

Last week's Record To Watch, TEENA MARIE, had such a great week she gets Certified. So does CLUB NOUVEAU, which is getting requests for Gene Harris, XHRM-San Diego.

This week's Record To Watch, MICO WAVE's "Instant Replay," is being played over and over at most stations. Reporting heavy requests are Joe Bullard, WANM-Tallahassee, Mike James, KITM/KJAM-Mission and Kermit Crockett, WWWS/FM-Saginaw. Howard Thomas, KMYX-Ojai, didn't want to be left out, so he made it one to watch, and so does Wayne Walker, WFXC-Durham, although he reports WORLD CLASS

WRECKIN' CRU is his most requested. Patrice Cary, KNON-Dallas and B.K. Kirkland, WIKS-New Bern. agreed on another RTW, and that was SKWARES.

HINDSIGHT is getting rave reviews from all corners: Earl Boston, WFXM-Macon, says, "It's amazing how many calls we've received already for this one." Tony Lype, WZFX-Fayetteville, is getting number one phones for PEBBLES, and makes HINDSIGHT his RTW. Tony Brown, WBLX-Mobile, mentions that TERENCE TRENT D'ARBY is getting calls from the 18-34 demos. Tim Outland, WZND-Normal, cites requests for BLUE MERCEDES, and Carl Connor, WFXA-Augusta, reports many calls for FULL FORCE's new single, "All In My Mind." Jimmy Smith, KKDA-Dallas, says "Keep your eye on HEAVY D AND THE BOYS' 'Don't You Know.' It's getting tons of calls!" Mike Love, WUSL/FM-Philadelphia, reports major calls for both TONY TERRY and EARTH, WIND & FIRE. Hottest single in terms of adds were LEVERT with 36, BILLY

OCEAN with 28, MELI'SA MORGAN with 22, NATALIE COLE with 20, and THE FIT with 19. Ciao for now.

REVIEWS

By Betty Hollars and John Martinucci

WHITNEY HOUSTON - Where Do The Broken Hearts Go (Arista)

One of our favorites from the LP, we've been waiting for this to officially be released as a single. Now that it is, Whitney's got singing with conviction down to a "T." In an effortless manner, she can bring tears to your eyes.

WILTON FELDER - Love Is A Rush (MCA) When we first heard this, we wondered why the voice sounds so familiar. We're still wondering. All the label says is "Produced by Joe Sample and Wilton Felder," which is good enough for us. It fits the format of today's radio sound.

NEW KIDS ON THE BLOCK - Please Don't Go Girl (Columbia)

If sounding like The Jets, 5 Star, The Jackson Five, New Edition, or Teen Dream, is what it takes to bring a hit home these days, this one will be right up there with the big ones. Even if they weren't named what they are, you'd know by their sound that these kids are right in the puberty-stricken age bracket!

DAVE SHOLIN'S PERSONAL PICKS — SINGLES

TIFFANY - *I Saw Him Standing There* (MCA) Contrary to rumors, this fireball of young talent is not Billy Brill's daughter. She and producer George Tobin are destined to make it three hits in a row with this remake of the 1964 Beatles rocker. Already being played on KCPX, KKFR, KWK, KZZP and more.

WHITNEY HOUSTON - *Where Do The Broken Hearts Go* (Arista) Weaving her spell between hot uptempo dance numbers and ballads, Whitney slows things down this time around and, as always, stirs the emotions. About the only place you won't hear this is on ham radio.

STARSHIP - *Set The Night To Music* (Grunt/RCA) A natural for Top 40 and A/C radio, written by Diane Warren, who also wrote the band's number one song, "Nothing's Gonna Stop Us Now." Highlights another side of Starship and provides the perfect vehicle for Mickey Thomas and Grace Slick to blend their unique vocal abilities.

TAYLOR DAYNE - *Prove Your Love* (Arista) Those like myself who loved "Tell It To My Heart" can't help but feel the same way about this follow-up effort. Impossible to listen to this track while sitting still.

ERIA FACHIN - *Savin' Myself* (Critique/Atco) Jerry McKenna at WXKS Boston was the first to hip me to this hot pop/ dance ditty. This week it moves 17-14 at both XKS and KMEL with adds at POWER 106 and HOT 103. This Canadian artist deserves an A+ for a debut effort that I can't get enough of.

BRUCE SPRINGSTEEN - *One Step Up* (Columbia) A beautifully constructed song with a message that's certain to create an emotional reaction with a whole lotta folks. Powerful stuff.

10,000 MANIACS - *Like The Weather* (Elektra) Boy, with a name like this they must have a tough time making restaurant reservations. Written by lead singer Natalie Merchant, this Peter Asher production has a special sound all its own.

RON FELL'S PERSONAL PICKS — ALBUMS

HINDSIGHT - *Days Like This* (Virgin)

Hindsight has 20/20 vision. This duo of Camelle Hinds and Henri Defore first intrigued me when their song, SMALL CHANGE, appeared on the Virgin CD sampler at last year's Gavin Seminar. A year later, Shazam! A whole album of brilliantly recorded and masterfully mixed collectibles. The aforementioned SMALL CHANGE is the album's anthem of exception, with its earthly wind and serpentine fire. The album's most hypnotic moment is its opener, HEAVEN'S JUST A BREATH AWAY. Produced by Preston Glass, the track is bliss with a beat. The first single, STAND UP, anchored by a monster bass line, is the obvious dance track and a logical introduction piece. The novelty on the album is a respectful version of Boz Scagg's LOWDOWN. Its resemblance to the original is a credit both to Boz's inspired creativity twelve years ago and to Hindsight's ability to look back.

RON FELL'S PERSONAL PICK

THE CHRISTIANS - *The Christians* (Island)

With merely a superficial first listen, I couldn't help but be impressed by the trio's tight vocal harmonies and the project's overall slick production values, compliments of producer Laurie Latham, the same guy who created the blue-eyed soul support for Paul Young. But below the surface, deep inside the grooves are strong packages of thoughtful lyric from the pen of the group's Henry Priestman. Englishmen Garry and Russell Christian, along with Priestman (no puns intended--those are their real names) bring a proper English attitude to the injustice and insensitivity which are the burdens of the have-nots. My favorite tracks are the first single, FORGOTTEN TOWN, IDEAL WORLD, WHEN THE FINGER POINTS and BORN AGAIN. Expect a crusade.
