and
Danny Wilson...inside.

RECORD OF THE WEEK

SUZANNE VEGA, "Luka"

Too sophisticated and controversial for the "rock" audience? Tell that to 35 out of the box stations. Could be the most relevant female reaction record this year.

BUILDING SUCCESS FROM THE SOUND UP
Special 12" Re-EQ'd and
re-laquered for AOR!

Mason Ruffner, "Gypsy Blood", CBS.... Anybody who's ever made the pilgrimage to Bourbon Street can tell you about Mason. He's been working the bar scene there for years-- with open mouthed appreciation from drop-in fans such as Springsteen and Jimmy Page adding only slightly to the local legend status his playing has garnered. That axe is the big hook and they say you've got to see it to believe it. Til now. Guess all Mason really needed to deliver on the promise of his Epic debut of some eighteen months back was a little help from noted dialtwister Dave Edmunds--and his first tailor made for radio rip-em-up. We haven't found a soul who wasn't totally wowwed by our "Gypsy Blood" sampler shot--and we're talking walking to New Orleans if it's not top ten inside of a month.

Billy Branigan, "Can't Love You", Polygram.... Now here's a prime example of what I call "suburban rock" at it's finest. Good looking kid, grrreat jammin' guitar playing, and a mile-a-minute hook that should kill on the radio. Hey, this is that sweet spot where Dwight Twilley meets Billy Squier that ironically somehow eluded both of those groups. Forget his first single, this is real rock that could go pop--but it's targeted your way, first and format. A surprisingly strong song and even more impressive image turnaround.

Ace Frehley, "Into The Night", Atlantic.... Has it really been five years since we heard from Ace? Though he left Kiss at least that long ago and it was 1979 when he hit the top 10 with "New York Groove", the name is still magical. That's what happens when you set trends. And what better vehicle for a triumphant return than another can't-miss Russ Ballard track--although we'll bet you didn't know he also penned "NY Groove". The finished product sells itself--but with Ace's name, Russ's writing rep, and the guaranteed big ride at CHR, your mind should almost be made up before that tonearm touches down.

The Replacements, "Alex Chilton", Sire/WB.... Isn't it odd that the New/Alternative to Mainstream cross should be so difficult, especially considering the wealth of styles and attitudes the former has to offer? Plus, isn't it true that in many cases critical acclaim further tends to typecast the genre's brightest stars as strictly cutting edge talent? Thus, who would have suspected this reformed garage/ thrash media darling band would come up with such a wonderful commercial radio song--about one of pop music's cultural heroes, no less. And it's only one of several amazing numbers--including "Skyway", "Can't Hardly Wait" and "The Ledge". As KGON's Inessa York says, "Reminiscent of Echo and the Bunnymen and early U2. Could be something here". Hmhmhm.

RECORD OF THE WEEK

Suzanne Vega, "Luka", A&M.... We can't play this poignant powerhouse enough around the office--- and loved hearing from David Dye at WIOQ that it has already taken over as the dominant request item. And 21 OTB adds? That's almost as many stations as her last solo or "Pretty in Pink" managed to come. WLAV's Aris Hampers advises, "Put this lady on and watch her work for you. She has a hypnotic quality that upper demos can't resist.".... WHCN's Kim Alexander says of the female perspective, "'Luka' breaks my heart. I have a vivid picture of what this song looks like and I never want to see the video".... From KBCO's Doug Clifton, "Suzanne melts even the roughest toughest outlaw into a pile of trail mud. She has grabbed a spot in my heart".... An important record--both in terms of Vega's career and the subject matter.

ALSO NEW THIS WEEK

Jon Butcher, "Holy War", Capitol.... I'd consider this the most automatic second track you'll deal with in the next couple of weeks. We say "Saving Grace" has more than earned it for Jon with solid top 10 play, his best request follow through ever, pages of programmer positives, and a sales pattern that has pushed the unit count past the 100K mark. And just think of the competition he's had to face. It's our feeling that "Holy War" is an even stronger reaction track in terms of overall dynamics and certainly in terms of topicality. Already on WAAF, WPLR, KZAP, WHCN, WHJY, WNEW, and KRXQ.

Farrenheit, "Lost In Loveland", WB.... Though many AOR programmers initially thought "Fool In Love" needed a few more rough edges, it's rock radio roll call came through with flying colors--with plenty of high clout call letters topping the list. All the tune really needed was more CHR support, and the hesitation is definitely their loss. Luckily the new single has that edge some of you were looking for--and a much better than average hook.

Andy Taylor, "Don't Let Me Die Young", MCA.... We sure thought the Duran connection was the AOR equivalent of the plague--but Andy is certainly sitting pretty with one of '87's more impressive comeback/ turnaround scenarios. And that wasn't even the best track--as per this from Harvey Kojan at KLOL, "Now that the audience knows Andy can rock, it's time to play the tune with serious hit potential".

Danny Wilson, "Mary's Prayer", Virgin.... Rather interesting set of circumstances, eh Watson? It's a band not a person.... Named after the leading man in a 1952 Sinatra movie... After Spencer Tracy's estate made them stop using his name.... Well, they certainly don't sound Scottish to me.... And is anybody else making music like this?... Ah Hah. Just as I thought, this is just another elaborate scam from those dukes of deceit Becker and Fagen.... I knew they'd surface once the guitar army rolled by... Quick, get me John Sebastian on the phone....

Shy, "Break Down The Walls", RCA....

The credits alone should put your precious metal detector into hyperdrive. Produced by Neil "Hall and Oates/Dokken/Autograph" Kernan, Don Dokken on co-writer credits, with front man Tony Mills last heard singing backup on Cinderella's double platinum debut. That may not get it added--but it should rate a priority audition. Listen and you'll hear one helluva high gloss rocker. Listen again and read your rave in this space next week.

Stryper, "Free", Enigma.... Their MTV exposure and apparently endless touring has set the stage for something even bigger than the gonzo sales curve they already enjoy. What's this picture lack? How about a monster single? Rick Winward and the Enigma folks put "Free" on the Eagle in Dallas two weeks ago, and Redbeard's in this week at KTXQ. It's significantly easier to program than Poison--and it won't be long til you feel the ripples.

David Bowie, "Never Let Me Down", EMI.... Our pick track "Time Will Crawl" finishes first in this week's big stakes Most Added with 65—but simply outperforming the Petty record doesn't begin to capture the essence of the radio regard and excitement for the Lp we felt this week. Our reporters love the fact that he's rocking again, with equally high praise for the obvious track depth. Al Branca, WMGM, "He's back with his strongest Lp of the 80's".... Stacy Yelton, WKQQ, "Just exquisite. It really is a return to rock and roll".... Glenn Stewart, WHJY, "Bowie is back with a vengeance with his best album of rock and roll since 'The Lodger'." Stew Schantz, WPDH, "His best in about five albums".... Tom Starr, WOUR "Bowie at his best is wonderful and it's good to have him back".... Karen Small, WGIR, "Glad to hear such a solid rock effort after his two previous dance-tinged Lps".... Duane Sherman, WTOS, "David returns triumphant, already generating mucho requests".... Chartwise, "Day In Day Out" gains 5-4*, with 16 increases, 27 powers and 108 heavies—while debuting at #10 Most Requested with 15 top 5 mentions. "Time Will Crawl" collects 13 heavies (KBCO, KOME, KRXQ, KSJO, WAAF, WDVE, WHCN, WHJY, WPLR) and a #43 debut, with "Bang Bang" new at #90 with 34 adds. Also note healthy interest in the title track (20 adds/KFOG, KSJO, WMMR, WGTR, WIYY, WIOQ), and "New York" (14 adds including KRQR, KFOG, KSHE, WAAF, KISW, KLOL, and WNOR). New at #5 Album Impact.

R.E.M., "Ages Of You", IRS/A&M.... The great little tune that's been hiding under a rock finds another soft spot on the Hard Hundred—with our fourth longest 71-57* advance. The strong add pattern continues with 23 more stations and 73 to date. And there's plenty of major market interest, as per early action at the likes of KFOG, KOME, KSJO, KYYS, KZEW, WAAF, WCCC, WKLS, WLLZ, KBCO, KMOD, WDIZ, WQFM, WRIF and WYNF.

Fleetwood Mac, "Tango In The Night", WB.... Although "Seven Wonders" remains comfortably out front in terms of album tracks—with 18 more adds, 7 increases and a 32-23 gain, the new 12" is also gaining rapidly. "Tango" turns in 9 adds (including KZEW, WIOT, WNOR, and KLOS), 11 increases (KATT, KMOD, WKLS, WRKI, KICT, KGON), all of which translates to a 42-38* Hard Hundred move. "Isn't It Midnight" is the other big winner this week, climbing 52-45* with 9 adds, 5 ups, and 64 total.

The Truth, "Weapons Of Love", IRS.... Portrait of a debut blowout: New on 12, now on 149, upped on 14, heavy on 17—including KBPI, KQRS, KSQY, WGTR, WKQQ, WMAD, WNOR, and WIMZ. Naturally, the charts kill; 23-17 on the Hard Hundred, with the week's third highest #23 album debut. Over the course of a year you'll be able to count starts this fast on two hands. Now 54 reports away from total close-out. What's the hold up?

Autograph, "Dance All Night", RCA.... The follow-up's second consecutive killer week puts 11 more adds on the board, including WAPL, KNCN, KKDJ, KDJK, WQFM, WRCN, and KATT, with WDHA and KATP already showing increases. Although the fast traffic up ahead pushed the Lp back a notch to #44, please note the underline for points—due to the 78-70 move for "Dance". Now on 45 Hard Reporters, WDIZ, WRIF, WYNF, KICT, KDJK, WLLZ, WKDF, KOME, KISS and KBPI included.

The Partland Brothers, "Soul City", Manhattan.... Well, it's part Everly and part Crowded House—and it's 100% certified hook City from start to finish. A natural for those leaning adult—and one that crossformat action could put under your ears before you know it. You know those smooth Canadians....

Little Steven, "Trail Of Broken Treaties", EMI.... 62 out of the box adds and a #54 Hard Hundred entry make this Steve's hottest start ever—and this time the kickoff party is far bigger than his built in fans. WLLZ's Jim Pemberton said, "It's high on my list this week. It honestly took me several listens, but after that I was hooked".... Ditto WIOT's Jim Steel, "You might have to listen to it a couple of times, but after a few spins you'll be in love with it. His most important work to date".... From WLNZ's Cathy Down, "I must admit that I've never been a follower, but his latest has put me on top of the list".... WHMD's Phil Colwart calls it "An instant smash. Classic E Street stuff with a golden touch of his own".... And from KZEL's Jim Trapp, "Little Steven puts out his best cut ever. Get smart, America, you're only as good as your word and this track doesn't lie"....

Tom Petty, "Let Me Up (I've Had Enough), MCA.... Though lead cut honors are still up in the air—"Runaway Trains" topped the list of what went on the air—with 62 adds and a #44 debut. Then comes "Think About Me" (our favorite) with 40 adds and a #65 showing, with 39 reports for "Damage You've Done" (d69), 22 for "My Life/Your World" (d84), and additional interest in the title track and "All Mixed Up". Glenn Stewart comments, "The new album answers the question of who's better to work with—Dave Stewart or Bob Dylan? Isn't it obvious?".... From WDVE's Anthony Alfonsi, "The influence of Bob Dylan is apparent as well as some influence from the Rolling Stones. I think Tom listened to "Exiles on Main Street right before he recorded the album".... and from WMMR's Erin Riley, "Can't tell how much it jazzed me to receive a great Petty record. I'm a fan from the beginning, but the man has had his ups and downs. Mostly ups, of course, but "Let Me Up" is all ups".... From KGON's Inessa York, "There's simply no doubt that Tom Petty has found his musical soulmate in Bob Dylan. The Lp is a real joy."

Gary Moore, "Over The Hills And Far Away", Virgin.... Those phones be building—with fast Top 5 action at KFMF, KMJX, WYNF, KAZY, KJOT and WRXK. The new believers are lined up, too—with adds at WCCC, WGTR, WIOT, WLNZ, WRDU, WRQK, KEZE, KLOS, KMOD, WCMF, WKDF—and half a dozen more. WOUR's Tom Starr speaks for the early doubters, "'Over The Hills And Far Away' was where we figured Gary was headed until this new one ignited the phones. That long version is driving 'em wild at night".... Note the nifty 38-33* HH move, thanks in part to this week's 12 play-ups.

Rick Medlocke And Blackfoot, "Saturday Night", Atlantic.... The Big Night Out promotion combines with a beautifully timed and executed remake—and bingo! We've got out of the box adds at WRIF, WDHA, KSQY, KISS, WYNF, WDVE, KLPX, KATT, KATP—and 13 more, good for a #100 Hard Hundred debut. WEGR's Kelly Cruise says, "I'm a big Blackfoot fan from way back, so it's great to hear Rick again—and doing an Old Herman Brood tune, Yeah!!".... KGON's Inessa York agrees, "I'm enjoying the cover of this fun little tune. Some of the same appeals can be drawn with Medlocke and Gregg Allman. It's the kind of style that never seems to lose touch with its audience".... KATP's Dale Miller reports, "Blackfoot is back and as strong as ever. Instant response when we unleashed 'Saturday Night'."

Ozzy Osbourne, "Tribute", CBS....

If you aren't plugged in to Randy Rhoads' impact on Hard Rock, get your hands on the current issue of "Guitar World" magazine. As one of the relatively uninitiated, I was truly amazed at the accolades. The man's a legend, no doubt. And the street will tell you all you need to know about Ozzy's ongoing appeal. Bottom line—if your nights rock at all, "Tribute" is a sure-fire crowd pleaser on multiple levels. "Crazy Train" steps out front with 12 adds, including KNAC, KSHE, KTXQ, WNEW, KAZY, KICT, KLPX, WHJY and KMJX, with "Flying High Again" new on 5, including KLAQ, KSHE, WKQZ, WGIR, and KFMX bringing in a #58 Album Impact debut.

Stan Bush And Barrage, "Crank That Radio", Scotti Bros.... At this time, we pause to let the Beave do the talking... KDJK's Beaver Brown, that is... "With the biggies releasing their albums now, I know how tough it is to get new artists in. But Stan Bush And Barrage shouldn't be passed up!" It's true! With the tops down and the beaches open "Crank" is primed to be one of the major car songs of the summer. Charlie and Dalfonzo at WSHE are experts at summer sounds—and with WKDF, KEZE and WAQX rounding out the new action. Now on 22, new at #98.

TAKE TWO Follow up tracks we feel merit priority airplay consideration—based on charts, comment and overall progress to date.

Cutting Crew, "One For the Mockingbird", Virgin.... The track many rock programmers have been itching to add since the first "Young Virgins" sampler hit (and the lead single took off like a scalded dog) lands 23 adds (including KOME, WDIZ, WHJY, WOUR, WPLR, KDJK) and a #79 debut in the first official week on the street. And the video/sales base? Just ask KEZO's Joe Blood, "Retail on the Crew moved 17-4-3 the last 3 weeks, so to beat the CHR, in goes 'Mockingbird'." WWZU's Mark Williams has had similar results adding "Overwhelming response in both sales and phones. 'Mockingbird' is a tasty choice to follow up the #1 smash." Jump in—Carly and James this ain't.

Crowded House, "Something So Strong", Capitol.... 22 adds and 11 increases power up another great leap forward, 50-37*. Yo, make the switch to this in-concert favorite or we'll call Beltone in your behalf. The record's gold this week. WHMD's Catfish Phil Colwart feels that "It's the perfect follow-up to the top ten smash single... We're also programming 'World' as a recurrent for album support." And that's a hot tip, too. KYYS' Ellen Gerdes knows what she likes... "Strong" is just the kinda' poppy song that sounds good in the summer." New on WEBN, KOME, KSHE, KYYS, WDIZ, WIOT, WLQV, WQMF, WYNF, and 13 more, Up on 11, with megaphones right around the corner.

Robin Trower, "Caroline", Crescendo...

Another nomination for comeback of the decade, as Mr. Trower continues to wow 'em two tracks deep at retail, on the request line, and on the road. The deuce improves in all departments, with 6 adds (WKFM, WQBK, KGRQ, WZEW, KBAT, WBLM), 5 ups (WYNF, WCMF, WRQR, KRXQ) and 60 now playing dealing up a 54-49* advance.

In Pursuit, "Thin Line", MTM.... The new label tested the water with "Only For You"—and found healthy rock radio support at the likes of KZAP, WDHA, WKDF, KTYD, WRCN, WHFS and more—most of which was fueled by a very successful Power rotation campaign on 18 million penetration Hit Video USA. Now the first real single, "Thin Line" (which also got some album play) is set for a major CHR blitz, and equally aggressive video campaign—and a tour with Pseudo Echo. Keep an eye on Boston, LA and Minneapolis.

TNT, "10,000 Lovers", Mercury.... KBPI now lists top 5 phones, along with KRQU—and that's after a little over three weeks' play. And we wouldn't be surprised if KWHL Assistant PD Cynde Maxwell's calls make it a Top Fiver at her own station. She raves, "Rarely do I hear a song that I fall in love with at first listen. '10,000 Lovers' grabbed me within three seconds and now I'm hooked for life, goosebumps and all. It's the perfect blend of no-nonsense rock and roll".... Hey, who'd wanna try and follow that quote? Just the numbers, pleez: New on 10 (KOME, WRCN, WTPA, WAQX, WDHA). Now on 35, upped at KISS and KMBY. This Report's third longest gainer after Smyth and Winwood, 94-78*.

Red 7, "When the Sun Goes Down", MCA.... The slow but steady build on this upper demo special suggests the early growth patterns of Bruce Hornsby or Crowded House, eh Comrades? Seven adds couple with 5 increases to take the tune 64-56*, with heavy rotation on KFOG, WKLS, WLUP, WQFM, and a grand total of 64 now playing. WWCT's pick Phil Manicki knows the score: "With those Sting-like vocals, a killer hook and tasty sax, 'When the Sun' is a no lose situation."

Patty Smyth, "Downtown Train", Columbia.... Patty's personal touch on this Waits classic gets the nod from 21 this week, as 59 total (including WAAF, WSHE, WHJY, WPYX, and WNEW) compound their initial airplay investment on the first track. Waits fan Stacy Yelton at WKQQ was "Skeptical at first about 'Downtown Train'.. but after one listen I'm a believer that it's really gonna fly." This week's strongest gainer, with a 25 position 76-51* Hard Hundred underline.

Peter Wolf, "Can't Get Started", EMI.... Cut 1, Side 1 had no problem coming on where smash #1 left off. 16 adds and 16 increases move it 28-20*, and with 81 stations still to commit, there's obviously tons of room to move in the coming weeks. Currently cranking away on 122, with 34 heavy or better.

REO Speedwagon, "Variety Tonight", Epic.... KBPI leads the pack this week as 9 more climb aboard, bring the total to 101 on "Variety", 10 of which increase (KAZY, KQRS, KRXQ, WRUF), with 25 heavy or better. Can requests be far behind? Top 5 phones already at WKDF and WFYV as the track moves to #27.

Gregg Allman, "Anything Goes", Epic.... With Hit Radio all over the track you took to #1 weeks ago, "Anything" gets the green light with 12 more adds (including WMMR, KISW, KSHE and WKDF), as our third strongest 19 increases motivate a muscular 20-14* showing. A power play item on 4, heavy on 35, with 129 adds to date.

Concrete Blonde, "Dance Along the Edge", IRS.... A programmer pick since the January album release, "Dance" picks up a well deserved #96 debut this week. New on KROQ, KICT, KRNA, WKFM, WRUF, WWTR, WKXL and KWIC—for 31 stations total.

The Starmaker chart is formulated using a specially selected sample base of stations that have demonstrated above average early support of debut and/or unbroken artists. To further illuminate the progress of developing acts, we also delete any tracks with significant downward movement. It was either that or put a little tombstone next to them..

HARD ACTS TO FOLLOW....

The Long Ryders, "Gunslinger Man", Island.... When critical ears like CFNY's Don Berns are perked you'd best take notice, especially with an act positioned to perform all the way across the New/Mainstream/Hard Rock spectrum. Added at 9 (KLAQ, KROQ, WNOR, KRXQ, KWIC), Increased at 3, now on 36. A solid contender in the Next-Baby-Band-To-Break-Big Sweepstakes.

Hoodoo Gurus, "Good Times", Elektra/BigTime.... When majors like WCCC and KOME join a party that's already in progress at the likes of WNEW, WKLS, WKDF, WLAV, WOUR, WBCN, WHJY, WDHA, KLOL, KBCO, CFNY, KJET and WLIR, it's time to send your own bad self an invitation. Take a hint from the 60+ already on board (11 of which have it heavy) and take this happy track for a spin. Adds at 5, and ups at 4 drive "Good Times" to a 66-60* Hard Hundred Jump, bringing the album aboard at #38—the 4th highest Lp debut this week.

The Cure, "Why Can't I Be You", Elektra.... We'll be the first to admit that Robert Smith's voice is an adventure in "Acquired Taste" land, but repeated spins will reveal a hook that could raise the Titanic. But your dashboard has already convinced you on that count courtesy of our latest sampler, right? CFNY's Don Berns agrees.. "If you're not used to the vocals, you may be taken back at first, but believe me, this song is totally infectious after you hear it on the air." Added this week at 4, with 26 total including WZEW, WLIR, KBCO, WMGM, and KROQ.

John Farnham, "You're the Voice", RCA.... Looking to get the jump on a smooth and unusual crossover deluxe? Pay attention, because that LRB pedigree will unquestionably move 'em off the mark at CHR. "You're The Voice" could have been a huge comeback for the group that put Australia on American airwaves in the first place, and could well put him back in the Crocodile Dundee league. New on 5, including WYNF, now on 17.

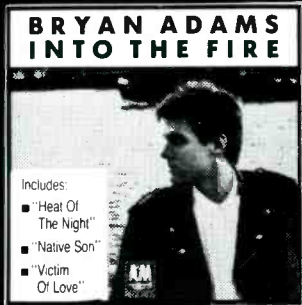

Jon Astley, "Jane's Getting Serious", Atlantic.... Looking for phone reaction a la "Walk on the Wild Side" '87 style? "Jane" is undoubtedly one of the most interesting, maddening, quirky, and catchy tunes out there right now. We dare you not to be singing "Jane's Getting Serious" in your best basso profundo after about half a listen. 25 already on, 7 adds this week including KFOG, WMGM, and WMAD.

Gowan, "Moonlight Desires", Columbia.... And speaking of singalong specials, "Moonlight Desires" has a subliminal hook that'll (as the song goes) haunt you 'til you add it. Besides the obvious Canadian contingency, WBCN, WHCN, WEGR, WDHA, and 35 others are already gowan gators with early ups at WDHA, KBCO, KMMX, and KGRQ. Note the 90-85* build.

Mondo Rock, "Primitive Love Rites", Columbia.... After several weeks of speculation, WKLS' Beth Kepple puts the rumors to rest, admitting "'Primitive Love Rites' was written for me.. I'll send the pictures! We'll draw on the cave wall, babe." Whoa momma.. Now that THAT controversy is cleared up, here's the vital stats: Added at 8, with 82 total, increased at 7 including WCCC, KRQR, WNOR, WRCN and WZEW—all coming altogether for a 55-46* HH move.

THRASHING DOVES, "BEDROCK VICE"
11* HARD ALTERNATIVE/5* ALTERNATIVE TRACKS

Genesis, "In Too Deep", Atlantic

On: 28 (P=2/H=9) Adds: 17 HH R-73
(WCMF, WRCN, KDJK, KGGO, WDVE, WMMR, WONE,
WQBK, WRKI, CFOX)

UPS: 3 (WPDH, WWDC, WWZU) SAME: 8 DOWN: 0
Remember when Top 40 played little records from uncool bands on the AM dial, Phil Collins had hair, and 12 inches happened only in your dreams? (editors note: can you tell Dahlman wrote this?) Well, now that they live to follow in (and on) those tracks you broke weeks (and months) ago, don't make the mistake of thinking those button pushers will remember where they heard it first.

**Colin James Hay, "Can I Hold You",
Columbia**

On: 17 Adds: 6

(KRQR, KGRQ, WRKI, KBCO, WTPA, WWTR)

Ups: 3 (WDHA, WHFS, WMRY) SAME: 8 DOWN: 2

The other "Hold" from "Looking for Jack" is now the emphasis track, and the response to a calmer Colin indicates that mellow is the way to go. A track that most missed with the album release, "Can" could well be the one to make this man the solo success he's worked so hard for—especially with the coming cross format exposure.

**Lou Gramm,
"Ready or Not", Atlantic**

On: 132 (P=10/H=74) Adds: 4

(WHMD, WNGZ, WPDH, KGRQ) HH 9-7

Up: 13 (KGB, WIZN, KDJK, KICT, KMJX, WKLS,
WLNZ, WNOR, WRDU, WRXL, WRIF, WZXL) Same:
113 Down: 13

With "Midnight Blue" tremendous hang time keeping it hot and heavy at CHR, it's only natural to expect "Ready" to follow suit. If you're not all over this rock radio natural (as are 84 heavy plus reporters), send that CD back to Danny and Flash, goddammit.

**Steve Winwood, "Wake Me Up on Judgment
Day", Island/WB**

On: 32 (H=6/M=21) Adds: 6 (KATP, WDHA, WGLU,
WPDH, WXXP, KXRX) Ups: 3 (KATT, WWZU, KWIC)
Same: 23 Down: 0

How can anyone argue with Steve's success? Or his tailor? Rock's heir apparent to Sean Connery straps in for what will obviously be another huge single—and AOR definitely plans to be there for the ride.

**The Other Ones, "We Are What We Are",
Virgin**

On: 110 (H=14) Adds: 11 (KOMP, WAOR, WBRU,
WKDF, WWCT, KLPX, KMBY, KZRR, WAAF, WKFM,
WIBA) Ups: 9 (KTAO, WHMD, CFOX, KFMU, WIYY,
WKXL, WNOR, WWTR) Same: 100 Down: 3

The haunting melody of "We Are What We Are" is already cross format certified at over 100 AOR outlets—quite an accomplishment considering how judgmental most MD's are with softer crossovers. You need 'em—that one look at the charts will re-confirm The Other Ones position as the hottest dual dial item on the street.

Tesla, "Little Suzi", Geffen

On: 104 (P=1/H=14) Adds: 7 (KOME, KFMF, WRUF,
WTPA, WEGR, WOOJ, WRDU) HH 34-30
UPS: 16 (WCMF, WBCN, WKLC, WNOR, WQFM,
WRXK, KNAC)

SAME: 79 DOWN: 0

Tesla has already proven themselves with the overall dynamite success of "Modern Day Cowboy". Now "Suzi" moves into the CHR arena and all indicators already point to success of the highest Bon Jovi/Cinderella order—with not a trace of the dread overexposure than any multi media powerhouse has to contend with. Hell, the kid on the street still thinks Tesla is some kind of spicy tomato sauce. But us industry types in the know? Who could ignore that tie for #7 Most Requested with 17 top 5 phones? Look for "Suzi" to break bigger and faster than the first one, and move early with confidence.

**Journey, "Why Can't This Night Go On
Forever", Columbia**

On: 10 (H=1/M=9) Adds: 5 (KGGO, KGRQ, KMMX,
WKLC, WWCT)

Ups: 0 Same: 4 Down: 1

When you're in need of a bona fide first love teen hanky honker, no one does it better than Steve Perry and the boys. The latest in an apparently limitless list of hits from an album that seems to grow new CHR smashes while sitting on the shelf.

Bon Jovi, "Wanted Dead or Alive", Polygram

On: 67 (P=7/H=25) Adds: 8 (KOMP, WRCN, KQDS,
KSQY, KZEW, WKLC, WSHE, WXP) HH 40-36

Ups: 5 (WKQZ, KGGO, WIBA, WIOT, WZZQ) Same: 54
Down: 1

With bod shots of Jon gracing the inside of every teenage girl's locker, how can you pass up a sure fire phone burner like this one? With top 5 phones already at 10 reporters, go for the acoustic mix or extended live play for AOR uniqueness. James Dean coulda done the video.

Night Ranger, "Secret of My Success", MCA

On: 129 (P=14/H=48) Adds: 2 (KSHE, KSJO)
HH 10-10

Ups: 7 (KATT, KISS, KYYS, WZZO, WKLC, KZAP,
WRXL)

Same: 120 Down: 7

Two weeks as the #1 movie translates into mega recognition for the title track. Between Michael J. Fox, the video, and the band's ability to phone in those formula hooks, this one's still got plenty of miles to go in middle America.

Rock and Hyde, "Dirty Water", Capitol

On: 156 (P=1/H=36) Adds: 5 (KQRS, KROQ, WPLR,
WQMF, KGRQ)

Ups: 18 (KFMX, KFMY, KRZQ, KSQY, KYYS, WNGZ,
WQBK, WRCN)

Same: 122 Down: 3

Now that the Big Push is on, we suggest you maximize your airplay investment with the strongest possible rotation—with KFOG, KYYS, WDHA, WIOQ, WOUR and KSQY among 36 already heavy.

T-K EXPANDS

Just when you thought Florida had gone away...

WSHE/Miami owner T-K Communications has paid a record \$13.5 million for brand new AOR WHTQ and sister WMMA-AM, busting the old market-topper by more than \$4 million.

I asked John Tenaglia, the "T" in T-K, about his affinity for sunshine. (The company also owns in Dallas and San Antonio).

"What can I tell you?" asks Mr. T. from the portable phone in Miami. "If you're gonna build 'em for equity appreciation, that's where you put 'em, right?"

The purchase ends a four-year hunt for Orlando property by T-K.

WHTQ has been an AOR for less than two months. Owner Bluegrass called on PD Dave Gariano and consultant George Harris to take a run at market-dominating WDIZ. I'm not a betting man, but I'd wager the ranch and the dog that the intelligence exchange between Miami and Orlando AORs will take on a whole new complexion. This one's thicker than the Russian in "Rocky IV". Says WDIZ PD Rad Messick in regard to the \$13.5 million, "I hope for their sake it's not like JEOPARDY, where you have to give the money back at the end of the show if you lose."

Assuming Bluegrass continues to fund the infant AOR with the TV and commercial-free fun and games it has in the past three weeks, T-K stands to inherit a station in good shape.

"I'm gonna keep it exactly the way it is. I've never changed a format yet. I've inherited every format I currently have. I've modified them. I've improved them, but I've yet to change one," John remembers.

I'll ask the obvious next one: You're in an acquisition mode, what's next?

"You never know," smiles the man on the portable phone.

THRU THE DARK, PASTLY

Right after we put the rag to bed last week, the FCC went to town.

The result has been confusion, victory proclamations from both sides, great TV talk shows and millions of dollars of free publicity for Howard Stern.

When the smoke cleared, we found:

1) The Commission acted because it had 20,000 indecency complaints in 1986, twice the number in 1985.

2) The FCC warned two non-commercial California stations, and WYSP/Phila., a carrier of Howard's morning show.

3) In an unprecedented move, the FCC warned Howard by name.

4) Regarding indecency, the FCC has said it's going to do something, but it hasn't said what.

5) Howard's show hasn't changed a whole lot.

TV has been a scream. Larry King's CNN show had shock inventor Don Imus, a civil libertarian lawyer, and an attorney from the conservative Heritage Foundation, himself a former FCC counsel. When the talk got too serious, Imus accused the conservative lawyer of "spending weekends dressing up in a mouse costume, going to the mountains and tying someone up."

The FCC has sent low level counsels to the talk shows to be lightning rods. Po' ill heplless chilluns in the audience aside, NOBODY in government wants to be tarred as repealing the First Amendment. To its added disadvantage in the public opinion war, one of

the Commission spokespeople sent to talk shows has a whine that would make Jimmy Swaggart come down on Howard's side. But, in the end, it is THEIR ball.

Meanwhile, Howard is trying to put together a rally Friday (4/24). And as far as radio with pictures goes, Fox TV is planning five Howard Stern shows on a "experimental basis."

LEFT COAST

Adding fuel to rumors about a change in sound at KNX-FM/LA, Andy Beaubien has been named PD at the CBS O&O.

The station had been drifting Adult AOR once again, though everyone seems to agree it was more drifting than Adult AOR.

Though the Winter Book was less than kind (see ARBS), both Andy and VP/GM Robert Nelson say there will be no change in direction.

Beaubien's programming experience is AOR (WCOZ/Boston and KSRR/Houston) and CHR (KKHT/Houston). He starts the 27th.

KBC members stop by WKFM/Syracuse to talk and sell Amyway products. L to r: PD Stereo Steve Becker, KBC's Tim Gorman, afternooner/asst. PD Brian Illes, WKFM's Ashely and Nikki, and Jack the Bassman.

LIVING ON TULSA TIME

Hot on the heels of Charlie West splitting for the KLOS/LA PD gig, KMOD GM Jim Smith has named MD Jim Jones the new PD of the Tulsa AOR.

Jim Smith. Jim Jones. It's gotta be hard to check into motels with names like that.

Smith looks forward to Jones "maintaining KMOD's aggressive stature in the Tulsa market."

"I'm shocked outa my mind, I love it, I'm thrilled," says the unrestrainable Jones. "But I'm really sad about Charlie leaving. If he were to say, 'Wait a minute, I'm not leaving,' I would have no qualms about returning to MD. That's the way I feel about the guy."

Jones has six years at KMOD. He has been MD for four. He will remain in close contact with KMOD's two consultants, Oral Roberts and Charlie, and foresees no changes.

The station is first looking within for a new MD. Target date: First week in May.

GRAPEVINE

There is a BMW in DC101's Sandy Edwards future. A W-BMW. She'll do midday when they go AOR. NOISE has also heard that the Washington Infinity station may be taking a run at DC101's Adam Smasher.

This has been rumor control. Out.

MANICKI NEW WWCT PD

We've all jumped in the car and said "Let's go to Vegas!" but Jeff Murphy gets to. He's the new PD at KKLZ.

"I'm the new PD at WWCT and didn't even have to push Jeff in front of a bus!" proclaims MD Phil Manicki.

Murphy had been at WWCT/Peoria since May 1983, Manicki since May '84.

The Manicki appointment is effective the 30th.

ANYONE IN ORLANDO CAN TELL YOU WHAT THIS MEANS

George Harris tells us that he's about to turn another one loose. We'll try to find out which station it is before you wake up some morning and hear the Beatles sides rolling on what used to be the Tammy and Jim station in your town.

God, this is a great country. Loaded with opportunity. The station in question needs people, people who need people, are the luckiest people in the world — see this week's ADVENTURE IN MOVING below.

Is this a braintrust or what? L to r: Atlantic's Danny McCloskey, Jerry Kraus from WOUR, Ratt's Warren, WOUR's Dan Mussman, and Don Maggi from Atlantic.

ADVENTURE IN MOVING

Harris Communications needs T&Rs plus photos for new AOR station to be announced. The entire joint needs a staff—PD, MD, and DJs. Get that package off to: Harris Communications, Mystery Station, 1021 Lancaster Ave., Bryn Mawr, PA 19010.

Gary James ex-WXLP/Quad Cities MD, is available. Weekends at 319-326-2545, weekdays at 312-385-3871. He would like to be an on-air or off-air MD or find something in records.

Donna Foxx of WZEW/Mobile is getting married. Since you're not supposed to congratulate women who get married, we'll just say "break a leg." She plans to stay away from radio until fall, then get back in. Catt hasn't given us the word on how the music will be handled yet.

WKXL needs lots of part-time help, and one full-time air gig, too: T&R to: Renee Blake, WKXL, PO Box 875, Concord NH 03301-0875.

Deb Turner of Starview 92, also doing weekends at WIYY/Balt.

KKLZ/Las Vegas signs Nightline star Jeff Pollack.

Dan Hayden leaves WHCN/Hartford to form Pathfinder Communications, a consultancy. WHCN is the first client.

John Piccillo splits WBYP/Bufalo. MD Mike Bensson is acting PD.

WBRU PD Rick Barr to MTV for the music scheduling gig. Kurt Hirsch becomes the PD in Providence.

KRNA/Iowa City MD and wrestling champ Steve Kosbau is named Asst. PD.

The John McGhan Interview

John McGhan—PD at WPHD, Buffalo; WGRQ, Buffalo; WDVE, Pittsburgh; first Director of Programming at NBC/The Source; two years at ROLLING STONE as Director of the RS Radio Network; co-produced NBC-TV's "Friday Night Videos"; produced WNEW-FM's morning show: producer, WNEW-TV; VP/Programming for Ted Turner's Cable Music Channel. Currently, JM is fulltime student at the Lee Strasberg Theater Institute in LA and produces radio remotes with Z Zimmerman, and Bruce and Maddy Goldberg under the banner of California Radio ("Live In LA").

Steve: You are known in the business as an idea guy. Where do ideas come from?

John: Ideas come from the obvious. They come from a need. Wherever there is a need, you find fodder for an idea. As far as remote radio goes, the need is to utilize the satellite technology more efficiently. Just about every station now has a dish, but there is no programming that demands satellite distribution. That creates a need.

The only thing that demands satellite distribution is a crisis. We don't have any at the present time. And I'd prefer not to create one.

Steve: At WEBN, we had Brute Force Cybernetics, the "company that creates a need, and then fills it." Which makes me ask what you've got on the burner...

HARD REPORT

...The Unconventional Convention

John: Next year the Grammys move to New York, so Live From LA will become Live From New York. We are expanding to other formats, including CHR and Country because the need is there.

Steve: Ever want to go back to radio?

John: Somebody asked me that the other day. And I was in a room full of radio people, so I said, "I am in radio!" Once you're in radio, you're in radio for good.

The only thing I miss is learning. There are probably a lot of PD's reaching those ripe, old upper thirties, and saying "What the hell am I doing with my life?" Well, the only thing I miss is learning. When I went back to school to learn acting, I realized how much, how fulfilling learning is.

I don't care what the topic is, continue your education -- it's THE most important thing. It's not important to be successful financially, it is important to never stop learning. That's where ideas come from. Expand your horizons. Take care of Number One. And taking care of Number One means take caring of your brain.

Steve: My brain? Why, it's my second-favorite organ...

John: John Parikhhal told us years ago that if you don't read fiction, you're going to go numb upstairs. People, especially radio people, are prone to the non-fiction of periodicals -- if any reading.

Steve: Parikhhal emphasized fiction to stimulate the creative hemisphere of the brain.

John: A great question for you guys to do next week would be: What's the last book you read?

Watch 'em go into cardiac arrest over that one...

[Rest easy. Even we realize it's hard to sell subscriptions to people you nuke.--S]

Steve: Just tore through THE HUNT FOR RED OCTOBER. Hard, too. How about you?

John: John Irving's CIDERHOUSE RULES. It's complicated; I'm still in it, and I think it's winning.

Steve: Briefly describe your PD experiences in Buffalo and Pittsburgh. And if you were a PD today, what would you do with the radio station?

John: At WGRQ, we put the Superstars format on the air. 1975. It was Lee's fifth radio station. It was the fun days. To be with someone who was just starting a business like B-A was wonderful. And exciting: We went from a 1.6-5.4...and we were disappointed! All because we didn't know any better! Lee knew, but I didn't.

I think I was a good PD because I never forgot what it was like to be a fan. If you listen to station as if you were dying to touch or hear your favorite star, you'll have a good sounding radio station. Operate the way a listener--your core--operates.

If I was a PD today, I would--as I always had--continue to work with the on-air talent. The talent is the access your audience has to the radio station.

Do it all. I did everything at radio stations. My first job was as a receptionist.

Steve: What's a good way to work with the airstaff? What's your mindset? I always thought it was empathy...

John: Empathy. And make your jocks THINK!

The first thing to do is read HOW TO WIN FRIENDS AND INFLUENCE PEOPLE by Dale Carnegie. It's so simple, yet so ignored. So many PDs have great ideas and fabulous potential, but don't reach their potential because they don't know how to work with people. They don't even know how to work with the receptionist--I know; I was one--and they don't even get their calls properly!

Then you get the DJs to think like a fan, instead of thinking the fans are beneath them. Instead of your DJs saying "Those scum waffles are into generic garbage; they wouldn't know good music if it whizzed on their leg." Get them to ask themselves, "Why would this listener call? Why would they want to listen to the station?"

Steve: That's why you like Skid Roadie so much, isn't it?

John: Yeah! Skid's a fan. He loves talking to people. He asks artists questions fans would. He talks to listeners as if he is one of them.

Steve: As you look back at starting The Source, what comes to mind? You're a good salesman--hell, you sold me on it, we (WYSP) were the first signing in '79.

John: When I look back at The Source, I think "You never know what you have until you don't have it any more."

Steve: Whoa!

John: Hey, The Source was like flying a 747. It was the thrill of a lifetime. To work at 30 Rockefeller Plaza, look up at a building that is 76 stories tall and know that you were working at the hottest experiment in that building was like working on SATURDAY NIGHT LIVE, when the show crushed TV.

Steve: Looking back at the short run of Turner Cable Music, what's the first thing that pops into your mind?

John: Hmmm.

continued

Steve: Acting school! Student loans!

John: If I had to work with music videos for the rest of my life, I would be dead. They are an ingredient and participant in the music business, but the biz is firmly based on radio! Videos are such a small part of the music business. I really think that if the Turner channel had succeeded, I would have been miserable.

Steve: Who is the most powerful person in radio today?

John: Bob Wilson of R&R. [Hey, you've seen it: We'll print anything!--NOISE.] Funny, too, because he's a multi-millionaire and he doesn't have to work. He's doing it because it's where his NEED is.

Steve: I say the most important person in radio is anyone holding a diary. You get so caught up in the corporate boogie, dancing with the home office, the group director, and all that other stuff, you really forget that the object is to get 'em to listen to it. And since nearly everyone—even in small and medium markets—now has to deal with a corporation, you lose sight of 1) the fact that you got into the business to have fun, and 2) why people turn a radio on. Those are two of the bigger problems in radio.

John: Absolutely. You know, as a DJ or a PD, I was always looking for someone coming up behind me. I don't see any giant finds, other than Greg Solk.

Imagination. That's what we're talking about here. It makes radio work. Radio is so much more powerful than TV. People ought to realize that. TV appears to have a bigger audience, but radio is more powerful because it uses the power of imagination.

Steve: Any advice to someone dealing with the corporate situation? It's intense; you compete with other PDs in the group, your sales manager, and others.

John: I think I got this from Strasberg—I wish I had gone to Strasberg years ago. The number one thing to do is RELAX.

[Long pause].

Only good can come from relaxation. Relaxation is the foundation for success in all areas. Tension inhibits good business.

The relaxation I'm discussing is a process. You can't just say "I'm going to relax." You have to stop. You have to sit with the lights off and learn to relax.

When the mind is vacant, positive things rush in. And if you, yeah, you who are reading this, don't believe me, try it. Off the lights for an hour. Kill everything: The radio, the intercom, then loosen your tie, and just sit with your head and arms dropped.

Then go to a meeting and WATCH WHAT HAPPENS.

Steve: Great answer...stop the madness. You get a lot pulling on you in the job. Including office politics. How did you deal with that?

John: Trial by fire. I did very badly with office politics. But I learned. I learned that was best for me was to get out of them. By relaxing, I realized that I was who I was. And only by relaxing did I become much, much more effective. That doesn't mean you don't work hard. You must work really hard.

Steve: I try to shun office politics, but they are reality. They exist. Stop and think about the time and energy that gets wasted in office politics. Think about all the positive things that could be done instead...

John: You know who the master is? Lee Abrams. He is a genius. He knows how to do anything. He has the knowledge of someone much older.

Steve: Any philosophy on life? Like "Money doesn't buy happiness?"

John: Money doesn't buy happiness. You and I were a part of that "let's all be millionaires by the time we're 40" and now, as we close in on 40, the money just doesn't get us off like we thought it would.

It is so much nicer to relax. It's none of that guru shit, it's just being serene with yourself.

Steve: Saw you on LA LAW the other night. Doing any more acting?

John: Naw, it's too slow out here.

Steve: If you could have anything you wanted tomorrow, what would it be?

John: The respect of my acting peers. That, to me, is success. At least, this week...

I remember the first day I worked and WCMF/Rochester. I wrote myself a note and put it in the attic. One of those "I'll come back one of these years and this'll be important" notes.

The note said "I am going to be a program director in New York City."

Took me a while, but I got there.

NEW/ALTERNATIVE

TOP 50 AIRPLAY

THE REPLACEMENTS "PLEASED TO MEET ME" (SIRE)

Rest easily and know that their party band image is cast in stone, as the Replacements forge ahead with an assemblage of confident new songs that carry the same spark as they did in the "Hootenany" era. Real people playing real rock music—all fun and no formula has catapulted them into the rock radio arena and here's the Lp we've "hoped" for. They've quelled the thrash content and Paul Westerberg's insightful lyrics add a new dimension to their rising-star status. Of course there's that classic Mats tune too... "Alex Chilton" is a brilliant tribute to the guy whether you know him or not, and grabs top honors as the Best song on the record period. "The Ledge" is a terrific middle ground piece for the first 12", but save some of the seriousness and land the needle on "I Don't Know", "Red Red Wine" or "I.O.U.". There's easily enough solid material on this one to launch it outta bounds...

FATAL FLOWERS "YOUNGER DAYS" (ATLANTIC)

There's raw power brewing in Amsterdam—a band with a rock and roll vision that would put many American bands to bed. With grinding composure, thundering licks and kick-out bass lines they arrive on our shores with a debut you'd be crazy to file away. Produced by Vic Maile, (the man who graced the Godfathers latest) rugged riffs, tight rhythms and a slight touch of reckless bravado is all you need for now. Seal up appeal with "Good Enough", "Deep Inside", or "Gimme Some Truth"... and let's hear it for the harmonica.

WIRE "THE IDEAL COPY" (ENIGMA)

It might of been fate or just plain sense that reunited this entourage of studlophilles. Whatever the case, the public can only benefit from this group who've influenced more "baby bands" than you'd ever imagine. They incorporated musical bits from their combined solo renderings in the past couple of years (Colin Newman, Dome, He Said) and brought to life a guitar-based fusion of danceable works, not leaving their keen grasp of innovation in the dust. Still very much alive, this company of wonder makes a strong radio showing with "The Point Of Collapse" and the already visible "Ahead" 12" with 12 early adds.

NEATS "CRASH AT CRUSH" (COYOTE/TWIN TONE)

If you like to rock the house and your radar tunes in on full-bodied, pure bred American garage stock, then the Neats have dished out the perfect fodder for you. Hell bent bar chords, and a tough edge meet with traditional rootsrock on their first

release in three years. With not a measure to spare, Eric Martin's tough skinned vocals and Phil Caruso's bluesy guitar works bleed through soothing noise on "Monkey's Head" and "Wind Up The Light"—and now that you've waited for the album, it's time to go back and discover the magic of "Angel".

YOUNG FRESH FELLOWS "THE MEN WHO LOVED MUSIC" (FRONTIER) With songstyle that sets them apart from "same old" lyrical standards, YFF have established themselves as a source for bright renditions of life as they see it. Their mixology of wit and whim has far exceeded the Seattle city limits, and with 2 previous Lps to their credit, they've racked up enough believers to set the ball rolling for a third. New unforgettables include the funkified spoof of "Amy Grant", the reminiscent word play in "My Friend Ringo" and the acid drenched urban insanity of "Get Outta My Cave". With an overdose of legit bands floating around, it's nice to realize once with admirable character. So filter in some pure comedy and round out your list. *And if you book early, maybe you can reserve a spot for their gig at Paul Westerberg's fall wedding. No joke.

THROWING MUSES "BIG SEX" (4AD/THIRSTY EAR) If you've been admiring this bunch from afar after the debut last year, now's the time to collect the reins and reach out for the track that'll meet you half way, "Cry Baby Cry". It provides a window to understanding their unphased musical battalion of styles—beatnik hip hop, rock outrage and folk influence all rolled into one Ep with style and grace and a voice that merits a patent!

SINGLE FILE

FAITH NO MORE "WE CARE A LOT" (SLASH) The demand for exciting new anthems always runs deep, so satisfy the searchers and dent the tins with one that'll provoke political consciousness while instilling a raucous groove on the radio.

SPEAR OF DESTINY "STRANGERS IN OUR TOWN" (VIRGIN) Been haunted lately? Ex-Theatre of Hate frontman has coralled a band brings his inspirational lyrics to light on this flaming "Outland" intro.

COLOURFIELD "RUNNING AWAY" (CHRYSALIS) Not only a refocused image for the band (less paisley, more jive) but this rendition of Sly's original will send off the bodies.

HAPPY MONDAYS "TART TART" (FACTORY) John Cale's steadfast production skills make this a brief but brilliant encounter that joins a grooving guitar with a "Who Is This Guy?" vocalist. The contradiction is a sound highlight and I want more.... Check this one out through Factory NY, 325 Spring St/233, NYC 10013.

CHARTSTARS

SMITHS "LOUDER THAN BOMBS" (SIRE)

With Top 3 status a reality, this band is headed for major across the board action and "Shoplifters" looks to be the breakthrough track. The Lp has a solidified alternative base and steady play at the likes of WBCN, WZEW, WHFS, WXXP, KFMY, KROQ, KABL, WLIR, KVRE, KEYX, CFNY, WXRT, WEQX, WFNX, KBLE and many more...

THE CURE "WHY CAN'T I BE YOU" (ELEK)

#1 Most Added Single and no surprise in that category, with an all-out assault debut at #2 on the tracks chart. Already at 23 reporting stations, Jonathan Rosen at KEYX says, "They're getting tons of calls after just two days of play!" Just a hint of future phone tonnage.

JON ASTLEY "EVERYONE LOVES THE PILOT" (ATLANTIC) Everyone loves Jon's debut and the 31-19 move clearly reflects major acceptance. It's pure class, high profile music with a cool modern edge. Early play totals? 31 to start including KBCO, KSTM, KZEL, WMAD, WWVU, KFOG, KEYX, WHTG, WEQX, WTOS, WHFS and KTYD.

SUZANNE VEGA "LUKA" (A&M) Her Lp "Solitude Standing" is just 'round the corner—and "Luka" is about to break her wide open in this format. Vega sheds the musical light on a compelling issue that's bound to move the continent with exposure. Record Of The Week status and 36 first week adds with a 35* debut.

LONG RYDERS "TWO FISTED TALES" (ISL) Who says radio balks at rock with a twang? "Gunslinger Man" gathers new believers at 11 more including WRAS, KJET, KLAQ, KOAS, KROQ, KZAP, CFNY, KWIC and WKXL for 40 to date and a bullet at #15 Airplay.

R.E.M. "AGES OF YOU" (IRS/A&M) What was once a band unique to the alternative genre, R.E.M. unleashes the first of the forthcoming collection from "Dead Letter Office" (on your desk this week). After a clean sweep in '86, don't let the buzz pass you by. 29 New stations joined "You" for a 73 station base. And the Stipe/Buck combo sounds strong in this Office.

THRASHING DOVES "BEAUTIFUL IMBALANCE" (A&M) The slow build continues on what we consider to be one of the most creatively loaded songs—outstanding among the usual.

Major gains this week include adds at WBCN, KZEW and KWIC with notable play at WLAV, KMOD, KBCO, KZEL, WLIR, WTOS, KEYX and many more of the core progressive outlets. They don't break records for nothin'—as the Lp steps up to 11* this week.

NEW THIS WEEK

Waysted, "How The West Was Won", Capitol... It's good to see the folks at Capitol giving Waysted a second shove. "Save Your Prayers" is truly a solid album and certainly deserved much more attention that it received when first released earlier this year. All those years in U.F.O. seasoned band namesake/bassist Pete Way in the fine art of melodic hard rock as showcased within these grooves. This single is not the album's heaviest choice (for that, listen to "Walls Fall Down" or the brilliant "Heroes Die Young") yet "How The West Was Won" is accessible enough to make anybody's foot tap without restraining that all important bite. Paul Chapman's thunderchords might take a back seat to the ivory tickling most of the time, but when it's needed, and least expected, he lays down some hot guitarwork. A good crossover choice as well.

Ace Frehley, "Frehley's Comet", Megaforce /Atlantic... A lot of Kiss fans have been waiting for the return of Ace Frehley since he left the band five years ago. This is his first solo outing since 1978 and we are happy to report that this album is a perfect follow-up. The Russ Ballard penned "Into The Night" is the logical choice for the first single--A mega-accessible AOR staple ready to break down the walls into crossover. But listen to "Rock Soldiers", the drum-loaded "Breakout", "Love Me Right" and the melodic "Calling To You" for a taste of the Ace from years gone by. That voice, those guitar leads, all a refection of Kiss' early years. Welcome back Ace.

Megadeth, "Wake Up Dead", Capitol... Megadeth's "Peace Sells... But Who's Buying?" Lp may have been released in September, but take a look at our metal charts. Strong sales, strong phones and strong airplay after six months. With 300,000 copies already bought and blasting in the homes of metalheads across the country, their forthcoming tour will surely bring this baby home gold. On this remixed version of "Wake Up Dead", band leader Dave Mustain floods the track with machinegun guitarwork and full throated vocals which along with David Ellefson's pounding lead basslines give the same brain damaging effect as a wicked hangover.

EARTHSHAKERS

TNT, "Tell No Tales" Mercury...

Hot off the heels of their "10,000 Lovers" single, TNT's "Tell No Tales" enters the airplay chart at 6 - the highest debut of the week. A listen to the whole Lp proves TNT isn't just made up of melodic hard rock - they keep it classy even when exposing their metallic roots. Rian Wathen at WUEV agrees, "TNT will appeal to the hard rockers without alienating the non-metallers. They don't allow the guitars to drown out the chorus. TNT is exploding (sorry) at KVEZ, WDHA, WUCF, WXRC, WUEV, WSOU, KISS, KFMG, KNAC, and WCWP.

Stryper, "To Hell With The Devil",

Enigma... They say this band has friends in high places, but it has been a slow, steady climb up the airplay chart for Stryper. Action on formats such as Z-Rock, WSOU, WKNC and KNAC move the album up to 19 from 24. But, take a peek at the retail chart- #7 up from 11! The gold will turn to platinum before you know it.

Tesla, "Mechanical Resonance", Geffen...

Mad Max over at Z-Rock said Tesla was the surprise of the year and he sure is right. With top ten spots on each chart- #4 retail and #7 airplay- these young dudes from Sacramento are on their way to stardom. Could it be their "Little Suzi" single? Maybe, but "Mechanical Resonance" is so deep, stations like Z-Rock, WVVX, WUEV, WSOU, WNHU, WRTN, WWSP, CHEZ, WKNC, KNAC and KOZZ will stay Tesla-sized for a long time.

Pretty Maids, "Future World" 12", Epic...

The buzz couldn't be stronger. Pretty Maids move up 6 slots to 12 on airplay chart, in one short week. Even the guys at Epic are amazed! Sorry, no retail numbers yet, but the album isn't in the stores yet. The station list keeps growing... WDHA, WXRC, KISS, WUEV, WSOU, WCWP, KNAC and CHEZ are just some of them. The comments keep pouring in as well. Joe Anthony, of KISS, says: "Future World" has a real progressive intro which grows in to a real rocker. We put it in regular rotation here." Bill Fisher at WJUL adds "They come across heavy, with rough vocals however they never get too thrashy. I can't wait until the album comes out."

Ozzy Osbourne, "Tribute", CBS...

Predicting the success of this album is like diagnosing the sun as hot! A #8 debut is strong enough, but with #4 phones, listeners alone will move it up and fast. Dr. Metal, WHJY, cites "The phone response has been overwhelming, I was forced, but happy to play four tracks in the first hour of my show." Joe Anthony, of KISS reveals "We had strong phone reaction the day we got it in. We've had girls call up for it crying. It will walk out of the stores." Too early to tell that, but Z-Rock, WJUL, WFMG, WRCN, WVVX, WBAB, are playing it as well. Meanwhile, KNAC keeps adding more tracks.

MUSIC NEWS**

EUROPE played their first-ever American concert on April 15th at the Warfield Theater in San Francisco; the first gig of a one month mini-tour of only major U.S. cities only. All of the shows will be held in small concert or movie theaters. Billed as "An Evening With Europe", the band has no support act, just a 90 minute-plus set which features most of the songs from their platinum album, "The Final Countdown", as well as material from their first U.S. release, "Wings Of Tomorrow". They even throw in "Seven Doors Hotel" -- a track from their import only debut album, as well as "On Broken Wings", the B-side to the "Final Countdown" single. The last show will be in Philadelphia on May 17th, after which they will return home to Sweden. They will be back in July though for a more extensive American trek -- about three months -- likely as the support act for a major tour.

The best road story of the week award goes to D.D. VERNI and BOBBY GUSTAFSON of the band OVERKILL. According to reports, the two were doing some sightseeing in Poland during their tour over there and were caught photographing some official buildings. They were suspected of espionage, and when asked to fork over their passports, they found they had left them at their hotel, resulting in a night's stay in the local jail. Fortunately, they were released in time to perform at a major metal festival. An experience like this will make their tour supporting MEGADETH seem MEGADETH a breeze. It will start in Tampa, Florida on May 15th and will continue for about six weeks, closing in Hawaii on June 20th. Megadeth will be trying out some new material they have written for their third album during these dates. They will start recording as soon as the tour is completed.

Former THIN LIZZY/MOTORHEAD guitarist BRIAN ROBINSON has joined STATETROOPER. The band also features vocalist GARY BARDEN, formerly of the MICHAEL SCHENKER GROUP. Robbo will make his debut with the band on their forthcoming European tour promoting their self-titled debut album on FM/Revolver Records. It's only available as an import.

The long overdue DEF LEPPARD album is finally in the mixing stage and will see the light of day sometime this summer. Titled "Hysteria", the album will clock in with over sixty minutes worth of music with these following tracks: "Women", "Pour Some Sugar On Me", "Armagedon It", "Love Bites", "Animal", "Rocket", "Run Riot", "Love And Affection", "Gods Of War", "Don't Shoot Shotgun", "Hysteria", and "Excitable". Word is that the band has also recorded eight additional tracks for the sole purpose of single B-sides, and judging from the success of "Pyromania", they just might end up using all of them. Def Leppard will be touring later this year with drummer RICK ALLAN behind his kit.

ANTHRAX will be recording a cover of the BLACK SABBATH classic, "Sabbath Bloody Sabbath" to be used as the B-side for the "Indians" single. They first played the song as an encore during their European and Japanese tours, and being that it went down so well, they want to capture it on vinyl. Anthrax will start a six week American tour in Rochester, New York, on May 26th with METAL CHURCH as the support band.

Make sure you tune into the Joan Rivers show on May 14th when WENDY O. WILLIAMS will be one of the featured guests.

SAVATAGE have started working on their next album to be titled "In The Hall Of The Mountain King". It will be produced by PAUL O'NEIL (who did HEAVEN's last album) and is said to be a return to their moody, much heavier style. Watch for it later this year on Atlantic Records.

Elektra will unleash the fourth MOTLEY CRUE album, "Girls, Girls, Girls" on May 20th, however the title track will be available on a single May 13th. Other tracks include, "Wild Side", "Dancing On Glass", "Bad Boy Boogie", "Nova", "Five Years Dead", "All In The Name Of Rock", "Something For Nothing", "All I Need" and a live version of the Elvis classic "Jailhouse Rock". They will embark on a major world tour shortly after the album's release with the U.S. likely to be the first stop.

The German band WARLOCK has replaced guitarist PETE SZIGETI with TOMMY BOLIN, a 21 year old native New Yorker. (Before you Deep Purple fans ask, that is his real name.) They have started to work on the follow-up to "True As Steel" with producer JOEY BALIN, who has already co-written four songs with band vocalist DORO PESCH. According to the producer, he wants to retain the band's reputation as a heavy metal act but wants to focus in on strong songs. No release date has been set yet.

STOP THE PRESSES... On Tuesday afternoon, OZZY OSBOURNE announced on the KNAC airwaves that he is looking for a new guitarist to replace the recently departed JAKE E. LEE. The vocalist stated that Los Angeles has always been a good spot for young talent and he wants the station to help him find the right man. The guys at KNAC claim that demo tapes, bios and photos were starting to flood their offices within hours of Ozzy's announcement. But what happened you ask? According to the man himself, the split was purely amiable and he wishes Jake nothing but the best, but alas, he gave no reason why the guitarist left.

"R.E.M. Succumbs" is the name of a home video being released June 1st. It's the first release on the IRS/A&M Home Video label. As well as featuring all of the promotional clips released so far by the band, it also includes a longer version of "Radio Free Europe." Previously unreleased videos of "Life And How To Live It" and "Feeling Gravity's Pull" are also featured in the 50-minute video. A video by Athens filmmaker James Herbert, called "Left Of Reckoning," is also a part of the package. It includes videos for the entire first side of the "Reckoning" LP. The entire video is introduced by Peter Buck. Members of REM are now working on their new album in Nashville, and are expected to tour after the LP is released in early fall.

THE TRUTH's "Weapons Of Love" is being released as a cassette by IRS Records on June 15. The package will include a couple of mixes of the tune as well as live tracks.

THE CURE's next album will be a double LP including 18 tracks. The first single from "Kiss Me, Kiss Me, Kiss Me" is "Why Can't I Be You?" The b-side of the 8-minute 12-inch will be a track called "A Japanese Dream" that's not included on the album.

Look for two DOORS records in the coming months. A three-song EP will be out soon, recorded at the Hollywood Bowl. Then, a double album of greatest hits (yet another one) will be released in June marking the band's 20th anniversary.

CARLTON BARRETT of the Wallers was shot and killed outside his home in Kingston, Jamaica, Friday night. His widow, Albertine Barrett, told police she heard gunfire as she was watching television. Police say that Barrett was shot twice in the head. No motive has been established by police, and no arrests have been made. The Wallers had just returned to Jamaica after performing in Miami. The group is scheduled to tour Europe beginning in mid-May.

STAN CAMPBELL, formerly of the Specials and The Selecter, will have a solo album out next month.

JELLO BIAFRA faces a June 1 trial on charges of distributing immoral material to minors. The charges stem from the poster included in the Dead Kennedy's "Frankenchrist" album.

LITTLE FEAT are planning a reunion that will include both an album and a tour. Richard Hayward, Paul Barrere, Sam Clayton and Billy Payne have approached Robert Palmer about handling the vocals.

YES are now mixing their album, "Big Generator," in Los Angeles for a June release. The band plans a U.S. tour beginning on June 29.

DON DIXON has produced MARSHALL CRENSHAW's new album, "Mary Jane And Nine Others." The LP includes a cover version of Peter Case's "Steel Strings." Dixon and Marti Jones contributed backing vocals for the disc.

MAX HEADROOM will continue his talk shows on Cinemax this summer, even though he has a prime-time show on ABC television. The new programs will begin taping next month in New York before a live audience.

The American Academy of Pediatrics says it supports "the objectives" of the Parents Music Resource Center. "We aren't aligned from an organizational point of view and we may never be," says Dr. James Strain, executive director of the academy. Committees of the AAP have voted to support the PMRC's goals.

"WEIRD AL" YANKOVIC is planning to narrate "Peter And The Wolf" for a release on the classical CBS Masterworks label this Christmas.

JIMMY BUFFETT made an appearance before a Congressional committee to ask for increased federal spending to protect endangered plants and animals. Buffett has actively worked to protect manatees in his home state of Florida. He spoke in favor of a bill that would reauthorize the Endangered Species Act, saying that the \$50,000 a year that Florida has received in federal aids has helped make people aware of the plight of manatees, an endangered water mammal. He says the manatee population in Florida has stabilized at around 1,000, though it had been declining several years ago.

The Rolling Stones' BILL WYMAN has launched a major new effort to help the best of Britain's bands who are trying to record their music for the first time. He's bought a 48-track mobile recording studio, which was originally used by the Stones, and plans to allow bands to record their music for free. He's going to hold auditions around Britain and all the winners will be given professional advice on their music before being let loose in the studio for a full day. Later in the year, the best of the groups will get together for a special concert in London.

ANNIE LENNOX and DAVE STEWART of the Eurythmics won two of the Ivor Novello Awards given out in London by the British Academy of Songwriters, Composers and Authors. The two won for best contemporary song for "It's Alright (Baby's Coming Back)," and they also were named songwriters of the year. Other winners included the PET SHOP BOYS and QUEEN.

The Recording Industry Association of America reports that last year was the biggest year ever for the American recording industry. Cassettes were the biggest sellers, with 344.5 million units sold, generating \$2.5 billion in sales. There were 53 million CDs sold in 1986, generating \$930 million in sales. The CD figure was more than double the 1985 sales of compact discs. Sales of albums dropped 25 percent from the year before, while the sale of singles dropped 22 percent, the RIAA says.

Timothy Leary is featured in SUICIDAL TENDENCIES' video for "Possessed To Skate."

U2 have filmed a video for "I Still Haven't Found What I'm Looking For" in Las Vegas.

BON JOVI used an interesting method to come up with their current hit album. Their LP, "Slippery When Wet," has sold 9 million copies worldwide. A group

of New Jersey school students were recruited by the band's lead singer to come hear 25 songs which had been recorded by the album. He let them choose the tracks that would appear on the LP. In fact, "Living On A Prayer" wouldn't have made the album, if the students hadn't persuaded the band to keep it.

JOE WALSH and Motley Crue's **VINCE NEIL** participated in an auction last weekend to raise money for the End Hunger Network, which is based in Houston. Walsh auctioned off a guitar that he had autographed. It went for \$2,000. The highest bid at the auction was the \$4,000 for a pair of guitars from ZZ Top's **BILLY GIBBONS** and **DUSTY HILL**. An **OZZY OSBOURNE** stage outfit brought \$375, and an autographed copy of the Jim and Tammy Bakker Heritage U.S.A. photo album went for \$125.

JON BUTCHER says his new album, "Wishes," is more focused than his last one. "It sounds like it came from the same artist and that wasn't true of the last album, 'Along The Axis.' You sort of find your stride and then you get comfortable with what your strengths are." Butcher says he was able to emphasize his work as an "atmospheric guitar player" on this album. "This is the first album where I don't mind where the needle lands. Maybe if you'd shake it up a little you'd find a little Sade and Mark Knopfler in there, too." Why did he change the name of his band from Jon Butcher Axis to Jon Butcher? "That's simple. Every other interview I did last year began with, 'Well, Mr. Axis...'"

BRUCE HORNSBY says a free concert on the beach in Pensacola, Florida, last weekend was the biggest crowd he's ever played before. An estimated 60,000 people turned out for the Spring Break concert sponsored by Miller Brewing Company. The gig was part of a nine-month tour by Hornsby that is scheduled to end in May.

GREGG ALLMAN says that his current touring band will have been with him for five years, as of May 31st. "I mean, the band hasn't been making a hell of a lot of money, but all these guys are incredible," Allman says. "They play so good I really have to step to stay in charge."

JOHNNY CLEGG, the South African musician who headed the group Juluka, is re-emerging, with a newly-recorded version of "Scatterlings of Africa." Clegg, vice-president of the recently formed South African Musicians Alliance, is planning a European tour this spring.

Sigue Sigue Sputnik drummer **RAY MAYHEW** has been acquitted of charges that he injured a member of the audience during a show in Reading, England, last year. "I am obviously very pleased with the result and glad that this is all over," Mayhew says. "We are naturally sorry that anyone got hurt as a result of a violent minority who infiltrated the audience. Now it's time to get on with some hard work." **SIGUE SIGUE SPUTNIK** are back in the studio recording a new single called "Success."

"FAST" **EDDIE CLARKE** has given the members of his band, Fastway, the boot. He's now teamed up with a singer/songwriter named **LEE HART**. Clarke says he's "quit drugs and cut down on the booze." He says he has no plans to work with his former Motorhead colleagues, Lemmy and Phil Taylor. "By

Motorhead's very lifestyle, I was set on the path to self-destruction," he says. "Not that I regret my seven years with Motorhead. They were probably the best years of my life, until the end."

Jimmy Pursey says he's re-forming **SHAM 69**, a band that was one of the earliest of Britain's punk groups. "It has become a Tupperware party of boredom, so we decided to get back out there. We were always at the forefront of the punk scene -- we knew what was going on -- and it seems that ten years on, nothing's changed. In fact, the music's probably more complacent now than it was then."

Here's the latest music news "Live From London" courtesy of CFNY, Toronto and our exclusive reporter LEE CARTER. Lee can be heard on CFNY's "Sunday Music Magazine" program and on "Live From London" aired Wednesday evenings.

News continues to unravel slowly about the ONE WORLD FESTIVAL, scheduled for the 11th of July with proceeds going to a number of charities. Wembley Stadium will be linked by satellite to seven other stadiums around the world. According to the organizers, U2, SIMPLE MINDS and the PRETENDERS will perform in Warsaw, SPANAU BALLET in Tokyo, ROD STEWART in Seoul and a team of MOTOWN SUPERSTARS in Detroit. However, no record company will confirm these names and Island claimed to be totally unaware that U2 would be making any such performance. "I think it's pretty unlikely," one press officer told "The Hard Report". "They were also named as the group who would be doing a special trade between Moscow and London (for the festival) which was totally untrue." The show is expected to raise over 10 million dollars in Britain alone. The money will be divided between the Save The Children Fund, YMCA's Care International Charity, and various third world relief organizations. The Archbishop of Canterbury's special envoy to the middle east, Mr. Terry Waite apparently wrote personally to hundreds of rock artists all over the world to ask them to perform. He is still missing in Lebanon, presumed kidnapped.

A couple of visitors to London have experienced inconvenience and harassment from UK immigration and customs. DEBBIE HARRY, who was over on a brief promotional trip, had every last piece of her luggage turned over. The luscious, pouting one smiled brightly at the uniformed ones and said "Sorry, guys. You're five years too late!" (What a chappess!!!) Also SCOTT HOSTERMAN, a friend of Psychic TV singer GENESIS P. ORRIDGE, was arrested and detained at London's Heathrow Airport because he was carrying two guitars! The immigration boys and girls in their current mood of declining manners claimed that the two guitars were proof that Hosterman intended to work while in the UK. He was detained for 24 hours and then given a two week temporary release in the custody of Genesis P. Orridge, who fumed: "If having a guitar proves intention to work, does a typewriter exclude a journalist? If a novelist writes while he is on holiday, is he working?" Orridge has started an appeal with a sympathetic member of Parliament.

DURAN DURAN's new single is "Meet El Presidente". They've just kicked off a world tour in Japan. Meanwhile, the reclusive former Duran Duran drummer ROGER TAYLOR, has emerged from hiding; to become a father! TAYLOR, was at the bedside of his wife Giavonni as she gave birth to their first child, a son. Known to millions of Duranies as "the shy one", he quit the group last year after collapsing in the recording studio amid reports that

April 24, 1987

he had suffered a nervous breakdown. He disappeared to a secluded farm in the county of Gloucestershire and is now studying agriculture with plans to become a full-time farmer.

a-ha have just flown into London to record the title track for the new Bond flick, "The Living Daylights". Otherwise a-ha are still resting after their gruesome world tour. They expect to start work on their third Lp sometime in May.

ROGER WATERS will be releasing his second Lp in June, followed by a world tour in the fall. The

album from the former member of Pink Floyd is called "Radio KAOS" and is the story of a lone deejay's battle to prevent his fictitious California radio station from being changed to format radio. Ironically, the voice role on the Lp is played out by real life broadcaster Jack Ladd whose own L.A. station, KMET, has just lost a long similar battle (See recent "Hard Reports"). Quoted in "Sounds", Waters said: "If you are governed by the lowest common denominator, you end up with no KMET, only disco stations; no theatre, only soap opera; and no ordinary people, only Rambo." The Lp will be preceded by a single out here on the 11th of May called "Radio Waves". He also plans to turn the plot of his Lp into a film, which he has done previously with "The Wall" and "The Pros And Cons Of Hitchhiking". The world tour, which promises unique visuals, starts in Europe in August before continuing to the United States, Japan, and Australia. Meanwhile Waters' legal battle with his former PINK FLOYD colleagues continues. This contradicts recent reports that Waters had dropped his claim. It will not be resolved until next year, however. Although David Gilmour, Nick Mason and Rick Wright say they plan to release an Lp next year under the name of Pink Floyd, Waters cannot make his counterclaim until they actually do so. A press statement also adds: "Roger Waters will never again record or perform with Gilmour or Mason under the name Pink Floyd, or at all."

Over 80 performers and theatre troupes will be performing at this year's **GLASTONBURY PEACE FESTIVAL**, over three days on five stages on the 19th, 20th and 21st of June in the county of Somerset. In recent years, Glastonbury has enjoyed the reputation as possibly the leading permanent festival in the world. This year's names include **ELVIS COSTELLO, VAN MORRISON, THE COMMUNARDS, THE CULT, NEW ORDER, THE ROBERT CRAY BAND, LOS LOBOS, BEN E. KING, TAJ MAHAL, TROUBLE FUNK, THE RICHARD THOMPSON BAND, COURTNEY PINE, HUSKER DU, PAUL BRADY, THE MEN THEY COULDN'T HANG, THE WOODENTOPS, THE MIGHTY LEMONS DROPS, MICHELLE SHOCKED, MISTY IN ROOTS, WORLD PARTY, ROBYN HITCHCOCK AND THE EGYPTIANS, ANDY WHITE**, and many others; including one stage entirely devoted to visiting ethnic artists from all over the globe, from Zimbabwe to South Yemen. For Visa or Mastercard bookings, phone London 251-0027 - otherwise, tickets are 20 Pounds (around \$34) made payable by sterling postal orders to: CND Festival, 22-24 Underwood Street, London N1 7JG, England, made payable to Glastonbury Festivals Ltd. Might be a good time to make that trip to this side of the pond. If in doubt, an application form can also be found in the April 18th edition of "Sounds" with Slayer on the cover. Proceeds from the festival go to The Campaign For Nuclear Disarmament.

THE CULT releases their new single this week from the Lp "Electric". "Li'l Devil" also features no less than two live versions of "She Sells Sanctuary" plus "Bone Bag" recorded in concert in Holland last year. The cassette version features the above plus more live cuts: "Wild Thing", "Louie Louie" and "Phoenix". The group are currently supporting Billy Idol in his American tour.

It's the tenth anniversary of the death of **MARC BOLAN** who was killed in a car crash after a glittering career with **T. REX** that spawned number one hit after number one hit in the early to mid-seventies (a success he never repeated in the U.S.). Compiled by the T. Rex fan club, three commemorative albums are due to be released containing a mixture of hits, familiar favourites and rare tracks that have been long deleted. The first volume "The History of T. Rex" comes out this week in the U.K. on the Marc On Wax label and includes "Deborah", "Metal Guru", "I Love To Boogie" and "Get It On".

You can't get any closer to the English heartland than **THE RAILWAY CHILDREN** who entered the Indie Lp charts at #1 last week with "Reunion Wilderness". Gary Newby, the mastermind behind the outfit is only 20 years old and still at college where he's still a photography student, due to sit his final exams in four weeks. The rest of the group are all on the dole in the midlands town of Stoke. Despite the utter lack of slick promotion and big record company know-how, the band have produced an Lp that have the British critics gushing in admiration. "Melody Maker's" Ian Gittens says: "Draw a line that might begin with The Velvet Underground, pass through some Orange Juice and Josef K, touch the outskirts of Smithville...think of pastel delights, soft reflection, discreet pleasures, tender delights - something like the joys of youth laid out in soft focus, shaped by every influence under the sun."

Party of the week was **PAUL SIMON**'s bash to celebrate the end of his "Graceland" tour. Boozing merrily were Elvis Costello, Fleetwood Mac, Bob Geldof and Paula, his wife, who were pursued by the Fleet Street tabloids amid rumours that their marriage is going through a rough patch. And Paula hosts the last ever "Tube" TV show this week. (Blubber! 'Twas a good show.)

INDUSTRY NEWS

CBS are fuming over a customarily vicious "Melody Maker" attack on Alison Moyet in a recent Lp review. The record giants are threatening to withdraw all their advertising from the paper. The review, penned by Chris Roberts, contained phrases like "Doesn't she just remind you of a big belch?" It won't be the first time MM has suffered loss of revenue. A personal attack on an A&M staffer in a Thrashing Doves review resulted in complete withdrawal of A&M services for months. MM responded by gleefully teasing A&M week after week in their gossip column until finally the beleaguered company could take it no more and peace was restored. CBS are somewhat bigger fish, however.

The UK's first independent study of digital audio tape passes the system with flying colours. The Aiwa XDOOI was one of the first such systems to be put under scrutiny by "Which Compact Disc?" magazine, who commented, "The crystal clear, transparent sound on the Aiwa was superior to that of any

analogue cassette deck or currently available reel-to-reel we have ever used and on many occasions it was preferred for playbacks on our professional recordings over a fully pro Sony system costing over 20,000 Pounds." (\$32,400)

CBS UK have just held their half yearly conference. Special attention was paid to ALISON MOYET's "Raindancing" which will receive heavy promotion in the UK. CBS will also give a big push to JUDAS PRIEST's live double album due in May. It will feature many greatest hits and will include a glossy booklet. Their biggest campaign for an international artist will be for BARBARA STREISAND. Other upcoming releases include MATT BIANCO, ELTON JOHN and OZZY OSBOURNE. The rest of the multinational's releases will be mainly American.

MTV Europe has finally signed binding video copyright agreements for the launch of their operation, scheduled for July. Managing Director Mark Booth comments: "The new network will be based on the MTV concept which has been so successful in the U.S., but it will be tailored to the musical tastes, lifestyles and sensibilities of the European audiences."

IN BRIEF

THE JESUS AND MARY CHAIN return with a new WEA single, "April Skies". They go into the studio to record their second Lp soon.... GO WEST have a new single, "I Want To Hear It From You", which comes from their upcoming Chrysalis Lp, "Dancing On The Couch".... THE THOMPSON TWINS' Lp, "Close To The Bone", is scheduled for an April 20th release.... STAN CAMPBELL, former member of The Specials, has a self-titled solo Lp coming out. A taster single, "Crawfish", has picked up a fair amount of progressive radio play here.... Get well soon to JO of FUZZBOX who had a cycling accident in her hometown of Birmingham, breaking her leg.... An unnamed HOUSEMARTIN sidled up to ELIZABETH WESTWORLD (lead singer of Westworld, whose "Sonic Boom Boy" single is ace - get it!) at an AIDS bash and said, "The rest of the band hate Westworld, but I like you." Clearly flattered and considering his words, she replied, "Well in that case I hate the other three Housemartins, but you're alright, dear." How sweet.... THE DAMNED's next single is "Alone Again Or" from the "Anything" Lp. The video is currently being shot in the Australian outback??!.... BOY GEORGE phoned up Bette Davis after the Oscars to tell her he thought that she was pretty damn fab. He is now the proud owner of an autographed photo from the acerbic Davis. Ahh!

NEW SINGLES

"NEVER TAKE ME ALIVE" is the latest from Spear Of Destiny. One would have thought that this early 80's group had seen better days. Indeed, when Kirk Brandon decided to bring SCD back to life I was very cynical of the first material. This, though, is a real winner and after a couple of plays you're a slave to its dramatic, drum-marching rhythm and neurotic lyrics. Unhesitatingly recommended to Alternative, could just cross over to AOR too.

NEW ALBUMS

"NEVER LET ME DOWN" by David Bowie. Critical analysis is pretty useless in this case as it's out of the box regardless. A toughly produced, punchy Lp

that will insure full stadiums once again. It's just what everyone wants and expects. For old Bowie fans like me, that's exactly the problem since unpredictability was once the man's trademark. Still, at 39, he still lays flat a lot of the dross around - which is quite an accomplishment. Joe Jackson's "WILLPOWER" is an entirely instrumental Lp, featuring passages of music of rare beauty. One's respect for Jackson's genius can make us step back in admiration and give him the thumbs up for any musical ghetto he wants to lock himself up in, but this is strictly "Village Voice" stuff that will never be played on AOR and only by the braver alternatives. I love it, but it's not a radio "screamer" (apologies to WLIR!).

CHART SURVEY

"LIVE AT WEMBLEY" by U2 continues as the best-selling rock/pop home video and their "JOSHUA TREE" is the best-selling CD. The Pogues and The Dubliners' "IRISH ROVER" deposes Erasure off the top of the indie singles, but Erasure's "CIRCUS" Lp enters the indie Lps at 1, toppling off The Railway Children. The Top 5 Singles in the "Hot Metal" charts are: 5, "WILD FRONTIER" by Gary Moore; Entering at 4, "MIDNIGHT BLUE" by Lou Gramm; 3, "HEAT OF THE NIGHT" by Bryan Adams; 2, "STILL OF THE NIGHT" by Whitesnake; and entering at 1, "WANTED DEAD OR ALIVE" by Bon Jovi. Bryan Adams' "INTO THE FIRE" enters the HM charts at 2, while "WHITESNAKE 87" enters at 1.

ALBUM CHARTS

"THE RETURN OF BRUNO" by Bruce Willis enters at 22. "AMONG THE LIVING" by Anthrax enters at 18. "THIS TIME" by Culture Club enters at 12. "ELECTRIC" by The Cult enters the Top 100 at 4, but is eclipsed by Alison Moyet, who enters at 2. At 1 "NOW THAT'S WHAT I CALL MUSIC 9" by various artists.

SINGLES CHARTS

"BOOPS (HERE TO GO)" is an excellent reggae ditty from Sly And Robbie entering at 40. "BIG LOVE" by Fleetwood Mac enters at 37. "NOTHING'S GOING TO STOP US NOW" by Starship enters at 29. "WHY CAN'T I BE YOU" by The Cure shoots straight in at 14. "LET MY PEOPLE GO GO" by the Rainmakers climbs 10 places to 18. Way to go! The tight funk sound of "LIVING IN A BOX" by Living In A Box climbs 13 to 10, a Liverpool band who got the New York treatment from Arthur Baker. Top 3: "LEAN ON ME" by Club Nouveaux; 2, "LA ISLA BONITA" by Madonna; 1, "LET IT BE" by Ferry Aid for week 3.

AIRPLAY ACTION

BBC Radio One - Adds: "MEET EL PRESIDENTE" by Duran Duran, "YOU'RE THE VOICE" by John Farnham, "REAL FASHION" by Carey Johnson, "TO BE WITH YOU AGAIN" by Level 42, "LOVE AND MONEY" by Robbie Nevil, "NO LIES" by SOS Band, "TWILIGHT WORLD" by Swing Out Sister. Highest Rotation: "WHY CAN'T I BE YOU" by The Cure, "ORDINARY DAY" by Curiosity Killed The Cat, "EVER FALLEN IN LOVE" by Fine Young Cannibals, "LIVING IN A BOX", by Living In A Box.

Cheers.

Chris Emry, WIYY, Baltimore

I didn't really care at all for Paul Simon when it came out. Took the CD home, listened to it over and over again and now I think WB was absolutely right to go with "AI". The horns hooked me into it. A bonafide 25+ killer.

Beth Kepple, WKLS, Atlanta

"Primitive Love Rites" was written for me. I'll send pictures! We'll draw on the cave wall, babe.... TP has never done a song I didn't like. He's the only one I can think of that I can say that about. Same thing on "Let Me Up".... Ever have one of those days? I have one of those lives. And now to complicate it, every day I get to wake up with the morning airline of Atlanta radio, Nick & Jeff -- our new wake up crew. If I didn't have a new Petty and Bowie Lp to feed my head with, I'd be selling goldfish at K-Mart.

Kelly Wallace, WLZR, Milwaukee

I want to publically thank Atlantic Records, especially Rick Sudakoff for helping us toast "Saturday Night". Rick Sudakoff is fast becoming one of the classiest guys in the music industry.

Erin Riley, WMMR, Philadelphia

Could the Tom Petty record be any better? I say no. In fact, I might say flawless. I can't tell you how much it jazzed me to receive a great Tom Petty record. I'm a Petty fan from the beginning, but the man has had his ups and downs. Mostly ups, of course, but "Let Me Up" is all ups. He's doing what he does best, with the best rock and roll band in the world to back him up. Who needs outsiders when Tom's got it all all by himself? My favorite song is "All Mixed Up", but I'd need at least two hands to count my other favorites.

Tom Starr, WOUR, Utica

"Over The Hills And Far Away" was about where we figured Gary Moore was headed until this one new ignited the phones. That long version is driving 'em wild at night.... We love The Truth and after what happened to John Tudor, you'd better too. You expect us to believe that wasn't the same Barry Lyons? There must have been a PD who hadn't added the record in the seats behind the Cardinal dugout.... Top 5 phones and sales for Whitesnake. Is David Coverdale's real last name Copperfield? You gotta admit, it's pretty impressive for a band that doesn't even exist.... We upped "Walk On Fire" to power when Little America came to town and it's performing so well we're keeping it there. Thanks to

Stu Sobel and Andy, John, Mike and Custer from the band for a dynamite live show. They're a great band to work with.... Anyone looking for a morning show spike, check out "Daylight" from the Washington Squares.... Bowie at his best is wonderful and it's good to have him back.

Jim Pemberton, WLLZ, Detroit

David Bowie, "Bang Bang". The album itself has probably got 3 or 4 cuts on it we can use, but for now this is the one.... A re-add on Whitesnake this week. We felt like we might have taken it off a little early and re-added due to blow-out sales. Plus it sounds great on the air.... The Rick Medlocke album was actually recorded in the city I live in, Canton, Michigan, with a little help from local producer Ben Gross. We went with the cut "Liar", the cover of the old Three Dog Night cut. Blackfoot has traditionally done well here and "Liar" should fit the bill.... Little Steven's is the other one that's high on my list this week. "Trail Of Broken Treaties" honestly took me three or four listens, but I've got to tell you after that I was hooked. He has a lot of Pettyisms in his voice, but I think the comparison won't hurt him.

Glenn Stewart, WHJY, Providence

I was pleasantly surprised to hear two comebacks in one week.... Tom Petty's new album answers the question of who's better to work with -- Dave Stewart or Bob Dylan. Isn't it obvious? Tom Petty has a collection of raw, kick ass melodies that will be AOR fodder for many moons... After several disappointing soundtrack songs and a tame album, David Bowie is back with a vengeance for his best album of rock and roll since "Lodger". Bowie has a way of wrapping his punches in silk gloves -- he rocks with style.... Other adds: Robert Cray's "Next Door", Cutting Crew's "Mockingbird", Jon Butcher's "Holy War", and Ozzy's "Crazy Train".... Addtalk: The Cutting Crew has a good follow up.... Jon Butcher sounds more like Robin Trower than Robin Trower does.... What can you say about Ozzy? How about an unbelievable package for the fans! Light night rotation.... Moves: Clapton's "Run" goes to power; ditto Petty's "Jammin' Me"; The Cult goes to heavy with excellent sales in the market; Fahrenheit to heavy (just sounds good on the radio), and ditto Gregg Allman's "Anything". He has a strong market history.... Radio programmers and radio people want to play Little Steven. He's hip, he's cool, he's Springsteen.

Harvey Kojan, KLOL, Houston

\$25,000!! That's how much money KLOL helped raise for a local charity for our 4th annual Rock And Roll Auction. Many thanks to all who helped, especially our guest auctioneers: Joe Walsh, Joe Lynn Turner, Rob Jungklas, Brad Gillis, Jeff Watons, Earl Slick, Mark Goodman, and the inimitable Vince Neil. The labels' cooperation was tremendous. Everyone went out of their way to help. You know who you are, thanks so much. The financial highlight: Two ZZ Top guitars going for \$4000. My personal highlight: I got to play keyboards with Joe Walsh and the rest of the stars, as we ripped our way through "Goin Down", "Rocky Mountain Way", and the requisite "Johnny B. Goode", all broadcast live on KLOL. It was quite a thrill, as you can imagine, but no offers as of yet, however... Hey, this Bowie album cooks, doesn't it! We added three tracks initially, with "New York's In Love" the early favorite, but the whole thing is wide open for airplay.... We're also three tracks deep now on Jon Butcher, and "Holy War" couldn't be more timely.... Now that the audience knows Andy Taylor can rock, it's time to play the tune with serious hit potential, "Don't Let Me Die Young".... Whitesnake will not be denied. It's now #2 in sales, second only to U2 -- and we're the only one playing it, and until this week, only at night.... Robert Cray is closing in on the top 5, and it's good to see the emphasis back on the right cut.... We're very serious about Jon Astley. I can't think of a better match of lyrics and production. I'll be dropping it in this week for reaction.... Another marvelously produced song is the John Farnham, and Rick gives it the thumbs up as well. Just don't let him know who Farnham used to be with. This message from the "ignorance is bliss" network.

Mike Z., WNHU, West Haven

The EZO album on Geffen is a must for all heavy metal radio shows. I recently got the chance to meet them and they are very friendly guys. Although you can't tell by listening to the album, their English isn't the greatest. But it's in the process of improving. My favorite tracks are "House Of 1,000 Pleasures", "I Walk Alone", "Destroyer" and "Desiree".... The new D.R.I. album is the perfect definition of its title -- "Crossover". It is the perfect mix of heavy guitar, speed and intelligent lyrics. My favorite tracks are "Five Year Plan", "Tear It Down", "Decisions", "Go Die" and "Oblivion".... It's good to see some official recordings of Randy Rhoads playing live. If he was still alive, he'd blow Yngwie Malmsteen away.... I love the new Lee Aaron poster we got in. Too bad the album is not heavy enough for us to play it.... By the way, WNHU made it on to the Arbitrons in two new counties this last report: Suffolk County, Long Island, and -- believe it or not -- our own, New Haven County.

Fingers, WBAB, Long Island

Greetings from Long Island. Glad to see all the Kiss albums finally out on CD. Now, all I need is the old Alice Cooper stuff.... EZO is still the hearthrob of this metalhead. I love the sound, the Val Garay/Gene Simmons production is excellent. These fine ambassadors from Japan are sure to make headway in commercial radio as well as the metal shops.... The new Ozzy Osbourne album is great. I'm happy to say it does justice to Randy Rhoads. Great packaging, great production, I love the last track, "Dee". To follow up our Randy tribute at the Sundance club, I played the entire album on Easter Sunday.... In closing, a word to Enigma. What happened to my interview with Poison Sunday

night? Even though the band never called, I closed my show with their track "I'll Never Forget You" (and I won't).... P.S. "Creeping Death" by Metallica is a great song for Passover. I'm serious! Read the lyrics.

Alison Stewart, WBRU, Providence

Suzanne Vega became a household name around here after her stunning appearance on the oh-so-hlp "Pretty In Pink" soundtrack. Now she's back; more confident, more interesting and with a more promising new track. "Luka" is poignant pop with a haunting message from a new, fresh source. She's a special artist who deserves special consideration.... TP & The HB's producing debut is phenomenal. They come up with some raucous, raw rock and roll and a couple of sweet ballads.

Tim Jeffreys, KAZY, Denver

There are several very strong cuts on the Petty. "Think About Me" is my fave.... Ever since I saw him open for the Pretenders, Iggy been back on my mind. He's collaborated with Bowie on "Bang Bang" which is now our secondary track from "Never Let Me Down".

Dianne Hicklen, KFMU, Steamboat Springs

Tom Petty has achieved what very few can. He's managed to incorporate his roots and touch with an updated attitude that is perfect for the late 80's. This album has guts. And we're happy Petty's back on the air.... Same thing for the Bowie Lp. The overall sound of "Never Let Me Down" is firmly entrenched in the here and now, but with hooks I haven't heard in a decade or more. The Thin White Duke is back on track.... On the strength of "Primitive Love Rites" alone, Mondo Rock could fill a decent venue in Steamboat. And, yes, we have them. The perfect party, dance and twistin by the pool tune is really starting to make waves. I literally walking to the studio itching to play that track. What's more infectious?... A big thanks to Michael Linehan for all the help with the Clapton show.

Arin Michaels, KLPX, Tucson

During the past 20 years, people have been working hard on refining the art of rock and roll. And boy, oh boy, does it show here and now. Is it just a hormone problem or do we really have huge amounts of magic booming out of our speakers? The question is how do we play all of it and do it all justice? The floodwaters are getting deeper and deeper and we don't want to close the gates. But since we can't add 50 tunes this week, here's what we've chosen to enhance our airwaves. Strong stuff from some serious folks.... Rickie Medlocke, a 30 year vet. (He was just a kid when Grandpa Shortie taught him his craft, then at about 13 or so Jacksonville's ears perked up and holy shit!) We're gonna start with "Saturday Night". The production on the record reels the man into the mainstream plus the collaboration with former Mothers' Finest players makes the record even more exciting.... Little Steven, the voice of America. Thought provoking lyrics and the usual full sound. "Trail Of Broken Treaties" should be a must for the entire nation to bang.... We're glad Petty is back with his signature bite. Could leave teeth marks in your turntables but face it, he sure knows how to reflect the times.... We're delving deeper into Bowie, Peter Wolf and Robert Cray, plus some bright newcomers, Long Ryders, Del Fuegos, The Other Ones and the meaty second track from the Cutting Crew. "Mockingbird" rocks.... Don't want to forget to thank Del Williams and Kyle Hetherington for such a nice visit and dinner.... Thanks to all our pals for the continued positive input. It keeps Jack happy and KLPX on the track.

Aris Hampers, WLAV, Grand Rapids

Thanks to everyone at CBS who made it possible for me to see **BAD** in Philadelphia last week. You really turned my head around about this band. Thanks to Jim McKeon, Rapp, Herbie, Mark Westcott and anyone else I missed. Thanks again.... Also, to those of you who are hesitant about **Suzanne Vega**, put this lady on and watch her work for you. She has a hypnotic quality that upper demos can't resist. When I featured her first album last year on my new music review, it got instant phones and sales and her new album has TWICE the depth and atmosphere of the first album.... Unquestionably, **David Bowie** has his best album of the last 3-4 years.... **Gary Moore's** latest is perfect for our market.... And the **Other Ones** is getting great phones.

Cathy Down, WLNZ, Lansing

I'm one happy bumpkin today because I received not only one Easter basket full of goodies but two. The only difference is that one was full of sweets and the other was just plain sweet. It was filled with brand new albums from **David Bowie** and **Tom Petty** both sounding extremely fattening. Everyone knows that anything that's really good has to be high in calories, right? The Petty album has a definite **Dylan** flavor while the Bowie is beyond belief and is unquestionably one of his best in years, a combination of "Ziggy Stardust" and "Diamond Dogs".... Other tunes tempting to the taste buds this week include **Gary Moore's** "Over The Hills" and **Rick Medlocke's** "Saturday Night".... I must admit I've never been a true blue follower of **Little Steven's** solo style, but his latest effort "Trail Of Broken Treaties" has put me on the top of the list.... A few chocolate wrappers here and there. A few pounds and inches added to the waistline, but the music that resulted from this tasty week was worth it.

Kim Alexander, WHCN, Hartford

I have so many thank you's this week I feel as if I just won an Academy Award. First, let me mention the great night I had at the **Steve Stephens**, oops, I mean the **Billy Idol** show in New Haven. Thanks, Jerry, for letting me press flesh with the man.... And thanks to Pat, Brenda and Drew for the classy night at **Deep Purple**.... Thanks, **Joan Jett**, for giving us a call and being so easy to talk to.... We did a wonderful Easter promotion. We gave away white rabbits. Actually, they were limited edition white vinyl **Jefferson Airplane 12"** from RCA. Thanks, David. The candy rabbit was good, too.... On to music...I love the **Suzanne Vega**. "Luka" breaks my heart. I have a vivid picture of what this song looks like and I never want to see the video.... **The Cult** debuted at #3 in local sales here.... **Little Steven** goes on this week. He still can't sing, but that's part of his charm.... **Whitesnake** is still incredible on the phones. Don't be afraid to roll it in the afternoon.... At home, listening to the **T'Pau**, **Bernie Taupin**, **Fleetwood Mac** and **Gary Moore**.

Marty Griffith, KFMF, Chico

Sunshine, warm, 80 degree temperatures and cool rock tunes on the radio. What a great combination!... Am I dreaming or is this really happening? **Tom Petty** and **Bowie** in the same week.... The response for both Lps has been overwhelming. It's weeks like this that make my job so easy ... A big thank you to the "Hard Report" for the new sampler. What a great way to expose new music! Keep 'em coming.

Highlights are the **Little Steven**, **Stan Bush** and **Mason Ruffner**.

Mark Benson, WRQK, Canton

From a foot of snow to sunny skies and 80 degrees in only 14 days! Incredible.... The **Easter Bunny** made two early stops last week with new **Tom Petty** and **Bowie**. Both excellent back-to-basic efforts.... It looks like **Little Steven** has finally broken through as a solo artist with "Trails". Listen to it several times. It'll grab ya.... We had no problem finding room for the somewhat new **REM**. Thanks to IRS for putting it all together.... Oh, by the way, has anyone noticed how tons of great baby bands always seem to come out at the same time as the superstars, causing their potential demise due to the intense competition? I believe in survival of the fittest, but this seems unfair. Hey, Major Labels! The Jan-Feb lull could use quality product and it seems careful planning would allow decent exposure of some truly talented artists, who otherwise are having to fight for deserved attention in a very crowded field this time of year.

Jessie Brice, KZRR, Albuquerque

We would like to thank some people who went above and beyond the call of duty last week in helping with 98Rock's Radiothon '87 to benefit two Vietnam Veterans' agencies locally. With no corporate sponsors and little prep time, we managed to raise over \$10,000 and wake some people up to the problems and solutions facing the Vietnam Vet. So thank you, thank you to **Virgin Records' Bob Frymier** for the guitar, **Joe Bravo** from Epic, **Bob Conrad** and everyone from Columbia, **Ray Gmeimer** from Elektra, **Mike Linehan** from WB, **Dick Merkle** from A&M, **Frank Palumbi** from Capitol, **Neddle Lepard** from Polygram and **Jeff Lauffer** from Chrysalis. Without your help, we certainly would not have been as successful. Your help in getting us real spiffy auction items is appreciated. Again, thanks to all of you.

Blackfoot is back and strong as ever. Instant response when we unleashed "Saturday Night".... Little Steven, Zerra One and Shy are also causing early reaction this week. Thanks to Bill Collins at Atlantic for the special Saturday night.... The Farnham will be a woman killer. Smoooooth.

Joe Blood, KEZO, Omaha

Sales on Cutting Crew the last three weeks moved 17-4-3, so to beat the CHR's in goes "One For The Mockingbird".... Little Steven is a real "in awe" kinda tune. Lyrics, production -- it's all there.... TP is the best since "Torpedoes". "Damage" and "Runaway", aside from being great songs, are things I can relate to personally! I've heard it 55,000 times already, and there's not a bad tune on it. Right now, it's the soundtrack of my life!!

Inessa York, KGON, Portland

There's simply no doubt that Tom Petty has found his musical soulmate in Bob Dylan. As for the new vinyl, I can't even get past "My Life, Your World". This Lp is a real joy. It's simply great to have this kind of product on the air.... I'm enjoying the cover of Herman Brood's fun little tune as done by Blackfoot. Some of the same parallels and appeal can be drawn with Medlocke and Gregg Allman. The kind of style that never seems to lose touch with its audience.... The Replacements are interesting. Reminiscent of Echo & The Bunnymen and early U2. Could be something here.

Phil Thompson, KICT, Wichita

It was all I could do to hang on to the new Tom Petty & the Heartbreakers album and not play it before the official release date. You see, because of some unknown circumstances, it came in a little earlier than anyone expected. We had a lot of fun though teasing our listeners by telling them how good it was and almost misquoting "Jammin' Me" and playing another track. We jammed it over the weekend and our favorites are "Damage You've Done", "Runaway Trains", "My Life, Your World". I also like the Keith Richards' guitar imitation on the title track.... I was glad to bump up the Tesla tune, "Little Suzi", into a medium rotation. These guys are great and the phone response was cause for this move.... Little America moved into heavy this week. Here's some world class rockers that are really going places and it's a real pleasure to be a part of their early success.... Gary Moore made a well deserved jump into medium this week.... What can I say about this David Bowie album? Every track is better than the advance release. It will be hard to pick a backup tune, but for now we are going with "Time Will Crawl".... Finally, thanks to all for the great CD service. All the new compilation CD's are fantastic, keep 'em coming!

Ty Banks, KQWB, Fargo

Well, well, my brain is still aglow and my ears abuzz from the Robin Trower show here last night. After all these years, the gentleman ages like fine wine. He even graced us at Q98 with an on air check. Thanks to everybody involved. Damn no camera! "Caroline" and "No Time" continue to be regular requests.... Also earning phone requests are Tom Petty (by the way, the new Lp is my favorite since "You're Gonna Get It"), as well as Tesla, Little America, and XTC.... We expect to go with Stan Bush and Mondo Rock next week.... After listening

to the entire Truth album, I feel much more confident about the single. It's an extremely consistent and rocking Lp, somewhat taking the INXS sound one step further.... Thanks to Epic for the platinum Europe record.... Lastly, John Erdahl: You still look mah-velous.

Ellen Gerdes, KYYS, Kansas City

Robert Cray's "Right Next Door" melts in your ears. It has a story that could be a mini-series.... Crowded House's "Something" is just the kinda poppy thing that sounds good on AOR's in the summer.

Anthony Alfonsi, WDV, Pittsburgh

Some pretty good records came in last week. David Bowie's "Never Let Me Down" is filled with a wide range of Bowie material. It seems to me that each song on the album chronicles the many stages of his career from "Ziggy" to "Let's Dance". Some of my favorites are "Time Will Crawl", "Never Let Me Down", "New York's In Love" and "87 and Cry".... The next album to arrive was Tom Petty's "Let Me Up I've Had Enough". The influence of Bob Dylan is apparent as well as some influence from the Rolling Stones. I think Tom listened to "Exile On Main Street" right before he recorded the album. "Runaway Trains", "The Damage", "Think About Me", "All Mixed Up" and the title track are my favorites at this point. Petty scores big with this one.... I'd like to thank Mark Fritzges of Atlantic along with Rick Medlocke and Blackfoot for a Saturday night out. Besides that, I think "Saturday Night" is a good song with summer coming up. If you have a convertible, it's a great song to play with the top down and the wind at your back. My favorite song on the Lp though is "Closest Thing To Heaven" with "Back On The Streets", "Silent Type" and "Private Life" not too far behind. His remake of "Liar" is pretty good, too.

Jim Steel, WIOT, Toledo

Cleveland may have the Rock & Roll Hall of Fame, but Jersey is certainly the stomping grounds for great rock and roll. Little Steven joins the growing list with his most important work to date. Sure, you might have to listen to it a couple of times, but after a few spins you'll be in love with it.... Although there have been mixed feelings about TP & the HB's previous stuff, "Let Me Up" has all the right ingredients to rival "Damn The Torpedoes" as the Lp people will most remember from Petty and Co. It's three cuts deep.... One of the more frustrating things Keith Masters and I have to deal with is the fact that this city is so conservative. That's why we are slower than most to add new music. But every now and again a song as strong as "Weapons Of Love" comes along by an unestablished band that forces our hand just a bit. And I'm glad to report that the Truth's springtime sing along is doing fine. If your market is really conservative too, try it, you just might be surprised at its results. I was.... Our Rally By the Rivers is almost set. After setting high standards last year, most every charity picked this year wants to work with us. So for ten out of twelve Fridays, in the heart of downtown Toledo, FM104 and our sister station, WCWA will be in the limelight.... Whoever sent a copy of the new Springsteen Book "Glory Days" to Keith, thanks a lot. He couldn't stand to watch me cry so he gave it to me, what a guy.... P.S. God, bless Jon Sinton.

Skip Isley, WWTR, Ocean City

If you're not planning on playing the new World Party, now might be a good time to update your resume.

RADIO COMMENTS

Phil Colwart, WHMD, Hammond

Finally caught up with Lou Gramm and Gregg Allman. The sales and requests are continuing for these two, and second and third cuts are necessary to continue the momentum.... The Little Steven is an instant smash. "Trail Of Broken Treaties" is classic E Street stuff with a golden touch of Little Steven Van Zandt.... The Crowded House is a perfect follow-up to the top ten smash single. Too bad "World Where We Live" wasn't rereleased. That was a good song for us last summer and we are programming "World" as a recurrent for album support.... The Cutting Crew's "One For The Mockingbird" is a perfect follow-up single for this soon-to-be gold Lp. Hurray for Cutting Crew! Thanks to Bonnie Stacy of Virgin for the Cutting Crew saw blade singles. They made a great on-air giveaway.... Sink or swim time for the Stranglers who move to power due to local sales strength.... If you want a hook-a-minute song, program the Stage Dolls. Test it and see if it works in your market. It did in ours. Just think of those hot bad "Commandos" and the Stage Dolls will dance for you.... I'll be on vacation until May 3. The playlist may be obtained with a phone call to 504-345-1070.

Lin Brehmer, WXRT, Chicago

Who is it that attempts to fill our headlines with alarmist stories about simmering dumps of toxic wastes and Northeastern forests decimated by acid rain and impending nuclear doom? Who is it that has exposed the executive branch of government as a group of shady, bumbling, horse traders? I think it's about time that we, in the radio profession, have the opportunity to confront the real problem that has crippled this great country of ours. I'm speaking of doo-doo and pee-pee, specifically, doo-doo and pee-pee on the radio. While some of you effete snobs feel offended by the racist remarks and stereotypes that our culture supports, we suggest that you realign your priorities with the FCC because doo-doo and pee-pee are ruining the youth of America. I'll never forget the first time I heard the word "shit" on the radio. It was -- uh, I dunno, I forget, but it was about 10 years after I heard the word in a school yard when I was five years old. Oh, when I think of the childhood pals whose lives sunk into depravity after hearing a casual reference to doo-doo on the airwaves; oh, it makes me so mad, I could just pee-pee. What right does the Federal Government have to define obscenity? How can you ask such a question? Their legacy speaks for itself. That smutty James Joyce, that gratuitous D.H. Lawrence, I just wish I would get my hands on the smarty pants who finally allowed publication of Ulysses. I'd send him back to Russia where he belongs.... Music that cleared the censors this week includes a test pressing of the second Nicholas Tremulis album on Island. "River Of Love" is a song no one can refuse. This band has nailed it.

Also check out "Rhymes" and "Losing You". Excellent production, fine playing and a voice that could melt consultants.... Other records with no doo-doo that we added: The Cure, Tom Petty, REM, David Bowie, Suzanne Vega, Montreaux, Jon Astley, Webb Wilder and the Replacements.

Scott Douglas, KATT, Oklahoma City

Thanks to Bill Collins of Atlantic and Blackfoot for Saturday night.

Jon Johnson, KKNH, Keene

Why doesn't Shrapnel service their records to radio stations? Don't they want them played?

Steve Kosbau, KRNA, Cedar Rapids

As Billy Idol's eastern Iowa's concert nears, our phones have exploded for "Sweet Sixteen". It has bolted to our #3 most requested position and continues to test well with all demos.... Another hot phone item that is new for us is "Little Suzi" by Tesla. In its second week on KRNA, it is top 10.... At first I was slightly hesitant about jumping on "Dance All Night" by Autograph, but early response has made me glad we did. It is a full-bodied, melodic rocker, and doing a great job for KRNA.... Watch your speakers if you play "Set Me Free" by Los Lobos. I had a listener call and tell me she blew her speaker trying to share it with her neighborhood. I'll give her an A for the great idea.

Mike Corcione, Relativity,

718-995-9200 The reports are starting to come in on the Scruffy The Cat catnip. "My cat had a seizure," "She's slept with me since I brought it home," "Can I get some for my wife?" "What's in that stuff?" That's right, cats and kittens, you can guarantee yourself the same kind of audience response by playing the Scruffy Lp "Tiny Days". Just ask Carter Allen at WBCN. "Down and Dirty, Scruffy and ready, this track works for us!" Also at WMJY, KDEY, WDST, WOXY, WTCS, WVVV, WPYK, WDXR, WJFX, WQZK, WKGL, KZEL, WHTG, WDHA and WEQX. Don't be left out! The Lp should be on your desk now. If not, call me for 12-inches, Lps, catnip and -- next week -- CDs!

I think the Tom Petty album is just different enough to escape the Byrds comparisons. This one sounds a bit more free form, not at all overproduced — and a lot more basic, as opposed to the somewhat overproduced effect of the last one. I think "Think About Me" is the best one.... On the David Bowie, I won't say it's "Ziggy Stardust", but I will agree that it's his best in about five albums, and it's nice to hear him rockin' and rollin' on "87 And Cry".... Also went with Little Steven, which is an automatic.... The other one that we've been waiting and waiting to have room for is "Walk On Fire" from Little America. Good straight ahead American stuff in the Petty tradition.... Moves include: Genesis "In Too Deep" went right into power because we want to get it out before any one else does.... Think the new Eddie Money single is very good, better than the other two tracks, a natural follow-up.... Considering: The Truth and Gary Moore.

Beaver Brown, KDJK, Modesto

With most of the biggies releasing their albums now, I know how tough it is to get in new artists. But there is one you shouldn't pass up!! Listen to Stan Bush And Barrage. We're playing "Heart Vs. Head" and it's doing very well. "Temptation" and "Primitive Lover" from the same album should also be considered.... If you're not Teslafying you should be. "Little Suzi" cooks.... REM has come through with another great one in "Ages Of You".... Thanks to Sugar Ray Rothstein for helping us maneuver at the Poison show last weekend.... Adds: Crowded House "Something So Strong", an immediate response song, the perfect follow-up; Cutting Crew "Mockingbird"; David Bowie's "87" and the title track.... Got a Genesis add for the upper demos with "In Too Deep" and we switched cuts to Autograph's "Dance All Night".

Don Berns, CFNY, Toronto

Did you ever get the feeling when you're in a club or a small hall that you're watching something that belongs in an arena or stadium? That's exactly the way I felt watching the Mission UK in their soldout Toronto debut last week. This group has everything it takes to be one of the all time classic rock and roll bands. Although not every song was to my taste, the presentation more than made up for total content. The Mission UK are about as subtle as a train wreck but who cares when everything fits together so well? Great sound, great lights, great group. Don't miss them if they rock the house in your woods.... Out of the box to the top of the request list this week is The Cure's "Why Can't I Be You". If you're not used to Robert Smith's vocalese, you may be taken aback at first, but believe me, this song is totally infectious after you hear it on the air.... Also pulling top requests this week is the Age Of Chance cover of Prince's "Kiss", a rollicking, rock steady, smasharoo.... The more I hear The Other Ones debut album the more it becomes one of my faves this year. We agree with WLIR that "All The Love" will be a great followup to "We Are What We Are".... Also check out "Holiday". In fact, check out the whole Lp. If you're not playing it yet, why not?... Ditto for David Bowie. If you're disappointed in the single, try the dance version of "Day-In Day-Out". Here's one instance where an extended mix isn't just filler. No question that "Don't Let Me Down" is going to be around for a long time, providing some classy rock and roll for a lot of North American radio.... Single add of the week: The Long Ryders' "Gunslinger Man" (more great rock and roll).... Album add of the

week, "Shot The Moon" by Hard Rain. I don't know anything about this group except they have one great sounding Lp. Worth checking out if you can get a hold of it. If you're interested, contact Andy Scott at 415-821-4017.

David A. Ross, KMJX, Little Rock

We got instant response on Ozzy's "Tribute" live album which is real good for night time play.... Real good phones on Fleetwood Mac, Tom Petty, U2 and The Cult.... A lot of interest calls on Gary Moore, Mondo Rock and the Truth.... Last of all, keep sending those CD's and artist drops. Don't make promises you can't keep!

Jim Trapp, KZEL, Eugene

Little Steven puts out his best cut ever. Get smart, America, you're only as good as your word and this track doesn't lie. Great stuff.... David Bowie's "Time Will Crawl" is our best second pick. Dark, you bet. Bleak, and how. Also kicks your speakers around the room big time.... With "Luka", Suzanne Vega should make the move we've all been waiting for. From the back of the chorus line to center stage.... New stuff on KZEL includes Balaam and The Angel with lush electronics and a mega-hook as big as all Montana.... Also like Scruffy The Cat; a ram 'em, slam 'em energy source for that iron poor playlist. Have a good time with this one.... Coming up next week to a radio near you, the Replacements. This one is hot.

Tim Parker, KNCN, Corpus Christi

Hats off to Geffen Records with our top 3 requests Whitesnake, Tesla and Little America.... Jon Butcher's "Holy War" gets better with every listen.... In the Better Late Than Never Category, we're going to run with "Anything Goes" from Gregg Allman.... The new Rick Medlocke and Blackfoot is interesting. We'll give it a test and let our listeners decide.

Bob Welch, WQBK, Albany

WPYX never played Suzanne Vega. I know because I was the Music Director there.... WQBK has always been the Vega supporter in this market.

WOUR takes Poison before concert. L to r: Drummer Rikki Rockett, WOUR's Jerry Kraus, singer Bret Michaels, MD Tom Starr, and Capitol's Jack Snyder.

Al Branca, WMGM, Atlantic City

Two majors Lps to deal with this week. Bowie is back with his strongest Lp of the 80's. This Lp leans more towards AOR than "Let's Dance". There are at least four more top ten tracks on the Lp. We choose "Time" as the second track.... Petty's latest collection is also very impressive and "Runaway Trains" is the perfect backup.... Tesla's "Little Suzi": you don't have to chew glass to like this tune. More mass appeal than their debut.... Jon Astley's "Jane's Getting Serious" -- Oingo Boingo meets Lou Reed, strange but oh-so-cool.... Suzanne Vega's "Luka", compelling lyrics and her best to date.... Little Steven's "Trail Of Broken Treaties", danceable rock and roll.... Patty Smyth's "Downtown Train", good follow-up.... Shy's "Breakdown The Walls" could be the next Cinderella.... Also on Gary Moore and The Cure.... Rick Medlocke is something we'll definitely be dealing with in the future.... Thanks, Hogman.

Brian Wolfe, WGLU, Johnstown

This week we explode with a ton of adds, records that I'm sure are going to be great summer tunes. First off, Rick Medlocke and Blackfoot do a great cover of Herman Brood's "Saturday Night". Speaking of Saturday night, thanks to Atlantic's Mark Fritzsche for a great Saturday night out and all the help with re-establishing Blackfoot in Johnstown.... Who could miss Bryan Adams, Peter Wolf, Steve Winwood, Robert Cray and Deep Purple.... We were receiving phones on Ratt before we played it. MTV strikes again.... Red 7 and Little Steven appear to be two excellent records.

Mark Williams, WWZU, Williamsport

The response to the Cutting Crew has been overwhelming in both sales and phones. "One For The Mockingbird" is a tasty choice to follow up the #1 smash.... Suzanne Vega's "Luka" is a pleasant change. It's got a real nice feel and lyrics you can easily grasp.... Let's go on Deep Purple's "Bad Attitude", people -- the track never got its just deserves the first time around. It's probably the most powerful rock hit on the Lp. You can't deny sales.... For those of us playing the Doves, we hear smash. "Beautiful Imbalance" is still my favorite new track; instant hook, cutting vocals, tasty guitarwork. Listen to "Bedrock Place" and don't let the name discourage you.... Thanks to Bobbi Silver.

Renee Blake, WKXL-FM, Concord

The Gregg Allman Band played Concord Tuesday night, April 21, and I just want to say that after hearing his Lp, "I'm No Angel", it was a great show. Gregg Allman and the songwriters on the Lp seem to have some inherent sense of composition. Not a throwaway in the bunch!.... WKXL-FM is pleased to announce our latest staff addition, named for one of the radio companies of our time or a former president, or even the Taft Hartley act. Taft Moore is bringing his act to afternoon drive in the music zone.... Latest promotion -- "The Secretarial Shopping Spree Giveaway"; \$200 worth of shopping in one of the fanciest stores in Concord for some lucky secretary. Her/his name will be on our lips at 3:30 PM Friday afternoon. While we wait for the big drawing, Susie Drewski, our secretary extraordinaire, is on the air every chance she gets, telling the world what a great secretary she is and how she likes to blow up the telephone-- or was that the TV?.... Nice to hear that Brian Wilson still has it. I always believed that one day he'd come up with an 80's version of "Little Douce Coupe".... The big request action is on "Tango In The Night", "When I See You Again" (in particular) and Farrenheit's "Fool In Love" is a potential giant here.... Biggest sales here are U2, Fleetwood Mac, Crowded House, The Smiths, Concrete Blonde, and the Parton/Harris/ Ronstadt collaboration.... Some notes on the latest "Hard" Sampler: Billy Branigan has a great beat; The Replacements, good strong rock; Jon Butcher is good; Suzanne Vega we're adding this week. We're also fond of Little Steven and Mason Ruffner. We've been playing the Smiths for the last two weeks.

Kevin Vargas, KWHL, Anchorage

Assistant PD Cynde Maxwell experienced TNT's "10,000 Lovers" and had an eargasm so inspiring that I now give you a rare guest appearance. From our own Cynde Maxwell: "Rarely do I hear a song that I fall in love with at first listen. '10,000 Lovers' grabbed me within three seconds and now I'm hooked for life, goosebumps and all. I knew instantly we had to add this song. It's the perfect blend of no-nonsense rock and roll with a clear, strong vocal track that will knock your headphones off. Don't deny yourself the simple pleasure of '10,000 Lovers'.... FROM KEVIN VARGAS: Yeah, we're adding it.... P.S.: Thanks to Calvin Lew for rushing the giveaways.

IN PURSUIT'S**new 12"****"THIN LINE"****on your desk now!**

Carter Alan, WBCN, Boston

WBCN would like to thank Ian and Billy from the **Cult** for being guest DJ's on the Ken Shelton Show. From 12 noon til 1 pm, the band picked out its favorite music and chatted with Ken about the new album and their current tour. Boston is a big town for the **Cult** who visited with **Billy Idol**. The last time the band played the Orpheum Theater, they sold nearly 6,000 tickets over two nights. The band's choice ranged from the **Doors** to **Metallica**, and even some **Cult** music.... Special thanks to Roger Glover from **Deep Purple** for calling up WBCN and talking about their latest album and tour.... As far as Boston's bands go, **Jon Butcher's** "Holy War" is a killer of a song. I heard it a couple of months ago, but the timing for this new release couldn't be better.... I can't believe that CHR has virtually ignored the **Farrenheit** single, but there is lot of great music on this album. Check out "Loveland".

Jeff Carroll, KLBJ, Austin

Whitesnake is blowing out of the box with instant phones and top 10 sales.... Adds include: "Bang Bang" and "Time Crawls" from **Bowie**. I think the album's great.... Love the **Petty** album. Lots of good tracks, with **Tom** back to rock and roll. It's gonna be around.... An interesting political track from **Little Steven**. Good music with good lyrics.... Also an interesting interpretation of Herman Brood from **Rick Medlocke** -- but with a lot more edge.

Kelly Cruise, WEGR, Memphis

So many songs; so little room. **Little Steven** speaks his mind again and this time his message should be heard. "Trail Of Broken Treaties" is a haunting rocker.... I'm a big **Blackfoot** fan from way back so it's great to hear **Rick Medlocke** again -- and doing an old **Herman Brood** tune! Yeah!... "Luka" is such a unique contrast between **Suzanne Vega's** beautiful voice and the disturbing lyrics it makes you want to listen.... I can't wait to expose more of the **David Bowie** and **Tom Petty** albums, both filled with some goodies.... Great to see **A&M's** **Mark Tindle** in Memphis last week. I really enjoyed

Dr. Metal, WHJY, Providence

The new **Ozzy Osbourne** album is a great tribute to the late **Randy Rhoads**. The phone response has been overwhelming. I was forced, but happy, to play four tracks in the first hour of my metal show. It's sad that this is probably the last thing we will hear from **Randy**, though.... I think the guys in **Malice** are the greatest bunch of guys in rock and roll. They are certainly the coolest people to hang around with and their music is inspiring.... I saw **Zebra** play an incredible two-hour set last week. I was moved. It's a shame that they don't get nearly as much exposure as they deserve. They are one of rock's best kept secrets.

Ken Glidewell, WOXY, Cincinnati

I like the new **Anthem** album a lot. The songs are really put together well. They are melodic but still know how to rock. They hit me right from the start.... The **New Chastain** album is definitely their best yet. The drums and guitars sound better and it sounds as if they had a lot of time to record it.... The new **Ozzy Osbourne** album sounds really good. **Randy Rhoads** is still one of the best guitarists ever. He had the potential to be as big as **Eddie Van Halen**, **Yngwie Malmsteen**, etc. Unfortunately, we will never find out.... The **Cult** album is in regular rotation here. I can't believe it! A record with balls at 97X! Congratulations to **Rick Rubin**!

David Ross, RCA, 212-930-4518

Autograph, "Dance All Night". This is the new smash track from the album, "Loud And Clear", now exploding at radio and retail. With over 70 album stations already committing themselves, there's no turning back this tune.... **John Farnham's** "You're The Voice" from the album "Whispering Jack" is destined to be a top track in America. With six of 20 Australian Grammys and a #1 album under his belt for 15 weeks, early believers in this record are already starting to see requests. Look for the live three-track CD to be in your hands shortly.... **Bernie Taupin's** "Friend Of The Flag" is continuing to make friends along his 20-city promotional tour from coast to coast. Please take special notice to other key cuts on the Lp namely, "Citizen Jane".... **Shy's** "Break Down The Walls" had a good opening week at album radio with many more album rockers to follow. Please give "Break Down The Walls" and their video, which is now in medium rotation on MTV, some of your attention.... Up next: Be on the lookout for **The Lucy Show**, **New Message**, **Heroes**, and **What If**.... The Wine Tip Of the Week: **B&G Cabernet Sauvignon '74** New York State.

Jeffrey Naumann, Virgin, 213-278-1911

Another suckaah!!! release coming your way from **Virgin Records**. This one, the group **Danny Wilson's** first Lp "Meet Danny Wilson". **Danny Wilson** is definitely a class act which many programmers have compared with a modern day hint of **Steely Dan**. "Mary's Prayer" is the cut to go with, which many of you should be aware of from our sampler cassette/CD.... Also look for the Lp from **T'Pau** "Bridge Of Spies". If you think "Heart And Soul" is too pop, check out the track "Monkey House". This one is a rock cooker. Don't write **T'Pau** off as a top 40 band. There's plenty of great songs here for album radio. **T'Pau** also has an amazing female lead singer, too.... Finally, you'll receive the first U.S. Lp from **Spear Of Destiny** which comes equipped with the 12" "Strangers In Our Town". **Spear Of Destiny** is already a well known underground band in this country and your airplay help should catapult this band into the masses.... The **Cutting Crew's** "Mockingbird" is out and on the radio, like pigs on corn, and oh, yeah we're celebrating our first #1 record. Thanks everyone!

Harve Alan, WCCC, Hartford

What previously unknown act has been selling top 3 for a couple of months? **Robert Cray**! Great response and great songs.... Album sales for **Fleetwood Mac** are just what we expected. This one debuts at #2 in Connecticut, and we're now 3 cuts deep.... **Tom Petty** blasts into the radio station with a super solid Lp. In addition to the single, we added "Runaway Trains" and "All Mixed Up".... **Gary**

Moore proved to be a solid add this week. The interest level is real high.... The **Hoodoo Gurus** sound like the kind of record that's perfect for driving with the radio loud and the windows down.

Phil Manicki, WWCT, Peoria

Thanks to **Atlantic Records** and **Rick Medlocke** and **Blackfoot** for the bubbly. How'dja know so fast?.... **Red 7** "When The Sun Goes Down" has **Sting**-like vocals, a killer hook and tasty sax. A no-lose situation.... With **Robert Cray** leading the resurgence of the blues, that genre is in great shape. "Right Next Door" is the definition of a smooth song.... Speaking of sax, **Sandborn** teasingly spices up **Patty Smyth's** "Downtown Train".

Keith Taylor, WQMF, Louisville

Greetings, again from the Derby City. As you're reading this, the Derby festivities are in full swing. (Just promoting a little tourism!) **Bo Diddley** was in town last week and put on killer show. Thanks for stopping by, Bo! It was great meeting a living legend.... The **Tom Petty** album is absolutely great! Comparable to the last album but miles above.

Robin Mathieu, WBLM, Lewiston

Some great albums out this week. **Petty's** at the top of the list with his best since "Damn The Torpedoes". We're already getting calls on "Runaway Train" and "The Damage You've Done". And since a **Petty** tour will follow, expect this to be one of the most played albums of '87.... **Bowie's** "Never Let Me Down" is chock full of hits written in the best of **Bowie's** style. We'll start with "Time Will Crawl".... And if the **Hoodoo Gurus'** name scares you or if you've written "Good Times" off as too pop, I think you're wrong. But prove it to yourself and give the album a listen for depth. On side one alone, you'll find three more potential hits; "Out That Door", "What's My Scene" and "I Was The One". "Blow Your Cool" is gonna be here for a while, so let the "Good Times" roll now.

Bruce McDonald, WFNX, Boston

WFNX celebrated its Fourth Birthday last week by giving away tons o' stuff including a trip to LA to see **U2**. The weeklong celebration climaxed with a sold out **Smithereens** show at the Paradise Theatre. It was truly one of the best shows I've ever seen. Thanks to Island Records, The **Smithereens**, Enigma Records and John Rossbrook and Tim McKenna of the Paradise for a very enjoyable and successful party.

Larry Dunn, WLIR, Long Island

Here it is, Tuesday the 21st. **Iggy Pop** turns 40 today and tonight we begin 6 sold out co-promotes at The Irving Plaza with **Big Audio Dynamite** and Sunday begins softball season.... Every Sunday, I play in a league full of guys who couldn't care less about radio. In fact, reality sets in when you deal with listener apathy week after week. But there I am, every week, turning negatives into positives, turning the less faithful into complete fans of new music. My Sunday pulpit becomes a softball field. I have a good case this Sunday.... New music is happening. (Thank God! The team would ship me to Columbus otherwise).... The **Cure** "Why Can't I Be You" is Screamer Of The Week and second in requests to

U2.... Suzanne Vega has come into her own in a big way. "Luka" is infectious.... **Erasure** has hit the big time. **CHR** is now playing "Sometimes", reinforcing two years of solid airplay on these airwaves. I can't begin to tell you how huge this band is with us. We're staring at two sold out co-promotes at the Ritz in May.... In addition, my other faves include the new **That Petrol Emotion** import single and the new **Amazulu** album.... **Colourfield's** "Running Away" is destined to be a classic. With **Roland of Tears For Fears** on guitar, how can you miss?

Ellen McKinnon, WEQX, S.Vermont

Hot tunes of the week in my book include **Scruffy The Cat!** This song is just perfect -- what **WEQX** is all about. It has great guitars and positive lyrics. We're wild about it.... Although **Rick Medlocke** looks like he barely made it through last week, he sure makes it through "Saturday Night". This old **Herman Brood** tune is good for a few spins.... **WEQX** is happy to present **Suzanne Vega** in concert May 1st, and we're even happy to be playing "Luka". As an import, "Gypsy" made our Top Songs List for 1986 from the listeners so I think it's safe to assume that listeners are waiting for "Solitude Standing" from **Suzanne** as well as the show. Con-gratulations to **JBZ of Arista** on his move up. We're still waiting for **Cruzados** and that new **Patti Smith!**

Trisha Griffith, KBER, Salt Lake City

Phones are going crazy for "Still Of The Night" by **Whitesnake**. If you're afraid to play it, don't be-- because it's one of the best things you can do now. It's taking off fast.... **Europe's** "Rock The Night" is also creating a lot of phone activity. It's a surprisingly strong follow-up record. This new song is creating the same excitement as the "Final Countdown" and the whole album is solid. It took us a while, but it had to go.... "Railroad Steel" from the **Georgia Satellites** is the song to play to get listeners up and outta bed! Really gets 'em going.... I've never heard such wonderful lyrics like those in **Rock and Hyde's** "Dirty Water".... **Autograph's** "Dance All Night" will be stronger for us as a second track. We're seeing requests for the whole album!... **Julian Cope's** "Trampoline" seems to be going over even better here than "World Shut Your Mouth" with some phone response.... **The Mission U.K.** "Wasteland" has been a steady song for us. It goes out to a different part of our audience. We try to play a little something for everyone and this one's working just fine....

Q: What Is Retail Reaction To The Smiths' New Album?

A: Louder Than Bombs Is Exploding Across America.

The Smiths are setting record stores ablaze with their strongest out-of-the-box sales success yet. On release, their new double album snared 40 Top 20 debuts. **Louder Than Bombs** was in the Top 5 at Southern California Tower Record stores from Westwood to San Diego, #6 at the Harvard Coop in Boston and #31 at the Musicland Group's 550 stores coast to coast. From Washington D.C. to Tacoma, Washington, The Smiths are taking America by firestorm.

RADIO COMMENTS

THE HARD REPORT

Tim Kelley, KWIC, Beaumont

Well, I've done everything now. I sat down and devoured seafood with a bunch of bright hosers called Brighton Rock. If a tonearm can have an orgasm "Wait Til Tonight" will do major damage.... The Bowie Lp is primo as expected. The title track and "Bang Bang" are rolling this week.... Still tops on the phones, Whitesnake, Newcity Rockers and The Cult.... My personal fave this week is the Thrashing Doves "Beautiful Imbalance".... And thank you, Blackfoot, for sending me to that Astros game on Saturday night.

David Hall, WKDF, Nashville

The Bernie Taupin Lp is much stronger than you might think. "Friend Of The Flag" got overwhelming positives on "Smash Or Trash", and that's a nighttime forum where I wouldn't expect it to do well. It's not like he's saving his best for Elton. This one is a top quality audience pleaser.... The depth of Gregg Allman's comeback is about to be shown. "Anything Goes" gets response just like "Angel".... Thanks to Eric McDonald and Atlantic for a great seat on the General Jackson. I always liked that song by Herman Brood, and it would be nice to see Rick Medlocke make it popular again.

Tempie Lindsey, KZEW, Dallas

As I cruised to the Improv Saturday night listening to Rick Medlocke wailing out "Saturday Night", I thought to myself, "Bill Collins, this is really cool." Thanks to you and Rick, I had a memorable Saturday night.

Stacy Yelton, WKQQ, Lexington

Bowie — wow! The Lp is just exquisite! It really is a return to rock and roll. I haven't been so excited about a song as I am about "Time Will Crawl" In quite some time.... Ditto Tom Petty.... Being a big Tom Waits fan, I was skeptical about Patty Smyth's "Downtown Train". But I'm a believer after one listen. It'll fly.... Finally found room for the Smithereens and Julian Cope. Welcome back to both acts.

Loris Lane, KFMX, Lubbock

Thanks to Robert Fleet of Stryper for an insightful phone interview and to Bart from Enigma for setting it up.... Had the chance to see Husker Du live last week and I was intrigued. My cat wants to thank the Relativity people for the catnip and...Hi, Dale!

Fred Leemhuis, KGRQ, Casper

Since Jerry Lachelt has left KGRQ, I'm OM/PD/MD and garbage collector. So the best time for music calls is Monday through Friday, 2-4pm.... Even though I'm not a Tom Petty fan, the new album is very good.

Steve Becker, WKFM, Syracuse

Looking forward to the upcoming Bon Jovi/Cinderella show. This has long been soldout, but we will be giving away free tickets and backstage passes to our listeners. We'll be doing a banner contest before the show, giving listeners a chance to meet the group. Thanks to Pat from PolyGram for the promotion.... From a local music standpoint, there are two groups who have recently released some new material that you might find interesting for your ears. One is called Rockin' Bones featuring a female lead singer with the style of Maria McKee.... And another group called Zoid who feature former members of a regional group, Alec Star. They're new single features great sax from Ernie Watts who's done session work with the Stones. If you're interested in hearing these groups, give me a call for a copy of the tape and single.

Doug Clifton, KBCO, Boulder

When you talk about rock in the 80's, one of the biggest influences of the decade is U2. A lot of bands have tried to imitate them but none will ever match their magic. After seeing the show in Los Angeles over the weekend, I'm that much more convinced that this is THE band of the 80's. Thanks to everyone at Island for making our trip possible, especially Andy Allen and Pat Marsicano! It was a great Easter holiday!... Meanwhile, back at the radio ranch, new vinyl from David Bowie, Tom Petty, Suzanne Vega and Little Steven rode into town.... David, Tom and Steven continue to spread their reputations around the country as rock and roll rebel rousers. While sweet Suzanne melts even the roughest toughest outlaw into a pile of trail mud. Out of the whole gang, Suzanne has grabbed a spot in my heart, Tom is as solid as a rock, David is still kicking dust in my face, and Steven was last seen heading into Indian country.... Some other rowdy characters to watch for riding through your town: the Long Ryders, Doug And The Slugs, The Cure, Colin

James Hay, REM, Jon Astley and Bernie Taupin. If they come riding into your town, just invite them in for a drink. They'll provide plenty of entertainment for the locals.... Thanks to those vinyl range riders who paid us their respects last week, the California kid (Del Williams), the Colorado kid (Todd Cavanaugh) and the Italian stallion (Ray Gmeiner). Thanks to Jayne Nozik for the U2 shirt.

Deb Brady, WXXP, Pittsburgh

The new Cure is a smash. It leaves me hungry for more.... A powerful song from Suzanne Vega, sounds like the hit that's due her.... Jon Astley's "Jane's Getting Serious" has sparked some serious phones, along with T'Pau, Hoodoo Gurus, Oingo Boingo and the Thrashing Doves.... The Lp for the summer is Fleetwood Mac's "Tango In The Night".

RADIO COMMENTS

Kim Poole, WMRY, St. Louis

A big thank you to all those wonderful and charitable people that made donations to our successful auction for Cerebral Palsy. We have no dollar amount but you'll be informed. Once again, Thank You! Thank You! Ted and I would also like to thank Mary at Atlantic for our "Saturday Night" with the Cardinals. Do we get beer money with that?... The new **Suzanne Vega** is hot. We had immediate phone response... **Scruffy The Cat**, what a hip band. Ted says next time send the female plant... **Little America** is a good rock and roll band. They will be coming to town in May, doing a \$1.01 show for us. If "Walk On Fire" worked for you (or even if it didn't) try "You Were Right".

Craig Marks, Homestead, 516-765-6200

Ok, maybe the cover to the **Big Dipper** record is way too brown, but that hasn't prevented good guys like WBCN, WFNX, WRAS, KEYX, KABL, WHTG, and more from discovering THE most infectious, smart and original pop record of 1987. See the video for "Faith Healer" on MTV's "120 Minutes"... **Salem 66's** (also from Boston) newest Lp "Frequency And Urgency" has found its way into the hearts and onto the playlists of KTCL, KLPI, WDCR, WNYU, WTOS, WDST and others, and seems to be a near perfect bridge between the folk literacy of Suzanne Vega and the rock charms of the Bangles. Expert production courtesy of **Ethan James** (Firehose, Minutemen) should make this a natural... Other great records to gush over: **The Pastels'** new Lp, **The Rhino Soul Collections**, and the latest **Mekons'** Lp on TwinTone... Totally bummed out by: **Meat Puppets'** newest, the existence of the **Washington Squares** and the complete demise of the **Del Fuegos**. Get a haircut Borkboy.

Duane Sherman, WTOS, Skowhegan

David Bowie returns triumphant. His new album is already generating mucho requests. "Glass Spiders" seems to be our secondary track so far... Also getting great phone action are the **Hoodoo Gurus**. "Party Machine" is what they're picking up on... **The Cure's** "Why Can't I Be You" jumped out of the box and into Top 5 phones. We have supported this wonderfully brilliant band since day one and we wait for the new double Lp... **Suzanne Vega** played to an enthusiastic crowd in Portland, Maine, and debuted her new single "Luka". She is one of the true joys of alternative radio... **Little Steven** has the staff in awe of "Treaties". This record hits you with a left-handed punch... **Relativity Records** scores a double this week. First, **Scruffy The Cat**. We had great success last year with "High Octane Revival" and we're looking forward to topping that with "My Baby"... How 'bout the long-awaited return of the **Deadboys**? Is it true that **Cheetah Chrome** will play **Kojak**? I guess **Martha Quinn** did leave a little of **Stiv** for the rest of us... Pick of the week: **Fatal Flowers**. This album is a real grabber. Don't overlook the cover of **John Lennon's** "Just Gimme Some Truth".

Jonathan Rosen, KEYX, Phoenix

"The Strong Second Track Department". The **Other Ones** "All The Love"; **Vigil** "White Magic Spell"; **Smiths** "Is It Really So Strange"; **Hoodoo Gurus** "What's My Scene"; **David Bowie** "Time To Crawl"; **Hipsway** "Ask The Lord"; **Saints** "How To Avoid Disaster"... Programmers who "lost" after playing initial tracks might want to check some of these out... Band Name Of The Week: **Honolulu Mountain Daffodils** on Import... Key Cut Of The Week: **The Cure's** "Why Can't I Be You".

Dave Anderson, WMAD, Madison

It's not very often that I can't wait for a record to arrive in my office, but that's the case with a song by a new artist named **Richard Marx**. The song is "I Don't Mean Nothin'", and with **Joe Walsh** on guitar, and background vocals from **Timothy Schimdt** and **Randy Meisner** this sounds like a lost track from "The Long Run". I think it will be a major rock radio song this summer... The new **Bowie** arrived last week and I was very pleased with it. I especially liked "Time Will Crawl" and "87 and Cry". For more information, check out the **Bowie** interview in **Rolling Stone**... I enjoyed visiting with **Craig Lambert**, the national director of album promotion at **A&M**, this past week... Thanks to **Louis Heidelmeyer** of **Elektra** for the backstage visit at the **Georgia Satellites** concert... Programmers with good ears will pick up on a song called "My Caravan" on the **Hoodoo Gurus** Lp. "Caravan" is a mesmerizing "Doors" like track... Late breaking news flash!!! "Ripley's Believe It Or Not" announced this morning a forthcoming special edition devoted entirely to the **Milwaukee Brewers**.

Karen Small, WGIR, Manchester

If you happen to be in L.A. this weekend, stop by **Carlos and Charlie's** as our own **Gretchen Von Krusscka** and **Jon Erdahl** broadcast **Live from L.A.** That's right, **Rock 101** is on the coast this week (at least part of it)... I'm extremely satisfied with the latest records from **Bowie** and **Petty**. Both these Lps show rock and roll at its finest. On the **Tom Petty** record I particularly love "Damage You've Done" and "Think About Me". These two tracks are clearly some of his finest... I was glad to see that **Bowie's** "Never Let Me Down" was such a solid rock effort after his two previous dance-tinged Lps. My favorites are "Time Will Crawl", "87 Cry" and "Bang Bang". These two tours will certainly be among those not to be missed.
