Def Leppard, "Women", Mercury... Now that "Slippery When Wet" has finally overtaken "Pyromania"'s 7 million unit mark, it's about time Def Lep lobbed the first volley of their second assault on the record books. The coming "Hysteria" album may have cost millions to make—but one listen will tell you they'll make that back in about a minute. It's clearly one of the group's most powerfully mass appeal efforts, and definitely not too rough for pop crossover duty. Face it—even their giant name and Mutt Lange couldn't guarantee the goods—and after getting past Rick's accident, producer changes, Mutt's crash—and the overall wear and tear of 4 1/2 years, we should all be damn glad that one of the originals is still the greatest.

Cock Robin, "Just Around The Corner", Columbia... What do women really want? Well, among other things they'd like their favorite station to lay out a little more roll in between the rock—and that's where Cock Robin gets the call. Though most programmers opted for wait-and-see on their last single ("I Thought You Were On My Side"), it did see action on over 50 stations and a number of majors. The eighteen months since then have seen a subtle shift toward softer, more adult oriented crossovers—and thanks to Ace producer Don Gehman, this new song is not only a major improvement, it's also much more in style. As for vocalist Peter Kingsbery, is this guy the new Gene Pitney or what?

Roger Daltrey, "Hearts Of Fire", Atlantic... I think we're all agreed that Roger deserves big points for flying the edge of the commercial envelope on his "Take Me Home" leadoff track—but obviously that masterful attempt will have to remain in album appetizer status. The main course? This carefully crafted one listen, made for radio hit. If it's slightly poppler than you'd prefer, take heart in that killer chorus and always distinctive sound, and realize you'll be dealing with a cross format challenge on this beauty quicko pronto.

RECORD OF THE WEEK

Jon Astley, "Jane's Getting Serious", Atlantic... Ah yes—the tune many thought was over weeks ago continues to pile up new stations at a practically unprecedented rate. Requests are what make America (and this song) great—and they just keep on coming. Our latest report finds "Jane" jumping 10-7 Most Requested, with 15 stations now listing top 5 phones. We've also got a meaty 31-22 Hard Hundred move, with 12 increases, 22 adds—and a total of 59 new believers over the past three weeks. And if that's not the portrait of a record that's seriously on fire, I don't know what is. KBCO's Doug Clifton comments, "The song gets great requests and just passed the Dead for Top requests. If you give this record a chance you'll have just as much success as we have"....Well, are you ready?

ALSO NEW THIS WEEK

Sammy Hagar, "Returning Home", Geffen... "Boys Night Out" may have the chart momentum with a 41-32* move—but we remain convinced "Home" is the real deal for now. That acapella punch-in a la "Jack And Diane" is can't miss, and you've gotta love all those changes. It's currently on 27, including KRQR, KGB, WDVE, KDJK, KGON, KICT, WDIZ, WGTR, WIOT, WKLS, AND WLNZ. 79-73*.

Joe Ely, "Lord Of The Highway", Hightone... Anyone remember the Band's old Spike Jones bit about hating to hear him sing but loving the way he talks? I surely don't hate anything about Joe—but it's definitely the guitar playing that distinguishes his work. The vocals are average plus, but this track's raw and raucous axe work is the true driving wheel, especially as heard on CD. If fooling around with real roots rock—and not some A&R guy's newly recruited version of same—is your pleasure, try the "Highway" on—it honks!!

The Replacements, "Alex Chilton", Sire/WB... Whew!! Talk about a tough record!! I'll state once more that "Alex Chilton" is one of the best new tracks on the street—and the best New Alternative to Mainstream crossover currently available. I'm happy to report that it was also the star performer in the "Great Bands That Radio Should Be Playing" category at my Album Radio panel at the New Music Seminar. From Larry Dunn to Jim Trapp to Oz Medina to Rick Carroll to John Hayes, and Rob Lipshutz, everyone was raving about this song. It's not weird, it's rock and roll—and totally mainstream. Lighten up—check it out—and you'll honestly be impressed. New at #92 this week, with current play on 30.

The Brandos, "Gettysburg", Relativity... I knew it was just a matter of time 'til Mike and the good folks at Relativity tied into a legit longshot—and here it is!! The quirky Fogerty meets REM harmonies drive us nuts, and the song itself puts most of the neo-garage/roots rock bands I've heard lately to shame—in terms of both writing and performance. And when's the last time you heard anyone work that Civil War theme? For great guitars, haunting vocals and the unexpected treat element, the Brandos are easily the best new act we've come across since the Smithereens.

Guns N' Roses, "Welcome to the Jungle", Geffen... Sure, Polygram still backs the big unit count outfits, but in terms of artist development in the Hard Rock sector, Geffen's the guys to beat. Hot on the heels of Hagar, Whitesnake, and Tesla, let's have a big hand for Guns N' Roses!! Noted A&R metallurgist Tom "Motley Crue" Zutaut heard that LA bar buzz early on—and the finished product here sports all kind of phone magnet riffs, and the right kind of Aerosmith/Stones/Sex Pistols/AC/DC blues roots overtones to do better than OK with the upper end of the spectrum. You might be confused at first, since there's a lot happening at once—but listen and test at night and you'll roll the add a week later, guaranteed.

Brian McDonald Group, "Life Is a Desperate Business", Columbia... And speaking of subliminal, hear this one a few times and tell us what pops into your mind. You'll notice nice guitars, workable vocals, and...toothpaste will pop into your mind!! Why? The chorus cops the best part of Close Up's "Get Closer" theme song. Hey, in over ten years of doing this on practically a weekly basis, I've never resorted to TV commercial tie-ins to interest radio in a record—but think about it. Hasn't that jingle had a rotation play for about three years now? Stranger things have happened.

Frozen Ghost, "Promises", Atlantic One of the highlights of their Philadelphia appearance on the recent tour translates beautifully to vinyl, n'est ce pas? Few new bands know how to build a huge cascading hook like these clever Canadians—and that Led Zep "All Of My Love" arrangement is a neat subliminal hook as well. Nice female touch on the fadeout, too.

The Hooters, "Satellite", Columbia.... It seems like WMMR has this baby in about a four hour orbit—and to our ears it stands up to the single, no prob. Our stats have it down for 10 adds, with "Karla With A K" the other active track, with WMMR, WPYX, WNEW and WYNF already in. Meanwhile, "Johnny B." goes 15-11 with our third best 20 increases, 60 heavy reports, and 153 station close-out play. Big calls as well—with 20 Top 5 mentions holding down the #6 Most Requested slot. Quotorama! Brian Wolfe, WGLU, "It doesn't take a brain surgeon to listen to the Hooters Lp and enjoy it. We're adding 'Satellite' with much more to come, I'm sure".... Anthony Alfonsi, WDVE, "When I wonder if I'm getting too old for rock and roll a record like the Hooters comes out and I say 'Naaah'. They've put together a five star special. Song for song this is a great Lp.".... Beaver Brown, KDJK, "There is only one way home, and it's with the Hooters. What an amazing Lp!".... Jeff Michaels, KSQY, "'Johnny' took a while to sink in for me, but the more we hear it the more we're sure this will be a huge track for them. I'm a firm believer that those songs that take a few times to hear are the ones that will hang out the longest"....

Tom Petty, "All Mixed Up", MCA.... Between the Seminar and a whole lot of vacations (or something), we turned up an inordinate number of Frozen Lists this week. So, while things are chilling out—in walks TP with this Report's #1 Most Added track. "All Mixed Up" lands 44, good for a #47 debut. Yo, roll the comments: Harve Alan, WCCC, "This week the quality of the Petty Lp continues to shine through. One thing confuses me. Why can't this band sell concert tickets in this area?".... Sky Daniels, KFOG, "We plan on putting 'All Mixed Up' on car radios cruising the Bay".... and from Robin Mathieu, WBLM, "It was time for a new cut and with album sales very strong, this one was just begging for airplay"....

Crowded House, "World Where You Live", Capitol.... Let's go to WRXK's Greg Mull "After two hit tracks, I don't understand any reluctance from anyone to play a third track. The album is selling, Top 40 is having huge success, and 'World' may be the strongest cut yet. This project deserves immediate attention".... It sure got a solid shot of that this week—as new air on 21, and 39 current rotation reports motivate a #70* debut. The album also picks up an underline, 38-37*.

Dio, "I Could Have Been A Dreamer", WB.... KSQY's Jeff Michaels tells us "Dio has his most accessible rock radio cut ever. He's definitely got the most recognizable voice in rock and roll and this one should be the track that could give him top 40 play".... If those guys are looking for an AOR base—Dio's latest has it: It's #3 Most Added with 30, on 78 after three weeks, and our fourth longest Hard Hundred gainer 60-39* Early top fives include KNAC, KFMH, KISS, KFMG, KNCN, and WLNZ.

Jon Butcher, "Wishes", Capitol.... Jon's deuce does it again—as 6 ups (KZEL, KSQY, KEZO, WEGR, WPLR, WRIK) and another 14 adds bring home a 54-44* Underline, also bulleting the album 40-38. Top 5 phones include KNCN, KWIC, KLLO, KSQY, and WAOR, with max status at KATT, KNCN, KQWB. KRXQ, KWIC, KZEL, WKDF and WKQQ... KSQY's Jeff Michaels comments, "This could be the biggest hit from the album. Jon's eloquent guitar work makes this song stand out from the pack. It has bite without being overpowering. Just great!".... WWCT's Paul Nelson adds, "We also gave the nod to Jon's 'Angel'..uh..I mean 'Wishes'. I wonder if Jon likes to burn things....like, maybe, guitars"....

Paul Kelly, "Darling It Hurts", A&M.... You've seen the comments—now scan the stats: Our man Paul blows in at #10 Most Added with 18—as 42 total stations move "Darling" onto the Hard Hundred at #81*. Key calls to date: KBPI, KRCK, KFOG, KRXQ, WBAB, WBCN, WEBN, WLLZ, WNEW, DC101, KMOD, KRQR, and WDHA. Also be sure to check out "The Executioner" for night play—already a major request item at WRDU.

Grateful Dead, "In The Dark", Arista.... This is the week they took it all! The single intensifies the lock on #1 airplay and requests, the album pushes ahead 3-1*, "Hell In A Bucket" claims 35 adds, as 79 total stations factor into our third longest 58-34* underline. Also very healthy activity on "West L.A. Fadeaway", moving 73-62* with 12 new and 45 now playing, and a 66-54* advance for "When Push Comes to Shove", new on 13 and current play on 46. As WRXK's Greg Mull says, "The dead is unstoppable. This album will be with us for a long time".... WPDH's Pam Brooks comments, "For me this is how to make a Dead Lp for the rest of the non-Deadheads. Take all the great stuff which has never managed to get onto vinyl over the years and put it all on one album. That way you get a collection of totally strong material that everybody can groove to"....

Twisted Sister, "Hot Love", Atlantic.... Is it working? Just ask WIOT's Jim Steel, who will tell you "This has developed into a very real record very quickly. After testing it a few times in the evening, the response was so positive we bumped it up to medium. It's amazing how many people didn't know who Twisted Sister was and the ones that did were pleasantly surprised". New play: KBPI, WBCN, WNEW, WRUF, KRNA, WKWZ, WBYP... Up on: WAQX, KLLO, KMBY, KSQY and WAPL. 45-41* on the Hard Hundred.

Patty Smyth, "Isn't It Enough", Columbia.... The second best track of her career stretches out 46-40—thanks to play-ups on WIOQ, WWZU, KSQY, KWIC, KZOQ, WAAF, and WUVA, WWTR, and WKQZ. Patty's got 13 adds, 77 to date, and max status at 5. Here's Anthony Alfonsi with the bottom line, "This should be the song that puts Patty back on the track to being one of rock's first ladies".

The Bears, "Fear Is Never Boring", PMRC/IRS.... The little record that could looks like it will, as it picks up more steam—in the form of adds at KYYS, WLWQ, KKDJ, CHEZ, WRKI, and KRZQ. Nice week, eh? That combines with ongoing action at WKLS, WBCN, WOUR, WPLR, KBER, WDHA and more to move the tune 93-76*.

Urgent, "I Can't Take It No More", Manhattan/EMI.... The best new hard driving pop hybrid on the street? Look no further. The new single starts with 19 adds—an excellent week considering the 44 station ceiling on the week's Most Added track. WOOJ's Steve Avery offers, "We've checked out Urgent and think it's the best hot rock we've heard in a long time".... From WWZU's Mark Williams, "Play it!! Great straight forward rock and roll with a hook big enough to catch anybody".... Again to KSQY's Jeff Michaels, "Easily the best song of the week, a natural add for any AOR. These guys are polished professionals that I expect to be around for along time".... And wait til you see the video—it's easily the best use of Vaseline on the lens since any Heart video you'd care to name.

“The Cure remain our #1 band. ‘Just Like Heaven’ from their new Lp has become a legitimate hit here in Boston. It should take you one listen to agree.”
BRUCE McDONALD, WFNX

“The Cure sits amazingly well with an AOR target audience and I don’t need to look further than a 4,000 seat show I sold out two nights ago to prove it. Even more stunning is the fact that Dire Straits didn’t sell out the same arena when ‘Money For Nothing’ was on the air at KTYD!”
RUSS MOTTLA, KTYD

“The band is doing great in Hartford—Top 10 album and single sales! Rock radio and CHR alike should NOT avoid the Cure.”
HARVE ALAN, WCCC

“‘Kiss Me, Kiss Me, Kiss Me’ said The Cure. The concert is selling quickly. . .and if you’re as sick as I am, get The Cure. Simply elegant.”
CATFISH, WHMD

“‘Why Can’t I Be You’ has been such a success for us, we added ‘Just Like Heaven’ as our second cut. The retail has been great and we look forward to their concert at Red Rocks.”

Charlie Daniels, "Bogged Down In Love With You", CBS Associated.... At this rate, Charlie's gonna get'em all before he's through! This week's wash turns up yet another 16 stations, making it 97 to date, with heavy air on KQRS, KSHE, WHCN, WKDF, WPLR, WRCN, WWCT and several more. "Bogged Down" jumps 35-29*, with increases from KSHE, WHTG, WAQX, WKWQ, WRIK and WWZU.

The Beat Farmers, "Dark Light", Curb/MCA.... The Beats bounce back with their second solid week—and the charts to match: "Dark Light" lands 26 adds, as 70 stations to date and increases at KZEL and KMBY motivate this report's longest 82-56* underline. Greg Mull predicts, "The Beat Farmers are yet another in the long line of hot roots rock bands, and this will be the track to break them at AOR. 'Riverside' did well last year and after the success of Omar, Cruzados and other rock traditionalists, I think the AOR audience is primed."...

The Saints, "In The Temple Of The Lord", TVT.... Whoa!! Check that KGB add!! It's also new on KATP, WDHA, WHMD, WKWQ, and KEYX. The Hip Clip is right around the corner, so keep your ear to the ground!

TAKE TWO

Motley Crue, "Wild Side", Elektra.... The fans picked up on "Wild Side" as soon as the album hit the stores, and reports of requests without airplay are not uncommon. We see it as the next logical step after "Girls", and 11 reporters take the bait and make the move this week. WYNF, WAQX, KAZY, WHJY and WBYS all go for the gusto, as the total playing climbs to 40. Chartwise, check out the dignified 85-71* HH jump.

Suzanne Vega, "Solitude Standing", A&M.... Suzanne proved she could play ball with the big boys when she brought home "Luka", and now that top 40 has taken over, we're ready to stand up for the title track. 28 reporters have already made the switch (8 just this week) with WLUP, WIOQ, WONE, WBAB, WCCC, WDHA, WPYX and WOUR leading the way to the dignified HH debut at 83*. The phones have picked up on the new track too with WMAD, KGRQ and WIZN reporting top requests, and with retail continuing to hang tough in many markets, how can you hold back on one of the most significant breakthrough projects of the year?

The Truth, "Until It Burns", I.R.S.... The Truth pick up a big 12 adds this week, as "Burns" starts that kick into overdrive we've been waiting for. New this week at WRCN, WEGR, KRQR, KLOL, WLAV, KSHE and KAZY, and bolstered by increases at 3, the cut jumps 10 positions on the 'Hundred 65-66*', with a total of 56 reporters now playing...

Joe Walsh, "In My Car", Full Moon/WB.... Joe chaws through the competition snagging another 22 adds (WRCN, KGB, KSHE, WAAF, WKDF, WPLR), for "Car" while the good vibrations of "Fun" find a home at 5 stations this week. There's really no question in many programmers' minds that this is the best work we've gotten from Joe in quite some time. 59 total now go for gum "In My Car", moving the song 62-45* on the HH.

Dan Fogelberg, "It Doesn't Matter", Full Moon/Epic.... This one's got that slow and steady growth pattern that classics are made of, and the 6 adds this week move that total playing to 40. WWCT's Paul Nelson is cashing in on the hometown connection, "That built in familiarity from local boy Fogelberg has given us a great 25+ song".... KSHE, WZEW, and KZOQ all increase play this week, as "Matter" gains 4 positions on the chart HH 71-67*.

Roger Waters, "Sunset Strip", Columbia.... Roger's solo projects always seem to hit when the weather's hot, so the big question here is, is it the song or the temperature that makes "Sunset" such a great summer driving tune? We dunno, but you can be sure you'll be hearing "Radio K.A.O.S." all season as long as tops are down. A solid week, as 9 more go on "Strip" (WQFM, WLWQ, WEGR, KILO, KBPI) with increases at 10 behind the 42-35* HH chart move.

Richard Marx, "Should Have Known Better", Manhattan.... Next up for "Wasn't he an Eagle" Marx is this even tempo-ed number, and if you haven't gotten the chance to check it out, now is the time. We registered 12 adds (KBPI, KRZQ, WDIZ, WLZR, WPLR, KLBJ) boosting the total on to 21 this week. If you still don't believe that Richard is one of the hottest new rockers out there, be sure to catch the band on one of the various club dates going on; the raves are phenomenal. And if he's expected at Yourtown, U.S.A., you've got to consider this truly exceptional track; debuting at #91* this week.

Ace Frehley, "Rock Soldiers", MegaForce/Atlantic.... It was just last week, Chip Hobart clued us into the true meaning behind "Soldiers".... "This song is the story of Ace and the Comet's lives. I mean, this is what they're all about!.... We caught 'em live ourselves a few weeks ago, and we know what 'cha mean, Chip! Hey, Rock and Roll is hard work! But, it's paying off for Ace as he picks up 8 adds this week (KAZY, KRZQ, WAQX, KNCN, WPDH, WYNF), as the total on climbs to 17. With momentum like this, you can expect a HH debut next week, no problem...

Mason Ruffner, "Dancin' on Top of the World", CBS Assoc.... It didn't take long for Mason to find a home at rock radio with "Gypsy Blood", and "World" is a natural followup. 'Twas a big add week with 20 coming in (KILO, KLOL, WLLZ, WSHE, KGB, WAQX) with 3 increases surging the track 89-64* HH for the second Biggest Mover of the Week (some say second only to Sutton, who was busy with moves of his own this week at the NMS). 47 are now playing, with KFOG, WHCN and WPLR all spinning in heavy rotation.

Fabulous Thunderbirds, "How Do You Spell Love", CBS Assoc.... "Stand Back" does even more damage to the top of the HH this week with a bulletted 11-9 move that even Stevie would be proud of. But for programmers in the know, we're seeing movement towards "Spell" with 17 already playing, 3 of which (KILO, WLAV, WRDU) committed this week. Action, though early, has enough pull to debut the track HH 99*, and we expect follow through to be fast and furious.

Warren Zevon, "Detox Mansion", Virgin.... Have you checked your sales report lately? Warren has truly made a comeback with "Sentimental Hygiene", and your retail sheet if not your ears should prove that there's plenty of Zevon's wit to go around. "Detox" picks up 18 adds this week with DC 101, WQFM, KRQR, KRXQ and WMGM coming in; increases registering at WPYX, WDHA and WRCN contribute to the quantum chart leap of 19 positions on the HH (80-61*), as the cut comes in as the #5 Biggest Mover of the week.

MAJOR RETAIL REACTION!!

Lew Garrett, Camelot Music, Canton OH
"Sales started out like a house on fire!
This is a career making album and will be
the biggest yet for Starship."

Lenny Leon, Pacific Coast One Stop, LA
"Another success for the Starship with 'No
Protection' blowing out the doors."

Tesla, "Rock Me To The Top", Geffen.... With 2 solid AOR tracks under their belt, Tesla comes back with yet another bonafide rocker, and the phones are already teslafying at KRXQ and KISS with top 5 response. Added this week at 13 (WAQX, WBYR, WRCN, WYNF, WTPA) as the total playing grows to 29. KSQY's Jeff Michaels found the room for the next track, "'Modern' and 'Suzi' did so well in both requests and retail that we felt we owed the band another shot".... "Rock" debuts this week #90* HH.

The Call, "I Don't Wanna", Elektra.... All indicators point for major breakthrough just around the corner as 9 more take the plunge, including WPDH, KLOS, WIXV, KZEW and WAPL, with 10 increases giving "Wanna" what it needed to climb 33-30* on the Hard Hundred. And week after week, reaction continues to focus on Michael Been's dynamic performance. WGLU's Brian Wolfe, "This current Lp is emotion-packed rock to be reckoned with".... While KQDS' Wade Linder calls Been's vocals "Infective angry emotions in song"...109 are now on with plenty of activity predicted for the coming weeks.

Jeff Paris "Saturday Night" Mercury/ PolyGram With Summer finally in full swing, a decent party tune like "Saturday" shouldn't have too much trouble getting the airtime it deserves, and so far so good as 6 more find the room for Jeff with KATT, KAZY, KLAQ, WTPA and WRKI on this week, swelling the ranks to 48. KBAT's Dru Dawson calls it a "Definite blow the top off any Trans Am kinda tune"... We call it a natural for nighttime or anytime party song. A 7 position jump this week greets Jeff on the HH with a 76-69* advance.

The Silencers, "Painted Moon", RCA.... It's hard to keep a good song down, and the Silencers reel in an impressive week with 13 more adds (KILO, KZAP, WKDF, WIOQ), 4 increases (KBPI, KMBY, KPOI), and as many raves as there were spikey dcos at the NMS this week. KEZE's Brewski Michaels says it all, "I can't say enough about the Silencers. We feel it's the best crossover tune of the past several months. We're getting great 18-24 female response out of it with 'Bitchin', 'RAD' and 'Totally Awesome' coming from the phone after it's been played".... Total on climbs to 76, as the song continues it's impressive chart mauling with a 59-50* HH advance.

Robert Vaughn and the Shadows, "Justice", Exit/Island.... Robert fights his way to the top of the Listening pile and earns 11 adds this week, as the onslaught of product subsides long enough for the Shadows to strut their stuff in your music meeting. 18 total playing so far, with many pleased with what they hear, but unable to squeeze it in. We're convinced this is the kind of record you MAKE room for. Ears that hear include Pam Edwards, David Anderson, Jim Trapp and KYYS' Ellen Gerdes....

Marillion, "Incommunicado", Capitol.... And the lovely Kelly Cruise comes up with yet another comparison for the band this week, "Sounds like Yes fronted by Pete Townshend; instant phones".... Personally, we're starting to get into the other side of the comparison coin, where we catch the tail end of a Genesis song, and accuse them of sounding like Marillion! (Hey, we've got to find something to keep us busy during Low Flying Duck season in Medford Lakes). But that's o.k., Fish doesn't mind. "Incommunicado" continues to dazzle and amaze with a strident 28-24* on the HH, after 10 more add and 9 increase. Who out there isn't on this cut? Come to this party soon, or you'll be missing one of the highlights of the year.

Little America, "That's The Way it Stays", Geffen.... KRIX's Joe Kelley predicts this cut "Should stay on top once it gets there. We like it even better than 'Walk on Fire'".... We're noticing a similarity in the growth patterns between the two songs; a consistent build that doesn't overwhelm, but does make an impact; and we all know what happened when the first cut finally hit home.... How many weeks on the Most Requested? 7 more stations add this week, as the total grows to 39. On the charts, "Way" moves 77-72* HH, the album: 54-52.

Los Lobos, "La Bamba", WB.... Much to the distress of Motion Picture Execs, it's really not all that often that a leadoff title track to a soon-to-be-released "Box Office Smash" does its job, i.e. catches the attention of the public and positively represents the movie in question, while zooming to the top of the charts. This time around, Los Lobos and the movie "La Bamba" have worked as perfect vehicles for each other, creating excitement for the movie (which is pulling rave reviews), and exposing Los Lobos to a relatively new audience, on the Top 40 side. And talk about hooks, go ahead and confess that you've been making up words to fit this song since you first laid ears on it. "La Bamba" picks up 11 adds this week with 16 increases doing a number on the HH chart (39-31*). On the rave side, LIR's Larry Dunn tells us it's the "#1 most requested song and Screamer of the Week. A Summer hit or what?"....

Europe, "Carrie", Epic.... Does this band have drawing power or what? Just when you thought Elvis had left the building, they're back with the song we all heard, most liked and some played earlier in the life of this album. 5 adds this week (WGLU, WKDF, WSHE, KRIX) 7 increases and phones ringing at 9 is just the beginning of the flurry of activity in store for this solid track.

Pete Bardens, "In Dreams", Cinema/Capitol.... Critical ears are picking up on Pete's latest foray, with KFOG, KYYS, WMMR, WKLS, WLLZ and KRXQ already on, and 5 adding this week. If you're leaning sophisto/adult at all, you know you should be on this quality piece. 23 are already playing as the cut advances 100-95* on the HH..

Monday and Tuesday

10am - 7pm EST

Wow. Back from New Music in the fabulous Marriott Marquels de Sade, in the heart of Manhattan's Theatre District. That would explain all those painted ladies in front of the hotel. Like all good Marriotts, the first thing you see is that portrait of the Old Man and Junior. Ever wonder why they're smiling? If you were a Mormom selling that much alcohol, you'd smile, too. Uh, I don't want to say there were a lot of Mexican meals, but the hotel had to install speed bumps in front of the rest rooms. Great doing shots and Carta Blancas with Kim Alexander and Slats, slot car racing with Howard Glassman in the Atlantic Suite, teaming up with Michael Abramson in the lounge (Michael: "The building is moving. The bar stands still.") and closing the joint down with Kojan, Trapp, Dahlman and Hard. Nice panel, Bill.

I think Abramson spoke for a lot of us mid-to-upper thirties types when he said "I'm so proud of Bone. He's the first one of us to make it big." It's important.

And now, the NOISE...

GABE THE BAPTISTE

"This was the one I really, really wanted," says new KBPI PD Gabe Baptiste. "So I went for it with everything."

Gabe, who until three months ago was PD at WINZ-FM (now WZTA/Miami), also programmed WXLP/Quad Cities, easily making him one of the first Children of a Lesser Quad.

When I informed him that he had made the mistake of going to a town with no baseball, Gabe noted that they get the Royals on cable. Oh boy, hemorrhoids at third base. He then launched into a death-bed Harry Carey that makes him my favorite Impressionist since Renolr. Cubs fans would need a voice print to tell the difference between the two.

"We've got to start leaning on our heritage more," says Gabe, referring to Step 1.

The station has a new morning team in place: JR Edwards (not to be confused with John Edwards, the MD, uh, make that the Asst. PD since last Friday) and Steve Nikazy. Yeah, I noticed that spelling, too. N-I-KAZY. Better change that one in a hurry.

On their feet: KISS' T-Bone Schepcke, Gary Moore, KISS' Debby Alcocer, Donna Keller and Jimmy Christopher. On their knees: Virgin's Bonnie Stacy and Jeff Naumann.

DESERT TOPPINGS

In other Sandusky PD news, you can now call the Phoenix ARB a Gelger Counter — Chuck Geiger is the programmer at KDKB.

"Yeah, 'Acting' PD, but they gave me the raise, I got the cards and they moved me into the office," laughs Chuck.

"I love the company, but a couple of years ago they tried to run all their AOR's like KBPI and it was nothing but trouble," admits Chuck. "Everybody went out here in trucks."

"Well, perception is reality. They want us to play rock & roll. The call letters signify that. That is what we are doing," says Geiger. "Hey, (Programming VP Jeff) Sattler's put the fixtures back on the station from when it was successful — the things Jeff, and his predecessor, Jon Sinton — had done to make this place happen..."

Hey, the place is the Carrot.

"And the Carrot is playing rock & roll again," says the adamant Gelger.

Gelger came back to AOR last year, after a stint in CHR. He had stops in Denver at K-Peak and KAZY, St. Louis at KWK and we seem to remember one in Kansas City as well.

THE BREAK FROM HELL!!!! Sam Kinison in the WBCN studios with Parentau. AAAAAAGGHHHH!!!! And really, just who is their decorator?

SUNRISE SEMESTER

Though the ink hasn't hit the paper yet, the WAPI/Birmingham morning team of Brian Phelps and Mark Thompson will go to LA, giving KLOS its first real, honest-to-God AM drive in nearly a year.

Look for them to hit town in August, and be on the air in September.

ANOTHER ONE BITES THE DUST

KMMX/Antonio has gone AC.

"It's the completion of the transformation," notes PD Lee Roy Hansen.

"We had gone as far as we could go with Adult AOR. The cume just sat at 60,000 while everybody else knocked down 120,000. We couldn't go on doing the same thing — there just wasn't enough audience," adds Hansen.

"People would come in from Dallas or Houston and say 'I wish we had one of these in our town.' But making it happen here was just too tough," says Lee Roy.

Is this the dumbest thing you have ever seen? The next time someone says "Y'know, a dollar just ain't what it used to be," show 'em this.

Old George looks like he just had a "Big O", doesn't he? He ought to. Stock in him has gone up.

I could do one of those "Isn't sad when something that says 'In God We Trust' can't be trusted" pieces, but let's face it: The moon is in the 7th house, Jupiter has aligned with Mars and this is the dawning of the Age of the Service Industry. More kids and old people than ever are behind cash registers and I guess it's up to us to take advantage of 'em. Forget that you've bought Park Place and the Reading RR with less funny-looking money -- the young and the feeble will give you fries, a coke and \$18.75 in real money back as change for one of these. We tried these on you at New Music, but even none of you fell for them.

Hardest hit by the bogus currency was HR Editor and Publisher Bill Hard who received five of the Reading Twenties in a bar the other night.

"It was dark," tendered Hard. "Besides, those tassels have an almost, uh, hypnotic effect, babe."

ROGER WATERS PRESS CONFERENCE

Rapp tells us that Columbia is offering a live Roger Waters Press Conference at 10 PM Eastern, August the 4th.

The conference will be one hour long and originate from Abbey Road Studios.

This will be your chance to ask Roger just how bad WWII scrambled his eggs. Jim Dal Balzo will accompany two DJs (named at a future date) for the Q&A. They'll probably take your taped question as well.

The Roger Conference is being offered on a non-exclusive basis. Get a hold of your local Columbia person for more details. For any technical info, ring Michael Hughes at the Source.

By the way, if you thought the Waters LP was into radio, wait'll you see the show. The stage is a radio set and Jim Ladd (KLOS, KMET and "Radio Waves") will travel with Roger and play a substantial part every gig. To add to this, Waters is toying with the idea of adding local DJs at every stop.

ADVENTURES IN MOVING

Jim Spector is the Interim MD at WMGM/Lannic Cjidy. Al Branca is out.

PD Paul Ingles is out at KKBR/Albuquerque. He had been PD for only two or three months. "Philosophical differences." Reach him at 505-888-1684.

STEVE SUTTON

CFNY's Don Berns knows great bookends when he sees them. That's Robin Duke (SCTV/Saturday Night) and Samantha Taylor (CBC's "Video Hits") in SenseARound.

PICKS

THE RED HOUSE "THERE IS A WINDOW"

(RANDOM) The album debut from New Jersey's Red House puts the "new kid on the block" cliché to bed with some of the most tempting new sounds found on the indie scene. They draw on a wide array of string work and make it fly as Tony Stives and Bruce Tunkel unleash enough modern melodies to unhinge even the most jaded listener. It won't be long before the A&R community does a double take. With a natural feel for 80's vox-pop hooks, this group boasts an undeniable musical chemistry for arranging formula to their advantage in "Rain"; "Chances"; "This Nightmare" and "Pray". Watch the piano treatment strike the right key at your station. Contact: Random Records, 330 S. Union Ave, Cranford NJ 07016.

NEW MODEL ARMY (CAPITOL) Although some tracks might be familiar, this 8-pack is a reminder that N.M.A. could finally be touring your town, as they finally bring their lyrical sting to live stages in America. It's time to continue the commotion, and re-focus on their praised performances with "51st State", "The Hunt", "Chinese Whispers" or "My Country".

FRENCH, FRITH, KAISER, THOMPSON "LIVE, LOVE, LARF, LOAF" (RHINO) This awesome foursome brings together a track record of collaboration, and experience together from the far reaches of the earth, as they launch experimental rock patterns toward an unknowing but soon to be receptive listenership. Within the confines of John (Capt. Beefheart) French's smooth but erratic rhythms, guitarists Richard Thompson (coming off his stunning "Darling Adventures" Lp) and Henry Kaiser (Golden Palominos/Crazy Backwards Alphabet) swing and pick through a guitar improv refresher course in peak form. Add one Fred Frith who went even further underground after the Henry Cow era and it's cause for celebration - but just a spin will do. Cut your teeth on the off center version of "Surfin' U.S.A" or delve into the unknown with "Where's The Money"; or quiet calm of "Bird In God's Country".

Single File

CURIOSITY KILLED THE CAT "MISFIT"

(MERCURY/PG) It's a simple segue into the curvaceous danceable groove of this single, especially with four mixes to indulge in. Some of the vocal moves are filled with wonder, but it's just another hook in the bag that's all in good time...

CHARTSTARS

THE REPLACEMENTS "PLEASED TO MEET ME" (SIRE)

Not only the "major" buzz at this year's NMS, "Alex Chilton" rotation finally drives this Lp to a much deserved 1* spot with room to spare on "Can't Hardly Wait", "IOU", "Dirty Pool" and every other track 'round the disk. The single is new at KIL0, WLZR, WNCS and WZEW to continue the crossover with Power status at WHTG and WLIR and solid ground at many more including KZEL, WMAD, WBRU, KTYD, WVVV, WTOS, WRAS, WFNX, KIL0, KQWB (requests) WXXP and a host of important others (you know who you are). The "Alex" checks in at 14* this week.

ECHO AND THE BUNNYMEN (SIRE)

A long awaited Lp of prime material is at hand from Echo as it jumps once more to a Top 10 seat second week in! "New Direction" is at over 30 so far (KEYX, KRCK, KTCL, KABL, WBCN, WEQX, KROQ, WFNX, KJET) with "Lips Like Sugar" and "Bed Bugs" gaining early reaction shots. Deb Brady at WXXP knows, "The new Lp is fabulous! Not a weak track so don't overlook it".... Lenny Bloch, WRCN sez "If you spend some time with Echo And The Bunnymen you'll find room. These guys have painted a masterpiece." A tour is planned for an early fall appearance of Echo, New Order and Gene Loves Jezebel, all on one hot ticket.

PAUL KELLY AND THE MESSENGERS

"GOSSIP" (A&M) With all of the strong material found on Paul's stateside debut, this one could wind up as Record Of The Week for issues to come. "Darling It Hurts" straight forward approach and "organic" properties makes this one track that's off to a flying start in the AOR spectrum. New at 29* Alternative/New at 81* Hard Hundred as 23 stations give it the go for a total of 42 now playing. Jonathan Rosen, KEYX was "Impressed with the debut. It has instant commercial appeal with subtlety that reminds me of early Tom Petty material."

THE BEARS (PMRC)

Take a look at another success story that started with the stations who report here as "Fear Is Never Boring" tackles a "Hard" Hundred moving 93-76* this week. Adrian Belaw has carved his niche firm and solid and comparisons as sketchy as Men At Work have surfaced! Now at #11 hard Alternative.... WOUR's Tom Starr points out, "Programmers who recognize creative brilliance good enough to challenge an audience and win are taking notice of The Bears."

THAT PETROL EMOTION "BABBLE"

(POLYGRAM) This Lp solves the piece to the musical puzzle: audiences will go for the psychedelic mixtures laced with a rhythm impulse for good measure throughout. "Big Decision" is at WLIR, WRVU, WFNX, WHFS, WTOS, WXXP, KEYX, KTCL, WHTG, WRAS and KRCK where Paul Kriegler says, "We're all over this one." Building to 22* this week - don't stop now.

DUANE EDDY (CAPITOL)

Duane is about to schmooze the rest of the AOR community with a servicing from Capitol and the new single will be "Spies". Don't rule out "Rockestra" or "Kicking Asphalt". Here's an air check: WHFS, KZAM, KVRE, WOXY, WRAS, WRVU, WWVU, WXCI, KABL, KTAO, KUSF, WOXY, WMDK, WBNY, WFNX to be continued...

[Rent-This-Space-For-Your-Face. If you'd like to share Seminar, station, promotion pix with with the Hard fellowship, send 'em today!]

ICICLE WORKS "IF YOU WANT TO DEFEAT YOUR ENEMY..." (BEGGARS BANQUET)

"Understanding Jane" paved the way for an album release this week featuring "Who Do You Want For Your Love" and "Sweet Thursday" for starters. Thanks to adds at KATP, WXCI, KBLE, KROQ and KZAM plus ongoing play to 15 more including WLIR, KABL, KEYX, KFMH, KJET, WEQX, WHFS, it's new at 48* this week. (Beggars Banquet has opened a U.S. office through Thirsty Ear in NY - see 7/10 Noise. For more information call 212-997-0959).

Still Bubbling...

TSOL "HIT AND RUN" (ENIGMA)

It's a shame that Lp's which defy categorization tend to get left behind, but the core stations supporting this fine band still hold a firm commitment to "The Name Is Love" and have found obvious secondary tracks to compliment. Try "What Have I Done" - a raging bluesy ballad; "It's Too Late" or the title track if you can't hold the 12". Back to reality: It's at KEYX, WRIK, KLAQ, WEQX, WTOS, KISS, KNAC, WBNY, WOXY, KABL, KRCK, WRVU, WWVU and more.

Eddie Trunk's Metal News

Overkill has parted company with their drummer Rat Skates. rat announced that he would be leaving the band shortly after Overkill wrapped up two months of American touring with Megadeth and three months of European road work with Helloween. This is the reason Rat will be leaving the band, he didn't enjoy being on the road for long tours. The split is taking place on a very friendly basis and Rat will remain close with his former bandmates. The last two shows Rat will play with Overkill will be taking place tonight and tomorrow night at L'Amour. After this weekends shows Overkill will play some headlining dates with a temporary member by the name of Mark Archibule. Mark will play live with the band until a final decision for a full time replacement is reached. Mark had done brief work in the past with Warlock. Rat's final album with Overkill will be a new live EP the band will release next month.

Black And Blue has entered the studio to begin work on their next album tentively titled Survival. "Survival" is also the name of a track from the new album that was written by the band and Ted Nugent. There is a slight possibility that Ted may make a guest appearance on the new LP. Like last year's Nasty, Nasty album, this record is also being produced by Gene Simmons.

Follow-up story on John Sykes new band: The group will be called Blue Murder and features the lineup of Sykes on guitar, Ray Gillen (ex- Black Sabbath) on vocals, Cozy Powell (ELP, MSG, Whitesnake) on drums, and Tony Franklin on bass. Blue Murder is currently writing material and negotiating label offers.

The Party Ninjas made another appearance last month at an Armored Saint show in L.A. This time names such as Don Dokken, Vivian Campbell, Joe Lynn Turner, and Vince Neil all gathered together to jam on stage. The last time the Party Ninjas struck it was also in L.A. and featured performances by Paul Stanley, Tommy Lee, and members of Autograph. At the most recent appearance the all star lineup played such classics as "Jailhouse Rock", "Whole Lotta Rosie", and "Jailbreak".

METAL NEWS

Metallica is currently mixing their new album. It will be an EP that will apparently be released sometime in the fall. Also, another twist is that the record will contain all covers. I'll bet you're asking yourself the same question that I am - Will "Am I Evil" and "Blitzkrieg" finally be released domestically? They are covers, right? Sounds logical, right? Hate to disappoint you, but you'll have to wait and see just like the rest of us.

Mercenary Records will be releasing four albums within the next three months. The first will be from Canada's Kick Axe. If you recognize the name, it's probably because this will not be their first American release. The band released "Welcome To The Club" on Epic Records back in early 1986. Now comes "Rock The World" which features a cover of Fleetwood Mac's "The Chain".

In September, Mercenary plans to release albums from New Jersey's Attacker, Connecticut's Sacred Oath and New York's Meanstreak, an all-girl metal outfit. For Sacred Oath and Meanstreak, these will be their first albums. For Attacker, this release will mark their second. The first was an album entitled "Battle At Helm's Deep" which came out on Metal Blade Records.

Combat Records has a new National Press and Publicity Director. His name is Ken Kriete and he is a veteran of the underground metal scene. Ken tells me that Combat will be releasing a new concert video entitled "The Ultimate Revenge Part II". The full-length video will feature three of Combat's most popular acts: Exodus, Nuclear Assault, and Heathen. The concert will take place at the Country Club in Los Angeles in late August.

Speaking of videos, Metal Blade's head slasher, Bill Metoyer, produced the brand new DRI video at a recent gig at the Ritz in New York. Metoyer called it one of the most violent concerts he has ever seen. Love them bumps and bruises, don't you Bill?

Canada's Annihilator have signed a major management deal and will immediately begin searching for a label. According to a well noted New York underground expert, if no deal is had the band will begin recording an album that will allegedly be financed by their new management and released on their own label.

Fates Warning still does not have a vocalist. If you think you have the vocal chords to front this veteran outfit, contact Metal Blade Records.

One of the hardcore/thrash crossover top outfits, HIRAX, have reformed with the original members all returning. Original members included John Morales, Scott Owens, Jerry Manardo, and Katon DePena.

Lizzy Borden's new disc will hit the streets in August. The vinyl was produced by Max Norman (Ozzy Osbourne, Malice, Y & T) who says that the album is going to be a killer. He is currently mixing the album in Connecticut.

Germany's Destruction are apparently searching for a new deal. They are currently in the states playing a string of dates. It's alleged that their deal with Steamhammer in Germany has expired. Should not be long before this dynamite force inks a deal.

Omen and Liege Lord are out on the road together. Speaking of Victory, they have just remixed their EP with Michael Wagoner (Raven, Accept) entitled "The Check Is In The Mail". Victory features vocalist Charlie Huhn who has worked with Michael Schenker and Ted Nugent. The band also features ex-Accept axeman Herman Franks.

Finally, here is something that will leave you with a good taste in your mouth. Rumor has it that MSG (McCauley-Schenker Group) will be going out on tour with Whitesnake following the completion of Whitesnake's Motley Crue support slot. I don't know about you, but this sounds more tasty than Motley Crue/Whitesnake. Until next time.

Los Angeles disc jockey Jim Ladd will be going on the road with Roger Waters when he begins his "Radio KAOS" world tour in Providence, Rhode Island. Ladd will open the concert with a radio show, and perform his spoken segments from the "KAOS" album. "The concert's going to be like a real live radio show, with the band showing up to play over radio station KAOS," Ladd says. "Waters is going to perform the current album tracks as well as some old Pink Floyd hits and some new songs, all of which will fit into the theme of the show. It's going to be a full-blown extravaganza. If you're expecting Pink Floyd theatrics, you aren't going to be disappointed — you're gonna be stunned." Paul Carrack, Andy Fairweather-Low, and sax player Mel Collins will be part of Waters' touring band.

The Grateful Dead/Bob Dylan concert at Sullivan Stadium in Foxborough, Massachusetts grossed \$1.3 million, the largest amount for any event at the stadium, including New England Patriots football games.

Bonnie Raitt's next album, which features several tracks produced and written by Prince, will be released on Prince's Paisley Park record label.

Showtime will carry portions of the concert for peace that was held in Moscow on July 4. The Doobie Brothers, James Taylor, Santana and Bonnie Raitt participated in the American/Soviet rock concert.

Rod Stewart has recorded a new version of Sam Cooke's "Twistin' The Night Away" for the soundtrack to "Innerspace." It won't be the first time that Stewart has recorded the tune. He included the song on his "Never A Dull Moment" album.

Davy Jones is putting out an autobiography called "They Made A Monkee Out Of Me."

Some people who live near London's Wembley Arena are upset with plans for Madonna to do three shows there next month. Over 100 residents of the neighborhood around the stadium have begun a petition drive, saying concerts lead to "drunken fans littering gardens and vomiting in flower beds."

Former Culture Club member Roy Hay is calling his new band This Way Up. The band has a single just on the British charts called "Tell Me Why."

Siouxsie & The Banshees have recorded another cover version. Their version of the Doors' "Hello, I Love You" will appear on the soundtrack to the film "Lost Boys."

CORRECTION: The members of Motley Crue did not have trouble paying their bill at the Hard Rock Cafe in Chicago, as previously reported. The Chicago Tribune had reported the incident, but the newspaper now says that it wasn't Vince Neil and his bandmates, as customers and the restaurant's manager had claimed. In fact, the newspaper now says the incident involved Dana Strum and other members of the Vinnie Vincent Invasion. "A lot of rock stars look a lot alike," says Andrew Schunn, manager of the Hard Rock Cafe.

Nazareth have released their 19th album, "Cinema."

Jack Blades, vocalist and bass player for Night Ranger, says the band is a bit disappointed that the band's "Big Life" album hasn't done better in the four months since its release. "We're a rock band and the record company likes to release ballads because we do them well," Blades explains. "And it's constant turmoil with them over that kind of thing. But this is just the second week of the tour and we're glad to be out on the road." Night Ranger are touring with the Outfield, and will continue to do so after U.S. dates end in Memphis, Tennessee, on July 26. "We're going to Japan and Mexico and then come back and headline or do a major tour," says John Spinks, guitarist and vocalist for the Outfield. "We know it's unheard of for a band to go to Mexico, but we're big down there."

Bass player Tom Stevens has left the Long Ryders, on the eve of a two-month tour by the group. "He said we toured too much, and he wanted to be with his wife and children," says Sid Griffin, leader of the band. Stevens has been replaced by Larry Chatman, formerly of Funkadelic and the Robert Cray Band. "He's better than Tom," Griffin says. "He's conservatory trained, and, thank God, he has no domestic ties like Tom, who carried a guilt thing around with him because he wasn't with his family. It really made it awkward."

Former Genesis guitarist Anthony Phillips has released his 10th solo album since leaving the group. "Slow Waves, Soft Stars" is also the seventh installment in his "Private Parts And Pieces" series, which he began in 1978.

Shooting is scheduled to begin in October for Phil Collins' film role as Buster Edwards, one of the two men behind Britain's Great Train Robbery of the 1960's. Julie Walters will play his wife in the film, which Collins describes as "a love story and a comedy." He says he's looking forward to working with her. "I've been a fan for years," Collins says. "We hit it off straight away. Even my wife says we'd make a good couple." Collins says he'll play the character as someone with a "devious side to my character."

Queen guitarist Brian May has written and produced a song for Anita Dobson, one of the stars of Britain's popular "EastEnders" prime-time soap opera. May also plays guitar and contributes backing vocals to "Talking Of Love."

Starship's "Nothing's Gonna Stop Us Now" has now sold over 2,500,000 copies worldwide.

A 12-year-old girl who won a "Star Search" competition has been signed to Capitol Records for at least two albums. Tracie Spencer began singing at the age of 3, according to her father, a former musician. She'll still go to seventh grade this fall, even with the contract.

The Doobie Brothers will record a new album, following this summer's reunion dates. Bruce Cohn, who managed the band for over a decade, says the group will go into the studio this fall to record new tracks. The last Doobie Brothers album was "One Step Closer," which came out in 1980. "I've been trying to get the band back together, really since they broke up. They were very negative about it."

They felt they were a 1970s' band and their fans didn't care about them anymore," Cohn says. "I kept finding out that people love the Doobie Brothers. Through the tour, the band saw that there was still an audience that loved their music, plus that they got along well together. There also was some concern about how well they would play, especially with so many musicians on stage. Most of the reviews said they were better than they were originally." Tom Johnston, Patrick Simmons, Tiran Porter, Michael Hossack and John Hartman are all very interested in the reunion, Cohen says. He doesn't expect Michael McDonald to be part of the reunion effort. "They all have their own careers, but the vehicle to get them into national status is the Doobie Brothers," Cohen adds. "The task before them is to come up with songs that were as good as they ever did. Most of them don't need a buck."

Here's the latest music news Live From London courtesy of CFNY, Toronto and our exclusive reporter Lee Carter. Lee can be heard on CFNY's "Sunday Music Magazine" program and on "Live From London" aired Wednesday evenings.

Last Saturday night, Island Records held their 25th Birthday Party at the legendary Pinewood Studios, 30 miles south of London. 7,000 guests drank themselves under the table to the live sounds of Julian Cope, Troublefunk, The Christians, Robert Palmer, Eric Clapton and Aswad. Although the rumours that U2 might be there turned out to be untrue, they still provided the undoubted highlight of the evening by being beamed in live from their concert in Paris. Three hours of the event were also shown live on British television. All the Island acts but Grace Jones made some contribution to the event. Even Millie Small, the 15-year-old Jamaican who label chief Chris Blackwell brought over to England in 1964 to record "My Boy Lollipop" was present, nestling her daughter in her arms, looking it must be said, rather puzzled by the whole proceedings. As it was their very first record, Island have chosen to re-release "My Boy..." with a special Island 25 video. In interview from Paris, The Edge hinted that the next U2 album may well be a live one, but promised that the majority of the material would be new songs. A remarkable film about U2 was also shown concerning their ill-fated attempt to make a video for "Where The Streets Have No Name" on the roof of a liquor store in a sleazy neighbourhood in Los Angeles. As has been well documented, several thousand people got wind of this and the L.A. Police shut them down. Being a fly on the wall while a big fat cop was arguing with their tour manager was terrific fun. Of great interest to those who wonder about the disappearance of lesser spotted pop stars was an interview with Usaf Islan - formerly Cat Stevens who turned out to be a quiet, humorous, introspective man who explained how he had traded in trying to find what he was looking for (the theme of most of his songs) with actually finding it. He looked contented and happy. There was archive footage aplenty: Traffic, Free, Bob Marley and Bad Company to name a few and Tom Waits and Joe Cocker sent messages from America. Apart from the nice tinges of the Island story, one may wonder why the British media has become so obsessed with Island 25, when after all it could be said that it is just another record label. It comes down to British national pride. Since the late seventies Island's only major competitor as a wholly British label has been Virgin. But Island can still make the claim that they are the only privately-owned independent British record company that can take on the big multinationals on their own turf.

Besides, everyone loves a fighting underdog and Chris Blackwell over the years has represented that to many admirers in the music business.

FRANKIE GOES TO HOLLYWOOD held auditions for a new singer last Saturday. They invited anyone who thinks that they've got what it takes to meet ZTT officials at London's Kings Cross railway station at ten in the morning. Surprisingly less than 30 people showed up and the label kept them waiting around for 1-1/2 hours. Following the final decision, the band will begin recording and touring without Paul Rutherford, though, who has announced his departure to pursue a solo career in Los Angeles. Holly Johnson, the lead singer, left the group several months ago.

SHOXSIE AND THE BANSHEES have just announced a brand new single, the first to feature new members of the group - Martin McCarrick and John Klein. It's called "Song From The Edge Of The World". The 12" features two extra tracks, "The Whole Price Of Blood" and "Mechanical Eyes". Meanwhile, the first opportunity I'm going to get to see the new lineup of The Banshees is at an open-air mini festival at Finsbury Park in North London on 25th July. Supporting will be Psychic TV, The Fall and Wire.

THE PET SHOP BOYS are angry over an accusation made in the sleazy tabloid "The Sun" about their latest record "It's A Sin". Jonathan King, celebrated broadcaster and record entrepreneur who explains the American music scene to the British on BBC's "Entertainment USA", accused "It's A Sin" of being a copy of Cat Stevens' "Wild World". The Pet Shop Boys say they are consulting their lawyers and add that they "wholly refute" King's accusations. Meanwhile, the band have just released a new 12" of the song, produced by Ian Levine, and their next single "What Have I Done To Deserve This", where **NEIL TENNANT** duets with **DUSTY SPRINGFIELD** will be out in August.

SIMPLY RED have lost their guitarist **SYLVAN RICHARDSON** who was a founder member of the band in 1985. He will be replaced, at least for the dates on the band's current world tour, by **AZIZ IBRAIM**, a session guitarist from Manchester. WEA plan to release another single from the "Men And Women" LP in August.

For the first time ever this week, Soviet rock bands play in Britain. **DIALOGUE** and **AUTOGRAPH** play both The Hammersmith Odeon and Dingwalls. Dialogue are one of the first officially recognised Soviet rock bands. Founded in the Ukraine, they moved to southern Siberia and are now the most famous Siberian rock group. Their set is a mixture of a first half of large scale symphonic rock compositions based on classical Russian poems (and undoubtedly inspired by the likes of Yes and Genesis) and a second half which is more New Wave and electrobeat. Autograph are older and lean towards jazz rock and made their first appearance on western screens as the Soviet contribution to Live Aid. They are obviously not representative of the blossoming dissident scene. "The Face", for instance, just completed an undercover survey of Soviet rock and discovered punks, rockers and wierdos by the barrow-load. But they are reputedly highly skilled and are the next best thing to taking out an Aeroflot fare. In addition, London's Capital Radio were due to link up to Moscow this week in a unique two-way

broadcast while an estimated 150 million Soviet listeners tuned in to Capital's news and current affairs programme "The Way It Was" which was broadcast there by the state-run Mayak pop radio station. TASS have just compiled the country's first singles and albums charts, based on sales figures from 100 record stores as the Soviet Union officially recognises rock and pop.

THE CURE have been resting in Ireland, where they've been also recording a short film, rehearsing for their American tour and talking to the music press. They have now permanently taken on **ROGER O'DONEEL** on keyboards who recently played with **The Psychedelic Furs** on their world tour and was previously a member of **The Thompson Twins**. Lead singer **ROBERT SMITH** told "Sounds" that "Kiss Me" is a better album than "Head On The Door". "It's more real. 'Head' was a much more constructed album. This is much more relaxed and the first time we've felt like a real group since 'Pornography'." Smith still feels that despite their worldwide success that they are still more subversive than their counterparts like **U2**. "We weren't allowed on the 'Tonight Show' or on Joan Rivers' show. We're subversives because we're punks! Not because we're socially or politically subversive, just because we're punks! We might set fire to the studio. We don't wanna help anyone. They actually told us in a telex memo that we were a 'punk group' and not suitable for their audience."

Prepare yourselves for **WESTWORLD**, who are just about to release their debut album for RCA "Rockulator" after two hit singles in the U.K. and another on the way. Formed by former **Generation X** guitarist **DERWOOD**, after the band split up and Mr. Idol went to greener pastures, Derwood spent some time on the dole building up his master plan for a new band. He met up with Elizabeth Westworld, a girl from Washington, DC, recruited a Welsh drummer and the band was born. "Sonic Boom Boy" was an instant top ten hit, after having signed with RCA, following dozens of offers after they performed on "The Tube". Many commented that "Sonic Boom Boy" was everything **Sigue Sigue Sputnik** should have been. The missing ingredient was the American androgynous sexiness of Elizabeth. Single three "Where The Action Is" is much more rockist, borrowing **Led Zeppelin** riffs, while still remaining in the electrobeat camp. Westworld remain quite private, preferring to portray themselves in the cartoon images on their record sleeves. I await "Rockulator" with bated breath.

U.K. INDUSTRY NEWS:

BBC Television's long-running weekly chart show "Top of the Pops" is to be screened in the United States by the **CBS** network in September. It's an initial deal of 26 weeks with an option for five years. The American edition of **TOTP** will be shown by **CBS** every Friday night at 11 p.m. and including commercial breaks will run for 60 minutes. **TOTP's** Executive Producer **Michael Hurl** told "Music Week": "CBS has all rights to all **TOTP** material and our live show will be shown there a week later. From September there will be an extra clause in the **TOTP** contract giving permission for screening in the States. There will be four or five bands performing in the studio each week and if any management objects we will have to consider whether to re-book the artist concerned. Because of clearance problems, no videos shown here will be shown in the U.S." Hit American acts will

also be taped in the studio in Hollywood for the American show and for the American segment of the show in Britain.

The **BPI** Chairman **Rob Dickens** warned this week that **DAT** could go the same way as **Betamax** if the music industry does not agree soon on the future of the system. Dickens said he had faith in the **Copycode** system but acknowledged the press reports claiming that the spolling system is a failure. He also attacked retail outlets for starting a **CD** rental system.

At time of writing, **Richard Branson**, his spirits undampened from his dunking in the Irish Sea, was due to be one of the keynote speakers at the **New Music Seminar** in New York. 6,000 delegates will hear how the entrepreneur has built **Virgin** into the British company with the most voracious appetite for new acts and on its successful entry into the U.S. market.

IN BRIEF:

Culture Club drummer **JON MOSS** was last week given a one-year discharge and ordered to pay 200 pounds costs at a London court after pleading guilty to possessing 30 milligrams of cocaine.... The **COLOURFIELD's** latest 12" from their "Deception" Lp is "She", a cover of an old **Monkees** song.... The **BEATLES** are re-releasing "All You Need is Love" exactly 20 years after its original release date July 7th, 1967.... A silver engraved **EVERLY BROTHERS** guitar was auctioned and bought by **DAVID BOWIE** for approximately \$30,000. He donated it back to the auction for next year.... **BILLY BRAGG** files out to Nicaragua this month after a personal invitation from the Government there. He will be performing at a festival of arts and music.... The **ROLLING STONES** will not be playing a reunion concert this month, despite tabloid newspaper reports that they are.... **MARILLION's** new Lp, "Clutching At Straws" is full of references to drink. Says lead singer **Fish**: "I was an alcoholic two years ago. I'm still not really off it. I find writing a good way of exorcising my problems".... **ALISON MOYET** is on holiday in a trailer in France: "I spend so much time in posh hotels that when I get a vacation I avoid the luxuries of life. I enjoy getting bitten to death by mosquitoes and eating cold baked beans." (???).... **ECHO AND THE BUNNYMEN** played on the roof of the big **HMV Record Store** on London's Oxford Street this week. "It was eighteen years ago yesterday when the fab four did it," said **Ian Mculloch**. "Let's hope this isn't an omen.".... Scotsman **JESSE RAE**, who scored a hit two years ago with "Over The Sea", tries to relaunch his career with a new single "That Kind Of Girl".... **TERENCE TRENT D'ARBY** releases his debut album "Introducing The Hardline According To Terence Trent D'Arby" this week. The album features his two top 5 singles "If You Let Me Stay" and "Wishing Well".... **DAVID BOWIE** held a private party after his London concert with photographers barred. One snapper who attempted a pic faced the wrath of the **Thin White One** who grabbed him by the collar and hauled him across the table yelling blue murder until a big bouncer came along, bundling the photographer out of the restaurant, confiscating his film.... **THAT PETROL EMOTION** release a live Ep this week. Recorded during their recent U.K. tour, it features "Swamp", "Me And Baby Brother", "Creeping To The Cross" and "Dance Your Ass Off".... **PETER GABRIEL** was recently hauled into the audience and had his jacket ripped off by adoring fans. But for the next song Gabriel appeared sporting an identical jacket. Does he own 200 identical jackets? Was this

a jacket from heaven? Can he give us firm evidence that from time to time he himself is not replaced? I think we should be told.

NEW ALBUM:

"ECHO AND THE BUNNYMEN". More pleasing to the ears than "Ocean Rain" and strongly influenced by The Velvet and The Doors. Not a great musical departure for Echo but plenty of strong tracks for radio play that should further consolidate their success worldwide. Fave track: "All In Your Mind" featuring some glorious guitar and keyboards.

CHARTS:

The number one Lp continues to be "Whitney" by WHITNEY HOUSTON while the former number one, "The Joshua Tree" by U2, closes in again at 2.

TOP 40 SINGLES:

Some reggae lovers rock by Freddie Macregor enters at 37 with "I JUST DON'T WANT TO BE LONELY". New at 38, "SONGBIRD" by Kenny G., while a cover of The Bee Gees' "JIVE TALKING" by Boogie Box High comes in at 31. Thank goodness for The Cure who have a new entry at 30 with "CATCH". Leaping 11 places to 27, the excellent Christians with "HOOVERVILLE". Raved about this at length already. They will obviously not be marketed in North America until the Lp. Meanwhile, give your listeners a sneak preview with this and their first, "Forgotten Town". Up 10 to 22, Genesis with "THROWING IT ALL AWAY"; while up 19 to 21, a re-released classic from the late great Jackie Wilson, "HIGHER AND

HIGHER". Up 6 to 17, "SWEET SIXTEEN" by Billy Idol. The highest new entry is at 16 for two soul sisters, Mel and Kim, with "FLM". Massively popular in European discos, their rather conected music leaves me cold. Up 13 to 15, "ALONE" by Heart. Still a rather faceless band here as this is their first substantial success. Black go up 15 places to 12 with "SWEETEST SMILE". A moody, melancholy song that is also curiously addictive. Although ghosts of David Sylvian and Bowie swirl around this record, it has an undeniable originality. Alternative should definitely check it out. Up 9 to 7, it's boyfriends, girlfriends, lemonade and lots of lovely disposable income for Atlantic Starr and their shamelessly slushy "ALWAYS". Up 12 to 5, the theme to the latest Bond flick "THE LIVING DAYLIGHTS" by a-ha. Up 1 to 4, CBS' current golden boy Terence Trent D'Arby with his excellent "WISHING WELL". Neil Tennant and Chris Lowe, better known as The Pet Shop Boys, are at number one for week two, a year and a half after their previous number one "West End Girls". They've put absolutely everything into this song except for the kitchen sink. And I, for one, think it sounds nothing like Cat Stevens.

Toodloo 'til next week.

Now it's time for another "Tueber's Believe It Or Not!" Eric Show, pitcher for the Padres, and Klaus Barbie are actually the same guy.... Song parody of the week: "My Name Is Ollie", sung to the tune of "Luka".

Anthony Alfonsi, WDVE, Pittsburgh

Every now and then I wonder if I'm getting too old for rock and roll. But when a record like the Hooters' "One Way Home" comes out, I say naaah. The Hooters have put together a 5-star special. Song for song, this is a great Lp. Some faves are "Karla" (I can relate to this song from a personal standpoint), "One Way Home", "Graveyard Waltz", "Washington's Day" and "Engine 999".... "Isn't It Enough" should be the song that puts Patty Smyth back on the track to being one of rock's first ladies.... "Little Lies" from Fleetwood Mac is another great song from a great Lp.... Thanks to Stu Goldberg for his help with Suzanne Vega.

Carter Alan, WBCN, Boston

I caught up with my friends the Georgia Satellites last night in Manchester, NH, warming up for Tom Petty And The Heartbreakers. The band played under the humid, musty skies that we've become used to in the last week and they must've felt right at home. "Myth Of Love" sounded great, as well as my favorite "Can't Stand The Pain". Dan Baird and his crew have been on the road forever it seems, but they keep making friends wherever they go. So why stop now?... Tom Petty, in a nutshell, was simply amazing and he's doing well here on the air at WBCN. But when hasn't he?... The Grateful Dead continue to dominate requests in the past week, but U2's "Spanish Eyes" blasts its way into the #2 slot!... JON Astley continues his success story at WBCN by remaining the third most requested this past week.

Kevin Sutter, Chrysalis, 212-758-3555

"Sex With You"! Yeah, that's right. And you know what? It gets reaction just like the real thing, and we all know you can't play that. So, "Sex With You"! Look at KISS, WBAB, KATT, WKLC, WDHA, KKDJ, KPOI, WCCC, KICT, WLIR, KROQ, WFNX, WXXP, they are all satisfied. Phones, phones, phones. Every summer there's one quirky song that makes it to hitdom. This summer it's Tonio K's "Sex With You" from the motion picture soundtrack "Summer School". Watch the box office scores when this movie opens.

Cathy Down, WLNZ, Lansing

Seems as though the music product has kind of slowed down this week. We've only got one add: Charlie Daniels' "Bogged Down In Love". Or maybe it's just that everyone is just as anxious as we are for the new Def Leppard single due out later this week. I just hope it's as good as I've been promised. Fills my expectations. At this point I'm very optimistic. Just gotta keep my fingers crossed and patiently await its arrival, just as I am patiently counting down the days to my vacation.... I can't handle Rick bragging about the vacation he just returned from any longer. So, Rick, here's some pen and paper. You write next week's comments because I'm on vacation.

Jean Cashman, WZTA, Miami

I'm going on vacation July 18-25. Be back for Petty the eve of the 25th. If you're a burglar and reading this, my pit bull will be watching fabulous Casa Cashman.

Deb Brady, WXXP, Pittsburgh

This is shaping up to be one of the best summers for live music in Pittsburgh. A soldout show from Suzanne Vega was nothing less than wonderful.... Duran Duran and Erasure came through on Saturday, dare I say Erasure stole the show.... The Cure (a band that had no commercial play in Pittsburgh until XX came along) sold out its August show in 24 hours. What's wrong with that picture?... The Replacements, P-Furs, Siouxsie And The Banshees, Gene Loves Jezebel, New Order and Echo And The Bunnymen will all be through as well. Speaking of Echo, the new Lp is fabulous - not a weak track on the Lp. Don't overlook it.... Thanks to Stu Goldberg from A&M for your help with Suzanne Vega, Jack from Capitol and Jane Potter for your help backstage with Duran Duran, Steve Tipp at WB and Mary, Vince and Andy of Erasure for stopping by XX.

Fred Leemhuis, KGRQ, Casper

Immediately into heavy is Michael Tomlinson's release on Cypress Records, "Still Believe" and "Let Us Dream". There is no doubt that many will view his music as something for the adult contemporary. But, since we were 6 deep on his first solo project I can assure you, your phones and record sales by the 25+ males and females will indicate this is an adult artist to be reckoned with. If you can play Neil Young, Dan Fogelberg, James Taylor or Joni Mitchell you can make room for Michael Tomlinson. The guy is magnetic.

Mark Williams, WWZU, Williamsport

Urgent -- Urgent -- Urgent, it is! Play it! Great straight forward rock and roll with a hook big enough to catch anybody. Urgent -- Urgent -- Play it!

July 30th and July 31st in Philadelphia, David Bowie opens the North American portion of The Glass Spider tour at Veterans Stadium for two soldout shows. In New York, on August 2nd and August 3rd, the tour moves to the Meadowlands for two soldout shows. The David Bowie album is at 830,000 units – a sole function of rock radio airplay. I don't believe a copy has been purchased by any exclusive CHR listener. Again, the Bowie album is at 830,000 copies. I have heard some distressing rumors this week from rock radio saying the Bowie album isn't selling. Knock it off! Stand up and take a bow, rock radio. In three songs, you've delivered David Bowie platinum. The record is selling! All from rock radio!... Richard Marx opens the REO tour. Don't miss it. "Should Have Known Better" launches for reports, Monday, 7/27 and Tuesday 7/28.... 19 early Bill Hard believers on Urgent including WQFM, WLLZ and KUPD is a great first week. This record is a hit.... Again, the David Bowie album is at 830,000 copies. **KNOCK IT OFF!!!**

Christina, WPLR, New Haven

I did call ahead of time and ask if the New Music Seminar would take a check at the walk up registration from WPLR. Quote "No Problem". Here I am with a \$250 check for one day of seminars, one day, and all everyone keeps saying is, "How do I know you're not going to put a stop on that check" and "I never heard of your radio station". Had they any sense they would have realized that I am not authorized to put a stop on a WPLR bank check, and to prove we existed did I have to bring my Hard Report and Radio and Records? I don't care so much that they didn't want to be bothered to take the time to authorize the check, but the treatment was unpleasant, obnoxious and immature. Someone should tell these people no matter how hip, cool and detached they are they are not going to be "discovered" at the New Music Seminar. In other words, grow up. I've been treated better at Sears and McDonalds, and those people have a right to be grouchy.... Thank you Robyn and Epic for a great dinner.

Bill Evans, KTAO, Taos

Musically speaking this week, I'd like to rave about the Grateful Dead album, but that's too easy 'cause the whole LP is top notch. The cassette has an extra track, "My Brother Esau" for the Dedicated.... Since we're using instrumentals in every programming hour, I have a few to recommend: Chet Atkins' "On A Roll", Duane Eddy's "Blue City", Pat Metheny — not a rough edge on the whole album — and Larry Carlton's "Minute By Minute" and "Knock On Wood". Change your format if you have to go to get this one on the air.... Three more with lyrics to mention: If you like Al Green, groove Nicholas Tremulis' "Rhymes". Super strong writing from Warren Zevon on "Reconsider Me", and best tune on the Joe Walsh, "Time".

Jim Trapp, KZEL, Eugene

The New Music Seminar was a great chance for me to scope the latest attitudes prevalent to the industry while taking in some of the gritty sights of the world's most dangerous city. Thanks to the Hard Report's Amy Dahlman and KLOL's Harvey Kojan I was treated to street scenes beyond my wildest imagination and some of the culinary delights of New York, like the seven dollar coffee and toast breakfast. We're talking good and how! My spacious room left no kneecap unscraped and the view was a breathtaking 27th floor panorama of the building next door. All of these wonders aside, I found the NMS alternately inspiring and tedious. The air of self-importance was a bit much but beneath that was a genuine and creative communications flow that made this experience worth the muggy weather and New York gridlock mentality. It was, of course, entertaining to watch some of the more bizarre strata of humanity strutting about in cod piece and fishnet. Thanks to the long suffering Atlantic Apes for putting on the hospitality suite in the mind of God. Now it's back home to Eugene and the Dylan/Dead concert, the only one in the Northwest. Sometimes the party never stops.

Elise Vanderborcht, KNCN, Corpus Christi

Back from an enjoyable week of vacation. They're never long enough, which is probably just as well as I couldn't find my desk for a good five hours. Finally got all the debris cleared away and I'm still swamped. Thanks to go to my PD Tim Parker, for keeping all the records under control.... Well, I was gonna do the greatest Dead comments ever, but I can see they don't need any help. However, I did want to mention that in the "Rolling Stone" issue with the Grateful Dead on the front, look closely at the picture of them in your office (get out the granny glasses if necessary). Could it be? Yes, I believe it is, a C101 sticker in the upper left-hand corner. We're in print! It may not be the cover, but it is "Rolling Stone". Grateful Dead and C101 go way back to the beginning. "Truckin'" was the first song heard on C101 and our now deceased former owner and the band were best of friends. Long live the Grateful Dead and long live the memory of Bruce Baxter.... A quick thank you to Grant Spofford of Chrysalis for the hilarious get well card. It worked. Talk to ya later!!

Don Berns, CFNY, Toronto

While Ivar checks out every bar and nightclub in the Big Apple, I remain in the great steaming north to pass on musical goodies to all true believers in adventurous music. First and foremost on the list is the excellent Echo And The Bunnymen Lp which is without a doubt cohesively the most accessible work to date. If "New Direction" (a prophetic title) isn't to your liking, check out "The Game Of Lips", "Like Sugar" or "Bed Bugs And Ballywho". Oh hell, just check out the whole Lp; give yourself a summer treat.... Also worth checking into, the Silencers' "A Letter From St. Paul"; that is, if you like music with a cutting edge that doesn't sound like it was made in someone's garage, i.e. it's a superb production. We're off and running with "Painted Moon" and "Desire" with "I Can't Cry" and "I See Red" in the wings. For those who have been quoted comparing this group to Simple Minds, well, they do have the same manager but that's where the comparison ends for me. The Silencers are their own band, you betcha'.... If you have success with roots type music, by all means pick up on Lucky 7 on I.E. Records out of San Francisco. I truly believe these guys have a strong future with their LOS LOBOS/rockabilly feel.... Single Of The Week is Beacon Blue's "Dignity" (and the flipside "Ribbon And Bows"). Prefab Sprout meets the Railway Children meets Jackson Browne. Hot stuff.... Whatever you do, don't let the Gary Numan single get by you. "Radio Heart" represents a totally new and accessible direction guaranteed to revitalize his career. Even CHR can wall with this one.... This week's top request goes to the Dead Milkmen's "Instant Club Hit", which is no surprise. It's one of those songs that will garner instant phones.

Robin Mathieu, WBLM, Lewiston

Danny Wilson's "Mary's Prayer" was an out of the box song since the beginning and now it's time for the push. Heavy rotation should boost sales. We get great requests and have never had a negative call on it!... It's time for a new Petty cut. With album sales very strong, "All Mixed Up" was just begging for airplay.... One student told us Dio was going to be a tremendous phone record. They're hungry for Dio and "I Could Have Been A Dreamer" gets the go-ahead this week.... We also added Jon Butcher's "Wishes". I've always felt this was the best cut on the album. Now it gets a chance to prove itself and hopefully sell Butcher's best album to date.... JON Astley and Tom Kimmel are building well on the phones.... Top 5 include Motley Crue, Grateful Dead, Hooters, U2's "Bullet", and Mason Ruffner's "Gypsy Blood".... Enjoy your Call tape - then play the Call!

Paul Marszalek, WMAD, Madison

I really think Pat Metheny's "Last Train Home" makes a lot of sense for the adult AOR's. Try it, it's quite refreshing.... Bill Robbins asked me to thank all at the Conclave, especially Nancy Stein who "kicked his ass in bowling." I also want to know what he was doing with my fiancée, Judy Barahal, in the bat cave. I'm glad you all had fun while I had to stay here and wallow in my own self-pity.

Mike Michelli, WONE, Akron

I think Oliver North is innocent, a national hero, and I want to have his baby.... Rocking On The River is an outstanding success - 5,000 people every Friday afternoon on the Cuyahoga River!... This week: In Pursuit and next weekend it's Omar And The Howlers!

Jeff Michaels, KSQY, Rapid City

Added the Tesla this week. "Modern Day" and "Little Suzi" did so well for us in both requests and retail that we felt we owed the band another shot. We're really impressed with the progress of this band and know that "Rock" is just the next step for this talented young band that rocks without lipstick.... I've been a fan of Slade's for years and "Ooh La La" has a hook that won't quit with a sound that always works well here. "Ooh" picks up where "Run Run" left off, and how can you miss that chorus?... Urgent is easily the best song of the week, a natural add for any AOR. These guys are polished professionals that I expect to be around for a long time.... Ronnie James Dio has his most accessible rock radio cut ever with "Dreamer". He's definitely got the most recognizable voice in rock and roll and this one should be the track that could give him Top 40 play.... "Wishes" from Jon Butcher is a great song. This could be the biggest hit off that album. Jon's eloquent guitar work makes this song stand out in the pack. It has bite and punch without being overpowering; just great!... The Hooters took a while to sink in for me. But the more we hear it, the more sure we are that this will be a huge track for them. I'm a firm believer that those songs that take a few times to hear are the ones that hang out the longest. The phones are picking up and we feel this will be around for a long time.

Jason Tyler, WRUF, Gainesville

The music is the only thing that is hotter than the weather in North Florida. That includes the Dead's "Hell In A Bucket", a heavenly tune for me, "Good Times" by INXS, and Great White's "Rock".... Petty is coming back to Gator country next week. I'd like to continue, but I need to go cool off in front of the AC.

Paul Nelson, WWCT, Peoria

Local boy Dan Fogelberg's cover of the Stills/Hillman tune has built in familiarity thanks to the Firefall version. It's a great 25+ song.... Roger Waters' "Sunset Strip" goes in. "Radio Kaos" is chock full of great songs.... We also gave the nod to Jon Butcher's "Angel" uh, I mean "Wishes". I wonder if Jon likes to burn things, like maybe, guitars.... Finally, the Silencers went on not just because it's a great song but because we'd like to see Lin Brehmer's prediction come true. Better late than never, right?... We'd like to welcome Greg Dwyer to the station for part-time and fill-in work.

Dave Ross, KFMU, Steamboat Springs

The next single from Tom Petty, "All Mixed Up", is playing here. Why? Because his vocals carry this song beautifully and it fits great in all dayparts.... If you haven't listened to Robert Vaughn & The Shadows, do. If you have, listen to it again and again. "Justice" definitely has something to say and says it so gracefully.... If "Jane's Getting Serious" then so are we at windpowered radio.... Jon Astley has formulated that Bowle-Bryan Ferry style to work perfectly. It certainly can't be left out here.... The Cruzados still pull in top phones and we're really excited about the album.... Don't forget about the KFMU vs. the record reps softball game coming up August 1st. Don't be there, be here!.... That's it for now, from the world's only windpowered radio station.

Steve Colwill, CHEZ, Ottawa

I think that Pat Metheny has a real strong record, a natural for a station that is profiling itself as a 25+ older demo rock station. When we take a look at a lot of the stuff that's on the playlist, Metheny sounds real good back to back with those records already on the air.... We had a lot of success last year with the Andreas Hall album and it's our feeling that this Lp will reach a similar type of listener.

Dave Kane, WCMF, Rochester

Got to see Bryan Adams and the Hooters last weekend in Buffalo and I'm convinced that this is one of the better shows out there this summer. Both bands turned in great performances of material, both new and old. Thanks to Bruce and Doug of Could Be Wild for the Mexican meal and subsequent upset stomach.... Charlie Daniels was in Rochester this past weekend also. You always feel real proud to be an American when you go to see CDB. Plus, "Bogged Down" is getting some good calls here.... The only other record I want to mention is the new one from Wetton/Manzanera whose quality really caught me off guard. It seems that Mr. Wetton has finally got a project he can be serious about and not seem as predictable as his former band.

Harve Alan, WCCC, Hartford

With all the hoo-ha over George Michaels' "I Want Your Sex", I'm sure Tonio K will pull some of the same criticism. Isn't it great?! It's just what we need to create that ongoing buzz we all look for.... This week the quality of the Tom Petty Lp continues to shine through. One thing confuses me. Why can't this band sell concert tickets in this area.... A couple of shots this week. The Beat Farmers could be something to reckon with. Level 42's first single on the latest Lp crossed the CHR boundary a bit too soon. The title track "Running In The Family" does it. If you play hip crossover records, this one is for you.... As far as the Dead goes, we played the album a day before anyone else. As I write this, I'm sure there is something else bothering our neighbors.

David "Ikky Bop" Sadof, KLOL, Houston

As soon as our doctor (Dr. K, aka Harvey Kojan) flew to NY for the New Music Seminar and his vacation, all of us here at KLOL began to run a high fever. Bewildered, we began searching for a cure and soon found one that's just like heaven. Now we're all dancing on top of the world and we will continue to do so until it burns.... Jon Butcher owns the phones this week with "Wishes".... Also getting calls are the Grateful Dead, Great White, and Whitesnake.... Howie: Thanks for the Bunnymen. We featured four tracks on "Exposure" (our new music show) this week.... Also featured on the show were Robert Vaughn, TSOL, and the Mighty Lemon Drops.... Ikky's favorites this week: Silencers, Paul Kelly, The Call, Echo, and the Mighty Lemon Drops. Blea, blea, blea.... P.S. From Garth Hemp: Skyboy, I'll babysit. Congrats!

John Jesser, WOXY, Oxford

Back from a restful week of R&R in the Sierra Nevadas (my firstborn goes to Visa).... I found some wonderful surprises upon returning. Robert Vaughn is an ear-perker and what about this Paul Kelly guy? I find shades of John Lennon in the vocals. "The Executioner" puts John Lennon fronting U2; what a concept and no, I didn't get too much mountain air.... The power of stay lies within John Hiatt's "Bring The Family" and Little Steven's "Freedom" Lp. We're talking wall to wall longevity. Solid rock and roll. You know, goosebump stuff.... Thanks galn to Hege V and the boys for stopping by our humble abode. Wish we could have helped you get to the Suzanne Vega show but sold out it was.

John Lassman, KQRS, Minneapolis

Thanks to everyone for making Conclave '87 such an event.... Look out, the new John Cougar is fantastic and the new Def Leppard is nothing short of brilliant. The new REM ain't half bad, either.

Brew Michaels, KEZE, Spokane

During a mid-afternoon clambake, the other day some friends and I drained several canisters of Tecate and cranked up an advance release of the new Beat Farmers. Country Dick and the boys had us barking like dogs, mama. "Ridin" and the tune about the hills of Hollywood are certainly worth your attention.... Other notable new releases in this reporter's humble opinion include the Cruzados' "After Dark" and the Dead's "In The Dark".... Numerous depth charges are ready to be launched. From the one-shot realm, I can't say enough about The Silencers' "Painted Moon". We feel it is the best crossover tune of the past several months -- a great 18-24 female response record. As an added bonus, all the guys on the staff with beards like it, too.... Interviewing Sammy Hagar this past week was ROCK106 PD and morning psycho. Gary Allen discovered that Sammy's and Eddie's favorite track on the Lp is "Eagles Fly", now in heavy rotation.... We wholeheartedly agree with "Rolling Stone's" assessment that Ann Wilson is the greatest female vocalist of her generation. The phrasing and sheer power of "Who Will You Run To" is proof positive.... Steve Earle sounds great on this rock and roll station, as does Mason's "Red Hot Lover", our second track for one of this season's guitar heroes.... Congrats to David Kincaid and Carl Funk of the Brandos. As members of Allies, they scored a regional hit with "Emma Peel", also an MTV basement tapes winner. The Brandos' advance cassette on Relativity is a unique blend of REM meets CCR meets U2 roots rock. We are greatly anticipating the whole Lp.

Pam Brooks, WPDH, Poughkeepsie

Well, I'll admit I've never been a Dead Head. I really get into lots of their songs but I'm not certifiable or anything, however I am head over heels over "In The Dark". For me, this is how to make a Dead LP for the rest of the world. Take all the great stuff which has never managed to get onto vinyl over the years and put it all on one. That way you get a collection of totally strong material that everybody can groove to. I'm still not able to get the cassette out of the deck in my car, and the seats are turning tie-dyed.... John Waite's "These Times Are Hard For Lovers" could surely be the anthem for 1987, besides the song has a great hook that you seem to hear once and sing for days. This one makes the music go round in my head, and if John can accomplish that then he probably has another chartbuster on his lips. It's certainly the strongest thing he's done since "Missing You" and his time is overdue.... INXS and Jimmy Barnes' "Good Times" is turning out to be a favorite around the station, and killer on the phones. Jimmy's got one of those voices that has such strength it booms right off the record. "Good Times" is a crunker that you find you enjoy hearing a lot. This one's staying around for a long while.... Thanks to my bud Lisa Frank for a cool night out with the Georgia Satellites and of course our gorgeous selves. Lisa, you're aces.

Dave Fortney, WKLT, Kalkaska

The Grateful Dead and the Whitesnake are our bread and butter this week and probably the rest of the summer. Phones are constant on both bands.... Thank you to Denise George for treating Chuck Poet and myself so well in Detroit this past weekend. Bryan Adams was amazing at the Joe Louis Arena. I've never seen the roof fly off before but now I have.... Finally, the Beat Farmers, all I can say is if you listened to it only once and didn't like it, listen to it again. It's fantastic.

Christy Adams, WKQZ, Saginaw

We're having great success with Great White. "Rock Me" is an OTB instant phone generator! 30 seconds into the song and the phones were outta control!... Response is still building for Jon Astley's "Jane's Getting Serious" - and now sales are taking off. We're noticing progress every week.... Also, the Cruzados' "Bed Of Lies" is popular here. People remember past hits from their other albums and are just eating this up.... John Hiatt is holding steady here. "Bring The Family" seems to be a very diverse album with lots of material to choose from.... John Waite is really headed for the top. Upper demo response is the haps and we're looking to dig deeper into this album.... And, of course, the audience can't get enough of the Grateful Dead. The whole album hooks you right in! Since they've been gone from the scene so long, it's wonderful to see the response for this band - a resurgence is here for the old material as well.

Alan White, KILO, Colorado Springs

The rockers here in southern Colorado are going nuts for Great White's "Rock Me". Last week I made some statements about Great White's #1 retail position here in the Springs. The actual figures are 16-4 this week. Only Whitesnake out did them on the phones. This is a hummer that will last all summer.... Belated thanks to Randy Robins of Capitol Denver for bringing Jon Butcher by the studio. And to Jon and the band, thank you for including Colorado Springs on your schedule...it was worth the wait.

Dick Sheetz, KRZQ, Reno

It's a damn shame about KMMX. Lee Roy and Jim just had the place going. I'll tie them for gambling money in Reno anytime.... The Wetton/Manzanera is daring and deserves a listen. What a great combination these guys are.... Bears have that Men At Work sound - it worked once, bet it'll work again.... Finally, Loudness has a song I can play before 7p. Less Kamikazee, more ballad.... Jon Astley up to heavy. I picked this smash outta the box. Hell, I had to hit sometime!

Doug Clifton, KBCO, Boulder

Jon Astley's "Jane" is the surprise hit of the summer here at KBCO. The song gets great phones and just passed the Dead for top requests. If you give this record a chance, you'll have just as much success as we have.... Other hot wax: U2, Vega, Zevon, The Cure, Silencers and the Dead.... Thanx: Michael Linehan, Chris Isaak, Kenny Dale Johnson, Del Williams and Mike Brannen.

Beaver Brown, KDJK, Modesto

There is only one way home and that's with the Hooters. My favorites are "Satellite" and "Graveyard Waltz". What an amazing LP.... Robert Vaughn And The Shadows is quite a pleasant surprise. Do them justice by playing "Justice".... Getting terrific female calls on Omar And The Howlers' "Dancing In The Kane Break", but our lines are still being burned to a crisp from Great White's "Rock Me".... Have you listened to The Call's "In The River"? I advise that you do.

Howard Glassman, WEQX, Manchester

60-39* Hard Hundred!

Kelly Cruise, WEGR, Memphis

Marillion is getting instant phones. Sounds like Yes fronted by Pete Townshend.... The Deadheads are Grateful that we're going two cuts deeper with the new album with "West L.A. Fadeaway" and "Hell In A Bucket".... From the additional songs I heard on "Rockline" last night, Sammy Hagar has got a heck of an album. This one will sizzle throughout the summer.... Skynyrd fans here are going crazy over the news about a new album, and I'm going crazy waiting for the new Steppenwolf.

Mike Scott, WRIK, Paducah

Our station manager, Sam Stratmyer, has gone crazy over the Cult and Cult-mania has grabbed him. He's beeping our jocks every chance he gets yelling "Cult" as loud as he can. It's nice to have a station manager like that — it makes you feel comfortable with your job.... The surprise so far this week is Pretty Maids' "Future Worlds". The phones are burning up left and right over that song. I know it's a bit heavy, but our audience seems to go nuts over this one.... Long Ryders' "For The Rest Of My Days" is definitely getting excellent response and it will move up quicker maybe to heavy next week. We look for big things from this song.... We need the Dead. We don't have any Dead. We're going nuts for the Dead.... We're in Paducah and we're nothing but a rock and roll station.

Patty Martin, KSJO, San Jose

Heavy rotation in the car this week is Little Steven. There isn't a bad song on the entire record.... I'm also loving the Dead record. Side one is superb.... Thanks to Dave Rothstein for bringing Jon Butcher by the station. He and Laurie Roberts had a great chat on the air and the band put on an excellent KSJO show at the Cabaret. We also gave away 92.3 pounds of meat from Ernie the Butcher in San Jose and a set of Butcher knives as a grand prize.... And, Beverly, thanks for the gum. Now we can all answer yes to the musical question, "Got Any Gum?" Still my vote for the greatest album title for the year.

Mark Chernoff, WNEW, New York

WNEW-FM continues its support of new music with live shows this past week with The Truth and Richard Marx, both at the legendary Bottom Line. Thanks to all at IRS and EMI respectively for all the support. Both concerts were well-received and sounded great on the radio. We continue with Omar & The Howlers in two weeks.... In-studio guests in recent weeks have included Mason Ruffner, Charlie Daniels, Steve Earle, Southside Johnny, Grace Slick, Justin Hayward, Howard Jones, Simply Red, Rob Halford, Ace Frehley, Little Steven, Richard Marx, The Truth and more. We have always supported the up and coming acts as well as our "old friends".

Larry Dunn, WLIR, Long Island

Sincere congratulations go to our good friend, Mike Bone. God bless the President and I can't wait to visit the oval office.... Hey, how's this for cool? Our #1 most requested song and Screamer Of the Week is Los Lobos' "La Bamba". A summer hit or what?... And for a very cool combination, check out the Fat Boys with the Beach Boys doing "Wipe Out". Book it, Dano!... With that, I'm off to Hawaii for two weeks of R&R. (That's rock and roll). I'll be back August 3rd.... Malibu Sue will be covering the shop while I'm away. Feel free to phone Sue — she's a pleasure to deal with.... By the way, it was great to see everyone at the Seminar.

Sean Coakley, Arista, 212-830-2178

The Dead have finally arrived at the spot they have deserved for so long: #1. Demographically, their fans range from birth to death. Last Sunday, they played to 70,000 plus at Giants Stadium in New Jersey and put on the best show I've ever seen them perform (including some phenomenal concerts in '70, '71, '72, & '73). They played six out of seven songs from "In The Dark" and the audience knew the words to every one! Dylan came and played the versions of songs as we first heard them on albums twenty years ago and they sounded fresh and relevant and inspired. It was one of those shows where I kept wishing that everyone I knew could be there. DO NOT MISS THIS CONCERT IF IT COMES NEARBY.... We knew this Cruzados album was great and album radio has demonstrated again how they can launch a new artist when they believe in it. "Bed Of Lies" continues to gain on all fronts, most noticeably the request lines. Stay in Bed.... HURRAH! Is developing nicely on the college/alternative front. We will ship a 12" to rock stations in a few weeks. Listen to the album and hear some passionate, accessible songs.

Sky Daniels, KFOG, San Francisco

Greetings from the All-star game. The Bay Area is celebrating and KFOG is there. Many thanks to John Fogerty for his generous gift of tickets to the event. KFOG sports whiz Kevin "The Rat" had as his on-air guests Mr. Fogerty, Mark McGwire (this kid has totally upstaged my comeback), Tony Gwynn, Eric Davis, Boog Powell, Luis Tiant, and Darryl Strawberry. Strawberry made it evident that he has had it with the Mets.... The music scene, meanwhile, shared the enthusiasm with our live broadcast of Omar And The Howlers. Thanks to the Howlers, Columbia Records and Wolfgang's for yet another killer KFOG-cast.... The Cutting Crew's "I've Been In Love Before" is the track that will pick where "Died" left off — at #1.... Paul Kelly works that greasy organ sound of "Darling It Hurts" onto the KFOG airwaves and it feels good.... We plan on putting Petty's "All Mixed Up" on car radios cruising the Bay.... Finally, thanks for all the kind sentiments from my friends in the industry. It is my intention to really work together with you. The door and phone are open to you Wednesday through Friday 3-5pm.

Slats, WHTQ, Orlando

Alright, it's serious stroke-time. As a first-time visitor to the NMS, I was in awe at the masses. Not only did I over-indulge on Sabrett hot dogs and luke warm Coke at the Port Authority with some good people but I want to thank Bill Hard and Danny Buch for the accommodations and the great dinner at the New Moon. Plus, it's always a pleasure to listen to one of America's great unknown radio stations — WZZO in Allentown. When I landed in Newark my dial was set. I've been a fan of Z95 since its sign on and it's a treat to check you guys out every chance I get.... We went deeper on two of this year's sweetest releases: the Dead with "Hell In A Bucket" and "Push Comes To Shove", and the Hooters with "Satellite" and "Lucy".

Steve Avery, WOOJ, Ft. Meyers

We're still getting a lot of positive feedback on the Ideola cut "Watching The Ship Go Down". Try it, you'll like it too.... Jon Astley moves to heavy on the basis of increased phones and awareness and the fact that it's a great song.... New Music: We checked out Urgent and we think it's the best hot rock we've heard in a long time.

Virgil Thompson, WIXV, Savannah

We're busy this week raising money for the American Cancer Society with our annual "Jail and Ball". Last year we raised \$35,000 in just two days and we're looking to break that mark this year.... Musically, The Call's "I Don't Wanna" goes in this week. Solid music and meaningful lyrics on this one.... Zevon's "Sentimental Hygiene" is selling quite well, and "Detox Mansion" makes good sense.... The Grateful Dead continue to dominate the phones, but Great White and Jon Astley aren't far behind. We get several curiosity calls each time we play these two records.... One act many people are missing out on is Steve Jones' "Mercy". The song is great. It's cool to mention he was a Sex Pistol. It sounds somewhat like Billy Idol but better, and the LP has depth. So, why the hell aren't more people playing it?

Mike Thomas, WMDK, Peterborough

Robert Vaughn is really hot and up and coming.... I like the new Saints' LP "All Fools Day".... There is a new SKA band out of New York called Urban Blight. Definitely a band to watch.

Jeff Ivans, KFMX, Lubbock

METAL COMMENTS: Big thank you to Steve Plunkett of Autograph for a great interview and even better show. These guys are seriously impressive. Check this out. Coming into town, their equipment truck wiped out. All their keyboards were wasted and some other equipment as well. No one was injured and they played with a lone keyboard like nothing ever happened. Dynamite! Thanks to Myla of RCA for her help.... The new Loudness single is killer.... Manowar on CD sounds excellent.... Great picks for the new EZO single.... I've been on it for a couple weeks already and it really works.... Big phones and sales on Death Angel, Testament and Ace.... King Diamond and Dio are starting to catch on really well.... Here's a few to try if you haven't already: Jeff Paris, Reckless, Envy, Shout, and Heathen.

Greg Morrison, WRQK, Canton

Heart was great under fire last week. It was an outdoor concert on a pantingly hot night.... By the way, we now have in-house video capabilities. If any of you record type folks feel videos help promote your records, send them down.

Mike Gardner, KOAS, Kealahou

Here in Hawaii things are cooking. As summer progresses, we are really interested in any group interested in playing the beautiful big island of Hawaii. Please give me call.... Hot with us this week are Fab-T's, Cruzados, Joe Walsh, and the hot new sounds of the "La Bamba" soundtrack.... Also impressive are Roger Daltrey and the new Charlie Daniels LP and we're really looking forward to the new Grateful Dead release.

Summerfield Horner, KZEW, Dallas

The edit on Great White is really good. If you can't use the long version during the day because of time restraints, try the edit. It'll work fine.

Joe Kelley, KRIX, Brownsville

The T-Birds love money. A statement song. Nice to hear something like this get out there.... Europe's "Carrie" should be good with the male demo as well as with the female demo. A midsummer rock ballad.... Little America's "That's The Way It Stays" should stay at the top once it gets there. We like it better than "Walk On Fire".

Art Boerke, WKWQ, Columbia

We have a brand new phone here at K95 and here's the number: 803-771-4805. It's what you've got to call to talk to me. My hours are the same, of course. Columbia has rocked non-stop with live shows from Faith No More, the Long Ryders, Mason Ruffner, 7 Seconds and Steve Forbert within the last week. Best of the bunch was Faith No More, whose Chili Peppers meets Beasties approach to music had Rockafellars in a frenzy.... We radio folks ought to recheck that anthemic "We Care A Lot". It really has a lot of 18-24 appeal. I sink deeper into "Bogged Down" every time I play it. Damn, that's foot-stompin music. CDB has never rocked like that before.... The tremendous amount of phone response to "Here I Go Again" indicates that Whitesnake has finally arrived. Coverdale was always my favorite Purple alumnus and even though his voice isn't quite up to "Burn" level, his songwriting partners have more than compensated.... "Alex Chilton" from the Replacements gets my vote for best song thus far in 1987. Sensibly melodic carnage, added to one hell of a hook.... And speaking of hooks, don't overlook the new Paul Janz. One listen is all that it takes.... Does anybody know what the movie "The Lost Boys" is about? I'm begging! The soundtrack is aces and the pics are way cool, but nobody can tell me a thing. If you've got the scoop, fill me in.

Brian Wolfe, WGLU, Johnstown

It doesn't take a brain surgeon to listen to the Hooters' new LP and not enjoy it. We're adding "Satellite" with much more to come, I'm sure.... Paul Kelly and The Messengers' "Darling It Hurts" goes in, too. It made me rush home and throw on my old? And The Mysterians LP.... Isn't "Alex Chilton" from the Replacements great?

Congratulations and many thanks to Tom Kay, Denise Lutz, and all the folks at the Upper Midwest Communications Conclave! It was great meeting face to face those voices I've talked to by phone for three years. A splendid time was guaranteed for all — indeed.... Musically, "When You're Cool" by Chris Daniels And The Kings is burning up our phone lines. It jumps from light to power. There is no way to adequately stress the amount of reaction we've seen to this summer-sounding song.... Driving rhythm and searing vocals mark Alan's pick for the next Grateful Dead crossover, "Tons Of Steel". Don't miss this one or we'll say we told you so.... Also, all of us at the City's 97 truly appreciate all the wonderful artists who've taken time from their busy schedules to visit our studios and perform live for our listeners. Our sincerest gratitude to this week's special guest Suzanne Vega.

Lenny Bloch, WRCN, Long Island

Hooters' Lp, after one listen, is already on my top 5 fave list of '87. "Fighting On The Same Side" is my early pick.... The Grateful Dead and Bob Dylan in New Jersey was as religious an experience as my bar mitzvah. Thanks to Sean and Marybeth for everything. And welcome my long lost sister Michele Block to the Arista team.... Robyn Kravitz is my choice for Queen of the year. We spent a splendid evening at a silly place in NYC called the Cadillac Bar. Lucky Lenny found himself in the presence of the three prettiest MD's on the East Coast: Pam Brooks, WPDH; Kim Alexander, WHCN; and Christina, WPLR. I had to wrestle Mike Boyle for their attention. Mike puts on a mean half-Nelson.... I guarantee that if you spend some time with Echo & The Bunnymen, you'll find room for something. We went with "New Direction". These guys have painted a masterpiece. I'm a Bunnyhead.

Catfish, WHMD, Hammond

Danny Wilson is working great here. Phones are good and sales are very strong.... MTM's In Pursuit and Hege V are the most successful small label groups to do so well here. Sales for In Pursuit are happening and "Thin Line" moves to power. Sales on Hege V are slower but promising.

Simon Jeffries and Lorraine Rapp, WAQX, Syracuse

The only things hotter, steamier and more sultry than a central New York summer are the latest releases from the Dead and Sammy Hagar.... It was great to finally hear "Don't Mean Nothin'" live last week at our 95X low dough concert event with Richard Marx. What a tremendously talented band he's put together. Adding "Should" is a natural for us. Special thanks to Richard and the band, Cynthia, Al Kovax, Bruce and Doug of Could Be Wild and Howard Bernstein. Good to see Jerry Blair of Chrysalis and Chuck Blizotis of A&M. We had a free show with Mason Ruffner on July 4th which was packed and nothing short of incredible. Remember the end of "Ghostbusters" when Harold Raimos told Bill Murray not to cross the lazer streams? Likewise, you wouldn't want to get caught in the energy-filled room between Ruffner and his guitar player. Two of our staff members already have shaved their heads and painted big blue r's on their pates.... From Simon: Thanks to everyone for remembering Pam and me on our wedding day. It's been over a week now...and they said it wouldn't last. To Catt: Thanks, bro!

**Jeffrey Naumann, Virgin Records
213-278-1181**

I had the opportunity to see T'Pau and The Other Ones live in concert this week.... T'Pau, believe it or not, is definitely a rock and roll band. If you don't believe me, ask Bill Hard or Jim Trapp.... We will be releasing live tracks in the very near future so you, too, can hear this experience. You'll be blown away.... The Other Ones also puts on a killer live energetic show. And "Holiday", their new single, gets people dancing. "Holiday" will be a mega hit. Just watch.... Speaking of live shows, Gary Moore will be hitting the U.S. roads next week. We'll be doing promotions in all markets and live broadcasts in many. "Wild Frontier" is already getting top requests in just 3 weeks of airplay. Get "Wild" on the radio now and give this guy the shot he deserves.... Here's another Naumannism for you: Munchkin Balls, programmers who like a particular record but don't have the balls to add it, i.e., Danny Wilson's "Mary's Prayer". How much more proof do you need before you give in and play this all-format hit? Don't be known for having Munchkin Balls. Add "Mary's Prayer".... Warren Zevon's "Detox Mansion" is a killer song everybody seems to like. It's a cooker and it will be an AOR smash.

Greg Mull, WRXK, Ft. Myers

After two hit tracks, I don't understand any reluctance to playing a third track from Crowded House. The album is selling, Top 40 is having huge success and "World" may be the strongest cut yet. This project deserves immediate attention.... The Beat Farmers are yet another in the long line of hot roots rock bands and their new release, "Dark Light", will be the track to break them at AOR. "Riverside" did well last year at all the stations who played it. And after the success of Cruzados, Omar and other rock traditionalists, I think the AOR audience is primed for the Beat Farmers.... And for instant familiarity for your upper demo males, try Jon Butcher's "Wishes", a nice tune with tremendous guitar work.... JON Astley continues to burn up the phones, and the Dead is unstoppable. This album will be with us for a long time.

Jim Steel, WIOT, Toledo

Before Keith and I disappear for our annual owners' meeting, held in Cincinnati this week, we'd like to rave about some things. Twisted Sister has developed into a very real record very quickly. After testing it a few times in the evening, the response was so positive we bumped it up to medium. It's amazing how many people didn't know who Twisted Sister was and the ones that did were pleasantly surprised.... Sometimes too much of a good thing is not enough. That's why we've added another Grateful Dead track, "Hell In A Bucket"; lets the Dead remain mystic while appealing commercially.

Beth Kepple, WKLS, Atlanta

96ROCK is turning 13 years old in a month and we want to beg, borrow, bribe, or steal ID's from the rockers who've kept us going for these 13 years. It can be as generic as "Hi, this is Joe Blow wishing 96 rock a happy anniversary"... or be as creative as you want to be. Please send them on reel or cassette to 96ROCK, 1800 Century Blvd., Suite 1200, Atlanta, GA 30345, and thanks in advance... Great White's "Rock Me" is seven minutes of pure seduction. From the sensuous, subtle foreplay at the start to the teasing arousal that finally explodes in uncontrollable passion. It's the closest you can get to having sex by yourself without taking your clothes off. And yes, it helps if you smoke a cigarette afterwards. Excuse me, I feel the urge to take my clothes off.
