**Graham Parker, "The Mona Lisa's Sister", RCA....** Now we love G.P. around here. No lie. From "Mercury Poisoning" right up to "Wake Up Next To You" there's nothing about this guy that ain't reet petite. But even so, we wondered how such an introspective first track would perform. It may have been second or third listen for some--but two weeks and 62 stations later, it's readily apparent the world was waiting for this guy to come back. Checking this issue's adds, we find KSHE (who never played the Church, f'rinstance), WBCN, WMAD, KLOL, KRXQ and WRUF to name a few, with KBCO, WBRU, WDHA, WLAV, WRCN, DC101 and KTCL in last week. Obviously, those subtleties shine thru like crazy diamonds--as noted by **KFMQ's Joe Skare** and "The new one is great! It has a subtle hook and the sound is real smooth".... As for the album, we'll go so far as to quote **GM Arty 'The Smarty' LaVigne** at wonderful **WIZN** and agree that it is indeed Graham's "Blood On The Tracks". And can you believe that of all the wonderful songs--including "Don't Let It Break You Down", "The Girl Can't Help It", "Success" and "Under The Mask of Happiness"--the real mass appeal hit is probably his "Cupid" remake. Just keep that in the back of your mind. And now that our office has the CD hammerlock on McKeon, it's on to the next pick.

**Joan Jett And The Blackhearts, "Little Liar", CBS/Blackheart....** It's not really tales out of school to say that Joanie is one pop-rock crossover vixen who always seems to draw more artistic fire than seems fair--especially considering her batting average. And though it's early, the total station count and top 5 activity leans toward yet another success. But then again, anything looks good after Michael J. Fox at two inches. Take it from Mojo Nixon. But we digress. The single's now on 90 of our reporters, with increases from KGB, WPLR, WKLC, KOZZ, KAZY and several more--and top 5 calls at KOME, KTXQ, WBLM, WDHA, WNEW, WPDH and WWZU. And while you probably won't deal with "Little Liar" right away now that "Hate" is looking so hot--listen once, and tell us the aforementioned isn't the 80's answer to "Dream On". Test it and tell us.

## HARD ACTS TO FOLLOW

**Parthenon Huxley, "Chance To Be Loved", Columbia....** I say the Association on Acid. Trapp sees Fever Tree on Seconal. Any way you slice, dice or chop it, the PH factor is most of all mental. From a compositional standpoint, "Chance To Be Loved" sounds at first like a tone poem, but a few more listens will unveil a perfectly preserved chunk of neopsychedelic pop a la Dream Academy, only more angular and sophisticated. Undoubtedly the most unusual offering of the week--and possibly one of the most reactive.

**X, "Devil Doll", Elektra....** In one sense, it's a shame the 12" choice was limited by the previous release considerations, as this double live album compilation really is the quintessential X concert collection on vinyl--and that has never been done before. The current X tour is added incentive to do a little something on air for this project--and that Dylan bit in the middle of this patented John Doe denture rattler could be enough to stimulate the synapses on even those 25+ listeners.

**Face to Face, "As Forever As You", Mercury....** Anyone who knows this band's history will freely acknowledge their Epic tenure was marked by what we have to call a somewhat schizophrenic approach to their sound. Were they a funk outfit a la "10-9-8" or hitbound a la "Eye To Eye"? Actually, those were both great songs which unfortunately hit at about the same time. Now, F2F further solidifies their versatility with a really compelling example of what we'd almost have to call 80's folkrock. The format has finally come around to the need for strong but sensitive female vocals in the mix--as evidenced by success stories like Vega, Sinead, Chapman, and Natalie and the Maniacs--and in this case the tune's rock sensibilities may finally give Face To Face the high profile treatment they deserve.

## PREMIUM PERFORMERS

**Robin Trower, "Tear It Up", Atlantic....** Redbeard remarks, "The Trower is interesting. It's like blues and rock and roll for adults. It rocks enough that you can please your 18-24 male listeners, but they took the edge off. The guitar isn't out of control".... It's also interesting to note what a broad base Robin enjoys--from super crunch signals right up to the KBCO's and WXRT's of the world. A hip legend, what a concept! New on 30, currently on 121--with increases this week from WRIF, WIMZ, KWLN, KFMG, KSQY and six more. There's also plenty of muscle in the early heavies--a list that includes KOME, KQRS, KSJO, WHJY, WIMZ, WPLR, WQFM and WRXK. 30-23\* on the Hard Hundred.

**Poison, "Open Up And Say... Ahh!", Enigma/Capitol....** As we said in the single pick, what a difference a world class producer like Tom Werman and a liberal studio budget can make. It could have been Pee Wee's Playhouse--but it turned into "The Young And Restless" with nuclear guitars. Just read the reviews: **Karen** "Much more mature sound" **Hewko, CFOX, John** "Can't pigeonhole it as a metal record" **Loscalzo, WRCN, Will** "Their most accessible record" **Douglass, WGLF**. etc., etc. The record that scored the biggest move of the week in our two previous reports comes back with a stellar 35-27\* gain--with 13 more adds, 11 increases, 18 heavies and WYNF, WCCC, KISS and KILO among the top fivers. And at the rate things are rolling, we say there's a lot more here than covering your ass on a pop-rock crossover. Listen to "Back To The Rocking Horse" and the ballad "Every Rose" and tell us they're not perfect counter programming on one of the hottest young bands in the country.

## RECORD OF THE WEEK

**Ziggy Marley, "Tomorrow People", Virgin....** Read the ad. You've got all kinds of world class dudes like Utz, Cooper, Mull, Sadof and Gary talking about how well this smooth, fresh sound is performing on all kinds of radio stations. You can't get more real than that. And the stats confirm: New on 22, now on 90--with 9 increases this week alone. More quotes: **Paul Shugrue, WRXL**, "One of our highest rated test songs. A refreshing change from the standard AOR fare".... **Dave Richards, WWRX**, "Ziggy is bringing down Top 5 phones for the second week now. The record is selling out at retail and tearing up the airwaves around here".... And **Brian Jordan, WRUF**, "Our listeners have been deprived of reggae for so long they can't get enough of this". 49-41\* on the Hard Hundred--and an easy call for top 20 status inside of the next three weeks.

**Wet Wet Wet, "Wishing I Was Lucky", UNI/MCA....** Here's a novel concept!! Front page ink for the first single from a new label for other than political reasons!! Why, once you wiggle past the slightly lounged out intro, Wet Etc. offers the best elements of the phenomenally successful sound of Johnny Hates Jazz mixed with flashes of the New Romantic Movement a la ABC circa "Lexicon Of Love". It's not for everybody, but if covering that critical crossover flank ranks high in your book, expect this record to be in your face.

**Noiseworks, "No Lies", Columbia....** Hey, we kinda liked "Take Me Back" too, but from the outset it was obvious that it was going to take more than just a solid corporate sound to get these Australians started stateside--regardless of their considerable success down under. Nonetheless, that leadoff tune did fairly serious damage. Unfortunately, it appears to have put most of you guys in a "wait and hear" attitude in regard to this much improved follow up. From the twitchy rhythm to the "ooh ooh" intro this thang's sports a 'build and kill' hook only an earectoid could miss.

# PARTY MON HONEY

"CHANCE  
TO BE  
LOVED"

CD SINGLE  
ON YOUR  
DESK NOW!

**Michael Bolton, "Wait On Love", Columbia....** Another active-plus add week brings in new air on 14--with KATT, KLPX, WIMZ, WRIF and WPDH out front. KKDJ, WAOR and WDHA moved it up, with 57 total stations good for this week's fourth longest 66-49\* advance. Key calls: KDKB, KMOD, KSHE, KYYS, WAAF, WCCC, WCMF, WDVE, WKLS, WLAV, WNEW, WRXK and WYNF.

**Tracy Chapman, "Fast Cars", Elektra....** If you thought "Female/passive" on first exposure, the stats say it's time to rethink that. This could well be the most reactive new artist on the street--with a very high phone-to-rotation correlation. Tracy's up to #9 Most Requested, with strong phones at the likes of WZEW, KATP, KBCO, WBRU, WMAD, WNEW, WPLR, WWRX, WVVV, WWWV and half a dozen more. Sales have just passed the century mark at this point, with the overall play keeping pace: new on 6, up on WNEW, KPEZ, KTCL, WEQX, WIZN, WPDH and WWWV. Also note the solid Heavy play reports--including KBCO, KLBK, KROQ, WMAD, WNEW, WPLR and WZEW. 62-53\*.

**Mission U.K., "Tower Of Strength", Polygram....** KXBR's Bill Clay calls "Tower" "A New music 'Kashmir'. It gets immediate reaction on our weekly alternative show".... Redbeard seconds, "I would really encourage programmers to give it a second listen, starting with the 4 minute edit. Just play it once. Ask folks if they like 'Kashmir' and play 'em 'Tower Of Strength'".... From **WNOR's Mark Bradley**, "The sales are good and it mixes in well on the radio with what we're doing. It sounds good and it's a perfect complement behind a Floyd or Led Zeppelin song".... WNOR, WRCN, WKXL and WEQX add, CHEZ, WDHA and WHFS up--with 53 total stations factoring into the 71-67\* build.

**John Kilzer, "Red Blue Jeans", Geffen....** Though John's only just now hitting the half way point with 85 adds, this song's easy accessibility suggests it will find a home at most, if not all, of our reporters. As **WQFM's Dan Hansen** says, "It's a straight forward little roots rock and roller. I like to hear songs like this on the radio".... It's new on 16 (KAZY, KRQR, WRDU, WIMZ): Up on WQFM, WZEW, WDHA, WCMF, KQRS, KFMH, KMJX, and WKGR, with heavy play at WEGR and KQRS. 46-37\* on the Hard Hundred.

**IMPACT TRACKS**

**Rod Stewart, "Lost In You", WB....** Quick play ups abound--with our third best 28 increases and 32 more adds pumping up a healthy 21-15\* gain. It's on 148, 40 of which are heavy--with DC101 and KYYS among the first really active phone reports. **KBPI's John Edwards** notes, "Rod has certainly discovered the 80's. Andy Taylor has helped out quite a bit. Certainly sounds fresh, not dated at all".

**Van Halen, "Black And Blue", WB....** You knew it was blowout time--but how big is a #1 Most Requested debut? Especially considering those Top Fives are 77 stations deep. The play breaks into 66 heavies, 23 power, and 56 medium--as 148 OTB adds punch out a 7\* debut. Reaction: **John Cooper, WPYX**, "It's crunchy, loud and raucous. That's how my dictionary defines great rock and roll. Already #1 requested". Oh yes, back to the requests for a second--how about #1 (not just Top 5) phones at more than 50 reporters? From **KQRS' John Lassman**, "With 'OU812' Eddie becomes the premiere guitar hero of the 90's. It now appears VH will age very gracefully and be around much longer than anyone anticipated back in the hot summer of '78".

**Jimmy Barnes, "Too Much Ain't Enough Love", Geffen....** Looks like JB's got that smash ballad the doctor ordered--as noted by **WAAF's Rick Mackenzie**, "The Barnes is very powerful. This record has hit written all over it".... **KBPI's John Edwards** agrees, "Sounds like good ole corporate rock and roll. We never did play his previous solo stuff, this has got hit written etc, etc, etc".... **WDVE's Anthony Alfonsi** agrees, "It has all the trademarks of a hit record. It is a totally complete record from the singing to the production".... **WKDF's David Hall** feels "The work with INXS set him up for a breakthrough and this is it. Great!".... From the always quotable **Dave Fortney** at **WKLT**, "The Barnes is one of those tunes that sits on your face until you finally wake up and go 'Yeah!'".... #2 Most added with 82 (six heavy); new at 34\*.

**John Cafferty & The Beaver Brown Band, "Song And Dance", Scotti Brothers....** We heard the "great springtime song" comment a number of times this week, as one of the fastest hitting hooks on the street lines up at #3 Most Added with 35 stations. To **KOAS' Mike Gardner's** ears, "Sounds better than anything they've done so far. They have a lot of punch and it sounds like they are hitting their stride".... **KGGO's Jack Emerson** hears, "Your basic Cafferty tune. The others have worked well, so why can't this one?".... Key calls: WAAF, WBCN, WHCN, WHJY, WLLZ, WMMR, WNEW, WPYX, WPLR and WQMF. New at 65\*.

**Brian Setzer, "When The Sky Comes Tumblin' Down", EMI/Manhattan....** "Brian is getting great phone response" says **KZEL's Al Scott**, "The audience recognizes the man's work instantly and let's face it, anything Dave Stewart touches turns into a hit".... **KSQY's Jeff Michaels** tells us, "Good early phone on this air staff favorite. Should be around for a while".... Currently heavy at KQRS, WPLR, WRXK, WTPA, WMDK, KRQU and KOAS, with 88 total stations. New's include KMOD, KZEL, WAQX, WRCN and WWRX.

**Vinnie Vincent Invasion, "Ashes To Ashes", Chrysalis....** They're out there waiting to hear it--as **WQFM's Dan Hansen** updates, "Gave Vinnie a spin on Killer's 'Dig It Or Die' and it stimulated real good phone response -- 85-90% positive".... **KLAQ's Mike Ramsey** reports, "Vinnie has a real strong following here. His shows always do very well with our listeners. New on 11, with WDVE, KLAQ, KOZZ, WHCN, WQFM and WRQK topping the list. Debut 97\*--with WHJY, WLLZ, WYNF, WIMZ, WEZX and KISS among the 22 already in.

# Jon Anderson

Top 3 phones  
at *rockin'*  
DC101!!

"When we added Jon's record I knew that it was a mass appeal song, with no risk involved, but what does surprise me is the number of actives that it's pulling. The on-air reaction is phones every time it's played, almost exclusively from men, and they're always extremely excited and surprised to hear Jon is doing work outside of Yes. And even though Yes's superior production and signature sound has always done very well in this market, the excitement generated here by this solo surprised me. You can tell that the calls are from active listeners who are going straight from their phones to the record stores." **Curt Gary, DC101**

## "Hold On To Love"

53-51\* Hard Hundred  
53-48\* FMQB  
58-52\* R&R Tracks

**Treat Her Right, "I Think She Likes Me", RCA....** The most recent feather in the Nipper's artist development cap continues to come on strong--with quality adds at KTXQ, KYYS, WLVQ, KISS, WRFX, WRQK, WWCK and KFMX, and excellent increase activity as well--with 17 ups total, including KLBj, WIOT, WNEW, WQFM, KCAL, KSQY and WPHD. It's currently heavy on 54, power on 5, and top 5 requested at KICT, KKDJ, WAAF, WAPL, WEBN, WGIR, WMAD, WQMF and WXP. From **WQFM's Dan Hansen**, "Basically, it's a catchy as hell song that reminds me of the Doors meets Canned Heat. Pretty active phoner, too".... **WGLF's Will Douglass** says, "A tasty record that scored well across the demographic scale. It's got a good hook and sounds great on CD, too".... **Rick Mackenzie, WAAF**, "It continues to pleasantly surprise us based on positive audience feedback. And it's one of our best testing records right now".... 18\* on the Hundred.

**Deacon Blue, "Dignity", Columbia....** They got Redbeard this week--as well as new air on WWCT, WWRX, WKLT, KBER and CHOM. Play-ups include a significant move at WMMR, along with increases at WCCC, WLVQ, WKFM, KWIC, KRIX and KATP, with current heavy status at KSHE, WHJY, WKQQ, WPHD, WTPA, KATP, KEZE and half a dozen more--as well as a Power report from The Loop.

**Honeymoon Suite, "Love Changes Everything", WB....** Now the phone build starts--with top 5 status reports from WYNF, WLZR, WJXQ, WBYR, KSQY, KFMZ, KFMX and CHEZ. The track's 74 heavies deep, with a solid plus 12 stations increasing, including KILo, KLAQ, KMBY, WKDF, WRFX and WRUF, and no drops or decreases in sight. 14\* Hard Hundred.

**Yngwie Malmsteen, "Heaven Tonight", Polydor....** Yngwie picks up two positions on the Most Requested--12-10, thanks to Top 5 response at the likes of KBPI, KISS, KSJO, WDVE, WFYV, WPLR, WRFX and half a dozen more. 11 increases push the heavy play count to 19, including WQFM, WHCN, WDVE, WAQX, KSJO and KISS--with 75 more medium and only 22 light. 24-22\* on the HH, far and away his highest charting album rock track ever.

**Neil Young, "Ten Men Workin'", Reprise....** It's as tough as ever inside that Top Ten--but Neil and nine buddies muscle out a 7-5\* underline. That's no prob when you're sporting 14 increases, 14 Powers and 93 heavies. The phonepower's there to spare, too--with KYYS, WKDF, KMOD, WQMF, WWWV, KVRE, KPOI and more into top 5 territory. Nice move on "This Note", too--72-63\*. It's new on WHCN, WSHE, and WCMF, with KBCO, KJJO, KQRS, KRQR, WAQX, WLAV, WMMR, WOUR, WPLR and WPYX rounding out the Key Call count.

**MORE HARD ACTS**

**10,000 Maniacs, "Like The Weather", Elektra....** Another week another fifty thousand units--and a total count hitting the 350K mark. It did get big, didn't it? WAAF, WHJY, WNOR, KPOI, WHTF, WMFX and WRDU are just in--with WLAV, WPLR, and WDHA increasing play. Currently on 71, with heavy spins now listed at WBRU, WCCC, WDHA, WHMD, WLAV, WNEW, WXXP and WTPA. **DC101's Curt Gary** raves, "After very minimal airplay for just one week it was the #2 phone record".... **Rick MacKenzie, WAAF** tell us, "It's selling so well in the market that we couldn't turn it down. The listeners are telling us that they love it and we are getting the message".... From **WNOR's Mark Bradley**, "Great phones and the sales are phenomenal".... Recent convert **Robin Mathieu, WBLM** cheers, "Two weeks on the air and top 5 phones! Callers are glad that we are finally playing it and others just want to hear it again. Sales have been great".... 50-45\* on the Hundred.

**Joanna Dean, "Kiss This", Polydor....** She doesn't take more than a minute to hit and stick--as per this from **WKDF's David Hall**, "The phones exploded immediately and it's been coming on all day long".... **Richard Smith, WIXV**, "Already top phones here after only two weeks".... **Dan Hansen, WQFM**, "Joanna moves to heavy. I think she's Janis Joplin fronting AC/DC. Calls everytime we play it".... **Bill Clay, KXBR**, "Everyone here thinks she has a hit. She's got a great voice and the song's a winner".... KXBR, WRUF and KWHL add, WBCN, WIXV, WHEB, KMJX, KJOT and KACV increase--and Joanna's sitting on a 80-72\* HH build.

**Bruce Hornsby & The Range, "Scenes From The Southside", RCA....** Serious triple track depth brings the Lp in with a 2\* debut--with the single far and away the hardest charging new thing out there. 48 play increases and 49 power reports easily take it into the 1\* airplay slot, with 25 Top 5 mentions moving it 6-5 Most Requested. "Look Out Any Window" claims 22 adds, including KBCO, KFMG, KZAP, WEBN, WFYV, WLAV, WLUP, WNOR, WPYX, DC101 and WYNF, debuting at 85\*, with "Defenders Of The Flag" entering at 90\* with adds at KATT, KBCO, KICT, KILo, KOME, KZAP, WIOT, WLAV, WMAD, WRXL and 7 more. As **John Cooper at WPYX** says, "Scenes' is another masterpiece. This guy has style, class and a way with music like no other". Amen.

**Jon Anderson, "Hold On To Love", Columbia....** As **DC101's Curt Gary** says, those Yes fans are indeed responding--with guys like **Will Douglass** at **WGLF** saying, "Response is far more positive than I had expected. Should be a cross format smash".... New this week on KDKB, KFMU, KWHL, KWLN and WKGR, with 61 stations now playing, including WPLR, KATT, KMOD, WAQX, WCCC, WDHA, WIMZ, WIYY, WLVQ, WNEW, WWRX, WDIZ, WHCN and WMMR. 51\* on the Hundred.

**Kings Of The Sun, "Serpentine", RCA....** Another big Increase Index winner this week, the Kings come back with 16 more ups--with WCCC, KCAL, KFMX, KMJX, KRQU, KWIC and WKLC front and center. The current column builds to 137 thanks to new air on KLOL, WAAF, WWCK, WWTR and KMBY, with puh-lenty of heavy reports--35 in all--including KAZY, KDKB, KFMG, KGON, KQRS, KSJO, KTXQ, WHJY, WIMZ, WPLR and WRXK. From **WKQQ's Stacy Yelton**, "This is a definitive KQQ song, with that nice bluesy start. Once it kicks you're in that swamp".

**Glass Tiger, "I'm Still Searching", EMI/Manhattan....** It's been a long time in the making--but this week hard work and hard playing pays off with Glass Tiger's first ever Top 10 rock radio track. WLLZ adds, 18 increase (WEBN, KILo, WNOR, WPDH, WRDU, WSHE, and 15 now list power with 72 more heavy.

**Then Jerico, "Let Her Fall", MCA....** It didn't come flying out with standard MCA gift wrap--but the two week trend certainly sparkles. The Hard Hundred reflects with a nifty 90-82\* sprint. Check the adds: WDIZ, WHCN, WHJY, WKLT, WKXL, WWTR and KRQU. It's already on 50 of our reporters, half medium, half light.

**Hurricane, "I'm On To You", Enigma....** There's definitely something going on here--and **DVE's Anthony Alfonsi** feels the rumbles, "It's an infectious song that stays in your head long after you've listened to it. This one could be a darkhorse hit". We're certainly impressed with that add--as well as WHCN, WCCC, KFMG, KRXQ, KILo, KTYD and WKWQ. Considering the comp, that's one excellent turnout. New at 100\*--with KLOS, KISS, KJJO, WHJY and KDJK among the early adds.

**Iron Maiden, "Can I Play With Madness", Capitol....** Their ever more loyal and vocal audience continues to press at retail--and now with 850,000 units up and rolling, the airplay reflects with a 52-48\* gain. WFYV, KWLN, WGLF and KFMH add, with WCCC and WPLR increasing. Majors on the case include KAZY, KBPI, WBCN, WHJY, WLLZ, WNEW, WQFM.

**Soul Asylum, "Sometime To Return", Twin Tone/A&M....** John Lassman steps up for one of the Twin Cities' hottest young "Hell of a buzz" bands with a KQRS add--as second week action also finds new air on KMOD, WDHA, WRCN, WVVV, KFMH, and WQFM, where **Downstairs Dan** tells us "We added Soul Asylum for that catchy garage rock quotient. If you like that sound, you'll definitely like this one".... WRCN's **John Loscalzo** says, "I've been a big fan for years. The more I listen the more I like, so I can see it moving up quickly".... From WVVV's **Butch Lazorchak**, "It reminds me a lot of The Replacements. It's raw with hooks 'a plenty. They are on the edge of being much bigger stars".... Currently on 27 Hard reporters--including WLAV, WLLZ, KRCK, WBCN, WKLC and WZZO.

## TAKE TWO

**Henry Lee Summer, "Darlin' Danielle Don't", CBS Assoc....** The only gap this guy seems to have is in his teeth, if you don't want to include the unexplainable pause in this developing followup. But just look at the reports Henry Lee got this week, 17 new, including KLOS, WLUP and WRIF. Could this be the sign that will trigger a flood of adds soon? KSHE, WPYX, KBPI, WAPL, KATT, WGIR, KTYD, KTXQ and KISS are among 84 stations already banging "Danielle", (My pun insurance just went through the roof on that one.). **Will Douglass** at WGLF says, "This one proves he has his own sound! Good hook, great beat".... It jumps 12 spaces up the Hard Hundred from 43 to 31\*. Pretty healthy, wouldn't you say? When someone powers a first release to #1, it should be an automatic thing to put on the next release. Mr. Summer has the goods with this tune, he's just waiting for you to take delivery.

**White Lion, "Tell Me", Atlantic....** Wherever this band is being played, sales can be counted on going thru the roof. That seems to be the story from **WNOR's Mark Bradley**, "Top 10 sales here, it's a good song for the station and everything pointed to playing it".... Mark and 10 others have added "Tell Me", bringing the total over the century mark (102). Reporters already on include KGB, WNEW, WLLZ, KISS and KBPI, (all in Heavy), WRIF, KDJK, WHCN, KLOL, WDHA, KRXQ, WDVE, KSJO and WRDU. "Pride" is sitting at 20\* on the Hard Album Chart and will soon be going platinum while "Wait" is still a hot item on the MTV Top 10 most requested videos and CHR. This project is still firing on all cylinders and watch it cruise up the Hard Hundred in style, this week it's at 26\* and climbing.

**AC/DC, "That's The Way I Wanna Rock and Roll", Atlantic....** They say the big earthquake is coming soon in California. But the biggest rumble will be heard, all over the USA, as Australia's high priests of metal hit the road. The tour will begin in the east and if the west coast is still there when they arrive, Angus and the boys will do their damndest to set off the Richter scale. 10 new adds this week, including KLOS, put the station total at 90. WNEW, KOME, WBCN, WLLZ, KISS, CFOX, KDJK, WAAF, WRIF and WHCN are in that pack, and there's more where that came from. They've been rocking hard for what seems like an eternity, but they haven't lost their sound, or strong fan base. Face it those "Highway To Hell" fans are now grown up and still rockin'. Expect hot phones if this one is aired, and hot reaction when these guys hit town. Currently sitting at 33\*.

**Robert Plant, "Ship Of Fools", Es Paranza/Atlantic....** As he would have said in his Zep days, "Push, push, push". That's just what Plant's doing. 141 stations across the nation are jamming this tune, with more than half having it in Heavy or better. WNEW, KSHE, WLUP, KBPI, CFOX, KOME, WLLZ, KGGG, KRQR and WPYX are in that happy bunch of power hitters. KGB, WNOR, KMOD and WWTR head a list of 11 new adds this week. "Now And Zen" is still holding down the #1 spot on the Album Chart and doesn't appear to be losing its grip. Could Top 10 be only a week away for the track too? Right now "Ship" is sailing at 13\* on the Hundred.

**Midnight Oil, "The Dead Heart", Columbia....** If you balked early on "Beds", don't be left in the dust on this one. "We've been testing it and the response has been very positive", says **WKWQ's Ron Marsh**, "It does a good job of following up their success story".... **Paul Marszalek** of **WMAD** will attest to the bands live prowess, "One of the best shows I've ever seen. I'm inspired once more, now that I know there are bands out there that matter. Bands that cut thru the AOR schlock like a ginsu knife".... KISS, WHCN, KILO, WRCN and KTYD are among the 11 new believers this week. WLLZ, KROQ, KOME, and KBCO are also on the roster, totaling some 28 stations on. Peter and the boys get a debut this week on the Hundred at 95\*. No multiple listens needed here, one turn on your table is all it takes to have the hook set in, deep. Aaaaagh!

**Joe Satriani, "Surfing With The Alien", Relativity....** "You've got to get up real early in the morning to get one by me", confesses **KTXQ's own Redbeard**, "Six months ago I had never heard of Joe Satriani. Now he is #2 most requested and tops at retail--and I'm talking piece count--topped only by Robert Plant".... It appears from that comment that the consumer has not only waxed up their boards, but they are hanging ten at the record stores. 81 stations are riding the crest of Joe's wave with KGB, WLLZ, KLOS, KISS, WAPL, KOME, WBCN, KRQR, KRXQ and KILO just some of those shooting the curl. Frankie and Annette would be proud that someone put surfing back on the air.

**Yes, "Big Generator", ATCO....** Who knows a good song when they hear it? How about WMMR, WNEW or KSJO? They've gone out early on this title track and with a re-mix in your hands now, get ready for big calls from loyal Yes fans. Jon Anderson's powerhouse vocals combine with the bands extraordinary musicianship to make this a must play, you can't go wrong. Don't let "Final Eyes" be your audience's last look, or listen, to these guys. There's a lot of juice left in this "Big Generator".

**Pink Floyd, "Dogs of War", Columbia....** How tight is this bands grip on rock radio? Let's talk soprano. With the live version breathing new life into this track, "A Natural" is the only phrase that describes it. If the second leg of their tour hasn't come to town yet, now might be the best time to get your audience ready for the show of the year. WMMR, WPYX, KISW and WGIR are among the 21 new adds which brings the station total to 51. "Dogs" was also the second highest mover on the Hard Hundred, leaping 23 spaces, 75-52\*. The success of this track has also goosed the Lp on the Album chart to 45\*. Take a gander at the reporters that are on it, KGB, WBCN, KZAP, WLLZ, WDVE, WAPL, KXRX, WONE and KILO. (Sounds like Roy Hobbs material to me.)

**Paul Carrack, "Double It Up", Chrysalis....** It sure has been a long time coming, this is the track that rock radio has been screaming for. Were you one of the throng yelling? Then now's the time to add it. Once again WMMR leads the pack with KMOD, WWTR, KSQY, WRCN and WRXL, where **Paul Shugrue** calls it, "A good timey up-beat rocker, similar to Nick Lowe and Rockpile".... Pull out Paul's Lp and just give it one spin, that's all it will take to realize just what a smash tune this is.

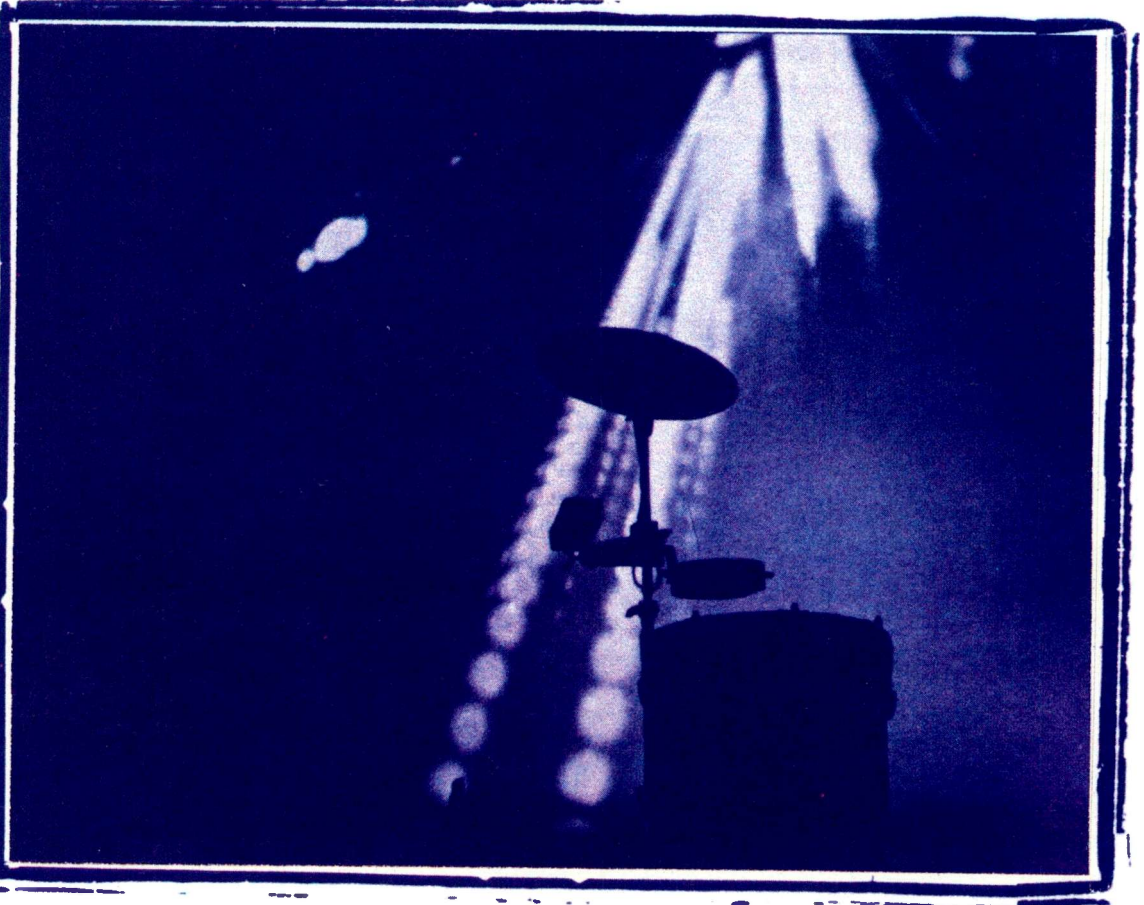

music so cool was never so hot.

It has certainly been a big couple of weeks for stellar debuts. This time out it's **Van Halen** breaking the Top Ten barrier with a 6\* showing fueled by Monsters Of Rock anticipation and adds on CFOX, KZAP, WLAV, WWDC, WDVE, WLVQ, KGGO, KSHE, WFYV, KILO, KTXQ, WBCN, KEZE, WZZO and KQRS among numerous others. Sammy's vocal chops and the rock 'em sock 'em guitar slashing of Eddie have combined to generate audience response like we haven't seen this year. The list of instant number one requests is so impressive that we can only tie down everything that's loose and wait for the storm to pass.

The big surge of new players on the Winners Chart has settled down a bit and the real story this week are the developing acts that are powering up against the rest of the chart. Top of the stack performance sees **Robert Plant** pushing "Ship Of Fools" from 18-11\* with premium play from KLOL, KLBK, WRXK, WLLZ and the Loop. The layers of play off this album has AOR getting ready for a long hot summer spent in the glow of Mr.

Plant's powerhouse talent. **Rod Stewart** is also getting a good run on the chart with a little help from WBCN, KFMX, WLVQ, WMMR, KWHL and WZZO where rotational increases come on the heels of some very encouraging listener response. Stewart's distinctive voice and the lack of too many overt CHR mannerisms have helped smooth the way for a very warm welcome back to the format. Performing well this week with the format leaders, Rod climbs 23-14\* this week. The big midrange mover however has to be **Robin Trower**, who has fashioned an incredibly effective AOR track for himself with "Tear It Up". Guitar riffs that set him apart from the crowd and a musical sensibility that is as potent as it is uncluttered, and that 31-22\* jump this week looks more and more like the real thing. Heavy play at KEZE, KILO, WRXK, KNAC, KQRS and WHJY with a raft of increases on the horizon, and Robin will be kicking it into fourth gear before you can spell "guitar hero".

The other tracks moving up fast include **J.C. Mellencamp's** "Rooty Toot Toot" which has piled up a respectable 40-27\* hike on the chart with new play on WLVQ, KISS, WNOR, KSHE and WDHA. The Power players include WZZO, WWDC and WKDF and the institutional claim this man has on the format is a byproduct of years delivering those hits hard and fast. It's good to see **Ziggy Marley** getting mobile on the chart with a 43-31\* week and a ten slot differential from his HH placement. Big impact play on CHEZ, KBCO, KPOI, WPLR and WRXK and a steaming track record at retail and you just gotta know that this one will establish a whole new reggae chapter for the format where no one else could before. **Joan Jett** has kicked in with a solid 50-42\* week on the airplay of format leaders WEGR, KTXQ, KTYD, KILO, WHJY, WAAF, WLLZ, WBCN and WNEW. Joan has been looking for that track to get her back on top and, this is a positive indicator of the way things are going for little lady with the Blackheart.

The format's Second Banana Award this week goes to **Jimmie Barnes** whose debut, in the shadow of Van Halen's juggernaut, clocked in with a healthy 30\*. Format leaders like KISS, WRXK, WKDF, KQRS, KYYS, WFYV, WYNF, KDKB, KBPI, WNEW, WLVQ and KSHE have helped send the message; this Aussie rocker is ready to break big and the proof is in the playing. A stack of MD raves from here to the dark side of your Selector guarantees more of the same in the weeks to come.

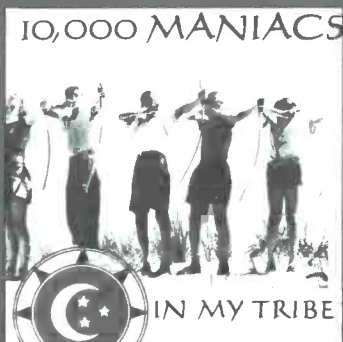

Among the other debuts this week, **Pink Floyd's** "Dogs Of War" sets the pace with a 40\* premiere, a full 12 slots ahead of the HH ranking. A continuing tour and video pressure worth its weight in platinum albums combines with play on KZAP, KYYS, WONE, WLLZ, KGB and WBCN to make this project one of the most long lived albums in years. **John Kilzer**, former English teacher, native of Memphis and a rocker with a mission, has cracked the Winners Chart with a 45\* showing that makes those early Heavy adds on hometown WEGR and KQRS look like inspired play. The genre is tried and true and the man cranks it up and lets it fly with the best of them. This is one instance where the format at large is leading the charmed circle of winners but count on the Winners to catch up soon. **Iron Maiden** is rolling like a runaway panzer behind the supporting firepower of WPLR, WBCN, WEZX, KBPI, KEZE, KTXQ and WNEW. These guys have been dusting off their Gods of Metal status and this track looks like a hardcore effort to break some new ground with formerly hesitant programmers. Their 47\* introduction to the chart should show growth as this chunk of hook heavy headbanging takes hold across the board.

**On the horizon... more Hornsby, Neil Young and Jon Anderson.**

*They both mean*

**GREAT ROCK 'N ROLL**

**CBS CORPORATE MOVES CONTINUE**

As widely reported, **Tommy Mottola** has gotten the big prize as the new President of CBS Records. Responsible for the managerial development of mega hitters **Hall and Oates** and **John Cougar Mellencamp**, Tommy has been given a mandate to revitalize Artist Development and A&R while maintaining the Promotional drive that has always typified the company. Label expansion and a "new phase" atmosphere have gripped the organization and speculation is that the changes haven't stopped yet. One of those changes has **Dave Glew** getting the official word about his new position within the family of CBS labels. Dave will be the new VP/GM at E/P/A, a position that has been vacant since **Don Dempsey** left the label in 1986. In his new position Glew will be responsible for all aspects of the label's operation including Promotion, A&R, Product Development, Public Relations and Marketing.

**JOEL WEBBER MEMORIUM**

The sudden and shocking death of **Joel Webber** last week was the result of a fatal heart failure caused by an undiagnosed congenital circulatory problem. Having departed Island after being their A&R VP since 1986, Joel was preparing his sales, marketing and educational programs for the upcoming New Music Seminar at the time of his death. Joel's time spent as a progressive music proponent at WHCN/Hartford, his work with Trouser Press and his own label, Uproar had all contributed to a career that was synonymous with the furtherance of new music in America. We will all be there for the 9th NMS this year and we look forward to another meeting of the minds regarding music and the media but, sadly, the unifying presence of Joel Webber will be missing.

**JEM DEAL GOES SOUTH**

After months of buzzline information centering on the impending absorption of **JEM** by the ambitious **Enigma** cartel, news broke that the entire acquisition had been scuttled. The reasoning behind this surprise announcement had Enigma deciding that JEM was basically incapable of fulfilling their part of the agreement. For their part, JEM is exploring legal options against the boys at Enigma while the rumors are flying thick and fast. Look for more news to follow as Enigma moves on while JEM tries to put things back on track.

**WELSH JOINS POLLACK GROUP**

**Pat Welsh** will be leaving his PD gig at the KATT in Oklahoma City for the bright lights of LA and the post of Director/Programming for the **Pollack Media Group**. Pat has been at KATT for the last five years helping to make it one of the most successful stations in the country. His experience includes time at KICT/Wichita and WXLR/State College Pennsylvania. Jeff told NOISE, "We're thrilled to have a programmer of Pat's caliber joining us in the expansion of our group."

**ELEKTRA'S NEW EARS**

Eight year PolyGram vet, **Peter Lubin**, is getting the VP/A&R slot over at Elektra. Elektra Prez, **Bob Krasnow**, told NOISE, "Peter will bolster our commitment to new and unique artists in all styles of music." Peter has been intimately associated with the careers of folks like Robert Cray and Peter Gabriel so you can expect more quality stuff from the man at his new shop.

**AT ISLAND, SAME STORY**

After some speculation that the label wouldn't hire another VP of A&R in the wake of Joel Webber's departure, the announcement came that they have signed with former Elektra A&R honcho, **Kevin Patrick**. Kevin will indeed be handling those duties with a Veep title and the A&R beat goes on.

WHCN/Hartford held another Hawaiian Shirt Friday Live Lunch Luau at the Red Cross to help get an extra 106 pints of blood in the Blood Bank. Now, lunch and blood drives just seem a little oxymoronish but whatever works. Pictured are Michael Picozzi, the "Screamer", Elizabeth Keifer and Kim Alexander posing with Tom Selleck who has gone from Magnum heart-throb to lei wearing bozo in less than one week. How quickly the public forgets.

**HERB HANDS USC A CHECK**

**Herb Alpert** and his wife **Lani** presented USC with a \$2.5 million donation to help fund the construction of a new concert hall for the University. An alumni of the University, Herb told NOISE, "Through the years, I have remained deeply impressed with the USC School of Music's commitment to superb classical training and also its openness to the cutting edge of new musical frontiers." The donation is the largest single contribution ever bestowed on the USC School Of Music.

**EMI-MANHATTAN MOVES**

The new offices for **John Hey** and those wacky EMI-Manhattan guys are located at 810 Seventh Avenue, New York, NY 10019. Now that the smoke has cleared you can reach them on the phone at (212) 603-8600.

**POLLACK TO SPEAK AT MONTREUX**

When the Third Annual International Music and Media Conference gets fired up in Montreux, Switzerland it will be **Jeff Pollack** who lights the fuse. Jeff has been picked to give the keynote address at the gathering of international broadcasters. Look for Jeff's experience consulting firms in seven separate countries to give his presentation a special flair.

**ROCKLINE BIRTHDAY BASH**

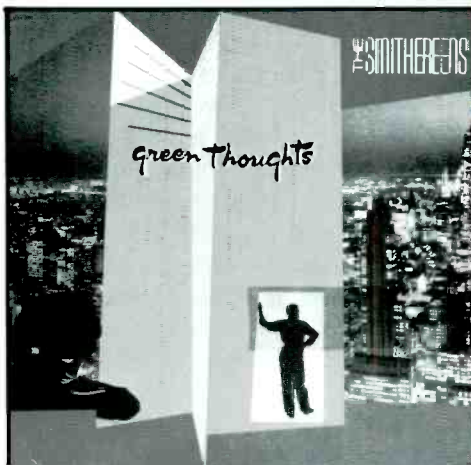

**Mark Felsot** called to inform us of the 7th Birthday celebration in the works for the Rockline program. The show began long ago with the late legendary LA personality **B. Mitchell Reed** in the driver's seat but **Bob Coburn** jumped in after about 6 months and has held down the gig ever since. **Robbie Robertson** has been secured as special guest for the show.

When **Neil Young** and **The Bluenotes** hit Philadelphia for a show at the Trocadero, (good bar-great hall), Neil and club owner **Rick Blatstein** donned their rock and roll leathers and looked suitably casual for the camera.

**Enigma** has announced the appointment of **Tom Cording** to handle Press and Artist Relations for the label. Tom came to the company from Elektra six months ago and has spearheaded the Enigma drive on the media. Here's Tom looking spiffy in his new suit.

**RYKODISC EXPANDS**

Those digital boys at Rykodisc have launched a new line called Ryko Analogue. As the name implies, this new effort will center on the manufacture of vinyl and tape product, a significant change of approach for the CD intensive label. The announcement came on May 12th in New Orleans and was followed by strategy sessions regarding release schedules and marketing plans.

**BENSON BACK IN BROADCASTING?**

Last minute gossip has **Ken Benson**, former EMI-Manhattan promotion wizard, surfacing at a broadcast oriented company on the Westcoast. Details are sketchy, but it seems that Ken has decided to move in a new direction after his many years in the record industry.

**KBCO/Boulder** spent some time in studio with Icehouse frontman Iva Davies when the band passed through town. Pictured are KBCO PD John Bradley and Iva ordering pizza during a break in the action.

**POSTSCRIPT**

Our condolences go out to WWCT midday announcer **Jennifer Daniels** on the recent passing of her father.

**THE RADIO RUMBLE**

**WLIR/Long Island**, the station in search of a home, got an unexpected chunk of bad news recently when Larry Dunn submitted his resignation, citing his growing feeling that Elton Spitzer's takeover bid of WRCN/Long Island was bogged down past repair. Read on; "Effective immediately, I resign my position with WLIR and my consultancy with WXXP. My ten and a half years at WLIR has been the most rewarding experience anyone in radio could ever imagine. I wish Elton the best of luck, even though the WLIR/WRCN takeover is still pending before the FCC, what had seemed like a sure shot now seems like a long shot. We made a major mark in radio history and I'm proud of our rich tradition. I especially want to thank my friends in the radio and record community for all their help during this time." A series of challenges to the Spitzer takeover at WRCN included paper attacks from a disgruntled former employee, the ownership of WDRE/Long Island over alleged Arizona Waiver infractions and another group challenging Spitzer's right to the precious WLIR call letters. With the election year pressure to look extra thorough on every pending case, the FCC had slowed the turnover until the projected time for a decision had been extended beyond the immediate horizon. Back at the kitchen table, Larry is considering some opportunities that have been waving in the wind. You can reach the inimitable Duckster at (516) 795-8251.

**KOMP/Las Vegas** has retired Sherman Cohen from their staff as PD. Sherman had turned the market upside down at KKLZ and the KOMP guys snagged him double quick to guide their own fortunes. After a change in management and a down book, the glow had obviously faded from the relationship and last Tuesday the company cut the cord. Sherman is a top-notch programmer and available at (702) 873-0796.

**WYNF/Tampa** proudly displays their custom axe with members of Great White. The guitar is fully functional and a great promotional toy. Pictured are Promotion Director Jon Volmar, Great White's Jack Russell, WYNF MD/APD Charlie Logan and Michael Lardie of Great White.

**WKDF/Nashville** had Henry Lee Summer in town for one of their infamous Half Price Expos. The crowd got on their hind legs and howled bigtime for the guy and got even more enthusiastic when plans for the station's One For The Sun benefit concert were announced. The show is lined up for June 18th and the artist roster will be announced soon.

**WMMS/Cleveland** has made Rich Piombino their new Promotions Director with Scott Strong as his assistant. Rich and Scott are gearing up for a hot promotional Summer in Buz-zard-land.

# THE RIGHT PLACE AT THE RIGHT TIME

“The NMS puts me right in the eye of the tornado that is the music industry. More radio and music people running around than anywhere—it’s dizzying!”

**Steve Tipp**, National Promotion Manager

“Every successive year Enigma and its sister company, Restless, has brought a larger contingent to the New Music Seminar—1988 will be no exception.”

**Q-107/Toronto** sent their Party Plane to see Sting in Los Angeles with a full compliment of 25 lucky listeners and Promotion Director Elsie Xynos. The roving camera caught Elsie and Sting backstage at the event.

**WRIF/Detroit** has inked Marty Bender to their vacant PD slot, as rumored here last week, and the changes in musical direction reflected in their playlist tells me that things are a hoppin' in the Motor-Town. In the meantime, Arthur "Baby" Penhallow celebrated his 18th year on the station May 3rd. Arthur had been on the frequency back when it was WXYZ and has been a familiar fixture for listeners in the area all this time. The station marked the occasion by throwing a surprise party for Arthur. The party was big enough and happening enough to properly toast the one man who can claim the longest tenure at the same station in our format.

**KGB/San Diego** has come up with a good promotional hook to tie into the new Van Halen album and the Monsters Of Rock Tour. They will be giving away a truck with the custom plates "OU812" to some lucky rocker. This campaign is limited to one station per state, of course, but you could put those plates on a little red wagon and still have that audience involvement jump off the scale.

**KATT/Oklahoma City** will be PD shopping now that Pat Welsh has picked up his act and moved over to those Pollack guys on the coast. The station is a quality run shop with a heritage most stations would kill for. Get that T&R in the works ASAP and good luck!

**WRCN/Long Island** has promoted Tom Calderone to the post of PD with John Loscalzo being elevated to the title of Music God. The station is also airing a New Music Show and would like your most adventurous product available on CD. As for Lenny Bloch, he has been moving his stuff to Poughkeepsie where he will be taking over classic rocker WCSX.

**WIXV/Savannah** is looking for a midday jock as of yesterday. You must have solid production skills and at least 2 years experience. If that sounds like you, Fed Ex that package to those guys right now. Send it to Virgil Thompson, I-95, WIXV, #1 Riverview Road, Oatland Island, Savannah, GA 31410.

**WBCN/Boston** had the Alarm in town for a live show recently. The concert was recorded for a special EP to be released sometime in the near future.

**KNCN/Corpus Christi** has finalized their management team. John Marin joins as GM from KLZE/San Francisco. Tom Gebhart is the new GSM, formerly with KOKE/Austin. Randy Marx has been made OM after leaving KHFI/Austin, and Tim Parker remains at his PD post with the Texas rocker.

## HOW IMPORTANT IS IT TO CHANGE PROMOTIONAL EMPHASIS FROM CUME TO QUARTER HOUR CAMPAIGNS?

**Jim....** It can be very critical. We just started up a new morning show so we had to use promotion to bring in cume and expose them to our improved morning product and then switch over to a quarter hour strategy to give the new audience another reason to stick around. This kind of surgical application of cume and quarter hour promotion is becoming more important all the time.

## IF YOU WERE HIRING YOUR REPLACEMENT WHAT WOULD YOU LOOK FOR?

**Jim....** The first thing is a creativeness in terms of taking chances and not sticking to the safe and pat route. You have to be able to absorb what is going on around you, like a cooking pot, and come up with promotions that feed on the scene around you. Integrity is critical also, sometimes it's better to walk away from a promotional concept if it's going to hurt the station, to do that you have to be able to stand up for what you think the station stands for. You must also have a passion for the biz and love rock and roll music. In some formats you might be able to distance your own tastes from the music being played on the station, but not with AOR. It's crucial to a job well done that you share the audience's love of this music. A good Promotion Director should also be very informed about the world at large, everything from fashion to politics. I subscribe to about 30 magazines and no matter how busy it gets, I find time to read that stuff. Now, David Lee Roth and Poison are important AOR acts but I can't really say that I would have gone to see their concert if I didn't have three 12 year olds to take with me. Well let me tell you, when that place went nuts I could feel the excitement like a tidal wave. Enthusiasm like that is contagious and can definitely be used for our purposes but I wouldn't have known about it if I had stayed home to watch TV. You simply can't take anything for granted.

## DO YOU HAVE TO WORK AROUND SALES A LOT?

**Jim....** We all work for the same goal at KSHE and although it would be easy to just say "no" to them, it's much better for me to take an idea that's flawed and try to improve it. The sales people appreciate when I work on developing an option for them and the client likes it too. Most clients are smart enough to know that what they are really buying is the station's image and what they want is an authentic slice of that for their product to tie into. A good promotional idea makes everybody look smart and most of our larger clients deal with so many stations across the country that they love anything that gets them away from a generic application of their campaign. The most important thing for all of us at KSHE is to "protect the property" and that understanding makes it easier to approach things from a quality control position. It's important, however, to remain empathetic with the needs of Sales and avoid a confrontational atmosphere.

## THE ORIGINAL SWEETMEAT CAME FROM THE BLOD-WYN PIG ALBUM COVER "AHEAD RINGS OUT", COMPLETE WITH NOSERING AND JOINT. THESE DAYS THE PORKER IS PRETTY WELL CLEANED UP, DESCRIBE THAT METAMORPHOSIS FOR US.

**Jim....** Our research told us that the lifestyle of the audience had changed to the point that the old Sweetmeat image wasn't really a positive reflection on our listeners. As for the community leaders, he was definitely perceived as a negative. We redesigned his image as part of a constantly evolving concept of what Sweetmeat could be for the station and St. Louis. Now we have stuffed Sweetmeat dolls that people give their kids and that is a big image turnaround for us. It's very important to remember that our generation of listeners is now father and mother to the next generation of KSHE listeners. You've got to keep that in mind at all times when you're developing the station's image.

**HOW DID YOU HANDLE A BIG NEGATIVE LIKE THE NFL CARDINALS LEAVING TOWN?**

Jim.... Well we made fun of the owner a lot, just like you would expect, taking out the frustrations of the community in a public forum. But that doesn't cover the very real fact that losing football in St. Louis is a sad thing for a lot of us. People have a tendency to judge a city by the number of major league franchises they have, so there is a feeling that we have been reduced somewhat in the eyes of the nation, and that hurts. Basically we dealt with the whole issue with a balance of humor and irony but the loss hasn't really hit home until this Fall when we will be watching football on TV only.

Every weekday the Morning Zoo gets St. Louis out of bed and rolling down the highway. Smag, Rob and the U-Man combine the best of music with 95 seconds news updates, up-to-the-minute traffic reports, sports, comedians, entertainers and sports figures, and daily features like "The Ticket Window", "March's U-less Trivia" and much more! And every Friday at 9:35, the Zoo celebrates the coming weekend with a KSHE tradition, "Partridge".

**WHAT ARE THE MOST IMPORTANT THINGS TO AVOID IF YOU WANT TO DEVELOP A CAREER IN PROMOTIONS AND MARKETING?**

Jim.... Don't be in a hurry to get ahead, you are going to pay your dues before you get a break. It's important that you don't go in with any preconceptions about Sales and Programming so that you can remain open minded about what you will do with Promotions. Try to avoid being so locked into the station that you don't know what else is going on in the community and the world around you. Don't neglect any chance to develop your ability to write in cogent and easy to understand English, written communication skills are essential to the job. Make your own breaks but don't think it's going to be easy, this is a tough job to do right. However, the importance of Promotion makes it one of the most exciting fields in broadcasting right now. With stations playing the same music more and more, the real difference in a winner and a loser will be the way they are positioned in the market. Make no mistake, marketing will be the crucial battlefield of the Nineties.

Jim Marchyshyn has definitely earned his place in the front rank of today's premiere promotional minds. His work in cleaning up Sweetmeat, getting the station into community service, establishing a working, on-air relationship with the Cardinals and building a portfolio of "money can't buy" promotions for KSHE qualifies him as some kind of marketing mofo. With this accumulated experience, Jim has decided to branch out into Promotional consulting with his own firm J.A.M. Inc. The company specializes in small and medium market stations and can be reached at (314) 394-3279. Now that's promotion!

**The Mekons "So Good It Hurts" (Twin Tone)**

If you calmly admired this band in earlier days, be prepared along with Mekons followers who are already on the case of these newly inspired songs. With an array of musical influences that range from English country folk, latin, reggae and 50's ballads, the garage rock door is shut and lustrous production shines through. What used to be loud, raucous drinkin' music is replaced with tender ballads sung by Sally Timms, soft moments that lend an essence of charm to an already lovable group. Leader Jon Langford maintains that anyone can be a Mekon, and in the tenth year of the legacy their virtue is still in place with songs that reach out and touch listeners in a communion of mood and melody. To say that one song is better than another is to dilute the impact of a thoroughly enjoyable album whose personality materializes in tempting tunes like "Fletcher Christian", "Robin Hood", "Heart Of Stone", "Poxy Lips" and "Johnny Miner".

**Camper Van Beethoven "Our Beloved Revolutionary Sweetheart" (Virgin)** On their major label debut, the Campers turn away from the skinhead syndrome and more toward smoke shop bop, but the new psychedelic twist fits them fine. Take country flavored rock and paint it with a juvenile beat, smear in lyrical irony and mingle in some fun and you'll be hip to Camper Van Beethoven's irresistible appeal. So this is what the glorious youth of America will think of next... and it's a good idea. Who else could fiddle around like this and get away with sing-a-long audience participation? Top it all off with a funky but chic eastern motif in "Tania", the

groovy moves in "Turquoise Jewelry", black humor in "O Death" and the shivering swing of "Devil Song". "Eye Of Fatima I" and "II" will be combined on the first single. A pioneer sound for this band, and one of their strongest songs in recent memory besides "Never Go Back" which was carried over from the last release. As their identity sharpens in the minds of those seeking new innovation in American rock, be aware that the folk contingent will be swept off their feet as popularity for this band continues its upward spiral.

**MUSIC NEWS!**

CBS records unleashes the "Permanent Record" soundtrack this week and alternative radio rises to Joe Strummer's "Trash City", making this one a Most Added sensation out of the box. Side one features Joe and the Latino Rockabilly War, a blazing backdrop of music to accompany the ex-Clash man turned movie maven in the finest moments of his burgeoning solo career. Other appearances on the Lp include the CD only Bodeans song, "Waiting On Love", "Something Happened", a newly penned tune by Lou Reed and the next Godfathers single, "Cause I Said So". That's the good news. The movie deals with a more solemn theme, teenage suicide, in the hopes of increasing awareness and motivating teens to seek help if they find themselves headed for a tragic end.... Speaking of the Clash, CBS U.K. has finally materialized the obvious brainstorm of compiling some of the Clash greats onto a double album set, "The Story Of The Clash". If the scratches on your Clash catalogue are louder than the music itself, then peel the wrap off of this gem and your listeners will thank you in a big way. What else can you say about a Clash compilation, except, "have fun".... New Jersey's **Red House** can be heard regularly on WHTG, and are gearing up for their second album release on Randoll Records. The album will be titled "Circus Life", and you can sample a track called "I Said A Prayer" on the newest Certain Damage CD. A different version of the song will be on the album, and if this band keeps up their exceptional sound, a major label deal will soon follow. Call Rich Stanley for more information, 201-776-6058.... Fundamental Records, now becoming a regular in this column, will release the new Ep from the **Shamen** on June 28th. It's titled, "What's Going Down" to be released on the Communion label.... The tenth studio album from the U.K. **Subs** is due May 13th, from Restless Records. Currently on tour, they will support the new release with the levels turned way up, what else?

EMI Records announces a new collectors item EP from the **Red Hot Chili Peppers**, which includes these splices of fine funk 'n' punk, "Backwoods", "Catholic School Girls", "Hollywood" and "True Men". It's called "Abbey Road" and the cover depicts the four-some crossing Abbey Road dressed in their infamous sock ensembles, and nothing else. Note the new address for EMI Records in New York: 810 Seventh Ave, Floor 8, NY NY 10019. The first releases include the "Mondo New York" soundtrack (the movie is said to send shock waves for miles), and the new record from LA based 17 Pygmies. Cathy Jacobson will oversee the label at Island's New York office.... New York turned national duo, of John Flansburgh and John Linnell aka **They Might Be Giants**, is back to claim fame with their new single, "(She Was A) Hotel Detective", backed with four unreleased tracks. A slight departure from their festive, quirky accordion pop, this one rocks big. You won't be short changed on the lyrical side, because the pen is a main weapon against assembly line commercialism for this peculiar twosome. Bar None Records is the place, so write to P.O. Box 1704, Hoboken NJ, 07030.... Minneapolis band the **Magnolias** release their second album, "Concrete Pillbox" on Twin Tone Records. The guitar packed, driving momentum that fuels the energy on their impressive

return, marks the start of yet another fan club. These guys may be young and the chapter unfinished, but read on and you find great big wailing riffs are in their favor. Twin Tone is located at 2541 Nicollet Avenue South, Minneapolis, MN 55404.... In the ever continuing saga of phun phone conversations, one topic addressed this week was how college radio programmers handle announcing songs from the new **Butthole Surfers** Lp, "Hairway To Stephen". Pertinent to the new musical direction of America? No. But the weird science surrounding this band of gypsies leads us to an album whose inner label contains cartoon drawings of crude and unusual people, animals and things. In mostly undesirable, shocking positions. No song titles, just visual stimuli with a darn number next to it. How are jocks handling this strange and wonderful album? Josh Rosenthal, WCDB says, "To quote a friend, 'it's another poo poo platter from BS', We've gotten a lot of calls on the record too. What's happening at our station is that we name the song after the person who requests it. That means we get even more requests because listeners can hear their name over the air".... WTSR's Doris Duwe found that while tabulating the playlist recently, jocks actually drew the image listed on the album, which made for an "R" rated log book. As to whether or not they were close interpretations, Doris was laughing too much to disclose that information.... Tim Ziegler at KUSF says, "It's a bit sketchy here. You just describe what the picture is, but it seems like the safer ones determine what songs I play. The others can get a little graphic.... Adam Langley, WBNY, Faith Henschel, KCMU and Larry Lumb, WUOG agreed that each jock gives a creative interpretation for each song, and every announcer's interpretation is different naturally. Listeners just become more and more curious and buy the record to see for themselves.... Finally, Mark Miller, KABL was a recent victim of their live performance in Minneapolis, "They might as well be any sensational heavy metal band because of the shock value they rely on during a live show, like showing gross films, putting a nude dancer on stage and playing atonal noise for an hour or more. Everything about them strikes me as a gimmick. Very calculated and high priced." Ouch.

**RECORDS OF THE WEEK**

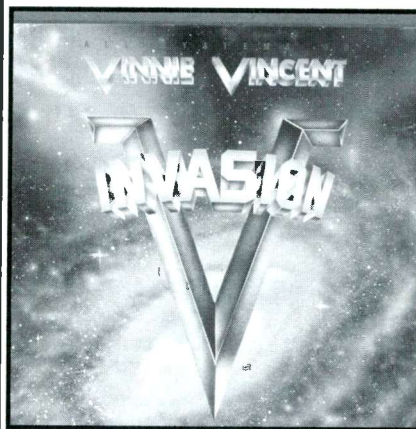

**Queensryche, "Operation Mindcrime", EMI/Manhattan....** You know how there was al-

ways one kid in your class who got A's on really hard test's, thereby blowing the curve so everyone else got C's or D's? That's what we're gonna see with this band. One listen to "Mindcrime" and so many others seem to pale in comparison. With all the clones that have deluged the airwaves of late, it's reassuring when a band whose entire design is

unique and supremely creative puts out another tremendous album like this. WGIR'S Mike Jones put it best when he called this album "A mind movie", because it deals with very controversial and topical events in an almost rock opera style, and in the tradition of Pink Floyd's "The Wall", "Mindcrime" delves into psychological and emotional relationships. On this record it's in the form of a so-called "One-man death machine" against the backdrop of underground revolutions, religion, drugs and love entanglements. The sound is incredible, the musicianship is clear, concise, innovative and as always top notch. Geoff Tate's vocals are a study in control and range with enough emotional power to make the story-line seem all too real, and the chants, special sound effects and character parts are especially creative. Every song is an integral part of the overall "plot", but most are capable of standing on their own - separate from the story. From "Revolution Calling" and "Spreading The Disease" to the incredible "Suite Sister Mary" and "The Needle Lies" to "I Don't Believe In Love", this record is a masterpiece. This week Queensryche debuts at 28\*, nails #1 Most Added Metal and in its first week, hits the Most Requested Metal chart at #7.

**Vinnie Vincent Invasion, "All Systems Go", Chrysalis....** If a monstrous 37-8\* Hard Hitters

move is any indication of a great record, then this certainly qualifies. Hell, it's enough to make it a Record Of The Week! The Invasion's latest also scored well on the Most Added Metal chart (#2) and debuts on the Most Requested Metal chart at #9 as well making some waves on the mainstream side of life with a Hard Hundred debut at 97\*. Keep in

mind that most of the metal adds are for the album, speaking of which, let's do depth. Besides just "Ashes To Ashes" (also featured on the Hard Hitters CD Sampler), one can find a virtual multitude of tracks to choose from. "Deeper And Deeper", "Dirty Rhythm" and "Burn" are all out rockers while, for your softer side, "Love Kills" and the favorite "Ecstasy" supply a more mellow tone. The real surprise of the album is the vocals of Mark Slaughter. Very impressive to say the least. KBER, KFMH, KFMX, KISS (metal and AOR), KRSR, KSLC, KSJS, KTEC and KUCA are on it as well as WAIF, WARC, WCDB, WCWP, WIXV, WJUL, WKNC, WPYX, WRFL, WVS, KJJO, KNAC and Z-Rock.

**Poison, "Open Up And Say... Ahh!", Enigma/Capitol....** Hot on the success of "Nothin' But A Good Time", come some more seriously killer tracks from L.A.'s premiere party puppies. To be very honest, I was impressed with "Nothin'" but was still bit leary as to what the rest of the album was going to sound like. To my surprise it's a great record with a more musically sound direction and with crystal clear production like this they couldn't lose. Listen for stronger guitar playing, tighter rhythms, stronger and more confident vocals from Bret (as well as some smokin' harmonica work by the blonde wonder) and some much improved songwriting. There are some real stand-outs on the Lp like "Love On The Rocks", "Back To The Rocking Horse", "Good Love", "Look But You Can't Touch" and a really nice ballad called "Every Rose Has It's Thorn". There is also a rather happenin' cover of Loggins & Messina's "Your Mama Don't Dance". Chances are Bret and his boys better clear some room on their walls for some more platinum - multi-platinum that is. This week "Nothin'" moved them 18-14\* on Hard Hitters.

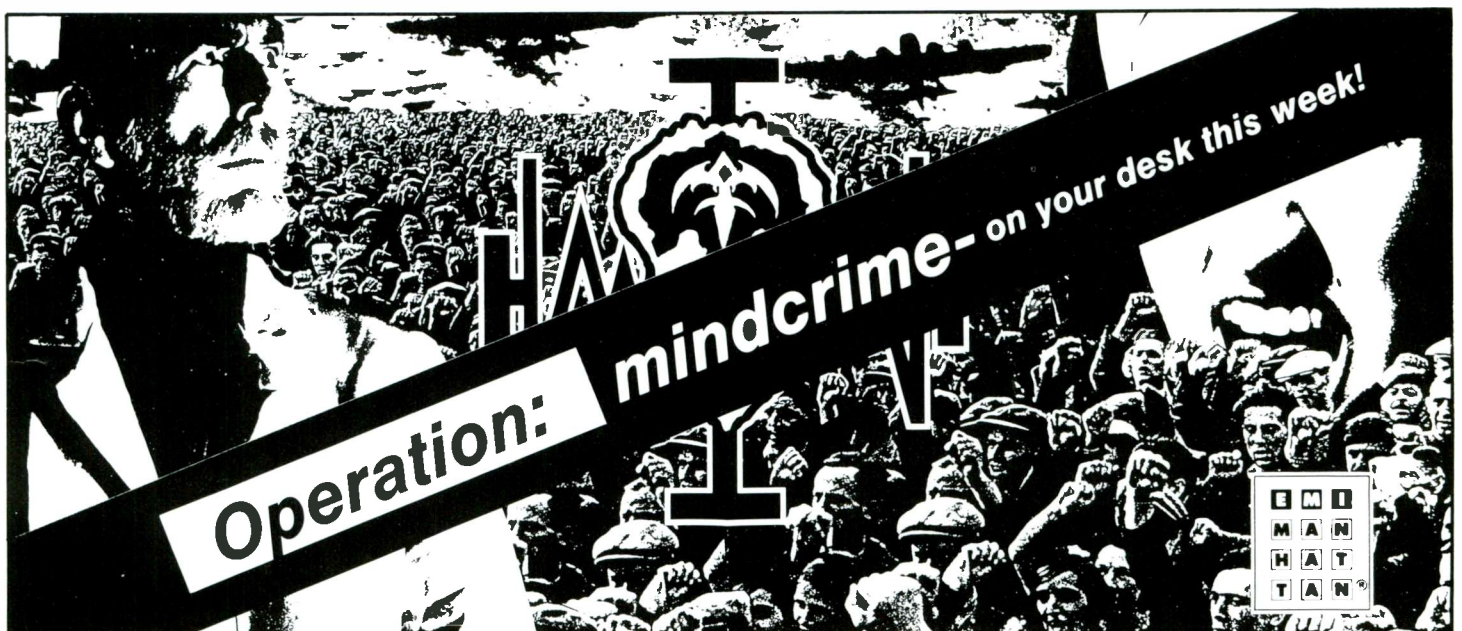

**Warlock, "Fur Immer", PolyGram....** We've been hearing a lot about this band recently due to their very successful tour with Megadeth and Sanctuary. The raves over Warlock's performances and Doro's enthusiasm and willingness to do interviews, have firmly established them as a favorite with many of our reporters. They are a tight musical unit whose sound is strong and very natural. The latest release off of "Triumph And Agony" is a slower and somewhat softer song than what you might be used to from this group. "Fur Immer" (which means "forever" - in English) is sung mainly in German, but the chorus "Deep inside my heart...Fur Immer...I see you and me" gives you a pretty good idea of what the song's about. Doro's vocals sound great in her native Duetsch, and there are still enough rough edges to cut through the emotional atmosphere. As for the music, keyboards are essential and a nice touch, the guitar lead is fluid and subtle enough so as not to overpower the overall feel of the song and the corps style drumming is very militaristic and gives the song a serious, almost sad feel. It's a beautiful track and a nice change of pace from the "All We Are" and "East Meets West" type of pounders we're used to. If you haven't talked to Doro or haven't seen this band yet then you are really missing out.

**Testament, "The New Order", Atlantic....** Now that you've all effectively gorged yourselves on "Trial By Fire" and "Nobody's Fault" look what's coming your way! Their debut simply cannot compare to this work of art (if there is such a thing in the thrash realm). There are a whole bunch of killer kuts available for your's and your listeners' pleasure including two haunting instrumental numbers sure to ignite the passion welling up inside of your hearts... well, maybe not. Either way they're still pretty happenin' tracks. Also be sure to listen for "Disciples Of The Watch", "A Day Of Reckoning", "The

New Order" and "Eerie Inhabitants" which, by the way is featured exclusively on our upcoming Hard Hitters CD sampler. The production is exceptional for a record of this nature, allowing for all of the musical intricacies while still retaining a supremely heavy sound. Hey, quoteperson of the week Jessica Harley thinks that, "...Testament is tighter and more powerful than before with crunching riffs, fast clean leads, great vocals and killer production by none other than "producer god" Alex Perialis... Don't let 'The New Order' past your turntables...". Nuff said.

**Drive, "Characters In Time", Rampage....** We wrote this band up a couple of weeks ago and were encouraged to see some response this week. They got some air on KFMX, KSLC, WNGZ and KNAC. Ideally we'd like to see a lot more of you try these guys out. They have strong, energetic material with a hard edge and intelligent lyrics. Band leader Rick Chavez says, "...players ought to put feeling into what they do, think about the notes they're playing, instead of just playing them. With our band the main thing is emotion, our songs are all passionate and mean something to us." Their music is driving hard rock and will no doubt win over any audience who loves the music of bands like Queensryche, Riot or Fates. Check out what WNGZ's Jessica Harley has to say about this new band, "...this is one debut each and every jock should be spinning. So I ask those of you who haven't added it, 'What's stopping you?'....Drive's 'Characters In Time' definitely deserves you attention. It's the most impressive debut of the year featuring quality musicianship with tremendous range and emotion." Give "The Phoenix", "The Entity" or "Forever And A Day" a spin. If you don't have the product....what are you waiting for? Get on it.

**Joey Taffola, "Out Of The Sun", Shrapnel....** Yet another in that now infamous Shrapnel shipment, this one's great cover art alone, was sure to arouse your curiosity. Just looking at the rather startling list of virtuoso musicians, that curiosity was surely satisfied. Not only does this album feature the extraordinary style and power of guitar-god Joey Taffola, but also lending their talents were Tony MacAlpine (keys), ex-Rising Force bassist Wally Voss, ex-Jag Panzer drummer Reynold Carlson and Paul Gilbert (on the tracks "Zero Hour", "Stalingrad", "Truce With Kings" and "Nine Tomorrows"). Taffola, another former Jag Panzer member, had studied guitar with not only MacAlpine, but with Gilbert as well prior to the production of this Lp. His songwriting is magnificent, and while overall sound is a bit more mellow than most of the other up and coming neo-classical-metal-fusion players, he definitely possesses a brilliant feel for his instrument. All of the performances on this one are blistering, especially the keyboards of Tony MacAlpine. They add a really different flavor to this work. Be sure to also check out "Samurai" and "Eternity's End".

**METAL MUSIC NEWS**

**Greeting.** This is Sal "Earl Of Earache" with this week's metal news from around the world. This week we'll have part three of our conversation with **Away adn Snake of Voivod**. We'll also talk to **Dio's Jimmy Bain** as he lets us in on an exclusive regarding **Cinderella** and himself. Right now, let's get to some news.

We begin with an update on a story we brought you several weeks ago regarding **Doc McGhee**, manager of **Motley Crue** and **Bon Jovi**. On April 25, McGhee was sentenced to five years in jail and fined \$15,000. he had pleaded guilty to helping to smuggle 20 tons of marijuana into the United States. The sentence and fine were the maximum he could have recieved. However, the sentence has been lifted. McGhee has instead received five years probation. McGhee, during his suspension, must perform the following: 3,000 hours of community service through the creation of a non-profit anti-drug organization which McGhee must set up and fund with \$250,000. McGhee must also spend 180 days in a residential community drug-treatment center. This will occur during the fourth year of his probation. No travel restrictions were set. Also, there has been no word on whether or not **Motley Crue** and **Bon Jovi** will retain the managerial services of McGhee Entertainment Inc..

The Earl has managed to come up with another exclusive. Are you ready for a blast from the past? **Mechanic Records** has signed one of the first "glam" bands to make it big. **Sweet** have inked a deal. According to **Holly Lane**, original members **Brian Connelly** and **Steve Priest** are behind the reformed Sweet. Joining them will be **Neil Hayward** (ex-Camel). Also,

the band is looking to have **Mike Chapman**, who produced all the band's hits including "Fox On The Run", "Little Willie" and "Ballroom Blitz", produce the new Lp. Rumor has it that if Chapman does not produce, Deep Purple's **Roger Glover** will assume the role. Lane says to look for **Ritchie Blackmore** to contribute some guitar licks. The band's new Lp is scheduled to be released sometime in July or August and will feature new material.

**Hades** has completed work on their new Lp. The album is entitled "If At First You Don't Succeed...". According to guitarist **Dan Lorenzo**, the record is scheduled to be released in July. Two of the cuts to be included are "Rebel Without A Brain" and "Opinionate!". This album will also mark the debut of guitarist **Ed Ferman**. The Lp will be released on **Torrid Records**.

According to a report in Monday, May 2nd's Los Angeles Times, **Sanctuary Music** has sued **Poison** for \$45.5 million over a breach of contract. According to the article, the suit, filed in Los Angeles Superior Court says, "...after some early hit singles, fame and fortune went to the band members' heads". The article goes on to say that at a "Concert in Greenville, S.C., 'the group stormed off the stage, screaming and yelling at the production crew for not installing certain neon lights on the stage'". The suit also claims that "...band members' personalities 'were made more noticeably volatile in part due to the drugs and alcohol they began to ingest with increasing frequency'". We will keep you posted on this one. Also, we will try to have comments from both parties regarding the situation.

Los Angeles thrash fans are singing the words of Don McLean following the burning of one of the area's top metal clubs. For metal fans, this Monday, May 2nd was truly the "day the music died". **Fenders Ballroom** was burned by what officials believe to be an arsonist. Some have said that the club was a hang out for some fo Los Angeles' youth gangs. Others are saddened because it was one of the few places where you could see thrash and hardcore shows. Either way, it is a shame that someone took away a place for metal bands to make a buck.

### VOIVOD PT. III

Let's get to our feature interview. We continue our conversation with **Away** and **Snake** of **Voivod**. Before we begin we promised to let you in on what the band's members' real names are. Here goes: **Away** (Michel Langevin), **Blacky** (Jean-Yves Theriault), **Piggy** (Denis D'Amour) and **Snake** (Denis Belanger). Now let us get to the interview.

**HR:** Let's talk some more about the songs on "Dimension Hatross"

**AWAY:** The voivod creates the new dimension and goes into it. That's in "Experiment". In the second song, he comes into this new dimension, into a flash of energy. He finds these primitive people who see him as a god because he came out of nowhere. This has a lot to do with religion. There's a line which you can't miss that says "Who's the god, who's the dog?". This is "Tribal Conviction". In "Chaosmongers", he's meeting those people with high tech weapons. But they are not real. This has a lot to do with terrorism. After that, there is a totalitarian government that forms. It's similar to "Brave New World" or "1984". In the fifth song, "Macrosolutions To Megaproblems", there is a war between the government and chaosmongers. There are parts of that song that are taken from "Technocratic Manipulators" and "Chaosmongers" songs. Many songs are related and many parts happen over and over again. It's all mixed. After the war, the voivod is meeting with those psychic

entities. They are trying to get control of his brain. In "Psychic Vacuum", he is able to suck out those ghosts. After everything, he goes back into his laboratory to destroy the dimension. He then goes back in for a fifth album. Everything is pretty much pessimistic. It's like a study of the evolution of a social system. It's all a point of view of social systems which we feel are failures. We think there is no point of return from where we are going.

**Next week, we will conclude our interview with Away and Snake of Voivod.**

Finally, I recently spoke to **Jimmy Bain** of **Dio**. Jimmy filled me in on what he is going to be up for the next few months. On top of putting together another "Party Ninja" concert, Jimmy will be hitting the road again. But it will not be with Dio. Jimmy will be hitting the road with **Cinderella**. "**Eric Brittingham**, the bassist told me that his wife is going to have a baby. It's their first kid and he's asked the band if he could get some leave. So, they've asked me to come on the road for the time he's off and play with them. I said I would and they sent me a tape so I could learn the songs. I'll likely be out with them for a couple of weeks. I'm quite keen to get out on the road and rock with Cinderella." There you have it. All you headbangers can look to see Jimmy Bain out with Cinderella for a few dates.

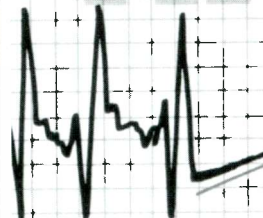

**That's all for this week. Until next week, this is Sal "Earl Of Earache" Treppiedi reminding you that Mr. Death may be lost in the shuffle but never forgotten. Until next week, MUYA!!!**

**Featuring New Releases By :**

Queensryche, Testament, Vinnie Moore, Riot, Chastain, Masi, Fifth Angel, Flotsam & Jetsam, Leatherwolf, Hellion....and more!

**Hard Hitters Sampler CD, Vol. 1**

May 6, 1988

**Music Now!** is contributed by **Mike Cooper**. P.O. Box 4111 Atlanta, GA 30302. 404-627-2834.

**Paul Shaffer** is looking for locations to record his next album. He's planning an album of "regional music," with two or three songs recorded in each city featured on the LP. He's planning to record some blues tunes in Chicago. The writers' strike has given Shaffer additional time to plan the album. He's also the music director for the upcoming Atlantic Records anniversary concert in New York later this month.

Stranglers guitarist **Hugh Cornwell** will release his first solo album, "Wolf," in June.

The **Little River Band** has reformed with original lead singer Glenn Shorrock. The band plans to tour as well as record.

**Yoko Ono** plans to open a John Lennon museum in New York City's Upper West Side (according to a report in New York magazine). Ono is said to be close to buying a four-story building on 69th Street, and has hired architects to renovate the building's interior. A spokesman for Ono says, however, that she hasn't decided on a location for the museum. "We want a space big enough to house his diaries, unreleased songs, guitars, costumes and drawings," the source says. "We want it to be a study center where fans can learn and reflect. We want to open it in 1990, in time for John's 50th birthday."

Dan Aykroyd is forming a new **Blues Brothers** band with Sam Moore, the original Sam of Sam & Dave. "I'm not taking John's place and Danny's not taking Dave's place," Moore says. "It's just when Danny's not doing movies, he likes to go out, kick up his heels and blow his mouth harp. I'll do the singing, and Danny will play his harp and do the jumping around. He can always call on the guys, and whatever they're doing they can stop. It's a pretty nice piece of change." Moore has appeared twice with Aykroyd in the past two years. The first time was an impromptu show at the Hard Rock Cafe in Dallas in 1986. They again appeared together at the New York City Hard Rock in the summer of 1987. Sam & Dan have covered Sly Stone's "Hot Fun In The Summertime" for the film "The Great Outdoors," which stars Aykroyd and John Candy. The two will also appear at the Atlantic Records 40th anniversary concert at Madison Square Garden in New York on May 14th. There are plans for a Blues Brothers television special this summer, and a Blues Brothers album this fall, supported by a U.S. tour, Moore says. The new version of the Blues Brothers will include most of the original band, including Steve Cropper, Donald "Duck" Dunn, Matt "Guitar" Murphy and Tom Scott leading a brass section. It's not known if keyboardist Paul Shaffer will be able to join the new Blues Brothers.

An album of **Paul McCartney** covering old rock & roll hits from the 1950s and 1960s will be released only in the Soviet Union, as part of a record deal he has signed with the Soviet record label Melodiya. The album will be released in October, and in an interview with the newspaper of the Communist Youth League, McCartney says it's his way of thanking Soviet fans. "I know that all my records, one way or another, get to the Soviet Union," McCartney says in the interview. "I knew that the Beatles and Beatles-style music is loved in your country. One more reason is your glasnost and the dialogue between President Reagan and Soviet leader Mikhail Gorbachev." The newspaper says McCartney recorded the album in one day in his London studio last September.

African musician Abdoulaye Prosper Niang, drummer and leader of the band Xalam, from Senegal, has died of cancer. Prosper Niang played on two albums by the **Rolling Stones**, and had toured in Africa with Miriam Makeba and Hugh Masakela. He had moved to France in the early 1980s. A final album, called "Ndiguel" (Message) will soon be released.

Nasty Rox Inc appears to be a band that will emerge from the ashes of M/A/R/R/S. The four-member group includes C.J.

Mackintosh, described as "the man from M/A/R/R/S." The debut album from Nasty Rox Inc is being produced by Trevor Horn and Stephen Lipson. The band say they'll call their debut album "Led Zep 2."

The Stranglers, Holly Johnson, Aztec Camera, Everything But The Girl and Jimmy Somerville and Richard Coles of the Communards are scheduled to play an AIDS benefit concert at London's Wembley Arena on May 29. It will be the first live appearance this year for the Stranglers, and it will be the first solo appearance of Johnson since winning his court case involving Frankie Goes To Hollywood. UB40, T'Pau, New Order, ABC, the Christians, Kim Wilde and Alison Moyet have sent messages of support, even though they won't be playing at the show which will benefit Action Against AIDS.

Miles Davis appears on the forthcoming third album from **Scritti Politti**. Davis plays trumpet on the track "Oh Patti (Don't Feel Sorry For Loverboy)," which has just been released as a single in the U.K.

British funk team **Boss** have recorded a cover version of the Stranglers' 1976 tune "No More Heroes." Martin Rushent, who produced the Stranglers' original, has returned to produce this new version.

Bass player Mike Mills says **R.E.M.** has just about finished writing material for their debut album for Warner Brothers Records. "Since we finished the last tour in November last year we took a couple of months off from everything. Then we all started rehearsing again at the end of January," Mills says. "We've got most of the new album written and we'll record it this summer." Mills says that the band has changed the way it's writing new material. "Rather than sitting down with one guitar to write, everybody's been writing as they play noise, just kind of forming a song out of the noise -- the big bang theory of songwriting. We're using Scott Litt again, co-producing with him as on 'Document' -- but the songs themselves are pretty different." Mills admit that the band had reservations about signing a contract with a major record label that is reported to be worth anywhere from \$6 to \$10 million. "Sure, there are a lot of qualms about moving to a large record company like that," he says. "There are a lot of possible disasters that could happen. I feel like we've pretty much taken care of all the contingencies, though."

Gary Newby of the **Railway Children** says the band's new album, "Recurrence," is "more grown up and out front more direct. The last album was a bit dreamy, and this is pretty hard-edged stuff." He doesn't want to elaborate on the album's lyrics, though. "It sounds like a cliché, but the lyrics are like a stream of consciousness-type thing. Whatever feelings I have at the time just come out. I don't like sloganeering songs, because at the end of the day, there's no mystery to unravel. I don't like to look too hard for these 'big answers' in music."

**Patti Smith's** first album in almost a decade, "People Have The Power," will be released at the end of this month on Arista Records.

**Kathleen Beller** is the woman featured on the cover of **Thomas Dolby's** "Aliens Ate My Buick" album. Beller played Kirby in "Dynasty" and is said to be Dolby's fiancée.

**Def Leppard** says they intentionally changed the approach of their videos for the clip for "Animal." "We'd had the videos with the girls in cases going 'Roar!'," Joe Elliot says. "In fact, we were one of the first bands to use that bimbo thing. But we wanted to make a point. We wanted to have a hit video with a rhinoceros in it instead of a girl. We did it and we got away with it."

Seth Justman, piano player for the J. Geils Band, has been working with **Farren Heit** on their next album.

Pete Townshend and Stevie Wonder appear on **Prefab Sprout's** new album, "From Langley Park To Memphis." Paddy McAloon says Townshend's been a fan of the band for some time. "Otherwise, I wouldn't have dared ask him because it's

a posey rock & roll thing to do. The track 'Hey Manhattan' was being mixed at his studio, and I was ill so I went to bed. I said to Wendy and Martin, 'Look, can you ask Pete Townshend to put this guitar piece on,' and he bloody did it out of the goodness of his heart."

Mutt Lange is helping with production on **Paul McCartney's** next album, the one featuring his collaborations with Elvis Costello.

Why did members of the **Cars** keep a low profile after the band broke up this winter? "We were tired of reading about the breakup of David Lee Roth from Van Halen, and Roger Waters from Pink Floyd," says Cars keyboardman Greg Hawkes. "We didn't want to have those same hard feelings to overcome just in case we ever do get back together again."

Even though her debut album is notable for its lyrics, **Tracy Chapman** says she realizes that the words to her songs may not be noticed by everyone. "People don't listen," Chapman says. "They can take something that you think is incredibly direct and misinterpret it. The song 'Born In The U.S.A.' that Bruce Springsteen wrote is a good example of that. All some people caught was the hook. They didn't bother to listen to the rest of the lyrics." She admits, though, that a lot of people don't put enough in their lyrics to merit attention. "I think it's obvious that there are not that many people who write music that deals with things," Chapman says. "At least, not that you hear on pop radio. I do see that there's a difference between what I write and what's popular now." Chapman says she already has the songs written for her next album, "I write all the time. That's what I do."

Former Rockpile guitarist Billy Bremner and former Faces keyboardman Ian McLagan have formed a band with guitarist & vocalist Pat McLaughlin.

Initial Australian copies of **Morrissey's** new album carried the title "Education In Reverse," but later copies have now been changed to "Viva Hate."

The **Atlanta Rhythm Section** will headline a free Fourth of July concert in Delray Beach, Florida.

A Los Angeles secretary has sued Robin Williams claiming that he gave her herpes. Michelle Carter's lawsuit charges Williams with negligence, negligent infliction of mental suffering and fraud, because he allegedly failed to tell her he had herpes. Williams says he doesn't have the disease.

**Mick Jagger** and **Keith Richards** won't appear at the Atlantic Records 40th birthday concert in New York later this month.

The **Reddings** recorded their new album, "The Reddings," at the Capricorn Recording Studios in Macon, Georgia, which

they now operate. Otis Redding III says the band's record label didn't mind them recording their album at home. "They like it better than if we came to New York," Redding says. "If we were in New York they thought we'd stay up all night and not get nothing done." "And if you stay at home you feed yourselves," adds Mark Lockett.

**Bill Wyman** plans to write a Rolling Stones biography with British rock writer Ray Coleman. The tentative title for the book is "The Rolling Stones' Chat-Up," and publishers are being approached about the book.

Disney is negotiating with **Tina Turner** for the rights to develop a biographical film in which she would serve as creative consultant, but would not appear in the film. Her manager, Lindsay Scott, says Disney has acquired two biographies and Turner's autobiography, "I, Tina," for possible use on the film.

**Rod Stewart** will have a new album out later this month called "Out Of Order." It features former Duran Duran guitarist Andy Taylor, Bernard Edwards and Tony Thompson. It includes a cover version of Otis Redding's "Try A Little Tenderness."

The **Smiths'** final album will be called "Live At The Nation," recorded at the venue of the same name in London.

**Iggy Pop** says he's particularly pleased with his album "Instinct," which will be out July 1. "It's the first time I've been able to get into the driver's seat and not go off the road," Pop says. Former Sex Pistol Steve Jones plays guitar on the record, which is produced by Bill Laswell.

**Bob Geldof** and **Jan Hammer** are teaming up for a series of television advertisements promoting milk. Hammer wrote the music for the spots, which will appear in England. "I think the British dairy industry want to plant a new slogan in the minds of England's youth: Sex, milk and rock & roll," Hammer says.

Chris Blackwell is selling his 85 percent holdings of the **Island Music** publishing firm, which has a catalog of over 12,000 songs. The company holds the rights to hits including Madonna's "Into The Groove," Robert Palmer's "Addicted To Love" and the Spencer Davis Group's "Gimme Some Loving." Blackwell is reportedly hoping to obtain over \$15 million from the sale, so that he can purchase the rights to a number of songs by Bob Marley.

**Herbie Hancock** will have a new album out later this month called "Perfect Machine." It was produced by Bill Laswell, who worked on Hancock's 1983 album "Future Shock." The LP also features Bootsy Collins on bass and scratcher DST. Hancock will be touring 20 cities with Chick Corea beginning in early June. The tour is being sponsored by a cigarette manufacturer, but a dollar from each ticket sold will be donated to the National Coalition for the Homeless.

**BRIT-PICKS Albums:**

**"Stronger Than Pride" by Sade (Epic)**

Depending on where one stands, Sade is either the most bland artist to emerge from the so called new jazz movement in 1983 (which also included Carmel, Everything But The Girl, The Style Council and Working Week) or she is the sound of the yuppie eighties, resplendent in cocktail lounge jazz to soothe those shell shocked old punkers and comfortably beige for white liberals everywhere. What is surprising about this album is how little of a surprise it is. After four years it really could be "Pride" part two. It's actually not that radio friendly either, except perhaps at three o'clock in the morning or Sunday morning, although your local easy listening station will love it. Disappointing.

**UK MUSIC**

The long awaited farewell album from **The Housemartins**, "Now That's What I Call Quite Good" is out May 9th in the UK on GO! Discs. As revealed last week, this is not merely a greatest hits package, but also a document of rarities and radio sessions. The track listing, which has just become available is: Side One: "I Smell Winter"; "Bow Down"; "Think For A Minute"; "There's Always Something There To Remind Me"; "The Mighty Ship"; "Sheep". Side Two: "I'll Be Your Shelter"; "Five Get Overexcited"; "Every Day Is The Same"; "Build"; "Step Outside"; "Flag Day". Side Three: "Happy Hour"; "You've Got A Friend"; "He Ain't Heavy"; "Freedom"; "The People Who Grinned Themselves To Death"; "Caravan Of Love". Side Four: "The Light Is Always Green"; "We're Not Deep"; "Me and The Farmer"; "Lean On Me"; "Drop Down Dead"; "Hopelessly Devoted (To Them)". All four individual members of the Housemartins have remained with GO! Discs. Norman Cook continues his deejay work (he has been involved recently in several well known house remixes under the moniker Norman C.) while Paul Heaton and Dave Hemmingway may be forming a band together. Stan Cullmore plans a solo career at some point.

"Sgt. Pepper Knew My Father", the track to track cover of The Beatles classic by various artists, much raved about in this column, has now become available in stores in Britain and so should hopefully be available through normal import channels in North America. The record has only previously been available by special offer through "The New Musical Express". All proceeds go to the British charity Childline, which is a 24 hour hotline in the UK for children who think they are in danger, or have been abused, to use free of charge. The album features

Billy Bragg, Wet Wet Wet, The Fall, Sonic Youth, The Christians and many others. The man who dreamed up the project, the NME's Roy Carr, told "The Hard Report" that there definitely will never be an American release of the record because of the enormous contractual difficulties. "She's Leaving Home" performed by Billy Bragg and Cara Tivey and "With A Little Help From My Friends" by Wet Wet Wet have both been released as a single. Billy Bragg told "Melody Maker": "Imagine what it must be like growing up in an environment where your whole family life is run on fear. Who do you go to, to speak about it? The doctor? The policeman?...It's very complex and very difficult."

**Dexy's Midnight Runners** return this week with a new single "Walk Away". It comes from a new album "The Wanderer" which will follow soon. The single was recorded in New York and produced by Deodato and already critics say it is the best record Rowland has put out in several years. The B-side is the Rowland composed "Even When I Hold You" while the twelve inch features an additional track, Jerome Kern's "The Way You Look Tonight". Although billed as Kevin Rowland and Dexy's Midnight Runners, Rowland is the only member of the original line-up apart from Helen O'Hara who helped on some production work.

The fired drummer from The Cult, **Les Warner**, has continued a series of allegations about his former cohorts and has confirmed that he is taking legal action against the band, suing them for around \$40,000 for money he claims is still owed to him. He told "Melody Maker": "I received a phone call from the management asking me to come to a meeting. When I got there, they told me that Billy Duffy had decided to finish with his girlfriend, finish with the drummer and move to Los Angeles - That's the way they put it. I thought "My God that's awful." How can this guy do this s--t to people? and He actually got the management to do it for him, he couldn't phone me up himself and say: "Les, it's not working out." As previously reported, Ian Astbury and Billy Duffy are unavailable for comment in Los Angeles, it is also rumoured that the pair are splitting from their management, Grant Edwards Inc. Les Warner is forming a new band with Raven, ex of Killing Joke.

Speaking of **Killing Joke**, their lineup is now down to two members, Jaz and Geordie, following the departure of Raven and drummer Paul Ferguson. Jaz Coleman, Killing Joke's lead singer refused to comment on the split which comes at a bad time for the band, just as they release their new album "Outside The Gate". Raven has accused Jaz in this week's "Sounds" of having "...his head up his arse for a long time."

Former Beatles **Paul McCartney** and **George Harrison** along with Yoko Ono have started a High Court action here in London, to prevent the specialist label, Charly Records from issuing an old bootleg album, "The Decca Sessions" 1.1.62" Charly denies that they have the recordings at all. Each side will spend the next three weeks preparing evidence before the trial begins.

"I've never met her though"...London's **Wembley Arena** faces prosecution for racial discrimination, after canceling a series of rap shows featuring Run DMC. Recent rap shows in London have been upset with violence...**Paul Weller** has denied he is selling Solid Bond Studios in London which he bought from Polygram....

apostrophe); that he did not grow up on the tough streets of New York City as he has claimed, but in a rather swank area of Florida. He was also not as macho in his youth according to squealing schoolfriends. It's not clear what Terry thinks of these revelations...**Dead or Alive** working on a new album which will be out in the summer.

**BRIT-PICKS Singles:**

**"Don't Call Me Baby" by Voice of the Beehive (London)** If ever there was a more hardworking, talented band in Britain - it's these guys - sisters Mellissa and Tracy from Los Angeles, plus two ex members of Madness. Their records are pure, wonderful pop in the tradition of Blondie, The B-52's and The Bangles (a comparison the band hates however) This is their fourth sumptuous single - can we have the album now please?? Recommended.

**"She's Leaving Home" by Billy Bragg/ "With A Little Help From My Friends" by Wet Wet Wet (Go! Discs)** Hmmm. The strongest track - Bragg - and the weakest track - Wet Wet Wet - from the aforementioned NME Childline album. "She's Leaving Home" could have been written for Bragg. He scraps the overt orchestration on the original and concentrates on delivering the lyrics in flat, mournful, bittersweet style. This atmosphere is augmented by Cara Tivey who does the backing vocals and recorders. Tivey is a revelation and I hope to hear more of her stuff on Bragg's forthcoming album. Teeny band Wet Wet Wet will no doubt substantially boost the sales for the charity single which is all that is really important - but their version of "With A Little Help..." is certainly rather horrid.

**John Cooper, WPYX** "A perfect summer record. Response is excellent and sales are through the roof—top 5 here in town. We're also getting lots of 'We're glad you're playing Ziggy' type positives."

**Greg Mull, WRXK** "The record was #1 phones here for three weeks, and it's still in the top 5. It's also been a consistent top 5 seller since it was released. There shouldn't be any resistance to this album! This is the hippest record out. I went to see him in concert, and the audience was 18-34 year olds."

**Curt Gary, DC 101** "The world has turned enough revolutions that it's time for reggae to come back on the radio. We saw it with Eric Clapton, Eddy Grant, and the popularity of the Police. This artist just happens to have the legacy and 'Tomorrow People' is a well crafted tune at that."

**Bob Bittens, WHCN** "We were looking for a good excuse to get reggae back on WHCN, when Ziggy provided us with the ideal one. A great song, with real good phone response so far—along the lines of 'you guys are so hip to play this record' . . . . you can be hip, too!"

The Zigman zags right on to the airwaves and fits snugly in. The listeners really led the way on this one. From day one, the album has been blowing out of the stores almost faster than they could stock it. The hook is undeniable. Trying not singing it all day after you listen to it in your music meeting. Gets impossible.... Van Halen's "Black And Blue" is a really sexy song. This album is going to be so big it's scary. Thanks to Patti Oates for turning us on to a cool idea you may want to steal. We ordered personalized plates that read VH OU 812 and we're giving away a vehicle to attach them to. It's a natural promotion with an album title like this.... KGB has just added our first Guns N' Roses track "Sweet Child O' Mine". If you too have been hesitant, check this one out. It's a great song from a band that seems to be unstoppable.... This past week I've seen three shows that were absolutely great. Balaam and The Angel were a real treat. Once these guys get their image clarified, they should develop a legion of fans.... Next up was the Dan Reed Network, this is a must see show. The combination of the music, the energy, the sexuality and the showmanship will blow you away. He's a superstar. Catch him on the rise.... And finally, I had a chance to see White Lion open up for Aerosmith. It's only the second time I've seen these guys and they knocked me out. On top of their superb musicianship, they are stunning visually. Take White Lion seriously. They are not a flash in the pan.... P.S. New Music add time is Friday 9 AM.

**Erin Riley, WMMR, Philadelphia**

When all is said and done, the WMMR 20th Anniversary Birthday Party was a huge success. Thanks to everyone who helped. The record companies, managers, and artists themselves; Gregg Allman, Paul Carrack, Steve Howe, Roger Glover, the Hooters, Tommy Conwell, and last, but no means least, Glen Burtnick and his band for carrying the entire night without a hitch. Thanks also to the alumni who flew in to help complete the party; Mark Goodman, Dave Herman, Anita, Steveski and the rest! Also to Electric Factory concerts for Backbone. If I've forgotten anyone, it's only because I'm totally drained from the festivities but thanks to you guys, too.... Congratulations to one of my favorite people Tommy Mottola on his recent appointment at CBS. Seems record presidents are becoming more and more colorful these days.... The Van Halen single is merely awesome. I was out of town when it came out so I had to seek out a copy for myself. We ended up getting a CD single from a Top 40 radio station in Kentucky. When you gotta have the new Van Halen, you gotta have it. Makes me even crazier for Monsters Of Rock to hit our town.... A final thank you to Danny Buch: You are the greatest.... Personal to Pam: How do you like America?

**Stacy Yelton, WKQQ, Lexington**

As I sit staring at Sherri McGee's sunglasses, left on my desk when she and Dan and Scott brought me their new CD, I am thinking about how this band, Velvet Elvis, has worked so hard to get where they're bound to go. I have danced and sung with Velvet Elvis since I arrived in Lexington three years ago. They have competed in our local band competition. They have opened shows for Rob Junkglas and Henry Lee Summer. Velvet Elvis. Listen to the record, play the record, remember the name and that they're from Lexington, over and out.

**Jim Steel, WIOT, Toledo**

I came home from the bars early Saturday night and decided to see if I could catch part of the MTV special on Springsteen. Little did I realize that the Headbangers Ball was on. Since I've never seen any of this special, and I use that term loosely, I figured I would watch part of it to see what kids were being influenced by. I found some of the videos absolutely distasteful and way too violent. I used to stand as a defender of rock and roll but after seeing some of the videos, it really was a rude awakening. As powerful as rock and roll is as an influential medium, is there any wonder when some parents are blaming rock and roll for their children's misbehavior. Certainly rock and roll isn't totally to blame. Sometimes you have to look no further than the way the child is being raised, but my gosh, these kids that are staying home Saturday nights are glued to

the Headbangers Ball, and seeing that it's okay to stick a gun in your mouth or take a knife to your hand. When will it stop? Someone at the record labels and/or MTV has got to stand up and say "enough is enough". Or will we just wait until your child does something he or she saw in a video.

**Carter Alan, WBCN, Boston**

WBCN is very pleased to have broadcast The Alarm from the Wang Center (honest!) in Boston. The show was also recorded for an upcoming live Ep. 'BCN first worked with the Alarm on their initial US tour in 1983. This was the third broadcast the boys have done for us. Thanks to IRS Records, especially Karen Lee and Barry Lyons.... The next night, 'BCN's spring broadcast spree continued with a wild rock and roll party from the Smithereens. This band has been a regular favorite on the air since its first Ep appeared a couple of years back. Thank you to Capitol Records. We look forward to rockin' with you for another 20 years.... The 10,000 Maniacs broadcast that capped the week came from a sold out Orpheum Theater. The superb show was warmed up by Tracy Chapman. The audience went wild for both groups. They should prove to be new stars in '88. For the Maniacs, it's been a long time coming and they deserve it. Thank you to Elektra especially Brad Hunt and Dave Johnson. Thanks also to Peter and Sophia.

**Jetson, WOXY, Oxford**

I would like to address a problem that seems to occur between our station and record companies. We go on a lot of new and upcoming acts before they make it. Sometimes we're on two or three albums before the band makes it. Therefore, we support that act from the beginning. The problem comes in when the act breaks both AOR and CHR. When this happens, we are forgotten and given no credit for helping break this artist. It's very frustrating when an act like this comes to town and we are four or five cuts deep on their latest album. The local AOR has played one track from the new album and they get the big promotion with the show. How soon we are forgotten. But we won't forget next time there is a band that a record company needs help with. We might not be so eager to help. This station and others like it sell a lot of records. And I think record companies are starting to realize the importance of alternative stations. But they still have a long way to go. I don't like to play these games that radio stations and record companies play for record adds. We add records because they're good records; not for any other reason. When the time comes we should be given credit or equal attention with these artists. Call me crazy but I have a dream!

crowd that had gathered outside the station.... Saturday night Bourgeois Tagg put on another incredible KSJO club show. Any band that can get that many of the KSJO air staff out to the same place the same night out without force has got to be great live. And they are! For the band's sake, I hope they make it very, very big, but for my own selfish reasons I'd like to always see them play at a club five blocks from my house.... Thanks to CBS for a wonderful lunch with Boz Scaggs. Enjoyed chatting about our favorite Chicago blues clubs. I'm looking forward to hearing his whole album.... Thanks also to Eddie And The Tide for dropping by to debut their brand new single on KSJO. They're rocking again and we couldn't be more pleased.

**Jon Scott, Music Awareness, 818-883-7625**

We look forward to seeing all of you here in Los Angeles for our 6th Annual TJ Martell Rock N' Bowl Charity Weekend. Events include the Celebrity Golf Classic at Calabasas Country Club on Friday, May 20th. Our first Tennis Tournament is Saturday, May 21st along with our Celebrity Radio & Records Softball Game at USC Stadium. Saturday night is the bowling party and we have lots of surprises. We have special room rates at the Sheraton Universal and if you need any info, just give us call. Hope you can make it.

**Dave Richards, WWRX, Providence**

Ziggy Marley is bringing down top five phones for the second week now. This record is selling out at retail and tearing up the airwaves around here.... Tracy Chapman sticks out just enough to draw the audience and I think the Armatrading comparison is a positive thing.... 10,000 Maniacs is still working real well with males responding on the phones as much as the females have in the past.... James Reyne sounds great on the air. It's one of those really fresh sounding rockers that makes everything else take a backseat.... John Cafferty will win big here. He just shot his video on the beach in our town and the audience followed him very closely.... It's also real good to hear Graham Parker back.

**Redbeard, KTXQ, Dallas**

You've got to get up real early in the morning to get one by me. Six months ago I never heard of Joe Satriani, now he is #2 most requested. He was top at retail -- and I'm talking piece count -- topped only by Robert Plant.... Robin Trower is interesting. It's blues based rock and roll for adults. It rocks enough that you can please your 18-24 male listeners.... Really very encouraged by the John Kilzer national picture, and plan to bump it up next week.... Top 5 phones for Joan Jett. Probably her best produced song, period.... Mission UK is getting a smattering of phone calls. Interested in their appearance in Dallas/Fort Worth later this month. I really would encourage programmers to give a second listen, starting with the 4 minute edit. Just play it once. Ask folks if they like "Kashmir", just play 'em "Tower Of Strength".... I think Rod is gonna have a hit.

**Dan Hansen, WQFM, Milwaukee**

Yngwie moves to heavy. That Joe Lynn Turner sound counts as much as Yngwie what with "Stone Cold", "Street Of Dreams", etc.... Also moved the Treat Her Right to heavy. They'll be in town soon. It's a catchy as hell song that reminds us of the Doors meets Canned Heat. Pretty active phones, too. Not a requested, but calls every time we play it.... Joanna Dean goes to heavy. This has been my pet project. I think she's Janis fronting AC/DC. Calls every time we play it.... Midnight Oil moves to power. That thing has really been creating a ton of interest. Glad we added it early and forced our competition.... John Kilzer goes light to medium. A straightforward little roots rock and roller. I like to hear songs like that on the radio.... Dokken's "Heaven Sent" also goes to power. They're bigger here than anywhere else in this country.... Great White is another one that seems to do well with that straightforward rock and and roll, Led Zeppelin ripoff style.

**Pam Brooks, WPDH, Poughkeepsie**

Let's hear it for the girls! A truly exciting crop of female artists have exploded on the music scene, the likes of which include

Tracy Chapman, 10,000 Maniacs, and now Melissa Etheridge. "Similar Features" is gritty and rolls along with a raw talent that shows what getting back to your basics is all about. Frankly, it's breath of fresh air to expose ladies of this caliber to our listeners, because their individual and very special ways of offering up a song certainly stick to the audience -- and the phones are very positive. I'm looking forward to having the room for Melissa.... The Hudson Valley is brimming over with Joan Jett fans. As anyone around here can attest to, a concert by Joan is an SRO event. So I'm not surprised that we're already seeing top 5 phones on "I Hate Myself For Loving You". The bottom line is once again going back to basics. When Joan and company lay down the aggressive straight ahead rock and roll they are so well known for, the outcome is a hit. "Up Your Alley" will hopefully offer us more of the same. We love you, Joan.... My spirits are always buoyed when we manage to find a little extra room not too late for a wonderful, invigorating and vital artist. Three cheers for Ziggy Marley's "Tomorrow People". His dad has always garnered request activity at WPDH and we're expecting the same of Ziggy. This album's fresh, and unencumbered by a total mirroring of Bob's work. Ziggy takes this one to the next level and I'm sure his father would applaud him.... Thanks to Lisa Frank of Elektra for the super dinner and the tasty treats of Tracy Chapman and 10,000 Maniacs. Truly my best night out in months. I was in awe for two hours and that's a rare feeling. Hey, Schnur, let's rub shoulders again soon.

**Bill Clay, KXBR, Springfield**

Everyone at the Bear thinks Joanna Dean has a hit with "Kiss This". She's got a great voice and the song's a winner.... Leslie West is making an impact at retail in Springfield. They're coming down from the hills to buy it.... Joe Satriani, Midnight Oil and Guns And Roses still top phones.... Mission UK's "Tower Of Strength" is a new music "Kashmir". Gets immediate reaction on our weekly alternative show.... Megadeth #1 requests on our weekly metal program.

**Ernie James, WEQX, Manchester**

Lots of hot stuff on the radio now. Joan Jett continues to draw phones, but is challenged by Shona Laing and Robin Trower.... If you haven't already done so, check out Jimmy Barnes.... We pride ourselves in being the new music connection and are actively seeking artists ID's to support our new material.... One last note: Afternoon man Robert Coryell announces his annual pancake extravaganza to take place May 15th. Call him for details.

**Will Douglass, WGLF, Tallahassee**

Poison moves up this week due to very positive response. It's their most accessible record and it sounds great.... Also upped the Treat Her Right. A tasty record that scores well across the demographic scale. It's got a good hook and sounds great on CD, too.... Robbie Robertson moves to heavy. That record gets immediate response and is even on the local AC stations. It works because it's so cinematic and so different. Kind of rock and roll for the intellectual set.... Glass Tiger moves to heavy. Just a real good strong record. The CHR is pounding it and the research is positive.... Henry Lee's "Darlin' Danielle Don't" proves he has his own sound. Good hook, good beat.... Still getting good response on Jon Anderson, far more positive than I expected. Should be an across format smash.... Joan Jett is working really well. Instant phones on that and we look to move it up in rotation in the coming weeks. Your CHR will be playing it in a month if not sooner, so jump on it now.

**Jeff Michaels, KSQY, Rapid City**

#1 phones for Van Halen out of the box. It's making our ears black and blue from answering so many calls.... Honeymoon Suite is our #5 Most Requested. They've always been a big band here, and "Love Changes Everything" is doing really well. Moved it into heavy after a couple of weeks, and "Looking Out For Number One" is doing really well, too.

**Trisha Griffith, KBER, Salt Lake City**

Once again, KBER is going to rock with Bearfest sometime in August. Last year we brought in Stevie Nicks and Mick Fleet-

wood. For our birthday party we brought in Ted Nugent, and now we're looking for a hot major act for Bearfest. We need some help finding them. Anybody interested in helping, please call 801-322-3311. I'll love you forever, Love Trisha.

**Paul Nelson, WWCT, Peoria**

As Beth Rosengard said, "Every five years there is a reggae record you have to add". "Electric Avenue" by Eddy Grant was the last one, Ziggy Marley's "Tomorrow People" is the current one. You don't have to be lit on Ganga to play this record. There is a segment of the audience who will LOVE to hear this one on the radio.... Glad this version of "I Shot The Sheriff" sounds great on the air here. And the son of that song's author will too.

**Kim Alexander, WHCN, Hartford**

First of all, HCN's Fall 87: 4.9--Winter 88, 6.2!... Secondly, thanks Polygram for the trip to Boston to see Face To Face open for the Alarm. If the Alarm is the mini U2, then Face To Face could be the mini Lone Justice. "As Forever As You" puts a smile on my face every time. It's gonna be a hit.... Other stuff: The first time I heard "Tomorrow People" on our station was a bright, sunny spring day in my car. Perfect!... We added the Cross, "Shove It" this week. It's so obnoxious, I love it! And while I'm on the subject, can't wait for the AC/DC show this week.... P.S.: TC, Nice to hear from you. Don't worry I won't be quitting my day job.

**Mike Gardner, KOAS, Kealahou**

Let's see, to name just some of the current albums that have impressed us a lot, ones that stay true to rock and roll, yet are fresh and innovative: Jenny Morris, Bill Carter, World At A Glance, Divinyls, Ronnie Montrose, Ziggy Marley, Robin Trower and Drivin' N' Cryin'. Can't wait for the spring summer releases -- but really!? Michael Jackson? Will there even be an AOR chart much longer, or will PD's and MD's actually pick their own music from one homogenized chart? Or will the ear be resurrected to guide us towards better playlists?

**Brian Jordan, WRUF, Gainesville**

I'm expecting much better tracks from Rod Stewart. I'm not disappointed with "Black And Blue" but I'm expecting the Lp to have more to it than this track represents.... I think Ziggy Marley is doing really well in our area. Our listeners have been deprived of reggae for so long they can't get enough of this. The fact that it is summer means the song is doing well and I hope to add another track soon.

**J.D., WONE, Akron**

"Black And Blue"! I'm just that. I got so excited at first listen that I hurt myself banging my skull against the wall. Needless to say, the air studio has now been lined with mattresses to make sure no one else repeats this act of insanity.... Bruce Hornsby continues to grab listeners towards the phones as "Valley Road" becomes the Top phoner for us this week. This album is such a well put together record that this week "Look Out Any Window" becomes the second track off the album to hit the air. I think our listeners will enjoy this track just as much as "Valley Road", if not more.... Also, WONE is giving away a vacation a day in May. Our first winner was whisked off to see Bruce Springsteen's sold out show in San Francisco with all the trimmings. This weekend someone will win a trip to the biggest one day party in the world, the Kentucky Derby. Other surprises include a trip to see Pink Floyd's sold out show the weekend of May 28th, plus someone else will win a weekend getaway to Indianapolis over Memorial Day weekend to see the Indy 500.

**John Cooper, WPYX, Albany**

Bruce Hornsby's "Scenes From The Southside" is another masterpiece. This guy has style, class and a way with music like no other.... Van Halen's "Black And Blue" is crunchy, loud and raucous. That's how my dictionary defines great rock and roll. It is already #1 most requested.... Wanted, rock and roll celebrity golfers for the Annual PYX106 Golf Tournament, June 3rd. Contact Lisa Walker at (518)-785-9061 for details.

**Jimmy Christopher, KZEW, Dallas**

I'd like to welcome John Roberts who goes from one legendary station to another. I think he'll get the 'ZEW back on top here in Dallas.

**John Loscalzo, WRCN, Long Island**

WRCN's new music show begins this week after we woke up and realized it's 1988. Please send us progressive product, preferably on CD; it will be greatly appreciated. Thank you.

**Beth Kepple, WKLS, Atlanta**

I'm sick and my boyfriend didn't give it to me. Weird Al did.

**Lorraine Rapp, WAQX, Syracuse**

95X continues to be the undisputed rock and roll leader in Syracuse. In both Arbitron and Birch, we have been the #1 AOR in this market for 14 consecutive books. We are pleased to announce that Steve Lewis has joined 95X as our new night rocker. Steve comes to us from WKFM. He's a rock and roll monster with great pipes and a winning attitude.... Thanks to Treat Her Right for the free 95X showcase concert last Sunday. It was a great show.

**David Hall, WKDF, Nashville**

The Van Halen song reminds me of the way they sounded on their first album. This one should satisfy long time fans.... Jimmy Barnes' work with INXS on "Good Times" set him up for a breakthrough and this is it. "Too Much Ain't Enough Love" is great.... "Broken Land" from the Adventures is a quality song. Glad to finally get it on the air. We've been considering it for weeks.... Early response to Neil Young has been great. "Ten Men Workin'" may be headed to power soon.... Henry Lee Summer played here for 'KDF's Half Price Expo. He was a real crowd pleaser. "I Wish I Had A Girl" was an excellent performer for us and "Darlin' Danielle Don't" should do the same.... I heard "Sample The Dog" by Timbuk 3 on the CMJ CD sampler, and flipped. I think it's great. Surely it will be the next single. It's so good, we may go with it now instead of "Reverend Jack".... Planning is at full speed for KDF's annual One For The Sun Benefit concert. This year's date is June 18th and performance slots are filling up quickly. We'll have some big announcements shortly.

**Paul Marszalek, WMAD, Madison**

Thank you Midnight Oil for one of the best shows I've ever seen. I'm inspired once more, now that I know that there are bands out there that really matter. Bands that cut through the AOR schlock like a Ginsu knife. Never again can they play before a 900 person, soldout crowd. It's on to arenas and coliseums. Very few of the bands in today's Top 30 will be with us in the 90's. But last Thursday, 900 in Madison saw the future and they dug it.

**Christina, WPLR, New Haven**

It's that great production that gives me goosebumps. No, it's the guitar. No, it's the vocals. No, it's the fact that I played it once, loud, and had to play it again and again. Like the song, "Too Much Ain't Enough". I love it, yes I do indeed!

**Doug Clifton, KBCO, Boulder**

There are not too many songs on the new Bruce Hornsby that we can't play. Early personal favorites are, "The Road Not Taken", "Defender Of The Flag", "The Old Playground", "Look Out Any Window" and "Till The Dream Is Done".... Bruce is Top 5 phones for the second week.... Another impressive debut from a female singer/songwriter: Melissa Etheridge knocked out everyone in this week's music meeting. The four song CD sampler is full of passionate singing and playing. We'll start with "Bring Me Some Water".... Also new this week is Sade, Thomas Dolby and Rob Wasserman with Lou Reed.... We kicked off Kineticfest '88 with a live broadcast from Boulder's Coast featuring Albert Collins. The master of the telecaster was hotter than an August night in south Texas. Many, many thanks to the Icebreaker, Hilton Weinberg and Blake Gumprecht of Alligator.... On Monday night, KBCO had two

SRO shows in Denver. At the Rainbow, it was Ziggy Marley and the Melodmakers, at the Paramount Theater, Love and Rockets with the Mighty Lemon Drops. Thanks to Nancy Levin from Reprise for stopping by the station with The Lemon Drops.... Last week's New Music Express: Rave Ups, Live X, Bill Carter, Wild Swans, and Thomas Dolby.... Congratulations to the KBCO news staff for picking up three awards in the 1987 UPI Southwest Regional Competition.

### **John Lassman, KQRS, Minneapolis**

On May 24th, 1988 KQRS FM and AM will turn 20 years young. Thousands upon thousands of birthday party goers will witness Pink Floyd at KQ's 20th Birthday party being held at the Metrodome. A multi-media event not to be missed and you're all invited. More info to come!

### **Ty Banks, KQWB, Fargo**

I'm in love with the Midnight Oil album and "The Dead Heart" gets added this week.... It's a little surprising to me that more people aren't playing the Divinyls. This record is really made for radio play; give it a shot.... I really like the Timbuk 3. This record is a great second chapter in the band's development.... Audience response has driven the Glass Tiger up a notch into heavy this week.... We had no intention of putting the Peter Himmelman into power when it came out, but the listeners demanded it.... Now that the headbanger reaction records have pretty much run their course, we are seeing bands like the Smithereens getting their due.

### **Rick Mackenzie, WAAF, Worcester**

Jimmy Barnes is very powerful. This record has hit written all over it.... The John Cafferty song took a couple of listens in the music meeting but it's one of those records that sounds great on the air.... 10,000 Maniacs is selling so well in the market that we couldn't turn it down. The listeners are telling us that they love it and we are getting the message.... With their new album, Poison shows their ability to rise above any image liabilities and deliver some great pop sounding rock and roll.... Treat Her Right continues to pleasantly surprise us. Based on the positive feedback from the audience, it is one of our best testing records right now.

### **Joe Skare, KFMQ, Lincoln**

Yngwie Malmsteen is knocking on the door here. We really like the sound of this track and it is performing very well for us.... Graham Parker's new one is great, it has a subtle hook and the sound is real smooth. It's good to see RCA behind this record.... Van Halen is exploding on the air, people simply can't get enough.... Jimmy Barnes got some exposure on our new music show and showed a very positive response. With his career starting to take off here in the States, it's time to take this guy to the bank.

### **Tony Montoya, KRQU, Laramie**

Joanna Dean is really ringing 'em off the wall this week. This woman is tough and the audience is eating her up.... Noiseworks worked well last year with their first track so we decided to let "No Lies" get a test spin this week. This song really grabs your attention.... Then Jerico has built up listener response on our new music show so it gets the nod this week.... The Alarm is already looking like they have a great followup with "Rescue Me". This song is filled with lots of little stops and starts that keep you on the hook musically.

### **Anthony Alfonsi, WDVE, Pittsburgh**

Van Halen's "Black And Blue" once again highlights the strength of the Van Hagar collaboration. Sammy's soulful singing is as bluesy as ever and Eddie once again shows he is not just a thrasher. It's already a #1 request.... Jimmy Barnes' new song has all the trademarks of a hit record. It is a totally complete record from the singing to the production. I loved this one from the first listen.... Hurricane's "I'm On To You" is an infectious song that stays in your head long after you've listened to it. This one could be a darkhorse hit.... WDVE added G-Force, "The Middle Of The Night", which is a killer song.... This week we've added another local band, The Affor-

dable Floors, the song is "Berkeley Square" off their independently produced CD, "Drumming On The Walls", which is a stellar compilation of songs.... Thanks to Mark Fritzges of Atlantic for his help with Robin Trower and to Robin himself for stopping by and talking with Herschel our afternoon driver.

### **Tom Van Sant, WIZN, Burlington**

Van Halen's "Black and Blue" is an instant number one request item, but what would you expect from the guys. The kids are frothing at the mouth for more from the chief monsters of rock. The new John Cafferty song should keep the fans happy, we're looking forward to the rest of Roadhouse. My GM, Arty Lavigne, assures me that Graham Parker's new LP is his "Blood On The Tracks", if it's all as good as "Start A Fire", I believe it. Thanks and best of luck to Debbie Southwood-Smith, it only gets better from here! PS. Our adds will be ready after 2pm Tuesdays as of next week.

### **Curt Cartier, KEZE, Spokane**

New Van Halen, Wow! Bruise us, boys, bruise us. The Monsters of Rock are not here until July 20th but I'm already getting a woody.... Jimmy Barnes is very tasty. I'm sure the album will be loaded with gritty rockers, too. The response to our GM's picture on the cover of the new Talking Heads Lp was so overwhelming that John Brannen decided to use PD Gary Allen and I for the cover of his new CD single "Primitive Emotion". P.S. That's me on the left. And if you put your ear up to the sleeve you can hear me saying, "Let's add it. Let's add it." That's some serious deep throat brother.

### **Dave Fortney, WKLT, Kalkaska**

We have been watching the Ziggy Marley success story and have jumped on board this week. There is a lot of local interest and this song is just the right tune to crossover well.... Jimmy Barnes is one of those tunes that sits on your face until you finally wake up and go "Yeah!".... Then Jerico was on our new music show and I was so impressed by it when I heard it that I had to put it on a regular rotation to see what kind of reaction it gets.... Treat Her Right continues to perform for us. We have been playing it from the beginning and it still works well. This band has a great shelf life. They are the sort of band that the format needs right now.

### **Ron Marsh, WKWQ, Columbia**

We have been testing "The Dead Heart" for a month now and the response has been very positive. The song does a good job of following up the Midnight Oil success story.... Ziggy Marley has a great sound and that jump up the charts can't be denied.... My instinct tells me the Glass Tiger is for real. I love that jangly guitar sound, the boys from up north have a winner here.

### **Al Scott, KZEL, Eugene**

Van Halen goes out of the box and straight to the top of our request list.... This John Cafferty "Song And Dance" is just the ticket for those hot summer nights to come.... Brian Setzer is getting great phone response. The audience recognizes the man's work instantly and, let's face it, anything Dave Stewart touches turns into a hit.... Bruce Hornsby has given us the best piece of music in recent history, you've just got to believe in it. I heard one MD say, "We aren't going to play it because it sounds like his last album." That's like saying you won't take out a beautiful woman because she still looks good. I mean, give me a break.

### **Chris Herrmann, WHJY, Providence**

Well, well, well. Nice to see that Joe Satriani still has some competition from Mr. Van Halen -- requests for "Black And Blue" threatened to shut down the Providence phone system. It may be heavy but so's the lead and so is our add.... Huge area retail on 10,000 Maniacs caused us to rethink our stance on "Like The Weather", which I'm glad to report as a new addition.... And then there was John Cafferty and Beaver Brown. The local boys make us real proud with "Song And Dance".... Generating serious phones are Hurricane, Poison, and Lita/Ozzy.... Other than that, looking forward to two area Pink

Floyd concert experiences. I'll be at both.... We're also batten- ing down the hatches for the Monsters tour at Sullivan Stadium with audience anticipation already at feverish levels.

**Alan White, KILO, Colorado Springs**

Just got back from five days in sunny Mexico. Yes, Montezuma did get revenge but I got a great tan. First song I heard pulling away from the airport was "Black And Blue" from Eddie, Alex, Sammy and Mike. As if I really needed to be kicked in the butt after a week south of the border. Tons of guitar from the guy who wrote the book and number one requests OTB, need I say more?

**Mark Stevens, KZLR, Little Rock**

Van Halen is smoking the phones here. We beat the competi- tion to it and the response was intense.... Cheap Trick is also getting great phones and moves into medium this week.... It's great to see Cheap Trick get their shit together. We love that sound on the air here.... We also added "Look Out Any Win- dow" by Bruce Hornsby this week and that is one killer tune.

**Mike Ramsey, KLAQ, El Paso**

We were able to send two of our listeners to Phoenix for the Pink Floyd concert thanks to Bob Conrad of Columbia Records. I went along as the guide and the show was primo. It was the most exciting visual experience I've had since the 60's.... Everybody should make their Memorial Day week- end plans around El Paso this year for our Third Annual Balloon Festival. Last year, we saw 50,000 folks hit town for the three day event and it is going to be even better this year.... The Smithereens leap up to power with a huge retail base and a streetbuzz that won't quit.... The Scorpions are #1 in El Paso: #1 retail, #1 phones, #1 in potential with four cuts to go to, "Believe In Love" being my favorite.... Vinnie Vincent put Nat Lamp's name on their album so, naturally, we put his album on the air. Seriously now, Vinnie has a real strong following here, his shows always do very well with our listeners.... Tim- buk 3 could break out of the Northeast as easily as the South- west. This song plays well everywhere, except maybe in California.

**Tom Calderone, WRCN, Long Island**

Thanks to everyone for the fresh cut flowers and fruitcake after the announcement of my new position, bless you all.... Great show at the Ritz this past weekend with Living Colour and the Godfathers. Great version of "Anarchy In The UK" guys.... Our new music show starts this Sunday with new music from A.P.B., Thomas Dolby, Shona Laing, Young Fresh Fellows and Joe Strummer.... WRCN is rocking into the 90's with new adds from Brian Setzer, Soul Asylum, Rod Stewart, Midnight Oil, Poison and Mission UK.... Starting immediately, John Loscal- zo is to be referred to as Mr. John Loscalzo, Music God.

**Christina Gorton, KKZX, Spokane**

Robin Trower is in heavy and has gotten top five phones in just one week. The audience is wild for the man and he could sell out five nights running in Spokane with no problem.... Neil Young is still getting great response, and there is something for everybody on this album.... Rod's comeback is only a mat- ter of time and this record is the one to do it for the man.... We have just kicked off a "Month Of 999 Winners" with an almost endless array of prizes from microwaves to trips. It's a big bumpersticker contest and the response has been great.

**Jeffrey Naumann, Virgin, 213-278-1181**

Ziggy Marley is on fire, but there are still a few of you who don't believe yet, God knows why. At least give "Tomorrow People" a few test spins this weekend and take a look at the request sheet first thing Monday morning. You should have quite a stack for Ziggy. At least test Ziggy and you'll see he makes sense for your station. If stations like WLUP, KSHE, KYYS, KRSP, KGB, WEGR, WWCT, KLOL, WLVQ, WMMR, WKLS, WPYX, WAAF and tons more can have huge success with Ziggy, what possible reason could you have thinking it won't work for you? Ziggy is different and that's why it's working. So open up your mind and playlist for Ziggy Marley.... I wanna

thank album radio for their continued support and the first step in breaking a new band. I'm talking about Balaam And The Angel. "I Love The Things", after 16 weeks of play, is still build- ing at over 130 radio stations. The second phase in breaking Balaam will be the veritable cookaahh "I'll Show You Someth- ing Special". This track should blow these guys into stardom. Thanks again. Oh, yea. To set the record straight again, it's pronounced "Ba-laam" like Alarm with a Boston accent. You know, the "r" becomes an "a".

**Deborah Klinger, Apache, 213-466-9958**

Yikes! What a lot of great music out there in those piles on your desks! As Mike at KLAQ told me last week, it's an "excep- tional" spring. But there's room for everyone -- especially "Primitive Emotion" by John Brannen. What better springtime anthem? The giraffes caught your attention, and the song can hold it. Where it's on, it sizzles and where it's not, it will. At the CEMA Convention, we Apaches enjoyed passing out Apache hats while bopping to the beat of "Primitive Emotion". Nice meeting you guys. But back to radio. You made "Desolation Angel" an AOR smash. You took a chance on an unknown art- ist on an unknown label and changed that. But breaking an artist takes more than one single. We feel "Primitive" is even stronger than "Desolation" and many of you agree. So act on that feeling. Don't be shy; be PRIMITIVE!

**Jon Austin, WXRC, Charlotte**

Today, we're celebrating as the first issue of WXRC's Rock Report hit the streets. Many thanks to Lynn Hayes, our Promo- tions Director, for her hard work, blood, sweat and tears in get- ting this off the ground. We're real proud of it.

**Jon McGann, KFMX, Lubbock**

Thanks to Bonnie Stacy from Virgin for the great time in Aus- tin with Balaam and the Angel. If you played "Love The Things", make sure to check out "Show You Something Special". Also thanks to Dale at KLBK for the grand tour of the spaceship studios.... I like the new Joanna Dean.... Lita Ford and Honeymoon Suite are starting to garner excellent phones.... Michael Bolton along with Jimmy Barnes helps smooth a playlist that's had a few harder edged tunes lately.... Being "Black And Blue" never felt so good.... It's good to see Rod's back.

**Tim Jeffries, KFMU, Steamboat/Vail**

Congratulations to John, Gabe and Andy for their great Winter Books. It's amazing how the three Denver AORs combined pull a 21.8 share and blew out the classic rocker. Yet all had up books.... Love the new Graham Parker record. Maybe this time more stations will support a deserving talent.

**Karen A. Small, WGIR, Manchester**

This coming Fall ROCK101 is planning an auction of rock 'n' roll memorabilia with the proceeds going to charity. Any help from the record reps in rounding up items for this worthy auc- tion is needed.... Van Halen's "Black And Blue" is exploding. We're seeing immediate #1 phones for the song. Hurry and bring on the LP so we can play some more cuts.

**Brian Illes, WKFM, Syracuse**

Cleveland radio is the pits. I was there this weekend and I lis- tened.

**Richard Smith, WIXV, Savannah**

After only two weeks of playing Joanna Dean, it's #1 and top 10 phones. Kiss that. All last week we teased our audience with the Atlantic Records party and now that our full blown concert promotion is under way, the excitement is great.... The new Van Halen is rocking. It made top five phones this week and is an add into heavy.... Joan Jett also added this week.... And despite some unnamed dweeb, "Reverend Jack" is raging.

**Mike Boyle, WDHA, Dover**

Imagine, it's your first show in New York City. It's the Beacon Theatre that seats 2,700 and you're opening for the 10,000

Maniacs. What kind of reaction do you expect? Well, let me tell you that I've never ever seen such a great reaction to a newcomer as I did last week for Tracy Chapman. She had us all screaming for more. Cheers to Natalie of 10,000 Maniacs (who also blew us away!) for mentioning on stage how good Tracy was. Thanks to Lisa Frank of Elektra for a fun night.... Thanks also this week to David Ross of RCA for bringing Graham Parker out! Graham has long been a rock and roll idol to me. He played three songs for us live including a version of "White Honey", and "Blue Highways" -- a song that appears on his new album! As far as depth goes on the album, play it all. You can't go wrong with Graham Parker!

### **Ed Trunk, Megaforce, 201-254-0533**

Just a quick word of thanks this week to White Lion for awarding me my first ever gold album on stage in front of a packed house at L'Amour last weekend. It was a real honor and it's great to know that my early involvement with the band is appreciated. I personally want to thank Mike and George Parente, Richard Sanders and, of course, Mike, Vito, Greg and James for the years of friendship. It's great to see White Lion finally getting the recognition they have deserved for so long. Once again thanks for the gold and here's to the multi-platinum on the way!

### **Jennifer Gipe, WWTR, Ocean City**

The phones continue to come in for Morrissey.... It's a pleasure to have something new on the air by Robin Trower.... Same goes for Joan Jett. Gary Glitter's influence on her is really shining through on this one.... As a long time fan of the Rave-Ups, I'm glad the band is now getting a chance to show off their talents through Epic Records.

### **Ted McEnroe, WBRU, Providence**

This one comes from PD Kurt Hirsch, "Get on board with 10,000 Maniacs! The crowd at their recent show was an AOR crowd. Upper demos, both males and females. Add this to their sales success story and the fantastic response to "Like The Weather" wherever it's played and it all adds up. AOR has a chance to really break a new artist with a new style, so let's do it!" I couldn't have said it better myself!

### **Caesar "Despite What You Think, I Don't Work For Metal Blade" Ettore, WKVU, Villanova/Philadelphia**

By now, everybody (that's all inclusive, no exceptions) should have heard Fates Warnings "No Exit", and realized that it should occupy the #1 spot on their playlists. It does at 'KVU. If you have any class at all, "No Exit" should be immovable from the #1 spot. (Forget Scorpions, Maiden and Yngwie What's-His-Name). Not just to keep Cheryl off your back, but because Fates totally rules.... Glad to see that one of my favorite all time bands are back and sounding great. The new Riot album "Thundersteel" kicks serious ass and should give them the respect they have deserved for years.... Had the pleasure of catching Dirty Looks live this weekend as well as hanging out with one of my favorite industry people Peggy Donnelly. Besides having a great Lp out, Dirty Looks is really hot live. Don't miss them when they come to your town.... Now to more important matters, I must now address comments made about me in recent dialogues. Hey Mega, you have no room to talk about being humorous. I have more fun (but not much more) reading the dialogues of Monte Conner or even Phil Hardy. Pretty boring stuff, wouldn't you say. And about what was written on the bathroom wall at the Empire, this was obviously a plot, probably Megadon and Monte, to defame my well respected dialogue's name.... To Cheryl: Deny it if you want, but just remember I have the evidence.... Special thanks goes out to Warlock's Doro Pesch for a great interview and Peggy Donnelly for the advance pressing of the killer new Testament Lp.... Oh yeah, the Ramones rule.

### **Rich Scroggs, WWVU, Morgantown**

Finally, a Queensryche album that lives up to its hype. Their new album "Operation Mindcrime" will be a blue print around which bands can plan their trendy imitations. It should be a

classic for years to come.... The new Pantera album rocks in a big way. There is something for everyone from the lowliest poser to the truest thrasher. They remind me of my favorite band Wrathchild, with a Texas accent.... The new Chastain record will come as a shock to those who believe that guitar heroes can't write songs. The new album "Voice Of The Cult" is chock full of good tunes and once again Leather Leone's vocals rule. Can't wait for the tour.... I've been pondering the true nationality of Derek Simon and I think I've hit upon something. During my last visit to New York, I caught Derek in his office wearing overalls and eating grits. It is my belief that Derek is truly the lowliest of all life forms - a redneck. Therefore, let me be the first to reveal his real name Derek-Bob Simon. As Derek Simon would say, y'all take it easy or I'll shoot you between the eyes.

### **Jeff Ivan, KFMX, Lubbock**

Queensryche is god! "Operation Mindcrime" is a classic. A masterpiece that blows me away. How well they combine intellectual lyrics with kick butt music. This is the album of 1988 so far.... The Vinnie Vincent Invasion has bounced back with a strong second album. Commercial stations should go for this one. Make sure you get the CD for two extra instrumental tracks.... From Dallas comes another great album by Pantera. "Power Metal" is a great album from one of the best unsigned bands in America. Find it at your record store and play it on your station.... Thanks to Diana at Metal Blade for the energetic interview with Hallows Eve.... I went import shopping and picked up the latest killers from: Saxon, Fastway, Mike Monroe and more Guns N' Roses.... The Saxon will be out with Enigma in a while and it smokes. They do a great cover of "Ride Like The Wind".... I absolutely love what I'm hearing on the advances from Vinnie Moore and Impellitteri. Vinnie is playing with so much feeling on this one and he does a great version of "While My Guitar Gently Weeps".... Chris Impellitteri has put together a star-studded band that sounds killer. "Since You've Been Gone" will be the track, but personally I love the instrumental "Somewhere Over The Rainbow".... Other adds this week come from Drive, Kings X, Dweezil Zappa, Sodom and Satan. All of these bands are solid and you ought to at least give them a listen.... Maiden is still the big seller down here with the Scorpions right on their tail.... Had a nice talk with Joanna Dean last week. She's a great lady. You really should get behind her.... Looking forward to interviews with Carmine Appice and Vinnie Moore this week.... The trend is for concept albums where Queensryche, Iron Maiden and Fates Warning rule. I just love it. Bring on more, but make sure they're this good.

### **Dewey McCafferty, WKNC, Raleigh**

Sorry, I've been away for about two weeks. I've been sick and also had exams. The Score was N.C.S.U.-4, Dewey-1.... About music: The hottest singles are the new ones from Hurricane, Van Halen, Joanna Dean and the Killer Dwarfs.... With a big debut from Queensryche at #1, we intend to play the whole album as a special show.... Also hot, as Chris and Jeff said last issue, Living Colour and Leslie West.... Special thanks to the Hard Report for just being there.

### **Ivar Hamilton, CFNY, Toronto**

10,000 people turned up at our second annual video spectacular and laser dance this past week at Canada's Wonderland. It was absolute bedlam as the mostly young audience went nuts to the videos with all kinds of special effects, a giant light show and participation from all the jocks throughout the evening. It's a great promotion for the station and with the amount of kids that showed up, it is beginning to be quite apparent that there is a changing attitude in the schools in Toronto. With that kind of attendance at a video dance and 14,000 Depeche Mode tickets sold in two days, it seems that the alternative acts and activities have become much bigger than just cult events.... Thanks this week to Sammy from the Bodeans and Eddy McDonald from the Alarm for calling in and also thanks to WEA Canada and I.R.S. for setting up live broadcasts.... Balaam and the Angel was a slow starter for us, but now is beginning to really pick up for us. "I Love The Things" reached top phones this week.... Can't wait for the release of

the Erasure album. Every song on the album is worthy of a hit single!... Also, somebody did a nifty edit on the Mission UK's "Beyond The Pale" which makes the song totally accessible for radio.... Happy fifth birthday to WFNX. Keep chipping away at the old rock!

### **Mad Max Hammer, Z-Rock Satellite**

Looks like the Scorpions and Iron Maiden are fighting it out for the top spot this week. When Iron Maiden drops its guard, the Scorpions are gonna move right in. Watch Poison to make its move on the outside.... Making a resurgence this week is Udo's "Animal House" with good sales in all our affiliate cities. Looks like the metallers have come to ACCEPT Udo as a solo artist.... New to our listeners this week are Krokus and Riot. Looks like Krokus still has a lot of steam and Riot is making a major comeback after a long hiatus.... Gang Green has a great version of an old Zeppelin favorite.... This Betsy is the best that they have ever done. Finally, she's broken through with this one. The songs I really like are "Devil Made You Do It" and "Sunset Strut". Great dance song.... Hurricane looks like they're starting to storm towards the top. "Messin' With A Hurricane" is the key song and the next one to look at.

### **Mike Jones, WGIR, Manchester**

Why do all the great shows have to be when I can't see them. Remember when everything happened on weekends. Oh, well I shouldn't complain, at least AC/DC and L.A Guns are on Saturday.... The Hurricane Lp is really, really good. You should play all of it very often, okay. I saw their video on MTV the other day and it wasn't on the Headbangers Ball. Could this be the start of something big.... Chastain released a lot of his product during the time that I didn't have a metal show, but the "Voice Of The Cult" is right on time. It's good stuff and very powerful. How come this guy isn't on a major label yet when there is an awful lot of extremely dodgy stuff coming out from the majors lately. I'm sure you know who I'm talking about. This guy is definitely a guitar hero. The title track and "Live Hard" sound great on the radio.... Don't be afraid to play Living Colour, it works.

### **Glenn'O, WBYR, Buffalo**

We just had a great free show with Dirty Looks at a club called Mellons. We want to thank Kevin Young of Atlantic and Bruce Moser and Doug Dombrowski.... Glenn'O says absolutely!

### **Lisa Walker, WPYX, Albany**

Still recovering from the impressive Megadeth/Warlock/Sanctuary attack on the Palace recently. Thanks to Roger Vitale for setting up an interesting interview with Doro. She's definitely one of the industry's sincerest people.... Strokes to Sokol, Patterson and Northeast Concerts and the entire Megadeth clan for cordially hosting my contest winner back stage.... Thanks to Tim "Zodie Is My Band" Hyde for having Zodie call me from planet freak-out. The Zodiac/Mark Manning combo gives "Good Phone".... Speaking of great conversationalists, I'm looking forward to chatting with Leslie West this week. Thanks to Bruce Moser for the help.... And finally, a hefty congratulations to Don Kaye on his position at Metal Shop.

### **Mike Marrone, WHTG, Asbury Park**

If you're just so confused and frustrated waiting for that next Let's Active record to come out, Velvet Elvis will be the perfect pacifier for you and your audience. Of course, I can only say this by listening to the single since we don't have the album yet, even though college radio has had it for two f\*\*kin' weeks.... Tracy Chapman is still burning up the phones and cash registers. It's the #1 power track four weeks in a row and we're set to go on "Talkin' Bout A Revolution" as the next track, but this one is showing no sign of slowing down. Get it? #1 sales and #1 phones, fourth week, like I said.... The debut album from Melissa Etheridge is another stunning new female artist. Wah's going on? "Bring Me Some Water" is the stand-out for me. On first listen, every hair on the back of my neck stood up, and that's a lot of hair.... Joe Strummer, I hear, is quite upset since they decided to cut his contribution to the

"Permanent Record" soundtrack to half an Lp. I can't blame him if the material they left out is as good as the material that's on there. Don't confine yourself to just the Joe tracks on this one. There's a brand new Lou Reed tune that's killer, and an unreleased BoDeans track, "Waiting On Love".... The Rave Ups? I have mixed feeling about this one, because I was expecting another "Positively Lost Me". But on second listen I disassociated my expectations, and there's a song that's on there that blew me away called "Take Her, She's Mine". It's amazing how this kinda stuff works, isn't it?... Ziggy Marley is selling like crazy! We're presented with a unique situation with this record. "Tomorrow People" is crossing over, so we opened the whole album up due to requests and sales. I really don't call this a problem since there's not a bad song on it.... The Prime Movers on Birdcage Records. Don't miss it, especially a song, "Going Inside". The only way to describe this tune is that it sounds like a perfect combination of The Beatles "Rubber Soul" period crossed with Simple Minds "Sparkle In The Rain" period. That's it, a great song.

### **Jonathan Rosen, "Virgin Vinyl", KUPD, Phoenix**

Not since the last Golden Palominos album has there been a solid variety of music offered by a band such as the Mekons. "So Good It Hurts" is a vocal, musical mixed bag of unusual treats. Hats off to Twin Tone!... Virgin strikes out twice on the Cross' new 12". "Feel The Force" could be a natural radio hit and it's not even included on the single.... Uncle Milt's Rowdy Rivet Of The Week: Hallows Eve on Metal Blade Records.... Thanks to John Sigler of RCA for the special Love And Rockets 12" giveaway.

### **Adam Langley, WBNY, Buffalo**

Congratulations to Tom Calderone of WRCN for being named Program Director. He's an alumni of WBNY and we're extremely proud of the new position. We look forward to his progressive influence at the station.... The new single from Jesus And Mary Chain is a great continuation of their creativity. They're turning back toward some earlier sound in "Sidewalking", but they are also becoming a legendary band on the alternative radio circuit.... The Fall album takes over at #1 just passing the Mighty Lemon Drops. A very strong Lp with requests for just about every song on it. I love "Frenz", an amazing tune, and also "Steak Place".... The Sgt. Pepper Knew My Father compilation is doing very well, and I imagine that this will be released domestically!... Drivin' N' Cryin' is only GREAT. I'm surprised that this hasn't been a Top 10 record at least! Key tracks are "Can't Promise You The World" and "Livin' By The Book".... With two weeks to go as Music Director, I'm a bit apprehensive to leave my post!... My personal favorite album this year so far is the Pixies, "Surfer Rosa" on Rough Trade Records.... Merry Christmas.

### **Rob Steinberg, Break A Leg Productions/Contemporary Communications, 215-667-6766**

The saga of the Scorpions continues and it's a good one, no borschit. After a seemingly never ending story about travels across the globe to continents far and wide, our heroes, those raucous rockers, performing cunning stunts for rebel rousing Russians, have a last returned to the motherland to prepare for the Monsters Of Rock. Having played to nearly 130,000 stadium smashing Soviets. Our heroes have once again united both worlds in a love of music. Bringing together those different and those the same, to share in a rock explosion that can be felt as far away as Birmini. Join us next week as our heroes "Rock You Like A Hurricane" with their rhythm stick of love: Parading up the charts with blitzkrieg type fashion to obscond with music's top prize, the coveted G spot.... No, no, I mean the #1 spot. Can you believe I really write this stuff? I can't, and sometimes I'm beside myself. So I look next to me and there I was, I said to myself, "I said self" -- Newsflash; We interrupt this nonsense with some really important stuff. The album Savage Amusement is nearing 900,000 units and is #18 on Billboard after only two weeks. Here on the Hard Album Chart it's #8. The monster mash "Rhythm Of Love" has jumped to #9\* on the Hard Hundred, while pulling top 3 requests. It seems that the Hard Hundred is so jam packed full of chunky hits at the top, you should use a fork. But use a

spoon, we wouldn't want you to miss a note. Somebody stick a fork in me, I think I'm done, no, not quite.... McAuley Schenker Update. Last week I said MSG was on tour with Vinnie Vincent. I made a mistake, I meant to say MSG was going to be on tour co-headlining with Vinnie Vincent, beginning in Chicago on May 20th at the Aragon Ballroom, MSG will be headlining until that date-on May 9th in Phoenix, May 10th in Tuscon, May 12th in Colorado Springs, May 13th in Denver and two shows at Minneapolis somewhere between the 14th and 18th of May. We believe that a strong emphasis cut on the "Perfect Timing" album is the track "Time". It's about time, time waits for no one. Timex, time to go. We don't necessarily need adds, but we sure would appreciate it if you would at least listen to it and drop it on every once in a while. Especially around these tour dates, that they are doing, to kind of see if maybe your audience won't really like it, possibly call in and request it some more. Thank you for your support.... Gotta go, I'm putting to bed this promotion with Trojan. They are fitting me for a Monsters of Schlock latex body suit (ribbed). Until next time, Schholong.

### **Jessica Harley, WNGZ, Elmira**

Queensryche's "Operation Mindcrime" is an incredible conceptual story of manipulation. A musical masterpiece, intelligent unique, powerful. Takes you through some of the most controversial subjects in society. The most outstanding album I've ever heard. "Operation Mindcrime" is sure to generate the attention Queensryche needs to go straight up the ladder of success. "Operation Mindcrime" is the album of the decade; maybe even the century.... Alright, now that you've heard Testament's "Trial By Fire" maxi-single, you probably know why I was raving so much about "The New Order" last month.... Check out the Aerosmith cover "Nobody's Fault". Chuck Billy has never sounded better and how about Alex Skolnick - only 19 and one of the most incredible guitarists around. Just listen to "Musical Death" and you'll hear why.... Testament is tighter and more powerful than before with crunching riffs, fast clean leads, great vocals and killer production by none other than "producer god" Alex Perialis. Testament is already at #2 overall this week on my show and attracting Top 5 phones. "The New Order" is sure to set Testament in the direction of success. It's a great album from a great band. Don't let "The New Order" pass your turntables.... I'm glad to see some of you have added Drive's "Characters In Time", however this is one debut each and every jock should be spinning. So I ask those of you who haven't added it, "What's stopping you?" If you don't have the product, just call Rochelle Katzman at 212-496-1440 and she'll send it right out to you. Otherwise you have no excuse. Drive's "Characters In Time" truly deserves your attention. It's definitely the most impressive debut of the year. Quality musicianship with tremendous range and emotion from vocalist David Taylor. Strong riffs and leads along with intricate rhythm changes, the lyrics well put together, the music melodic yet hard edged, "Characters" is a must for all metal shows. Tracks to check out include "The Phoenix, "Heros Road", "Forever And A Day" and the entity.... Congrats to Don Kaye on his move to MJ.... Hellos going out to some of my fave metal reps: Monte "I'll call you right back" Conner, Clarissa Garcia - you're too cool for words, the always drunken Mega-One, Cheryl Valentine - your dialogues rule, maybe you could give Phil Hardy a few lessons. Cheers.

### **Monte Conner, Roadracer, 212-219-0077**

A lot of people have been accusing me of writing boring dialogues. One brainless imbecile from Lowell attributed my supposed dialogue boredom to the fact that I have "waved my white flag". The simple fact is this: My duties here at Roadracer have recently been expanded to include press promotion as well as radio. Therefore, my radio time has been cut in half; that's why I've been calling you less frequently. The bottom line is that I've now got to make the most efficient use of this space and that's why I've lightened up on Freaks like Fischer, Ceccola and Ettore.... The mighty King is in the midst of a one week U.S. press tour. I have managed to squeeze in a few prime radio interviews. While in New York, The King put in an appearance at WBAB, WCWP, WRTN, and MJ's Metalshop. (Mark - I promise, one of these days I'll feed ya sushi "Til

ya puke!) On May 11th, King will be in Texas visiting Z-Rock and KISS. Advance tapes of them are imminent, as well as King postcards. You can find them in the stores on June 20th. While in the store look for the special life-sized, cardboard King Diamond stand-up! King's U.S. tour kicks off on July 26th. There is also the possibility that Toxik may be the supporting act! Their Roadracer debut continues to pick up steam and the band is heading over to Europe on May 19th to start their European tour. Keep playing "World Circus".... Thanks to all for helping Znowwhite move up the charts. Call for your "Act Of God" CD. Znowwhite's "Creed" and "War Machine" and when Znowwhite hits your town I promise that the big, bad, monster-sized homeboy, Ian Tafoya gives you a bear hug you'll never live to regret.... Coming soon: "Living Loving Maid" a la Gang Green! Call me.

### **Colleen Baxter, SST Records, 213-835-8977**

Please take a few minutes of time today to listen to the new Sister Double Happiness Lp. Yes, you do have it. It's probably in the stack of untouched records under your desk. "But," you argue, "We're an AOR station, not alternative. Our listeners want to hear Pink Floyd and Van Halen and Robert Plant." Then I say they'll love Sister Double Happiness. This is the best power-blues record since Zeppelin's first album, and Sister Double Happiness is a lot less pretentious. "That's a mighty big claim," you counter. And I challenge you to pull out the record and listen to "Freight Train." Then flip it over and check out "Poodle Dog". And you'll end up letting the needle finish playing side two. Then you'll want to turn your listeners on to Sister Double Happiness.

### **Rick Panneck, WAPL, Appleton**

I would like to thank Nancy Stein of Warner Bros. and Semi-Twang for making our first annual "Rock and Ball" such a success. If you get a chance to see Semi-Twang live don't pass it up.

### **Donna M. Geisinger, Passport Records, 818-500-7677**

Well, I'm back and hitting the phones like a bat out of hell! Dinner with Leslie West, Bloomingdale's with Richard Barone.... TJ Martell boat rides (I enjoyed meeting everyone) and walks through Central Park filled my vacation.... However, I did miss the California sunshine and I am glad to be back! Leslie is cookin' and I know you can't wait for my next phone call!

### **Megadon, Combat, 718-740-5700**

See, I told you if you listened to Blind Illusion again you'd like it. Why would I lie? They're a very original band with some crunchy riffs. So what if the production's a bit rough around the edges? It's the stuff my dreams are made of! While I realize you can't stuff all current Combat releases in your top ten, one or two can't hurt, and I'll be happy with the knowledge that you're at least playing Virus, Crumbsuckers, and Agony (the Swedish Exodus?).... Dewey at WKNC nice conversation the other day. You definitely could be a contender in the Party Animal Stakes. Hope you had a ball working security for Pink Floyd. (I would kill to do such a thing).... Janet at KSLC: It's about time, eh? See you real soon.... Jones: You're a risk.... Oh, yeah, for those of you who received advance tapes and have no concept on how to pronounce Italian surnames, it's pronounced Im-pella terry. Got it? All together now: Impellitteri. Good. See ya next week.

### **Pamela Newman, Enigma, 213-640-6864**

The winds have started blowing - from West to East and North to South. Your phone lines may burn up, your local record stores may run out of emergency supplies. Your neighbors may knock on your door and ask if you are all right. Your speech patterns may become fuzzy and you start to echo phrases like, "Na-na-na-na-na-na." Do not adjust your radio dial! It's just a Hurricane and your listeners may already be on to "I'm On To You". Giving way to the storm this week is WDVE, WCCC, WHCN, KILO, KTYD, KRZQ and KFMG. Catch it before it catches you. As sales and requests will attest to, there will be no slow and gradual build to this record. It is hap-

pening as we speak. The band is on the current leg of the MSG tour and stay tuned for more.... Now that you've rubbed it, touched it, fondled it, etc. (call Skid Roadie for the list of 101 things to do with your Velvet Elvis 12"), try putting it on your turntable and dropping the needle for the ultimate exercise in ecstasy. They were heralded as one of the top 10 Best Unsigned Bands in America of 1987. It is now 1988, we signed 'em and their first Enigma effort is "Over And Out". They are Velvet Elvis and they are the darlings of Lexington, KY. Stacy Yelton and Peter Delloro can tell you that VE has been weaving their magic for years. Listen to "Over And Out" and find your new favorite band today!

### **Michael Linehan, Reprise, 818-953-3750**

Ah, New Orleans, another Jazzfest is behind us and though the weather was sometimes marginal it was still a great weekend of music, food and sleep loss. Highlights: Little Feat, Leo Nocentelli/Meter's reunion and K-Paul's (or how to sneak 30 people to the front of a line). If you've never been, you should consider it next year and since it's business (!) you can probably write it off.... Speaking of work, Neil's "Ten Men" rolls into the top 5 or 6 (depending on whose chart you happen to be reading) and shows no sign of slowing down. "This Note's For You" is building nicely as the secondary track, and this project is really beginning to move at retail.... For those of you who program Jazz, look for "Slam" shipping May 24th from new Reprise artist David Sanborn, an Lp follows in June.... May I please have some more crayfish etouffe?

### **Penny Barnes, Rampage, 213-828-1980**

We are well into the third week of "Only Child", and the response at radio is definitely there. This week we picked up the momentum by adding WBYR, WSTZ, KBER, KQWB and KBAT. This record is only now rearing its naughty head for some of you to take notice. Potentially, this record will be huge, however we need the support of you, the stations out there to listen to it, and give it a chance, let your audience decide its fate. I guarantee that once they have heard it, the response will be very positive. Harry Guscott, WRUF says that he's already getting great phones on it, and this is his second week! Please go back once again and listen to "I Believe In You". We want to make you a believer too!... The House Of Freaks are doing very well at radio with their second track "Black Cat Bone" picking up some new takers, and their heavy touring schedule with Midnight Oil breaking new ground. This band is akin to the R.E.M.'s and 10,000 Maniacs of the world. They may be a little intimidating at first because they're different, but in all reality, good music is good music, and this album does have two long, strong legs to stand on. Don't pass them over. Take another listen to "Black Cat Bone" plus their two new live tracks on your desk now!... Also, have to say that I simply cannot get enough of the new Scorps "Savage Amusement". My fiance and I battle daily over who gets to take the tape to work and listen. Favorite tracks are "When Passion Rules The Game" and "Rhythm Of Love". That's all folks!

### **John Schoenberger, Relativity, 213-212-0801**

Joe Satriani continues to "Surf" across America with sell out shows everywhere! If you get a chance you really must see him and the band which includes Stu Hamm on bass and Jonathan Mover on drums. Both these guys are as good as Joe and truly combine their playing with his to make for one of those "magical shows"!... Now let's get down to airplay. Many of you broke this success story, many of you are on the line for an add on "Surfin", many of you are waiting?! Why?! To hell with all the other releases I say. Play the true and tested! (Isn't that what you say?!) We will bring this second track home. We will go gold. We will succeed! Surrender to win!... The Dancing Hoods are getting great response at the tastemaker stations and is literally an alternative smash. That's the proper formula for the moment, isn't it? Many of you out there like and we believe. Add "Baby's Got Rockets"!... My deeply felt remorse goes to everyone closely involved with Joel Webber.

### **Chuck Bliziotis, A&M, 212-826-0477**

Soul Asylum is a young aggressive rock and roll band, who play blistering, no holds barred rock. "Sometime To Return" is our lead track and if you give this a spin at night the phones will tell the story. Give this track a shot.... 1988 can see the resurgence of the female singer/songwriter. Toni Childs is ready to enter the spotlight as she has delivered a startlingly fresh and innovative debut album. This record deserves your careful attention as Toni is able to move your mind as well as your feet.... Robyn Hitchcock. All of you, please give "Flesh #1" a careful listen. This is a natural followup to "Balloon Man" with Glenn Tilbrook of Squeeze and Peter Buck of REM lending their talents.... New this week is Joe Jackson Live 1980-86, a 22 song collection. This retrospective highlights Joe's brilliant career. Give this a listen and you'll remember the years of pleasure that Joe has given us.... Get ready for "Sound Alarm".

### **Kenny Puvogel, Warner Bros., 818-953-3723**

Monster! Incredible! Excellent! Awesome! Explosive! Rocks your socks off! #1 phones! Top requests! Powerful! Kicks ass! Sound familiar? That's right! We're talking about "Black And Blue" from Van Halen, the #1 added track everywhere this week. We're going for #1 airplay to go along with #1 requests. I loved Carter Alan's "melts in your ears not in your hands" comment. Thank you AOR radio!... And another thank you to all of you for another great week on Rod Stewart's "Lost In You". We're up in heavies and powers and we have over 38 more close out adds this week. This one's starting to light up the phones also. All indications are that we will take Rod all the way. Get ready for a killer Lp Thursday 5/12!... Honeymoon Suite's "Love Changes Everything" gains in heavies and requests week after week. To those of you who are not in yet, give it a shot. You won't go wrong. "Racing After Midnight" is a killer Lp from what WB Records considers a major group for years to come. "Skyscraper", the title track, ships to AOR radio as a CD pro 5/17.... David Lee Roth has had three top 10 (2 Top 5) tracks at AOR radio to date and we are looking for another one.... Speaking of top 10 records, George Harrison has had 4 top 10 (3 Top 5) tracks from his album "Cloud Nine" to date. We are working to get "This Is Love" top 10 also.... Attention! Attention! Attention! These two records need your immediate attention this week. "Blind" from the Talking Heads and "Cherokee Chief" from Jerry Harrison. Remember the success you had with "(Nothing But) Flowers" and "Rev It Up"? You could have that same success with "Blind" and "Cherokee Chief". Try it, you'll like it!... A big thank you to KJJO for the belief in Chiefs Of Relief. For all of you with metal shows, please give "Freedom To Rock" some exposure.... Shipping this week to AOR will be the new track from Underworld entitled "Glory! Glory!". We almost broke this group with "Underneath The Radar" and we intend to break this group at rock radio with "Glory! Glory!".... Congrats to McKeon & Surratt at RCA for a great job on Bruce Hornsby, Linehan & Reprise for their job on Neil Young and Marko & the Geffen company for a great first week on Jimmy Barnes (one of my faves).... Another great week at rock radio for Warner Brothers Records.

### **Michael J. Schnapp, S.P.V., 516-783-3040**

As I write, I'm not feeling my best so I'll try to stay on track. Spinning at a metal show near you is Sodom. Sodomania, Beatlemania, "Persecution Mania" all that mania Sodom is causing, you'll know soon. Expect a visit from C.D. Sodom, soon!... Holding their own also is Destruction's "Mad Butcher". Don't get the Butcher pissed at you or he'll sic Satan on you - and Satan's vocal harmonies and surprising quality will get you! (Look for a name change real soon).... Also be on the lookout for Assassin. Okay, Okay. Soon coming man.... The Bollock Brothers "Strangeness" and The Raymen & German "Rock And Roll". I gotta go.

## HENRY LEE SUMMER

### "Darlin' Danielle Don't"

The second single, following his #1 Album Radio hit . . .

"Mark my words, Henry Lee Summer is on the edge of greatness. Do not pass this man off as media hype. Do go back and give a long hard listen to the whole album, Key in on "Darlin' Danielle Don't" . . . Henry is a charismatic personality who leaps off the vinyl, one of those artists that you might feel like passing off as a one-hit wonder, and that's why I'm soapboxing about it!" Henry Lee Summer will be the fever of the season and WPDH would love to have him back." **Pam Brooks, WPDH**

" . . . Here's a guy that Album Radio has broken!" **Dave Fortney, WKLT**

" 'Darlin' Danielle Don't' is the perfect follow-up. What a great way to show his many facets and musical styles." **Stacy Yelton, WKQQ**
