Columbia

### BRUCE SPRINGSTEEN

#### "CHIMES OF FREEDOM"

Rad Messick actually phoned us from Paris to rave, "This guy did the biggest radio broadcast in history and this is the song he chose to introduce the Amnesty tour—and close out the Stockholm show!"

Arista

### BUNBURYS

#### "NO MATTER HOW LONG"

The Olympic Committee may not be selling the Bunburys as Epic Clapton, but you'd have to be a pole vaulter from Uranus not to recognize the master's patented core crunch.

Virgin

### GILLAN/GLOVER

#### "TELEPHONE BOX"

Dave Edmunds proved the phoned-in vocal effect has a special place in the hearts of request line rogues from coast to coast, and this Innuendo Nintendo takes it one step further.

September 2, 1988

**Bruce Springsteen, "Chimes Of Freedom", EP, Columbia....** We all know any new Bruce material is going to be met with open arms at album radio, but has any "special edition", (his first domestically released commercial EP), ever come to you with more compelling reasons for serious airplay endorsement? After all, Bruce has always been linked to Dylan, dating back to the fact that John Hammond Sr. signed 'em both. And isn't it amazing that he's never recorded a Dylan tune before? As Rad noted, this was the show stopper and keynote closer of the near legendary Stockholm satellite hook-up, and indeed the moment the wire services deemed the most historically significant of the already august event. But the beauty of it all is that there are 3 more "Tunnel" tour time capsules from which to choose. "Tougher Than The Rest" takes top honors around here with the relatively underexposed "Be True" running a close second. But a new stripped down version of "Born To Run"? Why that's practically an Elvis sighting in itself.

**Ian Gillan/Roger Glover, "Telephone Box", Virgin....** The fact that these rockers built this song from the piano and harmonica on up shouldn't really come as a big surprise. After all, didn't "The Mask" back in '84 amply demonstrate Roger's willingness and ability to branch out from a formula that had served him well. And you undoubtedly recall what a big radio hit that was. Now comes another equally quirky little rhythm monster--with a lyrical slant that's as tantalizing as the music behind it. They've definitely connected with a hot number this time--and DC101's Curt Gary drops a dime, saying, "I can guarantee that this will be the hottest tune for next week. You might as well name it 'Out Of The Box'". With no new tunes from Deep Purple out and about, "Telephone Box" should more than satisfy--it'll do serious dial damage for their fans on the prowl for new material.

**The Bunburys, "Fight (No Matter How Long)", Arista....** Bunburys my butt! This is nothin' but a no holes barred Slowhand showdown. Slug in as many top gun studio stars and big names as you please, and what everyone's gonna hear here is at least 80% EC. You gotta listen pretty damn hard to pick out \_\_\_\_\_, but that voice and the liquid sandpaper guitar sound just couldn't be anyone else. This is more of a signature groove thing than we would have expected given the showcase, but any real rock programmer has to love the fact that Eric has chosen to honor this event with a relatively rude tune. It may not be "The Core", but you've never heard another commemorative contribution with anywhere near this kind of bite. That's because the people who bought "Layla" when it first came out are now runnin' the Show (as they put it in Bull Durham), and nothing gets those hip corporate types up and running like a cookin' Clapton solo.

**Records Of The Week**

**Steve Miller, "Ya Ya", Capitol....** Even with his rep as the sultan of style changes, you can't tell the players without a scorecard--and 84 OTB adds and tons of projections is proof positive that Steve has done it again. It's the strongest add of the week at KTXQ, with Redbeard saying "This whole album is absolutely impeccable in terms of the choice of material. It goes so far back that it comes around and it's totally hip again".... From KZRR's Hubby Dean, "One of those songs that grabbed us immediately and just had to go right on".... Rad Messick calls it "A cool sound from a cool guy".... KKZX's Christina Gorton says, "Steve has given us the strongest single off the new album and those blues fans are going to dig it".... KWHL's Cyndee Maxwell adds, "I love it and think our listeners will too".... With this week's highest Hard Hundred debut at 32\*, the MillerMan be havin' absolutely nothing 2 B Blue about--and just wait til those upper demos get an ear on "Zippity Doo Dah".

**Vixen, "Edge Of A Broken Heart", EMI....** We've always limited our ROW category to one release, but this week we felt Vixen's 54 station startup was more than sufficient ammo to share top billing--that does make them this year's fastest starting new female band. As Redbeard says, "What's not to like? A very strong song, excellent production--and it's got that guitar edge".... KWHL's Cyndee Maxwell adds, "What a great record! It's well produced, clean and stands out in a crowd. These ladies know how to rock".... KBOY's Bob Jeffries predicts, "This will be a strong one. It tested well for us last week".... WWTR's Karen Collins says, "It's a jolt to see a brand new act get off the ground so quickly. I'm glad to be playing it".... And from KATP's Ginger Mackenzie, "Vixen provides good balance for the playlist with their hard edge. They've toured in this area often and have a substantial listener base to build on".... New at 59\*.

**NEW PLAY PRIORITIES**

**Midnight Oil, "Dreamworld", Columbia....** It's not often that a group puts out an album where the personal fave debate is so wide ranging--months and months on down the line. Survey five different music directors and you could well wind up with as many different choices. You can't second guess the success of "Dead Heart", and you shouldn't hesitate on the tune that many people really pushed hard as the successor to "Beds." It's a high point of the live show, and if there's a bigger, badder guitar sign-off on any current song, we'd like to hear it. New on KBCO, KILO, KKDJ, KNCN, KSQY, WHTG, and WRIK--with KATT, KJJO, KAZY, KLBj, KPEZ, WHCN, WLAV, WPLR, WRCN, and WRKI among 25 now playing.

**Paul Kelly, "40 Miles", A&M....** Crusading for overlooked and underplayed album tracks frequently amounts to the print equivalent of pissing up a rope, but we will never hesitate to step up for what we feel is the overlooked album of '88. That's not to say you didn't give "Dumb Things" a terrific ride, and it's not to imply that "40 Miles" isn't going to fly--I'm just surprised that more supposedly musically inclined folks haven't gotten totally hooked at home, sold their worldly possessions and followed this guy from gig to gig. But I guess that's why he's moving to the States, mate--and as prolific as Paul is, there's still puh-lenty of time. As for "40 Miles" you've gotta love the rough and tumble lyrics, the delightful CCR guitar touches, and that ear grabbing Hooters harmonium thang. When you get the CD reservice, spend a weekend--and look for Paul guesting with the Smithereens starting in mid September.

**Moody Blues, "No More Lies", Polydor....** Can any other band--new or old--match the kind of instant upper-demo success we've come to expect from the Moodies? Their 25-34 appeal speaks for itself, and I think we'd all be surprised to get a true read on their 40+ pulling power. From a musical standpoint, they're really one of the only legitimate rock acts able to guarantee that AC crossover--and the always heavy classic track exposure does a fine job of keeping those younger demos in line as well. "No More Lies" sounds like the perfect summertime swan song, and might well be one of the prettiest melodies from Justin Hayward since his "Blue Jays" days.

**Jon Astley, "Put This Love To The Test", Atlantic....** Even with Danny, Flash and all those Atlantic Aces down Nawlins way for the week, Mr. A still rolled up 21 first week adds--and a 91\* debut. And why not? It's a strong one listen song, and as noted by Jim St. John, who called it KTYD's strongest add, "'Jane' came out of nowhere, and is now a testing oldie as far as our auditorium research goes".... WTPA's Chris James adds, "I love this record. The lyrics are absolutely perfect for the times we live in".... KKAZ's Tony Montoya adds, "John did really well last time but I feel this is an even stronger effort".... KTCL's John Hayes says, "It has a great groove. The other record was great for us and this is an automatic. A very modern sound".... Early action includes KLOL, KMOD, KROQ, KTYD, WCCC, WHCN, WTPA and KLBj. Also pay special attention to the nifty new version of "Been There, Done That", which you might have blown through on the Johnny B. Goode soundtrack. The new arrangement and mix could have you two cuts deep before you know it.

World Radio History

**Living Colour, "Talkin 'Bout A Revolution", Epic....** Vernon Reid is probably a little weary of the Hendrix comparisons, (though we couldn't imagine a higher compliment), but we simply can't let this one get away. Forgetting the style similarities, what we're talkin 'bout here is electrified folk music. You know the song, but in the same way Jimi made "Like A Rolling Stone" and "Watchtower" his own, the Big V has transformed Chapman's track into one all his own. You might have noticed the rabid critical acclaim centers on the live Living Colour experience--and now you have the perfect vehicle to drive that excitement home to your audience. And all that's just the B side!! If you haven't at least tested "Cult Of Personality", you've walked on by what we think is one of the most important new bands on the scene. With all due respect to Messrs. Beck, Page and Clapton, your audience is screaming out for new guitar heroes--and Vernon Reid is USDA choice. New on KLOL and KMOD, with WMMR increasing, and KTXQ now with top 5 phones.

**HARD ACTS TO FOLLOW**

**Twenty Flight Rockers, "Black Leather Jacket", Epic....** Normally, songs of desire for inanimate objects don't really work that well--unless you're talking cars. However, with your basic black leather jacket now the #1 required item of 18-24 apparel, it's about time that someone immortalized it in song--particularly a hard charging, blood pumpin' number like this. We hear a few flashes of good ole "Under My Wheels" era Alice Cooper, just a hint of Billy Idol, and even a tinge of Charlie Sexton. Be aware that the Rockers hit these shores under the guidance of one-time Clash mentor Bernard Rhodes, with appropriately lean and mean production from David Leonard, who just mixed the live material on the forthcoming U2 album.

**New Frontier, "Under Fire", Mika/Polydor....** One way to present this song and get sure-fire reaction is to say the name really fast on the air--and leave out the "T" in Frontier. It does sound a lot like Lou and Foreigner, you have to admit. Or maybe it's Mr. Mister with a more sharply defined edge. Whatever the comparison, New Frontier has delivered a carefully crafted piece of what's working well for the arena attractions. A-B it with the new Bad Company and you'll see what me mean, and by all means, do it up for "guess who" audience reaction and see what comes over the wire.

**All About Eve, "Every Angel", Mercury....** This band created quite the stir in England a little over a month ago on when the band protested Top Of The Pops' lip synching policy. Prior to that musical footnote, lead singer Julianne Regan was twice named Best Female singer, and the album debuted at #7 and has now gone well beyond gold. "Every Angel" is produced by Richard Gottehrer, who injects just the right touch of ringing American pop a la his best work with Marshall Crenshaw and Blondie--with an intro that unequivocally grabs you by the face. A big Top 40 future for Eve is an easy call here, and you should know this track is also out of the box at the likes of KLOS and WQFM. Definitely one of the week's nicest surprises.

**Kix, "Cold Blood", Atlantic....** With a voice that falls smack dab in the middle of the late Bon Scott and Slade's Noddy Holder, Steve Whiteman and Kix have wrapped the clubrat clientele all up and down the eastern seaboard. Ask **Curt Gary** about Kix and he'll tell you they're one of DC's very biggest local live draws. Fans of the band have supported their first three albums, but getting all that onstage energy down on tape has been tough. This time around they've enlisted the formidable rock and roll talents of powerhouse producer Tom Werman, who has turned the knobs for The Nuge, Poison, Motley Crue and Twisted Sister, to name a few. Trix aren't what make Kix click, but for tour-tested, straight ahead core crunch, they're hard to beat.

**China Sky, "The Glory", Parc/Epic....** Early outta the box action is the big news here, with WFBQ, WLZR, WFYV, WDIZ, WHTQ, WIMZ, WCMF, WOUR, WRUF, and a dozen more just in--just enough to chart at 100\*. "Don't know much about the band" says WFBQ's Jim Pemberton, "But I really like this record". Just imagine all the best parts of Jim Peterik's approach with a guitar part reminiscent of any great high compression radio anthem--and you've got it. Expect an even better add count next week.

**IMPACT TRACKS**

**Omar and the Howlers, "Rattlesnake Shake", Columbia....** Yowza! CFOX, KATP, KBCO, KEZE, KILO, KISS, KLBK, KMOD, KPEZ, KRXQ, KTYD, WAPL, WHCN, WHFS, WLLZ, WNEW, WQFM and 2 dozen more come in this week on this fine sophomore effort. Rad "I'm in France" Messick almost didn't need the **WDIZ** Bat-phone, "Out of the box on Omar and the Howlers. This song screams! This is the song that Omar's needed to make the big cross".... Using the phone in Commissioner Gordon's office, **KTXQ's Redbeard** said, "I played 'Rattlesnake' for our PD Andy Lockridge, and halfway through he says, 'Man, this is the best production yet!' Hats off to Terry Manning in Memphis for bringing out the best in the band"....and lets not forget **WIZN's** Boy Wonder **Tom Van Sant**, "Omar and the Howlers go in with another blast of their patented swamp boogie. Sure to be welcomed with open arms by our listeners who gobbled up the last LP".... finally **KWHL's** answer to the Catwoman, **Cyndee Maxwell**, "Omar and the Howlers 'Rattlesnake Shake' is an excellent follow-up to 'Hard Times'. Immediately recognizable and hip. It's a smash!".... Debut at 64\* on the HH.

**Big Country, "King Of Emotion", Reprise....** This Scottish powerhouse continues to score big on the comeback trail with new adds at CHEZ, KBER, KDKB, KGB, KOZZ, KZAP, WAOR, WIXV, WLAV, WNEW, WPDH, WRIF and 14 more. That brings the 2 week total up to an impressive 80 station base. **KILO's Alan White** echoes the sentiments of many of you, "We feel that Big Country has made a huge step forward in their presentation with 'King Of Emotion'. A little more subtle, but still very tasty".... We agree that "King" is without a doubt the most radio active track these guys have ever delivered. Increased already at KSQY, KZOQ, WFYV and WMDX and Heavy air at KSJO, KTYD, WRXK and more. Who can argue with a major 54-37\* move on ye olde Hard Hundred?

**John Hiatt, "Slow Turning", A&M....** Talk about a big move, how does 83-44\* grab you? Our #1 biggest mover by a long shot, thanks in part to 40 new adds. John has always been a critics choice and with this release he's got the programmers pumping up their praise as well. We can't think of anyone more qualified to wax on trax than **WXRT's Lin Brehmer**, "There is not a more vital, exciting American singer/songwriter on the face of this goddamned pockmarked earth. From 'Slow Turning' to 'Paper Thin' these are songs that make most of the recordings we hear sound like puppy piddle by comparison".... Pass the tissues over to **KTAO** and **Bill Evans**, "Tremendous! With a lyric line like 'Kids in the backseat bangin' like Charlie Watts'---you can't resist".... or **WHJY's Chris Herrmann**, "I'm blown away by the new John Hiatt song! He's taking a trip down that dusty back road cut by John Cougar Mellencamp. This song is full of great images".... On 71, with the new air roll call showing, CHEZ, KBCO, KDKB, KEZE, KILO, KLBj, KRXQ, KYYS, WBCN, WIXV, WLAV, WPLR and WZXL already in class.

**U2, "Jesus Christ", "Folkways", Columbia....** Even with all the great material on this collection, it's no surprise to us that U2 has chalked up the third biggest move of the week, 77-47\*, on the Hundred. New air at KBCO, KDJK, KEZO, KILO, KRQR, WAPL, WFNX, WLAV, WPDH and 14 more bring the base up to 55, which is just a drop in the bucket in terms of what lies ahead. **WWTR's Karen Collins** is convinced, "U2's treatment of 'Jesus Christ' is sure sounding like a hit to me. This song has been quick to distance itself from the rest of the 'Folkways' compilation".... With the new mostly live project right around the corner, there's no reason not to take advantage of their high profile and pound this in Power. For a different perspective check **KEZO's Bruce McGregor**, "We've had a number of people inquiring about U2's 'Jesus Christ' from 'Folkways'. Finally someone singing about JC in a positive manner---giving Him what He deserves"....Who would expect less from Bono and the boys. Speaking of high profile, the soon to be single **Bruce Springsteen** racked up new air at KILO, KRQR, KZAP, WAPL, WKQQ and WRXL on his rendition of "Vigilante Man".

**Edie Brickell & the New Bohemians, "What I Am", Geffen....** The big story with Edie is one that's no surprise here-- phones on fire! **WIZN's Tom Van Sant** explains, "Not since Tracy Chapman burst on the scene have we seen the kind of instant reaction we're getting to Edie Brickell & the New Bohemians. It's our number one request item! This baby could go all the way and I certainly hope it does. The album is simply outstanding. It's fresh and musically excellent".... and **KBOY's Bob Jeffries**, "What I Am' is pulling strong phones and working in this market".... also **KPEZ's Elise Vander Borcht**, "Edie and her New Bohemians still hold the top spot in requests, it's incredible the amount of phones this tune pulls in"....Other Top 5 Phone reports are in from KBCO, KJET, KTXQ, KTYD, WFNX, WIXV and 4 others. Adds from WCCC, WLAV and WPLR bring the total station count up to half a hundred. If you've only given this a quick listen, before you file it away, call **KATP** and ask for **Ginger MacKenzie**, "The Edie Brickell record is the big staff surprise this week. At first, the announcers hated it, but after a few listens they turned around in a big way. Now they can't get enough"....66-63\* on the HH.

**Robert Palmer, "Early In The Morning", EMI....** CILQ, KBER, KZAP, WAOR, WAVF, WBYR, WONE, WRDU and 14 more come in for the wake-up call this week. "Suave" Bob has 63 on board including KLOL, KRQR, KRXQ, KTYD, WAPL, WBCN, WCCC, WDIZ, WEZX, WLLZ, WLWQ, WMMR, WNEW, WPLR, WRIF and WYNF. Out Laramie way, **KRQU's Matt Roberts** breathes a sigh of relief, "Robert Palmer's 'Early In The Morning' is a big step for him. 'Simply Irresistable' was quite a bit like his last album, but this track shows he can still spread his horizons. I guess there's no chance of him getting stuck in a rut".... over at **KZEL** the always quotable **AI "Man of a Thousand Babes" Scott** reaches into his bag of tricks and spewed forth this reaction, "As any ladies man will tell you, those morning hours are the toughest, and when I can look as good as Rob without my Retin A then you know I've made the bigtime".... A smooth 62-45\* move on the Hard Hundred.

**Hothouse Flowers, "Don't Go", London/Mercury....** You can't always depend on a big buzz and tons of early adds as far as predicting how a highly touted new band is going to do with the general public--but in this case we'll be totally surprised and disappointed if the Flowers don't come home bigtime. It just sounds too good to miss--and too American, if we can risk that statement. The numbers get better every week: This one offers up 15 more adds, 13 increases (KDKB, KLBj, KOME, WBCN, WIMZ, WPLR, KFMH), no decreases, and 19 heavy reports--including KOME, KSJO, WIMZ, KPEZ, KJET and CHOM. **WKWQ's Art Boerke** tells us, "The Hothouse Flowers have become a staff favorite in a very short period of time. The jocks are going bananas for this band".... **Tim Parker** at **KNCN** calls 'em "One of those bands who are going to click--but you just don't know when". We can't say for sure either, Tim--but how does big calls inside of two more weeks sound? It's already a top fiver at KTYD, WMDK, WRCN and WWRX.

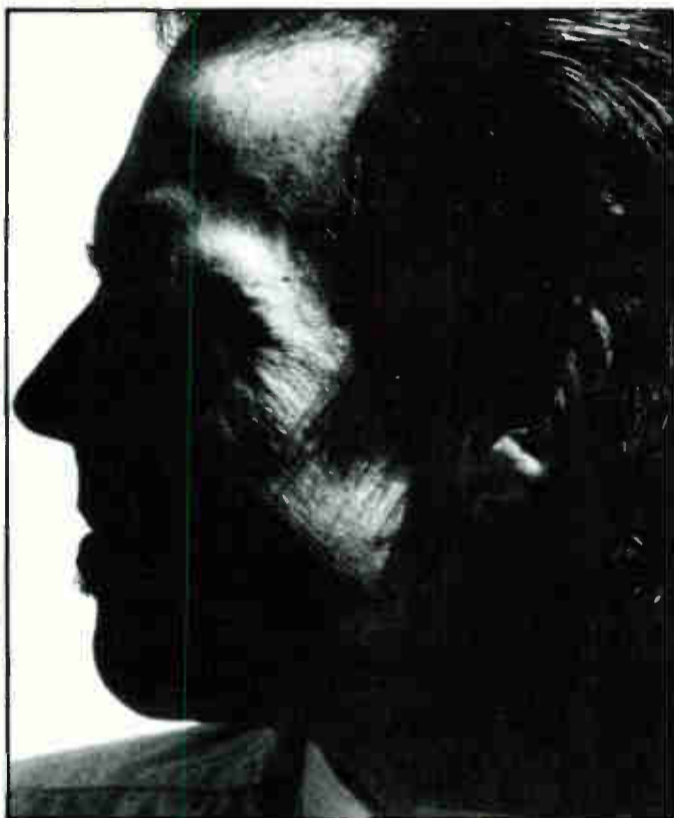

**Jimmy Page, "Prison Blues", Geffen....** This is the track that everyone was talking about when "Outrider" was unleashed a few months back. However, the general consensus was that it might have been a tad too long for its rightful rotation. The gurus at Geffen have solved the prob, as usual, by trimming away the excess and as a result what we have here is the #2 Most Added track. 61 come in this week including, KDJK, KEZO, KGON, KISS, KKDJ, KLBj, KMOD, KOZZ, KRXQ, KSJO, KYYS, KZRR, WCCC, WDVE, WEGR, WGIR, WIXV, WLAV, WLLZ, WRKI and a host of others. **KZRR's Hubby Dean** had this to say, "My strongest add of the week has to be Jimmy Page's 'Prison Blues'. Immediate phones and I think people are glad to see Jimmy sort of going back to his roots".... **WGIR's Karen A. Small** continues, "Jimmy Page gets down and dirty and turns out some nitty gritty playing with 'Prison Blues'. This track will definitely cause ears to perk up".... **KPEZ's Elise Vander Borcht** reasons, "The edited version makes it more accessible for daytime commercial loaded hours".... We'll leave the last word to **Rad "Voulez Vous" Messick**, on vacation from **WDIZ**, "Jimmy Page's 'Prison Blues' is just the right edit. It gets down to the essence of the guitar that Jimmy is so famous for and a great bluesy vocal".... Debut at 43\* on the HH.

**Bruce Hornsby, "Defenders Of The Flag", RCA....** 38 more recruits run that remix up the old flagpole, and with 123 answering the rotation roll call, it's looking like what most programmers feel is the album's best rocker will be closed out in about two weeks. We realize "Join or Die" might be a little strong--but that depends on whether or not you're discussing the issue with **Jim McKeon**. Up 28-21\* on the Hundred.

**Little Feat, "Let It Roll", WB....** Sure, the 23-16\* surge for "Let It Roll" rates major chartstar raves, but even more significant is how those points factored into the album totals to take the band #1 on that chart. #1 single, #1 album--and a track a minute away from top 10. They'll be tough to beat for Comeback of the Year honors at this rate. "Roll" racks up 15 more adds, with 124 now on board, 11 increasing, and 39 now heavy. Now it's time for a little more play on "Business As Usual" and "One Clear Moment", don't you think?

World's No. 1 History  
 RECORDS

**Pat Benatar, "Don't Walk Away", Chrysalis....** The number two salvo from rock radio's most programmable Benatar record since her first, almost doubles the total count with 20 more stations. That big jump in the overall total (now 44) puts Pat way up there in the Big Movers division, with the 92-61\* jump being our second longest gain this week. It's working for KKAZ, with Tony Montoya updating, "Without a doubt it's the clear cut Big Mover here. Already top 5 phones after only one week on the air".... KKAZ bumped it up, along with WMJY, with WRIF, WLLZ, KFMU, and KFMH the other early heavies. Why would you even think of hesitating on this one?

**MORE HARD ACTS**

**Michelle Shocked, "Anchored In Anchorage", Mercury....** We never thought "I already have a ton of females on the air" would qualify as a legit reason to file without a serious listen--but given the traffic we're hearing that a lot. In that light, don't make the mistake of thinking Michelle is anything like anyone else. Her folk tinged delivery is unique and authentic. KRNA's Kim Jeffries agrees, "This is a really neat song, and a lot different from what you usually hear. I think a lot of people can relate to it because it's almost like someone sitting down and telling you a story"....KATP's Ginger Mackenzie adds, "Michelle has been a huge hit around here, with the staff getting behind it from the beginning".... Get behind early airplay action at WFBQ, WLAV, WLLZ, KBCO, WBCN, and WHFS.

**Hurricane, "Living Over The Edge", Enigma....** Boy, it's nice to see these guys land their second track on the Hundred this week, at 96\*. Obviously, programmers are beginning to forget how successful the leadoff number was--or have finally started to realize that it should work for, and not against, the follow-up. With the tour jacking up the action from coast to coast and the video from their first outing still a major MTV phone action monster. It's new at KAZY, KILO, KRZQ, and WFYV, with KNAC increasing and ongoing play from KEZO, KFMG, KOME, WEZX, WQFM, KMOD, KOAS, CILQ, and five more. Listen again.

**Al Stewart, "The King Of Portugal", Enigma....** A solid start for Al's best work since the 70's, with OTB activity at KYYS, WNEW, CHEZ, WCKO, WKXL, WRDU, WWWV, WZEW and six more. As WNPQ's Eric St. John says, "This recalls some of his best heritage songs and should do very well with the format".... You already know it's surprisingly competitive and contemporary sounding--so howabout some well promoted exposure on your New Music show or a couple of mid day tests. He's earned that and more.

**Buckwheat Zydeco, "Why Does Love Got To Be So Sad", Island....** We weren't there, but the clue-in from people who were, is that Buck (and labelmate Melissa) stole the show at the just concluded WEA convention. If you've ever seen his act anywhere you know it's all kinds of fun--but on home turf, you gotta be God to share the floodlights with this guy. That appeal obviously isn't a function of geography, as more and more programmers hop on board. WKWQ's Art Boerke feels, "Buckwheat gives us the perfect remake. People tell me they love this tune and Clapton's feel throughout the song is refreshing".... This week offers more healthy adds and ups, with KDKB, KILO, KXBR, KXRX, WDHA, WFBQA, and WKWQ just in, and 9 reporters increasing, including KZOQ, WHTG, WNCS, WPLR, and WWRX. Currently on 70 stations, with most in medium--good for a 46-41\* move. It's the best accent/image piece on the street--and given the Clapton tour and TV exposure we can't see why anyone wouldn't feel comfortable at this point.

**Femme Fatale, "Waiting For The Big One", MCA....** KQWB's Ty Banks has it down when it comes to searching out big 18-24 records, and this week he relays, "I feel the rumblings of an impending explosion with this record and our core audience. This could be scary, kids".... KLOS keynotes this week's new airplay, with KISS, KFMX, KEZE and KBER just in. It's already on KGB-FM, WFBQ, WQFM, WLLZ, KZAP, KAZY, KFMG, KICT, KMOD, KRZQ, KZRR, WCCC, WIMZ, WPLR, WRDU, WRUF and more, et al 45 stations to date. With most of that airplay in the 2-3 week stage, we'll keep you posted on the curiosity calls we think are mere days away. 71\* on the Hundred.

**The Psychedelic Furs, "All That Money Wants", Columbia....** Don't think there's any thing perfunctory or obligatory about the only new song in this Greatest Hits package. This first hook-up with noted Britisher Steven Street handling co-production chores is just about their best work ever. As WVVV's Butch Lazorchak says, "It's much better than anything on their last album. They're back to the guitar oriented material of their earlier days and most Furs fans are breathing a sigh of relief". There's serious call letter clout after only two weeks: WBCN, KISW, KLLO, KROQ, WAAF, WBRU, WNEW, WRCN, and WLAV included. WXRT, WVVV, WBCN, KTCL, and KABL show early increases, with 49 adds to date rating a 72-68\* advance, we looking at the Butler Brothers best shot at the long overdue bigtime breakthru.

**Gary Wright, "It Ain't Right", A&M....** Gary's second serve gets a double digit startup, with KMOD, KEZE, KSQY, WIBA, WOUR, and KBOY in out of the box. Where "Who I Am" may have been a little too soft, this track comes roaring out with what could be his grittiest recorded vocal since the glory days of Spooky Tooth. Even though his career took off so fast he was spared the bar circuit, this Jersey boy proves his pipes are a match for any taproom the current turf has to offer.

**Graham Parker, "Don't Let It Break You Down", RCA....** You might have noticed the developmental curve on the first single took a lot more time than the norm, and now the second track seems to be following an even longer building pattern. This week it's new at WAOR, WKLT, WKWQ, WRDU, WRKI and DC101, with WDHA, WKXL and WRIK showing play increases. We show 57 current reports, including KBCO, KEZO, KILO, KISW, KLLO, KMOD, KXRX, KZRR, WBCN, WCCC, WMMR, WLAV, WNEW, WPLR, and WRXK. It's a fundamentally better track for the format, so think hard if you played the first one. And if you didn't, you owe it to yourself and your audience to dig into this fine artist, he more than deserves the attention.

**David Lindley, "Never Knew Her", Elektra....** Like many of you, we love "Never Knew Her", but it's obvious that lots of stations are itching to go deeper right now. Here's KTAO's Bill Evans and "We're using three tracks but the biggest reaction track is 'Rolling Stone', which he uses live, but the smoothest female appeal song is 'I Just Cant...' He's way up there in the Ry Cooder school of music".... From KPEZ's Elise Vanderborght, "After several listens I realize this album could go three or more cuts deep".... The single's new at KBOY, KJQN, KOME, KPEZ and WMJY, with ups from KACV, KFMH, KMBY, KZAM, and WMDK--and no decreases. Currently on 22, including KBCO, KFMF, KRQR, KRZQ, KTYD, KZAP, WBCN, WHFS and WIZN.

**Huey Lewis, "Small World", Chrysalis....** Whether you use the long or short version, the way Huey grooves with those Tower of Power horns makes this a must play record. You simply can't argue pop image with heavy hitters such as KGB, WRIF, WLLZ, WEBN, KSJO, KBCO, WAAF, WHJY, WLUP, KISS, and WNOR already in--and KZLR, KZOQ, WEQX, WHTF, WVVV, WWCT and WZEW reporting play increases. Plus, we think it offers a decidedly stronger hook and arrangement than "Perfect World". Up 47-38\*.

**Judas Priest, "Blood Red Skies", Columbia....** The level of awareness on this excellent remix is just now starting to build, but as that happens new air at KAZY, KDJK, KOME and WCCC pumped up those point totals to the tune of a 98\* debut. Already on KFMG, KILO, KISS, KJJO, KRXQ, KRZQ, WLLZ, WLZR, WYNF, WXRC, KNAC and several more. Surprising quality on that list, eh?

**NEED LITTLE HYPE**

**John Cougar Mellencamp, "Rave On", Elektra....** When the Summer of '88 is history, we suspect that the Cocktail Soundtrack will prove to be much more memorable than the movie it came from. Now that the T-Birds are starting to tumble from the upper reaches of the chart, those one-track at a time stations should start falling in line behind JCM's fine remake of "Rave On". John's gotten off to quite a start despite the early action on "Powerful Stuff"--witness the progression from the debut at 73\* a few weeks ago, to 52\*, and now up to 40\* after 21 new adds. Top-5 phones are starting to show at WZEW, WNPQ, WKQQ and at WIZN where Tom Van Sant notes, "Mellencamp's version of 'Rave On' is up to #4 on our request list. This could be a major hit record as it seems to turn on those upper demos and women".... Now on 64 stations including, KBCO, KGB, KPEZ, WBCN, WKDF, WNEW, WTPA and DC-101.

**Smithereens, "Drown In My Own Tears", Capitol....** The Smithereens are cashing in on their unique ability to fuse the raw power of 60's garage pop with sharp 1980's production values courtesy of that Carolina wizard, Don Dixon. So don't be surprised if this single from "Green Thoughts" turns out to be the most successful of the three out so far. For the second week in a row, "Drown In My Own Tears" is among our biggest movers with a 25 point hike to 51\*. Jersey's favorite sons grabbed up 17 new adds led by KEZE, KISS, KSJO, WAAF, WRDU and WWWV. Now on a total of 56 including KEZO, KLOL, KYYS, WNEW, WNOR, WRXL and WCMF.

**Patti Smith, "Up There Down There", Arista....** Despite the title of the first single, the real power on the "Dream Of Life" lp can be found right here. Patti is one of the true originals in the female rock world, and one spin of "Up There Down There" is proof positive that the long lay-off has done nothing to diminish her tremendous talents. Not only that, but hubby Fred "Sonic" Smith is one serious guitar twister on this track. This week, Patti caught on at 15 more playlists including KLOL, KMJX, KMOD, KSJO, WFBQ, WLAV and WWRX. It's among the most requested at KTCL, and you'll also be able to follow it's growth on KLBj, KPEZ, KZAP, WBRU, WCCC, WDHA, WLLZ, WNEW and WWTR.

**The Bible, "Skywriting", Chrysalis....** Those stations that stayed with "Crystal Palace" long enough to give it a legitimate shot were rewarded with good phone action and a valuable tempo-changing tune to slip into the daytime hours. If you've spent any time at all with this record, then you obviously appreciate the solid effort throughout. Your friends at Chrysalis have kindly added 6 acoustic versions to the B-side of "Skywriting". With early play on KABL, KTCL, WFNX, WHTG, WRCN and WZEW, the Bible-Belt currently extends from New England to Colorado.

## CHARTSTARS

**Bad Company, "No Smoke Without A Fire", Atlantic....** Sure, there were questions at the start, but with a legion of loyal fans smoking up request lines from Spokane to South Bend, the pieces are starting to fall into place. WNPQ's Eric St. John can feel a trend developing; "We get constant curiosity calls on the new Bad Company. I think we are just beginning to see the tip of the iceberg with this album".... The afore-mentioned phone action shows up this week as #7 in the most-requested column with reports in from KLOL, KMJX, WAPL, WKRR, WLZR, WRDU and nearly 20 more. Check the chart, and you'll note that top-10 status is only a week or so away after a mega 22-12\* jump. 23 stations moved the track up in rotation including, KATT, KAZY, KGB, KISS, WFYV, WIXV, and WTPA. With 144 currently on board we think it's safe to pronounce the patient "out-of danger" and give Bad Co a clean bill of health.

**Rod Stewart, "Forever Young", Warner Brothers....** Now here's one that the classic rock station in your market is apt to hop on even before the left-handed, upwardly-mobile, 25+, white-collar, focus group auditorium testing numbers are delivered from high upon the mountain. And why not? Short of abstinence, this is probably the safest thing currently making the rounds. To our ears, it sounds like Rod's first across-the-board, multi-format smash since "Hot Legs". The 26 adds that came in this week put Rod in the upper-reaches of our most-added chart and finds him now keeping company with the likes of KDKJ, KLPX, KZAP, WBLM, WEGR, WKDF, WKRR, WWCK and KEZO where Bruce McGregor sez, "With its positive lyrics, Rod Stewart's 'Forever Young' is a hit record".... Put those adds next to 11 rotation increases and the momentum is good for a 30-26\* jump on the HH. Just check the calls currently reporting runs in heavy or better rotation: KLOS, WMMR, DC101, WBCN, WRFX, WRIF and 30 others.

**Crowded House, "Never Be The Same", Capitol....** Finn, Seymour and friends are out to make people realize that there is indeed musical life after the Beatles split back in '70. Oh sure, you heavyweight industry-types are probably tired of the Beatles comparisons by now, but a fair portion of your upper demo audience probably hasn't seen the inside of a record store (not counting the recent CD reissues) since they walked out with "Let It Be" way back when. And don't overlook this band's tight grasp on the younger demos and the ladies too. Although it was a first-rate ballad, some of you tough-guys found "Better Be Home Soon" a touch tender for your tastes, but you shouldn't have that trouble here. WMMR's Erin Riley echos the point, "Crowded House has sold out every show they've done here, so it thrills me to pieces to have a song from their second album that we can play".... besides the shot on 'MMR, the boys also land on KLOL, WAAF, WLAV, WWWV, WHFS, KTYD, KSQY, KRZQ, and KJQN. It's enough for a 94\* debut on the Hundred.

**David Drew, "Safety Love", MCA....** It would be easy to compare this tune to some song from the ole snarling one with the spiked collar, yet we have reports of David developing his own persona in markets where he has gotten good exposure. At WCCC, Joe Marino has the proof, "It's great when your audience notices a new artist's second track as being from that new artist. David Drew's 'Safety Love' has been recognized and requested by many listeners after only one week on the air".... With airplay on KRQU, WBCN, WCCC, WCKO, WDHA, WHJY, WIMZ, WIYY, WMJY, and WSTZ, David is set for a Hard Hundred debut next week.

**Baxter Robertson, "Time And Again", Atco....** If you passed on "No Simple Cure" then you have probably been laying awake nights waiting for your chance to make it up. Well, now's the time to get out that Baxter Robertson CD and give it that extra spin or two to get the hook deeply embedded in your still firm brain matter. Your gray stuff is still firm, isn't it? Then just plug into the Tom Lord-Alge mixed "Time And Again" and you will know why we think that Baxter is getting ready to break on the scene with his passport in hand stamped for the promised land.

**Peter Cetera, "You Never Listen To Me", Warner Brothers....** Allow us to introduce guest writer Mark Williams from WWZU: "Bill it as Cetera-Gilmour, surround it with classic Floyd or classic Chicago tracks if you like--but any rock radio station should have no problem playing a track which is none other than the fusion of two of your backbone, core library artists. If you turn your back on Cetera-Gilmour, you turn your back on what you have already determined is important to your format and your audience". Adds on 15 including KATP, KOME, KZRR, WBYR, WFYV, WKLS and WLAV help spark a 12 point hike to 46\*. It's playing in heavy rotation at KFMR, KKAZ, WEBN, WOUR, WQMF, WTPA and at KEZO where Bruce McGregor quips, "I've got to believe that David Gilmour could be gold with Slim Whitman. Peter Cetera is our biggest mover and #2 requests".... Not bad, if my late-night TV memory serves me correctly, the Slim one moved more vinyl than the Beatles did.

# "YOU NEVER LISTEN TO ME"

## FROM *ONE MORE STORY*

**Mark Williams, WWZU**

"The facts are that within three days of medium rotation, 'You Never Listen To Me' gained top ten phone status. After moving it to heavy rotation it reached top five phones! Any rock radio station should have no problem playing a track which is none other than the fusion of two of your core library artists!"

**Lori Niks, WYBB**

"What a combination! I was a bit skeptical but it works and works well. Laced with heavy, funky base and Gilmour's unmistakable guitar, this one proves his 'One More Story' album covers both ends of the musical spectrum."

**Bruce MacGregor, KEZO**

"Peter Cetera is our biggest mover—it's huge. The song was #2 most requested and goes right into heavy. It works—impeccable production!"

**Wendy Steele, WLVQ**

"'You Never Listen To Me' really has those Floydish tones. It's surprisingly good."

**Pam Brooks, WPDH**

"Blow my skirt up! Take Peter Cetera's great voice, add David Gilmour's virtuoso and the outcome is a fine track for the rock audience."

**MAJOR MOVERS ARE BOXED AND BOLDED.**  
**> INDICATES A CHART DEBUT.**

The top three spots on the chart this week might as well be frozen in time and space for all the difference it made this week. Nothing can rattle the stranglehold that Little Feat, the T-Birds and Robert Cray are executing on the format. Ain't it great? The real challengers include Tommy Conwell who has cut his distance to the top in half with an 8-4\* move motivated by rotational increases at KATT, KZAP, WBCN, KLOL, WHCN and KTYD. Tommy has company in the "almost there" category. Steve Winwood has fired up "Don't You Know What The Night Can Do" with a little help from WEBN, KLOS, The Loop, KQRS, KZAP and WZZO. Steve has really punched up the action on his album with a very successful tour and the format in general is more than ready to keep up the pressure on this guy.

Coming on like a handful of razorblades is the latest **Bad Company** track which powers up 14-10\* on the rising tide of support from new players like KSHE, WHCN and WRFX. Rotational increases on KATT, KGB, KGON, KISS, KMJX and WFYV help to kick out the jams for this serious as a heart attack comeback. Look for these guys to spring even more rock solid tracks in precise military order as the year moves along.

Cinderella is continuing to notch big jumps at stations all over the country. CFOX, WLVQ, KEZE, WLLZ, KSHE and WFYV are getting into the action while WMMR, KZAP, WFBQ and WOUR are among the legion of stations giving this record continued support. As a pivotal female setpiece, this tune could be the answer to the question of Cinderella's potential demo spread. That 27-20\* move is indicative of a very strong showing for these guys. Right behind and performing like a champ is the **Bruce Hornsby** followup "Defenders Of The Flag" which hikes up the Winners Chart 30-22\*, just as we predicted a few weeks ago. KTXQ, WONE, The Loop, KLAQ, KMJX and KAZY are all getting on this one and the list of stations in Heavy includes KDKB, KISS, WAQX, WAAF, WKDF and WLAV. No doubt about it, this track was picked early on by our Winners Radar and is going to perform like a big dog.

Big debut of the week has to go to **Steve Miller** whose loving rendition of "Ya Ya" gets him noticed on KRQR, WDIZ, WBCN, KTXQ, KQRS, WLLZ, WPYX and WNEW. Lock up the cats and let the rhino out of the closet, it's time to get with the program here. Steve is one of the format's prized voices and his return is cause for serious rejoicing. Watch this one burn up the airwaves like a cruise missile from hell with that 29\* start looking pretty huge already.

Another grand old man hits the Winners Chart at 36\* behind a new edit of "Prison Blues" and some fresh blood for **Jimmy Page**. WKDF, KYYS, KMOD, KWHL, KEZO, KGON and KRQR are all among the platinum players getting bluer than blue with this stylized chunk from the master. Unfortunately the tour has stalled because of health problems but you can count on that little event to prompt listener action like a tidal wave.

There is a major amount of new action in the bottom third of the chart as some old standbys get the heave ho and some new bodies line up for duty. **Peter Cetera** gets his nose in things with a little guitar from Gilmore and a respectable list of calls including WZZO, WFYV, WLAV, WOUR, WLVQ and WEBN. Peter's 40\* showing this week looks solid on all fronts. One of our favorite growlers, **John Hiatt** gets a quick hop off the line with a 41\* debut for "Slow Turning" this week. New airplay on WLAV, KYYS, KLBK, KBCO, WFBQ and WBCN get things rolling. Look for John to expand his format impact with this song and the other gems that we can already hear on the new LP. "King Of Emotion" is a serious shift in direction for **Big Country** and the early returns show big wins for the change at KDKB, WDHA, KGB, KZAP, KMJX, WFYV and WRXK where the song is already in Heavy rotation. The party platform is looking like a winner for this band and we anticipate lots of late balloting to support their 42\* position this week.

Here comes Huey! The format leaders are certainly shuffling around on their track selection here a bit. First we saw "Walking With The Kid" getting the nod only to slow down and see "Small World" jet past for priority treatment at KBCO, WZZO, WAAF, WHJY, WEBN, KWHL and KISS and a debut at 43\*. The **Huey Lewis/Tower Of Power** collaboration is a natural fusion of Bay Area dynamos but that Tenor Sax work by **Stan Getz** is an inspired studio move of the first magnitude. Talk about a record that will hammer listener curiosity the first time out. Leave it to the audience to rise to the bait anytime something from **John Cougar Mellencamp** hits the scene. In this instance, John has rendered a very strong version of the Buddy Holly gem that has enough personality to stand out as more than mere lip service. DC-101, KRQR, WKDF, KZAP, KGB and KTYD are all on the squad for this one already and that 44\* showing looks ready to break out in convincing fashion. This could be the perfect end of Summer pop/rock smash for your rotations.

**U2** gets the go ahead from among the talent avalanche on the **Folkways** compilation and moves in front with a 45\* outing that sees support from KBCO, KMJX, KEZO, WLLZ, WMMR, WRXK and WPYX. Phones are already in a lather at WBCN for this teaser. You just gotta know that people are sawing their arms off to get a whack at that new U2 album. **Joe Satriani** resurfaces on the Winners Chart this week thanks to renewed interest at The Loop, KATT, KPOI, WDIZ, KLPX, WIOT and KLOS. "Always With Me..." gets a 47\* and that's a full 9 slots ahead of the Hard Hundred ranking. It's great to see **Graham Parker** getting above the horizon with "Don't Let It Break..." plowing onto the chart at 50\*. WRDU, DC-101, WDHA, KBCO, KMOD, KTYD and KLOL are all latching onto this strong slab of upper demo magic for the format at large.

**MAD MAX ON THE CUTTING EDGE**

Former 91X PD **Mad Max** has surfaced as the consultant behind the curtain for **Fred Jacobs'** new music format, better known as the "Edge". The concept is firmly rooted in research but there is something of the cavalier about Fred's move as well. "No doubt about it, I'm in a gambling mood this month. This is something I've had my eye on for a while and the more research we did the more we agreed that our initial surmise was correct. We hope to be able to avoid some of the mistakes that a lot of new music intensive stations have made along the way. This format has a definite look and production and it is very well organized." As we would expect from Fred and his team. Count on the format to manifest more rock schmartz than the beats per minute sound of KROQ or WDRE. The format will also have a substantive commitment to established bands that are considered progenitors of the whole Edge concept. As Mad Max put it, "We will rely on bands like the Pretenders and Talking Heads and dayparting will play a big factor as well because we will have to juggle both familiarity and tempo considerations. We discovered in San Diego that we had to keep our rock image to keep from chasing the audience away." You wouldn't want to be so hip that you end up being art damaged. With everybody shooting for those agnecy darlings in the 25 + demo range, it only makes sense that somebody would double back to cover that unserved 12-24 ground. While Z-Rock will attempt to accomplish that same goal with an Abrams inspired mix of high personality and borderline crunch, the Jacobs' formula will deal with a controlled core and some exploratrive new music adds. The key difference will be image with a capital "I". Fred sees it this way, "The reason Classic Rock worked so well is because it's such a fast start and we feel that this will perform similarly. The idea is to give theses failed stations a niche that they could effectively sell. Why be the third AOR if you can have a unique situation all to yourself. And as far as youth based formats go, this one is definitely being untouched." As for Mad Max, his big wins at the helm of 91X have adaquately prepared him for the national stage and we anticipate a very aggressive campaign to sign new signals in markets across the country. "In the truest sense of the word this will be a "progressive" AOR, if I may be so bold as to use that term. I still think that's the most accurate term for what we will be doing. AOR at it's best is meant to be out there, finding that cutting edge music as it happens." When we asked Fred about any potential clients for his new format he indicated that there would be a signing in the next few weeks. In closing, this interesting note. Media Strategies is conducting a talent sweep right now and they want T&R's from prospective air personnel. They need people for all dayparts and the net will be swung wide. Get your best to them at 26400 Lasher Road, Suite 215, Southfield, MI 48034.

**GAVIN TAKES IT TO THE STREET**

I tipped back my chair and cradled the phone on my shoulder. It was definitely time to flush some news, or at least scratch an itch that had been bothering me for a few weeks. Speculation had been rampant in the office between **Marrone, Dawn** and myself that the new look of the **Gavin Report** was the preamble to a move into the public mainstream. The radio reports and classifieds, stuff that the public at large would find of little or no use, had been sequestered in a pull-out section that could easily be detached, leaving a very cleanly designed consumer product as a result. Gavin Publisher **Ron Fell** chuckled, "Well, that's the first step in our masterplan alright. By the first of the year we want to have limited distribution in Tower record stores and the like. With only limited visibility we have already had a lot of inquiries from the public. People calling to find out about the magazine and how they can get a copy. So this restructuring of the sheet is a first step, a definite move on our part to increase our impact." The idea is stellar with there being an absence of really top-flight music consumer news on the market. The publications that do cover that action are either too trivial or too technical and a no nonsense consumer reports style approach that covers a wide range of music, (eight formats wide in the case of the Gavin Report), should do very well. Ron's goals are as realisitic as they are exciting, "We'll never be a People magazine but we want to be on the street by years end in a limited fashion so that we can effectively reach the consumer. We have made our mark with intelligent artist interviews and our musical base has expanded in some areas. Now it's time to expand our readership as well." Hits has been on the newstands of America for a while now, but the "format and a half" limitations of the publication must neccessarily hobble their emergence as a consumer force. It will be fascinating to track this little skyrocket in the months to come.

The next IRS No Speak compilation will be a guitar spectacular properly entitled Guitar Speak. Pictured with axes to the ready are **Randy California, Miles Copeland, Robbie Krieger** and **Steve Hunter**. Miles' axe is very well hidden.

**Enigma** recording artists the **Del Lords** left the Los Angeles crowd in a daze when they recently played the Roxy. Pictured with the boys in the band are **Enigma CEO William Hein** and the label's AOR Director **Pam Newman**.

**PLAY BALL! BOTH OF THEM**

**Music Awareness Promotion** is setting up some all-in-one packages for Game One of the World Series, which will be in LA of course. Likewise, they are getting an early start on the SuperBowl which will be held in Miami this year. For more information get on the phone to **Jon Scott** at (818) 883-7625. Come on you fledgling Promotion Directors, I'm trying to make you look good here.

**MCA MACHINATIONS CONTINUE**

With **Al Teller** getting the garlands at MCA and a very large promotion in the works for **Richard Palmese**, it seems inevitable that a little rain should fall at the same time. Word is that **Myron Roth** has rejected his corporate reassignment and will be leaving the firm in short order. Myron had been eased out of the Record Division throne to make room for the arrival of Teller and evidently felt that his promotion to Senior Veep of the Music and Entertainment Group wasn't exactly the direction he wanted to take.

**WBCN/Boston** past present and future sports honchos pictured at a field trip to the Baseball Hall Of Fame.

**CHRYSALIS TEAM CHANGES**

In a recent announcement, Chrysalis VP of Promotion **Daniel Glass** spread out the new faces in his line-up. The man on the scene in Chicago is **Victor Lentini** who gets the Associate Director of Midwest Album Promotion nailed above his door. Victor, whattaguy, I remember tearing up the suites in Dallas with him at the R&R Convention. This guy is top notch but we're talking zero eye-hand coordination. Glass told NOISE, "**Kevin Sutter** has done an excellent job in the last four years breaking Chrysalis artists. Kevin now expand that base with the expertise of a grass roots promotion person like Victor." In his new capacity Victor will report to **Greg Thompson**. "Mr. Midwest" we like to call him. Other new guys in uniform are **Brad Moss** is given the Southeast turf while **Ron Carter** works a little up the coast in the Upper Southeast region. Also new to the label is **Bruce Marek** who will be working the Central region out of Cleveland. Looks like more new muscle for those hard chargers at Chrysalis.

**YOKO NO-NO**

With the **Albert Goldman** expose' on **John Lennon** still smoldering in the pages of two People broadsides, **Yoko Ono** has decided the time to act has come. Calling on her old media mouthpiece **Elliot Mintz** to conduct the coast to coast response. Yoko will hit the air, dredging up some closeted interview tape with John to "answer" the charges being circulated in Goldman's inflammatory bio. Westwood One is handling the broadcast and it will be interesting to note how the public reacts to anything from Yoko at this juncture. Let's face it, she doesn't exactly come across like a bliss-babe for Mr Lennon during his torturous middle years. John's struggle with drugs was fairly evident to anyone who was witness to his LA excursions and that return-to-the-womb hermit action is so rife with psychological implications that it beggars comment. We all knew that "Cold Turkey" was more than mere allegory, didn't we?

**KENDALL'S CAN OPENER**

Credit **Charlie Kendall** with keeping my phone busy these days. First we heard that he was taking on afternoons and the PD chair at **WYSP/Philadelphia** and now the buzz is that he is the guy to pilot **Lee Abram's** new Z-Rock battlecruiser. If so, Charlie will be arming for the struggle with **Fred Jacob's** new "Edge" format and whatever **Rick Carroll** and Associates throw at him, (see NOISE). Although it sounds like the approaches of these new format offerings will be dramatically different, they will be gunning for the same essential demo coalition and that could prove interesting when their paths cross in a market. How nice, another way to burn an acid hole in the stomach linings of all those little old lady type GM's. I love that stuff. Anything to drive those room temperature IQ's out of the front office. We're talking format survival here and nothing gets those bush league brains in a ferment than having to make a real decision. It will be fascinating to see if this buzz on Kendall is correct. If it is, look for a big move out of Dallas to bolster the airstaff with some bankable talent.

**MJI GOES DEAD**

The MJI syndication company tells us that they have picked up the rights to a show formerly known as the "Deadhead Hour" and have made it the "Grateful Dead Hour". Producer **David Gans** has been working the ground for a year now and the MJI guys take over a proven and enjoyable feature of the genre. The show is currently running on **WXRT, WHCN, KFOG, WMMR, KLSX** and **WNEW**. "We're pleased to be distributing what is already an enormously successful show", said company President **Joshua Feigenbaum**, "and proud to add it to our AOR line-up."

**ATLANTIC ACES GET THE RIBBON**

Word out of Rockefeller Plaza is that a pair of Atlantic field guys have been singled out for their fine work work down in the trenches. Getting the Promotion Man Of The Year Award is **Jeff Appleton** who is currently working out of Detroit. Jeff is a man's man and his record industry experience includes work in Buffalo, Kansas City and St Louis. His power blocking is nothing compared to his help on the give and go. The recipient of this year's Rookie Award is none other than that old charmer **Mark Rose**. Mark has nailed down his share of airplay in the great and green Northwest since joining the label and his star is just beginning to shine.

**HUMAN RIGHTS NOW A SHOE IN**

Reebok has been doing a pretty good job of sponsoring the Human Rights Now tour without being too exploitive about it. Aside from their print sponsor line, they have really been very good about sitting back and letting the situation develop on it's own. Now, however, the company has asked all the talent involved in the tour to wear their shoes when on stage for the show. There is nothing in print that can require the artists to comply but, who knows, it just might happen. Talk about enough film footage for the next year's ad campaign. Just add water and stir.

**WKLS/Atlanta** were welcomed with open arms by a roving Reg recently. Here we see PD **Bill Pugh** and his wife **Linda** making an Elton sandwich.

**PIKES ON THE PROWL**

When **Bruce Moser** drops by it is always just two steps ahead of some caloric time bomb. Whether it's those justly infamous Buffalo wings or the decadent sugar and glue cake that he brought us last time out, you always know that a meeting with Moser is the stuff that liposuction was made for. Recently Bruce swung down with **Frazier Hill** the manager of the Northern Pikes and an advance CD of their album "The Secret Of The Alibi". Their initial release netted quite a bit of airplay and since that time they have been out on the road playing something like 250 dates in the last year. It's obvious that all the touring has had it's effect when you listen to the new album. What was an intriguing band has become a tight hard rock and roll band with a sense of lyrical direction that shines throughout. There's no doubt that the Pikes have molded themselves into a new a dynamic outfit tailor made for the format right now.

**KSHE/St Louis Morning Zoo members** pause in amazement on their way to the twinkie vending machine.

**HAHN JOB**

**Jessica Hahn**, silicone and scalpel seductress, joined the morning show at Phoenix CHR Y95 on a 30 day trial contract that is seen as a programming spike for the current sweeps. Market observers tell us that the show has been pretty low key, with Jessica relegated to weather and some non-offensive tidbits. Too bad. I would have her down at the local college men's dorm doing interviews in the shower room or reviewing X-Rated movies while the soundtrack is used as a bed. Jessica is reported to be making good money on the deal but it's reasonable to guess that those film scripts haven't been exactly steamrolling her door down. You'd think that after bringing the Bakker Empire to ruin and blowing through the Playboy Pad like a press mad vacuum cleaner, that she would knock down something a little more juicy than the toast and jam shift at some Top-40 station.

**BURNS BUFFS UP**

Look for **George Burns** to hit the boards a lot in the next few months. First he will be at the NAB in DC where he will conduct a day-long seminar with King Broadcasting, then it's off to Phoenix and a management session with Summit Broadcasting and then up to Portland for a meeting with the Washington State Association of Broadcasters. Look for George to continue work on a new book that should also prove very interesting.

**WFNX/Boston** was treated to some thumb strummin guitar when Jules Shear dropped by. Pictured are WFNX's Michael Bright, Jules and IRS' Karen Lee, WFNX's Bruce McDonald and Dan McClintock.

**THE RADIO RUMBLE**

**KROQ/Los Angeles GM Tony Berardini** called to inform us of a change of scenery at his station, "Rick Carroll has taken an indefinite leave of absence from the station. Van Johnson is now the PD and Larry Groves is now APD and MD." A call to Larry netted this quote, "Expect more of the same. It will be business as usual", which reads no substantive changes are expected at the cutting edge SoCal giant. Despite all these moves we are informed that Rick is still very much under contract to KROQ and Infinity Broadcasting. When we talked to Rick he was getting casual beneath the palms, a pitcher of iced tea tinkling in the background, "I have chosen to form Rick Carroll and Associates and offer a new version of Rock Of The Nineties to the marketplace. This format will not be a carbon copy of KROQ but will skew hybrid with CHR or AOR depending on the market situation. We are definitely going to make a maximum effort to customize this approach for clients on the AM and FM band." What about that buzz I hear that Rick is working on the ultimate rock and roll radio station screenplay? "That's another factor also, now that the writers strike is over we want to get back on track with that project as well. My desk is on the patio with the beach spread out in front of me. Believe me, this is a move I am very happy with." Gee Rick life is really a bitch ya know? He can be reached at his new phone (213) 456-5108 or at his ultra cushy address, 22766 Pacific Coast Highway #G, Malibu, CA 90265.

**WSHE/Miami** named **Suzanne Adana** to the MD post at the station this week. Suzanne had worked at WDIZ/Orlando for two years and prior to that she had clocked in at WYNF/St Petersburg for a few years. A real Florida type gal eh? "Not really. I'm from Pennsylvania and a real Northeasterner at heart. Things just sort of broke big for me down here."

**WAAF/Worcester** said ready, steady, go to 107 listeners with their little shovel and pail. Among other things dug up were \$5,000 in cash, a caribbean cruise, a new Probe, and a few objects we'd rather not mention because of the presence of minors.

**KFMZ/Columbia** named **Mike Stapleton**, (formerly with WAPL), as their new PD. Mike steps in for Rick Jeffrey who had been with the station for six months. Congrats to Mike on this big move to Program-land.

**KZEW/Dallas MD Jimmy "The Saint" Christopher** is among the departed. No, nothing like that. He's just out there on the sidewalk of life looking at some stuff to sink his time in. We look forward to seeing the man back in action soon.

**KGB/San Diego** teamed up with Michelob for a huge "Sky To The Streets" spectacular. The 13th Annual KGB Skyshow will attempt to cover up the tragedy of an Atlanta/Padres matchup with a fully sound synched fireworks display. The station will broadcast the soundtrack while thousands of sun crazed locals roll around on the ground and scream for mercy when those high intensity lasers kick in. Following that onslaught, the Michelob Street Scene jumps up and smacks the town with a huge music festival incorporating a rainbow of artists and musical styles.

**HIPPIE HEADSHOTS**

This time out we have a cameo from Caribou Ranch circa May of 1976. Check those Frye Boots and casually groovy belt buckles. From left to right are Columbia's **Paul Rappaport** and **Mike Pillot**, Epic's **Harvey Leeds** and **Mike "The Feather" Shavelson**, Columbia's **Gil Colquitt** and Epic's **Jim McKeon**. Scope those WLIR T-Shirts, the gentle slope of body language from hell and run don't walk to the mailbox to get us your very own Hippie Headshot.

**WKDF/Nashville MD** David Hall is out the door at the station after being a pillar in the market for eight and a half years. David told the ubiquitous NOISE team, "I am very proud of what I accomplished on air as MD and APD during this long tenure at one of America's best radio stations. Having been my home away from home for so long and it's staff like my other family leaving 'KDF is difficult." When we asked David what motivated this surprising change he told us, "The situation here has become such that I am unable to fully use my talents and therefore I am unable to reach my potential. GM Steve Dickert and I have had numerous discussions about what direction my career should take and we both realize that I must leave in order to grow." What's next David? "Well, during my years at 'KDF I have worked with and learned a great deal from some of the nation's leading PD's and several of the best consultants and research specialists out there. I am sure there is a station out there somewhere that needs what I can bring to it." David is looking for an MD or APD opening in a medium to major market station or perhaps PD at a small to medium market." While David sorts out his options he can be reached in Nashville at (615) 366-9043. No replacement has been named but expect an announcement shortly.

**KAZY/Denver** snags a new Research Director. Her name is **Mary Beth Morrison** and she slides in for maximum phone duty with Andy and his Rocky Mountain boys.

**WWRX/Providence** has picked up **Artie James** from **WHJY** for some weekend and swing duty. Artie joins up with the squad for some renegade radio work and all the french fries he can put up his nose.

**WRCN/Long Island** raised a sock of cash recently for MDA. Just like the Beatles playing atop the Apple Headquarters, just like U2 in downtown LA, these guys braved the rigors of a remote from the peaks of a local 7-11. Good Tom, you're gonna need all the positive press you can get once Marrone and I hit the air. You won't even be able to cash a check when we're done with you.

**WPYX/Albany PD** Ed Levine is definitely Texas bound. Look for Ed to get behind the wheel at **KLOL** and drive the puppy right up the collective market's wazoo. No word on Ed's replacement at **PYX** but we have our fingers crossed for **John Cooper**. That leaves a jock position open at the upstate burner so get your T&R in the mail. Look for our interview with Ed following this issue of Industrial Noise for more.

**KGON/Portland** night jock **Tom Naumann** has jumped to the newly building **SMN Wave** team. Jeff hops into those earth tone loafers and settles in for some lifestyle programming while **Joe Casavetti** steps in to replace Tom.

**WHTQ/Orlando PD** **Gerry Cagle** is out and it looks like **Burkhart** and **Douglas** are in. No name floats to the top as **Gerry's** replacement but we anticipate some moves in that direction in the near future. For **B.D. & A.** this return to the market follows on the heels of their parting company with market dominant **WDIZ**. Should be interesting to watch this one develop.

**KICT/Wichita** need artist ID's to spruce up their 10th Birthday Party. This is it, the big stagecall. Get your struggling acts down to the studio and remember the copy reads **K-I-C-T**.

**WAQX/Syracuse** got up close and personal with Whitesnake's David Coverdale recently. Seen with the guy who strokes Tawny's thigh are Turk Baris and Meg Stevens.

**WWCT/Peoria** tells us they are looking for a new morning talent while they shake things out after the dismissal of MD Paul Nelson. PD Phil Manicki tells us that he may or may not hire a new MD but the real priority is that crucial morning slot. "Have people send me their best T&R immediately if not sooner", said Mr Manicki when we called. Good station, great sound, strong team effort... so get it in gear.

**KRQU/Laramie** gives that MD crown to morning drive maven Rachel Wild. The station shuffles around as a result and Kent Johnson is made Station Manager just to keep things lively up north.

**KSHE/St Louis** juked the Christmas season by a few when they shipped us a huge box reassuringle stamped X-Large. Inside was a cornucopia of sweat shirts, hats, T-Shirts and all manner of promotional paraphernalia. The station puts out a new line of "Schtuff" twice a year and the execution and product quality was strictly A-list material. It's a sad commentary when I get more free wardrobe from radio stations than I do record companies, but I guess it's a sign o' times. I know that many other trade "hacks" like myself can rarely be seen at a convention without sporting some form of KSHE wear. Jim and the team in old Saint Loo have done a great job of saturating the marketplace.

**WPYX/Albany** afternoon driver Grego pictured backstage with Rick Nielsen before a Cheap Trick concert.

**KJJO/Minneapolis** PD Scott Klohn has been let go in a move we are still following. Seems like Scott got yanked due to differences with management. No official announcement or replacement has been named yet but that won't take long.

**KACV/Amarillo** named morning guy Dave Kilburn their new MD when Brian Frank jumped ship for KATP crosstown. No new music hours are reported yet, we'll let you know.

**KTWV/Los Angeles** PD John Sebastian informs us that he his shopping for airtalent. T&R's from interested New Age talents should be directed his way as soon as humanly possible. Best of luck you sprout-heads.

**WJXQ/Lansing** needs a MD who can pull down an airshift as well. Get your package in action to PD Mark Stevens at 2900 Shirley Drive, Jackson, MI 49201.

**WAQX/Syracuse** celebrated their 10th Birthday with a little old hoedown featuring Lynyrd Skynyrd and the Rossington Band. Before that 95 lucky listeners were invited to the private party at the Hotel with Lynyrd Skynyrd. The MCA team did a superb job of making everything right at the station worked it's little butt of as well with a barrage of promotional tie-ins that left the town unconcious and bleeding. Nice to see some rockers with a still functional party instinct.

**WZBH/Ocean City** PD Steve Becker is out after a brief fling with the station. No word as to his replacement or Steve's plans at the moment but we'll stay in touch.

**WAPL/Appleton** needs an afternoon drive artist with big production moves and some four track experience. The team is one of the best so get that work reel and aircheck to Garrett in top speed.

**WYNF/Tampa** got next to some of those Little Feat type dudes when their show hit town recently. Pictured are Charlie Logan with Featster Sam Clayton, WB's Charlie Foxx and Paul Barrere.

**CFOX/Vancouver** secured the services of Loverboy bassmaster Scott Smith for some left of center night patrols. Seems like Scott had always wanted to be a jock, barring that, a vet would have been nice. Look for him to hit the air in the first week of September.

**WPHD/Buffalo** solved their PD dilemma with word that Ken Carson, formerly of WHJY/Providence and most recently a veteran of KHTZ/Reno, has stepped in for duty. Ken grabs the station at a time when they have pulled their current commitment for a full bore Classic Rock orbit.

**WCMF/Rochester** picks up Kelly A. Christ as Promotion Director. Kelly had previously worked in a similar capacity at WBBF across town. With Mark Ellis stepping into those vacated Production shoes, Marc Cronin signs on as their new night time guy. About the moves, PD Stan Main thumped his chest, "We are extremely pleased to have the addition of Kelly Christ as Promotions Director. A long term goal at WCMF has been to develop the finest line-up of "true" on-air personalities in Rochester and to provide the staff with a top-notch team of promotional and production support." Whatta guy! It makes me want to get out that Portugese Naval uniform and give the world a Twenty-One gun salute.

**KOME/San Jose** hand picked their new GM from the heart of the KOME sales department. David Baronfeld is the new guy in the cockpit his work as GSM at rival KOME can't help but add fuel to the fire raging in that market blitz.

**KRIX/Brownsville** PD Dave Conley steps down in almost record time to concentrate on his morning show. Coming in on a wing and a law degree is Dave Heyman, a former staff member who had been working the Law School angle most recently.

**WHCN/Hartford** picked up a promising Promotional talent recently. Sal Cirrincione came over from WRKI/Danbury where he had done much to inspire a genuine awe of the station's classic Ford "Cruisemobile". Car to the Gods and object of my off the scale auto-eroticism.

**KDKB/Phoenix** called to inform us that their music hours have changed. You can now reach Jerry Tuesday from 3-4pm, Wednesday between 1-4pm and ditto Thursday. Call up Senor Trujillo and see if it's true what they say about Jessica Hahn. That she jumped a cab after one of her morning shows and was last seen leading a parade of drunken Shriners dressed in goat skin. Could be a scoop.

**KCAL/Riverside** is in need of support personnel for their morning show. They are looking for a soft news/lifestyle anchor and someone who can pull down sidekick duties. That's two, two, two jobs in one. Get that T&R to Dana Jang right now.

**WGIR/Manchester** prided themselves on being the first station in the country to hear the new single from Winger. When the Winger named Kip showed up to pat 'em on the back and tell tales about life on the road and getting french fries stuffed up your nose it was a rare and photogenic moment. Unfortunately the shot wouldn't transfer properly in our printing process so you'll just have to imagine their happy faces in that picture. Kip had really good teeth too, but then what else would you expect from a guy named Kip?

**WBAB/Long Island** getting religion with members of the Bible when they stopped by for a little on air action and some musical dispensation.

**KITS/San Francisco** morning host Alex Bennett will be suiting up for some time with All-Pro 49er Randy Cross in the studio. The sports bites are easy to arrange and a perfect way to push along the awareness of the listener.

**JIM TRAPP**

**JOBLINE**

**WKLC/Charleston** wants a new morning co-host. Candidates should be able to handle news. Get your T&R's to Duane Doherty, 100 Kanawha Terrace, St. Albans, WV 25177

**WZZQ/Terre Haute** needs an all night nemesis. Someone who can make the competition plotz with one break. Get your T&R to Steve Kosbau, 1301 Ohio St, Terre Haute, In 47807

**KBPI/Denver** has a rare night opening for a hip rocker who has the stuff to join the leading AOR station. T&R's to Gabe Baptiste, 1200 17th St # 2300, Denver, Co 80202

**WTPA/Harrisburg** needs a co-host for a well established morning show. Females are encouraged to apply. T&R should be sent to Jeff Kauffman at Suite 205 Westgate Mall, Bethlehem, Pa 18017

## LEVINE MAKES THE LEAP TO KLLOL THE HARD INTERVIEW

Ed Levine has been knocking 'em dead in the Northeast for years now. The man is well known for his fighter's instinct and a track record of success that most guys can only watch go by in amazement. Now he is taking aim on the Lone Star state and a heritage AOR that, on first appraisal, would seem airtight to begin with. I mean, the station has a lock on the format and their strengths appear bulletproof. But, much like the WEBN's of the world, KLLOL has made a strategic choice to expand beyond mere demo dominance. They are going to get what GM Pat Fant calls their, "unfair share", and to do that they have to start thinking about ways to expand their impact in the market. Bringing Moby down home was part of their attempt to build the baddest airstaff in Tejas, their promotional savvy is blue ribbon already, the new music mix is a breath of fresh air and now they have, (shudder), the Syracuse Strangler, the Albany Armbreaker, Ed Levine. Look for this little picnic to grow into a full fledged market war almost overnight with Levine doing his best Napoleon bit at the center of the action. The Hard Report got next to Ed before he left for an extended house hunting expedition. What follows is a conversation with one of the format's true All-Stars.

**JT:** Things are pretty exciting right now I would think.

**Ed:** You got that right. All your life you wanna do something that really sets the biz on it's ear, real front page stuff. This sure looks like it to me.

**JT:** Was this job offer a surprise or had you been working on it for a long time?

**Ed:** It's all been pretty surprising actually. I and WPYX had verbally agreed on a contract and the paper was being worked on by the lawyers when Pat Fant called and laid the situation out for me.

**JT:** Where did you know Pat from?

**Ed:** We had met at a few conventions and shared some similar perceptions about the format and how things get done in this business. Pat invited me down to Houston and while I was trying to figure out how a Jewish boy from New York would survive it just sort of happened. I mean, I fell in love with the city. It's a wonderful town and Pat is a very progressive GM. It's rare to find a guy who worked his way up from the studio to the front office who is still so totally in touch with the product and the positioning of the radio station.

**JT:** Do you feel any remorse at leaving the people at WPYX?

**Ed:** Oh yes. As a matter of fact I feel a tremendous twinge about leaving the station. I don't think I will ever be able to repay what I have taken out of this organization. From the upper management to the airstaff I have learned so much that I am really a different person from when I got here. I will be forever indebted for the growth I've experienced here.

**JT:** What have you learned Ed? What's the one thing that your time at WPYX really nailed home?

**Ed:** That there is a time and a place for everything. In the past my times and places got mixed up a little. Don't get me wrong, I'm every bit as aggressive as before and I really savor the big win but I waste less energy getting there. When you cut me open you'll still find a street fighter.

**JT:** Speaking of that killer instinct, I understand that you got Stern's Emmy for best on-air confrontation.

**Ed:** Howard called me on the air the other day to award the prize and that's when I announced my move to KLLOL. I also offered Howard a weekend overnight position but he hasn't got back to me on that.

**JT:** You'll still be working with Burkhardt and Douglas won't you?

**Ed:** Yes. I have a well established consultant relationship and while the end result at WPYX and KLLOL will be very similar, in that we will want to be a dominant adult station, we will get there by very different paths.

**JT:** How will the approach differ?

**Ed:** First things first. I'm not arrogant enough to think that I can just walk in and transform the station overnight. I must reduce myself to the priorities of KLLOL and then use my expertise to take the station to a new level.

**JT:** I don't see you as a coaster PD Ed.

**Ed:** Well, I'm not exactly a maintenance kind of PD.

When I came to WPYX we had a 9.5 and everybody thought the mountain was behind us. I came in and listened to what was going on, maximized potential and pushed the station into double digits fairly quickly. So, no I'm not going to just sit back and take it easy.

**JT:** Who is going to help you achieve the new set of goals you have at KLLOL.

**Ed:** Among others, the marketing that Doug Harris is doing with the station is unbeatable. All we have to do is add one or two little wrinkles and the station is well on its way. I'll just be the captain of the ship and do my best to land this 747. The station doesn't need someone to wreck the stew. The people that are there mesh very well together already but my expertise in marketing and research should help enhance the product.

**JT:** KLOL has become a fairly new music oriented station. Do you see that as a strength?

**Ed:** Absolutely. One of the first things that hits you when you listen to the station is the freshness of the music mix. In fact, I would go so far as to say that there is room to be even more diverse within the new music context. I am definitely not uncomfortable with the new music being played on the station and we should see even more being added.

**JT:** What about the "face" your station will present?

**Ed:** I have a pretty good ear for production and to take a station like WPYX that is musically conservative and add the element of craziness through production was essential to what we wanted to do there. Well, at KLOL the music is very exciting and the personalities are really out there so all we have to do is add that crazy touch through production and there will be hell to pay for every other station in Houston.

**JT:** The station has done a lot to give you some very spirited horses to work with. That airstaff is high altitude stuff. How do you view that aspect of the new job?

**Ed:** Having dealt with Mason for the past two years, I've experienced what it means to deal with high profile personalities. I think the people here at WPYX respect me and some even like, although they might not want to admit it. With KLOL it's a matter of harnessing all that great talent. They want to know that their PD is on their side. Someone who is supportive and will go to bat for them like any good manager or coach would

do. I like that relationship and look forward to it. This staff is incredibly talented so the basics are a given. It's just a matter of working on a different level to deliver the best product you can on the air.

**JT:** In Houston radio the key to breaking out of the strict performance parameters of the format into a larger success will be the ability to take on the CHR's. How do you see that battle sizing up?

**Ed:** Taking on CHR stations is a matter of knowing how to follow the mood swings of then audience. The fight with with the CHR's takes place on a song by song basis. It's important to be on them and off them at the right time. But more importantly, when an AOR beats a vibrant CHR it usually has more to do with marketing and promotions than any other single aspect of station operation. In my dealings with Doug Harris he seems to be the kind of guy that wants to win as much as I do. He is already a major player in the industry and some of the things that have been coming out of his office are nothing less than brilliant. With Pat and Doug and our airstaff and now myself in harness, it's a really scary combination of talent.

**JT:** Should the Ed Levine watchers in the format start trying to guess what you're going to do next?

**Ed:** Not really. That would probably be a mistake. I think that what I did here at WPYX should not be considered a harbinger of what will happen at KLOL anymore than what WAQX meant regarding what we eventually did at WPYX. The number one attribute of any station that I am involved in is that it should be playing what the people want to hear. Listen to the luster of the airsound at KLOL to know that they are on to something with this current intensive mix. Now we will count on airplay and promotion to take the station to a higher level. I have no preconceived notion except that I am going into a great heritage radio station. Everything else is negotiable.

COCTEAU TWINS  
BLUE BELL KNOLL

**Cocteau Twins "Blue Bell Knoll" (4AD/Capitol)** The aura surrounding The Cocteau Twins is one of freedom of expression, making luxurious sounds using unconventional methods. The innocent and abstract interpretation they build upon is only the beginning of understanding a band like no other. The essence of the group is made up of Liz Frazier on vocals, guitarist/producer Robin Guthrie and Simon Raymonde on bass. With meticulously programmed percussion that usually lands in the form of waltz, they fire up fuzzy distortion and beautiful white noise to serve as a backdrop for unexpected guitar patters and Frazier's siren-like voice. She sounds at times like a pixie, or an angel depending on what octave she sets out to conquer. The results are hypnotic and out of this world as she wears every note on her sleeve. Intricate phrases, scattered combinations and a concentrated effort on perfection make The Cocteau Twins an invaluable listening experience. It's a welcomed breakthrough that their music will now have major label support and the timing could not be better. "Blue Bell Knoll" is a mesmerizing album not to be overlooked for its blue ribbon excellence. Picking songs is strictly a matter of personal taste: My favorites are "Cico Buff", "Suckling The Mender", "Carolyn's Fingers", "Athol Brose" and "A Kissed Out Red Floatboat".

JON ASTLEY: The Compleat Angler

**Jon Astley "The Compleat Angler" (Atlantic)** Returning to claim his rightful place as the next master of musical mind games, Jon Astley steers clear of the sophomore jinx on "The Compleat Angler". When you combine his personality, wit and charm into newfangled songs of this caliber you really can't go wrong. Not only is Jon's attitude as fresh as the music, but his straightforward and clever lyrics will get you every time. He knows how to catch you off guard and even make you blush to the new single "Put This Love To The Test", sporting an innocent yet devilish delivery that obviously shows his sense of tact. The real deal addressed in "But Is It Commercial?" makes you spin around aF3 play it again just to make sure you catch the line, "I don't want to be Bowie, I don't want to be Byrne, but I will borrow from them because I've still got plenty to learn".... "I'll Show You Bastards" launches off with a chunky saxo-chorus and guitar play that makes those words sink in deep. The funk fueled rhythm in "Don't Talk To Strangers" moves with a major groove, along with other album highlights "Been There, Done That" and "The Menu" (great double entendre). The sleek production and less-is-more punctuation gives the music even more impact, and paves the way for his crafty, intelligent approach to pop sounds. Jon Astley creates modern music of class and distinction, and if he keeps up it could turn into something of a modern day Captain Fantastic.

Banshees are one of Britain's premier post-punk pop groups to remain solid after many bands of the era dissolved. Siouxsie's striking presence in every aspect of their performance is the focal point of a band that has undergone change but remained consistent in the hearts of its followers. Not only are they due for a second singles compilation, but it seems that The Banshees are about to head into the third stage of their career. It's hard to determine if "Peep Show" is their best release to date, but it certainly shows them at a curious and perplexing stage. Introducing a wide variety of sound effects they create a new visual dimension. The songs travel a winding path diving into the depths of human psyche, only to sink sharp hooks in and drag you back up with a mischievous grin. "Peep Show" gives you a taste of the many facets of the band weighing most heavily on haunting texture surrounded in a black mood that once uncovered, presents one their strongest releases to date. "Peek A Boo" sent a shock wave of curiosity through the alternative radio audience, making it the #1 single even before the album release. But discovering the rest will find you running in new directions with the band, from the country western edge in "Burn Up", to the quivering voice in "Raw Head And Bloody Bones", the dark loneliness of "Scarecrow" and the sinister whirl of "Carousel". For those who stick to the trademark Banshee sound, realize that the jangling guitar elements are still with us in "Killing Jar", "Ornaments Of Gold" and "Turn To Stone". The biggest surprise is "The Last Beat Of My Heart", a warm, riveting ballad that reveals a softer side of Siouxsie that stays with you until the curtain falls.

**NEW RELEASES**

**The Dream Syndicate "Ghost Stories" (Enigma)** The big, humming guitar sound of The Dream Syndicate was one of the first sound connections made to the desert rock family of rock bands. They soon established themselves in L.A. as the kingpins of the genre and set out to release several albums and Eps that were heralded by the music press and alternative radio alike. When ex-45 Grave guitarist Paul Cutler added his guitar genius to the group, original member Steve Wynn's creation seemed to come to life even more than ever. Produced by Elliot (Neil Young), Mazer the group is poised for greatness on their strongest showing yet. "Loving The Sinner, Hating The Sin", "Black", "The Side I'll Never Show" and "I Have Faith" leap out of the swirling mix of finely produced western/garage guitar edge. This is one story that could be their best seller to date.

**Lloyd Cole And The Commotions "Mainstream" (Capitol)** Lloyd Cole has been so close to gaining a foothold at commercial radio, with college and alternative support piled high in his favor all along. There is nothing out of the blue about this band. However, The Commotions are becoming one a modern success story for writing unforgettable pop songs fronted by Lloyd Cole's unique vocal style. Finally available in the U.S., "Mainstream" marks a return to melody with polished guitar licks and even a brighter outlook. Laced with keen rock sensibility that draws from strong mid-tempo origins, the trademark sound saturates every song. "My Bag" starts off with perky momentum, leading to "From The Hip", "Mister Malcontent", "Jennifer She Said" and "Hey Rusty", which are all outstanding. Let this album serve as reassurance: This is one critically acclaimed outfit that is not about to give up. Just listen and don't wait for the mainstream.

**Jane's Addiction "Nothing's Shocking" (WB)** Beginning a long reign in the realm of progressive radio, the new album by L.A.'s Jane's Addiction packs enough manic power to light up the city and beyond. There is no doubt that this is the freshest sound to come out of that region and the American rock scene in general all summer. "Nothing's Shocking" is far from half baked, it's char-broiled, rockin' to goodness music for the senses and everyone should spend time with tunes like "Jane Says", "Ocean Size", "Had A Dad", "The Mountain Song", "Idiot's Rule" and "Pigs In Zen".... Patrick Ferrise at WWVU says, "Jane's Addiction gives our playlist punch!".... WBNY's Gina Galli declares, "One of my favorites!".... KUNV's Brett Green fires up, "I've been working for days on a quote for this band! This is the only band in the world you can experience. I don't usually promote records, but I will now. They are the most exciting, innovative and talented band of the 80's. I've been waiting so long to here a sound like this - and here it is!".... Most Added status this week and increased rotation at KRCK, KUNV, KUSF enter the album at 28\*.

**John Hiatt "Slow Turning" (A&M)** It looks like national radio is finally seeing the light, with 40 new adds this week including progressive play from WXRT, WDET, WCDB, WGTU, WNCS, WWVU, KJET, KCPR, KACV, KBCO, and WVV as they meet "Slow Turning" head on. It's a revelation that reaction is beginning to snowball, following crazed press and the devoted group of loyal supporters who have carried him this far. As American performers go, Hiatt leads the pack with honest songs that show his true color and talent. There is nothing to figure out, except that when you are faced with music of this quality you run with it.... Lin Brehmer at WXRT spills the beans, "From 'Slow Turning' to 'Paper Thin', these are songs that make most of the recordings we h%ir sound like puppy piddle by comparison".... KTCL's John Hayes adds, "He's a great artist for us. We had calls even before the album

was released! We get constant raves about his live performances".... Joined by his band The Goners, the album showcases Hiatt in peak form with added attractions like "Georgia Rae", "Trudy And Dave" and "Feels Like Rain".... New this week at 30\*.

**Hunters And Collectors "Fate" (I.R.S.)** Instant reaction to their most accessible album to date has Hunters And Collectors perched high upon the Airplay Chart at 6\* this week. Frankly, their showing on "Fate" is the piece to the puzzle that some people could not fit together. They are not just a rock band. The raw emotion and distinct sound of horns and tightly produced guitar compositions make each song sound like a single on its own. With at least five potential runaway tracks including "Breadline", "Wishing Well", "Faraway Man", "So Long Ago", "Something To Believe In" and the heartfelt ballad "Around The Flame" staring at you, isn't it time you really listened if you haven't received your calling? With music as strong as this there's no such excuse as 'taking chances'. Heavy rotation at WHTG, KTCL, WFNX, WOXY, KABL, KCPR, KJET, KUSF, WDET, WFIT, WRVU, WUNH, WUOG, CFNY and more lead the crossover to a Hard Hundred debut 99\* this week. Don't take them lightly.

**Transvision Vamp "Pop Art" (UNI)** An album aptly titled, Transvision Vamp makes no bones about tickling that Go Go/Blondie nerve and launching out to make a few new riffs of their own. How many times have you been distracted by the phrase, "Tell That Girl To Shut Up"? I would keep an eye over my shoulder too. But the real McCoy is their trashy, trendy guitar paces that carry that grit rock home at KROQ, WRAS, WRCN, WOXY, WFIT, WDHA, KJQN, WHTG, WFNX, WDET, WMDK, KACV, KFMH and 17 more reporters.... It's no surprise that Top Forty is bound to bounce on Transvision Vamp more sooner than later, but they did with Sinead, The Cure and Shriekback too - so don't hesitate.... Mike Summers at KJQN reports, "Every time we play Transvision Vamp we get reaction".... KMPZ's David Nall says, "The single is getting good response, and I also like 'Psycho Sonic Cindy'.... Kim Saade, WRAS reports, "It's huge this week, #2 phones. Reaction has been tremendous, the staff is crazy about it and the audience won't shut up!".... KTCL's John Hayes closes, "We getting a lot of response to this band. Their sound is real popular here and people are eating it up." Also try "Revolution Baby" and "I Want Your Love".

**Michelle Shocked "Short Sharp Shocked" (PolyGram)** Michelle is a young artist who has successfully bridged the gap between alternative and mainstream tastes regarding her style of music. A fine blend of country, folk, soul and a little bit rock and roll she stands out among all current groups in her own world of song. She delivers some of the best home-grown lyrics with a voice that's pure, intelligent and gentle, and "Anchorage" is the song that's taking the nation by storm on her studio album debut. So far, 52 Hard Reporting stations have climbed aboard including KBCO, WLLZ, WLAV, WBCN, WHFS, WKXL, WMDK, KACV, WNGZ, WXRT, KABL, WHTG, WNCS, WRAS and many others. New action on "If Love Was A Train" from KATT, KBAT, KPEZ, KYYS, WFBQ, WZEW, KATP, KISS, KLBK, KMOD and WFNX show that programmers won't wait on a good song when they hear it. Other standouts like "When I Grow Up", "V.F.D.", "Gladewater" and "Graffiti Limbo" will keep you spinning forever.... Scott Peterson at KFMH declares, "The production is great and the strong blues influence works well here. She's gonna go far - and she deserves the notoriety".... Ned Norton, WWRB says "Michelle Shocked is following similar to Tracy Chapman. Slow to start, it's now at the top of our chart".... Jamey Karr, KACV/Amarillo notes, "She's a Texas artist singing about Alaska but we love her anyway!"

The new album by the Huxton Creepers, "So This Is Paris", will be distributed on by Bigtime/PolyGram Records. "Rack My Brains" is the first single and their most commercial stab yet. Yep, could also be the best thang I've heard from these guys. Look for it. It's only a taste of a powerful-good album that is sure to break more ground than ever for Australia's other HC's.... The new **Timelords** single "Doctorin' The Tardis" is now available on TVT Records. Certainly an all out sing-a-long, dance-a-long extravaganza, its undeniable energy is sure to light your fire. Mixing Gary Glitter's Rock 'N' Roll with the theme to Dr. Who is one idea that didn't get by this group and it's time to tag along.... In the dig 'em up and put 'em on category: **James Deely And The Valiants** are a New Jersey based band who have released a single titled "Moving On" to a swarm of local press reaction and early airplay on WHTG in Asbury Park. It's a smooth blend of textured guitars that immediately rise up and remind you of early Chris Isaak but lend to a style all his own. **HEAVY HITTERS**

**RECORD OF THE WEEK**

**Winger, "Winger", Atlantic....** With Hard Hundred and Hard Hitters moves of 65-54\* and 8-5\* respectively as well as an AOR Album debut at 54\* this band is finally getting some of the recognition they deserve. This is probably the best commercially oriented metal record since the release of Dokken's last one and with MTV daytiming "Madalaine" there's no reason why this won't do at least as well. The response by metal radio has been phenomenal (just look at WHMH, who are already three cuts deep) and the technical and songwriting ability possessed by this band is astonishing. They have the hooks and the looks to take them all the way. WRTN's Matt O'Shaugnessey agrees by saying that, "...Atlantic has finally found it's next hot property in Winger." By now it should be obvious that this band is destined for greatness. For those of you who are already looking for that follow-up track, "Seventeen" has one of the strongest riffs on the Lp with "Time To Surrender" coming a close second. For those of you who like ballads, "Without The Night" is great but "Headed For A Heartbreak" is better and I don't care what anybody says, I still love that killer cover of "Purple Haze". (J.L.)

**Suicidal Tendencies, "How Will I Laugh Tomorrow When I Can't Even Smile Today", Epic....**

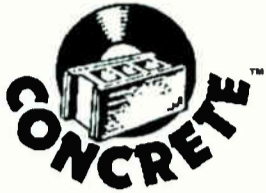

The first 12" from this Lp has been described by WRXK's Brian Medlin as being "absolutely bitchin'". It should be in heavy rotation on every station in the world". "Trip At The Brain" is the #4 Most Added Metal record this week (that makes their third week on that chart) and thusly earns their debut on Hard Hitters at 39\*. While that's not a very impressive number to some, just remember that the Lp, aside from having a very wordy title is just being released. While the lead track is an excellent cut, check out the B-side. It's an instrumental called "Suicyco Mania" and some of the guitar work is unbelievable. It incorporates everything from cool mosh beats to balls-to-the-wall thrash to mellow harmonic runs. The Lp itself contains nine other new cuts, ("Suicyco" is not included), and is, like "Trip", a departure from the hardcore days of old. It's more melodic than normal speed metal, but still retains just a smidgin of the band's original sound. Check out the tracks "Pledge Your Allegiance", "If I Don't Wake Up" and "The Miracle" as well as "The Feeling's Back" and "One Too Many Times". (J.L.)

**Ludichrist, "Powertrip", Combat....** Say hello to one of the most original thrash records in a long time. This band combines elements of jazz, blues, rap, soul, classical, speed metal and a crazy sense of humor to create a truly unique listening experience. Featuring the various talents of vocalist Tommy Christ, bassist Mike Walters and the guitar tandem of Paul Nieder and Glen Cummings, (drummer Dave Miranda has since been replaced by ex-Whiplash/Slayer basher T.J. Scaglione), the New York based band lyrically tackles such subjects as the 40-hour work week, pyromaniacs, suicide and censorship. Songs like the hilarious "This Party Sucks" (which features a blend of four distinct musical styles), and "The Tip Of My Mind" show off some of the band's melodic abilities while the brilliant instrumental rendition of Rossini's opera, "The Barber Of Seville" (abbreviated here as "T.B.O.S.") shows an amazing sense of harmony as well as an appreciation for the classics. Also listen for the backing vocals from the boys in Death. "Powertrip" clocks in at #3 Most Added Metal this week, don't let this one pass you by. (J.L.)

**Kix, "Cold Blood", Atlantic....** The teaser track "She Dropped Me The Bomb" did a steamin' job of bringing these Baltimore rockers to the attention of a good share of metal jocks across the nation. In fact, it's still crankin' on the airwaves of stations like: WBIM, WGIR, WHJY, WHMH, WHVY, KRSR, KNAC etc... as well as some new adds at WWRB and those AOR types at WWDC, who have 'em in a medium rotation. This week Kix continues its march up the Hard Hitters airplay chart with a healthy move from 28-21\*. So, now that they're established and comfortable, we get the first "official" 12" from the forthcoming Lp "Blow My Fuse" which ships on the 12th of this month. Now listen, metal heads, this is a much more mainstream oriented tune with a little less edge than you might have hoped for, but don't let it fool ya. It's still got the kick and all the rock and roll hook you need to get this record moving in the minds of your listeners. It has a really sticky chorus that floats around your head for hours on end and some firm and consistent musicianship all around. No frills, no surprises - just rock steady rhythms and that rowdy Kix beat. (C.B.)

**Liege Lord, "Master Control", Metal Blade....** Last year's "Burn To My Touch" was the record that set the stage for this group of melodic power rockers' climb to fame. Not only did they deserve to be considered for the "most promising band" award, but they also more than qualify for an "A" in persistence and determination (in the form of guitarist Paul Nelson). All spring and early summer Paul kept telling me about this record and how strong it was. He wasn't kidding. With new vocalist Joe Comeau sliding in and assuming frontman duties without so much as a quiver in his voice, it's no surprise that "Master Control" delivers on all levels. The musical interplay, guitar with guitar, bass with drums etc...combined with highly improved lyrics set this

record far apart from its predecessor. And it does so with 10 lethal kuts all worthy of your turntable pleasure. This album features some of Liege Lord's strongest work to date. It is cohesive yet diverse, which is probably the direct result of all five band members having some kind of input in the writing on the record. Also, having Terry Date at the knobs solidified the project with clean production and quality control. Trax to track include "Feel The Blade", "Kill The King", "Broken Wasteland" and the title cut. (C.B.)

**Jane's Addiction, "Nothing's Shocking", Warner Bros....** Everything is shocking about this record, especially when you consider the responses that are flying in from the metal community about it. No, they aren't your typical Los Angeles glamour boys, these guys are special. Not only do they rock with the intensity of say, Queensryche, but they do it in their very own unique way. Even so the comparisons between them and The Cult are being flung around fast and furiously. Jane's Addiction combine Beatlesque melodies and ethereal lyrics with a screaming wall of guitars, topping it off with some amazing vocal work. Killer record. And we weren't the only ones who were impressed by them. WVVS' Bert New considers this album "An excellent piece of work. The acoustic work especially, shines," while Chris Rennpage at WKNH thinks, "They're another cool band. A little strange so you have to be a little more open-minded to get into it. They sound like a cross between Guns N'Roses and Love & Rockets. Really good. I hope they make it big." This week KBER, KTEC, WGBW and WHUS got addicted, while WGIR and WRCN (#1) are already crankin' "Ocean Size", "Had A Dad" and "Pigs In Zen". Forget tried and true, go for an original. (C.B.)

-The first pieces of definite news have come in from **Chrysalis Records** regarding the recent developments in the **Vinnie Vincent Invasion** camp. Vinnie has (see Sal's music news for the other side's version of the story) left the band and will commence auditions for the formation of a new Invasion. The former members, **Mark Slaughter**, **Dana Strum** and **Bobby Rock**, will continue with a new guitarist, and with a new moniker and concept. Both bands will remain on the Chrysalis roster and the label will continue to push the latest 12", "Love Kills", which was just placed in medium rotation on MTV.

-**Enigma's** metal maven **Ris Happy Face**, (Clarissa Garcia), informs us that **Motorhead's** new release will be a live Lp called "**No Sleep At All**" and should be out soon.... **Laaz Rockit** will be releasing a new 12" which will include a cover version of the **Dead Kennedys** classic, "Holiday In Cambodia".... **Mass'** untitled debut Lp will be released "Januaryish" and was produced by Michael Sweet.... Finally, the **Stryper/White Lion** tour will begin at the end of September.

-The master musician and "man of 1000 records" (seems like it anyway), that guitar-god on high, **David T. Chastain** is at it again. Yes, the man is currently working on a new instrumental Lp due out, hopefully by the beginning of February. More info on this new project as we get it.

-We bid farewell to the **Z-Rock** that we and all our friends in metal-dom had come to know and love. Our best wishes are extended to **Boobie** and **Bill** for future success in whatever they do. Keep in mind with the changes that are happening at Z-Rock, stations like **KRSR** in Las Vegas and **WHMH** in St. Cloud are the hope for the future of metal on radio. More power to them. Let's give them all our support and keep metal rockin' on the airwaves of America.

-**Exciter** is currently in rehearsal for their upcoming world tour. They hit the road in their native Canada beginning in November. No word yet on whether they will headline.

Yes, it's that Magic Alex guy again. This time we see him in a virtual "State Of Euphoria" with Anthrax's Joey Belladonna. They were caught sharin' a brewski after a recent appearance in Las Vegas.

-**Roadracer Records** recently held a **King Diamond Look-A-Like**, photo contest with **WVX**. The ten winners received a "Mad Tea Party" with the King. The entrants had to dress up like the mad and pose in a shot with "Granny". These were just two of the many entries. Let's just say, there are some really scary individuals running around Chicago these days.

**THEY'RE HERE**

Here we see two big fans of the King preparing to sacrifice their twin pooches Salt and Pepper. I'm afraid to wonder just how Tea was that day. Let's just say that the guy on the right is a very happy puppy.

Bachelor #2 has offered up his actual grandmother, or so it would seem. So this is the "Little old lady from Pasedena" that we keep hearing about. Congrats to all of the winners and their Granny's, I hope they had a good time with "Them".

**METAL MUSIC NEWS**

Greetings to one and all from Metal Control Center deep in the heart of Queens. This is Sal "Earl Of Earache" Treppiedi with this week's metal news. This wee, we have the final part of our interview with Schmier from Destruction. We will also have a conversation with Mark Slaughter, former lead vocalist of the Vinnie Vincent Invasion, regarding the situation that took place there.

We begin with an item regarding the band Sweet. The Earl recently spoke with Mechanic Records' label president Steve Sinclair regarding the situation with the band. First, some background. The Earl reported not too long ago that the band had been signed by Mechanic Records. There was a big hoopla surrounding the fact that the pioneers of the glam movement were returning to the scene. The Earl recently learned, though, that the band may be experiencing some turmoil. According to our sources, the band was split in two factions. This was not denied by Sinclair. In a statement by Sinclair regarding the matter, he said that the Sweet "are in the process of reconciling internal differences. Talks are underway to bring the two factions of the band together once again. When it happens, the new record will be released". Sinclair also said that if the band does get back together, Mike Chapman, who was responsible for producing all of Sweet's hits, will produce the record. At this point, Brian Connelly owns the name. It remains to be seen if the band does get back together or is a new Sweet will emerge.

In other Mechanic news, the band has signed Majesty to the label. The band are hard at work at Philadelphia's Kajem Studios. This is the same studio that has been used by Cinderella and Queensryche. The producer will be Terry Date (Metal Church, Liege Lord and Sanctuary). Their debut album will be entitled "When Dreams And Day Unite". It is slated for a January 1989 release. Majesty features: John Petrucci (guitar), John Myung (bass), Mike Portnoy (drums) and Charlie Dominici (vocals). Majesty's music is described as Yes meets Pink Floyd meets Rush meets Iron Maiden.

Some congratulations are in order to very good friends of mine. First, to Carol Radel of Public I Publicity on her promotion. Believe or not, she was actually allowed to take a vacation following her promotion. Ida Langsam is either a very nice person or Carol is a shrewd and cunning individual. Just kidding, Carol!!! Also, congratulations go out to Faces magazine editor Greg Fasolino. Greg was recently married.

Two weeks ago, The Earl told you about an album being put together by the Make A Difference Foundation. The Foundation was founded by Bon Jovi/Motley Crue manager Doc McGhee. Apparently, the foundation is trying to become part of the glasnost that has taken place between the U.S. and the Soviet Union. How you ask? Soviet rock act Gorky Park will be contributing a song of theirs to the Foundation's hard rock benefit album. They will be performing a cover of the Who's "My Generation". Should prove interesting.

Z-Rock as we know and love it is apparently finished. The Earl has learned that Boobie Bondage and Wild Bill Scott have left. Lee Abrams has been named the network's managing director. Abrams was attempting to bring about a more mainstream version of Z-Rock which he called Radio Lisa. Now it is believed that the more mainstream format will be put into effect at Z-Rock. This means that there will be more Metallica, Megadeth, Slayer or anything like them, heard on Z-Rock. What a great shame. In the meantime good luck to Boobie and Wild Bill.

We have more details for you regarding the Vinnie Vincent Invasion situation. As many of you should already know, the group has disbanded. Bassist Dana Strum, vocalist Mark Slaughter and drummer Bobby Rock have split from Vinnie Vincent. Dana Strum and Mark Slaughter (and possible Bobby Rock) are going to stay together and form a new project. Slaughter is currently writing new material. Meanwhile, Strum will be producing a new album by the band Brunette. It will be a soundtrack for an upcoming movie. Mark had this to say regarding the situation, "From the beginning we were all lead to believe that we would be a band. But, we were slowly pushed into being sidemen. We believed in the songs, we believed in the record and we played it out 'til the very end. We left Vinnie on good terms and wish him the best of luck in all he does in the future. We especially want to thank the fans for standing behind us from day one and being so supportive." There you have it. We hope to be able to get a quote or two from Vinnie in the near future.

Now let's get to our feature interview. This week we have the fourth and final part of our interview with Schmier from Destruction. This week, we discuss certain aspects of the metal business.

**DESTRUCTION: PART IV**

**HR:** Do you think that tape trading is still important to most up and coming metal bands?

**SCHMIER:** Before, it was very important. Now, bands are getting signed all over the place by bullshit labels. Labels are throwing records right out the windows. The scene is just not there anymore. Bands would make a demo and they would be signed right after that. Before, our demo was around for quite a number of months. Everybody was buying it and it was a big hit in the underground. Now all those bands get a deal right away and there is no interest in tape trading anymore. It is really going down.

**HR:** What are some of the top acts in Germany now?

**S:** Everyone loves the American bands. Usually, it is Metallica and then Anthrax, Slayer and Megadeth. Speed metal is big. Testament and Flotsam & Jetsam are getting bigger too. Bands like us, Kreator, Testament and Flotsam are no longer underground bands, but we are not as big as Slayer or Metallica. Bands like Tankard are big as well, but they are still an underground band.

**HR:** Who do you think the next big band from Germany is going to be?

**S:** It's hard to say. A lot of bands in Germany try to sound too much like American bands. All the bands that are getting big are not speed bands. They are bands like Helloween, which I think is Iron Maiden on 45. There is not much heavy stuff. It is much easier for American bands to break through in Germany. You just need good promotion.

That will take care of our interview with Schmier from Destruction. I would like to thank Mike Schnapp at SPV and whoever finally got Destruction into the United States.

That will do it for this week. Until the next time we meet, this is Sal "Earl Of Earache" Treppiedi reminding you that although Julianne Phillips is filing for divorce from Bruce Springsteen, we still can't get rid of Mr. Death. Also remember that Oprah's name backwards is Harpo. MUYA!!!

-Sal Treppiedi

**Music Now!** is contributed by **Mike Cooper**. P.O. Box 4111 Atlanta, GA 30302. 404-627-2834.

**Midge Ure** has left **Ultravox**. Ure is about to release his second solo album. He says he doesn't know if the band will continue without him, but he believes it is the right time for him to leave the group.

**Level 42** will have a new album, "Staring At The Sun," out in a couple of weeks. **Mark King**, lead singer and bass player for the band, says the band spent the first half of this year writing the LP in Dublin, as well as touring with the band's two new members. "That was important, because it's not good to go into the studio cold," he says.

**R.E.M.**'s next album, the first for Warner Brothers, will be called "Green."

**Jimmy Buffett** is about to market his own line of Caribbean foods and sauces. Buffett has been working on the products, including a Caribbean sauce, a marinade, ketchup, a creole sauce, mustard and jalapeno mayonnaise at his kitchen in Key West. Buffett has brought in a cook from Guadeloupe in the Caribbean to help develop the line so that it can be in stores by Christmas. He's been talking with the firm that markets Paul Newman's salad dressing about his own product line. Buffett would give the profits from the food line to his Jimmy Buffett Foundation, which currently helps the organizations Save The Manatees and Friends Of Florida, as well as many environmental groups. Not surprisingly, Buffett's line will likely include a margarita mix, for those who want to be in "Margaritaville" (or perhaps get drunk and screw).

**Lou Gramm** is working on another solo LP.

**Jimmy Page** has canceled the first four shows of his U.S. tour because he's undergone abdominal surgery in London. That means that his Atlanta concert September 6 will be the opening tour date. **Jimmy Barnes** will be the opening act on the tour, which had been scheduled to begin in Tampa on August 31.

Former **Twisted Sister** member **Dee Snider** is working on a solo album.

**Julian Lennon** is recording his next album in Los Angeles.

**Fred Frith** has been in Montreal writing and performing the soundtrack to a Canadian film. "It's about a satellite dish salesman whose world starts to fall apart. He meets a girl and then strange things start to happen," Frith says. "It's a dramatic feature, but it's pretty funny." **Jane Siberry** contributes some vocals to the soundtrack, and **Anne Bourne**, Siberry's keyboardist, contributes cello and accordion to the soundtrack.

While he has three songs on the soundtrack to "Buster," **Phil Collins** is working on another solo album. Genesis colleague **Mike Rutherford** is also working on a new Mike & The Mechanics LP.

The **Nevada Supreme Court** has refused to hear an appeal on behalf of a Reno couple who had filed a libel suit against **Billy Joel**. A district court had ruled against John and Dorothy Powers, who filed the lawsuit because Joel called John Powers a "creep" and a "little schlump." Powers had filed a lawsuit against Joel claiming that "My ife" was based on one of his compositions. An out of court settlement was reached in that case.

Public Image Limited, **Big Country**, **Steve Hackett** and **The Leather Nun** are among the acts that participated in an international rock festival last weekend in the Soviet state of Estonia. Soviet bands, including **Dialog**, **Nautilus Pompilus** and **Zebra**, are also participating as are bands from Italy, Sweden, Czechoslovakia, Bulgaria and Finland.

A Japanese collector paid almost \$30,000 for a Mercedes-Benz owned by **George Harrison** at an auction of rock memorabilia in London. At the same auction, several items that belonged to **Sid Vicious** of the Sex Pistols, sold for over \$16,000, with the proceeds going to a children's charity. A hat belonging to **Jimi Hendrix** went for just over \$4,000.

**Grace Jones** claims that police dragged her and her two children from an airplane about to leave for New York from the Norman Manley International Airport in Kingston, Jamaica, because her boyfriend demanded that the pilot of an American Airlines jet apologize for flight delays. The airline denies her allegation, which includes the claim that the white pilot used a racial slur in addressing her black boyfriend, **Chris Stanley**. "The captain came out and said, 'We don't apologize to niggers,'" Jones explains. "Then they had 15 or 20 security men pull us off the plane." An airline spokesman says that Stanley leaped over a ticket counter and threatened a ticket agent before breaking a glass door and verbally abusing other airline employees.

**Pamela Des Barres'** "I'm With The Band" book may become a film. Actress **Ally Sheedy** is seeking a writer to adapt the book into a screenplay. Des Barres would serve as creative consultant in the film about her days as a groupie and says she'd like to do a cameo "as a wild creature from the past."

The Church's **Marty Willson-Piper** is planning a week of solo concerts next month on the east coast. He also plans to record another solo album in December, before the Church go into the studio for their next LP in February. "We never make our albums with much pre-production," Willson-Piper notes. "We just rehearse for two weeks before we make the album and write the songs then."

**John Lennon** will get a star on the Hollywood Walk of Fame on September 30, in front of the offices of the Beatles' record label. Yoko Ono, and Lennon's sons, Julian and Sean are expected to attend the ceremony. It will be the 1,877th star in Hollywood.

Playgirl magazine has printed its editors' choice of the 10 sexiest men in rock & roll. **Terence Trent D'Arby**, **Bryan Ferry**, **Michael Hutchence** of INXS, **LL Cool J**, **Richard Marx**, **John Cougar Mellencamp**, **George Michael**, **Bret Michaels** of Poison, **Larry Mullen** of U2 and **Robert Plant** were the winners, as listed in the magazine's August issue. "A true sexy rocker is a man who is all man," the editors say, "a man who exudes sexuality in his looks, his moves and his music and who seems willing to share all that with his female audience."

**George Clinton's** next album will be on Prince's Paisley Park record label.

**Tom Dowd** is producing the next album from the New Model Army.

Four rock concerts scheduled for Old Orchard Beach, Maine, were canceled at the last minute by the Town Council, because of concerns about noise and traffic problems. Concerts by **Aerosmith**, **Sting**, **Steve Winwood** and **Lynyrd Skynyrd** at a stadium called The Ballpark were canceled, reportedly because of residents' complaints about a **Def Leppard** concert earlier in the summer. The concert promoter sought an injunction against the town councilors, but was unsuccessful. The Aerosmith and Sting shows were instead held at the civic center in Portland, about 20 miles away.

**Jon Bon Jovi** says his band's new album was going to be called "Sons Of Beaches," but instead the group chose to call it "New Jersey." "We decided that we're just a rock band from New Jersey, so that's what we wanted to call the album." The LP will be out on September 19. The band again tested the album on an audience, as they had done with "Slippery When Wet," to help decide what tracks would be included on the LP. "We got about 50 kids in the studio and played them everything," Bon Jovi says. "We'd originally thought about doing a double album. That didn't come off, but we still had a lot of songs, so the kids were very helpful. There were a couple of

songs that wouldn't have made it onto the album without them."

The **Nevada Supreme Court** has refused to remove **Judas Priest** as defendants in a lawsuit filed on behalf of two teenagers who tried to commit suicide in December 1985 after listening to the band's music. One of the teens, Ray Belknap, was successful in the attempt. The other, James Vance, survived. While an attorney for the group argued that the band shouldn't be subject to Nevada laws, the court ruled that jurisdiction "is not unreasonable because the state has a strong interest in protecting its citizens from personal injury." The case is scheduled to go to trial in Reno on October 10. The lawsuit says the two apparently entered into a suicide pact after listening to the songs "Beyond The Realms Of Death" and "Hero's End" from the band's "Stained Glass" album. The suit also contends the hypnotic effect of the band's music encouraged this type of behavior. "While it is true that the members of Judas Priest will now be forced to defend a lawsuit in a country distant from their own, it is more equitable to place such a burden on them, and not the plaintiffs, because the band members consciously and deliberately chose to develop a worldwide market," the court said in its decision.

Europe's version of the **Monsters Of Rock** festival has suffered more problems, after the death of two concert goers at Castle Donington in Great Britain. Over sixty people were injured during rioting the night before the concert in Schweinfurt, West Germany. About 600 police were called in to end the four-hour disturbance, mostly caused by drunken fans armed with broken bottles and traffic signs. Police say seventy-eight people were arrested over the weekend on drugs and assault charges. There were 38,000 people at the Saturday show, though organizers had hoped to draw 120,000 to the event a couple of hours drive from Munich. The deaths in Britain are not expected to affect the future of the festival in England. The promoters deny that the deaths occurred because of the crush of the crowd, but Guns N' Roses' manager says the band decided to do two ballads to "try and defuse the crowd."

The **1988 Prince's Trust Gala** concert will be aired in the U.S. by the Disney Channel.

**Then Jerico** will have a new album out in England in October. Their last album was released in the U.S. about six months after its U.K. release.

The German classical record label **Deutsche Grammophon** has announced that, beginning next year, it will only issue new releases on CD. There will be no albums pressed, the company says, because so few are being sold, compared to CD sales.

**Billy Bragg** will have a new album out in the fall which will include his just-released British single, "Waiting For The Great Leap Forwards." The LP is being produced by Joe Boyd.

**Ozzy Osbourne** won't have to pay compensation for canceling a show in Nottingham, England, recently. The promoters had filed a lawsuit against Osbourne, but a court has dismissed the case and ordered the promoters to pay Osbourne's legal expenses.

**Duran Duran** have finished recording a new single, due for release in November.

**Bananarama** are planning to release a greatest hits album this fall.

**Robbie Robertson** has had a top 20 hit in England with "Somewhere Down The Crazy River." In fact, it's been a bigger hit than either of the two chart singles from The Band ("The Weight" and "Rag Mama Rag").

Sessions for the next **10,000 Maniacs** record will begin in upstate New York in October. Peter Asher will return to the producer's helm for the new LP.

The French **New Rose** label has released the second album from the Washington band the **Beatnik Flies**. The LP is called "Behind These Walls."

The **Everly Brothers** will have a new album out in the next couple of weeks. It's called "Some Hearts," and includes a remake of "Don't Worry Baby" as well as a John Hiatt song, "Single Solitary Heart."

A federal court judge in New York has ruled that the new version of **Lynyrd Skynyrd** should set aside \$450,000 because it is likely to lose a lawsuit over the use of the band's name. The estates of **Steve Gaines** and **Ronnie Van Zant** filed the action, and Judge Robert Sweet concluded that "there is substantial probability that plaintiffs will succeed...with respect to said claims."

The motor home carrying the **Charlie Daniels** band caught fire as the band was returning from a performance at the Ventura County, California, Fair. None of the group members were injured.

Keith Richards' solo album will be called "Talk Is Cheap." Drummer **Steve Jordan** and Richards co-produced the LP, which features **Mick Taylor**, **Bobby Keys**, **Chuck Leavell**, **Bootsy Collins**, **Waddy Wachtel**, **Ivan Neville** and **Buckwheat Zydeco**. The 11 songs on the album are all originals. The **Rolling Stones** are scheduled to go back into the studio next year to record a group album.

**Kenny Rankin** has released his first album in a decade, "Hiding In Myself." **David Crosby**, **John Sebastian**, and guitarists **Robben Ford** and **Steve Lukather** are featured on the LP.

**UK MUSIC NEWS**

The biggest world tour ever organized; **Amnesty International's "Human Rights Now!"** tour, begins at Wembley Stadium, Friday 2nd September. The human rights group was slightly embarrassed recently, when a domestic, smaller show in Milton Keynes had a poor turnout. What better vengeance than to strike back with a bill that includes **Bruce Springsteen and the E Street Band, Peter Gabriel, Sting, Tracy Chapman and Youssou N'Dour**. While Gabriel, Sting and Springsteen are old hands at the stadium game, it will be interesting to see how Chapman and N'Dour fare. It is expected that Gabriel will do some duetting with the senegalese artist, while Chapman has already shown a remarkable aptitude for pacifying the largest, noisiest crowds, with her short set for Nelson Mandela's 70th Birthday Concert; a testament to her mesmerizing songs. The London show marks the start of a six week campaign, covering more than 35,000 miles via Africa, the Americas and Europe. The concerts are being organized by **Concerts For Human Rights**, a non-profit making organization based in New York. A team of animators from 13 countries are working to produce an animated film of the universal declaration of human rights (as adopted by the United Nations and ignored by many countries in the world ever since) to be used during the tour. The musical score for the film is being co-written by **David Byrne and Laurie Anderson**. The **Human Rights Now** tour has already added shows to their scheduled dates at **The Budapest Peoples' Stadium in Hungary**, where tickets will cost only \$6, according to organizers. They may also have to add more dates for their shows in **Barcelona, Spain; Tokyo, Japan; and Harare, Zimbabwe**. Negotiations are still taking place, even at this late stage, over shows for **The Ivory Coast, India and the Soviet Union**, before the tour heads into **South America** for the final dates. The last show, at **Buenos Aires, Argentina**, on 15th October, will be filmed and is due to be screened on TV, around the world, 10th December - the 40th anniversary of the declaration. Meanwhile, both Springsteen and Sting have released singles here to coincide with the tour. The Boss has issued "Spare Parts" from his "Tunnel Of Love" album, backed by a live version of the song, recorded at his concert in the north English town of Sheffield last July. Sting releases "They Dance Alone", his song attacking the human rights record of Chile's President Pinochet, from the "Nothing Like The Sun" album. This is backed with a Spanish version of the song: the 12 inch features a spanish version of "We'll Be Together" called "Si Estamus Juntos".

The second person who died at **The Castle Donnington** heavy metal festival here in England, has been identified as 20 year old Landon Peter Siggers, a graphic designer from Surbiton, a suburb of London. It took police five days to identify the man, one of two people who was killed during a set by **Guns N' Roses**. Gary Dobson, a 19 year old, from the northern town of Nottingham, was still in critical condition at press time. The other man injured, has now been discharged from the hospital. **Iron Maiden** sent taped messages to Dobson and the band has issued a statement "deeply regretting" the deaths. The headlining act is said to be "completely devastated". The inquest into the deaths was opened and adjourned last week. It will be reopened when the police and the coroner have completed their investigations. It seems however that slamdancing by fans at the front was at least partially to blame. A Donnington promoter told "Sounds": "The extraordinary thing was that even people right next to the incident didn't realize how serious it was". Meanwhile, a controversial letter has been written to "The New Musical Express" from a fan, blaming **David Lee Roth** and his crew for fueling violence. James Ranson from Leicester says that people were being dragged underneath each other as DLR hit the stage. He alleges that a security guard who twice tried to stop the show was kicked and

punched by DLR's roadies and told by the singer himself to: "Get the fuck off my stage!" He was also alleged to have said "What do you want? You wanna make 90,000 people wait?" He also said he told the crowd to move back. "I did everything to calm things down. I didn't realize there had been any serious casualties until I arrived here in Finland, the day after my show. The deaths happened two and a half hours before my set, but for some reason I seem to be getting a lot of the blame." Donnington, which also featured **Helloween** and **Kiss** was the biggest in the event's nine year old history, with an estimated crowd of 107,000.

An argument has broken out between **U2** and their official biographer **Eamon Dunphy** on the eve of the paperback publication of "Unforgettable Fire". Dunphy, a former Irish soccer star was invited to write the biography just before the group's large American tour to promote "The Joshua Tree". At the time the group stated with pride that Dunphy had been given a completely free hand to write as he wished. But those smiles have since become frowns as the biographer has apparently dug up details and secrets the group would prefer to have remained personal. Bono and the band's personal assistant Ann Louis Kelly are in opposition to the book, according to Dunphy, while U2's manager Paul McGuinness, has openly attacked it, within the pages of the band's fanzine, "Propaganda". Says McGuinness, "In many ways we intensely regret having done the book because Eamon took us completely at our word, and we didn't think he would dig as deeply and find out the things he did. He's a very skilled reporter and he found out enormous amounts of information. There is stuff in the book that I didn't know and in the end, "Unforgettable Fire" is clearly his work and not ours. It's a pity that Eamon reneged on his promise to let us see the manuscript to correct errors, but he was pressurized by his publisher. The coverage of people's lives and family lives is something none of us anticipated. The idea that people I meet in the future will know all about me or Adam aged four or eight, is something I'm sure I could do without. "Dunphy claims he gave them all manuscripts and accused Bono of "twisting things to suit himself." As a musician he's a genius." says Dunphy "But as a man he can be a pompous asshole." According to "The New Musical Express", Bono and Dunphy have not been in contact with each other for five months. The last time they talked, according to the NME, was when Bono made a two hour call from Los Angeles, criticizing Dunphy for calling U2 a "hierarchical band". "Unforgettable Fire" goes paperback in Britain this week and is already the most successful fall book for publisher Penguin, who say that they have 190,000 advance orders already. The hardback edition has sold 100,000 in The United States and 55,000 in The United Kingdom, making it Britain's biggest selling rock biography.

**Siouxie and the Banshees** release their new album, "Peepshow" next week in Britain. The album, recorded between February and April this year was produced by Mike Hedges and features ten tracks, including the last single "Peek-A-Boo". The LP is their first to feature Martin McCarrick on keyboards and Jon Klein on guitar. In a statement issued by the band this week, they say: "There are a number of ways you can write lyrics: talk about your own emotions, attempt to be someone else, or take a step back and look in on someone else's relationship and the way life is. We do the latter more frequently on this album than ever before. "Peepshow" became a funnel where we put in our own emotional input, but we also watched from the outside - like a peepshow. There's definitely a heavy voyeuristic element on the album." The group follow their British tour in September with a European and American tour. They're scheduled to play New York on October 31st and Los Angeles on November 5th.

26 years after the formation of **The Rolling Stones**, **Keith Richards** has just completed his first solo album, "Talk Is

Cheap", released by Virgin Records in early October. In an interview with "Time Out" magazine, Richards confessed that he probably would not have made the record, had Jagger toured with The Stones, instead of solo. "I had no desire to be on my own," he says "But what can I do - get fat? Wait by the telephone?" Richards says he's very pleased with his first solo effort and is even more pleased that Jagger has said he likes it; in light of the fact Richards has publicly stated he disliked Jagger's solo album, "Primitive Cool". London critics also like the album; surprising given that The Stones are hardly the most fashionable band in this fad a minute city. One has compared it to The Stones; "Exile On Main Street" and "Beggars Banquet" period. Whittled down from an original repertoire of 45 songs, the work features Springsteen sidekick **Patti Scialfa** and co-producer/writer/drummer **Steve Jordan**. Funkmaster **Bootsy Collins** and ex-Labelle vocalist **Sarah Dash** are also featured prominently. The LP has another fan, too, **Ron Wood**, who told "Time Out": "It's got a fair bit of soul to it, so it represents the real Richards. He hasn't really changed at all. He's always been a nice guy. He's been with drugs and without drugs, but he's always been a great person. When we're together, it's as if we really haven't grown up at all." Wood also reveals that The Rolling Stones look set to release a new album next year, followed by a tour. Not before time, according to Wood, who defines the worst times for the band as "when we're not working, like the last three or four years."

## David Sadoff, KLOL, Houston

It was approximately one year ago that Rick Lambert officially made me music director of KLOL and with Rick's resignation public this week I would like to thank him once again for the opportunity. Dana Steele will be our acting PD until the arrival of Ed Levine on October 1st.... Living Colour's, "Cult Of Personality" is a great stepping stone and finds a home at KLOL as do the new tracks from Crowded House, John Astley, Patti Smith, and Steve Miller.... Pat Benatar's "Let's Stay Together" is a song we feel very strongly about and moves up to heavy this week.... The staff's personal favorites include In Tua Nua, "Seven Into The Sea", The Weather Prophets, "Always The Light" and "What I Am" from Edie Brickell. Congratulations to Billy Cox, Phil Poulos, and Joe Estrada on their recent moves. Thanks for a job well done, and good luck with your new positions.

## Curt Gary, DC101, Washington

Our strongest add this week is the Guns N' Roses track, "Welcome To The Jungle", although at this point, those boys could probably fart and still get requests. But "Welcome..." will be the first time for us, and in many ways, this band has not yet been dealt with in this market. We could be opening up a whole new jar of bee's wax here.... I can guarantee you the hottest tune for next week is "Telephone Box" from Ian Gillan and Roger Glover. You might as well name it out of the box.... A real surprise is the resurgence of the Alarm in this market. "Presence Of Love" is back and performing really well. And of course you can't stop Little Feat in this town. But perhaps the biggest surprise is the fact that Glenn Frey's "True Love" is starting to build into a really, really big hit--no negatives from the core audience or anything like that.

## Fred McFarlin, WRFX, Charlotte

We just finished up a "Fox Exposures" weekend to celebrate the first anniversary of that program. Generally good response to it, due in part to PD Jack Daniel's careful reworking of our clocks. All in all, the alternative fans got to hear 40 new groups, and classic fans heard even more Beatles, Stones, etc., while we got a chance to let people know we're hip to the new music. Thanks to Tracy McPherson of A&M for all the help and support.... Thanks also to Chuck Randal with Little Feat for the invite to see the band in Winston-Salem.... Thanks also to Don Josephs from Atlantic for AC/DC--White Lion. Finally, hello to Elise at KPEZ in Austin. Just goes to show there is definitely a place for wild women in rock radio.

## Readbeard, KTXQ, Dallas

We expect big things out of Omar and the Howlers and Steve Miller, not only for their diverse sound but also since they're local boys. I played "Rattlesnake" for our PD Andy Lockridge, and halfway through he says, "Man this is the best production yet". Hats off to Terry Manning in Memphis for bringing the best out in the band.... As for the Steve Miller, this whole album is absolutely impeccable in terms of the choice of material. It's so far back there that it comes around and it's totally hip again. The production is absolutely top shelf, the players and the sound is just sublime. This will be the one you use to show off your new CD player and your new speakers.... Vixen goes in right out of the box--what's not to like. Very strong song, excellent production and it's got the guitar edge. It's got balls.... And we're on the Hothouse flowers. It wasn't on one listen, or two listens, or three listens, it was half dozen for me. But I liked it more with each play--and those anglo-watching trends in your audience certainly know who this band is.

## Rad Messick, WDIZ, Orlando

Our strongest add of the week is Def Leppard's "Love Bites"; it's our third add on this track, after two previous runs in power for a total of 17 weeks. Now back again and bigger than ever. They've sold out two shows, are working on third, and if that doesn't show you the growth pattern of a band over six months time, I don't know what does. At least I'm glad to know my prediction of five million came true.... Out of the box on Omar and the Howlers. This song screams. This is the song that Omar needed to make the big cross.... Also OTB on Steve Miller--cool sound from a cool guy. This has Steely Dan written all over it and should be a 25+ attention getter.... Did a re-add on Van Halen's "Feels So Good". CHR should get it in a week and I want to be ahead on this one. Jimmy Page's Prison Blues is just the right edit, it gets down to the essence of the guitar that Jimmy made so famous.... Looking forward to having Michael Anderson live on the air next week.... Moved Cinderella to heavy--this has #1 written all over it.... also to heavy with INXS, Little Feat, Rhythm Corps, Steve Winwood, and Tommy Conwell.

## Bruce McGregor, KEZO, Omaha

Where I come from, the strongest add of the week would have to be Omar And The Howlers. It shakes, it quakes, it bakes. Love this rattlesnake. Also out of the box on the Vixen record. They're from Minneapolis, and they've played the area around here for quite a few years. They're a household name around here.... With its positive lyrics, Rod Stewart's "Forever Young" is a hit record though it took me a few weeks to hear it.... We've had a number of people inquiring about U2's "Jesus Christ" from the Folkways. Finally someone singing about JC in positive manner--giving him what he deserves.... Peter Dinklage is our biggest mover--it's huge. I've got to believe that David Gilmour could be gold with Slim Whitman. The song is #2 requested behind Guns N' Roses, and goes right into the heavies. It works--impeccable production, it's a perfect blend.

## J.D., WONE, Akron

I had the opportunity to listen to the new solo Keith Richards LP. Talk is cheap recently, and let me just say it's good to hear some straight ahead, nothing flashy, great sounding rock and roll. The single, "Take It So Hard" is a great sounding, very raw rock and roll song. I guess the key word here word here is raw. It has that flavor of some early stones material and does not sound like side 3 and 4 of "Dirty Work" or "Tattoo You". It's back to the roots of rock and roll and the days of yesteryear. Talk is cheap, so let your ears decide.... To John Beaulieu at WTUE, how was your vacation? You know, if I heard correctly you went down under to go see Olivia. Is that right?... Finally, dear Carolyn Heldman--so you're playing hard to get huh, well I can play that game too. Please call...please!!

## Inessa York, KGON, Portland

I think that this Vixen record will really get these young boys and girls going, and it that sense, it just may be our strongest add of the week.... My personal favorite is Jimmy Page's "Prison Blues".... Our biggest mover is Cheap Trick's "Don't Be Cruel". When we first heard it we weren't sure, but it sounds so great on the air that we just had to move it to power to maximize the potential.... We almost added the Wild track "Hurricane". It came across out of left-field; I had expected something normal, but what I heard was sort of a cross between Bowie and Idol.... Looking forward to the Jeff Healey, I'm sure he'll be the next exciting blues-guitar player to come along.

## Joe Marino, WCCC, Hartford

If you missed "Loving Me Lately" from Aslan, don't miss "This Is". It's a statement with a hook.... Edie Brickell's "What I Am" is one of these tunes that listeners hear and say, "Wow, what was that?!" A great tune from an up and coming artist.... It's great when your audience notices a new artist's second track is the new artist. David Drew's "Safety Love" has been recognized and requested by many listeners after only one week on the air.... Thanx to Michelle from Arista for stoppin' by this week, and congratulations to Roman from MCA (MCA is easier to spell than Marcia Viewicz) for the big promotion.

## Pam Roberts, KRXQ, Sacramento

The Jimmy Page would have to be our strongest add this week since Folsom Prison is just down the street from us, and since the song's about that place.... I love the Hiatt. I can see that John is a lot happier these days--I always liked him, but he brought me down a bit, so I appreciate his better mood.... We're out of the box on the Omar, which is a favorite of Judy McNutt's--it's a bitch to say on the air as well.... also a first week add on Steve Miller who comes through again with those catchy vocal harmonies.... In addition, we went with the Vixen. Obviously Richard Marx writes hits, and what could be more appropriate than a band full of beautiful women doing one of his songs.... I am personally very excited about Danzig. I heard it a while ago and couldn't wait for it to come out. I love the sound and image of the band down to the wonderfully bad photograph and those tattoos. Soundwise, they obviously are similar to the Cult.... Our biggest mover this week was Tommy Conwell. Just huge appeal--everybody from people on the phones to people in the studio are asking about him. It's a definite top-5 phones interest item.... And we seem to have a zillion phones on BOC, which is kinda of weird.... I also want to mention Edie Brickell and the New Bohemians, who I caught in Dallas a few weeks before the album came out--and just fell in love with--not knowing that Geffen was about to release their record. I came back, found it on my desk and aired it before they even worked the record.

## Mark Williams, WWZU, Williamsport

I could have commented on the Peter Dinklage-David Gilmour track several weeks ago when WWZU added it out-of-the-box. Any comments at that time, though would have pure speculation--the facts are that within three days of play in medium rotation, "You Never Listen To Me", gained top-10 phone status. Upon moving it to power/heavy rotation, "You Never Listen" took top-5 phones. That's where the track stays--for a long time we speculate. Face it, the lp is already selling quite well in most markets because of the AC/CHR emphasis. Bill it as Cetera-Gilmour if you want to, surround it with classic Floyd or classic Chicago tracks if you like. Any rock radio station--classic, AOR, or whatever you decide to label yourself, should have no problem playing a track which is noneother than the fusion of two of your backbone, core library artists. If you turn your back on Cetera-Gilmour, you turn your back on what you have already determined is important to your format and your audience. "You Never Listen To Me" makes perfect sense.... When you hear CHR stations in the market playing additional tracks off "Rumble" from Tommy Conwell & the Young Rumlbers (an artist that WWZU has supported for more than a year) you know you've created a monster. By popular demand this week, Tommy's version of "If We Never Meet Again" goes into heavy.... Make sure you grab a piece of that Living Colour album. If "Cult Of Personality" isn't your cup of Personal-tea, try "Glamour Boys". Living Colour should be listened to in large quantities--potentially dangerous rebel to the industry.... I really dig Steve Miller's "Ya Ya".... Finally, continue to keep your eyes and your ears open to one of the year's best R&R albums. John Kilzer is just what the doctor ordered for this market.

## Doug Clifton, KBCO, Boulder

During my vacation, KBCO had 2 back to back concert events, UB40 at Fiddler's Green on Friday, followed by Joan Armatrading Saturday night at Red Rocks. We broadcast live from backstage at both shows plus we carried

an hour of Joan over the air making it the first live radio broadcast of a concert from Red Rocks! Thanks to J.B. Brenner for all of his help with the "Livecast".... Good to meet Rich Bloom from Capitol this past week. I won't let the fact that he's a Redskins fan stand in the way of our working relationship. Rich delivered the new Steve Miller CD. The album has much more of the Ben Sidren jazz influence, perfect for upper-demos.... The Folkways Album continues to build momentum--along with Springsteen this week we're adding U2 and Little Richard/Fishbone.... John Hiatt has always been a big favorite here and it was a pleasant surprise to have the full album on my desk when I got back from vacation. "Slow Turning" is an automatic for us with more tracks to follow soon.... Other adds include Glenn Frey, Richard Thompson, Huey Lewis, Sugarcubes and Omar & the Howlers.... Movers and Shakers: Geina Horton says goodbye to Denver as her home base of operations and moves to San Francisco, we're very happy that she still will be working with the Denver market. Moving to Denver from Dallas, Joe Estrada becomes the new Polydor rep.... Best of luck to John Edwards on his move to Salt Lake and KBER.... On "New Music Express": Swimming With Sharks, All About Eve, Loup Guru, Crazy 8's, Chris Issak.... The "Wax Track" of the week is the Primatives, "Carry Me Home".

### Jimmy "The Saint" Christopher, KZEW, Dallas

Well, I'm at the end of yet another trail...again a victim of the radio rumble, but Jimmy The Saint will soon be back in the saddle. I'm ready to kick-ass, rock and roll, have fun and take care of business. I'm entertaining all opportunities and looking forward to talking to everyone in the near future.

### Tom Scheppke, KISS, San Antonio

Seems like we've been on this Omar and the Howlers track for three weeks. We just did a show with them, where I heard a lot of new tunes. I think he's made a major step forward with the follow-up. I think the Terry Manning production has really helped him find his groove--moving more toward a pure southern-rock sound as opposed to his kinda blues thing.... I say Zippity-Doo-Dah for Steve Miller--we're right out of the box for Steve. I listen to that track and I just can't believe it.... The Vixen is new on the air. The female rock thing is really happening in 1988, and these calls will probably cash in big on it.... Elton's Marlon Brando is one of his best tunes in many many years.... We just put in the Femme Fatale. Like Jimmy and I say, "We're waiting for the big one". I'd like to dedicate it to the Saint, wherever he is.

### Anthony Alfonsi, WDVE, Pittsburgh

The Hothouse Flowers have finally blossomed on WDVE. There's been a lot of talk about this band, so it's time for the band to prove that it's not all hype. I think "Don't Go" sounds like upbeat Talking Heads.... Heard Steve Miller's "Ya Ya" about a month ago and liked it then--now that it's officially out, I still like it. I think it's a cross between Steely Dan & Michael Franks, but it still has the distinctive Steve Miller sound.... I'd like to thank Lee Gerald of Elektra for the chance to see Linda Ronstadt, Bruce Marek of Chrysalis for his help with Huey Lewis, and Dave Watson of Virgin for his help with Steve Winwood.... Coming up this week, Aerosmith with Guns N' Roses and Eric Clapton with Buckwheat Zydeco.

### John Lassman, KQRS, Minneapolis

Good luck to Scott Klohn, PD of KJJO AM and FM, who was let go today. Once again Park Broadcasting fires the wrong guy.

### Erin Riley, WMMR, Philadelphia

Crowded House has been an extremely popular band in this town, they've sold out every show they've done here. So it thrills me to pieces to have a song from their second album that we can play. To say that "Better Be Home Soon" was too soft is an understatement, but "Never be The Same" sounds more along the lines of the way the album was described to me before it came out, it's like their "Revolver".

### Lorraine Caruso, WNEW, New York

Don't miss Rhythm Corps when they come to your town. The band sounds good, and with the right exposure, could build a good career for themselves. The show was broadcast live from the Bottom Line. Many thanks to Harvey Leeds, Jack Isquith, and Terry Coen.... It was lots of fun to have Steve Miller on hand, with guitar, at the radio station on the day Capitol released his cool and sexy remake of "Ya Ya". Steve had a lot to say about the past and present days of his life and work. Thanks go out to Rich Bloom for his coast to coast set-up, and to Dave Morrell.

### Steven Page, KOMA, San Jose

I'm on vacation this week, don't call me I'll call you next week. Thank you.

### Jack Green, KLPX, Tucson

Michael Anderson has given us an excellent album. We had real good reaction to "Sound Alarm" and "Until You Loved Me" is a natural followup. Michael visited the studio recently and was a great interview. He's easy to talk to and the live version of "Sound Alarm" sounded great on the air. We're anxiously awaiting his tour.... With Cheap Trick we're getting more positive calls than negatives. It's top-5 reaction overall.... My favorite record that's on the air is from Graham Parker! "Don't Let It Break You Down".

### Tim Parker, KNCN, Corpus Christi

John Hiatt is a class act, a good straight ahead singer songwriter. One of the best in his genre. We've played ALL his records.... Colin James moves to heavy based on the sound of the record that works real well in this part of the country. We expect to see some sales soon.... I knew the first time I heard

"Talk To Your Daughter" that this was the song to go with. It's amazing how long Robben Ford has been around playing with artists like Michael McDonald and George Harrison and now he's come into his own. We've had Top 5 phones for three weeks in a row!! Every time we play it we get curiosity calls.

### Lorraine Rapp, WAQX, Syracuse

Friday night we had our 10th birthday concert with the Rossington Band and Lynyrd Skynyrd at the New York State Fair. The fun began the night before at the Syracuse Marriot Ballroom, when 95 lucky winners attended our private party with the members of Lynyrd Skynyrd. The day of the show we broadcast from backstage and interviewed the band and crew, some of them survivors of the plane crash ten years ago. We were onstage, backstage and over the stage with a plane towing a banner that read "Happy Tenth Birthday 95X". It was a great night for us and the 14,000 fans that helped us celebrate. I can't say enough about the royal treatment we got from the Skynyrd organization and from MCA Records. From start to finish we were given the red carpet. My heartfelt thanks to: Cheryl Brusko, and Amy Siegel for taking care of us, Ed Hopson, Craig Reed, Dale Krantz-Rossington, Randy Hock of MCA and all the band members for showing us some southern hospitality and putting on a phenomenal show.... Congratulations to Texas-bound Ed Levine on a great move.... Also thanks to A&M Records' Jon McHugh, Sting and Branford Marsalis for a magical Saturday night.

### Richard Smith, WIXV, Savannah

I have been to the mountaintop and seen the promised land. I just got back from L.A. with a new perspective on life. Thanks to Don Miller for the Chow Mein at Virgil 8 and thanks to Bert Stein and all at Apache Records for their hospitality while I was out west.

### Randy Maranz, KDJK, Modesto

The hard rocking ladies in Vixen's "Edge Of A Broken Heart" prove that women can and will rock and roll.... The Folkways CD is loaded with fine material including U2's "Jesus Christ". Don't miss this one.... Jimmy Page's "Prison Blues" is my favorite on the album and I'm glad they released it as a single. Give it a listen.... Steve Miller is back and sounding real good with this one.

### Kim Jeffries, KRNA, Cedar Rapids

As soon as I saw the advance cassette of the Steve Miller Band's "Ya Ya", I had to hear it right away. After hearing it, I was singing it all week long! It was an instant add as far as we were concerned. Good to hear from you Steve!

### John Lozcalso, WRCN, Long Island

I'm not one for D.J. "stunts", and I still make fun of people that do them, getting hardy guffaws at every billboard sitting and D.J. dunking, however WRCN raised a bundle O' bucks for MDA this weekend. We did one of those 7/11 Roof-a-Thons, it was a great success.... Hey, are these comments getting smaller or is it just me?

### Elise Vander Borgh, KPEZ, Austin

Too much music, not enough room or something like that! Finally added David Lindley--after several listens I realized this album could go three or more cuts deep. I really like "Papa Was A Rollin' Stone" and "Gimmie Da' Ting"--real tasty alternative stuff.... And the "Folkway's" album--of course we had to add U2's version of "Jesus Christ" and thanks to Pam Edwards of KGB I now have a great way to intro the song. Hope you don't mind me stealin' your line, Pam.... Omar and The Howlers is an automatic power add, and we're waiting with baited breath for the album. I have a question though, are there really aged rattlesnake eggs in the rattlesnake shaped hot sauce we received? Nobody at the homestead will touch the stuff til we know. Jimmy Page naturally moves up to medium with "Prison Blues". The edited version makes it more accessible for daytime commercial-loaded hours. Can't wait for the show at the Erwin Center 9/14.... Edie and her New Bohemians still hold the top spot on requests--it's incredible the amount of phones this tune brings in.... Still hot on Winger. I seem to be the only one here who really digs this tune and I don't know why--maybe it just takes longer for some people. It kinda reminds me of Tesla in the intro and the vocals sound a little like John Waite and besides Kip used to play with Alice Cooper, so add it, darn it.

### Phil Thompson, KICT, Wichita

At the end of January 1989, KICT 95 will be celebrating our 10th birthday. Once again I'm on my knees begging for artist ID's. Personalized 10th anniversary ID's should be sent to: KICT 95, 734 N. Maize Rd, Wichita KS, 67212.

### Tony Montoya, KKAZ, Cheyenne

Our strongest add this week is tough to call mainly because the "Folkways" compilation is so deep. But the clear cut biggest mover is without a doubt Pat Benatar, only on the air one week and already top 5 phones.... We were close to adding China Sky's "The Glory" but ran out of room, I see a definite add next week.... Doing really well here at 100.7 KKAZ is Ya-Ya's "Caught In A Lie". I think if more people would just take the time to listen to this they would agree that it's a great tune.... The staff is going nuts over the new Bad Company--it's great to have them back.... We have a real strong feeling about this new Vixen release and--what an album cover! The boys around the office keep trying to sneak it into the bathroom, please send more copies or perhaps a giant poster.... Jon Astley did real well the last time but I feel

"Put This Love To The Test" is an even stronger effort. My philosophy has always been, let's get naked and party!

## Mike Gardner, KOAS, Kealakekua

New Little Feat continues to be as exciting as the old--every cut sounds great. Sam Phillips comes on with a strange new sound, while Pat Benatar delivers the good stuff all the way through the "Wide Awake..." LP.... Not a bad cut on the new Frozen Ghost, and Bad Company has another sure-thing LP.... Rod Stewart stays up there as does Ziggy Marley and Robert Palmer.... John Hiatt's single leaves high hopes for the LP.... David Lindley sounds fresh, Robert Cray has another stylish release and Hothouse Flowers fills the mellow bill.... All companies: please check your list--we need your service. Thanks!

## Vince Mertz, KXFX, Santa Rosa

Greetings. It is great to be back in the pages even if it is temporary. Big things are happening here in Santa Rosa. KVRE no longer exists--we are now 101.7 "The Fox"--KXFX. The music direction has also shifted, it now reflects an AOR attitude with upper demo males as our target. I have been on the phone with most of the local people and I appreciate the enthusiasm and the help that they have given. If we haven't made contact yet, my music hours are Monday thru Friday 10 am till noon. Take your chances at other times. I'm currently on loan from KZAM in Eugene and will be here through September 10. I am handling music and sharing programming duties with Gregg Cavanaugh. The new PD and MD should be on by then. By the way if you are looking for a job: PD, MD, full or part-time air talent; send us your stuff and we will make sure it gets to the powers that be. One more thing, we are happy to let you know that we are now a Pollack consulted station. Our consultant's name is Pat Welsh, and we have a new phone number: 707-523-1369 that's 707-523-1FOX write it down and use it. That's it.

## Bernie Bernard, Voice of America, Washington, D.C.

"Crystal Palace" by The Bible has to be one of the best things I've heard in a long time. The hook is fantastic--whatta song! Give it a listen and turn it up. Also check out "Skeleton Crew" and the Steely Dan-sounding "November Brides".... I had a great time talking with Mitch Easter from Let's Active this week. Besides being a producer with a diverse track record, the guy can play gee-tar!.... Happy to see Steve Forbert out of legal limbo.... Still listening to the latest Iggy Pop. The ig-man is sneering better than ever.... Gary Wright has a new twist on his familiar style. Lots of interesting textures on "Who I Am". He uses Indian musicians to add just the right touch on some tracks.... In the past few weeks, VOA programming has included features on Camper Van Beethoven, They Might Be Giants and rockabilly/country rock band The Wagoneers.

## Haz Montana, WXLN, Davenport

Everybody's wearing pants! So says the advertising campaign of a couple of the malls out here, much to the ridicule of our morning team Ian Case & the Coach. After days of taunting, including the seemingly climactic morning, where, at the suggestion of 97X, listeners flooded the switchboards of the mall office with comments of "I'm not wearing any pants!", and "When did the brilliant minds at Northpark Mall realize that people wear pants?!", those brilliant minds invited us to the roof of their establishment for last Friday morning's show. Passers-by were treated to throngs of people showing up in towels and bathrobes (no pants!) in order to win prizes. Our morning guys eventually coaxed a couple of buxom mall employees to ceremoniously take 'em off, to the delight of fans below. Yeah, it's nice to have an occasional nudge on why I got into this business! Oh yeah! The music, that's why!... This Winger tune is really showing monster potential! Already decent phones early in the picture and increased rotation at the X. I think this band has what it takes to make it big!.... Rhythm Corps is showing to be a surprise--still lots of curiosity calls and requests for the band I used to check out during my days at Michigan State. Back then, their EP had a couple of real big songs; "Broken Halos" and "Solidarity". Solidarity was a very topical song for its time, and with the recent events behind the Iron Curtain, it could experience a resurgence. Check it out on the "Common Ground" LP, and if my memory serves me correctly, it's got a new intro to it.... Speaking of Michigan State, let's hear it for another Rose Bowl season for the Spartans! Also looking for good seasons for the Iowa Hawkeyes, and, of course, the Bears. All the best teams eat more lima beans.

## Ty Banks, KQWB, Fargo

I feel the rumbling of an impending explosion with the Femme Fatale record and our core audience--this could be scary, kids.... Psychedelic Furs continue to hypnotize me with their understated vocals coloring a dreamy, beat-driven ambrosia. The best-of collection finally is a good idea.... Steve Miller has a tremendous following in the upper mid-west, so "Ya Ya" should do well for us.... And finally it's good to have Al Stewart back on the radio. Songs of that piano-driven texture mix in well.

## Cyndee Maxwell, KWHL, Anchorage

Omar and the Howlers "Rattlesnake Shake" is an excellent follow-up to "Hard Times". Immediately recognizable and hip. It's a smash.... My reaction to Steve Miller's version of "Ya Ya" is that it's almost too cool. But I love it and think that our listeners will too.... Vixen's "Edge of a Broken Heart" is a great record. It's well-produced, clean and stands out in a crowd. These ladies know how to rock.... Alaska's top-sellers are: Guns N' Roses, Def Leppard, Cocktail Soundtrack, and Cyndereella. These pipeline types love to rock.... I wish there was more room on the playlist this week--other tracks to add in the future: Glover and Gillan (awesome), Buckwheat Zydeco, Jethro Tull,

Bruce Hornsby...gee, I could go on and on.... Hope everyone has a laborless holiday, KWHL will be at the Jerry Lewis telethon in Anchorage, and on the radio "Love Phones".

## Butch Lazorchak, WVVV, Blacksburg

Thanks to Bruce McDonald of WFNX in Boston for treating me to lunch while I was visiting last weekend. I gained quite a few helpful insights in the process. There's also lots of groovy local bands in Boston--2 of which I'm sure you'll be hearing more from--Big Barn Burning and the Rain Dogs.... The new Psychedelic Furs song is much better than anything on their last album. Most Fur's fans are probably breathing a sigh of relief now that they're back to the guitar-oriented material.... The Hugh Cornwell is also very catchy--that slowed-down part is sure to catch your ear.

## David A. Ross KMJX, Little Rock

KMJX is sponsoring "Summerset" over Labor Day weekend with 12 bands featuring Steppenwolf, The Rainmakers and Jimmy Davis and the Junction.... I would like to thank Jules Shear for the interview and visit. Please give Reckless Sleepers another listen--it's a very good song.

## Bob Jeffries, KBOY, Medford

The Vixen record "Edge Of A Broken Heart" is our strongest add of the week. It had tested well for us a few days earlier.... Edie Brickell is working in this market with very strong phones and great response.

## Johnny Riggs, WKLC, Charleston

I'd like to thank Lorraine Lewis for the autographed glossy--although I've ruined it by licking off all the print.... From Alan Sells: Thanks to Bob and Tom at Q-95. If you can't play them, at least we can.

## Karen A. Small, WGIR, Manchester

It's been a pretty busy time with concerts in the area. Many thanks to the Lynyrd Skynyrd band and crew for a great visit to Manchester last Saturday. They were very easy to work with, very cooperative, and signed tons o' stuff for our rock n' roll auction coming in November--thanks guys.... Coming this week, Huey Lewis and Bob Dylan. There's no denying Peter Cetera's "You Never Listen To Me". It sounds like it came straight out of a Pink Floyd session. David Gilmour's guitar can grace Rock 101's airwaves anytime.... Another guitar legend, Jimmy Page, gets another track on the air this week. Jimmy gets down and dirty and turns out some nitty-gritty playing with "Prison Blues". This track will definitely cause ears to perk up.

## Chris Herrmann, WHJY, Providence

I'm blown away by the new John Hiatt song! He's taking a trip down that dusty back road cut by John Cougar Mellencamp. This song is full of great images (banging like Charlie Watts!) and John's voice is full of great timbers and nuances. Let's see if we can't get this guy popular as well as critical acclaim.... Don't know quite what to make of the new Steve Miller song.... Love the new Omar & The Howlers, and can't get enough of Pat Benatar's "Don't Walk Away".

## Lisa Traxler, (asst. MD), WBCN, Boston

Carter is on vacation in Europe this week. Among other exciting vacation-type activities, he's attending the wedding of the Alarm's Mike Peters in Wales.... It's been a busy week at the rock of Boston. Beach Boys founder and rock and roll legend Brian Wilson was at WBCN last Tuesday chatting with jocks Ken Shelton and Mark Parenteau and signing autographs for staff and fans waiting outside the station.... On Thursday, myself, Oedipus, and several other BCN personalities were treated to lunch with Steve Miller who had many stories to tell of his 21 years of experience in rock and roll. Afterwards, Steve came to the BCN studios and talked on the air with Mark Parenteau and production aces Tom Sandman and Billy West. He brought along a guitar and amp and recreated some of his best-known tunes live on the air.... Overnight jock Albert O interviewed Tuesday Blue and '87 Rumble finalists The Rain on "Nocturnal Emissions" this week--both bands played live. That's it.... Oh, and I'm still trying to return all calls.

## Patty Martin, KSJO, San Jose

We all expect these men who lunch with Lorraine of Femme Fatale to return singing her praises. Finally a report from a woman. I found Lorraine to be charming and sincere, with quite the desire to win--also, a very funny woman. She works hard, and deserves the best the business has to offer.

## Jamey Karr, KACV, Amarillo

Big week for KACV, we got a mention in Dave Marsh's "Rock and Roll Confidential", which prompted a phone call from the Cleveland Plain Dealer, we're hoping the Amarillo papers discover us as well.... Also word from Washington, we've received a grant that will allow us to increase our power from 30,000 to 100,000 watts, and also double the antenna height. It's been one hell of a week.... Michelle Shocked, the Texas artist singing about Alaska but we love her anyway.... Love the new Jon Astley.... Sam Phillips is an instantly accessible mid-fifties pop song.

## Matt Roberts, KRQU, Laramie

Robert Palmer's "Early In The Morning" is a big step for him. "Simply Irresistible" was very much like his last album, where this spreads out his horizons--I don't want to see him get stuck in a rut.

## Art Boerke, WKWQ, Columbia

"The Howling" is, without a doubt, the best song out there right now. This is the newest from Broken Homes and I haven't heard anything in months that knocks me out like this one does.... Omar and The Howlers is looking pretty good and the new David Drew track is a well put together piece of stuff also.... The Hothouse Flowers have become a staff favorite in a very short period of time. They are going bananas for that band.... Buckwheat Zydeco gives us the perfect remake of "Why Does Love Have To Be So Sad?". People tell me that they love this tune and Clapton's feel throughout the song is refreshing.... Bad Company continues to get real strong phone action and the Robin Trower is also starting to build on the listener line.... "Dreamword" was the obvious choice from the Midnight Oil album and is going to really rock the market once it gets going.

## Christina Gorton, KKZX, Spokane

Isn't Rubber Pants just the cutest thing you've ever seen in your life? With us getting ready for Zeptember you can count on us playing everything but the catalog number on his album. How nice for me.... Robin Trower is one of those artists that the Spokane audience thinks that they own. As a result, "Shattered" is going to do very well for us.... Steve Miller has given us the strongest single off the new album and those blues fans are going to dig it.... Speaking of blues fans, they are lining up fifty deep for Robert Cray who will be in town this week.... On the horizon we are looking at Buckwheat Zydeco and we are playing around with the new Al Stewart as well.

## Ginger Mackenzie, KATP, Amarillo

I'm a huge Jon Astley fan and the last song from him did very well around here so we are going with this one OTB. Some guys just have that instant vocal charisma and Jon is one of them.... Omar And The Howlers is a must play for us. If you don't play Omar around here you might as well turn in your Texas citizenship. This has got to be the strongest record we've added this week.... This new Vixen record provides good balance for the playlist with their hard edge. They've toured in this area often and have a substantial listener base to build upon.... The Edie Brickell record is the big staff surprise this week. At first, the announcers hated it but after a few listens they turned around in a big way. Now they can't get enough.... Michelle Shocked has been a huge studio hit around here with the staff getting behind it right from the beginning.... The Impellitteri record creates a huge reaction instantly wherever it is heard and we are no exception. The audience and the jocks are both real excited by this track.

## Karen Collins, WWTR, Ocean City

It's very surprising for me to see this Vixen record take off so quick. Believe me, that's not a complaint, I'm glad to be playing it, it's just a jolt to see a brand new record get off the ground so quickly.... Of our adds this week I think that the Smithereens should do really well with the local audience. people are really into that sound around here.... U2's treatment of "Jesus Christ" is sure sounding like a hit to me. This song has been quick to distance itself from the rest of the Folkways compilation.

## Tom Van Sant, WIZN, Burlington

Not since Tracy Chapman burst on the scene have we seen the kind of instant reaction we're getting to Edie Brickell and The New Bohemians. It's our number one request item! This baby could go all the way and I certainly hope it does. The album is simply outstanding. It's fresh and musically excellent and "Little Miss S" should definitely be the followup.... Speaking of surprising request action. The John Cougar Mellencamp version of "Rave On" is up to number four on our phone list. This could be a major hit record as it seems to turn on those upper demos and women. Don't wait too long!.... Omar And The Howlers go in with another blast of their patented swamp boogie. Sure to be welcomed with open arms by our listeners who gobbled up the last LP.... Thanks to all you record reps who have serviced us with so many record giveaways recently, especially Bob Bivney and Karen Durkot.

## Mike Richter, KFMZ, Columbia

It was nice to get Rhythm Corps into a decent rotation and it's really starting to happen on a local level. The audience is making comparisons to the first Church single and the fact that the college students are returning to town hasn't hurt either.... We wanted to see what the Conwell would do and when it became obvious that he would continue to build across the board, it was hightime to hop on the train.... Colin James has plenty of that raw energy to it that sounds great on the air along with some good horns and background vocals to spice things up.... The Vixen is pretty hard but lyrically it's definitely Richard Marx. I could close my eyes and picture this guy singing this song.... Breaking out the doors around here is this new single from P.M.. It doesn't hurt that they're from St. Louis and it fits every daypart we have to deal with. Don't let this one slip by.

## Eric St. John, WNPQ, Canton

All you have to do is look at the cover of Vixen and you'll play it. Seriously, Richard Marx gave them some credibility. That really helped people to give this band a shot.... "Hippy Hippy Shake" from the Cocktail soundtrack is already getting big phones. It's 1:44 of guaranteed request line madness.... We also get constant curiosity calls on the new Bad Company. I think we are just beginning to see the tip of the iceberg with this album. The retail action is starting to look pretty good also.... Cinderella has come out with a very good female draw with this second track. This is just what the format ordered.... The biggest surprise this week comes from Def Leppard. This is

like a reincarnation for the band. The younger listeners are lining up for them this time out.... The new Al Stewart song recalls some of his best heritage work and should do very well with the format.

## Mike Verity, WNGZ, Elmira

I think I have settled in enough to come up with some solid calling hours, though I apologize for changing them again. I am here Monday through Thursday from roughly noon til seven and will take calls anytime. However, I prefer not to speak to music reps from 2-6 as I am on the air and cannot devote my full attention to them etc, etc.... I put, "If We Never Meet Again" by those Reckless Sleepers on a tape called "Micky's Favorite New Music" so we be jammin' in the old vehicle all the way home from work. It's a pain in the ass to keep screwing with the fast forward, but it's necessary so I can hear Jules Shear at least once per trip. It travels well here at Radio Free Micky and receives a big thumbs up from our reviewers.... Generally I dig anything with a banjo, steel guitar or accordion so I dig John Hiatt, and it's a great song banjos or not.... Keep your ears on James Reyne and Michelle Shocked. For my money, that's where rock n'roll is going--and I for one think it's pretty cool.... Finally, it may sound naive, but I've seen Sting, James Taylor and Neil Young live and heard new records from Reckless Sleepers, Joe Jackson, Tangerine Dream, Little Feat and Bobby McFerrin all in the first month I've been here--and they're paying me for this too. This is great.

## Andi Turco, WEQX, Manchester

There are a couple of things on my mind that I would like to pass on. First of all, I would like to know what was in the minds of the folks of Enigma when they thought up this promotion involving the "Close Lobsters" record. They sent us a live lobster (or it used to be alive) in the mail. Now it doesn't take a rocket scientist to know that it's a bad idea to wrap a living creature in plastic--especially a creature that is supposed to live in water--and then send it express mail to a P.O. Box in Vermont. I did not appreciate getting a dead, smelly lobster in the mail. Pinhead stunts like this don't get records played at WEQX. The more I think the madder I get.... Now on a more pleasant note, we have some personnel additions to announce as well as an on air line up. We welcome Lee Rockwell to our air staff for 6 till midnight. Lee joins us from WPYX in Albany and we are dammed glad to have her here. Ernie moves to middays and I will be doing 2 till 6pm. Ernie's calling hours will stay the same but mine will change to 11 am to 2 pm Monday through Friday.

## Ned Horton, WWRB, Nashville

Michelle Shocked is going like Tracy Chapman, after some initial audience problems, it took off to the top of our charts.... We've just added the Psychedelic Furs, they're a staple of our gold book, and a natural for us....Hothouse Flowers are doing very well for us, they've been in heavy rotation for three weeks. This week we added "I'm Sorry," it's great album, and the audience is just starting to catch up.... Am I the only one to notice a number of female artists dominating the charts? For a while our top five were all females. Since Tracy, solos and groups fronted by females have broken through in a big way, it's been hard to keep male artists in the chart.

## Patrick Ferrise, WWVU, Morgantown

The Fatal Flowers are a definite radio pleaser with "Second Chance".... Let's Active-you can't go wrong with this, try the cuts "Horizon" and "Terminate".... With Transvision Vamp, the hot reaction cut from both jocks and the audience is "Trash City".... We just added "Clubland" from Hugh Cornwell--it's pretty mellow.... Jane's Addiction's "Up The Beach" gives the rotation a punch.... I think that Jon Astley will be a definite crossover, jump on the bandwagon before CHR claims this as their own.... Sam Brown on A&M is pretty, she's reminiscent of Chrissy Hynde, the strong voice, but the music doesn't have Hynde's edge, check out the tracks "Walking" or "Your Love is All."

## Dirk Devault, WGTU, Hagerstown

I expect Let's Active to do wonderful things.... I wish the new Psychedelic Furs wasn't a best of album, I wanted more to play with.... We're about four tracks deep into the Fatal Flowers album, playing "Moving Target".... The Hunters and Collectors is the most commercial album from them yet (and I mean that in the positive sense).... I'm glad to see that Michelle Shocked didn't lose any of her originality that she had on the "Campfire" album.... I knew Hugh Cornwell right off the bat from his voice, we're playing "Dreaming Again" and "Another Kind of Love".... Sandy Bull (on ROM records) should get some attention, a great instrumental album, he comes from the same school as David Lindley and Ry Cooder.

## Dave Zaluda, WWUH, W. Hartford

I love Let's Active.... Michelle Shocked is an excellent album, like folk rock.... Also, Hunters and Collectors, is excellent, "You Can Have It All" is a good track, it's my fave.... I like the instrumental track from the Transvision Vamp.... The whole Hugh Cornwell album is excellent, the track "Decadence" is my fave.... Jane's Addiction has to be listened to over and over to be understood, the track "Ted" is especially good.... Greek Life Aquarium is really good, tracks A2 and B1 are really good.

## Bob Weyersburg, WUNH, Durham

Michelle Shocked thankfully is not an overproduced album, it's a good kind of alternative sound... I could talk about Red Lorry Yellow Lorry for hours, an album not to be confused with brain-deadening loudness, although you could turn it up as loud as you please. Play the hell out of them, they're demigods, we're playing every single last one of the tracks, leave not a track unturned.... Bell Canto (on the Cramp Discs label) is the type of stuff that a

commercial alternative station would eat up if they could ever get a copy of it.... There's an onslaught of really good dance music from Antler Records such as A Split Second and Attrition, which happens to be my fave of the year, it's pretty intense, they're not the stylistic pioneers as in the past, but they have a well-refined synthesizer sound that isn't pure electronic mumbo jumbo.

**Gina Galli, WBNY, Buffalo**

Red Lorry Yellow Lorry, they have an edge, and it's great, we're playing the whole album.... Let's Active is another album I like a lot, no gimmicks, straight forward,.... Jane's Addiction has to be one of my favorites, I like the tracks, "Summertime Rolls" and "Jane Says".... The Circus Of Power is really great, they can crossover, they remind me of the Cult, it's really heavy, deep rocking sound, and very dark.... Fields of the Nephilim is a lot like the Mission, sort of depressing, but when the summer's ending and a tropical storm is hanging over you, nothing sounds better.

**Mike Summers, KJQN, Salt Lake**

The concert successes continue, over 9,000 people saw UB40 last weekend at Park West. Further evidence that you should include Salt Lake in your band's touring plans.... As for music, we're on the new Crowded House single, the U2 track from the Folkways album, and the new one from an artist who's been popular in local clubs for years: David Lindley's "Never Knew Her".... And don't forget Jane's Addiction, from the sheer volume and speed of "Idiots Rule," to the irresistible hook of "Jane Says." This one's been in my tape player since the day it arrived, and it's burning my speakers up! Take a minute and listen..... Hugh Cornwell tested really well right from the start, people made the Strangler's connection immediately, partly because he sounds so much like them.... Transvision Vamp is doing very well for us. Everytime we play it, there's some type of reaction as to what it is.... Let's Active is a surprise, sounds like a completely different band as compared to their last record.... The Psychedelic Furs single is selling well, too bad the forthcoming album is a "Best-of", but one single is better than none.... Also getting good response on Big Country, Escape Club, Kim Wilde, and Siouxsie and the Banshees.

**David Nail, KMPZ, Memphis**

Transvision Vamp's song "Tell that Girl to Shut Up" is especially good, I also like "Psychosonic Cindy", real strong response.... Let's Active's "Every Dog" is a good song, typical Mitch Easter, up-tempo pop, puts you in a good mood.... I usually don't like that type of psychedelic rock such as Jane's Addiction, but I do like the album, there's something about it that I like, but just can't describe.... The entire "Married to the Mob" soundtrack is doing well, with renewed interest in New Order, and Sinead O'Connor is going through the roof, "Jump" is a little gritty, fuzzy and distorted, she pulls it off well.

**Jetson, WOXY, Oxford**

I'm getting to get a little perturbed by a new trend that is starting to rear its ugly head, what I'm talking about is this trend that seems to be happening more and more, of record companies rereleasing albums and songs that didn't make it five years ago, like "Red Red Wine." It's a sad trend and if I were in a band like UB40 and I had a new album out, and the record company wasn't pushing it, but instead pushing a record that I released five years ago, I would be a little bit upset. Why don't record companies realize what they have at the time it comes out. It's very frustrating to a radio station like ours that played it originally, and now years later we're trying to be pushed to go onto it again. Well, I'll let you know right now, don't waste your time trying to push your rereleases on this station. I just got a letter today telling me that the first albums by the Book of Love and the Mighty Lemon Drops are both coming out again with bonus tracks and remixes. Oh boy, thanks, but no thanks. We played them to begin with and we won't play them again, so don't insult me by asking. I mean really, what is the point? To sell records I guess. Well, we don't care. Also what I'm wondering is should I add new records that are out now, or wait till they are re-released in a few years. It gets kind of confusing. Maybe records should be promoted right the first time so you don't have to go back and do it again. There's enough good music out right now for us not to go back in five years and reread something.

**Kim Saade, WRAS, Atlanta**

The Psychedelic Fur's single is a vast improvement.... Jon Astley is terrific, this one is just as good as "Jane's Getting Serious," the album, if based on the single will do well.... Transvision Vamp is just huge this week, number two phones, reaction has been tremendous, the staff is crazy about it, the audience won't shut up.... Jane's Addiction is kind of a weird one, not something I gravitate towards normally, "Jane Says" and "Summertime Rolls" are standout tracks that we decided to play, I still don't know what to make of them.... Hugh Cornwell is hands down my favorite this week, instantaneous reaction, will be BIG BIG BIG.... Red Lorry Yellow Lorry, I like it, will be added for next week, a mellow sound for them.... Sam Phillips's album has really good production with T-Bone Burnett, a terrific pop record, it's inevitable that it will grow on you.

**Bill Hanson, WHITE, York**

Michelle Shocked has demonstrated her skills as an interesting songwriter with "Anchorage", a good song taken from a conversation.

**Scott Carter, KCPR, San Luis Obispo**

Jane's Addiction is doing very well, one of the highest debuts in months, it's up to Number 25, sounds more like Zodiac Mindwarp on a drug trip, rather

than Led Zeppelin. It appeals to both head bangers and more mellow people, glad to see them jump to a major level of recognition without having to sacrifice part of themselves.... Both sides of the Cocteau Twins single is really cool. They haven't really changed their sound, it's a bit more structured but still in the vein of their old sound, I'm dying to hear the album.

**Jonathan Rosen, KUPD "Virgin Vinyl", Phoenix**

The Future Is Hard on Klein Time: It's a long way till October, but a guaranteed reaction will happen when Ministry's next album appears. Most ears will finally remember the 1983 classic "With Sympathy" album. 1986's "Twitch" was forgotten immediately and most don't even know that Alan Jourgenson has been dabbling with extremist industrial outfits like Revolting Cocks from the Wax Trax label stable in recent years. From the two tracks I've heard so far, Jourgenson—with a hardy thunder of metal and a hi-ho of speed will mosh his merry industrial to new cult status. Future's so bright—might have to hire a maid.... Royal Crescent Mob's upcoming single "Happy At Home" (Celluloid Records) is a huge turnaround from their raw, uneven sound of two years ago. Somebody in the band must have won the lottery. "Happy" is a finger popping ankle jiggle.... A few to chew: Vigil's "Therapist" from the "Nightmare" soundtrack.... Let's Active's "Night Train", D'Molls' "D'Stroll" and Jane's Addiction (anything).... Uncle Milt's Toothpicks for grinders only: Metallica's version of "Red Fan", also up and comers Leige Lord, Intrinsic and Houston band Helstar.... The Future's so dull, you'll all be playing Tull: an awful lot of changes in radio lately. So you noticed? How many of you actually have contracts?.... Need a job? Call Lee Abrams in Atlanta 404-266-1585, that's 404-266-1585. You most likely won't get a return phone call. I know. I tried two months ago.

**Brad Thiel, KRCK, Omaha**

NEW HOURS... NEW HOURS... NEW HOURS... Brad "The Guy From Kiss" Thiel is now accepting calls from Monday to Thursday 2-4PM.... In response to "Red Red Wine" going nuts on Top Forty, the Meat Puppets "Up On The Sun" goes to heavy at this station. Thank you and goodnight.

**Bill Evans, KTAO, Taos**

We're using three tracks from David Lindley and the biggest reaction track is "Papa Was A Rolling Stone" which he uses live—but the smoothest track which appeals to females is "I Just Can't Work No Longer".... Robben Ford is perfect for our sound because he adds vocals to his instrumentals which sound perfect at our station.... John Hiatt is just tremendous! With a lyric like "Kids in the backseat bangin' like Charlie Watts" you can't resist. It's nice to see him get a band! For an interesting blend without getting to dancey, try Grace Pool. Great blend of 80's subtle sound that is a cut above the rest.

**Lora Porter, KPGA, San Luis Obispo**

Danzig, Danzig, Danzig! I listened to it three times in a row the minute I got it—not as heavy as I thought it would be but still a masterpiece—definite Rick Rubin.... Thrash-a-thon '88 is one week closer! More pros have agreed to skate and two more bands have agreed to play - all to raise money for the American Cancer Society. Now on the roster - D.R.I., Dr. Know and No Remorse. Who is No Remorse??? Only one of the best unsigned crossover bands that exist. Keep your eyes open for these guys. I talked to the producer of MTV's "Headbanger's Ball" and it looks like we may get a good mention.... Monte, thank you for the birthday present—you're a doll.... Until next week, keep adding Intrinsic.

**Jeff Ivan, KFMX, Lubbock**

Well it's been treated like the second coming and I guess rightly so. "Harvester Of Sorrow" is definitive Metallica. I think the first thing you notice is just how tight they are and of course it's number one phones here. We can only hope that the rest of the album is this kick-butt.... Does that new Suicidal Tendencies smoke or what? This is by far their best and should definitely be the one that breaks them.... But for me, the coolest new add has to be Jane's Addiction. I honestly believe that they are one of the most important bands to come out in the last five years. Their first major label release is an unbelievable blend of rock, acoustic psychedelic and all out power. For the metallers I suggest "Ocean Size" and "The Mountain Song". Don't tell me that you are an open-minded programmer and that Jane's Addiction isn't right for you. That's just total B.S.... Oh yeah, I almost forgot about my favorite punk thrash band of the week - Token Entry. The songs are short and sweet and they leave you in shock.... Congrats to Derek Simon on the big move and thanks to Clarissa for the Death Angel interview. Thanks to everybody for the wedding congratulations.

**Trey Burley, WZMB, Greenville**

Prue, I finally got to the concert last Saturday, but you still owe me a beer.... I'm glad to see that Winger is finally catching on.... Why aren't more people playing Seduce?!!!

**Mike Jones, WGIR, Manchester**

It's always a very happy time here at the Rock 101 homestead when a new Armored Saint record wings it's way onto my desk. This album truly captures all the energy, power and excitement of Saint live. They're definitely one of them most criminally overlooked bands of the decade. Can't wait for the CD so I can play two of my favorite Saint tunes live which are "Chemical Euphoria" and "Long Before I Die". "Saints Will Conquer" is definitely a true sounding live piece of plastic.... Danzig should count his lucky stars that bands like Metallica, Slayer and Anthrax have been indirectly promoting his band by wearing his shirts in almost every photo and live appearance. Not that Danzig couldn't do it on his own, but it definitely increases the

awareness about the band. The album is cool, a little different from the Misfits and Sam Hain stuff. A little more Cultish and Doors-like but very accessible. "Mother" will definitely grab your audience's attention. When you get the LP, check out "Am I Demon" and "Twist Of Cain". They totally rage.... Hittman are definitely gods in training. I'm totally dying to play the whole album. Yo' Schnapp, bud o'mine, you have an immensely huge band here. Jump on it now.... Whiplash is a year old as of Labor Day weekend. Where did all the time go?

**Jeffrey Nauman, Virgin, 213-278-1181**

Another good week on Colin James with lots of adds coming in from the midwest. "Voodoo Thing" should be closed very soon and is getting immediate reaction at both retail and phone requests. There are lots of people buzzing about Ian Gillan and Roger Glover. "Telephone Box" is the best Deep Purple music in several years and should be an automatic everywhere rock and roll is programmed. We have a new sound track from the movie called the "Courier" it features new songs from U2, Declan Patrick McManus, (Elvis Costello) the Hothouse Flowers, and a brand new band, "Something Happens" with a veritable succaahh called "Burn Clear". "Burn Clear" is a one listen smash so check it out.... If you haven't listened to Sam Phillips yet, you are missing a real masterpiece. It's produced by T-Bone Burnett and it reminds me of the Beatles with a female lead singer.... Finally you will be absolutely blown away when you hear the new Keith Richards album, its one of those records that every time you listen you will have another favorite cut. I predict Keith's album will be the key album in 1988.

**Sean Coakley, Arista, 212-830-2178**

The Bunburys song on the Olympics '88 Soundtrack features none other than E.C. singing "Fight (No Matter How Long)". We have joined together with NBC television to create a soundtrack for the games which begin September 17. The music on this album will be featured during the daily broadcasts to an audience of tens of millions. Not bad. The Bunburys actually refer to cartoon characters from a children's T.V. program from England. In any case, the music is strong and will fly.... later this week you'll get the album and CD of The Jeff Healey band. Note that we are not spoon feeding you with an advance 12" or promo CD. I'd like to try to return to a time when programmers actually listened to music. Heard whole albums. Understood artists. This one-song-at-a-time undermines our format and underestimates your potential. Many of you have already heard the Healey from the advance cassettes we sent out. Several have called here to testify and announce your immediate membership in the fan club. All I can say is that we have an unusually gifted, bright, and mature player (at 22) who will be a source of pleasure to many for years to come. And when you see him live...goodbye. The video we're making is for "Confidence Man", a John Hiatt song that will further establish his reputation as the writer of the day.... Look for the wonderful edit of "Destination" from The Church which brings the song in under 4:20. The tour continues....

**Jill Maxick, Chrysalis, 212-326-2337**

If you are having trouble getting through to WRAS in Atlanta this week, don't worry that it's a problem, on your end of the line. Apparently Was Not Was "Spy In The House Of Love" is blowing up the phones at Album-88. At least that's what Kim Saade told me. Top 10 requests in one week! The LP "What Up Dog?" ships 9/6.... The Bible's "Skywriting" gets a lead from WFNX, KBCO, KTCL, KZNS, WTCS, WRCN, and WHFS. Don't neglect the acoustic B-side; six tracks!!!! Getting much notice from the "Nightmare On Elm Street part 4" soundtrack is Vigil with the eerily perverse "Therapist" and Sea Hags title "Under The Night Stars".

**Victor S. Lentini, Chrysalis**

Well here I am! Oh, you haven't missed me. Thanks a lot. First of all, I'd like to thank Jeff Laufer, Greg Thompson, Kevin Sutter, Daniel Glass and everyone at Chrysalis for offering me a great opportunity. I'd also like to thank the staffs of The Hard Report, Album Network, FMQB, Gavin, and R&R for their support. Thanks to radio programmers such as Lin Brehmer, Bill Evans, Jonathan L., John Edwards, Ron Sorenson, Carter Alan, Phil Maicke, John Amberg, Steven Page, Steve Masters, and Ken Martin for a great point of reference. Alright enough already. So I'm leaving the left coast for my sweet homeland, Chicago. My address and phone will be in my next chapter.... Major Rockin' tune! I'm talking about "Under The Night Stars" new from the Sea Hags. This kicks ass. It's on the "Nightmare On Elm Street 4" soundtrack. How's \$13 million at the box office, the first week out! That's like outta-the-box-office, man. Vinnie Vincent has the weapon with "Love Kills" straight from Elm Street to your airwaves. Early believers include KJJO and KNAC.... Sure to be a hit with your upper demos is "Skywriting" the second single from The Bible.... Pat Benatar is back with a follow up to her first smash, "All Fired Up" urging you, "Don't Walk Away".... There is no reason to deprive your listeners of "Lock Your Fingers Clean", a hidden classic from the Aqualung sessions, which is one of the many gems from the Jethro Tull box set. Jump on it! What can I say, Huey Lewis continues his successful trek with "Small World" as this LP is easily 3, 4, 5 cuts deep.... And something very special is Adele Bertel. This woman has been in the studio with many aside from her own projects. Adele presents a collection of classy and stimulating songs great for the upper demos and stations like KTCZ, KTAO, KNX and KINK.... Remember Chrysalis for great artists and the future with Midge Ure, The Pursuit of Happiness, World Party, Sea Hags and the Waterboys.... Also, "Spy In The House Of Love", a smash from Was not Was.

**John Hammond, Rykodisc, 508-744-7678**

Bridging the gap between the hip alternative underground and your rock & roll audience...yes, it's The Screaming Tribesmen and their first single "I've Got A Feeling." Oh, what a kick it was to be out in Minneapolis this weekend, and hear the Tribesmen on KJJO right alongside Guns & Roses and Def Leppard--and then come back here to find out that the album hits the Gavin Alternative Top 20 in just its 2nd week on the chart. Adds this week on "I've Got A Feeling" include 91X, WRCN, KOAS, WCKO, and KTCL -- add those to early believers like WHFS, WVV, WRSI, KJJO, and KOTR, and you know what you have? A real record! I'll tell you a secret: we're not going away on this one! This is the record that establishes this label as more than just "those guys with Zappa & Hendrix CDs"--that establishes us as a real artist development label--and we've got the record to do it!

**Nick Cucci, Rough Trade, 212-777-0100**

Want to bring your attention to a song that deserves a listen, and then two and three listens. It's called "Baby Milk Snatcher" off the new A.R. Kane LP "69". When released as a single in the U.K., it stayed in the top five for over a month. And the album, oh boy--what an album!, hit #1 on the indy charts and stayed there for over a month. It's been called album of the year already by a string of U.K. writers, and the response here has been overwhelming. Listen to "Baby Milk Snatcher"--an unusual title for an fabulous song by an unusual band off a phenomenal album!

**Megadon, Combat, 718-740-5700**

Well, I'm back from vacationing on the Incorrect Coast, that is, the beautiful beaches of California. And what have I learned? Well, sunburn itches a whole lot, the entire country is a desert with green around the edges, there aren't as many Bottle Blonde Beach Bunnies in Bikinis as you think, there are too many personalized license plates, it's impossible for my body to tan (for which I am thankful--I need my East Coast pale), Disneyland causes claustrophobia, the cars stop for pedestrians, residents are obsessed with seafood, it's way too quiet, the freeways are not scary places to be, the people are no different to the rest of the nation, and the rainbow could never hold a candle to the coolness of our own long-gone Lismar Lounge. Highlight of my trip was scaring the hell out of Zowie and Ricky from Circus of Power at Jezebel's in Anaheim. They had no idea I was out west (who did?) and I'll never forget the looks on their faces. Not bad for a last-minute, spontaneous vacation. But now I'm back, and Hollis is Hell.... You should be holding copies of "Leprosy" by Death (play "Forgotten Past") and "Powertrip" by Ludichrist (go with "This Party Sucks" or "TBOS"), and let's keep up the good work with Intrinsic, or Lora Porter will kill you all. Sorry I didn't get a chance to scare you in person, Porter, but I didn't get the chance to annoy Clarissa, Slagel, or anyone in the Important West Coast office, either. Oh well...Oh, yeah! Impellitteri's expected to tour shortly. Keep those fingers crossed.

**Liz Brooks, Relativity, 718-740-5700**

Closing out your basic NYC summer with a bang, I promised the WWF I'd throw in a plug for SummerSlam. Highlight of the evening with Hulk Hogan and cohorts was the security guard who announced to all attendees that "Important Record Distributors bought an entire row." I'm now researching ways to sandwich The House Of Love between tag team matches on their upcoming tour.... Weather Prophets is a sleeper, so don't be dull, give a spin to "Always The Light". Nikki Sudden will be doing his promo junket in October. Coming up on Relativity: T. Rex and Scruffy The Cat. Dunno which is the classic hit.

**Rick Winward, Enigma, 213-391-4561**

This isn't the way it usually happens, but it's happening. Seven weeks ago, Hurricane's "I'm On To You" peaked on the AOR charts as determined by your reports. Two weeks after losing our AOR bullets, the "I'm On To You" video debuted among the top 10 Most Requested Videos at MTV, it's been top 10 ever since. #8 yesterday. Three weeks ago, the LP regained a bullet on Billboard's Sales chart. "Over The Edge" has now moved 163\*-110\* since then. And according to Monday Morning Replay, LAST WEEK "I'm On To You" was getting MORE rock radio exposure than EVER BEFORE, increasing in monitored plays from 119 to 140 and moving 30\* to 25\* on their chart. Actual sales are hotter than ever. We moved 9000 pieces in the last five days, 16,000 over ten days. Now top 40 stations are adding the track, including WGH in Norfolk and WROQ in Charlotte. Our commitment to this band is absolute and unyielding. It's that old school of turtle promotion in practice again.

**Clarissa Garcia, Enigma Records, 213-390-9969 (ex 215)**

Hey, boys and girls, I'm in with the in-crowd now. By the time you read this, I'll be full time here at Enigma (finally). Thanks to all those who supported and encouraged me during the last few weeks: Big brother Jem (for his ear and shoulder even with two calls on hold), Cheryl (we would've been lethal), Karina here at Enigma ("Need to talk? Int'l's doors are always open"), and Jess ("Clarissa we're behind you 1000 percent!"). You guys are great! More special thanks to Chrisby for her kind words after last week's interview with Death Angel. I never really thought of myself as "Calm, cool and collected"--I'm always pulling my hair out for one reason or another. But like that famous song by that famous band goes, "I get by with a little help from my friends". Thanks for being one o' doze friends, Chrisby. Enough mushy stuff.... Death Angel's first tour dates include: 9/9 Phoenix, 9/10 El Paso, 9/12 Dallas and 9/15 San Antonio. Guitar gods Ronnie Montrose & Allan Holdsworth will be in San Francisco 9/9 & 9/10. Barren Cross' forever tour

continues: 9/8 Pittsburgh, 9/9 Jamestown, 9/10 Cleveland, 9/13 Charlottesville and 9/15 Huntington. Call to set up interviews. Talk to ya soon babes and dudes!

## Monte Conner, Roadracer, 212-219-0077

There's something quite bizarre happening. Remember those King Diamond special tea bags? Well, they've been causing certain people to do very strange things. For instance, after drinking the crimson brew, Cheryl Valentine actually was heard to shout: "If I hear the words 'Fates Warning' one more time I'm gonna f\*\*kin' puke." Pretty strange, huh? Here are some more strange and unexplainable happenings: Mark Silver actually shaved. Brian Lima, Nancy and everyone at Metal Blade East broke down and finally did some work. Megadon opened his mouth and made sense, Scott Givens admitted that there is life beyond Combat, Mike Schnapp refused to have his picture taken at a recent Cat Club show, Bob Berzins at the Krusher played Slayer's "Necrophiliac," WUSB's Raz Kut, in a state of delirium, bought a one way ticket to Brazil to hang out with Sepultura, and finally we have the most shocking news of all--MJ's Mark Snider missed a free sushi lunch to interview Gang Green for Metal Shop! As for me, I hired a photographer to take a life size photo of Chris Black. Come to think about it, there's nothing weird about that. Chris is a Goddess. If anybody else knows of any noteworthy tea bag stories give me a call. Finally, in order to make up for my ragging on Noise Records a few weeks back, I'll say this: I still think V2 is a joke, but the new Rage LP kicks some serious ass. "Wasteland" is the killer cut but you really can't go wrong with any of the LP's 12 tracks. Impressive.

## Charity Kurz, Mechanic, 212-226-7272

Has everyone been in a bad mood recently or is it just me who wants to stab people in the heart at least once a day? I swear it's the moon. At least I got to release some of my aggression at Streets in New Rochelle last Friday when the Violence tour burned to an explosive halt. It was bodies on bodies on bodies flying everywhere. Thank you Todd Gordon of Torrid Records for the accurate directions to the club. Always a pleasure wandering aimlessly through the state of NY in the rain. On the subject of bits of annoyance in my life--it is my belief that people who represent radio stations should have a mental level over the age of 12. I don't know. It's one of those things with me I guess. There's always one in the crowd.... On a happier note--you'll all get a chance to check out Mechanic's next endeavor, "Majesty", on the next Hard Hitter CD. And the question still remains. Is Bill Fisher God? I'm not sure.

## John Bello, Hawker Records, 212-219-0077

Yea, it's that time again; Monday morning and I have to think of something different to write for this dialogue. Well, let me tell you about my weekend. I hopped over to CBGB's this past Sunday to check out the Pagan Babies. Would you be surprised if I told you that they rocked. Their set consisted of all the songs off their debut LP "Next", and some from their 7" EP. The Pagan Babies are working on new material for their next Hawker release.... Token Entry's "Jaybird" is still the happening hardcore release of the year. Forget about Youth Of Today and Warzone, Token Entry is it. The LP has everything you can ever ask for in a hardcore album. Both the Token Entry and Pagan Babies LP's are getting mega airplay on the hardcore/metal shows, but both LP's are also getting daytime airplay on WNYU, KBOO, WHUS, KTUH and WKDU.... So, music directors fear not, Rest In Pieces (NY's hardest) is currently working on their upcoming release. Call for info. More signings on the way. (I know you hear this every week, but contract negotiations takes time.) Call for interviews, posters, info and advice. Until next time....

## Colleen Baxter, SST, 213-835-8977

According to the Album Network, "Sylvia Juncosa's 'Nature' is a solo LP supreme." CMJ calls Sylvia, "High Priestess of the Sacred Order of Headbangers With Brains" and praises "her ability to display utter mastery over her instrument without wanking off about it." Recommended tracks: "Lick My Pussy, Eddie Van Halen" (don't worry, it's an instrumental) and "Tower of Ashes"....A record that will live up your jazz show is the Universal Congress Of's "This Is Mecolodics". If you don't have a copy and would like one, call me.... Arriving this week is the new Screaming Trees LP, "Invisible Lantern". If you like psychedelic guitar rock with trippy vocals and distortion in all the right places, then play this record and see them on tour with FIREHOSE next month.... Speaking of live music, we witnessed an amazing SST double-header last weekend when the Meat Puppets and FIREHOSE played to a sold-out crowd at the John Anson Ford Theater here in Hollywood. FIREHOSE played a short set (including some killer new songs) and left the audience dying for more. Then the Puppets tore it up for two hours, satisfying all in attendance (and probably irritating the hell out of all the old folks at the Mel Torme concert at the Hollywood Bowl just down the road).... Next up: Grant Hart EP, Henry Keiser LP, Dinosaur Jr., 7".

## Russ Gerroir, Concrete, 212-645-1360

Sometimes good things come to those who wait and Rhett Forrester's waited long enough. "Even The Score" has been building radio support since its release. Those already playing the record will attest, if you're not already on Rhett, he deserves your undivided attention. Take a chance that you won't regret.... Another record quickly becoming a monster is Winger. Over 60 AOR stations, great metal radio support, medium rotation at MTV and top 15 MTV requests tell the unfolding story. The first single is "Madalaine", the

story is success.... And then there's Slayer with their album "South Of Heaven", all I've got to say is #1 for a month and thank you for all your support.... Good things are a commin' from Ozzy Osbourne and Anthrax.

## Deborah Klinger, Apache, 213-466-9958

Another week, a few more AOR adds--What's the rush, guys?! In utter seriousness, John Brannen is an artist who deserves your interest, your commitment, and your airplay. He deserves a chance. Your audience deserves a chance to hear "Mystery Street" and decide for themselves. Try it!... Remember the ending of that classic piece of literature, Dr. Seuss' Green Eggs and Ham, "But wait! There's more! Much more!" Next week, clear a space on your desks for "Blue Taboo", the hypnotic debut single from Hollywood Underground. It will drag you from wherever you are into a searing new world. Mesmerizing drums, commanding vocals, and a lyric you'll never forget. "Blue Taboo." Prepare to enter the Underground.

## Cheryl Valentine, Metal Blade, 212-645-6208

Yeah, they set me free and I removed Lizzy's Rubber Chicken from its Siberian Hell. D.R.I.! D.R.I.! Yes, it had to be said. Those boys are kickin' some serious rump-cakes! Their requests are soaring in their conquered territories and more people are demanding that they get their dosage of the imbeciles. So what's your problem? The new Helstar LP rules. Try the death defying chords of "The King is Dead" or "Abandon Ship" and then attempt to tell me that you have no more room.... On its way to your sweaty palms is the Armored Saint live EP. I know that a ton of you are drooling in anticipation of this release. Any sec now you'll be able to elude that transparent dribble and bless your ears with The Saint. They're raw, they're very live, their in your in your living room and they didn't over-dub this baby! Your life, as you know it, will come to a grinding halt. Actually, you should just play the #!\*\$ out of this because these are some of the coolest dudes you will ever meet! Just ask the Mega One.... Guess what I'm gonna do this weekend? Why, go see Fates Warning shoot their video for "Anarchy Divine", of course. It's a tough job, but somebody's gotta do it.... Little known fact of the week: Monte Conner is wanted by the FBI (not the booking agents) for distributing pornographic material through the mail.

## Walter Rittman, DIR Broadcasting, 212-371-6850

Greetings friends old and new. This week on "The World Of Rock" with Scott Muni, we spotlight Rod Stewart's latest album--take a look at Elton John, "Then and Now" and present a very special "Rock Collage" (What do the Beatles, Ray Charles and Aretha Franklin have in common?). Steve Miller is Scott's co-host in the studio, Robert Cray checks in by phone and we've got a concert report of Robert Palmer from our buddies at KMOD Tulsa. All and all, one heck-of-a informative, music-intensive 4 hour air shift with the number one rock authority--the one and only Scott Muni. Join the growing legion of smart programmers already on the "World Of Rock" with Scott Muni. This week on King Biscuit, a classic couple of performances. Humble Pie and Frampton's Camel live in concert.

## Chris Kamatani, Chameleon 213-973-8282

Can you handle "That Kind Of Girl"?? Hope so 'cuz the new album from Precious Metal is here and it rocks!! Primo production by Paul "Only Child" Sabu. Killer performances by five top-notch, not to mention very Hot Looking, musicians--Leslie had a platinum record in Europe; Janet is prize student of the late Randy Rhodes, etcetera, etcetera, etcetera. Sizzling artwork by world-famed artist Nigel Skiles. Check out "Stand Up And Shout" and "Sweet Sweet", which are the KNAC pics. I wish you all could have been at their Hollywood album release party to witness These Kind Of Girls in action. Everyone in the star-studded audience stood up and shouted, even ex-Who member John Entwistle. But it's not too late. Precious Metal are on tour and will be in your town soon. Next stops: San Francisco, Portland, Seattle, Spokane, Vancouver, and more! Billboard compares them with Poison, but I think Precious Metal are prettier. Let me know what you think!... Also check out the self-titled debut by Tender Fury, ex-TSOL founders who have launched their hot new band (they're on tour too).... "Decorated Life", the first album by ECOTEUR, formerly Einstein's Riceboys, artful rock with very cool percussion sounds and produced by Violent Femmes member Victor DeLorenzo; and The Bonedaddys' "A-KOO-DE-A!", which hits #40 on L.A.'s KROQ and was featured for an hour on rival L.A. station KMPC.

## Michael J. Schnapp, SPV, 516-783-3040

"Will You Be There". The first song from a new band with a bright future. They are Hittman and you like them. With great initial response, Hittman "will be there" on the radio. F.M.Q.B. Metal Detector #20 and CMJ debut #40 and Rumblin at Hard. M.J.I. Metal shop is there, the week of September 16th. Need I mention, WBAB, WSOU, WKNC, KBER, WBCN, KFMX, WHJY, WPYX, Mike Jones, Mike Colucci, Dr. Metal (another Mike) Jeff Ivan, of course fingers, shit, alot of you, all giving the thumbs up to Hittman. Watch for the full Hittman LP in mid September. Also do not forget Steeler. On KRSR, KNAC, KGB, WHJY and more. This is a band that has surprised people, play it and you'll get calls, "who are these guys, they're great". More newbands: Assassin & Mekong Delta. Do not overlook these records. They are great quality, original and exciting. I will reservice these records with the new LP by Hobbs Angel of Death. These dudes are from Australia. Brace yourselves!
