ROAD THE WET SPROCKET, "Fall Down," Columbia The band that named itself after something in a Monty Python skit is back with a new album named after a character in the novel "Don Quixote." The hard-rocking "Fall Down" is the debut single from *Dulcinea*, coming out in late May, the first new album from this California quartet in three years. May we refresh your memory about their 1991 platinum LP *Fear*? "All I Want" spent an amazing 23 weeks on the Hard Hundred, while "Walk On The Ocean" was on the HH for 15 weeks. (The pro-CD for "Fall Down" includes these tracks if you need your memory refreshed.) Now, the band says *Fear* was too "manicured," so they've gone back to the basics to create more of a "live" album. The plaintive vocals on "Fall Down" combine with the band's energetic sound to provide a tempting teaser of the band's new straight-ahead rock & roll approach.

Hard Acts To follow

Traffic, "HERE COMES A MAN," Virgin John Barleycorn's probably dead by now, but here comes a new "Man" to demonstrate that Traffic is as heavy as ever. "Here Comes A Man" goes 9 to 7* on the Hard Hundred and ranks number three in conversions with 17 stations getting into the fast lane. And Traffic goes Top 5 at AAA with a 6-5* move. There are a total of 158 stations on the track now, and a dozen just came on board this week — KJOT, KSEZ, KSFY, WKLC, WKQZ, WNCD, WNOR, WTKX and WXRT. Programmers clearly welcome the return of a classic band whose sound hasn't fallen out of fashion over the years. "This great song encompasses every signature sound Traffic ever had," says Jack Mitchell at WIBA. "Not dated at all. Refreshing and updated." "It's a big release," says Riki Holberg at WMMR, who's playing "Here Comes A Man" five times a day. "This is a real return," says Mike Luoma at WIZN. "Good Steve Winwood. Each time I hear it, I hear Traffic. Nice woodwinds, great elements." (Does he really mean "Nice Winwoods"?). This thing is gonna be huge," predicts Don Nordella of WNCD. "I dig it in a big way." Traffic is already getting Top Five phones at a dozen stations. Check out Traffic on the Letterman show on May 13. Now that the album's in your hands, do check out "Nowhere Is There Freedom", the instrumental "Mozambique" and the title track.

GREAT WHITE, "Sail Away," Zoo New hair, a new logo and a new approach for this veteran band. They've gone back to their roots (we mean the music, not the hair) in the style of Bob Seger and the Eagles, going for a mostly acoustic approach, and using old guitars and amps to create a sound that also includes some nice harmonies. So, nix the hair band image you associate with the *Once Bitten* era. Now we're talking about a band that can attract upper demos for AAA stations, at the same time they're saving the atmosphere by using less hair spray. "Mother fucker, Incredible. It's the best thing they've done in a long time," J. Nagarya at WKDF. "The first few albums were original and unique. On this one, Jack's melody lines are different." Great White have just hit the road, playing places like Dallas where they can play five nights before a thousand folks each night. COR stations might get distracted by the live disc, recorded in Anaheim, that accompanies the *Sail Away* album - which, by the way, includes their interpretation of Led Zeppelin's "Babe I'm Gonna Leave You." The seven-song live disc is being included as a freebie with the 10-song LP, being offered at a special price. Adds in the past week include KATT, KBER, KOMP and KSQY.

Cheap Trick, "You're All I WANNA DO," WB What a cheap trick. The cynical among us were ready to dismiss the band 'coz they've been playing together for 17 years. So, what does this quartet do? They take the first track from *Woke Up With A Monster* and get to the Top 20 on the Hard Hundred in just two weeks and stay there for another four weeks. The unmitigated gall. What a cheap trick. Then again, that's what we expect from Cheap Trick. Now we're dealing with the song the fans want from the "Woke Up" album. "We're getting calls for another Cheap Trick track," says Pam Landry at WJLB. This mid-tempo track debuts at 100* on the Hard Hundred and will no doubt climb as the band goes on a summer tour and the video for this track gets exposure. Seven stations are on this song already, with four stations (KJKJ, KQRC, WDHA and WPLR) coming in this week. There's already heavy play at KIBZ.

BOZ SCAGGS, "SOME CHANGE," Virgin This is a radically different version from the album track that's already been a hit at AAA radio. Yeah, the one that went 7-3* on the AAA chart this week. "Some Change" goes 65-50* on this week's Hard Hundred. The time, sound and mix is different for this version, with new harps and guitars. The track features the Sultan of Suave's blues-y sound as well as the guitar-playing that drew attention to him in the Steve Miller Band back in the 1970s. This is Scaggs' first album in five years, and the title track is already on 67 stations, with 13 new adds this week including WGIR, WLWQ, WNEW, WPDH, WPHY and WRDU. There are top-five phones at WHPT and WNCS, and Heavy airplay at a total of 24 stations. KFOG, KMTT, WMMM, WMVY, WNCS and WRLT up Scaggs' rotation this week. "Boz is screamin' in our mornings," says Jim Kallas of KSQY. "The prefect record for the upper demos." KSEZ's Tim Harrison says "I think AOR needs a song like this. It fits all demos and has a fresh sound. It's really working for us." "Boz is back with the blues," says Michael Cross of KJKJ.

HEARTBREAK TO HATE

from the self-titled debut album
on tour with live

produced by chris frantz and tina weymouth

Live, "Selling The Drama," **R**adioactive "Drama" comes alive with a chart debut at 98* on the Hard Hundred and a 50-49* move at AAA. This has already been a Top 20 record at Alternative radio, and Live's album *Throwing Copper* is just out. Steve Strick at WBCN calls "Drama" the band's "strongest song to date. I love that track." Carl Craft of WCIZ has effusive praise for this band, using words like "huge" and "dynamite." "The band did great with the last record," Craft explains. "The time is so right for it. It feels great on the air. Everyone on the staff comes to me to tell me they love it. Everyone here digs it." Twenty-three stations are already on the track, with seven adds this week including WBCN, WBFL, WKLQ, WNCS, WPDH, and WVVV. Live is already getting Top Five phones at WAVF and WEQX, and rotation has just been upped to heavy at WKOC. "It's powerful stuff," adds Mike Luoma of WIZN. "We played two tracks from the last LP. This is a quantum leap forward. A nice edge to it."

Alice In Chains, "I Stay Away," **C**olumbia "Down In A Hole" already escaped from the *Jar Of Flies* to peak at number 11 on the Hard Hundred a few short months ago. Now comes the track that programmers have been asking for since the start of this year. COR is already running with this track, generating a 36-18* chart move. Around this time last year, Alice In Chains were getting ready to go out on Lollapalooza '93 and there are a lot of fans who will remember the band's performance as this summer rolls around, while others will be intrigued by Layne Staley's strange lyrics. "Why you act frightened, I am enlightened." Yes, Layne, we know exactly how you feel. Thirty-eight stations are now on the record, with 20 adds in the past week including KDJJ, KISS, KRAB, KSJO, WCIZ, WDHA, WKLL and WWBZ. Rotation's already been increased at WAVF and WRZX and there's Heavy airplay at KIOZ, WAAF, WVCR and WXTB.

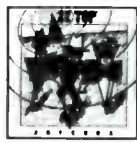

Ian Moore, "Harlem," **C**apricorn "Without a doubt, this should break him," says Beaver Brown at KDJJ. "This should put Ian over the top!" Moore's well on his way, with a 46-44* move on the Hard Hundred. The station total is now 41, with Heavy airplay at KEYJ, KKEG and WXRC. KLOL, WBFL and WGLF increase rotation this week, and KICT, KQWB, KRNA, WRXK and WZBH are the five adds for the week. "We've been a big supporter," says Mike Luoma at WIZN. "If you're in Texas, you gotta play it," adds Dale Miller at KATP.

Stuttering John, "I'll Talk My Way Out Of It," **A**tlanTic Needless to say, all the Howard Stern stations have already been playing this track, and talking about it every day for months. We won't make any cheap jokes about Stuttering John Melendez. After all, that would be in bad taste. Melendez has been punched by Raquel Welch and Morton Downey, choked by Lou Reed, and thrown out of the Grammy awards. If that doesn't endear you to him, check out his talents as a singer and songwriter. Melendez copyrighted his first song at 13 and formed his first group when he was 14 years old, where it's rumored his mental maturation process somehow stopped. Now he's come out with an album produced by Randy Cantor, who's worked with Aerosmith. "I'll Talk My Way Out Of It" is a hilariously autobiographical rock track. The accompanying video has him auditioning bass players — people like Sting and Gene Simmons. John's been touring clubs in the northeast with four people...uh...make that four HUNDRED people, were turned away in Philadelphia, where there was some serious mosh pit action and Melendez stuck around to sign CDs after the show. See, he's a rock star already! So, we think you should p-p-pr-progr-, er, p-p-pl-pla-, uh, add this track, like they've done at WBTZ.

Aerosmith, "Crazy," **G**effen Get a grip! You'd have to be crazy not to want to add this track, as sales of the current album pass the four million mark in the U.S. alone. The band's planning a huge summer tour playing outdoor festivals (including Woodstock), and Joe Perry's gone on record saying the current album "was written for the stage." Already a chart debut at 68* on the Hard Hundred, "Crazy" looks set to be the band's seventh consecutive AOR smash. Like that's a tough call. Seventeen reporters are on it, with 15 adds coming in the past week — stations like WHJY, WMMS, WNEW, WTPA and WZZO. "Deuces" hit number two on the Hard Hundred earlier this year and "Crazy" looks set to maintain the pattern. "This is Aerosmith," says Dale Miller at KATP. "This is all you need to know."

ZZ Top, "Girl In A T-Shirt," **R**CA Who wouldn't be quick to twist the knobs on a "Girl In A T-Shirt?" The little 'ol' band from Texas debuts at 79* on the Hard Hundred with the third track from their debut album for RCA, coming off two top tracks including, most recently, the Top 5 "Breakaway." Billy Gibbons' guitar leads the way, while Dusty and Frank hold down the fort with a steady pulse. Hey, if it ain't broke, don't fix it!! ZZ Top's going on tour, stopping in New York on June 6. "Girl," one of the 11 tracks on *Antenna*, fits the band's pattern of commercial success as the band goes back to its roots. You'll want to give this "T-Shirt" saturated play. Fourteen stations are on the track, including this week's ten adds — KEYJ, KLBj, KMjX, WBZX, WDHA, WRCQ, WXQR, WZNF, WZZQ and WZZR. Rotation's already been upped at WIMZ.

MOST ACTIVE

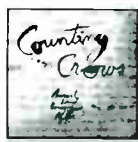

The Allman Brothers Band, "No One To Run With," **E**pica The Most Added track of the week as 96 stations run with this new Allman Brothers Band taster. The chart stats look good for first week out — a debut at 17* on the Hard Hundred and at 22* at AAA. Kevin Thompson at WRCN calls the track "vintage." "The band has nothing to prove to anybody," Thompson says. "I love it!" "Take the Allman sound with a Bo Diddley beat and you get a song that will please any Allman fan or non-fan alike," says Dale Miller at KATP. "I love it," adds WBCN's Steve Strick, "I've heard the LP. It's amazing."

Mick Ronson Tribute with **J**oe Elliott, "Don't Look Down," **E**pica Def Leppard's Joe Elliott sings on this track from Ronson's posthumous *Heaven In Hull* album. Elliott and Ronson became close last year when Elliott invited Ronson to Dublin and they finished the album Ronson had been working on since he learned he had liver cancer in 1991. Among the believers are WDHA's Lenny Bloch. "I really like it," Bloch says. "I've been bowing in Mick Ronson's presence for years." Six adds this week include KIOZ, KSQY, WDHA, WHMH, WKGB and WOZN.

Sass Jordan, "(Pissin') Down Again," **M**CA Here we go again. Sass has a Top Three track with "High Road" easy. Now, she follows it up with one of the harder tracks on her *Rats* album, an LP produced by Jordan with Stevie Salas and Nick DiDia, the engineer for Pearl Jam and the Stone Temple Pilots. "Down Again" debuts at 65* on the Hard Hundred. There's a golden shower of 22 adds this week, including WBCN, WHJY, KDJJ, KKEG, KNCN, and KOMP. And there's heavy "Pissin'" at WHCN. Jordan calls this track "emotionally hard" and a song you wouldn't have found on her previous album, *Racine*.

Counting Crows, "Round Here," **D**GC We're counting lots of adds and increases 'round here, as programmers jump on this new track from the fastest-selling album by a new band on DGC since Nirvana's *Nevermind*. "Round Here" cracks the Top 20 on the Hard Hundred by moving 31-20*. There's a 16-15* move at Alternative, a 46-43* chart showing at AAA and a debut at 47* on the COR chart. The (non-black) Crows are the second most-added of the week, picking up 27 stations (that ain't no birdseed) and placing number six on the increase index as ten stations move them to a higher airplay plane. "The lyrics hit everybody," says Steve Robertson at WJRR. "This is the perfect follow-up," says Dale Miller at KATP. "The sound is already established." "I saw them play it on 'Saturday Night Live' and I like it more than 'Mr. Jones,'" says Mike O'Hara at WKIT. "We've had lots of success with Counting Crows." Ninety-seven stations are on the track, with 27 adds in the past week, including KBAT, KEZE, KQWB, WEGR, WGIR, WHEB, WLVO, WRKI and WTUE. Top Five phones at CHEZ, KFMF, KJKJ, WCIZ, WIXV, WRDU and WSHE; and rotation increases at CILQ, KDJJ, KRZZ, KSQY, WCCC, WIXV, WIZN, WKQQ and WXKE.

Tool, "Intolerance," Zoo
It's been a year since Tool released its first full-length recording and six months since *Undertow* went gold. "We're coming off 'Prison,'" says Dale Miller at KATP. "Tool is one of those bands making a name for themselves." Beavis & Butt-head said the band's "Sober" video was one that "doesn't suck." Three adds this week, including WKLQ, WRZK and WHMH. Thirteen stations are now on the track, including WAXQ, where rotation's been just increased, and KEZE where "Intolerance" is in heavy rotation.

Pretenders, "Night In My Veins," Sire/WB
A night in her veins, several months in our chart. That's what we predict for this track, continuing its climb in the Hard Hundred with a 12-11* move. A 5-2* move at AAA, a 17-13* move at Alternative, even a 44-42* climb at COR. "Night" is the fourth-biggest coverting track of the week, with 16 stations shooting their "Veins" up. A total of 150 stations are now on the track, including the adds at KLAQ, WHTF, WIBA, WIMZ, WXLP and WYMG. "It's tremendous," says Rick Maybee at WRXL. "We added it into Heavy. It tested at 100 percent. Great phones." Tom Guild at WRDU calls it "the best I've heard since 'Back On The Chain Gang.' They hooked a winner. I love it." "It's so much what I was hoping for," says Dave Frisina at WAQX. "It breaks new ground and sound fresh." "A very good song," adds Greg O'Brien at WPDH. "It's about time Chrissie Hynde decided to get back to playing music." There are Top Five phones at KJKJ, KSQY, WAVF, and WRCQ. The environmentally-correct Hynde recently bawled out a record executive who gave her a cup of coffee in a styrofoam cup. Don't say we didn't warn you.

Mother Station, "Put The Blame On Me," EastWest
Mother Station "kicks ass," says Paula Hanson at KEYJ. "This feels like Sass and the Doors all rolled into one. We love it. This is the kind of record made for AOR — all day long." "It sounds like what Sass should do," says Ace Cosby at WFBQ. "It's terrific." KLAQ's Al Jones thinks the band's sound is "reminiscent of Janis. Very '60s-ish, very progressive, very retro." Regardless of who they remind you of, you can't dispute the chart success of "Blame," which climbs 60-52* on the Hard Hundred this week. The station total rises nine to 32 stations, with increased rotation at KLAQ, KQDS and WXZL. Adds for the week include KJKJ, KZRR, WKLL, WRIF, WRUF, WTPA, WTUE and WXRC.

Primal Scream, "Rocks," Sire/WB
They've got the swaggering horn charts and even the lewd style of the Rolling Stones, or maybe the Faces. The shift away from noisy pop to early '70s blues-influenced rock & roll has served these Scotsmen well. "Rocks" moves 25-24* on the Hard Hundred, 38-34* on the COR chart and 18-17* at Alternative. The station total is now at 89, with eight new stations this week — KATP, KYYS, WGIR, WHJY, WRCQ, WRIF, WWDC and WYMG. Top-five requests at KSFY, and rotation increases at KEZE, KICT, KSFY, KSPQ, WBFL, WMMS, WVBR and WVVV. "I think it will be a summer anthem," predicts Paula Hanson at KEYJ. "A great car song. Any song you can sing the first time you hear it, you know you've got a biggie."

Stick, "Grind," Arista Five
Years together for this Midwest band has given them time to work on their intense sound. "Grind" is an appropriate title for a track with such grinding in-your-face energy. Mark Smirl could get a job singing with Black Sabbath. Adds this week include KNCN and WLZR, bringing the station total to six. WRZK has increased Stick's rotation.

Meat Loaf, "Objects In The Rear View Mirror May Appear Closer Than They Are," MCA
You took the words right out of our mouth... With LP sales past the 4 million mark, this track is headed to higher plateau with a pure mass appeal smash. Not to mention a nice 59-47* move on the Hard Hundred, largely due to these dozen adds: KCLB, KRNA, KSPQ, WHCN, WHJY, WKIT, WMMR, WNEW, WONE, WRCN, WRKI and WSHE. "Another fucking mammoth edit," says T.J. Bryan at WDHA. "It'll fly," adds Jim Kallas of KSQY. Dale Miller at KATP says, simply, "it's mass appeal." Already weighing in with Heavy rotation at WGIR.

Rush, "Animate," Atlantic
Coming off the Top Ten success of "Nobody's Hero," "Animate" makes the climb up the charts, debuting on the COR chart at 38* this week, and climbing 53-34* on the Hard Hundred with a station total of 55. Part of the reason for the chart moves? "Animate" is the third most-added track of the week, picking up 25 new stations this week, including KATS, KILO, KQDS, KSHE, WCIZ, WIMZ, WLZR, WMMR and WPYX. Airplay's been increased at KDJK, KEZE, KSQY and WPLR; and there's heavy play at KEYJ, WCCC, WHCN, WIZN, WKLL, WPLR and WRKI.

Cracker, "Get Off This," Virgin
"No, get on this," says Dom Nordella at WNCD. "I like it better than 'Low.'" Dom's not alone — "Get Off This" moves 33-27* on the Hard Hundred, following the Top-five success of "Low." COR agrees as well, with airplay boosting the chart position from 26-23*. Seventy-eight stations are on this, as 13 stations come on board this week, including KEGL, KILO, KSQY, WDIZ, WPDH and WXKE. Top-five phones at WRCQ and airplay increases at KDJK, WAOR, WBTZ, WCIZ, WIXV, WTKX and WZNF are part of the story. Heavy airplay at KIOZ, KRRK, KSEZ, WEQX, WRZX, WTKX, WXRC and WZNF.

Melissa Etheridge, "All American Girl," Island/PLG
"Girl" continues to climb, going 15-14* on the Hard Hundred and debuting at 49* on the COR chart. Eight stations (CILQ, KDJK, KKEG, WAPL, WAVF, WRKI, WYMG, WZXL) increase rotation on Melissa this week. "All American Girl" tells of a woman weakened by tribulations and challenges but it concludes with the words "she keeps pushing on." "It's the first one we've played in the modern era," says Kevin Thompson at WRCN. "It's got a great edge." The station total of 105, with KLAQ, KQDS, WMMS, WRCN and WXKE coming on board this week. Melissa's getting Top 5 phones at KATP.

Rob Rule, "She Gets Too High," Mercury
If you doubted whether Rob Rule would get "Too High" on the Hard Hundred, you've no further room for doubt. A 45-37* placing on the HH with a 49-43* jump on the COR chart for this Don Gehman-produced track from the Los Angeles band's upcoming self-titled album. Forty-six stations are now on board, with 15 adds in the past week, including KISS, KQDS, KQRC, KQWB, WCCC, WCIZ, WIXV, WOUR, WPLR and WRXL. "It takes five listens and then, POW!, you get it," says Jay Sisson at WIXV. "Good initial testing," Phil Marlow reports from WCCC. "It spelled an add for this week, and we know that it will continue to grow." "I really like it," adds KLOL's Dayna Steele. Rotation's been increased at KDJK and WKVT, and airplay is already heavy at WXTB.

Smithereens, "Miles From Nowhere," RCA
Across the board success for what Matt Mangus at WRCN calls a "classic Smithereens tune. COR, mainstream, alternative — it's universal." Matt's absolutely right, as evidenced by the 14-13* Hard Hundred chart move, the 28-25* increase at AAA, the 27-24* move at Alternative and the Top 25 success this band's had at COR. The station total is now at 130, with WAOR, WBAB, WBCN, WJRR, WRFY, WYXU, WWWV, WZXL and WZZQ among the 14 adds this week. Belinda at KEZE says "it's great sound that's really good on the air. A really fun song." "It's taking off," says Jim Kallas at KSQY. "We expected it." Tim Sheehan of WRKI agrees that the track "sounds great on the radio." Top-five phones at WRCQ and airplay increases at KFMM, KMJX, WAVF, WEGR, WMAX, WNCS and WVBR.

Candlebox, "Far Behind," Maverick/WB
Continued success for these guys, as "Far Behind" moves 9-8* at COR and ranks fifth in conversions this week, with a dozen stations upping rotations. Another 10 stations come on board this week — KISS, KRAB, KZOZ, WAVF, WKQZ, WRKI, WROV, WRUF, WXKE and WZBH. And WCCC, WHCN, WKIT, WRCN, WTKX and WTPA are among the 16 stations with Top-five phones. "Far Behind" debuts at 49* on the Alternative chart and moves solidly into the Top 20 of the Hard Hundred with a 20-18* move. "This track can't lose. It's a mass-appeal smash," says Darren at WKLQ Grand Rapids. "We always get good reaction," says Beaver Brown from KDJK. "It's been a favorite around here." "Easily the best track on the LP," says Jarrad at WBLM. "These guys are for real." WHDQ's Guy Dark says "the live version of Candlebox's 'Far Behind' on the CD-pro is way cool, I dig the foray into 'Voodoo Chile!'" "We love it," says KEZE's Belinda. "We love the live version. I had a blast in the mosh pit..." A dozen stations up rotation this week, including KDJK, KLPX, KSJO, WDIZ and WTUE.

Sugartooth, "Sold My Fortune," DGC
A 23-22* move on the Hard Hundred this week with the tooth fairy visiting five new stations this week — KBPI, KLAQ, WEGR, WKIT and WSHE. "It's a reaction record," says Phil Marlowe at WCCC. "It's the type you play and people call in." Top-five phones have been reported at KBAT, WBTZ and WDRK, and increased rotation at KBAT, KQDS, KZRX, WDIZ, WRCN, WVCR and WVVV. Nine stations are giving "Fortune" Heavy airplay — KBAT, KILO, KIOZ, KQDS, KZRX, WBTZ, WKLQ, WVVV and WXRC.

THE TEA PARTY, "The River," Chrysalis/ERC The doors seem to be opening for this band, as "The River" flows from 73-61* on the Hard Hundred. Twenty-five stations runnin' with the track. KRXQ and WWWV come on board this week, as KEZE increases rotation. "Jim Morrison reincarnated," says Scott Steele at WRUF. "It's a great track," says Mike Luoma at WIZN. "Mythological references, a Middle Eastern tone and a powerful tune." "Multiple 000000HHHH's," says Carol Seidel at WHTF.

FRANCIS DUNNERY, "AMERICAN LIFE IN THE SUMMERTIME," Atlantic "It's a pop hit record," says David Rossi of WAVF, who, like Scott Laudani of WHEB, thinks the track is "quirky." Quirky or not, Dunnery climbs 94-84* on the Hard Hundred with his slice of "Life." Thirteen stations are now celebrating this Scotsman's view of the season, including the three adds this week — KMOD, KXFX and WRUF. "I love it," says Dayna Steele at KLOL. "Perfect timing."

MICHAEL BEEN, "Us," Mowest/Reprise Been's "Us" goes 68-66* on the Hard Hundred and debuts this week at 50* on the Alternative chart. It's a really cool record," says Dom Nordella at WNCB. "A great voice. I like it a lot." "This is one of those things that mow my lawn," says TJ Bryan at WDHA. "Lots of people are asking about it," says Mike O'Hara at WKIT. Eighteen stations are on the track, as WAVF adds "Us," and WDHA reports Top-five phones.

GREEN DAY, "LONGVIEW," Reprise Here's a group that crosses a bit of raw punk energy with some wonderful pop melodies, with good results — results like a 52-45* climb on the Hard Hundred, a 12-12* on the Alternative chart and a 28-24* climb at COR. Forty-two stations are on board now, including the ten adds in the past week — KISS, KRNA, KRXQ, KSJO, WBTZ, WDRK, WHTF, WJRR, WKLQ and WRUF. Bass player Mike Pritchard and guitarist Billy Joe Armstrong have been playing together since they were 11 years old. At age 17, they formed Green Day. "It recalls all the great punk bands of the '70s and '80s — except these guys can play their instruments and sing," says Jarrad at WBLM. "A nice buzz," says Scott Laudani. "The young demos are calling at night," says Chuck Robson at KSPQ. Some great guitar arrangements and a kicking rhythm section, and the band's just wrapping up a six-week U.S. tour. Top-five phones at KIOZ, KQDS, WCCC, WKLL, WRZX and WVVV, with a rotation increase at KUPD. There's Heavy airplay for "Longview" at WAAF, WIYY, WMMS and WRZX.

PETER FRAMPTON, "YOU CAN BE SURE," Relativity Frampton's eponymous return to recording is the best studio effort of his career, and this is one of the strong, immediately recognizable songs from the LP. "Sure" moves 54-53* on the Hard Hundred this week, thanks to airplay at 34 stations. KATP, KKRV, WCMF, WHPT and WSHE have added "Sure" this week. KSEZ has increased rotation to Heavy, joining three other stations. "A beautiful song," says Paula Hanson at KEYJ. "Good female appeal and phones." "It's an adult record," says Mike Luoma at WIZN. Frampton fans haven't had an album since *When All The Pieces Fit* in 1989, and *Frampton Comes Alive!* remains one of the top-selling live albums of all time. Speaking of that record, Dave Kane at WCMF calls "You Can Be Sure" a "very pretty song, reminiscent of 'Baby I Love Your Way.'"

THE GRAYS, "VERY BEST YEARS," Epic The Grays' mid-tempo guitar-pop has been attracting attention for a few months now. Their detailed songwriting, lush keyboards and sparkling vocal harmonies are part of the reason. Maybe it's because the band has three songwriters who are also singers and guitarists. "Top five phones the first week we played it," says David Rossi at WAVF. "People love the sound of it. They compare it to Chicago and the Beatles." Meanwhile, from WBLM, Jarrad calls "Very Best Years" "one of my favorite songs out there now. Keep your ears on this one. It goes all over the place and sounds damned great doing it." "We're already seeing phones on it," says Paula Hanson at KEYJ, "and it's not getting day play." "Years" climbs 98-87* on the Hard Hundred this week, with airplay on 11 stations. Four adds this week include KRNA, KSPQ, WCIZ and WRUF.

ANDY ALLEN EXITS ISLAND

Lots of rumblings about possible restructuring within the **PLG** organization, but the fact of the matter is the real story on the changes won't be known until this coming week. One definite development this past week was **Andy Allen's** exit as **Island's** General Manger, but beyond that, it's all pure speculation at this point. More to come, obviously.

LONN FRIEND HEADS TO ARISTA

It won't be official until next week, but Noise has learned that Rip Magazine/Album Network's Metal Editor **Lonn Friend** is leaving the print business for a position with **Arista Records**. His exact title was unconfirmed, but he will be joining the label's A&R department on the West Coast.

LEARY NAMED ATLANTIC VP/A&R

Andrew Leary

Andrew Leary has been appointed to the newly created position of Vice President of A&R and Multimedia for **Atlantic Records**, based at the company's L.A. offices. Atlantic Group Chairman/CEO **Doug Morris** commented, "The creation of this position within our A&R department reflects The Atlantic Group's firm commitment not only to increased involvement in film and television soundtracks, but also to the exploration of new and as yet undiscovered audiovisual media. This represents yet another step in our

ongoing efforts to ensure that Atlantic remains on the cutting edge of the ever-evolving recording industry." Atlantic Records President **Danny Goldberg** noted, "Andrew brings a combination of lawyer's sensibility, an agent's instincts, and the flair of a true music fan to his important new post. This unique position will allow him to work in and bring together a wide array of media, including music, film, television, and interactive software. It gives me great pleasure to welcome Andrew into the Atlantic family." Leary was most recently an agent with International Creative Management (ICM), where he represented music supervisors and composers for film and television projects. A member of ICM's Interactive Group, he also coordinated music for CD-ROMs and video games. Prior to ICM, Leary was an agent at InterTalent, where he helped establish a co-publishing venture between the company and BMG Music.

BAILEY JOINS EASTWEST A&R DEPT.

Keith Bailey

Keith Bailey was named Director of A&R for **EastWest Records America**, based at the company's West Coast office. Chairman/CEO **Sylvia Rhone** commented on the appointment, "Keith has demonstrated impeccable taste and the drive of a true music fan over the course of his career. His coming on board at EastWest further shores up the label's cutting-edge profile, and I feel he'll be a great asset to our A&R department." Bailey joins EastWest from Virgin where he was Director of A&R, working with alterna-

tive bands. His music career began in 1987, when he was a street scout for Geffen. In 1989, he became Manager/A&R for Columbia, segueing to Charisma/Virgin in 1990.

SONY APPOINTS ADRIAN WHITE VP

Adrian White

Adrian White has been named Vice President, **Sony Music**. In making the announcement, Executive Vice President **Michele Anthony** commented, "Adrian's excellent business sense and fine instincts have won her a first-rate reputation within the music community. Sony Music will now benefit from her skills on a broader and more operational level." White has served as Vice President, Senior Counsel, West Coast, since 1990. She first joined the Law Department of CBS Records Inc. in

New York in 1986, as Records Counsel, and was appointed Senior Counsel, West Coast, two years later.

Tell me about the cover shot.

Matt: It's a sick picture. It's actually from a t-shirt.

Was it done by the same guy that did the Nirvana shirt?

Matt: Yeah, he did the Nirvana and the Red Hot Chili Pinfield shirt, and there is a Pinstone one too, an animated one with me and Barney Rubble. The t-shirt that the cover photo is from sold like a thousand copies down

at the Court Tavern in New Brunswick, which is famous for the Smithereens playing there, and Urge Overkill and Dinosaur and all those bands when they would pass through. There is a photo taken there with this really crazy picture of me that someone had. When the Nirvana "Nevermind" album came out, there was a mobile spinning around of a baby, and the person who owned the record store "Music In A Different Kitchen" in New Brunswick cut out my head and put it on the baby's head. So it was spinning around the record store. Cliff Galbraith saw it and said that he had to make a t-shirt of it, it was the sickest image. That's how the Pinfield t-shirts were born.

I hear you've been running wild work-wise over the past few weeks.

Matt: Well, you know, I do the station, and I do club nights as well, and it's been eleven years now. It's something that I love to do. The reason why I still do the clubs is, not only because it's good financially, but because it keeps me street wise, and besides going to the remotes that we do and the club appearances and the show introductions, I like being out there and talking to our listeners and being able to get a vibe from them on artists they are liking, things they are not liking. That's a way to pick up on great new artists. I made a prediction back in November — one magazine had asked me what I thought would be a hot band in 94, and I said Green Day. The reason that I had said that was because, when I had been out at the clubs, not only had we played stuff off of their independent records on Lookout, but I had known that there was a really strong underground following. Whenever this band played in New Jersey or New York, they would sell out shows. Literally, the only kids who knew about them were the surf and skate kids, and they really had a heavy following.

The Bald And The beautiful WHTG'S Matt Pinfield

by Spiro Phanos

When it comes down to it, we all know it's the music. And even though it often seems like the level of jadedness among industry professionals gets more and more pronounced, there's a select number of people whose sheer vigor stands strong. A New Jersey institution, Matt Pinfield is renowned across the industry for his passion and sincerity. And he programs a hell of a radio station. Consistently first on records, Matty feels the street like few professionals do, maintaining a zeal for the alternative format that sets him apart from the herd. Let's take a look at the man behind the myth...

here at the shore. They actually have done 4 editions of Pinfield t-shirts over the last couple of years that people have bought.

What's the guy's name?

Matt: Cliff Galbraith. He's famous for all the "Saurus" t-shirts in the mid-eighties.

So where are they sold mostly? Around Asbury?

Matt: They're sold at record stores and clubs around the area. They've sold out of every one of them, of all four editions, 4,000 of each.

You give them away on the air?

Matt: We never gave them away on the air, but clubs have bought them to give away at the door when I have been appearing there. It's pretty funny, I get a kick out of it. I used to be in a band called Opium Vala, I used to sing in the band, and it was kind of a fun thing, it wasn't where I was taking myself seriously, or trying to get a record deal. The funny thing was, there was a live picture of us performing

Whereas going out to shows used to really be the norm among people in radio, unfortunately now it's become the exception. You're one of the few, I think, that actually spends time going to clubs and bonding with the listeners on a peer level.

Matt: Yeah, well, I think that it's important. It helps you to get your edge, especially in a market as saturated as New York, actually we're in Mammoth/Ocean, but we're still affected by all the New York radio stations, and they infiltrate our market with their signal. The thing is, it's important that we keep a musical edge without going too crazy. I don't think that I'm the only one, I think that there are a lot of great programming guys that really care about the street bands like Steve Masters and Kurt St. Thomas, guys like that who are interested in finding out what is cool there. Whether it's Halloran in San Diego or Kurt in Boston or Masters, those guys are interested in what's going on in their local music scene, and what bands are up and coming around their market. I think that you're right, I think that maybe it is that we are a dying breed, but I believe that there are still a lot of music lovers out there, people who really care.

And those people are the ones consistently setting the trends musically, and whose passion really is reflected in their playlist, general airsound and overall station presence.

Here's Matty with the artist who painted his 25 foot portrait overlooking the crowd at the Clubhouse, a four story club in Plainfield, NJ.

With Jon & Rat from Ned's Atomic Dustbin DiLeo.

Matt: Totally. One thing that I find really interesting, something that I think is really great about our format, is that you look at the fact that people try to do side projects. You hear about Kurt St. Thomas and Troy having their own little hip-hop outfit, that Masters has his own indie label thing that he does on the side, as well as Marco Collins who also has his own indie label. Myself, I produce local bands, I go into the studio and mix bands and stuff, and go in and do some local indie acts. I enjoy doing that. It's all relative.

When you think about it, this is the only format where you see programmers do that on a wide-spread level. To take the initiative to do some kind of side project, and not for primarily financial reasons.

Matt: I have a love for it. That's why those guys do it, that's why I do it. For me, it's something that I find extremely rewarding.

How has the station evolved over the past few years?

Matt: Well, we still have quite an extensive current list, but the station has gotten a lot tighter, in terms of production, and as far as the music goes, the station has gotten more focused. And I totally don't think that's a bad thing. I think it's best for our overall airsound.

In terms of presentation and formatics?

Matt: Presentation and formatics, definitely. Also, I actually had gone and really sharpened and shortened our back catalog. There were things that had become really irrelevant to our format. I don't want to niche particular artists, but this station does have quite a history of doing modern rock for ten years, and where some artists may have once been considered important, even though they were marginal, in the first five or even eight years of the format, some of those records are just irrelevant now. There are too many good records out now and too many good things historically with our core artists that needed to be on the air, that we beefed up with more material from core artists and less of some of the fringe. I think you know what I am talking about.

But you still play certain cuts that serve to add character to the station, in the sense that you wouldn't normally hear them on a typical modern rock station. Some things from the mainstream AOR front that, positioned properly, can add a certain fullness to the station.

Matt: To be quite honest with you, we play a lot less than we used to. Occasionally, some of those things will come up, but a lot less. I think that we are focusing more on the core artists of the format now. I think, honestly, that although I love those artists and I think that they are important, I feel that it better suits us to find a good track from an old heritage band. The material is familiar, but it wouldn't be something that you hear that's played all the time.

What's your overall take on your list of currents? There are so many different elements to it.

Matt: We have a lot of things that we have to take into consideration there. First of all, people expect to hear a wider variety of new material on 'HTG'. You'll hear people, no matter format they listen to, if they want to hear new music, they'll turn on 'HTG'. We've been the best servicing anybody anywhere in this area for a long time. Obviously we touch on what some people would call the lower end AOR stuff, but it's such a grey area now, because of the way of what is considered Modern Rock/Alternative is crossing over and selling into the mainstream, that it's a fine line of what is considered low end. A lot of the same records or same artists may be considered low end for AOR, but they are actually also considered Modern Rock artists. We cover a lot of different bases there. I'm really happy to see the success of these artists. When I find other formats picking up artists that we played that are really ours, I'm happy about that. I think one of the worst conceptions that I ever found was when certain stations, not my own in particular, but when people would say 'That song is on AOR, or that one's on CHR, so we shouldn't play it.' That's wrong. If you've created that artist, if you've nurtured that artist in your market, you should hold on to them as your own. You should play them and support them.

And in so doing, hammer it home to the listeners that the artist is yours.

Matt: I think that as far as positioning goes, it's important that you remind your audience if you keep behind these artists, no matter how mainstream they have become.

I can imagine people who sometimes wonder how you're able to fit such a broad scope of music in a commercial playlist.

Matt: One thing that you notice is that most of the stations are more current heavy than ever. That's because there's so much good music out now and because, in terms of a lot of the old library stuff, things are getting crisp. Not so much in our format as in AOR, but people still want to hear the older things. But they definitely want to hear new music. Look at the way that the albums are selling. Most of these artists all started out in our formats, the big ones. Look at Rollins, going into Soundscan at #33. That's fantastic.

What kind of a role do you think a station's heritage plays in its ability to break new records?

Matt: When I was talking before about core artists and the fact that I have tightened things up a bit; when I say tighten them up, I don't mean that I have gotten rid of really important records, I think that these bands do have heritages. Rollins' old Black Flag stuff, in the early years of 'HTG', was played at night here. That stems back to my college radio days at Rutgers, but that definitely plays a role in the history and what we play in gold, we see a lot of these artists, like Rollins,

actually making an impact after all these years.

Why don't we touch on your history? You said you started out at Rutgers?

Matt: Yeah, and I've been at 'HTG' since almost the conception. Mike Marrone, who is now programming KIOT in Albuquerque, of course he is an ex-Hard Report member, he had been working as a buyer at Gem, the import distributor in New Jersey, who was very successful in the late '70s, early '80s. He had listened to me on my college radio show and we shared a lot of artists that we used to love a lot when we were younger. I had called up here because someone had told me about the radio station and Mike answered the phone, recognized my voice and said, 'Hey Matt, are you interested in working here?'. I said sure, he told me to put a tape together for Rich Robinson, who was the PD at the time; they were here when the station flipped from beautiful music ten years ago to a rock format, early Alternative. I had given him a tape and started working weekends immediately afterwards, so I've been here since the station's inception.

This was right after college radio?

Matt: Literally right after college radio. It wasn't until Michael Butcher came in as PD in 1990 that I had become music director and gone on the air full time. I had great weekend ratings here at the station for a long time, it was something that the owners recognized and suggested to Michael Butcher that he should speak to me about it, and he did.

How, structurally management-wise, do things work with you and Rob and Rich?

Matt: I handle the PD position and Rich is the assistant PD and Rob is the assistant MD. Basically, they do a lot of different things because we're a mid-sized station, we don't have an actual Promotions Director, we do the promotions ourselves, so those responsibilities are split between the three of us. Rob does a lot of retail tracking as well as the both of them bring a lot of music into the meeting. Their input is extremely valuable to the day to day running of the station.

What's a typical music meeting for you guys? How many records do you usually listen to?

Matt: We check out, to be honest with you, just about everything that comes in. I'd say that we check out about 15 records a week, but that varies, it's really loose, it's hard to say. A lot of times they will preview something.

What was your stint at MTV like? How did it transpire?

Matt: In the time that they let Dave Kendall go, and they were having guest hosts for a while, I actually thought that they would immediately put on Lewis Largent when Andy Schuon had brought him out, and I think that's what everyone in the industry felt at that time. But he didn't start for a bit later. He's a good friend of mine, and

I've known him since his KROQ days. One day, I asked Kurt Steffek, who is the producer of the show, about what was going on with 120, he told me that they didn't have a host. Then I said, kinda half-seriously, that he needed someone who knows the music and who bands really get along with like myself, and he said 'I'm not so sure, I don't know if they'll think that you're in the right demo, but it sounds like a pretty cool idea, and maybe I'll kick that around here and call you in about a week.' He ended up calling me about an hour later and saying that he just spoke with some of the people there and they think that it's a great idea and he asked me to come in to audition. Eventually, about a month or so later, I did an audition. I had done a segment out in California during the Gavin of that year with Jesus Jones and really enjoyed it. When it came time, although they were using the artists as guest hosts, when Depeche Mode went on, they didn't want to host on their own. Rick Hankey, the director, suggested that I do the VJ and interview segments for that show. I did that one, and after that they went back to the artists for a little while and then they decided to have Lewis do the show, which he did for quite a while until just recently, as he's gone back to just the programming side at MTV. Right now they're back to having artists guest host.

I think one thing that pretty much everyone knows of is your rapport with artists.

Matt: I have a good reputation for interviewing bands and doing those things. It's only because I'm passionate about it, and I make sure that I have a good knowledge of the music and of the artist. I think that it's really important.

Anything less is just insulting to the band and the listeners.

Matt: One of the things that I suggest to my staff members is that they get some background on a band before they go in cold. That way they sound more relaxed on the air, and it makes for a more interesting interview. It makes the artist reveal much more of themselves, because they feel that you are comfortable and that you have a piece of background and they trust you more, and they tend to open up a lot more. Of course, labels will fax you a bio, but I think that it's only fair to give your jocks enough prep time if they are doing an interview to make sure that they hear the artist's most current record and get background info. It's really important, as I've seen some really disastrous interviews and I've heard some really horrible ones on other radio stations. I don't think that it makes the station look good if the jock is not well prepared.

Obviously with the onslaught of new stations over the past few years, there are a lot of people new to the format. What kind

of advice would you give these programmers trying to build heritage for their station?

Matt: I would say to them to try to become as well informed on the role the format plays in the history of their market as well as they can. In other words, if you are a new station trying to associate yourself with the community, you bring in people that actually have a good idea on what the musical tastes and attitudes of the people in your market who buy the businesses, frequent the clubs and listen to the Alternative format bands in your area. And I think it's important to do as much research into the different elements of the town as you can. I think that you have to get involved with the retail in your area, so you can get some clue there as to what's been doing well, and as to what has some historical value in your market.

Obviously, you think that it's invaluable to have a presence on the street.

Matt: Everywhere. From anything from a concert venue to the clubs there, to the retail record store, as many places that you can be. I think that it's important to look into what the musical tastes and attitudes are and try to get some history of what's done really well in the area.

Do you look at what other stations are doing musically?

Matt: I look at what everyone is doing. Obviously, I think that it's important to have an idea of what's going on nationally. Some people would sit there and lie and say 'I don't look or care what anyone else is doing,' and that's a load of garbage. Everybody looks at what everybody else does. I look at everything from, no matter how small the market or large, I keep an eye on what everyone is doing, because I think that it's real important to see how trends happen. I think that you have to program specifically for your market, I don't think that any one formula works for the whole format in every region of the United States. Again, that comes down to being in touch with the position in your area and knowing what's going on. I look at what everyone else does and I'm sure they look at what we're doing as well. I even look at what's going on in the AORs and the CHRs that affect our market. We look at everything from MTV to retail to all the radio stations in our market, of all formats that might cross over some of our artists from the COR, AOR and CHR level, to all the other Alternative stations in the United States, but it doesn't necessarily affect what we add.

What's the breakdown in terms of library/current? How much does that vary during the day?

Matt: It varies quite a bit during the day. In the mornings we are a little more gold intensive, and of course

with dayparting you can get a harder edge in the late afternoon through the evening. I think that's important because with demographics, our available audience skews a lot younger in the late afternoons and evenings, and it's extremely important to be that way. Obviously we're lighter in the mid-days than we are in the afternoons and evenings. As the day goes on there is a little less gold then earlier day-parts.

So the station's about 60% current at night?

Matt: Exactly.

I think that, especially in this format, dayparting is an absolutely essential programming tool.

Matt: I also think that dayparting is really important, and I think it has to do with what your available audience is in that daypart. Again, it's younger at night — during the daytime it can be played at businesses. You have to take all those things into consideration. In the morning we want to have a really upbeat presentation. We play music all day, but even more familiar music in the morning, since the mornings are information heavy and we tend to play less music. I don't feel that there is one correct philosophy of programming. I surely do not believe that my programming philosophy is better or more right then somebody at one of the other stations. I think that everybody has to program to their market. The Edge stations have their philosophy, the KROQ's have their philosophy, 'EQX has its philosophy. It all depends on the market. If I was programming in another market, it would probably be different from the way that I program here.

Does the sound of the station change as the summer comes along?

Matt: The one things about the summer that we do differently is that we have a lot of speciality weekends. We do these "Three Play Weekends," and we've been doing them ever since I've been involved in programming the music here. We've always done really well with those weekends. People really seem to enjoy them.

You're dealing with an area where, in the summer on weekends, I bet the population doubles, maybe even triples.

Matt: Obviously this is a very high tourist area. It's the #46-47 market in the country, so it's always densely populated. There is a ton of people down here. The available audience is extremely large. But of course, it's even more intense in the summer. That doesn't really affect ratings much, because, let's face it, the way that Arbitron looks at ratings you have to be a permanent resident. But, it does effect your presence, and because people are listening to the radios everywhere from cars to outdoors and businesses, you really have to have a high energy presentation in the summer. It's very important.

How important are ratings to you?

With Alan from Jesus Jones and Jon from Ned's Atomic Dustbin.

RCA's Thomas Westfall, feeling awfully generous, gives away some of his long flowing locks.

Matt: I think that ratings are important to everyone, and I'd be lying if I said that they weren't important to me. You need ratings to sell your radio station. Locally, we have a very strong heritage town here, and that's one thing that's good that we built that over the years. We're definitely the New Music/Modern Rock service to our area, and have been for a very long time. We've exposed all the new artists that have gone from relative obscurity to super megastardom. Our listeners have seen these bands grow on our airwaves, and that's important to them, and that's why I think there is a real loyalty there.

Are there any plans for a signal increase?

Matt: Absolutely, there is. We have plans for a new tower right now which is double the height. We plan on increasing not only our power, but having a new antenna at a much higher level, that way we will be able to blanket a much larger area. We're excited about that.

When do you think that will take effect?

Matt: I hope by the end of '94.

So you'll probably intensify the heat going up north toward New York.

Matt: That would definitely be one of our intentions without question. I think that there is a big available audience up there, an audience that needs to be tapped upon. There really is only Z100 touching on Alternative music with the MTV-driven tracks, and Q104, who's dealing with artists that tend to cross between Alternative and the low end AOR, like Soundgarden, Candlebox, Paw and even Nirvana. There is a definite big audience up there and I think that for a lot of the artists there is a real starved area in North Jersey and even Manhattan. There is no straight ahead Modern Rock/Alternative station, no full service Alternative station, and that's the problem.

Where do you see yourself five years from now?

Matt: That's a very interesting question, as I've never really been good at predicting the future. It's really hard to answer. A&R is something that I am very interested in. If I ever had to move, I would be interested in definitely continuing in programming if something changed here. I would love to be programming alternative, but in the meantime, I am here. But, A&R is another area that I have a really strong interest in.

I bet you're constantly listening to music.

Matt: Oh yes, constantly. I feel that in order to do my job correctly, I have to listen to new music all the time. In order to do a good job in programming, I have to constantly be listening to music and have my ear to the speaker. You really have to be on top of it.

What's going on locally that you've been into?

Matt: There are tons of great local bands down here on the Jersey shore and a lot of them are getting signed. Let's face it, a lot of talent comes out of here. Stone Temple Pilots are quoted as being from San Diego, but the two DiLeo brothers are from Point Pleasant. Godspeed, who just got signed to Atlantic, are from down here. There are so many bands here it's unbelievable. There is Dandelion Fire, Room 11, Mars Eats Women and Tow, who are really cool.

What's great is that you really are active in supporting the artists

Matt: We do, we have a local music show on Sunday nights, and we also have what we call native rotation, which comes up every couple of hours or so. Literally every few hours we play a local track in all dayparts. Either from a great 7" or a CD or a vinyl release from a local band. Not only is it the only place that you can hear these tracks, but it's important because a lot of the bands have gone on from our local rotation, like Eve's Plum. We were playing an early demo of "I Want It All" a long time ago, so people have seen how a lot of these bands have grown and been signed. We've even had calls from A&R people saying that they heard a great local track on the station and asking if I can get them the demo. We play an

important role in the local music scene here in Asbury and central Jersey.

It's so important to the soul of a radio station to be tied into the local scene, especially where you are.

Matt: There is so much musical history in Asbury Park, if you think about it.

What about the Wonder Stuff? I hear that you are an honorary member.

Matt: (Laughs) People have said that. Actually, I've gotten up and sat on stage with quite a few bands from them to Dramarama, and others. Whenever those bands played in the Asbury market, they used to bring me up to do one of their songs. In fact, one night Dramarama was in town, and John Easdale's voice was shot, and he couldn't sing their most popular anthem "Anything Anything." So he asked me to get up and do it. And the Wonder Stuff situation, we met in '88 and had become really good friends and it was one of those situations where I had some personal things going on at the time and things were pretty crazy. They had said, "Hey, you look like you could use a break, why don't you come over and go to England with us on the road?" So I did. I toured with them and Ned's Atomic Dustbin once in '89 for a couple of weeks, and then it became a yearly tradition that I would go over and go on the road with them for a week and a half at a time. Then, because of their popularity in Britain, having number one records and everything, they decided to do a film that had a short theater release over in London and then was directly available on video, but, they made me a major part of the film. Some of the scenes were filmed here at WHTG, some at the club Melody where I DJ and some scenes in Birmingham, England and New York City and all over. The manager, Steve Rennie, was laughing saying that I was in the movie more than some of the members of the band. That was pretty funny. Actually, on the Never Loved Elvis album, there is a song called "Sleep Alone" and there is a phone message right before the song I had left on Miles' machine with a quote from Hunter S. Thompson's "Generation Of Swine."

Alright, onto more important things. How often do you shave?

Matt: I shave my head quite often, to tell you the truth. People of the single persuasion seem to enjoy seeing my head completely shaved. I don't know why that is, but I guess it's that whole Mr. Clean look. I have the whole look down except I don't have an earring in one ear, but I'm thinking about it. I haven't explored the world of body piercing yet (laughs), but let's just say the shaved head thing is there. Actually, I have to shave my face every couple of days, but the head is at least every other week. If I don't, I get complaints. Believe it or not, I don't shave it myself. I go to a barber. In fact, I've even gotten my head shaved at a club, which is funny. I'll tell a friend to bring in his razor, and then I'll put on a long song, and I'll go into the basement and have my head shaved while there is a long track on.

How long does it usually take?

Matt: No longer than two or three minutes. You don't have to put anything that is too long or extended on there.

Just shaving cream and a regular razor.

Matt: They don't even use that. They use an electric shaver. And they find the closest blade that they can get.

TRIPLE ACE

3rd Matinee, "Meanwhile," Reprise
Richard Page (Pages, Mr. Mister) teamed up with Patrick Leonard and the former Toy Matinee for a new album, a new sound and a new name, 3rd Matinee. **Jane Fredericksen KTCZ**, "This is the most consistent solid album I've heard so far this year. Virtually every track is strong. Our early picks include 'Echo Hill,' 'Ordinary Day,' 'Family Tree,' and 'Holiday For Sweet Louise.' I loved them when they were Toy

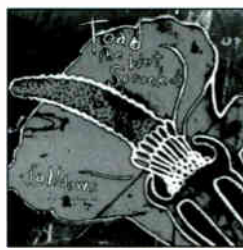

Matinee and I love them now." **Steve Cole KSPN**, "Toy Matinee was and is one of our favorite albums. On 3rd Matinee, the pairing of Richard Page with Patrick Leonard has produced an album that measures favorably with the previous release. There are several airplay worthy tracks on the album and more seem to surface with repeated listening. Starter tracks would be 'Holiday For Sweet Louise' and 'Freedom Road.'" **Greg Roberts KKRK**, "Incredible! This is absolutely the definition of a Triple A record. It's just sweet." **Ian Taylor WKVT**, "The first thought that crossed my mind after listening to the track 'Freedom Road' was that it sounded like an acoustic Pink Floyd." Look for the Triple A interview with Patrick and Richard in next week's issue.

THE HOT CORNER

John Gorka, "Out Of The Valley," High Street
John Gorka caught the attention of Triple A with his last album, *Temporary Road*. With this stellar release, he will be fully embraced by the format and take his rightful place as a staple Triple A artist. **Ginger Haviat KBCO**, "There's a wealth of material to choose from on this new one, but 'Mystery To Me' is the track that leaped out. John Gorka's audience will continue to grow." **Steve Cole KSPN**, "John Gorka is rapidly approaching

the coveted (core) artist status for the Triple A format. I thought it would be hard for Mr. Gorka to match my heightened expectations for the new album after the success of *Temporary Road*, but with just a couple of listens, the new songs kicked in. It could be his best so far, especially with tracks like 'Good Noise,' 'Always Going Home,' the story song 'Up Until Then,' and the title track, which is of particular relevance for our own valley. Already a candidate for my Top 10 of the Year." **Jackie Selby KZYR**, "Brilliant! After seeing him at the Gavin Convention it just reaffirms that he's an artist that is going to go down in history." **Jane Crossman WEBK**, "The album is perfect for our station. We were especially impressed with the backing vocals on some of the songs."

Toad The Wet Sprocket, "Fall Down," Columbia
The compilation CD that included the new single, "Fall Down," as well as an impressive array of songs from previous releases is the perfect reminder that Toad may have elevated to multi-format status, but it all started with Triple A. **Jackie Selby KZYR**, "This is killer! We put it on right out of the box. It's good and hard with an edge." **Steve Cole KSPN**, "Toad is back in fine form with the cracklin' uptempo new

single 'Fall Down.' We received it yesterday afternoon, threw it on the air today, and it should have a typically Toad long run in our KSPN rotation." **Ian Taylor WKVT**, "Sounds good so far, it is going to be an add next week." **Glenn Roberts KFMU**, "This is a really good song. It's one of those one-listen songs. We are definitely going to be adding it next week. The compilation has some of the songs off of their old albums, which is great for people who need to get better acquainted with the band."

CASH

Johnny Cash, "American Recordings," American

If you were fortunate enough to witness one of the performances in Austin or New York, you know that Johnny Cash's American debut is

going to have a serious impact on the Triple A format. This is a man who lives up to his legendary status. **Bryan Tarbox WSTG**, "By far this record is going to be the biggest impact record of the year. It's great to have Johnny back on the music scene and doing a record he wanted to do." **Bruce Ranes WXPB**, "It's great to hear Johnny back singing songs that he sounds as home with as his Sun and early Columbia recordings." **Jane Crossman WEBK**, "If Johnny Cash sang that the sky was green and the grass was blue, I might just believe him, his voice has true sincerity. I listened to the album all weekend long, never tiring of the lyrics and continuing to enjoy playing it from start to finish. One of my favorite albums of '94 so far." **Dan Reed WNKU**, "This is the most authentic disc of '94. I think you'll be surprised by your listeners' responses to *The Man in Black*. It's an American original and a great record — and I mean it, too."

Jackopierce, "Late Shift," A&M

The first single from the soon to be released, T Bone Burnett produced "Bringing On The Weather" conjures up memories of an attitudinal David and David. This duo's major

label debut features a seemingly endless list of stellar guest artists, including *Bermont Trench* of the *Heartbreakers* renowned percussionist *Denny Fongheiser*, bassist *Jerry Scheff*, *Bob Dylan's* original violinist *Scarlet Rivera* and *Sam Phillips*. **Ginger Havlat KBCO**, "1994 has been a great year for musical duos that are perfect for Adult Radio. Add Jackopierce to an impressive list that includes *Lowen and Navarro* and *Billy Pilgrim*." **Bob Terrill KCSU**, "Jackopierce is real heavy on the acoustic side, so it should be no problem for more conservative Triple A's to play. Stations leaning in the other direction should have no trouble either. It's going to be a big one for KCSU." **Greg Roberts KKRK**, "This song is smoooooooooth! It's like a refreshing glass of water after crawling through the desert." **Jackie Selby KZYR**, "We were aware of the *Aware* disc, their previous release, so we knew this new one was coming. There are some great songs on this album. Jackopierce has a golden touch."

The Best Of Mountain State, Volume 6, Blue Plate Music

The live, two-hour, APR weekly program, *Mountain Stage*, has always attracted the cream of the Triple A crop. We have

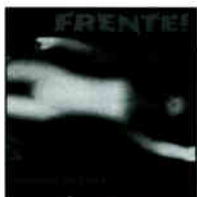

Volumes 5 and now 6, and they include some of the best live performances of the genre that we've heard. If you need copies of these albums, call Blue Plate Music at 800-521-2112. **Jeff Bieri KRCC**, "Great live performances from some of Triple A's best stars. It's always nice to receive a live compilation CD of artist's alternate takes on very familiar tunes." **Greg Roberts KKRK**, "This album is cool. We immediately ordered all six volumes. It may be on the label Blue Plate, but this is a gourmet dish." **Bruce Ranes WXPB**, "Glad to see one of my all time favorite radio programs spinning off another collection of artists."

Marvin, "Temple & Shrine," Restless

One of the founding members of Lone Justice, Marvin Etzioni has gone on to rack up some impressive solo credits with his previous releases, *Mandolin Man* and

Bone. Former Lone Justice vocalist *Maria McKee* lends harmonies on the first single from his self-produced *Weapons of the Spirit*, as well as "Bending and Craving," and *Victoria Williams* adds vocals on "Daughter of the Rainbow." Triple A has long been impressed with Marvin's work, and this stellar album is among his finest yet. **Jackie Selby KZYR**, "We added it out of the box. Marvin is a great mandolin player. This album has fun little gigs on it." **Greg Roberts KKRK**, "I've always been a fan of Marvin. I like this record a lot and I think it is going to do really well."

Frente!, "Marvin The Album," Mammoth/Atlantic

Finally, the full album is here, and from the response we got, it's everything we were hoping it would be: **Glenn Roberts KFMU**, "I

like this album, we added 'Labour of Love'. It's a super song that's unique, and it fits real well. Also, it's the only band with an exclamation point after their name because we don't play *Wham!* any more." **Jeff Bieri KRCC**, "We've been long-awaiting the full length release. It's got a wonderful acoustic kind of rock thang, which is sure to do well since the EP has gotten incredible response." **Mary Ramirez WVBR**, "Frente! has done an excellent job in molding '90s ideals in lick with a '60s folk/rock musical style." **Bruce Ranes WXPB**, "Despite their singularly subtle sounds, every time I play it, something new jumps out. *Marvin The Album* is a great collection of radio friendly songs."

Warriors KFOG Jam" KFOG

and The Golden State Warriors, with the help of some of the world's outstanding musicians, have created this album to help raise funds for Bay Area

public school music programs. Among the musicians who have donated a rare or unreleased track to the 12-cut compilation are *Grateful Dead*, *John Hiatt*, *Squeeze*, *Toad the Wet Sprocket*, *Suzanne Vega*, *Robert Cray*, *Melissa Etheridge*, *Lenny Kravitz*, *John Wesley Harding*, *Los Lobos*, *Cracker*, and *John Hammond* with *John Lee Hooker*. "With funds for public school programs diminishing, we are extremely excited to be able to offer some much-needed support," Warriors President *Dan Finnane* said. "And we truly appreciate the kindness and generosity of KFOG and the musicians who donated their work to this most worthwhile project." 100% of all net proceeds will be donated to nine designated public school programs. TRIPLE A

Adult Alternative Airplay

KBXR

has made it clear that Triple A is a serious force in their market. When the Crash Test

Dummies scheduled a performance in Columbia, they asked for the exclusive since they've been playing the record from the time the station first went on the air. But because the mainstream station, KFMZ had just added the single, "Mmm Mmm Mmm Mmm," it was decided by the promoter that there would be no presents. Taking the stand that the Triple A format broke the Crash Test Dummies, and because the album, *God Shuffled His Feet*, has consistently been Top 10 Sales since KBXR added it, the staff decided not to take this one lying down. The day the tickets went on sale, KBXR purchased all 1,100 of 'em! Needless to say, the promoter, the local rep and KFMZ were not happy campers when they learned of this turn of events. Kudos to KBXR for this brilliant move... After just a few short months with the Triple A format, **KMBY's** owners have decided to change to a Spanish format. The unexpected change also unfortunately include the dismissal of the entire staff, including PD **Tim Kelly** and MD **Sandy Shore**... **WMMM/Madison** will introduce a new Sunday night show beginning May 1, *Acoustic Sunset* from 9:00-11:00pm. The program will feature relaxing acoustic and semi-acoustic music to wind down the weekend. Attention Labels: Make sure you've got Triple M on your list for acoustic music service. Call **Pat Gallagher** or **Sybil McGuire** at (608) 273-9774 for more information... **Paul Hester**, drummer with **Crowded House** since they formed eight years ago in Australia, has left the group, citing the pressures of touring and declining motivation as the main reason for his decision to quit. Hester made the decision in Atlanta on Thursday, April 14, and informed the other members just hours before joining them for the last time on stage before a capacity crowd. The audience, unaware of the situation, were nonetheless treated to one of the band's best performances. The encore set alone stretched to over an hour, and **Neil Finn** dedicated the closer, "Better Be Home Soon," to "a man I love, Paul Hester." The other band members will continue their tour, and are currently considering replacement options... **Syn** performed a showcase at The Mint on Tuesday (4/12). Representatives from just about every major label crammed into the tiny venue. As a result of the standing room only turnout, many late-comers were left stranded on the sidewalk. Among those spotted in attendance were **Irving Azoff** and staff from **Giant**, **Gary Gersh** and staff from **Capitol**, **Victor Murgatroyd** from **Sony**, **Kaz Utsunomiya** and **Phil Cassens** from **Virgin**, **Arthur Spivak** and **Peter Golden** from **Spivak Entertainment**, and representatives from **Arista**.

Johnny Cash At The Fez

Industry VIPs who gathered in the tiny NYC basement club for an unbelievable performance by The Man in Black, were also treated to impromptu performances by Rosanne Cash, June Carter Cash, and John Carter Cash.

John Riegel, Spiro Phanos, Lisa Riegel and Jerry Rubino recovered from the show just in time for this photo op.

MTV execs came out for the invite-only performance. Pictured (l-r): **Joni Abbott**, MTV Director of Talent Relations; **Tom Freston**, Chairman, MTV Network; **Cash**; **June Carter**; MTV's Sr. VP/Music & Talent Relations **John Cannelli**; **Norm Schoenfeld**, VH1's VP/Music & Artist Relations.

Alice In Chains, "I'll Stay Away" (Columbia) Can you say explosion? No Seattle backlash for these guys, as this follow up to the still Top 10 "No Excuses" was the top mover at COR this week. The song "I'll Stay Away", has the dark, warped, haunting harmonies that are typical of **Alice In Chains'** early work, unlike previous albums though, this features layered orchestral music in the background to bolster their already potent sound. An 18 notch move up the charts was powered by 13 new adds and Heavy rotation at KIOZ,

WAAF, WRZX, WVCB, and WXTB. In a few short years this band has gone from up and coming artist status to being a core artist at rock radio with their somber, impassioned sound. Just a hunch, but I think "I'll Stay Away" will be making another big move next week too!

Aerosmith, "Crazy" (Geffen) How much more can you say about Aerosmith! Now that they have stormed back to the top of the rock the rock charts - a spot that they deserve - every thing they touch turns to gold. Or in this case platinum. The great thing for programmers is that every track they have released is instant listener recognition, and requests: we like that! The next single off the hugely successful *Get A Grip* is "Crazy", a track with a blues personality and swagger. The song starts out with a lounge singer-ish lament and continues through this swinging ballad filled with **Steven Tyler's** characteristically provocative lyrics and **Joe Perry's** wailing guitar licks. Dale Miller of KATP reinforces what you should already know, "This is Aerosmith, that is all you need to know!" You don't need to know anything else, make sure you don't look crazy, and be sure to add this track.

Great White, "Sail Away" (Zoo) This is a band that has survived the ups and downs of the changing trends in the music business, and has not only managed to survive, but always seem musically relevant no matter which trend is in at the time. With a sound that is grounded in the blues based rock style of the '70s, their rendition of "Once Bitten, Twice Shy" catapulted them into multi-platinum sales status. In addition, they performed in one of the very first of the now extremely popular MTV Unplugged series doing their version of "Babe I'm Gonna Leave You" (the best known version would be by Zeppelin) which was, at the time, the strongest showing of their blues influence that far. On their most recent album, as showcased in this single "Sail Away", a haunting melody with soft, emotive vocals, and subdued guitar work in the vein of the early rock styles of 20 years ago. John Nagarya of WKDF is very excited, he raves, "Incredible. It's the best thing they've done in along time. I can't wait to hear the whole LP; if it's one tenth as good as this track it'll be a motherf*cker" During the mid-'80s **Great White** showed a great deal more substance than most of the flash bands of that time. They now show even more musical maturity on this album, tailor made for COR radio.

Counting Crows, "Round Here" (Geffen) After the huge success of "Mrs. Jones" for a first single, where to you go from there? Well, "Round Here" is the perfect follow-up to their breakthrough debut and gives a good indication of just how far this band can go. As Carl Craft of WCIZ assesses, "it is doing wonderful, it's a great honest song. It makes the station better: it's selling, it's requesting, what more could you want from a debut LP." This song features the more touching, mellow side of them with a light melody and soft tender vocals. As shown with a quick debut on the COR chart, there is a good future for **Counting Crows** with hard rock radio stations. As a result, "Round Here" looks like it could be around here for quite some time!

WUFX, Buffalo NY Morning team - Shredd & Ragan - are warmed up by listeners who were modeling their wares during National Lingerie Week!

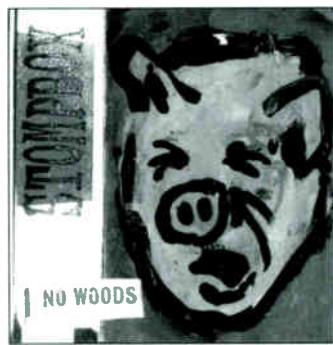

It looks like tryouts for new Victoria's Secret models, with the local Teamsters judging the affair (since they're not working). But actually - silly me - it was National Lingerie Week and some listeners of the WUFX Morning Show stopped by to offer doughnuts to the Teamsters working the picket line. Shredd from The Fox is ironically the fellow kneeling in front of the group.

HARD HIT TRENDS

Metal Pick

Stompmbox, "No Woods" (Columbia) With the comment, "I hate bands that are consistent ... bands that are impeccable every night ... you know, where the drummer never drips a stick, the singer never misses a note, [and] the guitarist never gets lost" from **Stompmbox's** singer **Erich Thaler**, you know that the personality of this band is going to be a little looser and more over the edge compared to most. This Boston based

four piece (**Thaler** - vocals; **Jeff Turlik** - guitars; **Pat Gleespen** - bass; **Zephan Courtney** - drums) created their following the hard way, by establishing themselves at after hours parties separate from the pop bands and hardcore bands populating the area scene. Their frenzied, hard hitting style is so compelling that they peaked the interest of Columbia with only a single and a seven song cassette circulating the scene. The first single off their upcoming release, *Stress*, has already been added by KEYJ, KISS, KQAL, WJUL, WKLL, WKSR, WMWM, WNHU, and WSMU who insisted that they had to jump on early. The chaotic opening segment of "No Woods" jumps into a hammering guitar cadence and **Thaler's** urgent vocals add a strength and tone similar to Rob Zombie. The song is pounding enough to garner attention, but many catchy melodies and a pause midway that regenerates the song are added plusses that will grab the attention of your listeners. When searching for new music that really moves you, the primary aspects that we look for in the metal radio realm are energy, a high impact edge, and that unique aspect that sets them apart. *Stress* (produced by Sylvia Massey who handled Tool and Green Jelly) has a psychotic twist to it and an ear splitting sound that seems just about ready to spin out of control, but they harness it into submission. In other words, this is one of those attention getting albums that we think you will love. So now in addition to the sandbox, cardboard box, lunch box, and the boom box, we add the **Stompmbox**, which will surely put a smile on your face while at the same time they crush you: looks like a perfect combination!

Drown, "What It Is To Burn" (Elektra)
 For many of us music is a form of escape, that one aspect of our lives that we trust, because we know it won't let us down when everything else seems to fall apart. For the members of **Drown** (Lauren Boquette - vocals; Joseph Bishara - programming/guitars; Rob Nicholson - bass; Marco Forcone - drums) music has been so important in their lives that they wanted to give back to other people the comfort and magic that they have received. With the first single, "What It Is To Burn", off their Dave Ogilvie (the busy man from Skinny Puppy) produced release *Hold On To The Hollow*, they create a great deal of warmth and feeling, which is unusual on a record with strong electronic music elements. The aspect of this song that makes it so alluring is the emotional anguish of the vocals coupled with the hooky guitar work and quick riffs. The melody of the song is set in a haunting, layered fashion with the programming done by Bishara, and this gives it that extra impact. The single also includes three remix versions of the song to give you some additional choices for your programming. This is another great new band for you metal directors to discover this week, so don't let this pass you by: drown yourself in a musical therapy session and put this on the air.

Collapsing Lungs, Colorblind EP (Atlantic)
 This diverse seven member band from Broward County Florida have an attitude that can only be described by the term "positive aggression". They combine elements of metal, hardcore, and rap to create a sound that is seething with guitar riffs, rapped vocals, varied Latin percussion, and hardcore energy. They have established themselves in Florida's active music scene by playing shows with Rage Against the Machine, House of Pain, and for various charities such as Greenpeace, P.E.T.A. and Amnesty International along with selling out their own headlining performances. Now they are prepared to take over the rest of the country with their message of awareness, and we will be the first to be aware of this potent assembly. The opening track, "Crackerjack", (which is the first focus track) blends a churning guitar groove with samples and hip-hop vocal delivery - all with maximum impact. "Let's Play A Game", another track with a great melody, has more conspicuous samples, but includes an infectious rhythm that will have you bouncing around the room and prominent use of the tribal drums (including the home made "crime unit" - a piece of percussion made of motorcycle and car parts). The recent popularity of the *Judgement Night Soundtrack* and other rock/rap combinations sets the stage for their style, and this is a lethal collaboration that will definitely please the ear.

Thee Hypnotics, The Very Crystal Speed Machine (American)
 This London band has such a strong blues based roots rock feel that they sound more like they would come from Tennessee or Georgia rather than the U.K. But they carry the British rock torch very high and hope to be the next English rock stars after a long drought, with the help of Black Crowes' singer Chris Robinson. With one foot planted in the trippy retro sound and the other foot in the blues, they have found space in the playlists of KNDI, KSHE, KZRQ, WBNY, WKSR, and WZRQ with the single "Heavy Liquid". With a sound that is the musical equivalent to pouring molasses, they have mesmerized many new listeners. "Goodbye", "Keep On Rollin'" and the upbeat groove of "Tie It Up" are good options for you to listen to from *The Very Crystal Speed Machine*. By overcoming a slew of early obstacles, **Thee Hypnotics** have every reason to sing the blues, but they take this blues style and make it euphoric. For a band that will enrapture you, take a ride on a flashback roller coaster with **Thee Hypnotics**.

Single Matters

The Obsessed, "To Protect and To Serve" (Columbia) If you haven't figured out by now why **The Obsessed** is one of the most respected bands in the hard rock/metal circles, you haven't been listening close enough. The thick dirge groove of their sound may not have an instant impact on you, but as you keep listening, the essence will seep into your brain and take over so that the rhythm will stick in your head for hours. This gradual vanquish is showing on the metal chart with **Wino** and company making the gradual climb up the chart and gaining momentum every week - now up into the Top 15 of the Hard Hitters chart. Those of you who were on the record from the very beginning may be looking for additional songs to play, so for you the next track up to bat is "To Protect And To Serve", which has to be the most infectious song on the album. In addition, the bonus track, "Mental Kingdom", which does not appear on *The Church Within*, sounds like a swarm of bumblebees at the start, but then the familiar grinding guitars and the subtle yet powerful vocals take over. Once again, be sure to take this opportunity to join the legions of fans of **The Obsessed**.

On the Border

Dumpster Juice, Get That Out of Your Mouth (Spanish Fly) You may be familiar with this quartet from Minneapolis (a city better known musically for Prince and Soul Asylum) from their 1993 release, *That Not So Fresh Feeling*, that hung onto the charts for quite a bit of time. They are back again with *Get That Out Of Your Mouth*, and another installment of album artwork that

would give a dentist (along with the rest of us) plenty to cringe about. Their wall of guitars sound, the guttural hoarse vocals, the punch of drummer **Todd Petterson** (who has been playing for 25 years), and the twisted sense of humor form a combination that many of you at metal radio are sure to like. With early adds at KDUR, KWUR, WAIF, WKLL, and WKNH, it looks like the dumpster is off and running, ready to roll into town and share some the juice with you.

Sheer Terror, Old New Borrowed and Blue (Blackout!) With many rave reviews coming from you out there at metal about this band, we thought we would take the time to point out this record which has quietly snuck its way onto the Hard Hitters chart (this week at #36) in the midst of major releases with some major support from stations such as KNDI, WSQU, WVCR, KDZR, KZR, X.

KTEC, WFCS, WJUL, WMWM, WBAU, and WNHU. With a sound that is raw and energetic, musically they have a punk beat and cutting guitar frenzy, but the vocals dive to a subhumanly low pitch. They have a diverse style that is pummeling on one song, melodic on another, and even funky on another. With choices like this, many more of you should be able to find the right personality to fit your show, and in the long run, **Sheer Terror** isn't that scary after all.

Small Ball Paul, You In Flames (Thirsty Ear) This St. Louis bred band (**Jeff Wendler** - vocals; **Maureen Relling** - bass; **Jesse Gilsinger** - guitar; **Gus Kodros** - drums) spent their time - when they weren't watching baseball - gigging around their hometown area developing a base from self-released tapes, tons of gigging (including wedding parties) and fanzine press. The band

already has an EP under their belts, produced by Paul Mahern (Afghan Whigs), released in 1993 through Thirsty Ear. Now is the time for their first full length release, *You In Flames* - which is already getting airplay on KQAL, KSHE, WPCR, and WKNC - to display their melodically heavy sound with plenty of riffs, passionate vocals, and a strong rhythm. With a summer tour in the works, we should be hearing more from this band as their base of supporters grows.

Mucky Pup, Lemonade (Century Media) This band could almost be considered veterans with this newest release, *Lemonade*, being their fifth full release. This New Jersey band is definitely experienced in the art of hardcore style fast and furious tunes. Vocalist and songwriter **Chris Milnes** has always been the centerpiece of the group, with members of his surrounding band mates changing on each album always keeping the sound fresh. Their songs are quick cuts to the jugular with short song lengths, bullet riffs and the mournful, vehement voice of **Milnes**. They are off to a good start with KWUR, KVHS, WNHU, WVBR, WFCS, WKSJ, and WVBR already on board, and we expect that there are many more of you out there who appreciate the intense style of Mucky Pup.

June 21st marks the release of **Desultory's** (Metal Blade) sophomore album, **Bitterness**... **Fates Warning** (Metal Blade) are currently doing their studio time recording their next full length record, with **Bill Metoyer** handling the production chores. Until the release of this much anticipated record you will be glad to know that the entire **Fates** back catalog (**Night On Broken, Spectre Within, Awaken The Guardian, No Exit, Perfect Symmetry** and **Parallels**) will be reissued this summer... **King Diamond** and **Mercyful Fate** (Metal Blade) give their six song offering to metal-land June 26th. **The Bellwitch** mini-album features four live songs - "Curse Of The Pharaohs", "Egypt", "Come To The Sabbath" and "Black Funeral" - (all recorded on their last U.S. tour) and two songs ("The Bellwitch" and "Is That You, Melissa?") taken from their last album... Have you heard that **Danzig** (American) are in the studio recording their new LP, **Danzig III**? Well, they are, and they intend on releasing it early in July. Oddly enough, at about the same time they wrap up the "Sh*t In The Shed" tour with mighty **Metallica** (Elektra). Cool, **Danzig** all summer! Speaking of the **Metallica** (Elektra), **Danzig** (American) and **Suicidal Tendencies** (Epic) extravaganza, we've heard the June 22nd show in Detroit sold out in 24 minutes! And, that the show at New York's Darien Lake amphitheater was the fastest selling show ever! No kidding! And, in addition, all the shows that have gone on sale in major markets (including Philadelphia, Detroit, Indianapolis and Boston) also sold out! Don't miss this one!... Other places to be this spring include Tampa, Florida on May 6th; Ft. Lauderdale, Florida on May 8th and Orlando, Florida on May 10th. Why?, you ask. Obviously to check out **Atlantic Records'** recording artist **Collapsing Lungs** and **Infectious Grooves** (Epic) as they share the stage on these select dates... **Surgery** (Atlantic) are cruisin' the highways in support of their LP, **Shimmer**. You can catch their live shenanigans as they travel from May 12th (with a stop in Washington, DC) until June 3rd with a gig at the Red Dog Saloon in Santa Barbara, California... Now that you have the full length **Stuttering John** album taking up residence in your disc player catch the trio live as they perform in New Orleans, Louisiana on May 6th; in Dallas, Texas on May 7th; and Los Angeles, California on May 13th... From the depths of hell comes the two month headlining **Cannibal Corpse** (Metal Blade) tour. **Cynic** (Metal Blade) and **Sinister** have been chosen as the support group on the last and furious tour. Dates have been booked from a May 27th kick off in Huntington, New York to June 17th when the bands plow through St. Louis, Missouri. While you are chomping at the bit waiting to see the tour look for the "Staring Through The Eyes Of The Dead" video to hit the all the cool video outlets... Looks like the **Dynamo Festival** in Eindehoven, Holland (on May 21st) is the place to be this year with the likes of **The Organization** (Metal Blade), **Fates Warning** (Metal Blade) and **Prong** (Epic) taking the stage... Word is that **Prong** (Epic) and **Biohazard** (Warner Brothers) will each be taking on 6 weeks

Metal Filings *cont'd*

of the upcoming **Pantera** (EastWest) and **Sepultura** (Epic/Roadrunner) tour. More info and dates as they come in... The second stage at the Lollapalooza Festival this summer should be as interesting as the main stage with the likes of **The Flaming Lips** (Warner Brothers), **The Verve** (Vernon Yard/Virgin), **The Souls Of Mischief** (Jive), **Rollerskate Skinny** (Beggars Banquet), **The Frogs Luscious Jackson** (Capitol), **The Boo Radleys** (Columbia), **The Pharcyde** (Delicious Vinyl) and **Shonen Knife** (Virgin) among others, being tapped to perform on designated portions of the tour. 🌀🌀🌀🌀 While **Gwar** (Metal Blade) are traveling Europe this summer you lucky people will get to check out their film *Skulhed...Face*. It's gonna be sick! And, in other notable **Gwar** news, the band have teamed up with **Depthography** (a company that combines 3-D and fluid animation into a single photograph - no glasses needed!). To explore the technology the two will be using **Gwar** she-beast **Slymenstra Hymen** as the subject. It has also been uttered there might be a Viewmaster set featuring the band's visuals in 3-D. And, **Gwar** will be featured in the *Beavis and Butthead* video game for Sega Genesis, Super NES and Sega Game Gear. Very cool! 🌀🌀🌀🌀 Did you know that **Metal Blade** founder and owner **Brian Slagel** began hosting his own radio show on **Phoenix/KZRX** on March 26th. Did you also know that it is called "Into The Vault" with an emphasis on playing classic and rare bands of the '70s. You can catch the show on Saturdays from 1-2pm... Congrats to **J.J.** at **KEYJ** on the promotion to the 7-Midnite shift!... We've heard that **Epidemic** are looking for a second guitarist. Interested parties should contact the group at 4546 El Camino Real, Ste B10 #355, Los Altos, California 94022. Or simply call **Metal Blade Records**... One more thing, controversial Canadian rockers **Headstones** have inked a deal with U.S. independent label **Avalanche Records** to distribution and marketing of their **MCA/Canada** debut disc, *Picture of Health*. The LP will be released on June 7th and at about the same time the band will embark on an American tour. 🌀🌀🌀🌀 That's all folks. Peace. 🌀🌀🌀🌀

News compiled by Jodie Fabricius

Brother Carol band members Roman Glick and Damon Johnson gathered it close with WZRO's Carolyn Hobochuck and Paul Spriley, and Z Rock's Jim Savage as the two helped warm up Albany's Z ROCK station on a recent cold winter night.

It's a happy day in Pantera-land! Our favorite Cowboys From Hell are celebrating the receipt of not only the award for Gold, but also Platinum status for their album *Far Beyond Driven*. They receive these plaques just following their two recent sold out shows at the Roseland in New York. Let's just hope that all this metallic success doesn't go to their head! Pictured (L-R) are "Dimebag" Dimebag Darrell (Pantera), Sylvia Rhone (CEO EastWest), Rex (Pantera), Phil Anselmo (Pantera), Vinny Paul (Pantera), Walter O'Brien (Concrete Management).

PICKS

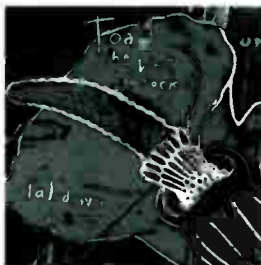

PROGRESSIVE

Blur, "Girls & Boys," Food/ERG
 Surprised? Another Blur record? Modern Life Is Rubbish had a healthy run, with certain stations realizing huge success with tracks like "Turn It Up" and "Chemical World." In your hands soon is *Parklife*, the band's new full-length and, for those of you who've been waiting for the band to break big onto the next level here in the States (they're huge overseas), the time is now. With a very retro/disco feel, the song is rooted in camp but delivers the goods on the dance front. Total reaction record and if the results of *KDGE's* early add two weeks ago (20 spins this week, and is the #1 requesting record) are any indication, this one should blow over huge.

Johnny Cash, "American Recordings," American
 We're totally confident in saying that Cash's three invite-only appearances (L.A., Austin, and NYC) were so profound that everyone who was lucky enough to catch a glimpse left the show intensely moved. And don't you dare try to pawn this re-introduction of Cash to the youth of the world off as anything in the least bit contrived. Cash epitomizes class and, perhaps most importantly, genuineness. He is, in a word, the goods. The focus track is the totally affecting "Delia's Gone" (the video features supermodel Kate Moss as Delia). *KCMU's* musical authority **Don Yates** remarks, "The concept of just Johnny Cash and an acoustic guitar is powerful and I'm surprised he was never recorded this way before. Johnny sings the songs with one of the truly archetypal American voices. The record is great combination of both original and cover songs."

Toad the Wet Sprocket, "Fall Down," Columbia
 It's been three years since their last release, and Toad is back without missing a beat. *Dulcinea* draws from Don Quixote's story of the same name, where a plain townswoman is idealized by the man who adores her. It is the line between perception and reality that is examined in this new collection of songs. The lead track features a luminous, arpeggiated guitar line, and a bright, upbeat overall delivery. The band is set to embark on a year-long international tour starting in June, and that's not including their spotlight appearance at the HFStival in May. Everyone and their sister will be on this track, so it behooves you to remind your listeners who broke this band.

Y	D	50	Sam Philips "Martinis And Bikinis"

WWCD: Jane Purcell says, "It looks like Francis Dunnery will define American life in **this** summertime. Glad to see him step into the spotlight." And according to **WROX's** Lisa Rush, "Squirting lotion on Virginia Beach, Ray Bans in hand, watching the fiercest volleyball game ever... Frances Dunnery's American Life In The Summertime."

Francis Dunnery, "American Life In The Summertime" Atlantic Francis came by the cabin last week and blew us all away with his charm, wit and pigtailed. His new record is filled with personality and warmth, and we're convinced that this track has major impact potential, and we're awaiting massive crossover success. The timing is perfect for this hip critique of our warm-weather existence, rooted in the acoustic and rich in melodic luster.

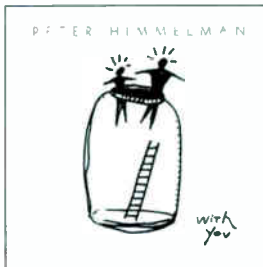

Jeanne Atwood at **WDST** says, "It's a perfect summertime song. Even if our listeners didn't like it (and they do!), we'd still play it." (Jon Marston)

This is a direct result of the band members' varied backgrounds — singer Loey Nelson's as a solo artist, guitarist Mike Hoffmann was a member of cult groups Yipes!, EIEIO and Semi-Twang, bassist Keith Brammer was a member of Die Kreuzen, and drummer Kirk McFarlin was in Ecoteur. The convergence

record deserves to be listened to in one sitting. We're looking for more tracks to play." Suggested tracks in the acoustic vein include the single "With You," "Disposable Child," and "Shilo," while "Months In The Bath Of Dirty Spirits," and "Chaos and Void" are more harder edged.

Peter Himmelman, "Skin," 550/Epic Himmelman's sixth solo record is unique, in the sense that it offers and explores a story of a man reborn, through to the end of his life. The record's sequencing follows this journey, as Himmelman's songwriting talents take center stage. Following a dramatic lead, Himmelman's live show will feature the songs of the record entirely in sequence. **WXRT's** **Patty Martin** remarks, "Peter Himmelman's new

A whole lotta rumours flying around this week, between what's going on at Island and PLG, and numerous radio people shifting gears. Much on the radio side, we think, will be a direct result of book results. We'll keep you posted and try to keep heresy out of the picture. Aren't we righteous... One fact is that **Jay Taylor** has resigned at **KEDG**. No word yet on his replacement... Successful books about throughout the format, among the most impressive being **KPOI** and **LIVE 105** (who's stats were printed last week). **Kerry** and the crew in Hawaii are truly stylin', with 12+ numbers of a 3.0-5.3 (the leading alternative share in the country). 18-34 numbers are a whopping 11.2 (up from a 5.6), 25-54 6.4 (up from 3.3). And **KDGE** just had the best book in the station's history. Their 12+ numbers went from a 2.9-3.1, came 355,000, 18-34 they were 5th with a 5.3, 12-24 #3 with a 7.7, and 18-24 numbers were 7.5. Other 12+ numbers: **WHFS** (Washington) 3.7-3.7; **WHFS** (Baltimore) 3.2-3.3; **WBRU** 4.0-3.3; **KPNT** 2.3-2.1; **KTCL** 3.0-3.1; **WAQZ** 1.3-1.3; **WLZR** 5.9-6.2; **KNDD** 3.6-3.6; **KEDJ** 2.9-2.2; **WZRH** 1.4-1.8; **WWCD** 2.7-2.6... **Shonen Knife** on Conan O'Brien this Friday, May 6th... **LIVE 105's** second annual **LIVE 105 Earth Day Auction** was an amazing success. Sting's autographed bass guitar was one of the dozen items auctioned. A listener bought the guitar for \$1,050. **LIVE 105's** audience was able to bid and counterbid on many items, raising \$5,000 for two environmental charities. 100% of the proceeds were split equally among the **Wilderness Society**, an organization that protects America's wildlife and forests, and to the **Greenbelt Alliance**, a local group dedicated to preserving open space in the San Francisco Bay area. In addition to Sting's Bass, **Evan Dando** donated an autographed Gibson Epiphone electric guitar, purchased for \$715. A Fender Telecaster signed by Soundgarden fetched \$555. Many signed and numbered posters, memorabilia, gold records, and lithographs, including an original portrait of Frank Sinatra painted by Tony Bennett contributed to the overall total. The listener who scored the dress used in the James video "Laid" indicated that it was for his girlfriend. **LIVE 105** employees were amused to find him emerging from the stations' mens room looking radiant. The **Earth Day Auction** is an annual event focusing on **LIVE 105's** year-round commitment to environmental causes... The **Sam Philips** video debuted last week on 120 Minutes, and sales are over 80,000... **Mark Burgess**, the Former bassist, singer and songwriter from the **Chameleons**, will be releasing a collection of recordings entitled "Zima Junction" on the newly launched, Michigan-based **Pivot Records** on May 2nd. **Pivot Records** is located at: 2035 28th Street SE, Grand Rapids, Michigan, 49508. Tel. (616) 241-4040 Fax. (616) 241-6676. In support of "Zima Junction," Burgess and his band featuring **John Lever** on drums (formerly of The Cameleons), **Neil Dwerryhouse** and **Yves Altana** on guitars, and **Karen Leatham** on bass, will be touring the U.S. Beginning in June. Burgess will be performing new material from the LP as well as old Chameleon songs. As friends and fans of Burgess of the Chameleons, former Caroline recording artists **Springhouse** have agreed to a one-time only reunion as openers for select dates. *6/9 Washington D.C.; *6/10 Hoboken; *6/11 NY; *6/12 Boston; 6/14 Toronto; 6/15 Pontiac; 6/16 Grand Rapids; 6/17 Chicago; 6/19 San Francisco; 6/20 Los Angeles. A whole lotta other tour dates: **King Missile**: 5/5 Seattle; 5/6 Portland; 5/7 Victoria; 5/10 San Francisco; 5/11 Palo Alto; 5/12 Los Angeles; 5/13 San Diego; 5/14 Phoenix; 5/15 Tucson. **Charlatans**: 5/2 Toronto; 5/3 Cleveland; 5/4 Detroit; 5/5 Cincinnati; 5/7 Milwaukee; 5/8 Chicago; 5/11 St. Louis; 5/12 Memphis; 5/13 New Orleans; 5/14 Atlanta. **Pavement**: 5/2 Minneapolis; 5/3 Madison; 5/4 Ames; 5/5 Chicago; 5/6 Louisville; 5/8 Newport; 5/10 Detroit; 5/11 Columbus; 5/12 Cleveland; 5/13 Pittsburgh. **Chainsaw Kittens**: 5/2 Burlington; 5/4 Boston; 5/5 New Haven; 5/9 Oxford; 5/10 Columbus; 5/11 Dayton; 5/12 Chicago; 5/13 Indianapolis. Check out: **The Tindersticks**, **Catherine**, and **The Dambuilders**. And we totally love the **Fuzzy** record, coming out on **Seed** in a couple of weeks. Brilliant, catchy fuzz-pop on one of the most amazing labels out there.

Bass player **Daryl Jones** will tour with the **Rolling Stones** this summer, but he's not being considered an "official member" of the Stones, even though he also plays on the Stones album coming out in June. Jones has played with **Sting**, **Miles Davis** and **Madonna**.

Mike Walker of the *National Enquirer* says the tabloid declined to print a photo of **Kurt Cobain** in his coffin before his body was cremated. Walker says it would have been "too much" to run the picture. He says Cobain "looked fine," even though he had shot himself in the head. "I don't know how they did it," Walker says.

Nirvana's appearance on MTV's "Unplugged" last year will likely be released as an album and a home video. Songs taped during the session but not aired on MTV included the gospel song "Jesus Wants You For A Sunbeam" and an old **Meat Puppets** song.

Sass Jordan will tour in the coming months using the name **Sass Jordan's Colorcode**, as guitarist **Stevie Salas** has joined her band. "After all, we wrote most of the songs (on 'Rats') together," Jordan says. Jordan's drummer has left her to join the band being formed by former **Ozzy Osbourne** guitarist **Zakk Wylde**.

Pollstar magazine predicts this summer's rock concert season will be the biggest in history. The weekly publication predicts 1994 will exceed the record of \$1.1 billion in ticket sales seen in 1990. Publisher Gary Bongiovanni says the **Rolling Stones** may break their all-time ticket sales record of \$98 million set in 1989. "Just look what **Pink Floyd** has been doing," Bongiovanni says. "The Rolling Stones will definitely pack them in later this summer and **Billy Joel** and **Elton John** are teaming up for a series of concerts that appear now to be booked mostly into stadiums." Bongiovanni says concert revenues hit a low in 1991 and recovered somewhat in 1992 and 1993. "This year we expect the biggest year ever," he says. "Country remains the fastest growing segment of the business. And it's the new artists who are drawing the fans. People are flocking to see the **Alan Jacksons** and **Garth Brooks** not the **Willie Nelsons** and **Waylon Jennings**."

A British court has ruled against **Mitch Mitchell**, drummer for the **Jimi Hendrix Experience** from 1966 through 1969, in a lawsuit filed against the company that published the Hendrix biography "Scuse Me While I Kiss The Sky." Mitchell's lawsuit contended the book unfairly portrayed him as racist, but a Court of Appeal ruled in favor of the publishing firm. Mitchell must now pay court costs to Omnibus Books.

Grace Slick has pleaded guilty to one count of brandishing a shotgun at police officers at her home in Marin County, California, on March 5. Under the terms of a plea bargain, her original felony and misdemeanor charges were reduced to a single misdemeanor. She will be sentenced on June 6 and could be given a six-month jail term. However, Superior Court Judge William Stephens could parole her to a six-month residential treatment program for alcoholism.

Pearl Jam has canceled its planned summer tour. Band manager Kelly Curtis says a dispute with Ticketmaster over ticket prices is the primary reason, though he admits the members of the band need to take a break. The band wants to keep ticket prices at \$20, including service charges, apparently causing a problem with the ticket agency.

Swell haven't included a lyric sheet with their new album "41" (on American Recordings). Instead, they've included the words as a spoken track at the end of the CD. "There was no room for lyrics on the CD digipak," says singer and guitarist **David Free!** "So we had (drummer) Sean (Fitzpatrick)'s dentist read the lyrics as the final track on the album. It's supposed to sound like some crazy bum babbling insane poetry in the seat next to you on (public transportation)." The band's last independent album before the current LP was recorded for \$900. "It would have cost less, but David bought a reverb unit for \$375," says bass player **Monte Vallier**.

Chris Xefos of **King Missile** has produced an album from New York singer and pianist **Alison Faith Levy**, called "Grumbelina." The album features **David Immergluck** of the **Monks Of Doom**.

Jesus Lizard will have an album out later this summer (on Collision/Giant Records) recorded during its live show at the 25th anniversary of CBGB's in New York last December.

Accordion and keyboards player **John Magnie** says it was frustrating that three years went by before the **Subdudes** were able to release their album "Annunciation." "In retrospect, I think it was meant to be that way," Magnie says. "We ended up with a good, rich set of songs having a little longer to work on it."

Anson Funderburgh & The Rockets will record their first live album in August in Kansas (for Black Top Records). The band recently appeared in the film "China Moon." "I don't think any of us are ready for the movie business, but it was fun," Funderburgh says. "I kind of have a hard time believing it."

The **Samples** say they've maintained their following by compiling a mailing list of almost 30,000 fans. An unpaid staff of about 125 fans helps the band get out fliers, put up posters and check to be sure record stores have the band's albums. In return, they get tickets, t-shirts and other paraphernalia from the band. "The idea originated from getting so much mail from people who were into the band and wanted to help us out," says guitarist **Sean Kelly**. "We started taking them up on their offers. It's been very successful so far, and it's great to have fans who are part of the band's success." The band says it's sold 250,000 albums in the past year, five times what it sold after being signed to a major label in 1990.

L7's "Hungry For Stink" album is now set for release in mid-July (on Slash Records), while the band is on the road as part of Lollapalooza.

Don Was, Jim Keltner and Benmont Tench appear on **Randy Newman's** new single, "Make Up Your Mind," which appears on the Newman's soundtrack to the film "The Paper." Newman is now working on the soundtrack to the movie "Maverick" and finishing work on his musical "Faust." The album of "Faust" will include performances by **Bonnie Raitt, Linda Ronstadt, James Taylor, Elton John, Don Henley and Peter Asher**.

"The Doo Wop Box" set is now available in record stores, after only being offered by mail-order during the first few months of this year. The package includes almost every doo wop song that made the Billboard charts between 1948 and 1987.

Steve Wynn will record his next album with Boston band **Come**. Wynn, founding member of the **Dream Syndicate**, is moving from Los Angeles to New York.

Johnny Cash says he'd always wanted to do an acoustic album like his new "American Recordings." With producer Rick Rubin, he recorded over a hundred songs for the LP. About half of them were gospel songs. Only 13 made it onto Cash's new album. "It's like God has given me a third shot at it," Cash says. "There's a whole new generation out there, I know, that haven't heard me and don't know what I'm all about." Cash is optimistic the LP will do well. "It remains to be seen whether anybody will like it because it's just a whole lot of Johnny Cash coming right in your face. I've got nothing to lose and I've got musical integrity because I'm doing what feels right: I'm doing songs I love," Cash says. He adds that he believes young people will be more accepting of him than they have been in the past. "They're not afraid to say anything, not afraid to hear anything," he says. "They're disillusioned with the secular world, the whole thing and they're looking for something that they can depend on."

Even though fans stood in line to buy tickets, the **Elton John-Billy Joel** concert in Cleveland was canceled "due to the lack of ticket sales in the Cleveland area and logistical concerns," according to the promoter.

Tony Bennett has recorded an "Unplugged" session which will air on MTV this summer and then be released as an album. "It's funny," Bennett says. "I tell teens I've been unplugged for years, just playing acoustical stuff — gut-string guitar, stand-up bass and piano. Natural instruments. My 'Unplugged' special runs an hour, which is unheard of. The audience was all young people." Bennett, who is 67, says his career "is at an all-time high." He's recently been on the charts with a collection of songs introduced by Fred Astaire.

Aerosmith played at the opening of the House Of Blues nightclub in Hollywood, owned by a group of people that includes the band and **Dan Akyroyd, Keith Richards, Bruce Springsteen, Stephen Stills**, former **Electric Light Orchestra** leader **Jeff Lynne**, and **Dweezil Zappa** were among those in the audience.

A **Ringo Starr** drum kit is on display at the U.S. Space & Rocket Center in Huntsville, Alabama, as part of a display marking the 25th anniversary of man's first walk on the moon. The exhibit, "Man & The Moon: The Apollo Years," includes many items from the 1960s, including the drum set purchased in 1966 for \$200 by a friend of the center's marketing director after the **Beatles** played Candlestick Park in San Francisco. The drum set is now valued at \$250,000.

Producer **Al Kooper** is working on a tribute album to **Harry Nilsson**.

Marshall Crenshaw and **Aimee Mann** have recorded tracks for the LP. Meanwhile, an album **Nilsson** was working on before his death is still without a record label.

A jury in Los Angeles has ruled that **Michael Bolton** stole portions of "Love Is A Wonderful Thing" from the 1966 **Isley Brothers** tune of the same name. Jurors must now decide how much Bolton should pay in copyright infringement damages. The attorney for Ron and Marvin Isley says they were delighted when they heard Bolton's song for the first time. But they sued Bolton in 1992 when they found that only Bolton and Andrew Goldmark were credited with writing the song.

Storyville is the name of a new Austin, Texas, band called **Storyville** that features **Tommy Shannon** and **Chris Layton**, the former rhythm section for **Stevie Ray Vaughan's Double Trouble** and the **Arc Angels**, and vocalist **Malford Milligan**. Milligan's latest album is called "Storyville," and features Shannon and Layton.

Steve Miller will perform with former **Creedence Clearwater Revival** members **Stu Cook** and **Doug Clifford** at a benefit concert for Chet Helms, founder of a 1960s concert production firm in San Francisco. Former members of **Moby Grape, Big Brother, Country Joe & The Fish** will also perform to raise money for Helms' medical bills.

Adam Horowitz of the **Beastie Boys** has been sentenced to two years probation after pleading no contest to a misdemeanor charge of battery. A related charge of grand theft was dropped. Horowitz was charged with assaulting a cameraman from the syndicated television program "Hard Copy" and stealing a videocassette containing footage shot at a memorial service for River Phoenix in Los Angeles last November. Horowitz has also been ordered to perform 200 hours of community service and pay \$200 in restitution. The **Beastie Boys** release a new album, "Ill Communication," at the end of May, before going on the Lollapalooza tour.

Aerosmith's Steven Tyler says he agreed to appear on the ABC-TV program "Turning Point" because he hoped he "would save at least one life." In the program segment "Hooked: From Hollywood To Maine Street," Tyler talked about how he overcame heroin addiction eight years ago and how the drug has since regained popularity. **Kurt Cobain**, when he did his videos, you look in his eyes and he couldn't even face the camera; he was in pain," Tyler says. "And I'm angry about Kurt. This guy didn't have to die."

The **Fall** release a new album in May called "Middle Class Revolt." Fall lead singer **Mark E. Smith** was recently on the British charts with the **Inspiral Carpets** as he sang on their single "I Want You."

A Mohawk Indian leader and a Tibetan Buddhist monk have blessed the site of a planned 25th anniversary Woodstock concert, which will take place in Saugerties, New York, in August. The ground-breaking at the site came despite the opposition of residents of the small town who say it cannot handle the crowds the event will attract. Concert promoter Michael Lang, who was involved in the original Woodstock festival in 1969, is organizing this event. There are also plans for a smaller anniversary concert on the original Woodstock festival site.

A music publishing company in Everett, Washington, has filed a U.S. District Court lawsuit against the owner of Barney the dinosaur, claiming copyright infringement. Jean Warren says she bought rights to Barney's "I Love You" song in 1983 and is entitled to a portion of Barney's profits. The Lyons Group of Dallas, Barney's owner, maintains it purchased rights to the lyrics in 1992 from the Indiana woman who wrote them.

Crosby, Stills & Nash will celebrate their 25th anniversary this summer with another tour. "The noise that we make together is like an act of God," **Stephen Stills** says. "The marriage — and that's what it is — has been a bitch." Stills now runs a restaurant in the French Quarter of New Orleans called TouCan Du. Even though he's "gravitating back to the South," Stills plans to open another restaurant in California. But neither club will feature live music "because it's a pain in the neck." Stills is planning to record a blues album after Crosby, Stills & Nash finish a new record.

An **Elvis Presley** memorabilia collection will be auctioned in Las Vegas on June 18 and 19. Among the offerings will be Presley's 1969 blue Mercedes-Benz limousine, described as "the most luxurious and expensive vehicle Elvis ever owned." The opening bid for the car will be \$100,000, though it's expected to fetch a much higher price. Over 600 items from Jimmy Velvet's Presley museum in Memphis are to be sold, including Presley's American Express card, his parents' marriage license, and many of Presley's stage costumes. The collection will be displayed in Los Angeles and London in May and in San Francisco in early June.

Art Garfunkel and **Dolly Parton** appear on **Julio Iglesias'** "Crazy" album coming out in mid-May. The title track is a cover of **Patsy Cline's** famous song. Garfunkel has recorded a version of the **Everly Brothers'** "Let It Be Me" with Iglesias.

A **Cheap Trick** "Live At Budokan II" album will be released later this spring (on Epic Records). The album, previously available only as an import, comes from the same performance as the "Live At Budokan" album of the 1970s.

Winger have apparently broken up. Bass player and vocalist **Kip Winger** is working on new material with guitarist **Tony Macalpine** and former Winger colleague **Paul Taylor**. Drummer **Rod Morgenstein** is back with the **Dixie Dregs**, while guitarist **Reb Beach** is working on a solo project.

Canadian singer **Paul Laine** has been recruited to join **Danger Danger**, replacing the recently dismissed **Ted Poley**. Laine is re-recording all of the vocal tracks on the band's new "Cockroach" album before it gets released.

Three of the members of **Hardline** are planning to record a new album with former **Bad Company** singer **Paul Rodgers**. Guitarist **Neal Schon**, drummer **Dean Castronovo** and bass player **Todd Jensen**, have split from **Hardline**, which is now without a record label. However, guitarist **Johnny Gioeli** and vocalist **Joey Gioeli** are auditioning replacements for a new band that may retain the **Hardline** name.

Ace Frehley is currently in pre-production for a new album, even though he's without a record label.

Todd Rundgren is reportedly considering producing the next album from North Carolina band **Dillon Fence**.

"Brothers Travis" is the tentative title for the album the **Outlaws** are currently recording.

An appeals court in Germany has ordered a rock band to pay tennis player Steffi Graf \$35,000 because it released a song suggesting Graf had an incestuous relationship with her father. The court in Karlsruhe dismissed an appeal by **Run-Over Schoolchildren** of a ruling in favor of Graf by a lower court last year. The song in question, "I Wanna Make Love With Steffi Graf," was banned by many German radio stations after it was released in 1992.

Former **Cream** members **Jack Bruce** and **Ginger Baker** have teamed up with guitarist **Gary Moore** to form a new band called **BBM** (Bruce, Baker & Moore), which will release an album this summer. Bruce says he tried to get **Eric Clapton** to join him and Baker on a concert tour in Germany last year "but he had to be in Japan and couldn't get the dates right." "Most of the new material was co-written by Moore and me," Bruce says. "The new band **BBM** just took over. I invited Ginger to play and when he started it became obvious we had a band. I always had a chemistry with Ginger Baker... We never had any problems musically, it was more personality-wise." An album recorded on last year's tour was released under the title "Cities of the Heart."

Drive Like Jehu releases the album "Yank Crime" in May (on Interscope Records). The band includes guitarist **John Reis**, who sings in the band **Rocket From The Crypt**. The band plans a North American tour in late spring and early summer.

Marvin Gaye's 1971 album "What's Going On" will be re-issued in June (by Motown Records). The digitally-remastered CD will include liner notes by Gaye biographer David Ritz.

Chuck Leavell, who will again play keyboards for the **Rolling Stones** when they tour later this year, has been honored as a Conservationist of the Year by the Georgia Wildlife Federation. The award is for conservation practices he uses at his middle Georgia tree farm.

Guitarist **Gary Hoey** is among the artists contributing to the soundtrack to the film "Endless Summer II," coming out at the beginning of June. The musicians recording the soundtrack also include bassist **Tony Franklin** of the **Firm** and **Blue Murder**, drummer **Greg Bissonette** of **Joe Satriani's** band, and guitarist **Dick Dale**. "I've always wanted to be involved with a movie soundtrack," Hoey says. "I just love the vibe of this film and everything it represents."

Sam Phillips begins a U.S. tour in Jackson, Mississippi, on May 2, supporting her current album "Martinis & Bikinis." Her touring band will include bass player **Anders Rundblad**, a founding member of **Wire Train**.

Pat Travers is about to begin recording a new album, his third for his current label (Blues International). Travers has been touring with a band that includes veteran drummer **Aynsley Dunbar**.

The **Neville Brothers** will be touring with a different band than the one features on their new "Live On Planet Earth" album. **Nick Daniels** has replaced longtime bass player **Tony Hall** in the band. Daniels is a former member of **Zachary Richard's** band and played with the Neville Brothers years ago. Guitarist **Eric Struthers** has also left the band, while keyboardist and vocalist **Terry Manuel** has joined the Nevilles' line-up. "We've had the same band together for some years now, and we wanted to change a couple of things to change the sound," says saxophonist **Charles Neville**. "Aaron likes his songs to be more like they were recorded, so we needed to add another voice that could do that stuff. The combination of Terry and Nick with myself and Cyril and Art, that's five really powerful voices."

The **Indigo Girls** named their upcoming album "Swamp Ophelia," the name of a plant mentioned in **Amy Ray's** song "Touch Me Fall." "We just thought it sounded cool," Ray says.

Chris Stamey, formerly of the **dB's**, has formed a new band called **Andrew King**. "We've got a bunch of tracks and plan to try for some sort of record deal with those," he says. "I still have a record of my own that I've been working off and on for about a year and a half. It's still not done. It's sort of an electric folk record. I'm not the only musician on it. But the Andrew King thing is more of a loud record." Stamey says the new band is "lyrically less conventional, and musically more so. At the same time, I'm doing this record called 'Ignition.' It's me and this percussionist named **Ed Butler** and a guitarist named **Kirk Ross**, whom I'm a big fan of. He's out of the **Derek Bailey/Fred Frith** school. We just improvise... I have high hopes for it."

The original line-up of **Foghat** is writing material for a new album to be recorded and released later this year. The band broke up in 1985 and band members got back together last year.

Eagles guitarist **Joe Walsh**, guitarist **Chet Atkins**, and **Dixie Dregs** violinist **Jerry Goodman** appear on the new album from Australian guitarist **Tommy Emmanuel**, called "The Journey" (on 550 Music). "I don't want to be the fastest guitar in the West, riding off into the sunset," Emmanuel says. "I try to come up with songs and performances that I hope will stand the test of time."

New York band **Soul Coughing** will have a debut album out this fall (on Slash Records). The quartet describes its music as "deep slacker jazz."

The manager of rapper **Dr. Dre** has been arrested on weapons charges in Los Angeles. Marion Knight allegedly participated in a scheme to send cocaine from Los Angeles to Las Vegas.

British rockers **Skin**, in the charts with the title track to their "Money" EP, are currently preparing for the Donnington festival in a couple of months. The band was formed out of the ashes of two other groups, **Jagged Edge** and **Cougar**. The new single is Skin's third... "Come On You Reds" comes from one of Britain's most successful football teams, who are celebrating the fact that they are on course to win their second successive league championship and will play in the F.A. Cup final against Chelsea on May 14. Their record was masterminded by veteran British rockers **Status Quo**... **The Red Hot Chili Peppers** "Bridge" single was first released two years ago but failed to chart. It's been re-released after the success of the Los Angeles band's top ten hit in February with "Give It Away"... South London group **Eternal** have a hit with the third single from their debut album "Always & Forever." It's a remixed version of the track, already a big hit in British clubs... Italian outfit **Clubhouse** chart with a new version of a record that's been in the lower reaches of the chart for some time... **The Pretenders** are back in the chart for the first time since 1986. The single was co-written by lead singer **Chrissie Hynde**... **Motivate** have a new dance record called "Rocking For Myself" which features the former lead singer of **Bizarre Inc**.

This week's French chart is the playlist of national station M40... French bands **Mush** and **Spicy Box** played at the first day of the 18th annual spring festival in Bourges. The six-day event featured 58 performances. Marseille rap group **IAM** appeared at the fest this year, three years after the rappers got their start at the festival in 1991. **Soon E. "Sweet Mystery," an English-language version of **Liane Foly**'s "Let petites notes," is being released in 26 countries, including Japan, Australia and Canada. The songs were adapted by composer **Tim Rice** and **Peter Kingsbery** of **Cock Robin**. Foly played the Bourges festival as well as playing dates in Paris and at the Francofolies de la Rochelle... **Grant Lee Buffalo** are playing dates in seven cities in France this month, including a stop in Bourges... Former **Telephone** leader **Louis Bertignac** makes a return to Paris next month at the Bataclan, a few months after the release of his "Elle et Louis" album... Joe Strummer, formerly of **The Clash**, returned to the live stage for the first time in almost two years last week. The singer played a benefit concert in the Czech Republic capital Prague. Strummer performed with a local band **Dirty Pictures** at *Rock For Refugees*. The show, which featured over 25 local bands, was to raise money for refugees from the former Yugoslavia. After the show, Strummer met Bosnian children and attended a press conference. Performing in front of around 1,000 people, Strummer and **Dirty Pictures** performed such Clash favorites as "London Calling", "Brand New Cadillac", "Tommy Gun", "I Fought The Law", "Clash City Rockers" and "Garageland". **Dirty Pictures** have just released an album "Escape From Sloppy Lake".

Iggy Pop looks set to headline one night of the Phoenix Festival which takes place in July in the Midlands of England. Other bands either confirmed or expected to play at the event are **The Wonder Stuff**, **Carter The Unstoppable Sex Machines**, **Paul Weller**, **The Fall**, **The Beautiful South** and **Therapy?** Elsewhere, August's Reading Festival is likely to feature **Soundgarden** and **The Stereo MCs**, in addition to bands previously reported in *The Hard Report*.

Teenage Fanclub's drummer **Brendan O'Hare** has left the band. The announcement ended several months of speculation over the band's future. Many thought they would split entirely. O'Hare is expected to make an announcement concerning his future plans very shortly. Meanwhile, **Norman Blake** of the Fanclub is rumored to be working on a solo album.

Jimmy Page and **Robert Plant** played a show together at Derby Busto Opera House on Saturday April 23. The show was a tribute to the British bluesman **Alexis Korner** who encouraged such artists as Page, **John Mayall** and **The Rolling Stones** in the early years of their careers. Page joined Plant's band to perform "Baby Please Don't Go", "I Can't Quit You Baby", "Train Kept A Rollin'" and two other blues standards. The duo have been working together at a rehearsal studio in London's King's Cross, something your correspondent can confirm as he was somewhat surprised to see Page walk into a local pub when he was in the middle of an interview with *Compulsion!*

Moby, has reacted angrily to Toyota using his song "Go" for a British television commercial. The eccentric dance artists commented: "It's not the fact that someone's stolen my work because I believe in that rather outdate notion that you can't own music. I'm just angry it's being used to promote selling cars." Moby, a vegan Christian, does not believe in car ownership. He wanted to take Toyota to court and give any settlement to research into other modes of transport. However, he has been advised he does not have sufficient grounds to sue.

Pearl Jam's **Eddie Vedder** has reacted strongly to the death of **Kurt Cobain**. *Melody Maker* editor **Allan Jones** quotes Vedder, speaking before a special New York show, as saying: "This could be our last show in fuckin' forever as far as I'm concerned. Kurt's death has changed everything. I don't know if I can do it any more. I don't know where we go from here. Maybe nowhere. I think this is going to be the last thing for a long time. I'm just gonna live in a fuckin' cave with my girlfriend. I don't think I'll be showing my face for a while. I don't think I'll be making any fucking videos. Maybe we'll eventually do some shows or something. I just don't know. I'm having a real tough time right now. This is the last night of the tour and I don't know how we've got through the last week. It's been so fucking hard, man. So hard. And tonight, you know, it's just going to be so...so weird." Jones gives the Pearl Jam show at New York Paramount a rave review.

The London Camden Falcon may be forced to close. Over the last few years, the venue has built a strong reputation as one of the best pub venues to see new bands. Artists such as **Happy Mondays**, **Lush**, **Suede**, **Ride** and **Blur** have all played their first London dates there. According to promoter Roger Cowell, the venue is under threat because of complaints from residents about noise

levels. As a result, the Falcon have been ordered to install noise limiters by the local government of Camden Council. Although the equipment is being fitted, Cowell thinks it might make the venue's noise levels so low that he does not want to continue organizing shows.

Right Said Fred will have to go to court with **Jim Penfold** of **The Hollywood Killers** over the song "Deeply Dippy". Penfold claims the song borrows from "She's The Kinda Girl", a song Penfold wrote when he and Right Said Fred's **Rob Manzoli** were both members of **The Hollywood Killers**. Speaking in court, Justice Morrill described moves to have Penfold's action thrown out as "frivolous and vexatious". A full copyright court battle looks likely to follow.

Aphex Twin, aka **Richard James**, was hospitalized in Moscow last week. The ambient/techno artist was taken ill with food poisoning and checked in to Moscow's Hospital Number 1. He had been due to perform at the Britonica Dance Festival with **Alex Paterson**, **Paul Oakenfold**, **Seefeel** and **Bark Psychosis**. To add insult to injury, the hospital lost James's clothes and the British Counsel had to find some replacements so he could leave.

Neil Young And **Crazy Horse** have worked out differences which threatened to split the band, according to a report in the *New Musical Express*. The paper says problems began when Crazy Horse bassist **Billy Talbot** stayed at the house of Crazy Horse fan **Bill Ryan**. Allegedly, Ryan circulated details of Crazy Horse's forthcoming album to other fans. The 'leak' was reported to Crazy Horse manager **Elliot Roberts** and nearly ended the working relationship between Young and Crazy Horse.

same chance to learn as you all gave me when I began as Metal Director... See ya in the Big Apple!!

SUPER FRANK & JOHN LENAC, MD, KTOZ, CHANNEL Z,

Greetings industry friends. Everything is groovy here in the midwest. Hope all is well in your space... We've burned up three adding machines totaling the figures from our "Hope For Heartland Benefit." While we're out trying to find something that can handle these gigantic numbers, feel free to send in your loose change for the kids... Even before the dust could settle from the 27 bands that played at the benefit, Channel Z was clearing the stage for another week of shows. It started Tuesday night with **13 Engines**, **The Indians**, and **The Connells**. Friday, "The Mob" invaded Springfield, (The Royal Crescent Mob), and local favorites, **Uncle Tupelo** wrapped up the week, Saturday, in front of a packed house. Thanks to the bands for coming into the studio and putting out some fantastic sounds at the club!.. Once again Channel Z created a huge amount of type for new releases this week with another big win-it-before-you-can-buy-it-weekend. Our listeners went crazy trying to win the new **Smithereens** and **Live** CD's... Thanks to everyone at RCA, Radioactive and MCA for making it possible... That's it for now...C U Bye-Bye.

ROB NICHOLSON & JULIE HOYT , CHANNEL Z,

Hi there, from the Channel Z studios in Augusta! Spring is hitting hard here and the humidity has already taken affect. Talk about the perpetual bad-hair-days for everyone! But we've had more important things on our minds than our nasty coils!.. We have finally upped our wattage and are proceeding to blow the rest of Augusta away with our kicking sounds. You can now reach us a full 70 miles outside the city limits. The calls are already pouring in from people all over who are ecstatic at finally being able to hear us clearly and new listeners who are just now discovering us... We were able to send some listeners to Atlanta for the weekend to see a sold out **Phish** show at the fabulous Fox Theatre. A big thank you to Erik Olsen for his help there. Thanks also to Jake Ottman from Elektra for coming into town and the wonderful dinner... Augusta's Minor League Baseball team, The Green Jackets are in season and Channel Z has been a huge supporter of their events. This town loves their team as much as the Braves and we get a real thrill from being a part of Georgia's baseball fever. We are doing a "two-for-one" gig with them at all of their games. It begins with a tailgate party at a local bar, two-fer beer, sandwiches and pizza at the game, and ends with free entrance to a local dance club later that night! It's a cheap night out that goes off with a bang! We'll keep you updated on all the action here in our corner the continent, and, until next week, the action here in our corner of the continent and, until next week... Peace, Love, and "The Brown Word" Patties.

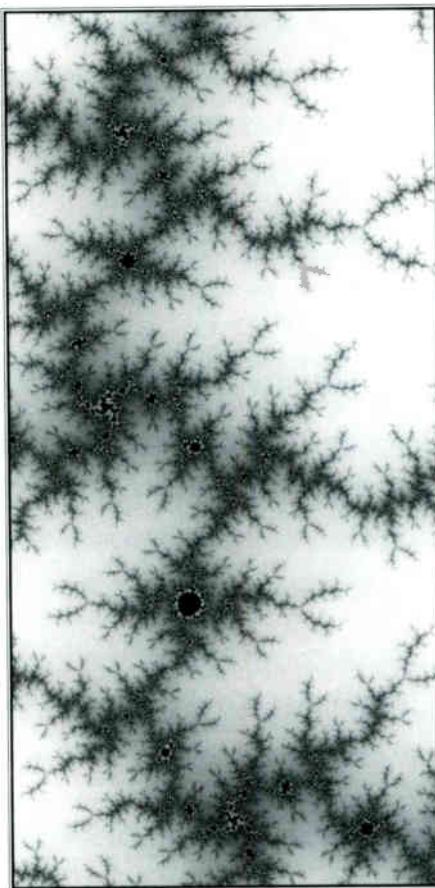

JEFFREY NAUMANN, VIRGIN

It certainly has been quite awhile since **Boz Scaggs'** voice was heard on the radio. But since **Some Change** was released a couple of weeks ago, **Boz's** new album is being heard and loved in virtually every city in America. This week, you must check out the rock remix of "Some Change." This is grit, like the old days. Already, rock radio has come in like pigs on corn on "Some Change" before the box, with the likes of KTXQ, WNEW, WLWQ, WMMR, WPYX, WHCN, and shitloads more. **Boz's** CD is already sitting in the Top 5 at Triple A radio. There is no question, **Boz Scaggs** is back... The new **Traffic** CD is now out and it's a pissah! "Here Comes A Man" sure sounds great on the radio, and other tracks to hone in on are "Nowhere Is Their Freedom" and the title track, "Far From Home." And check out the instrumental, "Mozambique." **Far From Home** is at retail May 3rd. **Traffic's** North American tour starts May 18, and goes to the end of the summer with dates hooking up with holy spannin' arsholes! The **Grateful Fucking Dead!** The search for mushrooms is on... **Cracker's Kerosene Hat** CD is rapidly approaching plat-

inum, and "Low" continues to test through the roof everywhere. Don't expect "Low" to burn out, no matter how much you play it. Which brings us to "Get Off This." It's time for every single rock station not playing "Get Off This" to take it out of the "wait-to-play" slack, dust this jewel off, and put it on the air. Who knows, maybe you'll have two tracks by **Cracker** that won't burn... **The Stones** are Rolling around the corner and produced by **Don Was**... P.S. to any **Smashing Pumpkins** holdouts: Since when is it cool not to play a hit record? "Disarm" by the **Smashing Pumpkins** is a megahit, whether you get it or not.

PAM EDWARDS, COLUMBIA, 310-449-2901

"I DON'T WANT IT - I DON'T NEED IT - BUT I CAN'T STOP MYSELF!" The new theme for our generation and the chorus to "Nothing" this is **Stabbing Westward's** ode to obsession and addiction that is luring fans into the record stores and pulling major phones wherever it is played. Hailing proudly from my hometown of Chicago, this quintet is defining a new rock sound that listeners are hooking into immediately. May 16th is the official add date, but Q104, WXTB, WQFM, WAAF, KIOZ,

KEZE, WNCD, KQXR, WTPA, WAVF and KRRK couldn't wait!.. Everyone's been waiting for the next **Toad The Wet Sprocket** and now it's here! "Fall Down" is the first track from **Dulcinea**, the follow-up to the almost double platinum **Jeep**. For your enjoyment, we sent the new song on a radio only greatest hits compilation CD. Hold on to that one! After living with "Fall Down" for many months in my tapedeck now I honestly find it to be one of the most compelling songs I've heard in the last few years. The album was recorded in an almost live setting, so the band sounds like they're playing the song in your living room. It's stunning... "No Excuses" is the biggest song **Alice In Chains** has released so far and "I Stay Away" follows it this week. **Jar Of Flies** continues to sell 30,000 - 40,000 copies a week, the band is booked for Woodstock, and the buzz goes on... **Pink Floyd** continues to break all airplay and concert records. "Take It Back" is the next track and a heavy favorite at the show... Don't forget to add **Cry Of Love's** "Carnival" on May 9th and look for **Steve Perry's** second solo album (finally!) in July!

LEA PISAGANE, ATLANTIC RECORDS, 212-275-2215

Dear Friends - Have you missed me like I've missed you? Pleezopleezopleez forgive me - it's just that I am so unutterably busy that I find it dif-

ficult if not impossible to devote the time that a true auteur requires to fashion a statement truly fitting our fucking awesomely kick-ass records!.. The most mind-blowing story of all is of course **The Collective Soul** Saga. I know you all are scratching your heads wondering where the hell this band came from and exactly what they traded to Lucifer himself in order to explode onto the rock music scene with such white-hot explosivity. Anser - Like I Told Yas Before This Song Is A Merchant/Vory Sex Scene. (Sex. Very relatable to able.) The song takes on a life of it's own. Heavy Stations. Heritage rockers. Adult leaners. Everyeveryfuckingwhere. If you're one of the minuscule amount of holdouts, you need some 'shrooms. Stay right there. The 'shroom courier's coming... **King's X** is kicking booty in front of rabid audiences all over America and every time you think they cannot become more transcendent as a musical entity, they prove your wrong. Add "Fool You." It sounds like nothing else on the radio. There's tonsomore stuff but I know you and your adorable little attention span and I will never wanna wear out my welcome. So, until next time, querdo, think of me and play my records.

ROGER MAYER, CAPRICORN, 818-990-8903

Rock Radio keeps screamin for "More"! This week **Ian Moore's** "Harlem" posts another excellent week with the likes of KICT, WHCN, KRNA, and WXRX coming on board. Plus, we see a significant leap forward in plays per week. Very cool! The rest of you...the base has been built and you can now dive in with confidence... Adult rockers everywhere are diggin' the **Vigilantes Of Love's** "Welcome To Struggleville." No hype, just sold music. Listen for yourself... If you're a mainstream rocker in search of the perfect reaction record, have we got a song for you...**The Freddy Jones Band's** "In A Daydream." Tight harmonies, bright guitars...the song has it all. Test it and find out for yourself... In two weeks, you'll have the first track from the upcoming, long-anticipated **Dixie Dregs** studio CD, **Full Circle**. The tune is an unbelievable treatment of the **Yardbird's** classic, "Shapes Of Things"... Upcoming this summer, more music from **311** and **Widespread Panic**. Peace.

MARK FISCHER, ATLANTIC RECORDS, 212-275-2085

Three reasons why **Collective Soul** will be a number one record next week. Reason one: **Collective Soul's** "Shine" is the No#1 most requested record at rock radio this week. Reason two: **Collective Soul** is the No #2 most played record at rock radio this week. Reason Three: Rock radio programmers know **Collective Soul's** "Shine" is a number one smash hit! For those few and I mean very few unbelievers, if you doubt the airplay, you can't doubt the sales. According to Soundscan, **Collective Soul** has jumped 56 places to No. 87 on the Billboard Top 100 Sales chart. This is an increase of 64% in the last week. At this rate, **Collective Soul** will be a top selling title in less than a month, selling in excess of 80,000 records a week. Look for this record to surprise many. Initial sales, before real airplay are fantastic (Some 5,000 last week)... I truly want to thank the early believers on **Francis Dunnery's** "American Life In The Summertime". **Francis** will be out all this month seeing many of you at radio as he begins his promo tour in NYC. I will be with **Francis** next week on my old tromping ground, Texas.

BRIAN MCEVOY, MERCURY RECORDS, 212-333-8458

First week in and am I psyched. The line up of metal bands here at Mercury is awesome. Up first for me is the in your face aggressive band **Downset**. Raised in LA gang scene, this is a band whose first song "Anger" is going to establish them as a Top 10 metal band. They have already secured the opening slot for the **Biohazard** European tour. Can you say "huge"?.. Everybody is waiting for the **Kiss** tribute record. The ultimate collection that covers everybody's musical flavor from **Lenny Kravitz** with **Stevie Wonder** to **Garth Brooks**. On the metal front check out **Anthrax** doing "She", but

please listen to the **Mighty Mighty Bosstones** doing a rocking cover of "Detroit Rock City". Wow!.. Wait till you hear the new **Bruce Dickson** record. Bruce has made the ultimate 90's metal record. Hearing is believing as the guys at Concrete when they heard this record were in a trance for two days after experiencing it... **Kerbdog! Kerbdog! Kerbdog!**, coming in late summer this young Irish band is currently reigniting the English metal scene for the first time since the 80's. **Kerbdog** will be the new **Young Guns** from England that will re-establish the English metal scene... Next week I will tell you about the new full length from **Shootyz Groove** and the new **Cinderella** record which is hard, incredible and smoking. What a line-up, stay tuned. Call me and let's talk music.

JEFF COOK, CAPRICORN, 1-800-289-7625

Here we are on the midst of the baseball season - everybody's talkin' stats and scores, and Capricorn's too busy to even watch a game! Know why? 'Cause we got a full plate! And it looks like we've got some home runs... First at bat - **Ian Moore** "Harlem" - it's flying on radio across the country. He's a star in his division with KLOL moving into medium, after 1 week's play and KYXQ with T5 phones! His record on the road looks great too, with solid airplay on KBPI, KIOZ, and KQRS! Just up on the scoreboard WHCN, KICT, WXXR, KRNA, KQWB, WZBH and WAPL... The next batter is **The Freddy Jones Band** whose "In A Daydream" is #1 phones at WKLS in Atlanta and is enjoying great airplay at WEFX. Jeff Kent says, "It's one of the most reactive songs we've played in some time. We get phones every time we play it". (Sounds like a home run to us!) The southern league leads the way with play at WFXS, WAVF, WRDU, WGLF and more... Batting clean-up and looking like rookies of the year at Adult Alternative - **Vigilantes Of Love** - "Welcome To Strugglesville". They've just been added to the roster at these stations: KZON, KXPT, KACV, KZYR, KRVM, WCLZ, KPIG, WBUR, KKRK and WRLT... With all this to do we thank you in advance for your airplay. And like a ball off Klesko's bat - I'm outta here.

**CHERYL VALENTINE, EPIC METAL,

Heard about the killer summer tours? The ones that kids will be spending all of their allowances on and them some? The kind of tours that we are dying to see? I figure that after this summer, I can basically roll over and die because my life will be complete! By September I will have seen **Prong** and **Sepultura** with **Pantera** and **Suicidal Tendencies** with **Metallica** (some shows w/**Danzig** and others with **Alice In Chains**)... I should already be happily dead because I saw UFO re-unite in San Antonio (God Bless you Jave Patterson & KISS) but I decided to stick around and see my bands crush the universe... That's right! **Suicidal, Prong, Sepultura**...thank you!.. For upcoming tour news on **The Poor**, stay tuned and make sure that you get out to see **Infectious Grooves** while they're reeking havoc!..Please remember that June 6 & 7 are my add days... We're going for it on the full length from **Alice Cooper, Motherland** and **Suicidal Tendencies**. Just engrain it in your mind that June 6&7 are your Epic Metal days... For singles: **Motherland** "Rumor" on May 10, **Sepultura** "Slave New World" on May 24 and **Suicidal Tendencies** "What You Need's A Friend" on May 31. My bands rule and you know it!

**JON NARDACHONE, ATLANTIC,
212-275-2135**

I would have never known, but because the young man was standing next to me the entire evening. I could not help but notice...It happened at the **Rush** show at the Meadowlands arena the other night...I stood about a dozen rows in front of the soundboard, with a dynamite view of the light show...**Geddy** and Co. had the crowd delirious as soon as they hit the first note of "Dreamline"...The craziest thing happened next...As **Alex** segued into the opening riff to "Spirit Of Radio", the man next to me began to weep, but more like a "my life is now fulfilled

and I have nothing left to live for" type of weep... I was truly touched as the young man wept through one hell of a **Rush** set featuring "Xanadu", "The Trees", "Limelight", "Roll The Bone", "Animate", "Cold Fire", "Double Agent", etc, etc, etc...At the end of the show, the man slumped down in his seat and embraced his girlfriend in the most emotional way...In my twenty-four years on this earth, I've been bludgeoned, awed, kicked around, and knocked into the stratosphere by some amazing music, but I've never been moved to the point of this man's manic show of emotion...The Point...no matter how much a certain type of song or style of music hits us, it will always affect someone else more...The power of music never ceases to amaze me!!!

Something tells me that if the Panthers had been given the opportunity to play Mike Keenan and his traveling band of Hair Club for Men candidates, Johnny VanBeezer would not have embarrassed himself, unlike...Hey, excuse me, didn't you used to be Ron Hextall? Hmmm...let's see...Go Magic, Nets, Hawks, Pacers, Cavaliers, Bulls, Hear...What's missing?... Enough, the tour itineraries are chock full o'raging rock steaming through the country. **King's X, The Charlatans, Madder Rose, Surgery, The Hatters, Stuttering John, and the Chainsaw Kittens**, all on tour, all willing

to make your life happier... Records that hopefully have perked your ears lately: **Godspeed!** This is a sick album that's got everything, it's heavy, loud, abrasive, and dirty. What more can you ask for? Checkout "Houston St." for starters... **King Missile** is back, enjoy this record, find out what "Love Is"... If you haven't heard **Collective Soul**, well, you've been living inside of a vaccum... Everybody's jamming on this band! Call for promotional stuff, tour info etc...they make their way here to New York on May 18th, 143 to 87 on Billboard, yea, I guess you could say something's going on...BOO-YAA!.. What else? Oh yea, we've got a smokin' debut from **Francis Dunnery** (You rock aficionados will recall this talent from his stint playing the gee-tar for none other than **Robert Plant**). He's got a great single in "American Life In The Summertime", definitely perfect timing as the weather's getting warmer..hint, hint, trust me, would I lie to you?.. New stuff on the way from **The Nuge, Stevie Nicks, INXS's Greatest Hits, and Collapsing Lungs!**.. By the way, the new **Stone Temple Pilots** is perhaps one of the finest records you will hear this year. The band has returned with a record that places them firmly upon the rock mountain, with more than enough elbow room to stand ALONE! You Will Fall In Love With This Album Instantly, which is all I need to say... On the way...**Helmet, Testament, Bad Religion, Overkill, Savatage, Skid Row, Sick Of It All, Violet's Demise, Saiam, and Whale**... On a final note, be sure to check out the latest edition of **Spewvision**, featuring a bevy of artists from the Atlantic Group and a sick trailer package for **Brandon Lee's** "The Crow" now I know you know the soundtrack, but the movie's one of the sickest I've seen in awhile...it's coming soooooooooooooon.

**STEVE MCCLURE, LEVIATHAN RECORDS,
404-463-1009**

Imperium's Too Short A Season is exploding everywhere at radio and press. "Chemical Dreams" is the lead track but every track on the CD showcases the band's intense sophistication. The band just finished a well of interviews and if we missed you, give us or Munsey a call and we will set you up for the next round. Definitely one of the top debut releases in 94... **Joe Stump** is about to head into the studio to record his follow up to last year's **Guitar Dominance**. The tentative title for his new release is **Night Of The Living Shred**. More intense guitar work with a heavier groove.

**MARVIN GLEICHER, SMASH/ISLAND

Okay! Okay! Alternative music is not only **Sheep On Drugs** "from A to H and back again!" It includes the **Orb, PJ Harvey, Bjork, NIN** and **Sheep On Drugs**. You'll remember when we told you so. Live dangerously & intelligently. Top 5 request Latour "E". #1 Groove Radio, #1 NET chart! Coming soon: 1st new wired **YELLO** album in 6 years: "Zebra".

Hey, I'm feeling great! The sun is shining down on Chicago, The Cubs are in last place and great new releases from **Sugar Blue, Luther Allison** and **Charlie Musselwhite** are on your desk waiting to impress you. Check 'em out now or you just might ruin this feelgood-maybe this world's-not-so-bad mood I'm in. Don't make me reach for some Prozac...Listen to tracks 1, 3 and 7 from harpist extraordinaire **Sugar Blue's** new release "Blues Blazes". Don't forget tracks 11 and 12 on "In My Time" from harp legend **Charlie Musselwhite**... Also on your desk is the **Jim Gaines** produced (Stevie Ray, Albert Collins) release "Sould Fixin' Man" from Chicago's **Luther Allison**. Luther is a contemporary of **Otis Rush's** who, after years of playing in France, is back with the most exciting, most album radio appealing release this year! Check out lucky tracks 4,7 and 11 and tell me you're

not impressed. Tanks for reading. Hasta La Boobla.

BOB ARDREY, CONTINUUM RECORDS,

"If 60's Was 90's... all you alternative radio gurus would start spinning the **Beautiful People/PM Dawn** version of this track right now (in fact, some of you already are). Your audience will react with phones and sales in your market (trust me). Tour plans to be announced soon... Why does the new **Soundgarden** track make me think of **Spinal Tap**? Why does the new **Material Issue** song remind me of **Rush**?

JILL AND JEANNIE, THE RED LIGHT

Also, **Sarkoma** great reviews, great numbers 9 more this week! WooHoo! They're kickin' butt and taking names!.. And of course **Gutted**, blowing your ears off the sides of your rotting scull, **Oppressor** making your blood race so fast your eyes are bulging from their sockets and **Coven! Coven, Coven, Coven**...What witty little phrase can I create which will truly encompass the **Coven** phenomenon? Huumm. Let me throw some coals on the barbie while I think about it... A final note, a public apology, the GM at WMSS sent me back the tray card from the **Coven** release with a note about how bad it sucks and how I should donate the postage to a victims rights organization but, he didn't send back the CD (must be a closet **Coven** fan!) Sorry to have offended you sir. Barbecue anyone?

Skatenigs ruled the airwaves this week, #1 most added and you know you love this record... The **Dio** tour starts in the midwest on May 20th. "Jesus Mary & The Holy Ghost" are ruling in your cd player. **Dio's** single will kick your ass so do it... **Black Sabbath** has the balls. Dig on "The Hand That Rocks The Cradle" and "I Witness" too has the goods... **Love/Hate** once again kicks your ass. 49-25 bullet this week. #2 most added second week out... **Imperium** is in your face big time. The band just finished up the first set of radio interviews. We will be doing more in a few weeks, so give it up for these guys for calling in from Holland... **Sarkoma** is in your face as well. The full length will be on your desk in a week or so. Remember these records rule, and you know you love that. Till next week I'm outa here. Cya.

JAMES LEWIS, JAMES LEWIS MARKETING,

"Well, it's another busy week, and there's a lot to tell you about the usual. Let's start with **Storyville** who continue to climb their way up the chart... **Rory Block** is also looking great, and how about those **Blazers**? They are still pulling in new believers...good to see a lot of you going back to this one... There's no slowing down for **Doyle Bramhall** and **Pat McLaughlin** either...both pick up adds and conversation... Many of you seem to be excited about the re-lease of the **Boomers** and rightfully so. Your listeners will be happy to know there should be no problem getting their hands on this great album, now being distributed domestically... **The Mint Juleps** are something a little different, and it's guaranteed to raise a few eyebrows and make those phones ring with curiosity. Give it a listen and see what we mean... You should all have a new release from **Jimmy LaFave** (already on KERA and KENS)...it rocks! Enough said!"
