THE HARD REPORT

TOP PRIORITY

Flaming Lips, "She Don't Use Jelly," WB

True, it's taken WB the better part of a quarter to set this quirky track up—but at this point all indicators point to a multi-format hit in the making. Witness #1 Heatseeker status, MTV Buzzbin, 10,095 copies Soundscanned this week, and the track's strongest yet 18 station add week. Couple those adds (KEZE, KICT, WHEB, WIOT, WIXV, WTPA) with 12 increases (WJRR, KMOD, WNEW, WAAF, WCC, WXRC, X107), and we're looking at 57* on the Hard Hundred. WAAF jumped from 21 to 34 spins, with great active response and major retail response. At

X107, with 28 spins, **Steve Blatter** comments, "It's one of those records that makes your station memorable." How about 19 spins at **WJRR**, with **Steve Robertson** commenting "This record is reacting huge from young and old"... **WAVF** was also an early believer, and **Dave Rossi** updates, "Huge impact as soon as we played it. #1 phones for several weeks in a row, with kids, adults, and everyone in-between calling"... Finally, from **Dave Miller** at **KATP**, "We keep getting more and more response. This is much more than a novelty record. It's got substance."

HARD ACTS TO FOLLOW

Eric Clapton, "Five Long Years," Reprise

At the rate the greatest living guitar player in rock continues to gain momentum, it'll be a lot longer than five years before anyone challenges him for that title. The album now sits at 2.7 million units, incredible sell-through for a pure blues project, even for someone of Clapton's stature. It has been nominated for Album Of The Year and Best Blues Album in the Grammys. The blues tour was a huge success, and the little club tour that went along with it was one of the hottest tickets of the '90s. Between those accolades and the ongoing MTV/print exposure, there's simply no reason not to have the current emphasis track in visible rotation. Many stations, such as WDVE, have already had success with this one. After all, though it's slow blues, the guitar solo is arguably one of the best the master has committed to tape in a very long time, and is precisely what people look to Clapton for.

Corrosion of Conformity, "Clean My Wounds," Columbia

As well as "Albatross" performed, expect the more accessible "Wounds" to do even better — not to diminish the first track's performance, that is, with 20 stations this week still showing play increases. Before the box action has 27 reporters already on board, with KLBJ, KSJO, KUPD, WKLL, WKLQ, WLZR, WRIF, and WTUE heading the list, and WXTB already up to 15 spins, KZRZ 26, KBER 11 and WAXQ 23. **Vinnie Marino** offers, "It's doing even better than 'Albatross'. It sounds like a Thin Lizzy record, and you can't beat that"... Similar thoughts from **Dana** at **KSJO**, "It has the feeling of a great Thin Lizzy song: good, moving guitar work, catchy vocals, and it just seems to make you feel good"... From **KUFO's Dave Numme**, "It's got such a groove to it. It's melodic, it's hooky, and it's got the edge without being gritty or snarling. Clean record, pardon the pun"... From **WKLL's Mimi Griswold**, "I think this is going to be a Top 5 song. They may not want to be the next Pearl Jam but I think they're on the road to it now"... And from **KILO's Rob Hunter**, "This song is easily reacting as big as 'Albatross', if not better, and that song was very strong here."

MORE... HARD ACTS TO FOLLOW

L.A. Guns, "Long Time Dead," A&M

As recently proven by Zoo with *Great White*, a compelling, contemporary-sounding record can indeed sidestep '80s baggage. And based on a couple of listens and early radio reaction, A&M is going to have a field day with this cool tune. But then again, it's not as if the Guns ever languished in the blow-dryer brigade. They were, for the most part, down and dirty. Let's not forget that the last album, *Hollywood Vampires*, did go gold behind "Kiss My Love Goodbye." But that was then, and this

particular track is making its own friends. **WKDF** is already reporting Top 5 phones, with **John Nagarya** saying, "It's the best song they've ever done. A hard rocking, guitar-based record"... **Rich and Rob** at **KILO** carted it off cassette before Christmas, with Rob updating, "We've had Top 5 phones and it's wearing really well. A real strong track from a band that has adapted its sound for the '90s"... Also on before the box at **KIOZ**, where **Greg Stevens** told us, "I really wasn't expecting it to be this good. I think it will work for us"... Catch the show on the road beginning on Valentine's Day.

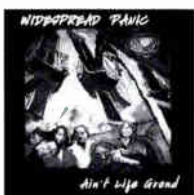

Oasis, "Live Forever," Epic

Despite the very healthy add action, Harvey's hammer isn't really even down on this track yet. Radio simply likes it that much. Why? **Dave Rossi** thinks, "It's because I can sing it, and it sticks in my mind. It's something I can remember and it builds to something. Many others don't. As wary as I am of all of the hype on this or that British band being the 'next big thing,' this band is for real"... Or, as **Steve Blatter** puts it, "This appears to be the first of the English bands to really hit

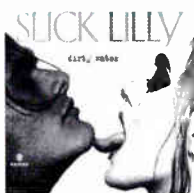

it big in the States in years. Nice, simple, hummable hook"... New on 11 this week, including **KICT**, **WCCC**, **WDIZ**, and **DC101**, with **LLOL**, **KISS**, **WCMF**, **WKL**, and **WZZO** among 23 increases. Moving nicely on the Hard Hundred, 61-47*.

Widespread Panic, "Can't Get High," Capricorn

We've been writing about this track since late last year, but with the breakthrough mere moments away, here's another reminder. This is a hit!! Like **WRDU**'s **John Duncan** says, "It's melodic, it's cohesive, and it just has a really nice feel." Last week **WRDU**, **WHCN** and five more added; this week 15 adds came in—including **WFHQ**, **WSHE**, and **KMOD**, with 17 more increases recorded: **WKLS**, **WCMF**, **WIOT**, **WOUR**, **WRFX** included. Check the Hard Hundred, too. You'll find a 57-47* advance.

Slick Lilly, "Dirty Water," Kudzu

Q104.3 was the key add this week, with the **Vinmeister** offering, "It's straight forward rock and roll, something we haven't had for quite some time. With everything else we've got so specifically niched, from punk to grunge, this is great balance"... **KILO**'s **Rob Hunter** agrees, "It's good mainstream rock. Not punk, not alternative, not heavy metal. Just totally straight ahead"... Or, as **KFMZ**'s **Paul Maloney** put it, "I love this song. With all of these alternative sounding tracks out, it's just a good record"..

Upped at 18 reporters this week, including **KDKB** (1-12), **KIBZ** (10-24), **WBTZ** (13-22), and **WDIZ** (9-14). Now on 31 Hard Reporters; new at 49* **COR**, 70-55* on the Hundred.

MORE... HARD ACTS TO FOLLOW

Chris Duarte Group, "My Way Down," Silvertone

Find this hard-edged little Texas torpedo and listen up. The word is definitely getting around. Says **Austin Keyes** at **WRXX**, "We had him here for a live on-air thing and the guy is just amazing. What an excellent player!"... From **T.J. Bryan** at **WDHA**, "Reaction has been good, with calls whenever we play it. He's got a show with Buddy Guy coming up." That alone tells you something about Chris's guitar playing, doesn't it? Onto **KATP's Dale Miller** and "We've been on it for four weeks and it's doing fantastic. He does a great job of continuing the tradition of Stevie Ray Vaughan"... **81*** on the Hard Hundred.

The Jayhawks, "Blue," American

Granted, this tune is as close to country/folk rock as this critically acclaimed outfit ever gets. But it's still absolutely relatable to your audience and totally distinctive on the airwaves. **WMMR** and **WSHE** are already playing it 13 times a week in all dayparts, **WKLS** just doubled play to 11 spins, **KJKJ** moved it to 14 plays, **KQRS** jumped 3-8, and **KMOD** upped 4-7. But if you want to truly get in sync with the single, seeing those call letters ain't the ticket. We suggest you whine an advance CD out of your local. As per the comments in recent weeks, it's a stellar collection of wonderful songs, and truly worth getting your hands on well ahead of release.

Spell, "Superstar," Island

In the category of "hear the hook once and never forget it," *Spell's* the band to beat. There's nothing subtle about this track, and while more timid programmers endeavor to figure it out, the more adventurous types are hopping on board. Already playing at **KLOS**, **KBPI**, **KISW**, **WKLQ**, **KEZE**, **WAPL**, **WKQZ** and a dozen more.

Sonny Landreth, "Shootin' For The Moon," Zoo

Crossing Triple A to mainstream is a tougher row to hoe than you might think. Thus, all hail Sonny's week one add on super selective **WDVE**. Clearly, Mark Knopfler's contribution to this project has placed Landreth in a whole new league. Other OTB action includes **WDRK**, **WKQZ**, **WXLN**, **WZBH**, **KATP** and **KEYJ**.

Blues Traveler, "Run Around," A&M

One of the most recognizable bands on the planet cranks out more serious rock radio yardage as **A&M** flexes to cross pop. New on 4, now on 55, and increased at 23 reporters—with **WHJY**, **WFBQ**, **WHCN**, **WKQQ**, **WMMR**, **WPYX**, and **WSHE** heading the list. **41*** on the Hard Hundred.

Kevin Vargas has stepped down from Outlaw Radio host to assume off-air Assistant PD duties at **KISS/San Antonio**. **Jason Lee Tipton**, "The Tiptonizer," steps up from part-time air work to new host of Outlaw Radio. Operations Manager **Virgil Thompson** commented, "With these two appointments, the 'mighty KISS' just got a lot stronger. Kevin has proven himself to be a great broadcaster not only on the air, but with a constant stream of ideas and creativity. He will be vital to KISS' continued success. Jason Lee Tipton's on-air persona is perfect for Outlaw Radio. His interactive, bizarre style and energy make him a perfect fit for Outlaw's continued success. We're fortunate to have him on full-time now." Vargas, whose radio resume includes stints at WHVY/Annapolis, WAFX/Norfolk, KWHL/Anchorage and KLIK/Davenport, commented on his new position, "I'm thrilled to be evolving into that position in this legendary station. I hope to rack up some serious TSL — 'Time Spent Living' in San Antonio. Will Rogers said, 'There are only four truly unique cities in America — Aspen, New Orleans, San Francisco and San Antonio.' Damn right! Besides, who wouldn't work under Virgil Thompson? I'm honored to be his right-hand man, especially since he masturbates with his left." Kevin's call hours are Mondays from 10a-1p. In other KISS news, **Tom "T-Bone" Schepke** switches duties to Director of Special Programming and remains on-air.

ALEXA TOBIN HEADS TO WBRU

WEQX/Manchester PD Alexa Tobin is exiting the station to take on similar duties at Alternative **WBRU** in Providence. "I'm incredibly excited," said Tobin. "It's a great opportunity at the terrific station where I started my radio career. The station has made a lot of strides within the last few years and the opportunity to come in as the new PD is something that I could never think of passing up. It's another chance to do great radio." WEQX owner **Brooks Brown** commented, "Alexa came from a great background in radio and records and is a graduate of Brown University. We're sad to see her go and we know that she'll do well teaching the next generation of alternative radio geeks." MD **Gary Schoenwetter** will be helming the ship for now, and look for a further announcement in a couple of weeks. Alexa starts at WBRU on the 23rd of February.

Ween At Tramps January 26, 1995

By Earl Douglas

Ween, currently on tour in support of their *Chocolate and Cheese* CD, finished up their New York City leg with a sold out performance at Tramps. "Voodoo Lady," the ultra-infectious single from *Cheese*, is currently burning up the air waves and MTV. Led by "brothers" Dean and Gene Ween, this band out of Princeton, New Jersey has slowly built a following with their vast musical influences as well as their brand of unique lyrics. *New York* magazine recently dubbed the duo, "the George and Ira Gershwin of the stoner set." Just think if Quentin Tarantino became a rocker than a filmmaker.

Tramps was packed to capacity as Ween took to the stage shortly after 10:30 with "A Little Taste Of You" (arranged to give a tip of the hat to guitar great Les Paul, who they had seen a few nights earlier). Over the next two hours, the twenty-something crowd was hit with a variety of styles and sounds. "Take Me Away," with its thundering bass line is the best song The Clash never wrote. "Spinal Meningitis" was a twisted rocker about a kid with the medical condition. "Little Birdy" had tinges of reggae as did the hysterical "I Can't Put My Finger On It." Lead guitarist Dean Ween got to sing two scathing numbers, the country flavored "Piss Up A Rope," and "Blarney Stone," an Irish folk tune(?). "Pork Roll With Cheese" was a power-pop salute to a Philadelphia favorite.

The brothers Ween were not ashamed to wear their musical influences on their sleeves either. Their love of funk was clearly evident in "Poop Ship Destroyer," "Touch My Tuna," and "You F****d Up." "Let Me Lick Your P#%ly" was an X-rated tribute to P-Funk. Ween also paid tribute to the late Parliament-Funkadelic guitarist Eddie Hazel with acid-rock drenched "A Tear For Eddie," complete with a gut-wrenching solo from Dean Ween. The highlight of the evening was "Vallejo," a ten minute magus opus that featured a bass and drum solos, plus Middle Eastern-style vocalizing from Gene Ween. Overall, a truly amazing performance.

With a host of bands these days taking cues from The Grateful Dead (Phish, Widespread Panic just to name a few), Ween seems destined to follow in the footsteps of another misunderstood genius: Frank Zappa. With their twisted brand of humor, it's easy to dismiss Ween as goofballs. But underneath that great wit are some terrific musicians. As a frontman, Gene Ween is the ultimate court jester (the running joke of the show was that after nearly every song, Gene would say, "Hi, we're Ween.") Guitarist Dean Ween's versatility is unique these days as he easily shifted from rock, funk and even country. The rhythm section of Andrew Weiss (bass) and Steve Lowe (drums) deftly anchored the quartet and was not thrown at all by the variety of musical styles. I highly recommend Ween albums — particularly their latest, *Chocolate and Cheese* as well as *Pure Guava*. But you have to catch Ween live to really capture the brilliance of this band. Does this mean that their fans are Weenies? I guess so.

Earl Douglas is the producer of "The Carol Miller Show," weekdays 10AM-3PM on 102.7 WNEW-FM in New York.

KMJX / Little Rock MD David Alan Ross is leaving the station after close to thirteen years and embarking on a new career in mortgage banking in Fayetteville, Arkansas. "Although I'll miss the music business and my friends here at KMJX, I'm looking forward to this new opportunity," said Ross. "I'll have more time to spend with my family, weekends and holidays off, a retirement plan — not to mention that there are 12 golf courses up there." KMJX PD Tom Wood is currently looking for Ross' replacement, and is accepting T&Rs until February 17.

WSHE / Miami recently announced the return of 'SHE veteran Garth Hemp back from his stint in Minneapolis for morning show duties, and this week PD Bill Pugh called our corporate cabin to tell us that he will be joining Hemp on the air for the morning drive shift. Pugh's contribution to the show will include news, sports, weather and recipes. In other WSHE news, Promotions Director Zoltan Coppany and Production/Creative Services exec Greg Morgan exit the station.

WXTB / Clearwater celebrated their 5-year mark January 18th. In honor of the event, they played Led Zeppelin's "Stairway to Heaven" from midnight to 12noon, followed by the entire first hour on what was then the "new" 98 Rock. Prior to that, 98 Rock was a classic rock station. "We just wanted to give our listeners a little flashback to five years ago and at the same time thank them for their tremendous support over these five incredible years," said PD Greg Mull.

KRZQ / Sacramento evening DJ Laura Ingle was named Sacramento's "River City Radio Hero" by the March of Dimes. Laura collected the most donations/votes of any Sacramento area radio personality by raising over \$3,800 for the March of Dimes and their fight against birth defects.

The first 200 fans to arrive with ten pounds of food and a ticket to the February 10th Megadeth/COC concert will receive a pass to meet both bands at WRCX's After-Concert Party.

WRGX / Hawthorne was featured on CNN's "Showbiz Today" on Thursday (2/2). CNN's Mark Shearer interviewed X-107 PD Steve Blatter about the station's "current-intensive rock" format the station incorporated 15 months ago.

The excruciatingly thin **Chris Robinson** and the equally lean **Black Crowes** showed up at a recent Modern Rock Live show on the Global Satellite Network. Robinson told stories and answered callers' questions.

One half of KQRC's morning show team, **Murphy Wells**, celebrated the world premiere broadcast of **Van Halen's Balance** in London. Wells is shown here with VH's **Sammy Hagar**.

GREG STEVENS

by Bill Hard

Though a programmer since the early '80s, Greg Stevens had spent his entire career on the air until just last year. His Top 40 experience in the mid-'70s included legends WBBF/Rochester and 13Q Pittsburgh. Then, in the late '70s, he got into AOR, doing mornings at 98Rock/Tampa and the Eagle in Dallas. Greg's first programming gig came at KISS/San Antonio in '82. He remained there for three years, then went to KCFX/Kansas City — the first major-market station to implement Fred Jacobs' fledgling Classic Rock format — and again he programmed and held down mornings. Greg then headed West to San Diego and KIOZ, where ownership was in the process of changing the station to Classic Rock. He stayed at Rock 102 through the station's evolution into one of the country's most-respected, hardest rocking radio stations, before moving to L.A. for programming/wakeup duty at Pirate Radio. After a difficult year there, Greg returned to San Diego, and along with Par Broadcasting's Al Peterson, now programs both KIOZ and Top 40 sister station Q106.

What post-Superbowl promotional events did you have planned that you had to scrub?

Greg: We didn't have any after-Superbowl events, except the city's welcome home parade.

Were you at all surprised by the outcome?

Greg: Personally, I was thrilled they were in the game, but I didn't have any unrealistic expectations. Let's just say I didn't bet the house on the game.

Those two early scores really hurt, didn't they?

Greg: If you watched them this season, it took them one or two quarters to warm up. A lot of their big wins and getting into the Superbowl were late-in-the-game comebacks. This was too good a team we were playing against to pull that off.

Who carries Chargers football in that market?

Greg: XTRA-AM.

Would you carry it if you could?

Greg: This past season? Sure, although it's almost prohibitively expensive. We took a pretty substantial 18-34 Male hit in the fall book, based on football — and not just for the games, but for all of the analysis and talk shows they do. They are set up to do that on a sports talk AM station. We would not have gotten the full benefit of carrying the games. You need to be 100% sports to make the most of carrying the games.

And that jock/rock thing isn't the ticket, either.

Greg: You can't stop, play music and then go back to sports. You have to do one or the other.

How would you describe your radio station? How do you feel about the industry designations, the COR/ROAR tag? Or are you simply a mainstream station of the '90s?

Greg: We're probably a COR/ROAR station that is trying to grow into a mainstream AOR for the '90s.

Your press package talks about the station 'skewing away from the hard edge, and more toward the mainstream AOR.' How obvious has that skew been?

Greg: Some of the press package material is targeted to clients. It's written in a language that prospective advertisers will understand. My hope is that it's not all that obvious to a regular listener of the station. It has taken the form of tighter day-parting and a little more selectivity in terms of the currents and library. It's been a subtle changing of shades rather than a complete new paint job.

Was there a point at which the Par Brain Trust sat down and said, 'Hey, we've got to adjust this thing'?

Greg: We've known that for a year or more, based on everything from sophisticated audience research to pure gut to talking to people on the street. All types of official and unofficial information gathering let us know that the station has maximized that hard rock niche. Everyone that loved rock loved 102, and there weren't any more ratings points to be had from that alone. We had to figure out a way to grow and hold onto that core.

From an advertiser perspective, was the San Diego stereotype that you wanted to get away from consistent with the 'black T-shirt' syndrome you hear about everywhere else?

Greg: Part of it is that black T-shirt thing. That was a factor here. Those guys don't dress that way anymore, but they are the same guys. Now you see various body parts that have been pierced and tattooed — surf punks.

You're not pierced, are you, Greg?

Greg: Nowhere that shows.

THE Hard INTERVIEW

A DAY IN THE LIFE OF A DUOPOLY PD: KKLQ/KIOZ PD GREG STEVENS WITH JON SECADA AND FORMER L.A. EMI REPRESENTATIVE JOE REICHLING.

If you had to give me a psychograph of the listener you might have lost, or are having a hard time holding onto, it would be the surfer guy?

Greg: We're not really losing them because there's not another choice that's even similar. 91X would be the next closest thing for those guys.

You're in an interesting marketing situation, competing with two alternative stations. Do you get caught up in their firefight much?

Greg: We benefit from the fact that 91X has a competitor on the Pop/Alternative side. They can't focus exclusively on countering us. Rock 102 has been on the air since 1990. I can remember times when I would be amazed and appalled that 91X would list Guns N' Roses and Metallica on their list and play it once in the evening. It was so that they could get their nose into a concert presents for a stadium show by those kinds of bands. Now they are much more hesitant to stray from what their real format is.

The Flash keeps them a lot more honest. Do you frequently find yourself in the middle of concert squabbles with 91X?

Greg: Yeah, we butt heads with 91X on a regular basis over concert visibility.

What is the distillation of your pitch to the record companies?

Greg: I try to go case by case. If I think we have a strong case, with bands we played earlier and more — I use that

to our advantage. Truthfully, in many cases, 91X uses a threat technique: 'Unless we get to present this, we won't work with it at all.' We've been able to take a more moderate position of, 'Keep it neutral, we can help you. Give it to them, then we can't help you.' Now, they really want both stations. They realize they need both to reach the people they want to reach. By agreeing to work with a neutral show, we're allowed to do our best job without getting into a fist fight.

Compare and contrast 91X and the Flash.

Greg: 91X views themselves as a rock station based in alternative music. The Flash sees themselves as a pop Alternative station, de-emphasizing the idea of rock. Back when it was 'KGB and 91X, they were both thought of as rock stations.

When 'KGB was playing current music, they would not play a record if 91X was playing it. In retrospect, was it a bad call?

Greg: Up until a few years ago, it was almost the kiss of death if 'KGB listeners heard a record both on 'KGB and 91X. The same thing carried over to Rock 102 at first.

The listeners were verbal with their discontent when that happened?

Greg: Definitely. But to a lesser degree. We still get that from core listeners.

Has your mainstreaming made 91X soften up?

Greg: I don't know what their reasoning is. My hunch is that it doesn't have as much to do with us as it does with their own battle to own the alternative niche.

And it's a serious head-on thing going on?

Greg: They get into it on the street. There is a difference between the playlist and the sound of the two stations. Flash is more Pop leaning.

Not only do you compete with two Alternative stations, you also compete with two Arrows.

Greg: Yes, KCBQ and KCLX. For a few years, we had two alternatives and two classic rockers, 'KGB and KCLX. KCLX went out of the Classic Rock format to Greatest Hits of the '70s. As soon as they did that, KCBQ began to evolve more and more towards rock oldies. Now, I would define KCBQ as classic rock, so we're almost back to the point where we have two classic rockers again.

Who has the 25-54s?

Greg: 'KGB controls that pretty effectively within the rock arena.

So even though Ted Edwards hated it, the Brown's decision to take that station classic back in the mid-'80s was a savvy move, wasn't it?

Greg: From a sales point of view it was. They still are strong in those money demos. They don't command the kind of overall 12+ shares that they did once. They also don't have the profile in the community that they once did.

At the five-year mark in the '90s, how much has the 18-49 Male demo changed?

Greg: We're starting to see a delineation between the 18-24s and the 25-and up. The acceptance of the alternative cross-over stuff seems to be much more evident in the 18-24s. We still see resistance to newer style music and new bands in the 25+ demo, even in a narrow slice like the 25-34. When we talk about our target demo being 18-34, we have to slice it in half there. It's the 25-34 part that is the toughest to hold on to.

In an effort to do that in the past year, what bands have you tossed and which ones have you embraced?

Greg: There haven't been many bands that have totally disappeared from the station. Those that have fall into the '80s hair band, glamour rock category. You're not hearing much Poison, Winger, Warrant stuff. Occasionally we still hit a song from those guys, but it's few and far between.

Did you play the Great White record?

Greg: Yeah. The Zeppelin cover is in now, and the other is in recurrent.

Have you heard the new L.A. Guns record?

Greg: Yeah. It's good. With some of those bands, certain songs will research quite well. You see some of that in the 25-34 cell.

THE Hard INTERVIEW

What hair researches well?

Greg: 'Up All Night' by Slaughter. 'Every Rose Has Its Thorn' still shows up positive, as do some other Bon Jovi titles, some of the Def Leppard, Scorpions.

You stole Dave, Shelly and Chainsaw from 'KGB in June '94. Have you had hard ratings validation that the deal was worth the dough?

Greg: Definitely. Even in this fall book, which was pretty disappointing for KIOZ overall, the morning still had come growth and target demo growth in terms of shares.

What do you think contributed to your soft fall?

Greg: In analyzing the book so far, we've seen one reason why KIOZ has taken a dump. It's because of young men listening to sports talk radio, and that goes right to the Chargers' winning the season. The morning show is a place where we have a much higher profile of sports and talk than we have at any time of the day or night. There might be a link there with people who weren't spending much time with rock radio during football season still listening to the morning show.

How un-level a playing field do you think your signal presents to you, and what kind of points do you give up being based so far north?

Greg: It depends on diary placement. There are several things going on. The fall book is the first in the new weighting system Arbitron is using. For years, we've had

separate Arbitron books for the full county and for the North County exclusively. This fall book is the first time Arbitron has discontinued the North County book. They're no longer under any pressure to separately weight those North County diaries, or place a specific number of diaries in the northern zip codes. It's hard to say how much we give up. But depending on placement, I know that from summer to fall, there were 148 fewer diaries in the North County than there were in summer.

That hurts.

Greg: It can. I don't know what our percentage of those would be, but we were the number one station in the North County during the summer. If 148 diaries didn't get placed in homes up there, it could impact us.

What most directly affects your city grade coverage?

Greg: Most of our signal problem is caused by terrain — shadowing of mountains. It's not as simple as 'If you're north of this line, the signal is great. If you're south of it, it's not.' We've got pockets throughout the entire metro that are strong for us, but you can literally go behind a building or around a corner and the station is gone. That's the kind of inconsistency of signal coverage that we're dealing with.

And how would you describe the lifestyles of the primary coverage areas?

Greg: The North County is the more affluent, suburban area in some places. In other parts, it's blue collar, bedroom communities. Some of it is even semi-rural. We cover all of those. You don't find as many non-whites in the northern areas. That favors our format. Rock 102 isn't much of an ethnic-based station. In the southern part of the county, there are some big campuses. We don't have 100% signal coverage there. We would benefit if we could cover the college areas better.

By definition they tend to lean a little more modern.

Greg: Yeah, but there are some gettable bodies for Rock 102.

Even though it's a non-rated situation, it still means revenue.

Greg: I don't think Arbitron will place diaries into dorms, but they will put them into apartments. It's the same with the beaches. We cover the North County beaches fine, and the South County beaches okay. In areas like Pacific Beach, where you have an awful lot of young, 18-24 people, we could pick up some there with a little signal increase. I want to stress that overall, KIOZ has been phenomenally successful despite the signal handicap, and still has room to grow.

Then again, when your target audience is stretched out on a towel it's not like they're wired for sound.

Greg: Yeah, but you see an awful lot of boomboxes and Walkmen. Radio is still the best medium because it is portable. It does take away some time that they're not locked inside the house or office.

What works best for you guys promotionally? What was the most successful event you staged in the past year?

Greg: We've had good luck with doing remotes on our morning show. They have a built-in draw. We've had good luck with our on-going series of trips, called 'Rock Around The World.' You win a trip to see a band play in some other city or country. That has established a pretty strong identity for the station.

That brings to mind the kind of label support it takes to run a promotion like that. What is the difference in label pressure between San Diego and L.A.?

Greg: You don't see as many people face-to-face as you do in L.A.

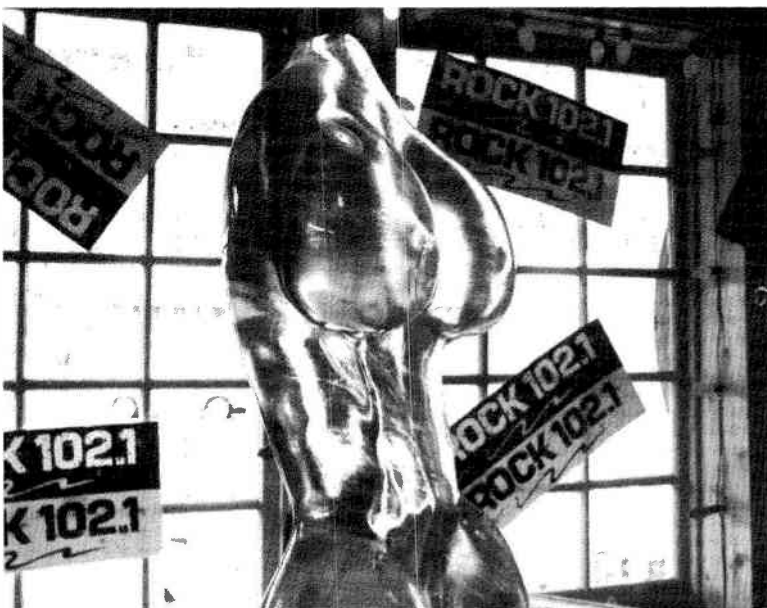

Does it make your job easier?

Greg: It makes the MD's job easier. It doesn't change my situation too much. The number of phone calls and pressure is probably the same as in L.A.

You're taking almost all of the music calls, right?

Greg: I must confess, it is getting harder and harder to get a hold of me. There are only so many minutes in the day.

Do you envision hiring or announcing a music director soon?

IN MID-JANUARY, KIOZ LISTENERS COMPETED TO GUESS WHEN THE NIPPLE RING OF THE "HOOTER'S" ICE SCULPTURE WOULD MELT AND FALL OFF.

THE Hard INTERVIEW

Greg: We'll make an announcement soon, but it won't involve hiring anybody new.

You've worked with some of the highest-profile MDs, between Cyndee Maxwell and Peg Pollard. Can you compare and contrast the two?

Greg: They are the two best music directors I've worked with at Rock 102. There's definitely a difference, though. When Cyndee came on board, the station was still Classic Rock. We were looking for someone with a PD background, who could be more of an Assistant PD and handle music with a library-inventory kind of management style. When we decided to change it into a current-based rock station, which it is today, Cyndee was as much involved in that as Al and I. The three of us put it together. That was where she got a chance to step out and set the station up as far as the record companies go. 'Instrumental' isn't even the word. She did the entire job of putting the station on the map in terms of record labels. Classic Rock is termed pretty non-existent in the eyes of the record industry. Cyndee laid the groundwork and set up the systems. Al and I did the rotations. When she decided to move to L.A., Peg had been assisting her, so she was the natural choice. She had to learn on the job, and how to deal with the labels. There were pluses and minuses to the fact that Cyndee had been a PD and Peg had not. Peg had a much more music/listener intensive way of dealing with new music. Cyndee was more concerned with what PDs look at.

You work 12 hour days, five days a week, you're there on the weekends a lot, you have a ten-year-old son, and you try to find time to scuba dive. Is there a point at which you'd like to see the workload diminish, or do you accept the hours as a fact of life in a major market?

Greg: Quite a bit of it is a fact of life. I don't expect it to change. It has been an education in the last year or year and a half of thinking, 'God, it just gets crazier every week. When is this going to go back to normal?' We have more radio stations now, and the old definition of normal is not a realistic goal any more. Once I came to grips with that in my own mind, the hassle-factor disappeared. I stopped trying to compare today to yesterday and took a more objective view of it. I realized that there is more to do, and knew that I would have to become more efficient at doing more things at the same time and at delegating.

Is running the two stations there as stressful as the Pirate experience?

Greg: No, not at all. It's a different kind of management team and a different situation on a corporate level. I didn't know when I arrived at Pirate what the corporate set-up with Westwood was. Knowing what I know now, there were lots of almost impossible things to overcome at Pirate. Regardless of what we did in program-

ming, it wasn't going to change the enormous debt that Westwood had pressing on them. Not just on the radio stations, but on the company overall. Certain things that they owned or borrowed money to purchase were going to have to be sold one way or another. The radio stations were among those. If there had been ratings every day, there would have been pressure every day to see if they went up. It led to not being able to stick with anything long enough to see whether it would work or not. That filters down into every level of the station. We don't have that here. The company wants to win, but we don't take it on an hour-to-hour basis. We don't make the constant mid-course corrections that happened in L.A.

What would you do if your reality changed and you had two books a year?

Greg: I'm probably unlike most PDs as far as ratings go. When the book comes in, I look at it to figure out what's going on. But I don't memorize it. If someone calls me two days later, I don't remember every number in every daypart in every demo. It's the rearview mirror. You're already a month beyond that point. It's not the most recent research you can get. I put it in perspective that way.

What was working with Tom Barnes like?

Greg: I've been fortunate to be involved with consultants or other programmers who allowed me to learn something and grow professionally. Working with Fred Jacobs at the start of the Classic Rock thing in Kansas City was one of those situations. Working with Tom in L.A. was a similar experience, even though formatly it was different. There were some fresh, new ideas. A light went off in my head. I thought, 'Here's something I hadn't considered very much that makes sense to me.'

Have you transmogrified those thoughts into what you do today?

Greg: Yeah. Tom was a little ahead of the rest of the world

GREG STEVENS, SLASH, KIOZ'S SHANON LEDER, SLASH'S SNAKE PIT MEMBER, KKLQ MD RAY KALUSA AND KEVIN DOUGLASS, PAR BROADCASTING'S DIRECTOR OF ENGINEERING, AT KIOZ.

in saying you can play AC/DC and Fugazi on the same station. You can find some connection for the listeners in both of those.

In addition to Rock 102, you also program CHR Q106. How much Top 40 experience did you have going in?

Greg: When I first started in radio, I had worked in Top 40, and had made it to MD.

Yeah, but we didn't have CDs back then. Did you have to do a quick-study thing?

Greg: I don't want to misrepresent the situation. I don't do it all myself. Al Peterson and I have been together for many years, in many relationships, professionally. We knew going into this that we were going to divide things up, pool our thoughts on some things. In the division of work, Al is more involved in day-to-day programming for Q. I am far more involved in programming for 102. In big things, like selection of music and management of talent, we work together.

Q106's Jeff and Jer have the top-rated morning show in town. Is there still concern they might be lured back to B100 since the programming team that hired away from B100 returned to that station once Par bought Q106?

Greg: There were rumors of that kind back when Tracy and Tom, the former PD and MD, went across the street. They have since realized that the contract Par has with Jeff and Jer is more or less iron-clad for its entire term.

THE Hard INTERVIEW

Beyond that, we've taken the opportunity to cement a relationship with Jeff and Jer — to show them that this is the best place to be. I think they would agree with that, too.

What is the essence of Jeff and Jer's appeal?

Greg: It's their relatability. We just did this lightning bolt promotion before the Superbowl game, where Jeff and Jer asked listeners to come to the stadium parking lot on a Friday morning. The first 5,000 would receive blue or gold T-shirts, and would stand in certain places to form the Chargers' lightning bolt logo in the parking lot so we would take a picture from the air. We had to have at least 5,000 people to make the picture. After that, everyone else was welcome, too. At eleven o'clock Thursday night, the police had to call in extra units because there were so many people standing in line. They estimated that they had closer to 50,000 than 5,000. That's just with Jeff and Jer saying, 'Come on down and be a part of this.' When I stood there handing out T-shirts for several hours — we got down there at three in the morning to start letting people in — it was amazing how many people — men, women, children, blacks, whites, families — stood in this line saying, 'Are Jeff and Jer here? Can I talk to them?' There were 50,000 people there who felt this bond with these guys.

What is Q106's signal compared to Rock 102?

Greg: Q106 is licensed to San Diego and has a 50,000 watt FM signal. There is a little shadowing to the Northwest but it's a full market metro signal.

Have you contemplated flipping those stations on those frequencies, or is Q106's billing such that you don't want to mess with it?

Greg: That's the case now. Initially, when Par began negotiations to buy KKLQ, it was down to a three share. It had no morning show at the time. It looked like a prime candidate for a format change. The initial thought was, 'Here's the signal we can put our successful rock station on.' During those negotiations, the possibility of bringing Jeff and Jer over to Q106 was solidified. It was consummated because Par was able to underwrite the contract that Eden was trying to offer them. The station was sold. The outgoing owners could not sign a contract of that size, nor did the banks want them to put that much money on the line for a long-term contract when they were cashing out. Our company was able to say, 'We can guarantee this contract into the future when we become owners of the station.' That changed the whole story for Q106 for any kind of format change. And now the station is at a 4.7.

You haven't had a lot of airshift changes at Rock 102. A pretty stable staff?

Greg: Aside from Peg's departure, it's been fairly quiet. The listeners are starting to know our line-up pretty well.

You think the Rock 102/Q106 duopoly combo is ideal? The demos don't overlap too much?

Greg: We originally looked at it as one being an 18-34 Male and the other being an 18-34 Female. There's more to it than that. On Q106, the morning show helps the station spread its demos out into older listeners. Now the same thing seems to be happening at Rock 102.

You have your work cut out at Q106 after ten o'clock, don't you?

Greg: That is the challenge — giving the station a stronger music identity and station identity that is more than just a vehicle through which Jeff and Jer can be heard.

Given the intensely competitive market you're in and your dual station responsibilities, you're a remarkably relaxed guy. People who work with you explain your management style as similarly low-key. What's the key to making that approach work?

Greg: I'm not lackadaisical. I've had a lot of success being myself and not putting on a mask when I come in every day. That would be difficult for me. My personality fits well with other managers at this company. I don't know how successful I could have been in L.A. because my personality did not fit into the management team there. L.A. is a much more 'Go, go, go!' kind of city. Most managers there had a recreational lifestyle that revolved around the music and entertainment industry in L.A. I could not have fit into that completely.

The reason being?

Greg: I'm trying to have a normal life for my family.

You think living a normal life is a challenge for most Program Directors?

Greg: It is in L.A. But especially in a situation like the one I was in at that point. I was doing the morning show. To be there at 4:30 or 5:00am, and then be out there at The Whiskey or The Roxy at 1:00am seeing bands, and back the next day. If you were a single guy in your twenties, you could do it. I knew I couldn't do it forever. One year was enough. And I didn't go to everything that there was to go to. In L.A. you can go to two functions every night if you want to.

How would you categorize the mindset in San Diego as opposed to L.A.?

Greg: People think of San Diego as a laid back beach town where everybody surfs. In reality, it's a market of two and a half million listeners that in a lot of ways really lives up to the slogan "America's Finest City." I love San Diego. It's a great place to live. You can still go up to L.A. in your car. It's located in an ideal place to interface with the L.A. music and entertainment industry, without having to live there. I only lived there a year. I thought, 'I'm only moving one town over. How different could it be? I already have the driver's license.' I was a little unprepared for the drastic differences and lifestyle. Having done my time in L.A., I appreciate San Diego even more.

TRIPLE A

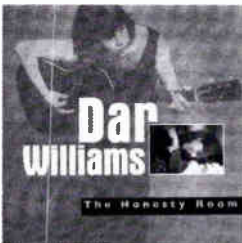

ADULT • ALTERNATIVE • ALBUMS

Martin Zellar, "Born Under," Rykodisc
Former leader of the Minneapolis-based Gear Daddies, Zellar has released his solo debut, *Born Under*. With his distinctive vocals, Zellar conveys his insightful lyrics through a variety of musical styles and tempos. **Greg Hills WNCW**, "This is one of the best records I've heard so far in '95. A classic, gritty sound that should land him on both the Triple A and the Americana charts. This album is as potent as a North Dakota blizzard!" **Jane Fredericksen KTCZ**,

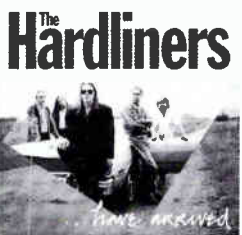

"This is an incredibly strong release from a much loved and popular local artist. Martin's strong songwriting skills, and assertive vocals, make him a talent to be reckoned with. We've been playing him since we received a copy back in December, and we can't keep it out of the CD player. Martin Zellar is talent to watch out for, and I'm sure he will have a long life with this format." **Jon Peterson WCBE**, "Martin Zellar's midwestern brand of roots rock updates the 1980's Minneapolis alternative sound full force into the 1990's, and is perfect for Triple A. 'Lie To Me' is a peppy little rocker with a sound reminiscent of Steve Earle, while 'Lay This Down Gently' is a terrific ballad full of great hooks and changes." **Steve Cole KSPN**, "Martin Zellar's music certainly tells no lies on the first single from his new release *Born Under*. A heartfelt, tasty, straight-ahead tune that hits the pocket quickly and stays there. A fine fit and hopefully a hit for any Triple A station."

THE HOT CORNER

Dar Williams, "The Honesty Room," Razor D&Tc
Williams' songwriting is rooted in the narrative, as she effortlessly spins intricate yarns about life from adolescence to aging and beyond. Early last year, Williams independently released her critically acclaimed debut album, *The Honesty Room*, and the record received impressive airplay on the East Coast from New England (her homebase) to Washington D.C. She has now been added to Razor & Tie's growing list of noteworthy AAA artists, and

they've re-released *The Honesty Room* to the entire Triple A community. **Bruce Ranes, The World Cafe**, "We've been playing Dar Williams since November of last year, even before the album was picked up by Razor & Tie. People continue to go nuts every time we play her here, we get great reaction. Her innocence will win you over." **Jon Peterson WCBE**, "*The Honesty Room* is aptly titled as Dar's voice is dynamic, sensual and brutally honest. Her lyrics are almost confessional and her melodies are super catchy. 'When I Was A Boy' is great for mornings, and 'Alleluia' is a snappy little toe-tapper sure to light up your phones."

The Hardliners, "Have Arrived," Core
The Hardliners' first American release, *Have Arrived*, has arrived. Songwriter and vocalist Karl Kanga leads this band of Swedish musicians through an appealing set that blends rock, country and blues. The album begins with a Stones-like rocker, "Take Me To The Top," followed by "It's Gonna Change Your Life," an acoustic folk/pop song with gospel influence, featuring Hammond organ and pedal-steel accompaniment. "Inside Every Man" is an inspiring anthem which, along

with the pop-rocker "One More Day" are choice singles. The most powerful track may be "Self Destruction Blues," a low-down blues number highlighting the talents of lead guitarist Pelle Hemyrd, who also contributes a mean harmonica. Other standouts include "Lonesome Road," and "Wonderful Child."

“‘Sour Times’ is definitely one of my favorite songs of the year. We always get curiosity calls when we play it. Remember the first time you heard Cowboy Junkies’ ‘Sweet Jane,’ or Mazzy Star’s ‘Fade Into You’ — this song will have the same effect. It’s mystical, melodic, and mesmerizing! — **Jody Denberg/KQSR**

SINGLE SPOTLIGHT

Siouxsie & The Banshees, "O Baby," Geffen

Siouxsie Sioux's signature idiosyncratic vocals and The Banshees pop sensibilities are at the forefront of "O Baby," the first single from the forthcoming album, *The Rapture*, by these longtime Alternative icons. The group was instrumental in feeding the musical appetite of today's lower demo Triple A-sters in their sonically formative years, and in the process, gained a foothold into the then emerging AAA format. "O Baby," produced by veteran John Cale, is a mood-inducing, hook-laden and refreshingly upbeat tune that easily circumvents the crossover threshold. **Dean Carlson KMTT** "Very strong single. Love the atmospherics. Want to hear the whole album."

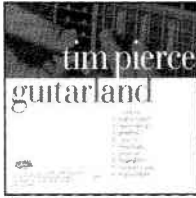

TRIPLE CROWN

Various Artists, "Boys On The Side," Soundtrack Arista

Zeb Norris **WXLE**, "This is an opportunity for Triple A stations to capitalize on our ability to run deep. Other formats will only play one of the obvious smashes on this release at a time, while we have the luxury of playing them all right now. In particular, check out the Sheryl Crow and Melissa Etheridge." **Jon Peterson WCBE**, "This soundtrack features some great originals and covers. Even if it might be a little early to remake Roy Oribson's 'You Got It,' Bonnie Raitt certainly nails it. Sheryl Crow's remake of the Eric Clapton/Bobby Whitlock classic 'Keep On Growing' will surely be huge, as will the Melissa Etheridge contribution, 'I Take You With Me,' an original that features some great textures and guitar crunch. On the softer side, Sarah McLachlan's remake of 'Ol' 55,' the old Tom Waits/Eagles song, is perfect. A must for everyone!" **Steve Cole KSPN**, "This has some interesting new material as well as classics from our favorite female Triple A artists. The real find is Sheryl Crow's cover of 'Keep On Growing.' This track kicks hiney! Yo! Sheryl is Derek!"

Tim Pierce, "Guitarland," PRA

Long-time session player for many major artists, Tim Pierce has released his solo work pm *Guitarland*, an instrumental journey on which he displays his ability to combine a wide range of styles and influences. While centered in an acoustic jazz vein, Pierce blends in country, rock and synthesizer to create a flowing tapestry alive with diversity. The most upbeat track with good airplay potential is "The Good Fight." Another standout cut is the finale, "Long Road Home," a rolling acoustic piece that could be a western movie theme.

The 105.5 Triple M Super Bowl Of Rock & Roll

105.5 Triple M proudly announces the winner of the 4th annual "Super Bowl of Rock & Roll." Each year during super bowl weekend, 105.5 Triple M puts together a single elimination tournament pitting artist against artist, with listeners calling in votes on who should move on to the next round of the "Super Bowl of Rock & Roll."

Here's how it works — starting Friday at 1pm, we play a Triple Play from each artist competing. We take votes all hour and announce the winner at the beginning of the next hour, when we also start the

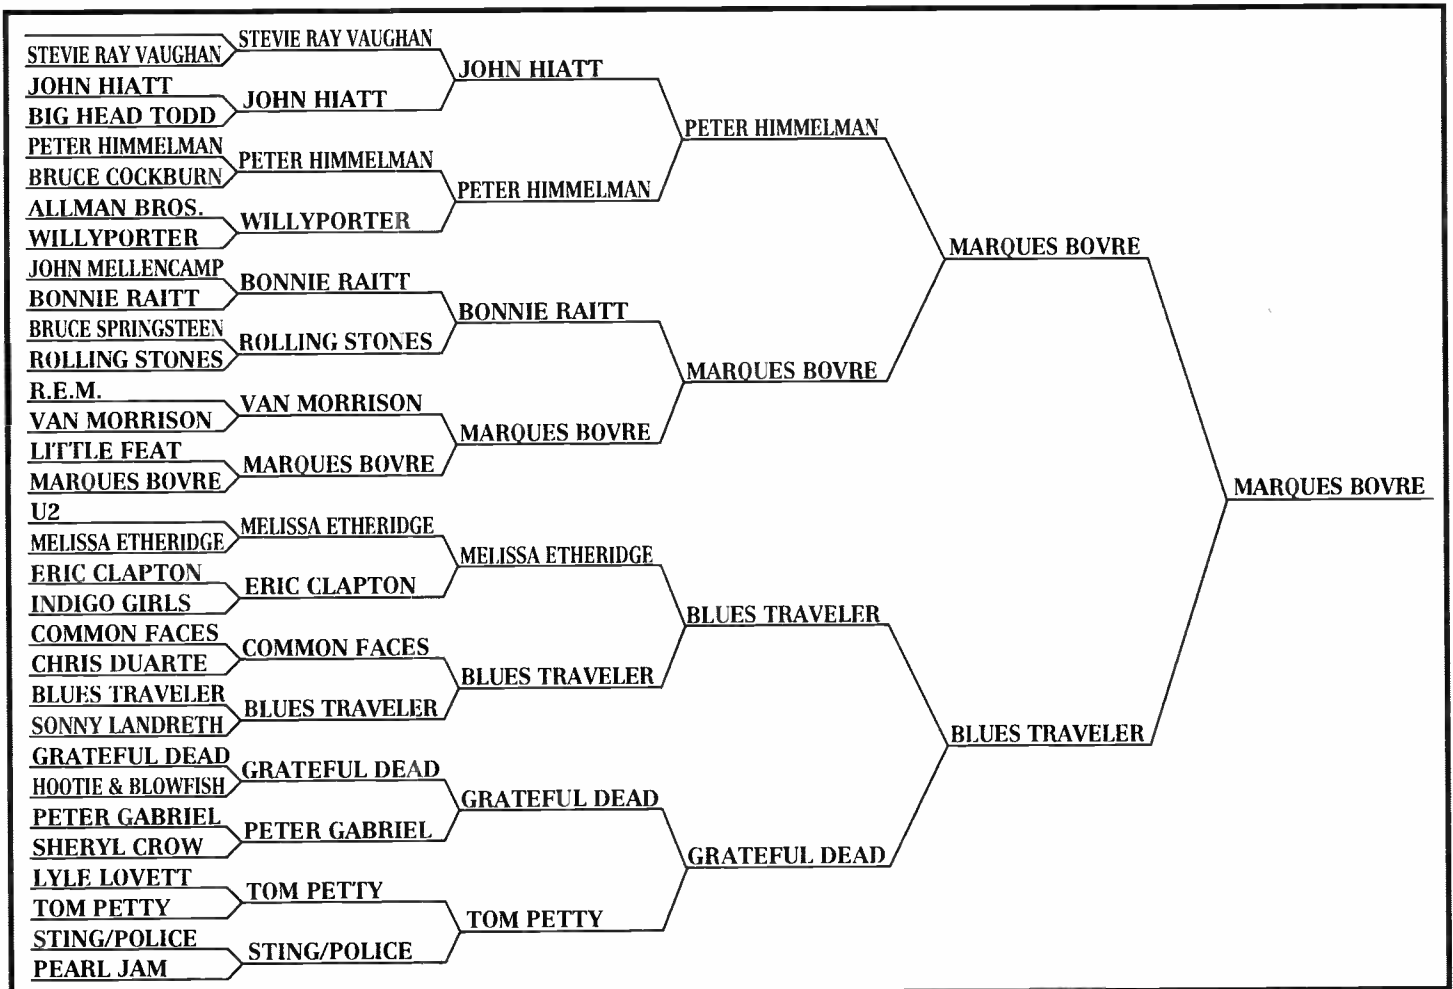

next competition. We start with 31 artists and declare a Super Bowl of Rock & Roll Champion at 7pm on Saturday. (Last year's winner automatically goes into the second round.) Throughout the day on Super Bowl Sunday, we feature music from the champion.

1995 marks the first year that a local artist has won the Super Bowl of Rock & Roll, with Madison's own Marques Bovre & the Evil Twins taking top honors. Over the 19 hours of competition, 105.5 Triple M took nearly 1,000 votes!

CHUCK PROPHET

BY LISA RIEGEL

After working with a handful of San Francisco bands, Chuck Prophet joined up with the seminal Green On Red at the age of 20, just in time for their benchmark album Gas Food Lodging. It was during one of that band's frequent hiatuses that Chuck began playing solo for fun, and by 1990, he released his debut, Brother Aldo. A few years later, he followed up with the critically acclaimed Balinese Dancer. The album was initially released to a handful of stations as an import, but has recently been re-released on a larger scale...

Balinese Dancer has had a long life, first as an import, and now as a re-release. When was it first recorded?

Chuck: Over two years ago. A lot of my albums have these extended pregnancies. I made a Green On Red album after Balinese Dancer and they put that out first. The records came out in a different sequence than in which they were made. Balinese Dancer came out as an import on one of those invisible labels. They tell me it's been re-released now.

If you could go back two years ago to when you were recording the album, what, if anything, would you do differently?

Chuck: That's a scary thought. Making records has so much voodoo involved and trying to get the spirit of the performance onto the

record is kind of hard. I would prefer not doing it differently. Songs are living and breathing, and seldom has it been my

experience that I get a definitive performance on a record. If I went back and re-approached all those songs, I'd have to talk to them and baby them all over again.

Do you like to keep the recording process as close to live as possible?

Chuck: I like to get some kind of live performance and build off of that. I didn't get into music to play by myself. I got into music because it was a great way to play with other people, sort of like a secret language. I would never make a record on a machine and over-dub one by one. That's boring, really.

How long were you with Green On Red?

Chuck: Ten years, maybe less. Eight albums.

What made you make the jump to solo after being with a band?

Chuck: Green On Red was never really one of those things. It wasn't like we lived under the same roof.

That's surprising. I always pictured you guys as being like The Monkees — living and playing together like one big happy family.

Chuck: (Laughs) No, not even close. We just went from record to record. We never had any long-term plan.

But Green On Red had developed a real steady following.

Chuck: We were lucky. Year after year, someone would come forward and give us the money to make a record and follow it up with playing gigs. People came out and responded and bought the record — enough to keep us in the game. We went on strike. We didn't disintegrate. We didn't break up. I still talk to Dan.

Would you ever consider working with the other members of Green On Red on one of your solo albums?

Chuck: I don't know. I've built up a cast of characters on my solo records who I like to use for a number of reasons. I like to shake it up a little bit, though. I was reading this David Mamet article, and he was talking about making his first movie. He said that all the actors he used, he had ten years experience with. The first day they went into work, they just said, 'Hey, how are you doing?' and then they got to work. If I was to go back and work with people I worked with years ago, a lot of time and energy would be spent on shit that wasn't about music.

I've heard you're working on a new album now. Is it close to being finished?

Chuck: They tell me it's done. We've just run out of money. I can never resist the temptation to tinker a little, but I think it's done.

Are you working with the same group of people as on your last two records?

Chuck: Pretty much. I used another producer, Steve Berlin. It's nice to have somebody on the other side of the glass. That's always interesting. That is the one variable on this record, a different producer.

Musically, are there a lot of differences between *Balinese Dancer* and this record?

Chuck: This record is a little more audacious and adolescent. I wrote the songs a lot quicker. I made vague blueprints of them and put them on these cassettes and put them in a box. In the studio, we just started pulling things out and cutting them. It was more spontaneous.

Did you have many songs left over that you didn't put in the new album?

Chuck: Yeah. I guess I'll just leave them in the box for a rainy day.

When you go out live, do you play some of the songs you haven't recorded?

Chuck: I guess so. I don't have any real method for that. I play other people's songs, too.

Where did you grow up?

Chuck: Whittier, California.

What radio station did you listen to there?

Chuck: As a kid I used to listen to KEZY, KHJ — I think those are AM stations. And KLOS and KNAC out in Long Beach. When I was in the seventh grade, I won a Nils Lofgren record by call-

ing in to KNAC. The only problem was that they wouldn't mail it to me. My father had to drive to Long Beach to pick it up. But it was a double live record, so it was worth the trip. It was really cool. Come to think of it, I haven't seen that record for awhile. I have to find that record.

If you programmed a radio station, what artists would be staples on your playlist?

Chuck: Bob Dylan and Bill Withers. It would be something like a '70s Classic Rock station. It would be like KJKL with Dylan and Cooder, and some new stuff if I liked it.

You wouldn't go for more of an Alternative-sounding station?

Chuck: I would, but it is a lot of work to sift through all of that music. It seems like there is a ton of new alternative music coming out every day, and I can't imagine trying to sort through all of it. I would definitely play that Ween song — I can't think of the name of it.

My favorite Ween song is the one with all the Spanish phrases thrown in.

Chuck: Yeah, that's the one! That's a great song. I heard that song on the radio, but I didn't know what it was. I had to wait until they announced the name of the song. But it was college radio, so, of course, they announced everything in the wrong order. I was completely confused and never did find out the name of the song. Someone told me Ween had an album with thirty songs on it, so I could have bought the record and still not even heard it.

Are you encouraged or discouraged by what you hear on radio?

Chuck: I dig it. The '70s resurgence appeals to me, but it seems to be a lot of work to listen to it. I hear songs occasionally, and I can't find them. I heard an Urge Overkill song the other day, and I tried to find it and couldn't. It was a weird song because the guy started singing and it was like they set the level like you set the level in your cassette player, but the song got louder and louder. As it got louder, it got more and more distorted. By the end of the song, it was pure noise. It started out really pretty and by the end it was pure noise. I said, 'Man, that is really something.' But I really like listening to some classic stuff. I'm starting to overdose on all of the sincerity on radio today, so I've been listening to a lot of Mott The Hoople lately.

Nothing sincere about those guys.

Chuck: I was getting an urge to listen to some things that are a little more glamorous.

Hopefully, we'll be able to see you perform live soon. Do you have any tour plans set?

Chuck: We're going out in the spring, and I think we're going to make an attempt to play everywhere that will have us.

Blues Breakers

blues reviews Jay Bone

The debut disk from this band transplanted to Texas is butt rockin' fun from the opening cut. "The Girl She's Crazy" has a West Coast swing feel to it. Check out the guitar and the fat tone of **Pat "the heart attack" Boyack** throughout the disk. Boyack gets a nice feature on the album's only instrumental "Lovers' Rhumba," which is reminiscent of some of **Bo Diddley's** surf sounding instrumentals from the early sixties. Vocalist **Jimmy Morello** has the versatility to sound distinctly different on almost every cut, from his throaty **Howlin' Wolf** imitation in "She's A Devil" to the fifties style crooning of "Give My Love All To You." These guys add "Gas Station Man" to the long list of sexual innuendo occupations, (fill the tank, change the oil, etc.) which includes, "Ioe cream men, hot dog men, meat cuttin' men and Poland Spring Water delivery men." Even though all of these guys have been on the scene for years, the band itself is new and the exuberance and excitement of a fresh start really comes across. That's one of the elements that makes this disk so appealing. The songs all tread familiar ground, but of that energy they are able to sidestep being derivative. "Breaking In" is solid entertainment.

Ed Tremewan Malaco Records

This is one of the rare tribute recordings that truly is a tribute. Each of the artists is from the Malaco/Waldoxy family, each picked a **Z.Z. Hill** song that meant something to them personally, and all, (with the exception of Bobby Bland and Johnny Taylor who were on tour), went down to Muscle Shoals Sound Studios together to make this album. Even the "new guys" like **Mike Griffin** ("Open House At My House") and the **Beat Daddy's** ("Shade Tree

Mechanic) acknowledge how Z.Z.'s music inspired their careers. The disc begins with Latimore singing "Cheating In The Next Room" and ends with the entire ensemble singing "Down Home Blues." In between lies some of the most heartfelt soul blues to come along in a long time. One track features **Dorothy Moore** singing an over-dubbed duet on Hill's hit recording "Please Don't Let Our Good Thing End" that has as much emotion as if they had actually been together in the studio, and in a way he was there, through the influence his career had on her and the others. Bobby "Blue" Bland's cover of "I'm A Blues Man" has Bobby sounding better than I've heard in a long time, and relays the excitement he had for the project. **Johnny Taylor** sings "Some One Else Is Steppin' In" in his admiration for a man he would go and watch as often as could. **Little Milton** does "It's Been So Long", **Poonanny** sings "Bump And Grind", and **Artie White** offers "Three Into Two Won't Go", in their portion of the tribute. **Denise LaSalle** ("Right Arm For Your Love") and **Shirley Brown** ("I'm Gonna Stop You From Givin' Me The Blues") put a soulful female slant to these Z.Z. hits. This is a first class and powerful soul blues album, and a joy to listen to time after time. **Bill Bentley's** liner notes give a brief history of Z.Z. and his career, and also contain a quote from each of the artists about Hill's influence on them.

Blues Plate Special

The Complete Stax/Volt Soul Singles

1972-1975

By Dave Johnson, Blues Deluxe

Ok, folks, get ready to turn off the phone, lock your doors and put out the dog...the folks at Stax Records (i.e. Fantasy) have just released a ten-CD (that's right, 10 CDs) anthology of music that will take more than the same numbers of hours to enjoy. This four-year compendium album of soul, R&B and blues treats features artists like **Isaac Hayes**, **Johnnie Taylor**, **Little Milton**, **Albert King**, **Eddie Floyd** and the **Bar-Kays**. Now you can get all these hits in one tremendous record package!... (sorry it got the best of me!)

You want a booklet, we go a booklet! How about Stax historian and box set coproducer Rob Bowman's 47,000 word essay on these gems? And there are plenty of great photos to accompany the printed word. This 10-CD set is the third in a series of complete Stax/Volt singles. This time, there are more than 200 songs for your listening pleasure. I've had my set for several weeks and am still working my way through every one of them. Talk about great fun!

Derek Ault has left the Gator's lair and moved into the Rhino's den. After six years of service as Alligator's Director of Commercial Radio Promotions, Mr. Ault left the fold to lend a hand in Rhino's sales department. He's now Rhino's local Sales and Marketing Manager (Chicago). Best of luck to you, Derek! In the meantime, the staff shakeup at Alligator continues, with Tim Kolleth

from the publicity department moving into the recently-vacated radio promotions seat. If you're attending the upcoming industry convention in New Orleans right around Mardi Gras time, you might run into (maybe literally!) Tim and fellow radio promotions dude, Jay Septoski...At the risk of being self-indulgent this week, there's more news on the Alligator front: Queen of Blues **Koko Taylor** is open-

ing her own club in Chicago sometime in March. The club, "Koko's," will be located in the Rush/Division Street area, one of the main locales in the city for entertainment, dining and "cocktailing" establishments. Make sure to put Koko's place alongside **Buddy Guy's** Legends on your "definite stops to make when I'm in Chicago for the Blues Festival the first weekend in June" list.

ON THE COVER

PJ Harvey, "Down By The Water," Island

You wanna talk massive? Look no further. Polly Jean has delivered what is, in all its essence (and not unlike her "4-track demos"), a true solo record; a highly expressive, wholly gripping release. With unpredictable moods and uncompromising attitude, PJ is the master of cacophony and style, blending dissonance and an unflinching sense of confidence all throughout her material. But, of course, you already knew that. Rest assured that *To Bring You My Love* will confound and amaze, though it is by no means an typical "automatic hit machine" type of record. But we'd never expect anything of the sort, now would we? She'll get what she will entirely on her own terms, as any truly great artist always has. She'll be on the road with REM throughout Europe in March and April, and then she'll land on these shores to absolutely rule the States. And hers is THE show at Gavin (she's playing Thursday night at Tipitina's).

CHOICES

The Loud Family, "Marcia and Etrusca," Alias

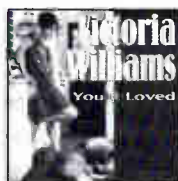

We were the absolute hugest fans of the band's debut a couple of years back, wholly taken by their bright pop arrangements and their brace of kinetic melodies. With *The Tape Of Only Linda*, their second album (produced by Mitch Easter, as was the last one), Scott Miller and Co. once again purvey their mastery of musical style and substance. This wonderful track that's on your desk is an edit of the album version, a down-

right heavenly song that's entirely earthy and, above all, very real. As is the band itself. Making pop in its truest, most heartfelt sense, the Louds never lose sight of what the essence of their music really is — the communication of warmth and vitality, purely and simply, complete with an overriding sense of knowing and slight detachment.

Fossil, "Moon," Sire/Warner Bros.

We first wrote about this band a few months back, as they first made a name for themselves as the band that so impressed CBGB owner Hilly Kristal that he started managing them. Well, their first full record is out, and the raves have started to come in at once. Soon-to-be MTV Manager of Music Programming **Matt Pinfield** says, "We are jamming this band. 'Moon' is a fantastic song. People need to listen to this band. It sounds great on the radio, they are a good live band and the album is deep and full with cuts." And **KACV's Jamey Karr** comments, "This band is the kind of band we like. Instant reaction songs. This upper demo record sounds great, much like Toad or the Gin Blossoms.

Victoria Williams, "You R Loved," Mammoth/Atlantic

The Victoria record is moving along real strongly, as her amazing press profile and sales base attests. After all, if two of your biggest fans were Neil Young and Eddie Vedder, you'd be feeling pretty good as well. This track is, we're convinced, the one to propel Victoria beyond her deal-knowing fanbase and onto the masses, as her earthy elegance is bound to impress.

Listen to **CKEY's Kerry Gray**: "I think this one was a no-brainer for us. A good grunge buster song. It seems some people have found their niche and were forgetting about developing new artists. We can play her out of "Voodoo Lady" and into Portishead. This soulful, funky songwriter has a lot of credibility and adds a great deal of variety to our station."

The Black Watch, "Whatever You Need," Zero Hour

You might be familiar with this band, as they've been releasing a steady stream of material ranging from singles to 7" to an EP and a full-length over the past few years. This record was originally released in early '93 on the Gotta Go label, and has just be re-issued by Zero Hour. Good, solid pop rich with bright melodies and charming string texture.

blah

There were quite a few things going on last week in the insulated little world in which we earn our daily bread. First off, **Alexa Tobin** will soon take the reins as the next Program Director of **WBRU**. "I'm incredibly excited," says Alexa, "it's a great opportunity at the terrific station where I started my radio career. The station has made a lot of strides within the last few years and the opportunity to come in as the new PD is something that I could never think of passing up. It's another chance to do great radio." And from owner **Brooks Brown**: "Alexa came from a great background in radio and records and is a graduate of Brown University. We're sad to see her go and we know that she'll do well teaching the next generation of alternative radio geeks." **Gary Schoenwetter** will be helming the ship for now, and look for the official word within the next few weeks. Alexa starts on the 23rd of February. No word yet on where **Mike Osborne** is headed.... Big congrats to **MTV's** new Manager of Music Programming. Talkin' **Pinfield**, of course. Matty exclaims, "I'm extremely excited about going up and working with the incredible programming staff at MTV. I have a lot of respect for the people there and now being a part of it is an incredible opportunity for me. In reference to **WHTG**, I'm thankful for the great years I've had doing programming and music here at the station. Owner **Faye Gade** deserves to be commended for being one of the first supporters of the modern rock format. She was a true visionary, and I'll miss her and the staff at 'HTG.'" Matt is going to get pretty familiar with NJ Transit, as he is going to commute for a while until he eventually moves up north. And make sure you keep him on your service lists.... **Todd Bisson** has officially entered the world of Triple-A indies, with the interestingly named Village green Promotion society. Says Todd, "On the advice of Ray Davies, I'm picking up the crusade. I'll meet you all on the battlefield." You can reach Todd at (609) 683-9140.... The date for the **'HFSTival** is set: once again, the format's most illustrious celebration will be at RFK Stadium on June 3rd. The power trio of **Benjamin/Waugh/Ferrise** is currently working on the lineup, so get in touch with them if you have any ideas.... **WFNX** is pleased to announce the promotion of **Laurie Gail** to Assistant Music Director at WFNX, 101.7 FM in Boston. Prior to her promotion she was Listings Director/Productions Assistant with WFNX. Program Director, **Kurt St. Thomas** states, "Laurie's hard work, dedication and intense commitment to WFNX is proven through her five years of as a full time employee, a favorite nightclub disc jockey through out Boston as well as her own on-air shift at WFNX." Gail is a graduate of Hofstra University and prior to to WFNX she was assistant production director and held an air shift at WLIR (now WDRE).... **Rick Schmidt** at **WXWX/Greenville**, South Carolina checked in with us, and lets us know that they're still looking for talent. Interested applicants should send T&R to Rick 15 South Main St. Suite 625, Greenville, SC 29601.... Lest you had any doubts,

REV 105 sells much more than its share of records. For instance: they're the only station in the market playing the Higher Learning soundtrack (three tracks, 19 total spins), and the soundscan went from 224-557 just over the last week.... **Letters To Cleo** take to the road again for a club tour of the eastern U.S., kicking off with a Mercury Lounge show on February 18th.... **Echobelly** will be releasing a (college-radio only) EP bearing the title **Give Her A Gun EP** on February 6th. This EP will contain one previously unreleased studio track ("So La Di Da") which the band performed live on most of the dates of their U.S. tour last autumn, as well as live versions of "Give Her A Gun" and "Father, Ruler, King, Computer" recorded in the U.S. during their brief tour.... **Beastie Boys** update: the band is off to Europe for the February-March "All In Tha Family" tour with the Jon Spencer Blues Explosion, Luscious Jackson and Beastie Boys DJ Hurricane (whose solo debut **The Hurra** is due March 23 on Grand Royal/Capitol) supporting. The Boys will rehearse in Holland for a week before the tour begins, during which time they will inaugurate the new MTV show Superrock.... **LIFEbeat** announced that it will be the recipient of funds raised by their newly organized industry golf association called **MIGA** (Music Industry Golf Association). MIGA will begin to host a series of golf tournaments in conjunction with established music industry events, as well as "golf only" tournaments. Tournament registration is open to all music industry members for a MIGA membership fee of \$75 or a non-membership fee of \$100.... Tour Dates: **Kevin Salem**: 2/6 Cleveland; 2/7 Ann Arbor; 2/9 Milwaukee; 2/10 Minneapolis; 2/11 Chicago; 2/17 Albany; 1/28 Long Branch, NJ. **Bad Religion**: 2/13 Orlando; 2/14 Ft. Lauderdale; 2/15 Tampa; 2/16 Jacksonville, FL; 2/17 St. Louis; 2/18 New Orleans; 2/19 Houston. **Hootie & The Blowfish**: 2/11 Greensboro, NC; 2/12 Charlottesville, Va; 2/13 Pittsburgh; 2/14 Jacksonville, AL; 2/15 Atlanta; 2/16 Auburn, AL; 2/17 Milledgeville, GA; 2/18 Gainesville, FL.

COR CUTS

Corrosion of Conformity, "Clean My Wounds" (Columbia)

To say that the buzz on this band is big would be a huge understatement, because the way that COR radio programmers are responding to "Clean My Wounds" points to a long happy life near the top of the charts. And that is a place where **COC** are starting to feel comfortable with "Albatross" bringing in a hefty amount of airplay in addition to the number one slot the band recently took over on the Hard Hitters chart. One listen should be all it takes for any programmer to hear that this chunky, catchy song will hook into their listeners heads, but don't take our word for it, listen to your peers such as Nat Lamp of KZRX who asks, "how many good things can you say about this song? We started playing this song before most stations were even on "Albatross", and while that was good, the response on "Clean My Wounds" is even better!" Another programmer who has literally been raving about this song for months is Joe Bevilacqua of WDZR who goes on to say that "if a song was ever recorded for my station, this is it. Its the chunkiest, most groovin' guitar based rock record out there from start to finish - a perfect record for COR radio." Joining them this week are KNCN, KSJO, KUPD, WKLL, WKLQ, WLZR, and WRZK with adds this week to bring the station count up to 18 - before the official add week. **COC** are currently on tour with Megadeth expanding their already solid fanbase, so what are you waiting for?

Sick of it All, "Step Down" (EastWest/EEG)

How long has it been since you found a solid, upbeat, blood pumping, energetic, anthem for your airwaves? We think that it has probably been too long, and that right under your nose is just what you have been looking for: "Step Down", the latest from **Sick of it All**. Now we all know that punk is the big rage at radio and MTV right now, but all of those tinny guitars and fake English accents can blur after awhile, so it would just make sense to take the logical next step that the punk movement did. While hardcore may be a frightening term to many radio programmers, **Sick of it All** are the best of that breed and the infectious track "Step Down" is powered by a vibrant bass line, a hooky melody, and the high-spirited tempo that has made punk so popular. If this song doesn't make you want to get up and move, nothing will. **Sick of it All** is already seeing some spins at KZRX, and Nat Lamp popped it in because he "liked the sound of the song plus liked the feel of it and we got a decent response on the band when we played them in the past." The band is currently on tour with another band spawned from the New York Hardcore movement - Helmet - and will be headlining after that, so before you pass up your chance at some vibrant and powerful music, spend some time with "Step Down".

L.A. Guns, "Long Time Dead" (Polydor/A&M)

It has been quite some time since we last heard from **L.A. Guns**, since the band took some time to rejuvenate from their hectic recording and touring schedule - a process that landed them at the top of the rock radio charts a few years back. But now that extra time allowed them to refocus, recharge, and as a result create undoubtedly the best music of their career. The first track, "Long Time Dead", is already seeing enough airplay to earn a spot on the COR chart with KIBZ, KIOZ, WHMH, and WKDF showing increases this week. With a kinetic beat and riffs sharp enough to cut through steel, the listener response from both Hard Hitter and COR stations has been immediate and positive. This favorable review has also spread to programmers, including John Nagarya of WKDF, who is getting top 5 phones already, calls it "best song that they have ever done. It's a solid piece of music - a hard rocking guitar based record, they are not a 'hair band' at all." It's excited Bob Burt of WHMH tells us he thinks the song is "Killer! **L.A. Guns** smokes, and the tune has done very well, we're getting a lot of phones already!" While there were people out there who may have thought that the band itself was "Long Time Dead", it is clear that they are back and better than ever!

CUT CUTS CONT.

Moist, "Machine Punch Through" (Chrysalis/EMI)

This Canadian band, while already superstars in their native homeland, are just starting to spread the word to audiences in the U.S. Many of you are familiar with them from their first single, and now they are back with "Machine Punch Through", a song that may not be as fast paced as "Push", but more than makes up for it with the sheer intensity you can hear in David Usher's compelling vocals and the discreet yet substantial guitar work of Mark Makowy. **Moist** creates a haunting, provocative sound that can pull you in and will conquer you without you even realizing it. If you have ever had a chance to see their live show, then you know what an electrifying set they play, we even witnessed the band turn a disinterested and almost hostile crowd into a mass of adoring followers. Hopefully you will give them the chance to do the same to your listeners, like they have at WKLQ, whose Darren Arriens recounted to us that "**Moist** played a great live show in the area last month, and they are a convincing act on stage and this could be the single to break it for them."

Cinderella, "All Comes Down" (Mercury)

O.K., just take five seconds to forget about the fact that **Cinderella** first came into prominence in the mid-80s - a time period with music that hip and trendy people of today claim they never listened to - and just sit back and check out the music. You will hear that the blues based up tempo rock n' roll that **Cinderella** has to offer in exactly what you are looking for on your station. Many of you have already started to do that with 19 stations already playing the newest cut, "All Comes Down", including 11 increases at KILQ, KZAK, WBTZ, WBZX, WDZR, WHMH, WKDF, WKLL, WLZR, WRZK, and WVCR. "Our audience has not forgotten this band," says Bob Burt of WHMH, "when this album came out we got a lot of calls, and if our listeners want to hear it, we're going to play it." Another line of reasoning comes from WDZR and Joe Bevilacqua who says, "I am playing this because I think it's a good, straight forward rock n' roll record: it's as simple as that. It's a summertime record that was released in February." And we can always use anything that reminds us of the fun of summer, when it "All Comes Down"!

Biohazard, "5 Blocks to the Subway" (Warner)

This band hails from the rough New York streets, and their songs are a musical tour guide through that way of life. The thrust of "5 Blocks to the Subway" is describing the harsh realities of everyday existence that most people go through. Considering that the typical target audience of COR radio is 18-34 - particularly the male demo - your audience should be able to relate to that mentality. Another aspect of **Biohazard** that helps them stand out from the crowd is their hip hop influenced groove and the vibrant tandem vocal delivery of **Evan Seinfeld** and **Billy Graziadei**. In the past couple of years they have become one of the fastest rising bands in the hard rock format, and with their strong developed and loyal fanbase, they will be around for quite some time.

WKLQ had the fun of welcoming John Mellencamp to Grand Rapids to do a surprise club gig for the fun of it. But the real fun came when WKLQ held a Dance Naked contest with their listeners. From the looks of these pictures, everybody had a good time, even if they were a bit chilly!

METAL Pick

L.A. Guns, *Vicious Circle* (Polydor/A&M)

The term "wear out your welcome" could apply to many a band that proceeds to shell out album after album before we even have a chance to miss them, but **L.A. Guns** hardly fit into that category with their three year absence from the scene. With plenty of time to rejuvenate from the vicious cycle of recording and touring, their latest release - *Vicious Circle* - has not only come blasting out of your speakers, but has come blasting out of the gates with another solid jump up the chart, making it up to #20 this week. The response from "Killing Machine", the first single, has been very positive with many stations being blown away by the ferocity of the song, in fact eight stations have put the band in heavy rotation already, with five more increases this week at KIBZ, WMHB, WTPA, WXZR, XBDT, and WXZR. Apparently this favor is duplicated by many listeners of these shows with top five phones already coming in at KIBZ, KUNV, WDHA, and WVXU. Now that the full length release is planted in our stereo, it is evident that the prominent strong point of *Vicious Circle* is the diverse composite of tempos and styles. From the high energy opening of "Face Down" - a chunky and anthemic rocker - to the double barreled and crazy pace of "I'm the One", the band has plenty to offer this time around. If those two songs don't quite fit your needs try out the blues based (complete with harmonica) "Nothing Better To Do"; the psychedelic rhythm of "Chasing the Dragon", or the vehement, thick churning guitars of "Kill that Girl". Another saying, "good things come to those who wait", is a term that does apply to many stations who have started on the latest **L.A. Guns**, so get caught in their *Vicious Circle* before it's too late!

Quicksand, "Delusional" (Island)

With the release of *Slip* in late 1992, **Quicksand** immediately was able to creep right up to the forefront of the hard music scene with a collective uproar of critical acclaim from radio, retail and press alike. It didn't hurt that the band was able to land tours with Anthrax, Helmet, Rage Against the Machine, and White Zombie, which kept them on the road well into 1993. Probably one of the main reasons that

Quicksand has been embraced by so many, is derived from their unique blend of combining hammering riffs from their hardcore roots with hooky melodies and subtle vocals. In other words, they are able to deliver a knockout punch without you even realizing that you've been hit. The first sample from the upcoming *Manic Compression* release (hitting stores on February 28) is "Delusional", a song in the same vein as previous releases, with a consistent, bludgeoning rhythm accentuated by the emphatic riffs and subtle hooks provided by both the guitars and vocals. In addition, **Quicksand** are sprinting out from the same touring starting gate by joining Offspring on a road show that begins mid February. So, this would definitely be a good time to make your listeners "Delusional" with new music from **Quicksand**.

Extreme, "Waiting for the Punchline" (A&M)

The Boston based band **Extreme** have never been ones to follow a trend, and in the past have followed only their own creative homing devises which have included intricate melodies, witty lyrics, the guitar dynamics of **Bettencourt** and even some horns for good measure. This time around the band has gone to extremes to buck the inflated view of

many of the so called trendy-politically correct-alternative types on songs like the first single, "Hip Today", along with other songs like the up tempo "There Is No God", and "Tell Me Something I Don't Know", an extended jam that showcases the stripped down production used on this release to capture more of a live sound. The initial EP has already pulled in some airplay at KTSC, KZRO, WGLS, WKSR, WMMR, WMHB, XBDT, and Digital Music Express, but with the full release, *Waiting For The Punchline*, in radio's hands, the pure musical strength and honesty should lend itself to much more airplay.

Holy Gang, Free Tyson Free (Roadrunner)

Some bands release songs that address a certain political subject or situation, but **Holy Gang** take that idea a step further; they released an entire album. Everyone should remember the highly publicized Mike Tyson rape trial in Indiana, in which the championship heavyweight boxer was convicted of raping 18 year old Desiree Washington. The members of **Holy Gang** - which includes Front 242's **Richard 23**, **Marc Du**

Marais, and **Jean-Pierre Everaerts** - are avid fans of both boxing in general and of Tyson, and feel that he was wrongly accused and convicted because of his race and stature. The entire fearsome, industrial musical attack on this CD reflects the anger that the members are feeling, complete with grinding buzzsaw guitars that are even further intensified by the arctic samples. With controversial lyrics and pummeling lyrics, this is not for the weak hearted, and could see a warm welcome from the Hard Hitters stations.

Cubanate, *Antimatter* (Dynamica/Noise)

After slipping this CD into the stereo, we were immediately surprised that this band hasn't found themselves with a stateside release any sooner than this. This English based dynamic duo (**Marc Heal** - vocals/programming; **Phil Barry** - guitars) have been showered in critical acclaim since their first single "Body Burn" (on *Antimatter*, but originally offered in 1993) first hit the press. Possessed with an angst ridden desire to wreck havoc in their music, their techno and industrial based music is a catharsis for both the artist and the listener. With an uncanny vocal resemblance to Trent Reznor, *Cubanate* take that industrial style with a night club back beat and layer over it with a layer of volcanic guitar sounds, and the incensed, violent lyrics. With a visionary flair combined with plenty of metallic punch, *Cubanate* find a unique blend with crossover appeal that will appeal to many: you should be one of them.

Mumbleskinny, *Head Above Water* (Sector 2)

This five-piece from the Lone Star state (**Mark Thiele** - vocals; **Gus Salmon** - bass; **Sean Salinas** - drums; **Wally** - percussion; **Earl Schuck** - drums) are all professional musicians and each brings to the unit a variety of influences. What this fusion creates is a surreal style that rocks, but at the same time carries you along as if you are floating along a peaceful stream. One of the characteristics that stands out is the unique percussion with different chimes, rattles, and shakers joining the traditional (and some not so traditional) drums, particularly on "Lack of Shame" and the bongo work on "Aaron's Song". If the fretwork is your forte, check out the muted picking, and surreal, fluent rhythm of "Hands Are Tied" or the mechanical, contorted twists of "Pulse". Finally, like frosting on a cake, the raspy, throaty vocals of **Thiele** provide the perfect finishing touch. The music of *Mumbleskinny* - which is somewhat familiar yet somewhat distinctive - fits like a glove with the ever changing relevance of genres in modern radio, so rest assured that *Head Above Water* will merge well with whatever is on your playlist!

Godflesh, "Xnoybis" (Columbia/Earache)

Boy, the Columbia metal department has sure been busy the past few weeks with single releases from Corrosion of Conformity, Nativity in Black, and now a new track from **Godflesh**. The futuristic fury of **Godflesh** first appeared on the scene in 1989 with the release of *Streetcleaner* - a nihilistic, apocalyptic study of music at its most ferocious, released well before its time to slack-jawed listeners around the world. The duo of **Justin Broadrick** and **Benny Green** continue to blaze new trails - including one up the Hard Hitters chart - on their latest release *Selfless*. The pummeling assault of the latest track "Xnoybis" is as cold and unforgiving as the frozen tundra of Canada, which is certain to endear itself to the metal masses. With the new single - including various remixes of the song - and having just finished a tour with Danzig and Type O Negative, the interest in **Godflesh** is still at a peak and waiting for you to join in on the destructiveness.

Biohazard, "Five Blocks To The Subway" (Warner Bros.)

There really is no need for an introduction to this band - considering they held down the number one position on both the hard hitters chart and the top spins chart for quite some time last year. With the band heading out on the highways (taking the stage between Slayer and Machine Head) it seems appropriate enough to hand deliver another tune for radio play. Enter "Five Blocks To The Subway", with its power heavy groove courtesy of the twin guitar finaglings of **Billy Graziadei** and **Bobby Hambel**, layered upon vociferous vocals. The band's ability to mix life experiences, musical talent and raw aggression comes through loud and clear no matter what you're listening to, and "Five Blocks..." is no exception. For a bit of variety drop in the live version of the song found on the Slayer/Biohazard/Machine Head CD - it rules. KZRX is already on the track, we think the rest of you should be, too.

Moist, "Machine Punch Through," Chrysalis/EMI

To continue in the story that began with the arrival of "Push", **Moist** move onward and upward with "Machine Punch Through", the next offering from *Silver*. Three different edits are delivered for metal radio play, complete with the raw, compelling vocal delivery from **David Usher**, perfectly complimented by the heated fretwork of guitarist **Mark Makowey** and the driving force of bassist **Jeff Pearce**, keyboardist **Kevin Young** and drummer **Paul Wilcox**. In house favorites, **Moist** bestow upon the metal ranks something leaning more toward the hard rock realm, but take heed their music shouldn't be overlooked. "Machine Punch Through" is full of musical tangents that rise and fall in waves of frenzy; powerful sounds that cascade in swirls of pulsing energy. Need to hear more? Listen to the record. KQAL did, they added it.

CLaWFiNger, "Warfair"/"The Truth" edits (Metal Blade)

When the Swedish based **CLaWFiNger** first hit metal radio late last year, the interest of programmers was peaked with their driving, rap influenced percussion and groove heavy buzzing, chunky guitars, but some of the language didn't pass FCC guidelines. Well that problem is solved with the edited versions of "Warfair" - with its unfailing and undeterred guitar riffs that furrow with the doggedness of a groundhog - and "The Truth Hurts", an emphatic and relentless bombardment on the senses with faded out guitars and the robust vocals of **Zak Tell**. With the radio friendly versions out, **CLaWFiNger** pulled in a hefty 32 adds for two of the strongest tracks pulled from their debut U.S. release *Deaf, Dumb, Blind*. Having already won over the critical European press corps and fans with their original quality on record and live, and now U.S. audiences have their first chance to witness the powerful aggression of **CLaWFiNger** with the edits in radio's hands.

**Overdose** PROGRESS OF DECADENCE**A GREAT ALBUM!!!**

Chris Hoffman/WCWP: "It's great!"

Monte Mukerji/WPSU: "I love it, it's a great album!"

Gary Horn/WVXU: They're really great, the percussion is brutal!"

Bob Hutchings/WXCI: "Doing well here, it's a great album!"

METAL Filings

The primary goal for metal radio types today should be to save a space on your add list for the full length disc, Vicious Circle, from **L.A. Guns** (Polydor)... **Quicksand** (Island) are gonna explode onto the metal front with the arrival of "Delusional", the first cut taken from the Quicksand and **Don Fury** co-produced record, Manic Compression. Let your listeners know the street date for the album is February 28th... Those of you who helped **Extreme** (A&M) debut at #45 on the spins chart from the current generated from "Hip Today", will now want to make sure you add the rest of the record. Waiting For The Punchline goes for add February 6th and 7th, and will arrive in stores on the 7th... **Holy Gang's** "Free Tyson Free" (brought to you by **Roadrunner Records**) is not for the mild mannered radio types, you might want to listen to the track before you drop it in the CD player for adds February 6th/7th... **Mumbleskinny** (Sector 2) unveil their ten track album, Head Above Water, early in February for adds the 6th and 7th. The impact track is "Devil Man"... **Godflesh** (Earache/Columbia) offer up four different versions of "Xnoybis", the next emphasis cut from the Sellless record, for adds today. You have your choice of the regular edit, the clubdub, the psychofuck dub or the 5 minute and 55 second version of the song... Vancouver based **Moist** (Chrysalis/EMI) go for metal radio adds with the duo edit "Machine Punch Through" CD-pro on February 6th and 7th. The track is taken from the band's debut album, Silver... You will be receiving twelve trax from **Means To An End** (Futurist), found on their self-titled album, for radio play (and adds) February 13th and 14th... Considering the Tales From The Crypt - Demon Knight soundtrack is firmly planted in the top ten of the Hard Hitters chart, and has broken into the top five of the Spins chart, it only seems fitting that those in charge bring the metal masses another CD-single for air-play. Next up is **Filter** with "Hey Man, Nice Shot". The CD-pro will arrive complete with an album version, a radio edit and a completely remixed version of the tune. What more do you need to add it February 20th/21st?... All you industrial strength rockers will want to reserve air space for the **Orange 9mm** (EastWest/EEG) tune "High Speed Changer" February 27th and 28th. The song is taken from the new material found on Driver Not Included... **Skid Row** (Atlantic) have finished their duties on Subhuman Race, the group's latest, and possibly greatest, album. **Sebastian Bach** and company traveled to a Vancouver studio to recruit **Bob Rock** for the production chores on the disc, which is slated for a March 28th arrival. The first meaty morsel comes in the form of the "My Enemy" CD-single; that, by the way, is scheduled to go for adds February 27th and 28th... **Sugar Ray** (Atlantic) make their metal radio debut with the March 6th/7th arrival (and add dates) of "Mean Machine", the first single from their upcoming self-titled record. The full length has been given a March 28th street date... The **Goo Goo Dolls** (Warner Bros.) are anticipating a March 14th re-entry on the musical front with the release of A Boy Named Goo... Look for the remixed and remastered version of the **Manic Street Preachers** (Epic) album, The Holy Bible, to arrive just in time to fill the retail shelves March 28th. The record was originally released in Europe, now the metal contingent will have the new and improved version for their perusal in March... **Flotsam and Jetsam** (MCA) mark their late March return to the metal sect with the first single taken from their upcoming album Drift. The single hasn't been named yet, but the **Neil Kernon** produced, **Michael Barbiero** mixed disc is slated for release in mid-April... **Broken Hope** (Metal Blade) bring their brand of heavy metal to the radio waves in April with the arrival of Repulsive Conception. As a precursor to the April 4th release, the band will be traveling up the West coast and into Canada on a short tour in March... It's been a long wait but the new **Fight** (Epic) record, Small Deadly Space, will be on the street April 18th. Yes! P.S., the record was produced by **Attie Bauw**... The real rock sounds of **The Nixons** (MCA) will be on your desk at the end of April, with the **Mark Dodson** produced material arriving under the moniker Foma... South Jersey based **Core** have inked a deal with **Devastation Records**. The band will enter the studio on March 1st, with **Billy Anderson** (Sleep, Sick Of It All, Melvins) turning the knobs. Look for the finished product sometime this summer... **MCA Records** have announced the addition of **Dimestore Hoods** to their artist roster. The hard-core/alterna-types will be joining producer **Matt Wallace** in the studio any day now...

Did I mention that **Tommy Victor** (of Prong fame) is producing the next full length release from **Sheer Terror** (Blackout/MCA)? If not, he is... Word is that **The Organization** (Metal Blade) are preparing to release their sophomore album, Backwards Reality, in May of this year. The band employed **Michael Rosen** and **Vinnie Wohno** ass producers on the record. Along with the record's release, the band are prepping for an upcoming tour with **Planet Hate** (Energy) in support... **Dokken** have returned after an eight year absence from the metal scene and inked a deal with **Columbia Records**. The band, in case you forgot, are frontman **Don Dokken**, guitarist **George Lynch**, bassist **Jeff Pilson** and stixman **Mick Brown**. They will release a self-titled album in May. ☸☸☸☸ It's been confirmed that **Sick Of It All** (EastWest/EEG), **Korn** (Epic/Immortal) and **Orange 9mm** (EastWest/EEG) will all be sharing the stage on an upcoming tour. Dates have been confirmed from a February 10th blast off in Phoenix, Arizona until a March 30th showing in Boston, Massachusetts. A show has been tentatively scheduled for March 31st somewhere in New Hampshire. More on that later... The most important **Melvins** (Atlantic) news of the week is that the heavily textured musical group have been tapped to join Trent and Co in **Nine Inch Nails** (nothing/TVT/Interscope/Atlantic) on the February 4th-18th leg of their tour. The double billing runs from the opening show in Minneapolis, Minnesota through a February 18th gig in New Orleans, Louisiana. The shows that fall in between go something like this - February 7th/Sioux Falls, South Dakota; 8th/Kansas City, Kansas; 11th/Dallas, Texas; 13th/Columbia, Missouri; 14th/St. Louis, Missouri; and the 16th/Pensacola, Florida... Corresponding with the upcoming March release of Subhuman Race, **Skid Row** (Atlantic) have planned a surprise club tour as part of their agenda. The band will be stopping in the Milwaukee, Chicago, Detroit, Pittsburgh, Boston, and New York markets, among others... **Testament** (Atlantic) are preparing for a U.S. tour to kick off in April, but first the band plan to head over to Europe for a string of dates in March... We've been told that the January 31st **Type O Negative** (Roadrunner) and **Pantera** (EastWest/EEG) showing in Shreveport, Louisiana was cancelled - apparently because both of the bands, the club and the local police felt the removable seats at the venue could end up being dangerous to fans. After the show was called off a few minor mishaps occurred, but not enough to deter the guys in Type O from joining fans outside for about an hour and a half worth of chit chat and autograph signing... **KoRn** (Epic/Immortal) will be joining the likes of **Anthrax** (Elektra/EEG), **Helmet** (Interscope) and the **Mighty Mighty Bosstones** (Mercury) for a March 15th showing at the Palladium in Los Angeles, California - pre-show festivities for the Board Aid headliners **Porno For Pyros** (Warner Bros.). The show is one of two held as part of the Board Aid project, with the proceeds going to charity... Background info on **Triangle** (SRO/Red Handed Records) includes the 1993 release of an EP, the January of '95 arrival of Raw Feed and a 2nd place overall finish in the Pro International Trans-Am Series in New Zealand. Yep, you read that right. Drummer **Dino** is a Pro Trans-Am racing car driver and he edged out the New Zealand Pro Champion for a first place finish in part of the racing series a few weeks back. Cool. The band will hit the road in the Spring... Just so you know, **Convulse** (Nuclear Blast/Relapse) have replaced drummer **Janne Miikulaninen** with **Pertt Lind** and guitarist/vocalist **Rami Jansa** has handed over the vocal duties to **Kimmo Hakkita** but will still handle the guitar chores... **Sepultura** have gone back to their label roots and have returned solely to **Roadrunner Records**. After a previous arrangement with Epic Records, for a marketing and distribution deal, the band have exclusively rejoined Roadrunner - who in the last several months have expanded their marketing and promotions departments. The band are currently writing material for their Chaos A.D. follow-up... Check the mail for a Valentine surprise from those in the **Futurist Records'** offices... The **Beastie Boys** (Grand Royal/Capitol) have been nominated for an award in the Superrock category at this year's Grammy's for their video "Sabotage (Aqualung '94 Wineskin Mix)". In other Superrock news, the band will take time out from their European tour to help MTV kick off their new show - Superrock... Happy belated 27th birthday to KMSA's **Eric Pain** - I hope the 27th year of your life is the best one yet. ☸☸☸☸ Over and out. Peace.

METAL *Photos*

Here's another shot taken on the whirlwind **Body Count** tour, this one snagged when the band stopped at the *Limelight* in NYC to put on a raging show. The likes of Virgin's **Tommy Delaney**, WSOU's **Mike DePippa**, and AIM Marketing's **Joanne Grand** and **Kristen Moore** can be seen here as they joined the band for some backstage fun and frolic.

Apparently one of the perks of working the *Demon Knight* soundtrack is getting to hang out with the *Crypt Keeper*. Atlantic's **Jon Nardachone** met the ghoulish movie star and actually lived to tell about it.

Bianca Butthole stopped by the *WSOU* studios to model the latest in head gear. The brazen **Butt Trumpet** band member was kind enough to bring each of the *WSOU*ers their very own hair apparel. The 'SOU cast, who will bring the grocery bag look to the *Seton Hall* campus, include **Terez Kim** and **Mike DePippa**.

Last week you read about **Slayer** having four of their reaching the gold sales status - this week we bring you a few Kodak moments from the ensuing festivities. Here band members admire their precious metal while label head **Rick Rubin** looks on.

The **Queen** album "At The BBC," already available as an import, gets a U.S. release in March (on Hollywood Records). The package includes eight tracks recorded in February and December 1973. All but one are songs from Queen's self-titled debut LP.

Jimmy Page, formerly of **Led Zeppelin**, is involved in an acrimonious dispute with his former wife, ex-model **Patricia Ecker**, over custody of their five-year-old son. British tabloid newspapers say Page is willing to pay his former wife \$6 million as a divorce settlement. The couple were divorced on January 16 after nine years of marriage.

Los Angeles band **Dokken** will release (on Columbia Records) its first album in eight years in May. The group broke up in 1988 as **Don Dokken** recorded a solo album and guitarist **George Lynch** and drummer **Mick Brown** formed the **Lynch Mob**. "We've decided we have to finish the saga of Dokken," vocalist-guitarist **Don Dokken** says. "This album addresses issues that affect our lives. A lot of stuff came to me watching the news, seeing the horror of our times."

PolyGram has bought out the remaining album that **Elton John** owed on his MCA Records contract so that John can change labels sooner. PolyGram would not disclose how much it paid, but the action allows John and his manager to re-launch the Rocket Records label with John's new album "Made In England." The first single from the LP, "Believe," is due out this month. In the 1970s, Rocket Records was the home of **Judie Tzuke**, **Kiki Dee** and veteran rockers **Cliff Richard** and **Neil Sedaka**. John's long-time manager John Reid will head the New York-based company which has a staff of five. "At the moment, Elton and I are the decision-makers, and we're looking for maybe three or four acts in our first year," Reid says.

Electrafixion, the group that includes founding **Echo & The Bunnymen** members **Ian McCulloch** and **Will Sergeant**, plans to tour the U.S. in the spring. The band has a four-song EP out in Britain and plans to release an LP in the fall.

The upcoming **Harry Nilsson** tribute album will feature a duet by **Ringo Starr** and **Stevie Nicks** of "Lay Down Your Arms," an anti-violence song that Nilsson wrote after **John Lennon** was shot and killed. The 23-song LP will also include Nilsson covers by **Randy Newman**, **Aimee Mann**, **Brian Wilson**, **Jimmy Webb**, **Fred Schneider** of the **B-52's** and **Victoria Williams**. Nilsson died of a heart attack in January 1994 at age 52. "For the Love of Harry (Everybody Sings Nilsson)" will be out in April. All royalties and net profits from sales of the album will be donated to the Coalition To Stop Gun Violence in Washington, D-C, in Nilsson's memory.

Nirvana was named favorite hard rock artist and **Counting Crows** was named favorite alternative music artist at the 22nd annual American Music Awards, where **Boyz II Men** won in three categories. **Ace Of Base** was named favorite band and new pop artist, while "The Lion King" soundtrack won for favorite pop album. **Led Zeppelin** and **Prince** were given special awards for endurance and achievement. **Michael Bolton** won for favorite male artist, while **Mariah Carey** was favorite female artist.

There are published reports that the recent reunion of **Bruce Springsteen & The E Street Band** may lead to a tour. The group got together recently to record new songs for an upcoming greatest hits album. The band split up in 1990 after almost 15 years of working together.

Sarah McLachlan begins a U.S. tour in San Francisco on March 2 with **Paula Cole** opening. McLachlan's "Fumbling Towards Ecstasy" has been nominated for a Grammy in the Best Alternative Album category.

Cher has submitted plans to city officials to build a 14,000 square-foot home in La Gorce Island in Miami. The three-level house will encircle a fountained courtyard and will be in a "Venetian-Moorish-Gothic" style.

U2 has released a CD called "Melon" through the official band magazine Propaganda. The nine-track, 64-minute disc features dance remixes from the "Achtung Baby" and "Zooropa" albums. The CD is described by Propaganda editor Marin Wroe as "just about the most exclusive freebie any U2 magazine could offer its readers." About 250,000 copies were produced for the winter-spring issue (number 21) of Propaganda. (Propaganda, 119 Rockland Centre, Box 350, Nanuet NY 10954.)

A hearing has been scheduled for March 15 in a lawsuit by four members of the **J. Geils Band** against Smith Barney Inc., which claims the brokerage house mismanaged their pension fund. The lawsuit by **John Geils Jr.**, **Stephen Bladd**, **Richard Salwitz** and **Seth Justman** alleges losses of at least \$450,000 because broker Kathleen Hegenbar jacked up her commissions by using the band's earnings to buy and sell high-risk securities. Attorneys for Smith Barney say the band was a victim of sudden changes in the stock market in the mid 1980s.

Guitarist **Tinsley Ellis** says his most recent album, "Storm Warning," has been doing better than any of his other releases. His band has scheduled tour dates in Europe and Australia because of the airplay it's received. "I'm the original Florida keg party jammer," Ellis says. "There were advantages in staying and making a career out of my art of keg party jamming. A little bit of backsliding and I could be back there poolside by my keg." Ellis is optimistic that his best days as a musician haven't yet arrived. "One reason that I can do this with a smile is that I know that my best years are ahead of me in blues," he says. "If this was heavy metal or hip-hop music, well you better make it big before your hair falls out. In blues, you know, your best years are always ahead of you."

Two **Pink Floyd** fans in North Carolina are selling parts of the blimp used by the band during its "Division Bell" tour. Brothers Matt and Jeff Dean have patiently cut the blimp into 60,000 pieces that they're selling for \$69.95 each with a photo of the blimp and a certificate of authenticity.

The Ministry of Culture in China has given **Air Supply** approval to play six concerts this spring. The first will be in Beijing on March 15. The band will play two dates each in Beijing, Shanghai and Guangzhou. Air Supply will become the second Australian band to play China. **Yothu Yindi** played an impromptu set at a bar in August while in Beijing to film part of an advertisement for the Australian airline Qantas. **Paul Simon**, **Paula Abdul**, **John Denver** and **B.B. King** have also played in China, while **Madonna** was denied permission to play there. **Roxette** are expected to play in China this month and **Whitney Houston** is reported to be trying to organize a concert on the Great Wall of China later this year. **Kenny G** is also planning to perform in China, which has a population of 1.2 billion.

The **Rolling Stones** opened their "Voodoo Lounge" tour in Brazil with a Sao Paulo concert before 50,000 people. The three-hour Stones concert, which went late into the night, was preceded by sets from the **Spin Doctors** and Brazilian band **Barao Vermelho** ("Red Baron"). A daily newspaper in Sao Paulo reported that **Mick Jagger** dined at a fancy restaurant called Tatou before the concert, and that employees of the hotel where the Stones were playing described them as "well-educated."

William Horton, lead singer of 1950s R&B group the **Silhouettes** has died at his Philadelphia home of heart failure at age 65. The Silhouettes were best known for their 1958 number one record "Get A Job." Horton had begun working construction jobs but still played nightclubs until he suffered a heart attack five years ago.

Michelle Malone of **Band de Soleil** has been joining the **Indigo Girls** on lead guitar for a 10-minute version of **Neil Young's** "Cortez The Killer" during encores at the Indigo Girls' concerts. Band de Soleil has been opening for the Indigo Girls at dates throughout the Southeast.

Dianne Warren is to receive the American Society of Composers, Authors and Publishers' Voice of Music Award on February 15. Warren has written "Don't Turn Around" for **Ace Of Base**, "If I Could Turn Back Time" for **Cher**, and "When I'm Back on My Feet Again" for **Michael Bolton**, with whom she sometimes collaborates. However, she says she doesn't plan to launch her own career. "I have stage fright," she says. "I've always wanted to be a writer. That's what really makes me the happiest, to have someone record my songs and sing them great."

Jon Secada has become the Spanish-language television pitchman for AT&T's TrueVoice campaign. Commercials featuring the Cuban-born singer will begin airing in the United States this month. AT&T will sponsor Secada's North American tour which begins February 17 in Universal City, California, and ends in Miami on April 17.

Ice-T is finishing work on an album coming out in March called "Return To The Real." He also recently directed a video for a teenage rapper named **Gripsta**.

Noel Gallagher of **Oasis** isn't worried about defending the band from charges that its music liberally lifts from other groups. "I'm not going to apologize that 600,000 people have bought my album in Europe because our music is derivative," he says. "That's demeaning to the record buyer. That's saying, 'You're thick and stupid. And you should not like this record because all this music has come before.' I'm not going to apologize for that, I'm going to show you my bank balance." Even though the band has gotten a lot of publicity from Noel feuding with his younger brother, Liam, that's not what drives the band, Noel says. "People will never go and see a band just because you've got an attitude. You go and see a band because they've got good songs," he says. "Say, for instance, you heard a song by the **Spin Doctors** on the radio, and you liked it. You'd have no inkling that the lead singer looks like an...with a beard — like a complete and utter idiot. All that comes secondary. It's the song that strikes you first."

Fats Domino will receive the **Ray Charles** lifetime achievement award from the Rhythm & Blues Foundation March 2 in Hollywood. The organization's Pioneer Award will be given to a dozen artists including **Cissy Houston**, the **Moonglows**, the **Marvelettes**, **Junior Walker** and **Booker T. & the MGs**. They'll share a prize total of \$220,000.

Vancouver band the **Odds** have released a new album called "Good Weird Feeling," produced by Nigel the Cat, according to the liner notes. "Nigel's my cat," says frontman **Craig Northey**. "He's pretty smart. We one-upped that Toonces, the cat who can drive, from 'Saturday Night Live.' We one-upped him in a big way. We had our cat produce an entire album." Northey says Nigel won't go on tour with the band. "He's got a lot of mice to kill," Northey says. "Besides, he's producing another band right now." Actually, the Odds produced their latest album themselves. The album track "Radios Of Heaven" features guitarist **Keith Scott** of **Bryan Adams**' band, who has also worked with **Bryan Ferry** and **Joe Cocker**. "My theory when I wrote that song was that anyone who could barely play guitar who got to heaven was instantly a guitar hero," Northey says. "Radios Of Heaven" is one of four songs on "Good Weird Feeling" which feature **Paul Brennan**, who left the band during recording of the LP. Brennan's been replaced by **Pat Stewart**, a former roommate of bass player **Doug Elliott**. "We've all been together about seven years, and Paul always wanted to play with lots of people," Northey says. "And the band, at this stage of the game — especially the last four years — has monopolized all of our time. We didn't want him to feel like he was in jail or anything, so he just decided to go play the field."

The organizers of "We Are The World" are looking at ways to help the homeless in America. "I'm looking to make a difference on a much closer-to-home, directly effective, manageable scale," says Ken Kragen. "I want to pass the word...that this can work, it did work and it can work again for anyone who is willing to put this kind of energy and commitment into it." Kragen says the general public has lost interest in the plight of the hungry. He says "We Are The World" was "galvanized by pictures of children dying in Africa, which created a public imperative to do something. Unfortunately, that imperative does not exist anymore even though the problem still does."

Members of the Canadian band **Eric's Trip** have been playing dates as **Purple Knight**, the basement rock group that drummer **Mark Gaudet** and **Raynald Legere** formed in 1974. "We like to have something on the side to get out other possibilities that we can't vent through Eric's Trip," Gaudet says. "**Deep Purple** was the main inspiration for Purple Knight, back when I was about eight years old. Where I'm an old hack, I get to play the older music that the rest of Eric's Trip is not used to playing... That era, with the heavier, bombastic stuff, is what I get out with Purple Knight." Meanwhile, Eric's Trip guitarist **Rick White** is releasing a record by his solo project **Elevator To Hell** in March (on Sub Pop Records) and bass player **Julie Doiron** has her own project, **Broken Girl**, releasing an album later this year on a Halifax label (murderecords). "For Rick, he has quite a deep-seated soul that can't be fully conveyed through other people, so he has to do his own stuff. And Julie has her own personal things that she wants to exercise," Gaudet says. Guitarist **Chris Thompson** is releasing a single (on Sub Pop) later this year, but none of the individual efforts jeopardize the Eric's Trip's plans to release a seven-inch EP this summer and a full album later this year.

The **Blue Aeroplanes** are releasing a 13-song album in March called "Rough Music," with two songs written with **Pat Fish**, the **Jazz Butcher**.

Veteran French rock star **Johnny Hallyday** has been named an Officer of Arts and Letters by the French government. Hallyday has just released an all-English album called "Rough Town." "It proves that languages have no borders," Hallyday says.

The **Tragically Hip** are now the first Canadian band to have four consecutive albums sell 500,000 copies in Canada, following the success of the new LP "Day For Night." "It's a little surreal, really," says rhythm guitarist **Paul Langlois**. "I think a large part of why we've had more success here than anywhere else is because we've toured here more." The band blames its lack of stateside success on its U.S. record label. "We were very happy with MCA as a company in Canada, Europe and Australia," Langlois explains. "But in the States, we felt there was a lot of distance between the company and the band. I think they were keyed in on radio. And when we didn't get that radio play, it seemed like the ball game was over for a particular record. We're much more into getting things going at a street level or a college level, rather than wining and dining radio guys." The 14-song album, "Day For Night," which was released in Canada in September, comes out in the U.S. this month (on Atlantic Records). "We feel like we might have a bit of a fresh start down there — at least a fresh approach, anyway," Langlois says.

Donovan will release an album later this year (on American Records), produced in Los Angeles by Rick Rubin.

British singer-songwriter **Martin Newell** has a new album out from his new band the **Brotherhood Of Lizards**. The U.S. version of the LP features a couple of tracks not featured on the British version of the LP.

Mike & The Mechanics are releasing a new album at the end of this month (on Atlantic Records) called "Beggars On A Beach Of Gold." The 13-song disc includes a cover of **Stevie Wonder**'s "I Believe (When I Fall In Love...)"

Singer and guitarist **Carol van Dijk** says there's nothing too alternative about **Bettie Serveert**, even though that's how the band is usually classified. "It's never been our goal to be weird. We only want to write decent songs," she says. "The reason why I got onstage is I like making music. And I like to play with the best friends I have in the world. If it wasn't for the three of them, I would never go onstage at all. I'm not an egocentric person who likes her own looks and voice all that much. I don't have a low opinion of myself, but I don't think I'm great."

Atlanta band **Toenut** will release an album (on Mute America) in early April. A single from the five-member group comes out at the end of February.

Singer-songwriter **Michael Johnathon** recruited folk singer **Odetta** for a track on his upcoming album "Assassins In The Kingdom" (on PoetMan Records). The two team up on the track "New Wood." The LP includes a cover of **Bob Dylan's** "Masters Of War."

Adrian Belew is recording an experimental guitar album for release on his own record label this summer.

The **Human League** have a new album out in Britain called "Octopus," produced by Ian Stanley. The LP includes the band's first British hit in nine years. "'Octopus' only took six months to record," **Suzanne Sulley** says. "But it was just like we split up with our old record company. We had to wait for Ian Stanley, the producer, to finish the **Pretenders** album he was doing at the time. That took a year just hanging around waiting for him." Sulley says Stanley was the best producer the band's ever worked with. "Normally, whoever we work with, it's always a battle because they want to change it. They want you to use guitars, or do this, that or the other. Whereas, with Ian it was very straightforward and easy." "Octopus" comes out five years after the band's "Romantic" album, which failed to make much of an impression.

Dave Mustaine of **Megadeth** contacted a fan who was threatening to kill herself while her computer was connected to the band's Internet World Wide Web site. After learning the New Zealand girl was distraught and seriously contemplating suicide, Mustaine signed on the computer and talked with her. He then called her on the telephone and spoke with her for a half an hour.

A judge in Miami has dismissed a theft charge against **Mick Jagger's** nephew. Potts Arthur Dawson had been arrested by Metro-Dade police in November after he walked out of Miami International Airport with a piece of luggage. The bag was a decoy being used to nab luggage thieves, but the judge ruled it was a case of entrapment.

"There are no good changes in music," **Al Kooper** says. "There have only been bad changes. I have my bitter moments, but I'm not going to give in. It will just seem like the ravings of an old man." Kooper continues to tour occasionally, though he hasn't produced an album in four years. "I would love to do more performing, but I can't really afford to go out and get a band together and go on the road, even though it is what I love to do. I would lose money by doing that, and it's a shame because it is what I love to do." Kooper has been writing some songs and hangs out with Nashville neighbors **Steve Winwood** and **Steve Cropper**.

Seattle band **Sweet Water** will release an album this spring (on Eastwest Records). The LP will be the follow-up to their self-titled 1992 LP.

Greg Graffin says he's not upset that it's taken 15 years for **Bad Religion** to have a top ten album. "Most people would expect me to be bitter, but I'm not bitter at all," he says. "I'm glad the public is taking notice of this music, and I feel proud that our band was influential in making this style of music possible." Graffin doesn't like to describe the band's music as "political." "I hate politics, which is about getting everyone to think the way you think," he says. "Our lyrics are the opposite. They're all about getting people to think for themselves. I don't pretend to know all the answers, but by addressing these issues, I hope to get people searching their own answers. The really interesting question is not what went wrong with our country but why do these things keep happening throughout the history of mankind. Rather than criticize a particular political system or faction, I'd rather criticize the problems of all mankind. There's a lifetime of songs I can write about that."

Silver medal-winning skater **Nancy Kerrigan** has recorded a demo tape, *US* magazine reports. She sings on "Shining Through," which is described as a "ballad with a dance beat." Writer Michael Jay says Kerrigan thought the "whole idea was ludicrous."

Singer **Tracey Nelson** has a new album out (on Rounder Records) called "I Feel So Good." The LP features **Delbert McClinton** and **Al Kooper**.

The **Dave Matthews Band** says producer Steve Lillywhite was quick to assure them that he didn't plan to change their sound in recording their album "Under The Table And Dreaming." "We had quite a few people to choose from, so in essence we chose him. But in a lot of ways he chose us," **Dave Matthews** says. "He never really sold himself or was arrogant, but when he came in, it was certainly like, 'I'm the one who should do this album.' That was his rap. And he said 'I don't want to change you. I don't think you need to be changed. I just want what you do to become clearer and cleaner on an album.' His air of confidence was charming and undeniable." Lillywhite watched the band play several times in New York and in their hometown of Charlottesville, Virginia, before recording them in the studio. "And when we finally got to work with him, he was awesome," Matthews says. "He was really trying to complement and challenge us. The most frequently heard thing was 'Let's try it again.'"

Meat Loaf is working with **Jim Steinman** on a new album for release this summer. Some of the tracks are being produced by **Steve Van Zandt**.

Best Album: **Blur** *Parklife*

 Best Band: **Blur**
 Best New Band: **Gene**
 Best Solo Artist: **Paul Weller**
 Worst Record: **Whigfield** *Saturday Night*
 Film of the Year: "Pulp Fiction"
 Most Desirable Human Being: Kylie Minogue
 Best Club/Venue: London Briston Academy
 Best Video: **Blur** "Parklife"
 Best Radio Show: BBC Radio One's "The Evening Session"
 Event of the Year: Glastonbury Festival
 Bummer of the Year: **Kurt Cobain's** suicide

Radio One's "Evening Session" of the year: **Manic Street Preachers**. All the above awards were voted by the readers of the paper. In addition, *New Musical Express* writers decided a number of categories:

NME Album of the Year: **Oasis** 'Definitely Maybe'
 NME Single of the Year: **Blur** "Boys and Girls"
 Live Act of the Year: **Blur**
 Best Rap Artist: **Warren G**
 Best Live Event: Orbital at the Glastonbury Festival
 Vibes Award for Best Dance Artist: **Portishead**
 Phillip Hall/On Award for Best New Act: **Gene**
 Godlike Genius Award for Services to Music: Alan McGee, Creation

The event produces the usual collection of quotes and evidence of tensions between bands...**Liam Gallagher** of **Oasis** and **Blur's Damon Albarn** are said to have had an argument backstage, while **Liam's** verbal attacks on **Shed Sven** and **Elastica** were not well received in some quarters. Indeed, **Manic Street Preachers** frontman **James Dean Bradfield** got a big cheer for telling **Gallagher** to "shut the fuck up." **Gallagher** was heckling the **Manic's** as they collected an award for the session they recorded for BBC Radio One's "Evening Session" program. Talking about Alan McGee's award, Dick Green of Creation commented: "Alan McGee's always been the vision behind Creation. I think we have found a lot of groups which have changed English and worldwide music, from the **Mary Chain** to start with, **Ride**, the **Valentines** and up to **Oasis**. It's time we were recognized." **Dave Rowntree** of **Blur**, meanwhile, reflected on the likelihood of the band making it home with their awards: "It was a show of two halves I think and we just shaded it in the end. I'm just hoping we actually get some of the awards home this time. Every single thing we have been given thus far has been lost in the street on the way home. So we've got one each and are traveling alone, 'cos we figure one of us has to make it back alive." **Gene's Martin Rossiter** reflected on the band being voted best new act by both *New Musical Express* readers and critics: "I'm having a very enjoyable night out. It's absolutely lovely to be plied with free alcohol, which is something I've only recently experienced and something that I enjoy very much. I just wish there were free cig-

arettes too, I'm gasping. It is very flattering to win an award. I don't want to sound glib, but any recognition is firmly welcome in our bosom. Are we really the best band in Britain? Well, again, I don't want to come out with all the arrogant cliches but of course I think we are fantastic. Of course I do. It's obviously far superior to the Brits — this is anything but an orgy of backslapping and A&R men tickling each others' behinds. If we were nominated for a Brit I wouldn't even turn up... **The Boo Radleys** will return this month with a new single. "Wake Up Boo!" will be available via Creation on Feb. 27. Other tracks available on different formats will be "Janus," "Blues for George Michael," "Friendship" and "Tomorrow the World." Singer **Martin Carr** says this single is influenced by Motown and by the **Beach Boys**. An album *Wake Up* will follow in March. The full track-listing: "Wake Up Boo!," "Fair Pax Scene," "It's Lulu," "Joel," "Find the Answer Within," "Reaching Out From Here," "4am Conversation," "Twinside" and "Wilder," **The Boo Radleys** will tour the UK in April with the support coming from **60ft Dolls**. Exact dates have yet to be confirmed... **Morrissey** and **Smiths** fans should be having fun this month. Not only is the fey one touring the UK, there are a whole clutch of **Moza** releases available this month. First up is *World of Morrissey*, a mid-price compilation of singles and live tracks available via Parlophone. The full track-listing: "Whatever Happens I Love You," "Billy Bud," "Jack The Ripper," "Have A Go Merchant," "The Loop," "Sister I'm A Poet (live)," "You're The One For Me Fatty," "Boxers," "Moonriver," "My Love Life," "Certain People I Know," "The Last Of The Famous International Playboys," "We'll Let You Know" and "Spring Heeled Jim." In addition WEA release *Singles*, an 18 track compilation of all the **Smiths'** singles in Feb. 20. "Ask" will be re-released as a 45 to promote the album. Finally, all of the **Smiths'** albums will be available at mid-price from this month onwards... **Menswear** singer **Johnny Dean** collapsed with food poisoning on Wednesday 25 January. The hotly-tipped band had a show that evening at Bournemouth University in the Southwest of England. However, **Dean** was unable to perform and the remaining three members of **Menswear** played a short acoustic set. Elsewhere, the band are featured on the cover of this week's *Melody Maker* despite the fact that they have yet to release a record. According to the paper's Caitlan Moran, "Why are **Menswear** on the cover? Oh, come on... Luck is contagious. Going on tour with the **Swear**, it reminds me of the early days of **Suede**, just as things were taking off." You have been warned... **Bruce Dickinson** will release a live album via his new label Raw Power on Feb. 27. *Alive In Studio A* was recorded at the London Marquee and at Metropolis Studios last year. The double CD album will sell for the same price as a single... **Deicide's Glen Benton** has been talking to *Metal Hammer's* editor Robyn Doreian about the controversial subject of Black Metal. Asked, "When was the last time you were in church?" **Benton** replies, "I'd rather not say but it was probably on one of my ventures out looking for artifacts. My favorite antic is pissing in the baptism pool!" Asked what are his personal commandments, Benton comments: "Hate everything! I don't have any more. Live to hate, kill your enemies, wish death on anyone who crosses you. Think only of yourself and only you." On the Norwegian Black Metal scene which sprang into the wider press after stories of murder, **Benton** says: "I think there are a lot of mixed-up kids over there. I think that some of these kids got into this particular style of music at an early age and now they are trying to take it a step further. That one step has crossed the line of the law. MUSIC DEPARTMENT/WDET, DETROIT

Timbuk 3 dropped out of sight for quite some time, but they've resurfaced with an album that is well worth the wait... Two-time Grammy winner **Alison Krauss** has released a collection of her best and some previously unreleased music. Get out from under that rock and check this out... **Throwing Muses** stopped by recently for an in-studio performance and interview, playing three songs from their new CD **University**. Kristin, Bernard, and David are three of the most talented (and modest) musicians around, and made a big impression over the airwaves. We cannot wait for a tour... **Massive Attack's Protection** album, at 20 spins over the last seven days, holds the record for most plays in a one week period here since you weasels made us start counting... Buy that person a drink dept.: Whoever orchestrated Capricorn's distribution deal for Fat Possum Records is a friend to all deep blues lovers. If you blues fans haven't had the mind-altering pleasure of listening to R.L. Burnside of Junior Kimbrough or CeDell Davis, your time has come. Check out the deep blues from Mississippi. Not for the timid... Listen, listen, listen to music.

ALLISON STRONG/KUKQ, PHOENIX

Last night we presented **The Cramps** at The Nile Theatre in Mesa. The show was terrific, with most of our staff in attendance. **Qare They** anyway is moving right along with **Compulsion, Soul Coughing** and **Cranes** our latest studies. We have noticed an interesting sales pattern developing with **Cranes** when we play their records. You might go back and listen to the **Flood Remix of Lilies** on their album **Loved** and see if there isn't some room on your playlist for this unique and haunting band. I'm really looking forward to the Gavin and being on Max's feminist panel "Chicks in a world of, well, you know." We saw some neat ratings last time out, especially in our demo (18-24, and 34) and our prime dayparts, which are nights and afternoon drive. Thanks to all of you who have participated in the Monday Morning Music Meeting and don't hesitate to pick up the phone if you have an artist you would like to speak to us about.

T.J. BRYAN/DHA,

It's been a cavalcade of stars here at DHA. Thanks to Virgin's Bridget Hollenback for popping by with **Jim Kerr** who, incidentally, has some excellent news from the next world. Unfortunately, if I tell you, I'll have to kill you. Tommy Nappi brought **Mick Jones** and **Lou Gramm** to chat about the new **Foreigner** record (which is actually quite good). And finally we put our FCC license in jeopardy as **Slash** and Eric Dover chatted on the air about **Slash's Snakepit**. Muchos tacos to Geffen's Ross Zapin for getting Slash's cigarette burns out of the console. Tons of great music out there. Keep your eyeballs peeled for **Sons Of Elvis, Goo Goo Dolls, Our Lady Peace, The The**, and the **Boys On The Side** soundtrack. The new Springsteen is a rocker! "Murder, Inc." has been in heavy rotation for two weeks since I taped Jim Delbalzo playing it over the phone for me from his car. Only kidding! Rocky! Get Up! It was joke! Somebody get a doctor! As always, it's been a business doing pleasure with you.

MATT MANGUS/WRCN, RIVERHEAD

We've got some changes to report here at WRCN... first... **Kaptain Kevin** and I are switching shifts... I'm leaving mornings after 8 years and Kevin is taking over... while I move into his afternoon drive slot. Music call hours change too... Kevin will now take calls Tue./Wed./Thu, 10:30AM to 1:00PM... My music call day switches to Wed., 10AM to 2PM... **Andy Mendlesohn** joins as Production Director. These changes will allow me more time with my new family... **Dorothy** and I are the proud parents of **Madilyn Cory** who arrived January 21st just hours after a great WRCN concert featuring **Bloodline**. My thanks to the guys for "moving things along" so to speak. Also thanks to my friends in the record community for the wonderful gifts... especially **Mark Snider** and his wife **Melissa**... the Mexican food was great... and **Kaptain**... good luck in AM drive.

GUY DARK/WHdq, CLAREMONT

"Love Spreads" from **The Stone Roses** gets the official add this week, after a month of specialty show play. The best thing about the song is it can't be pigeon-holed. Is it sixties-retro? Is it "alternative"? One thing's for sure — it's got a hook that won't quit! Other Q106 adds this week are **The Flaming Lips** — good night reaction tune, **Dave Matthews Band** — it was already getting requests, probably due to MTV and **Big Head Todd** tour exposure, and "Lightning Crashes" from **Live** — a band that may soon reach **U2** or **R.E.M.** stature. Thanks to **Jamie Willis** of Virgin and **Diane Monk** from MCA for taking the time to visit last week. **Charlie Sexton's** got new stuff coming out on MCA. Very rootsy, certainly not the arena-rock sound of "Beats So Lonely".

RON MICHELS/WXZR, EAST LYME

What a great way to begin a dialogue. **WXZR 98.7 FM** rules Connecticut! Arbitron ranking/ACH share special tabulation for New London County from the Hartford-New Britain-Middletown Market reported diaries placed in New London County only! Also I would like to mention that **Julie Johnson** has begun an alternative show on Wednesday night folks! Not 24-7, so relax and take a pill! If you have a band that would fit there call Julie which brings me to another point. The call days are Monday and Tuesdays 12p-4p and the number is 203-691-4563. Thank you. Now, on to my Pick Of The Week. **Po'boy Swing! Po'boy Swing! Po'boy Swing!** Enough said. Now to all the other stations in the area... swing on this! **WXZR 98.7 FM #1!!!**

BRUCE WARREN, WORLD CAFE

Yo! Whassup with **Eddie Vedder**? I mean will someone tell him to stop whining already. First he complains about ticket prices for concerts. Fine Eddie, book your own shows and get in the gosh-damn van like real punk rockers and play. Now, he's got a beef with the 70's on that new song he does with **Mike Watt** called

"Against the 70s"... **Sir Eddie** sings: "The kids of today should defend themselves against the 70s/ It's not reality/ just someone else's sentimentality"... Ok, **Eddie** we get the point... sure, we live in an age when decisions about what, why, who, and how are already decided by the corporate marketing forces from within and outside the media, but there's no difference between the way those little pomo **Green Day** wannabes are being manipulated by baby boomer philosophies and the post-punk rhetoric spewed by your own corporate rock (or is that anti-corporate rock) posturing... **Eddie**, I grew up in the 70s and to me they were about a lot of different things like equal parts **James Taylor, Black Flag, Seals and Crofts, The Clash, P-Funk, and Weather Report** — if you know what I mean. Sure, **Mike** and **Eddie** kick ass on the song, but what makes the cynical 70s so much different than the sell-out '90s?... What We Like: **The Nits'** "da da da" is a no-brainer. Check out their TriStar debut... Also grooving to **Little Axe**, the **Jayhawks'** "Bad Time" from **Tomorrow The Green Grass**; **Better Than Ezra's** debut on Elektra; "Weather Storm" from the gonna be massive **Massive Attack**; **Ivan Neville's** all-star funk on his new album **Thanks**; and **PFR**... Shouts this week go to **Mike Dean** of **Corrosion of Conformity**, **Seth @ Razor** and **Tie**, **Epic's** local Vice President of Intensity **Mike Martinovich**; **Jim Merlis** and the Geffen hip-hop posse (**The Roots** and **Jasper**), and to my mom... Me?... I'm goin' bio-tech fresh and I'm out...

DUG BROWN/WRFC, ATHENS

All of us who are children of alcoholics share a common fear. No big revelation; we all are terrified that we somehow are at fault. I managed to deal with that shit a while back, but now I'm confused again. For those of you unaware of what W.C. Fields would have called my impecuniary situation, I've proven my Gen-Xness once again and moved back in with my parents for a while. And I've been hit with the fact that whenever I move back in, my father's drinking gets worse. Whenever I move out, it gets better. Instantly. I don't want to even think about that. At least my mom's sober these days. And since I can't go on living in that broken whiskey glass, I think I'll talk about Jason and the Scorchers. It gets good phones. It sounds great. Play it. **Ween** is getting good calls on **Voodoo Lady**. Good thing they are coming to town. I'm sorry, I'm going to go away now.

JEFF COOK, CAPRICORN, 800-289-7625

Greeting you radio dudes and dudettes. If you still have not listened to "Can't Get High" by **Widespread Panic** - Go to jail - go directly to jail- do not pass go - do not collect \$200! By the way, when you do listen to it you'll realize it's a love song not a drug song. You already know that this band does big business when they play live in your city, you know you've just been "waiting for the right song", and you surely know this is a cross-demo appeal record! Well, now it's time to play "Can't Get High"! It's working on several formats and here's a partial list

"They're like big, beaten up stainless steel eagles and I got right on the eagle's head. You know the film "Doctor Strangelove" where Slim Pickens is riding the bomb at the end waving his hat about? I wanted to do that on one of the gargoyles, all dressed up in a cowboy hat. It doesn't have any relevance to the song other than it's one American icon to another — **Hank Williams** and the Chrysler Building." **Johnson** was secured with special boots with suckers on them and says he was fortified by "brandy, mescal, and rum"....**Slash** has been talking to Metal Hammer about his solo album It's Five O'Clock Somewhere. The guitarist says the track "Lower" was influenced by Savannah and Kurt Cobain. He also talks about avoiding getting "strung out": "I keep busy and I'm married now, and that's the responsibility that keeps me on an even keel. I built a studio in my house and that way my brain is doing something, as opposed to some big tit slut coming over, giving me some smack and going down the tubes, you know. That can happen, because we come from lifestyles that's generally directed in the downward spiral direction. Anyone who works for a living would do the same thing and keep on working. If you're Jack Nicholson, I suppose you could party your ass off all the time!" **Slash** also talks about disagreements with Axl Rose over the possible work on the next Guns N' Roses album: "There are some things that need to be sorted out. Axl wants to do a lot of ballads and stuff and I want to do rock stuff. I don't care about the current musical climate or what is commercially viable. That's why my record sounds the way it does."....**Ride** are working on a new album with producer/engineer Digby, whose credits include *Free*. The band want to record quickly and will have a new live-sounding album in stores by the summer...**EMF** drummer **Mark De Cloedt** says he was under massive pressure

during the recording on the band's new album Cha, Cha, Cha. **EMF** had a series of disagreements with producer Johnny Dollar and **De Cloedt's** position was difficult because Dollar wanted to programme many of the drum tracks. Speaking to Select, **De Cloedt** says: "We wrote the songs with playing them live in mind. He came along and started stripping things down and programming stuff. I started feeling even more insecure (**De Cloedt** was suffering from problems with his hearing) because my role was being taken away. I had a really short fuse during the album. Physically, I went from eleven to nine stone. I was getting niggled because I was taking a week to do a track. It used to take us two days. "Shining" cracked me totally. I did a week solid on that. About 3am, the producer had given up, gone to bed. I sat there with the engineer and we were trying to do the ending and I flipped. It was too much. We'd been recording in Hastings for a month and I was in the kitchen making tea, Everybody else was in the pool room. Suddenly I woke up on the floor. I'd smashed my head on the washing machine and I was out cold." **De Cloedt** was subsequently taken to London for a brain scan and offered anti-depressive drugs, but says he is now feeling much better and has taken up fishing again....**Killing Joke** Frontman **Jaz Coleman** says he used to share a home with an Arab terrorist in London. Talking to Q, Coleman recalls: "Once, we went into his bedroom and found 60 machine guns. He supplied the guns for the Iranian Embassy siege. I saw him on TV this year in a Middle Eastern country I couldn't name. I lived with a mercenary too, talked to him about killing, how he had been desensitized. We had great parties. Anyone can kill. I've been close to it but I don't think I could live with myself.... **Oasis** is planning to release their second album in the fall. The band's next single, which they will record soon, will be "Some Might Say," due in stores on April 17. **Oasis** have been working on demos of new songs. Guitarist **Paul 'Bonehead' Arthurs** has become a father. His girlfriend gave birth to a baby girl on Jan. 23...**Skunk Anansie** has turned down Jonathan King's attempt to enter their "Little Baby Swastika" track for the Eurovision Song Contest... Apparently, King thought the song was bound to win, but the indie band's singer **Skin** says: "I don't think I represent Britain in anything, to be quite honest. Waving the British flag is not my thing."....**The Fall** release a new album Cerebral Caustic via Permanent on Feb. 27. **Brix Smith** is amongst musicians featured on the project. It's the band's 28th album. Radio One DJ and Fall fanatic John Peel says he will play the entire album on his Feb 17. show.

MUSIC DEPARTMENT/WDET, DETROIT

Timbuk 3 dropped out of sight for quite some time, but they've resurfaced with an album that is well worth the wait... Two-time Grammy winner **Alison Krauss** has released a collection of her best and some previously unreleased music. Get out from under that rock and check this out... **Throwing Muses** stopped by recently for an in-studio performance and interview, playing three songs from their new CD **University**. Kristin, Bernard, and David are three of the most talented (and modest) musicians around, and made a big impression over the airwaves. We cannot wait for a tour... **Massive Attack's Protection** album, at 20 spins over the last seven days, holds the record for most plays in a one week period here since you weasels made us start counting... Buy that person a drink dept.: Whoever orchestrated Capricorn's distribution deal for Fat Possum Records is a friend to all deep blues lovers. If you blues fans haven't had the mind-altering pleasure of listening to R.L. Burnside or Junior Kimbrough or CeDell Davis, your time has come. Check out the deep blues from Mississippi. Not for the timid... Listen, listen, listen to music.

ALLISON STRONG/KUKQ, PHOENIX

Last night we presented **The Cramps** at The Nile Theatre in Mesa. The show was terrific, with most of our staff in attendance. **Qare They** anyway is moving right along with **Compulsion, Soul Coughing** and **Cranes** our latest studies. We have noticed an interesting sales pattern developing with **Cranes** when we play their records. You might go back and listen to the **Flood Remix of Lilies** on their album **Loved** and see if there isn't some room on your playlist for this unique and haunting band. I'm really looking forward to the Gavin and being on Max's feminist panel "Chicks in a world of, well, you know." We saw some neat ratings last time out, especially in our demo (18-24, and 34) and our prime dayparts, which are nights and afternoon drive. Thanks to all of you who have participated in the Monday Morning Music Meeting and don't hesitate to pick up the phone if you have an artist you would like to speak to us about.

T.J. BRYAN/DHA

It's been a cavalcade of stars here at DHA. Thanks to Virgin's Bridget Hollenback for popping by with **Jim Kerr** who, incidentally, has some excellent news from the next world. Unfortunately, if I tell you, I'll have to kill you. Tommy Nappi brought **Mick Jones** and **Lou Gramm** to chat about the new **Foreigner** record (which is actually quite good). And finally we put our FCC license in jeopardy as **Slash** and Eric Dover chatted on the air about **Slash's Snakepit**. Muchos tacos to Geffen's Ross Zabin for getting Slash's cigarette burns out of the console. Tons of great music out there. Keep your eyeballs peeled for **Sons Of Elvis, Goo Goo Dolls, Our Lady Peace, The The**, and the **Boys On The Side** soundtrack. The new Springsteen is a rocker! "Murder, Inc." has been in heavy rotation for two weeks since I taped Jim Delbalzo playing it over the phone for me from his car. Only kidding! Rocky! Get Up! It was joke! Somebody get a doctor! As always, it's been a business doing pleasure with you.

MATT MANGUS/WRCN, RIVERHEAD

We've got some changes to report here at WRCN... first... Captain Kevin and I are switching shifts... I'm leaving mornings after 8 years and Kevin is taking over... while I move into his afternoon drive slot. Music call hours change too... Kevin will now take calls Tue./Wed./Thur, 10:30AM to 1:00PM... My music call day switches to Wed., 10AM to 2PM... Andy Mendlesohn joins as Production Director. These changes will allow me more time with my new family... Dorothy and I are the proud parents of Madiilyn Cory who arrived January 21st just hours after a great WRCN concert featuring **Bloodline**. My thanks to the guys for "moving things along" so to speak. Also thanks to my friends in the record community for the wonderful gifts... especially Mark Snider and his wife Melissa... the Mexican food was great... and Captain... good luck in AM drive.

GUY DARK/WHDQ, CLAREMONT

"Love Spreads" from **The Stone Roses** gets the official add this week, after a month of specialty show play. The best thing about the song is it can't be pigeon-holed. Is it sixties-retro? Is it "alternative"? One thing's for sure — it's got a hook that won't quit! Other Q106 adds this week are **The Flaming Lips** — good night reaction tune, **Dave Matthews Band** — it was already getting requests, probably due to MTV and **Big Head Todd** tour exposure, and "Lightning Crashes" from **Live** — a band that may soon reach **U2** or **R.E.M.** stature. Thanks to Jamie Willis of Virgin and Diane Monk from MCA for taking the time to visit last week. **Charlie Sexton's** got new stuff coming out on MCA. Very roots, certainly not the arena-rock sound of "Beats So Lonely".

RON MICHELS/WXZR, EAST LYME

What a great way to begin a dialogue. WXZR 98.7 FM rules Connecticut! Arbitron ranking/ACH share special tabulation for New London County from the Hartford-New Britain-Middletown Market reported diaries placed in New London County only! Also I would like to mention that Julie Johnson has begun an alternative show on Wednesday night folks! Not 24-7, so relax and take a pill! If you have a band that would fit there call Julie which brings me to another point. The call days are Monday and Tuesdays 12p-4p and the number is 203-691-4563. Thank you. Now, on to my Pick Of The Week. **Po'boy Swing! Po'boy Swing! Po'boy Swing!** Enough said. Now to all the other stations in the area... swing on this! WXZR 98.7 FM #1!!!

BRUCE WARREN, WORLD CAFE

Yo! Whassup with **Eddie Vedder**? I mean will someone tell him to stop whining already. First he complains about ticket prices for concerts. Fine Eddie, book your own shows and get in the gosh-damn van like real punk rockers and play. Now, he's got a beef with the 70's on that new song he does with **Mike Watt** called

"Against the '70s"... Sir Eddie sings: "The kids of today should defend themselves against the '70s/ It's not reality/ just someone elses sentimentality"... Ok, Eddie we get the point... sure, we live in an age when decisions about what, why, who, and how are already decided by the corporate marketing forces from within and outside the media, but there's no difference between the way those little porno **Green Day** wannabes are being manipulated by baby boomer philosophies and the post-punk rhetoric spewed by your own corporate rock (or is that anti-corporate rock) posturing... Eddie, I grew up in the '70s and to me they were about a lot of different things like equal parts **James Taylor, Black Flag, Seals and Crofts, The Clash, P-Funk, and Weather Report** — if you know what I mean. Sure, Mike and Eddie kick ass on the song, but what makes the cynical '70s so much different than the sell-out '90s?... What We Like: **The Nits'** "da da da" is a no-brainer. Check out their TriStar debut... Also grooving to **Little Axe**, the **Jayhawks'** "Bad Time" from **Tomorrow The Green Grass**; **Better Than Ezra's** debut on Elektra; "Weather Storm" from the gonna be massive **Massive Attack**; **Ivan Neville's** all-star funk on his new album **Thanks**; and **PFR**... Shouts this week go to **Mike Dean of Corrosion of Conformity**, Seth @ Razor and Tie, Epic's local Vice President of Intensity Mike Martinovich; Jim Merlis and the Geffen hip-hop posse (**The Roots** and **Jasper**), and to my mom... Me?... I'm goin' bio-tech fresh and I'm out...

DUG BROWN/WRFC, ATHENS

All of us who are children of alcoholics share a common fear. No big revelation; we all are terrified that we somehow are at fault. I managed to deal with that shit a while back, but now I'm confused again. For those of you unaware of what W.C. Fields would have called my impecuniary situation, I've proven my Gen-Xness once again and moved back in with my parents for a while. And I've been hit with the fact that whenever I move back in, my father's drinking gets worse. Whenever I move out, it gets better. Instantly. I don't want to even think about that. At least my mom's sober these days. And since I can't go on living in that broken whiskey glass I think I'll talk about Jason and the Scorchers. It gets good phones. It sounds great. Play it. **Ween** is getting good calls on Voodoo Lady. Good thing they are coming to town. I'm sorry, I'm going to go away now.

JEFF COOK, CAPRICORN, 800-289-7625

Greeting you radio dudes and dudettes. If you still have not listened to "Can't Get High" by **Widespread Panic** — Go to jail — go directly to jail — do not pass go — do not collect \$200! By the way, when you do listen to it you'll realize it's a love song not a drug song. You already know that this band does big business when they play live in your city, you know you've just been "waiting for the right song", and you surely know this is a cross-demo appeal record! Well, now it's time to play "Can't Get High"! It's working on several formats and here's a partial list

of the stellar stations playing it already: WMMR, WCMF, WKLS, KQRS, WARQ, WSFM, WVRK, WFBF, WIOT, WJXQ, WNCD, WRKR, KTYD, KXFX, WHMH, KTCZ, WMMM, WDST, WKOC, WMAX, WVGO, WRLT, KIOT, KKOS, KUMT, WHTG, WEQX, KACV, and WWCD, just to name a few!!

JIM DEL BALZO

COLUMBIA RECORDS, 212-833-7029

Once in a while records just scream out that they are hits. Such is the case with **C.O.C.** "Clean My Wounds." Feb. 6th is out official add week yet we already have 30 stations playing this record in regular rotation. After only a few weeks on the air, we're already getting top 5 phones in NY, Denver, Colorado Springs, as well as four or five other markets. The list is of credible programmers already on this record is quite impressive. Last week KISW, WXTB, Q104.3, KILO, KBER, KRZR, KQXR, KWBR, WBTZ, and WSLF were early on this record. The list of this weeks mainstream early birds is incredible - WRCX, WLZR, KUPD, WPMR, WRIF, KSJO, WZAT, WKLQ, KEZE, KTYD, KNCN, WJXQ, KRAD, WWBR, WQLZ, WKLL, KLBj, KRRK, WCIZ, and WTUE. Sales are really kicking in at serious levels where we already "Clean My Wounds" airplay. As we begin our first major week at radio, we've already off to the races in a very major way!!

KIM LANGBECKER, COLUMBIA

The buzz is getting louder — **Mike Watt, Bruce Springsteen, Mad Season, Jeff Buckley.** It is so amazing to have artists like these to work — all very different — each with their own unique flavor. But with one inescapable conclusion — gifted artists delivering the goods. February is going to be outrageous musically and we have kicked it off with a bang on **C.O.C.** — "Clean My Wounds." 25 more stations come in before the "official" add day of February 7th, bringing the total to 40 stations. Adds include WLZR, WRCX, WRIF, KSJO, KUPD, KEZE, WJXQ, WKLQ, KLBj, KNCN and KLPX. Spin action at Q104 with 23, WXTB — 15 and KNAC — 13. Already Top 5 Phones at KISW and KILO. Sssmmhookin! If you are not playing "Got Me Wrong" by now then you must be living on Pluto. The research is falling in line just as strong with this track as it has with previous **Alice** tracks. BDS is phenomenal at well over 1000 spins and we picked up 16 more stations. Top 10 most requested. **Toad** takes an amazing jump on BDS up 140 spins and another 14 stations come on board with "Fly From Heaven." Don't forget **Toad's** track record at all formats — including rock. They are a platinum-selling band that has delivered two very strong single off **Dulcinea.** They appeal to your lower demos as well as your adults. This is a perfect daytime record for your station! So what is the number one most requested record at KATS? "Jump On Tom Of Me" from the **Ready to Wear Soundtrack** from none other than the **Rolling Stones.** Joe Moss' quote to me was, "This is a song that people turn on the radio hoping to hear"! 'Nuff said! **Ugly Kid Joe** has deliv-

ered a very strong version of the classic "N.I.B." from the **Nativity In Black** tribute. We pick up another 8 stations this week with good rotation on KUPD, KILO, KBER, and KZRR. Ask and we deliver!

DAVE LOMBARDI

WARNER BROTHERS, 818-953-3726

Number 1 "Heatsseekers" in **Billboard.** Over 20 rock adds this week. "Buzzbin" on MTV. Yes, the latest chapters in the **Flaming Lips** story (OK, so they had Buzzbin last week!) Where are you? Oh, by the way, debuting at Number 1 on the **Billboard 200: Balance** by **Van Halen!** Thank you, rock radio!! I'm out.

CHRIS WOLTMAN

COLUMBIA PROMOTION, 212-833-8505

Corrosion of Conformity... "Clean My Wounds"... I've got to tell you that this record is "achin' to explode" — the buzz is absolutely amazing with some very serious major markets coming in early including WRCX in Chicago, KUPD in Phoenix, WRIF in Detroit and WLZR in Milwaukee. The story is this... we go for official reports this week but we already have over 25 stations playing "Clean My Wounds"... the other big boys include KISW — where sales on the **Deliverance** CD have exploded since "Clean My Wounds" hit the air there four weeks ago — WXTB last week — and Q104.3 where "Clean My Wounds" is already Top 5 Phones. Get ready for **Bruce** and the **E Street Band...** "Murder Incorporated" will be the first track off the **Greatest Hits** release. It's and awesome track that, to put it simply, rocks. The CD will be in store on the 28th; listen up for all the other details that will be coming together shortly. **Toad The Wet Sprocket** hits the road with **Hootie and the Blowfish** for what will be one of the best double bills of the spring. **Toad** has already sold close to 800,000 copies of **Dulcinea** and with the tour and "Fly From Heaven", platinum is around the corner. **Alice In Chains** "Got Me Wrong"... if you're not playing this track then wake up! It's heading Top 10 with another 10 stations in this week as this track starts to close out. **Ugly Kid Joe's** version of "N.I.B." off of the **Black Sabbath** tribute is on the air at KUPD, KZRR, KILO, and KTUX to name a few. Make sure you pay attention to this track, and this project which has already sold over 500,000 copies worldwide. Also, get ready for **Mad Season** — the music is brilliant — the buzz is definitely out there and the music will be soon.

SCOTT "LO/JACK" DOUGLAS

VIRGIN, 212-332-0418

If the reception at all formats of radio is any indication at all, we've got a hit with the **Simple Minds!** The feedback on the album cuts is excellent, too! If you haven't already, please give a listen to "And the Band Played On," "Hypnotized," or "Seven Deadly Sins" for a good feel of the whole album. You'll be amazed. Get with your favorite Virgin and catch the first leg of their tour which starts this week in the Pacific Northwest. Pollack people—get ready,

they're playing at the big show at the House of Blues in LA. The live show s-m-o-k-e-s!! **Rolling Stones:** we are starting to heat up "I Go Wild". Official add day isn't 'til later this month but it's the **Stones.** You've probably played this cut on and off since the beginning anyway. **Gilby Clarke's** "Johanna's Chopper" is the next cut from **Pawnshop Guitars.** It has a little different feel than the other two cuts. More melodic and great harmonies but still, it has the power that you expect from **Gilby.** And, don't forget **John Lee Hooker's** new record is just around the corner. Computer freaks, check out the **Massive Attack** online conference in Compuserve Tuesday, Feb. 7! 7-9pm EST. Those are ALWAYS cool to watch and **Massive** is a totally cool band. Coming soon: **Royal Trux, Maids of Gravity,** and the **Geraldine Fibbers** for modern rockers...and be sure to check out this little band from Providence called **Small Factory.** Call me for a copy if you don't know about it. Slackers like me dig it. In power rotation at home: **Hootie, Dave Matthews, and Slick Lilly.** Email to sdoug@delphi.com. Hide your shadow for spring and watch **Tommy Delaney,** he multiplies!

ROGER MAYER

CAPRICORN, 818-990-8904

To put it very simply...**Widespread Panic's** "Can't Get High" is a Rock Radio hit that can work for you no matter where you have your station positioned. The tune is the perfect reflection of a new trend toward solid, hip, multi-demo rock from bands that have etched their status on the rockpile through intense touring and attention to the songs as opposed to the scene and the hype. "Can't Get High" has proven itself at this point and if you have been on the fence or harbor any reservations, put them aside and jump on the **Widespread Panic** bandwagon. There is plenty of room and the ride is a blast!

DIANE GENTILE, ARISTA

Bonnie Raitt - 1st female rocker to get a line of guitars (Stratocasters) honored with her name!! You may have to share **Bonnie** with the AAA, HOT AC, AC, and Top 40 stations, but isn't that what a HIT is all about? There are obviously great benefits to playing "crossover" artists. The top 20 artists on the AOR charts are for the majority, getting played elsewhere. Many AOR stations are sharing **Hootie and the Blowfish, The Eagles** and **Melissa Etheridge** with AAA, AC, HOT AC, and Top 40. "You Got It" is on VH-1 in HEAVY and all eyes (and ears?) are on **Bonnie Raitt** right now. The track sounds great on the air (probably why KQRS is spinning it). Have you heard the **Melissa Etheridge** the **Sheryl Crow,** the **Sarah McLachlan,** the **Jonell Mosser,** the **Pretenders,** the **Stevie Nicks** tracks??? By the way, **Sarah McLachlan's** "Hold On" from **Fumbling Toward Ecstasy** is building very quickly at the Modern Rock format. Mondays will never be the same without that 25 minute wait to speak with David Allen Ross. David, you will truly be missed. Thanks for all the records you played and the consideration and shots you gave to our new artists over the years. Best of luck.

MARK FISCHER

ATLANTIC, 212-275-2085

What a boring Super Bowl!!! I'm embarrassed for the AFC. Perhaps the NFL should consider a seated tournament that would allow two NFC teams the opportunity to play one another for a Super Bowl title. It would be a lot more exciting, and perhaps a better pay off for the advertisers, considering half the world tuned out after the first quarter...News flash!! **Hootie and the Blowfish** will be performing "Let Her Cry" on Late Nite with David Letterman next Thursday Feb. 9th. This comes after **Hootie's** "Let Her Cry" has maintained the 4th consecutive week in a row. **Hootie** picked up two new majors this week, KQRC in Kansas City and KBPI in Denver. Hard rockin' stations I might add...thanks to everyone for such an amazing rise to the top with **Collective Soul** "Gel." The **Jerky Boys Soundtrack** is out and the movie opens Friday. **Collective Soul** will debut tracks from their new album, including "Gel" on Rockline, Monday March 13th. **Bad Religion** is coming on strong, debuting this week on the charts. Already the majors include KLOS, WBCN, WRIF, KILQ, and WBZX. **Bad Religion** starts their tour on Feb. 13th. Finally, will you be the **Melvin's** Valentine! WAXQ and KUPD have already said yes. Stay tuned for "Revolve."

CHERYL VALENTINE

EPIC, 212-833-5987

We have **KoRn** tour dates! They'll be heading out as the middle band on the **Orange 9mm/Sick Of It All** tour beginning February 20 in Augusta, GA. For all of you Gavin attendee freaks, **KoRn** will be creating a scene at Tipitina's on Saturday, Feb. 18 with **SNFU** and **Bad Religion**. On March 15, this disturbed Orange County clan will play the opening evening for Lifebeat's Board Aid festivities at the Palladium in L.A. with the **Mighty Mighty Bosstones**, **Anthrax** and **Helmet**. Basically, if you're not all over **KoRn**, your head must be buried deeply in the sand...**Rage Against the Machine** have a new tune on the **Higher Learning Soundtrack** called "Year of the Boomerang". After a two year underground and major radio onslaught, this should be an instant add. **Rage** have sold in excess of 1 million of their debut record. When you put this puppy on the air, people will call gleefully and ask for more. It's that simple...**Oasis** are on MTV's Buzz Bin rotation, are increasing exponentially in sales and should be played on your station. With significant spins on stations from Z-Rock to Z-100, this is a no brainer for success.

CHUCKIE ALTERNATIVE

VIRGIN, 212-332-0421

I just found a stack of color military prints from the early 1700's-1900. You know, civil war soldiers, British troops, and other killer prints from France and Spain. I see a trend happening here. Let me know if you agree. Someone told me they are valuable and worth big bucks. I will make you a deal. If you add **Massive Attack's** "Protection,"

I will send you a print. These prints will make your office have a regal feel. Besides, you would be regal, if you were to realize the amazing sound **Massive Attack** has delivered your listeners. I bet Paul Brown would like to have a print. Did you catch **Simple Minds** on Letterman? Let's face it, Jim & Charlie are cool. **Simple Minds** are back on radio in a big way. Back to the military prints. I have selected two for my office wall. The King's American Regiment, 1783. It has four men in **Adam Ant** suits. One guy even has a drum. Cool. Make sure you listen to **Bryan Ferry's** next track, "Don't Want To Know." **Bryan** tours the USA again this spring. **Urban Dance Squad** is coming back to the USA with a new album called **Persona Non Grata**. The record is a monster. The lead track "Demagogue" is a jumpy bruiser with crunchy guitars and a groove that will stick in your brain. Ask your local Virgin for a listen, or call me. Keep an eye out for an advance CD of a new **Vernon Yard** signing, "Maids of Gravity." This band has a sonic-space-tone that radiates. This is Dawn's Favorite new band! Remember to add the **Massive Attack** record. You will earn a military print. They are very nice to look at. Also, you should note the great sales of **Massive Attack** last week in two trend setting markets: LA's Virgin Megastore sold over 200 copies, and reported the record #1. In New York, Downtown Tower Records sold 223 copies. Hello.

MIKE RICHTER/BRENT GARDNER

COLUMBIA

First a quick rave about an up coming release. over the weekend we were lucky enough to have the band **Wilco** in town for a show at the Blue Note. This is a band that will have it's place in AAA radio in 95. **Wilco** doesn't miss a beat in the aftermath of what was Uncle Tupelo. If you're interested in hearing **Wilco** before Nancy Stein sends it to you, check out **Wilco** with **Syd Straw** on "Red, Hot, & Country." If you played the Bottle Rockets, the Jayhawks, Mary Chaplin Carpenter, or the Mavericks, **Wilco** will fit nicely. Now, as part of the BXR programming team, I am please to announce that Brent Gardner has been promoted to the position of Music Director. This move is the result of my taking on more responsibility as Assistant Program Director, as well as Brent's great "ears"! I will still be available for music calls from 2pm until 4pm on Thursdays only. Brent will take music calls from 12 noon until 3pm on Fridays. Adds will be ready at 2pm on Tuesdays.

Pure Rock stations with pure balls!!! WAXQ in NYC, KUPD, and KZRZ in Phoenix, WBTZ in Saginaw, and KISW in Seattle...Hats off to these gems for showing brilliant foresight and intense musical know how by giving advanced spins to a "cult status" band who has yet to break out of the underground!!! The "buzz" on their **Stoner Witch** CD at college and metal radio is enough to break your neck...The time has come for the incredible **Melvin** to

break out in a big way!!! Not because bands like **Nirvana**, **Soundgarden**, **Live**, and **Core** have hailed the **Melvins** as influences and favorites, but because they have written a fucking killer rock song called "Revolve"!!! Seriously, if you can't hear this song, you better call information for the phone number of Miracle Ear...

God Damn! It's back and it is Vicious!! **L.A. Guns** scream back in heavy form and lay waste to your preconceptions! A gigantic US club tour will begin in Las Vegas on Feb. 14. **Killing Machine** rips with a serious purpose so be proud - Metal is back! (Just ask EJ). Caffeine kings **Face To Face** pound the road with **MM Bostones** in support of **Over It** ep and setting you up for full length **Big Choice** on Feb. 27. Wanna go? **Extreme's** **Waiting For the Punchline**, which hits stores Feb. 7, smacks you with the heavy rock of their first album so do the right thing. **SFW** is finally out there and you've got a particularly raging **GWAR** title track. **Siskel & Ebert** gave **SFW** two thumbs down but man, it's **Pulp Fiction** meets, um, **Rivers Edge**, meets, uh, **Ishtar**. 24 days until your dose of **Monster Magnet's** **Dopes To Infinity** kicks in and you see the universe baby! Surf the net and find me at KLAATU13 @ AOL.

No, not another NYC cab story...no, Butt!! **Butt Trumpet!** "I'm Ugly and I Don't Know Why!" This song lights up the phones faster than I'll light up...you know. Anyway, Big Phones! See **Butt Trumpet** on tour with **Fear!** They'll be at a town near you. If not, then take a cab and ask Mr. Butt to step on it, and crank the 8-tracks!

Xnovbis from **Godflesh** is finally in your hands with killer remixes from your mix-miester general Justin Broderick himself. Remember **Godflesh** is the perfect music bed for spots selling everything from used cars to comic books. **COC** is still on top of the world cleaning wounds and prescribing healthy doses of rock n'roll. The buzz on **Foetus** is getting bigger my phone keeps ringing of the hook with people paying respect to the master. **Season to Risk** are touring the mid-west performing new material off **In A Perfect World**. Cheers!

TOM GATES

ROADRUNNER RECORDS, 212-219-0077

Kevin Salem is gaining more fans each week at AAA. Twelve strong tracks have provided just the diversity that many programmers are searching for. Some people have picked up on the upbeat tunes (KSCA's playing "Lighthouse Keeper") while others have opted for the cozier feel of the mellower songs ("Resist," with **Syd Straw's** lush vocals, works for many). There's something here for everyone.

Kevin is on the road through March playing headline shows and will perform at SXSW with **Chuck Prophet** on 3/16. A big thanks to everyone who has stepped out on this record already! Alternative folks: Waddya live in a coffin? **Type O Negative** is one of the fastest rising bands in this great nation and I can't help but feel that many of you just don't know it. Sales? Got'em. Phones? Everywhere. Airplay? Heck yeah. Not "alternative" enough? This band is on the cover of *Alternative Press*. Is there something else that you're looking for? There's really no "adventure" needed to play "Christian Woman," it works time after time. Big thanks to Sean and all at 99X for making the show in town such a great success. High fives also go out to the KTOZ crew for creating a bang-up promotion around the show in Springfield (a blood drive folks).

THE WORK GROUP, 310-449-2203

Greetings from The Work Group (the label formerly known as Chaos.) Yep, I actually go to work at Work! We've got a new name, new presidents and a new location, but we've still got the same band — **Sponge!** I'd like to thank everyone who was an early believer in **Sponge** and "Plowed" because this song is a true rock radio success story. We're now at our highest airplay total ever, the research is coming back strong, MTV has kicked it into high gear with an add in active rotation, and we're selling records at a tremendous pace. It's truly phenomenal that while the entire U.S. market as a whole dips in sales after the holidays, **Sponge** has been increasing in sales each week at an average of 30%. All due to your airplay! Watch for more tour dates soon... Up next will be the return of **Chris Whitley** after a four year absence. I can't wait to reintroduce you to this amazing singer/songwriter/guitar player. Like many radio stations' playlists, Chris has changed considerably these last four years. Take the best of **Jimi Hendrix**, **Robin Trower** and **Cream**, add **Chris Whitley's** voice and you've got the new album *Din Of Ecstasy*. You'll be blown away by the songs and even more so by how much it rocks! This guy is the future and we can hardly wait for the release date! We've also got a new one from **Ned's Atomic Dustbin** coming and many more surprises too! Stay tuned... now it's back to Work!

MARK MARSHALL

ROTTEN RECORDS, 909-624-2332

Greetings, well we're outta the gates for '95 and here's the lowdown at Rotten: Startin' it up w/the release of DRI "Live," it's on the way or in the mail, so to speak. If for some reason you didn't receive it, sorry 'bout that. (But hey, consider the source.) Give me a call, and we'll hook ya right up. And if you've got a new battery for your pace-maker, catch the **Acid Bath/Buzzoven** tour, only drawback is there's so few of 'em!

RELAPSE/NUCLEAR BLAST AMERICA

Ok, here we go... I have no time, so it's gonna be quick. Why am I so damn busy, you ask? Well, I'm busy preparing to mail everybody on the planet **Amorphis'** "Black Winter Day" and **Brutality's** "When The Sky Turns Black." I'm also doing a limited servicing on **Release Your Mind**. This disc can be played on industrial shows in addition to metal shows. So if you're one of the lucky recipients of this disc, spread the word. **Incantation**, **Pyogenesis**, **Meshuggah!!!** Keep'em spinning!!! Add!! Spin!! Chart! Dominate!!! Destroy!! Get the message?! **Exit-13** and **Hypocrisy** are still growing strong! Giveaways are still available, but I'm running out quickly, so call me!

ROCKWORLD RECORDS, 212-996-2727

Sex, Love & Money!! What more can anyone possibly ask for out of life!! Not much apparently. This rock is rolling and it's not slowing down. In a mere three weeks we've blazed quite a trail. 200 stations now on this record including: KZRZ, KZAK, KIBZ, and KISW. In the trades this week: D#33 in Hard, D#40 in Album Network, move #29-#24 in Gavin #42-#40 in FMQB, #28-#23 in CMJ. If you have an opportunity to catch **S.L.A.M.** live or if your living under a rock and haven't listened to this record yet, I would highly recommend it, why deny yourself three of the best things in life. They're currently on the road and hopefully coming to a town near you soon enough, contact me for dates and details or a CD if you don't have one. Moving on to what's coming up, Feb. 14th is no long Valentine's Day, it's "One Hit Wonder Day", coming to "break your fucking heart" very soon! Look for it! **Bad Seed** now touring. **Dirty Looks** touring in March. As always, anyone, anything, anytime - call me.

Thanks to everyone who has been playing **Skyclad!** Initial response to this record has been great! If you haven't added it already you should really check out **Prince of the Poverty Line**. "Civil War Dance," "Land of the Rising Slum" and "The One Piece Puzzle" are people's favorites but there are so many tracks to choose from! Airplay continues to grow with many programmers commenting on **Skyclad's** unique musical approach (how many bands sport a female violinist?). This week some of the stations picked up include KFMX, KLBJ, WKLL, and WTPA. I am setting up phone interviews with the band so if you're interested give me a call as soon as possible. Lookout for **Cubanate** an English guitar-based industrial band who's lead singer has been described as a leatherclad psycho! There is a huge underground buzz on this band. If you're tired of normality and need an outlet then this band is for you! **Cubanate's** CD is called

Antimatter and the track to listen to is "Body Burn" — if you don't hear HIT written all over this song something is wrong with you! I'm going for **Cubanate** adds on February 6th/7th!

PAVEMENT MUSIC, 708-916-1155

WheeeHoo!!! We are well on our way to making sure everybody gets an ear-full of the doomy sounds of **Solitude Aeternus**. Thanks to everybody who is making it possible. The band couldn't be happier about all the new fans they're gaining across the country on their tour with **Mercyful Fate**. If they haven't come to town yet, this is a must see. The show here in Chicago was amazing. Just to hear the incredible vocal style of **Robert Lowe** and to see his eyes roll back into his head as he pounds out songs like "Falling" and "8th Day Mourning". If you're one of the few not on this record, you're seriously denying your listeners. Hey don't listen to me just check the numbers.

Pitch Shifter is in your hands right now, give their remix of "Triad" a spin - it will make you wanna shake your booty thang. For the FCC-conscious, beware of the nasty language on the **Gunshot** and **Bloazard** mixes. The **THERAPY?** mix is pretty damn disco too! Big **Jon Clayden** is around for phoners so give us a call unless we get to ya foist!...**Bolt Throver** continue to wage their aural war with "...For Victory". If you haven't added it yet, well what are you waiting for? The title track from what is arguably their best release yet definitely delivers (and then some) so don't pass this one by. Just ask Jimmy Fredrick at WBGU - it "bolted" to #1 on his charts the very first week!...Don't forget **Fudge Tunnel** - "Rudge with a G" is still the track for those of you that have been slow to catch on. As for the rest o'youse out there, try "Circle of Friends" or "Suffering Makes Great Stories". Also "Joy of Irony" 7" is finally in the house - they make great give aways (hint, hint)...Need another track for **Brutal Truth?** Try "Displacement", I love disco and I hear it's making a comeback. Al Goldstein loves disco too...**Anal Cunt's** "Stayin' Alive" is coming soon, as well as their full-length **Top 40 Hits**. Call me if ya want to be the first on your block to hear the exciting new song titles as well as get info on a few live shows here-n-there (Boston-Feb.7 and NYC-Feb.28). **Extreme Noise Terror** out in late March...**Misery Loves Co.** 3/21/95.

Anyone going to the **Gavin** convention in New Orleans? Please call if you are we can hook up! I will be moderating a panel called Hard Music, Hard Women. It will be Friday, Feb. 17 at 4:30pm. The panel will be graced by the most experienced, professional women in radio that deal with aggressive music! Besides myself will be, Cheryl Valentine, Sheri Sinclair, and Debbie Abono

from Abono Management (**Skrew**, **Spudmonsters**, **Broken Hope**, **Obituary** among others both past & present). Also joining us will be Jimmie Fredricks Metal Director at WBGU as "The Guy On The Other End Of The Phone." His input will be helpful to many of our discussions regarding the relationship/ratio between the sexes in this predominantly male dominated business. Should lend to some interesting, intelligent conversation! Be There! Finally a major signing here at Red Light, I'm ready to burst but I can't quite yet — you'll be the first to know.

Everyone should have **Holy Gang's** release **Free Tyson Free** and **Thorn's** debut single "Pacing" reviewed and added for this week! **Machine Head** is getting the greatest response on their tour with **Slayer** and **Biohazard**. Increased airplay. Increased fan base. Increased record sales. No complaints from me! **Type O Negative** and **Pantera** making beautiful music together on the road...**Madball**, **Dog Eat Dog**, and **Downset** selling out venues to those diehard hardcore kids. I want to thank Leigh Taylor from WPMR and Jen Meola from WNYU for doing interviews with **Madball** at CBGB's. Also, a big thank to Julie at WXZR for having both **Dog Eat Dog** and **Madball** down at the station. Lyle (CFOX) - it was great seeing you again! If anyone needs any **Obituary** interviews or giveaways please call. **Front Line Assembly** is still getting great airplay, keep it up! Oh yeah, one more thing - **Death** awaits you...

I've been watching the reports carefully over the last few weeks, you'll notice that **The Black Watch** is on just about every alternative specialty show in the nation. C'mon, get with the program and find out what these specialty show programmers, as well as WDST, KLZR, and WCBR already know... "Whatever You Need" is a damn catchy little bit o' guitar pop that is sure to get your foot tappin'. The CDPro is on your desk now. Listen to it, you won't be sorry. Also in the works: Debut LP from female songwriter extraordinaire **Stephanie Sayers**, whose **Christmas Island** arrives to brighten your trip in March. Kittywinder release their long-awaited **Scream of the Week** in March also. Be warned. Then in April look for records from Boston's **Dirt Merchants** and the **Live at Threadwaxing Space** compilation with all yer fave indy-rock hipster types doing their thing.

CONSTANTINE CONSULTING

303-440-5470

Cities 97 in Minneapolis unveiled its new plans for the future on Friday. First, the station will have a brand new morning show starting Monday, January 30. Hosts Skip Herman and Jim McBean will be bringing their personality show to Minneapolis. The two were paired up in Miami (WSHE) and Washington DC (WCXR) plus others. It's a high-profile, adult show that will relate well to the Twin Cities. Former morning man Gregg Ellsworth leaves the station, as does mid-day announcer, Joanell. Friday afternoon, the industry rumor mill was spreading the word that the Cities was changing format. The fact is the station is more committed to AAA than ever. Concurrent with the new Herman & McBean morning show, the station will unveil its new slogan. "Progressive Rock For The Twin Cities." The station formerly known as "The Cities '97" will now go by the handle "Cities 97". Stay tuned for more details. The live **Joni Mitchell** broadcast from the Gene Autry Western Museum came off without a hitch. Thanks to Nancy Stein for all of her hard work putting the broadcast together. The show was broadcast on over 100 stations nationwide. The audience consisted of celebrities Jack Nicholson and Seal. Winners of contests from AAA stations from around the country were also in attendance. Some stations that did not have satellite capability depended on getting a DAT or c.d. to play back on the air. Nancy Stein's office overnighted the packages, but when tapes did not show up in Austin, Albany, and Minneapolis, the tapes were put on an airplane and flown to their destinations. More Arbitron news this week: KGSF Austin's 12+ went from 4.0 to 3.6 (8th), and the 25-54 went 6.0 to 4.9 (8th). KGSF's competitors KLBZ-FM (AOR) was down slightly, and KPEZ (Classic Rock) was up slightly. In Albuquerque, KLOT's 12+ was up 2.1 to 2.6 (14th) and 3.3 to 3.9 (25-54). **Michael Fracasso** is another great musician from Austin. His new album **When I lived In The World** (Bohemia Beat) is full of brilliant songwriting and music that steeped in American roots. Check out the lament of "Back to Oklahoma," the rockin' sarcasm of "How Very Inconvenient" and "Coffeeville." This is an album full of gems. Take the time to ferret them out. **John Mayall** returns with another great album on SilverTone called **Spinning Coin**. **Mayall** is in fine form on the title track, a mid-tempo, semi-acoustic number accented by his harp playing. The other two tracks on the CDPro, "Ain't No Brakeman" and "When The Devil Starts Crying" (written by Jim Lauderdale), are more rockin', but great none the less. **Mary Karlzen's** **Yelling At Mary** (Atlantic) is one deep album! This woman has come out of nowhere to take our world by storm, and by all accounts she is doing just that. We suggest you focus on "Everybody's Sleeping," "Stronger," and "I'd Be Lying." **The Nits** have had us captivated ever since **Keith Sutter** sent us an advance CD. They have a knack for writing quality pop songs with great arrangements. Songs like "Whales of Tadoussac" will haunt you for days

after listening to them. The title track is the one **TriStar** wants to lead with, and it's a good introduction to the band (also notice the AAA in "dA dA dA"). Also check out "Dreams", "What We Did On Our Holidays", "Bilbao Boa." **Ivan Neville** has been steeped in soulful music literally since birth, and is now distinguishing himself as an accomplished songwriter. With backing vocals by **Bonnie Raitt**. "Don't Cry Now" is one of many stand-out tracks on his latest solo project **Thanks** (Iguana). It has that funky Neville sound, as do "Get Away," "Never Grow Up," and "Same Old World." The full album from **Simple Minds** arrived this week. **Good News From the Next World** (Virgin) has a very consistent guitar driven sound. The production is huge, and every song leaps out of the speakers. Beyond the single, we like "Hypnotized", "Criminal World," and "This Time," but every song is playable. Hailing from the land down under. **The Cruel Sea's** **The Honeymoon Is Over** (A&M) has had us dancing in the office this week. With an almost even split between instrumental and vocal tracks, the album gives us some fine musicianship. We've already pointed you to the title track, which is the lead single. This is one infectious song, punctuated by some great slide guitar work and the intense vocals of **Tex Perkins**. Other vocal tracks to preview are "Black Stick" and "Better Than Love." As for the instrumentals, there are some great ones, including "Seemstwie" and "Sly Din". W.A.R.? Records has picked up a great band called the **Ugly Americans**. You might remember them from the H.O.R.D.E. sampler CD A&M released last year. **Ugly Americans**, their first record for their new label, will be a live one recorded at the Fox here in Boulder—this band has developed quite a following here. "Candyman" is the lead single, and it is good straight ahead rock n'roll. With soulful vocal harmonies and some wicked lead guitar, this song is sure to have you up out of your seat before long. By now you've received **Bonnie Raitt's** take on Roy Orbison's "You Got It" from the **Boys On The Side** OST (Arista). **Bonnie** has stayed pretty faithful to the original (we're certainly glad she kept the timpani in the chorus), but as always she's injected her own brand of soul on the song. This one may not have the longest shelf life, but it's something your listeners will appreciate. The most intriguing single to cross our desk this week comes from none other than that bastion of 80's schlock **Adam Ant**. Greg Seese put it this way—if **Duran Duran** and **Thomas Dolby** can do it, why not Adam Ant? And he may be right. If you can put away your preconceptions, it's not a bad song. Your alternative competitor is going to pound this one for sure, so give "Wonderful" a listen and keep an open mind.
