NEW EDITION *Hit Me Off* (MCA) - Their new album should be huge! This will be the first single, and it should go top 5 easy! But the #1 smash on the album is *Still In Love*. It should be the #1 song in the country by Christmas. It is a total smash!

THE BADLEES *Angeline Is Coming Home* (POLYDOR) - This is one we really believe in. It's safe, it's hip and it has tempo!

JOAN OSBORNE *St. Teresa* (BLUE GORILLA/MERCURY) - We're on it. It's still early but a very good-sounding record!

LISA LOEB & NINE STORIES *Waiting For Wednesday* (Geffen) - I'm very intrigued by this. This should have been the first single. Very poppy – good stuff!

RON GERONIMO, PD, WWST, Knoxville

ERIC CLAPTON *Change The World* (REPRISE) - One of those rare records that everybody is excited about! Heck, I was kidding with my Reprise rep and told her that I was going to play the Wynonna version!

BONE THUGS-N-HARMONY *Tha Crossroads* (RUTHLESS/RELATIVITY) - I'll admit that this is one I've been resisting, but our listeners and the general public have demanded this! Whatever it is, there's something here!

BLESSID UNION OF SOULS *All Along* (EMI RECORDS) - This is doing very well. It's turned out to be quite a surprise. I thought it would be just a good, mellow, midday record. But it's reacting and has become an active all-day record for us!

NIKKI NITE, PD, WWXM, Myrtle Beach

MAXI PRIEST f/Shaggy *That Girl* (VIRGIN) - Good Reggae vibe. Great sound!

MARIAH CAREY *Forever* (COLUMBIA/CRG) - How can you go wrong with Mariah? Hello! No-brainer!

PRIMITIVE RADIO GODS *Standing Outside A Broken Phone Booth With Money In My Hand* (COLUMBIA/CRG) - Longest song title! Scored high on our "Kiss Or Miss".

TRACY BONHAM *Mother, Mother* (ISLAND) - Excellent! Fun song!

QUAD CITY DJ'S *C'mon 'N Ride It (The Train)* (BIG BEAT) - We're using this for promos and getting requests!

BONE THUGS-N-HARMONY *Tha Crossroads* (RUTHLESS/RELATIVITY) - Tons of requests on our "Hot Mix"!

TOM GARRETT, PD, WZOK, Rockford

ERIC CLAPTON *Change The World* (REPRISE) - Other than *Ironic* by Alanis Morissette, this is the only record I've heard all year that I know is a #1 record! There is no doubt in my mind that this will go #1!

THE BADLEES *Angeline Is Coming Home* (POLYDOR) - This is still very early here. And Rotations look deceptive because we took four days off from regular programming for Memorial Day and played nothing but Retro. But this sounds great! It definitely has the sound!

JORDAN HILL *For The Love Of You* (143 RECORDS/ATLANTIC) - This record is very solid!

BLESSID UNION OF SOULS *All Along* (EMI RECORDS) - This is still a very viable song! I really like it!

PETE DeGRAAFF, APD/MD, XL106.7, Orlando

ERIC CLAPTON *Change The World* (REPRISE) - It sounds like a hit and smells like a hit, so it's probably going to be a hit!

MAXI PRIEST f/Shaggy *That Girl* (VIRGIN) - I think this is a hit! The *Green Onions* sample makes this familiar instantly and you're into the hook twice inside the first minute of the song! It feels like Summer! I hope Shaggy's Rap image doesn't dissuade programmers from playing this!!

MARIAH CAREY *Forever* (COLUMBIA/CRG) - Smash, smash, smash!! It's won on our "Survival Of The Freshest" all last week and is going into its fifth night tonight! It's beaten a lot of very stiff competition and I think this is destined to be a very big hit record!

ROB ROBERTS, PD, Y100, Miami

ERIC CLAPTON *Change The World* (REPRISE) - This is a lock! Automatic!!

MAXI PRIEST f/Shaggy *That Girl* (VIRGIN) - I really like this a lot! I heard it this morning and really loved it!

REFRESHMENTS *Bandito* (MERCURY) - This could be something. AI played it for me and I thought, "Wow!" Here's one out of left field!

FORMAT STUFF

At long last, Alternative makes an effort to expand its base. This week's MOST DISC-OVERED, BECK's "Where It's At" on GEFLEN, brings a new life to the tired Grunge overdose of the past couple of years. Add THE FUGEE's "No Women, No Cry" on COLUMBIA plus RCA/LOUD/PMP's DELINQUENT HABITS "When The Stakes Are High" and Modern Rock finally seems Alternative. Combine this rhythmic twist with Format Founder PATTI SMITH and her new single "Summer Cannibals" on ARISTA or our favorite ASH and "Goldfinger" on REPRISE and perhaps one could actually listen to radio again. Not to ignore the Mainstream sound as COLUMBIA's SPONGE with "Wax Ecstatic" is already a SMASH. It's about time as POLYDOR drops the better CAST single "Sandstorm". Speaking of format founder, the MARR-SUMNER sound returns with the WARNER release of ELECTRONIC's "Forbidden City". MERCURY/PRA finds a new Specialty show favorite with CHARM FARM's "Superstar". For all those huge fans of GRANT LEE BUFFALO on REPRISE, why not play what you like for once. FORMAT can say the same for STABBING WESTWARD's "Shame" on COLUMBIA. From the FORMAT fun dept. comes EMI's FUN LOVIN' CRIMINALS and "Scoobie Snacks". FORMAT was "Inside" L.A.'s Viper Room this past Tuesday night for a killer set from EMI's PATTI ROTHBERG, totally cool to finally be able to catch her live. Congrats to the whole EMI staff PETER N, NICK BULL, and new guy CHRIS LOPES. From the "keeping it legit, but still making it big" dept. was FORMAT's recent lunch with MOJO's Jay and Karyn, keep it up. Congrats to FORMAT FRIEND JAY MICHAELS as he moves from KDGE/DALLAS to KRBE /Houston. Yet another FORMAT FRIEND "The New WLIR's" TED TAYLOR, gives us a look-see at his new Rotations and the word is SOLID.

FORMAT GROUND ZERO

This week Format zeroes in on the thunderous specialty show programming going on at WRLG in Nashville. Thunderground Radio and its programmer extraordinaire Jason Moon, have been busy exposing new music and maintaining the excellence that has come to be expected from WRLG /Nashville.

What's being played: Mono Puff, They Might be Giants, R.O.C. Chimera Cardigans Soul Coughing, Electronic, Tim Booth & Angelo, Badalamenti, Remy Zero, American Analog Set, Ash, Liz Phair, Prescott Curlywolf, Trip13fastaction, Kevin Salem, Kelly Hogan, Pinetop Seven, Wallflowers, Duane Jarvis, Marvin, Sparklehorse, Grant Lee Buffalo. Some bands that I particularly dig and /or who have done well on the show: SUPERDRAG, REMY ZERO, RICHARD DAVIES, BRAINIAC!

What it's all about: Originally, there was a separate show called "New Music City" which catered to local and regional music. But I found it more beneficial for the local bands to be interspersed within the context of the rest of the music, so now it is just one show. It gives credibility to the locals by having them bumped up against major national and international acts and the show retains more listenership by losing the stigma of a "local" show. The format is basically a new music show with an emphasis on left-of-center acts that normally don't get airplay on Thunder 94. It's also a testing ground for breaking acts. To give the listener more added incentive to listen, I throw in b-sides, rare trax, interviews, imports etc. from established acts and underground favorites. And I usually bring in an artist or two into the studio every week for a chat and some live performances. Pretty simple stuff, weird promos, giveaways, show tie-ins etc. Thar she blows. WRLG's JASON MOON

HOLY BARBARIANS DOUBLE DOOR CHICAGO JUNE 1

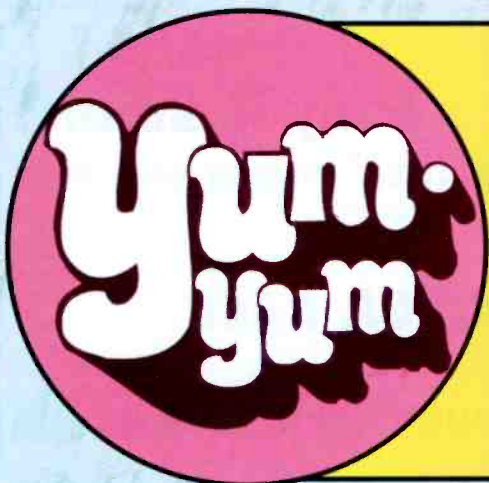

Ian Astbury unveiled his new band to Chicago on Saturday night to a very enthusiastic crowd at the Double Door in the music mecca called Wicker Park. Astbury, as always not complete without his tambourine, and his new band the Holy Barbarians blazed through their high powered highly energized brand of Rock. They are not The Cult. Scott Garrett served as the anchor of the assault pounding the skins, his drumming coupled with Matt Garrett's bass made the rhythm section one of the strongest I've heard blaring from the sound system of the Double Door. Patrick Sugg kept it interesting with his guitar work. The Holy Barbarians have cultivated a smoother less heavy sound that nonetheless maintains the attributes that could have made The Cult a better band. In essence, it is exciting to see that Astbury has moved on and looks like the Barbarians have a good chance of becoming a force in the Rock world. The show opened with a lengthy spoken word intro into Astbury reciting a classic Ginsberg poem and dedicating the show to the memory of the late guru Timothy Leary. The potential displayed by the catchy single "Brother Fights" leaves me very interested in keeping an eye on this band that may indeed take off.

Bif Naked opened and rocked through an engaging set. It's a wonder what would have happened if she was the one to have married Kurt. The pumping tunes and the Kideas-like moves proved for infectious energy to spread throughout the crowd from one of the original grrls. Bif Naked deserves more attention from music lovers of all types.

Piecing together a good audio system is a lot like deciding what you're going to eat from your favorite Chinese restaurant. You open the menu to a huge variety of items. Some are very familiar, like "sweet & sour pork", and others, say, "Colonel Pua's Saute Squid & Tofu Delight" might look too exotic.

I'll bet, without even knowing the real statistics, that 80% of the people who order off the menu, stay with the "familiar" dinner items. Only a few brave souls stray into unknown territories.

To a similar extent, that same scenario can be applied to people buying audio and video equipment.

And this I know for a fact: most people will buy brand names that they are familiar with, either from reading the advertisements in magazines, or from visiting their local football field-sized audio/video retailer. I'm sure that many of you who have read this column have never heard of 90% of the equipment I've written about. The other 10% sounds familiar because I've talked about them so much, you probably think that you have seen or heard of it before.

There are brands available, mainly originating from the Far East that even the smallest child is familiar with. Names that start with "So", "Pana", "Pio" or end in "ny", "sonic", "neer". Well, you get the point. That's O.K., most people will play it safe in what audio equipment they buy. Name brand familiarity. It's a great place for any company to get to and it ensures continued sales and growth, not to mention some extra bucks in the ol' bank account.

However, visit any audio/video "nut" in Japan and see what his/her personal system consists of. You would probably be surprised to see a definite lack of any items from those aforementioned Japanese companies. So, what do these rebellions own in their systems? Most likely, every unit within their home (maybe with the exception of the TV monitor and the "Mr. Saki Happy Tea Maker") is an American-designed and built audio/video component. Should they be caned for not supporting their own industry?

With all their great electronics firms just a stone's throw away, why would they even bother with American hi-fi equipment?

Simply put, it out-performs, out-specs, and flat out just sounds better than any of the mass-produced Japanese stuff. These audiophiles are willing to pay higher prices, along with the extra duties, customs, and shipping costs that go with any import item just to get that extra helping of sound quality and great craftsmanship.

It's a fact that most American higher-end manufacturers sell the bulk of their inventory overseas.

Does this make sense? Why should the Americans manufacture the better audio and video gear, and have most of it is sold almost anywhere but America? I'm sure that there are few good answers, but I'd much rather deal with the obscure ones.

First off, the American manufacturers are very small compared to their overseas counterparts. So we don't have the "deep pocket big bucks" to spend on advertising and promotion. With a majority of the smaller manufacturers, a good word-of-mouth is a very strong selling point.

Another good reason is distribution. Many of the local companies do not produce enough components to stock the shelves of your local "Shortcut City", let alone the entire chain!

They would have to produce a ton of goods and that would lead to mediocre equipment by their own original standards. In the high-end world, you keep the operation small and make sure that every item being sold meets or exceeds all the normal criteria. Then, they can market them to smaller "specialty" retailers that actually know the difference between a pre-amp and an amp.

Also, because most high-end companies produce high-end audio/video gear, you can rest assured that a rather high-end price will be shelled out by the high-end customer. For the price of one good amplifier or CD transport through an American company, the same amount can be spent on an entire Japanese audio/video system including five speakers, sub-woofer, big screen and a forty foot RV. Well, maybe not the sub-woofer!

Most people I know, including myself, can't afford many of these high-end offerings. Even if I could, I believe that some of the extremely expensive items are mainly smoke and mirrors. But there are hundreds of American manufactured audio/video goods that are very competitive with our Japanese counterparts.

Some of my favorite "local boys" are: Angstrom for their digital surround units. Citation for their surround units, amplifiers and great dipole speakers. Chiro, again for their surround systems, amplifiers and subs. Audio Alchemy for digital accessories. Sunfire and B & K for amplifiers. AMC for very affordable high-end gear. Triad, Signet, Sound Dynamics, and Merlin for superb loudspeakers. XLO, Kimber Kable, AudioQuest, Audio Magic, and Music Metre for outstanding interconnects and speaker cable.

Go take a look at your local "high-end" dealer. If the items seem a bit exotic for your taste, ask a salesperson to help out. Most of these guys are in the business because they love it, not just because it's a job. And as you know, that can make a world of difference in any business.

Ear To The Ground

KDWB GETS DOG'S EYE VIEW! While the title of their first hit is "Everything Falls apart," everything obviously came together when Columbia recording act DOG'S EYE VIEW dropped in for a brief unplugged concert at KDWB/Minneapolis. Pictured here (l-r) are: TIM BRADSHAW and PETER STEWART of DOG'S EYE VIEW, Columbia local DAVE ROSS and KDWB PD DAN KIELEY. Leaning in front is morning show producer/sidekick PAT EBERTZI

LOCAL H IN THE SIDE POCKET! Following a performance at N.Y.C.'s Tramps, Island Records duo LOCAL H challenged label executives to a few friendly games of billiards. As if on cue (get it?), this happy bunch took a moment for a photo! Shown at Chelsea Billiards (l-r) are: SCOTT LUCAS and JOE DANIELS of LOCAL H, Island Records Chairman CHRIS BLACKWELL, and Island Executive Vice-President HOOMAN MAJD.

A.R.S. SHAKES IT UP IN HARTFORD

As STEVEN DODGE's American Radio Systems grabs the pink slip to WTIC-A&F/Hartford from Chase (for \$42 million), the firm does some immediate house cleaning! Just after press deadline last week, consultant (and programming veteran) BILL STAIRS of Coleman Research was appointed the OM for 'TIC-A&F, while the PD position was eliminated, meaning that longtime 'TIC-FM PD PAUL "Boom Boom" CANNON was out! SUZANNE McDONALD was named VP/GM for both 'TIC's and the other A.R.S. properties in the market, AC WRCH and Gold outlet WZMX. Other changes include the departure of WTIC-FM wake-up stars KELLY & KLINE, midday host JEFF WEBSTER and swing guy MIKE WEST. GARY CRAIG and SEAN ELLIOT have been named as TIC-FM's new morning duo! Word is that we can expect 'TIC-FM to move in a more HOT AC direction, leaving WKSS alone there in the Top40 realm!

EVERGREEN MAKES CHARLOTTE SHIFT

Evergreen Media has announced some cosmetic changes @ WEDJ/Charlotte, as it flips that station's call letters to WNKS. The station will be known as KISS95.1, "Charlotte's #1 Hit Music Station" under PD BRIAN BRIDGMAN. Look for the station to continue its shift back toward Mainstream, despite the fact that VP/GM BILL SCHOENIG stated in an

official release that, "This name change is simply a matter of marketing and image and in no way affects the format of the station." Look for a playlist with core artists the likes of ALANIS MORISSETTE, HOOTIE & THE BLOWFISH, SEAL, MARIAH CAREY, CELINE DION, BLUES TRAVELER and COLLECTIVE SOUL.

THE LATEST

As we went to press this week, word came that Y100(WPLY)/Philly PD JOHN KNAPP was out! MD CHUCK TISA has ascended to the PD-ship there as the station moves away from its Alternative slant toward a more Mainstream presentation. CHUCK signs WLIR (which just flipped calls from WDRE)/Long Island staffer COUSIN ED for nights..KRBE/Houston PD JOHN PEAKE inks KDGE/Dallas MD JAY MICHAELS as his new MD @ KRBE...BRETT "Who Knows Maybe You Were Kidnapped, Tied-up, Taken Away and Held for" RANTHUM (left-field TOM PETTY reference), late of KGLE/S. Lake Tahoe, has been named as the new PD @ WKZW/Peoria, under VP/Programming DALE VAN HORN...Longtime WSNX/Grand Rapids-Muskegon PD MARK MCGILL parted company with the station this week. Lots of rumors about this one! While OM MIKE ST. CYR goes in search of a PD, 'SNX's very talented MD KEITH CURRY is named interim PD! Expect to hear MARK announce new plans soon...Effective next week, SCOOTER will rejoin WRVW (it was Y107 when he was first there)/Nashville as MD/night guy. He replaces outgoing MD JIM McDONALD...In the wake of ALEXA TOBIN's departure for K-ROCK

(WXRK)/N.Y.C., WBRU/Providence names MD STEPHANIE HINDLEY as interim PD, with MATT MALONEY being named the new MD there...DANNY BONADUCE has inked a new two-year pact with Evergreen...Look for WJMX/Florence, SC PD DAVE BAKER to exit the station at the end of the month. KEITH MITCHELL will handle programming and wear OM stripes there...STAR94 PD KEVIN PETERSON checks in to say he's signed former BOB & MIKE (KHFI, G105) morning show producer MIKE STILES as the producer for STAR's STEVE & VIKKI morning show!...KAREN RITE is the new MD at WDJX/Louisville!...To correct what we reported last week, WWST/Knoxville PD RON GERONIMO has not been upped to OM there. He told Ear that Jacor will likely not utilize an ops person there.

ROTHBERG ROCKS THE VIPER ROOM

This past Tuesday night (6/4), L.A.'s famous Viper Room was the venue for an incredible performance by EMI budding superstar PATTI ROTHBERG. While PATTI played a very polished and energetic set, (that included her label debut single *Inside*), label Sr. VP/Promotion PETER NAPOLIELLO feted a very enthusiastic gathering, that included the entire HITMAKERS staff! The night also served as something of a coming-out party for new EMI VP/Promo CHRIS LOPES, who was in the house along with EMI VP/Alternative Promo NICK BULL! Take our word for it: PATTI is on tour now, and this is an artist you need to see! And if you haven't gotten hip to *Inside* yet, by all means do so!!

Ear To The Ground

KELLY'S UNIVERSAL APPEAL! When Buffalo Bills' quarterback JIM KELLY showed up at a recent WKSE event with his new bride JILL (the two were married May 18th), station MD DAVE UNIVERSAL (who describes himself as the ultimate Bills' fan) pounced all over the photo op! The KELLY's were obviously very cordial, but we understand JIM later introduced DAVE to Bills' defensive titan BRUCE SMITH. DAVE has not been heard from since!

H.O.B. HOSTS SHEPHERD SHOW! Revolution artist KENNY WAYNE SHEPHERD recently headlined two sold-out shows at L.A.'s house Of Blues. Pictured backstage after one performance are: Revolution owner/Chairman IRVING AZOFF, manager KEN SHEPHERD Sr., KENNY WAYNE SHEPHERD, Revolution's SR. Creative Exec. MISSY WORTH and the label's JEFF ALDRICH!

SCUTTLEBUT

Is Infinity programming honcho/KROQ PD KEVIN WEATHERLY about to receive official corporate stripes?...Is former Giant records VP/Rock BARRY LYONS about to ink a deal with a major West coast label to run its Rock dept?...What top100 market PD exited his gig this week after a disgruntled "in-the-know" employee revealed to management that said PD had been part of a long-standing back-door deal with a major indie, in violation of the station's "no indie" policy? Hmmm!...Is PAUL CANNON about to land a Mile High? Ear hears that no sooner had PAUL exited WTIC-FM last week when he was on a plane to Denver to interview for the KWMX PD gig! At the moment we hear he's the inside guy, although the names JOE LARSON and JEFF TYSON are also being bandied about! Is JOHN KNAPP about to put his hat in the ring?...What's SEAN LYNCH got planned now that he's exited EMI?...What's going on at WAEV/Savannah and with PD BURKE ALLEN?

MORE ARBITREND ACTION!

CHARLIE QUINN's got something to smile about in Nashville! As WRVW completes its transition from its old Y107 image, the station enjoys a serious bump in the Spring '96 Phase 1 Arbitrends, going 5.4 - 6.2 (12+)! Major props!

In Vegas, it's a very interesting mixed bag of results. THE EDGE (KEDG) stays flat at a 7.3 (some of the best numbers that station has ever had), while across town, KLUC trends up 5.3 - 5.7 (12+). KJMZ, which flipped from Rhythmic/Top40 to Hot AC back in April (when A.R.S. paired it with KLUC) trends up slightly, 4.7 - 4.9!

CORRECTION

On the Inside Front Page in issue 938 (three weeks ago) we ran a picture and brief story on a WPLJ/N.Y.C. compilation CD put together in cooperation with EMI Records that benefited Babies & Children's Hospital and Lifebeat. The correct title of the CD is "SCOTT & TODD Present: Scam Dunk - A Comedy Album, volume IV."

ALL SMILES! Here's Virgin Music Group Worldwide Exec. VP NANCY BERRY and KEN BERRY, Chairman/CEO, VMG Worldwide with GEORGE MICHAEL at his album launch party last month in London at Hamilton's Gallery!
