VIBE-RATERS**4**

Beasties, Seal, Green Day and Offspring turn up the buzz in this week's "Vibe-Rater" rumble.

ACTIVE ROCK RADIO**6**

Offspring, Alice Cooper, Rolling Stones, Type O Negative and Mother Station mosh the nation and rev up the spin cycle.

SINGLES**8**

Okay, everyone admit it, this All-4-One thing is now reaching the overkill stage as it stays #1 for the 5,778,924th straight week.

DIALOGUE**38**

Bellmark Records head Al Bell is a legendary music industry executive, while JAMS' ruler "Free O." J.J. Johnson is a legend only in his own mind.

POST MODERN**47**

Helmet, Candlebox and "Kiss My Ass" make the new PoMo list a rock thing, while Ivana gets a little crazy from the heat... or whatever her excuse is this week.

METAL**58**

Helmet bows in the Top Ten, inspiring metal madames Thelma & Louise to don their own summer headgear, a couple beer cans with straws attached for instant refreshment.

JAMS**61**

Warner Bros. sax symbol Boney James pays tribute to his "Happy Home," but then he's never visited the dysfunctional HITS family which includes JAMS' Stormy Monday-Friday, Kandace "Tinker" Taylor.

ALBUMS**76**

The Lion King roars to #1 and Soundgarden surges back into the Top Ten.

Hitsbound 26

Babyface & Soundgarden.

They wrote the songs that make "The Lion King" sing. Superstar Elton John and lyricist Tim Rice collaborated on the music for Disney's animated summer box office smash, which has spawned this week's #1 album. With these two working their musical magic, Walt himself could probably top the charts with his smash hit, "Don't Let The Sun Go Down On Me... Because I Might Melt And Leak All Over My Cryogenic Chamber."

On The Cover

Epic's Spin Doctors celebrate the release of their brand-new "Turn It Upside Down" and this week's Wild Card by appearing "right-side up" on this one-way trip to oblivion.

Hot action continues on **Soundgarden** as "Black Hole Sun" remains at the top of the chart and the requests list, while its accompanying video receives 31 big plays at **MTV** and its single continues to gain at Top 40.... The big news of the week, however, concerns **Helmet** (pictured) whose "Milquetoast" track explodes 14-9 this week, as the band's sophomore set for Interscope hits the streets selling.... Also surging is independent label Epitaph's "Come Out And Play" by Anaheim-based **Offspring**, which debuts at #22 with **Buzz Bin** play at **MTV** and huge sales forcing the market to move.... The **Rolling Stones** are this week's **Most Added** act as their debut under the new Virgin deal is off and running. The cut "Love Is Strong" debuts at #25 and is expected to challenge for the top in the coming weeks.

Disney's "Lion King" Rules The Box Office & The Chart

CAN'T HIDE THOSE LION EYES!!!

Chants Encounter

Rhino Records has unearthed "Chantmania," a historic six-song CD of Gregorian chants recorded by the **Benzedrine Monks** at the Monastery of Santo & Johnny in Santo Domonica, CA, which includes versions of songs by heathens like R.E.M. and Nirvana.

The Monks' musical history began with **Father Coniff**, excommunicated in 590 A.D. for teaching his choral ensemble to sing "99 Bottles of Grog on the Wall," before starting his own church to sing hymns of praise to **St. Mantovani** and meditations on the Faith of **St. Percy**.

Withdrawn from civilization for centuries, the Monks have emerged from their isolation to harmonize on such uplifting litanies as "Losing My Religion," "Smells Like Teen Spirit," Queen's "We Will Rock You" and "Hey Hey We're The Monks." Order now and you get free communion wafers, an official Monks hairshirt and your own home stigmata kit.

With God's help, **Billboard's** **Timbo White** will like the record as much as we do.

It had a three-day weekend gross (6/25 - 27) of \$40,888,194 on 2,552 screens, walloping the competition and serving notice it is THE summer movie.

Its infectious soundtrack already boasts a smash **Elton John** single — the first from a collection of John/Tim Rice collaborations.

Was there ever any questions that Disney's "The Lion King" would hit the top of the album chart?

"There's no question that it will be around for Christmas," said **Wherehouse's** **Bob Bell**, who accurately questioned if we'd still be around for Christmas.

"It's selling like the **Mighty Morphin Power Rangers**," said **Caroline Brookter** of the **Target** chain. "This is certainly going to be around all summer."

Here's a picture of a hamster.

PIC OF THE WEEK

Lane Drools, OK?

Seven-month-old **Ryan Edward Lane**, prodigal son of EMI Sr. VP Promotion **Ken Lane**, marks our 1,987,765th published picture of a baby emitting a steady stream of saliva on this sorry, sorry excuse for a publication. This cute bundle of joy inspires just one thought in our own infantile minds — how long will it be before the tyke's in charge of daddy's advertising budget? Proving he's a chip off the old block, young Ryan was faced with an open magazine, but like daddy, was unable to close.

ACTION

The adds this week at MTV are **Green Day** (Reprise), **House Of Pain** (Tommy Boy), **Beck** (DGC), **Breeders** (Elektra), **Aaron Hall** (Silas/MCA) and **Eleven** (Hollywood). Rotation increases: go to **Offspring** (Epitaph), **Heavy D & The Boyz** (Uptown/MCA) and **Pretenders** (Sire/WB). **Green Day** goes into **Buzz Clip** rotation.

WILD CARD

SPIN DOCTORS EPIC

Enough with the set-up track. This week's cover boys are back with their signature sound, and radio is receiving them with open arms. The first week in the streets finds it as #1 Most Added with major market biggies like Z100, Q106, B97, PRO-FM, WDRE, WKSE, WNVZ, WAPE, Y107 and WZJM already in the fold. **Barbara Seltzer** and team are slammin' this one home, quickly! Don't be last on your block!

Leher's the Law At Hollywood

Another high-priced attorney bites the dust. Is the legal profession starting to feel the recessionary pinch? Highly respected (that means he charges an arm and a leg) music business attorney **Richard "Lion King" Leher** has left the private sector to be named Senior Vice President for Hollywood Records by the label's Executive Vice President **Bob "I've Come A Long Way For Someone Whose Band Used to Play at C.B.G.B.s" Pfeifer**.

Leher has been practicing law for over 20 years, most recently as head of the music department and a Senior Partner at the L.A. law firm of **Mitchell, Silberberg & Knupp**, where his clients included the **Rolling Stones**, **Pearl Jam**, **Rondor Music** and **A&M Records**. Before that, he manned the counter at "Law Dog" in Van Nuys, where he dispensed frankfurters and free legal advice.

Leher graduated magna cum

laude and was elected Phi Beta Kappa at Occidental College, where he majored in philosophy and quoting **Wittgenstein** to pick up co-eds. In his new position, he will be involved in all facets of Hollywood's operations, including Walt's private Polaroid collection of **Annette Funicello** in a two-piece bathing suit.

Commented Pfeifer: "I am thrilled Richard has chosen Hollywood as his new home. He's even promised me 15% off on all legal counsel."

Richard Leher: He's gone Hollywood.

It's A Dog's Life

Debbie Harry (l), **Angelfish's Shirley Manson** (c), ex child porn star **Traci Lords** (r) and Harry's pooch **Chi Chi**: Shirley is grabbing Debbie's breast. She must be wild.

MOST ADDED SINGLES

The Most Added singles this week at Top 40 are #1 **Spin Doctors** (Epic), #2 **Billy Lawrence** (EW/Atl G), #3 **Richard Marx** (Capitol), #4 **Taylor Dayne** (Arista) and #5 **Bonnie Raitt** (Capitol). Also, **Live** (Radioactive) make its move behind surging album sales.

HITS Pix Jax

REGGIE! REGGIE! REGGIE!
Whoops, wrong Jackson.
Gar-eee! Gar-eee! Gar-eee!

Gary Jackson has been named Staff Writer at HITS. He got the job by spelling his name correctly.

Commented HITS Editor-In-Chief Lenny Beer: "Is that the bald guy?"

HITS Publisher Dennis

Gary Jackson (left):
Joined with the unhip.

Lavinthal was on vacation and unavailable to comment. Our Managing Editor was at E!

In his new post, Jackson will write stories and cadge free drinks from the editorial fridge. He will continue to have absolutely no talent.

Jackson got his start in the music business working in several New England retail chains, including Music City, Licorice Pizza and Music Plus. He was an editor at BRE, Black Sounds and Urban Network and has contributed to Billboard, Music Connection and L.A. Weekly — all of whom will never hire him again following this bone-head move.

Gary, who conceived and coordinated last week's Black Music Month special, will split his time between HITS and his catering business when he's not busy comparing appendectomy scars with Duncan Browne from Rounder Records.

Julio Speaks

"Hello, I am International Superstar **Julio Iglesias**. I want you to meet the Columbia Records people behind the scenes that have made my amazingly romantic and glamorous career so amazingly romantic and glamorous. On my right is, uh, this handsome fellow (Soles VP **Rich Kudolla**) who, I think, books my travel, and to his left is a beautiful woman, who is one of the many I have loved (Promotion Director **Elaine Locatelli**). On my immediate left is my Ferrari mechanic Bruno (Promotion VP **Jerry Lembo**), to his left is my gardener and a master of hedge control, Humberto (Marketing VP **Jay Krugman**) and, finally, to Bruno's left, my trusted driver Earl (Promotion Sr. VP **Burt Baumgartner**). Stay beautiful, everyone."

HITs LIST

A Blatant Rip-off of a Good Magazine

WHAT WEASELS ARE WEASELING ABOUT THIS WEEK

1 **ROB KAHANE:** Is that the UK press' footprints all over your back, or are you just glad to see us?

2 **LION KING:** Disney gets something to offset Richard Leher's salary.

3 **ED ECKSTINE:** If we give him credit for Mellencamp and the Kiss tribute, can we also blame him for the Knicks?

4 **JOHN MELLENCAMP:** Sign with Kovac, stage a comeback. Who's next, Wang Chung?

5 **CANDLEBOX:** Platinum and still growing. Maybe NOW you'll take Abbey's call.

6 **BRETT GUREWITZ:** Daddy stands firm as labels try to snatch his Offspring.

7 **DON PASSMAN:** Jeff & Jordan could save a fortune in fees by just buying his book.

8 **RAY DANIELS:** Cool gig, but definitely not worth having to watch "Cafe Americaine."

9 **ANDY SCHUON:** His star rises as "the old VH-1" gets ready to fade to black.

10 **THE WORLD CUP:** On second thought, the rest of the world can keep it.

Batson a Hit at MCA

"Hey" Paula "Hey Paul" Batson has been promoted to Senior Vice President, Public Relations and Special Projects for MCA Music Entertainment Group by Chairman/CEO Al Teller "Like It Is."

Batson will continue to oversee public relations for the Music Entertainment Group, head public relations for MCA Records and pointedly (but deservedly) ignore the HITS editorial staff (*Special HITS Editorial Interpretation*: "She won't give Trakin any bio work"). In addition, she will identify and develop special projects for the Music Entertainment Group while also creating and implementing public relations plans for new projects. Her first task will be to try to get the label out of its recently concluded mega-deal for "O.J. Simpson Sings For Lovers."

Commented Teller: "MCA's continuing expansion into the international arena, together

with the challenges presented by emerging new technologies, have created this new opportunity for Paula to take on added responsibilities. And what's really amazing, that as head of all corporate communications, Paula actually wrote this quote for me. Nyuck, nyuck, aren't record companies wacky?"

Paula Batson: Teller banks on her.

Pictured being happy that Larry Solters doesn't work for them are (l-r): MCA President Richard Palmese, MCA's Bruce Resnikoff, attorney John Frankenheimer, MCA Music Entertainment Chairman Al Teller, Joe Smith, Fred, Rikki Rosen, Giant boss Azoff, MCA's Zach Horowitz and attorney/author/cure-for-insomnia Passman.

Virgin Stones

ROLLING STONES BACK CATALOG:

You can always get what you want.

Remember the Rolling Stones album with the Warhol-designed zipper that really worked? How about the one with all those artsy postcards of the band? Or that classic poster of a goat in a kettle of boiling soup?

Virgin Records has reissued the original, digitally remastered packages on eight albums from the catalog of the World's Greatest Rock Band as part of its new deal with Mick, Keith, Charlie and the boys, leading up to the July 12th release of the group's label bow, "Voodoo Lounge."

The first four — "Sticky Fingers" ('71), "Exile on Main St." ('72), "Goat's Head Soup" ('73) and "It's Only Rock N Roll" ('74) — came out 6/14, while the next four — "Black And Blue" ('76), "Some Girls" ('78), "Emotional Rescue" ('80) and "Tattoo You" ('81) — come out this week (6/28). These Special Collector's Editions duplicate the original artwork in a special DigiKase slipcase (annoyingly, for collectors, slightly larger than a jewelbox) and were all remastered by Bob Lud-

wig. Three more titles — "Undercover" ('83), "Dirty Work" ('86) and "Steel Wheels" ('89) — are slated to hit the streets 7/26, along with the other eight, in regular CD jewelboxes.

"The strategy was to get the catalog out in this new form to capitalize on the excitement of the new release and the summer tour," acknowledged Virgin Sales VP Joyce Castagnola after telling us to forget that pair in the third row for the band's Rose Bowl concert this fall.

The label manufactured 330,000 units on the original eight titles, which several retailers have reported are selling briskly.

"These titles have been off the market for a year-and-a-half, so there's a built-up interest in their re-release," said Castagnola after her daily Jagger collagen lip implants. "We're putting together a massive advertising campaign right now around both the new release and the back catalog. Now buzz off. Bill Wyman's on the other line and I have to cheer him up."

SOUNDTRACK ACTION

This week's Top Ten selling soundtracks: #1 **The Lion King** (Atl/Int/Atl G), #2 **The Crow** (Int/Atl/Atl G), #3 **Above The Rim** (Giant), #4 **Reality Bites** (RCA), #5 **Maverick** (Atl/Atl G), #6 **Dazed & Confused** (Giant), #7 **The Bodyguard** (Arista), #8 **When A Man Loves A Woman** (Hollywood), #9 **Crooklyn** (MCA) and #10 **The Piano** (Virgin).

Traffic School

Seen doing penance for the crime of renting out the House of Blues for a gala Traffic party, thus depriving the club's bouncers from acting like holier-than-thou, A-list-toting, VIP-badge-brokering assholes are (l-r): Virgin President and CEO Phil Quartararo, band mgr. Ron Weisner, Virgin Chairman Ken Berry, Virgin Executive VP Nancy Berry, group member Jim Capaldi, Nina Capaldi, Genia Winwood and Traffic's Steve Winwood. To pay for their sins, the group was forced to return the next night and attempt entry into the glamorous L.A. club using only a legitimately purchased ticket and an I.D.

ACTION

The Top Ten Most Requested videos at **The Box** this week are #1 **Sir Mix-A-Lot** (American), #2 **Puppies** (Chaos), #3 **Aaron Hall** (Silas/MCA), #4 **Warren G/Nate Dogg** (DR/Int/Atl G), #5 **MC Eiht/CMV** (Epic), #6 **Aretha Franklin** (Arista), #7 **Da Brat** (Chaos), #8 **E-40/The Click** (Jive), #9 **Hammer** (Giant) and #10 **Ill & Al Skratch** (Mercury).

Top 40 Geek Love

Kevin and Carol Costa's wildest fantasies came true when their song "I Swear" was performed live by All-4-One in the main activity room of their plush Providence, Rhode Island trailer park, after winning a WWKX listener contest. To show their appreciation for the group's appearance, the loving couple gave the guys first dibs on the complimentary Cold Duck and macaroni and cheese. Now it's time to vividly imagine Kevin and Carol buck-naked on their wedding night. Are the Benedictine Monks accepting applications? Whoa big guy and gal, just asking.

Atlantic Puts Cherry On Top

Film music supervisor Jolene "Life Is A Bowl Of" Cherry has inked an exclusive production and consulting contract with the Atlantic Group, it was announced by Group Chairman/CEO Doug "And the Slugs" Morris and label President "Canny" Danny Goldberg.

Cherry's association with Atlantic started with the chart-topping soundtrack to "The Crow," for which she served as musical supervisor and an executive producer. Cherry has been a musical supervisor for films since 1980, with such movies as "Inside Moves," "The Morning After," "1969" and "Storyville" to her credit. She also co-owns and runs Pressman/Cherry Music, a joint venture with Warner/Chappell.

Commented Morris: "Jolene's work on 'The Crow' is a prime example of the increasingly creative involvement with motion picture soundtracks we want to aggressively explore. And she helped explain to me what the movie was actually about."

Jolene Cherry: Where "The Crow" flies.

©1994 Capitol Records, Inc

Produced by Richard Marx
Management: The Left Bank Organization

At presstime, it was "Mr. **Rosen** Goes To Washington & Sits In Front Of A Congressional Subcommittee." Film at 11.... Most faxed honors for the week go to **Judge Jonathan Parker's** written decision in the **George Michael/Sony** trial. Boasting the most highlighter ink were the judge's comments about **Rob Kahane**, including his contention the manager was "a thoroughly unreliable and untrustworthy witness." He added, "I found him to be motivated to an unacceptable degree by self-interest and a desire to protect his own position." Parker also suggested that if Michael maintained a closer personal relationship with his label, current conflicts might not exist.... From the Irony Dept. comes news of record ratings for **MTV**, and especially "Alternative Nation," as it continues to be less-than-smooth sailing for the channel out in label land.... The spin on **Woodstock '94** ticket sales — at \$574 per minimum purchase of four — varies on who's spinnin'. Those involved are yelling "great." Those who aren't claim "mediocre.".... Eyes remain peeled on one **East Coast titan** as chatter points to

an abdication of the throne.... **LIFEbeat's** massive benefit at N.Y.'s Beacon marked a coming of age for the industry's AIDS organization. Other major events are forthcoming.... Is one **key executive** at a W.C. company the subject of so much adverse chatter that the term "morale problem" is blowin' in the wind?.... As renegotiations conclude, **Michael Jackson** pow-wows with Epic troops over the planned Fall release of his two-disc greatest hits + five new tracks package. Chiefs at said pow-wow included Chairman **Dave Glew**, **Sandy Gallin** and barrister **John Branca**.... **Mark Kargol** grabs the Promo throne at **Motown** as **Frank Turner** becomes a free agent. Meanwhile, **Danny Ostrow** takes over Promo duties at **American**.... Strange tales of one **former top exec** consistently hanging backstage with his former roster.... Amid all the chatter over **Giant's** future, no one has speculated on the possibility of the label getting a **Don Henley** solo album and a new **Eagles** studio album when the legal dust settles.... After the unexpected success of "VH-1 Honors," the channel finds itself two weeks from a switch to **70% currents** and **30% recurrents** as it heads toward a major overhaul. Is a new moniker coming?.... Much buzzing over press coverage of EMI ruler **Jim Fiffeld's \$23 million** compensation package, which includes base salary, yearly bonus and stock plan.... Rumors of a bigger role for **Sky Daniels** at **Island**. Meanwhile, the label's move outta Poly HQ to a downtown locale has headscratchers scratching.... Names in the **Rumor Mill**: **Traci Jordan**, **Fred Ansis**, **Juli Davison**, **David Sonnenberg** & **Michael Lippman**.

LETTERS

FAR TRUTHS

BY JOANNA SPOCK DEAN, NEW YORK

Cat & Mike

Dear Dave:

I'm sure the world really enjoys reading my letters in your magazine. Letters are actually fun to read when the rest of the publication reflects the sick and depressed society we live in today.

So this goes out to your readers. Please let Adelson know that Wildcat Recordings is proving to be very successful and he in fact should do a story on said label. I've sent him the *Billboard* and *Music Connection* story in hopes he figures out that once again HITS is behind the times, but in fact has the chance to catch up and save face. All the best, warm, ass-kissing regards,

Mike Gormley
President
Wildcat Recordings
L.A., CA

HITS replies: Thanks, Mikey, as a favor to you, we've sent the material over to the trade we most aspire to be like... Cashbox

Wild About Gary

Gary:

Hope that this note finds you in good health and spirits. Just had to drop you a quick line to thank you ever so much for the great gift of the Braxtons' 12", "Good Life."

I'm so tickled that you even remembered that I had expressed interest in hearing this. Anyhow, here's to the start of a long-lasting relationship. We'll do lunch when I get back.

Jean Riggins
Sr. VP Black Music
Arista Records
New York, N.Y.

HITS replies: Geez, imagine what she'll do when we send her a copy of our rare Jermaine Jackson 12-inch, "My Heart Belongs To Tito."

Quincy's Jones

Hello Quincy:

I hear you're the new HITS Research Editor. Congratulations! I didn't even know HITS did research! Someone from the magazine suggested I call you. As soon as I need some research edited, I'll call. I hope you have thick skin. According to J.J., you'll need it. Good luck.

Ernie Singleton & Your Jamming Friends at MCA

HITS replies: Thanks for the kinds words, Mr. Singleton. And by the way, we just loved your movie, "Boyz N' The Hood." Even if we do prefer Spike Lee.

Elvis, Granny & Dork

Hey Chris!:

I'm sick of seeing Jerry Blair's picture in the front of your magazine every week! Please pass this photo to the person responsible for "Pic of the Week." I'm still looking for a new gig, so this'll either open new doors or slam them shut. Anyway, that's my Grandma Fliegel on the left, an Elvis impersonator (duh) in the middle and me. Please print this pic so my Grandma has something good to say about me to her girlfriends while playing bridge.

Scott Perry
N.Y.C.

HITS replies: After running this shot, dude, we all should be getting pretty sick, but we do hear there's an opening at the Chapel of the King in Bullhead City, AZ, if you're willing to don the sideburns, gain a hundred pounds and slip into a jewel-encrusted white jump suit.

We saw a couple of good shows these past weeks. Of course, there was one that didn't turn out exactly as planned when we went to see a singer we really admire who hasn't been visible for quite a while. The opener went on half an hour late, and then there was another 45 minute break in between sets — at least it was 45 minutes when we left in despair. We just don't understand the logic in it — if your fans (and hopefully, label types) are waiting to see you, shouldn't there be someone to make sure the opening act goes on promptly — so that *you* go on on-time? (Assuming you can't manage to do it yourself). We've been on the band as well as the crew side of things (yeah, another past life), and unless you're **Def Leppard** or **Aerosmith**, well, it just doesn't seem to make much sense to force people to wait that long before

you take the stage... We went to see a great Bottom Line show for a new singer-songwriter named **Peter Stuart**. Reminiscent of the intensity of a **Mark Curry** or **Chris Whitley**, Stuart was being checked out by **Kenny MacPherson** (and is nephew), **David Steel**, **Ruth Turoff**, **Holly Greene**, **Peter Lubin**, **Elliot Groffman**, **Lisa Masuda**, **Marty Diamond**, **Mitchell Cohen** and **David Kahne**. Peter's been out on support for the **Counting Crows/Cracker** tour and his band, **Dog's Eye View**, will be out with Counting Crows this fall — you should see him... We saw another great little band at Brownies, the **Idle Wilds**

Andre the Giant

Andre Harrell: Paper-trained.

— reminded us of power-popsters like **The Shoes** and the **Mats**. Industry roll call included **Pierre Vudrag**, **Kerry McCarthy**, **Ruth Turoff**, **Jeff Gold**, **Randy Sabiston**, **David Michael Jahn**, **Molly Kaye**, **Franz**, **Fleischli**, **Davida Taurck** and **Charleston** from **Butter**... Then, of course, there was the **Jeff Buckley Band** performance at Fez; the man can *sing*. New songs (played by a great full band) from his upcoming **Sony** release were performed live on the air for **Nick Hill's WFMU** show as well as for 200 or so fans, including **Steve Berkowitz**, **Michele Anthony**, **David Kahne**, **George and Juliana Stein**, **Dave Lory**, **Myrna Suarez**, **Liz Penta**, **Sim Cain**, **Chris Cornell**, **Kim Thayil**, **Phast Phreddie**, **Deena Regine** and **Mike Clark**... We also saw **Sony Music's Bleed**, a band with a cool kinda **INXS** vibe, along with manager **Neda Sarmast**, lawyer **Gary Baddeley**, **Kerry McCarthy**, **Ruth Turoff**, **David Steel**, **Peter Robinson**, **Howard Thompson**, **Robin Danar**, **James Dowdall** and **Rose Noone**... Our wonderful friends at **Paper** threw quite a bash for their 10th Anniversary, which was used as a benefit for **Quentin Crisp**. The entire city of New York seemed to be there, including **Andre Harrell**, **Daniel Glass**, **Cyndi Lauper**, **Fred Schneider**, **Kate Pierson**, **J Mascis**, **Lady Miss Kier**, **Dimitri**, **Russell Simmons**, **Martin Chambers**, **The Lady Bunny**, **Kurt Smith**, **Frances Pennington**, **Allen Freed**, **Combustible Edison** and **Groove Collection**... **Caroline's** new A&R fella **Glen Booth** hosted a showcase at Brownies for some of North Carolina's newest acts, including **Zen Frisbee**, **Pipe**, **Spatula**, **Gramasaurus** and **Mind Sirens**. Weaseling in the midst were **Steve Yegelwel**, **Brian Long**, **Mark Attenberg**, **Mia Jung** and **Steve Patch**, among the elite boldface... In fact, we keep seeing the same [small] group of people out everywhere — where are the rest of you?... Happy Birthday, **Michael**... Thanks to the Bottom Line, **David Hershkovitz**, **Carlo McCormick**, **Fez**, **Karen** at Brownies and **Marty Diamond**.

For Whom The Bell

An exclusive
HITS interview
with Al Bell,
CEO Bellmark
Records
by J.J. Johnson

The legend of Al Bell may not be as riveting as, say, "The Ten Commandments," but it has certainly had its share of titanic moments, walking through water and wanderings through the desert. The history of Al Bell is tied inextricably to Stax Records, a label which, in its heyday, successfully challenged the slick Motown juggernaut.

"The Soul of Memphis," a photo negative of Motown's "The Sound of Young America" ("Soulsville" vs. "Hitsville"), was in its stewy mixture of deep blues, gospel and a country flavor. At the time, the music of Memphis presented an ironic sense of community in the mid-'60s mid-South where black and white musicians blended to make music — pure and simple. More ironic, then, that the demise of Stax began with the assassination of Martin Luther King in Memphis. But that was a different time and place. Things change. Music especially.

Fast forward nearly 30 years to 1994, to hip-hop and "Whoomp! There It Is." Four million sold in 1993 makes it the largest rap single of all time. Now, on to 1994 and "The Most Beautiful Girl In The World" by the artist formerly named after the son of a king. The song was a world-wide smash, with sales figures still being counted. Bell was and is behind that, too. In just over a two-year span, Bellmark Records has become the most dominant independent label in the industry. Bell choked back his pride recently to hang with JAMS Editor J.J. "Mr. Warmth" Johnson before being force-fed Mylanta for a bout of severe nausea.

"I'm
guilty —
and
I love it —
of being
attracted
to
'left field'
projects."

You were a radio guy in the beginning. What prompted your move into records?

I was working at a small station, KOKY in Little Rock, doing mornings and afternoon drive. Promotion people from Houston, Chicago, St. Louis, Memphis, New Orleans and Atlanta would come in to see me. I couldn't understand why they would spend all their time and money coming into Little Rock to see me. So, I figured there's gotta be some money in making these records. I started asking questions and doing my homework, talking to retailers and wholesalers. I left Little Rock and went to WLOK/Memphis. I started my first label, DeVoice, where I learned about production and songwriting, but more importantly, about record sales and promotion.

I later went to Washington, D.C., where I met with the folks at Stax Records, which was then just a little label distributed by Atlantic Records whom I'd first run into while at WLOK. The music they made — Otis Redding, Rufus Thomas, etc. — was not being played in Washington. While doing mornings and afternoon drive again in D.C., I started playing that music. I then formed a label, Safice, and got a distribution deal with Atlantic. Eddie ("Knock On Wood") Floyd was a partner with me and we began to sell product on our label while I played

and promoted the Stax product in the Baltimore area. The records were basically being played in the Mid-South and South, but they couldn't get them across the Mason-Dixon line. So I started playing Otis and got him really hot in D.C. Jim Stewart, the "ST" in Stax, called and asked if I would come to Memphis and take over promotion because Stax was in trouble. So I packed my bags, went to Memphis, disbanded Safice, signed Eddie Floyd to Stax and went to work with the understanding that if I was able to turn it around, I would get part-ownership in the company. Well, nine months later, we had turned it around.

Immediately after the demise of Stax — undoubtedly a traumatic experience — what did you do?

I returned to Washington, D.C., formed I.C.A. Records and released "The Good Thing Man" by Frank Lucas. Then I released "I'm At The Crossroads" by Vernon Garrett, which was the advent of the 12" disk. At that time, this record was what would normally be a Part 1 and Part 2 on a 45 single. But I wanted to provide radio with the entire version of the song without breaking it up. So I took a 12" and put the entire version on one side and an instrumental version on the other side, and the darned thing started to sell.

At the time, disco was coming in. So the kind of music I loved and enjoyed was not, quote, "happening" in the marketplace. Things were changing, and I didn't like what was happening. I respected the new art form, but I didn't like the fact that I couldn't develop unique artists with unique songs. Disco didn't necessarily allow for all that. So that bothered me. I backed away and went to Arkansas. I kept I.C.A. going and would release a few records — just enough over the course of a year to keep my fingers in the water and keep my hands on the pulse of the business. I spent the remainder of my time hunting and fishing and doing some marketing consultant

"When I first got into this business I was told the most you could expect to sell on a black artist was 30,000 albums and 300,000 singles."

work — to politicians as well as to business and industry.

Why did you start Bellmark?

After sitting in Arkansas and watching rap music emerge, I saw the music had, perhaps, gone full circle. What was coming back in once again was the story. I saw it improve and evolve. Rappers were listening to some of the older music and going back to the wellspring for some of the music I cut my teeth on. So I felt it was time for me to get involved in the business again. I came to Los Angeles in 1986, fooled around out here with a little management firm that Rick Frio and I put together, along with a label called Edge. We had a couple of releases, including one on J. Blackfoot, who was with the Soul Children.

During that period, I re-acquainted myself with Berry Gordy. We spent a lot of time talking, and Berry sent me into Motown in 1988, where I remained until he sold it. At the end, I decided to get back into the business full-swing. I formed Bellmark Records, which was designed to release gospel music. At the same time, I formed Life Records for the entire African-American music experience.

We originally distributed our product through CEMA up until about two years ago, and at that time we went into independent distribution. Since then, we've had, obviously, the hit "Dazzy Duks" by Duice and "Whoomp! There It Is" by Tag Team. We also manufacture, market and distribute N.P.G. Records with "The Most Beautiful Girl In The World" by The Symbol, formerly known as Prince.

Tag Team, Duice and The Symbol were perceived early on by certain people as "left field" projects. What did you hear that made you go with them?

I'm guilty — and I love it — of being attracted to "left field" projects. When I first got into this business, the old-timers taught me the most unique word in this industry is the word "unique." You look for that which is unique and different. And that tends

to be, in many instances, "left field."

What major changes have you observed over the years in the record business?

The most dramatic is the one that's obvious... I've seen this business grow from \$300 million a year to \$10-plus billion. I've seen some major changes. The one I'm most appreciative of? When I first got into this business I was told the most you could expect to sell on a black artist was 30,000 albums and 300,000 singles. At that same time, black product was carried in from the back room or under-the-counter. It was not prominently displayed in music stores across the country, but was relegated to something that was not too important. Seeing black music come from that to its present level of prominence, I think, is the most dramatic of all changes.

Where do you see music and the business headed in the next few years?

Back to the future.

What some of us over 30 would call "real" music?

[Laughs] Yeah, I see that. It's a normal evolution. What we've had with this generation of young, creative people who've had this new technology that allowed them to sample is a generation that went back. And this is the first generation to come along who've gone back, sampled and listened to all the old, great, "real" music that you and I know. They're now influenced by that... it's in them and you begin to hear it in their productions. As the days, weeks and months follow and we continue to progress, we'll begin to see some of yesterday's influences in today's music and the music of tomorrow.

What advice do you have for young people who want to be the next Al Bell or Berry Gordy?

Study your craft. Learn what a great song is. Learn what a great artist is. And study this business. After doing all that, be patient, persevere and just don't quit. ■

SULLIVAN'S TRAVELS

An exclusive radio dialogue with Neil Sullivan, PD WOVV, West Palm Beach, FL **by Ed Brown**

This well-traveled Connecticut Yankee spent the first few years of his career at a bunch of small stations in southern New England, before joining Q105 (WQGN) in New London, CT from 1985-'88. Succeeding in attracting a broad demo there, Sullivan was hired at 93Q (WNTQ) in Syracuse, N.Y. encouraged by the station's consultant Larry Berger, who recommended him for the PD spot. He programmed there almost 2 years, winning three of six Arbitrons in both 12+ and 18-34 before seguing to Akron, OH, where he took WKDD in an Adult/Top 40 direction, hitting first place in their target demo for seven consecutive books. That led to his current post as PD at Star 95.5 (WOVV) in West Palm Beach, where he made the mistake of taking a special 1-800 collect call from Larry "Bud" Melman's ugly kid brother, Ed "Been Downtown So Long, It Looks Like Uptown To Him" Brown.

"I CAME IN THINKING WKDD SOUNDED VERY WHITE AND VERY ROCK-LEANING AND THE PERCEPTUALS WERE COMING IN SAYING WE SOUNDED TOO URBAN!"

How did you view the situation at Star 95.5 upon your arrival?

My immediate impression was that we could broaden the station out a bit demographically. It's a powerful 12-24 year old radio station without a great many 25-34s. So I'm trying to make some musical adjustments which will make us more effective with the upper-demo females. Doing that well will help our 18-34s grow.

As far as area competition, the Miami signals come in well, although traditionally they don't score big in this market. We have the powerhouse Adult Contemporary, WRMF. They have the bucks, they're well-connected and promotionally active. I'm hoping to take a bite out of their 25-34 women.

What have you found to be the one radio strategy that works in every market you've been in?

Focusing, targeting and superserving your core audience. Playing the right music for your listeners. You have to do your homework. Callout research is important. Understand who it is you're trying to appeal to, target them and you'll be successful. That's what I've found everywhere I've been.

Have you ever made any programming miscalculations?

When I came to Akron, most of my musical background had been in the Northeast, having grown up around Hartford, listening to Boston and New York radio. The Midwest is a lot more rock-oriented and a lot less

tolerant of urban product that plays great elsewhere. I came in thinking WKDD sounded very white and very rock-leaning and the perceptuals were coming in saying we sounded too urban! Early on, I may have put in a bit too much cross-over product. But I learned from that. You really have to understand what's going on in your market — what they like, what they consider hip. To make a long story short, we got back on course. That's the good thing about moving around to different markets... you get to learn a lot about understanding your particular market. Without getting on my consultant soap box, one of my complaints has been the "cookie-cutter" approach to programming. There will always be things that work in one market that will not in another.

Pick out a few individuals in the industry you admire.

I've always respected and admired Tom Cuddy, who is kind of a mentor of mine. He decided I had the "programming gene" way back when I was doing

part-time at PRO-FM. I spent a lot of time picking his brain. He took me under his wing and taught me many things. On the record side, a guy I go way back with and respect is Paul Barrette of MCA. He always has his priorities straight. He's able to balance family and work. Another person I'd like to mention is Kristie Weimar, from 92Q, who's now gone to be doing middays at WPLJ. She's young and talented and has proven through hard work, a woman can make it up the ladder. I really respect her. Randy Michaels is someone else I respect, a corporate guy who has always been passionate about the product. He encourages programmers to take risks, rather than stifling creativity. Maybe someday I'll get to work for him. (Ed. note: Nice try, Neil)

What's the most fun you've had in your career?

That had to be Q105. We had a bunch of young and hungry people who were passionate about the business. We liked each other and even socialized after hours. Our numbers kicked ass. It was early in my career and a very exciting time.

Any words of wisdom for aspiring programmers?

For young programmer wanna-bes, it's important to observe, listen and soak in as much as you can. Don't be afraid to pick up the phone and call someone you respect in the business. Do your homework. Know your market. If you want to program, hang in there. Be persistent. You have to really want it. It's a competitive industry and the jobs are fewer and farther between. If you're not willing to go the extra mile, 24 hours a day, 7 days a week, you don't want to get into programming. ■

WHEELS & DEALS

BY JOE FLEISCHER

WE DON'T MEAN TO BE NEGATIVE: But, no. The industry has come to the point where it doesn't really need many more regional music conferences. We concede that these conferences are probably planned with the best intentions and are a boon in some instances to the local music community, but has anybody noticed that nobody's going to these things anymore? **SxSW**, **CMJ** and **NMS** are really the only events that weasels can get their minds together to agree on. So, despite the best efforts of the **Northwest Music Conference** staff, there was a noticeable lack of industry presence in Seattle, the waters of which are thought currently to be "fished-out," if such a thing is possible.

Never Say Dye

Leslie Gerard roots for 4 Non Blondes.

Locals **Lazy Susan** (Warner/Chappel Publishing) and budding PoMo hit **Weezer** (DGC) gave strong performances, setting themselves apart from an otherwise very slow field. But if one more person tells me that indoor baseball is a fake, after seeing **Randy Johnson** strike out 12 batters and *still* lose to **Jack McDowell**, we'll clock 'em. Thanks... Buzzers are buzzing about **Island's** new A&R Chief probabilities, while **two west coast-based labels** lock on to targets to lead their weaseling efforts... Congrats to **Leslie Gerard**, who has

left **Interscope Records** to manage the label's **4 Non Blondes**. Rumors of Gerard joining **Gallin-Morey** were only smoke... Minneapolis' **Balloon Guy** took tours on the campuses of **MCA**, **Capitol** and **Warner Bros.** last week, including one given by a label president that spanned the entire lot. Does **Generator Records** owner **Bruce McGuire**, who is also a Warner Regional Rep, give the Bunny a decided edge?... **March Record's** **John "Skippy" McFadden**, always an AOL favorite, has concluded a non-exclusive deal with **Medicine/Giant** for March's **Motorhome**, not the one Skippy lives in over at the trailer park, but the band. All other March signees remain up for grabs, and Skippy will *not* be acting as Midwest Regional A&R Weasel for Giant, despite rumors to the contrary... **Interscope** looks very strong in the **Lisa Loeb** derby... Palpable weaselness at L.A.'s Alligator Lounge last Thursday for **Alias' Throneberry**. Has **Delight** decided on a major partner?... Interscope, MCA and **EastWest** made the trip to Club Congress in Tucson for the appropriately named **Dog & Pony Show** last Friday... **Atlantic's Jewel** will be produced by **Ben Keith**, who produced **Neil Young's** "Harvest Moon," at Young's ranch studio, with some live tracks being recorded in the San Diego coffeehouse where she was discovered... Lots of buzzin' around former **Solsonic Karime Kendra**... One publishing company and three major labels begin to chase L.A.'s **Dashboard Prophets**... **Zomba Music** inks **L7** to a worldwide deal, and is seeking a Creative Manager for R&B and Rap. Fax Zombie **David "No, Not Trent" Renzer** all resumes... **Dead Hot Workshop** signs with **Seed**... **EastWest's Lara Hill** inks L.A.'s **Moonpools & Caterpillars**... **BUZZIN': Sandy Tanaka, All, Beat Angels, Mini-bar.**

POST TOASTED By Ivana B. Adored

CRAZY FROM THE HEAT: We've made our concession to the sweltering summer heat by switching to a lighter weight of black tights (semi-opaque when we're feeling particularly wanton) and by continuing our quest for an airy spot from which to watch the premiere of "Models Inc." Glamor is our life..... Highlights of the "VH-1 Honors": Photo ops with **Ike Turner**, hugging **Mavis Staples**, **Ellen Degeneres'** choice of footwear (Converse One*Stars), **Al Green** and **Bonnie Raitt** and **Brian Phillips:** (showing my sensitive side) **Garth Brooks** and **James Taylor** dueting on "Sweet Baby James." Oh, and the chocolated covered strawberries at the after-show party rocked big-time, too..... **Margie Weatherly** is the new West Coast Alternative Promo Geek at **Elektra**. She says that the most gratifying aspect of her new gig will be to personally hang my **Breeders** platinum (!!!) plaque on my wall..... When **Brian Phillips** calls to tell us about records that are doing well at **99X**, we usually rouse ourselves from our Freon-induced coma and

5.5!!! (But Who's Counting?)

listen to what he has to say. The station's latest trend shows a move from 4.7 to 5.5, so we think this guy can hear a hit, don't you? Right now he's pretty hot on the **Dambuilders** (why can't anybody spell this right????), **Deadeye Dick** (selling albums in Atlanta), **Devlins**, **Gods Child** (already pulling phones) and **G. Love & Special Sauce**. What does he know that you don't?..... If there's anything we abhor it's an overachiever and **Ted Volk** (who we nonetheless adore) sure fits the bill this week with *two* DGC records tied for "#1 Most Added," with **Weezer** ("dork rock" is alive and living in L.A.) and the **Counting Crows** "Einstein On The Beach" (this song sounds so amazing on the radio) from the forthcoming "DGC Rarities" album. Color us impressed..... Speaking of the Counting Crows (a weekly occurrence with us, it seems), they will be headlining **Q101's** summer concert on July 23rd. **Bill Gamble** has given **Adam Duritz** free reign in choosing the other bands on the bill (how cool!), so it looks like **Frente!**, **Gigolo Aunts**, **Velocity Girl**, **Sam Phillips** and the **Chainsaw Kittens** will be playing with the Crows. We wouldn't miss this show for anything!..... The **Knicks** suck but these records rule: **Fredy Johnston** (ask **Bob Waugh**). **Pete Droge** (ditto), **Yousou N'Dour**, **Superstar** and **Nick Cave**..... Fave Add Of The Week: **KOME** adds, as it's written on their faxed playlist, **Arches Of Loaf** "Web Feet." Uh, that would be **Archers Of Loaf** "Web In Front"..... Just try and find better lunch companions than **Matt Keating** and **Throneberry**. Of course, we haven't met **Jeff Buckley**. Yet.

DOM CASUAL KTCL, FORT COLLINS

We usually ignore the faxes we receive but we were elated that we didn't overlook the recent fax from **KTCL** announcing the hiring of **Dom Casual** as their new on-air promotions director and afternoon drive air talent! Not too shabby for a guy whose most recent gig was working in **Lincoln, NE** as a **Ken Williams (KKNB MD)** impersonator! After stints in **Springfield, MO.** and **Salt Lake City**, we know that Dom is going to be very happy in beautiful **Fort Collins**. Well done!

Various Artists, "Songs From Chip-py" (Hollywood Records): In Texas during the Great Depression, a free-spirited hooker by the name of Chippy chronicled her day-to-day activities in the form of diaries. Who better to bring these entries to life and to the stage than the very best of the Texas singer/songwriter brigade. The stunning score includes over 20 songs by the likes of Joe Ely, Butch Hancock, Wayne "A Train" Hancock, Robert Earl Keen, Jo Carol Pierce and Terry Allen, who are all performing together for the first time. Every track stands on its own as some of the finest work by each individual artist.

EIGHT MONTHS AGO "This is such a sleeper and everybody seems to be missing it. But if you put it on the air, I guarantee you will get a great response." —Bob Waugh, WHFS

"After one week of test airplay, **Fade Into You** **WE PLANTED A SEED.** was a Top 5 requesting record."

DORK PICKS

Beck, "One Foot In The Grave" (K): Beck's unique contract with DGC allows him to release his less accessible yet artistically daring recordings on indie labels. Exploring his folk/gospel/blues influences, Beck's fourth LP takes him and his acoustic guitar to Olympia for a few solo warblings and some jamming with the Pacific Northwest's finest indie rockers. Enlisting musical help from members of the Spinanes and Lync, and the unique vocal stylings Calvin Johnson, Beck proves further that he is one of the most exciting and promising new artists of the '90s. (Chris Carey)

The Figgs, "Go Before" b/w "Let's Get Arrested" (March Records):

This Saratoga Springs, NY quartet perfectly exemplifies how guitar pop is supposed to be played. Musically, they are just as tight as anyone from the power pop class of 1979, yet they carry the same fun spirit of reckless abandon the Replacements had circa 1985. Mike Gent's vocals on "Go Before" are reminiscent of Joe Jackson fronting the Undertones. Neither this tune, nor the b-side, can be found on their full-length debut "Low-Fi at Society High." Skinny tie not required. (CC)

HILARY SCHMIDT KUCI, IRVINE, CA

Don't even think for a second that **KUCI** is losing indie rock credibility. Just because their new MD works at a commercial heavy metal station, they are not going to stop spinning indie hits from the likes of the **Grifters** and **Doo Rag**. During the day, she will make sure the repressed Orange County punks get their fill of colored vinyl singles, limited edition albums and the occasional CD. But on Wednesday nights, **Hawd Koa Hilary** takes over the airwaves at **KNAC Long Beach** and plays an hour of the newest and finest hardcore and thrash tunes on her show, **Punk 60**. Too bad if she burns out a few hair farmers.

POST MODERN

POMO PICKS Edited By Ivana B. Adored

Ride, "Carnival Of Light" (Sire/ Reprise): The allusions to Gram Parsons and Neil Young on the t-shirts worn by guitarist Andy Bell in the CD booklet photos are a clue to the influences that have broken down the psychedelic wall of fuzz the British quartet hid behind on their first two LPs. The tinges of country rock on "I Don't Know Where It Comes From" and the ultra Byrds-like "1000 Miles" have helped turn these former shoegazers into a confident pop band, no longer masking their melodies behind massive reverb. (Chris Carey)

MC 900 Ft. Jesus, "One Step Ahead Of The Spider" (American): The Tall One's first LP for new label American, "One Step Ahead Of The Spider" takes MC/NFJ one step further toward a "live" band feel. "New Moon" opens the album with a moment of macabre humor reminiscent of early "Twilight Zone." Joined by Vernon Reid on a great version of Curtis Mayfield's "Stare And Stare," MC/NFJ continues to make records with style. The first single, "If I Only Had A Brain," shows that the MC, aka Mark Griffin, not only has a brain, but also the ability to use it. (Commander Dickie Winn)

Seed, "Ling" (Mechanic/Giant): This Austin, Texas-based band's debut album belies their relative youth (average band member age is only 22) by creating an album of surprising variety and depth. Primary songwriter Chadwick Salas calls upon his late '60s and early '70s influences, particularly David Bowie, the Beatles and Cat Stevens, to create songs of moody, reflective subject matter backed with concussive but precise musicianship. Producer Howard Enson lends his heavy hand masterfully, as evidenced on the already hit-bound first single "Rapture."

Superstar, "Superstar" (SBK/EMI): Self-proclaimed square Joe McAlinden spent a good portion of his youth emerged in the classic compositions of Brian Wilson, Lennon and McCartney, Bacharach and David, and even Vivaldi, resulting in a songwriting and arranging style that is lush, ambitious and complex, while remaining completely accessible and unpretentious. Thick and close harmonies and subtle orchestrations permeate simply constructed pop capsules that raise Superstar to a level slightly more transcendent than fellow Scotch popsters Eugenius and Teenage Fanclub. This is pure pop in rarified form, with guitar help from none other than Alex Chilton.

POMO MUGS

SAM SHE AM: Pictured hanging backstage at Virgin recording artist Sam Phillips' L.A. show are REM's funk-fresh Michael Stipe, Sam, and Sam's husband T-Bone Burnett. Everyone was getting on just famously until Stipe playfully asked if the derivation of T-Bone's name had something to do with the fact that his father was a Rump Roast. A tantrum, a flurry of fists and a group hug later and all was forgotten. Somewhere in the Great Northwest, even Eddie Vedder smiled.

MIGHTY, MIGHTY LONG: Pictured here examining WFNX's newest promotional item, the Gene Simmons Turbo Tongue Extender, as modeled by the Mighty, Mighty Bosstones' Dickie Barrett, are (l-r): Mercury's Don Masters, WFNX PD Kurt St. Thomas, Barrett, Mercury's Jeff Sodikoff, the legendary Gene Simmons and WFNX's Boy Troy. Mr. Barrett commented later: "Thay. Haw did I git thith thing off my tongue, fer chrithakeths?"

THOSE HANDSOME DEVLINS: Capitol recording artists the Devlins cut an attractive figure as they're set against the backdrop of these Lexus-worshipping Capitolists. Pictured trying to figure out how R&R's Mike Schaeffer glommed his way into this photo are (l-r): Capitol's Mick Angus and Paddy Spinks, Peter Devlin, Capitol's Tom Corson, Colin Devlin, Capitol's Greg Seese, KROQ's Gene Sandbloom, Capitol's Phil Costello and R&R's Occupational Classifieds Editor.

PEDDLE TO THE METAL

OVER THE EDGE

Yes, it is hot enough here, thanks for asking. And since we seem to be on a cranky streak, *if you don't like these records, we don't know why: Joan Jett, Sass Jordan, Eleven.* And while we're on the subject... *you played their other track, what the hell's wrong with this one? The Poor, Pantera.* OK, we feel better now... Woodstock '94 "Peace Condoms" hit the market. We want to know if it'll protect you from getting screwed out of \$135 for your tax. *Kidding!* Woodstock requests thru **Ticketmaster** tied up phones to 100% capacity; while a normal transaction takes 60 seconds, each Woodstock order took about 10 minutes... This week's metal debuts from **Overkill** and **Fear of God**, with **Helmet** taking the top retail entry at 6*. Have we mentioned how much we love this record? Active Rock and Metal formats do as well, with "Milquetoast" and "Wilma's Rainbow" leading. Check out **Drown**, which gets this week's most retail play and ask yourself, why aren't *you* playing it? We understand **WYYY's Jonathan Shapiro** and big cheese **Russ Mottla** went on the **Steve Perry** track, "You Better Wait" early. There's a contradiction of terms in there somewhere... Top 10 Rock at **The Box: Nine Inch Nails** who bump **Prong** to #2, followed by **Candlebox**. Pantera "5 Minutes." **Tool**, **Rollins Band**. Pantera "Broken," **Stuttering John**, **Gary Hoey**, **Soundgarden**. Rock Adds from **White Zombie**, **Prong... Kerrung!**, the King of International Consumer Rock Journalism, celebrated its 500th issue with the First (Annual?) Great British Heavy Metal Awards. **Ozzy** received the Lifetime Achievement Award and we understand there wasn't a dry eye in the joint. The awards program is just as entertaining, its five pages reflecting 13 years of classic quotes, most of which are worth repeating, but not here. We also understand one rock-type once again provided peers and press with enough ammo to re-bury his career for another five years. Hot British band of the moment appears to be **Terrorvision** on **Total Vegas EMI**. With both singles and albums in the British Top 20, they've yet to be released over here except as import... What mainstream rock station overheard their metal guys' specialty show and decided it was time to add **Soundgarden**? Hello?... **Domenique Leomporra** leaves **Capitol** to open up **Mammoth's** new New York office as head of publicity... *Bad Taste Award of the Year* (yeah, it's only June, but no one'll top this) to **Pro-Pain** and their label, **Energy**, by taking what we consider to be the ultimate liberty with creative expression. One can only hope the families of those victims featured in this package never have the misfortune of coming across the exploitation of their loved ones in this tasteless manner... Guess that three-day weekend of ours is coming just in time.

Helmet: Betty, Wilma, but no Barney.

"Happy Home" Has Radio And Retail Gnawing For Boney James

THE JOY OF SAX!!!

JAMS wanted to buy a do-it-yourself "Happy Home" kit from the wolves at ACME Home Builders. Strangely, their "EZ-2-Follow" plan calls for a lot of straw. Something tells us this won't be as EZ to build as saxophonist **Boney James'** career, thanks to his solid "Backbone" album. James' "Happy Home" (WB) single, featuring **Bridgette Bryant**, is making radio and retail happy:

WQCD/NYC MD Steve Williams huffed: "Boney is what radio is looking for in a saxophone player. He's smooth and melodic, with his finger on the pulse of today's musical direction." (Ed. note: "There goes radio's rep for poor quotes!")

WHUR/D.C. MD Pam Hall puffed: "I like the record. I like the artist. Phones are already building."

Steve Robertson of **Angott** /Detroit blew: "A consistent Top 5 jazz seller for us. It also doesn't hurt that it's an incredible release."

Ricky Schultz, VP/GM, Jazz & Progressive Music/WB, wailed: "We're real excited about having Boney James join the WB roster. Boney is one of the rising stars on the contemporary jazz scene, and is already demonstrating multi-format appeal."

The JAMS crew has scrapped plans for the straw house and simply strung a hammock between two trees. Just like the office!

THE 411

By J. J. Johnson

RADIO: I once walked into my Hollywood hang-out and ran into one of my Top 40 friends from way back. This was an exceptionally talented guy. He had a really good gig at the time, but was nonetheless crying in his beer because his PD wouldn't let him stretch out and do his thing. Poor baby. Here's the news. Junior: The folks at the station probably had a plan to win before you got there. And it's their prerogative to change the game plan when they see fit. You're paid to do your thing *their way*. However prominent you happen to be at your station or in your market, you're still the equivalent of *one* instrument in the orchestra, one facet of an overall sound. So play the notes or find another band. And quitcher-bellyakin! Later.

QUIET STORM

SOFT & WARM By Kandace Taylor

PEABO BRYSON: "Through The Fire" (Columbia) is an album that, again, reflects the power and sensitivity that's made Bryson the premier balladeer of our time. "Through..." is a pleasurable mixture of contemporary ("Treat Her Like A Lady," "Why Goodbye" and "Love Will Take Care

Of You"), remakes ("Never Saw A Miracle," "By The Time This Night Is Over" and the title cut), pop movie classics ("A Whole New World" and "Beauty And The Beast"), along with several Bryson-penned tunes ("Spanish Eyes," "Don't Make Me Wait" and "Same Old Love"). Radio is eating up "Why Goodbye," but don't ignore my personal favorites, "Treat Her Like A Lady" and "Same Old Love." **HIGH TIDES:** To **Norman Brown** on maintaining the #1 slot on the Jazz Album chart for three weeks! Smooth Sailing!

SMITH & SWEATIN': WGC/Chicago PD Elroy R.C. Smith (r) and Elektra's Keith Sweat, dog-tired though they may be, hang in there in the "WGC/U.S. Savings Bonds" dance marathon to benefit our boys on the coast of Haiti. They raised enough money to send TLC's Lisa "Left Eye" Lopes over to entertain the troops and "keep the torch of freedom alive." (photo credit not by KIIZ/Killeen PD Mychal McGuire.)

ALL THE BEAUTIFUL PEOPLE: Several members of WAR stopped by WYLD/N.O. to scoop up the stunning Neche Thomas and Karen Hince on a romantic campfire jamboree with den leader Lisa "Left Eye" Lopes. Of course, these fly women weren't fooled by WAR's Rae Valentine and Lonnie Jordan, who foolishly tried to pass themselves off as the Neville Brothers. (photo credit coulda been by Mychal McGuire, PD, KIIZ/Killeen.)

THE NEW "GIL SCOTT-HERON SHOW": Former talk show host Arsenio Hall looks his usual stupified self as he and rapper Speech of Arrested Development gawk at the wisdom of the legendary Gil Scott-Heron as he drops the true science. Hall flunked science in high school, so he really didn't understand a word of Scott-Heron's dissertation. Speech had to translate for Hall, who expressed his gratitude by rushing off on a date with "Dog Pound" escapee Lisa "Left Eye" Lopes. Word has it she had that fire-like passion in her eyes. Look out, Arsenio and the Hollywood hills!

BIOSPHERE III CRASHES: Members of the rap group Boogiemonsters look like they want to abandon the "Biosphere III" experiment right then and there don't they? Cause of their gloom was the fact that they had all that equipment to record some tracks for their upcoming "Riders of the Storm: The Underwater Album," but forgot the Memorex. Ironic, isn't it, that the first single is "Recognized Thresholds of Negative Stress," a brief account of the time they hung out with JAMS Rap Editor Shannita Williams.

DANELO IN THE LION'S DEN: The red carpet was laid out, the champagne on ice, the caviar chilled. All Novus/RCA recording artist Danelo Perez (2nd from left) needed was the appearance of JAMS Broadcast Editor Kandace Taylor to welcome her to Novus' product mailing list. However, WBGO/NY's Alfredo Cruz, RCA's Paul Ramey and jazz promotion consultant Marla Roseman had other plans. Seems they thought JAMS Editor J.J. Johnson was the guest, so they diverted the airplane flight to Haiti. It all worked out, though. J.J. is now the figurehead leader of the island nation — and out of our hair. Hey, guys. Kandace is still waiting for the product! (photo credit oughta been by Mychal McGuire, PD, KIIZ/Killeen.)

There's A Guide?
Who Knew!

PLAY MY FUNK: Can we talk about the flight from hell? After a 2 1/2 hour delay, I finally left L.A. at 4:30 am to spend the weekend in Detroit. Why? Beats me, but while I was there, I chilled with **Simple E** and her DJ **Slice**. Other than a serious lack of talent, now I know why being an artist never appealed to me. Traveling all night, video show interviews, in-stores (**Maurice Malone's Hip Hop Shop** and **Shantinique's Records**) and sound checks, in that order, with barely 15

minutes to check into the hotel, change and get back to the venue for show time. But you do get to ride in a flossy limo, though, so it's all good. By the end of the night, I was too beat to do anything but collapse, and E was like the Energizer bunny. She and Slice definitely deserve props. Don't get it twisted; I'm not complaining, really. It's just that we were so hectic. The show was flava, though. **WHYT's Lisa Lisa** hosted while **Simple E**. **Conscious Daughters**, **Jeru The Damaja**, **Nas** and **Ice Cube** blew up the spot. **WDBM's Jason Staten** showed me how they do it in the midwest, too... Now, back to **Maurice Malone's Hip Hop Shop**. Being the shopaholic that I am, the combination of my two true passions, clothes & hip-hop, was almost too much for me to handle. In other words, I spent too much. But every Saturday they have an open mic session that's quite fat. When you get to Detroit, and you will, 'cause some serious unsigned talent is there: check **Maurice** out. Call **Jessica Moore** at 313-838-5942 to set it up. I had pictures, but the film got zapped, oh well.. Then there was the **Prince** show at **Glam Slam**. Okay, I know you wonder why this is in the rap column. C'mon, you had to notice that he uses more hip-hop-inspired beats and wrecks a little shop on the mic these days. Besides, there's a lengthy shot of **HITS** in the "Love Sign" video. Maybe it's just me. (Thanks for the hook up, **Amanda!**)... Wassup with the rumored move to FM for **WJPC**? I'm sure **Joy Alan** will let me know what's goin' on soon... How about **WHJX** cutting back on hip-hop? **Brian B** is out again; we hear it's because he was too true to the underground. Say it ain't so... Anyway, check out "Ice Froggy Frog" from the "Fear Of A Black Hat" soundtrack, **Wu-Tang's** "Can It Be All So Simple" (both added to **The Box** this week), **Scientifik's** "Jungles Of The East," **Flatlinerz** "Live Evil" and **Volume 10's** remixed, re-release "Pump," which is blowin' up at radio. I'm gonna get rest. Until next time...I'm out.

NICE & SMOOTH "Jewel Of The Nile" RAL

It's the return of the Hip Hop Freaks! Nice & Smooth are back on the scene with their third, and probably best, project to date. They freak the flow with everyone from Slick Rick on "Let's All Get Down" to Bobby Brown, whose vocal stylings can be heard on "...Hip Hop Freaks." However, the track that will catch you by surprise is the soulful ballad "Cheri" where not only does Jodeci's Jo-Jo sing backup, but more importantly, Smooth B makes his singing debut. Don't trip though 'cuz Smooth B blows on this Prince Markie Dee/Mark C. Rooney produced track. Other jams to watch include "Do Whatcha Gotta" and "The Sky's The Limit."

BLAC MONKS "Secrets Of The Hidden Temple" Rap-A-Lot

The first time I heard "Secrets..." I was riding down 125th Street with my boy from Rap-A-Lot. I was on some ol' anti-gangsta rap vibe and wasn't trying to hear this album because I was convinced it would be stereotypical of the Houston rap scene—hardcore gangsta. But I was very pleasantly surprised by the smoothed out grooves and lyrical skills the Blac Monks came with. "Secret..." is full of elemental metaphors and deep bottom heavy percussion and thick "jungle" bass characteristic of Bido-1's production style. Check out "Aggravated Monkey," "Death Before Dishonor" and the title track for a taste of 3-2, AWOL and DA's flava.

CRAZY SAM "& DA" VERBAL ASSASSINS Atomic Bomb/Street Power

If you've been in New York and know anything about the local scene, then you've heard of Crazy Sam from Video Music Box. What you may not know is that Sam hooked up with Big Daddy Kane, Apache, Red Alert, Prince Messiah, E-Nasty, June and Verbal Assassins Stalker, D-Terror and Darkman to drop a fly new compilation album. Produced by Kid Scratch, Crazy Sam and his homies come correct with dope lyrics, kickin' beats and a sense of humor. Listen to "Good Life," "Shout It Out" and the current single, "My Hoodie," to see where he's coming from. And rent "House Party III" to see why they call him crazy.

THREE QUARTER INCH

ORGANIZED KONFUSION
"Stress"
 Hollywood Basic
 Director: Michael Lucero

Debuting at #19 with, early adds this week come from **Power Play**/Newark, **Rap City**/ National and **CMC**/Oakland.

Rappers Organized Konfusion takes us through three stages in this video: konfusion, stress, and a search for peace. A big city; fast-paced, chaotic. Then into an over-exposed ghost effect (after a long day of seein' crazy shit), which dissolves into a snow-blanketed forest — peace. **Michael Lucero** wanted to make a video that differs from the typical "in-your-face" rap video. How often does a hip-hop artist frolic in the forest? Worth a look. **Christina Anthony**, Nat. Dir. AC/Video Promotion/Hollywood, says "The video is riveting. 'Stress' will cross over all formats." Check it out on The Box #456. (Christina Alexander)

P R @ P S

California Music Channel (CMC)

has a man who has his finger on the pulse of the Bay Area rap music scene. **Andy Kawanami**, Program Director/Host of "Hip Hop Fridays" (2.25 million reach on broadcast and cable), is getting big requests on **JT Da Bigga Figga**

(Get Low), **Dre Dog** (In A Minute) and **E-40** (Jive), a groundswell of Bay Area acts whose videos are just starting to spread across the country. Andy started spinning records at **KSOL** at night on the "The Hip Hop Seismic Shock." In 1991, just when he thought things couldn't get any better, Andy was hired at CMC as Production Manager. The **San Jose State** student would like to send a shout out to all the video promotion people who have supported him and the show over the years. Andy's hot tips for the week are **Extra Prolific's** "Brown Sugar" (Jive), **King Just's** "Warrior Drum" (Select) and **O.C.'s** "Time's Up" (Wild Pitch). Peace! (Terry Moser)

RERAP

BY MARK PEARSON

NARM has reiterated its endorsement of the acousto-magnetic technology to be used for "source tagging" by the manufacturers. The move comes seven months after that very same technology was rejected by the Big Six distributors on the basis that it caused sound problems on Type I cassette tapes (the kind most used by the manufacturers). At that time, retailers complained the distributors were simply dragging their feet in order to delay having to pay for the implementation of the theft-deterrent system. NARM's Pam Horowitz reportedly visited each of the major distributors personally trying to rally support and apparently felt successful enough to issue a statement standing by their original endorsement. The Sensomatic acousto-magnetic systems are currently being used in approximately 2,300 of the 7,000-store NARM membership. Even so, many insiders believe that NARM's stand may have a chilling effect on future negotiations. "Certain record companies have also expressed a desire to test other EAS technologies," Horowitz admits in a press release. "NARM certainly has no objection to such testing if the companies believe it would be helpful." Stay tuned... Just one week after TransWorld Corp. an-

nounced its admittedly "lackluster" numbers for 1993, the ten-store Alwick Records based out of Elizabeth, New Jersey, announced that it had terminated an agreement with TransWorld to sell seven of its stores. TransWorld's apparent inability to raise the funds needed to complete the transaction by the required date was the reason given for the demise of the deal. Alwick's president, Carlo Pietrangelo, said: "The company has no intention to seek a new buyer for the stores. Business has been excellent and we are pursuing plans to open additional stores, including a location in Toms River, N.J. that is scheduled to open in the fall of this year."... Universal One-Stop celebrated its Third Annual Convention on Tuesday (6/21) and Wednesday (6/22), and the two-day event was a raging success. Four hundred accounts were represented and over a thousand people showed up to be entertained by the likes of Take 6, Blackstreet, Boney James, Norman Brown, Vanessa Rubin, Afro-Plane, Ill Al Scratch and the incredible Ted Hawkins. The bands were alternating between two stages, one at the Katmandu Restaurant and the other at The Elizabeth (a ship docked on the Delaware, a mile down the river from Universal's warehouse). Curt Eddy was there to show off PGD's new "Full Court Press" campaign with an arcade-style basketball game that had everyone shooting hoops. Craig Applequist kicked off Sony's "Strictly Street" campaign on Wednesday at the Illusions nightclub, featuring sets by Patra, Da Brat and the Fugees. Other faces included Atlantic's Pete Anderson and Nick Maria, Warner's Earl Jordan, Pat Shields and Ricky Shultz, BMG's Rick Cohen and UNI's Ron DeMarino. Universal's Frank Lipsius did himself and the entire organization proud. Congrats.

Perfectly Frank

Frank Lipsius: Universal appeal.

MINI MUGS

CEMA, FEEL ME, TOUCH ME, WHEEL ME OUT: CEMA Distribution announced its 1993 Branch and Executive Awards Winners at the company sales and marketing meetings in Phoenix before the following were thrown out of the local hotel when CEMA Sr. VP Sales Joe McFadden dove into the pool from a seventh floor window (l-r): McFadden; CEMA Chicago "Branch of the Year" staff, including Sales Mgr. Paul Wittcoff, Branch Mktg. Mgr. Risa Bridges-Hall and Branch Mgr. Dave Witzig, and CEMA President Russ Bach.

OY CANADA!: Making sure HITS has its required Canadian content, along with the all-too-predictable japes about back-bacon, Molson's and toques, eh?, are RCA recording act ZZ Top, who take a break from their ongoing world tour at Maple Leaf Gardens in Toronto to have the following label weasels present them with gold albums for their BMG debut, "Antenna," and pick the lice out of their beards (l-r): Lone Wolf Prod.'s J.W. Williams, the band's Frank Beard, BMG Music Canada President/GM Bob Jamieson and ZZ Top's Billy Gibbons and Dusty Hill.

JACKSON & DIANE: Rich songwriter Diane Warren (l) and politically correct jilted lover Jackson Browne (r) compare notes on the O.J. Simpson case during the 1994 ASCAP Awards at the Beverly Hilton Hotel, where the organization's Tom DeSavia worked the room, going, "Gum, cigarettes, candy?" Warren picked up a pair of awards, which she traded to Browne for John F. Kennedy Jr.'s home phone number.

HITS

WAVELENGTH

BY LENNY BEER & MICHAEL ST. JOHN

The top news of the week comes out of Seattle, which is becoming quite a hotbed of news. Unconfirmed sources tell us that **KUBE** programming guru **Bob Case** is about to be named as General Manager of not only KUBE but also **KJR A/F**. Also, look for **Mike Tierney**, most recently of crosstown **KPLZ** to replace Case as PD..... It's also a big week in the promotion world as two key jobs have been filled. **Jive's Mark Kargol** takes the throne at Motown, replacing **Frank Turner**, who helped revitalize the company in the past three years but ran into contract difficulties when the Motown/PolyGram sale was completed. Look for him to take the reins on 7/25. Turner remains in Atlanta as a free agent and can be reached at 404-497-8488. Also ending their job search this week is American Records, as **Danny Ostrow** moves over from PLG (oops, we

mean Island). Look for Ostrow to move to LA and take over in late July. Also, while other trades are trumpeting that **Maverick** is also

about to hire a promo leader, the truth is that their search is continuing without so much as a lead candidate at this point..... As the **Summit** deal

moves closer to its official closing date, action is heating up around free agent to be, **Mary Catherine Sneed**. Will competing stations hire her, and have these discussions already begun?..... Sales and overall reaction to the **Seal** record are totally positive. It's time for stragglers to **GET SERIOUS**..... At **92Q** Baltimore, Operations Manager/Consultant **Lee Michaels** will exit at the end of the month. Look for **Bob Mitchell** to officially be named consultant. The station continues its search for an MD with the hottest names coming out of Hartford: **WKSS'** **Kandy Klutch** and **WTIC's Dana Lundon**.... **WBBO** Greenville names **Bill McCown** as PD, replacing the exiting **Mike Murphy**..... At **KDWB** Minneapolis, MD **Kevin Peterson** receives APD stripes..... Two names swirling in the **KHKS** Dallas PD

(continued on page 80)

A bunch of people who are lucky that they're not selling shoes hang out at the recent **Bobby Poe** confab in Washington, D.C. We apologize in advance for making you have to look at them.
