RADIO STATS

OUR RELATIVE CHARTING, AS SEEN BELOW, RESEMBLES BASEBALL'S BATTING AVERAGES. IT ESTABLISHES A RATIO BETWEEN THE IDEAL, (HEAVY AIRPLAY AT EVERY STATION WHICH REPORTED); AND THE WEIGHTED COUNT THAT A RECORDING HAS ACTUALLY EARNED. THIS MATHEMATICAL FORMULA IS APPLIED TO EACH RECORD—FIRST REGIONALLY, THEN NATIONALLY. A DUAL WEIGHTING SYSTEM IS USED TO DERIVE THE COUNT. IT ADJUSTS FOR MARKET SIZE AND FOR HEAVY OR MODERATE AIRPLAY. THESE CHARTS SHOW THE RELATIVE INTENSITY OF RADIO AIRPLAY FOR BOTH NEW AND ESTABLISHED RECORDINGS.

NEWS/PUBLIC AFFAIRS:

WBCN's weekly call-in program Night-Talk is continuing to generate considerable listener interest and involvement. Our most recent program featured three activists from the South Boston-based anti-busing movement who "let it all hang out" under some intense questioning -- more or less revealing their paranoiac anti-communism, rabid racism and approval of violence against those with whom they disagree. It was a volatile program -- provoking the most response we've ever had to any one public affairs show. In the week before, yours truly received a death threat from these folks -- and so I fear that we may be in for more problems.

Boston Continued...
WBCN-FM

While one of the leaders was condemning black crime on-the-air some of his supporters were quietly ripping off our news office.

Other interviewees on recent Night Talks included the State's Insurance Commissioner, James Stone; Fred Ross, the man who now works for and originally organized Cesar Chavez; reggae raver Peter Tosh and the Persuasions. We are open to interviews with music folk and highlighting the sort of music that don't get as much airplay as they should on FM radio, particularly music of a political character.

I am also pleased to announce that I've just been named a Nieman Fellow at Harvard University for the school year which begins in the fall. I am the first FM radio journalist, to my knowledge, to be so honored so perhaps others might try in the years to come. I will be taking a leave from WBCN beginning in October. The Nieman Fellowship is given to working journalists, usually at the big newspaper or broadcast outlets.

That's news,
Danny Schechter

New kid in town is music director Barry Neal. Happy to be here and working again with station manager Jay Mitchell. We originally worked together six and a half years ago when we had the same titles at WBLI Long Island.

Looking forward to getting into all the many exciting things taking place here and working with the really professional, talented staff. I'll be on-the-air from 10-2pm.

A quick question to
throw out for comment: "As
a programmer, do you define
jazz in terms of a boundary
or in terms of a direction?"

In other words, does your
definition divide music into

NEWS/PUBLIC AFFAIRS:

Alice Bell, the city's first black woman's news director has been hired. Alice has been a volunteer since the station started and we welcome her addition.

COMMENTS:

It's summertime and sometimes, volunteer radio gets spread a little thin. We hope to have our power increase by early fall. WYEP puts out a monthly program and we would be happy to send it and/or rate card. Write: Jeff Smith, WYEP, 4 Cable Place, Pittsburgh, Pa. 15213.

Thanks to Catherine Wallace of Polydor, Flying Fish, Arista, RCA for good service.

COMMENTS:

We are currently involved with the second annual WHFS "Radio Activity Contest." Listeners submit a two hour long playlist of songs they would like to program on-the-air and we select six entrees as winners. It's a lot of fun for everyone involved and generates a large response from the audience.

NEWS/PUBLIC AFFAIRS:

The Pittsburgh Journal has been working hot and heavy covering stories on the use of hypnosis in police work; the local gay community reaction to Anita Bryant's anti-gay campaign... and conversations with Ken Henley and Mick Box of Uriah Heep... to name a few. Will be speaking with the illustrious Crosby/Stills & Nash on their visit to this fair town.

Los Angeles... what can I say... a fascinating town... hope to be returning there soon.

And the WYDD E-Z Wydders Softball Pros are 5-1 for the season... with a full season ahead of us once again... a lot of good partying and fun for all.

Things have just been generally hectic after two weeks of fun in the sun... will have more to report next time.

Congrats to Charlie Kendall... new MD for KWST FM.

COMMENTS:

WYDD announces two new changes on our air staff. First of all we are losing our all night man, Richard Lee, who will be returning to his home in New York City.

Anybody out there in the Northeast area looking for all night man, who is hardworking and dependable give Richard a call. He can be reached at 212-793-2029.

We welcome Mike Butcher as our new all night man.

WYDD presented Mahogany Rush, Budgie, and The Pezband at the Tomorrow Club in Youngstown recently. Had a successful promotion in introducing the band Alexis to Pittsburgh. Showco brought in a trailer with a large Advent screen and did an audio-visual presentation on the band at a local record store. WYDD gave away Alexis YDD T-shirts, bumper stickers, buttons, etc. We had a good turnout. Thanks to Dave Lonco at MCA for coordinating the whole affair, YDD jocks, Jack Robertson, Kevin Carroll, Jim DeceSare, and Ken Curtis took the 'plunge' for the Heart Fund. They submitted themselves to 1/2 hour each in a dunking machine at a local carnival, which confirms our suspicions that the YDD air staff is all wet anyway.

LATER!

It's good to be back after my African vacation. While I catch up on all the new releases, the boss will comment.
- Bernie

To Record Companies: Over the last few weeks we've been receiving more and more calls at the station inquiring where to buy some of the new releases we're playing. Coming from a retail record background I know how important it is to get new product into the stores... And it's probably getting harder since the list price of Lp's have gone up - the thing is - you can't keep releasing new material and have no one stocking it. It makes no sense.

Hi... sorry for the long gap in the ZOO tapes. Between the ARB and a couple of DJ's splitting, things have been pretty hectic at KZEW.

Lots going on promotionally at the ZOO. We're doing a series of ZOO Safari's... free bus trips to other cities to see rock shows. Our first one was a Heart transplant to Oklahoma City (home of KATT) to see Heart. Also slated are journeys to Houston for REO Speedwagon, and a couple other nearby villas.

We tried to set the world's record for the largest band ever recorded. On June 11, we gave away nearly 20,000 ZOO Kazoos at halftime of the Dallas Tornado Soccer game.

Dallas/Ft. Worth Con't.

We recorded the state song and played it back on-the-air. On June 18th, we did a live Saturday afternoon concert starring Dallas' very talented Bees Knees live from the brand new Pacific Stereo location in town. It was the debut use of our new microwave concert system.

Peaceful ways,
Ira Lipson
Zoologist

COMMENTS:
Helllllllooooo Betty!
The first World Series of Rock was a success, and considering the circumstances, that's saying a lot! First off on Friday (concert was Sunday the 5th) Aerosmith was forced to cancel due to the drummers unforeseen injury! The weather was not the best, it looked as if the heavens were ready to explode any moment-but we were blessed with nary a raindrop the entire day. The line-up was Nazareth, Southside Johnny & Jukes, Ted Nugent (real mellow!!!!) and Todd Rundgren's Utopia. Everyone had a great time, and for the most part the animals of WMMS were well behaved, wonders will never cease! Next up is Pink Floyd on June 25th which is nearing a sellout already! By the way we have a favorite new group here and we're having a 101 concert to spread the word, it's Mink DeVille at the Agora on the 16th. We had a pool game with Leo & Jeff to promote the Q Lp, and Jeff won both games! Ha Ha Kiddo! The winner received a custom pool table.
Summer is great so far and if you're in the area stop by...

COMMENTS:

KZAM is sponsoring the
second annual Northwest
Frisbee Championships this
weekend and next. This
weekend (June 12) is called
the KZAM K-9 competition
and will feature some of the
great Frisbee dogs of the
Northwest. The animals will
be judged on accuracy and
distance. At this point, there
are almost 50 dogs signed
up. No one at the station has
signed up for the clean-up
crew.

The following weekend
is for all of us real people.
It is the Northwest Frisbee
Championships co-sponsored
by Seattle's own champion-
ship Frisbee team, the
Olympic Windjammers.
Competitors will be working
for national points as well
as a chance to get to the
World Frisbee Champion-
ships at the Rosebowl in
August. Also, the media
will be out this year and
there are plans for a public
T. V. documentary on the
event. --Jeff

We've been involving ourselves with some great new movies including Star Wars, The Deep and The Fantastic Animation Festival. For our premier showing of the Animation Festival we awarded a trip to Disneyland for the most impressive fantasy image of our listeners. The winner was "Captain Cavity." Also the undefeated 93 Wino Junkos roll on soundly trouncing Pan Magazine bay area musicians for win No. 8. Bill Graham choked off the Wings on only 16 runs. Next - the Starship and Pablo Cruise.

COMMENTS:

It's been pretty lazy around here the past month, as everyone recuperates from the "whale promotion." Had a visit from Flora Purim & Airta (eye-ear-toe) while they were in Eugene for a show. It was nice to meet the lady behind the incredible voice.

As summer gets underway, we're readying our crew for softball season. Any musicians passing thru are invited to bring their mitts. And speaking of sports, congratulations to the Portland Trailblazers!!! What a team.

RETAIL STATS

OUR RELATIVE CHARTING, AS SEEN BELOW, RESEMBLES BASEBALL'S BATTING AVERAGES. IT ESTABLISHES A RATIO BETWEEN THE IDEAL (TOP 5 SALES AT EVERY REPORTING RETAILER); AND THE WEIGHTED COUNT THAT A RECORDING HAS ACTUALLY EARNED. THIS MATHEMATICAL FORMULA IS APPLIED TO EACH RECORD—FIRST REGIONALLY, THEN NATIONALLY. A DUAL WEIGHTING SYSTEM IS USED TO DERIVE THE COUNT ON THE HITS. IT ADJUSTS FOR STORE CHAIN SIZE AND REPORTED POSITION IN THE TOP 15. A SINGLE WEIGHTING SYSTEM WHICH ADJUSTS FOR STORE CHAIN SIZE IS APPLIED TO THE BREAKOUT REPORTS. THESE CHARTS SHOW THE RELATIVE INTENSITY OF RETAIL INTEREST FOR BOTH NEW AND ESTABLISHED RECORDINGS.

COMMENTS:

Big increase in store traffic is a result of an experimental price reduction on merchandise in downtown stores as well as several suburban outlets. \$4.99/\$5.99 Lps have been reduced to \$3.99/\$4.99 respectively on the top 30 or so Lps. Tapes of these Lps dropped a dollar to \$5.97.

Thanks go to Rick Weber who, along with Dave and his crew from MCA, presented a video tape of Alexis to employees of N. R. M. Tuesday (June 7). A very versatile band.

Star Wars, which recently opened in the Pittsburgh area, is creating intense reaction on the movie-going public. The Lp is doing great business. People are buying tickets two hours before each showing to assure them a seat. Only problem is the location of the theatre. It's outside of Pittsburgh in a free-standing location, so a lot of trade-off traffic from the crowds to surrounding businesses is lost. I'm sure that the Lp sales of the soundtrack would be much greater if the movie was playing at a downtown venue.

Crosby/Stills/Nash appear here on June 11th; I'll be reviewing it in the next Walrus.

Thanks to Kirt from Jet Records for the blue vinyl ELO Lp. They are a super promotion-minded group. Anyone who has a yellow vinyl "Ole ELO" that they'd like to sell or trade, contact me at: Box 3231, Pittsburgh, Pa. 15230.

COMMENTS:

Everyone at Record World wants to thank Southside Johnny/Jukes & Ronnie Spector for making a personal appearance at Roosevelt Field Shopping Center, L.I. A special thanks for the wonderful people at Columbia and Epic Records for making it all possible. Again thanks to the group and Ronnie for signing albums and 45's that people purchased while they were there. More and more record companies should have their artists work with the stores to promote their records.

COMMENTS:
So little Peter Frampton has a new album out. And A&M decided they'd better up the price of Comes Alive, how clever. Why not change some of those covers instead of the price, and tell him to look at somebody else on his new cover, he makes me nervous always staring at me. Oh well it's like Dylan told us "When you ain't got nothing, you got nothing to lose." That's right, isn't it Peter?

Also, I would like to extend a warm thanks to KWKI and KYYS-FM for never playing Southside Johnny, Nils Lofgren, or The Band. With friends like you guys, why do they need to record, and why do I need to sell records. Really you guys, what does it take to make you see what you've deprived this city of?

How many times can you feel the presence of an artist by listening to an album? Very rarely if at all, but Keith Jarrett comes as close as possible. Staircase, when heard can also be felt. Truly amazing for a studio album.

CONCERTIZING

WVPE-FM/Elkhart, Ind. - Joe Lightner

Artist(s): SOUTH SHORE; FOREIGNER

Place & Date: Morris Civic Auditorium,
South Bend, Ind. - May 19

Ticket Price: \$5.50

Capacity: 2400

Attendance: 1600

Production Values: Fair

Reviewer's Reaction: Although we gave away tickets to this concert, I have to regretfully say that I was not impressed. That Foreigner is a relatively new group was made obvious by the lack of an overall "tight" musical sound. There were ragged edges all over, made even more obvious by overpowering noise levels. I must say that the musicians who comprise Foreigner are not new to music - all have paid their dues in other noted groups - but they certainly need more road work to polish their act. "Starrider" was the most effective song they performed, but it too was plagued with problems in that the "fantastic laser show" (as it was billed), that was to be the highlight of this piece, was a fizz. It could probably have been produced at least as effectively with flashlights covered with Roscoe gel. (They're paying ten thousand dollars to take THAT to Denver??)

The lead-off band for this concert was a local group called South Shore (named after the ailing Chicago to South Bend Railroad.) The railroad may be ailing, but the band is not. This group may become something to watch for in the near future--and I'm glad to see it. They've been paying dues of their own for some years now in night spots around the South Bend area, and it's about time for their hard work to start paying off. I was pleased with the performance of this local group which did original material and will soon be releasing an album.

KBLE/Des Moines, Iowa - Ron Sorenson

Artist(s): HEARTSFIELD;

CLIMAX BLUES BAND; FIREFALL; MARSHALL TUCKER

Place & Date: Iowa State Fairgrounds, Iowa Jam,
May 29

Ticket Price: \$10.00/\$11.00 day of show

Attendance: 23,000

Production Values: Good - excellent

Reviewer's Reaction: First outdoor show of the season was quite a success due in no small part to the heroics of Steve White's Music Circuit Prod. stage crew who rebuilt half the stage the night before the show after a racing accident wiped it out. Heartsfield did a tight, well-received set, replacing Commander Cody. Climax Blues Band cooked through their set also well-received, particularly the single and a fine version of "Get Back." But the crowd was obviously out to see Firefall and Marshall Tucker. Firefall rocked out more than I expected, perhaps in response to the audience, which was there to boogie. Instrumentally, Jock Bartley on lead guitar was the stand out. He sizzled! Firefall did several new tunes from their just recorded Lp. (In fact, Rick Roberts was off to the West Coast to O.K. final mixes as the show ended. Hope to see it soon!) Marshall Tucker was professional, tight, and challenged by the quality of the opening acts, put on quite a show, playing several tunes from Carolina Dreams and classics from most all earlier albums. T was a fine day and fine music. Sound and production as good as can be had outdoors. Thanks to Steve White and Music Circuit Productions.

CONCERTIZING

BEACON SHOPS/Providence, R. I. - Steve Perry
Artist(s): TODD RUNDGREN/UTOPIA
Place & Date: Orpheum Theater, Boston - May 17
Type of Place: Concert Hall
Ticket Price: \$7.50
Attendance: 90% Full
Production Values: Excellent
Reviewer's Reaction: Beginning with a 20 minute film featuring a new song by each member of the band (the visuals were vintage Peter Max) this concert was the musical event of the year in New England. A 30 foot pyramid, 25 foot Sphinx (featuring intricate lasers and strobes), water fountains, etc. still took a back seat to the music. They performed the entire RA album, along with old favorites -- "International Feel," "Just One Victory," "The Last Ride" (the ultimate) "Heavy Metal Kids," "I Saw the Light," "Couldn't I just Tell You," "Death of Rock & Roll," "Eastern Intrigue," "The Wheel," "Seven Rays," "Mister Triacuita," "Something's Coming," etc., etc. When you lay down good money on a Todd ticket, you can count on at least 2-1/2 hours of non-stop energy (unlike almost everyone else). As usual, Boston was the last stop on Todd's tour. Unlike past years (thanks to added vocalist and front man, Kasim Sulton or bass) Todd was a ball of fire from start to finish in the last gig of a worldwide tour. More than "A Wizard, a True Star," Todd is undoubtedly music's answer to the messiah.

WRSU/New Brunswick, N.J. - Irv Lukin
Artist(s): JESSE WINCHESTER
Place & Date: Bottom Line
Type of Place: Folk Club
Ticket Price: \$5.50
Capacity: 600
Attendance: SRO
Production Values: Excellent
Reviewer's Reaction: Good clean air, water and conscious has matured this fugitive from Big Pink into an excellent performer. With a wealth of sensitive material, Winchester is able to please and then capture his audience. His songs have retained an intimacy groups like The Band had when they sang "Stage Fright." Welcome back Jesse, welcome back.

PEACHES/Columbus, Ohio - Bernard Schrader
Artist(s): DANNY GREEN BAND
Place & Date: Ohio University
Type of Place: Hall
Ticket Price: \$2.00
Capacity: 200
Attendance: 125
Production Values: Fair
Reviewer's Reaction: Equipment trouble started off their set but after that was cleared they began to play with enthusiasm and prowess. They blended their acoustic and electric very well. Doing their original material proved to be the highlight of the performance. The most outstanding numbers being "County Line," "Lila," and "These Ohio Days." They showed the ability to become a known and respected group with a good future. They only have to keep working hard to let people hear them.

WYUD/Dayton, Ohio - Dan Covey
Artist(s): EMERSON, LAKE & PALMER
Place & Date: Riverfront Coliseum - May 28
Ticket Price: \$7.50, \$8.50
Capacity: Approx. 15,000
Attendance: 11,900
Production Values: Excellent
Reviewer's Reaction: This being only the second show of ELP's world tour one would have expected a few flaws here and there. But this wasn't the case. ELP, along with their "traveling band" (78 piece orchestra!!) presented an evening of incredible music. Probably the biggest factor was the intensity of the presentation! Each instrument in the orchestra was individually-miked for amplification. Each member of E. L. P. did solo work with the orchestra, and then they regrouped for a number of tunes. The majority of the show concentrated (obviously) on Works, Vol. I. Highlights, musically, were "Pictures at an Exhibition" and "Fanfare." The highlight, visually, was the entire stage set-up. Earlier, in an interview, Carl told me he felt the group had to present something out of the ordinary, after 2-1/2 years off. This show was "out of the ordinary," and proved to me they've still got it. Welcome back...and "see the show!"

KVAN/Portland, Ore. - Sleepy John Cuthbertson
Artist(s): CLOVER
Place & Date: Paramount Theatre - June 1
Capacity: 2,900
Attendance: About half
Production Values: Good
Reviewer's Reaction: Clover is a band from Marin Co., California who have been together for quite some time but it took a trip to Europe and a record deal with Vertigo to get them on vinyl (the LP's coming out on Mercury soon, tho). Their set was short (Head East & ARS shared the bill) and covered some of the LP cuts plus a few extras and with a little more road work their live show will do just fine.

KVAN/Sleepy John Cuthbertson - continued...
 After a layoff from touring, it took them their 35 minute set to get cooking but the last couple of tunes were good! Give 'em a chance and give 'em a listen...they're worth it.

LONGHAIR MUSIC/Portland, Ore. - Michael Adelsheim
Artist(s): CORNELL HURD & HIS MONDO HOT PANTS ORCHESTRA
Place & Date: Euphoria - May 25 thru May 28
Type of Place: Tavern/club
Ticket Price: \$1.50
Capacity: 262
Attendance: 15/15/200/150
Production Values: Fair - considering conditions
Reviewer's Reaction: Rave, rave, rave. This 7 piece bar band from San Jose is tight and satirical. Building on a Western swing base, this band explores rock 'n roll, rock, funk, and low budget props. Most of the songs are funny originals, from "Hangin' Out by the Pool," "You Got to Get Out of My Way Fool," "I Can't Help Being Cool," to "My Not-So-Groovy Lifestyle." With soprano sax, two guitars, electric piano, everyone is more than competent on their instruments. What impressed me most, in the face of light crowds on the first 2 nights, the band refused to break with its act and just goofed around. Very professional, as a hard working road band, Cornell and his band might just swing by your area. Make sure to catch them.

KZSU/Stanford, Calif. - John Jeanes
Artist(s): JESSE WINCHESTER
Place & Date: Boarding House
Type of Place: Club
Ticket Price: \$4.50
Attendance: Sold out
Production Values: Excellent
Reviewer's Reaction: It was more than I had hoped for... and I had high expectations! Seldom have I felt so much love as filled the Boarding House for Jesse's first ever San Francisco performance. The audience showed it with their response and Jesse returned it with his great songs and warm stage presence. It is obvious that Jesse loves what he does and has a lot of fun with it! He is a ham, his mobile face in constant change, and the warm humor in his songs is even more evident in his performances. It seemed as if we had all gone to his home to see his show. I could go on and on like this, but I'll just close by thanking Jesse and Bearsville and everyone else involved in bringing this beautiful human back home for his fans to see.

KRST-FM/Albuquerque, N.M. - Bill Stambaugh
Artist(s): PURE PRAIRIE LEAGUE; ZZ TOP
Place & Date: CLIMAX BLUES BAND; ZZ TOP
 Tingley Coliseum - June 7
Type of Place: Rodeo grounds building, would you believe???
Ticket Price: \$6.00; \$7.00
Capacity: 13,000
Attendance: 9,000
Production Values: Good
Reviewer's Reaction: Overall, it was a good evening of music, it started almost on time and lasted longer than most concerts here in Albuquerque. The sound system had to fight the poor acoustics of the building, but the P. A. won the fight. Pure Prairie League did a good job, nothing fancy just good solid playing of their best tunes. I imagine they were a bit apprehensive of the "BOOGIE" crowd, but they were received well. Climax stole the show for me. Their enthusiasm was infectious and their playing was good. They only had an hour but covered tunes from "Tightly Knit" through "Couldn't Get It Right." Colin's sax and harp work was good, and Peter's slide guitar solo really pleased the audience. After their encore the crowd was well warmed up for the little old band from Texas. ZZ Top proved that the three man power band lineup is not dead yet. The sound levels were under better control than last year, so you could stand listening to the whole show. The three man lineup can tend toward sameness in sound but the Top avoided this well. All the hits were played and the crowd enjoyed and got it on, but something was missing. Perhaps the contrast with Climax and their enthusiasm made ZZ Top seem a bit subdued.

KKFM/Colorado Springs, Colo. - Art Phillips
Artist(s): PABLO CRUISE; LITTLE FEAT
Place & Date: Mackey Auditorium, Boulder - June 1
Ticket Price: \$6.00; \$6.50; \$7.00
Capacity: 2500
Attendance: Full
Production Values: Excellent
Reviewer's Reaction: Little Feat is the best rock & roll band in the land and they proved it last Wednesday night in Boulder with a 2 hour kick-ass set. This was the best concert I've seen since the Grateful Dead played Winterland in October, 1974! A 20 minute "Dixie Chicken" highlighted the evening and George surprised everyone with "Don't Bogart That Joint" in the middle of "...weed, whites and wine." My only criticism: Little Feat should be booked by themselves - Pablo Cruise was impressive but couldn't connect with the Feat fans!

CONCERTIZING

WQFM/Milwaukee, Wisc. - Rich Cleary

Artist(s): EMERSON, LAKE & PALMER
Place & Date: Milwaukee Arena - June 5
Type of Place: Sports arena
Ticket Price: \$6.50; \$7.50; \$8.50
Capacity: 11,000 if you count the seats behind the stage

Attendance: 8000

Production Values: Good

Reviewer's Reaction: A brief, and unscheduled, intermission to repair their massive speaker system (rained on in the previous night's Chicago engagement) marred the beginning of ELP's otherwise triumphant return to Milwaukee after 3 years. But repairs made, Keith Emerson launched into his "Piano Concerto #1" with the able assistance of the 56 piece symphony orchestra under the direction of concertmaster Godfrey Salmon. The sheer bombast of the ensemble, mounted on a huge specially constructed stage, was nearly overwhelming. Other selections included "Pictures At An Exhibition," several of Greg Lake's gentle songs (acoustic guitar with orchestra) and an amazing percussive display by Carl Palmer during "Tank." An encore of "Fanfare For the Common Man" interspersed with part of some Nice-era "Rondo" was this reviewer's favorite.

WIDR/Kalamazoo, Mich. - Valerie Elliott

Artist(s): HALL & OATES; CHILLIWACK
Place & Date: Wings Stadium - June 8
Ticket Price: \$7.50
Capacity: 7300
Attendance: 3500

Production Values: Good

Reviewer's Reaction: Chilliwack opened to a fairly receptive audience on the wings of their "Fly At Night." The band was tight, unfortunately however we were not treated to more of the fine acoustical rock melodies from Dreams-3. The older material is unfamiliar to most U. S. audiences and was not as solid as the new Lp. Hall & Oates walked out to a hall full of female screams, for a moment I thought I had been transferred back in time to a Beatlesque era. Hall is the more active of the group, slinking and coyly sliding across stage. His voice has the versatility of a rubber band and he can recreate on stage what one might think only possible in a studio. Hall & Oates continually put forth energy and the act bounces from one to the other in a complement of their talent. The current tour opened in Kalamazoo, and from the enthusiasm and professionalism displayed by Hall & Oates & their band, the rest of the cities down the line have something to look forward to.

WAER/Syracuse, N. Y. - Bob Shepherdson

Artist(s): CENTRAL PARK SHEIKS
Place & Date: Childe Harold - May 20
Type of Place: Folk club
Ticket Price: \$3.00
Capacity: 150

Attendance: 75

Production Values: Good

Reviewer's Reaction: Not only are the Sheiks a good time band; they also handle their instruments with great skill, have wonderful stage presence, and perform a variety of terrific original material and swell standards. The group's personnel has changed since the release of their album, and the music is tight as ever: Bert Lee is a sly vocalist, and the others provide harmonies and some lead vocals, in addition to dextrous acoustic guitar playing. The bass player handles the rhythm section without a drummer, and dobro player Bob Hipkins doubles on muted trumpet. Call-and-response between violin and trumpet is beautiful! Their "History of the Dobro" is a highlight of their show. An engaging group, the cream of country swing in the East!

LEISURE LANDING/Baton Rouge, La. - Jimmie Stricklen

Artist(s): SCARLET RIVERA
Place & Date: Kingfish, Baton Rouge - June 8
Type of Place: Club/bar
Ticket Price: A no cover concert
Capacity: 800 to 1000

Attendance: 3/4 filled

Reviewer's Reaction: Scarlet and her band hopped into Kingfish for a free concert Wednesday (8) to a near capacity crowd. Drawing most of her material from her just released Warner Bros. debut album, she completely dominated the crowd with some very intense playing. The band is extremely competent and very tight. Her album had only come out late last week and I had already sold out of it in one day so a lot of the people who came to see her had already heard some of the album. She did not let anyone down. She played most of the album and also one new tune not recorded yet. The highlights were: "Gypsy Caravan," "Wicked Witch of the East," and "Ring Around the Moon." She was well received and did at least one encore for each of the two hour long sets. This show broke her wide open in this area and a long and hopefully rising career for her is in store. An act to watch. Really fine album.

BUDGET RECORDS & TAPES/Tampa/Largo, Fla. -

Artist(s): LED ZEPPELIN
Place & Date: Tampa Stadium - June 3
Type of Place: Football & soccer stadium
Ticket Price: \$10.00
Capacity: 78,000

Attendance: 72,000

Production Values: Excellent

Reviewer's Reaction: Like a Led balloon, no thanks to excessive roudiness and ignorant and prejudiced police. The 15 minute concert, however, was fantastic. Thanks to Lou Dickstein of Rainbow.

WRBB-FM/Boston, Mass. - Woody Johnston, Jr.

Artist(s): TEDDY PENDERGRASS
Place & Date: Bradford Hotel
Type of Place: Grand ballroom
Ticket Price: \$6.00
Capacity: 500

Attendance: 600

Production Values: Excellent

Reviewer's Reaction: Seeing a Las Vegas review in Boston was something spectacular and with Teddy Pendergrass the main attraction it was something of a dream! He came out to capture the audience in a way that one dreams of. The music was perfectly timed and the Teddy Bear dancers and singers combined to the beauty. One can only see bigger and better days for "1-TP"!

HARVARD COOP/Cambridge, Mass. - Marty Lawhon

Artist(s): DAN FOGELBERG
Place & Date: Music Hall, Boston - June 9
Ticket Price: \$8.50
Capacity: 4500

Attendance: 5000

Production Values: Excellent

Reviewer's Reaction: Opening set by Fool's Gold was concise and to the point. A short break, and Dan walked out to screams and standing ovation. He opened with the title tune to the new album. He moved easily between guitar and piano. He played only familiar tunes in this acoustic-solo set, except two guitar instrumentals in the middle of the set. The audience knew all the words to all the tunes and weren't hesitant about singing along. Another short break and out came Dan and the band. Starting with acoustic tunes and moving on to a short electric set. The tunes spanned Dan's whole career. The 7 piece band included drums, percussion, bass, steel, two, three, even four guitars, and keyboards, and some of the tightest harmonies around. The whole show was far too short I thought (especially the electric portion) but the crowd loved every minute. As they left, the crowd had that healthy smiling look about them and seemed satisfied. Enjoyable - Marty.

PLATTERS LTD./Philadelphia, Pa. - Ken Abrams

Artist(s): PHYLIS HYMAN;
 TEDDY PENDERGRASS
Place & Date: Shubert Theatre - June 4
Type of Place: Lovely, old, newly renovated playhouse

Ticket Price: \$7.00 to \$9.00

Capacity: 3000

Attendance: Full house (SRO)

Production Values: Excellent

Reviewer's Reaction: Due to the fact of two scheduled shows, Phylis Hyman's set was relatively short. Theodore Pendergrass satisfied the whole audience with a set consisting of old Harold Melvin songs, songs from the new Lp, and brand new material.

WCUR/West Chester, Pa. - Rick Bohs

Artist(s): PETER FRAMPTON; LYNYRD SKYNYRD; J. GEILS BAND; DICKEY BETTS & GREAT SOUTHERN
Place & Date: J. F. K. Stadium, Phila. - June 11
Type of Place: Stadium - home of annual Army-Navy football game

Ticket Price: \$10.00 advance; \$12.50 day of show

Capacity: 90,000+

Production Values: Good

Reviewer's Reaction: Betts and his new group, Great Southern, began the show at 11:30 a.m. and because the ex-Allman guitarist didn't like the sound of the on-stage monitors he departed the stage at 11:50. Too bad because what he did play sounded pretty good. Next up J. Geils and company, led by Peter Wolf and Magic Dick, got a cold crowd warmed up with their standard set of Boston bad boy boogie. The Geils Band tinged their songs with some new riffs which helped their music sound fresher. The current top Southern band, Lynyrd Skynyrd, came on around 2:30 and very quite impressive with their powerful guitars, hard rhythm section and the hardlined vocals of Ronnie Van Zandt (aided by 3 foxy ladies). Of course, "Free Bird" got the overflow, mostly teenaged crowd to its feet.

Headliner Peter Frampton went directly from his limo to the stage and he proved to me why 1976 was his year. He and his band ran through most of the live Lp material and

they threw in some new material to boot in their hour and a half set but it was the energy that Frampton generated that impressed me the most. Vocals were exceedingly strong and part of this has to be the sound system which in my book was great. By the way, there were no riots or mass o. d. 's proving again, if done correctly, a mammoth outdoor show is still possible...bring on Led Zep!

WLMD/Washington, D. C. - Bob Showacre

Artist(s): CROSBY, STILLS & NASH
Place & Date: Capital Center - June 7 & 8
Type of Place: Arena
Ticket Price: \$8.50; \$7.50
Capacity: 1800
Attendance: Near sold out both nights
Production Values: Good - excellent
Reviewer's Reaction: Stills can sing again! Crosby & Nash never stopped. The band was tight. The concert great. Two encores to a thunderously applauding audience, and a good time was had by all. Hopefully, the beginning of a long, happy reunion.

WYDD/Pittsburgh, Pa. - Steve Downes

Artist(s): MAHOGANY RUSH; BUDGIE
Place & Date: Tomorrow Club
Type of Place: Nightclub/concert hall
Ticket Price: \$4.50
Capacity: 1700
Attendance: 1000
Production Values: Excellent
Reviewer's Reaction: Budgie's main problem in getting over to American audiences is their lack of consistency on record. As it turns out, their live performances suffer from the same problem. Sometimes they get into very interesting arrangements that will range from some nice mellow rhythms to rockin' their asses off, all in the same tune. Other times they sound like a second rate Humble Pie. Still, the potential is there. This was the first show of a new tour for Mahogany Rush. Frank Marino is finally moving away from mimicking Hendrix and developing a style of his own. The band's set was well paced and consisted of almost all new, original material. Marino has always known how to play to the audience, and now he's doing it with his own licks. A good start on Mahogany Rush's new tour, and a lot of promise for the future. A WYDD concert.

WPRB-FM/Princeton, N. J. - George Korval

Artist(s): CATHY CHAMBERLAIN & RAG AND ROLL REVUE
Place & Date: Bijou Cafe, Phila. - June 2
Type of Place: Club
Ticket Price: \$5.50 (includes one drink)
Capacity: 300
Attendance: 150
Production Values: Excellent
Reviewer's Reaction: Cathy Chamberlain's show is the most exuberant I've seen in ages!! Her energetic performances of most of the songs on her debut Lp made their impact on the audience - as did 76 year old drummer Freddie Moore's version of "I Ain't Gonna Give Nobody None of My Jelly Roll." The band was super, and Cathy's duet with pianist Rich Look on "Hollywood Dreams" indicated that there's more fine material for a second album. See her in concert and spread the word: Rave about Rag and Roll.

EVERYBODY'S RECORDS/Portland/Eugene/Corvallis/Bellevue/Seattle - Deb Flanagan

Artist(s): LITTLE RIVER BAND; JIMMY BUFFETT
Place & Date: Paramount Theatre, Portland - 5/27
Type of Place: Auditorium
Ticket Price: \$6.50
Capacity: 3000
Attendance: Sold out
Production Values: Good
Reviewer's Reaction: Jimmy Buffett and Little River Band are quickly becoming Northwest groupies. About every 6 months they show up to entertain and spread a little cheer. Little River Band opened the show with an excellent performance. Their stage presence and closely interwoven music and harmonies were striking compared to their first tour. The audience seemed very pleased and content with LRB's set, calling them back for an encore. Viv Australia!
 As for Jimmy Buffett, what else can you say. Everytime you see him, he and the Coral Reefers sound better and better - simply delightful! The only thing that could surpass the crowd's wild raving was - Portland's NBA Trailblazer mania that hit us last week as if we had just ended WWII. Blaze on!

NEW RELEASES

BELOW IS A CATALOGUE OF NEW RELEASES. THEY ARE DIVIDED INTO CATEGORIES DESIGNED TO GIVE YOU AN IDEA OF THEIR RELATIVE MUSICAL WORTH. THESE FIRST IMPRESSIONS ARE NOT MEANT TO RELATE IN ANY WAY TO PAST, PRESENT OR FUTURE SALES, NOR SHOULD THEY BE TAKEN AS THE WORD OF GOD.

SPECIAL MENTION ALBUMS

(These records which, in our opinion, deserve special mention because they come closest to perfecting their musical genre regardless of progressive radio application.)

(None.)

STRONGLY MERITORIOUS

(We feel that these Lp's have an extra edge.)

(None.)

MERIT PLUS ALBUMS

(All Merit and Merit Plus Albums are recommended for serious progressive radio consideration, recognizing that not all of these recommendations are suitable for all stations. The Merit Plus Albums distinguish themselves with an extra vitality.)

Roy Ayers Ubiquity/LIFELINE/Polydor PD 1-6108 (Always hot, Roy drives through a vast array of musical ideas. They take on a character of their own. His productions are uniformly refined and crafted. If his music doesn't make you move it's time for a check up.)

Joan Baez/BLOWIN' AWAY/Portrait PR 34697 (Her writing shows increasing assurance and power. That confidence reflects itself in a production which exhibits new forcefulness. The hootenany is over friends.)

Clover/Mercury SRM 1-1169 (Previously reviewed as an import. Bursting with potential. Clover is a young, bright, harmony singing band endowed with musical soul. Superfine, organic tunes just keep popping up throughout the record.)

Graeme Edge Band/PARADISE BALLROOM/London PS 686 (Powerfully presented, Graeme is responsible for the delivery of some fine songs. The Gurvitz brothers make excellent use of themselves too. Imposing.)

Peter Frampton/I'M IN YOU/A&M SP 4704 (Frampton survives a delicate situation admirably. He falls into none of the traps he could have. Instead he issues a very steady, musically easy-flowing album. Side one especially, sings with melodic joy.)

Focus/SHIP OF MEMORIES/Sire SA 7531 (This band's bits and pieces are substantial. If you read Mike Vernon's liner notes you'll get a picture of the inner workings of a band, at least, of Focus. The strains are a real part of their music which is surprisingly good, especially given that these tunes are mostly out takes.)

Geils/MONKEY ISLAND/Atlantic SD 19103 (Even with a slow spot in the second half of side one, Geils shows continued creative vitality. Solid writing and loose playing combine to yield positive rock and roll music.)

The Meters/NEW DIRECTIONS/Warner Bros. BS 3042 (Between the gumbo seasoned "Funkify Your Live" and the reggaed "Stop That Train" side two takes the forefront. New Directions apparently refers to the production change which seems to have affected their music favorably. Funky and musical, The Meters keep pace.)

Pat Metheny/WATERCOLORS/ECM 1-1097 (Metheny's album work elevates itself at the compositional level. While the combo grooves which open each side are nice, they contribute little. It is the body of the Lp which approaches classical music quality. Ethereal and intellectual.)

Modern Lovers/ROCK 'N' ROLL WITH/Berserkeley PZ3480 (Again, the best high school band in the land takes a stab at it. You always think they are going to embarrass themselves, but they never do. Jonathan Richman's writing and arranging is skillful, if his singing isn't. Humor.)

Scarlet Rivera/Warner Bros. 3060 (Scarlet plays with vastly more emotional tone than we are accustomed to hearing from rock violinists. A fusionist, she joins European folk sounds and classicism with a rocking stock. The mixture is spicy.)

Leon & Mary Russell/MAKE LOVE TO THE MUSIC/Paradise PAK 3066 (If you start by liking the Leon Russell style, every new record is a party. It seems like songs spew out of Leon's brain, almost involuntarily. His productions tend to be somewhat sloppy but, the feeling is never lost. A romp.)

James Taylor/J. T./Columbia JC 34811 (An eloquent album. Soft spoken and understated, James seems content and self assured. Almost as counterpoint to the entire contemporary music scene he dares to avoid both the crass and saccarin. Side two is J. T.'s strength.)

McCoy Tyner/SUPER TRIOS/Milestone M-55003 (Super Trios refers to the veritable battle of the bands pitting Tyner, Ron Carter and Tony Williams on sides 1 and 2 against Tyner, Eddie Gomez and Jack DeJohnette on sides 3 and 4. The contrast in drumming style between Tony and Jackie sets the scene. Tony sizzles, challenging the relentless Tyner piano all the way. By contrast, DeJohnette is always making room for the leader. Sides 1 and 2 are more intense while sides 3 and 4 are more tasty.)

MERIT PLUS ALBUMS CONTINUED

Various Artists/WOODSTOCK MOUNTAINS/Rounder 3018 (Instigated by Happy and Artie Traum this reunion of Woodstock folkies runs the gamut from Paul Siebel to John Sebastian. Fine tunes were chosen and performed in a loose, comfortable style resulting in a loose and comfortable album. Fresh and fun.)

Neil Young/AMERICAN STARS N' BARS/Reprise MSK2261 (A terrific first side presents the most vital Neil Young in years. Super songs highlight it. Side two collects some loose ends, the best of which is "Like a Hurricane" for its extended guitar solo by Neil. Side one Strongly Meritorious, side two Merit.)

Young & Moody/United Artists UA-LA 759-G (Side two is O. K., but side one is a beautiful organic whole. Fine songs, folk and blues derived, performed with fluid precision highlight this Young & Moody Lp. A natural good time.)

MERIT ALBUMS

Breakfast Special/Rounder 3012 (Mountain pickin', Western swing and a little rock 'n' roll define a clear traditional path for Breakfast Special. Using largely original material of adequate quality makes the Lp somewhat uneven.)

Norton Buffalo/LOVIN' IN THE VALLEY OF THE MOON/Capitol ST-11625 (Beside his name, the arrangements center the interest here. Norton has gathered an appealing group of sounds around moderately good songs. However, a tune like "Hangin' Tree" remains half realized. Just compare it to Dylan's "Jack of Hearts.")

Chunky, Novi & Ernie/Warner Bros. BS 3030 (The album lets you fall out of interest largely because of Chunky's one dimensional voice. Her throaty sound would be charming if not over used. With these mild songs, the project works within a narrow dynamic range.)

Country Gazette/WHAT A WAY TO MAKE A LIVING!/Ridge Runner RRR 0008 (The album's title conveys a sense of frustration. It is a shame that it's coming from a group which represents the top of the line among mountain pickers. Consistent quality marks the work of Country Gazette.)

The Demons/Mercury SRM 1-1164 (As the new generation of rockers take their places, some will be substantially credible. The Demons, not nearly as nasty as the name implies, are one of the credible ones. Largely on Elliot Kidd's basic and believable high school writing, they rock successfully.)

Dirty Tricks/HIT & RUN/Polydor PD1-6104 (The dirty trick here is the lousy sonic quality these rockers foist on our ears. Further they put the real music at the end of each side. You have to plow through the raves to get there.)

Earth Quake/LEVELED/Beserkley PZ34801 (Earth Quake survives, with unabashed abandon they leap into fair-to-middlin' tunes. Their energy alone would carry them through.)

Henry Franklin/TRIBAL DANCE/Catalyst CAT-7618 (Sometimes tumultuous, Henry Franklin also has a peaceful, even restful side to his musical nature. Generally, his energies are focused at a point between the avant garde and the 60's, on target. Pat Britt still hasn't learned to mix a record leaving out the bottom of the drum kit while leaning on the top end of it. The sonic effect is harsh.)

Chico Hamilton/CATWALK/Mercury SRM 1-1163 (Chico is the drummer here. He does not dominate the music but, there is no question as to who is the controlling force. He drives these tunes vigorously. Always one to display a good melodic ear, Hamilton does not fail here. Explore interesting rhythmic possibilities.)

Al Jarreau/LIVE-LOOK TO THE RAINBOW/Warner Bros. BZ 3052 (His natural habitat is in front of an audience, so it should come as no surprise that this Lp turns out to be the best recorded representation of Al Jarreau thus far. It is a personal and intimate view of him. If only all of his material was as A-1 as his performance.)

Sammy Johns/SOUNDTRACK - THE VAN/Warner Bros. BS 3063 (Sammy writes organic songs. His light, uncomplicated folk rockin' style suits them well. They don't require much false support. Pleasant all the way.)

John Klemmer/LIFESTYLE/ABC AB-1007 (It is that broad tenor tone which John uses to capture the ear. He rarely drives it to extremes, content to wind his horn easily around mildly funky rhythms. Rich.)

Lake/Columbia PC 34763 (Previously reviewed as an import. As several other German bands have done, Lake uses an Englishman to front the band. That gives them a lyric writer and access to a worldwide audience. The problem it creates is that they now lack a distinctive sound. Another good band.)

Dave Lewis/FROM TIME TO TIME/Polydor PD 1-6106 (There are elements of this album which are mystifying. Not the least of which is the question: Who is filling in its grand scale? Busy, stuffed arrangements have a tendency to momentarily overwhelm the man with the foggy voice mixed into the middle of the music. But, Dave Lewis is a rocker and singer of the first order. Look out.)

NEW RELEASES

BELOW IS A CATALOGUE OF NEW RELEASES. THEY ARE DIVIDED INTO CATEGORIES DESIGNED TO GIVE YOU AN IDEA OF THEIR RELATIVE MUSICAL WORTH. THESE FIRST IMPRESSIONS ARE NOT MEANT TO RELATE IN ANY WAY TO PAST, PRESENT OR FUTURE SALES, NOR SHOULD THEY BE TAKEN AS THE WORD OF GOD.

MERIT ALBUMS CONTINUED

- Bobby Lyle/THE GENIE/Capitol ST-11627 (The vitality of Bobby Lyle's jazzy instrumentals is immediately apparent. As clear is the weakness heard in the alternating songs. Most jazz people have a tough time melding lyric and melody. Accentuate the positive.)
- Dan McCorison/MCA - 2276 (Chris Hillman's name as producer adds some interest but, his production doesn't draw any special reaction. Dan isn't able to establish an indelible identity in spite of good songs and presentation. A basic country style is not enough delivery these days.)
- Laura Nyro/IN CONCERT.. SEASON OF LIGHTS/Columbia PC 34786 (We often write about artists developing an indelible identity. Laura is a prime example of the value of that practice. Both her voice and her writing style are her own. This live album is refreshingly understated, mostly it's Laura and piano.)
- Omaha Sheriff/COME HELL OR WATERS HIGH/RCA APL 1-2022 (Arrangements, and the motion given them, in the Toni Visconti mix are the focus of interest. The performance makes it possible. These songs are adequate, rarely relating to the group's name.)
- Pakalameredith/Elektra 7E-1106 (Nothing fancy. Pakalameredith results from the musical union of Jim Pakala and Larry Meredith. Their music gets fired when it incorporates a touch of the revival. Try "Save Me a Place," "Better Days" and "Sweet One" in that regard.)
- The John Payne-Louis Levin Band/Mercury SRM 1-1166 (Jazzy and funky the Payne-Levin Band is obviously skillful. They manage to upgrade traditional jazz into a contemporary context by the use of rhythm. Their writing is pleasing but, not riveting.)
- Pierce Arrow/Columbia PC 34805 (An attempt at Synergy. Gathering several musical loose ends together in this case, yields a smoothly operating song machine. If all of the songs were high octane, the likes of "Hot Summer Night," this Pierce Arrow would really fly. Well engineered.)
- D. J. Rogers/LOVE, MUSIC & LIFE/RCA APL 1-2218 (Giant productions are the context in which D. J. feels most comfortable. They, of course, are unnecessary because he is quite powerful enough to carry the music without the overdone. Still, his songs come through and several of them restrain the overages.)
- David Sanborn Band/PROMISE ME THE MOON/Warner Bros. BS 3051 (It is still difficult to tell that the saxophone is the driving force in Sanborn's configuration. We don't quite know who he is as an artist. However, this album seems more foreground than others done under the Sanborn name.)
- The Section/FORK IT OVER/Capitol ST-11656 (The best filler money can buy. Fine playing is always enjoyable but, The Section remains a band in search of a musical purpose. They never commit themselves stylistically.)
- Sunshine/Roulette SR 3018 (Though Sunshine is a terrible name for a group, the group called Sunshine isn't at all terrible. They have something in their vocal harmonies and in some of their songs to suggest a future. This album doesn't focus their identity as well as it could but it makes a start.)
- Swamp Dogg & The Riders of the New Funk/Musicor MUS-2504 (The New Funk referred to above is disco. As Swamp Dogg tries to find a home in that grab bag, he leaves us some of his patented joy. "My Heart Just Can't Stop Dancing" leads the way to "New Orleans My Home." Side two has more to offer.)
- Tiger/GOIN' DOWN LAUGHING/EMI ST-11660 (Not the best songwriters you'll hear but, Tiger manages. They do better at the presentation than at the creation of the material. Reaching outside the band for songs would put some teeth into their rock bite.)
- Trooper/KNOCK 'EM DEAD KID/MCA 2275 (Rock and roll without pretense. Trooper depends on good songs and their ability to perform them. Nice variations keep it moving. This Randy Bachman production is straight ahead.)
- Turner & Kirwan of Wexford/ABSOLUTELY AND COMPLETELY/Peters International PILPS 9021 (Very British, though they are probably American, Turner & Kirwan spin out of the classical rock formulation. One quirk is the Sparks-like opener on the second side. Generally decent writing and limited pomposity keep these men of Wexford (it must be on Long Island) straight.)
- Steve Winwood/Island ILPS-9494 (Linear songs, mostly written with Jim Capaldi, mark the return of Stevie Winwood who has matured into Steve. Not much in the way of peaks and valleys or pace changers, you get a large dose of Steve's voice. Nice on all levels.)

FRINGE ALBUMS

(Good albums which are not progressive, yet hold some interest for progressive audiences.)

- Art Blakey & The Jazz Messengers/GYPSY FOLK TALES/Roulette SR 5008 (Blakey's groups always could swing. Nothing self-righteous or overly serious, The Jazz Messengers always meant fun and they still do.)
- Emotions/REJOICE/Columbia PC 34762 (Maurice White puts a kick into the sweet vocals by Pamela, Wanda and Sheila. An album of satisfying musical balance results. Place the Emotions on the quality side of the pop R&B scale.)
- Bunky Green/TRANSFORMATIONS/Vanguard VSD-79387 (Minimized both by the sweetening and by the general lack of innovation. Green is an excellent lounge alto player. In this setting he rarely steps out. Try "Funk Ain't a Word.")
- Johnny Hammond/STORM WARNING/Milestone M-9076 ("Brother Snook" is the only energized track. Most of Storm Warning is either mild or swirling arrangements. Pleasant, easy listening music.)
- Stewart Harris/SING ME A RAINBOW/Mercury SRM1-1167 (Sporting a James Taylor voice augmented by a John Denver attitude, Stewart Harris takes a pop place. He is a folk singer/songwriter of some ability but one who cannot spell the word funky. The arrangements reinforce the popness with sweetness.)
- Joe Harnell/Capitol ST-11657 (Fine, though benign, music. Mildly spicy rhythms, which include the drumming of Shelly Manne, support melodious riffs. Still, a feeling of homogenization levels off serious interest. Well done.)
- Bobbi Humphrey/TAILOR MADE/Epic 34704 (Musically declawed, Bobbi Humphrey disseminates pabulum for the ears. A telltale sign indicating what was important in this album is found in the credits which include the photographer, hairdresser and make-up artist but, not the musicians. Pop that's pap.)
- Michael Kamen/SOUNDTRACK - STUNTS/Amerama ST251 (Kamen has produced an Lp of movie music with four songs included. Little of it is of any interest with the exception of "Love Love Love" sung by Jimmie Mack. It is a good rock song which seems out of place in this orchestrated context.)
- Earl Klugh/FINGER PAINTINGS/Blue Note BN-LA 737-H (Finger Paintings is an apt title for Earl's delicately laced album. Though it leans generally toward the middle of the road, there is no denying its craftsmanship and its purity. Try "Dr. Macumba", "Jolanta" and "This Time.")
- George Muribus/Trio-'77/Catalyst CAT-7619 (Cool and sophisticated, the Moribus' feel has a Modern Jazz Quartet-Dave Brubeck quality about it. Rather than funky, you might describe them as erudite, and somewhat intellectual. Pleasing.)
- Roland Prince/FREE SPIRIT/Vanguard VSD-79388 (The pace is easygoing. Roland's guitar style requires that approach. His Free Spirit is very much under control, it never really uncorks. Try the title tune.)
- Red, White & Blue(Grass)/Mercury SRM 1-1165 (A superfine Lp which flips into a pop production approach once too often. This group plays like bandits on the run when inspired. Jump on the second half of side one and side two's "Prove To the World" and "She's My Georgia Rose.")
- Candi Staton/MUSIC SPEAKS LOUDER THAN WORDS/Warner Bros. BS 3040 (Unfortunately for us the whole album doesn't move in the manner similar to the reprise of the title tune. Instead the thrust of the Lp is standard pop R&B. The arrangements, the songs, and the performances define adequacy.)
- Jimmy Stewart/FIRE FLOWER/Catalyst CAT-7621 (This Jimmy Stewart is not an actor. He is a mild-mannered, articulate guitarist. While he will not stagger you with speed and dexterity, he will fill in the background amiably.)
- Gabor Szabo/FACES/Mercury SRM 1-1141 (Mellow intensity. Only "Misty Malarkey Ying Yang" cooks to any degree but, this Lp generates conceptual intensity. It is not an afternoon jam session, it is instead a finished album. Pleasant.)
- Various Artists/SUMMIT MEETING/Vanguard VSD 79390 (Everyone on this date isn't summit quality. Clark Terry and James Moody, because of their pre-eminence, set the tone. What results is a nice be-bop afternoon.)
- Waters/Warner Bros. BS 3062 (While these Waters flow through well worn channels, they perform admirably. The Barri-Omartian production insures a certain level of spark. Fair songs and no new ideas keep their pop music static.)
- Weapons of Peace/Playboy PZ 34747 (In pop context Weapons of Peace demonstrates a sense of broader horizons. While other tracks try and are less successful, tracks like "Roots," "Just Can't Be..." and "Make Believe..." step directly into the breach. Positiveness.)

NEW RELEASES

BELOW IS A CATALOGUE OF NEW RELEASES. THEY ARE DIVIDED INTO CATEGORIES DESIGNED TO GIVE YOU AN IDEA OF THEIR RELATIVE MUSICAL WORTH. THESE FIRST IMPRESSIONS ARE NOT MEANT TO RELATE IN ANY WAY TO PAST, PRESENT OR FUTURE SALES, NOR SHOULD THEY BE TAKEN AS THE WORD OF GOD.

SPECIAL PROGRAMMING

(Spoken word, poetry - comedy and extraneous musics.)

- John Barry - Soundtrack/**THE DEEP/Casablanca** NBLP 7060 (Side two's songs can be left alone because they don't relate well to our medium. However, the music on side one is not merely movie music. Barry has developed a fairly spacey ballet based on the movie's score. Some of its music would be as comfortable representing outer space as it is underwater.)
- The Beatles/**LIVE! AT THE STAR-CLUB/Lingua** LS 2-7001 (Previously reviewed as an import. The Hamburg period must have been very important in producing the final mixture which made The Beatles. You hear that Beatles sound intact. Of course, the sonic quality is terrible but, this record is historically significant. This record substitutes tracks changing the Bellaphon record significantly but the same thoughts apply.)
- Sam Bush and Alan Munde/**TOGETHER AGAIN.. /Ridge Runner** RRR0007 (For traditionalists. Sam and Alan are expert mountain style pickers. Solid tunes, both original and chosen, strengthen the point further.)
- Jan Garbarek/**DIS/ECM** 1-1093 (Garbarek is undoubtedly one of the most arresting horn players we have. Most of this Lp is rather cerebral and enticing in that way. Tracks like "Viddene" and "Skygger" swing it too.)
- Paul Horn/**INSIDE THE GREAT PYRAMID/Mushroom** MRS-5507 (The truth is that Paul will never again recapture the spirituality which made his Taj Mahal records so memorable. They were truly inspired by the moment and as such remain unto themselves. This search for a repeat of the perfect moment can be taken to the ridiculous. Paul Horn from inside a whale's stomach. . . Paul Horn at the center of the earth or Paul Horn in outer space. This album is lovely and musical, something to absorb and reflect upon - but, it isn't inspired by anything unearthly.)
- Keith Jarrett/**STAIRCASE/ECM** 2-1090 (Almost solemn, this batch of Jarrett solos seem introspective and contemplative. Laying somewhere between classicism and jazz these personal dialogues are never concise. "Sundial" seems to catch the spark best.)
- Julian Priester & Marine Intrusion/**POLARIZATION/ECM** 1-1098 (Priester and his band wander through inner space. Though challenging, their music is not obtuse. It takes its own time and route to its destination. Very accomplished but, not easy.)
- Tangerine Dream/**SOUNDTRACK - SORCERER/MCA**-2277 (William Friedkin says that this Tangerine Dream music is inseparable from the film. That isn't exactly true because like all other Tangerine Dream messages from the outer limits this one tantalizes melodically and soothes the cortex too.)

IMPORTS

(Our imports are provided with the help of Intergalactic Trading Co., Portland, Ore.; Jem Records, P. O. Box 362, South Plainfield, N. J. 07080 - (201) 753-6100.)

- Amazing Blondel/**LIVE IN TOKYO/DJM** DJF 20503 (Delicate songs of undeniable melodic strength are embellished by big orchestrations. Their folk-MOR creates a push-pull reaction in spite of its quality. Fringe.)
- Grobschnitt/**ROCKPOMMEL'S LAND/Brain** 60.041 (Here is an adventurous project which falls flat because Grobschnitt's melody writing is flat. In the service of the attempted rock opera the melodies had to fit the story. The story is a narrative which doesn't lend itself to a melody. Satisfactory.)

IMPORTS CONTINUED

- Guru Guru/**GLOBETROTTER/Brain** 60.039 (Why must they write lyrics? Instrumentally superior, Guru Guru can enchant when they have the elbow room. The song format doesn't allow it. Still, they have their fluid moments, especially through side two. Merit.)
- Horslips/**DRIVE THE COLD WINTER AWAY/Horslips** M009 (Done as a Christmas album in 1975, Horslips slips back to its traditional musical roots. A folkies delight, they chase that elusive universality of this old musical form. Merit Plus.)
- Novalis/**KONZERTE/Brain** 60.065 (If the German language and inferior recording quality don't send you away, nothing will. Musically, the Novalis concert is O. K. Crippled melodically by an unmusical language, they are better as instrumentalists. Merit.)
- Offenbach/**A&M** SP 9027 (Offenbach's powerful brand of rock and roll loses none of its spunk as sung in French. That lyrical language takes a nasty turn. Even Chuck Berry translates. Driving. Merit.)
- Ruphus/**INNER VOICE/Brain** 60.060 (Produced by Terje Rypdal, this Ruphus excels instrumentally. The songs are weaker, so you are forced to wait for the breaks. Best of all is the title track which takes off. Merit.)
- Various Artists/**BRAIN FESTIVAL ESSEN/Brain** 80.013-2 (Featuring live performances of the Brain roster of artists this Lp is a showcase. Groups included are Gate, Novalis, Release Music Orchestra, Jane, Message, Guru Guru, and Ruphus. Jane and Guru Guru and Ruphus come off best. Merit.)
- Various Artists/**ROCK FOLLIES '77/Polydor** 2302072 (The Rock Follies were created for British T. V. Normally, rock show music merely mimes the real thing. However, Andy Mackary and Howard Shuman have written good songs. They are performed admirably by a group fronted by 3 or 4 female voices. It works on its own. Merit.)
- The Jam/**IN THE CITY/Polydor** 2383 447 (From the bowels of intense urban life comes more and more New Wave rock. The Jam is part of that generation. They make the Rolling Stones seem tame. Audition carefully before airing. Merit.)

Trendsetting WYBC is pleased to announce that on July 4th, 1977, we will be replacing our rock programming with a jazz-oriented format. From 6a. m. to 6 p. m. we will be playing a mix of contemporary and historical jazz, jazz-rock fusion, and blues. We feel that a jazz format is a viable alternative to rock, particularly in a market like ours, and we are confident of success. We would appreciate the assistance of all labels with jazz product in helping us make the transition, particularly in these first few weeks. We need service, interviews, artist I. D. 's and anything else you can send our way. Our music staff during the changeover consists of Bill Christmas, Nat Adderly, Fred Kelley, and Doug Keogh. The remainder of our programming, Black Spectrum, Late Night Jazz, and Sunday Classical will remain unchanged. Thanks in advance for your help.
