# RADIO STATS

OUR RELATIVE CHARTING, AS SEEN BELOW, RESEMBLES BASEBALL'S BATTING AVERAGES. IT ESTABLISHES A RATIO BETWEEN THE IDEAL, (HEAVY AIRPLAY AT EVERY STATION WHICH REPORTED); AND THE WEIGHTED COUNT THAT A RECORDING HAS ACTUALLY EARNED. THIS MATHEMATICAL FORMULA IS APPLIED TO EACH RECORD—FIRST REGIONALLY, THEN NATIONALLY. A DUAL WEIGHTING SYSTEM IS USED TO DERIVE THE COUNT. IT ADJUSTS FOR MARKET SIZE AND FOR HEAVY OR MODERATE AIRPLAY. THESE CHARTS SHOW THE RELATIVE INTENSITY OF RADIO AIRPLAY FOR BOTH NEW AND ESTABLISHED RECORDINGS.

#### COMMENTS:

We are tickled to announce the heavily anticipated return to the air of legendary radio madman "One Take" Chuck Laquidara. He will be doing a Saturday show and various fill-in work. He is now available for lunches, dinners and record service.

We are also pleased to announce the addition of the most knowledgeable "new wave" aficionado in Boston radio, Oedipus. His show on WTBS has already caused quite a sensation. He will now be on BCN Friday nights 2-6am. Psycho-radio over and out...

#### NEWS & PUBLIC AFFAIRS:

November 22nd held special significance here in Boston, hometown of JFK and a lot of mixed memories of his final days. For a special series of Corone Reports that day we talked with Pierre Salinger, Gov. Michael Dukakis and folks-on-the-street about their recollections of 11/22/63, then mixed it all with actualities of that day that changed the world. All to excellent listener response.

Thanksgiving Day saw us gabbing/gobbling with the Pilgrims in nearby Plymouth, Mass., while that town's Dick Gregory was marching in Washington for the cause of human rights in South Africa. Gregory and a local State Senator spent the night in jail rather than post bail.

And in the Nuke News... Cambridge's Union of Concerned Scientists tossed out the MIT Rasmussen Report on nuclear safety with predictions that 200,000 Americans will die from nuke accidents before the turn of the century. While on "Crosstalk" we talked with Clamshell Carter Wentworth who faces months in jail for his Seabrook occupation last Spring. The Clams are setting June 24th as the date for their next attempt at stopping Mel-drum Thompson's folly.

Many thanks to Nancy at KVAN/Portland for reports on the Trojan Decommissioning Alliance's occupation 11/25.

And a warm hello to some friends who join the ranks of the unemployed: Marc and Stacia from WQSR, Joel Moss of WLIR, and has anybody seen Michael Linder lately?

Everybody here resting after a very hectic two weeks of anniversary programming: gearing up for several Xmas broadcasts and concerts. Thanks to Mike Harrison, Gracie and DIR for the North American Rock Radio Award Show. Scott feels very honored to have won the Tom Donahue Memorial Award and he thanks all involved for the award.

Friday the 25th we will be simulcasting the Rolling Stone 10th Anniversary Show. Guests at the station recently were John Camp, Annie Haslam, Leonard Cohen, Harry Chapin, Kevin Godley & Lol Creme, John Hartman, and Mike McDonald, and Michelle Phillips. Congratulations to Dennis McNamara at WLIR for his long overdue move to P. D. - F. T.

#### COMMENTS:

Just a quick word about the Gregg & Cher album... it's great! I thought that their voices would be a terrible mis-match, but how wrong I was! The harmonies are good, especially "You Really Got a Hold On Me." The Lp is really not that pop-ish, so don't be afraid of it. In fact, who can be more progressive than a founding member of the Allman Bros. and 1/2 of one of the most popular acts of the '60s???

After four years of selfless leadership, Mark Beltzre has resigned as our P. D. We will miss him and wish him good health and luck in further music endeavors.

Brock Whaley is now Program Director. Despite his tender age, Brock could be considered the Dean of Album Rock in Tampa, having led the Underground Railroad at WUSF years ago, WOSR, WFSO and alas, back to 'QSR. Congratulations on this big step, Brock. Don't blow it (ha ha, just kidding). I will continue as Music Director (more rewards and less hassles than P. D., right M. D. '??). - Steve

The punk show that WRAS has been featuring for the past 6 weeks continues to be controversial. Altho phones are 90% favorable.

Why do so few stations outside of N. E. comment?

#### COMMENTS:

We just held our 2nd annual fall sunshine Thanksgiving concert with Dr. Hook and the Dwight Twilley Band... only 93¢ plus a couple of cans of food - a great night for all. We were rockin' and a-rollin'! (The food was donated to the Salvation Army.) Also... we're coming to the close of 93QFM's Columbian Cruise... we're gonna ship off 2 couples to Columbia, South America - the 3rd prize winner gets an evening in unforgettable South Milwaukee with bowling and we'll have consolation prizes with pounds of Columbian coffee... And the insanity reigns supreme (as usual.)

Later,  
Bobbin

# RETAIL STATS

OUR RELATIVE CHARTING, AS SEEN BELOW, RESEMBLES BASEBALL'S BATTING AVERAGES. IT ESTABLISHES A RATIO BETWEEN THE IDEAL (TOP 5 SALES AT EVERY REPORTING RETAILER); AND THE WEIGHTED COUNT THAT A RECORDING HAS ACTUALLY EARNED. THIS MATHEMATICAL FORMULA IS APPLIED TO EACH RECORD—FIRST REGIONALLY, THEN NATIONALLY. A DUAL WEIGHTING SYSTEM IS USED TO DERIVE THE COUNT ON THE HITS. IT ADJUSTS FOR STORE CHAIN SIZE AND REPORTED POSITION IN THE TOP 15. A SINGLE WEIGHTING SYSTEM WHICH ADJUSTS FOR STORE CHAIN SIZE IS APPLIED TO THE BREAKOUT REPORTS. THESE CHARTS SHOW THE RELATIVE INTENSITY OF RETAIL INTEREST FOR BOTH NEW AND ESTABLISHED RECORDINGS.

They Won't Turn Platinum, But.....  
Some obscure new musical gems to savor while wondering why U. S. record manufacturers don't try to emulate foreign pressing techniques (imports have an average defective rate of 3%)? This would make all of our jobs much easier.

(1) Brand X - Livestock - Phil Collins and Percy Jones prove to be the finest rhythm section this side of Tibet. Especially on "Euthanasia Waltz."  
(2) Pat Travers - Putting it Straight - If this man isn't rock's next superstar, it's everyone's loss. No bullshit rock and roll. A joy.

#### COMMENTS:

(1) Thanks to Arista for a great Dwight Twilley party and for bringing Mandrill in the store.  
(2) It's funny to listen to some labels call me when their product doesn't show up on reports. The local rep.'s superiors seem to think local people aren't doing their job. Most do a phenomenal job of label-retail relations (A&M, Arista, CBS, WEA, Phonodisc). Some don't (U. A. ). With store specialization, evident its highly unlikely that an R&B disco store will sell a hell of a lot of Elton John or Fleetwood Mac. My reports are compiled by sales figures only! Phone calls to me asking why product isn't listed is unnecessary  
(3) Creeping up for Xmas - these are efficient sellers through ISP...  
(1) Rick Danko - better than the last three Band Lps (Arista).

### PLATTERS LTD. Continued...

(2) Motors - Ducks Deluxe went unnoticed - I pray it won't happen again... better than most new releases by established hard rock groups.  
 (3) Eddie Money - Move over Bruce Springsteen!  
 (4) Alice Cooper - Live - The Never ending saga of Dick Wagner and Steve Hunter continues. Nice material... okay sound.  
 (5) Player - a sleeper awakens.  
 (6) George Duke - Jazz with Parliaments - funk feel.  
 (7) Odyssey - "Native New Yorker" is across the board smash through ISP.  
 (8) Chuck Mangione  
 (9) Bob Welch - He didn't need Fleetwood Mac to assist. It's great by itself.  
 (10) The Muppets Lp - Great for kids and adults, really!  
 (11) Baby Grand  
 (4) Jem finally got smart - they're importing Japanese product. Chicago Live in Japan is a hit (1972) and Cat Stevens Live '74.  
 (5) Disco Dee Jay's will soon be out of business if companies keep manufacturing disco samplers. "Yes friends you too can have Tom Molton mix in your very own living room."

W. E. A. still giving us fits with continuous stock problems on major items e. g. Foghat, Steve Martin, Rose Royce, sometimes on tape as well as Lps. And on the same scale, shipping errors and delays are increasing at a disgusting rate. Columbia's lead over W. E. A. widens in terms of overall service.

COMMENTS:

(1) With all the writers on Billboard's staff, why are there constantly so many wrong album numbers being printed in their surveys.

(2) To compensate for all the errors made by Phonodisc's addition of Casablanca Records to their company, they have taken on Delite Records which they will promptly triple ship the Frankie Avalon album as a new release.

Computers are for the birds. They breakdown and lose new releases (W. E. A.), they print out invalid numbers, just because you have the wrong prefix or wrong tone of voice (Phonodisc).

Showmanship	Excellent	Fair
Sound Quality	Excellent	Good
Lighting & Staging	Good	Good

**Reviewer's Reaction:** Joan Armatrading is a favorite in Boston, and she showed us all why with this concert. Her band performed Joan's distinctive and original material flawlessly, while Joan herself kept the crowd entranced with the power of her singing and acoustic guitar playing. A great performance by an artist who personifies at least one facet of rock's future.

**WARC/Meadville, Pa. - Jeffrey Dunn**  
**Artist(s):** WEATHER REPORT

**Reviewer's Reaction:** Despite the fact Shorter ran 103 temperature, the keyboards malfunctioned, and the group returned from a 44 dates in 49 days tour of Europe, Weather Report played transcendent progressive jazz. Pastorius' bass magic educated much of the audience to a genre they had never experienced.

**BEACON SHOPS/Providence, R. I. - Steve Perry**

**Reviewer's Reaction:** With Boston being probably the hottest city in the U. S. for new signings, the finest stage act in town remains untouched. Tight, driving rock and roll which had the entire club jumping. One damn enjoyable evening of rock at its finest.

**WJRH/Easton, Pa. - Bob Baryla**  
**Artist(s):** CHUCK MANGIONE  
**Place & Date:** Grace Hall, Lehigh Univ. - Nov. 11  
**Type of Place:** Gym

**Attendance:** 2,000  
**Audience Composition:** College age and up  
**Production Values:**

Musicianship	Excellent

**Reviewer's Reaction:** The audience was very responsive to Mangione, once giving him a standing ovation after "Bellavia." The style of the songs was similar; start out mellow and build to a climax, usually during a Grant Geissman guitar solo. High points of the evening were "The Xlth Commandment," "Ballad of the One-Eyed Sailor," and "Main Squeeze."

**Reviewer's Reaction:** A fine show all-around. The Pat Metheny Group opened to a small but hungry group, played a half-dozen tight songs, then left suddenly to make way for Joan Armatrading. Armatrading and band played a long and well-applauded set, touching on material from all of her albums and ending with a pleasing and tough version of "Back to the Night." The entire show was a big production, with Showco Sound and a magnificent lighting job. The music from both acts was, as expected, exceptional, but where were the people?

**WYEP/Pittsburgh, Pa. - Daniel Barnett**  
**Artist(s):** PAUL WINTER CONSORT  
**Place & Date:** Chatham College, Pittsburgh November 16  
**Ticket Price:** \$4.00

**Audience Composition:** College, 20's & 30's  
**Production Values:**

Musicianship	Excellent

**Reviewer's Reaction:** The concert started and ended with "Icarus" which set the tone. Most of the pieces were political in nature but not in an overbearing sense. Paul Winter (sax) and David Darling (cello) were the stars so it wasn't a "Consort" as such but the music was up lifting and the audience left with a nice high.

**Reviewer's Reaction:** A great combination of two of the so-called "New Wave" groups, one from L. A. and the other from England. The Hot Rods opened with their '60s style rock tunes, which have helped them become quite popular in England. They are yet another British band that go back to the basics as they closed with "Gloria" segueing into "Satisfaction." Tom Petty and his group lived up to their reputation, on this show, their first in the Philadelphia area. With great tunes (from their first Lp) they captivated the crowd, as they too closed with an old Stones' tune, "Route 66." Jagger & Co. should take heed.

**Reviewer's Reaction:** Kris Kristofferson called this some-what of a homecoming. He lived in Baton Rouge and wrote several of his early songs in La. ("Me & Bobby McGee"). Kris was only hampered by his deep voice that seemed hard to understand both talking and singing (on new songs was when it interfered). Yet when Kris rejoined Rita on stage later his voice was clear as a bell. Rita Coolidge, to quote Willie Nelson, "Heard an angel sing." Kris seemed surprised by a five minute ovation for "Why Me Lord," trying to carry on the show several times, but had to wait. Joined for the encore were Jerry McGee's father and friend on fiddles for some coon ass music. Great entertaining show.

**Reviewer's Reaction:** Stephen Bishop received great response with "On & On" & "Save It for a Rainy Day" but it was obvious why the fans had come - to see Linda. After minimal time was spent on changing the sets, Linda came out to a standing ovation. Her performance was none other than superb. She also received a standing ovation after "Desperado" and "It's So Easy," the latter in which producer Peter Asher helped out on harmony vocals. All in all the show was smooth and tight with Linda performing a variety of songs from her long career.

**Reviewer's Reaction:** I missed the opening act but word of mouth was mediocre, at best. Stewart, however more than made up for the opener's limitations. Stewart relied more on old material than new and performed flawlessly. Stewart's new band supports and compliments him better than the Faces. A tight enthusiastic performance.

**Reviewer's Reaction:** This is the first time I've ever seen Billy Joel perform -- his live performance actually surpasses his vinyl pressings! Not only can he sing well and play piano in a grandiose fashion; but he also is a humorous, spontaneous comedian (as witnessed by his rousing rendition of "The Beer Barrel Polka," which the Milwaukee audience went wild over!). Truly a shining example of a versatile, all-around entertainer.

**Production Values:**

	Headliner	Opening Act

Showmanship	Excellent	Good
Sound Quality	Fair	Good
Lighting & Staging	Fair	Poor

**Reviewer's Reaction:** Gentle Giant fans, who normally have very little patience with warm-up acts, responded to the funk-rock of Law, and particularly liked John McIver's bass solo. But, of course, G.G. was the real reason the folks came. Their fans are probably the most dedicated and knowledgeable around, as well as being very noisy at times. All material was well received - old and new alike. Particular highlights: "So Sincere," "The Boys in the Band," "Memories of Old Days," "For Nobody," and their punk rock parody - "I Bet You Thought We Couldn't Do It." What a bunch of characters!

**Reviewer's Reaction:** Something's gotta change! This concert sucked. Nazareth and Aerosmith are good practitioners of the heavy metal arts but when you play too loud, as these bands did, in a concrete barn like the Civic Center the sound has no place to go but bad. The musical energy these groups have to offer was just lost in the sauce. Too many stoned fans, too much smoke, too much noise, too bad.

**Reviewer's Reaction:** This five-man group epitomized the un-corrupted, fresh S.F. sound. With only the house sound system marring part of the second set, Water Bros. transcended the tiny-club-syndrome. Compare them to early Beautiful Day or Dead. But while Tim O'Connor glides violin on self-penned tunes, comparisons seem unimportant. Diversity reigned throughout. Mostly original tunes and an unexpected arrangement of the Sons' "Welcome to the Dance,"

**Reviewer's Reaction:** Superb opening act though coolly received, Buffalo kept a good pace, doing a short, tight set. Using basically rock instruments, they managed to achieve a down home-bluegrass-drunk-mountain music effect. Buffalo (as he is called), one of the best harp players I've ever heard, is also a member of the Steve Miller Band. Miller's act was musically tight with a perfectly synchronized light show which included at first effective but soon overused laser beams. There were many instrument changes with stage crew members darting on and off stage at predetermined moments. The crew was too large, however, and at times sloppy and disoriented. Lonnie Turner, Miller's bass player, wandered around the stage when the band returned for their first encore, wondering where his bass had walked off to. Though a bit commercial for my tastes, Miller is an excellent guitarist in his own right and never boring to listen to.

**Reviewer's Reaction:** Steve Goodman's set was excellent. As a solo act he exuded great joy. His personal contact with the audience was excellent. Every song brought the audience into his craziness. The last 1/2 of his set was highlighted by Jethro Burns (Homer & Jethro), whose expertise on the mandolin was nothing less than incredible. The audience gave a standing ovation at end. Randy Newman's quiet mastery of his material was interesting. The audience was there to see him and he sang well, handled the audience with soft spoken humor in a self-deprecating manner which hit well. His "Short People" was great. All in all a very fine concert.

Live-cast	2/3 Excel.	2/3 Excel.

**Reviewer's Reaction:** The Great Pacific Northwest storm you may have heard about hit us 2/3 through the show, hence the rating on the live cast (on KLCC, every Monday night). While the listeners at home were hearing the results of iced-over transmitter antenna elements for the last hour or so, the cozy crowd inside stayed warm and happy with Mary and Jim and their mountain music. Mary's range of material is amazing, and radio play of her last album helped prime the house for many of her tunes. Her own stylist, never too far from the traditional folk sound, she drew warm response from the attentive house. Jim boosted the level with his well knit set, and together they closed the concert with wonderful harmonies and down home guitar pickin'. These are artists on their way up, and we were glad to have them live on our Eugene air.

**Reviewer's Reaction:** Without a doubt, Elvis Costello is the most genuinely exciting thing this side of Asbury Park. Despite a relatively short set (45 minutes) Costello was a knockout on all levels. In a set that included such killers as "Alison" and "I'm Not Angry," Elvis' only problem is that he's a little stiff, but if anything, that's probably just a plug for his record label. Obviously, Mr. Costello and the Attractions are on their way. Their aim, as they say, is true!

**Reviewer's Reaction:** Following Iggy's career since its beginning has had its ups and downs. But I'm here to tell you that I have stayed through it all, going to every Stooges concert I could squeeze into. Without a doubt, the finest rock show I've seen was Iggy's utterly electrifying performance at the Whiskey - Los Angeles, 1973. Now, with his career revived by David Bowie, Iggy seems to have lost the intensity, urgency and honesty which were the hallmarks of his earlier live work. Gone is the real raw power of the Stooges, replaced at the Civic by studio musicians who play the music without actually understanding it. The rhythm section was particularly weak. Iggy needs to put together a group more worthy of his brilliant conceptions. Nelson Slater's band played tight, enjoyable Lou Reed-influenced music.

**Reviewer's Reaction:** Iggy and band stormed the stage at the old Waldorf this night and had the audience first standing up, then on the chairs, and then the tabletops. Much faster paced than the tour last spring, Iggy seemed to have toned the movements down in favor of a more intense artist-audience presentation. The band never missed excellent in all respects; but the night belonged to Iggy and the fans - like it or not we all left with that "Lust For Life."

**Reviewer's Reaction:** Horslips, veterans of 7 or 8 years on the road from Ireland to America, showed that experience is the greatest teacher. Bassist Benny Hoy lead the band through material from all 7 albums, shining vocals with multi-instrumentalist, Charles O'Connor and all members of the band. While much of their stories are rooted in folk, this is one of the most solid rock bands on the road. Judging from this live show, Horslips are on the verge of the "big time."

In fact, he seemed stronger after three sets than when he began... such is the nature of R&R at this level. The show went live over KFAT and drew people in all nite. R&R is alive and well!

**Reviewer's Reaction:** Zappa's band is high energy! 2-1/2 hours solid music - no breaks - it was tiring - most material from a soon to be released (maybe) Lp - a few oldies - the band was the tightest you'll ever hear - Adrian Blue - crazed guitarist - Zappa freaks (mainly young) rushed the front for the encore.

Phoebe Snow was very relaxed on stage and personable... almost too buddy-buddy with the audience. Phoebe's vocal range is superb... tight musicianship.

## KBLE/Des Moines, Iowa - Ron Sorenson

**Reviewer's Reaction:** Best music in the best setting we've had in some time. Juice and Silver Spur leaned more toward rock and roll and ballads than toward the country feel of their earlier albums, drawing material mostly from Come To Me. The three front persons, Juice, Otha Young (a fine guitarist) and Tom Keely sang in excellent harmony. Standout songs were "Come To Me," "Low Down & Lonesome" and "Good Luck Baby Jane." On Thursday's opening show I felt they could have communicated more with the audience.

## PENNY LANE RECORDS/Kansas City, Mo. - Larry Hoof

**Artist(s):** BRAND X  
**Place & Date:** One Block West  
**Type of Place:** Rock and roll club  
**Ticket Price:** \$2.00

**Production Values:**

	<u>Headliner</u>
Musicianship	High quality
Material Quality	Very good
Showmanship	Limited due to small stage
Sound Quality	Muddy
Lighting & Staging	Minimal

**Reviewer's Reaction:** Brand X salvaged a concert cancellation by Wishbone Ash by picking up a club date at this 18 year old beer hall in Kansas. An inadequate sound system did not impair the energetic performance of the touring quintet. Standouts included the tunes "Disco Suicide" and "Euthanasia Waltz." The younger crowd reacted enthusiastically to each of the extended compositions, demanding an encore at the set's end.

## RECORD WORLD/Madison, Wisc. - Jerry Lowry-Boylan

**Artist(s):** CHUCK MANGIONE  
**Place & Date:** Union Theater - Nov. 18  
**Type of Place:** Auditorium  
**Ticket Price:** \$5.50; \$6.50  
**Capacity:** 1500-2000

**Production Values:**

	<u>Headliner</u>
Musicianship	Excellent
Material Quality	Excellent
Showmanship	Excellent
Sound Quality	Excellent
Lighting & Staging	Good

**Reviewer's Reaction:** Chuck Mangione has the ability to create durable melodies that you find yourself humming again and again. Along with the incredible dexterity of Chris Vadala (is there an instrument he can't play??) and the rest of the band, Mangione moved easily from the funky rhythms of songs like "Hide & Seek" to the quiet moods of "Soft" and "Maui-Waui." Mangione's music is easily accessible, but the performances were so intense and absorbing (as was the playing) that familiarity only heightened the experience. The audience would have been up to boogie if space permitted, yet you could hear people breathing during the trance-like slower pieces. It was like being truly "lost in a dream," and it was great!

## WSUP/Platteville, Wisc. - Bill Hutchinson

**Reviewer's Reaction:** There are very few groups around today that have the experience of a group such as Jethro Tull, and they proved that even after a very full touring schedule, they can perform in top-notch form. A very well put together program!

 Lighting & Staging Good Good  
**Reviewer's Reaction:** The pretty toughness of songstress Joan Armatrading was successfully presented in this auditorium affair. Previous Chicago appearances were in clubs. This lady's got a helluva unique voice, a tight, knowledgeable backup band, and exciting, listenable songs that soothe, irritate, and hypnotize depending on how Ms. Armatrading decides to capture you. Chris DeBurgh had cold feet.

**Reviewer's Reaction:** It was so refreshing to see a "super group" in a small hall, that has superior sound quality. ELP had the same stage setup as on the last tour, but no orchestra. I was at the show when they had the orchestra and it was great, but just the 3 of them was also very superb, the material they choose was an excellent mixture of old and new and very enjoyable to all. They definitely still have that quality that makes a great musician and showman.

**Reviewer's Reaction:** Sonny seems to have been forgotten by much of the jazz public since leaving McCoy, although his records sell consistently if not well. This group is tighter than the last he brought through Chicago, and they play hard and very well. Perhaps the style (avant pop?) is too esoteric in this crossover era, perhaps his tone is too sharp for "sweetened" ears. Unfortunately, as the music is intelligent, energetic, hard and bright.

**Reviewer's Reaction:** Emotions worked up audience into enthusiastic frenzy with participation on "Best Of My Love," and through the set. Large band with heavy and good choreography. Tossing roses to audience nice touch (hope thorns were removed.) Commodores met up to crowd's expectations. Slick throughout, the choreography doesn't match up to the days of Smokey, and the Temps, but those guys didn't play instruments. Commodores come across as confident and ready to please audience. Miss Brickhouse wasn't necessary though - and unfortunately bad sound marred performance.

WNUR/Chicago/Evanston, Ill. - Chuck Schwartz

 Lighting & Staging Distracting -- Excellent  
**Reviewer's Reaction:** City Boy was the surprise of the evening - putting out a well crafted, musically tight, very enjoyable show. As openers, they didn't get an encore which they should have. Lake did, and they didn't deserve it though their rendition of "Crossroads" was the highlight of their show. On paper, the Nektar show should have been excellent. Good choices in material, all arranged to segue into one another. But on stage the addition of a non-stop slide/movie show was distracting; the show was too ponderous to get off the ground. By the time it did, it was over.

**Reviewer's Reaction:** Keith Jarrett and the Scandinavian trio of Garbarek, Danielson & Christiansen put together a remarkable two sets of tightly arranged, melodic jazz. The first set, an uninterrupted flow of music, ran the gamut from Jarrett's trademark gospel piano stylings to some incredible flights of free-form fancy from Jan Garbarek's tenor sax. Garbarek played tenor almost exclusively all evening, depriving the audience of his distinctive soprano style, but no matter. The second set highlighted a switch-off, with Jarrett playing passable drums, while drummer Christiansen beat out a tattoo on the inside of Jarrett's piano. No notes were wasted. The only fault was the cavern-like atmosphere of Jones Hall. The music cried out to be heard in a more intimate setting.

**Reviewer's Reaction:** For years, the Beach Boys have gotten enormous crowd reaction by playing their old stuff. This show was no exception, and the crowd got hotter and hotter as the show went on. It seems, though, that the older stuff is the only music the crowd wanted to hear. When the Beach Boys got into some material from their recent Love You and 15 Big Ones Lp's, response was less enthusiastic at times, even quite hostile. The isolation of Brian Wilson from the rest of the band was unendingly apparent, as he often times neglected to sing his part in the Boys' 4-part harmony, and at one point walked off the stage in what seemed to be apparent disgust. A post-concert interview with Mike Love yielded no info on this.

WRAS/Atlanta, Ga. - John Wynn

Artist(s): AIR SUPPLY; ROD STEWART  
Place & Date: Omni - Nov. 20  
Type of Place: Auditorium  
Ticket Price: \$7.00; \$8.00; \$9.00  
Capacity: 17,000

Audience Composition: Mixed  
Production Values:

	Headliner	Opening Act

Reviewer's Reaction: Air Supply is potentially a pop/commercial band. Rod and Co. were very relaxed, giving a dynamic performance, which expressed even the skeptics in the crowd. One of the best rock and roll shows seen by this reviewer in 1977.

WRPL-AM/Charlotte, N.C. - Debbi Calton

Artist(s): WEATHER REPORT  
Place & Date: Owens Auditorium, Charlotte -11/12

Attendance: Jam packed  
Audience Composition: All ages - all kinds  
Production Values:

Lighting & Staging	Excellent

Reviewer's Reaction: Not really knowing what to expect, I didn't expect to be thrilled. But I was overwhelmed. The incredible individual talents shone separately and ignited when merged. Jaco Pastorius has got to be the most exciting musical happening and innovator to come in a while. He can make that bass do anything. Arcane has a pretty heavy task in keeping a backbone beat with the drums but he achieves masterfully. Shorter and Zawinul, of course, dazzled all ears and eyes with their skillful mastery of their instruments. Especially effective was a set where smoke came up from underneath Zawinul's keyboards and surrounded the stage. Out from the fog saunters Shorter on stage and after several minutes of mindblowing sax, he just casually saunters off. A complete rush.

WIFS/Bethesda, Md.

Artist(s): ROGER MCGUINN; GENE CLARK  
Place & Date: Lisner Auditorium - Nov. 16

Audience Composition: 20's - 30's  
Production Values:

Reviewer's Reaction: This was not simply a nostalgia concert for old Byrds freaks - McGuinn and Clark are all too fine and multi-talented musicians who have found a new energy in an old friendship. There was new material as well as old Byrds material and hopefully a duet album for some lucky company. It's a good show - see it.

WCVH-FM/Flemington, N.J. - Bill Rose, Jeff McQuinn

Artist(s): HOT TUNA; HAPPY THE MAN

Reviewer's Reaction: Hot Tuna was only lukewarm - thus leaving much to be desired. "Tuna" was guilty of being both too loud and boring. The lead guitar was good, otherwise this was a real disappointment. Happy the Man - a group with a sound that will leave every jazz enthusiast happy! An excellent jazz group despite the rude and rowdy "Tuna" crowd. Move over Gentle Giant!

WNYU-FM/New York, N.Y. - John J. Bruno

Artist(s): THE DINGOES;  
TOM PETTY & THE HEARTBREAKERS  
Place & Date: Bottom Line, New York - 11/20  
Type of Place: Club  
Ticket Price: \$6.00

Reviewer's Reaction: The Dingoos provided a polished set of rock and roll, highlighted by "Shine A Light." Really nice guitar work. Petty is a natural on stage, whose facial expressions provide all the sincerity he needs. Benmont Tench's piano work complements Petty, for whom the word is excitement. "American Girl," "Break-down" and "Mystery Man" highlight.

WRCN/Long Island, N.Y. - Jeff Fisher

Artist(s): JETHRO TULL  
Place & Date: Nassau Coliseum - Nov. 20

Audience Composition: Teens - mid 20's  
Production Values:

Reviewer's Reaction: Ian Anderson & Co. put on a high energy show, playing a pair of hour-plus sets with about a 1/2 hour break in between. Crowd seemed very responsive and content to get into the music rather than get overly rowdy. I must say I was impressed by Tull's music, which was well engineered and reinforced at just the right volume.

Sound Quality	Excellent	Good
Lighting & Staging	Basic	Basic

Reviewer's Reaction: The Other End is one of the nicest places that you want to see a concert in. This coupled with fine sets from both acts made this evening a very enjoyable one. Boylan was good. But based on his outstanding debut album I expected more. He just needs more stage experience. The Cate Bros. look for all the world like California folk-rockers, but instead they play a brand of music that could best be compared to white R&B. They are incredibly tight and their songs are instantly appealing. Some of the highlights of the set were "Rendezvous", "Woman Yield Not To Temptation", the single from their new album. Unlike many acts around today, you don't have to know the songs the Cate Brothers play to enjoy the show. You can just sit back, relax and be very entertained.

Reviewer's Reaction: "I thought we stopped playing night clubs 15 years ago" was the road manager's comment upon seeing the concert hall. It was the smallest show they've done in 13 years! They excited the crowd with "Bertha," "Tennessee Jed," "Samson & Delilah" and "Playin' In the Band." Incredible show!!

Sound Quality	Very good	Poor
Lighting & Staging	Poor	Poor

**Reviewer's Reaction:** The Talking Heads could not do live, what they created on their debut album. At times their music fell into a rut, yet overall they tried really hard, but a poor sound mix and electrified mikes did not help them get the performance out on a good step. Their stage presence was lacking and the musicianship seemed restrained. Their guitarist/organ player never cut loose, as he did for the Modern Lovers. As a result of the performance, the audience reacted with mixed emotions and booing prevented the Heads from coming out to do a second encore. As audience hostility built up during the performance, the Heads played with greater conviction. This Christmas I'm going down to CBGB's to catch the Heads on their home ground, where they are not at the mercy of someone else's soundman. A band that is going to be a major musical forte definitely deserves a second chance.

**Reviewer's Reaction:** Player, working under the hardship of being new with very little material familiar to the majority of the audience did a solid opening set. They were tight, clean and show signs of being a potential headliner in the years to come. Gino Vannelli brought the house down after some early problems from the sound equipment. His style and sound are unique, well polished, and makes for an exciting show both sound-wise and visually. Two encores showed how the crowd felt about Gino.

WNHU/West Haven, Conn. - Tom Sabellico

**Reviewer's Reaction:** The show began with Freddie Mercury perched on one of the elaborate stage protrusions amidst smoke and elaborate lighting, the band opening with "We Will Rock You." Brian May was featured early in the show on a tune which he wrote "It's Late" also from their latest. Midway during the show the band switched to more melodic, acoustic based tunes with the whole group stepping forward with some really nice vocal harmonies. But the crowd consisting heavily of young rockers wanted more heavy metal so back to more somewhat Zeppelinesque rockers. Queen comes into its own here due to the fact that Brian May not only plays guitar extremely well but has good vocal ability supporting Mercury with backing vocals. The rhythm section is extremely strong and consistent adding up to a powerful and precise outfit. An excellent show.

 fit in well with Arlo and his music and should do well in the future. Even though the anticipating crowd didn't hear "Alice's Restaurant," they marveled at Arlo and his storytelling.

HARVARD COOP/Cambridge, Mass. - Michael Sylvia

Lighting & Staging	Excellent

**Reviewer's Reaction:** After opening their second major tour of the year in Portland, Maine the night before, Queen played to a sellout audience in Boston, and despite a sensational stage show, the show was marred a bit by the type of mistakes that only happen during the first few dates of a tour. The show's beginning was especially impressive; a large crown about 60 feet in diameter started rising from the stage during the opening chants of "We Will Rock You" and displayed a massive set-up of lights and P. A. Despite all this, however, the band seemed flat, missing cues and doing bland renditions of their songs, with the notable exception of Brian May, who was excellent.

WBRW/Waltham, Mass. - Peter Mork  
**Artist(s):** RAMONES; TALKING HEADS; HOT RODS  
**Place & Date:** Orpheum - Nov. 18  
**Type of Place:** Theater  
**Ticket Price:** \$4.50  
**Capacity:** 2300  
**Attendance:** 1600  
**Audience Composition:** Teens to 20's  
**Reviewer's Reaction:** Hot Rods: It took a lot of nerve for them to come on and do at least 75% unfamiliar material but damn if they didn't bring it off. The new stuff is strong and they don't seem to be bothered by the loss of Dave Higgs. These Rods really are hot, and the audience obviously wanted more, though they weren't allowed an encore. Talking Heads insisted the house lights be left up for their set, creating an appropriate purgatory atmosphere for their brand of queasy show-pop. See David Byrne. He is weird but he is not gonna smash that guitar. A very tight and clean performance, and again they did it with mostly new songs. I wish more groups were this adventurous. The Ramones: Hard to be objective, they are, after all, the most exciting group on the planet. Truth to tell, none of these groups should be heard in concert halls like the Orpheum. But as a social event - you had to be there.

**Reviewer's Reaction:** Sarah Dash opened with a fine set which featured her incredibly strong voice - perhaps the best voice of the group Labelle. Her version of "You're Movin' Out Today" is the definitive one. The Persuasions give another crowd pleasing set, but with (regretably) less solos and more oldies than ever. Great fun.)

**Reviewer's Reaction:** A poor turnout, but those who were there were really enthusiastic. Money made a nice debut, projecting a basic R&R style. Geils put on a strong, energetic show. Peter Wolf had the audience captivated all evening long, and climaxed by dousing the audience with champagne, to celebrate their 10th anniversary. An excellent show!

**Reviewer's Reaction:** Rick and his band put on a fine show. The material encompasses the entire breadth of his repertoire. While it must be said that the strongest tunes were the old rockabilly-rock and roll ones, ("It's Late," and personal fave "Believe What You Say") the new tunes ("You Can't Dance," "I Want To Move With You") were very good; perhaps surprisingly good. The large crowd was wildly enthusiastic and it appeared that Rick was bewildered by the very positive reaction the band was receiving. I would like to assure him that he is presenting a quality, contemporary show and with continued persistence on his part, he will transcend his stereotyped image.

A low-key, refreshing show that featured some beautiful singing from McCaslin, and humorous songs by her husband Ringer. Together, they are excellent. They both have 3 albums on Vermont's Philo Records, and they are now working on an album together.

# NEW RELEASES

BELOW IS A CATALOGUE OF NEW RELEASES. THEY ARE DIVIDED INTO CATEGORIES DESIGNED TO GIVE YOU AN IDEA OF THEIR RELATIVE MUSICAL WORTH. THESE FIRST IMPRESSIONS ARE NOT MEANT TO RELATE IN ANY WAY TO PAST, PRESENT OR FUTURE SALES, NOR SHOULD THEY BE TAKEN AS THE WORD OF GOD.

## SPECIAL MENTION ALBUMS

(These records which, in our opinion, deserve special mention because they come closest to perfecting their musical genre regardless of progressive radio application.)

(None)

## STRONGLY MERITORIOUS

(We feel that these Lp's have an extra edge.)

(None)

## MERIT PLUS ALBUMS

(All Merit and Merit Plus Albums are recommended for serious progressive radio consideration, recognizing that not all of these recommendations are suitable for all stations. The Merit Plus Albums distinguish themselves with an extra vitality.)

The Pat Metheny Group/LIVE IN CONCERT/ECM PRO 030

(Metheny's group gets an intensity into their live performance which has not always been present on their studio albums. They lean into the rhythm creating the kind of drive which their sound rarely generates.)

Parliament/FUNKENTELECHY/Casablanca NBLP 7084

(No they don't all sound alike. It does not take long for the Parliament groove to capture your body. George Clinton's fertile, playful mind taunts and musicates relentlessly. Fun.)

## MERIT ALBUMS

Otis Blackwell/THESE ARE MY SONGS!/Inner City 1032

(A truly impressive batch of classic songs and the surprising similarity of vocal quality links Otis and Elvis unmistakably. The performance of Blackwell's band lacks convincing drive. Some historical value is obviously a factor. Write: 43 W. 61st Street, N. Y. C. 10023.)

Roy C. MORE SEX & MORE SOUL/Mercury SRM 1-1192

(The disco cover diverts attention from the true rhythm & blues tradition which Roy C. personifies. His is the authentic soul music. Lots of round songs turn into enjoyment.)

Earth, Wind & Fire/ALL N' ALL/Columbia JC 34905

(Earth, Wind & Fire turns itself inside out. They become a melody machine. Maurice White's typically classy production makes few mistakes. The band exudes confidence and the music is uniformly good.)

Gabriel Bondage/ANOTHER TRIP TO EARTH/Dharma

D-808 (Rock dramatists, Gabriel Bondage permits one musical release - a strong sense of melody. Though they blaze no new trails, their voyages move easily from a smokey cabaret to outer space. They are grand without being pompous.)

Eric Gale/MULTIPLICATION/Columbia JC 34938 (A heated

front side gathers considerable respect here. "Oh! Mary Don't You Weep" pulls you into its gospel sway. Side two lightens up measurably and in doing so, points to the fringes.)

The Gypsy Gyppo String Band/Bay 209 (Fun for fans of

mountain music. These California hillbillies are serious collectors who manage to avoid the academic while pick-in' for the good time. Rip roarin' material. Write: 1516 Oak Street, Alameda, Calif. 94501.)

Ohio Players/MR. MEAN/Mercury SRM 1-3707 (The

creative juices continue the flow in the O.P. veins. Their music operates on a subterranean funky level. It's personality is understated and totally individualistic.)

Johnny Rivers/OUTSIDE HELP/Big Tree - Soul City

BT 76004 (Good songs and the soulful vocals of Johnny Rivers are always in style. The J.R. of 1977 is as valid as the J.R. of 1967. His music is naturally sewn.)

Boz Scaggs/DOWN TWO THEN LEFT/Columbia JC 34729

(Boz is the rhythm and blues he sings. However, as believable as the sound is the search for great songs comes up wanting. Some things stand out - "Hard Times" and "Hollywood" - but, most is mere effect.)

Sex Pistols/NEVER MIND THE BOLLOCKS/Warner Bros.

BSK 3147 (Previously reviewed as an import. Unrelenting power. When you collect the singles which have floated by in recent months into one package, and add more tracks, the impact is overwhelming. The Sex Pistols intimidate.)

10CC/LIVE & LET LIVE/Mercury SRM 2-8600 (10CC has

to be amongst the leaders of a small group of witty rock bands. This live performance is a straight forward recitation of their fine collection of songs, not nearly as fancy as the studio versions. It is also a taste of the band post-Kevin and Lol. One record would have had a stronger impact.)

Various Artists/ZOOBERRY JAM/KZEW (Like KGB's

Homegrown project KZEW's Zooberry Jam collects local talent on a \$1.98 album, the proceeds of which go to charity. Beside encouraging local talent, this is the best kind of community involvement for a radio station. The low points in the Lp are kept to a minimum. The Bees Knees stick out. Write: Communications Center, Dallas, Texas 75202.)

## SATISFACTORY ALBUMS

(Albums of acceptable quality, which, of themselves, require only secondary progressive radio consideration.)

Alice Cooper/THE A. C. SHOW/Warner Bros. BSK 3138

(At his best, in a controlled studio environment, Alice just passes the musical test and, then, not always. Given that, this live Lp, with the sound of a big area built in and old material as the focus, slips some. The ballads are moving, "Only Women Bleed," "I Never Cry" and "The Black Widow" hit the mark.)

Slave/THE HARDNESS OF THE WORLD/Cotillion SD 5201

(Funky enough but, Slave isn't melodic enough. Along with a strong bass line there must be a singable tune. Slave demonstrates, unquestionably, that they can play but they ought to do outside material to enhance the overall quality of their albums.)

Solenoid/ALMOST TENDER/Rufert RR 1016 (After a fine

opening tune "Son of Sin" Solenoid's Lp has a tough time coming back. A combination of unripened writing and unclear ideas of what kind of music they want to play subverts the effort. They need time. Write: Doug Ebert, Box 16103, St. Paul, Minn. 55105.)

## FRINGE ALBUMS

(Good albums which are not progressive, yet hold some interest for progressive audiences.)

William Bell/IT'S TIME YOU TOOK ANOTHER LISTEN/

Mercury SRM 1-1193 (Bell is a rhythm & blues singer and writer who comes from the old school. Much of this album would have been acceptable had the production been lighter. A few tracks get by. Try "I Don't Want Nobody," "Hollywood Streetwalker" and "Your Love Keeps Me Going.")

Cerrone/SUPERNATURE/Cotillion SD 5202 (Cerrone is a

drummer and disco is a drummer's paradise. With the limited credits it is hard to tell who is responsible for what. But, there are some interesting, sometimes spacy, arranging ideas which deserve some note.)

The Jerry Fuller - Don DeMichael Swingtet/IN CONCERT/

Fleetwood BMC 5126 (The old days are relived. This Swingtet does just what it says it will do. It's easy swing sound is lead by Jerry's clarinet and Don's vibes. Groovy. Write: 321 Revere Street, Revere, Ma. 02151.)

Ramsey Lewis/TEQUILA MOCKINGBIRD/Columbia JC

35018 (After the title tune you are hard pressed to find anything but MOR-jazz. It is the pop production which dominates this Lp. Arranger Bert de Coteaux is the blamee.)

Bette Midler/BROKEN BLOSSOM/Atlantic SD 19151

(With due respect to Brooks Arthur, who brings some stability and dignity to Bette's recording career, these overdone arrangements too often merely imitate the source. Why not just get Phil Spector to do the production? An alternative is to drop the stylized deadend and apply the deeply rooted Midler soul to the best current songs that can be found. Bette is sweetened into an MOR corner. Each side has some usable possibilities. Clearly, Bette Midler's talent is misguided.)

Jim Owen & The Drifting Cowboys/A SONG FOR US ALL/

Epic PEG 34852 (Jim Owen is a devotee of fabled Hank Williams. His album, produced by Charlie Daniels, is a document meant to honor the man who is the father of modern country music. The songs are classic and the felling joyous.)

Various Artists/A TRIBUTE TO DUKE/Concord Jazz CJ-50

(Set in an easy combo, these Ellington tunes are as graceful as ever. Bing Crosby, Rosemary Clooney, Tony Bennett and Woody Herman each front the group for one or two tunes. Ed McMahon and Walter Cronkite add their musical insights.)

Various Artists/MONTREUX SUMMIT VOL. I/Columbia

JG 35005 (These Big Band jams take on the character of the soloists. For example, Steve Khan's solo on "Andromeda" is backed by Cobham's rockin' force yet as the solo shifts to Dexter Gordon the context shifts too. Some excitement comes through and the star-studded band obviously enjoyed playing together.)

Harold Vick/AFTER THE DANCE/Wolf 1202 (Where do be-

bop players go in a rock 'n' roll world? They go to a big beat, mildly funky background music formulation. On occasion Vick gets a chance to step out.)

## SPECIAL PROGRAMMING

(Spoken, poetry - comedy and extraneous musics.)

Pierre Boulez & The N. Y. Philharmonic/VARESE/Col.

M 34552 (Here is a classical recording which is of some progressive interest. Edgard Varese was a modern composer who pushed the orchestra beyond romanticism. He captures, in his work, the complexities of urban life. If you seek an understanding of avant garde jazz, Varese's music provides the intellectual basis for much of it.)

Joe Ruddick/NEW MUSIC.../Joe's Smashing Record No. 1

(Ruddick pushes the limits. While side one develops into a tumultuous storm of sound, side two cruises around trying to find its center. It's all done by sleight of hand and lots of overdubbing. Write: New Music Dist., 6 West 95th Street, N. Y. C. 10025.)

## SPECIAL PROGRAMMING CON'T.

Various Artists/OUT OF THE CLOSET/Ariola America SW 50023 (In spite of the claims of the producers, this is the second unfunny, gay humor album. A comedy album made with a stocked audience starts out flawed. No First Family here.)  
Various Artists/THE STORY OF STAR WARS/20th Century T.550 (A great idea. A mixture of the actual Star Wars dialogue and anarrative by Roscoe Lee Browne successfully translates the film to the recorded medium. The album makes a fine radio drama.)
