WANTED

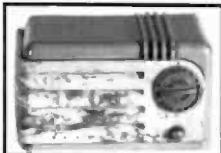

AIR KING SKYSCRAPERS

PAYING **\$14,500.00+** for near mint condition red or blue
\$10,000.00+ for green, lavender or yellow
\$3000.00+ for black and **\$2000.00+** for white or brown
ALSO WANTED ANY COLOR-ANY CONDITION
COLLECTOR PAYING TOO MUCH, CALL ME LAST

TOM THUMB CATALIN RADIOS WANTED

paying **\$6,750.00+** for mint cond red, green, orchid, blue
\$2,500.00+ for any mint condition one
ALSO WANTED ANY COLOR-ANY CONDITION

DETROLA PEE WEE & SUPER PEE WEE WANTED

paying **\$600.00+** for mint cond black, white
\$1,450.00+ for beate, gray, salt & pepper
\$2000.00+ for red, blue **\$3500.00+** for green or lavender
ALSO WANTED ANY COLOR-ANY CONDITION

WANTED ANY CATALIN RADIO

ADDISON 2 MAROON & RED YELLOW & RED \$3,750.00
ARVIN 532 ANY COLOR \$2,500.00, BENDIX 526 GREEN & BLACK \$625.00
DeWALD A501, A502 BROWN \$375.00, YELLOW \$425.00, RED \$1,200.00
EMERSON AT 190 & BT 245 YELLOW \$1,200.00, GREEN \$2,500.00,
DARK RED \$2,700.00, BLUE \$6,850.00, BRIGHT RED \$11,000.00
ESPEY MIDGET, YOU NAME THE PRICE I WILL PAY IT!
EMERSON BM258 YELLOW \$750, GREEN \$1,350, RED \$2,150, BLUE \$4,000
EMERSON 564 BLACK \$500.00, GREEN \$1,150.00, RED \$1,650.00
FADA L56, F55, 52, 5F50, 5F60, 136, 53X, YELLOW \$1,500.00, LT GREEN \$1,750.00
MAROON & YELLOW \$2,200.00, YELLOW & RED \$2,500.00, YELLOW & RED \$1,500.00, PEACH GREEN \$1,300.00, BLUE & YELLOW \$2,550.00
EMERALD GREEN & YELLOW \$7,000.00, BLUE & YELLOW \$7,000.00
FADA 115, 116 & 1000 ALL YELLOW \$700.00, MAROON & YELLOW \$950.00, YELLOW & RED \$1,150.00, PEACH GREEN \$1,300.00, BLUE & YELLOW \$2,550.00
GAROD 6AU1 MAROON \$675.00, YELLOW & RED 1,350.00, RED & YELLOW 1,450.00
HALSON ANY COLOR \$1,500.00 TO \$5,000.00
MOTOROLA 50XC ALL YELLOW \$1,750, BROWN & TORT \$2,750.00, RED & YELLOW \$6,000.00, GREEN & YELLOW \$6,250.00
MOTOROLA 52 YELLOW & TORT \$1,500.00, MAROON & YELLOW \$1,850.00, GREEN & YELLOW \$2,900.00
SONORA KM ANY COLOR \$1,600.00
SENTINEL 284 WAVEY GRILL YELLOW \$700.00, SAND 950.00, RED 1,450.00, BLUE 6,500.00
SPARTON CLOISONNE ANY COLOR \$3,500.00 TO \$5,500.00, EMERSON 520 \$500.00

always buying any catalin or pre-war colored bakelite radios

We will buy one piece or the entire collection.

Complete Riders Troubleshooter Manuals On A Single DVD Disc!

Tired of changing CD's? Tired of getting "that" schematic on your old radio where you can't read the values? REA has just released the first DVD-ROM publication at a break-through introductory price. REA created the first Riders Professional

CD-Series that is the ONLY database driven system ever created and is the "standard" that others are judged by. Now we introduce the Riders Standard Series DVD using Riders' indexes for finding "that" schematic that you need occasionally. Priced at a very low introductory price, every collector or restorer who repairs radios should own this DVD. Requires Windows on a PC to use it. It requires nothing to download as it has its own built in digital browser that allows viewing, magnification, rotation and printing to your own printer. This DVD holds almost 120,000 of the early radio models made from 1920 to 1954. A true price breakthrough yet with no sacrifice in quality. Introductory Offer - Limited Time - A professional produced product.

**Only \$ 150 + \$ 6 S&H (Sold only on DVD) -
Introductory Price - Reg. Price \$ 199**

Other CD-ROM Publications:

Riders Professional database driven 6-CD set - now only \$ 299 or \$ 59 per CD (4 volumes/CD).....
Cunningham-Radiotron Hi-Rez CD \$ 85
Sam's Photofact Sets 1-175 - 7 CD's, with Sets 1-25, 26-50, 51-75, 76-100, 101-125, 126-150 and 151-175. Only \$ 79 each CD-ROM (25 sets per CD)
All 7 Sam's CD's (1-175) - \$ 495.00
Radiophile Vol. 1 - \$ 85

Please, no classified ads by telephone; thanks.
Your ads, renewals, letters, etc. can be handled faster and more efficiently if your name, address and SUB# are written on each.

Unfortunately, A.R.C. is not staffed to answer all letters with questions about antique radios or requests for advice. However, A.R.C. does solicit letters of interest to its readers and publishes them as space permits. (See "Publishing Rights" paragraph.)

EDITOR'S COMMENTS

One of the most rewarding things about publishing a magazine like A.R.C. is how it inspires readers to share both their ongoing collecting passions and their discoveries. Sometimes those discoveries are the product of obscure companies, or they may simply be downright mysteries. We have more than one such example in this issue and can recall several on our pages in just the last year. Check out Jerry Wieland's Motorola 53LC3 (2/04); Geoff Shearer's Crosley 2C1 (9/04); and Richard Arnold's International Kadette (1/05). Needless to say, there are examples in the *Photo Review* pages too numerous to count.

Our lead article this month is a case in point. To begin with, Art Redman's current interest in doing research on Pacific Northwest radio manufacturers is in itself an unusual pursuit. However, it led to his discovery of a natural match to his interest — the obscure Long Radio Works once located on the family farm near Portland, Oregon. Since he doesn't own a Long radio, Art relied on friends for advice and photos — a great collaborative effort.

Fitting right into this picture of the obscure or mysterious is Art Lebermann's search for the history of his large Sears/Silvertone tombstone labeled "Sears International." The label states that the set was made in the U. S., printed in both English and French — certainly an indication that it was made for export. But where is the proof? Art would like to find it.

Sometimes a radio looks pretty straightforward at first glance, not at all a candidate for the "rare" or "obscure" categories. But on second look, Richard Arnold's Trav-Ler 5066, is unusual in its number of variants — color, logo locations, knobs, and even its "smiling" appearance. It also inspired imitation, as other manufacturers made similar sets. A little research often opens up wide-ranging possibilities.

The theme of "rare and obscure" certainly crops up in Erwin Macho's reports on the Dorotheum auctions in Vienna. An unusual, incomplete Ingelen U7 projected to sell at around \$500 brought over \$5,000 instead. Someone obviously thought this a rare opportunity.

Erwin keeps us attuned to the European market, not only with auction reports but with his contributions to *Photo Review*. Two very different Macho sets appear on these pages this month — a 1950s portable and a 1930s pocket crystal set. Other battery and AC table sets and a console round out these pages.

Ray Chase's reports on Estes Auctions have be-

OOPS!

The Zenith Stratosphere pictured on page 30 of the January 2005 issue should have been identified as a Model 1000Z, not a 1000T. The Atwater Kent set on the cover of the January 2005 issue should have been identified as a Model 36, not a 37. The clear-case TR-1 in Bill Morris's display pictured on page 7 of the October 2004 issue is owned by Bret Phillips.

come nearly monthly events and often offer unusual sets. Of the over 600 lots totaling more than \$40,000 in this June event, many were the usual suspects — Atwater Kent breadboards, Crosley, Federal, Kennedy, and RCA battery sets. But, more impressive was the outstanding assortment of Ham gear and Zenith sets offered. In addition, a few obscure sets made the scene — three different Western coil sets and an Alan 5 Retroflex — as well as lots of tubes and paper items.

Feedback to articles in *Radio Miscellanea* are a welcome sign that you readers are paying attention. It's also a pleasure when we find that the Web site has spread the word about some aspect of radio history. An Illinois museum that houses a large exhibit on the Kroehler Company did not know about the company's production of radios. Now they do because of Jerry Wieland's December 2003 article. That's what we're all about — communicating the importance of radio history and preservation.

A.R.C. Benefits. Be sure to take advantage of A.R.C. benefits when ordering subscriptions and books: a toll-free number, (866) 371-0512; the Web, www.antiqueradio.com; Discover, Visa, MasterCard, and American Express accepted; books shipped free in the U. S. by mail rate; and for current subscribers, a ten percent discount on all book orders.

Coming Radio Events. This is a month for big events: A.R.C. hosts the popular GBARC Radio XXXVI in Westford, Mass., on the 20th; HVRA holds its annual convention in Houston, Texas, on the 4th-5th; and ARCI holds its 25th anniversary celebration and swap meet in Bolingbrook, Illinois, on the 6th. A total of 39 events are listed, so be sure to attend at least one in your area. If you can attend Radio XxXVI, please stop by the A.R.C. table to say, "Hi!"

Happy Collecting!

John V. Terrey, Editor

ON THE COVER

Our cover is from a postcard in the John V. Terrey collection. The theme of a valentine balloon connected to headsets seemed the right choice for February. The message side of the card, which also fits into the "obscure" theme of some of our articles, required some research beyond the obvious. The postmark is clearly Budapest, with a date faintly visible as "27 July 23," and the card is addressed to people in Belgium. We found that the stamps were issued between 1926 and 1933, but the message in Hungarian was a challenge.

Surely in the "rare" category is the fact that we just happen to have a Hungarian neighbor who came up with the following translation, possibly referring to a birth: "We received your letter and were very happy to hear that, luckily, it arrived and that it is in the basket. We are greeting mama and papa and good wishes to everyone. Kisses with love. Mama." The happy children floating on the balloon fit any occasion perfectly.

WITH THE COLLECTORS

Long Radio Works

BY ART REDMAN

Entrepreneurs crop up in every decade. Art Redman introduces us to the Long brothers who resembled Powel Crosley in their wide interests from radios to airplanes, which they put into actual production in the early 20th century. (Editor)

Long Radio Works dates from 1912 when Leslie L. Long built and sold his first radio set at the age of twenty-three. During World War I, he picked up messages from and tried to trace a German transmitter believed to be located in the nearby hills. Unfortunately, Long was unable to decipher the code, which appeared to be an endless series of numbers.

In 1920, Long went into commercial radio production at the family farm located on Rural Route 1, later renamed NW Long Road, twenty miles west of Portland, Oregon, and one mile north of the town of Cornelius. In the radio business with Les Long was his brother George known as the "radio repairman." The other two Long brothers, Carl and William, operated the 200-acre farm raising corn and grain.

LONG BATTERY AND AC SETS

The Long Radio Works made several battery radios and AC sets. The 1926 Model B5, shown in Figure 1, has NA-ALD brand dials, five Type 01-A tubes, three binocular coils, and a thumbwheel dial tuning three ganged capacitors. It sold as a complete set. The Model F5, shown in Figures 2 and 3, is a 5-tube TRF with two Kurz-

Kasch style dials. These model numbers are etched in the front panels of the sets. In addition, a Model L5, a 2-dial set, consisted of a tuned detector and two capacitor ganged RF stages.

The AC sets of the Long Radio Works are difficult to identify. One 5-tube AC table radio has only a paper label inside the wood cabinet stating, "Long Radio Works — Standard Since 1912, Cornelius, Oregon," referring to the year Les Long sold his first radio. A 6-tube TRF console, shown in Figure 4, includes Type 224 screen-grid tubes and a Jensen electrodynamic speaker, but it also has no visible model number. The only visible identification is the paper label affixed inside the cabinet. Another Long radio in existence, a 5-tube table model, has an inside paper label and a Lansing speaker. The speaker may not be original. One other midget set in the collection of an Oregon radio collector has a Magnavox speaker.

In 1985, this collector bought a small 4-tube tombstone radio at a garage sale. The set, shown in Figure 5, had no identifying marks; however, a fellow member of the Northwest Vintage Radio Society said it was a Long Radio because he had found a similar set with an ink marking on the rear of the chassis.

To a collector who comes across an unidentified 1930s AC set, I would suggest looking inside the cabinet for a possible Long Radio Works paper label or an identification label inked by hand on the back of the metal chassis, which is typical of the tombstone and cathedral models. More than likely, the tombstone I had come across and subsequently sold had the ink label erased by time.

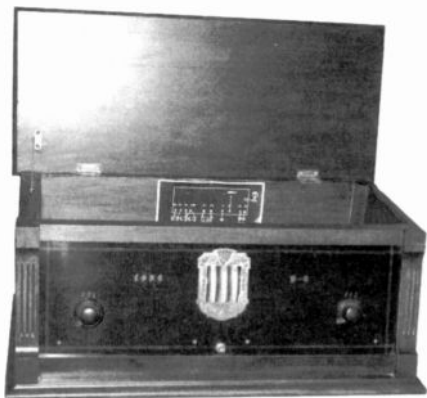

Figure 1. The Long Model B5, ca. 1926, has NA-ALD brand dials, five Type 01-A tubes, three binocular coils, and a thumbwheel dial.

Figure 2. The Long Model F5, a 5-tube TRF with two Kurz-Kasch style dials, with the lid up.

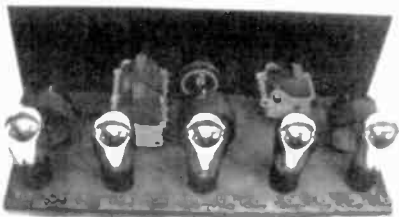

Figure 3. An inside view of the Long Model F5.

The Radio Collectors Guide by Morgan E. McMahon lists a Long's Radio Company. The set listed is a 1930 TRF Cardinal midget radio/phonograph combination made by Long's Radio of Los Angeles, California, which later became the Cardinal Radio Company. It has no connection with the Cornelius, Oregon, firm.

OTHER LONG VENTURES

When an aviator landed his plane next to the Long family home in 1927, Leslie Long decided he had to build an airplane. He started that same night. The plane, completed in October 1929, weighed 425 pounds, and had a 25-horsepower motor, a speed of 90 miles per hour, and mileage of 35 miles to a gallon of fuel. The planes at first were a sideline to the radio business, but soon the Longs became more famous for their plane designs.

Figure 4. This 6-tube console with a Jensen electrodynamic speaker has no visible model number.

Figure 5. A 4-tube tombstone with no identifying marks purchased at a garage sale.

Over the next ten years, Les and George Long built eleven light airplanes, including the Anzani and Henderson Longster. Plans of their airplanes powered by adapted motorcycle engines and sold through hobby magazines were the acme of light airplane design.

"I like to fool with things that require exactness," said Les Long. He ground telescope lenses and whittled airplane propellers by hand, and his plant became the only federally licensed one in the Pacific Northwest. Propellers are similar to fans and Long adapted them to the fruit dryers necessary to eliminate pests like vinegar flies. The fruit dryer and other industrial fans outsold airplane propellers ten to one and became the main product of the Long family business. The Long Brothers also manufactured electric fence controllers.

The radio and propeller business remained a Long family enterprise. Leslie Long refused numerous offers to go into large-scale production because he always considered himself a craftsman preferring to carve propellers by hand. The Long Radio Works was still in business in late 1939, but probably ended manufacturing when the government shut down all civilian radio production at the start of World War II.

The Long Brothers airplane business faced a decline in the late 1930s. Les Long blamed this decline on the Depression and big business competition aided by government regulation. He said that made it so difficult to make planes at home that "thousands of young men who, instead of being down in the basement constructing planes, are out nightclubbing and driving on the roads trying to wrap dad's sedan around a telegraph pole."

Leslie Long died suddenly on January 18, 1945, at the age of fifty-five years on the family farm. His

(Continued on following page)

(Long Radio, continued)

brother and partner George Dewey Long "the radio repairman" passed away in 1953 at the age of 54.

Art Redman is a charter member of the Northwest Vintage Radio Society, which was founded in 1974. He is a frequent contributor to the Society's newsletter "The Call Letter." His current interest is doing research on Pacific Northwest radio manufacturers, including Long Radio Works, Northwest Radio Manufacturing, Cole, McKay, and Magic crystal sets, as well as the firm of Hallock and Watson. He has no Long sets in his collection.

A "Mystery" Radio from Sears/Silvertone

BY ART LEBERMANN

For many months, I've been trying to solve the puzzle of a "mystery" radio from Sears. I've found a few bits of information, but have now reached a deadend. Assistance from A.R.C. and your readers would be much appreciated.

To make a long story very short....

About three years ago, I purchased a large tombstone radio with no name or logo on the cabinet or dial. The set has five bands (LW, BC, and three SWs), and 12 tubes. Several of the tubes are marked "Silvertone." A front view of the radio is shown in Figure 1.

On the chassis, there is a metal ID plate marked "Sears International," as shown in Figure 2. A space on the ID plate for a model number is blank. While searching the Rider's manuals, I found an apparent match to the chassis in the "Sears" section, Volume IX, pages 9-4, 9-5, and 9-6. The service data refers to Model 802/812. I assume that the two numbers refer to different cabinet styles. The schematic is dated 1937.

In searching several reference books, I have not found any mention of these model numbers. I suspect that this set was produced for export only, but I have not been able to confirm this theory. I have contacted several collectors who have extensive experience with Sears Silvertone

Figure 1. A front view of the Silvertone "Mystery Radio."

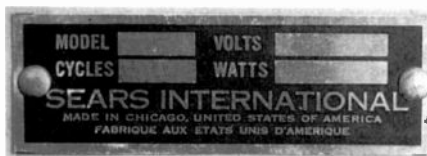

Figure 2. The Silvertone "Mystery Radio" presents a difficult problem because its nameplate lacks information regarding a model number, as well as operating voltages.

radios, but no one has ever seen (or heard of) a set from "Sears International."

I would very much like to confirm the model number of my radio and its intended market. Was it produced for export? Who made it for Sears? Did Sears publish any literature/catalogs for export merchandise?

(Art Lebermann, W6REQ, 3124 La Campana, Alameda, CA 94502)

WITH THE COLLECTORS

Trav-Ler Model 5066

BY RICHARD ARNOLD

Vacation or not, wherever he goes, Richard Arnold is on the lookout for old radios to add to his collection. A "smiling radio" is obviously irresistible. (Editor)

I purchased the radio shown in Figure 1 while on vacation about five years ago in Galveston, Texas. I have a few plastic and Bakelite radios in my collection, but as a rule, I try to stay with the wooden sets. This one particular set caught my attention because of its cabinet design and of how clean and undamaged it was. I think I gave only \$35 to \$40 dollars for it. While doing my research for this article, I found that the set is now selling in some places for between \$169 to \$215, and this wasn't even on eBay.

Someone has coined a term of endearment for this radio. It is called the "smiling radio." Maybe that's why it caught my attention — it was smiling at me. Heck, at my age, anything pretty that smiles at me gets my attention.

THE TRAV-LER 5066

The Trav-Ler 5066 was made in 1948. It has a dark, solid brown Bakelite cabinet. I have, however, seen brown cabinets with a swirl effect in them. The radio measures 10 x 6 x 6 inches. It has a 6-tube, AC/DC, superheterodyne chassis with a loop antenna. The tubes types used are one each of the following: 12SK7GT as RF, 12SA7GT as mixer and oscillator, 12SK7GT as IF, 12SQ7GT as detector, 35L6GT as audio output, and finally a 35Z5GT rectifier. The IF is 455 Kc.

The Trav-Ler 5066 has a 5-inch speaker and a galvanized chassis. The radio tunes the broadcast band from 540 to 1720 Kc. The two knobs are used for on/off volume and for tuning. The tuning dial is of a slide-rule design and is multicolored — very striking — and it blends in beautifully with the dark brown Bakelite cabinet.

In fact, while looking at various pictures I have found of this model, I have noticed that there are some cosmetic differences. On some of the sets the name Trav-Ler that is located on the front of the radio directly under the dial scale has white lettering, while on others, it is red, and on mine it is gold.

Another example of a slight difference is the dial scale color. Mine has a reddish brown overall color with lighter tan, red and white stripes, while the other set I have seen has a bright yellow overall color with yellow, red and white stripes. The knobs are also different, if they are the originals in the pictures I have seen. One set, like mine, has knobs that are the same color as the cabinet, a dark brown. On the other set, the knobs are more of a caramel or dark tan color.

Figure 1. My Trav-Ler Model 5066.

A LOOK-ALIKE SET

There is another brand that is a look-a-like set to the Trav-Ler as far as the Bakelite cabinet goes — the Aetna Model 505 of 1948 vintage. It has a different chassis design, as it is an All-American Five AC/DC set. It also has a different dial scale. The dial scale has at the top center the Aetna name on it in capital letters. The whole dial scale is only two colors — brown with white stripes and numbers. The knobs seem to be caramel or dark tan like those on the other Trav-Ler mentioned earlier. Except for the addition of an RF stage in the Trav-Ler, the tubes are the same.

Companies like Colonial or Nobliitt-Sparks (Arvin) could have made the Aetna radio for Walgreen's drug store, as there were a number of different manufacturers that did this for the chain store companies. However, in this case, Trav-Ler made the radio.

Trav-Ler also made other sets under the trade names of Travel-Air and Travel-Aire. Their home office was located at 571 W. Jackson, Chicago, Ill.

Well, I like the little Trav-Ler, and I guess I'll keep it. It not only looks good but plays well, and who knows what it will be worth in another five years!

Richard Arnold, a frequent contributor to A.R.C., has been collecting radios since 1985. His interest is primarily in cathedrals and 1920s battery sets, and his collection ranges from crystal sets to a 1928 American Bosch in a Pooley cabinet. His prize is the 1932 Jackson Bell Peter Pan featured in the June 1991 A.R.C.

AUCTION REPORT

Dorotheum Antique Radio Auction Vienna, Austria – December 3, 2004

CONTRIBUTED BY ERWIN MACHO

The Auctionhouse Dorotheum held its second in 2004 combined photo equipment and historical radio auction on December 3, 2004.

A total of 56 radio and mechanical music lots were offered and 41 were sold while 15 were passed. The total was 18,470 euros or about \$24,011 at \$1.30 to the euro.

Photo equipment started with a Voigtländer Stereoflektoskop camera which realized a hammer price of \$520 — a good start!

One hour later, the starting price for the first radio, a Minerva Tempo, was \$156. Only one collector was interested in this cathedral, built in 1935-1936, and, luckily, he got it for the starting price. This well-known collector from Vienna bought a lot of other radios and tube assortments.

The "star" in the auction was the Ingelen U7. This rare 7-tube table set from 1928-1929 was not completely original and some parts were missing. As a result, the starting price of \$520 was extremely low. Nevertheless, this radio got the

The prize at the auction was this Ingelen U7, which brought \$5,200.

best price ever paid in an Austrian auction — \$5,200 (with tax, \$6,344)! This new record hammer price was a great surprise to everyone, including the new owner who was very pleased with his new treasure. Other Ingelen sets also reached remarkable prices; for example, the well-known Geographic with colored dial scale, which sold for \$1,950.

A number of radios and related items on display for the auction.

A warning: Auction prices are not current values. Our selection of auction items is not necessarily complete. A listing such as this cannot adequately include the condition of cabinets, chassis, transformers, tubes, the operating status of the set, and the inclusion of incorrect, restored or replica components, etc. Auction prices are the result of the excitement of the auction process, the skill of the auctioneer and the specific interests of the participants. Nevertheless, auction prices serve as useful references and as another element in the value determining process. The possibility of error always exists, and if we are notified, corrections will be reported.

This Symphonion with 16 21 cm. disks sold for \$2,860.

Please note: All prices are rounded down to the next dollar (1 euro = \$1.30). The next Dorotheum auction will be held in May 2005. For more information please check the Internet at www.dorotheum.com or see A.R.C.'s "Coming Radio Events."

Dorotheum Antique Radio Auction Vienna, Austria – April 21, 2004

FROM INFORMATION SUPPLIED BY AUCTIONHAUS DOROTHEUM

The Auctionhouse Dorotheum held its first in 2004 combined photo equipment and historical radio auction on April 21, 2004. A total of 36 radio and mechanical music lots were offered, and 27 were sold while 9 were passed. The total proceeds were 6,750 euros or about \$8,438 at \$1.25 to the euro.

The high selling item was a Brèmond music box with 76 tunes and six melodies selling for \$1,430. One lot of nine early shellac records, six 17.5 cm. and three 25 cm., sold for \$1,300.

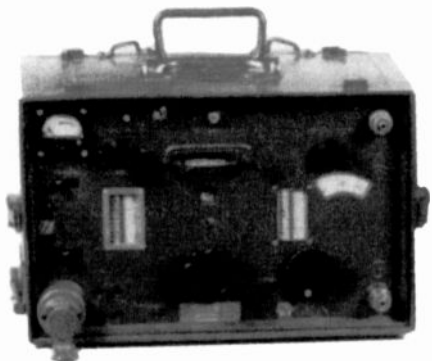

A Grundig Satellit 2000 sold for \$130, a Minerva Cordless Sport sold for \$78, an E.B. Berta

The Brèmond music box, selling at \$1,430, has a colorful red interior and flower design on the front of the cabinet.

1943 military set sold for \$234, and a Telefunken 31W with Schrack Trioron Carmen speaker sold for \$312. And, as with most Dorotheum auctions, there were a number of tube lots, this time selling in the \$200 range.

(Erwin Macho, Ambrosweg 17/A.8, A-1230 Vienna, Austria. Dorotheum Auktions, Dorotheergasse 17, A-1010 Vienna, Austria. Web: www.dorotheum.com; Email: Kataloge@dorotheum.at)

The E.B. Berta 1943 military set which sold for \$234.

RADIO MISCELLANEA

"Radio Miscellanea" includes items of general interest selected from A.R.C.'s incoming correspondence. "In The Marketplace" items are based on information submitted by the businesses themselves. "From The internet" items are obtained from internet newsgroups and other internet resources. Submitted items should be verified for accuracy; items may be edited by A.R.C. for publication, and publication is not guaranteed. See the masthead for more details.

Camp Shelby in Mississippi

Dear Editor:

In reference to the Camp Shelby mentioned in the December 2004 article "Enjoy a new GE Radio — Let the Boys in the Service Enjoy your Old One," a Camp Shelby is an Army National Guard training facility located about 10 miles south of Hattiesburg, Mississippi. Many of the Guard units in the South train there on weekends and two weeks during the summer. During World War II, it was used as a Prisoner of War camp for captured German soldiers. After the war, it also was used as a discharge station for the U.S. soldiers returning home. Could this be the same Camp Shelby in question?

James and Brenda Smith, Madison, AL

Do What to '60s Consoles?

Dear Editor:

I have some suggestions on what to do with those old "boat anchor" '60s stereo consoles: 1) Gut the electronics; 2) Put quality veneer on the front and back; 3) Get strip cedar from a lumber yard and line the interior. You will then have a nice cedar chest or tube/component storage area. Leave the legs on or cut them off. Use your imagination!

Byron Bernor, Acton, CA

For some this suggestion might be nothing short of sacrilege. And the cover of our October '04 issue is a reminder that consoles show signs of coming back. Let the dismantler beware! (Editor)

A.R.C. Ad Success

Dear Editor:

I continue to get good results from ads in A.R.C. In response to my recent request for a schematic for a Midwest radio, I received several letters and phone calls and a schematic from New Zealand.

Ted Hannah, K3CL, Silver Spring, MD

Philco Factory 28 Inquiry

Dear Editor:

I enjoy the A.R.C. monthly publication very much and want to know if there's an on-line forum. I couldn't seem to find it on the Web site, so I am mailing the question: Who was "Philco Factory 28"? Early Philcos had numbers stamped on their cabinets indicating who made the cabinet for Philco. Example: "Philco Factory 25" was the Red Lion Furniture Co. My 1931 Philco Model 112 is marked "Philco Factory 28." Thank you.

Andrew Hayden, Newburyport, MA

No, we do not have an on-line forum at present. Hopefully, a reader will respond to your question here. (Editor)

Illinois Museum and Kroehler

Dear Editor:

I read with great interest the article on your Web site about the firing and restoration of the Kroehler radio; the article appeared in the December 2003 issues of A.R.C. There was, indeed, a very large furniture manufacturing company that bore the name "Kroehler." I am with the Naperville Heritage Society/Naper Settlement Museum in Naperville, Ill., where Kroehler got its start under the name Naperville Lounge Co. in 1893. It's first salesman, later president and owner, Peter Kroehler, changed the company name in the early 1900s.

We have a rather large collection related to the Kroehler Company, but until today, I was not aware that they had produced radios. I'm not completely surprised because they had the means to construct the cabinet. In World War II, the company constructed airplane parts and office furniture for the military, as well as wooden limbs, etc. They also manufactured the push-back theater chair used by the United Nations in its first New York office.

If possible, I'd be most interested in reaching the author of the article to gather more information on the radio. Perhaps you could forward my e-mail to him. I'd be most appreciative. I enjoy your Web site.

Debbie Grinnell, Naperville, IL

We have forwarded this request to Jerry Wieland, author of the Kroehler article, and he assured us that he would respond. Perhaps we'll report more on this contact. (Editor)

Ads Asking for "Offer"

Dear Editor:

I keep seeing classified ads headed "For Sale" stating no price and simply asking for an offer. I find them annoying. In the May issue alone, there were half a dozen of them. I believe that items being offered to the highest bidder are not for sale at all. Rather, they are for unsupervised auction of the worst kind. Ads asking for offers need, at the very least, an entirely new category. To be kind to such sellers, you could head their ads "For Auction." Were I to pick a heading, it would be either "Just Fishing" or "For eBay."

Joseph Mente, Olympia Fields, IL

Experienced sellers know that priced items receive much better response than items requesting "best offer." But, sometimes the seller has no idea of the price; it may be a rare item or an item not in any price guide. The seller doesn't want to ask a price too high and receive no response, or ask a price too low and be deluged with calls. Since it is difficult to separate ads without prices, we suggest that each buyer decide whether or not to follow up on these ads. (Editor)

PHOTO REVIEW

This column presents in pictorial form many of the more unusual radios, speakers, tubes, advertising, and other old radio-related items from our readers' collections. The photos are meant to help increase awareness of what's available in the radio collecting hobby. Send in any size photos from your collection. Photos must be sharp in detail, contain a single item, and preferably have a light-colored background. A short, descriptive paragraph **MUST** be included with each photo. Please note that receipt of photos is not acknowledged, publishing is not guaranteed, and photos are not returned.

RADIONE CAMPING – This 1954 portable radio, made in Austria, works with tubes and operates with battery power. It tunes only the AM band. The case comes in either red or brown leatherette. (Erwin Macho – Vienna, Austria)

EMERSON MODEL BF-207 – This stylish 5-tube radio was manufactured in 1938 by the Emerson Radio and Phonograph Company of New York City. It has a swirled walnut Bakelite cabinet with panels both front and rear. It tunes both the broadcast and shortwave bands and is very heavy. (Dave Crocker – Mashpee, MA)

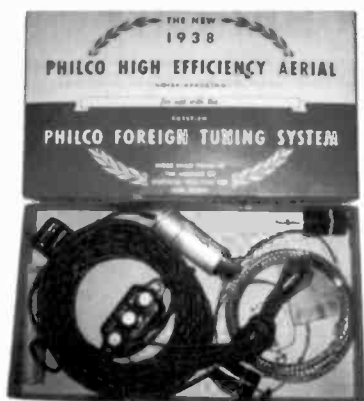

KLITZEN MODEL 525 – This 3-tube receiver was manufactured in 1922 by the Klitzten Radio Mfg. of Racine, Wisconsin. Klitzten sold radios and radio components also through Montgomery Ward of Chicago and later evolved into the Michigan Radio Corp. Early versions of Klitzten receivers and amplifiers are difficult to find and look similar to early Grebe designs. (Mike Fletcher – Niles, MI)

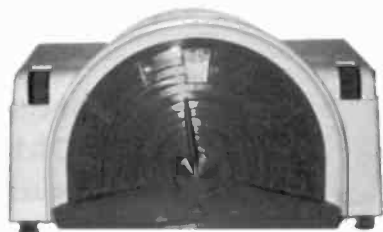

WISI POCKET CRYSTAL SET – WISI, which stands for Wilhelm Sihm, manufactured this set in Germany in 1935. The set has its original plug-in crystal detector and its case is black leatherette. (Erwin Macho – Vienna, Austria)

PHOTO REVIEW

PHILCO AERIAL – This “High Efficiency” antenna kit was designed to improve shortwave reception. It is still new in its original box, which includes complete installation instructions. Manufactured in 1938, this system promised to double the number of stations the owner would receive. *(Carl D. Sutton – Ironton, OH)*

EMERSON MODEL 744B – This is an AC/DC, 5-tube radio of 1954 manufacture. The speedometer-like design of the dial evokes the automobile styling of the times. The white plastic cabinet has two thumbwheel knobs on either side of the center dial. *(Claude Chafin – Independence, MO)*

ZENITH MODEL 6S254 – This 1937 “Big Black Dial” console was found at a swap meet in West Virginia. With the exception of a replaced capacitor, the 6-tube, 3-band set is totally original. *(Carl D. Sutton – Ironton, OH)*

FREED-EISEMANN MODEL NR-9 – This battery table set was manufactured in 1927 by Freed-Eisemann Radio Corporation of Brooklyn, New York. On top is an RCA Radiola UZ-1325 horn speaker. A friend fixed the set to operate on a power supply housed in a dummy auto battery. *(James Athorpe – Leesburg, FL)*

AUCTION REPORT

Estes Auctions Burbank, Ohio — June 26, 2004

REPORTED BY RAY CHASE

The June 26 Estes auction held at the Expo Auction Center in Burbank, Ohio, featured three estates and additions. A large group of Ham items came from the late Michael Brown of Middletown, Ohio, while other estates came from Eastern Pennsylvania and Michigan. One included a large number of Zenith and GE radios, which were mostly working and in excellent condition. The other estate featured about ten very good Kennedy radios, as well as other early items. Unusually large quantities of tube lots were intermixed with the equipment items.

This was the normal Estes auction starting at 10 A.M. on Saturday with viewing on Friday evening and Saturday morning. The auction consisted of well over 600 lots and brought in over \$40,000 for the items that I was able to tabulate. Much of the large amounts of test equipment, miscellaneous parts, and tube lots were sold separately in the afternoon, and I did not get to record more than a few select items. Most of the Ham gear was in very good condition and came with manuals. Some items were sold in logical groups, just as they were used in the station.

I should comment on the unusually superb

In very good condition, this Atwater Kent 10 breadboard sold for \$900.

The carbon microphone with the "Royal Zenith" flag sold for \$800. It is flanked by two Zenith table radios. At the far left is a home-brew, conch shell speaker on an RCA UZ-1325 base. It sold for \$105.

condition of many of the Zenith radios. It was clear that they had been well restored electrically and physically, and that they would be a nice asset to any collection.

As is often the case at any auction, a few lots will sell at surprisingly high prices and a few lots will go for bargain prices. While most items in this sale commanded average prices, a few lots are worthy of comment. On the high side, a pair of 300B tubes sold for \$950; since one tested good and the other had a short, it sounded like a lot of money for one audio tube!

On the low side, I thought the following items were extremely good bargains: an Allen 5 Rectoflex resistance-coupled set with five good 199 tubes — a rare bird — sold for \$225; a very good, working Kenwood TS-520S transceiver, with manual, sold for \$100; an ornate Zenith 53 console in excellent condition sold for \$50 (maybe everyone's truck was full); a very good HP 608D signal generator sold for \$1 (I used to

A warning: Auction prices are not current values. Our selection of auction items is not necessarily complete. A listing such as this cannot adequately include the condition of cabinets, chassis, transformers, tubes, the operating status of the set, and the inclusion of incorrect, restored or replica components, etc. Auction prices are the result of the excitement of the auction process, the skill of the auctioneer and the specific interests of the participants. Nevertheless, auction prices serve as useful references and as another element in the value determining process. The possibility of error always exists, and if we are notified, corrections will be reported.

lust for one of these even though they are big and heavy); a military R-392B/URR with power supply and speaker sold for \$65; and a pair of Phillips 544 electric speakers in good shape (reputed to be worth over \$1,000) sold for \$10.

Of course, people run out of money or room in their vehicles, or the right buyers are just not in the audience. Often it pays to wait until the closing stages of the auction when many of the bargains turn up. It is interesting — I often go to eBay on the Monday following the auction and see items that had been sold at Estes two days prior.

A.R.C. RATES & POLICIES

GUARANTEE. You may cancel your subscription at any time and receive a pro rata refund for issues not yet mailed. If errors to ads are made by A.R.C., upon request a free correction will be run in the next available issue.

PAYMENT. Please send in full payment with your order or ad. A.R.C. does not carry accounts; all subscriptions, ads, etc. must be prepaid (except for the 6 and 12 month display ads indicated below). Pay in U.S. funds. Checks drawn on a U.S. bank, money orders, VISA or MasterCard (\$10.00 min.) are preferred. Make check out to "A.R.C." Cash is OK for small amounts. Canadian payers may send a Canadian check but specify *U.S. funds*. Subscriptions will be prorated to amount sent if amount is incorrect.

FAX & E-MAIL PROCEDURES/PAYMENT. Subscriptions, book orders, classified ads, display ads, etc. are welcome by fax or e-mail. Deadlines are the same as for ads received by mail. Please calculate the amount due. Payment by VISA or MasterCard is preferred if your order is over \$10. If under \$10, or if you prefer to send a check or money order, state the amount being sent and that the payment is in the mail. **Do not** send another copy of your ad with your payment; simply indicate that it is a fax or e-mail payment. If you want confirmation of our receipt of your fax, call immediately after sending your fax.

CHANGE OF ADDRESS. Please notify us 4 weeks in advance of a change of address. Send both your new and old addresses, and include your SUB# and effective date of your new address. Temporary address changes can be made also.

SUBMISSION OF MATERIAL. Antique Radio Classified welcomes and solicits information that pertains or relates to radio history or collecting. This may include articles, book reviews, photos, information on upcoming radio events, meetings, antique radio organizations, radio auctions, sources of old radio and restoration supplies, and other related and interesting material. All material submitted should be carefully researched, typed and accompanied by good photos, if appropriate. Computer disks are appreciated. Writing guidelines are available upon request.

PUBLISHING RIGHTS. Unless other arrangements are made: (1) All received materials (ads, articles, letters, correspondence, e-mail, photos, artwork, etc.) become the property of A.R.C., may be edited, combined with other material, published, and will not be returned. (2) For all received materials, A.R.C. is granted publishing and reprint rights in all forms of media including the monthly printed magazine, internet, etc. (3) Publication is subject to approval by A.R.C. and to time and space constraints.

MAILING OF ISSUES. U.S. subscribers can receive A.R.C. by First Class or Periodicals mail (Periodicals is the way most magazines are mailed). The mailing of First Class copies is staggered with faraway copies mailed before local copies. Non-U.S. copies are mailed on the first day. Periodicals copies are mailed on the last day. Mailing dates change each month, but mailing is usually completed by the 27th of the month. First Class copies usually are received by the 5th of the month; copies by Periodicals mail, by the 10th.

ETHICS. No person involved in the production of A.R.C. is to act on any information in the magazine until the first delivery day after local copies are mailed.

DISCLAIMER. The publisher is not responsible for any buying and selling transactions incurred, or for any other use of the contents of this publication.

Antique Radio Classified subscription rates, frequency of publication, content, policies, size and ad details, and rates are subject to change at any time by A.R.C.

DISPLAY AND BUSINESS CARD ADS • DETAILS AND RATES

The deadline is the first of the month for display and business card ad artwork, payment and repeat requests.

Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and not-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisfied, and to comply with a buyer's refund request on unaltered returned items.

Advertising must be prepaid, except as noted below; see "Payment" paragraph above for details. Late ads will be run only if space and time permit. Originals must be the artwork size listed below. Send all artwork on disk or ask us to typeset it for you. Do not send in artwork on art board or send negatives. Please call for instructions on how to send your electronic ad. If used, reverse type must be limited to 25% of the ad. If you want us to prepare your ad, include the one-time cost below for A.R.C. to make up the ad.

Add \$16.00 per photo for screening unless part of an existing electronic ad. Do not cut or trim photos or glue photos to artwork; submit separately.

If you are confused by these requirements and terms, please

contact A.R.C. before beginning to prepare your ad. We will be happy to advise you on your ad ideas, estimate how much the ad will cost, recommend an ad size, etc.

We assume that advertisers want all ads which are submitted to run without delay; therefore, we will run the ad and bill for any additional work required for the ad to meet these specifications. A late ad will run beginning with the next month. "Tear sheets" will be sent only for 1/16-page or larger ads and only if requested when the ad is submitted.

First business card per advertiser is at lower rate.

The 3-month rates represent about an 11% discount, the 6-month rates 23%, the 12-month rates 30%. Placement requests: add 15% but call first. Clubs: write for discount policy.

A.R.C. RATES & POLICIES

CLASSIFIED ADS • DETAILS AND RATES

ONE FREE 20-WORD AD for subscribers in each issue; additional words are 29¢ each. See details below. Classified ads sent by mail, fax, e-mail or by any other method must be received (not just postmarked!) by Noon Eastern Time on the classified ad deadline date to guarantee inclusion in the current issue. Late ads are held for the following issue. Please enclose correct payment with all ads. Cash is OK for small amounts. (Canadian and other foreign advertisers, please see "Payment" on opposite page for methods.) "Free words" cannot be accumulated from month to month; free words must be requested when ad is submitted.

Faxed & e-mailed ads: Please see additional information on opposite page.

When including ads with other A.R.C. correspondence, write the ads on a separate piece of paper. Include SUB# with ad. Ads may be sent in advance; but, write each ad on a separate piece of paper and indicate the month (or successive months up to your subscription expiration; 12-months, maximum) you want the ad to run.

To minimize our typing errors: Please write legibly. Use both capital and small letters. Do not use a dash between words. Carefully write the following numbers and letters (especially in model numbers) since some can look alike: for example 1, I and l (the number one, the capital i and the small L.) Also: 0, O, o, Q and D; v, r and n; 6, b and G; V, U, u, v and Y; A and R; 5, S and s; 2, Z and z. We try to correct spelling errors, so when using an uncommon word or manufacturer which we might mistake as a more common word or manufacturer, note it so that we do not "correct" it. Editor's annotations are in [brackets] in ads.

Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and not-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisfied, and to comply with a buyer's refund request on unaltered returned items.

Classified ads must have a standard heading such as WANTED, FOR SALE, FOR TRADE, FOR SALE/TRADE, SERVICES, MESSAGE, HELP, AUCTION, MEET, FREE. This heading is the only bold or all-capitalized words allowed in the ad. Capitalize only manufacturer names, model names, etc. This standard ad format makes scanning the ads easier.

Before writing your ad, please look over the ads in a recent issue of A.R.C., and try to write your ad in the same style. Full name (or company name) and address is required in all classified ads; we will add it if you forget.

The publisher reserves the right to edit ads without notification to the advertiser and to reject ads for any reason. Names other than the advertiser will be edited out of ads. Ads with non-radio-related items will be returned or edited unless the non-radio-related items are for trade of radio-related items, or they are incidental to and appear at the end of an otherwise acceptable ad. The publisher is not responsible for errors due to illegibly written ads or for any other reason. See also Publishing Rights on opposite page.

Clubs: Since club activities receive free coverage on the *Coming Radio Events* pages, the free 20 words may not be used for club activity ads. A discount on display advertising is available for clubs.

Classified Ad Rates per Month

Deadline: NOON ET— 10th of the month!

Subscribers:

- First 20 words: **FREE***
- 29¢ per word for extra words over 20 plus
- 10¢ per word for a shaded ad (count all words including free words).

* Subscribers may take 20 free words on only one ad each month.

Non-Subscribers:

- 47¢ per word plus
- 10¢ per word for shaded ad.

Please do not forget to send in the extra 29¢ per word when your classified ad runs over the free 20 words; your payment will be appreciated, and it will help to keep A.R.C. healthy.

PHOTO & DRAWING DETAILS

Deadline: 1st of the month

for all ads with drawings or photos!

Drawings and photos are encouraged as the response to your ad is much larger and the reader knows better what you want or are selling. Send in your drawing or photograph, and A.R.C. will reduce it or enlarge it as needed.

Photo and Drawing Rates per Month

\$23.00 per month for each photo or drawing (If ad is canceled, this amount cannot always be refunded.)

CHANGES & CANCELLATIONS

Please check your ads carefully before sending them in. Once ads are received, it is not always possible to refund the amount sent, pull the ad or make changes.

IMPORTANT — COUNTING WORDS — IMPORTANT

The standard headings: WANTED, FOR SALE, etc., count as one word each time used in an ad. Name, address and (one) telephone number, count as 6 words, regardless of length. Ham call letters and business name can be included in the 6 words and do not count extra. Full name (or company name) and address is required in all classified ads. Each additional word, abbreviation, model number or number group, extra telephone numbers, fax, e-mail, etc. count as one word each. Hyphenated words count as two words.

RADIO XXXVI

Biggest Show on the East Coast ★ Same Giant Location
710 Attendees ★ 65 Exhibitors ★ 7,900 Square Feet ★ 94 Tables

An Indoor Old Radio Flea Market

Sunday, February 20, 2005 — 8:00 AM – 12:00 NOON

Registration begins for all at 7:30 AM

\$10 admission (spouse & children free) – Exhibitors see below.

Westford Regency Inn — Regency Room — Westford, Mass.

(I-495 at Exit 32 — directions below)

Refreshments will be available.

Visit John Terrey's Collection of Early Radio & Wireless

Sunday 1:00 PM - 2:00 PM. 5 MI. from meet. Info at meet. Over 600 items on display!

Pre-registration & Info: A.R.C., P.O. Box 2-W20, Carlisle, MA 01741 – (866) 371-0512 – arc@antiqueradio.com

Exhibitors: \$10 per person for admission plus \$30 per table. Table sizes and location assigned on a first come-first serve basis. Early registration is recommended. Last year's exhibitors in the main hall, may reserve the same location, if we receive their paid registration by February 1, 2005. Four table limit per exhibitor. Exhibitors must occupy tables for entire show. Tables unoccupied 15 minutes prior to the end of the show will not be eligible for early reservation of the same location in 2006. Exhibitors may register at the door or may pre-register by mailing payment to: Radio XXXVI, c/o A.R.C., P.O. Box 2-W20, Carlisle, MA 01741. (Make check/MO to A.R.C.; Visa, MasterCard, Discover, American Express OK, too.) If paying by credit card, exhibitors may pre-register by calling (866) 371-0512 or faxing (978) 371-7129. **Note:** After picking up registration materials at the registration desk, exhibitors may enter the hall only to deliver goods to their table (e.g. not to set up) and then must return to the foyer until the doors open for everyone at 8 AM. **Cancellation Policy:** Table fee will be refunded only if requested and the table is resold. If a table is not occupied by 9 AM, a table may be cancelled and resold.

Overnight stay: Westford Regency Inn at 1-800-543-7801. Mention Radio XXXVI for special rates. Room reservations should be made by January 31, 2005 for special rates. Bring your family to enjoy indoor pool, health club, racquetball courts, three restaurants, bar, etc. Night skiing at Nashoba Valley Ski Area, only 2 miles away!

Directions: From I-495, take Exit 32. Follow "To Rt. 225" sign. At stop light, turn right onto Rt. 110-West for 0.4 miles. The Westford Regency is on the right. Use doors on right (north) side of Inn. Ramps at both show entrances! The Westford Regency Inn and Conference Center is a 193-room hotel with 2 restaurants and over 500 parking spaces. With over 20,000 square feet of conference space, we have room to expand our future radio meets!

**Chinese
Military HF
Radio Set,
Type 81(102E),
Korean War**

Very rare military HF field radio set 15 watts maximum transmitter output on CW, 4 watts on AM. Frequency range: RX 2 - 12 MHz. TX. 2 - 10 MHz. This type of equipment served in the Korean War and in Vietnam. Our units were never used, and are still in their original wax-sealed packaging! The set includes a Type 81 transmitter, a Type 139 receiver, a hand-cranked generator, full set of spare tubes, a period multimeter, a fire-heated soldering iron (for emergency field repairs), and additional tools and accessories. These radios are highly collectible and fun to operate! Own a piece of military history from the other side of the conflict. We also offer other Chinese military radios - including separate transmitters and receivers - HF and VHF manpacks, and Morse code keys. For more information and photographs, please visit our website:

Estes Auctions

*Specializing in Vintage Radios
Complete Auction & Appraisal Service*

Radio Auction

Saturday, February 19, 2005 at 10 AM EST

at the Seville Antique Auction Barn*
8240 Wooster Pike Rd., Seville, Ohio

From I-76 Exit #2, then north on SR #3, 1 mile to the sale.

We will be selling a collection from Port Allegany, Pennsylvania. This is an estate that we will be moving to our auction facility in the near future. There are over two hundred radios of all types from the 20s battery sets to 50s & 60s audio equipment. Several thousand N.O.S. tubes and lots of used ones, books, magazines, loads of parts, test equipment, amateur radio equipment, speakers. We wish to thank everyone for making 2004 a great year for our radio auctions and we will strive to make 2005 even better. Remember, it it's one radio or a thousand, call us for complete radio auction service.

Richard Estes, K8LRY – Auctioneer

If using credit card, include name on card, card number and expiration date. Send payment with order. Money back return policy. Subscribers, ask for discount when placing order: 10% off books; order must be mailed to address on file.

(#9-Sep04)

Price Guides from Radiomania Books By Mark V. Stein

The Machine Age to Jet Age/Tabletop Radio Series

The continuing series of vintage radio pictorial reference and price guides. Each volume is a supplement to the others with virtually no overlap among the three. Over 10,000 vintage tabletop radios are individually described and valued.

Volume 1: 2,500 radios. Black and white photos. Updated with 2003 market values. Includes master index for all three volumes. 239 pages. \$29.95

Volume 2: 2,700 radios. Black and white photos. 16 page color insert. Updated with 2001 market values and hundreds of variations not previously included. 372 pages. \$28.95

Volume 3: 3,000 radios. Tube and band-count information. Black and white photos. Includes 2001 market values. 256 pages. \$29.95

Volume 4: 2,500 new radio listings. 1,500 new illustrations. B&W photos. 239 pages. \$29.95

The Complete Price Guide to Antique Radios Series

Pre-War Consoles

Identification, grading, and current market values for 3,500 models focusing on the period from 1930 through the end of pre-war production in 1942. Tube and band-count information and variations. Expanded resource section. B&W photos. 240 pages. \$29.95

Sears Silvertone Catalogs 1930-1942

Current market values for 1,000+ radios. Original advertising, options, specs and pricing. Historical preface. Manufacturer source code table. Full model cross reference with tube and band counts, variations, cabinet materials and colors. B&W photos. 240 pages. \$34.95

Everything stocked and shipped promptly — Radio is our middle name.
