## WANTED

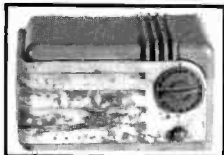

### AIR KING SKYSCRAPERS

PAYING **\$14,500.00+** for near mint condition red or blue  
**\$10,000.00+** for green, lavender or yellow  
**\$3000.00+** for black and **\$2000.00+** for white or brown  
**ALSO WANTED ANY COLOR-ANY CONDITION**  
COLLECTOR PAYING TOO MUCH, CALL ME LAST

### TOM THUMB CATALIN RADIOS WANTED

paying **\$6,750.00+** for mint cond. red, green, orchid, blue  
**\$2500.00+** for any mint condition one  
**ALSO WANTED ANY COLOR-ANY CONDITION**

### DETROLA PEE WEE & SUPER PEE WEE WANTED

paying **\$600.00+** for mint cond. black, white  
**\$1,450.00+** for beatle, gray, salt & pepper  
**\$2000.00+** for red, blue **\$3500.00+** for green or lavender  
**ALSO WANTED ANY COLOR-ANY CONDITION**

### WANTED ANY CATALIN RADIO

ADDISON 2 MAROON & N. YELLO. AW \$800.00, YELLO. AW & RED \$3,750.00  
ARVIN 532 ANY COLOR \$2,500.00, BENDIX 526 GREEN & BLACK \$625.00,  
DeWALD A501, A502 BROWN \$375.00, YELLO. AW \$425.00, RED \$1,200.00  
EMERSON AT 190 & BT 245 YELLO. AW \$1,300.00, GREEN \$2,500.00,  
DARK RED \$2,700.00, BLUE \$6,850.00, BRIGHT RED \$11,000.00,  
**ESPEY MIDGET, YOU NAME THE PRICE I WILL PAY IT!**  
EMERSON BM258 YELLO. AW \$750.00, GREEN \$1,350.00, RED \$2,150.00, BLUE \$4,000.00  
EMERSON 564 BLACK \$500.00, GREEN \$1,150.00, RED \$1,650.00  
FADA L56, F55, 52, 5F50, 5F60, 136, 53X, YELLO. AW \$1,500.00, LT GREEN \$1,750.00  
MAROON & YELLO. AW \$2,200.00, YELLOW & RED \$2,500.00, YELLO & BLUE \$2,500.00, YELLO & RED \$3,100.00,  
EMERALD GREEN & YELLOW \$7,000.00, BLUE & YELLOW \$7,000.00,  
FADA 115, 116 & 1000 ALL YELLOW \$700.00, MAROON & YELLOW \$950.00,  
YELLOW & RED \$1,150.00, PEACH GREEN \$1,300.00, BLUE & YELLOW \$2,550.00  
GAROD 6AU1 MAROON \$675.00, YELLOW & RED 1,350.00,  
RED & YELLOW \$1,450.00  
HALSON ANY COLOR \$1,500.00 TO \$5,000.00  
MOTOROLA 50XC ALL YELLOW \$1,750.00, BROWN & TORT \$2,750.00,  
RED & YELLOW \$6,000.00, GREEN & YELLOW \$6,250.00,  
MOTOROLA 52 YELLOW & TORT \$1,500.00, MAROON & YELLOW \$1,850.00, GREEN & YELLOW \$2,900.00,

## Want to learn how to fix old radios, we have the answer - RCA Training Course

We have the complete RCA Electronics Training Course on CD and already hundreds have been sold. This is a very extensive CD covering theory, experiments and repair lessons. Read full info at <http://www.radioera.com/mall/RCATrainingCourse.asp>!

**ONLY \$ 99 + S&H**

**We now have a small mountain of vacuum tubes at very competitive prices . . . actually we don't know how many we have but estimate several Million of them that we acquired from a radio tube estate. Call, write or email your inquiries. All tubes are tested before shipment!**

### Other CD-ROM Publications:

Riders Professional database driven 6-CD set - now only \$ 299 or \$ 59 per CD (4 volumes/CD) . . . . .

Cunningham-Radiotron Hi-Rez CD \$ 85 . . . . .

Sam's Photofact Sets 1-175 - 7 CD's, with Sets 1-25, 26-50, 51-75, 76-100, 101-125, 126-150 and 151-175. Only \$ 79 each CD-ROM (25 sets per CD)

**All 7 Sam's CD's (1-175) - \$ 495.00**

Radiophile Vol. 1 - \$ 85 . . . . .

Radiophile Vol. 2 - \$ 85 . . . . .

Radiophile Vol. 3 - \$ 85 . . . . .

Antique Radio Repair Vol. 1 - \$ 85 . . . . .

Antique Radio Repair Vol. 2 - \$ 85 . . . . .

R390-R390A/URR Technical CD - \$ 57 . . . . .

RCA Radiotron Handbook - \$ 67 . . . . .

RCA HB-3 Tube Manual - \$ 80 . . . . .

Zenith Trans-Oceanic - \$ 89 . . . . .

The Radio Boys - \$ 44 . . . . .

Amos 'N Andy - Vol. 1 - \$ 26 . . . . .

Sam's DialCord series - \$ 49 . . . . .

Collins Radio - Receivers - \$ 79 . . . . .

Collins Radio - Xmtrs/Amps - \$ 79 . . . . .

Collins Radio - Transceivers - \$ 79 . . . . .

Collins Radio - Accessories - \$ 79 . . . . .

**Complete 4 CD Collins Set - \$ 279** . . . . .

RCA Service Notes - 4 CDs covering sets manufactured from 1923-1928, 1929-1932, 1933-1936 and 1937-1940. The most detail you will find on old sets. \$ 79 each. **4-CD set - \$ 299.**

REA-Riders Complete Index - \$ 34 . . . . .

Record Changers - \$ 85 . . . . .

Military Radio V1 - (Compendium) \$ 57 . . . . .

Military Radio V2 - (Compendium) \$ 57 . . . . .

QST Series - 85 years of QST (1915-1999) in 12 sets of CD-Rom's @ \$ 39.95 per set or \$ 399 for all 12 sets . . . . .

The *Hallicrafters* CD-ROM - \$ 89 . . . . .

### Special Editions:

Collins R1051B technical manual - \$ 79 . . . . .

Collins ART-13 technical manual - \$ 39 . . . . .

Collins 618T technical manual - \$ 79 . . . . .

Collins 651S-1 technical manual - \$ 79 . . . . .

National R1490GRR17 technical manual - \$ 49 . . . . .

Dept. of Commerce - 1929 Ham Call Book - \$ 29 . . . . .

Please, no classified ads by telephone; thanks.

Your ads, renewals, letters, etc. can be handled faster and more efficiently if your name, address and SUB# are written on each.

Unfortunately, A.R.C. is not staffed to answer all letters with questions about antique radios or requests for advice. However, A.R.C. does solicit letters of interest to its readers and publishes them as space permits. (See "Publishing Rights" paragraph.)

## EDITOR'S COMMENTS

The frost is on the pumpkin here in New England, and indoor activities like auctions and restoration projects have begun to take precedence over outdoor flea markets and other such events. In this issue, we report on a major Estes auction and no fewer than three restoration projects.

The first of these projects is unusual in that it is not a radio or electronic restoration but an audio project in which recorded sounds are recovered from an antique and obsolete medium. Even more unusual is the fact that Nick Gent's grandfather made the recordings on a wire recorder that he built himself. Nothing about the original project was standard, even the home-brew wire spools on which family voices were recorded.

Nick took painstaking steps to recover those recordings with a combination of equipment: a vintage wire recorder, modern sound processing equipment, computers, and software. No matter what your restoration interests, you will admire Nick's ingenuity in recovering a piece of his family history.

What at first appeared to be a bad packing/shipping disaster proved to be a doable restoration project for Richard Arnold. His 5-tube, AC/DC, GE Model GD-60 makes an unusual addition to his collection.

In the name of preservation, not monetary value, Claude Chafin restored his super sensitive Hallicrafters Model S-72L radio. His fellow Ham collectors should be pleased with the results — "a pretty cool radio."

And there's always room in these pages for "pretty

cool" finds that are radio-related. Kent Houck shares his discovery of a Crosley Temperator — a heater fan contained in a radio loudspeaker case. The ever-inventive Powel Crosley seemed able to find a use for any surplus parts.

Not much at the Estes Auction featuring the Dexter Deeley Collection would be labeled "surplus." The depth and quality of the offerings were such that I couldn't resist making the trip to Ohio. It was worth the effort to see so many sets from early manufacturers lined up waiting for new owners. Most impressive were the 19 Grebe sets accounting for over one-quarter of the proceeds, as well as the nearly 50 crystal sets offered.

Mark Stein adds the first of a new series of radio guides to his long list of very useful aids to the radio-collecting community. This one concentrates on plastic radios, and reviewer Geoff Shearer likes it for its presentation of the material and its handy size.

**A.R.C. Benefits.** Be sure to take advantage of A.R.C. benefits: a toll-free number (866) 371-0512; Discover, MasterCard, American Express, Visa accepted; the Web, [www.antiqueradio.com](http://www.antiqueradio.com); books shipped free in the U. S. by USPS media mail; and for current subscribers, a 10 percent discount on book orders.

**Coming Radio Events.** There are 45 events listed this month. Mark your calendar with at least one of these events before winter closes in.

Happy Collecting!

John V. Terrey, Editor

## OOPS!

Several readers wrote to correct an error in the article on vintage auto radios in the October issue. The salvaged radio was from a 1955, not a 1950 Ford.

## ON THE COVER

On the cover is an early wireless item from the Estes auction of the Dexter Deeley collection in April, 2006. The SE-1420C, modified to a BC-131 medium wave receiver, sold for \$3,000.

# RESTORATION TOPICS

## Wire Recorder Project Recovering Family Steel Wire Recordings

BY NICK GENT

*Perusing radio/phono discussion groups online can yield rewards. A chance look at <http://groups.google.com/group/rec.antiques.radio+phono> led us to the following article. We appreciate Nick Gent's granting us permission to reprint the article. Nick himself had gone to this site to solicit help on his project — another example of the importance of the Internet as a research tool in the preservation of radio history. (Editor)*

My grandfather was a remarkable man who was fascinated by technology and built all kinds of electronic and mechanical gadgetry during his lifetime. He started working on electronic home projects in an era when components were only just becoming available to hobbyists. Among other things, he built electronic musical instruments, radios, and even a TV, around which all the neighbors gathered to watch some of the first BBC broadcasts from the Crystal Palace in London where he lived.

In the late 1940s, he built an electronic wire

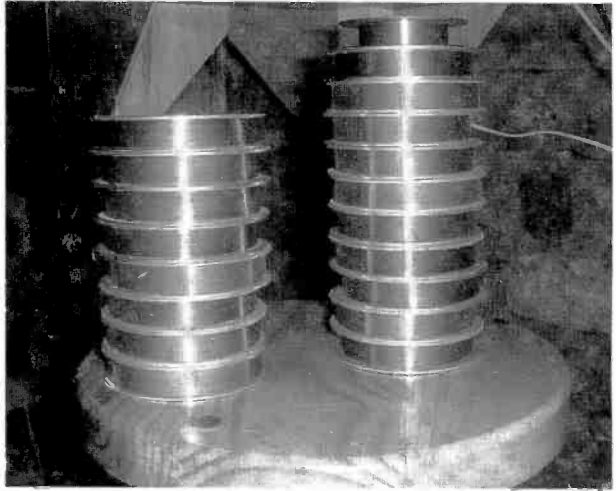

Figure 1. This collection of family wire recorder spools contains about 60,000 feet of steel wire.

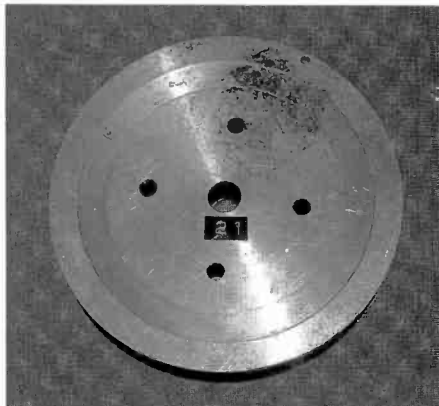

Figure 2. One of the homemade spools that did not fit any commercially-made wire recorders.

recorder. Tape recording had not yet been introduced commercially and steel wire, thinner than a human hair, was the only medium available for making audio recordings. Although by this time wire recorders were being introduced to the domestic market in America, in Britain they were still a rarity, confined mainly to the military and to offices where they were used as dictaphones.

My grandfather was able to use his wire recorder, along with a homemade microphone, to make recordings of my family, including my great grandparents and my mother as a little girl. He also recorded all his favorite music from the radio and even copied a couple of old 78 rpm discs. His recorder is long gone, but about 20 spools of wire have survived and have remained tantalizingly silent — until now! The stacked spools are shown in Figure 1.

My grandfather made his own spools, one of which is shown in Figure 2. Needless to say, they don't fit any commercially available recorders!

### WEBSTER-CHICAGO WIRE RECORDERS

To play these wires I needed to get hold of a vintage wire recorder. These old recorders are very rare in Britain, but by an extraordinary coincidence the only ones I could find for sale in the

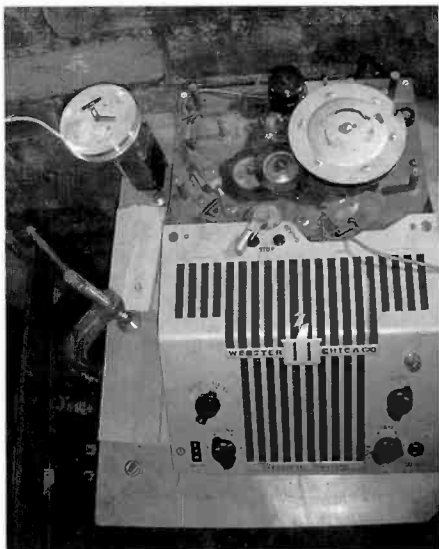

Figure 3. The Webster-Chicago Model 180 used by the author to recover his grandfather's old recordings.

Figure 4. The Webster-Chicago Model 288 from 1950 is an updated version of the Model 180. Not yet restored, it is one of a pair purchased from a local dealer.

whole of the UK were from a dealer just a few kilometres from my home in Edinburgh, Scotland. He had two "Webster-Chicago" (or "Webcor") recorders in unknown condition and let me have them both for a reasonable price.

The two recorders are a Webster-Chicago Model 180, shown in use in Figure 3, and a Model 288, shown in Figure 4. The Model 180 is a popular domestic model from about 1948. The one I bought had been modified for the UK market by the addition of a 240V-120V step-down transformer.

The Model 288, ca 1950, is a slightly updated version of the Model 180. It has a somewhat bigger cabinet than the Model 180 cabinet with an improved audio response and an improved anti-spill mechanism. The set that I bought has an ominous smell of wood smoke, and I haven't had time to open it up yet, let alone restore it!

A spool for a Webster-Chicago wire recorder is shown in Figure 5. Several of these came with the wire recorders that I bought.

There are some excellent resources on the web describing the history of Webster-Chicago (well, it used to be located there!), and just about everything you need to know if you own a wire recorder. I'm very grateful to the authors of these sites. Among the sites are <http://members.aol.com/webcorinfo/webcor> and <http://www.soundsaver.com/webster-chicago.etc.htm>.

### THE RECOVERY PROCESS

Using information gathered from these sites, I now knew what I had to do in order to play back the wires. I chose to work on the Model 180 as it seemed to be the cleanest, and, as it turned out,

Figure 5. This Webster-Chicago spool is typical of those used in manufactured wire recorders.

was adapted for UK mains voltage. The steps were as follows:

1. Restore the mechanical operation of the Model 180. First, clean and lubricate all mechanical parts, especially the "bailer" mechanism which ensures the wire is correctly bailed onto the spools. The failure of this mechanism results in disastrous tangles!

Finally, replace the felt pads and adjust the mechanism that is used to "brake" the rotating spools. Applying just the right pressure to the spools ensures that they are packed tightly after play or rewind. Figure 6 shows the pressure pad  
(Continued on following page)

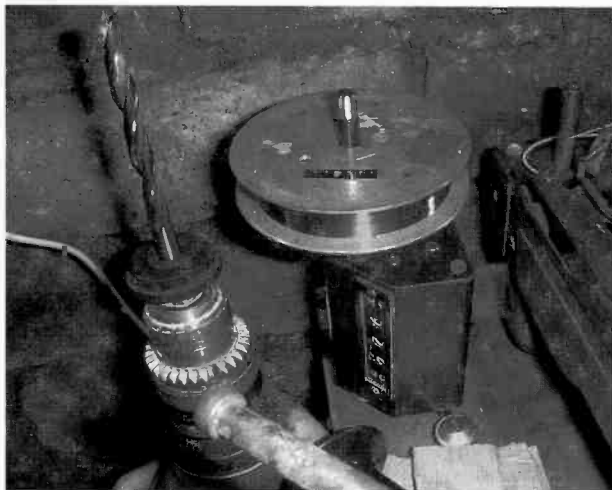

Figure 11. The setup for rewinding the spools. This was the most tedious and error-prone part of the process.

(Wire Recorder Project continued)

Now that the contents of the wires are safely captured, the next project is to fully restore at least one of the Webster recorders. With some

carefully placed bits of connector block inside the Model 180, it will still be easy to isolate the old electronics and take a feed directly from the playback head for any future audio recovery projects. Feel free to contact me if you have any wire spools that I may be able to help with.

Nick Gent, 4 Eskview Villas,  
Dalkeith EH22 3BN, UK.

Your Wire Recorder Project.  
wirerecorder@gentweb.co.uk.

Nick Gent, an electronics design engineer, works in Embedded System design for the Telecomm industry. His interest in electronics began as a boy when his grandfather helped him build a shortwave Ham band receiver. It was a direct conversion design based on a MOSFET, and his grandfather even had him build the aluminum chassis to house all the components. Nick is also a jazz musician, playing gigs in and around his hometown of Edinburgh, Scotland, where he lives with his wife and daughter.

## General Electric Model GD-60

BY RICHARD ARNOLD

Richard Arnold describes a set in poor condition that appears to have had additional damage as a result of bad packing. But he did what every avid collector would do and restores it to good condition. (Editor)

Here is a somewhat unusual looking radio with a slant-front and no dial scale. I found it on eBay a while back, and even though the cabinet looked as if it was in bad condition, the chassis looked pretty good in the pictures. I decided to bid on it because of the unusual look, and I thought it would be a good restoration project.

When the radio arrived, the cabinet had completely fallen apart in the box. Nothing was actually broken — it just had fallen apart at the seams. Luckily, the chassis was still attached to the bottom part of the cabinet, and it was not harmed. In fact, the chassis was in very good condition, considering, and it even worked. The speaker had some holes in it and some of the grille cloth was missing in places, but that was easily replaced. What was

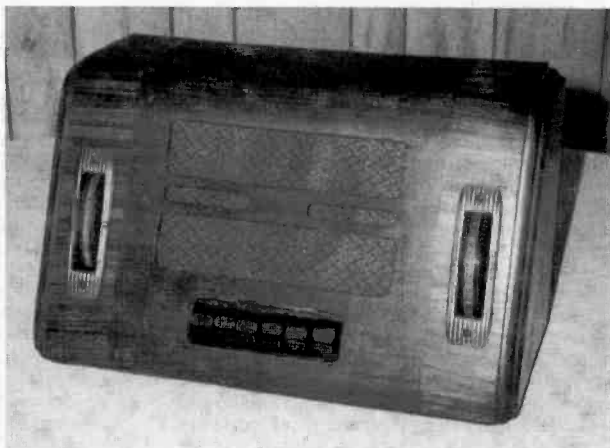

Figure 1. The General Electric Model GD-60.

amazing was that the tubes were not all broken up. I knew the cabinet needed work, but I didn't expect this disaster.

### THE MODEL GD60

The General Electric Model GD-60, shown

in Figure 1, is a compact, 5-tube, AC-DC superhet receiver. It is rather small, measuring only about 13" wide x 7½" tall x 6 ½" deep at the base. The tube types used in this radio are the following: a 6A8G converter and oscillator; a 6K7 IF amplifier; a 6Q7 detector, AVC, and amplifier; a 25L6G power amplifier; a 25Z5 rectifier; and finally, a 49-A ballast tube. No dial light is used in the radio, and the IF is 455 Kc.

Some of the set's other features include an IF wave trap, an automatic volume control and an improved dust-proof speaker. The set incorporates a trimmer-tuned, "Touch-Tuner," push-button system, allowing the set-up of five stations for automatic tuning. The trimmers for the Touch-Tuner are attached to a framework that lies across the workings of the chassis and is fastened to the underside of the chassis by four screws.

I have a few push-button radios in my collection, but this is the first one that I have seen with this configuration. I have, however, talked to another collector who has a number of push-button radios in his collection, and he said that this configuration is rather common.

Looking at the front of the radio, you will notice the absence of the usual slide-rule dial. What there is though are two thumbwheels, similar to those that you might find on early battery sets of the 1920s, like a Radiola 20, or on early cathedral sets, like maybe an Echo-phone S-2. The thumbwheel on the left side of the grille cloth is the on/off and volume control, while the thumbwheel on the right of the grille cloth is the dial scale. The grille cloth is not original.

There are six push buttons, five of which you can preset by tuning the antenna and oscillator trimmers that are attached to a metal framework covering the center part of the underside of the chassis. The push button on the far right is the button that changes the tuning from manual to automatic.

The cabinet has just been reconditioned. I didn't have to restore it. After I got it put back together, all it needed was just a good cleaning and some touchup work. What appears to be inlaid wood on the ends of the wood cabinet is painted on.

According to a copy of a General Electric pricing schedule, shown in Figure 2, dated January 3, 1939, the Model GD-60 sold for \$22.95. I kept track of a few of these sets as they came up on eBay. The ones that I have seen there have all been pretty rough looking, including mine, and they went for around \$18 to \$35.

I was lucky as this one cleaned up pretty well, and when I was all done fixing it up, it made an interesting looking addition to the collection. I have it sitting on top of one of my few console radios and I play it once in a while. I like it, as it sounds good and has good selectivity.

## AUCTION REPORT

### Estes Auctions — Deeley Collection Burbank, Ohio — April 22, 2006

REPORTED BY RAY AND EDITH CHASE

*Ray and Edith Chase report on a very significant auction of early broadcast and wireless items — the Dexter Deeley collection. Since Dexter's collection paralleled my own interest, the event was a "must attend" for me. I have augmented Ray and Edith's photos with some I took at the event. And, yes, I did acquire a set or two for my collection. (Editor)*

The April 2006 Estes auction dealt primarily with the collection of Dexter Deeley from Lake Lure, North Carolina. It had been much anticipated by the radio collecting fraternity who were familiar with its depth and quality. Dexter was a long time officer of the AWA and had spent 50 years amassing an outstanding radio collection. He felt that it was time to share his collection with others; hence, this well publicized auction.

The collection of Grebe receivers was truly outstanding, and this was reflected in the prices realized. The entire auction brought in over \$200,000, and the 19 Grebe sets accounted for a little over \$58,000 of that total. An early Grebe

*This Amrad SE-1420C, medium wave receiver, 250-7500 meters, modified for use as BC-131 sold for \$3,000.*

CR-6 sold for \$25,000 while an early CR-5 yielded a sale price of \$10,000. One reason for the excitement was the excellent condition of the sets, as well as the fact that these particular Grebes were early versions with front panel rheostats. Most other Deeley radios in the auction were exceptionally clean and in fine condition, and most of the Ham gear included operating manuals.

*A rare sight at auction — all four RCA/Westinghouse units which were advertised by RCA as the "Super Selective Combination." Left to right, the AR radio frequency amplifier; the RT antenna coupler; the DA detector/amplifier; and the RA regenerative tuner. They sold for \$725, \$1,000, \$275 and \$125 respectively.*

*Richard Estes taking a bid from the room.*

Adding to the excitement were nearly 50 crystal sets, some of which fell into the rare category. Also included were quite a few really nice console radios, many excellent Ham sets, lots of nice 1930s wood radios, and other early radios by Atwater Kent, DeForest, Kennedy, Western Electric and others. Truly a high-end sale, and if you had a yen to add significant pieces to your collection, this was the place to be.

Even the test equipment collectors were accommodated, as there were many Jewell test sets that are seldom seen. A very early German glass enclosed lab instrument was another rare item. There was a fine collection of books and ephemera as well, but that was sold by "choice" and I could not track the prices realized. A side auction of nice advertising signs and posters was held about mid-morning. Unfortunately I could not record the results.

There was a minimum of box lots and low value items this time, but the tubes offered for sale were plentiful and interesting. A single wing spherical

*John, Richard's brother, holds a rare Grebe, an RORD detector/2-stage amplifier. It sold for \$2,750.*

Audion received a great deal of detailed inspection, and although it was reported to be original, most experts were dubious as to its origin, and it was sold as questionable for \$200. For the phonograph collectors there was a goodly number of cylinder phonographs and parts. A very special Capital disc phonograph built into a table lamp complete with frilled shade sold for \$1,600.

*This RCA Radiola Model 67 from 1929 has it all. It is a radio/phonograph in an elaborate custom cabinet with detailed inlay and carving, as well a massive tone arm. In excellent condition, it sold for \$600. In the foreground is a Western Electric double-button, carbon, spring-suspended microphone on a floor stand. It sold for \$225.*

The weather on Friday was threatening and a violent cloudburst occurred during the evening viewing. This area of Ohio had experienced a severe week of rain with some flooding, so pessimism was the operative word regarding the weather. Some additions to the auction were still being received on Friday evening, but none came in Saturday morning. Saturday began cloudy and threatening, but soon the sun came out, and the day turned out to be excellent.

I tabulated 643 lots but could not cover any side auctions of advertising items or box lots, as well as the books and ephemera sold by choice. I stopped recording at 5:30 P.M., while the auction continued on until about 6:10 P.M.

The total sale price of my listing is \$193,662, but that does not include the sales that I missed or the 5 percent buyers  
*(Continued on following page)*

In the front row, two of the Atwater Kent breadboards offered in the auction.

(Estes Auction, continued)

premium charged at this location. This is also true of all the tabulated prices and any prices quoted above.

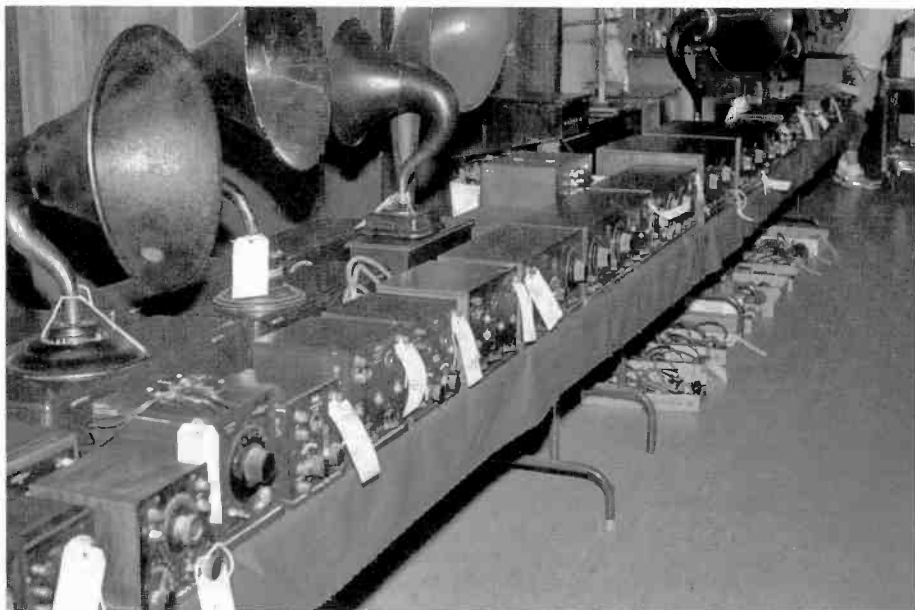

There was a good crowd of buyers in attendance as would be expected at such an important sale and many went home with new prized possessions. Even if you did not get to take anything home, it was a pleasure to see and touch this fine collection of radio history. Such is the unique draw and experience of these Estes auctions.

e=excellent, vg=very good, g=good, f=fair, p=poor, unk=unknown condition, N.O.S.=new old stock, N.I.B.= new in box, gf= good fil, wk=working, nwk=not working, WT=with tubes, NT=no tubes, BB=brass based, TT=tipped tube, SW=shortwave, PS=power supply, PB=push buttons, WE=Western Electric. All prices have been rounded down to the dollar. Some low cost items and items in poor condition or with non-specific descriptions are omitted.

A nice grouping of Western Electric items — a 4D receiver, front left; a 2B tuner, front right; and in the rear, a 7A amplifier. These units sold for \$2,000, \$900, and \$400 respectively.

Adams Morgan Paragon DA-2 detector/ amplifier, WT, vg .....	\$850

A collection of radio aficionados — left to right — Bruce Roloson, a past president of AWA; Ray Chase, A.R.C.'s auction reporter; John Dilks, writer of the "Old Radio" column in QST; Ed Bell and Steve Brown, collectors from North Carolina; and Lauren Peckham, also a past president of AWA.

This Amrad 3500-1 receiver sold for \$2,600. It consists of a 2634 detector and 2-stage amplifier, top; and a 3475 broadcast tuner, bottom. In the rear-view photo on the right, note the correct flat straps that are used to wire the two units together. Also note the small round object, the transformer, near the left end of the lower unit. Both the flat straps and the transformer often are missing.

Ornate console cabinets were popular in the late 1920s, and this Victor Model RAE-59 is a good example of cabinet detailing. The set sold for \$175.

**A warning:** Auction prices are not current values. Our selection of auction items is not necessarily complete. A listing such as this cannot adequately include the condition of cabinets, chassis, transformers, tubes, the operating status of the set, and the inclusion of incorrect, restored or replica components, etc. Auction prices are the result of the excitement of the auction process, the skill of the auctioneer and the specific interests of the participants. Nevertheless, auction prices serve as useful references and as another element in the value determining process. The possibility of error always exists, and if we are notified, corrections will be reported.

This Wireless Specialty IP-501A with tubes sold for \$3,250. This IP-501A has a regenerative detector and a 2-stage audio amplifier.

RCA Radiola III, WT & antenna switch .....	115

*(Continued on following page)*

*This early Jewell tube tester features an easy-to-read meter. It sold for \$350.*

This rare RCA Radiola VII, often called "the coffin," sold for \$6,500. According to Alan Douglas in Vol. 3 of "Radio Manufacturers of the 1920's," only 1,692 of this 1923 set were made.

This 1924 RCA Model VII-B, also rare, sold for \$6,200. A 5-tube set in a phonograph-type cabinet, it is similar to the Model IX.

## BOOK REVIEW

### The Antique Radio Collector's Source Book — Plastic Radios

By Mark V. Stein

REVIEWED BY GEOFF SHEARER

The new guide book, *The Antique Radio Collector's Source Book — Plastic Radios* by Mark Stein is the first of a new series in a totally different size from his earlier books — a smaller 6" x 9" format. This makes it easier to transport to swap meets and on road trips to antique shops and auctions. However, it is similar to the earlier books on consoles and tabletops in that it is devoted exclusively to one subject.

What I like most about Mark's guides are the explanations he presents in the front dealing with pricing, condition, and history. Unlike many other "price guide" authors, he doesn't jump right into pictures and prices but rather starts with a disclaimer about prices. He then moves into an overview of plastics, followed by an evaluation of the condition of the radio, as well as items to avoid.

I'm not up much on plastic history but I did learn that "horn" was molded into consumer products, that the smell from my knob boxes is years old tenite re-enforced with butyric acid, and that "gutta percha" is natural latex.

The discussion on Catalin describes the demise of this substance for cabinets, but I would add one reason — that the lead molds were scarce after World War II because many had been turned into bullets during the war. Every Catalin cabinet had to be given human attention before it was ready for a chassis, and manpower for that process became too expensive after the war. In the "General Considerations" section (dealing with what to look for in a radio), I might also add that ballast tubes

were in glass enclosures as well.

The radios featured in this guide are representative across the board of plastic radios from the early 1930s to the more common sets of the late 1950s. There are a few transistor sets listed, but, by and large, this source book is for plastic table radios up to and including 1960 sets.

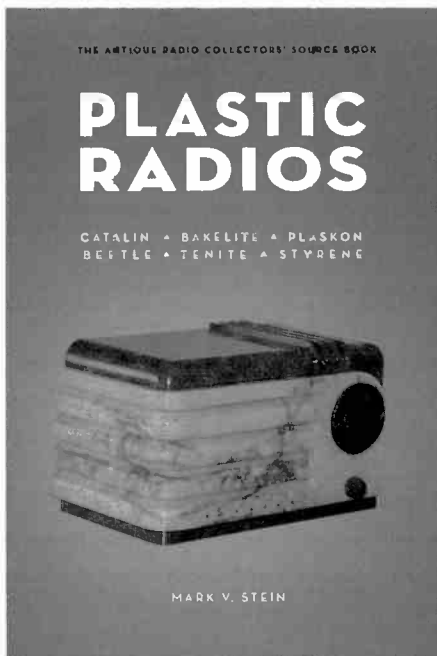

The prices reflect going rates, although I don't know that the collector is yet ready to spend \$25 on some of the early 1960s radios. The high end and medium priced sets have been well researched on value and accurately reflect what they would sell for at a swap meet or auction. I believe better information is available today because of online auctions

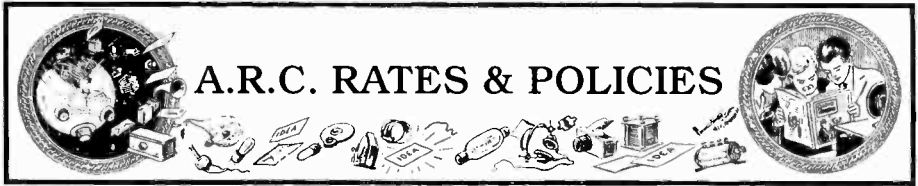

and auction reviews reported in *Antique Radio Classified*.

Once again, Mark Stein has produced a fine addition to our hobby library, and this source guide should see plenty of wear and tear in the next several years. Remember, though, when you're out there buying radios, make sure you like what you're buying because you may have to live with it for a long time.

*The Antique Radio Collector's Source Book — Plastic Radios* is published by Radiomania in a 6" x 9," 255-page, softcover format. It is available from *Antique Radio Classified* for \$37.95 and from the publisher at [www.radiomania.com](http://www.radiomania.com). Be sure to check the supplier for shipping information.

(Geoff Shearer, 14408 Brookmere Dr., Centreville, VA 20128)

# A.R.C. RATES & POLICIES

**GUARANTEE.** You may cancel your subscription at any time and receive a pro rata refund for issues not yet mailed. If errors do arise are made by A.R.C., upon request a free correction will be run in the next available issue.

**PAYMENT.** Please send in full payment with your order or ad. A.R.C. does not carry accounts; all subscriptions, ads, etc. must be prepaid (except for the 6 and 12 month display ads indicated below). Pay in U.S. funds. Checks drawn on a U.S. bank, money orders, VISA or MasterCard (\$10.00 min.) are preferred. Make check out to "A.R.C." Cash is OK for small amounts. Canadian payers may send a Canadian check but specify *U.S. funds*. Subscriptions will be prorated to amount sent if amount is incorrect.

**FAX & E-MAIL PROCEDURES/PAYMENT.** Subscriptions, book orders, classified ads, display ads, etc. are welcome by fax or e-mail. Deadlines are the same as for ads received by mail. Please calculate the amount due. Payment by VISA or MasterCard is preferred if your order is over \$10. If under \$10, or if you prefer to send a check or money order, state the amount being sent and that the payment is in the mail. Do not send another copy of your ad with your payment; simply indicate that it is a fax or e-mail payment. If you want confirmation of our receipt of your fax, call immediately after sending your fax.

**CHANGE OF ADDRESS.** Please notify us 4 weeks in advance of a change of address. Send both your new and old addresses, and include your SUB# and effective date of your new address. Temporary address changes can be made also.

**SUBMISSION OF MATERIAL.** Antique Radio Classified welcomes and solicits information that pertains or relates to radio history or collecting. This may include articles, book reviews, photos, information on upcoming radio events, meetings, antique radio organizations, radio auctions, sources of old radio and restoration supplies, and other related and interesting material. All material submitted should be carefully researched, typed and accompanied by good photos, if appropriate. Computer disks are appreciated. Writing guidelines are available upon request.

**PUBLISHING RIGHTS.** Unless other arrangements are made: (1) All received materials (ads, articles, letters, correspondence, e-mail, photos, artwork, etc.) become the property of A.R.C., may be edited, combined with other material, published, and will not be returned. (2) For all received materials, A.R.C. is granted publishing and reprint rights in all forms of media including the monthly printed magazine, internet, etc. (3) Publication is subject to approval by A.R.C. and to time and space constraints.

**MAILING OF ISSUES.** U.S. subscribers can receive A.R.C. by First Class or Periodicals mail (Periodicals is the way most magazines are mailed). The mailing of First Class copies is staggered with faraway copies mailed before local copies. Non-U.S. copies are mailed on the first day. Periodicals copies are mailed on the last day. Mailing dates change each month, but mailing is usually completed by the 27th of the month. First Class copies usually are received by the 5th of the month; copies by Periodicals mail, by the 10th.

**ETHICS.** No person involved in the production of A.R.C. is to act on any information in the magazine until the first delivery day after local copies are mailed.

**DISCLAIMER.** The publisher is not responsible for any buying and selling transactions incurred, or for any other use of the contents of this publication.

**Antique Radio Classified** subscription rates, frequency of publication, content, policies, size and ad details, and rates are subject to change at any time by A.R.C.

## DISPLAY AND BUSINESS CARD ADS • DETAILS AND RATES

*The deadline is the first of the month for display and business card ad artwork, payment and repeat requests.*

Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and non-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisfied, and to comply with a buyer's refund request on unaltered returned items.

**Advertising must be prepaid.** except as noted below; see "Payment" paragraph above for details. Late ads will be run only if space and time permit. **Originals must be the artwork size listed below.** Send all artwork on disk or ask us to typeset it for you. Do not send in artwork on art board or send negatives. Please call for instructions on how to send your electronic ad. If used, reverse type must be limited to 25% of the ad. If you want us to prepare your ad, include the one-time cost below for A.R.C. to make up the ad.

Add \$16.00 per photo for screening unless part of an existing electronic ad. **Do not cut or trim photos or glue photos to artwork; submit separately.**

If you are confused by these requirements and terms, please

contact A.R.C. before beginning to prepare your ad. We will be happy to advise you on your ad ideas, estimate how much the ad will cost, recommend an ad size, etc.

We assume that advertisers want all ads which are submitted to run without delay; therefore, we will run the ad and bill for any additional work required for the ad to meet these specifications. A late ad will run beginning with the next month. "Tear sheets" will be sent only for 1/16-page or larger ads and only if requested when the ad is submitted.

**First business card per advertiser is at lower rate.**

The 3-month rates represent about an 11% discount, the 6-month rates 23%, the 12-month rates 30%. Placement requests: add 15% but call first. Clubs: write for discount policy.

## CLASSIFIED ADS • DETAILS AND RATES

**ONE FREE 20-WORD AD** for subscribers in each issue; additional words are 29¢ each. See details below. Classified ads sent by mail, fax, e-mail or by any other method must be received (not just postmarked!) by **Noon Eastern Time** on the classified ad deadline date to guarantee inclusion in the current issue. Late ads are held for the following issue. Please enclose correct payment with all ads. Cash is OK for small amounts. (Canadian and other foreign advertisers, please see "Payment" on opposite page for methods.) "Free words" cannot be accumulated from month to month; free words must be requested when ad is submitted.

**Faxed & e-mailed ads: Please see additional information on opposite page.**

**When including ads with other A.R.C. correspondence, write the ads on a separate piece of paper.** Include SUB# with ad. Ads may be sent in advance; but, write each ad on a separate piece of paper and indicate the month (or successive months up to your subscription expiration; 12-months, maximum) you want the ad to run.

**To minimize our typing errors: Please write legibly.** Use both capital and small letters. Do not use a dash between words. Carefully write the following numbers and letters (especially in model numbers) since some can look alike; for example 1, l and I (the number one, the capital i and the small L). Also: 0, O, o, Q and D; v, r and n; 6, b and G; V, U, u, v and Y; A and R; 5, S and s; 2, Z and z. We try to correct spelling errors, so when using an uncommon word or manufacturer which we might mistake as a more common word or manufacturer, note it so that we do not "correct" it. Editor's annotations are in [brackets] in ads.

**Advertising is accepted only for early items related to radio, communication, etc. All items must be described fairly; reproductions, reprints and not-original items must be so identified. Advertisers must agree to respond promptly to inquiries and orders, to resolve problems promptly if the buyer is not satisfied, and to comply with a buyer's refund request on unaltered returned items.**

Classified ads must have a standard heading such as WANTED, FOR SALE, FOR TRADE, FOR SALE/TRADE, SERVICES, MESSAGE, HELP, AUCTION, MEET, FREE. This heading is the only bold or all-capitalized words allowed in the ad. Capitalize only manufacturer names, model names, etc. This standard ad format makes scanning the ads easier.

Before writing your ad, please look over the ads in a recent issue of A.R.C., and try to write your ad in the same style. Full name (or company name) and address is required in all classified ads; we will add it if you forget.

The publisher reserves the right to edit ads without notification to the advertiser and to reject ads for any reason. Names other than the advertiser will be edited out of ads. Ads with non-radio-related items will be returned or edited unless the non-radio-related items are for trade of radio-related items, or they are incidental to and appear at the end of an otherwise acceptable ad. The publisher is not responsible for errors due to illegibly written ads or for any other reason. See also Publishing Rights on opposite page.

**Clubs:** Since club activities receive free coverage on the *Coming Radio Events* pages, the free 20 words may not be used for club activity ads. A discount on display advertising is available for clubs.

### Classified Ad Rates per Month

**Deadline: NOON ET— 10th of the month!**

Subscribers:

- First 20 words: **FREE\***
- 29¢ per word for extra words over 20 **plus**
- 10¢ per word for a shaded ad (count all words including free words).

\* Subscribers may take 20 free words on only **one** ad each month.

Non-Subscribers:

- 47¢ per word **plus**
- 10¢ per word for shaded ad.

Please do not forget to send in the extra 29¢ per word when your classified ad runs over the free 20 words; your payment will be appreciated, and it will help to keep A.R.C. healthy.

### PHOTO & DRAWING DETAILS

**Deadline: 1st of the month  
for all ads with drawings or photos!**

Drawings and photos are encouraged as the response to your ad is much larger and the reader knows better what you want or are selling. Send in your drawing or photograph, and A.R.C. will reduce it or enlarge it as needed.

### Photo and Drawing Rates per Month

\$23.00 per month for each photo or drawing  
(If ad is canceled, this amount cannot always be refunded.)

### CHANGES & CANCELLATIONS

Please check your ads carefully before sending them in. Once ads are received, it is not always possible to refund the amount sent, pull the ad or make changes.

### IMPORTANT — COUNTING WORDS — IMPORTANT

The standard headings: WANTED, FOR SALE, etc., count as one word each time used in an ad. Name, address and (one) telephone number, count as 6 words, regardless of length. Ham call letters and business name can be included in the 6 words and do not count extra. Full name (or company name) and address is required in all classified ads. Each additional word, abbreviation, model number or number group, extra telephone numbers, fax, e-mail, etc. count as one word each. Hyphenated words count as two words.

**FOR SALE:** Westinghouse receiving tuner Type RA, Westinghouse detector amplifier Type DA. Each in very nice condition—Make Offer. John Snow, 1910 Remington Ct., Andover, KS 67002. (316) 733-1856

# Estes Auctions

*Specializing in Vintage Radios  
Complete Auction & Appraisal Service*

## Radio Auction

**The Robert J. Stone Collection  
from Piqua, Ohio**

**Saturday, December 9, 2006 – 10 AM EST**

at the Expo Auction Center  
8157 Garman Rd., Burbank Ohio (Exit 204 off I-71)  
then south on SR #83 to the Duke & Duchess Gas Station, turn left  
onto Garman Rd. and follow to the auction site.

Estes Auctions is pleased to add the radio collection of Robert Stone & Irene Fair to the December 9 sale. Mr. Stone is retiring from radio repair and collecting due to health reasons. The collection contains a nice selection of wood and Bakelite radios, over a dozen console radios, some in various states of repair, tube testers, lots of test equipment, Stand By magazines, WWVA Jamboree magazines, a small selection of novelty and transistor radios, Zenith Trans-Oceanics, several horn speakers, lots of radio tubes, many repair parts, some utility trays, a large collection of 78 rpm records, 1920s battery sets, some are kit type. Bob had his repair shop set up in a building behind his home. Many people relied on him for his expertise in keeping their vintage radios playing. We would like to thank him for his years of dedication to this great hobby. Make plans to attend this sale. Terms: Cash, check, Visa, M/C. 5% gallery fee.

Complete Auction & Appraisal Service*

## Zenith Stratosphere

at the Expo Auction Center

8157 Garman Rd., Burbank Ohio (Exit 204 off I-71)  
then south on SR #83 to the Duke & Duchess Gas Station, turn left  
onto Garman Rd. and follow to the auction site.

A beautiful Model 1000Z 25-tube Zenith Stratosphere to be sold at our radio auction November 18, 2006 at 12 o'clock noon. The radio is complete and in great condition. The chrome is clean and bright, the speakers are complete and the cones are good. The power supply is very good. This is an excellent opportunity to purchase this radio as an investment. It will be a source of beauty in a radio collector's home. The Zenith Stratosphere is the ultimate for a true collector and they have appreciated in value as each year passes. Make this the year you add a Stratosphere to your collection.

## NEW: Wood Radio Repair DVD!

Restore the wood radios you've always wanted with *Antique Radio Restoration Vol. 4!* Bret Menassa shows you how to repair dozens of the most challenging wood cabinet problems. Refinish only *damaged* areas, blending your repair with the original finish. Repair the cabinet and replicate wood parts using simple, inexpensive tools. Repair missing veneer and lacquer blemishes. Remove and re-use vintage veneers from other radio cabinets, and even re-veneer an entire radio! Learn different grain-filling and toned-lacquer techniques, and how to achieve that elusive "piano-finish." Finally, pick up dozens of restoration tricks using blush erasers, sand-able lacquer sealers, and different shades of lacquer pigment to get fabulous results in all your wood cabinet radios. View a streaming preview at [www.bretsoldradios.com](http://www.bretsoldradios.com), or email Bret at [bretsoldradios@att.net](mailto:bretsoldradios@att.net) for more information.

## C-Band Pioneer Reunion April 19-21, 2007

In August 1979, 500 technologists gathered in Oklahoma City for the first "Satellite Private Terminal Seminar." By 1984, C-Band Direct home dish terminals were being installed at the rate of 75,000 per month. The time has arrived to recognize these "pioneers" during 'Satellite Expo 2007' in Atlanta, Georgia.

For details, go to:

<http://www.bobcooper.tv/c-band-reunion.htm>

# Estes Auctions

*Specializing in Vintage Radios  
Complete Auction & Appraisal Service*

## Sparton Nocturne

at the Expo Auction Center  
8157 Garman Rd., Burbank Ohio (Exit 204 off I-71)  
then south on SR #83 to the Duke & Duchess Gas Station, turn left  
onto Garman Rd. and follow to the auction site.

Estes Auctions will hold a sale on November 18, 2006 featuring the last Sparton Nocturne from the legendary Edward Sage collection from Albuquerque, New Mexico. The highlight of the sale will of course be the beautiful blue glass Sparton Nocturne but we will also be selling a Sparton Sleigh in cobalt blue, a Sparton Bluebird, and a Sparton Sleigh in the peach or "old rose" color glass. This will conclude the collection of Mr. Sage so make your plans to own this beautiful piece of radio history. Call us to consign or add your Deco style radios to this sale.
