The TV Marketplace

The ADI Market Atlas

The Area of Dominant Influence is a geographic market design that defines each television market exclusive of the others, based on measurable viewing patterns. Each market's ADI consists of all counties in which the home market stations receive a preponderance of viewing, and every county in the U.S. (excluding Hawaii and part of Alaska) is allocated exclusively to only one ADI—there is no overlap. The estimated television households are therefore additive, and the total of all ADI's represents the total television households in the U.S.

The ADI is a standard market definition. As a television buying tool it is a geographic and demographic means for maximum efficiency. As a station tool it has numerous applications for more effective sales efforts, and for programing and promotion planning.

Following, in alphabetical order, are Arbitron Television's 211 ADI markets for 1981-82 with coverage maps for each county-by-county breakouts of TV households. Other data included the market's stations, and their cities of license, channel numbers and network affiliations. (Networks in parentheses indicate secondary affiliations.)

Coverage maps show total survey areas in white, the ADI's themselves in light crosshatching, and Arbitron Metro Rating Areas in heavier crosshatching. The survey areas consist of all counties in which the home market stations are viewed to any significant extent, including via cable. The Metro Areas, save for an occasional deviation caused by geographical or historical factors, conform to the U.S. Census Standard Metropolitan Statistical Areas.

Arbitron has also designated several "supplementary markets"—TV-station home counties where the stations of a different market receive the preponderance of viewing. Supplementary markets therefore do not meet Arbitron's criteria for having an ADI of their own; they are listed in this atlas next to the ADI of which they are a part. (Note—The survey area of a supplementary market usually differs from that of the neighboring ADI market.)

A complete list of the supplementary markets appears on page B-15, and a cross-reference list for cities in a multi-city ADI on B-75.

Supplementary markets

The following supplementary markets have no ADI. Reports for these non-ADI markets may be produced in the November, February and/or May surveys. Data on each market is listed in the surrounding atlas adjacent to the ADI in which it falls. TV household estimates for supplementary markets are nonadditive, since these markets are composed of counties which are a part of other markets' ADI's.

The Markets Ranked by Size

Here are the television markets of the U.S. ranked in descending order by the number of television homes they contain. Also shown are the numbers of women, men, teenagers and children in each market and the percentage of the total U.S. population each represents.

All data is from the Arbitron Company and represents the Arbitron Television household and population estimates for the 1981-1982 season.

TV Markets by Nielsen Marketing Research Territory

Nielsen Marketing Research territory groupings are another standard way of reporting sales data. The following table ranks TV markets within each Nielsen Territory. This provides a yardstick for determining the number of spot markets needed to achieve a given coverage of a territory. For example, if the national media are not delivering sufficient advertising weight in New England, the planner will find that three TV markets (Boston, Hartford and Providence) contain more than 80% of the New England territory households. Or, he can use the table to get a better idea of how and what TV markets are needed to cover all of New England. Data is from special Nielsen Station Index tabulation based on a September 1981 estimate.

How Network Delivery Varies by Market

National advertisers use spot television to increase network advertising weight in specific markets to achieve a predetermined level. These market goals are derived from the advertising budget and the market's share of the brand's projected sales. Thus, a spot schedule is usually indicated where a market has an unusually high brand-sales potential, or where the network weight delivered for the brand is below the national average used in planning, or both.

The first factor, market brand potential, varies by product and is difficult to generalize. The second factor, local-market network audiences, must be generalized because planning is based upon next season's *anticipated* network performance. The prevalence of network "package" buys, which tend to deliver average audience levels, supports the use of average data.

The following tabulation, chosen especially for the BROADCASTING Yearbook, shows Arbitron Television's Areas of Dominant Influence (ADI) in terms of percent of the total number of U.S. TV households. Also given, in like percentage terms, are the network audiences in each ADI market during prime-time hours. It is this market audience figure, when compared to the market's share of population, that indicates whether the network commitment will perform above or below the national plan average in that market.

The figures are based on Arbitron Television's May 1981 Network Program Group Analysis.

(1) Channel, power and antenna. WOF-TV operates with 200 kilowatts (effective radiated power) visual and 20 kilowatts aural. Its antenna is 500 feet above average terrain and 300 feet above the ground; it holds a construction permit for a height increase.
(2) Date station first went on air (regardless of subsequent ownership changes).
(3) Address and zip code, telephone, Teletype Writer Exchange number.
(4) Licensee name and date of acquisition (if not original owner).
(5) Ownership. Acme Stations owns WOF-TV and several other broadcast properties, all detailed in the Group Ownership directory in section A. The station additionally has print media connections, explained in the Newspaper directory (also in section A). Principal stockholders are listed for independently owned stations.
(6) Network, foreign language, rep and Washington attorney. The primary WOF-TV national affiliate is CBS, the secondary is NBC. The station broadcasts two hours of Spanish a week. Sales representatives are listed with national rep first, then regional.
(7) Personnel.
(8) Cable and translators. WOF-TV is carried on six cable TV systems with a total of 20,000 subscribers, and on 10 rebroadcasting translators.
(9) Co-owned radio. WOF-TV has the same licensee as WOF-AM-FM.
(10) Advertising rates. The prices the station charges national advertisers for a 30-second spot are shown for each of three dayparts:

Prime time; early fringe; daytime

in that order. If a day-part is inapplicable a dash (—) replaces the rate.

* An asterisk indicates noncommercial stations.

ADI. Immediately beneath every city heading is the ranked market Area of Dominant Influence into which the city falls. ADI details are presented in the preceding ADI Atlas.

TV Assignments

Note—UHF and VHF TV assignments have been made by the FCC to the following cities. A plus or minus after a channel indicates that a station occupying the channel must operate with its carrier frequencies offset 10 kilohertz above or below, respectively, the normal carrier frequencies.

Asterisks (*) indicate channels reserved for noncommercial use. Footnotes: 1) Following the decision in Docket 18261 (amendment of rules regarding geographic reallocation of channels 14-20 to land mobile radio in the 25 largest urbanized areas of the U.S.) channels so indicated will not be available for use until further action by the FCC. 2) This channel is not available for Elgin, Ill., unless FCC determines it is not needed at Joliet, Ill. 3) This channel is not available for Asbury Park, N.J., unless FCC determines it is not needed at New Brunswick, N.J. 4) Channel 15 will not be available for television use until further action by the FCC. 5) Stations using these assignments shall limit radiation toward stations on the same channel in Puerto Rico. 6) Operation on this channel is subject to the conditions, terms, and requirements set out in the report and order in docket 19075, RM-1645, adopted Jan. 5, 1972, released Jan. 7, 1972. FCC-72-19. (As of August, 1980)

Television Billings—1955-1980

Figures for the years 1955 through 1967 are net time sales by stations and networks after all frequency and promotional discounts but before deduction of commissions to agencies and representatives. Figures for 1968 through 1980 were computed under a new formula and represent total amounts paid by advertisers for the use of broadcast facilities. They include commissions paid to advertising agencies and representatives and payments for broadcast time and programs, materials, facilities and services supplied by broadcast stations and networks in connection with the sale of time. Figures are based on FCC data.

T5885 **CATV PROGRAM ORIGINATION & PRODUCTION,** by Donald Schiller, (Bill E. Brock, Producer; Fred Rigby, Graphic Artist). Anyone interested in or involved in CATV operation will find this book a must. It's readable, easily understood, and designed to serve as a self-teaching course as well as a text. It begins with a description of a cable television system, including types of equipment used, the duties of the programmer, and typical markets. The author tells how to prepare a sales presentation, how to select prospects, and how to convince them to buy. The mechanics and techniques of program production are explained and illustrated. 252 pps., 73 illus.

$14.95

T5815 **DESIGNING & MAINTAINING THE CATV & SMALL TV STUDIO—2nd Edition,** by Kenneth B. Knecht. This all-in-one handbook is written specifically to help those who need expert, in-depth guidance on setting up a small to medium size TV studio. Everything is included, from pulse distribution and switching systems and camera, film and video tape equipment, to the creation of special effects such as supers, dissolves, wipes, keys, etc. The author fully discusses cameras and lighting, together with color TV equipment, monitoring, and studio and control area signal distribution. 288 pps., 100 illus.

T5213A **HANDBOOK OF RADIO PUBLICITY & PROMOTION,** by Jack Macdonald. This GIANT 372-page handbook is a virtual promotion encyclopedia—includes over 250,000 words, over 1500 on-air promo themes adaptable to any format, and over 350 contests, stunts, station and personality promos! One idea alone of the hundreds offered can be worth many times the small cost of this indispensable sourcebook. 372 pps., 8½ x 11"; bound in long-life 3-ring binder.

$34.95

T5511 **HOW TO SELL RADIO ADVERTISING,** by Si Willing. The right formula for sales depends on the individual and the prospective advertiser. Therein lies the secret as Si Willing illustrates it by theory and by practice. You'll accompany him on actual sales calls. You'll hear all sorts of objections (including a few you haven't heard!) and how they've been successfully countered. From the dialogue between salesman and prospect you'll learn the approaches and the clinchers, how to use available sales tools to the best advantage, and how to deal with competition. You'll learn ways to sidestep objections, how to recognize the "opportune moment," and how to convert a "No" to a "Yes." 320 pps., 62 illus.

$12.95

T5461 **MANAGING TODAY'S RADIO STATION** by Jay Hoffer. Written expressly for managers, dealing not only with "nuts and bolts" of broadcasting, but also with how to get the most out of the station's staff. It offers in-depth coverage on audience ratings, advertising, automation, double billing, unionism, preventive maintenance, etc. It covers format control methods, station image, community involvement, news, editorials, sports, copywriting, sources of air talent, employment contracts, and more. 288 pps., 68 illus.

$12.95

T5768 **CABLECASTING PRODUCTION HANDBOOK,** by Joel Efrein. An introduction to cablecasting production for the novice, and a comprehensive handbook that will facilitate production for cable TV for those already in the field. Will help CATV planners, directors, and producers to make the right decisions in organizing a station and obtaining revenue through subscriptions, ad revenue, and programing. It's a well-seasoned exposition of the subject that will clear up the haze surrounding CATV and its applications. The author, a working pro, includes latest data about the ongoing video technology revolution, and accurate and seasoned description of cable TV and its facilities, and a reminder throughout that TV works best when well-planned and well-produced. He tells how to use channel space ... and how to do it right! His book is a clear roadmap that will help you avoid the common pitfalls that have trapped so many others. 210 pps., 44 illus.

$12.95

T5769 **HOW TO MAKE NEWS & INFLUENCE PEOPLE,** by Morgan Harris & Patti Karp. This is everybody's guidebook to the secrets of successful publicity, packed with proven methods of getting free publicity—on radio, TV, newspapers, etc.—that'll make people sit up and notice ... build your treasury, membership, and get good turnouts! The authors, veterans in publicity management, advertising, and promotion, tell you how to plan a publicity program, organize material and equipment, develop reliable contacts in the media, write "selling" promotional copy, prepare stories and releases, and much more. It's all here—using photography, samples of news releases, newsletters, handbills, even sandwich boards, stunts, and balloons. Everyone who wants to reach people needs this book! 140 pps.

$7.95

T5881 **RADIO PRODUCTION TECHNIQUES,** by Jay Hoffer. Here's an all-around book for everyone in radio—performers, producers and directors, and sales and engineering personnel. Covers every phase of radio production from announcements to the overall station "sound"—in fact, every creative aspect of today's radio ... with special emphasis on sales. Tells how to produce results for an advertiser, how to develop production expertise, and how to use the elements of pacing and timing in every production. 192 pps., 86 illus.
