INDEPENDENT BROADCASTING AUTHORITY—70 Brompton Road, London, SW3 1EY. Telephone: 01-584-7011. Telex: 24345. The Authority was created by Parliament in 1954 as Independent Television Authority to provide a comprehensive television service additional to that of BBC. In 1972, it was renamed the Independent Broadcasting Authority and its functions were extended to provide an Independent Local Radio service. The Authority selects and appoints the program companies; supervises programs provided by the contractors and their scheduling; controls the advertising; builds, owns & operates the transmitting stations. Fifteen companies provide programs in fourteen independent television regions of the United Kingdom (2 companies share the contract for London). As part of its review of the ITV system, the Authority, in Dec. 1980, offered a contract to broadcast a new national breakfast-time television service, which started in May 1983, to TV-AM. In addition, changes were made to some ITV companies. Currently, 34 Independent Local Radio stations provide program service in 33 areas (2 operate in London). Further stations are planned over the next few years. Both services are financed mainly by the sale of advertising time.

Members of the Authority: Lord Thomson of Monifieth, chairman; Sir John Riddell, deputy chairman; Mrs. Y. Conolly; Mrs. J. D. M. Jowitt; Professor A. Cullen; Mrs. P. Ridley; Sir Denis Hamilton; Rev. Dr. W. J. Morris; Mrs. J. McIvor; A. M. G. Christopher; G. Russell.

FOUR WEEK TRIAL

Television Digest

... the Cable Industry's Most Authoritative Source
for News, Trends & Developments.

Every week, Television Digest brings you via first class mail the hard facts on events, activities, issues and people in the world of cable & pay television. Facts that are presented precisely and concisely with professional insight and skill that come with 39 years of editorial expertise.

In 20 minutes reading time you are able to spot and follow trends and changes as rapidly as they occur—or even before they occur—in cable & pay TV, television, consumer electronics and associated fields.

Each week you get fresh news on Federal policies and regulations, financial and business developments, key court decisions. You'll know what's happening on Capitol Hill and at the FCC, what's new in cable franchises and applications, how equipment manufacturers, program suppliers and system operators are innovating and affecting the cable television community and its future.

Television Digest takes you behind the scenes, beneath the surface and gives you the real meaning of the news in simple, easy-to-read, crisp newsletter style.

You will enjoy — and benefit from — reading Television Digest every week. It will keep you alert and cut hours off your regular reading, giving you more time to evaluate, plan and act.

FREE: A complimentary 4-week subscription to Television Digest is yours for the asking. Have your secretary call collect — 202 — 872-9200 and we'll take it from there. Or write:

Did you read
Television Digest
this week?

The important new publication from the publishers of
COMMUNICATIONS DAILY and **TELEVISION DIGEST** . . .

. . . the TELECOM FACTBOOK

Now off press

**** Your reference/phone book for the telecommunications industry.****

Your guidebook to lead you through the maze caused by the telecommunications revolution.

Now you can find answers to all of your telecommunications questions! The 1985 TELECOM FACTBOOK—a master directory of common carriers, independents, satellites, data communications organizations, regulators, international telecommunications entities, and a whole lot more—is now off press!

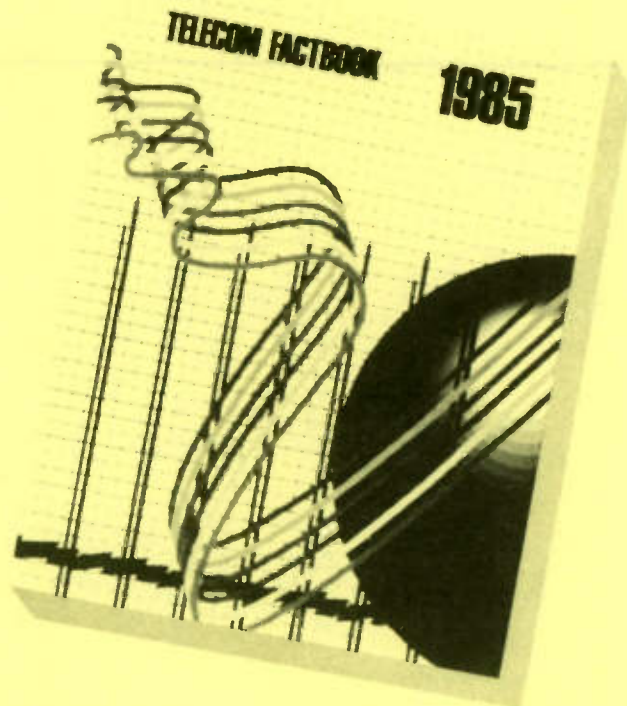

Whether you need to find out who's doing what at AT&T . . . or the individual responsible for buying equipment at Ameritech . . . or the correct contact for the German PTT . . . or what satellite is scheduled to go up next . . . or the name of the Chairman of the Florida PSC . . . or information about the major (and minor) competitors in the long distance business . . . or the latest scoop on which executives pull the strings at America's independent telephone groups . . . or simply the names of board members of MCI . . . you'll have answers as close as your fingertips with the new TELECOM FACTBOOK.

A Result of Our Own Confusion

Frankly, the TELECOM FACTBOOK is a direct result of the need of our own editors in Washington, New York and London for *immediate* access to the right people at the right communications organizations. We had no other choice but to put a team of researchers to work to find everything we needed to know. The TELECOM FACTBOOK is the product of that demanding effort. Now you can share the benefits with us.

Copies Are Going Quickly

The TELECOM FACTBOOK is selling faster than we had anticipated. We urge you to order quickly before our inventory is exhausted. Considering all the information it contains, the TELECOM FACTBOOK is a real bargain at only \$59 each.

Free Gift

To make ordering even more irresistible for you, we'll send you a very handy FREE gift along with your TELECOM FACTBOOK. It's a copy of Television Digest's *Editor's Guide to Telecommunications Buzzwords, Terminology, Acronyms and Abbreviations*. In an industry where a whole new language is evolving, this book is "a must" for you.

Easy to Order

All you have to do is fill out, clip and mail the coupon below. And please include your check or send us your credit card instructions. Whichever way you choose, be sure to do it right away.

(clip and mail coupon below)

Order Form for TELECOM FACTBOOK

Sounds good to me. Send me _____ copies of the TELECOM FACTBOOK at only \$59 each. I understand that for every copy of the FACTBOOK I order, you will send me—absolutely FREE of charge—a copy of your *Editor's Guide to Telecommunications Buzzwords, Terminology, Acronyms and Abbreviations*. **NO-RISK GUARANTEE:** I understand that if I am not satisfied with the TELECOM FACTBOOK for any reason (and no questions asked!), I may return it to you in good condition within 10 days of receipt and receive a full refund.

Comark's "S" Series UHF Television Transmitters

Simply Superior

10kW/30kW/55kW model shown

Integrating high efficiency, reliability and low cost, each model incorporates state-of-the-art technologies to achieve a unique combination of unparalleled features:

- External cavity, full-band, field proven, klystron power amplifiers, combining highest efficiency and compact size.
- Broadband (no tuning), high power, Exciter System, featuring dual channel (redundant) operation as well as Comark's CM-100S Broadcast Modulator with IF S.A.W. filter.
- Space efficient, mechanical and electrical layouts, fully engineered for maximum EMI/RFI isolation and overall operator convenience.
- Fiber optic telemetry for all floating high voltage metering functions, incorporated into a complete, remote control-compatible, latched fault and status display system.
- Clean, fully isolated, high voltage compartments, with double-filtered air cooling and front access. (No exposed high voltage in klystron areas.)

Comark's "S" Series transmitters are available from 10kW through 220kW with advanced system options, including beam current pulsers, motorized RF switching systems, E.D. and ICPM correction systems, and the services of Comark's 24-hour field operations group.
