**N**ow your patrons can renew their memories and relive scenes in the films they've seen, and spark an interest in films they've missed with the most authoritative, complete, and up-to-date compendiums of film reviews available, **Variety's Film Reviews, Volume 20, 1987-88 and Volume 21, 1989-90.**

Indispensable to anyone who recognized the movies' unique contribution to American life, **Variety's Film Reviews** has become a vital primary-source landmark of inestimable historic, artistic, commercial, and cultural value.

From the great motion pictures to the so-so films; . . . award-winners to the also-rans (and outright bombs), all the reviews of the past four years' hits and misses are here, to fascinate the serious film researcher and delight the avid film buff.

**Variety's Film Reviews** latest volumes

provide critical commentary on *A Fish Called Wanda, Naked Gun, Rain Man, Driving Miss Daisy, My Left Foot, Field of Dreams, Dead Poets Society, War of the Roses, Blue Velvet, Broadcast News, The Accidental Tourist*, and hundreds more. Arranged chronologically and separately indexed by title, each volume's listings include:

- actors (including roles they played)
- production credits ■ studios and distributors
- production companies
- original foreign titles and countries of origin
- MPAA ratings
- running times
- color/BW and widescreen process
- literary and dramatic sources
- plot and story information
- reviewers' critical opinions

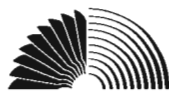

Unchanged from the way they first appeared in the pages of *Variety*, **Variety's Film Reviews** are now updated by these two brand-new volumes to bring the reader an unparalleled source of critical analysis and insight.

**The Most Comprehensive Collection of Film Reviews Available: Variety's Film Reviews 1907-1990**

Each volume in this 21-volume set provides a complete, detailed synopsis of each film. Highlighting every aspect of filmmaking from its early days to today's blockbusters, these reviews are literate, informed and perceptive.

**Now**, films from over 60 countries appear in the pages of this 21-volume set — the largest movie reference source available. This ongoing series of unabridged reprints spans the entire commercial film industry, from its fledgling beginnings in Edison's lab to the record box office hits of 1990.

# Broadcasting is your business!

It's all your business — television, cable, radio, satellite . . . the entire industry. Everything is connected. And when you read **Broadcasting** every week, you stay connected.

**Broadcasting** is the industry's leading publication — with the broadest coverage, biggest editorial staff, and the most experience. Over 60 years.

**Broadcasting** — and only **Broadcasting** — gives you the whole picture. It ties everything together. It can help you make decisions. Do deals. Scoop the competition. Advance your career.

**You don't get all this anywhere else — only in **Broadcasting** ... every week!**

**TV PROGRAMS.** What's hot? What's not? What's available? What strategies seem to work?

**THE TV NETWORKS.** Sell the networks to the affiliates — does it make sense? How can the networks tap new revenue sources? Is affiliate ownership a viable idea?

**RATINGS.** Weekly ratings roundup for the four networks — Fox included. The latest prime-time

shuffle. Syndication — what's doing well ... and where?

**LOCAL TV.** How are local stations boosting hometown sales?

**CABLE.** Will signal compression mean a boom in cable revenues? How to push pay — how to change viewer attitudes toward PPV.

**RADIO.** What formats are working now? The stations making money — what are they doing right?

**BUDGET CUTS.** How others are doing more with less in the newsroom. And elsewhere.

**TECHNOLOGY.** HDTV — what will it cost to gear up? DBS — who gets the remaining frequencies? New equipment — how quickly will you recoup the cost?

**WASHINGTON.** More wrangling over fin-syn. The issue of cable deregulation. The latest court decisions and FCC moves — who is helped, who might be hurt.

**CHANGING HANDS.** Which broadcast properties and cable systems have changed hands, and for how much?

# We're on a mission.

Our mission is to *meet our customers' evolving needs by expanding the unique capabilities of satellite communications.*

For years, we've been known as the company that "makes ideas happen." And the global sharing of information is the biggest idea of all.

As we continue to apply our technology and the expertise of our dedicated professionals, the potential of satellite communications grows even greater.

Our near-term commitment alone is massive.

By the end of 1993 we will be orbiting over one billion dollars in new spacecraft, upgrading our ground control facilities, and expanding our communications capabilities.

We're on a mission to maintain our renowned leadership in every aspect of satellite communications. The services we offer our customers will continue to be the most advanced, the most reliable,

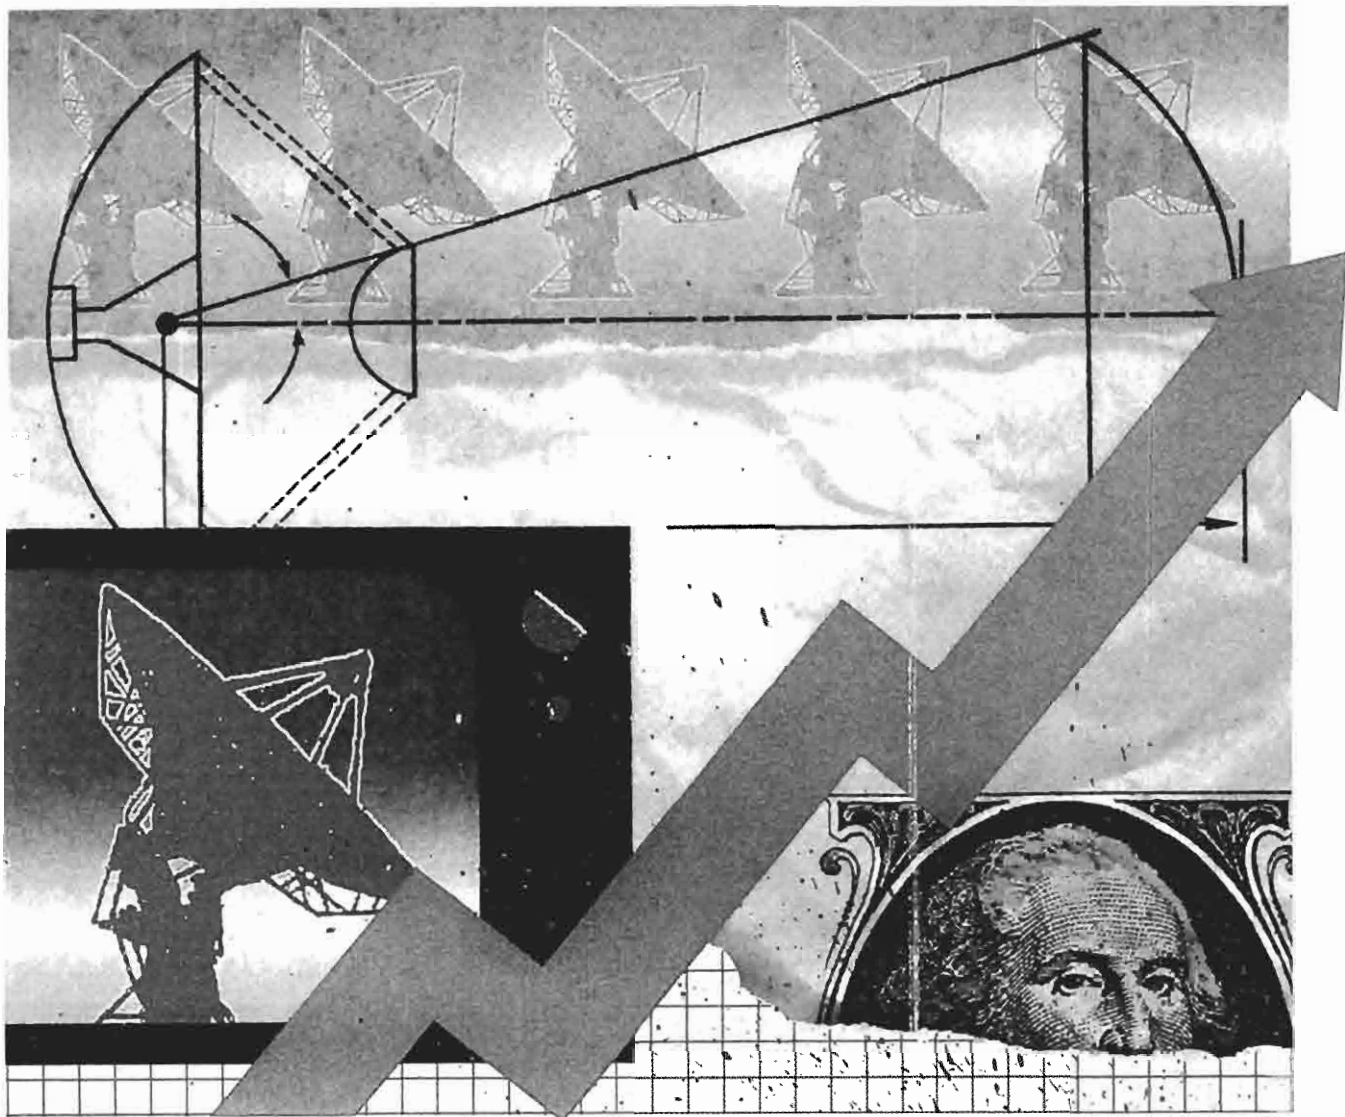

and the best managed available.

To realize that mission, we will continue to commit everything we have. There is no other way at Hughes Communications. That's why the future belongs to us and our customers. And that future is right on schedule.

## BROADCASTERS HAVE THE TOOLS TO TRANSFORM THE WORLD.

### BUT THE WORLD HAS CHANGED.

More than ever before, the world of broadcasting is all business. And everyone's watching more closely than ever. Watching equipment costs. Watching the bottom line.

Scientific-Atlanta helps you do more with less. With new technology, like software-based products to automate control of earth stations, electronics and studio equipment and more.

Even hallmark products like our new video receivers and satellite antennas are redesigned and re-engineered to give you optimum performance at the most competitive price.

Broadcasting is different today—and so is Scientific-Atlanta. For more information on our new generation of satellite broadcast products, call (404) 925-6001.

<sup>1</sup> C-band and Ku-band columns indicate numbers of transponders on each satellite. End-of-life estimates are based on launch date plus average 10 years. Several of the newer birds are built to last 12 years.

<sup>2</sup> Although not of use for customers with nonsteerable antennas, Comsat developed a system to track and maintain use of birds that have used up station-keeping fuel and have gone into north-south drift.

<sup>3</sup> GTE and Contel merged in March 1991. Contel ASC's second satellite, ASC II, was renamed Spacenet IV.
