# Radio Formats Defined

*Broadcasting & Cable Yearbook* defines a radio format as programming broadcast over 20 hours weekly. Programming broadcast from one to 20 hours weekly is defined as special programming. This is not a hard and fast rule, however. Some stations may report programming unique to their main programming format(s) as “special” programming regardless of the number of broadcast hours.

Most stations broadcast one format, though some stations report having two or more formats. A station that lists four or more formats is categorized as “Variety/Diverse” or “Diverse.” Formats that did not fit into a specific category are listed as “Other.”

At present, *Broadcasting & Cable Yearbook* recognizes 90 different formats. These formats are listed below with appropriate definitions.

This listing is followed by a breakdown of formats by state and by province. The chart on page D-661 gives a breakdown of radio programming by AM/FM and commercial/noncommercial stations in the U.S. and Canada.

**AAA (or Triple A)**—Adult Album Alternative. Eclectic choice of music ranging from hard rock to folk music.

**Adult Contemporary**—Recent popular songs, with a few oldies. The songs tend to be upbeat and soft. News and talk segments are prominent during rush hour “drive times.” Also known as **Light Rock**.

**Agriculture & Farm**—News, weather and features of interest to farmers and others involved in agriculture.

**Albanian.**

**Album-Oriented Rock**—Popular rock music from past and present rock albums. Also see **Rock/AOR**.

**Alternative**—Rock music first popularized in the late 80s and early 90s. Also known as **Progressive**.

**American Indian**—Programming for North American Indians; includes native language (i.e. Navajo) broadcasts.

# U.S. Radio Markets

The following is the Arbitron population ranking for Spring 2002, based on markets definitions at that time. It is based on the 1990 U.S. Bureau of Census estimates updated and projected to August 14, 2002.

The MSA number is the population of all persons aged 12 or older in the Metro Survey Area. The TSA number is the population total of all persons 12 or older in the Total Survey Area. Following that are the call letters of stations that fall within the market as defined by Arbitron.

Certain market population totals are also embedded in larger nearby markets. It is therefore possible for a station to be listed in more than one market.

# U.S. Radio Markets: Arbitron Metro Survey Area Ranking

This chart ranks the 283 radio markets by Metro Survey Area population (see also the following chart of ranking by Total Survey Area). Figures include all persons aged 12 or older and are based on 1990 U.S. Bureau of Census estimates updated and projected to January 1, 2002. Data reflects the Spring 2002 Arbitron market definitions. A single asterisk (\*) following a market name indicates that the market is embedded in a larger nearby market. See U.S. Radio Markets beginning on pg. D-724 for details. The double asterisk (\*\*) following the Monmouth-Ocean, NJ, market indicates that Monmouth County is included in both the Monmouth-Ocean, NJ, and New York Metro markets. The triple asterisk (\*\*\*) following the Manchester, NH, market indicates that a portion of Rockingham County is included in both the Manchester, NH, and Portsmouth-Dover-Rochester, NH, markets.

# U.S. Radio Markets: Population Ranking

This chart ranks the 283 radio markets by Total Survey Area population (see also the preceding chart of ranking by Metro Survey Area). Figures include all persons aged 12 or older and are based on 1990 U.S. Bureau of Census estimates updated and projected to January 1, 2002. Data reflects the Spring 2002 Arbitron market definitions. A single asterisk (\*) following a market name indicates that the market is embedded in a larger nearby market. See U.S. Radio Markets beginning on pg D-724 for details. The double asterisk (\*\*) following the Monmouth-Ocean, NJ, market indicates that Monmouth County is included in both the Monmouth-Ocean, NJ, and New York Metro markets. The triple asterisk (\*\*\*) following the Manchester, NH, market indicates that a portion of Rockingham County is included in both the Manchester, NH, and Portsmouth-Dover-Rochester, NH, markets.

Prior to 1971, data reflects factory sales by U.S. manufacturers plus those products imported directly by distributors or dealers for resale. All import statistics are based upon average value as published by the U.S. Department of Commerce, which is F.O.B. and therefore excludes U.S. import duties, freight charged from the foreign country to the United States, and insurance.
