... makes cash registers RING!

You know how retail merchants are. If their cash registers don't ring, they drop any advertising medium like a hot brick. So get this big fact about Baltimore advertisers:

W-I-T-H regularly carries the advertising of more than twice as many retail merchants as any other station in town!

Week in, week out . . . year in, year out . . . these retail stores buy W-I-T-H for just one reason: *W-I-T-H makes the cash registers ring . . . at low, low cost!* Smart national advertisers buy W-I-T-H for the same good reason. They know that W-I-T-H delivers more buying listeners-per-dollar than any other radio or TV station in town.

How about your own schedule in Baltimore? If W-I-T-H isn't on it, get hold of your Headley-Reed man and let him give you the whole W-I-T-H story today!

W-I-T-H
BALTIMORE, MD.

**the nation's most powerful television station
EXTENDS ITS COVERAGE!**

With the recent authorization to increase its power to 50,000 watts E.R.P., WHAS-TV is now covering even more of the rich Kentuckiana Market . . . reaching such additional Bluegrass cities as Lexington and Harrodsburg . . . plus important Indiana markets as well.

Your TV dollar buys more on WHAS-TV!

	Population	Retail Sales
NEW WHAS-TV MARKET	1,276,875	\$996,710,000
FORMER WHAS-TV MARKET	1,030,000	777,818,600

BROADCASTING TELECASTING

... at deadline

Closed Circuit

UNLESS ALL signs fail, FCC shortly will announce decision affirming examiner's finding that Arthur B. McBride is qualified as stockholder in WMIE Miami. While decision would take cognizance of Kefauver Crime Committee condemnation of Mr. McBride's past association with Continental News Service, FCC expected to hold that based on hearing record, transfer to Mr. McBride and his associate, Daniel Sherby, is warranted. Whether they will cancel deal to sell majority holdings for \$220,000 (one-cent on dollar) to ex-Gov. E. D. Rivers Sr. presumably will be decided when FCC finalizes its action [BROADCASTING • TELECASTING, July 9].

FCC CHAIRMAN Wayne Coy, who accompanied President Truman on his flight Monday (Sept. 3) to San Francisco, for Japanese Peace Treaty signing, expected to participate in Sept. 4 inaugural of coast-to-coast TV. He was only one outside of President's official family to make flight on *Independence*.

EXPECTED MOMENTARILY: Important announcement regarding Red Skelton program on CBS understood to introduce "new element in radio network selling" (see story this issue).

DEPT. OF DEFENSE has urged radio and TV companies to obtain accreditation for all news correspondents who might be sent overseas in event of new emergency. By completing security check and other details now, correspondents could be cleared quickly for transportation to zone of trouble if it broke out. Other matter also covered at meeting of defense officers and representatives of broadcasting, press and communications companies included possible reactivation of *Spindle Eye*, communications ship designed for Japanese invasion and now in mothballs.

FCC HAS approved CBS affiliation with Mexican border TV station XELD-TV Matamoros [BROADCASTING • TELECASTING, Aug. 20], but only for period of license of WCBS-TV New York, which expires, as do licenses for all TV stations in February, 1952. Legal question whether Commission approval necessary for kines and film was resolved by FCC along lines that they are "programs" within meaning of the Communications Act and FCC rules.

OFFICE of Price Stabilization is working out new ceiling price regulation for manufacturers. This one, due for announcement in few days, will probably be effective 60-90 days later. It will allow manufacturers to consider increased advertising costs in setting new ceiling price, patterned after Capehart formula in Defense Production Act.

PLANS under way for revival of *Army Hour* of World War II into new hour-long program retitled *America's Hour*. Utilizing substantially same format, program would be available for sponsorship with Coca Cola understood prepared to pick up tab for first program or perhaps first segment. *Army Hour*

Bulletins

BRIG. GEN. DAVID SARNOFF, RCA board chairman, named by Gen. Lucius D. Clay, national chairman of Crusade for Freedom, as chairman of Greater New York drive for funds to help Radio Free Europe and Radio Free Asia.

LEONARD F. CRAMER RESIGNS DuMONT POST

LEONARD F. CRAMER resigned as executive vice president and director of Allan B. DuMont Labs, ending 16-year association with video manufacturing concern, last ten as executive vice president.

Resignation will have no effect on operation of DuMont TV network, Chris Witting, director and general manager, said Friday. Mr. Cramer, he explained, had devoted himself to company's manufacturing and sales aspects.

One of earliest DuMont employees, Mr. Cramer originally was in charge of company's sales and advertising, handling negotiations with government for electronic equipment during war. Transferring to broadcast end, he supervised WABD (TV) New York in its early days of commercial operation and was instrumental in the formation of DuMont TV Network.

In 1948, Mr. Cramer relinquished management of telecasting phase to Comdr. Mortimer Loewi, who in June returned to his earlier post of executive assistant to president when Mr. Witting assumed control of network operations [BROADCASTING • TELECASTING, June 18]. Since 1948, Mr. Cramer has concentrated on manufacturing end. He said his immediate plan is to take extended vacation. He will announce business plans in autumn.

FCC SETS RECORD

RECORD of 20 days from date of application to date of grant was set by FCC Aug. 29 when it granted KBND, Bend, Ore., permission to change from 1270 kc to 1110 kc with 1 kw (DA-N). But there are extenuating circumstances. Seems 1950 grant on 1270 kc was discovered to be an egregious error—that frequency had been promised to Canada! So FCC engineers worked with KBND technicians, found new frequency, pushed through grant in hurry.

Business Briefly

RAZOR RADIO ● American Safety Razor Co., New York (Treet, Blue Star), Sept. 10 enters 100 markets with 10-week spot radio schedule. Agency, BBDO, New York.

LEVER CAMPAIGN ● Lever Brothers, New York (Jelke margarine) increasing frequency of spots in 100 radio markets, effective in early September, for 52 weeks. Agency, BBDO, New York.

SPUDS TEST ● Philip Morris, New York (Spuds cigarettes), effective Oct. 1 starts test radio campaign in several markets for 13 weeks. Agency, Biow Co., New York.

GILLETTE VIDEO ● Gillette Safety Razor Co. (Prom home permanent, White Rains) and Hazel Bishop Inc., to sponsor 8-8:30 p.m. segment of ABC-TV *Stop the Music*, effective Nov. 1, on alternate Thursdays. Agencies, Foote, Cone & Belding for Gillette; Raymond Spector Co. for Hazel Bishop. Old Golds sponsoring last half-hour of program.

AGENCY NAMED ● J. P. Smith Shoe Co., Chicago, names Price, Robinson & Frank, Chicago, as agency. Radio and TV to be considered in media planning.

MOTOROLA SPOTS ● Motorola Co., Chicago (TV, radio sets) starting radio-only spot announcement campaign Oct. 21 in 84 markets for six weeks. Agency, Ruthrauff & Ryan, New York.

WCOL APPLICATION FILED

APPLICATION for sale of WCOL-AM-FM Columbus, Ohio, to Secretary of Commerce Charles Sawyer for \$100,000 [CLOSED CIRCUIT, July 16] was filed Friday with FCC. Purchase of 250-w station on 1230 kc from Lloyd Pixley and family also includes 10-year lease on studios at \$20,000 per year. Sale leaves Mr. Pixley with 51% interest in WLOK Lima, Ohio. He acquired WLOK last April, subsequently sold 49% interest to Columbus interests. Mr. Sawyer already owns WING Dayton and WIZE Springfield, Ohio, also publishes *Lancaster* (Ohio) *Eagle-Gazette*.

KHJ-TV TO MAKE BOW

CHANGING call letters to KHJ-TV, Don Lee Network takes over operation of KFI-TV Los Angeles from Earle C. Anthony at 10 a.m. Sept. 6 (Thursday) when \$2½ million purchase of station officially leaves escrow. FCC approved transaction Aug. 8. Willet Brown, Don Lee president, to take active charge, with Ward Ingram as executive vice president for radio and TV, and George Whitney, vice president in charge of TV sales.

NBC PROMOTES PHILLIPS

CHARLES H. PHILLIPS, formerly sales manager of NBC-TV spot sales, named assistant general manager of WNBC-AM-FM and WNBT (TV), NBC New York key outlets. Ted Cott, general manager of stations, said new post made necessary by increase in local billings.

Photograph of a typical program shows Dr. Ulna Goodall (left), Secretary of Public Instruction, Visual Education, with WGAL-TV staff member, Leo Kelly.

REPORT TO THE COMMONWEALTH

Time—Saturdays, 6:45 P.M.—on WGAL-TV the head of one of Pennsylvania's many State Departments reports on the duties, functions and activities of his Department while the people of this large area of Pennsylvania look, listen and learn. This public interest telecast answers the numerous requests for information which are regularly received by lawmakers and public officials in the Commonwealth's Capitol.

WGAL-TV presents this public service program as one of many in its endeavor to render outstanding service to the people of the communities it serves.

How many pounds are sirloin steak?

250 lbs.

150 lbs.

50 lbs.

Sirloin on a plate comes as thick as you want it and as big as your appetite (or your pocketbook).

Sirloin on a steer comes surrounded by hamburger, chuck, stewing beef and a lot of other cuts. The meat packer has to buy them all. And sell them all, too.

The part that is sirloin figures out like this: From a 1000-pound steer, you subtract 400 pounds of hides, hoofs, inedible fats, etc. That leaves 600 pounds of "eatin'

meat." But only 8% of this, or around 50 pounds, is sirloin.

That's why you pay more for sirloin than for most other cuts. The price of each cut, you see, is determined largely by how much there is of it and how much people like it.

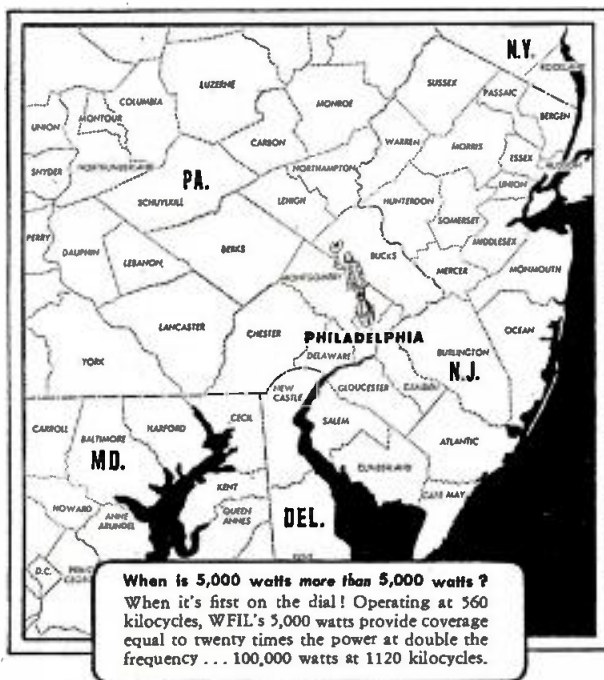

Economists call this the law of supply and demand. Women call it "shopping." They compare, pick, choose. In a free market, their choice sets the values.

Bell-Ringer in BRIDGETON...

WFIL

*Bridgeton's Liberty Bell
rang tidings of freedom in 1776.*

WFIL BLANKETS BRIDGETON...

Bridgeton's history goes back to 1716. But you don't have to go that far to realize that Bridgeton is a market worth having. Political center of New Jersey's leading farm county, seat of 45 manufacturing plants, home for more than 18,000 people... Bridgeton today sells \$28 million worth of goods through 356 retail outlets. Back up your merchandising with a voice that carries—WFIL. Its penetrating signal regularly pulls two-thirds of Bridgeton's radio families... and 58 per cent of all radio homes in prosperous Cumberland County. Schedule WFIL.

and ALL of America's 3rd Market

adelphia

C. F. SEABROOK, Farmer—Leader in a leading farm county, Seabrook Farms grows and packs fine frozen foods. Cumberland County farmers prosper; gross \$37,000,000 a year.

HAROLD W. BALBIRNIE, Druggist—Bridgeton drug stores are social centers, too. Establishments like H. H. D. Balbirnie and Son sell \$517,000 worth of goods a year.

MARY B. ROBERTS, Farmer's Wife—Sell her! For Bridgeton-area farm families average \$11,256 in annual retail spending... 165 per cent more than the national farm average.

J. ELMER MULFORD, Auto Dealer—Bridgetonians spend \$5,126,000 a year on automobiles, buy from dealers like Mr. Mulford, treasurer of Elmer D. Mulford, Incorporated.

AND THE 14-COUNTY TRADE AREA

You get the most for your radio money in Bridgeton with WFIL. And it's the same story throughout Philadelphia's vast 14-County Retail Trading Area, where WFIL's signal is strongest. It's America's 3rd market because here are 4,400,000 people, more than \$6 billion in purchasing power, a high income level (\$5,345 per family). It's *your* market when you sell through WFIL, regular stop on two out of three dials in this rich, sales-producing zone. And WFIL brings you in a winner, too, in a huge bonus area reaching way beyond the 14 counties. Schedule WFIL.

on all accounts

AFORMER mentor, Robert Joseph Fisher, is now doing his teaching by example as aggressive account executive for Lever Bros.' Surf with N. W. Ayer & Son, New York.

Born in Ashland, Ohio, on Oct. 24, 1915, Mr. Fisher was educated at U. of Syracuse, where he majored in history and political science. With the aid of a scholarship and working as a radio researcher, plus an occasional summer's waiting on tables, Bob Fisher managed to get his degree in 1938.

After graduation, his first job was teaching civics and English at a Syracuse high school, while continuing to study at night for his master's degree. Two years later he abandoned teaching for a selling position with the American Text Book Co., and one year later accepted a position with Lever Bros. in the market research de-

partment.

In November 1943 he joined the Navy as a lieutenant junior grade, and upon his return in 1946 he went back to Lever Bros. for a short while. In 1947 he joined N. W. Ayer & Son's Philadelphia office in the plans department working on food and drugs. Two years later he was transferred to the agency's New York office on the Lever Bros. account.

Mr. FISHER

Lever Bros. (Surf) is currently sponsoring *Hawkins Falls*, five times weekly on NBC-TV, and also is running a spot radio and television campaign.

The Fishers have been married since 1940. She is the former Kathryn Benner. They have two children, Jeffery, 8, and Janet, 2. The family home is in White Plains.

Bob Fisher claims that he has no time for hobbies, that his job and home occupy him completely.

beat

GORDON CATES, vice president Lennen & Mitchell, N. Y., to Biow Co., N. Y., as vice president and account supervisor.

BILL SEYMOUR, radio writer, announcer and producer, to Leo Burnett, Chicago, as member of broadcast department.

CURTIS BERRIEN, Biow Co., N. Y., to copy staff Needham, Louis & Brorby, Chicago. He was with McCann-Erickson and Tatham-Laird, also Chicago.

VERA BRENNEN, radio head Duane Jones, N. Y., for past nine years, to Scheideler, Beck & Werner, N. Y., in same capacity. SHERMAN K. ELLIS Jr., account executive Duane Jones, to General Foods, N. Y., as production manager for decaffeinated coffees. ANNE SMALL, timebuyer Duane Jones, to Scheideler, Beck & Werner, in same capacity. WALTER WARE, TV production supervisor, Duane Jones, to Scheideler, Beck & Werner, as television director.

REPRESENTATIVES of the H. J. Heinz Co. hold a final production meeting at WDTV (TV) Pittsburgh for the Heinz half-hour Friday segment of the popular cooking show, *Kay's Kitchen*. Heinz began sponsorship Aug. 10. L to r: Howard J. Forbes, WDTV account executive; Arthur Dimond, Heinz advertising manager; A. J. Adams, Heinz' head of production for advertising; Lila Jones, Heinz home economist; W. L. De Weese, production manager, Heinz sales division, and William Suitt, account executive with Maxon Adv., Detroit.

Obviously OUTSTANDING

Fundamental research in PEORIA made possible the commercial production of penicillin!

That's only one of many achievements of the Northern Regional Research Laboratory in Peoria. Established by the U. S. Dept. of Agriculture, the "lab" develops important industrial uses for cereal and oilseed crops of the North Central states . . . and agricultural residues of the entire nation. It's OBVIOUSLY OUTSTANDING!

WMBD Dominates the Rich Peoriarea Market

WALTER THURMAN, popular world newscaster. His 8 a.m. and 12 Noon newscasts attract more listeners than the next two Peoriarea stations COMBINED.

LOCAL ADVERTISERS KNOW IT! They must base their advertising expenditures on RESULTS . . . and in the highly competitive Peoria market, local retailers buy more program time by far on WMBD than on any other Peoriarea station. These advertisers get RESULTS! Over 21 of them have been on WMBD for more than 10 years . . . many for more than 20 years. **WMBD IS YOUR NO. 1 BUY IN THE MIDWEST'S NO. 1 TEST MARKET!**

5000 Watts

**TELEVISION'S ONLY
2 KW VHF
TRANSMITTER**

**IT'S ALL
AIR COOLED**

for 2 to 20 kilowatts ERP*

If you plan to start TV station operations with a modest equipment investment . . . and still be sure you get adequate signal coverage . . . this new "2 kw" is a logical, economical solution to your problem. Initial equipment expense is lower than that of most TV stations on the air today. And tube costs are low—because all the tubes are standard types.

Used with RCA's popular and inexpensive high-gain 3-section Super Turnstile Antenna, this transmitter produces 5 kilowatts ERP—at the lowest cost per radiated kilowatt in TV history. Used with RCA TV

antennas of higher gain, this transmitter provides up to 20 kw ERP!

Why not ask your RCA Broadcast Sales Specialist to help you with your planning. He can tell you precisely what you'll need to go on the air—and how to do it at lowest cost. Make use of his "know-how." Call him today.

ANNOUNCING—a 64-page book on RCA's new line of TV broadcast equipment for all channels, 2 to 83! An indispensable reference for station planning. Available only from your RCA Broadcast Sales Specialist.

*Effective radiated power

For any TV power to 200 KW—go RCA!

The heart of the "2 kw"—
the forced-air-cooled triode, RCA-5762

This service-proved triode features sturdy internal construction—and a very efficient plate radiator. The tube takes less than half the air flow previously needed for a tube having the same power-handling capability. And it's available through any RCA Tube Distributor!

feature of the week

AMERICAN LEGION and the Pennsylvania Assn. of Broadcasters have joined forces in a radio assault on Communism.

J. Norman Lodge, Legion public relations officer, hopes that other state broadcasters' associations will pick up the idea and that the assault will become nation-wide.

Mr. Lodge, veteran newspaperman and world traveler, has prepared a series entitled, *The Enemy We Face—World Communism*.

The series consists of 24 five-minute scripts which Mr. Lodge says are based on fact and not simply emotional propaganda. "Already," Mr. Lodge says, "43 Pennsylvania stations are carrying the programs and we hope that 25 more stations in Pennsylvania will air the series."

Subjects of the series cover religion, schools, sportsmanship, medicine and many other aspects of daily life.

Of the five minutes, 3½ are consumed by the narrative. Remaining 1½ minutes are open for plugs for the American Legion, the station, and the association.

As prepared now, a typical script would open like this:

"The American Legion through the cooperation of the Pennsylvania Assn. of Broadcasters now brings you the first in a series. . . ."

And close like this:

"This program has been brought to you by the American Legion and was prepared especially for Station XXXX."

The opening script, designed to be aired on a Monday, deals with religion. Its narrative begins:

Yesterday church bells rang in Pennsylvania.

People went to a church of their own choice.

In their own way they worshipped God,

But in the Soviet Union no church bells rang.

Mr. Lodge, 24 years with Associated Press and four times around the globe, knows enough to keep the language simple and the appeal direct.

"We could make these scripts suitable for any radio station in the country by simply changing a word here and there," he pointed out.

"We hope that this idea will spread across the country. We'll air mail these scripts to any station manager who requests them."

Mr. Lodge's office is in the new American Legion building at 1608 K St., N.W., Washington, D. C.

Mr. Lodge figures that the American Legion with a three million membership and its one million members of Auxiliary offer a loyal audience for radio stations to begin with.

17 OUT OF 18 PREFER WDAY, FARGO!

"To what radio station does your family listen most?" As part of an independent survey made by students at North Dakota Agricultural College, this question was asked of 3,969 farm families in 22 prosperous counties within 90 miles of Fargo. 74.6% of the families named WDAY: 4.4% said Station "B", 2.3% Station "C", 2.1% Station "D", and so on.

WDAY was a 17-to-1 choice over the next station . . . a 3 1/2-to-1 favorite over all other stations combined!

In Fargo's home county, WDAY was the first choice of 87.2% of the families, as against 5.8% for Station "B". *In its home county, WDAY was a whopping 15-to-1 choice over the next station . . . a 6 1/2-to-1 favorite over all other stations combined!*

BMB figures, Hoopers and mail-order returns all tell the same amazing story on WDAY and the rich Red River Valley. *Get all the facts. Write us direct, or ask Free & Peters!*

EDITOR:

It was a distinct pleasure to learn from an article on page 23 of your July 23 issue that Radio Free Asia has been formed for the purpose of fighting Communism in Asia.

The Bolinao Broadcasting System presently operates two standard broadcast stations and one shortwave station in the Philippines with an additional standard broadcast station to be added shortly. . . . If [Radio Free Asia] would care to avail themselves of our services in any way, we would be

delighted to help. We also are willing to offer our comprehensive facilities on a "no charge" basis if they can utilize them in the furtherance of their objectives.

Unfortunately, your article did not contain an address or we would have communicated directly with the Committee without troubling you.

James B. Lindenberg
President
Bolinao Broadcasting System
Manila, P.I.

[EDITOR'S NOTE: Radio Free Asia will operate under the jurisdiction of the Committee for a Free Asia, 245 California St., San Francisco.]

Voyage of Discovery

EDITOR:

I just got back from Nassau and I thought you might be interested . . . in ZNS, the Voice of the Bahamas, operated by the Telecommunications Dept., Nassau, Bahamas . . . I was very much surprised to find that this radio station, in a British colony, is commercially operated . . . has been operating commercially since Aug. 1, 1950. . .

It's All Greek

EDITOR:

The neon sign on Constitution square in the center of downtown Athens has given me such a bang I decided that you . . . ought to know about it.

Maybe you are an old fraternity

man and can read the words "Radio, RCA, Television."

It is typical of Greek spirit and optimism, for television is no nearer here than Vatican City.

Radio, however, is about the most advertised commodity in Greece, utilizing outdoor advertising for the job because there is little time sold on Greek broadcasting stations. Whitewashed walls of ancient vintage herald "RCA" and "Philco" along with English and German makes all over metropolitan Athens. I believe, however, that English makes have a slight edge on the others in number in use.

There are about 200,000 receiving sets in use in Greece, population some 8 million, which is pretty good considering the 100% import tax on such items and the lack of electric power in hundreds of villages. A listening tax of about 60 cents a month on each set goes to support the National Broadcasting Institute, a la BBC . . .

I keep up with things at home via your magazine, a month late.

Anthem in Chicago

EDITOR:

In your OPEN MIKE department of the Aug. 27 issue, R. B. McAlister of KICA Clovis, N. M., suggests all stations play the National Anthem at the same time each day, as a constant reminder of the American way of life.

We think that is a good idea, and WLS has already made a start in that direction. For the past 20 years, we have opened our *Dinnerbell* program broadcast each day, Monday through Friday, with the National Anthem played by a 20-piece studio orchestra.

For almost the same period of time, we have closed the *National Barn Dance* at midnight each Saturday with the entire cast, backed by the instrumentalists on that show, singing this revered selection.

Glenn Snyder
Manager
WLS Chicago

Survey* Shows **212,940 RADIO HOMES**
31,072 TV HOMES AND BUSINESSES

★ NOT "178,498 RADIO HOMES"
NOT "OVER 83,000 TV HOMES"
as claimed by Tulsa's TV Station

In an independent survey by Leslie Brooks & Associates, Research Consultants of Tulsa, Oklahoma, it was found that the Tulsa TV area, defined as the .1 MV area of Tulsa's single Television Station, has 212,940 radio homes and 31,072 Television Homes and Businesses as of July, 1951. This is in contrast to the Tulsa Television Station's claims in literature and in advertising of "178,498 radio homes" and "over 83,000 television sets" in the area. The survey was conducted in Tulsa and in 40 towns in the Tulsa TV area. A 3,416 interview sample was made, statistically valid within two percent.

\$1,000 REWARD!

DOT KIRBY WINS

Takes Women's Golf Title

DOROTHY KIRBY, member of the WSB-AM-TV Atlanta sales staff, won the Women's Amateur Golf Championship in St. Paul Aug. 25.

Miss Kirby

Winning of the title climaxed the links career of the 31-year-old golfing veteran who has been aiming toward the national championship for 17 years.

Miss Kirby said she plans play in the National Open tournament in Atlanta in September. "After that, no tournament golf for me," she said. She added that she definitely would not turn professional. "I've got a good job selling radio and television advertising for WSB in Atlanta and I intend to keep it."

Ad Council Aids Drive

ADVERTISING Council last week circulated a radio fact sheet on the Defense Bond drive to run from Sept. 3 to Oct. 27 with the theme: "Make Today Your D-Day—Buy United States Defense Bonds!" Council had endorsed this campaign as important to the public interest and the fact sheet points out salient arguments in favor of buying bonds, for use on the air.

WEEKDAY HOOPERS

Shreveport City Zone
8:00 A.M. to 12 Noon
March-April*

A quick glance at the chart above shows you that KWKH is tops in Shreveport Hooperatings—has steadily increased its superiority, year after year!

On Weekday Mornings in 1949, KWKH had 70.0% more Shreveport listeners than the next station. For the same period in 1950, we had 76.9% more listeners. In 1951, we had 157.7% more listeners!

Shreveport itself, however, accounts for only 11% of KWKH's audience. BMB Report No. 2 (Spring, 1949) gives KWKH a Daytime Audience in 87 Louisiana, Arkansas and Texas counties. KWKH's total Daytime BMB Audience is 303,230 families. 75.0% of these are "average daily KWKH listeners!"

BROADCASTING

TELECASTING

Vol. 41, No. 10

WASHINGTON, D. C., SEPTEMBER 3, 1951

\$7.00 A YEAR—25c A COPY

NETWORK AUTUMN OUTLOOK

Slight Drop From '50

FALL business on the nationwide radio networks this year will in the aggregate be slightly behind the combined volume of the four networks for the 1950 autumn season, if business signed in August of each year is a proper comparison.

Lists of network commercial programs to be broadcast this fall, furnished to BROADCASTING • TELECASTING last week by all four networks, show a total of 237 sponsored network shows this year as against 245 reported a year ago, a decline of 3.3%. A similar comparison of the amount of air time these programs will occupy shows the same 3.3% drop-off from last fall, when business signed in August totaled 194 hours, 42½ minutes a week, to this fall, when 188 hours, 12½ minutes of network time a week has been sold as of this date.

These figures cannot of course be taken as an absolute criterion that the networks this autumn will not quite match last year's level in business volume. In the first place, there is a lot of selling going to be attempted and some accomplished between Labor Day and the end of the fall season. Secondly, hours alone have little significance without the number of stations to be used for each program when it comes to translating the number of programs or hours into dollar volume. And on that score, it must be remembered that the 10% reduction in network rates put into effect in the summer means that it takes slightly more than 10% more network station hours this fall to return the same revenue as was recorded by the networks a year ago.

Comparison With '50

It is perhaps significant that gross time sale billings of the four networks for the first seven months of 1951 as reported by Publishers Information Bureau showed a 1.8% drop, but for the month of July the decrease amounted to 4.5%, the difference presumably in large part being due to the rate cut becoming effective July 1 [BROADCASTING • TELECASTING, Aug. 27].

Tabulation of number of sponsored programs and amount of commercial network time each week, analyzed network by network and comparing last fall with this, in accordance with business

signed in August of each year, follows:

Network	No. of Sponsored Programs		Amount of Sponsored Time	
	1950	1951	1950	1951
ABC	41	45	28:30	46:25
CBS	99	96	80:27½	72:40
MBS	31	29	20:00	20:07½
NBC	74	67	65:45	59:00
Total	245	237	194:42½	188:12½

ABC was the only network last week to report both more commercials and more sponsored hours for this fall than it had signed at

this time last year. Number of commercial programs is up 9.8%; sponsored time volume is up 27.8%.

Commenting on the outlook for ABC, Charles T. Ayers, vice president for the network's radio sales division, said:

Based on current activities, the outlook for fall business on the American Broadcasting Co. radio network is most encouraging. Recent radio network sales have included such outstanding advertisers as General Foods, for Instant Maxwell

Coffee; Bristol-Myers, Ralston Purina Co., Sterling Drug, Hazel Bishop Inc., Prudential Life Insurance Co.,sylvania Electric Products, Philip Morris & Co., Ltd., Serutan Co. and the Kellogg Co.

All of this new business will start on the ABC radio network this fall. We confidently expect that this continually expanding use of our network radio facilities by leading advertisers will be further increased as the fall season gets under way and that this year will see ABC with one of the strongest lineups of programs and sponsors that it has had.

Karol Optimistic

John J. Karol, vice president in charge of network sales, CBS Radio Division, was similarly optimistic about the outlook for the network, which on the August showing is down 3.0% in number of sponsored programs and 9.7% in amount of commercial time sold for fall, in comparison with last year. Mr. Karol said:

The fall season on CBS Radio will see an influx of advertisers new to network radio—clients who never before have used the medium for their advertising message. Among these are Kingan Meats, Bel-Tone, Soilax, Dr. Pepper's beverages, Morton Salt. More and more advertisers are beginning to realize that video still is not a national medium and that network radio still gives them more value per dollar in terms of circulation

ADVISORY BOARD

Congress To Probe Issues

THE BURNING question of a proposed radio-TV advisory board and its censorship implication will be aired on Capitol Hill this week.

Announcement of hearings came from Senate Majority Leader Ernest W. McFarland (D-Ariz.) on the heels of an FCC letter to Sen. Ed C. Johnson, chairman of the Senate Interstate & Foreign Commerce, stating the Commission has statutory authority to fix the percentage of broadcast time a commercial station must devote to educational programs.

Both issues since their injection into the Washington scene have been given top attention throughout the broadcast industry, at NARTB district meetings and in speeches by leading radio executives.

The first proposal—the creation of a National Citizens Advisory

Board for Radio and Television—burst upon the Congressional scene during a hearing by the McFarland Subcommittee last June [BROADCASTING • TELECASTING, June 11]. Its sponsor is Sen. William Benton (D-Conn.), who has wielded a big stick on behalf of educational institutions for additional TV reservations.

Benton Substitutes

Only a few weeks ago, Sen. Benton offered substitutes for his bill (S 1579) and resolution (S J Res 76) in the form of amendments [BROADCASTING • TELECASTING, Aug. 20]. It will be on these amendments that the subcommittee, made up of Chairman McFarland, and Sens. Johnson, Lester C. Hunt (D-Wyo.), Charles W. Tobey (R-N. H.) and Homer E. Capehart (R-Ind.), will hold hearings.

Sen. McFarland announced the

hearings would be held Wednesday and Thursday (Sept. 5-6), 10 a.m. in room G-16 in the Capitol.

Full list of witnesses has not been completed, but it is expected Sen. Benton and other supporters of his proposal will appear.

This is only the first phase of hearings. There will be others. The next sessions will be devoted to other interested parties, namely the FCC and industry spokesmen.

FCC Chairman Wayne Coy, who reportedly would have testified this week, will be unavailable as he is accompanying the President's party to San Francisco for the opening of the coast-to-coast TV hookup at the Japanese Treaty signing.

A secondary issue—that of fixed percentage of broadcast time for educational programming — also

(Continued on page 76)

DUANE JONES

Institutes Legal Action Against Ex-Employees

DUANE JONES, president and chairman of the board of Duane Jones Co., last week resigned his remaining accounts. At the same time he instituted a \$1 million suit against his former employees, among them Joseph Scheideler, Joseph Beck and Paul Werner, who have formed their own agency [BROADCASTING • TELECASTING, Aug. 27] and announced that he will retain his agency and subsequently will reveal his future plans.

Mr. Jones, who had originally formed the agency in 1942, is understood personally to have made approximately \$1 million from the package goods agency field. Although he did not announce it, it was understood that he probably would take a European trip before making any future plans.

Those accounts that did not go to the new agency and were resigned by Mr. Jones include the following: Mennen Co. (shave creams, skin bracer, talcum for men, cream hair oil), Marlin Firearms Co. (razor blades), Tetley Tea, McIlhenny's tobasco sauce; Bonomo turkish taffy candy and Kiwi shoe polish.

F. S. Dietrich, vice president, Mennen Co., told BROADCASTING • TELECASTING last Wednesday that Mr. Jones personally resigned the account. The new agency association for Mennen Co. probably will be made in about 10 days. Grey Adv. currently handles the baby products for Mennen.

Another account, Pharmaco Co., Newark, also is understood to be

HADACOL FIRM

Sold to N. Y. Foundation

SALE of the Hadacol company by Dudley J. LeBlanc to the Tobey-Maltz Memorial Foundation Inc., a private medical foundation, for \$8 million was confirmed Thursday.

The New York foundation—with plastic surgeon Dr. Maxwell Maltz as director—acquired capital stock in the LeBlanc Corp., Lafayette, La., for \$1 million in cash, with the remaining money to be paid in 10 yearly installments. It has leased the trademark to a new organization headed by New York Attorney Asher Lans, who will replace Mr. LeBlanc as president. Mr. LeBlanc, a state senator in Louisiana, will remain with the company under a 15-year contract for an annual salary of \$100,000.

The corporation will continue the manufacture of Hadacol, but plans to add new products and expand operations, Mr. Lans said. "There will be no change at the top level except for my replacing Mr. LeBlanc who will be sales manager, both nationally and internationally."

Mr. Lans would not reveal the terms under which his organization acquired the Hadacol rights, nor would he announce who his associates in the venture are.

Long known for amazingly lavish expenditures on all advertising media, the Hadacol company's advertising appropriation "will reach a record total" under its new management, Mr. Lans said.

shopping for a new agency and is expected to make a new affiliation within 10 days.

Resignation of the remaining accounts was made necessary, Mr. Jones said, by a "raid" on his employees that deprived him of 60 of his key personnel, making it impossible for him to service adequately his remaining clients.

Mr. Jones attributed this "raid" to the group, which he said, recently demanded his resignation, along with the sale to them of his business at their price, within 48 hours. They threatened to resign en masse and wreck the Jones business, Mr. Jones said, if he did not accept their offer.

"Much as I regret it," he said, "I am forced to suspend operations. The key personnel that resigned could not be replaced on short notice. In fairness to remaining clients, whose interests would suffer as a result of this mass resignation, I am releasing them from all obligation to the Duane Jones agency as of Sept. 30. I will go ahead with my damage suit for \$1 million, however, against the group that issued an ultimatum to me to sell them my business."

Eight employees were named by Mr. Jones [BROADCASTING • TELECASTING, Aug. 20] as part of that group. They are Robert Hayes, Don Gill, Lawrence Hubbard, Robert Hughes, Phillip Brooks, Messrs Beck, Werner and Scheideler.

Last Monday, Mr. Jones in a wire to newsmen stated:

Evidence now unfolding shows that I am the victim of a conspiracy carried out by a group of my employees

who were officers and stockholders in the Duane Jones Co. I am now starting suit against this group for \$1 million. Due to their piracy I have lost 50% of my business. Men that I hired and trusted as officers and account executives have pirated the accounts I paid them to represent. This practice has long been prevalent in the agency business and nobody has ever done anything about it. The thing that is happening to me can happen to any agency.

Therefore my battle to save my business is not merely an individual fight but one in which I shall wage an offensive for the entire advertising industry.

Meanwhile, the new agency, Scheideler, Beck & Werner, announced its officers and its address, 487 Park Ave., New York. Mr. Scheideler is president, Mr. Beck, vice president and treasurer, Mr. Werner, executive vice president.

Among the department heads at Duane Jones who earlier announced their moves to the new agency are Vera Brennen, radio head; Walter Ware, TV production supervisor; Robert Hughes, copy chief, and Anne Small, time buyer [see AGENCY BEAT].

The new agency's billing will be about \$5 million, with a nucleus of the following accounts: Manhattan Soap Co., which sponsors *One Man's Family* on 63 NBC-TV stations; Hudson Pulp & Paper Co., which underwrites *Bride & Groom*; the Borden Co., a spot advertiser; C. F. Mueller, a spot advertiser.

WSIX to Hollingbery

APPOINTMENT of George P. Hollingbery Co. as exclusive national representative for WSIX Nashville, was announced last week by Louis R. Draughon, acting general manager. The appointment became effective Sept. 1. WSIX, established in 1927, operates on 980 kc with 5 kw and is affiliated with ABC.

GRAY ELECTED

Named Goodwill V. P.

GORDON GRAY last week was elected a vice president of the Goodwill Stations, WJR Detroit, WGAR Cleveland and KMPC Hollywood. Mr. Gray's election took

Mr. Gray

place at a quarterly meeting of the board of directors meeting at WGAR on Aug. 29.

A former vice president of WIP Philadelphia, Mr. Gray recently had been placed in charge of the Goodwill's east-

ern sales office.

This week Mr. Gray is to open eastern offices at 665 Fifth Ave., New York. He will represent Goodwill Stations in selling and in servicing the eastern area.

Edward Petry & Co. will continue to serve as representative for WJR and WGAR. H-R Representatives will continue to handle the KMPC account, the announcement added.

Mr. Gray last week at WGAR was participating in sales clinic discussions. He had just returned from similar discussions at KMPC and at WJR.

'LADIES FAIR'

Sterling Drug Buys Series

SALE of *Ladies Fair* for five 25-minute periods a week for a full year to Sterling Drug spearheads Mutual's fall business outlook, Adolf N. Hult, MBS vice president in charge of sales, said last week. Other newcomers to the MBS sponsor list this fall include Murine, Capehart-Farnsworth, Wildroot and Toni, he said.

On the program front, William H. Fineshriber, vice president in charge of programs, said: "Mutual will continue to place emphasis upon shows in the drama, music and news categories—three types of programming in which we feel radio is eminently successful. We shall also carry an impressive schedule of sportscasts, including our 13th exclusive radio coverage of the 1951 World Series, followed by a sequence of the nation's top college football contests."

The 5-6 p.m. period will continue as the children's hour on Mutual, Mr. Fineshriber said. He also announced that at least two major symphony orchestras will be aired by MBS on a regular schedule this fall. Five-minute news summaries will be broadcast hourly from 9:25 a.m. to 4:25 p.m. each weekday, he said, most of them sponsored. The number of sponsored news programs on MBS has increased 69% in the past year. As a prelude to next year's Presidential race, MBS is readying a public affairs show, Mr. Fineshriber reported.

Drawn for BROADCASTING • TELECASTING by Sid Hix

"It's an offer from a deep freeze company to sponsor broadcasts of the 1952 convention!"

ABC-UPT MERGER ISSUES

FCC Spells Out Questions

MERGER OF ABC and United Paramount Theatres Inc. was consolidated by the FCC last week into the already scheduled (but still undated) Paramount Pictures Corp. hearing [BROADCASTING • TELECASTING, Aug. 20, 13].

Issues on the merger applications run the gamut from the relationship of the officers and directors of United Paramount Theatres to the government's 10-year-long anti-trust motion picture case to how the new American Broadcasting Co.-Paramount Theatres Inc. intends to treat its radio-TV properties and its exhibition business.

None of the issues caused any surprise to the principals. It was apparent they were exactly what had been expected.

Fact that the Commission did not set any date for the consolidated hearing has caused some concern to the parties involved. They fear that it may be winter before the FCC hears their story and perhaps well into 1952 before a decision is handed down.

June 1953 Deadline

Agreement between ABC and United Paramount has a June 1953 cut-off date. None of the principals believe that it will not be extended if necessary.

It was apparent also that CBS is going to have a long wait before it can take over WBKB (TV) Chicago. Part of the merger deal involves the sale of the Balaban & Katz TV outlet to CBS for \$6 million. This is because ABC owns WENR-TV in Chicago, and FCC rules prohibit the same company from owning more than one facility in the same community.

Significance of last week's Commission action in consolidating the ABC-UPT merger with the Paramount Pictures hearings is this:

United Paramount is going to have to convince the seven Commissioners that (1) there is actual divorce between the two Paramount companies, (2) that principals in UPT should not be tarred with the anti-trust brush that may be applied to the producing company, and (3) that UPT has no intention of making the radio-TV properties subsidiary to the operation of its movie theatres—in product, talent or story property.

Pointing to some of the questions in the FCC's mind was Comr. Jones' dissent to consolidating the merger applications with the Paramount hearings.

"... We should not even think of hearing on the merger until such time as we have decided Paramount has anything to transfer," he concludes.

Action was taken by Comrs. Coy, Walker, Hyde and Webster on Aug. 27. Comrs. Sterling and Henlock were not present.

Aside from the more obvious issues—anti-trust violations and the character qualifications of the principals of the new American

Broadcasting-Paramount Theatres Inc., possible monopoly, etc.—the FCC wants to know whether the new company:

- Proposes to engage in theatre-TV "to the exclusion of other outlets."

- Proposes to restrict the use of motion picture films, stories or talent on broadcast stations.

Paramount Pictures hearing, set by the FCC in Aug. 8 order [BROADCASTING • TELECASTING, Aug. 13], is the first case to come under Commission scrutiny following its March anti-trust decision to act on a case-by-case basis [BROADCASTING • TELECASTING, April 2].

In addition to the anti-trust implications, that hearing also is scheduled to take up:

(1) Paramount Pictures' "control" of Allen B. DuMont Laboratories. DuMont owns and operates WABD (TV) New York, WTTG (TV) Washington, WDTV (TV) Pittsburgh and the DuMont Television Network.

(2) Legality of the transfer of the following stations from the parent Paramount Pictures Corp. to the production-only Paramount Pictures Inc: KTLA (TV) Los Angeles and WBKB (TV) Chicago.

(3) License applications for the above stations as well as for FM station WBIK Chicago.

(4) Transfer of "negative" control of WSMB-AM-FM New Orleans from Paramount Pictures Corp.

All-embracing issues in the Paramount hearing have made many observers consider this as important in FCC annals as the 1941-44 newspaper ownership fight.

That issue was resolved by the FCC when it decided that no

blanket policy should be invoked, but that newspaper ownership should be considered among other factors in contested hearings.

Comr. Jones' attitude—and probably the thinking of others on the Commission—may be surmised from this extract from his dissent:

"... Substantially the same key officers were highly placed in Paramount Pictures Inc. . . over a wide span of years, during which courts have characterized these corporations' business practices as: 'willful,' 'unreasonable,' 'unfair,' 'discriminatory,' and 'predatory.'"

Mr. Jones wants a complete study made of the individuals concerned and then a determination by the FCC whether the activities of the officers and directors disqualify them from holding broadcast licenses.

"... it is clear," he says, "that (1) the merger applications of American Broadcasting Co. and United Paramount Theatres and (2) the subsequent transfer of control of WBKB Chicago to Columbia Broadcasting System Inc., two steps and three steps, respectively, removed from prerequisite determination in the order adopted by the Commission Aug. 8, might well become moot."

Jones Dubious

Highly complicated factors in the merger of ABC and UPT also perturb Mr. Jones and makes him dubious about the advisability of consolidating both hearings.

Not only is the question of business practices involved, the Ohio Commissioner states, but also questions of (1) concurrent operation of broadcasting and theatre-TV in the same areas, (2) effect of owning and operating motion picture theatres and radio-TV facili-

ties in particular areas and on a regional and national scale, and (3) monopoly issues raised by the common ownership of broadcast and theatre facilities.

Issues concerning the merger are spelled out by the FCC as follows:

1. To obtain full information with respect to the participation of any of the applicants, their officers, directors, stockholders, employees, or agents, in any violations of either Federal or State anti-trust laws, the extent and character of such participation, and the results of any litigation flowing from such participation and more specifically to secure information as to:

- Whether the violations committed were wilful or inadvertent.
- Whether the violations were committed over a long period of time or, in terms of time, were isolated events.
- Whether the violations were recent.
- Whether the violations also constituted violations of Sections 311 and 313 of the Communications Act.

2. To obtain full information with respect to the properties to be received by American Broadcasting-Paramount Theatres Inc., and Columbia Broadcasting System Inc., the considerations to be paid therefor and the terms of such payment, and, in the event no monetary consideration is to be paid, the terms of the transaction resulting in the acquisition by the transferees of the properties in question.

3. To obtain full information with respect to the corporate structure of American Broadcasting-Paramount Theatres Inc., and with respect to the legal, technical, financial and other qualifications of its officers, directors and stockholders.

4. To determine the policies to be pursued by American Broadcasting-Paramount Theatres Inc. with respect to the transferees of the properties.
(Continued on page 70)

TOP RETAIL SELLER

RADIO advertising has been found superior to newspapers in selling women's wear, men's wear and furniture-appliance merchandise, according to an analysis of 50 surveys conducted by Advertising Research Bureau Inc.

Breakdown of the 50 ARBI studies covering these products is in preparation at Broadcast Advertising Bureau and will soon be published under the title, "Count Your Customers," according to William B. Ryan, BAB president.

One of the problems facing both radio and newspapers, Mr. Ryan observed at the NARTB District 4 meeting held Aug. 23-24 at Roanoke, Va., is that many retailers don't believe the majority of their business comes from advertising.

"We must show the retailer that radio is a selling medium," Mr. Ryan said. He cited figures from ARBI studies showing that 68.5% of customers knew about an item

by hearing it advertised on the air or reading about it in newspapers; 73.3% of persons who bought the test item came into the store as a result of advertising.

Lee Hart, BAB assistant director, said the ARBI studies may be the springboard for a continuing test of the effectiveness of radio advertising.

In breaking down 50 ARBI studies by three types of products, Miss Hart found that radio out-pulled newspapers in women's wear, men's wear and consumer durables from the standpoint of traffic produced.

Radio topped newspapers in percentage of traffic purchasing women's wear and consumer durables, she found, but ran a shade under newspapers with men's wear.

Miss Hart's breakdown shows that radio far outstripped newspapers in percentage of dollar sales in all three types of products.

Radio Outstrips Papers

Breakdown of 50 ARBI studies by three types of products follows:

Results of 23 ARBI surveys covering women's wear and accessories:

	Newspapers	Radio	Both
% Total Traffic	24.8	30.9	10.8
% Traffic Purchasing	52.1	66.1	58.6
% Dollar Sales	26.2	32.7	12.6

Results of five surveys covering men's wear:

	Newspapers	Radio	Both
% Total Traffic	18.4	39.1	7.9
% Traffic Purchasing	80.3	77.6	84.9
% Dollar Sales	18.9	41.1	7.5

Results of 22 surveys covering furniture, appliances and homewares:

	Newspapers	Radio	Both
% Total Traffic	25.4	35.9	10.0
% Traffic Purchasing	44.9	45.0	49.1
% Dollar Sales	28.4	37.0	11.3

IOWANS PROTEST

Radio Hits Censorship

BROADCASTER resentment against censorship actions of public and educational personnel in Iowa reached a peak last week as two formal protests rested on the desk of Gov. William S. Beardsley.

Back of the protests were refusal of the State Board of Appeals to permit recording of a public hearing and censorship of sportscasting by a high school athletic official. The latter incident led recently to formation of the Iowa Broadcasters Assn. with William B. Quarton, WMT Cedar Rapids, president; Edward Breen, KVFD Fort Dodge, vice president, and George Volger, KWPC Muscatine, secretary-treasurer.

The association also plans to introduce a bill at the next session of the Legislature requiring state boards to allow use of radio and press facilities at public hearings.

Both IBA and the Iowa Tall Corn Network have protested discriminatory action by Iowa High School Athletic Assn. in barring Al Coupee, of KRNT Des Moines, from describing a track meet over WOITV Ames.

Fort Dodge Incident

The protest against denial of recording rights grew out of a public hearing held in Fort Dodge. Mr. Breen and a recording crew set up microphones to record proceedings but the state board refused to permit the pickup.

IBA has adopted a declaration of news and sports policy pledging joint action to protect basic freedoms and denying that any group has the right to bar any broadcaster from a public or semi-public event merely because past broadcasts might have been displeasing to the group or some of its members.

The association will resist censorship in the courts, if necessary. An IBA committee will be formed to hear complaints about any broadcast and meet with the station affected as well as those who make complaints in an effort to reach a solution.

The censorship attempts will be discussed by IBA officers and the Iowa High School Athletic Assn. some time this month.

Children's Wear

RADIO salesmen have this year "the best selling opportunity yet offered in the infants' and children's wear field," according to *Radio Sales with Primer People*, 25-page retail information folder mailed last week to member stations by BAB. Booklet is filled with information on the juvenile market, with statistics on the nation's child population, department store sales of infants' and children's wear, etc., with data on the influence of children in selecting their apparel and with other sales helps.

NARTB District 4 Resolutions

PROTECTION of the basic rights of broadcasters and telecasters from inroads of public agencies and from tactics harmful to economic stability provided the theme for resolutions adopted at the first of NARTB's annual series of 17 district meetings. Opening session of the series was held Aug. 23-24 at Roanoke, Va. [BROADCASTING • TELECASTING, Aug. 27].

One resolution was aimed directly at the plan of Sen. William Benton (D-Conn.) to set up a national citizens board to review programs. A second resolution was directed particularly at rate-cutting. A third pledged broadcaster cooperation with the government in the present defense crisis.

Texts of the three resolutions follow:

WHEREAS, Sen. William Benton (D-Conn.) has introduced legislation (S. 1579 as amended and S. J. Res. 76 as amended) which would establish a National Citizens Advisory Board for Radio & Television, restrict the period of television station licenses to one year, and urge the FCC to encourage the development of subscription broadcasting; and

WHEREAS, the National Citizens Advisory Board would in effect function as a board of review over programming on commercial radio and television stations and submit advice to the FCC regarding this subject; and

WHEREAS, Sen. Benton himself has testified that he believes such an advisory board should issue reports not unlike the infamous "Blue Book" published by the FCC in 1946; and

WHEREAS, although the function of such a board would be "advisory," the practical fact is that its suggestions would carry compelling weight with the FCC and indeed would amount to virtual directives to guide the FCC in determining the eligibility of applicants for grants or license renewals; and

WHEREAS, such legislation would create a high-level body having all the attributes of censors, in derogation of the Constitution of the United States;

NOW, THEREFORE, BE IT RESOLVED, That the members of District 4 of the NARTB, in convention assembled, do hereby declare their unanimous opposition to the measures proposed by Sen. Benton; and

BE IT FURTHER RESOLVED, That the members of District 4 do direct that copies of this resolution be forwarded to the chairmen of the Senate and House Interstate & Foreign Commerce Committees, the Senators and Congressmen of the 4th NARTB district, and to all District Directors of NARTB.

* * *

WHEREAS, radio under the American System of free, competitive enterprise, has demonstrated itself to be the most effective means of mass communications ever devised; and

WHEREAS, radio set ownership has attained the unprecedented height of 95% of American homes, urban and rural; aside from automobiles and other out-of-home ownership; and

WHEREAS, radio, since its advent in 1920, has become an indispensable part of the American way of life; with the average individual devoting more than five hours per day to radio;

NOW, THEREFORE, BE IT RESOLVED, That the members of the Fourth District of the NARTB, in annual meeting assembled, do hereby condemn any action, whether it be rate reduction; impingement upon time segments heretofore recognized as within the province of the individual station, or introduction of practices which tend to dislocate program structures, or any other acts which depreciate the value of radio as an advertising and public service medium; and

BE IT FURTHER RESOLVED, That the members of the Fourth District of NARTB, recognize the desirability of national program service, whether network or non-network, but desire to impress upon all sources of program supply the necessity of stations maintaining an economic stability, and an equitable balance of program service which will enable them to meet the public interest requirements of their respective service areas and continue to function as the backbone of the broadcasting industry.

* * *

RESOLVED: That the members of the Fourth District of the NARTB pledge all-out cooperation to their nation in the promotion of peace, and, if need be, in the prosecution of war, to the end that Government of the people, by the people and for the people shall not perish from this earth.

WBML Macon, Ga., has contracted to affiliate with NBC, effective Sept. 30. Present at the signing were these WBML officials (l to r): E. G. McKenzie, vice president; Ernest Black (seated), president, and Charles W. Pittman, general manager.

ABA REQUEST

Disregarded by Commissioner

DESPITE protest of the Arkansas Broadcasters Assn., State Bank Commissioner Ed I. McKinley has refused to withdraw his request to small loan companies for their radio and direct mail advertising.

ABA had adopted a resolution at its Aug. 6 meeting denouncing the commissioner's policy as an invasion of radio rights "both as to free enterprise and the right of free speech." ABA had contended the policy would be an invitation to other state agencies to make similar requests for advance copies of advertising material.

Mr. McKinley was quoted in press reports as saying he believed a 1951 state law, broadening powers of the Bank Dept., gave him authority to request radio advertising from radio stations. The request to loan companies was verbal, he said, adding that he didn't ask for newspaper copy since the newspapers themselves provided an easy way of checking such advertising.

Storm Whaley, secretary of ABA, said the association has not received a reply from the commissioner. ABA members felt the policy was "discriminatory." The requests for radio copy were not made to stations but to the banks.

TECHNICAL HELP

Wilson Asks Industry Aid

DEFENSE Mobilizer Charles Wilson last week called on industry, government and educational institutions to take affirmative steps to meet the "serious shortage of scientifically and technically trained personnel."

He asked industry to make the most effective use of already trained personnel, and to develop job training programs on a cooperative basis which will result in employed persons receiving such experience. "This must be done if our defense program is to succeed," Mr. Wilson added, noting that the supply of engineering graduates in 1951 is less than half needed to man economic and defense programs.

ATLANTIC CITY STORY

ADVERTISING history is being made every day a short distance off the boardwalks at Atlantic City.

The largest store in the seaside metropolis, and in all of Southern New Jersey—33-year-old M. E. Blatt Co.—has discovered that it can:

- Live without newspapers.
- Live better than ever before by using radio instead.
- Sell all types of merchandise by radio.

Not a single line of daily newspaper advertising has been used by Blatt's since July 1. At that time the store pulled out of its familiar page 3 position in the morning *Press* and afternoon *Union* because they raised the rates 20%.

For more years than most advertising folk can remember, Blatt's store had been the largest newspaper advertiser in the city.

It had played around with radio now and then but hadn't used the medium as a basic means of selling goods.

And then came the July 1 decision, an action that admittedly furrowed the brows of President-Owner Blatt and Murray Klahr, advertising director of this major merchandising enterprise.

"How's your business since July 1?" Mr. Klahr was asked.

"Very good, in fact extremely good," he replied. "Our sales increased in July and they're still going up in August. So far we're doing very well."

That trend developed during a nine-week period in which daily newspapers have been laid aside for heavy use of broadcasting plus a shopping news type of circular and expanded direct mail.

After nine weeks how does Mr. Klahr feel about radio?

"Our thinking about broadcasting has changed," he said. "For a long time we experimented. The radio people tried to show us where we were wrong. Now we're doing it their way, and it really works."

Basic for Stores

How about radio as a primary advertising medium for department stores?

"We've found that radio can do the basic advertising job," Mr. Klahr said. "We've finally learned how to use radio successfully."

Having made the switch from newspapers to broadcast time, Blatt's officials are watching store figures more closely than ever before. They're watching the specific items that are promoted on the air and they're watching what happens when customer contacts clerk.

"We're making a study of each product advertised on the air," Mr. Klahr observed. "We're weighing the results, trying to put our fingers on what type of copy is most effective and how successful we are with each item."

"Naturally we're gratified when

people come into the store to ask for an item advertised on the air and we're studying our sales carefully since turning to radio as our primary medium."

This question was then submitted to Mr. Klahr: "What types of products can you sell most successfully by radio?"

His answer: "We haven't found a single case in which radio was not effective."

Blatt's advertising schedule currently includes three stations. The two-year-old co-op *MGM Theatre* hour on WFPG Atlantic City is being continued. Besides that series, Blatt's is using a news saturation schedule on WFPG. This includes eight five-minute newscasts a day, seven days a week. As in the case of the theatre hour, item copy is featured. The results are checked and there are some honeys on the list.

Many Radio Successes

Offhand Mr. Klahr recalled a promotion for garment bags that was "a tremendous success." Another item was insect repellent. And there are plenty more.

Fred Weber, president of WFPG, added a significant observation. "The Blatt's departments are now asking that their items be advertised on the air," he said. Every advertising manager and every media salesman knows that the department head is close to the clerk and close to the customer's desires.

The Blatt's schedule includes 10 to 15 spots every day on WMID Atlantic City plus announcements on a women's program. The sched-

Radio Sells Best

ule on WOND in nearby Pleasantville is about the same as WMID's.

In typical Blatt's fashion there are signs all over the big eight-story building showing microphones and call letters. The signs urge listeners to tune to the three stations. Special display windows show radio-advertised items.

The stations, in turn, are cooperating with the store with promotional aids, according to Mr. Klahr.

Blatt's tabloid, a promotional device of past years, was revived in July when newspapers were dropped. The 12-page circular has been issued twice a month but the schedule in September calls for three issues. Circulation is 70,000. Across the bottom of every page is a different radio message, calling attention to specific Blatt's broadcasts on the three stations.

Coverage via the tabloids is double the coverage provided by newspapers, Mr. Klahr said.

Is the radio-shopping news arrangement permanent?

Mr. Klahr isn't saying what the store will do, but the chances are that he is keeping in touch with the *Press-Union* people. Blatt's had enjoyed that choice page 3 spot for years and years. Then when the papers absorbed the competing *Tribune* and abandoned it, a 20% rate increase was imposed.

That didn't sit well with the Blatt's people. With courage characteristic of their 33-year career, they departed from traditional retailer reliance on newspapers and turned to radio. There's still a little weekly newspaper white space in the Blatt's advertising budget,

which is running along at the same level.

Most important, M. E. Blatt Co. has discovered radio. It has learned how to move merchandise by utilizing the compelling power of the spoken word. It has learned that the ear can be mightier than the eye when a persuasive message is properly directed at prospective buyers.

FOOTBALL RIGHTS

KPAC in Unusual Pact

ONE solution to the problem of payment for privileges to high school football broadcasts has been reported by KPAC Port Arthur, Tex., an MBS outlet owned by Port Arthur College. Station announced an agreement with the local board of education, which is buying time at regular commercial rates to produce and supervise the broadcasts.

KPAC said the two Port Arthur stations—the other presumably being KOLE—previously had rejected offers by the board to carry the games sustaining or to pay \$62.50 per game, to be split between each outlet, for broadcast rights. Stations held that adding such charges to already high expenses for football broadcasts made it difficult to obtain sponsors and meet expenses, KPAC said.

In rejecting the board's offer, each station suggested that it would permit the school group to buy time at regular commercial rates and produce its own broadcasts. The board accepted and now hires the announcers and other personnel, makes arrangements for a sponsor and produces and supervises the broadcasts.

KROGER SPOT DRIVE Intense Campaign Set

ONE of the largest spot campaigns in radio history will get under way Sept. 24 when Kroger Co., third largest food chain in the nation, switches from transcribed radio serials to announcements, according to Ralph H. Jones Co., Cincinnati.

The agency is compiling an enlarged radio station list for the spot drive. The change in Kroger radio policy is described as long-range, and not a 13-week or 26-week experiment. Advertising director of the Kroger chain is William J. Sanning.

Long a heavy radio buyer in its Midwest area, Kroger also will resume its Alan Young television program Sept. 17 using kinescope on 17 CBS TV outlets.

Three teams from the Jones agency and Kroger headquarters will set out tomorrow (Sept. 4) on a tour of the Kroger marketing area. They will cover outlets all over the region, describing the new radio policy and working out merchandising aids.

Final details of the spot series

will be announced in mid-September after the teams have completed the circuit, extending from Wichita to Roanoke, Va., and from Madison, Wis., to Pittsburgh.

Kroger's 1951 radio-TV budget is believed to be about the same as the former radio budget, which was based on three five-a-week transcribed serials. Radio will use something over a third of the electronic budget, the rest going to the costly TV series. Radio expenditures will still be heavy but not as high as those prior to Kroger's first use of TV in 1950.

Fall Sales Tie-in

The radio announcements will be tied into the annual series of fall sales staged by Kroger stores. Announcements will be both live and transcribed and will cover the whole range of Kroger items. Commercials on the TV program will be devoted to Kroger coffee and Tenderay meat.

Station list for the radio campaign will be greatly enlarged over the 25 to 30 stations used for se-

rials in past years.

With the mid-September program Kroger will wind up *Corliss Archer*, summer replacement for the Alan Young TV show and co-sponsored by Esso in the east.

Kroger's current radio program, *Share the Wealth*, winds up Sept. 7. This schedule has been handled in recent months by Ruthrauff & Ryan, Cincinnati, only instance in which Kroger radio advertising has not been placed through Ralph H. Jones Co.

The big food chain first used radio on a big scale in 1935 when it started *Linda's First Love*, five-a-week transcribed serial, for Kroger coffee on 26 midwestern stations. The serial was heard at different hours in each city until it was abandoned in 1950.

In 1937 Kroger added a second transcribed serial, *Mary Foster, the Editor's Daughter*. Bread and other baked goods were advertised. A third serial, *Hearts in Harmony*, was added in 1939, promoting Tenderay meat, and the three serials ran side-by-side until last year.

A HAPPY RIDE FOR ADVERTISERS

FOR MORE than 15 years, *The Midday Merry-Go-Round* has been spinning six days a week on WNOX Knoxville, to the happy cries of sponsors and the constant clank of coin.

There are no brass rings on the WNOX carousel. Everybody pays for his ride.

In the more than 15 years of its production, more than two million people have paid admission charges to see the program in the studio. The present charge is 50 cents.

Three sponsors still participating on the show have been steady advertisers for more than 10 years. Half a dozen others are regulars of more than six years' standing.

More than a million listeners have written letters to the program and its talent. The devotion which the show commands from its audience is unique. One expiring listener on his deathbed sent an urgent message to Lowell Blanchard, the *Merry-Go-Round* m.c.

"Tell Lowell I said goodbye and good luck," were the dying man's last words.

THE *Midday Merry-Go-Round* was set in motion in January 1936 in a small studio located in the Andrew Jackson hotel. The show began to attract such large audiences that the hotel management firmly suggested it should be taken elsewhere. The program was moved to a sports arena for several weeks and then to the City Market Hall where a 5 cent admission charge was instituted in an effort to keep down the crowds.

In May, 1936, WNOX acquired its own five-story building and made the first floor into a 600-seat auditorium for *Merry-Go-Round*. Admission was increased to a dime, but the audience kept coming. It is still jamming the place despite successive price hikes that have boosted the admission to 50 cents.

The Merry-Go-Round is a hill-billy-variety show whose master of ceremonies, Mr. Blanchard, trained for his rustic assignment in such backwoods as the U. of Illinois and Detroit radio. It was after he was hired by WNOX that he acquired a passable mountain-man dialect and began presiding over the program.

Mr. Blanchard, the recipient of the dying fan's last words, is not alone among the program's performers in receiving acknowledgment from listeners.

Carl Story averages 3,000 letters and cards a week, some of them

unusual in the extreme. One woman advised him by post that her mother had been hospitalized in a coma for days, unresponsive to the best efforts of physicians or the loving words of friends or kin. It was not until a nearby radio was tuned to *Merry-Go-Round* and Mr. Story sang a song that she was restored to consciousness.

BILL CARLISLE, who plays Hotshot Elmer on the show, once complained on the air that although it was leap year, no female had thrown herself at his feet or indeed even cast a second look at him. In days he received 2,213 proposals.

The program frequently intercedes in charitable fund-raising appeals, usually with spectacular results. In a recent polio fund drive, only pennies were accepted. A total of 400,000 came in.

A show with such proven audience is bound to attract sponsors, and *Merry-Go-Round* has.

Fielden's, a local furniture store,

TWO MILLION PEOPLE have paid their way to see *The Midday Merry-Go-Round* in a 15-year whirl on WNOX Knoxville, and uncounted millions more have heard it on the air.

AND THERE'S A WAITING LINE of audience and sponsors for a radio show that is a Tennessee phenomenon.

has sponsored an announcement daily on the Monday-Saturday, 12:10-1:45 p.m., show for 15 years.

Swan's Bakery has advertised daily for more than 12 years. The Martin Rosenberger Wallpaper Co. has promoted its wallpaper and paints on the program for an equal time.

Other long-time accounts include B. C. Headache Tablets, the Cas Walker grocery chain, the Tennessee Beauty Shop and School, the Kerr Motor Co. (Dodge and Plymouth dealer), and Scalf's Indian River Medicine Co.

There's a perpetual waiting list for sponsorship availabilities.

The Midday Merry-Go-Round has been the professional birthplace of several stars now prominent in

hillbilly entertainment. Roy Acuff started his career at the outset of the program. Others who are now celebrated among hillbilly fanciers throughout the country are Homer 'n' Jethro, the Carter Sisters, Smiling Eddie Hill and Cowboy Copas.

The present cast includes Messrs. Blanchard, Story and Carlisle, Charlie Monroe, Don Gibson, Martha Carson, Salty and Mattie Homes, Jack Shelton and the Greene County Boys, the McNally Sisters, Claude Boone, the Arkansas Travelers and Rondelle, a female ventriloquist.

Judging by its more than 15 years of giddy spinning, it's safe to bet that there's very little chance the WNOX *Merry-Go-Round* will ever run down.

Here's a typical crowd waiting to get into a performance of *The Midday Merry-Go-Round* which regularly plays to standing room only.

OPERATING DATA

NARTB Reports by Income

OPERATING expenses at broadcast stations in 1950 were highest for stations with an annual income between \$100,000-\$125,000 and lowest in the \$350,000-\$1,000,000 bracket, according to the annual operating cost studies compiled by NARTB and supplied delegates at district meetings.

Cost data for stations were prepared and analyzed by Richard P. Doherty, NARTB employe-employer relations director, with research handled by Dr. Kenneth H. Baker, research director. They found that the number of stations operating at a loss in 1950 was well below 1949 despite TV's impact [BROADCASTING • TELECASTING, Aug. 27].

Ranking next to the top in the operating cost study was the below-\$50,000 group of stations. In general, stations under \$200,000 income had a higher ratio of operating costs in comparison to high-income stations.

Average cost for all stations was 84.40% of broadcast revenue, ranging from 88.65% for the \$100,000-\$125,000 group to 74.42% in the case of \$350,000-\$1,000,000 stations.

Highest item in the breakdown of 1950 expenditures was general and administrative, including salaries, rent, taxes, losses, depreciation, etc. This class consumed 30%

NEW RTMA UNITS

Cover Sports, Statistics

TWO committees, covering sports broadcasting and industry statistics, have been named by Radio-Television Mfrs. Assn. John W. Craig, Crosley Division, chairman of the RTMA Set Division, reappointed J. B. Elliott, RCA Victor Division, as chairman of the Sports Broadcasting Committee.

Serving on the sports group with Chairman Elliott are A. A. Brandt, General Electric Co.; L. F. Cramer, Allen B. DuMont Labs; H. L. Hoffman, Hoffman Radio Corp.; John F. Gilligan, Philco Corp.; William H. Kelley, Motorola Inc., and L. C. Truesdell, Zenith Radio Corp.

The committee was formed to promote better relations between the radio-television industry and organized sports groups, both collegiate and professional.

Robert C. Sprague, Sprague Electric Co., RTMA board chairman, reappointed Frank W. Mansfield, Sylvania Electric Products, as chairman of the Industry Statistics Committee. This group supervises compilation of data on radio-TV production. Other members are E. C. Anderson, RCA Labs. Division; George A. Biese, Crosley Division; H. W. Clough, Belden Mfg. Co.; C. J. Hassard, Bendix Radio Division; F. A. Lyman, Allen B. DuMont Labs; George McCleary, RCA Victor Division; Edwin B. Pease, Philco Corp.; A. G. Schifino, Stromberg-Carlson Co.; W. M. Skillman, General Electric Co.

OPERATING COST BREAKDOWN, 1950

Percent of Broadcast Revenue

	Technical	Program	Selling	General Admin.*	Total Operating Expenses
Below \$50,000	19.60%	29.42%	10.02%	29.15%	88.19%
\$50,000-\$75,000	15.69	30.00	11.00	30.20	86.89
\$75,000-\$100,000	14.08	29.34	12.29	31.48	87.19
\$100,000-\$125,000	13.73	28.29	13.70	32.93	88.65
\$125,000-\$150,000	13.46	28.43	12.92	30.70	85.51
\$150,000-\$200,000	13.40	27.42	13.21	31.60	85.63
\$200,000-\$350,000	13.96	26.60	12.89	28.61	82.06
\$350,000-\$1,000,000	13.24	25.00	10.62	25.56	74.42
Over \$1,000,000	11.88	29.86	9.23	23.78	74.75

* Includes salaries, rent, taxes, losses, depreciation and other expenses.

of average station revenue.

Close behind was the program item, 28.02%. It includes salaries, talent, royalties, transcriptions, wire service, news service, teletype and other expenses.

Technical expenses consumed 14.21% of broadcast revenue. Selling expenses are at the bottom of the list, taking 12.17% of average station revenue.

Cost Breakdown

In breaking down labor costs, Mr. Doherty found that salaries, wages and other compensation took 48.63% of the broadcasting dollar, or 57.58% of total operating expense.

The study shows that 13.83% of the 1950 broadcast dollar went to program salaries, with 11.83% to general-administrative, 10.95% to technical, 8.74% to selling and

3.28% to talent compensation.

Percentage of general-administrative salaries ranged from 13.50% for stations in the \$100,000-\$125,000 group to 8.07% for stations over \$1 million.

In the case of selling salaries, the percentage of broadcast dollar ranged from 10.32% for \$100,000-\$125,000 stations to 4.71% for stations over \$1 million.

Program salaries were highest, 15.19%, for \$100,000-\$125,000 stations, and lowest, 9.19%, for stations over \$1 million.

Average Income

Technical salaries ranged from 15.58% of the broadcast dollar for stations below \$50,000 down to 9.32% for stations over \$1 million. Talent payments varied all the way from 1.20% of the broadcast dollar at stations under \$50,000 to

13.75% at stations over \$1 million.

Average income of radio stations rose from 1949 to 1950 at local and regional stations, according to the Doherty analysis, but declined at clear-channel stations. At the same time station operating costs continued to rise.

Average income of local stations rose from \$101,854 in 1949 to \$109,279 in 1950; regional stations, \$229,574 in 1949 to \$279,681 in 1950; clear-channel stations, down from \$96,122 in 1949 to \$904,896 in 1950.

A geographical breakdown of stations by average income in 1950 shows that local stations had the highest 1950 income in the North Central area, averaging \$124,054, compared to \$92,232 in the South Central area.

Regional stations enjoyed highest average income, \$349,554, in the Northeast with lowest income in the Mountain-Pacific area where it averaged \$221,385.

Clear stations had the highest income in the Northeast, averaging \$1,360,943 compared to \$590,654 in the South Central area.

Eight Join NARTB

EIGHT new member stations have signed with NARTB in the last fortnight, according to Jack Hardesty, NARTB station relations director. Several joined during the NARTB District 4 meeting at Roanoke, Va. The new members are WEXL and WOMC (FM) Royal Oak, Mich.; WFMC Goldsboro, N. C.; WHED Washington, N. C.; WINC and WRFL (FM) Winchester, Va.; WJNC Jacksonville, N. C.; WNGO Mayfield, Ky.

PEACE TREATY Radio-TV Networks Map Special Coverage

NO SPONSORS had signed up late last week for special radio-television coverage of the Japanese Peace Treaty Conference although all major networks were busy scheduling extra airtime for the event. Apathy was attributed to nature of the conference itself.

Time Inc.—sponsor of the Kefauver hearings over ABC—was an expected entry into the field, but the magazine is producing its own show with a "March of Time" format, not giving coverage to the conference itself. Program, to be called *Your Stake in Japan*, will be telecast over ABC-TV, 10-11 p.m. EDT Friday, Sept. 7, placed by Young & Rubicam. Planned for the one shot only, the show will be a drama-discussion of Japan and the Japanese national character, with accent on future relations of the country with the United States, Russia, China, and the Orient.

Network sales officials felt that sponsor-reluctance was not the result of costs—the peace treaty sessions are a good TV buy with a package price of about \$15,000. Total cost of 5-6 hours of sessions for the four conference days, over full network, coast-to-coast, would average about \$85,000-\$90,000.

After the informality of some Kefauver witnesses, however, it was generally felt that anything

★ diplomatic, with protocol influencing even interviews, might seem fairly mild stuff. And although public feeling toward the conference is felt to be great enough to assure high ratings, peaks of interest could not be anticipated until the agenda is adopted at the conference itself. Networks expressed confidence, as a result, that some sales would be made early this week.

The Dept. of State early last week had granted permission for commercial use of conference coverage, except for the always-unsponsored speech to be made by President Truman, and had placed no restrictions on sponsorship other than those generally in effect.

AT&T made relays available for the full conference length, although full facilities are not yet ready. If all network coverage becomes sponsored, telecasts will have to be sent directly from San Francisco to New York where the networks will then transmit their

pictures—via the usual facilities back west as far as Omaha. Cities between the West Coast and Omaha would have to take their transmission directly from the microwave relay, however, which means they could not receive commercials. As plans stood at week's end, all television coverage will be pooled—with KPIX (TV) San Francisco as the originating outlet — and transmitted to New York via a single relay.

All highlights of the four-day conference will be carried via microwave relay to all eight Southern California TV stations, on a pool basis.

All major networks—NBC, ABC, Mutual and CBS Radio and NBC, CBS, ABC and DuMont Television—will carry President Truman's address, which marks the conference opening, from 10:30-11 p.m. EDT Tuesday. Originating from San Francisco's Opera House, the speech also will inaugurate coast-to-coast television, previously scheduled for a Sept. 30 opening, but moved up at the request of the State Dept.

Networks have varying plans for reporting the rest of the conference, which runs from Wednesday, Sept. 5 to Saturday, Sept. 8.

CRUSADE IN THE PACIFIC

IN REVIEW . . .

CRUSADE IN THE PACIFIC, a sequel to *Crusade in Europe*, is the March of Time's second ambitious translation of the history of World War II to film.

It is the kind of thing that the March of Time does better than anyone else. Although *Pacific*, or at least the four chapters that have been seen by this reviewer, does not quite measure up to *Europe*, which has been seen in its entirety, the second *Crusade* ought to be as big a television attraction as the first.

The Pacific was not as photogenic a war as that in Europe, where the emphasis was on mass movement of land armies and their armor which photograph handsomely.

Land warfare in the islands was largely conducted with stealth and in thick jungle where the photographer had as much trouble seeing a crawling rifleman as the enemy did.

The sea and air wars, although more accessible to the camera lens than ground combat, were not entirely satisfactory as pictorial material for a film series of this kind. No matter how many angles it may be shot from, one airplane takeoff from a carrier deck looks just about like any other.

It is in this respect that this reviewer has a minor and perhaps quibbling point to make about the chapters of *Pacific* that he saw. There were so many sequences of fighters and bombers landing on or leaving carriers and ground fields that at times the film had the monotony of prolonged observation of any military airport.

The four chapters previewed were numbers 3, 4, 6, and 7—“The Rise of the Japanese Empire,” “America Goes to War in the Pacific,” “The Navy Holds—1942,” and “Guadalcanal—America's First Offensive.”

Of the four, the rise of Japan was the most absorbing. Both in the selection of films and the narration tying them together this chapter was excellent. It was the most dramatic demonstration this reviewer has seen of the contrast between the warrior's mask that Japan wore before her 1945 surrender and the bland and somewhat apologetic face she has worn since.

Despite its shortcomings, *Crusade in the Pacific* is worth anybody's television time.

March of Time does better than

PROGRAM FACTS
Crusade in the Pacific, 26 half-hour chapters on film.
Produced and Distributed by the March of Time.
Producer: Arthur B. Tourtellot.
Script: Fred Feldkamp, assistant producer.
Film Editing and Compilation: Jack Bush, supervisor.
Research: Jane Bartels, Allen Dibble, Isabelle Kohn.
Maps: Joseph Stultz, Cineffects Inc.
Narrator: Westbrook Van Voorhis.

Program: Music in Velvet, Aug. 26, ABC-TV, 7:30-8 p.m. EDT.
Producer-Director: Grover J. Allen.
Cast: Rex Maupin & Orchestra; Vocalists Paula Wray and Bill Snary; Harpist Russ Crandall.

MUSIC IN VELVET is another example of what trade critics have come to proclaim as the Chicago style of television—the approach of playing directly to the home viewer and easing into its sequences with commendable if unassuming flourish.

On the basis of the Aug. 26 program, ABC-TV Chicago apparently has endeavored to shift the time-tested techniques of radio's mood-music programs to the TV cameras, with at least partial success. The result is a half-hour of restful, soothing musical fare that is neither apt to make heavy demands on the eyes, nor to turn the viewer back to his radio set for similar ventures.

What *Music in Velvet* does offer, it would appear, is a set of unimposing camera techniques which adequately spotlight Rex Maupin and his orchestra, as well as Harpist Russ Crandall and Vocalists Paula Wray and Bill Snary.

A notable example is Mr. Snary's rendition of “You Go to My Head,” which he sang to Miss Wray. Mr. Snary is adequate but this reviewer was more intrigued with the camera treatment which wisely displayed only a rear view of Miss Wray's flowing tresses and a final closeup shot of the male vocalist bussing the lady in question. The camera virtually nosed right into her hairdo.

Other sequences showed Mr. Maupin's velvety strings in action to good advantage on selections which were tastefully heralded by cards against the backdrop of Mr. Crandall's plucking harp fingers.

Not a word is spoken during the entire program, save at the conclusion which identifies the Chicago origination. The producers wisely let the music speak for itself.

MEDIA COVERAGE

Pondered by Crime Group

COURTS ultimately will resolve the question of whether a witness' rights are tampered with when required to testify before television, the Senate Crime Investigating Committee said Friday in its final report.

Other points stressed by the committee:

● Congress does not have an adequate hearing room that would place attendant media unobtrusively as is the case in the United Nations.

● If such a room were available, there would be few occasions where the witness could justify his refusal to testify.

● TV is desirable as it is another improved medium, and extends the public hearing to more people throughout the country.

● Public has the right to be informed on the actions of its Congress. Because of the expense of picking up a hearing, the networks and other media companies select only those hearings which have unlimited interest.

● It is up to the committees of Congress to adopt their codes of procedure and be “fair and equitable.” The committee should not be put in position where it must discriminate in favor of one coverage medium over another.

● TV, as a medium, does not need the light that is necessary for the newsreel cameras and does not need as much equipment at the hearing room. Committee pointed up the fact that photographers' flashbulbs popping and Kleig lights' brightness and heat are not caused by television but by other media.

Protest ‘Blackout’

The matter of coverage was brought to a head a fortnight ago by protests of the Radio Correspondents Assn.'s executive committee, National Assn. of Radio News Directors, and ABC, NBC and CBS Radio. These protests attacked the radio-TV-newsreel “blackout” by the crime group laid down when Irving Sherman, a New York attorney, refused to testify unless it was enforced [BROADCASTING • TELECASTING, Aug. 20].

The incident occurred on the heels of Senate action upholding contempt citations against two Cleveland witnesses who were TV-radio-newsreel shy.

According to the Radio Correspondents group, the committee “blackout” was an “arbitrary” limitation and “a form of discrimination against certain news media.”

Chairman Herbert R. O'Connor (D-Md.) of the crime committee told BROADCASTING • TELECASTING last week he feels “strongly that the fullest use of radio and television ought to be made” in the hearings. While the committee members as a whole agree with this, the Senator said they did not

think witnesses “ought to be forced to testify before radio or television” until a definite rule is set.

Direct reference to the correspondents' objection has been raised by Sen. Alexander Wiley (R-Wis.), a member of the crime group, on the Senate floor.

Noting that the letter of protest from Bill Shadel, of CBS, president of the correspondents' association, “sets forth a very sound conclusion,” Sen. Wiley read two paragraphs and then had the entire letter printed in the *Record*.

Sen. Estes Kefauver (D-Tenn.) has proposed TV be treated in same category as other news media with the exception it can be barred from the outset at the discretion of the committee chairman.

Meanwhile, it has been noted that the Senate Internal Security Subcommittee—similar to the House Un-American Activities Committee—has a policy of barring radio and television. News photos can be taken before and after actual hearing sessions but are prohibited during hearings.

When announcing this policy, Chairman Pat McCarran (D-Nev.) had declared the committee made the decisions “because we are seeking facts, not publicity. We want to make a record, not to make headlines . . . we want to make it clear that no witness who is called here will be subjected to undue publicity against his will.”

Some observers have interpreted these remarks as implied criticism against other committee proceedings.

HOLLYWOOD PROBE

Radio-TV Stars Subpenaed

ALTHOUGH names have not been revealed, between 30 and 40 movie, radio and television personalities are being subpoenaed by federal agents for a 10-day hearing by the House Committee on Un-American Activities investigating communism in Hollywood, which starts in Los Angeles' Federal Building Sept. 17.

Hearing, expected to throw light on subtlety with which many reds have slipped into various branches of three industries, will be held in the “Kefauver Room.”

Day and night sessions will be telecast and released via radio, if permission is given. Sessions were originally scheduled to start tomorrow (Sept. 4) but were delayed because of the Japanese Peace Treaty Conference in San Francisco. A five man sub-committee headed by Rep. John S. Wood (D-Ga.) will conduct inquiry.

Fort Industry Office

FORT INDUSTRY Co. has established new Chicago headquarters at 230 N. Michigan Ave., under the supervision of Ren Kraft, Midwest sales manager of the company, which owns and operates WSPD-AM-TV Toledo, WWVA Wheeling, WMMN Fairmont, W. Va., WAGA-AM-TV Atlanta, WGBS Miami, WJBK-AM-TV Detroit, and WSAI Cincinnati.

All the Cows in the KFAB area Give Milk

By H. R. MOORMAN
ADVERTISING MANAGER
FAIRMONT FOODS COMPANY

"The cows in the KFAB Area that 'do not give milk,' of course, are the vast herds of beef cattle raised in Nebraska's great ranch country and fattened in the feed lots of Iowa, Nebraska, Kansas and Missouri. It is the marketing of this beef (the finest in all the world) which places the Omaha Livestock Market second in the Nation.

Those 'bossies' that ARE milked in this great dairying area make Omaha the number one city in the manufacture of butter."

So, when we say that all the cows in the KFAB area give milk—we are leading into a big market story of tremendous importance to you. The Midwest Empire Station blankets a vast territory of farms, rural towns and cities. Its backbone is the ranching and farming industry. Its wealth is not only among the ranchers and farmers, but also in the cities where the agricultural products are made into marketable foods that help meet the needs of the entire Nation.

KFAB, the Midwest Empire Station, through years of experience in serving such a rich, vast area, has become the station to do the powerful selling job. Arrangements can be made for you to use this effective medium—at a low cost—and cover the Midwest Empire profitably. May we tell you more about it?

Attention Mr. J. D. Hill, Sales Promotion

Dear Mr. Hill:

We should have written this letter several weeks ago, but we wanted to make a very complete check on the results of our two-week Clover Farm-WLS sale, which ran from July 9 to the 21st inclusive. We have made that check, we have talked to our members, and we have referred to our records. It was the most successful sale we have ever conducted! Here are a few of the most outstanding percentage increases:

Clover Farm Salad Dressing: We advertised three sizes and our increase over our average for the year prior to the sale was 398%.

We featured two kinds of Clover Farm Corn with an increase of 259%.

Clover farm Pork and Beans, 3 sizes advertised: One showed 235% increase, one 93% increase, and another 32% increase.

We more than doubled our average sales on Red Cup, Green Cup, and Clover Farm Coffees.

Lipton's Frostee Mix: an increase of 78%, but we sold out before the sale was over, and did not get a new shipment in time to carry on.

We more than tripled our sales on Lite, doubled our sales on Ajax, sold as much Tide in two weeks as we sold in the preceding four months, almost three times as much Fab, doubled our sales on Surf, five times as much Creamettes (Spaghetti and Macaroni) tripled our sales on Clover Farm Grape Jam, quarts, had a 400% increase on Sur-Jel, and sold out, so it should have been more.

Shina Dish: sold a two months' supply in two weeks
Perfex: sold a three months' supply in two weeks
Dexol: sold a month's supply in two weeks
Glosstex: sold a two and a half months' supply in two weeks

We doubled our sales on our own flour, and had a 200% increase on Joan of Arc Light Red Kidney Beans.

We are enclosing a marked copy of our newspaper ad with more facts and figures.

Again we repeat that it was the most successful sale we have ever conducted. We, ourselves, did not realize the value of a tie-in on WLS on the "Hello Homemakers" program. If you again conduct this wonderful sales event, we want you to plan a two week period for us - and we sincerely hope you do.

A handwritten signature in black ink that reads "C. V. Allen".

C. V. Allen
President.

The Peter G. Lennon Company is the headquarters for an important cooperative chain of 117 Midwest CLOVER FARM STORES in the WLS area. Recently they participated with WLS in a joint merchandising-promotion plan designed to increase summer food business at the retail level. The plan, known as the "WLS Summer Food Promotion," was originated with the cooperation of eight important chain groups, including CLOVER FARM. The letter reproduced here tells the results obtained by this one group; letters from the others verify the story. Combined, 2,300 Midwest stores were affected by this revolutionary merchandising tie-in thruout the summer.

Here then is again proof of WLS power to move goods into customers hands: We have known of this power for years—as have many advertisers—this campaign proves results in a chain of stores for a specific time period.

Your John Blair man will give you details on how WLS can produce similar results for your product or service.

SECURITY BILLS

Congress Mulls Proposals

CONGRESS last week marked time on twin security proposals involving the FCC—one recommending that penalty provisions of the Communications Act be made more stringent and another requesting additional monies to bulwark the Commission's monitoring activities [BROADCASTING • TELECASTING, Aug. 27].

Possibility that the House Interstate & Foreign Commerce Committee would meet in executive session to discuss heavier criminal sanctions for broadcasters and other parties before Sept. 12—date the House returns from recess—was held as remote.

In any event, authorities point out, the lower chamber could take no action on the military's electromagnetic radiations control bill (S 537) before that date. The suggested amendment was posed by the committee during hearings Aug. 23 on the proposal, which seeks to place non-broadcast devices within Sec. 606 of Communications Act.

Hanging in the balance is a proposal, in the form of an amendment to the Act, calling for stiffer penalties for violations entailing "wilful intent to injure the United States." This would be distinct from a provision within Sec. 606 setting lesser penalties for "wilful failure" to comply with terms prescribed under Presidential authority. There are no express criminal sanctions at present in Sec. 606, which deals with Presidential authority over stations.

Senate Testimony

On the Senate side, the Appropriations Committee plans to hear testimony from the FCC "either this week or next" on the Commission's request for \$1,340,000 to expand its radio monitoring.

The House had wiped out the \$1 million sum recommended by the House Appropriations Committee for these activities. FCC is expected to make a strong pitch for restoration of these funds.

Committee spokesmen said last week that FCC Chairman Wayne Coy would be called upon to testify during this part of the emergency agency supplemental bill, if he were available. In the event he is not available, it was felt that either Comr. George Sterling or E. M. Webster would appear.

Stiff opposition to the cut is expected once the omnibus money bill reaches the Senate floor. The House committee had approved the expenditure for new monitoring stations, including necessary personnel; additional investigative staff and mobile equipment; detection and control of illegal station transmissions and other radiation devices capable of serving as navigational aids to enemy aircraft. Four new monitoring stations and upwards of 110 new employes, as well as rental, are involved.

With respect to station penalties (in the bill before the House committee), a new subsection (h) to Sec. 606 of the Communications Act pends, with provision for fines of not to exceed \$20,000 and im-

prisonment not to exceed 20 years, or both, for violations indicating a desire to sabotage the U. S.

The other proposed amendment—approved by the Senate Interstate & Foreign Commerce Committee, which also held hearings earlier this year—calls for a \$1,000 ceiling on fines and one year's imprisonment, or both, in the case of individuals, and a levy not to exceed \$5,000 for corporations — for failure to comply with that section when invoked by the President.

STATION SALES

WKAI Sold; WBGE Plans Void

FOUR stations were involved in financial transactions last week.

Sale of WKAI Macomb, Ill. was announced by James C. Bailey and Lyle C. Landis, present owners, subject to the usual FCC approval. The 250 w daytime station will be bought for an undisclosed sum by William E. Schons, Dr. Edward Schons, Charles S. Harris and T. L. Cook, all of St. Paul, Minn. The Chicago office of Blackburn-Hamilton, station brokers, handled the details. As of last Thursday, the application was not on file with the FCC.

At the same time, it was learned that the sale of WBGE Atlanta, Ga. to Wilton E. Hall for \$110,000 [BROADCASTING • TELECASTING, Feb. 12], had been called off. The sales contract expired Aug. 12 due to FCC's failure to act on the application. The Commission reportedly wanted to wait until South Carolina courts had acted on a case involving ownership of Mr. Hall's WAIM-WCAC (FM) Anderson, S. C. Mike Benton retains WBGE ownership.

Financial difficulties were responsible for two stations leaving the air under FCC authorizations. WSKB McComb, Miss. was allowed to remain silent for 30 days from Aug. 24 in order to complete refinancing. The station is going through bankruptcy proceedings but hopes to secure backing of a "responsible radio station operator in New Orleans who is interested in keeping WSKB on the air," according to the request.

The other station, KODI Cody, Wyo., was authorized to remain silent for 90 days from Aug. 24 in order to effect sale. Owners William J. Garlow and wife moved to Dallas in January and station has been in red most of the time since. However Mr. Garlow feels it will regain a sound basis "if the right person buys." He pointed out, in his request for silence authorization, that the station grossed \$50,000 in 1950 and "did quite well financially." He gave the loss for July this year as \$889.68.

Almost
1,000 ORDERS
FOR NEW FOOD PRODUCT
WITH NO DISTRIBUTION...

another example
of
KDKA Action!

To promote a new food product with practically no distribution, an advertiser used a single half-hour late-night program on KDKA. Listeners were asked to telephone a special number or send their order to the station. Result: *almost 1,000 orders for a total of more than \$8,000, with a program time-cost of only \$180.*

This is typical KDKA Action... the kind of action documented in a revealing booklet titled "6 Case Histories." If you haven't

reviewed this booklet for tips on how to build your sales in the tri-state Pittsburgh market-area, get a copy from KDKA or Free & Peters.

RADIO - America's Great Advertising Medium

TRANSIT FM Threat to U. S. Broadcasting Charged

"FORCED LISTENING devices disrupt and endanger the American system of broadcasting" and pose a matter of "national concern," attorneys for anti-transitcasting forces charged in a brief prepared last week for submission to the U. S. Supreme Court.

The brief was accompanied by a petition for a writ of certiorari asking the high court to review the judgment of U. S. District Court of Appeals that segments of transit FM are unconstitutional in the District of Columbia. The brief was prepared for Franklin S. Pollak and Guy Martin, who launched the original court action, by the law firm of Segal, Smith & Hennessey, Washington.

Opponents of transit radio took this step last Thursday, little more than a fortnight after Washington Transit Radio Inc. and two other parties—Capital Transit Co. and the Public Utilities Commission—had asked the Supreme Court for

★ a review of the lower appellate court decision. Stress was laid on the relation of the service to the First and Fifth Amendments to the Constitution [BROADCASTING • TELECASTING, Aug. 13]. The high court, now in recess, will reconvene in October.

In filing for consent to the writ, also requested by the pro-transit radio faction, opponents noted that the circuit court decision sought to prohibit only "commercials" and "announcements," making no reference to musical or other "spoken parts" of the broadcasts.

Additionally, Messrs. Pollak and Martin and others hope that

SCOTUS will consent to review the decision and outlaw transit radio throughout the nation. Service currently operates in upwards of 14 cities.

"Forced listening by a captive audience to editorial matter selected by private individuals involves grave dangers," the brief asserted. "The power of this captive audience has been used in the personal interest of Washington Transit Radio Inc. and Capital Transit Co. to influence public opinion on the merits of transit radio itself."

... The United States of America has a unique system of broadcasting supported by commercial advertising. Currently, the industry is on the threshold of a tremendous expansion into television. Already there are 13 million television receivers in use. Color television is in the offing. Pro-

posals to convert television broadcasting into a form quite different from that which has prevailed in aural broadcasting are being discussed. Wire television, subscription television, pay-as-you-look Phonovision, theatre television, each has its advocates. Advertising revenue, apparatus sales and the correlated industrial applications have grown to a point where billions of dollars are involved.

Transit radio alone excepted, this whole vast structure, with all its social and economic impacts, derives its vital force from the principle that the listener or viewer shall have the absolute and unrestricted right to elect whether or not his receiver shall be placed in operation and if so, to what station it shall be tuned. Unless the listener or viewer is completely free to select what he wishes to hear or see in a freely competitive field, the American system of broadcasting is deprived of its vigor and becomes a sinister, formless thing.

"The importance of a decision by the Supreme Court . . . at this stage affirming the inviolable right of the public to select its broadcast programs is self evident," the brief declared.

Opponents held that the "ultimate question turns" on whether the broadcasts deprive passengers of rights under the First Amendment . . . "by generally interfering with their freedom to listen or not to listen, and to read or not to read."

The high court also should determine whether the programs deprive riders of liberty and property in violation of the Fifth Amendment, the brief said.

Other Reasons

Other reasons advanced for granting such a writ, the memorandum continued, are these:

(1) freedom of communication by writing or speech and freedom of reflection are "impaired" by transit radio and are basic to democracy; (2) "threatened" nationwide expansion of transitcasting enterprises cannot be dealt with by the U. S. District Court of Appeals and needs SCOTUS attention.

"In the absence of [a high court ruling on constitutional rights of the riding public], it seems likely that transit radio will continue in the other cities where it is now functioning and perhaps even expand into still other cities, operating as a correlated system of broadcasting to captive audiences of many millions," the brief asserted.

Washington Transit Radio Inc. and other proponents of the service had taken issue with that part of the lower decision holding that dissemination of programs are not protected by the First Amendment, and claimed it was in conflict with past Supreme Court judgments.

The court "erred," according to transit FM forces, in holding that the action of a transportation system is governmental "action" and that the broadcasts deprive objecting passengers of liberty "without due process of law."

Brief for Messrs. Pollak and Martin was filed by Attorneys Paul M. Segal and Harry P. Warner, of Segal, Smith & Hennessey.

Network Outlook

(Continued from page 23)

and audiences delivered than any other advertising medium.

The CBS Radio daytime schedule is completely sold out. There are a few availabilities in the early Saturday afternoon periods but there are promising indications that these spots will be sold within the next few weeks. Sunday afternoon will be bigger than last year, with new sponsors entering network radio, others like Longines-Wittnauer Watch Co. returning and the U. S. Army and Air Force recruiting services presenting a new series with Frankie Laine.

There are several good availabilities in the CBS Radio nighttime schedule but there has been greater interest on the part of sponsors in these programs during the past few weeks than there has been for some time—and indication that the hysteria over television has subsided considerably and that advertisers still consider network radio the number one advertising medium.

"Our sales on Mutual are up," MBS President Frank White stated, "up enough to be indicative that the TV hysteria has abated to the point where the true value of radio as a merchandising medium is again receiving some measure of the recognition it deserves."

Mr. White pointed out that the average Mutual advertiser this year is putting his program on 356 MBS stations, contrasted with an average commercial network lineup of 284 for MBS clients last fall. Table shows that according to business signed to date, MBS is 6.5% down in number of commercial programs, but 0.6% up in amount of sponsored time for this coming fall compared with the same season of last year. Mr. White further stated:

We plan to continue the same extensive promotion of AM radio which has already won Mutual several outstanding awards during the past year. If our own efforts along these lines are now supported by increased activity on the part of other networks, result is bound to help radio.

NBC's vice president and director of radio sales, John K. Herbert, was vacationing last week and in his absence no statement could be obtained from this network. On the August 1950 vs. August 1951 record, NBC advance fall business is down 9.3% in number of sponsored shows and down 10.3% in amount of commercial time for this fall against last.

ABC CLIENTS

Buy \$24,131,000 in Time

ABC last week announced that a total of 46 sponsors have purchased \$24,131,000 in radio and TV network accounts, starting during the seven-week period through Oct. 14.

The ABC radio network reported sales of \$17,323,000 placed by 24 sponsors for the Aug. 25-Oct. 14 period, and the ABC-TV network for the same period reported sales totaling \$6,808,000 to 22 advertisers. Seventy-five percent of the accounts, ABC said, represented new business while the balance are renewals.

GOODWILL CASE

Group Backs Cottone, Plummer

PROSECUTION to a decision of FCC's proceedings involving the Goodwill Stations was urged last Wednesday by a group of 19 distinguished lawyers, authors and professors.

In a motion and memorandum, filed by Will Maslow, general counsel of the American Jewish Congress, the group went on record in support of FCC General Counsel Benedict P. Cottone and Broadcast Bureau Chief Curtis B. Plummer's opposition to the hearing examiner's initial report [BROADCASTING • TELECASTING, July 9].

The June 14 initial report by Examiner James D. Cunningham recommended that the issues involved be considered moot because of the death of G. A. (Dick) Richards. Mr. Richards, principal stockholder, KMPC Los Angeles, WJR Detroit and WGAR Cleveland, was charged with alleged slanting of news in the case involving renewal of the stations' licenses.

Ask Reopen Record

The citizens' group urged the proceedings be remanded to the trial examiner for decision "on the important issues" and that the record be reopened to "receive assurances, subject to cross-examination, from the successors in interest of George A. Richards" that should the licenses be renewed, programs "designed to reflect racial and religious prejudices" would be eliminated.

According to the brief, the signers believe the case "an important test . . . whether [they] may be used for the propagation of "racism" since radio station licensees are under a "duty to serve the public" and that "distortion of the news in favor of or against any group . . . is an evil which must be thwarted."

They said the proceeding "is not and never has been a proceeding against Richards" but to determine the renewal of the stations' licenses if they serve the public interest.

The brief points out that if past policies of the stations fail to conform to "high standards expected and required of radio franchise holders . . . and . . . violate the canons of good taste and fair play" then FCC must discover to whom control passed after Mr. Richards' death.

Signing the brief were:

Roger Baldwin, American Civil Liberties Union; Algernon Black, Ethical Culture Society; Paul Freund, Harvard U. Law School professor; Lloyd Garrison, New York attorney; Earl A. Harrison, Philadelphia attorney; Horace M. Kallen, New School for Social Research; Freda Kirchwey, editor, "Nation"; Milton R. Konvitz, Cornell U. professor; Edward H. Levi, Chicago U. Law School dean.

Max Lerner, author, lecturer; Patrick Murphy Malin, American Civil Liberties Union; Thurgood Marshall, National Assn. for the Advancement of Colored People; Jerome Michael, Columbia U. law professor; Shad Polier, New York attorney; David A. Reisman, Chicago U. law professor; Harry Schulman, Yale U. law professor; Harold Taylor, president, Sarah Lawrence College; and David W. Petegorsky, executive director, American Jewish Congress.

IRVING WAUGH, Commercial Manager
EDWARD PETRY & CO., National Representatives

CBS SCORED

By NARTSR on Norge Plan

CBS was accused of entering the national spot field at the expense of station revenue last week by Murray Grabhorn, managing director of the National Assn. of Radio and TV Station Representatives.

Ruckus started when Norge—through Russel M. Seeds Co.—planned half-hour national spot campaign for 39 weeks starting Oct. 4 and featuring Red Skelton in about 40 non-TV cities. Mr. Grabhorn wired association members that "CBS is now making a counter proposal to take this business on network basis and suggesting to stations they accept it on the line with cued cut-in commercials at no cut-in charge . . . or they offer the full show with commercials and entire program on tape to be played locally at identical network time on network basis."

Mr. Grabhorn conceded that "a number" of stations had already accepted the business, but endorsed their action of refusing to waive cut-in charges or of applying national spot sales rates to the taped versions.

His complaint stressed that the greater number of stations involved were located in non-TV markets and thus were the same group to

be hit when the network made its recent rate cut, designed to equate radio-TV competition but applying to all stations, regardless of whether they shared market with TV or not.

CBS officials denied the accusation by asserting that the network had made no plans at all concerning the Skelton show and would not be considering it until the middle of this week. Since the network controls the comic, it was conceded that CBS "may" come forth with some proposal. Feeling remained, however, that NARTSR, lead runner for station representatives, had jumped the gun.

KIEV ENGINEERS

To Vote on Union Issue

NEW NLRB elections to determine or reject a bargaining agent will be held by KIEV Glendale, Calif., engineers Sept. 11, following a no-decision vote at an election Aug. 23. Engineers will again decide between NABET (National Assn. of Broadcast Engineers), IBEW (International Brotherhood of Electrical Workers) and no union representation. New vote called when each of the three engineers involved chose a different category.

No hearing date yet set for an NLRB hearing involving about 125 engineers and stage people at KTTV(TV) Los Angeles. Seeking to represent various categories including engineers, floor managers, stage and lighting personnel are four different unions — NABET, IATSE, Screen Directors Guild and IBEW.

'People Act' Series

TRANSCRIPTIONS of the original *The People Act* series are now available on a free loan basis through the Federal Radio Education Committee of the U. S. Office of Education. Arrangements were made by the Twentieth Century Fund of New York. Persons interested in borrowing the transcriptions may obtain further information by writing directly to Mrs. Gertrude Broderick, Federal Radio Education Committee, USOE, Washington 25, D. C.

FCC PERSONNEL

Over 100 to Be Cut

FCC will be cutting personnel from the approximately 1,200 it had on the rolls, as it began the last fiscal year, to 1,080 for fiscal 1952 as a result of the budget cut enacted by Congress [BROADCASTING • TELECASTING, Aug. 20].

President Truman is expected to sign the bill momentarily.

It gives \$6,116,650 to FCC, or \$733,350 less than that requested of Congress early in the year. The bill contains a formula for cutting personnel funds and thus FCC must reduce its staff.

As of a fortnight ago, the agency had 1,173 persons on its rolls.

ELEVEN Big Seven football games this fall will be carried on WHB Kansas City to promote Hallicrafter television sets. At final negotiations with John G. Gaines & Co., distributor, are (l to r): Jack Sampson, WHB sales; Jack Gaines; Larry Ray, WHB sports director, who will do play-by-play descriptions; and John G. Gaines, Hallicrafter TV distributor for Kansas and Western Missouri.

LONG-TERM contract for *Breakfast at the Maxwell House* is finalized by Purities Dairies with WMAK Nashville, Tenn. Seated are Albert Gasser (l) and Miles Ezell, president and secretary, respectively, of the sponsoring firm. Standing are Carl Behle (l), WMAK sales representative, and WMAK Gen. Mgr. George B. Faulder.

OHIO State U. gridiron clashes will be carried on WKVO (FM) Columbus for Modern Finance Co., local firm. Paul Kelly (l), Kelly & Lamb Adv. Agency, watches Bruce Osborne, Modern Finance vice pres., approve arrangements. Standing: Bill Arthurs (l), WKVO sales representative, and Bert Charles, station gen. mgr.

CHATTING with KOA Denver listeners in the Friday 9:30 p.m. *The Governor Reports* is Colorado Gov. Dan Thornton (seated). Introduced by Charles C. Bevis Jr. (l), KOA general manager, the governor stressed need for action on roads, schools and crime in his initial public service broadcast.

THREE-YEAR purchase of Frederic W. Ziv's *Cisco Kid* by Jackson Packing Co., Jackson, Miss., resulted in this hat ceremony by (l to r): Al Godwin, Ziv; John H. Boman, pres. and gen. mgr. of Jackson Packing; Stu Gammon, assistant gen. mgr. of the packing firm; and Larry Davis, account exec., Dixie Advertisers.

"...it was the most successful sale we have ever conducted"

'VOICE' DEBATE

Sarnoff Appeal Favored

APPEAL by Brig. Gen. David Sarnoff, RCA board chairman, stressing the need of greater financial support for the Voice of America as part of a "psychological peace-fare" campaign elicited favorable reaction during highly partisan debate on Capitol Hill.

Gen. Sarnoff's plea for a \$1 billion expenditure on propaganda within the next two years—with perhaps half of that for the U. S. overseas radio arm—was heralded as "more persuasive" than arguments for any reductions in State Dept. information funds.

The RCA board chairman's statement was cited by Sen. Lister Hill (D-Ala.) during discussions in the upper chamber, which restored full monies to the State Dept. program after political maneuvering within the Appropriations Committee and on the floor.

Actually, the Senate group had agreed not to cripple the Voice, allotting the full \$25,164,655 recommended in the budget for radio broadcasting operations. It had voted, however, to cut other informational activities from \$85 million allowed by the House to \$63 million, compromising on the Senate Appropriations Subcommittee figure of between \$54 million and \$56 million.

The monies bill last week was sent to a conference committee with assurance that funds for the Voice and other operations would not be altered on the basis of agreement by both Senate and House.

'Not the Issue'

Noting Gen. Sarnoff's statement upon his return from Europe [BROADCASTING • TELECASTING, Aug. 20], Sen. Hill said he felt the proposal for a separate agency to operate VOA "is not the issue before us at this juncture. What is relevant is his demand for greatly increased financial support . . . I regard his testimony as much more persuasive than the reasons given for the reduction of funds." To measure up to the challenge mapped by Gen. Sarnoff, he continued, "we must strengthen our information program, not amputate it." The Senator also noted that the RCA board chairman had not criticized State Dept. personnel but had declared that the U. S. is losing the "ether war."

Subsequently, lack of funds was blamed in part for the Voice's failure in a counter-statement by Thurman L. Barnard, general manager of the information program. Conceding that primary use of shortwave facilities is not the answer, Mr. Barnard noted a department request for monies to build a ring network. Congress has authorized only one-third of funds requested, and the remainder was contained in an \$88 million sum denied in a supplemental bill. Ring plan was advocated by Gen. Sarnoff last year [BROADCASTING •

TELECASTING, July 10, 1950].

Leading the movement to restore Voice expenditures on the floor was Sen. Karl Mundt (R-S. D.) and six other GOP Senators. The upper chamber adopted the Mundt amendment for a \$22 million increase over the committee sum. Later, Sen. Mundt suggested creation of a bi-partisan board or commission to advise VOA officials.

The Voice debate was not without its charges and countercharges. President Truman stirred the exchange rolling with a special plea to Congress for restoration of the full expenditures.

"A slash in funds for the Voice of America, coming at this time, would have the effect of severely damaging our efforts to reach the hearts and minds of people . . .

would mean retreat in the face of mounting worldwide pressures of Communist propaganda . . ." he declared. Radio had succeeded in opening "at least a crack" in the Iron Curtain, Mr. Truman added, referring to the publicity given his message of friendship in Russia.

Sen. Pat McCarran (D-Nev.), chairman of the appropriations subcommittee which held hearings on the Voice, promptly accused Mr. Truman of joining the Voice "lobby."

Out of floor debate also came a proposal by Sen. A. Willis Robertson (D-Va.) calling for "exposition of Christian principles" on the air, with programs to be placed under "a man of the splendid ability and character," Gordon Gray, director of the President's

new Psychological Strategy Warfare Board and owner of WSJS Winston Salem, N. C.

Following are capsule comments on VOA from other Senators:

Brien McMahon (D-Conn.)—"It is the only item I know of in the budget which gives any promise of carrying the cold war to Soviet Russia."

Everett Dirksen (R-Ill.)—" . . . (The Voice) is a permanent fixture in our national life. . . . But this is a type of weapon which . . . must be divorced from the policy-making branch of the government, and it should not be directed or shaped, nor should its policy be colored by the State Dept. . . . The Voice has not been very objective . . ."

Homer Ferguson (R-Mich.)—" . . . The trouble with the Voice . . . is that those having it in charge are trying to do too much. . . . They are trying to give quantity instead of quality. . . ."

Paul Douglas (D-Ill.)—" . . . We should not confuse the Voice of America with the breath of America. . . ."

From where I sit by Joe Marsh

Skip Makes a Slip

Miss Gilbert, the teacher, was telling me how one day last week Skip Lawson almost went to sleep in her physics class.

She noticed him nodding and—since they were discussing electricity—said in a loud voice: “Now maybe MR. LAWSON will explain what electricity is.” Skip started up, looked around wildly, and blurted out, “Gee! I used to know, but I forgot.”

“What a loss to science!” sighs Miss Gilbert. “No one to this day knows what electricity really is, and here we have a genius who could explain it—but forgot!”

From where I sit, I hope this taught Skip that you're better off if you admit you *don't* know all answers. Some grownups haven't learned that yet—like the ones who are always telling other people what's best and what's right and what's wrong. I like a temperate glass of beer, myself, but if you prefer buttermilk I won't argue. I've seen too many “know-it-alls” turn out to be wrong!

Joe Marsh

DEFENSE ROLE

Federal CD Officials
Laud Radio

RADIO's “ability and willingness to inform the public on civil defense and to bring listeners official instructions and news in event of attack” has won it official commendation from federal CD planners.

The Federal Civil Defense Administration takes a favorable look at the New York State Civil Defense Radio Network of over 135 stations, which have been offering a series of weekly broadcasts titled *Plan for Survival*.

The network, FCDA has informed other local community CD groups, is “attracting national attention” and has proved to be an “effective pilot project” worthy of emulation by other states. Executives of large and small stations alike were lauded by the agency for voluntarily organizing the series under the guidance of the New York State Civil Defense Commission.

“These programs not only present authoritative civil defense information but also serve as a weekly test of the radio facilities through which the public could receive instructions during an emergency,” FCDA observed.

Similar series have elicited the praise of local civil defense officials in other states where state networks have been formed for the same purpose. Reports were aired in August by a special network of 58 outlets in Alabama and 41 stations in Wisconsin, including the latter's State FM Network [BROADCASTING • TELECASTING, Aug. 13].

Alert Plans

Another phase pointing up cooperation among New York CD and radio-TV broadcasting officials was the issuance of alert regulations which would require all AM stations in the state to reduce their power to 250 w in the event of proclaimed imminence of enemy attack, and compel TV and FM outlets to leave the air completely [BROADCASTING • TELECASTING, Aug. 6].

FCDA authorities have never publicly commented on the state alert plan and the FCC is known to entertain certain reservations with respect to the feasibility of such a proposal. It was emphasized that the rules are subject to modification which would render them consistent with regulations prescribed by the FCC in conjunction with the Dept. of Defense.

In any event, the information (as distinguished from alert) role currently being played by New York State radio stations has the blessing of federal planners who cite the project as a pattern for other groups. At the same time, the agency also is distributing kinescope recordings and film prints to TV stations for local use.

The New York State Civil Defense Radio Network, operating by direct relay rather than through land lines, originates *Plan for Survival* from a different station each week. Transcriptions also are

made for playback by other stations at more convenient periods.

Scripts are prepared by a committee of representatives comprising the major networks and independent outlets who confer with CD authorities. Final approval of scripts is made by Col. Lawrence Wilkinson, state's CD director.

Program follows a question-and-answer format. Topics for broadcasts thus far have included “The Bomb,” “Personal Survival,” “Fire Fighting,” “Welfare,” and others. Numerous state and federal civil defense speakers also have appeared.

The 100-plus TV stations in the U. S. will, sooner or later, all receive kinescopes of *What You Should Know About Biological Warfare* and other subjects. First film is a reproduction of the *Johns Hopkins U. Science Review*, which premiered on the DuMont TV Network last April.

Under FCDA procedure, the agency periodically is making available to state directors films, and kinescopes of previously telecast programs. The directors distribute them to TV outlets in their respective states or nearby areas.

Limited number of prints will make it necessary for stations to circulate them among others for adequate distribution once they have aired the program, the agency added.

Films, kinescope, scripts and other data are prepared by FCDA's Audio-Visual section under the direction of Jesse Butcher, former network and agency executive. Working with him are Harold Azine, TV director, and Steve McCormick, radio chief.

PIGSKIN SERIES

Lang-Worth Mails Booklet

COPYRIGHTED book, *Pigskin Salute*, is being distributed to member radio stations by Lang-Worth Feature Programs Inc. as a basis for tailoring broadcasts of the 15- or 30-minute shows to local football interest.

The book contains specially written salutes to 87 leading universities and colleges and outstanding football stories. Package also includes suggested recorded sound effects to “assure maximum results in the production of the 13-week series,” according to C. O. Langlois, Lang-Worth president. Format of *Pigskin Salute* radio series also is designed to pinpoint the national, regional or local football situation for advertisers now setting fall radio commercials on local levels, with suggested commercial prospects.

JAPAN DIET

Members Watch Hearing

REPRESENTATIVES of the Japanese Diet Telecommunications Training Group — all members of the House of Representatives in Tokyo—sat in as observers during hearings held by the House Interstate & Foreign Commerce Committee on electromagnetic radiations Aug. 23 [BROADCASTING • TELECASTING, Aug. 27].

Chairman of the telecommunications group told Chairman Robert Crosser (D-Ohio) that "we are trying to improve telecommunications to the American standards." Attendance at the session was sponsored by the FCC.

Members of the Diet also were introduced to Senate members by Vice President Alben Barkley, who officially welcomed the visitors.

CAUTION URGED

For Military Production

THE IMPORTANCE of greater care in the production of electronic equipment for critical military applications was emphasized by E. Finley Carter, vice president in charge of engineering for Sylvania Electric Products, in an address to the West Coast convention of Institute of Radio Engineers a fortnight ago in San Francisco.

"In the commercial radio and television field," he said, "tube manufacturers operate with a delicate balance between the cost of manufacture and the cost of field service. The war brought problems to a new order of magnitude . . .

"Engineers must discard some of the habits and practices which have been acceptable in the competitive economy which surrounds the radio and television industry when products for entertainment are the prime consideration. These practices are dangerous if carried over into the design of military, navigational or other vital equipments."

OAB Fall Meeting

ANNUAL fall meeting of the Ohio Assn. of Broadcasters will be held Oct. 24-25 at Hotel Carter, Cleveland, Robert W. Ferguson, OAB vice president, announced last week.

NPA GO AHEAD

For Three Building Jobs

PERMISSION to commence construction has been tendered by the National Production Authority to three broadcast stations who had previously obtained approval before NPA amended building regulations.

NPA notified Jefferson Standard Broadcasting Co. (WBT-AM-FM-WBTV (TV) Charlotte, N. C.), Mount Airy Broadcasting Inc. (WSYD Mount Airy, N. C.) and Dowlander Broadcasting Co. (WOOF Dothan, Ala.) that they may proceed with construction without regard to new rules which brought all construction under the government's Controlled Materials Plan beginning Oct. 1.

Notification followed issuance of a new set of criteria which will govern future approval of commercial construction projects, including those involving the delivery of materials after Oct. 1 in cases where authorization already has been granted. Broadcasters are now confronted with a virtual "freeze" on new building [BROADCASTING • TELECASTING, Aug. 20, 13].

In Charlotte, N. C., WBT-AM-FM-WBTV was given the green light to proceed with studio alterations at an estimated cost of \$12,064. In Mount Airy, Robert H. Epperson, a principal in Mount Airy Broadcasting Inc., was given approval to build WSYD at an estimated cost of \$11,350. Original estimate was \$7,850. Ralph D. Epperson is licensee, president and general manager of WPAQ that city.

At WOOF Dothan, Ala., R. A. Dowling, president and general manager, was authorized to commence work on a "radio broadcasting building" with the project placed at \$28,000.

These applicants and perhaps a dozen other broadcasters had filed on CMP-4-C forms which must be filled out in cases requiring NPA authorization — those involving more than two tons of steel, 200 pounds of copper and alloy, or stainless steel or aluminum. NPA extended its approval in all instances [BROADCASTING • TELECASTING, July 30].

Overseas USO Shows

THREE companies from the radio-television world are currently touring Europe to entertain troops for the newly reactivated USO-Camp Shows. Sponsored commercially but routed and administered by Camp Shows are Walter O'Keefe with his *Double or Nothing* quiz, Opera Star Robert Merrill, and a Ted Mack *Original Amateur Hour* unit. Three additional Camp Shows units are touring Korea, Alaska, and the United States with a fourth enroute overseas. A total of 14 units will be abroad by March 1.

BMB DISSOLVED

Baker Is Presented Official Papers

QUIETLY, and without ceremony, Broadcast Measurement Bureau was interred last Tuesday.

The turbulent career of this broadcaster-agency-advertiser project came to a formal end when the Secretary of State of Delaware sent dissolution papers to Dr. Kenneth H. Baker, BMB acting president and NARTB research director.

In its seven-year operation BMB conducted two major studies of station coverage, both of which received general agency-advertiser recognition. The second study is still alive and circulating, with wide acceptance given to its maps and data by major buyers of radio time.

The vast supply of statistical material developed by BMB has been turned over to Statistical Tabularing Co., 89 Broad St., New York. This company has agreed to service at cost requests for data.

Offices of BMB at 270 Park Ave.

* have been occupied more than a year by Broadcast Advertising Bureau. BAB is expected to purchase some of the supplies and furniture.

BMB exited the media-advertising world leaving a debt of nearly \$100,000. Principal creditor is its foster father, NARTB, whose predecessor NAB loaned the money to prevent collapse of the project.

The debt to NARTB may be cut to around \$90,000 through sale of furniture and other assets. BMB's financial plight might have been much worse had it not been able to ride out two legal actions. Last May BMB won a favorable Tax

Court decision holding it to be a non-profit organization. Loss of this decision would have cost BMB, or its main creditor, heavily. Another court action, in which BMB had been sued for damages, was dropped.

Since BMB was non-profit, J. Harold Ryan of Fort Industry stations, chairman of the BMB board, as well as other officers and directors, are not personally liable for the corporation's debts.

BMB was born in January 1945 to meet desire of broadcaster-agency-advertiser groups for a survey that would show station coverage. Assn. of National Advertisers and American Assn. of Advertising Agencies each have had one-third board representation.

The No. 1 study produced coverage data for 900 stations. It also produced agonized and angry screams from stations claiming the study did not fairly portray their coverage or incorrectly portrayed

coverage of other stations.

Among advertisers and agencies the No. 1 study received general approval and the data were used extensively in placement of time.

When No. 2 study was undertaken in 1949, some 650,000 ballots were mailed. They produced data covering 2,100 stations. Though the formula was revised to meet station criticism, only 640 stations actually subscribed. Agencies and advertisers received reports free but 250 agencies and 200 advertisers paid BMB for special state area reports.

Intra-Industry Battles

Because of the controversial nature of its findings, BMB was constantly embroiled in intra-industry battles. Some two years ago when the crisis became so acute that disintegration appeared imminent, Dr. Baker was loaned to BMB by NAB. He picked up the loose ends of the \$1.2 million project and carried it through.

Harold E. Fellows, NARTB president, credited Dr. Baker with saving radio and NARTB upward of \$200,000 in managing the research project. Speaking at NARTB's District 4 meeting at Roanoke, Va., Mr. Fellows, answering a question, said Broadcast Audience Measurement Inc. had been formed at NARTB suggestion to investigate the coverage and measurement situation. He reminded that the NARTB board felt NARTB should not be directly involved in such a project.

Edgar Kobak, consultant, a member of the NARTB board, is contacting agency-advertiser groups to learn if they would be interested in undertaking a study of various types of program ratings.

RADIO-TV TEAM

Nielsen Urges 'Blend'

"IT is very important to recognize that TV and radio are usually more complementary than competitive," A. C. Nielsen, president, A. C. Nielsen Co., points out in the September-October issue of *The Nielsen Researcher*, publication issued by the research firm for distribution to its clients.

In a lead article titled "Let's Face It—TV is Here to Stay! What Should We Do About It?," Mr. Nielsen in a five-point analysis notes that ignoring TV can be "hazardous"; that "effective guidance" is essential if TV is to be used effectively, urging the very best in audience and marketing research; warns against "robbing other media to pay for TV"; declares that "continuous checking of competitive sales position is a 'must' when TV is used either by you or any of your competitors" and calls abandonment of radio in favor of TV "a most hazardous venture at this time."

Pointing out that radio and television reach largely different markets, Mr. Nielsen states: "The most profitable procedure, as we see it, is to blend these two media in the most skillful manner."

AMERICAN RADIO TOUCH

Broadcasters Sell Radio Greece on Farm Shows

AMERICAN radio's touch is touching up radio in Greece, thanks to efforts of U. S. broadcasters on loan to the country. For the first time in Radio Greece's history, a farm program is being beamed Sunday morning and in the week-day evening hours.

This development came after two months of research and preliminary work by Americans: Layne Beaty, former farm editor of WBAP Fort Worth; Richard Erstein, formerly with the Lowell Institute, Boston, and CBS New York; Charles Crutchfield, vice president and general manager, WBT Charlotte, N. C.; Everett Mitchell, veteran m.c. of NBC's *National Farm and Home Hour*.

Beaty With ECA

Mr. Beaty went to Greece last February to work with ECA as adviser to the Greek Ministry of Agriculture in audio and visual aids in the development of an agricultural information service.

Mr. Erstein is radio officer for the U. S. Educational and Information Service in Greece, and since March, has been working closely with Gen. Gigantes, director of the Greek National Broadcasting Institute.

Mr. Mitchell visited the country in mid-August and aided in the launching of the new Greek *Farm*

STATE ANSWER

Note on RFE to Czechs

OPERATION of Radio Free Europe is "clearly not in violation of any international agreement" signed by the U. S. or "any accepted principle of international law," the State Dept. has informed the Czech government.

In a note delivered to the Czechoslovak Ministry of Foreign Affairs, the U. S. said it does not "agree that Radio Free Europe is issuing directives for espionage and inciting . . . criminal acts." The note was in reply to a protest filed last July by the Czechs against FRE broadcasts in the Czech and Slovak tongues.

The U. S. note stated that our government is "unalterably committed to the basic principle of freedom of information," to which the Czechs had made no reference "since no such freedom exists" in that country. Nothing "new or substantial" has been contributed to previous discussions between the U. S. and Czechoslovakia, it added.

The U. S. also described as "not unexpected that the Czech government, whose controlled press and radio indulge freely in hostile and vituperative attacks against the U. S. and other free nations, should protest legitimate criticism of itself by information organs in other countries."

Hour. He was touring 14 countries, making recordings and films of International Farm Youth exchange delegates along with Gerald A. Seaman, Bert S. Gittings Agency, Milwaukee, which handles the *National Farm* show for Allis-Chalmers Co., and Jerry Sotola, Armour & Co., one of Mr. Mitchell's sponsors at WMAQ Chicago.

Mr. Crutchfield is on a four-month State Dept. assignment as radio consultant to Greece, helping to implicate improvements in overall schedules.

Originating at Radio Athens, the farm program is tape-recorded and rebroadcast on stations in other parts of the country.

CITATIONS TO NBC

Radio, TV Networks Lauded

THE NBC radio and television networks last week were cited for public service contributions by two of the nation's top military organizations.

The Veterans of Foreign Wars presented its Award of Merit to the radio network for "distinguished and meritorious performance of public service" in a ceremony Saturday at 11:15 p. m. on the *Silver Jubilee of NBC* program. The award was presented by VFW Commander-in-Chief Charles C. Ralls to Joseph H. McConnell, NBC president, who said he considered it "a challenge to maintain and improve our service as we begin our second quarter-century."

Earlier in the week, the NBC-TV network received a citation from the U. S. Marine Corps for the network's *Marine Corps Revue* show which has contributed to the Corps' recruiting program. Citation was presented on the Friday program by Lt. Gen. Merwin H. Silverthorn, assistant Commander of the Corps, to Frederic W. Wile Jr., vice president and director of television network production.

Air Force Commissions

COMMISSIONS ranging from captain to lieutenant colonel are being offered to civilians, veterans and non-veterans, to become psychological warfare officers in the First Air Force. A master's degree in one of the following fields is a prerequisite for appointment to a commission in this field: Journalism, advertising, public relations, psychology, sociology, anthropology, languages, history, political science, economics or international relations, according to a First Air Force announcement. Further details may be obtained from the Dept. of Military Personnel Procurement Headquarters, First Air Force, Mitchell Air Force Base, New York.

13 MILLION CANADIANS CAN'T BE WRONG!

Those 13 million are the Canadians who listen to the radio, over 93% of all Canadian homes. They do more than listen to the radio . . . They spend money, lots of it. Over 9 billion dollars last year is the latest estimate for retail sales. And with an oil boom in Alberta, uranium in Saskatchewan, and new heavy industry in Quebec there's going to be lots more spent in '51-'52!

Just take a look at what's happening this year:

Quebec is developing one of the largest deposits of base metals in the world.

The West is ready to harvest another bumper wheat crop . . . and it's already sold!

British Columbia is building the world's largest aluminum refinery:

Ontario has hit the jackpot with general construction and defence plant activity.

The provinces on the Atlantic coast turned in retail sales of over half a billion dollars.

And those are just a few samples.

This is a rich market. But Canada is a vast country, stretching 4,280 miles from St. John's to Vancouver, nearly 4 million square miles in area. Your problem is: How to cover this area, both urban and rural, with a maximum number of sales messages for every advertising dollar expended. It's no secret: Use *radio*. Every week effective sales messages go by radio into millions of Canadian homes; and every week those same homes buy the products advertised. It's as simple as that!

With radio you cover the cities, the farms, and those isolated areas where there's lots of money and no medium other than radio giving complete coverage. The independent radio stations of Canada have done a big job in Public Service, and now it's paying off. Radio has the respect of the public—the hold on the public—the sales punch that delivers the dollars.

So, just figure out how much of that nine billion dollars could be yours and remember . . .

"In Canada you sell 'em when you tell 'em!"

*A message from the 103 member stations of the
Canadian Association of Broadcasters
whose voices are invited into over 3 million homes every day.*

CANADIAN ASSOCIATION OF BROADCASTERS

37 Bloor St. West,
Toronto.

THE SALE OF ANY PRODUCT actually has two beginnings.

The first is when the prospect recognizes the need for the product, and the second—and most important to you—is when he decides on the brand name he will buy.

Somewhere between the two he talks with his neighbors, listens to the advice of his friends, and is influenced in his choice.

It is this influence of an acquaintance, the believability of a friend, that decides your prospect in favor of your brand—or a competitor's.

In seven of America's wealthy markets you can take part in this discussion of product merit by using the friendly voice of the FORT INDUSTRY STATION. For 24 years, you see, FORT INDUSTRY has been broadcasting in the public interest, has become an integral part of the communities it serves, has been building a loyal, responsive audience which will listen to and believe in your message.

The Pioneers; Bless 'Em

COMPARE the television picture today with what it was, say, four years ago. Then, there were 20 commercial stations—all losing money and bragging about it.

Today there are 107 stations, most of them making money on a day-to-day operating basis.

In the quest for assignments, notably in the coveted VHF band, every conceivable kind of device is being used by applicants and prospective applicants to rework existing allocations to accommodate their presumed requirements. Some suggestions are for reallocations which would remove existing stations from their present VHF assignments on grounds of need for service in other areas.

The Commission, it is expected, will do that which is engineeringly feasible, and at the same time provide maximum service to the public. That it would uproot existing stations merely because newcomers claim they would be at a competitive disadvantage, is inconceivable.

Those existing telecasters risked their capital when there were few if any receivers. They could only dream their future. They were confronted with such formidable technical obstacles as G2-Laver and tropospheric interference. Then TV began to pay off. And the rush for assignments was on. Came the freeze.

Before the September, 1948 freeze, all had the same chance—if they wanted to risk the roll of the TV dice. Those that didn't should have no recriminations. It is to be expected that the Commission—when that freeze is thawed—will take into account the extenuating circumstances existent in some cases, and the fine public service rendered by established radio stations in others,

It is only fair play to let the pioneers of TV alone. In their spheres, they are Carnegies, the Fords, the Firestones and the Ochs, who ventured their vision, judgment and capital before the handwagon started rolling.

Hell Benton for Election

THERE IS every indication that the build-up for a new offensive against commercial radio and television is taking place.

Senator Benton, the self-appointed general of this campaign (and a candidate for election next year), has pressured the Senate Interstate and Foreign Commerce Committee into scheduling another hearing on his proposed legislation to create a National Citizens Advisory Board on Radio and Television.

He has also managed to catch the chairman of the FCC in what must have been a weak moment and obtain what Sen. Benton says is Wayne Coy's endorsement of the bill.

Presumably Mr. Coy goes along with the Senator's explanation that the board would not impinge upon the Commission's regulatory authority and functions.

Maybe Mr. Coy believes this, but we don't. Senator Benton himself has nullified this explanation in an article that he wrote for last week's *Saturday Review of Literature*. The Senator said in one sentence that his proposed board would not be "subject to the charge of censorship" and in the next, however, that "its potency should not be underestimated."

If a board, established by an Act of Congress, exercises a potent influence in the field of radio and television, it certainly would be

engaging in censorship by indirection, which is to say censorship, period.

Mr. Benton also figures in events connected with the letter sent by Mr. Coy last week to Senator Johnson, chairman of the Senate commerce committee. The letter was intended to correct testimony that Mr. Coy gave at a recent committee hearing in which Senator Benton, although not a member of the committee, participated as an interrogator.

Mr. Coy wanted to revise his testimony to make the point that he now believed, on advice of the FCC general counsel, that the Commission had the statutory authority to fix percentages of time that broadcasters should devote to this or that kind of programming, although he carefully added that he did not believe it would be desirable for the Commission to do so.

This is another part of the Benton offensive. The Senator urges that the FCC force stations to devote definite time for educational programs (although he still hasn't been able to define what an educational program is).

At the NARTB district meeting in Roanoke a fortnight ago there emerged a vigorous resolution, condemning the Benton legislation for what it is—censorship. The text is published in this issue. We hope every district will follow the lead of the Fourth District, which has cradled many a crusade.

Sen. Benton never lets go. The only way to lick him is at his own game. Every broadcaster interested in the preservation of radio's freedom should see to it that a copy of that resolution reaches his full Congressional delegation. The weight of that opposition can break Benton's pedagogic huckstering.

TV's Golden Spike

ANOTHER STEP—and a long one—toward a truly nationwide TV network service will be completed about Nov. 1 when AT&T will open its new transcontinental microwave radio relay for two-way TV program transmission from coast-to-coast. Two months earlier during the week of Sept. 3 to 9, a temporary one-way circuit will permit the nation's televisioners to watch the Japanese peace treaty conference. About Oct. 1, in time for the World Series, a permanent east-to-west TV circuit will be put into service, to be joined a month later by a second west-to-east transcontinental link.

Without depreciating the tremendous task of installing the relay, it seems wise to point out that the addition of two transcontinental TV highways will not solve all of video's major problems. Two circuits will not carry the programs of four networks at the same time; competing sponsors during choice evening hours will still have to rely on kinescopes to reach many markets; network officials will still have to negotiate time-sharing arrangements for AT&T facilities. And until the FCC unfreezes the ban on station construction even AT&T cannot extend television to more than the 63 markets now receiving service.

But the contributions of the new coast-to-coast connection to television will be great. The vast resources of Hollywood talent will become available for TV programming. It will make sports and other special event telecasts available to larger audiences. The possibility for nationwide telecasts of major campaign speeches of the Presidential candidates and the resulting effect on the elections would, of itself, warrant the expense and labor involved.

What will probably be the relay's great contribution in the immediate future, however, is to lessen the pressure on New York's limited TV studio facilities. Originating even a small part of the TV program service from Hollywood will allow more studio rehearsal time for all shows, which should result in better entertainment for all viewers.

our respects to:

RICHARD RUDOLPH

RICHARD RUDOLPH, the uninhibited general sales manager of the irrepressible WITH Baltimore, is 51 today. Presumably he will celebrate the occasion with the dignity and exaltation it deserves—by selling some radio time, a pursuit which Mr. Rudolph has described as transcending in its challenges and rewards such fly-by-night fields as surgery, jurisprudence or ecclesiastics.

Salesmanship, Mr. Rudolph has written with apostolic fervor, is "the most interesting, most difficult and most valuable art and science . . . which requires the finest and noblest qualities of manhood."

Mr. Rudolph himself has risen courageously to the exacting demands of his profession. By his own tally, he has sold nearly \$2 million in radio time in the 10 years he has been at WITH, a record which he recently pointed out was "a mark for competition to shoot at."

By no means exhausted by his own selling efforts, Mr. Rudolph has composed a manual for fledgling hawkers on his staff. A model of brevity, the manual presents Mr. Rudolph's course of instructions in the "most difficult art and science" in seven mimeographed pages.

New salesmen joining the WITH force are presented with Mr. Rudolph's manual and urged to study it. "You will be surprised how readily you will find here the solution to all your difficulties," the instructions say.

The manual contains common objections raised by prospective advertisers and answers which radio salesmen can quickly call to mind.

It is inspirational in tone. "By mastering salesmanship . . . by winning out in a mental battle with the prospect, by inducing him to want what he did not want before you talked to him, you become master of yourself," the manual says.

"The reward of salesmanship therefore is not in dollars only—it is more in power acquired and characters strengthened. It has no price on the trade markets of the world."

Such encouragement has provided urgent inspiration to an unreported but, Mr. Rudolph says, substantial number of WITH salesmen who, trained on this yeasty prose, have gone elsewhere to become managers of other stations. Mr. Rudolph himself has not ignored his own advice.

In a testimonial to his manual, he recently reported it had "helped me sell an average of over \$200,000 per year of radio time personally in addition to my duties as general sales manager over six time salesmen."

He added that he had been told that "my

record of nearly \$2 million in less than 10 years is the best individual sales record in the entire country, since it is produced on a \$7 per spot rate."

Mr. Rudolph describes himself as a tough-minded realist. He measures the value of his radio programs, many of them original, by the sales they produce. He says that his philosophy is "Never sell a client anything that he does not believe will do an effective job."

This super-salesman is constantly on the lookout for new program ideas. One program idea, *The Town Crier*, is rounding out its fifth year of sponsorship by one of Baltimore's leading department stores.

Mr. Rudolph feels that such strong program and merchandizing ideas will do more than anything else to keep merchants sold on the effectiveness and low cost of radio.

Ideally, Mr. Rudolph feels that accounts should regard station time salesmen as one of their own personal merchandising and promotion counsel. He aims toward that ideal in servicing his accounts.

Mr. Rudolph was born in Baltimore Sept. 3, 1900, and has never left home. He attended City College and Johns Hopkins U., both Baltimore, and then went to work as an insurance salesman.

Later he joined the advertising

department of the *Baltimore News-Post* where he eventually became assistant advertising manager. After 10 years with the paper, he organized a business that conducted public opinion surveys and two years after that joined WITH as a salesman.

In his present post as general sales manager he not only directs the department but also services 75 accounts of his own.

He has three sons: Alvan, an insurance salesman; Erwin, who is in government service, and Howard, who is WITH's senior announcer and a disc jockey on the station.

For relaxation Mr. Rudolph plays golf and on each weekend he plays 18 innings of softball. As might be expected, he pitches for his team.

Eleanor P. Geer

ELEANOR PACKER GEER, 46, traffic manager at WNAC Boston, Yankee Network outlet, died in Melrose, Mass., Aug. 24 following a brief illness. Miss Geer had been associated with the network and station for 22 years during which time she conducted interview-type programs. She also was a pianist on her own program and appeared in vaudeville for several seasons and entertained at service hospitals during World War II. Miss Geer is survived by her mother, Mrs. Charles R. Geer, and a brother, Reginald.

E. Y. FLANIGAN

Radio Veteran Dies in Toledo

FUNERAL SERVICES for Edward Yearsley Flanigan, 59, managing director of WSPD-AM-TV Toledo, were held last Tuesday in Toledo. Burial was in Ottawa Hills Memorial Park, Toledo.

Mr. Flanigan

Mr. Flanigan died Aug. 25 at the Toledo Hospital after an illness of only a week. He had contracted pneumonia while summing at his fishing lodge at Wampler's Lake, Mich.

Born in Pittsburgh, Mr. Flanigan attended Taizey Art School there. After several years in advertising departments of newspapers, he joined WSPD in 1931 as a salesman. In 1933, he was named sales manager. Mr. Flanigan was made station manager in 1941. In 1948 he was appointed vice president of the parent Fort Industry Co., in charge of the Toledo broadcast properties.

An ex-president of the Ohio Assn. of Broadcasters, Mr. Flanigan also was active in NAB (now NARTB) affairs. He was one of the original five men to form the NAB's sales managers committee. This committee was the forerunner of NAB's Dept. of Broadcast Advertising, which today has become the BAB.

Surviving are his widow, Mrs. Anna Carmen Flanigan; daughters, Mrs. Earl Harrison of Toledo, Mrs. Robert Firestone of Raymond, Wash.; a son, Russell Biddle Flanigan, of Toledo, and four granddaughters.

Mrs. Jessie Johnson

MRS. JESSIE R. PARSONS JOHNSON, vice president and secretary of the Brockway Co., owner of *Watertown* (N. Y.) *Daily Times* and WNY Watertown, died Aug. 27, apparently of a heart attack, at her summer home in Henderson Harbor, N. Y. She was the widow of Harold B. Johnson, editor-publisher of the *Times* until his death in 1949. Her only son, John B. Johnson, now editor-publisher, survives.

Edgar Higgins

EDGAR HIGGINS, 46, a member of the DuMont Television Network's news staff, was found dead in his New York apartment Aug. 25, reportedly from an overdose of sleeping tablets. He had been with DuMont for the past year and was one of the writers for the *Broadway to Hollywood* show. Prior to joining DuMont, Mr. Higgins had been associated with NBC. He is survived by a sister and four brothers.

NPA CLARIFIES

New Construction Guide Issued

THE GOVERNMENT last week clarified its regulations governing new construction which entail use of substantial amounts of critical materials by broadcasters and other commercial, industrial and home builders.

The National Production Authority released a set of 44 representative questions and answers to guide broadcasters in applying for authorization under the Controlled Materials Plan beginning Oct. 1 [BROADCASTING • TELECASTING, Aug. 13, 6, May 14].

Confronted with charges, that its so-called "freeze" order on new construction is a "nightmare of confusion"—the charge had been leveled by members of Congress and news agencies—NPA spelled out specifics designed to clear the air.

Leading the attack was the Washington *Evening Star* (WMAL-AM-FM-TV Washington). The newspaper quoted a government official as saying "the whole thing would be funny, if it were not so gruesome." Referring to both the original order and the amended regulation, the *Evening Star* quipped:

"The simplest thing you can say about M-4A is that it replaces a previous order called M-4."

Following is a series of 12 questions and answers issued by NPA which apply generally to all builders and specifically to broadcasters:

Q. How does the controlled mate-

ries these amounts in his application for materials.

Q. If estimated needs are insufficient, can further materials be authorized later?

A. If sufficient materials are not obtained for building upon first authorization, the builder may reapply for additional materials later on. There is no guarantee, however, that further allotments will be made.

Q. If building was started before the new regulations went into effect, must authorization for necessary additional materials be obtained?

A. Authorization is necessary only where the builder, for completion of his project, requires delivery after October 1 of more materials than he can self-authorize.

Q. If building has not been started before the new regulations are in effect and the builder has the necessary materials on hand, must authorization to start construction be obtained?

A. No. But he may not use the materials to build apartment houses, or recreation, amusement and entertainment facilities.

Q. If a builder has received authorization to start construction before the new regulations are in effect and has not yet started his project, must he reapply for authorization?

A. He need not reapply for authorization unless he is unable to receive delivery on the necessary materials before the new regulations are in effect. If he requires amounts larger than those permitted by self-authorization, he must file his application with the appropriate agency.

Q. Under what circumstances may a builder make application for adjustment or exception to NPA's construction orders and regulations?

A. If a builder feels that the regulations work an undue hardship upon him, not suffered by others in the same industry, or if he feels that the enforcement against him is not in the interest of the defense program, he may file an application (NPAF-24A) for adjustment or exception.

Q. Where can application forms (CMP4-C) for building projects be obtained?

A. Application forms may be obtained at any Regional or District Office of the Department of Commerce.

Q. Where are applications for general commercial construction filed?

A. Applications for commercial construction such as stores, office buildings, warehouses, and other types of construction not delegated to other agencies, should be filed with the Facilities and Construction Bureau of NPA, Washington, D. C.

SET PRODUCTION

Vacations Bring Lowest Level VACATION shutdown in manufacturing plants carried July radio and TV set production to the lowest level of the year, according to Radio Mfrs. Assn. Declines of more than 50% were recorded as radio output dropped to 539,500 and TV to 116,000 sets, RTMA found. Figures cover the entire manufacturing industry.

Revised RTMA estimates show radio set production totaled 8,413,136 for the first seven months of 1951. TV set production totaled 3,483,674 units. Radio production during this 30-week period consisted of 4,233,611 home sets, 3,264,043 auto sets and 915,482 portables.

MILITARY NEEDS

McDaniel Speaks in West

MILITARY PROCUREMENT of electronics and communications equipment is currently running at the rate of \$3.8 billion a year, Glen McDaniel, president of the Radio-Television Mfrs. Assn. said a fortnight ago in a speech to western manufacturers and engineers at San Francisco's Pacific Electronic Exhibit.

But the RTMA president quickly squeezed the water out of that figure by warning that only 20% is for items that can be manufactured by radio-TV manufacturers on a mass production basis.

Contracts actually let during 1950-51 fiscal year total \$3.8 billion, Mr. McDaniel reported. About the same amount is scheduled for 1951-52 fiscal year, making a total of \$7.6 billion electronic-communication war contracts for the two years, he said.

However, if only 20% is for products that can be made by radio-TV manufacturers, that means the small amount of \$1.5 billion for the radio-TV industry for both years.

\$2.5 Billion in 1950

Radio-TV industry produced \$2.5 billion worth of products in 1950, Mr. McDaniel said.

Biggest military order the average radio-TV manufacturer can get is for 50-60,000 units, the RTMA executive said. Although that amount can be run in 10-15 days, it takes 18 months to prepare production lines, he added. That is because most of the equipment is complex and new, he said.

Using a June 1951 RTMA survey, Mr. McDaniel showed that on the average set and parts manufacturers were using 11% of their capacity for defense work, and 39% for civilian production.

Of the normal 200,000 workers employed by the radio-TV industry, about 50,000 are now out of work, Mr. McDaniel reported.

Electronic equipment represents 32% of the average cost of all combat planes, Mr. McDaniel revealed. In some planes, electronics is 60% of the cost.

DISPERSAL PLAN

Hill Resists Truman

THE GOVERNMENT's plan for dispersal of industrial plants has stirred up stiff opposition on Capitol Hill and equally stern reassurances from President Truman.

Core of resistance to the executive order, which would grant tax and other benefits to qualified firms, centered around Sen. Edward Martin (R-Pa.). He sponsored a proposal, in the form of a proposed amendment to the 1950 Defense Production Act, that preference in loans and allocations of materials "shall not be given to facilities which meet any specified standards of dispersal."

'Misunderstood'

Charged with a "direct and flagrant defiance of the express will of Congress," the Chief Executive at his Aug. 23 news conference told newsmen the order is being "misunderstood." He pointed out the order does not contemplate moving existing plants but "merely encourages spacing of new defense and defense-supporting industries a few miles apart."

The plan, drawn up by the Na-

tional Security Resources Board, may have little practical application to electronics firms and less to broadcasters who desire to construct radio-TV facilities in metropolitan areas [BROADCASTING • TELECASTING, Aug. 20].

NEW YORK U.

Announces Radio-TV Courses

NEW YORK U. last week announced its fall 1951 schedule of courses beginning Sept. 24 in radio and television, to include:

Fundamentals of Television; TV Studio Production; TV Script Writing; TV Dramatic Direction; TV Films I; TV Films II; TV Films III; TV Films-Special Effects; Advertising, Radio, TV, and the Law; The Business Side of TV; Radio Production; Radio Announcing I; Radio Announcing II; Tape Recording and Tape Editing; Radio Acting Laboratory; Advanced Radio Acting; Radio Acting Workshop; Radio Actor's Playhouse; Makeup for Stage and TV; Fencing and Swordplay for the theatre; Acting for Stage and TV I—Interpretation; Acting for Stage and TV II—Rehearsal; TV Actors Workshop.

ANA AGENDA

Planned for N. Y. Meet

TENTATIVE agenda for the fall convention of the Assn. of National Advertisers, Sept. 24-26, at the Plaza Hotel, New York, was released by the ANA to BROADCASTING • TELECASTING last week, as follows:

Monday (a.m.) — Speakers: Leo Cherne, Research Institute of America, Andrew Heiskell, *Life Magazine*; and Phil Pillsbury, General Mills.

Monday (p.m.)—Horace Schwerin, Schwerin Research Inc.

Tuesday (a.m.)—Durable Goods Session: Fergus Mead, Buchen Co., Chicago.

Tuesday (a.m.) (Concurrent):—Consumer goods session: Don B. Hause, Armour & Co., M. B. Hirsch, Shilitos Dept. Store, Cincinnati; Russell Partridge, United Fruit; Clifford Parsells, Ted Bates Co.

Tuesday (p.m.) — Earle Ludigan, Earle Ludigan Co., Chicago.

Wednesday's Agenda

Wednesday (a.m.)—Dr. Roy. Peel, director of U. S. Census Bureau; Marion Harper Jr., McCann-Erickson; Richard Hottelet, CBS correspondent, Berlin; Fairfax Cone, Foote, Cone & Belding, New York.

Wednesday — Luncheon speakers: C. D. Jackson, Radio-Free Europe and *Fortune Magazine* (others to be announced).

Adjournment: Wednesday afternoon.

Monday session is limited to ANA members only; Tuesday sessions are open to agencies and the Tuesday banquet to agencies and media. Wednesday session is open to all.

RADIO TRUCKS

ECA Aid to Vietnam

ECA has turned over to the government of Vietnam, Indochina, 10 radio-movie information trucks to be used in combating the spread of communism.

Specially designed for use in rough country, each information truck is equipped with floodlights, 2 kw midget generators, extra fire extinguishers, portable and mounted speakers, projector, master radio-recorder control panel, a collapsible movie screen and nine extra five-gallon fuel tanks, giving the diesel truck a range of 600 miles. ECA said that in small towns and bush villages near Communist territory, radio and movies are all-important methods of communicating with the people.

The trucks were turned over to the Vietnamese government by ECA Representative Leo Hochstetter who said that "a government cannot be truly representative if it cannot communicate with its people, and a people cannot take responsible action unless they understand the problems now dividing the globe and immediately threatening Vietnam."

TV CITY FOR CHICAGO

Broadcasters Cool to Balkin's Plan

ANOTHER AMBITIOUS plan for a Television City in Chicago was projected last week by an insurance executive who estimates the cost at \$250 million. William R. Balkin, who heads his own firm there, envisions a pooled project in which the networks and stations would cooperate in airing radio as well as video shows.

In addition, he would incorporate in the same area exclusive shops of various kinds, swimming pools, a golf course, motels, businesses allied to the broadcast media (talent bookers, model agencies, production firms) and a permanent Science Exposition Hall, a "world TV model."

Mr. Balkin is now attempting to line up an impressive array of civic and industrial leaders to back his project, but no one in the Chicago broadcasting picture had committed his organization in any way by late last week. Several network spokesmen treated the entire idea as an "academic" one, inasmuch as the possibility of pooled facilities "has been tried and found wanting."

One network vice president, who admired the prospect of a Television City but lamented the enormous scope of this one, said nothing "along this line" would be conceivable "for at least 10 years, because we all have commitments on space and facilities."

NBC-TV, which operates WNBQ, is understood to be tied up for an-

FIRMS COMBINE

UPA, Screen Gems Unite

UNION of two television production firms was announced Wednesday when Stephen Bosustow, president of United Productions of America, and Ralph Cohn, of Screen Gems, announced the formation of Screen Gems Div. of UPA, to produce animated film commercials for television.

Under the new setup, the Screen Gems Div. will provide all animated commercials for both parent companies, with the regular sales staff of Screen Gems representing the new division. Screen Gems will continue to produce live commercials and programs as in the past.

The new division, which will be in operation shortly at an estimated cost of \$150,000, will establish studios in New York.

UPA recently won an Academy Award for the one-reel short, "Gerald McBoing-Boing," and has produced commercial cartoons for Ford Motors, Shell Oil, Ponds Tissue, Websters Cigars, and Colgate. Screen Gems, a subsidiary of Columbia Pictures, has produced such films as the 20-second BVD spot, the Hamilton watch live "Peggy and Jim" shorts, and commercials for Blatz, Coca-Cola, Camels, Schlitz, Borden's Zippo, and Pepsodent.

other eight years on its Merchandise Mart lease; ABC for another 6½ at the Civic Opera Bldg. and Merchandise Mart. WGN-TV, owned by the *Chicago Tribune* and affiliated with DuMont, just expanded its N. Michigan Ave. headquarters for television by adding an entire separate building just for video. WBKB(TV), Balaban & Katz station which is affiliated with CBS, has been sold to CBS as an adjunct to the sale of ABC to United Paramount Theatres. CBS, when and if it takes over operation of the video station, is understood to have blueprints readied for construction of its own video center away from present headquarters in the Wrigley Bldg.

'Won't Work'

Another network official decried the entire conception of a video city for all TV stations, asserting "it just wouldn't work." He explained that any TV station would want facilities available at any and all times, and a pooling of studios, rehearsal rooms and facilities would be a stumbling block to any kind of production, local or network. New York stations evidently followed this same theory several years ago when the City of New York offered tax-free land for construction of a television area and was turned down after serious consideration by the networks and independent stations.

Mr. Balkin expects to finance the \$250 million project with contributions, 99-year leases signed by networks and stations and other allied firms, mortgaging by real estate firms and subsidies from "other groups." His brother, David, who is active in the proposed plan also, estimates the city could actually get underway with \$1 million cash.

The city, as projected, would be located on a 5,000-acre tract of land, probably north or northwest of Chicago in order to be accessible to the Great Lakes Naval Training Station, the Army Signal Corps unit at Fort Sheridan, and an air-

port. Buildings devoted to television would occupy about one-half the area, and all would be of Hollywood studio-type construction, one-story high.

Underground emergency TV equipment and facilities would be provided, and all buildings would be built with lead insulation "to protect them from damages of atom rays." The area would be zoned, so that no factories or electrical firms could interfere with TV broadcasting. There would also be a school, for the training of "future TV scientists and electronic engineers to make Chicago great as a TV center."

Mr. Balkin said he planned conferences with network spokesmen this week.

COMPOSER RODGERS

Handles 'Victory' Score

ORIGINAL SCORE for NBC's forthcoming series, *Victory at Sea*, a portrait of U. S. and allied naval operations during the second World War, will be composed by Richard Rodgers, Pulitzer prize-winning composer. The series of 26 half-hour television programs will be on film, actual battle scenes from files of the Navy Dept., British Admiralty, and Canadian Government. C. S. Forester, author of the "Capt. Hornblower" stories, will write the scripts, which Actor-Producer Robert Montgomery will narrate.

Victory at Sea represents the first major attempt by television to tackle the problem of presenting to American people contemporary history on comprehensive, dramatic basis, Sylvester L. (Pat) Weaver Jr., vice president in charge of television said, when he announced the program plans.

POOR TV reception in London, Ont., area, 100 miles from Detroit TV stations, has resulted in erection of rhombic antenna by London Appliance Dealers Assn., where TV signals are amplified, and from where cables are strung to TV receivers in private homes. Service charge is about \$5 per month per home receiving amplified TV signals. Cables cost \$100 to \$125 to each house.

why your next 500-line ad should be on Television

One year ago in the nation's major markets television set circulation passed that of the nation's leading *magazine*, market by market.

Today television set circulation surpasses that of the leading *newspaper* in the nation's major markets (see below).

Now television is firmly established as the No. 1 visual mass medium in your key markets. Television can present your message not only to families which are larger and more prosperous than average, but also to *more* families. And consider this: today's average family head (averaging TV-owners and non-owners) spends 49% more time watching television than reading his newspaper. (TV-owning family heads spend 187% more time watching television).

MAJOR MARKET CIRCULATION		
City	Leading Paper	TV Sets
New York	2,197,518	2,455,000
Los Angeles	396,959	1,003,000
Chicago	917,068	942,000
Philadelphia	711,396	874,000
Boston	564,641	754,000
Cleveland	304,104	486,000
Washington	265,684	278,000
Schenectady-Albany-Troy (3 papers)	142,003	161,000

SOURCES:
ABC (3/31/51)
NBC-TV Set Mfgs.
Est. (8/1/51)
SRDS (8/51)
"Television Today",
Hofstra Study (7/51)

Cost-wise, too, it pays to be on television. For the same money that would buy one 500-line ad in the leading morning newspaper in each of the eight major markets listed above, you can buy *five* one-minute daytime announcements on the leading television station in each market.

If you have always wanted the unparalleled impact and selling power of TV but up to now have been afraid to look at the cost and circulation picture, now is the time to bring yourself up to date on the mass circulation economy of Spot Television. For the facts and figures you need call NBC Spot Sales.

MORE POWER BOOSTS SEEN

As Stations Shift Equipment

MANY MORE than the 45-odd TV stations first believed eligible for power hikes under the FCC's "Fifth Notice" [BROADCASTING • TELECASTING, July 30] are going to be able to boost their signal powers.

That became apparent last week when FCC grants as well as requests showed that stations are (1) changing low-powered transmitters to 5 kw apparatus and (2) moving transmitter sites.

Each such move is approved under present FCC policy—provided that coverage is maintained at the present levels.

However, once the new transmitter is in—or the antenna is relocated—it becomes possible to get special temporary authority to utilize the full 5-kw transmitter output and thus boost the radiated signal to the limit of 50 kw.

That is what WBEN-TV Buffalo plans to do after it moves to new Colden, N. Y., transmitter site, 22 miles from Buffalo. It got FCC approval last week to move, with radiation cut from its present 16.2 kw from a 335-ft. antenna above average terrain to 880 watts from a new 1,195-ft. antenna.

And it has gotten an STA to run its transmitter at 4.8 kw, transmitting a 50-kw signal.

WTTV Changes

WTTV (TV) Bloomington has similar plans. Last week it received FCC approval to modify its homebuilt 1-kw transmitter to 2 kw, but held down to same 6.38 radiated power. It will soon ask the FCC for an STA to run transmitter at full 2-kw output, which will boost the radiated signal to 12.8 kw from present 200-ft. antenna height. Shortly it will ask the FCC for permission to move its antenna to site of its 700-ft. relay tower, southeast of Bloomington, but the radiated signal will remain the same. Owner Sarkes Tarzian is an electronics manufacturer-engineer and he built his own transmitting gear.

WICU (TV) Erie, Pa., got FCC approval last week to substitute a new 5-kw transmitter for its present 500-w job with present 3-kw radiated output. When that is installed, it plans to ask for an STA to run it at full capacity to put out 40 kw from present 165-ft.

antenna [BROADCASTING • TELECASTING, Aug. 27].

WFMY-TV Greensboro got a grant two weeks ago to put a 5-kw transmitter in place of its present 500-w transmitter. It has now asked for an STA to run it at capacity, to put out 16.7 kw from 470-ft. antenna—instead of the present 1.67 kw.

CBS's KTSL (TV) Los Angeles has same idea. It got approval two weeks ago to move to Mt. Wilson, but had its effective radiated power reduced from 9.3 kw to 500 w. On Friday it got an STA to run the transmitter at full 5 kw power, permitting it put out 25 kw, increasing its coverage area threefold. The FCC announcement approving the Mt. Wilson move

erroneously stated that a STA had also been granted for more power.

Undoubtedly both KRON-TV San Francisco and WAAM (TV) Baltimore intend to ask for temporary authority to run transmitters at full output once their requests for antenna changes are approved.

KRON-TV Seeks DA

KRON-TV asked the FCC last week for permission to directionalize its 1,325-ft. San Bruno antenna to suppress westbound signals—which fall over the Pacific Ocean. Since the change would increase materially the signal over the San Francisco-Oakland Bay area, it also asked that its power be re-

duced from 14.5 kw to 9.5 kw so it covers the same 4,300-mile area.

Approval of this request would be significant. The Commission has consistently frowned on TV directional antennas although NBC's WNBK Cleveland has directional features in its antenna which permits it to suppress the signal over Lake Erie.

WAAM wants to build a new 1,780-ft. tower, will reduce effective radiated power from present 26 kw to 2.9 kw. If it gets permission from the FCC, it will no doubt seek an STA to run its transmitter at full power if the freeze is still in force when the tower is up.

The legal rigidity of three-year-
(Continued on page 69)

Y&R TOP BUYER

Of June Network Time

YOUNG & RUBICAM was top agency from the standpoint of buying TV network time for its clients during June—and also during the first six months of 1951—according to an analysis made by BROADCASTING • TELECASTING. Calculations were based on advertisers' purchases of video network time during the month and six-month periods as reported by Publishers Information Bureau, broken down by agencies in accordance with information obtained from each of the four networks.

June TV network time purchases, at gross rates, made by Y&R for its accounts aggregated \$810,732. This total includes \$210,619 worth of ABC-TV time used for *Holiday Hotel*, sponsored on alternate Thursdays by Cluett, Peabody & Co. for Arrow Shirts (\$30,870), and Packard Motor Car Co. (\$23,070); *Pulitzer Prize Playhouse*, sponsored by Joseph E. Schlitz Brewing Co. (\$106,699); Goodyear Tire & Rubber Co.'s *Paul White-man Revue* (\$49,980).

CBS-TV Placements

On CBS-TV during June, Y&R placed *The Goldbergs* for General Foods Corp. (Sanka Coffee) (\$36,180); *Arthur Godfrey's Talent Scouts* for Lever Bros. Co. (Lipton Tea and Soup Mix) (\$34,020); *Bigelow Theatre* for Bigelow-Sanford Carpet Co. (\$2,790); *Fred Waring Show* for General Electric

Co. products (\$88,700), making a total of \$161,690 worth of time purchased from CBS-TV.

Agency's expenditures on NBC-TV during June include \$57,780 for time for *Kukla, Fran & Ollie* for Time Inc. (*Life*); \$79,238 for *The Bert Parks Show*; \$83,000 for *Hopalong Cassidy*, and \$36,600 for *The Aldrich Family*, all three advertising various products of General Foods Corp.; \$115,280 for *Kate*

Smith Show for Hunt Foods, and \$14,580 for time on the same program for Simmons Co. mattresses; \$51,945 for *We, the People* for Gulf Oil Corp. gas and oil. NBC-TV total June gross time sales to Y&R were \$438,423.

Y&R Gross

The Y&R gross combined TV network time purchases for June amount to roughly a third more than the gross of William Esty Co., second ranking agency, which in June had five shows for R. J. Reynolds Tobacco Co., two for Colgate-Palmolive-Peet Co. and one for M&M Ltd. on the video networks, for a gross of \$610,297 worth of time.

Lists of the top 10 TV network agencies for June and for the first half of 1951 show nine of the 10 leaders are the same for both one-month and six-month periods. In the six-month tabulation William H. Weintraub & Co. appears in sixth position, largely due to the more than \$1 million worth of time purchased for *Broadway Open House*, sponsored five nights a week, 11 p.m. to midnight, on NBC-TV by Anchor-Hocking Glass Corp. for its disposable bottles. Program in June dropped from five to three times a week and station list was concurrently curtailed. Kenyon & Eckhardt, ranking sixth on the June list, stood in 11th place in the January-to-June table.

PROGRAM CODE

Faces NARTB-TV Board

TENTATIVE standards for TV programming, moving along swiftly since work was started early this month, will be submitted to the NARTB-TV Board Thursday-Friday. The board will meet at the Cavalier Hotel, Virginia Beach, Va.

Other key TV problems, including such legislative threats as the measures sponsored by Sen. William Benton (D-Conn.) and the TV freeze, will be taken up by the TV Board.

Eugene S. Thomas, WOR-TV New York, is to preside at the meeting as chairman of the TV Board.

Capitol Hill hearings on the Benton measures will overlap the board session, since a subcommittee of the Senate Interstate & Foreign Commerce Committee convenes Wednesday morning and will sit at least two days.

Review Board

This serious legislative threat to TV, involving creation of a national program review board and other restrictions on stations (S-1579, S. J. Res 76), will be discussed by Sen. Benton and other advocates. NARTB representatives will attend the hearings but it is expected opposition witnesses will not be heard until a later date (see story page 23).

In taking up TV program standards the board will review the whole subject from an overall policy standpoint. Three subcommit-

tees have developed tentative language for their portions of the standards but these are subject to revision prior to a meeting of the full standards committee in Washington Oct. 2-3.

At that time the three sections of the code will be analyzed and a complete set of standards is to be submitted to the full NARTB-TV membership Oct. 19 in Chicago.

A subcommittee under chairmanship of Davidson Taylor, NBC, has been considering education and culture, responsibility toward children, acceptability of program material and decency and decorum in production. This group will hold another meeting Sept. 17 in New York.

Another group, headed by Walter J. Damm, WTMJ-TV Milwaukee, has made considerable progress in working out such matters as length of advertising message and other phases of commercial telecasting. The group will meet again in Detroit Sept. 13.

Harold Hough, WBAP-TV Fort Worth, is chairman of the group handling news, public events, religion, community responsibility

and controversial issues. A preliminary document has been prepared, with changes being made by mail circularization.

Opening topic at the two-day board meeting is tentatively slated to be finances and membership. The TV board will be told that total video membership in NARTB comprises 68 stations and two networks.

Dues Decision

The TV directors will face decisions on how to bring all 108 TV stations into membership and what to do about dues of TV stations and applicants as well as aural stations desiring TV service from the association. A complete AM-FM-TV dues schedule, interlocked with Broadcast Advertising Bureau dues, will come before the combined NARTB Radio and TV Boards when they meet in December.

An arrangement by which NARTB aural members may obtain full services of the TV organization for perhaps \$25 per month is to be reviewed by the TV board. This rate, it is understood, could

be applied to bona fide applicants for TV permits.

The board will hear a report by a special all-industry committee investigating tax legislation. The committee is seeking Congressional relief from proposed excess profits tax which works a hardship on telecasting because of its brief existence as an industry.

Other topics coming before the board will include status of litigation based on ASCAP's refusal to grant satisfactory per piece TV licenses; station-agency contract standardization; NARTB services for TV members and subscribers; state association activities; TV engineering problems and the overall regulatory situation.

Slated to attend the meeting from NARTB headquarters are President Harold E. Fellows; Judge Justin Miller, board chairman and general counsel; Thad Brown, director of NARTB's TV organization; C. E. Arney Jr., secretary-treasurer; Robert K. Richards, public affairs director, and Ella Nelson, secretary to Mr. Arney.

Johnson To Speak

SEN. ED C. JOHNSON (D-Col.), chairman of the Senate Interstate & Foreign Commerce Committee, is slated to discuss legislation pending before his committee at the U. S. Chamber of Commerce's transportation-communication committee meeting in Washington this Thursday.

DuMONT OPPOSITION

First Step to Thaw

WHEELS started turning in earnest at the FCC last week as the first step in the TV freeze-end procedure came and passed.

Oppositions to the DuMont plan for a national allocation of channels [BROADCASTING • TELECASTING, Aug. 20] flooded into the Commission on the Aug. 27 deadline date, touching off the first work for the Broadcast Bureau's allocation division that can lead to a final result.

Study of the 128 filings opposing DuMont shows that virtually all objections fell into three equal categories:

● DuMont did not propose any VHF channel for the city involved.

● DuMont did not propose enough VHF channels for the city involved.

● Mileage separation in the DuMont plan is below minimums set by the FCC—180 miles co-channel, 70 miles adjacent channel.

In a few instances other points were made, but the most vehement objection to the DuMont proposal came from KOKX Keokuk, Ia.

"The DuMont plan," it sizzled angrily, "is a plan of definite segregation . . . VHF for the large cities and METRO (sic) areas and the crumbs of allocation, or UHF for the farmers and rural areas!"

Rebuttal for DuMont—and for those participants who care to—is due by Sept. 17. Final legal tech-

nicalities—requests for oral hearing, motions to strike testimony, exceptions, etc.—are due by Oct. 1.

Then the DuMont phase is wound up.

Meanwhile, tomorrow (Tuesday) the first of the specific city-by-city presentations starts. These are the affirmative cases for the New England and Middle Atlantic states (down the eastern seaboard to the District of Columbia).

At weekly intervals thereafter, other geographic groupings will begin filing their cases, continuing to Oct. 22, when the southeastern cities file.

Some 20 days after each initial filing, rebuttals are due.

After a two-week interval, pleadings may be filed.

Mechanics of the "paper" proceedings runs until Nov. 26.

Provided that requests for oral argument and other legal moves can be met in good time, the FCC could lift the freeze soon after the Nov. 26 date.

None, however, in industry or the Commission, have such high hopes. No one at the Commission is willing even to hazard a guess when the freeze might be lifted. Not with more than 1,000 participants to be heard from.

General industry consensus is that the FCC might come to its final decision late in January 1952.

This would mean that grants

would not begin to be made until next March—since the FCC proposes to allow a 30-day grace period for additional applications to be filed before beginning to process those on file.

It probably means the end of 1952 before major markets get grants. That is because in virtually all top markets there are more applicants already than there are channels proposed or available.

Hearings thus are inevitable—protracted hearings in important cities.

Hope that there might be a partial lifting of the freeze as each segment of the country completes its case before the FCC was dashed when it was pointed out that each change in one section could set off a chain reaction affecting contiguous areas.

FCC Technical Research Division's new "UHF Propagation Within Line of Sight" publication, issued last week, already has some consulting engineers in a fret. They say it bolsters their claims that the Commission has not made sufficient allowance for coverage by UHF stations in rough terrain.

It means, they say, that under the proposed engineering standards cities in mountainous areas (like Pittsburgh, Portland, Ore., etc.) are not going to get the same kind of coverage from a UHF station that cities in "smooth" terrain will get.

BALLANTINE BUYS

'Intrigue' in 12 Markets

P. BALLANTINE & SONS, New York, will sponsor a series of adventure films entitled *Intrigue* in 12 eastern cities beginning the first week in October.

Program will be carried on WNBT (TV) New York, WNAC-TV Boston, WNBW (TV) Washington, WRGB (TV) Schenectady, WTAR (TV) Norfolk, WJAR-TV Providence, WTVJ (TV) Miami, WGAL-TV Lancaster and WNEF-TV Binghamton. Philadelphia, New Haven and Wilmington stations will be announced later.

J. Walter Thompson, New York, is the agency. Advertiser will also make the program available for sale to regional and local sponsors in all other TV cities.

INS Wire Opens

INTERNATIONAL News Service's new television wire [BROADCASTING • TELECASTING, July 30] will begin operation today (Monday). The new teletype circuit will transmit up-to-the-minute scripts for use with the newsreel film provided by Telenev Productions, INS affiliate, since 1948. Newest subscribers include WNHC-TV New Haven, Conn., WBAL-TV Baltimore, and WJAR-TV Providence.

DUAL STANDARDS Let Public Decide—Sarnoff

DUAL STANDARDS for color TV is the banner raised by RCA's Board Chairman Brig. Gen. David Sarnoff.

Again this week, he reiterated the position that the FCC must "let the public decide" [BROADCASTING • TELECASTING, Aug. 20].

It now can be assumed that the remainder of the radio-TV manufacturing industry will ask the FCC to authorize its all-industry compatible color TV system in competition with the FCC-sanctioned CBS system. Manufacturers are virtually 100% behind the system evolved by its National Television System Committee. This is substantially the same as the RCA system, which will resume public colorcasts in New York Sept. 10.

If Gen. Sarnoff's predilection for dual standards is the official position of compatible color TV proponents, then the next big question is:

When are they coming to the FCC with an official petition?

Most industry spokesmen still speak of the end of this year or early in January as the time they will be ready to come to the FCC and ask it to look at the improved color system that has been developed from the original RCA dot sequential system shown during the 1949-50 color TV hearings.

However, doubt has been expressed in some quarters as to whether NTSC or RCA will make that schedule.

Commission's Criteria

Doubt is based on fact that any system proffered to the FCC must be a "proved" system—it must meet all of the stiff criteria that the Commission enunciated before it will consider another color TV system. These criteria include field testing, apparatus testing by the Commission's own laboratories, etc.

Certainly, these observers say, it would be folly for either NTSC or RCA to come to the Commission before it had exhausted every possible test to make sure that all those criteria are met.

And that, they say, takes time.

Progress of NTSC toward this end was made clear by Arthur V. Loughran, Hazeltine research vice president and chairman of the NTSC panel on color video standards. In answer to a BROADCASTING • TELECASTING query Mr. Loughran said this:

● NTSC is moving along. The industry is getting closer and closer to agreement on standards for a compatible color system.

● But, that does not mean that the work of the NTSC is about finished. There is a great deal to be done before the system has been fully tested. While all members of the committee are moving just as fast as they can, the emphasis is on doing a completely adequate

job rather than on speed alone. No date has been set for asking the FCC to look at the NTSC system officially.

"We must be careful not to do that until we are sure we've done an adequate job," he added. "To go to the Commission before we are fully ready would serve only to make their job and ours doubly difficult."

What Gen. Sarnoff thinks about the present color situation is summed up in these words from his latest statement:

I yield to no one in my faith in the ultimate possibilities of color TV. It will add importantly to programming and give extra value to advertising . . .

In my judgment, however, authorization by the FCC to operate a completely compatible, all-electronic, high-definition system on a commercial basis is essential, before the potentialities of color TV can be fully translated into a satisfactory service to the public . . .

If given the opportunity to do so,

the public can and will make that decision [importance of compatibility]. I strongly favor giving the public such an opportunity . . .

It seems to me that the present situation calls for consideration by all concerned of the need for recommending to the FCC, that it authorize the use of dual standards which would permit the compatible as well as the incompatible system of color TV to operate commercially. Only under such conditions can the public have the opportunity to see both systems in actual operation, to reach its own decision, and to make its own choice . . .

Only those who fear the public's decision would object to submitting their system to such a competitive test.

RCA's Booklet

In a new 12-page booklet, with color-tinted cover, RCA puts its case to the public for a "compatible, all-electronic" color system.

It details the drawbacks of the presently authorized CBS field sequential color system (incompatibility, mechanical wheel, picture

COMPARING notes at the first annual Snader Telescriptions Corp. sales convention in Hollywood are (l to r): Monroe Mendelsohn, national station service coordinator; Reuben Kaufman, sales head; Louis D. Snader, president; E. Jonny Graff, manager, agency sales; Alan Fischler, West Coast sales service representative; Oliver A. Unger, theatre sales and distribution supervisor.

CHROMATIC TUBE Color Answer, Raibourn Says

TV COLOR tube developed by Chromatic Television Labs provides the long sought answer to color television, Paul Raibourn, Paramount Picture Corp. vice president in charge of television, stated Thursday in an exclusive interview with BROADCASTING • TELECASTING.

Revealing plans to demonstrate the tube produced by the Paramount subsidiary company "within a month," Mr. Raibourn jubilantly announced that "it looks like all the color problems are solved."

"A brilliant new idea popped out of the struggle we were having which wipes out the problem of getting color into the tube," he stated, "and the cost comes way down. We put the idea into the tube and it's amazing how it works."

Mr. Raibourn declined to reveal any details of the construction or operation of the new tube in advance of the demonstration, but he repeated his conviction that it

provides the answer to color. "We're all happy as larks about it," he declared.

Credit for the idea from which the Chromatic color tube was developed should go to Dr. Ernest Lawrence, a consultant and director of Chromatic Television Labs as well as director of the U. of California's radiation laboratory, Mr. Raibourn said. Inventor of the atom-smashing cyclotron and a Nobel Prize winner, Dr. Lawrence first became interested in television as a hobby when he was a graduate student at Yale where, in 1925, he built an all-electronic television system. This hobby has

size limitation, etc) and boosts compatibility on the premise that:

"What's best for the customer is best for RCA . . . we believe that only a compatible system can supply the public with the satisfactory, economical product it requests and that any incompatible system is just not good enough."

Throughout the 8½x3¾-in. booklet, the adjective is always "incompatible" for the CBS system, "compatible" for the RCA system.

Emphasis in the brochures conclusion is that present black-and-white sets will not be obsoleted by color TV, that monochrome programs will continue for "years to come," and that this is a good time to buy a TV set.

Meanwhile, Color Television Inc., San Francisco group whose compatible system was practically ruled out by the FCC in its final color decision and which has not been heard from since, came back into the news last week.

Move into the production of airborne radar and other electronics equipment, was announced by CTI President Arthur S. Matthews.

CTI will initially manufacture \$4 million in military contracts in conjunction with electronics products designer-manufacturer Tomlinson I. Moseley, president, Dalmo Victor Co., San Carlos, Calif.

"With the added engineering and development facilities that will be made available . . . CTI can sooner ready its compatible, all-electronic color system for public acceptance," Mr. Matthews said.

SMPTE Meeting

SOCIETY of Motion Picture & Television Engineers will hold its 70th semi-annual convention Oct. 15-19 at the Hollywood Roosevelt Hotel, Hollywood. Three TV sessions are listed. Banquet Wednesday will be occasion of award presentations, including the new David Sarnoff Gold Medal Award.

FTPC BLASTS

Navy, NCAA TV Plans

AFTER leveling another broadside at the U. S. Naval Academy for doing business with theatre television, the Fair Television Practices Committee last week turned its guns against the National Collegiate Athletic Assn.'s so-called "partial blackout" of football telecasts.

Charles Alldredge, Washington representative of FTPC, sent the organization's protest to Assistant Attorney General H. Graham Morrison, in charge of the Justice Dept.'s Anti-Trust Div.

The Justice Dept. was informed that Westinghouse was being "forced" to pay "spectacularly" high prices for rights to telecast the 10 games permitted under the NCAA plan. These prices, FTPC said, was the "logical result" of the limitations placed on telecasting the games this fall, and are evidence of the "monopoly" resulting from the NCAA policy (for Westinghouse football plans, see story this page).

Letter To Hill

FTPC also released further correspondence between Jerome W. Marks (New York lawyer), chairman of FTPC, and Adm. H. W. Hill, superintendent of the Academy.

The letters followed the original protest sent the Academy by FTPC to the effect that theatre TV is commercial but that it offers no public service features and that the Academy is entirely supported by public funds and therefore duty-bound to the public interest [BROADCASTING • TELECASTING, Aug. 13]. Navy has scheduled some of its fall gridiron games on the Theatre Network Television, and expects to have one of its games regularly home telecast under the NCAA plan.

Adm. Hill pointed out that Navy is a contributing member of NCAA and as such is complying with the TV plan. But, he asserted, the Naval Academy "intercollegiate athletic program is not supported by public funds." The Naval Academy Athletic Assn. provides financial support for the athletic program operation, he said. The admiral noted the funds come from membership dues, contributions, game admissions, sales of radio rights, of television rights, program advertising, program sales, etc.

Marks' Answer

In his rebuttal, Mr. Marks reminded Adm. Hill that while the intercollegiate athletic program of the Academy may not be directly supported by public funds, "the Naval Academy is so supported... and the administration of the Academy has the final and unavoidable responsibility for the policies followed by the Athletic Assn."

Adm. Hill also had supplied the FTPC with its list of TV participa-

tions—one home monochrome telecast, all home games live by CBS color, post game films via CBS and theatre TV to be selected.

Mr. Marks said this list "boiled down" to a single Navy game made available to national TV audiences at the time the game is played.

ARENACAST PLAN

IBC Withholds Opinion

PROPOSAL by a Cleveland arena manager, Jim Hendy, that the fight arenas through the nation install big screen TV sets to carry major boxing bouts for their fight audiences, was still in the early stages of discussion by the International Boxing Club, according to Harry B. Markson, managing director of the IBC.

Commitments to Pabst and Gillette, who sponsor the IBC bouts on television—Pabst on CBS-TV Wednesdays, and Gillette, on NBC-TV Fridays—eliminate any consideration of the arena tie-up for the coming boxing year, Mr. Markson said.

Designed to draw the fans back to the smaller arenas, the Cleveland proposal would bill the televised bouts as the major attractions with the live local semi-final and preliminary fights on the same card. The threat of theatre television receiving all box office receipts from the televised stellar fight attractions, such as the Robinson-Turpin match [BROADCASTING • TELECASTING, Aug. 27] would thereby be averted, according to the Cleveland plan.

PENN PLANS FILMS

Half-Hour Show \$10,000

UNIVERSITY of Pennsylvania is making available for sponsorship a television series of half-hour filmed programs, comprising highlights of the school's home football games plus one game played elsewhere during the coming gridiron season. Programs would be telecast on Saturday evenings, each featuring the game played by Penn that afternoon.

Price is reportedly \$10,000 per half-hour show. Package is being offered to sponsors and agencies by ABC, which still holds a \$125,000 contract with the university for live telecasts of all of Penn's home games. The school was unable to fulfill pact when it agreed to comply with a decision of the National Collegiate Athletic Assn. to restrict football telecasting this fall in an attempt to determine the effect of such telecasts on attendance at the games.

TRADITION — packed post-Thanksgiving Day football game between U. of Penn. and Cornell was added last week to the CBS Color-TV football schedule. The Ivy League game from Franklin Field, Phila., replaces the previously announced Harvard-Yale game, Nov. 24.

NCAA SLATE

Westinghouse Sponsors 21

WESTINGHOUSE will sponsor 21 National Collegiate Athletic Assn. football games on an NBC-TV network of 48 stations this season, but the game schedule will not be released until next Wednesday. This was reported in Chicago last week by Edwin S. Reynolds of New York, NCAA specialist, as he spoke to the NCAA executive council Tuesday.

Mr. Reynolds, who was assigned to correlate the projected program [BROADCASTING • TELECASTING, Aug. 13], said release of games and dates of telecast was postponed until Sept. 5 to protect season ticket sales for the telecasting colleges. Eight schools' teams will appear in two TV games during the season.

The 48-station lineup does not include four West Coast outlets, Mr. Reynolds said, adding that eastern and midwest games will be fed in some instances to the West Coast after November when microwave facilities are in operation regularly.

A minimum of four games and a maximum of seven will be carried on the coast-to-coast microwave relay system by Westinghouse, a spokesman for the Westinghouse agency, Ketchum, McCloud & Grove, Pittsburgh, said last Thursday.

Big Ten Plans

Nineteen colleges have been signed by Westinghouse to participate in the now-frozen limited TV schedule. Westinghouse, it was learned, has signed up every school in the Big Ten that can be picked up on the interconnected network, which led to speculation that at least one of the Big Ten Games will be carried coast-to-coast by the microwave relay system.

The agency representative reported that the colleges have given "wonderful cooperation" to the Westinghouse sponsorship proposals and difficulty in the highly complex schedule was met only with "colleges in marginal areas"—or areas where gate receipts could equal the 2½ times the NBC hourly rate figure offered by Westinghouse on a per-station basis.

NCAA introduced the experimental plan of blacking out specific TV areas three Saturdays out of 10 in an attempt to find out the exact effect of TV in any given area on gate receipts and attendance. Games played Fridays, Saturday nights or Sundays are not affected by the ruling. Among these, for example, is the Notre Dame-U. of Detroit match Oct. 5 in Detroit. Ruling also does not apply to games played before or after the official 10-week season, from Sept. 22 to Nov. 24. The blackouts will be spotted sectionally within this time period.

CBS-TV network presenting new feminine news program, *News at Noon*, Mon.-Fri., 12:15-12:30 p.m., for three weeks beginning Sept. 3.

the big news this Fall...

Rudy Vallee

ON NBC-TV

starring in his own daytime Variety Show...

starting early September, Monday through Friday.*

Sales history will be made in the morning—Just as another great star of radio—Kate Smith—moved into NBC daytime television and moved mountains of merchandise—so do we believe that Rudy Vallee will make sales history in an early daytime period... *No doubt about it*, "The Rudy Vallee Show" is one of the great opportunities to get a head-start in the race for television's vast, responsive 'woman's market.' It will be available for a *strictly limited* period of time. Call us immediately for details... Circle 7-8300.

from

A LADY WITH A PAST

to an advertiser with a future —

in NBC daytime TV

If you've ever been in Cincinnati, or if your client has a single dealer there—then you know all about this lady's past. And you know, too, why she is going National on NBC television this Fall . . . for RUTH LYONS' program, "Fifty Club," has been making history in that mature television market for two years running:

Cincinnati sets-in-use during Ruth Lyons (12 to 1 P. M., Monday through Friday) are the highest among all reported U. S. TV cities.

TV tune-ins jump nearly 100%* when Ruth Lyons goes on the air at noon.

Share of Audience—68.2% Average*

Rating—13.9 Average*

Better call us today for all the facts in the case—its low-cost features will put a gleam in your eye.

WOC-TV

STATE FURNITURE COMPANY—1/2 HR. FILM SHOW WEEKLY
 During Mississippi River flood, State Furniture received carload of mattresses. Warehouse surrounded by flood waters. State Furniture put mattresses directly into stores, told public its problem on two WOC-TV programs. Also used full-page ad in two local dailies.

According to State Furniture's own check on customers, advertising brought \$12,000 in business — of which TV produced 97%.

Immediately thereafter, State Furniture contracted for additional 1/2-hr. show weekly on WOC-TV.

DAIRY QUEEN STORES—20-SECOND ANNOUNCEMENTS

The day before last Easter (Saturday, March 24) "Dairy Queen" bought several 20-second and station ident. announcements to tell public of their Easter opening. Additional plugs were aired early Easter Sunday afternoon — a cold, almost wintry day.

Despite very discouraging weather for sale of frozen confections, WOC-TV announcements gave "Dairy Queen" the largest single day in their history — bigger than any previous day in July or August. Dairy Queen now sponsoring live 15-minute weekly WOC-TV production.

KFI-TV STRIKE

Settlement With TVA Seen

FOUR-MONTH old Television Authority strike against KFI-TV Los Angeles seems headed for settlement following meetings last week between TVA officials and representatives of the new owners of KFI-TV, General Tire & Rubber Co.

Union at the first exploratory meeting presented a contract accepted by the six other local TV stations to management representatives to familiarize them with it, and at a later meeting sought to clarify various points of the contract. Further meetings are expected to be held this week.

Meeting with union executives Peter Prouse, TVA West Coast executives; Ken Carpenter, chairman, West Coast section, TVA national board, and Wayne Oliver, field representative, were Norman Ostby, vice president in charge of station relations, Don Lee Broadcasting System, and Tony La Frano, program manager, Don Lee.

Negotiations between the union and the former owner of the station, Earle C. Anthony, owner of KFI-AM, ceased about three months ago when both parties met a deadlock over the issue of a closed shop.

Mr. Cueto (l) discusses plans with Guiliano Gerbi, also of WOV-Rome. →

KTTV SUIT

Court Filing Expected

NOTICE of \$150,000 suit is expected to be filed this week against KTTV(TV) Los Angeles and others by three attorneys for Morris Braun, MGM property man, who charges lifting of a television script [BROADCASTING • TELECASTING, Aug. 27]. Mr. Braun alleges the KTTV *Batter Up* program is patterned after the television script for his *Play Ball* program idea.

Three others named in suit are Bill Welsh, m.c. of *Batter Up*; Sam Herrick and Art McCautry, director and producer, respectively.

WOR TV SQUARE

Construction Speeded; Dec. 1 Is Goal

"TELEVISION Square," the new WOR-TV New York building and the first in the city to be constructed exclusively for television, will be completed a month ahead of schedule and ready for occupancy Dec. 1. Considered one of the most up-to-date studios extant, the structure is reported to have cost about \$1,250,000.

The two-story, block-sized building was designed with the help of television engineers to stress the requirements of television production. Located on the Upper West Side of the city, the brick and concrete structure will have all facilities for "live" shows on its first floor with film work areas on the second.

Three production rooms, each a self-contained unit with its own announcer's booth, control room, sponsor's booth, and rehearsal room, will be on the ground floor. Two of the studios contain 4,000 square feet of floor space each and the third, equipped with an audience balcony, measures 6,000 square feet. Two makeup rooms and six dressing rooms skirt the studios. A 5,000-foot area for the loading, unloading, and storing of scenery and properties runs the length of the first floor, with doors at each end large enough to admit delivery trucks, and cars or any livestock that might be used on shows.

Each studio will be equipped with 27 counterweighted battens for hanging lighting equipment or temporarily storing scenery near the ceiling, above camera levels. Some 150 pieces of lighting equipment will be used to illuminate each studio.

The main lobby of "Television

Square" has a light board that indicates all entrances to the building with lights that flash when any door except the main entrance is opened. The signal—accompanied by a buzzer sound—remains in operation until the door is closed and secured. Thus trespassing or intrusions that might interrupt a show in progress will be minimized.

Film vaults, cutting and editing rooms, film projection rooms, a small studio for newscasts, and a master control room will occupy the second floor.

Many of the distinctive features of "Television Square" came about as a result of cooperation between WOR-TV and its competitors.

"We went to engineers at CBS, NBC, ABC, and DuMont," Charles Singer, WOR-TV assistant chief engineer who is in charge of the construction, explained, "and asked them what mistakes they had made in building studios so that we could avoid them. We also asked them what installations they would make if they were about to design a new studio. A lot of what is in our building is a result of those talks."

Work on the structure was begun last spring and when it is finished it will consolidate nearly all WOR-TV production activities in its near-50,000 feet of floor space.

WOV FILM

Italy Production Planned

WOV New York, the only AM station in America to have its own studios abroad, establishes another first when it goes into production of television films. Contracts were signed last week for documentaries as well as TV film spots to be produced in Italy by WOV-Rome for the Buitoni Macaroni Corp.

Claire Mann of WJZ-TV New York, currently in Italy, will narrate the English-language documentaries, which will be used for educational indoctrination of American Buitoni employees as well as for Buitoni-sponsored shows to be telecast throughout the U. S. First films will be shot at the company's plant in San Sepolcro and at their chocolate factory in Perugia, Italy.

Segments of the documentaries, with new sound tracks dubbed in, will be edited into TV spots, which will be used to promote the spaghetti firm's products by emphasizing local color and tourist attractions in Italy.

Plans call for use of WOV-Rome mobile equipment—which now provides from one to one and a half hours of taped radio fare daily for New York audiences—to provide trucks and cars for the film crew of 10 technicians. Television staff will be supervised by George Cueto, director of WOV-Rome, and production will begin immediately.

Additional television films to be shot by WOV in Italy are now being discussed, Ralph Weil, WOV general manager, explained, but no commitments have yet been signed. American film stars vacationing in Italy will narrate or emcee the English-language productions, however.

COLOR IN DETROIT

WJBK-TV Demonstrates

DETROIT newsmen and CBS-Columbia Inc. dealers took their first look at CBS-color television last week when WJBK-TV Detroit gave a closed circuit demonstration of the CBS color program *The World and You* at the Detroit Masonic Temple.

Reaction of the viewers, CBS described, was "highly enthusiastic." Bettelou Peterson, TV editor of the *Detroit Free Press*, was quoted by the network as stating "We were all very favorably impressed with the color show . . . the entire color production was much easier on the eye than black-and-white", while *Detroit Times* Reporter Irmengard Pohrt said, "Color television has already proven to be much more realistic than cinema technicolor. . ."

Berliners, including thousands of wide-eyed visitors from Communist East Germany, huddled around video screens set up in more than 100 spots in West Berlin. This was the first look at television for the youngsters. A four-hour show featured several of Europe's top entertainers.

* * *

Telestatus

(Continued from page 66)

were presented at the request of the Economic Cooperation Administration and the U. S. High Commission in Germany.

While there was plenty of good-natured rivalry between RCA and CBS, each was credited with doing a public relations job for America and the U. S. technical know-how.

The State Dept. also reported favorable comment from West Berlin newspapers which carried full reports on the displays, giving particular emphasis to President Truman's message to the Berlin population [BROADCASTING • TELECASTING, Aug. 20].

More Power Boosts

(Continued from page 57)

old freeze is pointed up in request by KOB-TV Albuquerque for permission to continue radiating 5.8 kw. When the FCC granted its CP to *Albuquerque Journal* station in 1948, theoretical computations showed that the 5-kw transmitter and 48-ft. antenna should radiate 4.5 kw output. But when station began operating it put out 5.8 kw.

Thus it is seeking to legitimize the power it has been radiating for three years—solely because TV freeze rules do not permit the FCC to approve any powers greater than those specified in a station's CP.

Film Report . . .

OLD 1890 serials may just fade away, but Charlie Chaplin will run and re-run forever. KTTV (TV) Hollywood has purchased 26 half-hour Chaplain comedies from COMMONWEALTH Film & Television Inc. and FILM CLASSICS Exchange, both New York, for Tuesday evening telecasting.

Rebound is the new title of HING CROSBY Enterprises' *Cry of the City*. Two original stories were bought from Joe Pagano, film writer, for the series.

French acrobats, Swiss yodeling, and gypsy music will provide European flavor for *Cafe Continental*, a group of quarter-hour musical TV films based on visits to well-known *boites* across the sea. Starring Isabel Bigley, currently in Broadway's "Guys and Dolls," the 13 films are produced by STERLING Television, New York, and will be available for general distribution. Conmar Products Corp. sponsored the films on NBC-TV during their first showing.

Top Secret, U.S.A. will depict government intelligence agents at work. Robert Alda will star in the D-N-S Television Productions show. "Mission Rhino" is the first program. It was scripted by Henry Misrock from an original story by Lt. Col. Donald Robinson, former chief historian for SHAEF in Germany.

TV DISC SERIES

Placed in 17 Markets

INITIAL package of "TV Disc Jockey Toons," film accompaniments to song recordings produced by Screen Gems, New York, has been placed in 17 markets within 10 days, Will Baltin, sales manager of the series, announced last week.

Largest sale of the 15 films was to the Wildroot Co., through BBDO for placement in Los Angeles, Chicago, St. Louis, Minneapolis, Buffalo, Omaha, Dallas, and Oklahoma City. Mail Order Network, through the Dorland Agency, also took the package for use in New York, Newark, Washington, D. C., and possibly in Pittsburgh Birmingham, and Toledo. Direct sales were made to three television stations: WNBK (TV) Cleveland, WCPO-TV Cincinnati and WXYZ-TV Detroit. The song-length films, rented for an introductory six-week period, will go on the air about the middle of this month.

DELEGATES to New York State Food Merchants Assn. convention in New York watched CBS color television program daily during their three-day meeting recently as guests of CBS.

UP-MOVIETONE

ABC-TV Buys Service

PURCHASE of the new United Press—Movietone News Service was announced last week by ABC-TV for an October launching on its owned television stations, WJZ-TV New York, WXYZ-TV Detroit, and KECA-TV Los Angeles.

In making the announcement, Slocum Chapin, vice president for ABC-owned TV stations, said "acquisition of this newest and most comprehensive television news coverage, will bring to millions of ABC viewers the finest and fastest television news available anywhere. We feel that through this service ABC viewers will receive the most complete and up-to-telecast coverage of the news, both live and on film, that has thus far been presented in the television field."

Films and stories from the news service which combines the reporterial and camera staffs of UP and Fox Movietone News will be utilized by WJZ-TV to form an overall "television newspaper, Mondays through Fridays, 7:00-7:15 p.m. The station also plans to incorporate the service in an evening newscast, 11-11:10 p.m. and a mid-day program at 1 p.m., Mr. Chapin said.

The Detroit and Los Angeles stations, Mr. Chapin announced, are working out similar programs based on the UP-Fox service.

DUMONT CAMPAIGN

Spotlights TV Receivers

ALLEN B. DuMONT LABS. last week announced an expansive fall advertising campaign based on the theme, "Look Inside . . . Then Compare. See Why DuMonts Do More," to spotlight its DuMont television receiver. George Hakim, advertising manager of the Labs Receiver Sales Div., said that DuMont wants the American public to become "more conscious of the 'insides' of television receivers."

Media to be used include radio and TV spots, film commercials, newspapers in TV cities, and consumer and trade magazines. DuMont agency is Campbell-Ewald Co., New York.

News Network

INS-Telenews, WXEL (TV) Cleveland and McCann-Erickson Inc. have cooperated in establishing a regional network to distribute the daily TV news programs sponsored in five Ohio cities by Standard Oil Co. of Ohio. Each night at 11 p.m., the 10-minute news show is microwaved from WXEL to WSPD-TV Toledo, WLWC (TV) Columbus, WLWD (TV) Dayton and WLWT (TV) Cincinnati, under the supervision of Robert Rowley, WXEL news chief. Programs include the INS-Telenews daily newsreel, plus spot news photos, maps and charts.

TELEMETER

MORE INFORMATION on how Paramount Pictures' "Telemeter" system of subscription-TV works is needed before the FCC can consider granting the request for technical experiments over KTLA Los Angeles. That was the substance of the FCC reply last week to Paramount Pictures' application for permission to run a technical experiment over its TV station in Hollywood.

FCC wants to know what frequencies will be used for the scrambling devices and the coded pulses, how much of an audience will have the Telemeter instrument, who will participate, how many units will be tested.

How Telemeter works was explained fully for first time in Paramount Pictures' Aug. 21 request for experimental approval. It is described in this manner:

No change is required in any of the transmitting equipment. However, by means of equipment at the station, the video signal is scrambled. Through the use of subcarriers in the audio channel, coded pulses are sent out which when received at the TV set which has telemeter equipment attached thereto remove the jitter from the picture.

The telemeter home equipment consists of two units; first, an unscrambling unit which rectifies the scrambled picture sent from the station and which is placed within the actual TV chassis. The second piece of equipment is called the "comparator." This device is approximately 8½ inches high and 4 inches square, and is attached to the TV set by a coaxial cable. Inside the "comparator" is a magnetic tape which records the code sent out over the subcarriers in the audio channel. The "comparator" is a coin-operated mechanism with one coin slot, taking either nickels, dimes, quarters or halves, and is equipped to receive instructions from the TV station as to the price of the designated programs. Such prices in the present setup range from five cents to two dollars, in any multiple of five cents. On the face of the "comparator" are two small windows. One, which will register the charge demanded by the station and, the other which will register the amount paid by the home consumer. Immediately upon turning to any designated channel, the first window will automatically show the price requested by the station. The other window will show the home consumer how much he has put into the box for each program. When these two amounts match, the 'A' device is automatically operated and the show being broadcast becomes unscrambled and intelligible.

Method of payment was described thus:

The "comparator" can be instructed, by the station, to receive payment in any amount from five cents to two dollars in multiples of five. It will operate if an overage is paid, but will not decode if there is insufficient payment. Each program broadcast over the Telemeter System, from a given station, will carry a code number and when payment is made at the home receiver this code number will automatically register on the magnetic tape in the "comparator" so that there is a positive identification of the money paid, plus a record of the rightful allocation.

At given intervals the part of the

Paramount Explains Its System

"comparator" containing the magnetic tape and the money, will be picked up by a Telemeter serviceman and taken to a central point. Here the money will be counted and the magnetic tape read by an electronic computing machine, insuring proper allocation of this money to those persons whose shows were seen via the Telemeter System.

No need for land lines was explained in this manner:

The operation of the Telemeter System requires no land lines of any kind, other than those used in the normal operation of any television set. There is no necessity for telephone or power lines other than those in the norm, as the coded information from the station to the set is completely an air link. The Telemeter System as devised can be used with any existing channel, with any UHF channel, with black and white, or with color and can be attached to any standard television set now being manufactured.

The experimental work will be done in conjunction with International Telemeter Corp., who have designed and built the aforementioned device.

International Telemeter Corp. intends to monitor these experimental programs in locations of weak and strong signals, close to the trans-

mitter and in fringe areas, and with all makes and models of sets, with and without decoding and coin-operated apparatus, and in the presence of multipath and line of sight signals with the intent of making a thorough survey of any effects of the coded signals on all types of home receiving sets in all locations. . . .

ation and control of the broadcast facilities proposed to be owned by it or its subsidiaries and to obtain full information as to the individual or individuals authorized to formulate and execute such policies.

5. To obtain full information with respect to the policies and plans of American Broadcasting-Paramount Theatres Inc., relating to any arrangements contemplated for the televising of selected programs in theatres to the exclusion of other outlets.

6. To obtain full information with respect to the restrictions, if any, to be imposed by American Broadcasting-Paramount Theatres Inc., on broadcast stations in the use, inter alia, of motion picture films or stories exhibited by transferee or restrictions imposed on broadcast stations in the use of talent under contract to or employed by the transferee.

7. To obtain full information with respect to the plans of the transferees for the staffing and programming of the broadcast stations proposed to be owned by them.

8. To obtain full information with respect to the plans of the transferee, American Broadcasting-Paramount Theatres Inc., in the event of grant of its above applications, to comply with the Commission's Rules and Regulations relative to multiple ownership.

9. To determine whether the effect of the proposed merger of American Broadcasting-United Paramount Theatres Inc., if consummated, would substantially lessen competition or tend to monopoly in any line of commerce, in any section of the country.

10. To determine in the light of the evidence adduced under the above issues, whether the applicants, their officers, stockholders and directors, are qualified from the standpoint of character and conduct to be licensees, and whether grant of the above-styled applications would be in the public interest, convenience and necessity.

WSB-TV SALE

Effective Date Postponed

SALE OF WSB-TV Atlanta Channel 8 facilities was held up until Sept. 14 last week when the FCC issued a stay of execution of its Aug. 9 approval of the transfer until it had time to study charges of hidden and multiple ownership, as well as the legal standing of the two petitioners—WGST and E. D. River Jr. [BROADCASTING • TELECASTING, Aug. 27, 20].

Commission's stay order noted that the WGST and River's petitions raised charges not before the FCC at the time of the original grant.

Since Broadcasting Inc., new owners of Channel 8, and Atlanta Newspapers Inc., which plans to move to Channel 2, had requested a 30-day extension for consummation of the sale, the Commission's stay did not cause them undue alarm.

Under FCC rules, a sale must be consummated within 30 days after the Commission approves a transfer. In this case that would have been Sept. 9. But both Atlanta parties had planned to begin their new operations Oct. 1. Thus they had asked for an extension.

Both Broadcasting Inc. and Atlanta Newspapers denied the charges of hidden and multiple ownership, also questioned the legal standing of the petitioners.

show [B. F. Goodrich's *Celebrity Time* on CBS Television]. He did not recall ever seeing it. 'It's on WEWS Cleveland, at 10 p.m. Sunday nights,' I prompted. 'I think we are usually watching *Celebrity Time* about then,' the barber said."

Mr. Tucker adds: "So now there is a still larger B. F. Goodrich sign on the curtain in CBS Studio 41."

This advertising executive likes to think of the days when the rubber company had what he believes was one of its best radio buys—the Max Baer-Primo Carnera heavy-weight boxing championship fight in 1934.

Will Rogers' Take-off

Will Rogers, he remembers, used to present an amusing take-off on the announcer, the late Graham McNamee. The great humorist in a radio broadcast ribbed the McNamee Goodrich commercials.

Mr. Rogers mimicked: "He's up. He's down. He's up again." But, Mr. Rogers would continue, Mr. Graham "would not tell us who was up or who was down until we bought a set of B. F. Goodrich Tires."

Filling in on some background, Mr. Tucker says the reason for the heavy commercial was instructions from the firm to use frequent announcements between rounds if it looked like a short fight. The Baer-Carnera fight was anything but brief, but Mr. McNamee, who thought it would be abbreviated and went heavy through the early rounds, couldn't let up because the audience might forget the sponsor's message.

While B. F. Goodrich manufactures many more products than tires, company policy, according to Mr. Tucker, makes the massed product commercial a rarity. Exception, he says, was last New Year's Eve telecast on CBS on the company's 80th anniversary. That program covered the history of the U. S. and of B. F. Goodrich from 1870 up to Korea.

Mr. Tucker was born in Ottumwa, Iowa, in 1896. When in

UNDERLINING blood plasma drive getting underway next week via radio and television is Army Nurse (Lt.) Helen Gallick of Walter Reed Hospital, Washington, D. C. She holds a bottle of whole blood. Flanking her is Lt. Frank Junell (I), USN, former commercial manager, KEYL-TV San Antonio, now with radio-TV branch of Office of Public Information, Dept. of Defense, and Paul Gaynor, vice president, Buchanan & Co., New York, and on loan to the department in charge of planning and coordinating the blood drive. Purpose of drive is to obtain 2,800,000 pints of plasma to replenish U. S. armed forces' supplies. ➤

high school he started in the newspaper field, working his way through the U. of Wisconsin as correspondent and sportswriter for Chicago and Milwaukee papers. He was sports editor of the *Madison* (Wis.) *Capital Times*.

Next came aviation in the Navy in 1918, followed by more newspaper work.

Mr. Tucker made his bow at B. F. Goodrich in 1919 while he was covering the Wisconsin State Legislature for the *Milwaukee Sentinel*.

In the more than 30-year association with the firm, Mr. Tucker has served in sales, public relations and various advertising divisions. Most successful company campaign, Mr. Tucker believes, is the one led by the Goodrich president, John L. Collyer, encouraging American rubber-producing facilities to free the U. S. from dependence on foreign rubber supply sources.

Mr. Tucker is married and has two children, a son and a daughter, both in their 20s.

When away from his desk, he grows tall "Iowa" corn in his Akron backyard.

Fraternal organization is Beta Theta Pi. He is a member of the Akron and Cleveland Advertising Clubs and the Congress Lake Club, Hartsville, Ohio.

Robert Mathews

FUNERAL services for Robert Mathews, 37, CBS Television Hollywood production facilities manager who died Aug. 27 following a major operation, were to be held last Thursday at American Martyrs Church, Manhattan Beach, Calif. His widow and three children survive.

BLOOD DRIVE

Network Times Scheduled

NETWORK commitments for radio-TV kickoff of the Armed Forces Blood Donor Program next Monday (Sept. 10) were announced by the Dept. of Defense Office of Public Information last Thursday.

Tentative schedule calls for radio playback of the 15-minute taped program on ABC, 10:15-30 p.m.; CBS and MBS, 11:15-30 p.m., and NBC, 11:30-45 p.m., all EDT. On television, ABC-TV plans to carry the film version from 8:30-45 p.m. and DuMont TV Network, 8:15-30 p.m. NBC-TV and CBS-TV schedules were undetermined Thursday.

The special salute was prepared simultaneously for radio and television broadcast, and features messages from Gen. George C. Marshall, Secretary of Defense; Gen. Omar Bradley, chairman of the Joint Chiefs of Staff, and Gen. Matthew Ridgway, UN Far Eastern Commander.

The program will launch a year-long campaign to raise 2,800,000 pints of whole blood and plasma for the armed forces, and enjoys the cooperation of The Advertising Council and NARTB. A continuing series of network spots and special shows, plus local station coverage for community tie-ins, will follow up the network premier [BROADCASTING • TELECASTING, Aug. 20].

milestones

► NBC will mark its 25th year of incorporation as a network on Sept. 9, 67 days before it celebrates the "silver anniversary" of the first NBC network broadcast, November 15, 1926. Silver jubilee of the network is being observed from June continuing through November.

► Bill Henry, newscaster for MBS, celebrated his 28th year on the air Aug. 21.

► Ida A. Kohlhaas, member of KDKA Pittsburgh's auditing department, celebrated her 27th year with the Westinghouse station Aug. 15.

► Columbia Pacific *Meet the Missus Varieties* last month celebrated its seventh year on the air. Harry Koplan, who first joined the show at its inception as an assistant producer, is now producer-m. c. of the audience-participation program.

► Radio director for the Roosevelt Hotel in New Orleans, Charlie Lake, is a 20-year man in the business of radio. First "paid" job was Sept. 1, 1931, at KOY Phoenix. For the past eight years with Roosevelt's radio department, Mr. Lake is only 38 years old.

CBS MORALS CLAUSE Arbitration Favors RWG

DEFEAT of CBS attempts over the past year to insert a morals clause in writers' agreements with the network was ruled last week by the American Arbitration Assn., in proceedings brought by the Radio Writers' Guild. Since CBS agreed to arbitration in its initial contract with the guild, the decision is final.

The CBS clause, considered to have been the network's reaction to Red Channels listings, stipulated that contracts could be terminated any time an artist committed "an offense involving moral turpitude... or which might tend to bring the artist into public disrepute, contempt, scandal or ridicule or which might tend to insult or offend the community... or tend to reflect unfavorably upon CBS, the sponsors, or their advertising agencies or injure the success of the program."

Quotes Arnold

Majority opinion, written by Louis Gannett, writer and critic, and Dr. Harold Taylor, head of Sarah Lawrence College, quoted Matthew Arnold that "Art is a criticism of life." Stating that in the Western democracies in 1951 a creative writer is generally understood to be some one who tells the truth, the opinion said, "it is difficult to see how a writer could avoid tending to offend some seg-

ment of the community by what he creates, even apart from other 'acts or things' which he may commit 'at any time,' since this must obviously include what he does in his leisure hours of conversation, study, experience or action, in which the creative process ferments."

RWG, contending that the morals clause violated the spirit of their

PROMOTE FM

Asheville Meet Sept. 5-6

MEETING of FM broadcasters in North Carolina to discuss means of promoting manufacture and sale of FM sets will be held Sept. 5-6 at Mt. Mitchell and Asheville, N. C.

Barbecue and inspection trip is scheduled Sept. 5 atop Mt. Mitchell, with WMIT (FM) as host. WMIT returned to the air July 1 after having been silenced in April 1950. The station will soon be operating with 325 kw power, according to W. Olin Nisbet Jr., president. Jack Erwin, Zenith distributor in Charlotte, is vice president.

Comdr. E. F. McDonald Jr., president, and Ted Leitzell, public relations director, Zenith Radio Corp., have been invited to the two-day session, along with Zenith distributors and dealers. All FM broadcasters will be welcomed.

Business meeting will be held Sept. 6 at the George Vanderbilt Hotel, Asheville.

WCCO PACKAGE

AM, Stage Shows Bought

A TRAVELING weekly stage show and a half-hour Sunday radio program over WCCO Minneapolis-St. Paul have been purchased by the Northern States Power Co. Both will star Cedric Adams, WCCO newscaster and radio personality.

A "Home Town Social" show, with a troupe of five variety acts, will be given in a different town or city of the area each week. The show includes music, comedy and local appeal and is climaxed by a broadcast of Mr. Adams' Night-time News. The stage show, free to inhabitants, will be sponsored by the local Northern States Power Co. manager.

On the following Sunday, Mr. Adams narrates the story of his visit to each "home town" at 1-1:30 p.m. The program, Your Home Town, also will include portions of interviews with local personalities recorded during the evening stage show. Show was premiered Aug. 26 after heavy promotion.

NATIONAL NIELSEN* RATINGS TOP RADIO PROGRAMS

agreement with the network, signed in 1947, initially sought arbitration through the joint adjustment board. CBS, contending that the clause was an outside argument not pertinent to the original pact, first sought a stay or arbitration from the State Supreme Court and later appealed their negative decision. The five-judge appellate court unanimously ruled that the question was one for arbitration, clearing the way for argument, which was heard last May.

Dissenting opinion in the arbitrators' 2-1 decision was written by Attorney Albert M. Gilbert.

The decision retained for CBS the right to delete offensive material from scripts.

Litvin Burial

DR. PHILIP LITVIN, husband of FCC Examiner Fanny Neyman Litvin, was buried Aug. 30 at Arlington National Cemetery, following funeral services that morning. Dr. Litvin's body was found Aug. 24, four days after he drowned while vacationing with his wife in Montana [BROADCASTING • TELECASTING, Aug. 27].

S. W. GROSS, president Tele-Tone Radio Corp., announces million-dollar defense order for production of telephone-telegraph signal units. Contract is prime agreement with U. S. Army Signal Corps.

Mr. Sam Margulis Shaffer-Brennan-Margulis Adv. Co. St. Louis, Missouri

Dear Sam: Overheard a hen party t'other night right after they'd heard a speech on world affairs. Durned near ever one there sed they kept up on thim's by hissenin' ter th' news... on WCHS! Now, Sam, one w' th' reasons why WCHS outdoes 'em all in southern an' central. West Virginny is th' fack that it has th' best durned news coverage on all levels. Frinstance, at six p. m. when WCHS gives a news round-up it has 62 percent w' th' audience, an' they's five stations in town! Then when Lowell Thomas comes on th' WCHS percent is 72! Yes,

Sam, folks reely lissen ter WCHS— an' don't fergit, these Hooper figgers is jest fer th' city area. They don't include th' big hinterland covered 'most 'scussively by WCHS 5000 watts!

RADIO EMPHASIS

In Journalism Stressed

GREATER emphasis on radio journalism instruction was urged by Prof. Mitchell V. Charnley, U. of Minnesota, in a report to the Council on Radio Journalism, which met Aug. 27 at the U. of Illinois, Champaign, Ill.

The council agreed to change its name to Council on Radio-Television Journalism Inc. The action will be submitted to the 1952 meeting, slated during the NARTB convention.

Baskett Mosse, Northwestern U., was elected council chairman succeeding Floyd K. Baskette, U. of Colorado. Robert K. Richards, NARTB public affairs director, was re-elected secretary-treasurer. Karl Koerper, KMBC Kansas City, who has left the broadcasting business, [BROADCASTING • TELECASTING, Aug. 27], resigned. Ben Chatfield, WMAZ Macon, Ga., and president of the National Assn. of Radio News Directors, was elected a member under the automatic provision covering NARND.

Prof. Charnley's report urged more attention to teachers clinic and a study of procedure covering accreditation of journalism schools.

Amend By-laws

By-laws were amended to increase membership from 10 to 12. The council was formed in 1945 by NARTB and the Assn. of Accredited Schools and Depts. of Journalism. It maintains an internship program by which radio journalism teachers spend the summer serving in radio newsrooms.

Attending the Monday meeting were Arthur M. Barnes, State U. of Iowa; Prof. Baskette; Prof. Charnley; Mr. Koerper; Prof. Mosse; Messrs. Chatfield and Richards. Terms of William Brooks, NBC, and Edward Breen, KVFJ Ft. Dodge, Ia., expire this year. Vacancies will be filled by President Harold E. Fellows, of NARTB.

RCA Tube Dept. has announced low-priced all-electronic vacuum-tube Junior Voltohmyst meter. It is designed to meet service technicians' demands for low-priced voltometer capable of measuring AC volts and DC volts, and resistance in five different ranges.

Mr. Murphy

ART WELSH, reporter CJOR Vancouver, resigns to become Vancouver school teacher.

ANN M. CORRICK, newswoman, TransRadio, appointed chief of staff, Theodore Granik's *American Forum of the Air*, effective Sept. 4.

WCFL-AFRA TALKS

Resume as Recess Ends

NEGOTIATIONS between WCFL, Chicago Federation of Labor station, and American Federation of Radio Artists (AFRA-AFL) on wage increases will be resumed this week after a one-week recess petitioned by CFL President William Lee.

The announcers' union is seeking higher wages for its eight WCFL staff announcers, as well as free-lancers, and wants the minimum weekly wage increased from \$114.35 to \$135, in line with that paid to the "big five" stations in Chicago. AFRA's old contract at WCFL, an independent, expired Oct. 31 last year.

The labor station is also having wage problems with the International Brotherhood of Electrical Workers (AFL), Local 1220, which seeks higher wages on a new contract. Its old one expired 11 months ago, and members reportedly were ready to issue a strike vote until management offered a \$5 general increase for engineers and technicians. This proposal is being studied now.

AFRA's dispute with WGN continues unsettled as two arbitrators, one representing each group, attempts to find a third person amenable to both. The AFRA contract has more than a year to go.

DuMONT SEES

Great Electronic Rise

PREDICTION that the electronics industry, next to steel and aircraft, will be responsible for the greatest contribution to the nation's present military defense effort, was made by Allen B. DuMont, president Allen B. DuMont Labs, Thursday in Pittsburgh.

Dr. DuMont, chief speaker at the Men's Formal Dinner of the 87th Annual convention, Theta Xi Fraternity, told his audience that almost all phases of military operations utilize electronic devices and asserted that "superiority in electronics must be counted as a decisive factor under modern military strategy and tactics."

Increase in electronic production, Dr. DuMont said, has increased 300% in the last six months and will probably expand another 300% in the last half of 1951.

Dr. DuMont also prophesied an upswing in sales of TV receivers for October and November this fall, and said that he anticipated a "normal" holiday sales season. Good color television pictures, Dr. DuMont asserted, will not be received for some years, and the high cost of receivers prohibits mass consumer purchasing.

CBS' *Vaughn Monroe Show* Sept. 1 went off the air for four weeks. Replacing program during that time will be Bill Downs with 8-8:15 p.m. newscast on KNX Hollywood and eastern dance orchestras during 8:15-8:30 p.m. Saturday time slot.

HAROLD J. BOCK, manager NBC West Coast TV operations until he joined Foadare & Greer, Hollywood, publicity and public relations firm, in an advisory capacity few months ago, made associate of firm. Concurrently firm name has been changed to Foadare, Greer & Bock. Before being named to most recent NBC post, one which he held for two years, Mr. Bock was for 15 years director of publicity and public relations for NBC's Western Div. Public relations firm handles radio packages and TV films, in addition to motion picture, and commercial accounts and personalities.

CARLO De ANGELO elected television activities for Emil Mogul Co. Inc., including new and McCann-Erickson agencies. Company has contracted to handle all tele-ment firm. He was with Compton Adv., Sherman & Marquette, N. W. Ayer, dent Productions for Television Inc., package production-talent manage-half - hour show scheduled for ABC-TV this fall.

THEOBOLD HOLSOPLLE, RK0-Pathe and Pine-Thomas staffs, to Jerry Fairbanks Productions, Hollywood, as studio art director.

RUDY FLOTOW, Columbia Pictures producer, to Revue Productions, L. A., as producer on *Stars Over Hollywood* half-hour TV film series currently being sponsored on NBC by Armour & Co. He replaces **SHERMAN HARRIS**, who joins TeeVee Film Co., L. A.

REV. ALBERT J. BARRETT named head of consolidated department of communications arts at Fordham U. He will be in charge of television production courses, given in association with CBS-TV, and of student training for WFUV-FM, university's station, in addition to university theatres and newspaper.

ROBERT S. KELLER Inc., N. Y., appointed sales promotion representative for WESC Greenville, S. C.

DICK MOORES has withdrawn from Illustrate Inc., with his interest being purchased by two remaining partners, **DON DEWAR**, president, and **JACK BOYD**. Mr. Boyd will absorb Moores' duties.

JERRY ALBERT, national director of advertising and public relations United World Films, N. Y., resigns to devote more time to TV program production company he recently formed in association with **WILLIAM HOLLAND**, president of Hyperion Films. Company, Holbert Productions, will start shooting its first films series, *Rockets Are My Racket*, early next month.

FRED R. HAVILAND Jr., senior associate Stewart, Dougall & Assoc., N. Y., market research and management consulting firm, to Minneapolis-Honeywell Regulator Co. in executive capacity.

WYNN NATHAN, United Television Programs, N. Y., resigning to return to West Coast. His future plans will be announced shortly.

BILL WOLFF, program director WKNK Muskegon, Mich., now on leave with Armed Forces, appointed to news-announcing staff American Forces Network headquarters, Frankfurt, Germany.

Equipment . . .

EUGENE F. HAINES, assistant treasurer RCA Victor Div., retires after 50 years with division and predecessor companies.

Mr. Haines

succeeds **GEORGE R. MacDONALD**, who retires in December.

BARTON K. WICKSTRUM, general sales manager of Lighting Div., Sylvania Electric Products, elected vice president and director of sales. He succeeds **ROBERT H. BISHOP**, recently resigned to become vice president E. F. Drew & Co., N. Y. **CHARLES A. BURTON**, lamp sales manager for Sylvania, succeeds Mr. Wickstrum.

RCA announces publication of *Ultra High Frequency Fundamentals*, latest booklet in company's electronic series. New manual prepared as technical aid for UHF training and installation, operation and maintenance of UHF electronic equipment.

BERNARD HECHT, RCA Victor, Camden, named general manager Starrett Television Corp., N. Y.

LOUIS M. ROBB, tube divisions General Electric, Schenectady, appointed district tube representative in central and northern California. He will make headquarters in San Francisco.

M. J. YAHR, sales staff engineering product dept., RCA, appointed manager of RCA sound products sales group, for department.

DAVID HARRIS

Veteran Program Dir. Dies

DAVID H. HARRIS, 41, veteran radio program director, died Aug. 25, in New York after a brief illness.

Mr. Harris

Burial was Wednesday morning at Rosehill Cemetery, Linden, N. J. A Requiem Mass was held Friday morning at St. Elizabeth's Church, New York.

Entering the business world as production director of F. K. Glew Advertising Co., Grand Rapids, Mr. Harris in 1932 became production manager of WOOD-WASH Grand Rapids, remaining there until 1940, when he assumed charge of production and traffic for WXYZ Detroit and the Michigan Radio Network.

In 1942, he became program-production manager of WTAG Worcester, where he produced the *Worcester and the World* series which won for the station the Peabody, duPont, and other awards for 1944.

In 1945, Mr. Harris was appointed program director of WOL Washington. The following year he was made program director of the New York State Radio Bureau in Albany, remaining there until 1948, when he joined WFDR (FM) New York. In recent months he was associated with Chare Productions, New York.

BMI Sept. Clinics

BMI will hold three program clinics in the East during September, Glenn Dolberg, BMI director of station relations, announced: Sept. 17 in Augusta, Me., the following day in Boston, and the 20th in Rochester.

TONY LaFRANO, director of operations, Don Lee Broadcasting System, Hollywood, named broadcasting representative on Southern California executive committee of second Crusade for Freedom by Gen. Frank S. Ross, local chairman.

EMERSON STOCK

Sets Employee Option Plan

EMERSON Radio & Phonograph Corp. last week announced that its board of directors had authorized a restricted stock option plan for key employees of the corporation, with no more than 100,000 shares of unissued capital stock to be available under the plan. Authorization is subject to approval of the stockholders.

Board members, Ferdinand Eberstadt, Richard C. Hunt and George H. Saylor have been named to pass upon qualifications and to select employees to participate in the program. It was made known by Emerson that Benjamin Abrams, president, and Max Abrams, secretary-treasurer, will not participate in the plan.

At the same time, Emerson and its subsidiaries announced a consolidated net profit (before provision for federal income and excess profits taxes) of \$5,762,716 for the 39 week period, ended Aug. 4, 1951, as compared with consolidated net profit (before taxes) of \$6,040,120 for the same period in 1950.

Consolidated net profit for the 39 week period ended Aug. 4, 1951, after taxes, was reported by Emerson as \$3,039,943, equal to \$1.57 per share on 1,935,187 shares outstanding. For the same period ended August 1950, after taxes, Emerson reported \$3,559,827 equal to \$1.84 per share on the same number of shares.

RCA Institute

TOTAL of 178 students were graduated last month from RCA Institutes Inc., one of the oldest technical training schools in America, at commencement exercises held in New York. Maj. Gen. George L. Van Deusen, president of RCA Institutes, reported that during the past year, more than 96% of the school's graduates had found employment in radio, television, or electronics. "At least 100 men in our August class have accepted positions prior to graduation."

Miss Truman To Sing

MARGARET TRUMAN'S singing of "God Bless America" will cap the all-star *Irving Berlin's Salute to America*, a full-hour program of the composer's music to be aired over NBC-TV Wednesday, Sept. 12, 8 p.m. Red Cross Shoes will sponsor the all-star revue, which marks the TV debut of Mr. Berlin, who also is producing and directing the program. The performance will be Miss Truman's first since her recent trip abroad.

RETAIL SALES

Commerce Survey New Eng.

RETAIL sales of independent radio, furniture and other house goods dealers dropped off 10% in Boston for the first seven months of 1951 as compared to a similar period last year, but jumped 5% each in Providence, R. I., and Hartford, Conn., a Commerce Dept. New England survey showed last week.

The radio-furniture-household retail group showed a sharp drop of 31% in retail sales for July 1951 compared to the same month last year, and a 10% decrease off the pace for June. In Providence and Hartford, July '51-July '50 and July '51-June '51 comparisons also showed drops ranging from 5% to 1%. Hartford recorded a monumental slump of 48% for the group during July '51 as against June '51 figures.

The survey did not break down the group into different categories, such as for a similar study of New England counties. In this instance, comprising Suffolk, Providence and Hartford counties, radio-household appliances dealers reported a sharp 25% increase in retail sales for July over June 1951 and a 42% drop in the July '51-July '50 comparisons.

Advisory Board

(Continued from page 23)

came up during a hearing at the suggestion of Sen. Johnson with the support of Sen. Benton. That hearing, July 18, featured testimony by Chairman Coy on a host of subjects, chief among them the freeze and educational television [BROADCASTING • TELECASTING, July 23].

Subsequently, an FCC advisory opinion, authored by the then acting general counsel, Max Goldman, was sent to Sen. Johnson. It indicated that FCC thought Congress should enact a law if it desired the Commission to require commercial broadcast stations to devote a specified percentage of their time to educational programs [BROADCASTING • TELECASTING, July 30].

Mr. Goldman then said that FCC does not have this authority clearly defined.

However, Chairman Coy last week sent a new letter and an additional memorandum, written by FCC General Counsel Ben Cottone, expressing quite a different viewpoint.

In the new memorandum, Mr. Cottone points out that the Goldman memorandum "quite accurately sets out the past attitude of the Commission on the question of the desirability of prescribing specific percentages of time for educational or other uses in the broadcast services."

He said he also thought that

Utica Resolution

UTICA College of Syracuse U. (branch of university located at Utica, N. Y.) has sent to the Senate a resolution adopted by its board of regents supporting the proposed construction of a network of educational TV stations in New York state "as an aid to education." It was referred to the Senate Interstate & Foreign Commerce Committee. Syracuse U. is noted for developing the so-called Syracuse U. Plan featuring cooperative operation between the university and WSYR Syracuse, a commercial station.

"the considerations adduced in that memorandum for the conclusion that clarifying legislation is desirable are considerations of policy and not arguments establishing want of legal authority."

But because FCC thus far has not believed it desirable that in the public interest such action be taken "it cannot be inferred that the Commission lacks authority to take such action under circumstances where it could find, as a matter of policy, that the public interest would be served."

Mr. Cottone pointed out that Congress' clarifying legislation would be useful only as an expression of Congressional "belief that circumstances now warrant

the exercise of the authority . . ."

The section of the Communications Act (Sec. 326) dealing with censorship, Mr. Cottone said, is no bar to the authority of FCC to fix a percentage of time, for "in doing so it is merely specifying classes of stations for which it will issue licenses, and the nature of the service to be rendered as authorized by Sec. 303 . . ." [Sec. 303(b) gives the Commission authority to classify stations and directs it to encourage larger and more effective use of radio in the public interest.]

Chairman Coy, in commenting on Mr. Cottone's memorandum, said he was "especially impressed with his [Mr. Cottone's] observation that the question of statutory authority to allocate percentages of time for educational programs must be kept separate from the policy question of the desirability of making such an allocation."

Chairman Coy said:

I have also given further thought to Mr. Cottone's view that the censorship prohibition of Sec. 326 does not preclude the exercise of authority to make a percentage allocation of broadcast time for educational programs. I am impressed with the point which he makes that in setting up classes of stations, especially in the non-broadcast services, the Commission prescribes the type of communications for which a particular service is available.

I do not think that I would agree that when the Commission provides that commercial programs may not be carried on a non-profit educational station or that entertainment may not be presented on taxicab frequencies, such action is censorship in violation of Sec. 326 of the Act.

In that light, I would now draw a distinction between Commission action in prescribing the nature and content of individual programs, or otherwise intervening in the presentation of individual programs, and in prescribing a general type of service.

Chairman Coy noted, however, that the policy problems involved "are of the most formidable kind, and I have real doubt as to the desirability" of devoting a specified percentage of broadcast time to educational programs.

Foremost difficulty, Chairman Coy emphasized, was an "adequate definition of the term 'educational' program." Educational may be entertaining and vice versa, he explained. Up to now, the FCC has left initial responsibility on the entire problem with the individual station licensee, "acting in the light of his knowledge of local conditions and his practical experience," Chairman Coy concluded.

Meanwhile, Sen. Benton spoke on the floor of the Senate last Monday on the question of educational television and his projected citizens board for the broadcast media.

Again, Sen. Benton announced that "Mr. Wayne Coy has notified me that he is in accord with the bill [to create the board]." The Senator had stressed Chairman Coy's reported agreement to the Senate earlier in August when presenting his revisions in the Senate.

Cites Tideland Rights

During his talk to the Senate, the Connecticut Democrat likened the allocation of television frequen-

cies to the tideland oil rights, saying: "In my own judgment, at least, these frequencies are a more valuable national asset than the tideland oil."

His comments came while introducing for the record his article, "Television With a Conscience," which appeared in an August issue of the *Saturday Review of Literature*.

In the article, Sen. Benton developed four main avenues of action in order to save television from "commercialization and trivialization" as he expressed the alternative to using channels "in the interest of the American people."

These four narrow down to (1) the fixed percentage time idea, (2) the pay-as-you-go system or subscription telecasting, (3) the operation of TV stations by educational institutions and (4) the establishment of the advisory board "with annual recommendations to the FCC, the Congress and the public."

There's a lot of space to grow in the Pine Tree State . . . plenty of elbow room between population centers.

NATURALLY, RADIO SERVES MAINE BEST BUT—
NO ONE STATION SERVES ALL MAINE RADIO HOMES.

That's why you need the first-established, long-accepted three-station facilities of The MAINE BROADCASTING SYSTEM for widest coverage at less cost per thousand homes.

Mother Fuldheim (seated) briefed Daughter Fuldheim just prior to taking off for London. ➤

WEWS SHIFT Daughter Subs for Mother

WHEN Dorothy Fuldheim, news commentator for WEWS (TV) Cleveland, left for a tour of European capitals, her place was taken by Dorothy Fuldheim.

Daughter Fuldheim is taking the air for her mother, regular WEWS commentator, who is taking to the air for her trans-oceanic tour.

Mrs. Fuldheim, during a two-week, 17,000-mile trip, planned to interview important personages in London, Paris, Berlin, Rome and Madrid. While she was away, Miss Fuldheim will serve as her substitute on the Duquesne Brewing Co. news program, *Highlights of the News*.

No stranger to a microphone, Miss Fuldheim has conducted her own TV newscasts. At one time she competed for audience by appearing on FM newscasts while her mother was doing her regular TV stint.

CITES TV THREAT At Publishers' Meeting

TELEVISION was depicted as a threat to the printing and publishing business fortnight ago at the annual convention of the International Photo-Engravers Union of North America (AFL).

Chairman J. B. Fisher of the Gravure Printers Negotiation Committee told the delegates in New York that TV's growth already has upset the advertising market of the publishing field, and warned that the effect of 16 million sets in use by 1952 would be to "take advertising dollars locally as well as nationally." Advertising money which otherwise would be allocated to the publishing industry, he said, is going at least in part to television.

PRODUCTION FIRM Set Up for TV in Houston

ORGANIZATION of a TV production firm, Montrose Studios, Houston, to turn out spot announcement cartoons, shorts, features and other material has been announced by Bill Wilson, account executive at KCOH Houston, who will head up sales and promotions for the new firm.

Production schedules designed to produce material for KPRC-TV Houston and other TV outlets, with the eventual lifting of the freeze, are now being mapped, according to Mr. Wilson. Organization will comprise staffs for makeup and dance numbers and include two cameramen and film editors, a director to handle scripts and production, and a business manager. Firm will be located at 4401 Montrose Blvd., Houston.

KLAC-TV Hollywood has completed construction of its new art stage unit, erected at cost of \$18,750. It allows 2,500 square feet for construction of props, sets and backdrops for TV programs.

CREDITS WATV Rep. Rodino Cites Programs

CONGRATULATING WATV (TV) Newark on its first year anniversary in programming *Federal Affairs Forum*, a New Jersey Congressman has credited the station in taking "the lead in producing educational programs."

In the Aug. 17 *Congressional Record*, Rep. Peter W. Rodino Jr., a Democrat, said "at the present time we are hearing a great deal about educational television and the fact that so few television programs have a serious informational content." WATV's programs, including *Know Your State*, are examples of "civic functions that fulfill a great need on the part of our citizens," he said. "Only with leadership like this in our radio and television stations can we here in Congress be assured that our citizens are being fully informed through all modern media of communications."

The forum program features interviews with members of Congress and of government by college students from the metropolitan area.

Animal Talent

LIVESTOCK and pets were stars on their own show series via TV in Milwaukee fortnight ago as the American Veterinary Medical Assn. met for a four-day convention. Four hour-long closed circuit telecasts originated from Milwaukee Auditorium with cows, horses, pigs, dogs and cats appearing in medical demonstrations for 2,700 veterinarians. They watched clinical techniques on two 6-by-9-foot screens a floor above the origination site. The telecasts, believed to be the first ever involving animal surgery, included demonstrations of anaesthetizing so that animal operations can be performed painlessly; cattle disease tests, and autopsies on poultry to ascertain the diseases causing death. Equipment was installed in cooperation with WTMJ-TV Milwaukee.

TV DEGREES

Presented at WGN Course

TV B. S. degrees have been awarded five members of the staff of the Chicago Board of Education's Radio Council. The degree—Television, Back Stage—was earned by the quintet after a one-week observation course at WGN-TV Chicago. The project, instigated by Radio Council Director George Jennings, enabled each of the five students to see the various kinds of TV shows, starting with rehearsal and continuing through the on-air telecast.

The group studied all technical aspects, including engineering, film production and camera work, as well as the production and sales angles of programming. They hopped a ride with a station mobile unit from the garage to the ball park to see a remote pickup; accompanied a WGN-TV newsreel cameraman on his assignment, and watch the shooting, developing and editing of film.

Mr. Jennings, long an advocate of educational radio and TV, pointed out that the station's training program for his men "is an outstanding example of helpful service to education by a commercial television station. The educator cannot use these modern technical developments in communication without knowledge of them first hand."

AT INAUGURATION in New York of AT&T's \$40 million, 3,000-mile transcontinental microwave radio relay for telephone service Aug. 17 were (l to r): H. T. Killingsworth, AT&T vice president in charge of the Long Lines Div.; Wayne Coy, FCC chairman, and Cleo F. Craig, AT&T president. Ceremony marked the first phone call to span the country by radio rather than by wire or cable [BROADCASTING • TELECASTING, Aug. 20].

GRIDIRON SPONSORS

Nine More
Set Plans

ON the eve of football's 1951 regular season debut, more than a score additional sponsors have joined the lengthening list of gridiron broadcast sponsors [BROADCASTING • TELECASTING, Aug. 20].

Latest reports include:

Professional, college and high school football will be broadcast this fall by KQV Pittsburgh. Station Manager James F. Murray reports four exhibition games of the Pittsburgh Steelers, MBS' 10 college football *Games of the Week*, and eight Mount Lebanon High School games will be carried. Local sponsor, Sylvania TV dealers, has been signed for the MBS games. High school contests will have local Kaiser-Frazer dealers paying the tab. Professional tilts are being sponsored by Atlantic Refining Co.

On the West Coast, Seattle-First National Bank, through Pacific National Adv. Agency, Seattle, has signed for three weekly sportcasts over KING-AM-TV Seattle, starting Sept. 26. Programs, covering U. of Washington football and basketball with previews and postgame analyses, run for 26 weeks. TV show presents film highlights of previous weekend games with comment by university football coach, Howie Odell, or basketball coach, Tippy Dye.

KWG Schedule

KWG Stockton, Calif., of the McClatchy stations, has a full football schedule: Ten home and road games of the College of the Pacific, sponsor, Tidewater Associated Oil Co.; professional San Francisco '49ers (17 games), sponsor, Goebel Brewing Co., and seven *Game of the Week* (ABC) broadcasts. Station also will air two weekly football programs.

In Albany, N. Y., WPTR will cover four exhibition games and 12 season contests of the New York Giants, professional footballers. Sponsor is Miller's High Life beer.

Eleventh pigskin year for WKRC Cincinnati, with Syd Cornell and Ed Kennedy calling the plays,

again features the complete U. of Cincinnati schedule. Sponsor is Frisch Restaurants of Cincinnati.

WCFL, Chicago Federation of Labor station, after prolonged negotiation, has obtained rights to 17 Chicago Cardinals contests which include both regular and exhibition games of the professional team. Package, with pre and postgame shows, will sell for about \$45,000. Sinclair Oil Co. is picking up the check for the regular season games. American Vitamins, U. S. Steel, Atlas Brewing and Sandra Motors are expected to be adjacent sponsors of exhibition slate.

KYW Philadelphia has been granted exclusive air rights to the 10-game home and road schedule of Temple U. Plans call for Sportscasters Allan Gans and Lee Allen to handle four night and six afternoon contests commencing Sept. 21. Games will be played on Fridays and Saturdays.

Stations also reported other pigskin activity. WWSW Pittsburgh Sports Director Joe Tucker has completed a series of tape-recorded interviews with Pittsburgh Steelers stars for use on his sportcasts. Mr. Tucker will handle play-by-play of pro games on WWSW for the 16th consecutive year this season.

Philco Distributors Inc., and metropolitan Philco dealers will present play-by-play broadcasts of the Notre Dame football schedule over WMCA New York, starting with the Indiana game on Sept. 29.

Joe Boland, one-time Notre Dame player and line coach, will handle the broadcasts, which will include all of the "Fighting Irish" games except the Notre Dame-Navy game on Oct. 6. Substitute for Navy game is Army-Northwestern.

CD MONIES

Media Spending Tops Govt.

RADIO and television stations, the advertising industry and other public media "have already spent far more money in terms of space and time than has been spent by the federal, state or local governments" on civil defense, members of Congress have been told.

Millard F. Caldwell Jr., Federal Civil Defense Administrator, told a House Appropriations subcommittee that civil defense would have "fared badly" if it had been forced to rely on the federal government. Hearings on civil defense and other appropriations were released fortnight ago [BROADCASTING • TELECASTING, Aug. 27].

"We have received remarkable support from all the media of information and have assurance of greater support in the future," Mr. Caldwell said, citing radio and TV, and other media activity.

FCDA funds were pared almost 90% by the House—from \$535 million to \$65,255,000—although monies for the communications warning system (\$4,170,000) and public information and education (\$1,545,000) were approved without reduction. The House committee had stressed the importance of education (media) as the "basic" concept for national civil defense.

Protests over the broad cuts in CD funds have been lodged by the National Civil Defense Advisory Council and other groups. The bill for supplemental funds now pends before the Senate Appropriations Committee.

SAG-AMPP

Negotiate New Contract

SCREEN ACTORS GUILD will open negotiations for a new contract with the Assn. of Motion Picture Producers on Sept. 17, it has been announced jointly by John Dales Jr., SAG executive secretary, and Charles Boren, vice president in charge of industrial relations, AMPP.

Among major proposals the guild will present to the producers are the calling for repayment to actors of their original salaries for each reshooting of a motion picture on television in the same viewing area, and the banning from television showing of all theatrical pictures made after Aug. 1, 1948, until an agreement can be reached on the conditions of TV exhibition [BROADCASTING • TELECASTING, Aug. 20].

THE LIP PRINT

WINX Washington, *WINX Varieties*, Mon.-Fri., 9:30 a.m.-1 p.m., featuring Jack Laurence, as m.c. conducting "Miss Kissable Lips" contest. Contest started as gag when Mr. Laurence asked listeners to send in lipstick imprints. Mail began pouring into station along with offers from local business firms with prizes. Panel of prominent people selected to serve as judges in contest.

A SWAPPING PARTY

WKNA Charleston, W. Va., recently held fourth annual *Swap Shop* party at home of listener. *Swap Shop* program airs swaps listeners would like to make. Mike Wynn, m.c., reports swaps that are made, and one swapper is awarded gardenia corsage. Each year one woman swapper volunteers her home for party, inviting listeners. Each listener brings articles for another. If not suitable, swapping begins.

HARD GUESSING

WFGM Fitchburg, Mass., *Coffee With Curtis*, telephone contest featured old record of Sammy Kaye playing "Blue Skies." Difficulty in naming band was that song was arranged by Ralph Flanagan, noted band leader, and therefore not played in usual Sammy Kaye manner. After 31 calls in period of 12 minutes, Allan Curtis, m.c., awarded housewife winner five new non-breakable records.

MYSTERY VOICE

KHUB Watsonville, Calif., in cooperation with local Chamber of Commerce sponsored two-week "Mystery Voice" contest. Gifts were donated by local merchants for winner, who guessed "Mystery Voice." Promotion featured Marie Windsor, movie star, who was "Voice." Miss Windsor awarded prizes to winners. Station constructed redwood cabin in city park to stimulate interest in contest.

programs promotion premiums

DUTCH SAYINGS

WTMJ - A M - TV Milwaukee has published *Milwaukee Talk* based on typical sayings of old German population in city. Expressions collected through contest on *WTMJ Grenadiers* show. Booklet used colorful English translations of old German and other sayings along with illustrations.

TAKE a gander at this, says Ol' Doc Lemon, disc jockey at WCOL Columbus, Ohio, as he shows off his newly won golf trophy. Using his mighty drives and dead-eye putting, Mr. Lemon breezed through the Disc Jockey Tournament in the National Celebrity Golf Tournament, held in Columbus Aug. 20. His final remark to his faithful audience was: "How did I do it?"

GUARDSMAN AWARD

WFDF Flint, Mich., has established an award to be presented to best Michigan National Guardsman from Flint. "WFDF Distinguished Flint Guardsman Award" will be made annually. Station for second year covered Guard's annual encampment, broadcasting news coverage from camp. Winner of award will be presented portable radio.

BLOOD NEED

WSYR-TV Syracuse and WFMY-TV Greensboro, N. C., have brought need for blood donations to public through TV shows. WSYR-TV had entire local blood bank in studio to show viewer how easy it was to give donations. Director Tom McCollum gave bank pint of blood as viewers watched. WFMY carried entire process of blood from taking to testing. Complete operation was topped with Program Director Gomer Lesch's donation. During donation Mr. Lesch relayed his feelings to audience. Local Greensboro Red Cross official reported public service show drew great many responses.

FIRST HAND SELLING

KNBC San Francisco sending small recording to timebuyers and agencies based on *Judy Deane Show*. Record is sales pitch beamed to timebuyers by Judy Deane herself. Station officials think record will attract more interest than printed promotion. Unique promotion comes in small envelope saying "This package contains a personal message from Judy."

CAN GOODS SELLING

WFBR Baltimore sending trade and advertisers promotion piece accompanied by small can of beets. Piece explains that Gibbs Packing Co. received wonderful results through station advertising of beets. Letter on inside of folder from Gibbs' president praised use of WFBR in advertising product. Piece headed "How to bring Gibbs to his nibs . . . on the right Baltimore station!"

AUDIENCE PROBLEMS

KTTV (TV) Los Angeles, *Opinion Please*, Tues., 9:30-10 p.m. (PDT), started Aug. 28. Panel of five station "experts" attempt to answer problems submitted by home audience. Prizes are given for best problem submitted on basis of human interest and humor. Additional prize of Benrus wrist watch given bearer of problem getting best reaction from studio audience and panelists. Permanent members of panel are Bill Welsh, sports and special events announcer; Freda Nelson, m.c. of KTTV's *Come Into the Kitchen*, and Judd Leatherman, station stage hand. Two additional guest panelists are chosen weekly.

OLD PRODUCTIONS

KTLA (TV) Hollywood, *Flicker Snickers*, Thurs., 7:15-7:30 p.m. (PDT). Oldtime comedy film shorts of 1915-1918 era, with suitable comment by Bud Stefan.

FIRE SCOOP

WCSC Charleston, S. C., broadcast on-the-spot coverage of last Tuesday's water-front fire. Charles Hall, station news staff, arriving before several fire companies, broadcast description via telephone. He followed that up few minutes later with complete narrative picture of disaster.

ENTERTAINS VISITORS

OVER 500 North Carolinians attending the opening of the Rocky Mount tobacco market accepted the broadcast invitation of WFMA (FM) Rocky Mount to visit station. They met staff members, President Josh Horne and General Manager Melvin J. Warner. WFMA served several thousand glasses of lemonade and reminded visitors station had been operating in black for some time.

BREAKFAST PARTY

WLWT (TV) Cincinnati's *Breakfast Party* is gathering place for visitors from faraway places. During week beginning Aug. 6, two visitors were from Australia. Others came from 22 states and District of Columbia. Cast celebrated program's first anniversary Aug. 29.

GAB MEETING

Full Program Announced

COMPLETE program of the Georgia Assn. of Broadcasters summer meeting was announced last week by Ben Williams, GAB president and commercial manager of WTOG Savannah. The meeting will be held at the King and Prince Hotel on St. Simons Island, Ga., Sept. 6-8.

Among speakers scheduled are Oliver S. Gramling, assistant to the general manager for radio AP, Tucker Wayne, president of Tucker Wayne & Co.; Wythe Walker, station representative; and Thurman Sensing, executive vice president, Southern States Industrial Council.

The program follows:

Thursday: Afternoon registration. Friday: Morning registration; 12 noon, Opening session with Dorsey Owing presenting the BMI-Young Composers Award for adoption by GAB; 1 p.m., Lunch with a talk by Mr. Gramling; 3 p.m., Mr. Wayne's address; 3:45 p.m., James Cobb, public relations director, Delta Airlines; 6 p.m., Convivial Hour; 7 p.m., Dinner with talk by Mr. Sensing.

Saturday: 12 noon, Miss Gertrude Gordon, groups liaison representative, Office of Price Stabilization; 1 p.m., Lunch with talk by Mr. Walker.

WEATHERS TO WBS

83 New Stations Added

JAMES WEATHERS has resigned as commercial manager of WNEB Macon, Ga., to join World Broadcasting System as a field sales representative, Robert W. Friedheim, general manager of World, announced Thursday. Cy Kaplan, previously with Tel-air Assoc., has also been added to the World field force, Mr. Friedheim said, noting that the two appointments are the first step in a WBS program to expand services to its more than 800 affiliated stations.

WBS during the period June 1-Aug. 27 added 83 stations to its list of library affiliates to bring the total to 827 subscribers. WBS also signed 197 renewals of existing contracts during the summer, which showed a 48% over-all increase in business compared to the same period of 1950. The 1951 summer record, best in the company's 20-year history, was attributed to local programming and local sales.

New England

\$15,000

Down Payment

The only station in a very attractive New England city with a population of more than 35,000 having retail sales in excess of \$45,000,000.00. This is an unusual opportunity for a qualified operator to purchase an important facility on a very favorable financing arrangement.

LABOR CASES

NLRB Acts on WPEN, WWOL and WNBT (TV)

IBEW complaint that William Penn Broadcasting Co. (WPEN-AM-FM Philadelphia) had "illegally interfered" with employes' rights by renewing its contract with American Communications Assn. is pending once again before the National Labor Relations Board.

The board last April overruled the findings of a trial examiner and dismissed for lack of proof the complaint that the unit sought by IBEW was appropriate for collective bargaining. But it reopened the case, remanding it to the examiner for further evidence.

Examiner George A. Downing last week found that the unit was appropriate and concluded that William Penn "unlawfully rendered support and assistance" to ACA by renewing its contract. Bargaining history with ACA, he added, was "at best a defective one," because that union bargained "for a group of heterogeneous classifications such as have never been recognized as constituting an appropriate unit . . ."

In another case, NLRB handed down a decision touching on the status of Frank Saj, a non-supervisory employe at WWOL Buffalo, N. Y. (Greater Erie Broadcasting Co.). Issue hinged on Mr. Saj's right to vote in an election involving NABET. The board ruled that Mr. Saj had not become a non-supervisory employe during the period between a hearing and the election. WWOL claimed it bestowed supervisory authority on Mr. Saj in the interim period, and that he was not eligible to vote.

WNBT Ruling

In a third case, NLRB said NBC engineers and other employes at WNBT (TV) New York "who regularly spend more than 50% of their time handling and placing television lights . . . are in effect stage electricians" and would belong in the unit represented by International Alliance of Theatrical Stage Employes.

This ruling was handed down last Tuesday in a decision clarifying unit descriptions set forth last July. A joint petition asking for clarification had been filed by IATSE (AFL) and NABET (CIO), along with NBC Inc. Balloting held in May 1950 resulted in the election of

IATSE as bargaining agent for stage electricians, carpenters and property men.

The petitioners sought a clarification to determine whether the classification of "stage electricians" was intended to cover only employes bearing those titles on the payroll or those spending more than 50% of their time in placement of TV lights. NBC previously testified that engineers had spent only a minor portion of their time on lighting duties.

In its initial decision, the board noted that under a compromise in effect at NBC in May 1950, TV lights were handled and placed by engineer members of NABET and stage electricians belonging to IATSE at NBC Radio City studios. At NBC's 106th St. Theatre and International Amphitheatre, only electricians handled lighting.

The order represented another NABET defeat inasmuch as NLRB bracketed engineers spending majority of their time on lighting with electricians. Originally, the board had concluded that engineers should constitute a distinct unit. It noted, however, that the ruling applied only to NBC employes, in the case at hand, and implied it might be interpreted differently in other instances [BROADCASTING • TELECASTING, Aug. 6].

In the NBC case, to which ABC originally was a party, NLRB explained its "reconsideration of the record" thusly:

. . . It is evident from the delineation of lighting duties . . . that these duties whether carried out by stage electricians or engineers, do not bring into play advanced electronic knowledge or skills acquired through higher learning or special training and experience. . . . When an engineer ceases to perform such work as a mere incident to his all-around engineering functions, but regularly takes on these duties as his main operation, he thereby forsakes his special field and assumes the character of a stage electrician.

Decisions Cont.:

out prejudice of application.
Waldo W. Primm, Sanford, N. C.—On Commission's own motion, removed application from hearing docket.
WMPM Smithfield, N. C.—Granted request to dismiss petition to intervene in proceeding re applications of Waldo W. Primm, Sanford, N. C. and State Capital Brestrs, Raleigh, N. C.

By Hearing Examiner James D. Cunningham

WVOW Logan, W. Va.—Granted petition insofar as it requests continuance of hearing re its application and that of KJEF Jennings, La.; hearing continued from Sept. 5 to Nov. 20 in Washington.

WARM Scranton, Pa.—Granted petition for continuance of hearing from Aug. 28 to Sept. 27 in Washington in proceeding re its application.

By Hearing Examiner Hugh B. Hutchison

WMOD Moundsville, W. Va. and Greater Newcastle Bcstg. Corp., New Castle, Pa. and Sanford A. Schafitz, Farrell, Pa.—Dismissed as moot petitions by WMOD and Greater Newcastle to require Schafitz to amend his application to specify trans. site, ant. and ground system. Granted petition of Mr. Schafitz for leave to amend his application by substituting new engineering data specifying definite trans. site, ant. and ground system. Ordered that further hearing in proceeding re application of Greater Newcastle and that of Mr. Schafitz shall be held Oct. 23 in Washington.

By Hearing Examiner Elizabeth C. Smith

The Opp Bcstg. Co., Inc., Opp, Ala.—Granted petition for continuance of hearing from Aug. 27 to Oct. 26 in Washington in proceeding re its application and that of Covington Bcstg. Co., Inc., Opp, Ala.

Easton Publishing Co., Easton, Pa. and Allentown Bcstg. Corp., Allentown, Pa.—Granted motions by Easton and Allentown requesting that transcript of hearing in proceeding re applications be corrected in various respects.

Capitol Radio Enterprises, Sacramento, Calif.—Granted petitions—one requesting leave to amend application to correct typographical error with respect to phasing of ant. system contained in engineering data attached to application and other asking leave to amend such application in order to show maximum expected operating value which was omitted from application. Record closed.

By Hearing Examiner Leo Resnick

WPAW Pawtucket, R. I.—Granted request for dismissal of petition for waiver of provisions of Sect. 1.821 of Commission's Rules, subject matter of which were depositions received in evidence; dismissed petition for waiver.

Richland Radio, Pulaski, Tenn.—Deferred action on petition for order to take depositions.

WKSR Pulaski, Tenn.—Deferred action on petition for order to take depositions.

August 29 Applications . . .

ACCEPTED FOR FILING Modification of License

KDON Palm Beach, Calif.—Mod. license to change main studio location AMENDED to change to Salinas-Santa Cruz, Calif.

Modification of CP

WIMS Michigan City, Ind.—Mod. CP, as mod., authorizing increase in power etc. for extension of completion date to 180 days after grant.

WIVI Christiansted, V. I.—Mod. CP, as mod., new AM station for extension of completion date to 90 days after grant of mod. CP AMENDED to change completion date to 60 days after grant.

WEHS (FM) Chicago, Ill.—Mod. CP to change ERP, ant. height etc.

AM—1440 kc

WJLL Niagara Falls, N. Y.—CP to change trans. location to Long Rd., near Sandy Beach, Grand Island, N. Y. and install new vert. ant.

FM—106.5 mc

WSTP-FM Salisbury, N. C.—CP new FM station AMENDED to change from Ch. 291 (106.1 mc) to Ch. 293 (106.5 mc).

License Renewal

Following stations request license renewal: WSOY-FM Decatur, Ill.; KYBS (FM) Dallas, Tex.; WHBL-FM Sheboygan, Wis.

APPLICATION RETURNED

WIBS Santurce, P.R.—RETURNED application for assignment of license.

August 30 Decisions . . .

BY THE COMMISSION EN BANC SEA Granted

WRFL(FM) Winchester, Va.—Granted request for extension of special experimental authority to operate by remote control from studios, to March 1, 1952 under same conditions.

FM Plan Amended

The Commission proposed to amend Revised Tentative Allocation Plan for Class B FM Stations to substitute Ch. 281 for Ch. 290 at Madison, Wis., and transfer channel 266 from Albany, Ga., to Dawson, Ga.

SSA Extended

KOB Albuquerque, N. M.—By order, granted extension of SSA to operate on 770 kc 25 kw-N 50 kw-LS, unli., for 6 months from Sept. 1; grant is without prejudice to any action the Commission might take during this period to comply with the decision of U. S. Court of Appeals for the District of Columbia Circuit in this matter.

Silence Authorized

KODI Cody, Wyo.—Granted authority to remain silent for 90 days for purpose of selling station.

Authority Extended

WIOD Miami, Fla.—Granted extension of authority for 6 months from Sept. 5 to operate with nondirectional ant. and power reduced to 2 kw, pending reconstruction of authorized DA.

Transmitter Move

WBEN-TV Buffalo, N. Y.—Granted CP to move trans. site 22 miles from center of Buffalo to Colden, N. Y.

License Renewals and Extensions

Following commercial TV, experimental and aux. stations were granted further temporary extensions of licenses to Dec. 1:

WBKB, KA-3428, KA-3429, Chicago, Ill.; WABD New York, N. Y.; KCA-61, Oxford, Conn.; KE2XDN, KE2XDR, KA-3431, KA-3432, near New York, N. Y.; KA-4448, near Pittsburgh, Pa.; KA-3433, KA-3434, near Washington, D. C.; KM2XBB Los Angeles, KA-3436, KA-4841, KA-4842, near Los Angeles; KPIX San Francisco, Calif.; KA-2086, near San Francisco, Calif.; WRGB Schenectady, N. Y.; KA-2106, KA-2107, near Schenectady, N. Y.; KA-4858, near Boston, Mass.

Following noncommercial educational FM stations were granted renewal of licenses on a regular basis:

KRVM Eugene, Ore.; KSLH St. Louis, Mo.; KWGS Tulsa, Okla.; WABE Atlanta, Ga.; WBEH New Orleans, La.; WBOE Cleveland, Ohio; WBUR Boston, Mass.; WEPS Elgin, Ill.; WGRE Greencastle, Ind.; WITJ Ithaca, N. Y.; WKAR-FM East Lansing, Mich.; WSDX Louisville, Ky.; WSHS Floral Park, N. Y.; WUOA Tuscaloosa, Ala.; WUOT Knoxville, Tenn.

Following FM stations were granted further temporary extensions of licenses to Dec. 1:

KDKA-FM Pittsburgh, Pa.; KYW-

FM Philadelphia, Pa.; WBZ-FM Boston, Mass.; WBZA-FM Springfield, Mass.; WOWO-FM Ft. Wayne, Ind.; KBON-FM Omaha, Neb.; KCMO-FM Kansas City, Mo.; KXOK-FM St. Louis, Mo.; WAJL Flint, Mich.; WGTR Paxton, Mass.; WLYN-FM Lynn, Mass.; WTOA Trenton, N. J.; WEAW Evanston, Ill.; WEHS Chicago, Ill.; WMMW-FM Meriden, Conn.; KRKD-FM Los Angeles, Calif.; WLDM Oak Park, Mich.; WKJF Pittsburgh, Pa.; WWDC-FM Washington, D. C.; WLRD Miami Beach, Fla.

Following FM stations were granted renewal of licenses on a regular basis:

KQV-FM Pittsburgh, Pa.; WJHP-FM Jacksonville, Fla.; KALE-FM Yakima, Wash.; KDNT-FM Denton, Tex.; KWIL-FM Albany, Ore.; WBUT-FM Butler, Pa.; WBYS-FM Canton, Ill.; WDLB-FM Marshfield, Wis.; WEXI St. Charles, Ill.; WFAH Alliance, Ohio; WFMH-FM Cullman, Ala.; WFOV Madison, Wis.; WKBR-FM Manchester, N. H.; WLBR-FM Lebanon, Pa.; WTAL-FM Tallahassee, Fla.; WWOD-FM Lynchburg, Va.; WWON-FM Woonsocket, R. I.

Following FM stations were granted temporary extension of licenses to Dec. 1:

WIFM Elkin, N. C.; WABX Harrisburg, Pa.

WOI-FM Ames, Iowa—Granted temporary extension of license of noncommercial educational FM station to

(Continued on page 88)

OPS FORMULAS

Could Affect Radio-TV

STABILIZATION officials were busy in Washington last week promulgating orders and regulations which will affect the advertising and radio-TV industries.

Office of Price Stabilization permitted advertising and other costs involved in promoting private brand products by grocery wholesalers to be reflected in jobbers' selling prices. Probably this will be a precedent for large food chains, supermarkets and other types of food retailers.

On another front, OPS is proceeding to revise Ceiling Price Regulation 22 to permit advertising and other overhead costs to be accounted in a product's selling price. This is for manufacturers. For advice, OPS last Tuesday consulted with 16 manufacturers. The new system will be patterned after the Capehart formula [BROADCASTING • TELECASTING, Aug. 27] that is contained in the amended Defense Production Act.

The Wage Stabilization Board still must come up with ruling on whether radio-TV workers are to be exempt from wage ceilings in the way their industry is exempt under price control.

The Salary Stabilization Board last Wednesday appointed a committee to study the salaries of screen, radio, state and television employees who come under its jurisdiction.

The three-man committee, chaired by Roy Henrickson, formerly of the Agriculture Dept., will confer with employers and employees in the talent field and present recommendations. Other members are Philip F. Siff, formerly with Lehman Bros., N. Y., and former director of Selznick International & United Artists, and Neal Agnew, former vice president of Paramount Pictures, now consultant to independent motion picture distributors.

The Salary Stabilization Board last week set up a three-man committee to confer with radio, TV and other entertainers in an effort to work out a salary formula for talent. Thus far the board has passed individually on unusual high pay increases.

TWA Changes Plans

TRANS-WORLD Airlines will not resume the weekly half hour transcribed NBC *The Blandings* in fall as planned because Cary Grant and his wife, Betsy Drake, who played the leads, are unable to continue in the series due to heavy movie commitments. Agency is BBDO, New York. Don Sharpe, Hollywood program packager, has auditioned Robert Cummings and Jane Wyatt for the title roles with expectation of originating from New York with a new sponsor.

CLEAR CHANNEL Home of the NATIONAL Barn Dance

Engineers Buffaloed

RADIO ENGINEERS arriving at a construction site at Avalon on Santa Catalina Island, Calif., to set up equipment for a new station, KBIG, were ill-prepared for the obstacle that confronted them. They found the site had been taken over by a herd of American buffalo. It took the engineers several hours of friendly persuasion before these "vanishing Americans" would relinquish the site. The wilds of Avalon are one of the few remaining sanctuaries of the bison.

TRADE RULES

FTC Sets Meet Sept. 26

FEDERAL Trade Commission last Friday unveiled a tentative draft of proposed new trade practice rules for the radio-TV industry and simultaneously set Sept. 26 as the date for a second conference of government and industry representatives.

The conference will be held in the National Archives Bldg. auditorium, Washington, at 10 a.m. Subsequent sessions are slated for Sept. 27-28 if necessary. FTC Chairman James Mead is expected to preside.

The FTC tentative draft, prepared by its staff and released last week, conforms substantially to recommendations set forth by the Radio-Television Mfrs. Assn. and other groups. These representatives attended the first conference last June [BROADCASTING • TELECASTING, June 25] when color TV erupted as a bitter controversial issue in the one-day proceedings.

At that time, the commission agreed to compile a summary of suggested rules and regulations and distribute them to industry parties, a procedure which it set in motion last week. The rules are merely tentative and have no official FTC approval.

These proceedings are designed to formulate trade practice rules which would eliminate and prevent "unfair methods of competition, deceptive practices and other abuses falling within the commission's jurisdiction. The rules will replace those now governing the radio manufacturing industry and also be extended to TV set makers.

Significant provisions in the staff draft are those which deal with representations for color TV. It would be "an unfair trade practice" for any industry member to advertise or represent that:

● A television receiving set is a color television receiving set, or a color television receiving set when parts or accessories are added, unless such television receiving set is capable, as so constituted, of reproducing color television signals in color from a color television transmitting station.

● An adaptor or other device for color television is capable of producing television pictures in color when such is not the fact.

COPPER STRIKE

MATERIALS scarcity problems appeared seriously compounded for manufacturers of radio-TV appliances and military electronic orders Thursday as the nation found itself tied up with a copper strike of threatening dimensions.

Industry authorities generally conceded that, if the work stoppage continues for another week, production of copper would scale down through the present stockpile, let alone dislocate the whole chain of electronic output for both civilian and defense orders.

Equipment manufacturers have continuously faced shortages, dating back to last fall when the government imposed gradual cutbacks. But the present strike of mine, mill and smelter workers portends a more ominous spectre. Seven unions are involved in negotiations with companies which produce 95% of the nation's copper, much of it going into highly-developed electronic weapons.

Aside from copper, for which manufacturers have devised substitutes, lead, zinc and other output would be affected. Another example is selenium, a scarce by-product of the smelting and refining process, used in rectifiers. Allocation is now under study by the government. Employment disruption in a number of plants, especially those in plants handling government contracts, appeared certain pending settlement of the strike.

There has been a critical scarcity of copper scrap and base alloy right along, not to mention steel scrap—so critical that the government had to draw out some 25,000 pounds from its already low stockpile.

Truman Acts

Another effect of the strike, which prompted President Truman to wield the Taft-Hartley injunctive axe, could be drastic cuts in the allocation of basic materials (copper, steel and aluminum) under the government's Controlled Materials Plan. Consumer durable makers are down to 65% below pre-Korean levels.

Late Thursday government mediators tried to set up new bargaining sessions. While union and company officials met, the President signed an executive order invoking the Act. He also set up an inquiry board to investigate and report to him by Tuesday.

Even with early settlement of the strike, further cutbacks in copper for non-defense projects seemed almost a certainty, perhaps late this month. Factory schedules for September already are in effect.

Copper is used in many portions of TV sets, with pound ratio for television about five times greater than that needed for radio receivers. It also is used to plate steel chassis, and in AC power trans-

formers, filter chokes and coils, and antennae. Cadmium has been utilized as a substitute, but this metal is scarce too.

Supplies of galvanized sheet, copper, aluminum and zinc also are in short supply, with no prospect of relief in the foreseeable future. Additionally, the government has called an emergency conference in Washington for Sept. 11 to discuss methods of uncovering new supplies of iron and steel scrap. In another move, President Truman set up a Defense Materials Procurement agency under Jess Larson, General Services Administrator, to look into means of obtaining materials in the U. S. and abroad.

The situation on nickel is perhaps just as acute. The direct effect here is on manufacturers of permanent magnetic loudspeakers and assemblers of cathode ray tubes. A Senate Small Business subcommittee, headed by Sen. Blair Moody (D-Mich.), has been exploring an alleged black market in this metal.

Still in all, the National Production Authority last week notified manufacturers who use copper, steel or aluminum that they now may appeal any previous denials of requests for adjustments of their allotments under CMP. NPA said it has set up a three-man board which would grant relief "to the extent permitted by the availability of materials."

The need for greater conservation

Creates Manufacturer Threat

in use of mica for condensers in electronics and radio equipment and a proposed order designed to give amateur radio operators priority assistance in obtaining equipment also were reviewed by government authorities past fortnight.

CHICAGO REUNION

Bermuda Trip Recalled

CHICAGOANS reminisced on Shangri-La, the exclusive Westinghouse retreat, last Tuesday when the company entertained agency buyers and media directors at luncheon in the Racquet Club. The reunion of midwesterners who went to Bermuda on the original surprise trip to Shangri-La included:

Phil Bowman and Marion Reuter, Young & Rubicam; Hal Rorke, J. Walter Thompson; Jane Daly, Earle Ludwig; Kay Kennelly, Ollan Adv.; John Platt, McCann-Erickson; George McGivern, Grant; Genevieve Lemper, Foote, Cone & Belding; Jane McKendry, Needham, Louis & Brorby; Lou Nelson, Wade Adv; Ray H. Reynolds, Rogers and Smith; Holly Shively, Ruthrauff & Ryan, and Evelyn Vanderploeg, Schwimmer & Scott; Carl Georgi Jr., D. P. Brother and Co., and Bill Bryan, Free & Peters came from Detroit. Westinghouse officials on hand were President Walter Evans, Sales Manager E. R. Borroff, J. E. Baudino, Eldon Campbell, W. E. Wiemers, W. B. McGill, Bob Duffield, Dave Lewis, Franklin Tooke, Bill Swartley and George Tons.

EXCISE TAXES

Group Omits Radio-TV Levy

SENATE Finance Committee last Thursday failed to include an administration-proposed increase in federal excise taxes on radio and telesets at the manufacturing level.

The increase desired by the administration would have boosted the excise tax on sets from the current 10% to 25%, or a total raise of 15%.

However, the committee hiked excise taxes on automobiles, cigarettes and other items, requested by the administration.

The Senate group's action ignoring radio-TV, followed the House procedure. Radio-TV industry spokesmen protested the request for increased levies on receivers during a Senate hearing early last month [BROADCASTING • TELECASTING, Aug. 6, July 30].

The committee was expected to study the excess profits tax as well. Suggestions that industries which were in the period of growth during the years now taken as the so-called "base period" in computing excess profits be treated differently so as to bring the tax base more in line with normal operation, have been made both by radio-TV industry spokesmen and have been heard on the floor of the Senate.

... at deadline

FELLOWS ASKS CHANCE TO OPPOSE BENTON BILL

"URGENT" desire of broadcasters and telecasters to be heard in opposition to Benton legislation (S 1579, SJ Res-76) expressed to Chairman Edwin C. Johnson (D-Colo.), chairman of Senate Interstate & Foreign Commerce Committee, by Harold E. Fellows, NARTB president (see story page 23).

Legislation considered "the most dangerous and far-reaching to come before Congress in recent years," Mr. Fellows said, terming this unanimous opinion of industry. He indicated "substantial number" of witnesses both within and without industry will want to testify.

TV PLAN CHANGED FOR SOUTHERN CALIFORNIA

CHANGE IN TV allocations along Southern California-Mexican border officially made public Friday when FCC released text of Aug. 29 letter from Chairman Coy to Will C. Crawford, San Diego school superintendent. Instead of proposed Channels 7 and 9 to Mexicali, new allocation proposes only Channel 3, deleted from San Diego [BROADCASTING • TELECASTING, Aug. 13].

Mr. Coy assures Mr. Crawford that educators who favored FCC's plan to reserve Channel 3 for education in San Diego would have a chance to file new comments on remaining channels allocated—8 and 10 or 21, 27, 33. In any event, Mr. Coy says, Commission will reserve one of UHF channels for educational TV.

WAUSAU, WIS. TV BID

ONLY TV application filed last week was request for Ch. 7 in Wausau, Wis., by Rib Mountain Radio Inc., owned 60% by the Morgan Murphy-Walter C. Bridges interests and 40% by *Wausau Record-Herald*. Rib Mountain Radio wants 48.6 kw from 814 ft. antenna. Construction cost estimated at \$240,445, first year operating expenses, \$150,000. President and general manager is W. C. Bridges; vice president is J. C. Sturtevant, publisher *Record-Herald*; secretary-treasurer is Morgan Murphy. Bridges-Murphy stations are WEBC Duluth, WMFG Hibbing, Minn.; WHLB Virginia, Minn.; WEAU Eau Claire, WISC Madison, Wis. Mr. Bridges owns controlling interest in WJMC Rice Lake, Wis., and Mr. Murphy owns majority in KVOL Lafayette, La. On Friday, WOW-TV Omaha got STA to run transmitter at full 5 kw, boosting output from 16.7 kw to 17.5 kw.

FLYNN PROMOTED

HENRY FLYNN, account executive, promoted Friday to assistant general manager, CBS Radio Sales.

RELAY OPERATIONS

TRANSCONTINENTAL TV relay facilities will be in operation 5½ hours weekly starting Sept. 30, according to Donn Tatum, western director of ABC television.

CROSS-COUNTRY RATE ON NEW CBS-TV CARD

CBS-TV Rate Card No. 6 for first time offers advertiser live transcontinental TV program service, with addition of KTSN (TV) Los Angeles, KSL-TV Salt Lake City, KPIX (TV) San Francisco and KFMB-TV San Diego to CBS-TV interconnected stations, which now total 51 out of 61 affiliates. Base evening hour rate for 51 interconnected station network is \$39,200; for full 61 stations, \$44,000. New card shows 45-minute rate at 80% of hourly rate instead of 85% as heretofore. Facilities charges are set at \$325 an hour within eight consecutive hours, \$350 an hour otherwise. Remote facilities are priced at \$1,250 per pickup. Card is dated Sept. 1.

DuMONT TO LEND SETS TO WORLD SERIES VIEWERS

PROMOTION of DuMont television receivers tying in with World Series this fall announced by Walter L. Stickel, national sales manager of Receiver Sales Division.

DuMont will form World Series clubs whenever group of five or more people register with dealer, signifying their intent to watch series telecasts in group. Sets will be installed wherever "club members" choose—in home, barbershop, hotel, or bus terminal—in time for opening game and for duration of series. Promotion is open to all authorized DuMont dealers through their distributors.

TV'S SOCIAL IMPACT CITED BY PSYCHOLOGISTS

SCIENTISTS' view of TV's impact on public reflected in three papers on television slated for presentation at four-day American Psychological Assn. Convention which opened Friday at Chicago's Hotel Sherman.

In papers scheduled to be given Dr. Thomas E. Coffin, supervisor, program research division, NBC TV Dept., suggested that video's success as advertising medium is measurement of TV's success as training medium. Dr. G. D. Wiebe, research psychologist, CBS Radio Div., contended that television, under certain demonstrable conditions, can help achieve social and cultural objectives.

SADDLER, PETERSON NAMED

MAY BROADCASTING Co., owner-operator of KMA Shenandoah, Ia., and KMTV (TV) Omaha, has named Owen Saddler, general manager, as executive vice president. Howard O. Peterson, sales manager, was advanced to vice president in charge of sales. President Edward May said action was based on expansion of company and growth of Omaha operations to major proportions.

WNEX MACON JOINS ABC

WNEX Macon, Ga., 250 w on 1400 kc, effective Sept. 30 becomes an affiliate of ABC. Station also is MBS affiliate. WBML Macon moves from ABC to NBC Sept. 30 (see photo page 26).

Closed Circuit

(Continued from page 4)

was under RCA sponsorship 3½ years. Plan contemplates Sunday afternoon time on full radio network, with rotation of "blue chip" advertisers. Pickups would be world-over from "battle stations." Col. E. M. Kirby, radio-TV chief of Army, who created World War II series in collaboration with RCA-NBC, has been contacted by Robert Woodruff, Coca Cola chairman and other officials about development of program.

NEW holdup on Senate Judiciary Committee hearing of FCC Comr. Frieda B. Hennock's judgeship nomination attributed to Chairman Pat McCarran's (D-Nev.) absence. Nevada is on West Coast attending Japanese peace treaty observances. Date now pegged for next week to give interested parties advance notice. FCC Chairman Coy and Vice Chairman Walker also expected to testify.

NEXT PHASE of RCA-NBC color demonstrations, to get under way Sept. 10, will include "networking" of its electronic color. While date hasn't been set, series contemplates transmission over AT&T coaxial cable of color program from New York to Washington where all in government (including FCC) can see for themselves. Sometime soon it's indicated RCA will seek FCC authority to field test its compatible color, in accordance with criteria laid down by Commission last year.

COMMENT of Frank Folsom, RCA president, on statement by CBS Laboratories Division Vice President Peter C. Goldmark that laboratory tests with RCA tri-color tube are not as good as color disc: "So what."

CHAIRMAN Robert Crosser (D-Ohio) of House Interstate & Foreign Commerce Committee may have given industry members indication of speedy consideration of dormant McFarland Bill (S658). But there are few portents of action. House is on extended recess. Besides, some of Rep. Crosser's key committee staffers are vacationing, along with members.

SNARL developing in NARTB aural and TV dues plan, with aural members paying extra for video services. Meantime BAB is getting jump by signing stations in advance of NARTB-BAB divorce next April. Joint NARTB boards not to work out aural-video-BAB dues formula until December.

NARTB quietly preparing up-dated data on TV station construction costs to meet rapidly growing demand as thaw approaches. Section will be added on UHF.

TELEPROMPTER RULING

TELEPROMPTER employes don't have to be NABET members, National Labor Relations Board ruled last week. In decision on complaint of Teleprompter principals (Irving Kahn, Twentieth Century-Fox executive), NLRB ruled that visual prompter aid shall be operated by Teleprompter's own employes—members of International Alliance of Theatrical Stage Employes. Dispute between NABET and Teleprompter forced several stoppages of NBC *Little Show* rehearsals last February.

MEYERS TO MATHES

CHARLES H. MEYERS, Grey Adv., New York, to J. M. Mathes, New York, as account executive.

MORE FOR YOUR MONEY

That's what you want, isn't it? In advertising that means more sales impressions per dollar spent.

No other medium can approach radio in reaching a lot of people at low cost. In a market that is nearly 1/10th of America, one station—WLW— reaches more people more frequently and at lower cost than any other medium available.

If you're really serious about wanting more for your advertising dollar, if you're concerned about the cost of reaching people, you should see the new presentation, "What Price People?" We'll be glad to show you this factual story about—

WLW

THE NATION'S MOST MERCHANDISE-ABLE STATION

RCA Service technicians, during their unique training program, live and breathe the subject of television — for your benefit.

These men get TV's Inside Story

When you buy a fine television receiver, correct installation and maintenance are as important as the set. For service technicians, RCA has developed the only training program of its kind—a *factory* program.

During their studies, these men learn the basic facts of modern, all-electronic TV. . . how it reached its present perfection by research at RCA Laboratories . . . how to build a television receiver . . . how to select and install the right antenna for

your *nome* . . . all the complexities of kinescopes, electron guns, tubes, TV cameras and transmitters.

When their studies are complete, they have a grasp of television's *inside story* that assures you the most perfect possible installation and maintenance — under your RCA Victor Factory-Service Contract.

See the latest wonders of radio, television, and electronics at RCA Exhibition Hall, 36 West 49th Street, N. Y. Admission is free. Radio Corporation of America, RCA Building, Radio City, New York 20, N. Y.

Get all the performance that's built into your new RCA Victor home television receiver through an RCA Victor Factory-Service Contract.
