Mr. Kermit Geary,

R. F. D. #2,

Walnutport, Penna.

Dear Mr. Geary:-

It gives us great pleasure to comply with your request for a sample Bulletin of the National Radio Club DX News. We are enclosing one herewith and we hope that it will be of great interest to you.

We mail out similiar Bulletins, each week to our members, containing all the latest DX tips and news of interest to DXers everywhere.

The membership fees in our club are 90¢ till the end of the present season. This entitles you to receive our weekly Bulletin till the 1st of May and to take part in any contests that we may have already started or may start from now until the close of this season.

Trusting that this information will be of interest to you and hoping that you will find our Bulletin to your liking, I remain

Sincerely

Robert H. Weaver

York,
Penna.

NATIONAL RADIO
CLUB
DX NEWS

Edited by
Robert H. Weaver

VOL. 1 - 12

NOVEMBER 8th, 1933.

Well here we are again with another large batch of news for our members which we hope that will be very interesting to them.

First of all we feel that we certainly do owe a lot of stations a large debt of gratitude for the fine manner in which they dedicated their FRC tests to our club this past week. We can not take the time, nor do we have to room to go into detail over each one of them, but we certainly hope that our members did their part towards these stations by giving them a lot of response to their dedications. We certainly will not forget the fine work that was done by the stations during these tests. Incidentally this Bulletin is being sent to a large number of DXers that have written in to us following their hearing the stations announce that we would send out sample Bulletins to any one requesting them. We hope that those who are receiving this sample Bulletin will soon be members of our club.

First of all we have a card from James Owen, our Springfield, Mo. member in which he informs us that according to a recent verification from XEFV, that they are changing their frequency from 1370 kycs to 1400 kycs. So, in the future we advise you to watch for this station on 1400 kycs. Mr. Owen also advises us that he has been chosen by Radex to be one of their official short wave auditors. Congratulations, Jim.

Now a letter from Mr. F. F. Busted, informs us that CJOR are no longer operating on their old frequency of 1210 kycs but that for the past two weeks they have been operating on 600 kycs. Those of you that need CJOR will have to watch this new frequency for them. We have asked Mr. Busted to try to schedule some of his home town stations for DXes and we hope that he will be successful. Mr. Busted also advises that those of you who are trying to land XGOA, Nanking, China, that they are definitely operating on 660 kycs. Just keep your eyes open, fellows, and maybe those of us that live in the East may be lucky to pull them in some morning.

We hope that those of you who were up to hear the FRC tests this week were fortunate in bringing in quite a few new stations, as radio reception was very good several of the mornings.

Now from our good friend, C.G. Huber, who is our advisory chairman comes some information concerning NAA. This is the daily broadcast schedule for Naval Station NAA.

TIME SIGNALS

HOUR	KILOCYCLES	POWER	WEATHER REPORTS
2:55 - 3:00 A.M.	17.8 (arc)	350 k.w.	10:10 A.M.

9:55 - 10:00 P.M.	690 (voice)	1 "	Holidays)
11:55 - 12:00 midnight	4525	1 "	

Mr. F. L. Van Epps, our Portage, Wisconsin member would like a little help in identifying a station. Inasmuch as ve editor does not go in for much Short wave work those of you who have S.W. receivers are

Page two

NATIONAL RADIO CLUB DX NEWS NOVEMBER 8th, 1933.

asked to help Mr. Van Epps in identifying this station. This station was first heard by Mr. Van Epps on Sunday, October 29th. It was either Spanish or Latin-American on about 28 or 29 meters, they continually called: "Hello, hello, Para." They played some musical selections and did some talking in Spanish. At 5:30 pm. an announcement was heard which sounded like "CEB". The program continued until the station signed off at 6:02 p.m. at which time the announcer again said, "Hello, hello, then hello, Berlin." On Monday Mr. Van Epps again picked up this station about the same time with the same kind of conversation and then on Tuesday he heard the same station again only this time it was on 37 meters. Anyone that knows anything about this station are requested to write direct to Mr. Van Epps, he will greatly appreciate any help that any one can give him on this station.

The I.D.A. sent us their Bulletin this week and the first thing that attracted our attention was a little slip of paper which contained the information that they have just succeeded in lining up HIX, Santo Domingo for a DX on Thursday morning, November 30th (Thanksgiving Day) at 12:30 A.M., E.S.T. We do not know how long this program will last but of course there are quite a few of our members who will welcome an opportunity to hear this station. This is the first DX program that they have run in over 2 years.

We had a letter from WMAZ, Macon, Georgia yesterday containing the information that they are planning to run a DX program for the members of our club on the morning of January 14th from 3:00 to 5:00 A.M., EST. So don't forget to be on the watch for this one by the time that date rolls around.

Our good old friend, Keith L. Freas advises us that he has received a card from Stew Korb, KGER's DX Hound. It reads in part, "By the way, Keith, I'll be glad to give any National Radio Club members who write to KGER for verifications, special letters, letter-heads, envelopes bearing the call letters in bright red. I think they would look keen in a verification book. Be sure to have them address their letters to me and inclose a 3¢ stamp. I'll do right by them - Stew Korb, KGER's DX Hound. Here is your opportunity members to get a special verification from KGER, and I know that the boys, will greatly appreciate this courtesy, Mr. Korb.

As you all know the Australian reception has been wonderful this season thus far and there have been quite a few requests come in from our members asking us how to go about tuning for these stations. Art Collins has suggested that the members, who are especially anxious to hear one from way down yonder, should carefully watch the following frequencies: 560; 610; 635; 665; 720; 760; 800; 855; 915; 1025; 1145 and any other frequencies that the high-powered Australians operate on. Those that are underscored are the ones to be watched the closest for they come in more frequently than the others. Now don't just try one morning, but keep trying every morning for a month if need be, between the hours of 4:00 and 6:00 A.M., E.S.T. and we are certain that there will be quite a few of the boys that will be able to say that at last they have succeeded in landing an Australian station. We urge you to get on the job right away for they won't be coming in so much longer. You see they will soon be in the midst of their summer season down there and the result is that they won't be able to break through their static. Those Australians which are most commonly received are 2YA, 2BL, 4QG, 5CK, 3AR, 2CO and 4BC. We certainly want to wish all of you a lot of luck in bringing them in and above all do not become discouraged if you don't land them at the first opportunity or the first time

A letter from our fine friend, Art Collins, chairman of the CPC advises us that CRCV, Vancouver, B.C. will give our club a DX program on November 10th from 1:00 to 2:00 A.M., E.S.T. We hope that you will be able to hear this station without much difficulty. Mr. Collins also advises us that CRCM is now on the air using 915 kycs. We had known about that, Art, our friend Luther Grim heard them this past Saturday evening. We wonder how many of our members were successful in hearing WNRA during their tests last week. We hope that most of you did, we surely wish that they might have notified us in order that all of us could have heard them.

From the CDXR we learn that that wonderful little station VE9EK, Montmagny, Que is planning to run quite a few more DXes this winter. The next one to be Saturday morning, November 25th from 4:00 to 5:00 A.M., E.S.T. Those of you that missed this one on October 1st be sure to try for them this time as they come in much stronger than you will imagine that they possibly could.

Another letter received is from our good friend, Carleton Lord and he advises us that the December and January issues of the Keller Radio Call Book and Log will contain some very interesting articles that will want to be read by all DXers. The December issue will contain a fine article on Short Wave Reception by Mr. R. H. Tomlinson, incidentally Mr. Tomlinson is their short wave correspondent and an article of his will appear every month in this popular little book. The December issue also has a feature article by Charles A. Morrison, while the January issue will have one by Irving R. Potts. This magazine is on all news stands by the 15 of the month preceding the date of issue. It only costs 25¢ per copy or \$2.00 a year for ten issues. We heartily recommend both this booklet and Radex to all our members as being two of the outstanding radio magazines.

We have a list of the Dominican Republic stations which appeared in this month's issue of the I.D.A. which we feel might be of interest to our members. We are therefore printing a copy of this list for you.
 DOMINICAN REPUBLIC

OFFICIAL GOVERNMENT LIST Corrected to Sept. 26th

CALL	WAVE*LENGTH	FREQUENCY	POWER	NAME AND LOCATION
H I J	251	1195	15w	F.I. Baez, Santo Domingo
H I T	285	1050	10"	Pablo Sarabia, Santo Domingo

H I X	518	580	1000"	Dominican Government, Santo Dom.
H I W K	254	1180	1500"	This station not in official list.

We had another fine letter from Mr. H. von Gottschalck, Secretary-Treasurer of the Globe Circlers DX Club and he has promised us his co-operation for the mornings of December 16th and 17th by not lining up any specials to interfere with our party which we are already planning for that morning. The National Radio Club certainly appreciates this fine co-operation of the Globe Circlers DX Club and if at any time we can return the compliment, the honor shall be considered a privilege. Mr. von Gottschalck asks us to tune for WIRO on Nov. 30th from 1:30 to 2 A.M. E.S.T. at which time they are running a DX program for the GCRC.
