VOL 2-2

DX NEWS SEPTEMBER 5, 1934

Once again we find that it was necessary to change our plans. We told you last week that the next Bulletin would not be forthcoming until Sept 12 but inasmuch as the news is coming in so rapidly we felt that we had better start on our weekly schedule on the 5th instead of waiting until the 12th as we had planned. Therefore this is the first of the regular weekly Bulletins and from now on all of our Bulletins will be mailed from here Wednesdays as was our regular schedule last season.

We have several more new members to welcome at this time: Albert J. Cabral, 9 Conant St., Provincetown, Mass; Allan M. Dewey, Jr. 421 7th Ave., LaGrange, Ill; Benjamin Genung, 340 Arch St., Spring City, Pa; and Evan W. Rowe, 821 Virginia Ave., York, Pa. It is our sincere hope that all of you will thoroughly enjoy your membership in NRC and we hope that our Bulletins will be of great benefit to you.

We desire to inform the members that Keith L. Freas, our Chairman of Qualifications has changed his address to 115 Wabash Ave., Kenmore, N.Y. Hereafter in sending him your entries for the Singleton & Eliminator Contest, be sure to mail them to him at his new address.

We have been advised by Lt. Col. R. P. Landry, Secretary, Canadian Radio Commission that CRCK the new station in Quebec expects to be in operation by September 15, while CJIC Saul Sainte Marie, Ont, and CKCW Moncton, N. B. will hardly be on the air until November inasmuch as they just received their Construction Permits lately.

At last WHEF Kosciusko, Miss. is on the air, they were heard testing about two weeks ago and from what we have since learned they are now on their regular schedule. We would have told you about this last week but we did not have the room to put it in the Bulletin. Therefore we feel certain that they will be on with their regular frequency test each month in the future. We shall make it our business to try for them during their test this month and advise you definitely whether or not they are now on their regular frequency test each month.

Still another station takes the air, last week several times WMEX Chelsea, Mass. were heard testing their new transmitter, hence we feel certain that they are about ready to take the air on their regular schedule. We did not hear them until the latter part of last week here at headquarters, and we doubt whether they will be testing any longer by the time you receive this Bulletin.

We had just finished mailing the Bulletins to you last week, when we received a card from Howard Schlobohm, our hard working CPCman from Brooklyn, saying that WBRB Red Bank, N. J. would dedicate their test to us on Sept. 1. We hope that a great many of you heard this program and sent the station a card or letter of thanks. He also notified us that he had secured a dedication for us from WJMS 1420 kcs Ironwood, Mich. for Sept. 6 from 3:10 to 3:30 A.M., E.S.T. We regret that this Bulletin will not reach more of you in time to notify you of this dedication, therefore we can only hope that many of you will run across this dedication and send in your reports to the station.

We also did not have the room to mention last week that the broadcast which CMHA Sagua la Grande, Cuba is dedicating to our club on

Sunday morning, Sept. 16 starting at 1:30 A.M., E.S.T. is the first regularly scheduled broadcast over their station. Let's all listen in and send CMHA a lot of fine reports on their first broadcast.

We want to take this opportunity to thank Luther Grim our Publicity Manager for securing WORK York, Penna. as a publicity outlet for our club. We want each and every one of you to write to the York Broadcasting Co. and thank them for this privilege, for this outlet will prove very valuable inasmuch as we will be able to read the latest tips to you; tips that arrive too late for our Bulletins. At the present time the broadcast takes place Friday afternoons at 2:45 P.M., E.S.T. however we are hoping that if there is enough response to warrant it, that just as soon as WORK begins operations on 1320 kycs, which we are told will be around November 1, that the management will grant us this DX period at night in order that we may reach most of our members. So, let's have your reports and letters of appreciation. Last week, ye editor had the pleasure of doing this broadcast over the air, and WORK may decide to allow him to continue with these broadcasts himself, so as a token of appreciation to WORK please as a very special favor to ye editor, drop a card or letter to the York Broadcasting Co. We are calling this broadcast the WORK DX Club program. We feel that this outlet will prove very beneficial to you later on, so, let's have enough response to prove to the management of the York Broadcasting Co. that we want this broadcast continued; your reports should convince them that it is worthwhile.

We felt that it might be of interest to you to know just who was serving the club this year on our CPC so that we are taking this opportunity to introduce them to you. C. G. Huber, Chairman; S. R. Lewis, Vice-Chairman; J. J. Barlow; J. J. Becker; Stuart R. Garnett; Alec Kinghorn; J. A. Meakin; Stewart Miller; R. R. Rawstron; E. R. Roberts; Howard Schlobohm; Floyd Smith; and ye editor. We certainly want to congratulate this committee on the splendid start that it has made this season.

Floyd Smith, one of our CPC has suggested that the members send a list of 25 stations that they would like to have DXes from to Mr. Huber in order that we may know just what stations you are most desirous of having special programs from this season. Mr. Huber's address for those of you who may not be familiar with it is; 351 Main St., Greenville, Pa.

We hope that all of you heard those excellent dedications for our club this past week. We were able to hear all but KDLR here at club headquarters and we certainly do appreciate the fine amount of publicity that we got from WALA; WBRB and KRGV. We shall endeavor to hear the other programs scheduled for our club between now and the time these Bulletins are sent out and give you a report on them if we possibly can.

The Federal Communications Commission have advised us that KUMA 1420 kycs. Yuma, Ariz. will run twolate programs this month. On Wednesday morning, Sept. 12 and Thursday morning, Sept. 13 this station will be on the air from midnight to 5:00 A.M., E.S.T.

Our advisory Chairman, C. G. Huber has been advised that CJAT Trail, B. C. will have a special DX program dedicated to the various DX Clubs in United States and Canada, from 3:00 to 5:00 A.M., E.S.T. on the third Sunday morning of each month starting Oct. 21. They will verify all correct reports of reception if the request is mailed within 48 hours of the broadcast and three cents postage is enclosed. The above from Mr. F. E. Robinson, Manager of the station, P. O. Box 1959, Trail, B.C. He further advises Mr. Huber that they think that they will be able to give the eastern fans a run this year as the frequency they are on is practically a clear channel.

APPLICATIONS GRANTED:

KCRT 1310 K Jerome, Ariz. to operate from 10 PM, Sept. 11 until 4 A.M., E.S.T. Sept. 12.
 KGIX 1420 K Las Vegas, Nev. commencement date extended to Oct. 2 and completion date to Dec. 2, 1934.
 KQV Pittsburgh, Pa. and WSMK Dayton, Ohio to operate simultaneously on 1380 K, 6:45 PM to 12 Midnight, E.S.T. for period 9/1-9/30.
 KWKH Shreveport, La. to reduce power to 5KW until commencement of operation on 1100 K, but not later than Dec. 8, 1934.
 WORC Worcester, Mass. Extension of Special Experimental Authority to operate on 1280 K, with 500 watts for period 8/30-11/27/34.
 KTSA San Antonio, Tex. authorization to operate on 555 K extended to 10/1/34.
 KUMA Yuma, Ariz. to operate from midnight till 5 A.M., E.S.T. on 1420 K Sept. 12 and 13.

CHANGES IN CALL LETTERS:

WGBI 880 K Scranton, Pa. new call for WGBI.
 WLLH 1370 K Lowell, Mass. new call for WLEY.

APPLICATIONS DISMISSED OR DENIED:

New station at Rensselaer, N. Y. 1370 K H. E. Smith
 New station at Washington, Penna. Tri State Radio, Inc.

APPLICATIONS RECEIVED FOR CP TO ERECT NEW STATIONS:

1310 K Lakeland, Florida, Lake Region Broadcasting Co. (Resubmitted)
 1420 K Parkersburg, W. Va. Ohio Valley Broadcasting Co. (Resubmitted)
 1420 K San Diego, Cal. Bailey Brothers

We also received a notice from the FCC which we thought might be of interest to you. They have advised us that there were 41,555 valid Amateur station licenses in existence of record July 1, 1933. Issued during fiscal year, new and renewed 8,790 making a total of 50,345. Less cancellations 3,777; Other deletions, due to death, etc. 153 and revocations 25 leaving a total of 46,390 valid stations of record close of June 30, 1934.

The International DXers Alliance have advised us that they have several excellent DXes lined up for this season and we are entering them in our Diary of DX Schedules and as the time for these DXes nears we will inform you of them so that you may try for them.

We might also mention that a great forward step towards inter-club co-operation between the Canadian DX Relay; the International DXers Alliance and the National Radio Club. These three clubs have arranged a system whereby clashing stations will be almost impossible so far as any of their DXes are concerned. We are all hoping that other clubs will decide to join in this plan for this will lead to more and better co-operation between the clubs and the stations and the result will be that more stations will give DX programs than run them now. We hope that IDA; CDXR and NRC will lead the way and that the stations will appreciate our efforts in trying to assure them of cleared channels when they do put on DX programs.

The September 12 Bulletin will contain our first Singleton and Eliminator report for this season. We would have had a report for this Bulletin, but we did not decide to have this Bulletin, until it was too late for any S&E report this time. In the meanwhile, don't forget Mr. Freas' new address which appears elsewhere in this Bulletin. We know that many of our members are looking forward with great interest to seeing the new Bulletin that they can read in their entries and thus start things

KDKA DX CLUB EVERY SATURDAY NIGHT FROM 11:00 to 11:30.					

We have still another member to welcome into the NRC at this time. He is James L. Trenton, 214 Fifth Ave., California, Penna. It is our hope that your membership in our club will prove very beneficial to you and that you will have a very successful DX season.

For the benefit of those who have not yet paid up their yearly dues on account of not knowing what our membership fees amount to, let us take this opportunity to inform you that the club membership is \$1.25 a year. We hope that this will put everyone straight on the membership fees for the club.

C. G. Huber reports hearing two stations testing on Monday morning, September 3 and would appreciate help in identifying them. One was testing on 560 kycs and the other one on 630 kycs.

James T. Spalding, 2012 Alexander Ave., Louisville, Ky. wrote in for a sample Bulletin and at the same time inquires about a station which he heard on Saturday night, Sept. 1. on 6670 kycs from 9 to 10 PM EST. He said he heard them announcing as "La Voz Del Tropica". He would like help in identifying this station. If any of you have heard it, we know that Mr. Spalding would appreciate hearing from you.

Don't forget to keep sending in your reports to Joe Stokes, c/o KDKA DX Club, for Joe certainly will appreciate hearing from you and be very grateful to you for having reported on his DX Club program. We want NRC members to send in lots of reports out of appreciation for the fine publicity that Joe has been giving our club.

We promised you earlier in the Bulletin that we would try to give you some additional reports on the dedications for our club this week, but yesterday morning we had a very bad electrical storm here and ye editor did not even try the radio, hence we can not tell you whether ~~WHRE~~ came in good or not. ~~you can~~ we tell you whether ~~WHRE~~ was on or not.
