

NATIONAL RADIO CLUB

VOL. 2-7

DX NEWS OCTOBER 10, 1934.

Well now that the York Fair is over and the World Series nearly over, perhaps ye editor can again put his full attention to these Bulletins, in hopes that he may be able to give you a lot of interesting information at all times.

Joe Becker, Sr. the very capable Vice-President of our club sends us some very good news this week in the form of an acceptance for a DX program over HIX, Santo Domingo, Dom. Rep. for the morning of January 6, 1935 from 3:10 to 5:10 A.M., E.S.T. They have further specified that this program is to be dedicated to the members of our club and advise us that the broadcast will be transmitted simultaneously on 6,000 kilocycles and 1270 kilocycles. They also urge that our members should honestly specify which frequency they heard them using when they report this broadcast. We don't need to again urge you to send in as many reports on this broadcast as you possibly can, for we are confident that by this time you know that it is our policy to ask you to send in as many reports as you can in appreciation for the fine DX programs that the various stations have been presenting for the members of our club and we know that you will all show HIX your appreciation by sending in a fine report on the broadcast. We want to congratulate Joe upon his fine efforts in securing this special broadcast for the National Radio Club.

We are also in receipt of a fine letter from Mr. T. R. Grosvenor, President of the Mid-Co DX Exchange in which he advises us that he is working on the DX schedule of KFH Wichita, Kansas, and which he expects to release in the very near future. He tells us that KFH runs these broadcasts the last Thursday morning of each month from 3:15 to 3:45 A.M., E.S.T. and that each of these programs is to be dedicated to some radio club and he will advise us just which is which as soon as the schedule is released. Mr. Grosvenor has to assist in putting on these broadcasts and he informs us that he has to walk from his home to the transmitter, a distance of about 40 blocks, he says that he is glad to do this but would appreciate a flood of reports in return for his efforts, on each DX broadcast. He says that all reports will be acknowledged without return postage, but return postage must be included when asking for a verification.

We wish to take this opportunity to thank all of the radio stations who so graciously dedicated their October frequency tests to the members of our club. We certainly appreciate their fine and splendid co-operation and we hope that we may be able to return this co-operation some day, you know our motto is to help the stations at any time in any manner we possibly can.

From Howard Schlobohm, our faithful Brooklyn CPCer we learn that the broadcast from WNRA Muscle Shoals, Ala. which our V.P. Joe Becker heard on September 30, was dedicated to the members of our club, unfortunately Joe did not hear that part of the program. Howard also advises us that he has received a confirmation from WEED, Rocky Point, N. C. will run a DX program on Sunday morning, October 14 from 4:00 to 5:00 A.M., E.S.T. the first 15 minutes of which will be dedicated to the members of our club and the other 45 minutes to the CDXR. WEED operates on 1420 kycs. Don't forget to send in your reports on this broadcast. Thanks for the fine work, Howard, we all appreciate it very much.

It gives us great pleasure to print the Singleton and Eliminator Report as furnished us by our Chairman of Qualifications, Keith L. Freas. Singletons held:

Henry Allen - W2XAG. (res. Pa.)
 Frank Busted - CJAT. (res. B.C.)
 John Donaldson - KGGC, Stockholm, JOGK, CP4. (res. Pa.)
 Bill Garrison - PFBI. (res. N. Y.)
 Arnold Gerrard - LRS. (res. Ohio)
 T. E. Gootee - TIGP. (res. Mo.)
 Charles Huber - CJRC, CMED. (res. Pa.)
 Ray Lewis - CMHJ, KPQD, KSUN, VOWR, XEYZ, XFB, XFO, IMI, Cardiff, LVI, FQN. (res. Ohio)
 Bob Rawstron - CHCK, KZRM, 1ZR, 2UW, 2XN, 3B0, 3KZ, 4YA, 5KA, OKB, Athlone, Leipzig, JOAK2, JOBK1, JOCK1, JOCK2, JOFK, JOJK, JOAK, LR4, LS9, TIRCA. (res. Mass.)
 Pat Reilley - CMCO, KPAC, WJIM, WMEX, WSGN. (res. N. Y.)
 Earl Roberts - CMCR, CMJF, 2FC. (res. Ind.)
 Howard Schlobohm - CHSJ, WBRB, WHBI. (res. N. Y.)
 Jack Thompson - XETB, 1YA, JOIK. (res. Pa.)

Eliminated since last publication:

Stuart Garnett eliminated Reilley's WHEF.

Notes:

* Inasmuch as Radex is including the experimental stations on 1530 and 1550 kycs., we feel that they will be good catches, and are adding them to the Possible Singleton list. The FCC has more or less extended the broadcast band to these frequencies, so we feel justified in doing this. In doing it, we will include any active station up to and including 1550 kycs. We are not including the stations CFRC and CKCR on 1510, for the simple reason they have been eliminated long ago on their other frequencies.

Possible Singletons:

CFTP	CMHB	COA	TGX	VOKW	WTCN	XEFC	XEX
CJIC	CMHD	COK	TICR	WAGF	XEA	XEFE	XEXX
CJKL	CMHK	COX	TIEA	WATR	XEAA	XEFG	XEZZ
CJLS	CMHW	CRCK	TIEP	WBNO	XEAF	XEFI	XFA
CKBI	CMJC	HIJ	TIFB	WCOL	XEAI	XEFJ	XFC
CKCW	CMJE	HIZ	TIFS	WGPC	XEAL	XEFZ	10BU
CKMC	CMJG	KADA	TIGA	WHJB	XEAM	XEI	YV1RC
CMBX	CMJI	KRKO	TISO	WJEM	XEAO	XEKL	YV2RC
CMCP	CMJL	KTRB	TITV	WLEU	XEAZ	XEMA	YV3RC
CMGE	CMJO	KWFV	TIVL	WLLH	XEC	XEMZ	W6XAI
CMGH	CMKF	KWTN	TIXA	WLNH	XECW	XEOX	WLXBS
CMGI	CMKJ	KWYO	VOAC	WNEL	XEE	XEP	W9XBY
CMHA	CMKM	RDN	VOGY	WRGA	XEFA	XEWZ	W2XR

Stations not in Radex which are eliminated:

2BL, 2CH, 2CO, 2GB, 2SM, 2UE, 2YA, 3AR, 3LO, 3YA, 4BC, 4QG, 5CK, 5CL, CX26, EQ7, EW7, JOAK1, P.P., SBH, VE9CB, W2XBF, W8XAR, W8XO, W9XA, Beromunster, Fecamp, Frankfurt, Stuttgart, Turin.

It is quite evident that WWAE Hammond, Ind. and WBRB Red Bank, N.J. dedicated their frequency tests to our club last week, we have received quite a bit of mail telling us about the splendid broadcasts over both of these stations. Ray Lewis in particular praises the fine WBRB broadcast, which he says is one of the very finest dedications he has ever heard.

FEDERAL COMMUNICATIONS COMMISSION NEWS; Compiled by C.G. Huber Adv. Chr.

APPLICATIONS GRANTED

- WHDL 1420 K. to move transmitter and studio from Tupper Lake to Olean, NY.
 WCBZ 1080 K. to move studio from Zion to Waukegan, Ill.
 KWEA 1210 K. Shreveport, La. to remain silent for a period ending not later than Dec. 1, 1934.
 KTFI 1240 K. Twin Falls, Idaho increase night power 500 watts for period October 1, 1934 to April 1, 1935.
 WHEF 1500 K. Kosciusko, Miss. test period extended for 30 days.
 KSO 1320 K. Des Moines, Iowa increase day power to 1000w and night power to 500w for period ending Nov. 1, 1934.

APPLICATIONS DISMISSED OR DENIED:

WJEM 990 K. Tupelo, Miss. C.P. for new station

The following stations have had their license extended on a temporary basis: WHBI 1250 K; WCAP 1280 K; KGGM 1230 K.

APPLICATIONS RECEIVED FOR C.P.s TO ERECT NEW STATIONS:

- 820 Kcs. Redlands, Calif., Radio Service, Inc.
 1510 " Meriden, Minn. H. H. Fette. (Amended)
 1370 " Erie, Penna. J. D. Magenau.
 1420 " Abilene, Texas, Gish Radio Service. (Amended)
 1420 " San Diego, Calif. Pacific Acceptance Corp.
 1420 " Helena, Mont. Helena Broadcasting Co. (Amended)
 1480 " Pasadena, Calif., D. H. Cannon. (Amended)
 1500 " Santa Rosa, Calif. A. Westlund and J. Cohn.

At this time we have two new members to welcome into the club, they are Arthur H. Brackbill, Charles Road, Lancaster, R. D. 7, Penna. and Ralph R. Brackbill, 103 W. Overlea Ave., Baltimore, Maryland. We certainly do hope that these two new members will find their membership in our club very beneficial and our Bulletins very interesting.

We are in receipt of a letter from KICA 1370 kycs. Clovis, New Mexico addressed to John J. Barlow, one of our hard working CPCers and in it they have advised him that they will run a DX program for the members of our club on Sunday morning, November 11, however at the present time there seems to be a slight misunderstanding so far as we are concerned about the time of this broadcast. Just as soon as we have it straightened out, we shall notify you.

We desire to inform those of you that have not yet heard CRCK, 1050 kycs. the new station in Quebec to try for them any evening around 7 PM for they have been coming through fine during the past week. We are sure that you will not have much trouble in hearing them.

We have just received a special delivery letter from Howard Schlobohm, in which he informs us that he has received a letter from WEDC 1210 kycs. Chicago, Ill. in which they advise him that they will dedicate a DX program to the members of our club on Saturday morning, October 13 from 2:00 to 3:00 A.M., E.S.T. We certainly hope that you will listen in for this broadcast and send in your reports to WEDC. Congratulations, Howard on securing this special broadcast for our club.

We have been informed that CHSJ, 1120 kycs. St. Johns, N. B. is on the air every morning around 5:00 A.M., E.S.T. Those of you that do not have this station as yet, ought to be able to pick them up on this broadcast each morning. They certainly do seem to come in very well around these parts and we feel sure that they will do the same for most of you.

Keith L. Freas advises us that WLLH, 1370 kycs. Lowell, Mass. tests every Tuesday and Wednesday morning at 1:00 A.M., E.S.T. Those of you that still need this station had better try for them at this time.

We are in receipt of a letter from KYA, 1230 kycs. San Francisco, Calif. addressed to the attention of John J. Barlow in which they have advised him that they will be very pleased to run a DX program for the members of our club on Sunday morning, November 18 from 3:00 to 4:00 A.M. E.S.T. We hope that you will all listen in to this broadcast and send in your reports.

Alec Kinghorn will be at the mike for the CMCA broadcast for the members of our club and we know that he will present a very interesting program for our members.

Watch for the Aussies! They were heard very well over the Eastern section of the United States during the past week or so. However it has been around 5:30 A.M., E.S.T. until they start coming in. Watch the following frequencies very closely for them during the remainder of this month: 855; 760; 635; 570; 560; 665; 950; 800; 1025; 1145; 610; and 915. You never know how soon they may come in for you. Keep your eyes open!!!
