DX NEWS

JANUARY 30, 1935.

Well, here we are again ready to begin work on this week's Bulletin and we can only say that we hope you all had a lot of fine luck with your DX activities during the past week.

First of all we want to welcome Mr. Rafael Valdes, owner of Radio Station CMOK, Havana, Cuba as a member in our club. We certainly hope that Mr. Valdes will find the NRC Bulletins of great interest during his membership in our club.

We want to take this opportunity of thanking all of those stations that put on such splendid DX programs for the members of our club during the past week. Especially the fine program from WTRC in Elkhart, Ind. This program was best heard here in Club headquarters and that is why we were so well pleased with it. The other programs were very fine too and we hope you all listened in and sent the stations your reports.

Max Stephens, Hudson, Ill. one of our latest members would like to know if any of the other members in our club have a radio similar to his an AK model 465, if there is anyone with such a set he would like to hear from them.

We did not have much room in last week's Bulletin to tell you about the splendid program that our Vice-President, Joe Becker has arranged for the members of our club from station KLX in Oakland, Calif. This program will take place on Friday morning, March 1 from 2:00 to 3:00 A.M., E.S.T. Mr. Montell of station KLX asks us to inform you that this program will be an all request program and that they will be glad to have you send in cards or letters in advance of the broadcast asking for special numbers. He also says that all requests for verification will be answered with a personal letter in the form of a verification. We know that all of you will want to listen in to this fine program and we again urge you to send in your reports on this broadcast.

Joe Becker also sends us a letter from KIDW 1420 kycs. Lamar, Col. in which they have advised him that they would be on the air for our club on either Feb. 10 or 17. We have notified them to make it the 17th in order that we may give this program a lot of world wide publicity. Therefore unless we hear otherwise from them this program will take place from 3:00 to 4:00 A.M., E.S.T. on the morning of February 17.

We are in receipt of an air-mail letter from our faithful CPCer, John J. Barlow of Berkeley, Calif. in which he advises us that he has just received word from KGCU 1240 kycs. Mandan, N. D. that they will dedicate their frequency check on Friday morning, February 1 from 4:00 to 4:20 A.M., E.S.T. to the members of our club.

From Jim Watson, of Regina, Sask, comes the news that 10BU the 25 watt station at Canora, Sask. is no longer on the air. He says that they had their license cancelled and that he is certain that they will not return to the air. Thanks to you, Jim for this information.

Earl Roberts advises us that XEE had notified him that they would use 20 watts during their recent DX program for the members of our club. This makes XEE one of the outstanding DXes of the season and we hope that

many of our members were able to hear this fine station. However if you didn't remember that they will again be on the air for the members of our club on Tuesday morning, February 5 from 3:00 to 4:00 A.M., E.S.T. We want to congratulate Earl on having lined up such a fine special for our club. Earl also advises us that he has heard an outlaw on 1225 kycs. using the call letters WBB. He says they have very poor modulation, can any of you identify this station for him, if so, drop him a card or letter at his home at 2308 Roosevelt Ave., Indianapolis, Indiana.

We have some short wave news for you this week. Albert James Cabral, of Provincetown, Mass. writes us to the effect that he recently received a verification from CT2AJ, St. Miguel, Ponta Delgada which is the city on a tiny island near Portugal. He says that this station is on the air from 2200 to 2400 GMT each week, which is from 7 to 9 P.M., E.S.T. Their antenna although directed towards the United States is screened by mountains of the Sete Citdades and they consider any SWL in America or North American or South American continent to do well to pick up their station as their power is only 50 watts. They are anxious to have reports from American listeners, an International Reply Coupon must be sent as postage there is very high and only absolutely correct reports will be verified.

Vincent Clarke, one of our Cuban members advises us that he is planning a DX program over station COH 9428 kycs or 31.8 meters. This program will take place on Saturday night, February 2 from 10:00 P.M. to Feb. 3 at 2:00 A.M., E.S.T. In other words this program will last for four hours. Vincent would like to have reports from NRC members, and we believe that at least a portion of this program will be dedicated to the members of our club.

Mr. R. R. Hayes, Chief Operator of station KMAC, San Antonio, Tex. advises us that things are now in shape for that big DX program which they promised all of the clubs just as soon as they had completed moving their station to the Smith-Young Tower. The date has been set for this program as being Sunday morning, February 10 from 2:00 to 7:00 A.M., E.S.T. He says that the number of reports received on this program will decide whether or not any more DX programs will be run during the remainder of this season. They are very anxious to beat the mark of 108 reports received during the DX program that they put on for the members of our club earlier in the season.

CKUA 580 kycs. Edmonton, Alta. have advised several of our members that they will be on the air on the morning of February 10 from 3:00 to 4:00 A.M., E.S.T. with a program dedicated to the members of the CDXR. They say that during the course of this program they are going to extend greetings to the members of our club. Be sure to listen-in to hear this part of the program.

We want to thank C. G. Huber for having arranged two fine broadcasts for the members of our club. The first of which will take place on Saturday morning, February 9 from 3:00 to 4:00 A.M., E.S.T. over station KFRQ in Longview, Tex. This station as you know is one of the latest stations to take the air and are operating on 1370 kycs. The other station is CRCS 950 kycs. Chicoutimi, Que. who will be on the air for the members of our club on Saturday morning, February 16 from 3:30 to 4:30 A.M., E.S.T. We hope you'll be sure to send lots of reports to both of these stations.

Floyd Smith our Greenville, Ill. CPCer sends us the good news that KGDY 1340 kycs. Huron, S. D. will dedicate their Feb. frequency check to the members of our club on the morning of Feb. 3 from 4:10 to 4:30 A.M.

Page three NATIONAL RADIO CLUB DX NEWS JANUARY 30, 1935.
 E.S.T. We hope that you will all tune in on this program and send in your reports. Floyd also advises us that he has also lined up a special program for our club from station WOS 630 kycs. Jefferson City, Mo. from 3:00 to 4:00 A.M., E.S.T. Following WOS he has lined up WGBF 630 kycs, Evansville, Ind. who will transmit a program for the members of our club from 4:00 to 5:00 A.M., E.S.T. Both of these programs will take place on Sunday morning, February 24. He also sends us good news for many of you DXers that have not yet heard any stations in Rhode Island, he advises us that he has received a letter from WPRO 630 kycs, Providence, R.I. to the effect that they are going to put on a DX program on Sunday morning, February 17 from 2:30 to 5:30 A.M., E.S.T. We know this is very good news for many of our members.

Keith L. Freas, Chr. of Qualifications submits the following S&E Report as of Jan. 27.

Possible Singletons:-
