A short note from HQ, to all you members that I owe letters will try and get them out this week, theres been so many Club details that came up in the past two weeks that I havent had time to write, of course not saying anything about the news you boys are sending in. This keeps up we will need a printing press to take care of the news. In the January 30th bulletin under the Summary of the DX(NRC) activities I had a SOS that we needed 15 more members to make and even 100 members to report into the NRC since October, well we need 10 more new members that have not reported so far this year to make that record, what about it boys cant we hear from some of you that has'nt reported yet, send in one for the next issue. LETS make that 100.

NOTICE-I have some Board of Directors, news here that I have held over from two weeks ago, I would like to get this news out to you members in the next weeks bulletin I will have a few extra pages for the Boards news.

MERLIN N. STEEN-Decorah Iowa. Well DX on the FCC tests hasnt been very good, To noisy and plenty static and Eastern stations sure didnt come in well at all. Broadcast Band News

FRANCIS KLINE-Quakertown Pa. Received a card from CMGE stating they would be on the air on Feb.25 instead of Feb 26 because listeners asked them to broadcast the program on Sat morning instead of Sunday mornings. On Jan. 25 I recieved a verification from LRA. On Feb.12 Sunday mornings I heard LR3 Buenos Aires around 1:05 A.M. R6 signal I noticed in the last bulletin, some of you got XED back unclaimed, my letter too came back unclaimed. I look forward to the bulletin every week, keep up the good work. (We will do ou best OM.Ed)

RANDOLPH HUNT-Leucadia Calif. Letter recd today Feb.14 from Chief Clerk Railway Mail Service, Los Angles who tells me that NRC Bulletins are now handled first class out of Erie, Chief Clerk has been working on this several months for me. My bulletins will arrive Tuesdays. They have been for the past several weeks. (Thanks OM that was a big help for me at this end. Ed) XELO has broken records for space on dial, they use 17 cannels in early mornings, WAAW 660 kcs stops them on one side and XERA 840 on the other, at night XELO seems satisfied with 8 channels. KGAK dedicated frequency check to NRC all OK, mention Club five times, I sent letter of thanks and report and have verie. Caught WSYR coming on air Sunday Feb.5th, verie has been received WOI sends verie and staes they are erecting new 400 foot antenna tower to better cover mid-west and then I probably will not be able to hear them. Have been sending reports to KGNF North Platte, guess they like them as they dedicated "I Love You California" to me Friday Feb.3rd at 8:41 am EST and following Friday it was "L2th St.Rag" at 8:10am EST this is a daytime station. WAAW KMBC and KQW use EKKO stamps. ---

Broadcast Band News

ERNEST COOPER-Brooklyn N.Y. Veries this week from WCOV WOL WGAU WCOU
 Also received a booklet from LS11 but there is nothing in it that can be used for verification. Does the club accept this as a verie. Last Dec. 18th I hrd a station on 1080 kc and as I had hrd two other Argentine stations that morning. I took a wild shot and wrote to LT3 in Rosario Argentine inquiring if it was them I hrd. Received an answer this week saying that station I hrd was not LR3 but LT5 in Resistencia Argentina. They say that they changed freq two years ago from 1080 to 1160 and LT5 moved from 1160 to 1080. LT5 is listed as having but 500 watts. Maybe they (LT3) could be lined up for a DX program. On Feb. 10 WWVA at 1:35 testing, Spanish on 1220 messing up KTMS. Neither CKLW or WIP were on at 2:45. Got up again at 7 for WSNJ for a half minute they were R7 and then-zowie! About three stations hit them all at once. Guess will have to wait till next year. Feb. 11--Got up only for WHMA and reception was terrible and had an awful time logging him. This was to be last time WHMA will verify (THEY HAVE EXTENDED TO NEXT MONTH OM) (Ernie that Cuban on 690 is CMBG) WBT now signs on at 5:30 Feb. 12 Recept good. Think I hrd TGI at 1:45 on 1310kc but WGAU was testing and there was a DX program on same freq from unidentified "K" station. Hrd announcer say "way down here" so it must have been in the south or south west. WADC was Dxing at 1:57 not 5:45 as in bulletin (Mistake on the time OM Mine. HMG) KID testing at 3:27 R7, KTRH signing off at 3:45, WCPO testing at 3, messed by WIL station testing on 1500 most of morning with "Whistle" no announcements. Also one on 1200 R4 after 5am, maybe KGFJ. WAWZ was hrd that evening at 7:50 and while I was listening someone started to hetrodyne them, centering around a freq of 1355 kc, and kept moving back and forth, completely covering WAWZ. No announcements. Must have been an outlaw. Feb. 13 Excellent. WSIX signing at 1:11, coast stations coming in with terrific soak. Got reports out to XEQ KMTR KFPY. Two stations with same program on 1210 probably KDON and KFXM. CBR signing at 1:33 with beautiful sigs. KTAH signing at 2:02. WCAD had woman announcer on part of FCC test. KVOX for a new one R4, WJDK did not sign off for the checks untill after 4:30 and were back again at 5. Feb. 14 Up for an hour from 4:45. WJHL for a new one. Rest of stations in So-West rendered inaudible due to buzzing. Tnx for info on Mexican problems, but who is the fellow on 1150 all night every nigh. (Dont start that up again OM. but XEL is one.)

NICK EVANGELISTA-WEST HAMBURG PA. Wed. Feb. 8. Freq checks coming thru very good. XEFV Q2R3: Thrs Feb. 9 Freq checks good WDAN testing at 5:50 R/8. Fri Feb. 10 KVEC signing off at 3:05 Q4R7 KHBC at 3:45 R7, 4YA at 5:00 R7 Q5, the best I ever hrd any Oceanic station. Also hrd 1YA and 3YA. Freq checks good this AM. On Sat Feb. 11 CMJW at 2:07 Q5 R3 on NRC DX program. KIT from 2:45 to 3:00 over-riding WNEW KUSD at 3:10, WNEL at 3:25, freq checks not so good this AM as sigs didnt seem t break thru. Sunday Feb. 12 Noisy, Hrd KWOC signing off at 2:30 TGI at 2:35, KID at 3:05, WGAU at 3:20. Hrd a station on 1100kc all I could get was XE?? Lower Calif in Mexicali. Also gave mailing Q1A but could not understand it. Hrd this station at 4:45am EST. Could it be XECL on a different freq (Yes Pal) Received my souvenir from KPAB, a very beautiful Mexican handiwork card with a peacock on it. Latest veries CTRN CKNX CKPR KMTR KTRI WCAE WCOV WLLH WYOC LS11 Radio Toulouse 776kc.

DICK COOPER-Kittanning Pa. Veries in from KYA WMBF CKPR WROK KOME KPDN reports off to WHMA XEP KSAM CMJW for new ones. CMJW gave NRC a nifty program on 11th, but I had a hard time with them on account of unusual noise conditions. WHMA announce that they will answer reports on the March Freq check. CMKW will DX some time next month

We believe all DX'ers and SWLs will find these useful as using the exact postage on your mail will save you money and will also bring more replies because few stations will take the time to answer your report if they have to pay postage due. While speaking of mail your Editor would like to remind you to always put your return address on the envelope and always write addresses clearly. Not heeding such simple rules may be the reason you failed to receive answers to certain reports.

DX CHATTER

The ARRL DX contest are to be held as follows: Radiotelegraph contest, March 4th to 12th. Phone DX contest, March 18th to 26th. We would advise you not to miss these periods as some really FB DX can be heard. During last year's contest we really logged some exceptional stations. Ten meters was really swarming with stations so we would advise trying your hand on ten as much as you can over this period. Notes from QST: HS1BJ is suppose to be only ham in Siam. The Second All-continent Round Table anniversary clicked on schedule, W4DLH, VU2CQ, HK5AR, VK4JU, SU1AM and G5ML all checking in within 1 minute and 50 seconds which is some time for the 54,000 miles covered. (Note the time last year on this same Round Trip was 3 minutes 20 seconds, the time made this year means they covered about 534 miles per second. HMG).. Some of the Hams report the following phone DX: VS7GJ (14.100) CN1AF (14.270) PK6XX (14.000), ZB1L (14.110) and I1NQ (14.275) TF3C (14.130) Iceland, VK7LZ (14.045) CX2CO (14.100) and the following between 14.050 and 14.100: ZS1BL ZS3F ZS2X ZS6BR and ZS6EB.

--160 METER FONE--

Hal Buttels of Aurora, Illinois. One of our newer members sends us an interesting report on 160 M Fone. Hal who uses an 11 tube RAC Victor set, listens quite often to the 160 M. hams and gets quite a kick out of them. Although there is not much in the way of DX on this band there is plenty of entertainment and you'll get plenty of laughs also. Hal says the 160 M. hams over his way have formed what they call the "Razzberry" Network. He has been in on several transmissions from W9CEQ-W9BFY. One or more of the stations is on daily from 8 to 11 pm. The Network consists of W9CEQ, W9BFY, W9MOE, W9YRB W9MWM W9DEO W9NE W9QYO all of Aurora, and W9PQH and W9TNS both of Batavia Ill. Maybe your local hams such a network

Beginning with this issue the CW column will be Edited every other week. This is necessitated through lack of reports. I heartily urge any CW minded members to send in a report on what they are hearing if they want this column continued. A column cannot endure without support from the members. A new method of presentation has also been adopted. Under the new arrangement, which is not unlike that being used by the SWBCB and the Amateur Depts., the stations heard will be listed according to the continents in which they are located. Frequencies, time, location and member reporting will also be given wherever possible. Now for DX.

Those reporting for this issue are: George L. Brode, W3HHS, Philadelphia, Penna. Nick Woytan, Syracuse N.Y. and Yours Truly.

Well fellows thats all for this issue, See you again March 6th. Dont forget to send in your reports. Vy 73.

(GOSSIP OF THE MEMBERS) Stan Brus thanks your Editor for his NOLPO assistance & says he hopes he can live up to its expectation. (By his report here he already has. Hi) Stan uses a 1938-9 Tube Zenith with a Zenith doublet antenna which is 60 ft long, 40 ft high and pointing North to South. Stan reports that DX in Pa has not been at its best lately. Eldon Addy says conditions have been fair in Iowa & wants to know why the midwestern fellows cant get together this summer for a get together like the Eastern members of the NRC. Hi. Your Editor has already invited Eldon to the Minnesota DXers Picnic which will be held in July sometime & we do have fun. Just come and find out.
