VOL 13 No 32

June 15 1946

We welcome Ernest Suffolk Lobethal South Australia -- Pvt Lincoln Mayo Camp Lee, Va along with the renewals of Frank Susoreny-Jack Willard-Bob Gorsuch and Joe Pellitier. Thanks to you all and may you have a very enjoyable summer and plenty of DX on these new stations.

DX CALENDAR

Nov 12 WDSR Lake City, Fla. 1340 N R C 3:30 - 4:30 AM EST

Your editor had the pleasure of having Joe Pellitier stop in for a short visit. A swell fellow and its too bad that he could only spend an hour in Buffalo after his 1st Radiotelephone license examination. However Joe says he will be in Buffalo again and will see to it that he can stay longer.

Ralph Johans had some DX visitors also. Bruce Kennedy-Bill Wells came in from Canada and Homer Sink dropped in for a while. You can be sure they had swell time and Ralphie took good care of them you can be sure. Feeding and all. Ralph also seen to it that they visited Pop at the Police Radio station. Too bad but Pop had to work 16 hours Sunday, a double shift. May-be next time he too can be around the gathering.

Next Bulletin will be July 20th, have reports in no later than July 16th.

Your Editor and wife took a trip to Dick Coopers the week end of May 18-19 and while there Dick so kindly printed up more front pages on heavier paper so our bulletin would look normal. Nope Pop didnt get scared this time regarding that high railroad bridge. Anyway had a swell couple days and want to thank the Coopers, especially Mrs Cooper for her swell hospitality.

LEFTY COOPER-BROOKLYN N Y Veries in since last rpt-WPOR-CHEF-KMED-VONF for 39 rpt on f/up-WSTC-WONS-KFXM-WKRZ. Rpts to KTMC-WONS-WPPA-WBZA-KXLR-KRIG-WKIX-WLAT-WNVA-KRES-WPOR-WTSB-WNCA. Who said DX is over-hi. Would have thought anyone crazy if he'd predicted my best single AM would be 6/3, but that it was. Had the day off, stayed up all AM and landed 8 new ones. Began with taking WBZA's 5 min check-WDAD f/c dedicated to NRC 1-1:30-WASK & WAOV came on together 2-2:30-WASK must be DST-KXLR R-8 3:15-3:30-KRIG R-6 3:23 Hrd WMVG check and dropped them a card for reminding them of my previous one yet unanswered. WKIX with voice only, with difficulty in back WWSW-WJBK but was as good as the pests. WNVA had nice sig 3:55-4:10 and someone QRM-ed after 4. After 20 min or so straining to catch calls I identified KRES back of WITH asking for rpts and phone calls--was you there Ralphie?? WPOR with daylight already dawned and da boids choipins came in R-9 on reg s/on 4:30 EST. WSNJ f/c 4:45-5. 6/8 This was noisy AM and spent 1 1/2 hrd glued to 1340 trying to identify tester in back of WEXL-WHAT but couldnt. Thought I hrd Ohio mentioned once--was this WOPK?? Then at 4 WTSB came on and believe it or not they K.O.ed WHAT-WEXL and the whole shebang and were R-9 and WHAT was right out of the picture. That must be a Wayne Nelson station hi. WNCA f/c 4:15-4:30, not nearly so loud but identifialbe and reportable non mucis. 6/9 Caught WHNC 2:31, nothing new. Who else hears "NSC" in CW sent over and over on 880 kc when WABC is off? Who and what is it? Jesse Strawn an unpire-gee and I always thought he was a good guy, too. Maybe we could use you in Brooklyn, Jess--we've been robbed a plenty this year, but we're still leading the league. (OK Lefty thats why I thought you rated the front page this issue. However wait till those Yanks get you--Pop)

(OK Phil and looks as if you get the ones I need and I get the ones you need. Still plenty of rpts out at this end. and dont forget that NRC Convention this fall-Pop)

DAVE THOMAS-PROCTORVILLE OHIO Very little DX just now, ordered new KAAR communications receiver, so with it and Sargent hope to get a little DX next year. Had nice visit with Doc Kirk few weeks ago and enjoyed seeing his office equipt, which is one most complete in W Va. Had several instruments which aroused my curiosity, especially one which examined your head to see if you are all there. He examined me and either the instrument was not working or out of politeness he told me I was OK. (Something wrong for a DXer for he has to be cracked somewhere to waste so much Mdt oil) Kirk a swell fellow and if any DXer ever gets the chance, he should pay him a visit. In summing up this seasons DX I added a few good ones-HJFM-7EX-ZJM-STK-WXLS-WVUR-WXLQ-WVL-WVTK-HCJB-KENO-VOUS-8 watter on 1580 kc 500 miles from here-WLBZ-WMEX-WVTK(P.I.)-WXLS greenland-WVUR New Hebrides-WVL Canal Zone-WXLQ Bermuda-JZM Palestine-STK Angle Egyptian Sudan and my 2200 verie was WXLS-HCJB for 8 new countries on BCB with several others out. Hope to struggle in thru the summer.

KERMIT GEARY-WALNUTPORT PENN New veries in from Montbeliard (France)-KVMV-WKRY-WKRZ-WMSA-WMVG-WSTC-and KELD forca dup. All letters except WKRZ which is a fine Dick Cooper Card. Montbeliard was rec direct from the station and is written by hand in French, a picnic to read but is definite verie of their 1-KW station. Gives full details of their set-up with an IRC enclosed for another report. WFKY vs Charles M Green, CE-WMVG Jack O'Connor Pro Man-KELD Sethel E Eckhardt, CE(W5GYI) Ret WKAX's thank you letter for a definite verie. Rpts out to the following 5/20 WKAX 2:0 and KSFT 3:10. 6/3 KRIG at 4-KAMD at 4:15-WPOR 4:35-WLAR also on 4:35; 6/4 KRES 2:43-KCRT 3:05-WNCA 4:16-WJOI 4:25; 6/5 CJAD 10:15 PM; 6/8 WTSB 2:50 testing all AM, also CHUM for dup on 6/3 till 8 PM S/off. Station testing on 1240 2:07-2:30 on 6/4 believe it was new one but call letters lost under tone oscillator or QRM. In last bulletin KENO thru KVAK should have read KENO on DX. Glad to see a new member in the nearby town of Northampton, Pa Warren Landes, if you're ever up in Lehigh Gap, stop in here, first house toward Walnutport on Route 145 from the gas station in intersection of Routes 45-145. This invitation goes for all NRC Members. In looking throu old numbers of Radex I have just come across an interesting and timely article under the title "Need for Action" in May 1936 issue. The writer Carlton Lord discusses a congressional bill introduced by Sen Wheeler which would scrap the currant plan under which radio facilities are determined by density of population and would permit the FCC to authorize stations where needed" Saying that there is need for organization among DXers to prevent the dumping of any number of stations upon the already crowded broadcasting spectrum" He concludes with "Let us hope it will be possible to save the air for DXing before it is too late" That was 10 years ago with 646 stations in operation. What can he say today with the number of stations fast approaching twice that amount? To my knowledge, there are no real complaints. I for one am in favor of new stations to prevent our hobby from becoming stagnant, although I will admit that to a new DXer the goal of verifying nearly all of them must seem like a Herculean task. Well best wishes to you all for a swell summer.

JOE ENZ-BROOKLYN N Y Veries in slowly, 718 to date and in since last report are XESM-CMHK-KSMA-KTRB-CHEF-WPOR. Up 2 AMs netted me 6 new ones, on 5/26 No CKTS but WMFT asking for west coast rpts and WLAR. Mon AM 6/3 hrd KXLR 3:20-WNVA 4-4:15 both on FCC-CMCQ asking foe USA rpts on 1460 and WPOR on s/on at 4:30 AM EST. Note DX better than last Feb. CB-138 on 1380 May 1st was very weak. Rpts still our are CMKY-CJOR-WNVA-KMED-KXLR.

BOB BROWN-GOSHEN IND Latest stations rpted WNCA-WKPT-WSOY-WGL-WPAD-WKAX-XEB-KSJB-CKEY-WMFT-KMLB-KXOX-WEW-KCRT-WSSV-XED-XELC-KRIG-KALE-KFEQ-KXLA-KXOK-KFGQ-CMCQ-WNVA-KAMD-KUTA. ERIC WHITWORTH-DUNEDIN N Z Altho I hate to admit it my loggings still register zero. However, the new radio should be thru in six weeks now, just in time for our winter season. Since last writing veries have turned up from KGB 1360-WOWO 1190 the guy who wouldnt confirm my Canadian rept owing to war time regulations-KXLA-1110; WASK 1450-KSAI 1010-XEG 1050-KWTO 560-WKWF 1600-KUJ 1420-CBR 1130-CFNB 550 replying to a follow up on my Canadian report. Murray Lamont has rec a number of the bulletins and likes them very well. (OK Eric this one took 49 days to get here, not too bad at all-Pop)

BOB GORSUCH-CEDAR RAPIDS IA Am calling it quits for the season with a total of 1188 verified, adding 47 for the season. 8 Rpts unanswered and they are WDAD-KMED-KTHT-KALL-WCMA-WFEB-WMVG-WNVA. Latest veries are CJOB-KWBW-KXLR-KGAK-WGGA-WHIT-WDSR-WJOI. Well all for now and good summer to all of you.

JACK QUINTRELL-WASHINGTON D C Obtained a pretty swell job in the Veterans Admin here in D.C. and like it a lot. Been DXing quite a bit since getting out and altho conditions have been lousy the past 2 weeks. My verie total is now 621 and hope to get it up close to 700 by Xmas as there are simply slews of 10 & 50 KW stations I have not verified. Rec a lot of overdue veries on follow ups as well as some that just took a long time. Among them are KZFM-WVOQ-XERB-WFEB-WLAT-WVUR-VOUS-CJAT-WDAD. Other veries are KGKY-HJCB-WRRF-WMAL-KVMV-WRC-WMBO-WMVG-WSAU-WKMO-WJTN-WKOK-WATT-KMAC-WCAZ-KSEI-WDSR-WLPM-KWAT-XEB-WHO-WWJ-KWKH-WMFR-KTMC-WSTV-KTMC. Rpts out include WFOY-WHIZ-WGKV-WBAB-WPAT-WCMA-WGRC-KFGQ-KWOR-KXLR-WADC-WPPA-WIRA-WNCA-CJAV-WJOI-WSAI-WBBM-KXEL. XEB is verifying in 2 weeks now on those International tests for FCC. They give QRA on tests. Would like signers of WFOY-WHIZ-WGKV-WCMA-WGRC as they are pretty well overdue. Tns to tip on WMVG a follow up to CE with prepared card did the trick in week. Been trying to pull in WDSC but cant quite get over the hump. Havent seen anyone listing veries from WCMA or WGKV, anyone rec one as yet?? (Nothing heard on WCMA as yet Jack-Pop)

FRED VAN VOORHEES-FLUSHING N Y Nothing to rpt in way of DXing. Veries from WKAQ-WONS-WQAN-WOCB-XERB. Total now 594. The XERB verie was prepared card sent to the San Diego QRA, and signed by R S Dougherty, Mgr. Have hrd ZEM in Hamilton, Bermuda several times now on 1240 kcs. Using 250 watts and has entirely replaced WXLQ which has ceased to exist. Most of the programs are recorded music and he might get in up here sometimes. Had the pleasuer of attending Norm Maguire's wedding June 1st and saw him and Mrs Maguire launched on the sea of matrimony in a very beautiful ceremony.

GEORGE HOTTON-MILWAUKEE WISC Well the DX season has about come to a close so thought I'd send in a summary of my few rpts since Sept 1945. Not much time for DX due to sale of machine shop of which I was part owner. Sent rpts to CJCA-KGA-KMO-KWBW-KYA-WINS-XERB-XKNX-WSAU-WIAC-CBR-CJKL-CKFI-KFAC-WISR-KABC-XEQR-CKWS-WMGA-KSAI-WKMO-KUOM-TIPG-WIBG-WRUF-KTBS-CMCD-CFJC-KTRB-WPAT-WSMB-WKRZ-WMBR-KHMO Of above mentioned the following are still delinquent-KMO-XERB-KABC-XEQR-WKMO-TIPG-WIBG-KTBS-CMCD-WKRZ as well as KSAI to whom I sent another crpt in Jan but still no reply. Find the Spanish form letter in Feb DX news very helpful for Latin and S Americans. Sent Spanish letter like this to SW YVLRX of Maracaibo, Venezuela via airmail on Jan 22 and rec verie on neat letterhead on Jan 29, exactly 7 days later. Can anyone better that for speed on a S.A. reply? YVLRX also has a long wave station YVLRF a 300 watter on 1120 kc. If there is enough demand for it, perhaps it would be a good idea to have the Spanish form letter printed up on NRC letterheads like the NRC Report form. (Nope noe NRC Rpt Forms available yet George but will get in touch with Dick and find out the situation as more are asking about them-Pop)

STAN MORSS-BRADFORD MASS WEED testing 5/27 4, also hrd WKBW-4:03; KCRT at 4:05-1:15 for 1st new one. WMVG 4:33-4:40 for 2nd and WLAR 4:33-4:42 for 3rd and WKIX for 4th testing 4:40. WLAT at 4:45. Conditions good this AM with Mexicans and West Coast 5Kws coming thru. Most recent verie came in from WHIT. (NEXT BULLETIN JULY 20th-RPTS IN BY JULY 16th.)

Visited Kermit Geary and he showed me his recent verie cards and letters, over 1200 on BCB and 92 countries on SW and over 32 on BCB, thats really DXing. Expect to get a National HRO by Xmas. I DX on Ham and SW bands now for summer. The new station (bcb) in Bethlehem is under construction and plan to be on air by fall on 1110. (OK Elwood dont forget to let us know about that new station for tests-Pop)

TED SALING-ESTACADA ORE I dont have much to report but that it is not unusual. Veries in from KGAK-KYOS-KTBC-KIUN-KEYS-XEAU-KROP and dup from KCMJ. Verie I think from CMHB but I only sent a tnx letter. KGAK says mine was 21st verie to go to an NRC member. Kinda slow wasnt I? (What do you mean Ted, I still need them-Pop) KTBC says now 5 Kw days 1Kw nights. KEYS asks for rpts on reg AM sked. XEAU sent postal of Bull king. Says they transmit in English 11PM-4AM and 9AM-1PM EST with 2500 watts. QRA just Tijuana B C Mexico. KCMJ says about recent DX all rpts from east are bad, just tnx cards. KROP been on the air since 4/20. Could not hear CB-138. With help of Maley and Stone I got off my first rpt in Spick to XEB. Believe English would have been OK on this one but wanted to try Spick. Also rpt to KDON on a late test to 3:30 AM EST on 5/2/ Hrd KCRT-s/off from F/c 3:40 5/9.

DOC KIRK-PT PLEASANT W VA Some info please--Who s/off on 1560 kc at 10:04 PM EST when WQXR not modulating. Sig fairly good and easily read. Station s/off gave local temp 50 degrees or maybe 52 and weatherforecast. Sig was stronger than KPMC who could be hrd thru WQXR after s/off of unknown. Said would return tomorrow. A time was mentioned but could not get whether it was given as time of s/off or s/on tomorrow. Anyhelp at all would be appreciated. Dont think that thw 2 or 3 new stations for this channel have taken the air as yet. Ann was in American English. Nice verie from WKAX, he sure has power. WMON will go on reg sked June 15th, dont know hours as yet. Havent hrd him testing as yet either. A New 250w station on 1450 kc will likely be established at Huntington W VA Not as yet official I understand but will most likely in a few days. Sure a mews of new ones hitting the air. Some new test every day. Hope we can get a new log soon as we sure need one with all the new ones coming on and being licansed. A check on my unknown if any of you can.

S HENRY FRANKEL-BROOKLYN N Y One of my many applications for employment made on my discharge in March finally hit it right and I start work this Wed 6/5/ Also have applied for entrance to Columbia University School of Engineering but have not hrd anything definite. Would like to complete my education but will continue working if not accepted. Way things look I probably wont be accepted as all schools are crowded here as elsewhere

TED SALING-ESTACADA ORE Since last rpt veries in from WCRS for 11/23 rpt XEB-2BE. XEB sent card, then letter in English enclosing another card. 2BE is my best verie to date but give power as 200 watts, my list showed only 100 so was disappointed there. Letter rec via airmail from Clayton Howard of HCJB calling attention to his SW stations on 4107-6240-9958-12455 and 15115 kcs. Also a txn letter from CMKY giving their sked as 6-11:30 AM and 5:30-10PM. If i m lucky I'll have a visit with Bill Barrett of Denver, Colo, now in the Inf^o stationed at Ft Lewis, Wash. WCRS says reg sked 6:30-12:30 AM except SUN then s/on 7:45AM. F/c 4th FRI 3:45 AM. No DX out here now due to hevvy static. Many electric storms but they cant clear away so will have to take it. Your Editor has not included any of the new CPs or new stations as he intends to publish a full list in the next few weeks, before the August bulletin and it will be sent as soon as completed. So sit tight and you will receive a full list taking 3 pages and it will list all stations that have been granted CPs or have come on the air since Jan 1 1946.
