ISSUED WEEKLY---\$2.00 PER YEAR

Volume #15 - Number #6

October 25, 1947

We are happy to announce the renewals of Ken Mackey, of Dunedin, New Zealand, and Murray Lemont, of the same city. Thank you both, and good DX!

DX CALENDAR

Date	Call	Kc/s.	Location	Watts Power	Dedicated to:	E.S.T.
Oct. 26	WIKY	820	Evansville, Indiana	250	NRC-NNRC	2:00 - 3:00 a.m.

28	HOX	1310	Panama City, Panama	9,000	NRC-NNRC	3:00 - 4:00 a.m.

IMPORTANT - SEE PAGE #1 FOR WRITE-UPS ABOUT THE PROGRAMS FOR THE ENSUING WEEK. PAGE 4!

Note #1 - Portion of WSVS' program from 3:30 to 4:00 ONLY will be dedicated to NRC & NNRC. Rest of program will be in the nature of a test.

Note #2 - WALF & WJVB - Times may be made a bit later to avoid QRM from XEFO on 1110, and WINS on 1010. Watch "DX News" - Page #1 - for further details on this.

Note #3 - WMBL - Note corrected spelling of their city - MOREHEAD CITY, not Moorhead.

Note #4 - WKOP - Time has been moved up an hour - 3-4 a.m. is correct. WSB would not permit them to operate from 4 to 5. Live-talent show promised.

Note #5 - WCHA - Date is corrected to read Dec. 31 instead of 21 as appeared last week. Dec. 31 is correct. Also location altered - Chambersburg, Penna., not N.Y.

cycle test 10/14 3:15 am. Promises to verify. (MALEY)

1450 WGUY Bangor, Me. weekly test 10/20 at 4am (DUFFY)

WPAM Pottsville, Pa. tested 10/20 at 4am (DUFFY)

As usual all mistakes are Stasen's. Got all in this time. 73's VINCE.

Information arrived here at Club Headquarters from both Clarence Mustoe and Arnold Gerrard, NNRC-CPC Chairman regarding Station "KVNI" being on the air November 1 1947 from 3-4:30 or 5 AM EST on 1240 kcs. This will be their first anniversary on the air so its a chance for a lot of you boys to log and report this swell catch. A good number of reports might mean a DX program from "KVNI" in the near future. Send all reports to Mr. Rodell, Station Manager, Coeur d'Alene, Idaho.

Arnold Gerrard also adds the following info about a DX program from;-
 VOXM 1005 kc St Johns, Newfoundland. Nov 24 1947 3:30 - 5:00 AM
 with reports going to Mr. J.L. Butler, Director. P.O. Box 809.
 (Lefty Cooper take note of this DX)

Our thanks to Arnold Gerrard for sending the above info. He knew the KVNI program could not be in time for the Nov 1st issue of NNRC so he sent it along thinking that by doing so, a lot of boys would be listening and would report. Thanks also to Clarence Mustoe.

1295 "Radio Trinidad" Heard at 8PM and copied solid. YL announcer who does not say VP4RD but only "Radio Trinidad" (Al Maley)

TO ALL;- Tom Carberry wishes to inform you who are entered in our BCB contest to conform with the following when sending in your Stations that have verified and are eligible for listing. In all cases list the CALL CITY-DATE HEARD-DATE VERIFICATION was RECEIVED. When sending those which were verified on a DX Program, you must also include that info, otherwise you will only be credited with milage and not the 3 extra points. So remember if its for a Station and on a DX, tell Carberry so.

RAY EDGE-BUFFALO N.Y. Just a little added info. Just received 3 verie cards from WLAQall for the same report of March 15 1947. Signed by Gene Weil, no title. Also air mail letter-from WIBS which isnt a definite verie, so will write them very soon and explain just what a verie is and see if they will not alter their replies so there will be no doubt. Other veries received since sending Lefty my report were letters from WDUZ-WGNH-WKAI-WCRO-WRFD. Total now 1218. No reports out since 10/17.

JOE BRAUNER-WILLIAMSVILLE N Y Yeh KCLE sure noisy, could catch bits of program here and there. KGRI much better and easily copied. DX bit slow this week. Monday AM WGUYOL450 on his reg Mon 4:15-4:30 check and R7. 10/22 WCCC on 1290 and KASH on 1600 both easy. Veries are QSL card from KSIG and KUBC. Latter has daily F/C at 3AM and is on 1240 kc. Letters from WCRO-KICO. KICO on 1st WED 3:30 AM on 1490 kc.

1230 WCRO Johnstown, Penn F/C 3rd FRI 2:45-3 AM (Brauner & Edge)
 1240 KANE New Iberia, La F/C 1st MON 3:30-4 AM EST and all correct rpts will be verified by letter if 3¢ stamp is enclosed and this info from Joseph E Sweeney, CE. -(Edge)
 1400 WGNH Gadsden, Ala F/C 3rd WED 3:45-4 AM V/S A B Letson, CE Box 351
 1450 WROB West Point, Miss. Soon on reg sked and all correct reports will be verified according to Bob McRaney, owner. (Edge)
 1510 WKAI Macomb, Ill F/C EV THURS 3-3:10 AM. (Edge)

Well boys this issue is a nice bulletin and it is hoped that all of you will keep reporting to your Editors especially to Stasen who I believe should get enough information to fill at least 2 pages each issue. So what say, take a little extra time and get that important info to Vince by Tuesday of each week. Keep the members reports coming also.

Yep Report Forms 75¢ per 100 & Letter-heads 65¢ 100. Remember-Contest.

DX PROGRAMS FOR THE WEEKWIKY - KRPL - KWKW - SEE LAST WEEK'S ISSUE, PAGE #4.WIKY-Mr. John A. Engelbrecht, Gen Mgr. KRPL-Bert McAllister, Gen Mgr. KWKW-P. Spargo, CEWATN - WATER TOWN, NEW YORK

10/29 - 2:00 a.m., on.

Every month, come the 29th at 2:00 a.m., comes the most unique frequency check of any station, as Harry Richter, member of the National Radio Club and President of WATN, takes the microphone, and plays requests for anyone who writes in, and also publicizes the club and its DX programs to come. Not only this, but comedy comes into the scene also, so if you have not been listening to Harry's programs, this is the time to start to listen monthly. Why not have your requests included, too?

KIEV - GLENDALE, CALIF.

10/31 - 3:00 - 4:00 a.m.

It isn't necessary to point out the importance of this program, for KIEV is missing from almost every DXer's log book. And KIEV is giving us another chance of logging their daytime-only station. According to Len Kruse, who has been there, KIEV is located in a valley, and with their 250 watts and daytime operation, are quite the rarity for DXers. Telephone in during the program if you like -- Call either CHAPMAN 5-2388 or CITRUS 1-1133. There will be a cash prize given away by KIEV on this program - details will be given you over the air! We thank Mr. Cal Cannon, and Mr. Vern Schumann for this program, arranged by Ken Albrecht. Send reports to Mr. Schumann, Chief Engineer.

KGER - LONG BEACH, CALIF.

11/3 - 2:00 - 4:00 a.m.

Again, this is not a rare catch, but nevertheless a program which will give your club much publicity and prestige. We recommend that you listen in, and we feel sure you will enjoy the show to be broadcast for you. Ken Albrecht says he expects to be at the microphone, doing the announcing, and we all would want to hear this energetic member of our club. Again, mark you envelope in the lower left-hand corner with the letters "DX" for KGER's mail is heavy. And again, a prize awaits some lucky DXer - listen in for details. Phone in? Number is Los Angeles - Madison 2551. We thank Mr. Wynne, Station Manager, Mr. Adams, Program Director, and Mr. Luke Crumbaugh, Chief Engineer. The latter gets the reports on this program, arranged by Ken Albrecht.

WSVS - CREWE, VA.

11/2 - 2:00 - 4:00 a.m.

Here's one of the new daytime stations, which is going to pay honor to our clubs. The 650 channel should undoubtedly be clear all the way for this program, and therefore, a new station should be written into many a DXer's log. Portions of the program will be recorded, while much of it will consist of live talent, from WSVS' regular entertainers. This type of program is always warmly received, so we feel sure that the WSVS show will be one of the out-standing programs of the season. We're not sure here at the Editor's Desk as to whether the 3:00-3:30 or the 3:30-4:00 hour will be dedicated to the clubs, but it is one or the other. Send your reports to Mr. W. L. Willis, Manager, whom we heartily thank for his kind gesture. Arranged by Len Kruse.

KFOX - LONG BEACH, CALIF.

11/3 - 4:00 - 5:00 a.m.

California Marches On, and here is another familiar visitor to our loud speakers on the air honoring the DX Clubs. We hope you will support this program by giving it your attention. You may phone in during this program, too, and the number here is Long Beach 6-3705. We do not have the names of those at KFOX who agreed to put this special program on the air, and we are instructed to send reports merely to Radio Station KFOX, Long Beach, Cal. This will be a Monday morning, and that means that all-nighter WDSU will not be in the way, blocking the program out. It looks like a clear channel for the KFOX DX program, which is good news indeed. This program was also arranged by Ken Albrecht, who has been a busy bee out on the West Coast.

KLAC - LOS ANGELES, CALIF.

11/4 - 4:00 - 5:00 a.m.

Ken Albrecht again, fellows, and again he plans to be at the microphone to do announcing and talking about the DX Clubs and DX features. KLAC is missing from some of our logs, and with this special show, we all have a great chance to log KLAC, under these recent new call letters. We're not sure whether or not KVI will be on, but we certainly hope that they will not be, for that would spoil the KLAC DX for many of us. So don't forget to tune for KLAC, and remember that this is a Holiday morning, which means no work the next day for many of us, so the loss of sleep shouldn't be too bad. Telephone number is Hyperion 3171. Send your reports to Mr. Fred Henry, Program Director. Thanks to Mr. H.

***** MUSINGS OF OUR MEMBERS *****

Stan Morss - Bradford, Mass. (2 reports combined)

Oct. 6 - WDVA test at 2:03. WBYS at 2:12. WPBP at 2:25. WMCK at 2:30. KROD at 3:00. WEBJ at 3:05. WAVZ for a new one, 3:06. CHGB very good - an R-9 here, 3:25. Strong carriers on 1080 and 1370, off and on all AM. KANE at 3:45. WHOO for a new one here at 4:10. WGUY at 4:25. Veries from WXGI WHAN WKGN WKNS - WKNS says F/C to be First Tues. 4:30 - 5:15 a.m. 10/8 - Who's testing on 730 Kc/s. - CKAC too much for 'em here - calls sound like WKTG, but letter from they says not till the 13th! Veries from WETF & WAVZ. 10/9 - WWNC for new one at 2:00. WSBA at 2:15. WBYS ET at 2:18. Grr - WWWE on with an all-night show - Mon. to Sat., according to announcement - seemed very weak for them. (Good! -Ed.) WCMN at 3:08. WSOC f/c 3:11. WCMA f/c 3:14. WENK f/c 3:30. WWON at 3:45. Veries from KVRG & WIRK. 10/10 - WORA at 2:55. WCAX at 3:39, test. WMBS f/c 3:40. Oct. 11 - Veries from WHIM & WVOK - cards. WSWN ET most of AM. 10/11 - WMIX f/c 2:19, QRM from WINZ. WKAT WQAM WIOD on with Hurricane News. WROB on first ET WBBC at 3:45. 10/13 - Veries from WHOO WLEF WATN WIBS WHTN. WCRK test at 2:15. WPGH ET at 2:30, offering records albums to most distant listeners. WEBJ f/c at 3:00. WABY f/c 3:05. WMFJ f/c 3:15. KDWT test at 3:16, for a new one from me. WROB all AM, ET on 1450. WHOO at 4:15. 10/14 - WJNC f/c 2:12. WJMR 2:16. KSTB test at 2:20. WKRC f/c 2:30. WKRM at 2:35. KCLA a new one at 2:40. WKNE, 3:00. WCRK 3:10. WWOL 3:15. WJNO f/c 3:30. WMLT f/c 3:42. WDNC f/c 3:50. WISE f/c at 4:00. WRRF test at 4:31. The list of specials in this week's Bulletin does my heart good. KGRI WKOP KRPL KIEV WMBL are needed by me and I'll be listenin', WWWB's all-night show seems just like a general store - they sell everything from radios to table covers. 10/15 - WHAN WTMA WCSC WTOC and others on for Hurricane News. WLOW test 2:15 a.m. WLAT f/c 2:30. WCRK test most of AM. WNBH all AM with Election Returns. WBEX f/c 3:04. KERP 3:05. WAYX - 3:18, test for a new one for me. WAGF 3:33; WSIC f/c 3:40. Veries from WHRV. 10/16 - Veries from WBEX & WGUY, which cleans up Maine here. Report to XERF. 10/17 - CHLT test at 2:10. WCAX testing, 2:15. KSTV testing and reading DXers' letters at 2:30. WPWA ET 2:55, QRM from WLOW. WMBM ET 3:10 a.m. WENC f/c 3:40. WSON f.c 4:07. WHAS announced all-night show to end October 13. Hooray! If the weather doesn't cool off, I'll be slowing up - 80 in the shad today, and in the 60's the last few nights - too hot for October. Veries from KERP WBYS WPFB. 10/18 - KOKX at 3:15, ET, very weak. WBOC - 3:35. WGAY - 3:45. Conditions very poor - 65 degrees at 3:00 a.m. here, and summer static. Verie from WROB v/x Bob McRaney, who says he will verify all reports. (Swell report, Stan - Ed.)

LEN KRUSE - DUBUQUE, IOWA

Several days ago, received a very unique verification, that coming from KWGB, Goodland, Kansas, in the form of a poem. Other veries received recently were WXGI (on a WFFV letter-head) WVOK KVRG KCSJ WHIM (from a report of last April) KOKX & WIMS. Since reporting I have logged the following: KWGB with ET 10/6 4:39-5:00 a.m., also on 10/6 WIBS San Juan, P.R., heard with ET 4:42-5:00 a.m.; WSWN, Belle Glade, Fla., on air all AM because of hurricane; station WROB, West Point, Miss., logged also on 10/12 with ET 4:06-4:45 a.m. On 10/13, WCRK, Morristown, Tenn., heard with ET 2:40-3:00 a.m. No sign of KCSB special, as the old faithful WADC took over on the 1350 spot. Incidentally, speaking of Iowa stations, there are currently 3 others under construction in Iowa. The newest daytimer at this location is KWOA, Worthington, Minn.

JOE BRAUNER - WILLIAMSVILLE, N.Y.

New stations here this week. 10/14 - KSTV KJAY KIRX on ETs, latter louder than KJAY, R-8. 10/17 - WCRO on f/c 2:35-2:45, KUJA & WMBM, latter on ET. 10/18 - KCLE & KGRI on DXes. Veries, letters from KELO whose CE says KEPO on 690 about ready to go. WROB, affiliated with WELO WROX WCBi WWOX, who says 'Tell everybody about WROB and that we will verify every report received. Tests are completed. WALD WCRK KSWs WHRV WGFG, & card from WHIM out since April, & unique card from WIBS. And last but by no means least, KWGB's unusual form reply, followed by a letter & check for 10 frogskins, seems I won the DX spot by a close margin over Buffalo & Abe Cohen out Washington way. Surprised to say the least for KWGB really poured all over CKAC here, with a dandy signal, & was sure the East Coast heard him. Missed out on KCSB. Too much WADC. KCLE are just strong enough to allow 1 recognized tune to trickle through the static in 50 minutes of careful listening. KGRI much louder and easily logged, staying on to 6 a.m. with Western tunes. DX generally poor due to summer temperatures & unsettled weather.

WSVS - Your Editor just found the item from Kruse on WSVS - the dedication will be from
 ***** 7:00 to 7:30 a.m. F.S.M. but listen to the whole show which is to be next live

MUSINGS OF OUR MEMBERSHal Wagner - Erie, Pa.

Just a little scribble to let you know I'm still alive, although not managing to do any DXing - too much other work around here that must be done, hi! Verie just in from Lopik, 995 Kc/s., for reception of last January. Station is now known as "Radio Union" & still transmits on 995 and 722 Kc/s., with 125 kilowatts power. A nice verie with pictures of towers and transmitter building on front cover, actual verie on Page 2, description of station on Page 3, and picture of transmitter on back cover. Really a very modern set-up. For Van Voorhees, here is QRA: Stichting - Nederlandsche - Radio-Unie - Postbus #150 - Hilversum, Netherlands. Enclosing a clipping from local paper, giving QRA, officials, and expected opening date of new WMGW, Meadville, Penna., station. Suggest you read a copy of October 1947 issue of "Popular Science Monthly." On Pages 114 & 115 it has an article and pictures of the Collegiate network of University stations that have ~~###~~ broadcasting range of 300 feet. It says there are 50 such stations in U.S. and Canada. Gives calls of WBRU for Brown Univ., Providence, R.I., WVBR, Cornell Univ., KSLJ, St. Lawrence Univ., Canton, N.Y., and WPRU in Princeton, N.J. (The clipping says that Victor C. Diehm, is manager of WMGW, Dr. H. C. Winslow the owner, Hoyt H. Stout, Chief Engineer, that it will have a range of from 30 to 40 miles from the Meadville area, with 1,000 watt FM station to reach to Cleveland, Erie, & Pittsburgh. Studios in First N/B Building - Transmitters & tower cost over \$90,000. Says WMGW will be a community station, but will take a few network transcriptions. WMGW expects to hit the air-planes before Christmas if possible.)

Ken Mackey - Dunedin, New Zealand

I have been helping to compile a new call book for my local club. It has complete and up-to-date lists of U.S.A., Canada, Australia, New Zealand, Europe, South America and Africa, as well as Asian BCB stations. The S.W. section contains a full S.W. list of the world's stations. All stations are listed in correct alphabetical order and 100% accurate, up to the time of going to press. We publish this call book every year, and the job of amending the 250-watt channels is terrific. If any of the members would like one, I will forward same for 6 5-cent U.S.A. stamps. (NOT AIR-MAIL STAMPS! -Ed.) My loggings this winter have been few, mainly due to the high noise level. Between 1500 and 1600 Kc/s. it has been fair at times, and some good signals have gotten through. Reports have been sent to KOOL KCBK KTLK KLCU WHOW KEEN KSST on f/c WKAT WAPX CKVC WLOW KOWL WCOA XEXX KPMO KICO KSWL KULA CMX WOOK. Only reports back so far are KICO - most distant report, and KULA. Other reports are away - WXLH KZRH KZMB KzPI and Penang - Malaya. Mail is very slow these days, and the fact that both Matson Liners are off the run is very disappointing to us. Last inward mail was over 3 weeks ago! Well, all the best, and good DX. (Swell DXing, Ken, and we hope to receive more reports from you! -Ed)

Kermit Geary - Walnutport, Penna.

During the past week, 12 new veries were received from the following stations: WBUD WBYS WCRK WGUY WHIM WHTN WIBS WLBF WPTB WROB WRRZ, and last but by no means least, Hilversum I on 995 Kc/s. My report to that one had been out since 1/15/46, a total of 21 months. In the same mail there came a card from AFN, Stuttgart, Germany, in answer to my report of 1/24/47, but instead of verifying my reception of their BCB station, it turned out to be a QSL card for their SW station. The WHIM and WHTN cards were long over-due, also. Reports were sent to the following stations: 10/14- KSTV on its initial ET, from 3:06 to 3:41 a.m.; KJAT on ET from 4:27 to 4:45 a.m., and offering a minierature jay-hawk to the 3 most distant reporters, and XELZ on ET from 4:23 to 4:43 a.m. On 10/15, I may have heard KCSB through the WADC-XEQK QRM between 5 and 6 a.m. A number of program items were logged, including one definite song title. 10/16 - WHOO on ET from 4:25 to 4:32 a.m. 10/17 - WFWA on its initial ET from 3:14 to 3:45 a.m., QRM'd prior to 3:10 a.m. by WLOW, and WMBM on ET from 4:04 to 4:30 a.m. 10/18- KOLE on DX program from 3:00 to 4:00 a.m., with R-5 signals and deep fading, and KGRI on DX program from 4:00 a.m., on with good R-7 signals and shallow fading; quite a considerable difference between these 2 stations located only 150 miles apart. 10/20- WORA on f/c from 4:14 to 4:35 a.m., for another new Puerto Rican. Oh yes, WROB requests that all DX ~~###~~ clubs be notified that they are on the air and will verify all reception reports. That's WROB, West Point, Mississippi, 1450 Kc/s. (OTHER CLUBS PLEASE COPY -Ed.)

DEAD-LINE IN PHILADELPHIA AND BROOKLYN FOR THE NEXT ISSUE - NOVEMBER 1 - WILL BE TUESDAY, OCTOBER 28. AFTER THAT THE NEXT 2 TUESDAYS ARE HOLIDAYS SO REPORT 1 DAY EARLIER!

CHANGES IN STATION DATA

NEW STATIONS

1240 Bluefield, West Virginia	250 U1	1360 De Kalb, Illinois	500 D
		1360 Fort Madison, Iowa	500 D

CALL CHANGE /Correction in spelling of town for

1600 KCOW Eastland, Texas, from KVES. /WIPB, 1230 Kc/s. Correct way is

FREQUENCY CHANGE /"ENTERTRISE, Alabama, not 'Z'.

1400 - CJFP Riviere du Loup, Quebec, from 1470. Reported in FCC release as now operating on this channel, notification coming to FCC from Canada.

HOURS CHANGE

1400 KRLN Canon City, Colorado, is DAYTIME ONLY, instead of unlimited.

THIS-A AND DATA

Now this is the way your Editor likes to present "DX News" to you - simply filled with reports from members all over the world. I'm going to appeal to you all once again to continue - the more you report, then your "DX News" will look like this every week, week in and week out. Your Editor wants to give you a big, lengthy, newsy bulletin, and this is the way it can be done. I want to thank you for your reports and support, and well - let's do it every week, huh? There are still many members whose names do not appear in here, so what do you say, boys? Let's hear from you too!

The National Radio Club pauses to extend heartiest congratulations to Mr. Peter J. Clarius, of Staten Island, N.Y., on his marriage to the former Miss Alice Leadley, also of Staten Island. May the coming years be filled with happiness and health, and here's hoping Pete doesn't forget he is still a DXer, too!

DX CONTEST ENTRIES

This is absolutely the last time we can remind you to shoot that quarter to Thomas F. Carberry, 22 Louvaine Drive, Kenmore 17, N.Y. The contest will be fun - so what, if you don't win a prize? Get in, and make the contest more fun for everybody. Now, the issue of November 8 will contain the first results, and the dead-line for these to Tommy will be the same as to the Editors - Tuesday, Nov. 4, but remember it is a holiday, and there is a possibility that there will be no mail deliveries on that date, so you'd better have your list of veries eligible for the contest in to Tom by Nov. 3. No fooling, fellows - get in this interesting DX contest!

The next issue will contain the standings in the Heard-Verified listing, taken care of for us by Frank Wheeler, Care of T. J. Schwartz, R. D. #7 - Erie, Pennsylvania. Let Frank know, by post card, how many veries you have, and how many stations you have heard and he will add your entry to the list. Let us make this an all-inclusive list! Send him those totals now!

Another thing - send Walter E. Bishop, 1722 Sixth Street, Renesalaer, N. Y. the latest verie-signers on your newest additions to your verification albums. Let's make it an all-inclusive list, containing every station on the air. You can help - please do! And if you are having a dauce of a time verifying some particular station, send a double post-card to Walt, and he'll then surely be able to give you that important name.

ART FOERSTER'S LOG BOOK CONTINUING

And Art wants those who subscribed to it last year to know they will receive one more issue of it, without additional charge. It was to have been presented to you in September, but the pressure of working 66 hours a week made it impossible for Art to get it to you then, but it will soon be forth-coming. Would you like the Foerster Log Book for another year? If so, please send, as soon as you can, \$1.00 to Arthur E Foerster, 1213 North Bosart Avenue, Indianapolis, Ind. (Zone 1) To those who did not get this fine log last year, it is a printed one, on loose-leaf paper, listing stations by kilocycles, and alphabetically by call letters, by frequency, and it is a great boon to any dial-twister. Remember, don't delay in submitting the dollar, for Art would like to know how many of you will want his log.

And the New Zealand all-inclusive log mentioned on Page 6, in Ken Mackey's report may be

MUSINGS OF OUR MEMBERSRay B. Edge - Buffalo, N. Y.

Reports have gone out to WCOM WCRK WKMA WPDJ WGNH WPGH WCRO WFWA WKAI WMBM. Veries have been received from WKNS WGFG WHOO WDVA KOKX WBYS WPFB WROB WCRK KWGB, in form of letters and a card from WHPE, with a double-page folder from WPIT. Total now 1211, yep - boys, I have finally passed that long-awaited 1200 mark, and am now on my way to 1300. Wonder how long that will take? KOKX says I heard their initial test, which was on Oct. 8. Oh yes, a few more letter veries - WILM WRNI, KHBG, to replace old verie cards I had. WPIT sends very nice folder telling about their first week's mail coverage pull. The letter from KWGB was in form of a poem, and it would have looked a lot nicer had it been on one of their station letter-heads, instead of just plain paper, but nevertheless very glad to have been able to land them. (Mr. and Mrs. Edge spent the week-end in Detroit, and had a fine time and beautiful trip with the trees in their autumnal splendor)

Eldon Addy - Marcus, Iowa

10/18 - Hope everyone was up this morning for KCLE and KGRI, both logged with swell DX programs for the Clubs. Both were out-standing and really plugged the Clubs. Since my last report I have logged and reported to the following new stations: WSWN-900 Kc/s., Belle Glade, Fla., ET; KOKX, 1310 Kc/s., Keokuk, Iowa, ET; WTNT, 1230 Kc/s., Augusta, Ga., f/c; WINZ, 940 Kc/s., Hollywood, Fla., Special broadcast; KIEV, 870 Kc/s., Glendale Calif., on ET; KJRV, 710, Edinburg, Texas, ET; KVVC - 1590 Kc/s., Ventura, Calif., ET, KSOK, 1280 Kc/s., Arkansas City, Kans, Reg. Sked., KSUN, 1230 Kc/s, Lowell, Ariz., f/c, KCSB, 1350 Kc/s., San Bernardino, Calif., DX (Swell here!); KOPP, 730 Kc/s., Ogden, Utah f/c, WROB, 1450 Kc/s., West Point, Miss., ET; KJAY, 1440 Kc/s., Topeka, Kans., ET; KIRX, 1450 Kc/s., Kirkwood, Mo., ET; WFRP, 1230 Kc/s., Savannah, Ga., Reg. Sked., WORA, 1150 Kc/s., Mayaguez, P.R., f/c; KSTV, 1610 Kc/s., Stephenville, Tex., ET; WLCC, 1490 Kc/s., La Crosse, Wis., f/c; KTFI, 1270 Kc/s, Twin Falls, Idaho (5,000 watt test) WLOW, 1590 Kc/s., test; WFWA, 1590 Kc/s., Chester, Penna., First ET, KREL, 1360 Kc/s., Goose Creek, Texas, ET, and the 2 specials from KCLE, 1120 Kc/s., Gleburne, Texas, and KGRI, 1000 Kc/s., Henderson, Texas. New veries in from: WFAA KOPP WIKC WINK WIGN KSWB KWGB KOJM KVRC KITE WIAQ KADA. Len Kruse is spending the week-end out here in Marcus, and we are having a swell time. Logged 2 new ones during reg. programs last night in KGAF, 1580 Kc/s., in clear till sign-off at 5:30 p.m.; C.S.T., and KORC, 1140 Kc/s., Mineral Wells, Texas, in clear after KSOO signs at 5:45 C.S.T. KWOA started reg. programs last Sunday (Oct. 12.) and are heard good here during day. KPIL still daily 4:00-4:30 E.S.T. on f/c., on 1590 Kc/s. (Nice loggings, Eldon - Ed.)

Norman Maguire - Glastonbury, Conn.

Just a brief report this time - not too much in, but several reports out. Veries in since last report are: KSON WADC WHUC WLAD WFUN WLIP WIBS WHIM WWSO WJDA WRBL WBYS WHHT WDAN WCRK WNAM, with duplicates from WWON and WHIM. WADC replied only after I sent them my second prepared card, after about a dozen follow-ups and reports over the past six years. Recent reports out include: WMID WORA, & 10/13- KXRJ WKMA WROB; 10/14- WDAN WENC KJAY KSTV; 10/15- WHAN WTMA WSAV, on for hurricane, and WHEN; 10/17- WCRO WFWA WMBM; 10/18- KCLE & KGRI. Terrible static and weak signals for latter 2 specials. KCLE came in very well for a brief period, but it was a struggle with KGRI. Wouldn't have stuck with them, if it hadn't been for their special. (Odi, Norm, for almost everyone else says KGRI was stronger - but that's what makes DXing such a fascinating hobby.) This warm weather has sure fouled up the DXing. Even the TAs have just about faded out completely, instead of coming through strong. By this time in October, they should really be pouring in. Been away quite a bit, and may be gone for several weeks in a short while. Don't know for sure about the latter. (Keep us posted, Norm - Ed.)

Herb Campbell - Athens, Penna.

Morning of Oct. 18 was a gloomy one for a DXer. Unable to raise KCLE here. KGRI, orchids to 'em - were on with a 2-hour live-talent show, wasted, in a way, because of poor conditions. For first time, I found WWWB on 1240, proudly announcing themselves as a 24 hour station! WROB seems to have topped about everything on 1450, this week, with ETs. Who is the Spanish-Speaking station on about 771 Kilocycles? Can't get a sharp zero beat, so close to 770. It hetrodynes WJZ in evenings. (Att: Al Maley. -Ed.)
 REPORTS FOR "MUSINGS" GO TO ERNEST R. COOPER - 433 EAST 21 STREET - BROOKLYN 26, N.Y.
 "DX DOWN THE DIAL" TO VINCENT C. STASEN - 5347 PRISCILLA STREET - PHILADELPHIA 44, PENNA.
 CONTEST ENTRIES TO THOMAS F. CARBERRY - 22 LOUVAIN DRIVE - KENMORE 17, NEW YORK.
 VERIE SIGNERS TO WALTER E. BISHOP - 1222 SIXTH STREET - BENNSALAER NEW YORK.

MUSINGS OF OUR MEMBERSLeo Herz - Chicago, Ill.

Well, finally reached the "500" mark in my veries - in fact, have now 501. 2 veries in this week - WCBD and WKAN. Have now 11 reports out, which I sent this season. Reports I sent this season were to WROB KCLE KGRI, the other special this past week from KCSB was all covered by WADC, was terribly dis-appointed as my buddy Derek Wharton got enough on KCSB for a report. I called KCLE by phone, and thanked them for the special. As I mentioned in my last report, I won the Zenith AM/FM set - have been playing around with FM a bit. While everyone claims 40 miles or at the most, 50 miles is the limit on reception in the 88 to 108 megacycle band (the new FM band), but I heard and sent a report and also called the C.E. by phone at WHFB-FM, which is about 72 miles away - really DX for FM. Weather has not been too good for DX, ad Oct. 18 for the 2 Texas specials was plenty filled with static. Can anyone tell me what day or times the 800 Kc/s. frequency is clear, as I have 2 stations to contact on that band, and I would not like to schedule them and then find the channel blocked. Write me at 720 E Barry Ave., Chicago 14, Ill. (It's open DAILY 4-5 a.m., E.S.T., Lec - CKLW goes off at 4, and XELO comes on at 5. Sundays, it's open 4-6, I believe. -Ed.)

Bill Reese - Fairmont, W. Va.

Since writing last, have added 26 new ones. September - WEYS (1560); KWOA (730); WXGI (740); and in October - KWGB (730); WSWN (900); KSTB (1430); KSIG (1450); WHSC (1450) WHRV (1600); WROB (1450); WJDA (1300); KOLN (1400); KOKY (1310); WABZ (1010); WCRK (1450); WSIR (1490); WBEX (1490); WCRO (1230); WKGN (1340); WMBM (800); KCLE (1120); KGRI (1000); WHYU (1270); WKBC (810); WKNS (1000); and WPGH (1080). October 20, logged KPTR (1490), Rolla, Mo., 2:45-3:00 a.m. I have to be at work at 4:00 o'clock E.S.T. Mon., Tues., Wed., & Thurs., and 5:30 on Friday, so I didn't have any chance for KCSB either on the 13th or 15th. Sent reports to KCLE and KGRI. Best of DX!

J. Warren Rutzahn - York, Penna.

My first report of the season, and I started when I heard WSCR one Sunday, wrote them, and bang!! Nothing happened. (Same here, Warren -Ed.) Good start! Maybe it will still come. During the summer lay-off, veries came in from WNGO WWXL WBGE WBIF WSUA KSYL KCIL WEAR WCJU WARD WTNT KAKC WJVB WCOB CMCF WDRC WMOA WOOK WGAD WTIP WABJ WMGR WSIC ZBM. Last week's DX brought veries from WGBS and WROB. The latter wants publicity through DX Clubs, invites reports, and promises prompt veries. Since last report I logged WOOK KCIL WEAR WSCR WMIX WSWN KENT WGBS WVOK WROB WCRK WWWB KCLE KGRI WMBM. Oct. 11, WINZ and WSWN had hurricane news all night. WMIX f/c 2:00-2:23. Oct. 12, more storm warning from WJAX WSWN WGBS, the latter as strong as WOR at times, said their directional antenna blew down so will be non-directional a few weeks. KCSB was blanketed out on their DX but heard WCRK testing, also KFFW. Oct. 16, logged WWWB for first times, now they should give up. (Hope so, Warren - Ed.) Also picked up WMSL on test. Oct. 18 DXes from KCLE and KGRI both noisy with KGRI the better, and thoroughly enjoyed getting them through the racket. Specials like that are lots more real DXing to me than logging a raft of close Eastern stations that come in like locals. That's really not DX. Oct. 19, WMBM and WGAY were testing between 3:00 and 4:00 a.m. That's all the DX here, so far, and it feels like summer is coming back. Sounds that way, too. One thing about these balmy days, it's comfortable to sit at football games. (Glad to have your report, Warren, and let's hear more from you! -Ed.)

Pat Reilley - Jamestown, N.Y.

New veries are WHIM (out since April), WPIT WHRV/W WPIT has nice four-page letter, 3074 letters in first week of operation, it says. New ones heard are WIBS KSTV WMMT WROB KIRX WBEX XEJP WMBM. Noise has been bad, with this 60 degree-weather lately. 10/13, no DX. 10/14- KIRX heard through WWDC. and WROB at 4:40 on, KSTV at 3:15, WMMT on f/c 4:07, and WISE giving them a tussle for 4 new ones today - WBEX at 3:12 through mess on 1490, and another report to XEJP for 2 new ones, and several South Carolina stations on with storm warnings (this on 10/15). 10/16 and 10/17, no DX - had a miserable cold. 10/18- Heard WMBM after CKLW signed, for a new one. WBOC on 960 at 3:26, said present station is still on 1490 Kc/s. (1230? -Ed.) WGAY at 3:50, with an ET, but very noisy. 10/19- WGAY again, at 4:18, but too noisy and back to bed, but WMBM heard again after 4:00. (Pat sends in a clipping from a Jamestown paper which I will quote because it is quite humorous - "Mgr. of New radio station would like to rent apt. or small house. H. Lavman. P.O. Box 794. or Hotel Jamestown." Unquote. (Thanks, Pat - Ed.)

MUSINGS OF OUR MEMBERSEric Bristow - Chicago, Ill.

I have out 20 old reports, 2 to 8 months behind, and still have out 65 that I heard in the last month. One day this week I was off 4 days sick with cold, and I received 14 verifications. Now I have reached the 805 mark. I verified a few before 1940, about 20, and in 1940 when I got the \$ N.C. 200 I started out to verify right along. I heard the last 2 specials, but they sure were noisy here. I heard on 1450, a station in Maine - did not get call letters plainly. (WGUY is on often 4:15-4:30, Eric - Bangor, Maine.) I heard only the call letters "KCSB" and San Bernardino, nothing else, on their DXes, so thank-you card was sent. A few years ago I heard a station in New York City, sent to Chief Engineer, Radio Station ---- and letter was returned because the last letter in call was not OK & I wrote back to Post-Master and gave him a going-over as I have been in the Postal employ for over 20 years, and I try to give the mail service. (Good for you, Eric - they need 'pepping up' every now and then -Ed.) (I'm a P.O. man myself!)

Walter Bishop - Rensselaer, N.Y.

Another week gone, and this time I have a little more to report in the way of DX. There were three new stations logged during daylight - WKOB WPAT WKOP. These are not hot catches, but are fair daytime DX for this part of the country. Twenty-four reports out this week, most to old stations, that I have let go for years, and at long last a verie has been received -- a nice letter from WGAT. Hope I'll have more to report next week.

Bernie Duffy - Staten Island, N.Y. (via telephons)

Resuming DXing for my 20th year. I have managed to log 25 new ones. The latest of these catches are: WJNC WCRK WMBM WKLV WRON WEBJ WGUY. This runs heard list to 1345. I continue to defer account of my many veries, and as a result do not know exact number of verifications. My latest veries are a nice card from WRBL, WJNC, WHIM, WVOK. All are cards. (DX Nutt told Bernie that WARC (950) is heard almost daily after 2; that WCRO (1230) has a daily check around 2:45, and that KOBE (1450) is on almost daily, 4:10 to 4:30 a.m.) Thanks, Bernie - Thanks, D.X.! -Ed.)

Murray Lamont - Dunedin, New Zealand.

Lately, I have reported KWEW KMAE KVGB (1590) WWNR KBRL WFRG WASH KTIL, on tests, and KCBC KCBF WACO KRUX KOWL KSON WWXL CHVC KEEN KLOU WAPX WLOW KOOL, on reg. sked. Veries are from "Radio Malaya" - Penang, 2 kw. on 1280 Kc/s., and XEXX KAKC KULA KOLE WOOK. (Here's hoping for more reports from you, Murray: -Ed.)

Lefty Cooper - Brooklyn, N.Y.

Reports out this week to WLOW KSTV WMBM WROW WEAR & WHOO. Veries in from WGUY (card) KDWT WZIP WCRK WTRR KOKX WLAD to run my total to 1,351. KDWT says my report is the furthest they've received. This week - 10/15 - WINK test, 1:59, and WLOW, 2:05-2:30. 10/16 - KSTV, through a barrage of static. WROW reported in daytime. WMBM with an excellent signal, on 10/17. Had to work on 10/18, 1:15-9:45 a.m., so I couldn't have a try at KGRI & KCLE, doggone it. Thank-you letters on the way, also to KUSB and KECA, which would not break through the buzz and static here. 10/19 - WGAY test, 4:00. 10/20 - Off for working Sat., and got WEAR f/c 3:15-3:30 and WHOO, TT, 4:21. WWWB on testing (supplementing their all-night nuisance program). WPBP on 3-3:45, for RCA, Riverhead, and WEBQ's check was 3:20-3:30, evidently re-replacing WBAC. WDMG test 5:00-5:15, believe it's every Monday, but covered by static, so no report. On at 5 - WCPS (in clear, excellent signal) WOV WIGN WRON WCKY WBT and WAKR WKLB WGH at 5:30. CKCV clear 1280, 12-1.

HEARD THIS WEEK - WJNC (600) CKRS(5000 W.) WJNC (710 Kc/s.) K3COWJNC (960 Kc/s.) Watch for WJNC and previously listedEXCERPTS FROM LETTER FROM WKCB NORTH ADAMS, MASS.

" --Some time during Nov. WKCB will be conducting tests bet. 2 & 6 a.m. The other N. Adams sta. WMNB, 1230, will be ready to take air sometime during Nov. & since their tower is vy close to ours we must conduct exhaustive tests to determine whether there are any ill-effects to the close proximity of the 2 towers & if so, correct them. We are unable to give you any definite date for these tests, as date on which WMNB will be ready is still very indefinite/. We wish to thank members of your club for the assistance they gave us with signal reports during our ET period last Aug. So far, the sta. has met with remarkable success. Public response has far exceeded our expectations. We hope it continues. Our coverage has turned out to be vy good, mainly due to 1 of the finest natural antenna sites in New England. Such a site is indeed rare in the interior of rock-bound New Eng.
