Our Twenty-Sixth Season

February 21, 1959

VERIES VERY GOOD!

"I am very glad I am in the N.R.C. Since joining a month ago I have received 104 veries and from August 1957 to November 1958 I only got 100 veries."

-Andrew Thusing, 3676 Sunset Avenue - Markham, Illinois

Write-ups on the NRC DX Programs from WVLK-CKAR-4WW-TIAC-WRAW-KAFY-WRMT-WCSS-WLDB will be found in this issue on Page 12. Signers for the NNRC DXes are in our V/S List, P.2

LISTS OF SENDERS OF VERIE SIGNERS (P. 2)

| | | | |
|----------------|-------------------|------------------|--------------------|
| A - Jim Ernst | E - W. Stone | I - Marty Wright | M - Stan Morss |
| B - Len Kruse | F - Alan Merriman | J - Dan Phillips | N - Walter Rogers |
| C - F. Nittler | G - Grant Batson | K - N. N. R. C. | O - Pat Reilley |
| D - M. Nittler | H - Hal Williams | L - (unsigned) | P - John Callarman |

We have a copy of a letter from KTOP on hand, in which their CE asks for DX Reports, but lack of space prohibits our printing it in this issue. It will appear next week.

We have received our Certificate and Call Letters from Tommy Kneitel of Popular Electronics, but it mentions only SW DXers, and the various SW bands we tune. We're checking.

Fred's stencils not in Sat., no mail coming Monday, am issuing without them. (Hal Wagner)

Thats all leads, and despite no mention, if more than 5 items are sent in it would be appreciated if they were listed by Freq. Also again all items pertaining to stations outside US-Canada SHOULD BE SENT TO Fred VanVoorhess Box 132 Lemoyne, Penn.

Regarding the item appearing a little while back on the DX Monitor by Tom Kneitel of Popular Electronics. My certificate arrived and I am very disappointed account of its heading "Short Wave Monitor". I immediately wrote Kneitel asking how come? As there was no mention of Short Wave in my letters from him, just mentioned all DXers which led me to believe that it was to include all DXers regardless of what band they DXed on. So I suggest to those of you who also sent in their dimes and received the same certificate to write Kneitel at once and tell that you are very disappointed etc. However suggest that you keep your letter very friendly regardless of how you feel about the certificate. Maybe if enough complaints are registered, a change will be made. His idea sounded good, but if his intentions are only to include Short Wave DXers, then the National Radio Club cannot very well be included, that is as a Club. However as individual DXers, each of you have your own idea.

Again we urge you to send your REAL HOT DX TIPS to DX Down the Dial. We want definite information, not guesses, so all data appearing in this column will enable some other member tune in something he needs. Remember the deadline for this Column is THURSDAYS, so howabout that hot tip

Keith Robinson - Kapuka, No. 7 R.D., Invercargill, New Zealand

DX has been pretty poor here, but has improved the last few days. Dec. 21 logged WHBT 1300 on test. KDOM 1580 was heard on ET at 3:47 Dec. 23. Dec. 24 I heard KTIK 1590 on RS at 9:46. Christmas morning my only logging was KEJP 1150. Dec. 30 WSAR 1480 was heard at good strength with its newscast at 4. The next day I heard KLOS 1450 on its AN show at 4:02. WRBC-1300 was heard with NX at 3:55 Jan. 13. Jan. 19, XEHC 1590 was logged in English asking for reports to Box 777, Ensenada. Lefty the air at 3:30. WBLV 1600 was logged with its s/on at 4, Jan. 23. Thanks to Len Kruse's letting me know, I was able to log WDBQ on its DX at very weak strength but in the clear. KLFT 1600 was heard with a DX type program at 4:25 Jan. 29 and at 5:20 the same morning I heard OBX4A 1120. Jan. 31 I heard WBEY 1330 s/on 6:05, WHHY at 7 and KLEO 1480 at 7:30. Feb. 1, another report to KKIS 990 at 3:45. Other reports are ~~FEN~~ FEN Itazuke 1550, JOUF 1480. Veries from KBLO WBEZL WHSC KNLR KLYD KOLO WQSN KPAY HLKX Vladivostok-548 JONF WCRR WJET WAGT WHBT. Regards.

John Callaman - 300 West 6 Street - Hereford, Texas

Another Saturday, another Musing. I can't seem to talk myself into writing reception reports for my listening, and let YND and HOU slip by from some time back. Recent veries include WDBQ YSEB (nine day service) KFNF and WSYA. 2/9- KFSG-1150 3:01 s/off, leaving S-8 OC, stayed with it seven minutes, then down to 620 where CKCK was holding forth, back to 1150 3:15 to find CKX on at near perfect reception. WBBM-780 s/off 4, and Zedier again faint through carrier, but WBBM stayed on with OC/TT. Clears all on, with TT on 820 830 860 870 and OC 840, 720, 730 at 4:00. XERF spurious on 662. WBLV 1600 perceptible through KLAJ 4:15-4:26, but no report; KGON-1520 noted 4:27-4:30, KSYD-990 on "Sleep-a-thon" 4:32, and thunder static bad, so foo, I said, and went to bed. Winds up to 65 MPH later in day. 2/14, took routine log on XECL 1:04-1:27; TILS-880 found 1:27 to 1:58 s/off, announced simply "Esta es Radion." Fought WCBS. TGJ, which was on earlier, apparently s/off 1:00; KGRT-670 on 2:01, asking for distance reception reports, said on with "unscheduled test transmission," stayed with 'em till 2:28, but lost the thread at 2:07, hi. KMAN-1350 PoP 2:48-3:05, TT; WFEC-1220 on INRC DX loggable throughout, first part with CJOC probably, WGAR testing 3:21-3:29. 540 variable TT 3:42-4:02 tune out, tongue-tied, strong, probably KWMT or XEWA; KTBC 590 on RS with WOW; KSYD-930 still on; WNOE-1060 back on AN sked; KBCS-730 logged with ET 4:27-4:40; 895 carrier perceptible at #5 level 5:00; down to 330 to hear TISS s/on 5:10 for log to 5:27 fade out; back up to 895, where OBX4X holding forth at good level with studio program of music of various Peruvian provinces - weird, sound like combination of Arabic and Chinese music sung in Spanish (of Indian derivative; Papamiento fooled me!) Kept with him until 5:52. On 1015, Colombian National Anthem at 5:55, segued organ tune, and if ID 6:00, was splashed by very strong sidewash from KLRA s/on. KLRA not AN on Monday AM either. KLYN-940, has been announcing as 24 hours during daytime hours, but they aren't there! They closed SSB 5:02 for s/on. "Love Your Neighbor" station! No word yet from Miss Stockton at 4VEC; have hopes for a Sunday AM DX from them on 1040. That's it for now. 73.

Grant Batson - Sherman Road, R 1 - Westfield, New York

Will try and catch up on what little DX there has been here. 1/9- WMTL Leitchfield, Ky testing on 1580 2:04-2:44 a.m.; 15th KCFI Cedar Falls Ia. test on 1250 with TT 2:27-2:40 over AN WEMP. 23rd- WHLP Milton Pa. on 1570 with flood damage 1:30-3 and later broadcasting. 26th- WDBQ DX heard well through SS and bad hetrodyne and KTOP s/off. 1/30- KFDF Van Buren Ark. test on 1580 2:30-2:57 a.m. Feb. 1 a brand new one, WMTL Rocky Mount, N.C. testing on 1490 with TT 5:25-5:40 a.m. over all ANs there. 2/4- WKAM test TT-f/c on 1460 over KENO 2:04-2:17. Also same day WHLR-1430 Memphis test TT 2:22-2:48 and on 2/5 by accident KBIM Roswell N.M. test on 910 2:13-2:31 with an S9 signal lately 6th, 1470 kc/s., KWVY Waverly, Ia. test 1:30-2 battling WSAW and last of all, missed out on all DX on 9th, ZBM-2 CKX CFRC because early Sunday was taken ill and unable to get to the dials, such doggoned luck. Reckon I'd better thank Len and Ben for such a great job on f/c lists, great job done, boys, thanks a lot sure, helps here a heap too. Veries are small numbered - CKCQ WSLI WKLB WMTL KCFI WMLP KFDF WDBQ CJNR WKAM WMTL WBS CKCQ QSL is my best verie of this year's DXing. Wrote out numbers of thanks cards in absence of reports due to illness and thanks card to KTOP who will be receiving a report another time as I don't have them logged, just haven't been getting back to DX as I have been in other years, must be getting older, hi. Perhaps lack of energy - oh well, will do what I can get at, health permitting.

David Roys - 5721 Radnor Road - Indianapolis 26, Indiana

First, I would like to say again that anybody interested in tape correspondence please send me a card or a tape on a 3" reel. You can just enclose the reel in a regular envelope. I think it is a very good way to exchange tips and IDs. I also have noticed an unID carrier on 1230 every AM. I also would like to know what it is - it comes in about 5-7 here, and is a pest. I thought it might be something in WFBI's transmitter, $\frac{3}{4}$ of a mile from here. Noticed WKIS is no longer AN, so KCBS comes through most of the time. I wish other stations would follow WKIS. Verie received from PJC-7-1 stating that they were surprised at how clearly parts of the recording came through. I have noticed a weak signal in English on 750 Tuesday AMs. Could this be KXL in Portland, Ore.? Any help would be appreciated as this would mean a new state. That's all for now. 73s.

Larry Godwin - 2808 Bonham Street - Amarillo, Texas

It's about time that I got a Musing in, so here goes. DX here was as follows: 1/4-CJNB DX at 3:49 on 1460 kc/s. 1/4-WCHB in Inkster, Mich. on 1440 in the clear at 5:30 s/on; WWSW AN show on 970 in the clear on 1/5; KXLQ f/c 1450 in Bozeman, Mont. on 1/5 at 4:30; KMON on 560 in Great Falls, Mont. code f/c noted 1/29 at 4:14; KCCB in Corning, Ark. (a new one) ET heard on 1260 kc/s. 1/31 at 2:30; WPAL 730 f/c heard 1/31 at 2:26 in Charleston, S.C.; CKVL on 850 heard 2/1 at 3:30 as first Quebec station; WBLU in Salem, Va. f/c heard on 148- kc/s. 2/1 at 4:53; CJCA in Edmonton, Alta. 930 RS heard under WKY 2/1 at 5:23; KMLW in Spokane, Wash. ET heard on 790 on 2/2 at 4:30; KYYI in Shelby, Mont. heard on 1150 on 2/13 at 4:26, with a special bidding show, or something. My best Canadian heard on 1/23 at 7:18 p.m. EST on 1570 kc/s., CFRY Portage la Prairie, Man. on RS. XERF was off only 30 seconds, so was just lucky. Also heard a station announcing time in EST, so taped voice report off to CFOR in Orillia, Ont. on 1570 at 7:17 $\frac{1}{2}$ p.m. On 2/13 heard an English speaking station on 1570 kc/s. with XERF off. The announcer was a girl, and opera music was played; apparently AN or very early RS. This was heard from 4:00 to 5:26, at which time XERF again resumed broadcast. The 5:00 ID was very faint, but sounded like a C call. Could it be the new station listed in Weyrich Log in Halifax, N.S.? Anyone knowing of an AN or early RS station on 1570 at this time, please send me a post card. Also IYZ in Rotorua, N. Z. noted AN on 800 kc/s. 2/9 with a readability of 3 to 4. I would like very much to make a trip to central and western Canada this summer to visit the radio stations I have received and see the scenery. If anyone would be interested in driving with me up there next summer, I would be more than happy to start making some tentative plans. Well, that's about all over here. I have been corresponding with Jack Hathaway in Honduras, who is moving to Amarillo in August. Best DX to everyone!

Alan Merriman - 7504 Montrose Street - Alexandria, Virginia

Greetings to all the members of the NRC. DX has been pretty good around here lately. On Feb. 9, I got up to try for all of the scheduled DXes. I didn't have any luck with any of them. All of the stations were covered by other stations except CKX, and I couldn't hear a thing from them. Were they on? There were a number of stations on 1340, and one of them may have been ZBM-2, but I couldn't hear any IDs. On this same morning I was able to hear the following stations. WAVY-1350, at 2:30. KNBC-680 was heard at 3:30. WMCA-570 at 3:45, WIBW-580 at 4:00 and KFAB-1110 at 4:10. WIBW in Kansas and KFAB in Nebraska were two new states for me. This brings my total to 34, only 15 more to go. Veries have been coming in pretty good with new ones from WNNT WCFL WSWA WHP WTRR WSB KMOX. Reports are out to WWL WFCR VP4RD WJWL WDVN WFIL WGMS WCAO WIP WMAL WHAS WCCO WBAP WKIK WARL WJJD KFI. Well, I'll say 73s for now and best of health and DX to everyone.

Len Kruse - 816 Euclid Street - Dubuque, Iowa

Only one new logging at this den the past week. Station CKLG-730, North Vancouver, B. C. was heard in the clear on Monday, Feb. 9th from 3:10-3:30 a.m. As for the DX Specials slated for the morning of 2/9, I needed only ZBM-2 in Bermuda, but CX on the 1340 spot were as crowded as ever, so unable to hear. I did not try for CKX CFRC or WRSA as all three are in my verification collection. I am looking forward to a number of the up-coming DX Specials like WTTB, KIXX, KXLL, WFPR, WLDB, CKAR, KNOC, CJDV, KVINU, WINKY, etc. and do hope I hear many of them. I received the special QSL card from KBON, Omaha, stating the 1959 NRC Convention will be held in that city. This QSL card came in replying to their 1/26 DX Special. Other veries this week came from WSUZ KXGO KOGB. PLEASE KEEP THOSE REPORTS COMING, BOYS, AND PLEASE DON'T FORGET TO DOUBLE SPACE THEM!

Bill Stone - Siloam, R.R. 1 - Uxbridge, Ontario

7 Feb. - DXed very little - not up to it. 1600 WIBT ET/TT 1:30. CKLC 1380 s/off 1:53 a.m. 8 Feb., 690 XRAK RS 3:47-4:03, TP QRM; HI3T 620 3:08-3:28 a.m., TP QRM; 4:35-4:45 WRAG 590 m/c; 590 VOXM 4:35-4 a.m. m/c, very strong S8 topping WRAG till WRAG s/off at 4:45. WRAG 15 WPM, VOXM 30-35 WPM. CKCR 1490 ET-M to 1:30. 7th- CKLC 1380 s/off RS 1:53 a.m., 6 Feb. TPs 550-1000 kc/s., Sporadic after that, one on 1600 giving WURL QRM, but eliminated at 4:00 when WBLV s/on. Didn't know Aussies went this low. WNNT 690 f/c-TT 6:42-6:45, yes, three minutes. TT and OCs on 1420 and 620 all AM, no ID, 3:20-3:53. KVAN on Antenna 1, WLCS on 2, KVAN S-8 solid, WLCS that at end. Never heard TPs come in so early, starting at 2:45 a.m. 1:47-2:00 KVVY 1470 f/c-TT S-9. CMHD 890 s/off 12:40. 5th- PM, CKSF 1220 finally through WGAR 5:45-6:15 p.m.; 1:53 a.m. Kingston stations on Marathon, 960, 1380 and 1490. 4 Feb. - 4:20-4:31 La Voz de la Periera, CMCB on TT. 5 Feb. - 990 WIEG 1:30 on RS; 920 WTTM 1:40 announcing as AN; 1590 WGTC on ET/M 2:30-2:45, still at 4. 1440 WPRS on f/c-TT 2-2:10; 1430 WFRS ET/M to 3 a.m. 540, ? test most of AM, no ID. 4 Feb. - CKCR 1490 s/on 4:57 a.m.; 1330 WEBY f/c, organ, ID and phonetic 1:45-2:00; 1:15-1:30 K station on TT. WERA 1430 ET/M, first test. 3rd- Real DX morning - Africa 574 at 12:45. Funny music and speech, Libya Africa, heard once in English and once in French, native music and speech. 1220 WLPO f/c 1:02-1:15 TT; TAs also over the dial. English station covering old blabber CHUM, strongest on 674, 675. Zlottens, Switzerland (don't have any log on Europeans, TP log is six years old. 3 a.m. on, TPs starting to build up, thas your choice by 4:00. I was on 680. DZAS Manila Philippines and 2EP, Smithtown, NSW. Then on 4th I heard 2CR on 550 and 3AR on 620. Synopsis - Best week for DX this year - you takes your choice, choice unlimited. 14th Feb. - WTOR 1490 s/on 5:43. WCBA 1350 ET/TT 4-4:30. 1380 CKLC on with emergency broadcast, still going 3:30. KVVY 1460 ET/M 2:50-3:10. 13th- Nothing new had. 12th- WCHB 1440 ET/OC 1:30. 11th- Static supreme. Shut off after half hour. 10th- 1550 WBSC TT/OC 2:15-2:35. 1150 WRUN ET/TT all AM. 990 WNOX ET/TT all AM. 1330 WFIN ET 4 a.m. on. 1570 XERN off air 4 a.m. (Tuesday). Veries coming in nicely - 21 so far this week and Saturday's yet to come. No complaints.

Ores Wilson - 223 North 4 Street - Reading, Pennsylvania

2/2- KFNF DX care in OK, but I could not get needed WLCX DX, due to the Cuban there. Sent a report to KFNF, verified in 1933. This one sure is an old favorite, like KMA. No luck with WDBQ-dx either, because of too much TVI. 2/9- I couldn't get any of the Four Specials this morning, yet reception was good. QRM or an OC showed up each time I tried. V/ls from CJNR-dx and KFNF-dx, the "National Food League" of Grand Island, Nebr. operating KGNJ-750 and KXXX-790 also. CJNR is "in the middle of the Uranium Centre of the World," Blind River and Elliot Lake, Ont. ~~XXXXXXXXXXXXXXXXXXXXXXXXXXXX~~ I never heard of the DXRC before. I suppose it's a new Club for DXers. With the NRC, NNRC, URDKC and the one Down Under, I guess we have five BCB Clubs operating. Total veries, 1,235. 73s.

Stan Morss - R. R. 3 - Bradford, Massachusetts

2/6- WCOG 1320 test to 2:22. WFMJ 1460 De Funiak Springs, Fla. with five minute test 2:40-2:45. KHAM 1580 TT 2:50. KLIF 1190 good for second AM on AN show - have they changed DA? Verie, KCLP. 2/9- KUDY 1510 1:39-2:00 s/off for only new one of AM. WELP 920 2:37, test. 1410 had tester 3:27. Stayed with it till 4:30 but no ID. Had second set on, but no sign of CKX, CRRC, ZBM-2. Veries, KFNF-dx and CJNR, NNRC DX. 2/11- WCMC 1230 Wildwood, N.J. a new one to 3 a.m. with WCUM TT and WNOR QRM. WERO AN for flood news. S-8 carrier on 1220, no ID. Verie from PJC-7-1 for a PJC-7-2 report. Now using a form letter unstead of a personal one, so try again Monday.

Tom Arko - 20800 Priday Avenue - Cleveland 23, Ohio

Haven't been doing much DXing lately, but here is what I have picked up since last issue. 1/30- WCKY 1530. I'm trying to verify the big 50 kw. stations and get them out of the way first. 1/31- WMAQ 670, WRCA 360, WCAU 1210, WHO 1040, and KFAB 1110. 2/6- WFBC Greenville, S.C. with good signal at 11:30 p.m. 1/8- WPZ 1030. 10/9- KDKA 1020. Veries in from: WABC WHAM WLAC WCKY WHO WRCV WRCA KDKA. Verie from WWOX 1390, Lynchburg, Va. says that I was too late for the cigarette lighter. KFAB sent a special QSL card which has printed on it "1959 National Radio Club Convention, September 5-6-7." Are there any NRC members around Cleveland? I would like to communicate with them or any other NRC member who would like to compare notes. That's about all from here. 73 LET'S KEEP THOSE REPORTS ROLLING IN! THE BIG ISSUES ARE ALWAYS SOMETHING TO LOOK FORWARD TO, YOU KNOW, AND YOU CAN HELP! AND PLEASE, EVERYONE, PLEASE DOUBLE SPACE THEM!

Marty Wright - 825 Park Avenue - Pekin, Illinois

DX great here during our recent sub-zero snap - not comfortable to be out in, but wonderful for skip. DX to date: 1/26- WDBQ DX real good here until 3:35, then a tester bothered them some. 2/1- KGRT-570 showed up S 4-6 on ET/m 3:19-3:25. 2/2- KYLF-1370 in the clear and S-6 1:29 to 1:35 a.m. s/off. KIMA-1460 good 2:50-2:55 s/off. Then on 1150, in banged KAYO on RS at 2:55 to 3:00 s/off to give me two Washington staters in ten minutes. KPHO-910 ET/m 3:10 to 3:27, when WGAf-910 came on ET/m and killed Phoenix. KOWB-1340 r/c good 3:30 to 3:37. Got KOWB verie yesterday; CE states they will go to 1290 kc/s. 5 kw. soon. WSMF-1220 testing with a potpourri of sounds 3:40 to 4, and finally for 2/2 WCOP-1150 very strong with ET at 3:50. A real good morning. 2/4- Some twilight DX gave me WCRI-1050 s/off 6:30 p.m. and KUSH-1600 RS 6:59 to 7:05. 2/5- Twilight DX again, KSAL-1150 RS 6:46 p.m., KTUL-1430 RS 6:53, KPIK-1580 RS 7:03, and KVGB-1590 RS 7:05 p.m. 2/6- I took a 9:30-9:48 good log, and reported YVQO-650 over WSM. 2/8- KMIN-980 f/c-TT 2:10-2:25. I believe this is a change from second Monday to second Sunday for KMIN r/c. WL0L-1330 good 3:30-3:40 RS. My last DX this month 2/9 when I found KGHL very powerful on 790 and over KTHT 1:53 to 2:00 s/off, and 2:38-2:45 finally heard CJMS-1280 S-4. Haven't been at the dial as much as I should lately, but our fair city has had an outbreak of big fires, so that keeps this one horse news director and his tape out all night, which doesn't leave one feeling much like working the old BCB. Also I have been appointed as a deputy sheriff of Tazewell County. Vacation next week so maybe I'll complete my VAS goal. Veries in from WDBQ KGRT KAYO KPHO WGAf KOWB WCRI KSAL KTUL KPIK KYA and on f/ups KTAR KSVP WKAZ, and for some reason a second verie from KVOR for an Oct. 12 report. Good DX everyone, and how does one get a verie out of KENO?

Dan Phillips - 445 Eagle Bend Road - Clinton, Tennessee

DX hasn't been too bad here lately although the DX season is about gone. I have a few new catches. DX by dateline: 2/7- KCCE 1260 Corning, Ark. testing and offering to answer all reception reports. CKSL 1290 London, Ont. at 2:51, WMGA 1400 Moultrie, Ga. at 3:30 r/c; KDSX 950 Dennison, Tex. ruling 950 frequency at 3:55 until WWJ Detroit came in at 4:00, WDFW 1460 Buford, Ga. s/on Saturdays at 5:00, WNOS 1590 High Point, N.C. s/on at 5 also. 2/8- WLSD-1220 heard at 12:45 a.m., WWIT 970, Canton, N.C. heard at 5 p.m. 2/9- KROD 600 El Paso, Tex. testing at 3:40, WEAN 790, Providence, R.I., state #37, thanks to Stan Morss, and last but not least on 2/12 at 6:30 WHTB 1230 Talladega, Ala. No DXing between 2/9 and 2/12 as you probably noticed, the reason is that I was making a new log book with a 50¢ spiral ring thing. I first listed all stations I had received by states with their location and power, and then by frequency with just their location. Willis Lewis told me about this and I had to get it done. So I now just keep a temporary log and put it in my log book once every month or so. Somehow or other when I got through, I had 556 in states and 553 by frequency. I went over the thing by frequency and every other thing I could think of. Finally I found I had KTBC twice and counted too many stations in Iowa and Ohio. Veries haven't been bad lately due to sending more reports out. WQIC v/1 saying f/c is first Sunday or Monday between 2 and 3. WLOX 1490 Biloxi, v/1, WKRG v/1, KFNF DX 920 v/1, WISH and WERH QSL, WWGS 1430 Tifton, Ga. f/c is first Thursday from 4-5. WMGA for r/c, KAKC KNUZ WWJ and last but not least WKGN and WIVK, locals in Knoxville 20 miles away, thanks to the v/s I have them, otherwise I probably would never have received them. Well, I've said enough so so long for now. 73s.

M/Sgt. Hohn D. Hathaway - USAF Mission to Honduras - c/o U.S. Embassy - Tegucigalpa.

1 Feb. - XEPH and WOW, 590, fighting it out at 2:00 a.m. A few minutes later, WOW signed off. WLAP, 630, at 2:18. XEPW, 810, at 2:25-3:01 s/off with program dealing with the selection of the Queen for Tampico Carnival. KCMO, 810, all alone after XEPH s/off. 2 Feb. 0 KNX, 2:00-2:30 with LA QM at times, sent report. WOW, 590, 3:00-3:20, sent second report. Couldn't hear KFNF-dx because Costa Rican on the frequency was S-9 plus 20 db's here. There were two stations on 1490 but couldn't make out WLCK DX unless it was the one that played "Abba Dabba Honeymoon" at 3:36 and had news at 3:45. WIBW-580. I surely appreciate those nice long list of v/s that we have had in the last few issues. Best 73 and DX.

Wells H. Perkins - 1651 Mountain Avenue - Wauwatosa 13, Wisconsin

What is the new postal rate out of Cuba? New government has lowered them. My domestic DX activity from Oct. 17 to Jan. 1959 has been only very slight logging the following new ones: WOFL-1195 in Milwaukee (bootlegger), KTHT-790, KOSY-790, (con'd on P.8)

(Wells Perkins, con'd from P. 7) CJGX-540, WCAO-300, KKRF-1400, WGBS-1360, WKML-1360, WGSW-1350, CKVM-710, WTIK-690 (new since as WTSW) KMLW-1010, WAPI-1070, KYSN-1460, WHYY-1440, WCOL-1230, KILO-1440, WIBG-990, CRA-1070, WCEM-1150, WSTP-1010 WGHN-1370 WNAM-1280 WEW-770 WQSA-550 KSTL-690 WCAZ-690 KUOA-1290 WRBC-1300 WKTL-950 (ex-WSHE) WMRB-dx-1490 WNPB-dx-1490 CHEX-dx-980 WTAR-790, KGBC-1540, KSKY-630, WVNA-1590, CJOB-680 "The New OB" WTHI-1480 KOPY-1550 KOKA-930 KMBC-930 WAKY-790 WPRV-1460 WGUS-1600 KXGI-1360 CHRC-dx-300 WDAK-540, DAF-610 WHOO-990 WINE-1080 KWEM-990 WGRD-1410 WGRY-1370 WLST-600 KWSI-1560 and WDSU-1280. Most of my time was spent on foreign stations with 155 non U.S.A./Canada stations heard this winter in 16 other countries. I thought 4VEH moved from 1195 to 1040, didn't they? UnID SS on 1195 at 3:15-4:40 on 1/1, was this TIBSD? I don't verify stations any longer - costs too much. At 8¢ for each report I would have spent \$12 in last month or \$9 in last two weeks, not counting envelopes and paper and time. I am careful about IDs though and take down very accurate and detailed loggings for all stations. My totals are as follows: (all stations, domestic and foreign) Jan. 17: 843, Jan. 24, 862, Jan. 31, 915, Feb. 7, 977 plus, and Feb. 10, 1,004. That's over 150 in less than a month - a real record for me. More recent domestics are as follows: 1/1- 5:30-6:00 WCHS-580 WMOZ-960 WGRO-960 WDVH-980 WJAX-930 WFLA-970 WBRC-960 WYLD-940 (a real surprise!). 1/1 had rebels on 550 590 630 730 760 800 830 850 860 890 (2) 960 980 1010 1090 1100 1160 and 1420. 1/2: 5:15-5:30 a.m.: WELS-1360, WQWV-1280. 1/5: KJBS-1100 at 3:10-3:30.

Anthony Lagatutta Jr. - 371 Eighth Avenue - New York 1, New York

Well, DX has been very good this past week, no complaint. My new 90' wire atop the roof here really helps a lot below 900 kc/s. DX by date: 2/11- WCRV-1580 atop at 7:22 a.m. Noted KQV-1410 and CBE-1550 at same time. UnID s/off at 6:43 p.m. on 640. ID sounded like WOR but was really WOI, Ames, Ia. Have tried since then, but only the Cuban in or QRM. WAIT-820 heard at 7 p.m., not needed. WMPS-680 topping the channel nearly every evening. 2/12- Off school today, so constructed new antenna. It paid off well. WLOA-1550 logged at s/off 5:59 p.m., after several evenings of trying. WSAV-630 atop with minor fading 6:06 p.m., and after for a welcome catch. 2/14- I took my portable to South Mount Vernon, N.Y. (Bronx) to copy WLAD-800, WKNB-840, WHAY-910, for veries not already in my collection. Then as per tip from Lefty, logged the new WMMM-1260 in Westport, Conn. like a ton of bricks, ID and OC at 3:30 p.m. That evening heard unID s/off on 1580 at 6:50 p.m. Also on 1570 at 6:39 p.m. Could this have been WONA, Winona, Miss.? I should really concentrate on these daytime-mainly channels, 1570, 1580, 1590. But, WMCA-570 usually dominates on 1570, and 1580, worse on 1570. There is usually some kind of noise on 1580. And WBRY is always atop 1590 in the late afternoon. This morning (2/15/59) I witnessed the most unusual late morning DX. WTOP-1500 like a local 25 db over as late as 9:30 a.m. Then for a great new catch, WCAT-1390 completely atop at 8:44 a.m., with only local "N.Y.C. buzz" to contend with. New antenna helps to cut down the buzz. I will take advantage of the 200' long roofs here, hi. Latest veries: KRMG-740, letter. KCMO-810, letter. WICH-1310, the letter came 2/10/59, but report was sent on 6/1/58. I plan on an AN DX session this coming 2/22-2/23, from sunset DX of 2/22 to sunrise DX of 2/23. It should be exciting to see many stations go off and needed ones pop in, etc. Well, that is about it for now. Total logged, 455, total veries now stands at 298. Best DX to all out there. 73s.

Francis H. Nittler - 2305 South Lincoln Street - Denver 10, Colorado

Not too much to report from here this week. Monday 2/9 the CKX DX heard well although not needed. WDMF-1460 Buford, Ga. heard with s/on at 4:59 and RS, WHLM-1410 RS at 5:15, WCHI-1350 s/on and RS at 5:30 and fourth new logging was KWYR-1260 on RS at 7:01. Have done only a little listening the rest of the week with nothing new heard. Have noted XERF off at 3:00 a.m. on past two mornings but a bad buzz all over the dial seem impossible to log anything except did break down and send a report to XEG-1050. Veries are from KIXL-1040, WACT-120, KABR, duplicate, KHOK-1250 KPOF-910 KRAL-1240 WYLD-940 WKYB-570 and XERF. Verie from KRAL means I have finally completely verified a state. Now will have to get to work on Colorado. KSYD-990 noted AN Monday with a Marathon. Hope everyone is getting in some good DX. 73s.

Herbert E. Rhoads Jr. - 122 Carlisle Street - Gettysburg, Pennsylvania

Heard since last time are WKOW 1070 at 7 a.m., WTIC 1080 at 7:20 a.m., KFNF 920 at 3:30 a.m., CKVL 850 at 4 a.m., WILS 1320 at 4:18 a.m. WBLV-1300 at 4:30 a.m., WAVL-910 at 4:48 a.m., WINZ 940 at 5 a.m., KCMO-810 at 7 a.m., WORL-950 at 7:15 a.m., WTAR 790 at 7:43 a.m., WLYC 1050 at 7:05 a.m., WFBL 1390 at 9:55 p.m., KCOH-1430 (con'd on P.9)

February 21, 1959

(Herb Rhoads, con'd from P. 8) 1450 at 10 p.m., KIOA-940 at 7:15 a.m., WNNR 620 at 11:05 p.m., WJOL-1340 at 3:30 a.m., WIBW-580 at 3:45 a.m., KXOL-1360 at 3:55 a.m., WOBS 1360 at 4 a.m., CFRC-1490 at 4:15 a.m., WIRE 1430 at 5 a.m. Latest veries are: CBW-990, WGN-720, WBEM-780, WKOW-1070, WTIC-1080, KFNE-920, WBLY-1600, WAVL-910 WTAR-790 WLYC-1050 kc/s. 73.

Ron B. Schiller - 205 Sharp Hall, University of Delaware - Newark, Delaware

Veries in from WOBS and WBKN. No DX done for over a month until this week, then with a new fantastic vertical aerial, I am again in business. First some daytime DX, WNNT 690, Warsaw, Va. RS 10:30 a.m.; WUST 1120 Bethesda, Md. daytime; WMVB 1440 Millville, N.J. through WGCB daytime; WGAY 1050 Silver Springs, Md. through WMGM. 2/11- WRSA 1280 Saratoga Springs, N.Y. ET 12:30 asking for collect calls so I called; WICO 1320 Salisbury, Md. s/off 5:43; unknown South Carolinian on 1570 was mentioning Myrtle Beach at 5:55 - wonder if WFGN or WLSC? 2/12, CX excellent, heard unneeded WNCA WILA WPUB WYTI WTYN WPTW WTRB s/off; then, caught WONA 1570, Winona, Miss. RS on top 6:30-6:40 s/off; WESY 1580, Leland, Miss. s/off 6:45, and best of all, KOLS 1570, Pryor, Okla. on top 6:50-3:58 s/off. Both WONA and KOLS were over S-9 when they s/off. Also caught WBBA s/off 6:45 but have heard them previously. Am puzzled about a weak s/off of a station that sounded like WKKN (?) on 1570 saying 250 watts at 6:14. Who dat? With about three more receivers and a dozen ears, I might have logged everything in sight on 1570-1580, as I missed many by having to get verification data. All for now.

J. B. "Pat" Reilley - 226 Crossman Street - Jamestown, New York

CJNR KABR PJC-7-1 CKTR. Still have 26 reports out, hope a few more veries will come in to me. 2/8- Fourteen hours at wedding, too tired to DX. 2/9- Unknown with ET on 1440 at 2:44, sounded like KVET Radio as they IDed at 2:48 $\frac{1}{2}$ and 2:56, then off air. It was very noisy today. CKX not heard on DX but KSL at S-7 on 1160 at time of DX. 2/10- WBSC, 1550, test at 3:25. Very noisy, guess XERF off air and too noisy to DX long. 2/11- KFDF, 1580, TT at 3:02. A TT on 1270 for two days but no ID either day. 2/12- KBOM, 1270, f/c at 3:15, the same TT here again. Unknown on 990 with music from 3:30 to after 4:15 but never gave an ID all this time. 2/13- Very hard rainstorm and noisy. French speaker on 1270 at 3:08 and off at 3:12, believe CFGT and I tobed to save my ears. 2/14- KLOU, 1580, at 2:25. KRNY, 1460, test at 2:31. Finally snagged WCBA on 1350 on test at 2:37 for new call. 540 had unknown TT on but no ID given at all, very noisy today again. That WCBA reminded me of time I visited Al Bartholomew and he picked me up at Corning. What a gabfest that was!

Bernie Duffy - 77 Livermore Avenue - Staten Island 2, New York

Sunday morning 2/15 these "early birds" came through with excellent signals: WARN 1330 Fort Pierce, Fla. s/on @ 5:00, WABD 1470, Mobile, Ala. and WCPC 1320, Houston, Miss., both at that time, and WBUY 1440 Lexington, N.C. @ 7:12 a.m. New WMMM 1260 Westport, Conn. "held its own" nicely against WBUD Trenton, N.J. 2/14, as they presented "identity-only-on-the-hour" tests @ 9:00a.m. 2/16, I finally experienced a successful Monday, by logging the DXes of KIRX 1450, Kirksville, Mo. and KTLO 1490, Mountain Home, Ark. Seldom heard WCAX 620 was heard ending a TT at 2:59 that morning, also. WPRW is the only new verie.

Larry E. Mindel - 3621 Flower Avenue - Silver Spring, Maryland

V/1 from KBBA-690 Benton, Ark. one of my best. They are 250 watts daytime. I got them at 7 a.m. covering KGGF WTIK CMBC CBF. V/1s also from KXOK-630, WIBW-580, KRMG-740, and CBA-1070 for a new province. They also sent their regular and SW program Rhoads. One lonely card from KRLD-1080. Now to my log: 1/18- WMTM-1300 Moultrie, Ga. at 6:00 s/on. In clear for ten minutes. 1/19- WTIK-690 at 2:06 a.m. on AN sked. 1/25- On 1340, at 11:30 p.m. believe call was WCLI. They announced as "the new WCLI, 24 hours." Has WCLI moved from 1450? 1/26- WTAL-1270 at 2:09 a.m. AN in clear. WIBW-580 at 2:30 a.m. AN covering 580. 1/29- WICU-1330 at 11:05 p.m. 1/31- CBA-1070 in clear, also first time heard without QRM that amounted to anything. 3/1- KBCL-1220 at 2:27 with what I guess was a PoP test. They asked for signal reports. KNLR-1380 at 3:20 on f/c, covering 1380 easily. WMNI-920 at 3:41 on AN, very weak. 2/3- First Vermont with WHWB-1000 at 5:20 p.m., not enough for a report. WMBI-1110 at 5:27 p.m. fighting WBT. WMAZ-940 at 5:35 p.m. for a few minutes. WSIV-1140 at 5:49 p.m. fighting WRVA. 2/4- Was sur rised to catch KLIF-1190 at 6:46 p.m. covering WOWO. I have never been able to get enough on them in the early AM. 2/14- WFEC-1220 on f/c, not mentioning NNRC, easily covering the frequency until 3:22 when I believe local WFAX came on with a tone. That covers my log up to date, so 73s.

Richard Morris - 218 Virginia Avenue - Bridgeport 10, Connecticut

DX has really picked up here in the past few weeks. I don't know whether or not I included my DX doings of 1/26 but here they are again but not in too much detail: WDBQ 1490 was poor on their DX, a tentative was sent to KBRC on their DX and a positive ver-
 ie came back from them a few days ago; WKRK and WHPB both 1390 were caught s/on at the
 same time, 5:00. I got one or two others on that day but I can't find where I wrote
~~them~~ down what I got so I can't report them. On 1/31 I pulled in a new country - Cur-
 acao on 864. Also on this day I heard SS on practically every frequency including 770
 660 880 and 710. I couldn't get any IDs from them though. Also heard on 1/31 was
 WCAX 620 at 6:10 p.m. over WVNJ. I was working to ID this station with Ralph Sperry
 for about a week. Finally I heard the ID after a ski report. 3/1- February started
 out with a bang and even though I got up at 7:04 I still managed to log three new sta-
 tions: WCAL 770 s/on at 7:30, thanks to Bob Foxworth's tip. They were very weak and
 taken out almost immediately by S-9 WEW, unneeded. WPIT 730 was heard on their s/on
 at 7:15, and KCMO 810 at 7:04 on RS over WGY. 2/2 was the best day of DXing that I
 ever had: I woke up 1:45 and noticed a station having a supreme fight with WAKR 1590,
 I thought it was KVGB, but Charles Territo said that he was pretty sure that it was
 KWBG. Both of them sound fairly similar so it was probably one of them. IDs were giv-
 en often and it was an f/c-TT. I asked Hal Williams but he didn't hear it. Also a
 station testing with music on 1580 around 2:00 I heard. Hal Williams said both WMTL
 and KTEL were testing that night so I sent tentatives to both. Then WOPA 1490 at 2:07
 Radio Africa 935 was heard in French next. I was shocked to hear them but in they came
 for my second station on that frequency. Shortly after I heard them they faded out
 though and I have a very minute report. WGOV 950 on an ET at 2:19, WLCK 1150 on an ET
 at 2:30, then came the Ks - KPRO at 2:50 thanks to Ralph Sperry's tip. They were very
 poor but positively IDed thanks to a recorded ID. KXOL 1360 was next at S-9, KCBC
 1390 was next at S-7. KFNF was next on their DX excellent, and last, KTOP 1490 on
 their AN show. On 2/9 that buzz was back for the first time in a few weeks but it was-
 n't too strong on certain frequencies. I did manage to log WMBD 1470 RS 1:21, then a
 tentative to KBRK-1430, a station tested at the time they were supposed to and gave
 IDs every three minutes. WLOH 1490 on f/c-TT at 1:55. ZBM-2 and CFRC DXes logged poor.

Bob Foxworth - 69 Elm Street - Summit, New Jersey

I am mostly DXing in the evening, as it is hard to get up in the AM these days, hi!
 Recent catches are nothing outstanding, but have heard the following: WONA-1570 s/off
 at 6:40 p.m., WPMP-1580 off at 6:45, KLCN-910 heard with a good signal at 6:10 on the
 11th. As for Monday the 9th, CFRC was heard with one ID and never again. CMOX was
 very good here that morning. ZBM-2 was heard and logged for about an hour with rock
 and roll music, about equal to the other ANs heard, and garbled by a tone on during
 the whole time. Heard a tone on 1340 during the time of KDLN's f/c, different from
 the contiguous tone on ZBM-2, and wonder if it could have been they. I am writing
 this on the 15th and hope that 1490 will be good tomorrow AM, as there are some good-
 ies lined up, hi. KLOU is being heard on 1580 in the night with a consistant signal
 here. I have been hunting for testers, but business is slow. WAWK-1570 was testing
 on the 13th, IDed at 2:15 and I couldn't hear anything else except for what sounded
 like XERF when a carrier went off for about four seconds. On the 14th, WFEC-1220 was
 heard very well and I believe WGAR had their carrier on all the time. They had tone
 over WFEC at 3:22. Forgot to mention WESY-1580 heard at 6:35 p.m. s/off on the 4th,
 verie back in six days. Had a nice get-together at Jim Ernst's place last week and
 met Eric Polkes for the first time and saw other good friends there als9. Only three
 veries this week, five more reports out on Saturday, they've gotta come back soon! 73s.

Lefty Cooper - 438 East 21 Street - Brooklyn 26, New York

Three new ones this week, but all welcome. 2/12 - CJNR-730 on RS to 1:10 a.m. s/off
 and in the clear, but very weak. Heard WTOR-1490 on f/c-TT 1:15-1:30 so apparently its
 no longer AN. TTer on 1320 at 1:47 and off and on all AM, no IDs heard. Somebody
 testing on 1080 with 5,000 watts at 2:37, un ID. Musical tester on 1460, no IDs at
 3:13. That afternoon, on Ken Murphy's tip, logged OC-ET of WMM-1260 with IDs on the
 hour, about S-7. 2/16- KIRX blotted out here by WCTC-1450 TT at 2:45. On 1490 at 3:
 14 I heard WJBS De Land ID as testing, then SSB and on came KTLO 15 minutes early on
 their NRC DX for a welcome and unexpected one. About even with WJBS who continued to
 test throughout the KTLO DX. Latest pop tunes on the KTLO show, a big help in IDing.
 WERE-1300 is AN Mondays now, apparently. UnID music on 1500 behind an OC all AM.

Jim Ernst - 563 Park Avenue - Scotch Plains, New Jersey

I really enjoyed the little gettogether I had at my house on the 8th, making reacquaintances with Bob Foxworth, Lefty, Anthony Lagatutta, and meeting for the first time, Eric Polkes. Glad they all could come, and enjoyed having them all. With Lefty came his 23 tube Scott, which is now mine, and which is a beauty - chrome plated everything, three speakers, etc. etc. There are only one or two things wrong with it, and I can't wait to have it in running condition. DX this week was another red letter one, bringing a total of 22 new ones. Feb. 9- ZBM-2 DX in quite well with loop, but power lines and a carrier did give them a rough time, also. WDXB-1490 s/on at 4:55; WFLB-1490 on at 4:56:30; WGCD-1490 at 4:58 (the last three also on loop); WLET-1420 5:28 s/on; WCMF-1340 at 5:35-5:40. Feb. 10 - WPUV-1580 with r/c at 12:15-12:29; HJKC-840 at 11:38-12:00 with American tunes. Feb. 12- WKMC-1370 at 5:30 a.m.; WJSO-1590 at 6:15 p.m. s/off. Feb. 13- WAWK-1570 on r/c at 1:00-1:15, with the million monster off for some reason. Feb. 14- WCRO-1230 at 1:08 s off; WKID-1580 r/c at 1:18-1:32 (Hope I got the right code word - XEDM and WWIL gave me a hard time); KRNy-1460 at 2:18-2:40 with ETs, S-9 all the way; WFEC-1220 ET at 3:06-3:18. Veries are doing fairly well, with 13 netted this week, but I still have only 78, with 76 reports still out: HJAQ (verified specifically this time for me) WAPE KTOP KFNF-dx WTSP (they give a record to the farthest listener each week - on 5:01 a.m. every Monday AM) WEW WYTI WGAZ WBLR WCTT WPOR WKBC WDXB. WCTT and WBLR were QSL cards. W3s to all.

CHANGES IN STATION DATA - F.C.C. & C.D.T.

(abridged) TEN YEARS AGO IN "DX NEWS" - LEN KRUSE - BUQUQUE, IOWA (2/12/49, P. 5)

The past week's WX CX have caused poor radio reception. No sign of DXes from either WJOS or KSGN. However, a swell DX program was broadcast from KTAT on 2/6 with a total of 18 entertainers, on the show. Station WAND (OO) Canton, O. logged on Sunday 2/6 at 7:30-7:45 a.m. Enjoyed listening to Ken Albrecht's KLOU DX till 4 2/7. Among many calls received on program were two DXers, Herz and Mustoe. Logged WEUS (790) Eustis, Fla. on f/c 2/7 3:40-3:50. Among veries was a letter from WJON for a report of 10/28/46 and no f/up. Other v/ls were WJAR-dx WWSO-dx KGYN KCNC KTBK CKCO and card from WJJJ

W V L K - 590 - Lexington, Ky.

Paul Dunbar, C.E. We have requested WOW for a stand-by for this DX, and there will be others on this channel, too, like KTBC and WEEI, but we hope that due to WVLK's more central location that they will get out to all of you. This station is needed by many of our members, and this special DX show will give us that good chance of hearing them. Our thanks to Mr. Dunbar and good reception! MARVIN ROBBINS

C K A R - 590 - Huntsville, Ontario

Chief Engineer Here is a new station which mostly all of our members need in their logs, and this DX show should help us to remedy that void. WOW will be off, since this is a Sunday morning, but WEEI and KTBC are expected to be on. We do not know just exactly what CFAR will have for us, but we are looking forward to logging a fine new Canadian fulltimer on a low frequency. MARVIN ROBBINS

4 V W - 1325 - Port au Prince, Haiti

Herbert Widmaier 4VW is an affiliate of the Columbia Broadcasting System and the United Nations Network, and many would love to add this fine station to their logs. They have promised us a very special program, and we suggest tuning to 1325 for this show, give or take a few kilocycles. "Radio Haiti" will be very anxious to hear from you and to verify all correct reports. P.O. Box 737/STAN MORSS

T I A C - 955 - San Jose, Costa Rica

Rafael A. Quiros A., Sub-Director. Another fine Latin American station, "Radio Fides" is honoring us with a special DX show on a split channel, which means everyone ought to have a good crack at their signal. They are 2,000 watts, and non-directional. We hope for English announcements among the Spanish, and be sure to send those reports with IRCs for return postage to Apto. 1933. STAN MORSS

W R A W - 1340 - Reading, Pennsylvania

Robert S. Reider, Mgr. One of radio's senior stations, WRAW, is going to honor us with this special show, in which they will tell us some interesting facts about Reading, Berks County, and WRAW itself. All selections played will be included in their log to help determine the correctness of your reports. While the 1340 spot has a couple of all-nighters, we hope you'll all hear WRAW! 19 N. 5 St. M SS

K A F Y - 550 - Bakersfield, California

Robert O. Fee, C.E. This program was to have been presented last month, but somehow we mixed up and didn't get it into print. They have written KOY and KTSA to ask for clear air and are doing this three-hour marathon DX as a bit of local promotion, building up the show to their local listeners. Record will be kept of time announcements, selections, tone times, etc. PO Box 6128. FRANCIS NITTLER

W C S S - 1490 - Amsterdam, New York

Roger Taylor, Jr., CE. We are trying to change the date of this program to March 9 so it will not interfere with the WRMT and WLDB programs, so if not heard, look for them one week later, March 9th, 4-5 a.m. Tones will be transmitted periodically at regular intervals, for five seconds to help you identify their signal. Very fine stationery they have, too. We hope for March 9th, then! LEFTY COOPER

Mon Mar 9th 4-4:30 W R M T - 1490 - Rocky Mount, North Carolina
Norman Suttles, Mgr. This is a station just three years old, and just about everyone needs this new one, and the channel is expected to contain only KTOP and CMOX, and perhaps that annoying carrier. We trust that WRMT will get out well with their new equipment, and that everyone will hear the show, which we learned about as we went to press via telegram from Len Kruse. Everybody tune in! LEN KRUSE

W L D B - 1490 - Atlantic City, New Jersey

LeRoy Bremner, G.M. This station ought to be easy to identify, as they will put on a rousing "country-western" type show for us as their first-ever DX program, with again interference expected only from KTOP and CMOX, until a couple of 4:55 a.m. sign-ons. Their attractive QSL cards will be sent to all who correctly report reception. This station is about four years old and needed by many. LEN KRUSE
