A MERRY N.R.C. CHRISTMAS!

"The fact that 20 of the 23 Christmas Cards I received were from friends in the NRC proves what a wonderful and friendly Club we have. Viva NRC!"

W M O D

Chuck Brand, Program Director, says in part, "We will be most happy to cooperate with the NRC and will be on the air Monday morning, Feb. 19, at 4 a.m., EST for monitoring purposes. This will also serve as a frequency check with a temporary sign-on of 4 a.m., sign off at 5, and returning for our regularly scheduled programming at 6 a.m." There will be music, frequent station breaks. It is also expected that our member, Sid Rosenbaum, of Wheeling, will be on hand to greet us over the air. We thank Mr. Brand, and hope you all log this station on this special test. FRAN NITTLER

W P T X

Jack Armstrong, WPTX DJ, will do this special test broadcast, and the music will come from the "Top 20" WPTX current tunes, along with other pop music. WPTX is a pop music station which serves Charles and St. Marys counties of Maryland. The Patuxent Naval Air Station which is the second largest in the country is located right across the street from WPTX. WPTX often participates in public service programming like collecting food and clothing for needy families. We expect a clear channel for this DX, and we hope everyone is able to log this much-sought station. FRAN NITTLER
BE SURE TO REPORT TO ALL DXING STATIONS. IF NOT HEARD, SEND THEM A THANK-YOU NOTE.

ON THE STATION'S STATIONERY

K D A B - 1550 - Arvada, Colorado

January 12, 1962

"Dear Ernest:

"KDAB Radio is sincerely grateful to the members of the NRC for the whole-hearted and unreserved manner in which they sent DX reports to us. These reports have allowed us to pinpoint our skywave pattern with nearly the accuracy we could have accomplished with extensive and expensive measurements in the field. These reports have each been acknowledged where humanly possible. Sometimes we have had to stretch a point, but we'll acknowledge each one received for the next few days.

"In the future, KDAB engineers will insist upon the following from each reporting station or else we shall be unable to send a reply:

Each report must contain at least three verifiable items

Each report must be mailed within 24 hours of monitoring

Each report must be accompanied by return postage

Each report must ask for a verification

"The reason for the last qualification is that many times we receive "courtesy" follow up reports that do not ask for a verification. These are filed on a routine basis by our file clerk.

"The National Radio Club has established what is to us the most acceptable reporting system yet seen. We appreciate this and acknowledge it humbly.

Very truly yours," (signed) John P. Tucker, CE.

"AN" SITUATION

<u>ON</u>			<u>OFF</u>
765	Y S K L (ex-755 kc/s.)	930	K H J 1440 K P R O

1150	K R K D NSP (no silent period)		

John D. Hathaway - 4001 South Milan Street - Amarillo, Texas

Only verie received this week is for WSIZ-1380-DX. New stations heard were: KPAL-1450 heard 3:44 1/22; KPIG-1450 3:44; KNEA-970 5:05; WAOK-180 5:45; WPTF-680 5:58. 1/23-WKBH-1410 8 pm., HRN-680 midnight, first time heard on this frequency. 1/27- KNDY-1570 1:11 with TT and frequent announcements by woman, XERF off again. Now 675 logged with 212 verified. I still have trouble with HNL that takes out all chances for DX when it is on and CX have not been as good as weasier this season. Best 73 and DX.

Bryan and Keith Wilson - 220 5 Avenue - New Westminster, British Columbia

We missed the deadline for last Musings, so here's the result of DX in the last two weeks. The Log is slowly getting fatter, station by station. 1/19- KOZI-1230 Chelan, Wash. on for a basketball game until s/off at 1:15, heard in absence of semi-local CKDA-1220 having quite a bit of XR trouble that evening. This station is listed as daytime on 1220, but is now full time 1,000/250 on 1230. On 1/27, KDOV-1300 Medford, Ore. s/on under KOL at 8:04; KOFY-1050 San Mateo, Cal. 7:56 pm. as a SSS catch. 1/28 brought KWIN-1400 Ashland, Ore. f/c 3-3:30, MX, TT, and IDs every two minutes. As far as veries are concerned, quite a haul since last report: V/1 KAGI-930 Box 148, Grants Pass, Ore., CKSB-1050 Man.-DX, KTRH-740 Houston 1; KRBN-1450 Box 908, Red Lodge, Mont. KSEI-930 Box 31, Pocatello, Ida. and KOZI-1230 Chelan, Wash. V/c KTFI-1270 Twin Falls Ida.; KSO-1460 KPIX-1590 Seattle, CJIB-940 Vernon B.C. DX and saving the best for the last, TGJ-880 6A. Avenida 10-45, Z.1, Guatemala City, in Spanish, of course. We both had riots trying to translate it! Time to s/off so 73s and keep trying!

Ernie Cooper - 438 East 21 Street - Brooklyn 26, New York

2/3- Umm WCRD-1420 ET/M 1:18, atop WHK. Noted umm CBW-990 atop WIBG at 1:30. KGUL-1560 ET/M AN for a welcome new one. WJUD-1580 r/c-TT 3:30-3:45, and WSVV-1570 f/c-TT 3:30-3:37 s/off, for three new ones. 2/5- Unk TT on 1550 most of very noisy AM. ET/M unk on 1460, as Joe Fela also noted but ID (missed) given at 1:55, said f/c and XR/c, and 1,000w. Saarbrucken-1420 logged 1:57-2:06, also log on HJCG-1070 AN SS. Costa Rican in parallel with TIRICA-625 on 1505 AN, who? Concert mx atop KOMA-1520 3:30,unk 2/6- WCRB-1330 RS s/off 1:08, umm. ET/OC atop WZOK AN on 1320, ID without city given sounded like WBFN at 1:15, who? Very noisy again; no CHAK-860 DX; two SS ANs there instead. Umm WYTI-1570 TT, off 3:14. PM- WHTT-1300 3:40 pm. with WAVZ/WEEB/WAAT/WFBR WPHB-1260 5:35-5:45 s/off on top, and hallelujah! ZWMT-540 6:33-6:45 pm. s/off 73.

February 10, 1962

DX NEWS

3

John A. Draus - 2443 South 20 Street - Omaha 8, Nebraska

The past month has been above average for this Omaha DXer, with three new states logged, two new countries, and one new province also put down in the log book, bringing the total to 374 logged, 230 verified in 43 states, seven provinces, and nine countries. On to the DX. HCJB DX Program only one tried for, and heard very well here with slight fade and QRM. 1/14 added WCPC-1320 5:20 a.m. RS, plus a few others for f/ups. 1/22- WEVE-1340 2:15 a.m. TT and ID. CFRB-1010 4 a.m. RS, WIP-610 3:10 RS WHHM-1340 2:32 a.m., KONO-860 3:03 a.m. 1/23- KPRO-1440 3:37 a.m. RS, WNEW-1130 4:15 RS, WINX-1600 4:45 RS, WSTL-1600 5 a.m. s/on, WBLV-1600 5 a.m. s/on. 1/27- KGLO-1300 9:40 p.m., RS; XETRA-690 2:50 a.m. RS, WABC-770 3:10 RS, KGHM-1140 3:22 (over WRVA on 35" spiral loop), KTKT-990 3:50 a.m. RS, CKRM-980 3:55 RS (over KMBC on same loop), WKCW-1420 4:35 a.m. RS, KDAL-610 5:00 RS, WTKY-1370 5:16 s/on, WTRM-1600 5:32 s/on, WBHT-1600 5:45 s/on. 1/28- CFRN-1260 2:35 a.m. RS, CHUB-570 3:04 s/off, KOGO-600 4:09 a.m., KFRC-610 4:30 RS, WMAY-970 4:53 RS, WOKY-920 5:11 RS, CKDM-730 5:40 RS. Now, if they all verify for me, I will have put myself back in the running again with Ernie Wesolowski and Jim Lee who have each amassed some 100-plus points for the Domestic Contest. Get ready for my lists of veries Maurice! To Denver's nost NW DXer: We plan on being in your fair city in the coming weeks, so stay close to your den.

Marvin E. Robbins - 265 Laurel Street - Apt. A4 - Broomfield Heights, Colorado

While DXing was noted to be fairly good last Monday AM 1/15, I've been a little too busy with our basketball team and then, this week, getting ready for semester finals to take advantage of too much DXing since last Monday. I'll continue where I left off in my last report. 1/9, logging taken on semi-local KAPI-690 which is heard here during RS mixed with KTCI Terrytown. Also noticed that KTWO-1470 is making it through now during daylight hours. That evening I logged KRKC-1570 King City, Cal. at s/off 8:15 p.m. two minutes after KCVR Lodi, Cal. got off. CHUB gave trouble as usual, but XERF was out like a light. By the way, is XERF off the air again or is it they are not coming in at all? XEDM is 40 db over S-9 on 1580 and no sign of XERF. S/off's from West Coasters on 1570 clear mostly every night. On 1/13 I finally got KEZU-920 Rapid City S.D. in the clear at s/off 6:45 p.m., and on Monday AM, 1/15: WDXL-1490 Lexington, Tenn. with ET 3:37-3:44 a.m., KOPR-550 Butte, Mont. with r/c 3:45-3:51 a.m. s/on from KNEA-970 Jonesboro, Ark. 5:02 a.m., s/on from WGNU-920 Granite City, Ill. at 5:04 and s/on of WTKY-1370 Tompkinsville, Ky. 5:18. Latest veries are an interesting assortment. First of all the mailman has been good to me in that I got my first Australian verie from 4BC-1120 Brisbane, Qld. They definitely are 2,000w. Others from WNGA-1600-dx KARS-860 Belen, N.M., KKHI-1550 KWCX-1320 KWAC-1490 (beautiful letter-head, and included KWActivity card and KWAC-curate Top 30 Survey - do you survey collectors have this one? XEAU-1470 KUJ-1420 and our own KDAB-1550 (my nine-mile neighbor). Mr. John Tucker is quite happy with the many reports sent in by NRC members. By the way, Bill Nottler says he will attend the fabulous NRC Convention in Denver in 1962. Will you? 73, all.

David E. Roys - 5121 Radnor Road - Indianapolis 26, Indiana

Firstly, I should like to say a few words in defense of taped reports. I have sent both written and taped reports to both foreign and domestic stations. Without exception, taped reports have been the preferred form. I have always received more interesting and enthusiastic veries from taped reports. Some stations send me a return message and a verie, some send pennants, sample program tapes, longer letters, souvenirs, etc. which are not sent as replies to written reports. Some stations play my tape over the air as part of a newscast. Can they do this with a written report? Can a thousand written words describe reception CX as well as 30 seconds of tape? Can the results shown above as to the preference of the broadcaster with regards to reports be denied? Can the fact that a taped report will increase the broadcaster's interest in DX reports be ignored? 'Nuff said. Veries are trickling in, among them the new CBC cards from CBN-640 and CBU-690. I am going to try for a matched set, hi. Also CFNB-550 WCCN-1370 CKRB-1460 WERL-950 WKBW-dx and 2RE-1560 from New South Wales, Australia. They said at the time they were using 500w. to a quarter-wave vertical antenna. They even broadcast my tape to their listeners. Sure hope CB73 makes it through HJCU. CB7 is on the Ocean front while HJCU is in the mountains, inland. That could make quite a difference especially if CB73 has its grounding radials near the ocean. 73, not 73e PLEASE BEAR IN MIND WE ARE LIMITED TO 15 PAGES FROM BROOKLYN FOR EACH ISSUE. TO MAKE SURE YOUR REPORTS GET IN, KINDLY STICK TO THE RULES WE HAVE SET BEFORE YOU IN DX NEWS.

George Greene - 1527 Sunset Avenue - Akron 19, Ohio

not
CX are/very good as they have been most of January. Main reason is probably the WX. There were only about five days of snow, with it on the ground about ten days. Most of the other times, the temperatures were in the upper 30s and sometimes in the 40s and twice in the 50s. This meant poorer CX this month. Also less of WLCY WNOE and new stations. To compare, I had received 37 stations last January and only 15 this month. Of course, during the year I added many stations to my totals. New stations this week are: 1/29- XEEK-650, KCMO-810. 1/30- WRIC-540 and KWMT-540. No veries received, but I sent out six new reports. They went to WIRE-1430 (a tape), WAKY-790 (tape), and report forms to WSM-650 WGY-810 and WCCO-830. XEEK and KCMO were heard under WSM and WGY respectively soon after the time I made up the report on them. Listened on 540 today and got two new stations. Both WRIC and KWMT. KWMT was very weak, but WRIC was strong. I have loads of WAKR/WHLO Surveys for anyone who wants some. Just write. Here are some statistics on my verifications: 38% of my veries were letters and 62% cards. I got 100% results from my report forms (only two that were sent out over a week ago), 90% from my letters, and only 80% from tapes. Clear fulltimers gave me 98% and regional fulltimers only 95%. Daytimers were only tried several times and I haven't sent to any graveyarders as yet. That's about all here. 73s.

A2C Jesse R. Bruner - 376 AEMS - Box 124 - Lockbourne AFB, Ohio

Not much to report in the way of DX. No sign of HCJB DX under WLW. I am looking forward to the CHAK DX. I could really use it in my log. Only 20 new stations logged since last report. Also added two new countries. New stations are: 1/9- CHML-900 at 2 a.m.; XERB-1090 at 2:15. 1/13- CKWS-960 at 1:25, XEAK-690 at 3:00. 1/17- CFAM-1290 at 1:00, CKFY-580 at 1:25. 1/19- YNOL-825 at 11:20 in English. 1/20- XERCN-1110 at 2:15; HJCU-730 at 2:30, XEJP-1150 at 3:15. 1/21- 4VE-1035 at 6:20 a.m. 1/24- YSC-1015 at 11:20. 1/25- CFRY?-1570 at 12:30. 1/25- CKRC-630 at 2:30; CKY-580 at 3:30. 1/29- TGUX-1020 at 1:22, Bordeaux-1205 at 2:00. Also have a couple of unIDs on 830 and 765. Only two veries since last report, CHLO and PJC2 who returned my PP card in two weeks via air mail. Totals now stand at 72 stations heard in 31 countries and 22 veries from 11 countries. I hope to reach the 25 country mark by the end of the DX season. Some of my better veries are HJAQ-1020 WITA-1140 PJC2-865 YSEB-1075 WKVM-810 and HI3T-620. Are there any NRCers here in Columbus? If so I would like to get in touch with them. 73.

Arthur J. Fregeau - 66 Locust Street - Bristol, Connecticut

DX improving here; WVIP-1310 heard mid-morning on RS, report out. Also 1/23, two twilighters CKLB and CHOV on 1350. 1/25 brought in XEWA on 540 @ 11:54 p.m. 1/26- WJAS-1320 RS at 12:52 a.m., CKDM-730 1:15; KPMC-1560 1:58. 1/27- WLIJ-1580 ET @ 1:04; long needed British Columbia via CHUB-1570 @ 1:47 a.m. and WLBZ-620 @ 7:07 p.m. Was WLBZ ever on 1420? I have them so logged 11/15/58 but am beginning to think I got the call letters wrong. (They were still on 620 back in 1933, Art -ed.) 1/28 HOJ2-1040 @ 2:37 a.m. for country #16. Also WGIR-610 @ 10:59 a.m. and WEIM-1280 @ 2:02 p.m. for two long-sought stations. Now wild 1/29 opened up with BEC-881 Washford @ 1:44 for country #17. Also BBC-1450, Clevedon @ 2:15 a.m. and back on the home front KADY-1460 ET on ET @ 2:20; KENO-1460 @ 2:30 for state #41; KFBK-1530 @ 3:20 a.m. for Cal. #5; WTYC-1150 ET @ 3:40; KFH-1330 @ 4:09 for state #42, now taking care of both banks of the Mississippi. Also KPIG-1450 @ 4:17 for first K on 1450; WAPA-680 s/on with SSB at 4:45 and finally WENA-1560 @ 5:05 a.m. ID as Radio San Juan but located in Bayamon. Reports out since 1/23 to WVIP WAKR WHEB CKDM WCAU CFOR WBAL WLIJ CHUB BBC-881 WGIR WTYC. Veries in from WLEO-dx CKBW-dx WHSC CKLB. By the way, CKLB verie says they are preparing a DX on 1350 on 3/12, 4-5 a.m. but they fail to say for whom. It is signed William C. Marchand, TD, so I imagine reports should go to him. Who is the AFRTS station on 1480 running continuous mx? Heard them 1/28 from before 3:30 to 3:45 when lost under WYZE's OC. I missed the ID given at 3:30 but heard "Music after Hours" mentioned. Any help? 73s.

Bob Coomler - 6047 Comey Avenue - Los Angeles 34, California

DX around here has really been slow. Only new loggings are KONO-860 CKDM-730 KOLO-920 at s/off at 5 a.m., and XEW-900. Verie-wise the following have showed up- WOWO-1190 with a handsome folder, KLAJ-1600 with a mimeo letter, WHAM-1180 KALL-910 and KONO-860 with cards. If there are any DXers in the L.A. area who would like to yak over the horn for a while, the number is WE5-8608. Getting back to DX (or lack of it) XETRA wiped out any chance of hearing HCJB. Here's hoping nothing happens to cover up CHAK. Anybody need any snow?

Joe Brauner - R. D. 1 - Smicksburg, Pennsylvania

DX continues good here, but the IAs have not been monopolizing the dial as they did earlier in the winter. New calls added: 1/7- WRCM-1590 RS (Sunday) at 6 a.m. and WCAY-620 RS Sunday s/on at 6 a.m. WJAN-970 heard on RS Sunday at 6:55 a.m. during WWSW's silent period, and WAAX-570 signing on RS at 7:29 a.m., followed by WGMS on at 7:30, all Sunday. Last one heard before. 1/8- KGEM-1140 very weakly on DX at 3 a.m., no QRM then, readable but only S-2. XETRA-690 finally came in for me. Not a trace of WEMJ, WDXE in complete control of 1490 with WECB at times in background. WLES-580 heard perfectly on their DX for another new call. 1/15- WOKC-1570 ET at 2:15. 1/20- English program on 820 at 4:40 a.m., faded away before ID. 1/25- KRAZ-1580 testing @ 2:45 and later. 1/27- WPUP-1390 on RS at 5:20 a.m., only WKRK audible before, but WPUP continued breaking through until 5:40. WORG-1580 RS s/on at 7:30. 1/28 WPYB-1580 ET at 2:00. That's it from here. V/l's from WJAN WJOR and WLES-dx. The usual assortment of unk tests being heard, split frequency SSES, etc. Specially interested in the SS on 1185 and 1360 as have not seen those reported much in Fred's reports. WOWW-860 heard s/on RS on Sunday in clear here at 7 a.m.

Stan Morss - Route 3 - Bradford, Massachusetts

1/27- CFRY-1570 copied 12:55, then KNDY Marysville Kans. f/c at 1 for two new ones on 1570 with XERF off. WTOP-1500 selling house lots in "El Paso East" - more desert. Must have sold all Belen N.M. lots in "Rio Grande Estates." WBOF-1550 TT/OC 2:20. Verie, WLEO-dx. I mentioned a while back a verie from WLEU when I had not reported them. I returned the verie and asked if they could give me any info. A reply received today from CE says "No one knows anything about letter - the signature on it is not his" and he is as confused as I was - so am wondering what goes on! Anybody else getting "unearned veries?" 1/29- XERF on again. Frankfurt-872 at 1:49, good signal. WPCP-1320 Houston Miss. testing 2:34. WFLI-1070 noted 3:07. WPCF-1430 Panama City Fla. answering phone calls from around the country at 3:55. 1/30- CHML off 3:12 and tester with band mx and Georgia NX, WCGA? Then TICS La Voz de America in Costa Rica on AN for an electioneering broadcast for Dr. Rafael Calderon Guardia in the clear till 3:38 when CHML came back. 2/1- KJAY-1440 Topeka noted at 3:30 plugging NRC and asking for reports.

Neil Eubanks - 2902 Monroe - Amarillo, Texas

Once again DX has picked up and it would seem everything points to a great year in '62. Latest news around here besides the new tape recorder is a new receiver; an HQ-150 which I picked up on a stroke of luck. It's in real good shape and should aid in hearing splits. Sure glad the f/c list is out - my old one is about gone to seed. 1/24- KPEL-1420 heard testing at 1:17, KILE-1400 RS with s/off at 1:24, and KCLW-900 testing equipment at 1:59. 1/25- KCOL-1410 heard at 1:25, KRAN-1280 another newcomer in most places except Amarillo. That's all we need here in Texas is another daytimer to block out 88S. 1/26- KRIC-1450 heard at 1:02 for first catch in Galveston. ERUC-865 "Radio Centro" in with S-9 signal at 9:02 p.m., and finally XEN-695 at 10:10 p.m. 1/27- KNDY-1570 in the clear. 1/28- KJLT-970 testing with hymns at 1:42. 1/29, another great Monday AM as far as TPs are concerned. Real good signal by LYC-880 at 4, KAIM-870 in with fair signal, JOBK-370 heard at 5 with tone pips and Japanese programming. Other catches were: KRSN-1490 with s/off at 1:01, KIQS-1500 new station in Wil- lows, Cal. ET between 3 and 3:15, WPCF-1430 Panama City Fla. testing and asking for phone calls, CJAD-800 mistaken for 1YZ for a while but finally got ID at 3:54, CKOY-1310 heard at 4:33, WELO-580 heard at 5:09, WTKY-1370 s/on 5:17, WTVN-610 RS at 5:41. That's about it from here so 73s from the Lone Star State.

C. Wayne Alcott - 125 Hill Street - Hampton, Virginia

School is taking just about all my time and parents said no correspondence till school is over. I see D. John, F. Williams, L. Schwartz and others have beaten me in verie totals already. Veries: WHLI-1100 (eight days) WGUY-1250-5 WFLI-1070-10 KSTP-1500-8 WOLF-1490-11 VKSK-1600-5 WGUN-1010-2 months WQOK-1440-6 weeks WTOD-1560-4 months WNGA-dx-1600-1 month WLEO-1170-1 month, v/l's, and these v/cs: CFNE-550-10 days WTRY-980-4 months WPEL-1540-8 days. Getting very near the 200 mark in veries. To all my correspondents, as you see above, it will be a while before I can answer your letters; sorry Will an HC-10 work good with a Hallicrafters S-38-E? Someone please let me know. Also would a used HC-10 be worth it or should I get a new one? (For my wallet's sake, I hope a used one will work well!). Sorry again, correspondents. WHLI-1400 is OFF AN for seven days a week! 73s. LET'S HAVE THOSE MUSINGS REPORTS, AND TRY TO CONDENSE!

Frank Williams - 5237 Elmwood Avenue - Lynwood, California

Here's DX for January: 1/7- CKDM-730 Man. AN with KMPC off for ET; any recent veries from them? 1/8, the next four: KSEN-1150 Mont., f/c 3:15-3:30; KNOT-1450 Ariz. f/c 4:15-4:30; WQOK-1440 S.C. 5:46 with strong ID and fadeout; WHOO-990 Fla. 5:50 fading with someone. 1/12- CXLG-730 B.C. 3:30 ID through pest KCBS' cl mx. 1/13- KREX-920 Col. ET 3:50-4:14, right through mess on 920. 1/15- KVLV-1250 Nev. f/c 3:50-4. 1/16- KWAC-1490 Cal. AN with "sickening rr. 1/22- The next three, KRNR-1490 Ore. 5:05 with WX and ID; KKHI-1550 Cal. finally heard here on ET asking for reports, and KPEP-1420 Tex., 4:50-4:52 with WX. Only new one so far in February is a milestone for me, my first logging on 1570 besides KDAB's friend, in KCVR-1570, Loui, Cal. heard a few minutes after KDAY signed off early for once. All possible DX on 1570 is usually blocked here by local KDAY, just above on 1580. Local changes around here are that KPOL is now on with 50kw, days, which makes it slop over that much more in the day. KHJ is now off AN, as is KALI-1430 San Gabriel. Guess there just wasn't enough interest in KHJ's dull AN show, and KALI lost its AN DJ through a "misunderstanding" with the FCC over payola! I've also noted the 610 pest, KFRC, Fogtown ('Frisco) off AN 5 a.m. EST, probably losing money as was KHJ, who disappeared with the coming of '62 was KBLA-1490 preparing for the big change to 1500 with the almighty 10kw. Everyone work on 1500, as I expect KBLA to go NSP there, as they were for a while on 1490. Finally, KWOW-1600 Pomona is likewise off AN, after tinkering with it during '61. And thus ends my first great year with the NRC, and it's been wonderful corresponding with and meeting as many members as possible. My verie total of 235, many of them obtained directly by tips out of DX NEWS and the f/c list, proves that Feb. '61 to Feb. '62 was a total success. Here's hoping my succeeding many many years in the NRC can be as rewarding as the first. Let's have a wusing, Buddy Dillard! Also Ken Hooker, Johnny Boase, John Bryant, and the rest. My totals: 452 logged, 235 veries, and 108 surveys. Ah, passed 'ya, Alex! Southern Cal. in '65, and '73s.

Roy H. Millar - Box 778 - Bellevue, Washington

DXing along: 1/20- KAPT-1220 Salem, Ore. ID at 7:30 p.m. with local KAST off briefly. 1/22- HJCS-920 Bogota, Colombia s/on NA at 5:10 am., ID by anthem. CMQ-net call at 5:30 a.m. as Cuban (CMJL I assume) took over. VOA-1158 in until 11:32 am. before finally fading out (were detailing transmission skeds), LSR about 10:45 am. this date - beats former record of latest TP reception by one minute. Hello Chris Manthey - know what you are talking about, takes me back about 22 or 23 years! To Dave Bennett: Only use for rabbit's foot here is as an insulator, hi. Surely sympathize with Glen Kippel and his limited DX from Tulia, Tex., some guys just don't seem able to pick up "that good DX" do they? Ev Johnson, your "Saga of the Sea" play on 1000 during CKB's DX was LZD, quite good here at times. Oh yes, must remember to start using AM/PM time to keep ye Ed. happy. DX really sparse around here but did add a new call 1/28; KJLT-97C North Platte, Neb. ID at 8 am. atop QRm. 1/29- YSKL-765 ID 2:45 am. (AN?) in San Salvador (ex-755?); KADY-1460 St. Charles, Mo. ID 2:22 am. as ET (through Cal./Nev. stations with directional antenna loop on Grundig. 1/30- Radio Peking-720 at 5:18 am. with best level any Chinese signal ever heard; LA had taken over by 6 am. Veries: KIQS-1560 WMAX-1480 KSWI-1560 JOLB-870 2RE-1560 KAPT-1220. The 2RE is specifically 50kw. so another new one in my "Top Ten" and second most distant 500 watter. Also, these 1560 veries bring verified total thereon to nine. JOLB verie is #6 on 870 and 20th Jap. WMAX is 25th 1480 verie out of 34 logged thereon. Tan contest-eligible foreign veries in this season; still only one each from NA and SA, with balance from Asia and Oceania. 73.

Ray H. Kraul - 6423 33 Street - Berwyn, Illinois

CX continue very good but I'm not taking advantage of it - just don't seem to be at the right frequency at the right time. I guess when you come right down to it, that's DX, knowing where to be and when, hi! I did manage some new ones for myself though. On sun. 1/28 caught WSB-750 fairly weak and I was able to hear WPDY RS 7:55-7:59 and KMMJ RS 7:59-8:10 a.m. 1/29- I caught only one new one, KAST-1370 RS s/off 2:40-3:05. Went back to bed happy! 2/2- WROZ-1400 f/c-TT 2:25-2:45 and on. 2/3- KGUL-1560 ET 1:15 to at least 2:45. Finally took log on KKHI-1550 2:42-3:01. Went back to bed for a few hours and at 6:58 on 1580 I heard what sounded like WCCF, but didn't know they were on RS as yet. They s/on about a minute before WPGC if it is they. Only two veries, WYPR and KXLY. Five New Mexico reports still out, and each one with plenty info.

WE APPRECIATE THE FINE COOPER TION YOU HAVE SHOWN IN BEING MORE CONCISE. THANK YOU!

February 10, 1962

Kermit Geary - R. D. 2 - Box 298 - Walnutport, Pennsylvania

Greetings from the Land of Colombian veries. I have just added three: HJCC HJCE HJKR. for a total of 53 from that country. Incidentally many Colombian frequencies have been changed to provide 40 kc/s. separation per area between 550 and 1010 kc/s., and 30 kc/s. separation above 1010 kc/s., so be sure of your identity before reporting. "Canal de Color" on 890 is now HJCE (from 870) instead of HJCI. I suspect HJCI will turn up on 930 or 970 kc/s., probably on the former. Two items here of note. 1) On Sunday 12/10 a poor DX AM, the new WSHP-1480, Shippensburg, Pa. was found coming in at 6 a.m. and offering prizes for the most distant listeners. About a week later, I was the proud recipient of the \$10 check for first prize. DX is finally paying off! 2) On the early morning of 1/29, a fire of undetermined origin burned up the XR of WSAN, the Lehigh Valley's favorite AN pest. A new RCA XR was rushed up from Camden, and WSA returned to the air the night of 1/31. WWHY-1470 was logged as a result of the shut-down; many others heard but not needed. It is suspected that one or more area DXers resorted to these extreme means to clear the frequency for some new loggings. If so, my humble thanks. Furthermore, I have a list of candidates for similar action. Logged WXYJ-1340 on 2/2 at 5:30 a.m. s/on. Temperature in Jamestown was 10° - cold enough, Pat? KGUL-1560 heard on ET most of 2/3 AM. Watch for ETs from WYNS-1150 Lehighport Pa., almost ready to go. 73 and good DX.

James Gangler - 2801 Chesterfield Avenue - Baltimore 13, Maryland

Some good DX since last report. 1/26- CSB2-1034 fair at 7:15 pm. 1/27- KWEW-1480 good with r/c at 2:10 a.m.; KQEO-920 fair at 2:30. 1/29- WHB-710 good at 1 am., umn KXLF-1370 strong at 2:25; with K60L-960 weak at 1:30; Luxembourg II-1439 strong at 1:40 WBRO-1310 very strong at 2:40 with f/c; KJAY-1440 strong between 4:20 and 4:25 with ET and a big surprise at 4:45 am.; B.G.B.S.-560 Georgetown, British Guiana. They were signing on at this time and were completely covering WQAM for more than ten minutes! CKBW-1000 strong at 5:03 a.m.; CEN-640 weak at 5:15. 1/31- At SSS, WEMB-1420 and WENO 1430. 2/2- WTRB-1570 at 6:44 pm. 2/3- CKPT-1420 strong at 12:02 am., WSYB-1380 fair with ET at 2:50 am. In my last report I mentioned something about CX28 not verifying any more. Well, I wish to retract that statement: two days after I said that, I received their QSL and a pennant. It took me three reports to get a result, but it's worth it; my first two reports went by air and the last by surface. What's surface mail got that air mail hasn't? Other veries: v/c- KWSK WQAM KCTX, v/l KUTT. All-73.

Sid Rosenbaum - 806 Market Street - Wheeling, West Virginia

CX excellent a couple of times this period. 1/22- WHOL-1600 third Monday 1-1:30. (4th Mon., isn't it? -ed.) KBUR-1490 r/c 1:15-1:30, third Monday. WARO-540 ex-WCNG now announces location as Pittsburgh; owned by Radio Hill Inc. "Your South Hills Station." 1/29- WHOW-1520, now okw. in like a semi-local with Bob Taylor Snow at 4:15 pm. WDLR-1550 and CFRS-1560 on top briefly after 5 pm. A station on 1550 at 5 beneath WDLR sounded like WIRD? 2/2- CX wonderful, but only one new one heard. With XERT off, I found CFRY-1570 Portage la Prairie, Man. on top of CHUB from 12:55 through 1:05 s/off. CFRY will probably be my best catch of the season. Veries are WKPR v/l and WQTC v/c. The latter is for a report of last April. Thanks to Duffy for tip on WOKC ET 2/5. Any information on Hallicrafter S-108 will be appreciated, especially splits and selectivity on AM. If work sked is favorable may arrange to get in on WMOD test of 2/19. Have several prints of the famous Grave Creek Mound in Moundsville - first request gets 'em!

Ken Murphy - 60 Plymouth Road - Glenbrook, Connecticut

Been quite some time since I last reported but DX has been good most all winter. Have added an even 70 stations to my heard log since last report of which 16 were K calls. Didn't see anyone else reporting the musical test from KJIM-870 on 11/20. They had a good signal and a beautiful verie (after two months' wait). Heard Radio Victoria, PJA6-920 in the clear one evening recently with English programming. This resulted in another very nice verie and the report was only out 15 days. Contrary to some reports I have found this season to be excellent insofar as the percentage of verie returns is concerned. With 40 reports out from 11/1 to 1/20, 33 have already verified and I feel reasonably certain of three or four of the others (including CKBW and HCJB DXes). I have heard many many Europeans but spend little time with them as it most difficult to get positive ID and I won't enter them in my logs without it. BBC stations on 647 692 881 1052 1088 1214 1457 have been definitely logged. Most looked-for outstanding veries now are KKAL-1580 WRDO-1400 KJR-950 and KGUL-1560. 73s.

IF EVERYONE WAS CONCISE, AND EVERYONE PRECISE - WOULDN'T EVERYONE BE NICE?

Park Barton - Box 603 - Atmore, Alabama

Today is Thursday and DX NEWS still has not arrived. It usually gets here on Monday and Alex B. received his then. I guess they just left me out. Really enjoyed a visit from an NRC member from Cleveland, O. Monday and Tuesday. Tom Arko came through our little cow town on his way back to school from a trip he and Dave Norris, a friend of his, were taking during semester break. Tom spent the night with me and Dave spent the night with Alex. Tom and I planned to rise and try for the CHAK DX but the alarm clock failed to awake in time for it. (CHAK is sked for 2/6, Park -ed.) My family and I went to Tuscaloosa Tuesday and we gave them a ride up there. Hope they made it back to Cleveland on time. DX is still pretty slow around here. On 1/26 heard KTER-1570 s/off at 6:45 pm. 1/27 brought WILA-1580 ET/M at 2:55. Heard them first as I was coming back from the bowling alley on the car radio. Later that AM I logged my first one from the great state of Oregon, KWAY-1570 on ET with M and TT at 3:30. 1/28 - WPYB-1580 ET/M 2:15. 1/29 - KWKY-960 f/c-TT 2:35. Finally got an ID out of XEK-960 Had heard them many times before but this was the first time I had been able to ID them. KSTN-1420 s/off 3:00, and WNDR-1260 RS 3:50. The last one brings my total on 1260 to 23, and my overall total to 796 heard. Veries in from WKYR-1270 (on a filing card), KDMS-1290 KOVO-960 KELO-1320 for a report of 11/21, WABR-1440 KBOM-1270 CKLW-800 KPOI-1380 for my second from Hawaii, CBK-540 CKBW-1000-dx WDXR-1500 KFBK-1530 WRIF 980 WMCA-570 and KPIG-1450. I finally passed Alex in veries when I received the one from KPOI that brought my total to 240 and he had 239. Well, better cut out for this time. See you next week. 69 plus 4.

Doug Murray - 277 Portland Street - Dartmouth, Nova Scotia

Greetings from the land of ice and snow. I really envy you guys down Cal. way. "XTRA News" gave temperature at 56° in the arly AM. DX is magnifiqu with 15 newies in over the past four or five days. 18/1- WFAX-1220. 22/1- WNOS-1590 s/on 5:00, WRGM-1590 s/ on 5 a.m. WBLY-1600 s/on 5:02, WIAC-740, CJFX-580 for a third report, CKBS-1240 DX, WFTA-1230 f/c. 23/1- WJTN on 1420 - is this a recent change? 26/1- WWRI-1450, WJAS-1320 s/off at 1:05 a.m., WCOA-1370 s/off 1:07 a.m., BBC-809 Scotland and BBC-692 England, RTF-1554, Luxembourg-1439. 27/1- WSOQ-1220. 28/1- WHYN-560 and a second report out to XETRA, WKBK-1220 s/off 4:50 p.m. and WSOQ again s/off 4:54. 30/1- KSO-1460, WBIG-1470 s/off 1, the new CFLV-1370 s/off 12:06, WOHO-1470 s/off 12:30, KXLF-1370 and KFH-1330 for my best of the current season, states #40 and 41 heard. The same AM (Tuesday) I heard CJOT s/off at 1:07, also WPOP-1410 which is unusual unless they have quit AN. At last count points in the Contest reached 109 with about 30 expected yet and a number of ~~idea's~~ still to write. Veries: WSAI WRGM WBLY WFVA WLEO-dx WICC CKBS (three days)-dx WSIZ-dx WPUP WJSC (tentative) WPOR WADA-dx WNJR WNEW WJJD CJSS (1kw. through local CKCW) VP4RD and CKRC. Total of 55 reports out in January. Verie total 303 and loggings 546. Does anyone have WRSC-dx verie yet? None here, and I had a good logging. Fran, I understand you collect match covers - I do also. Do you want boxfull? Nothing new in CPC - St. Pierre, CJLS CFCP have not answered. Good luck CHAI

J. E. "Pat" Reilley - 628 Spring Street - Jamestown, New York

WNTA KWAY WUFO are the new veries back this week. Have missed only one issue of DX NEWS on Saturday all winter. KWAY-1570 not AN, heard two tests, one on 9/16 at 3:15 and the second on 1/16 at 3:15, perhaps a monthly test on 16th of month. 1/28- KIQS-1560 f/c at 3:15. CKWS-960 off at 3:35, then CHNS in clear. 1/29- XERF back again. HJCI-890 S-4 at 2:29. HJCN-1100 at 2:33. WTYC-1150 test at 2:40 for new call. WCOA-1370 off test at 3:10. SS on 1380 at 3:11 and very loud but no ID caught. 1/30- KRZY-730 test through mess at 2:58 for new call. WFWL at 3:35 but XEB and another here and not enough for a report. 1/31- WEAW-1330 test at 3:27. KJAY-1440 ET 3:29. WMDF-1580 ET 3:45. TT atop CHUM-1050 at 3:12 but no ID. 2/1- KMGW-730 f/c at 2:11-2:25 for new call. KNBC-680 atop CJOB with unk TT at 2:39. KJAY-1440 test at 3:34 asking for NRC reports and a loud tester on and off same time. KERF was a good S-4 without any antenna or ground. 2/2- CHUB-1570 in clear - you guys in Amarillo must have a new missile for you-know-whos they weren't on today. Who is the weak SS, man and woman talk a lot on 1575 after SEDM s/off? 1580 had one testing 1-2-3-4 etc. at 2:40, gave call that sounded like WM?B but static bad. Unk 1580 with marches 3:06-3:25, had several bagpipe band pieces with drill-master calling out commands. 2/3-CHUB 1570 here alone again. WDOV-1440 r/c came on at 1:45. WMIC-1590 r/c 2:00. KGUL-1560 ET 2:58 for new call with unk behind them. WSWV-1570 f/c 3:23 and off at 3:38. WJUD-1580 r/c at 3:30. TT on/o f atop mess on 1600 at 3:50 but no ID heard.

David Combs - 909 Clayton - Columbia, Missouri

I'm back again for the second week in a row. Isn't that a miracle? Two recent veries have come in: CHUB and KNDY. A quote from the KNDY one "Incidentally we have a letter from the editor of your magazine in Brooklyn, Ernest R. Cooper." Did you log them on 1/27 too, Ernie? (No, my logging was in September during XERF's earlier breakdown - ed.) Here's the meager gleanings from my DX Log. 1/27- KNDY-1570 1:00r/c, WRFD-980, KWAM-990. 1/29- WJBO-1150 s/off 1:04, KSTT-1170 ET 1:25, XEJP-1150, KOMO-1000 (Washington #1, state #38), WBRO-1310 f/c 2:34, WPCF-1430 WWSW-970 WFLI-1070 CMCA-730. 1/30- KRZY-730 f/c 1:30, KSSS-740, KSVN-730 test, very weak, S-1. 1/31- WQXI-790, WBLY-1600 WARU-1500 s/on 5:28, KIRX-1450, WGNU-920. Did I hear someone wanted to start a Dick Biondi Fan Club, hi? My brother insists on listening to him just when I'm studying and many of you know how piercing Biondi's voice is, hi. Has anybody every noticed how often some pop stations ID between songs? WHB in K.C. usually does so about five-eight times. WHB WX, WHB Contests, etc. I hear them saying WHB more than I hear the songs, hi. I guess this is enough of my nutty Musing so 'bye now. 73.

Dick Kwiatkowski - 11 Walton Avenue - Caloron, New York

States verified are 33. 1/27- CKOY-1310 S-5, KOIL-1290 S-6, WLIJ-1580 S-6, KNDY-1570 S-6, PJA6-920 S-3 (QRM, WJAR.) Sent a report out to KQDI which was luckiest RS of month except KIZZ-1150. Veries in from CFYR-1570 KVMY-540 WDAK-540 WGTO-540 KOMC-1560 KUTT-1550 WSGN-610 WERH-970. Unk SS on 1440, 1110. XEWA s/off at 12:12. 3:00, KRZY-730 barely audible. Got nice letter from WAIT-820. HJCN-1100 in 1/29 at 1:30, ID as Radio ---???. (No comprend Spanish.) Some station on 1530 (no WCKY). Norm got it but I didn't! After two months, still no KAMD nor WNPV veries! Mrs. Reilley makes the best strawberry shortcake in town! Try for some of these Norm - KIZZ KONI KCHA KGMC KFEW KOSY KVOO KPAC KAKC KMA. 73s.

Norman H. Pillsbury - R. D. 3 - Jamestown (Busti), New York

Veries sure have been slow coming to Busti. Latest are WLCY-53 days, KONO-14 CKBS-6 WAVA-9 WOW-10, #2 for Neb., KUTT-6, #1 for N.D. 1/26- CBA-1070 s/off at 1:15, s/on at 8. 1/27- Too much school. 1/28- WJTN-1240 s/off 1 a.m., WQXR-1560 s/off 1 a.m., s/on 7. Heard WPYV, Vincent, N.C. on ET saying they were a brand new station, and were asking for reports, at 1:50. (Sure this isn't WPYB, Benson, Norm? -ed.) WEER-1570 ET at 2 am. Finally heard long-wanted CHUB for #1 heard from B.C. Also CFYR-1570 much tried for, was loud until about 2. On 1/29 who played "La Polka" at 4:45 on 1570 or 1580? The reason I'm not sure about the kc/s. is because I'm using a homemade dial ugh. Copied WRGM (is this Wx-WEZL, Ernie? -yes -ed.) until s/off at 5:15. In verie WQVA-1530 told s/on at 7 and s/off at 5:45 in February only. Many thanks to Stan Morse for PHC7-2. Guess what Dick, I got 8 1/2 hours of sleep for a whole week. This must be our record. Thanks for surveys from R. Lee and letter from Sid. On 2/1 first new logging of month was Ark. #3, KLCN-920. Till next week, 73s.

Carroll Seth - 154 Parkridge - Buffalo 15, New York

Over a beer at a rural tavern I discovered my color-blind bird-watching partner was interested in DX. It turns out that he is a natural-born DXer. We work together and every day he comes in waving a notebook containing last night's DX. This shakes me up to the extent that I do a shameful thing; hitching the receiver to the bed springs. It's all right for Glen Kippel to do this but he has a mind with a scientific bent. I go by the book. So, the bed springs must be beamed on Surinam as that comes in every AM now. The bird-watcher promises to join NRC if he gets 12 veries. On 2/1, I had clerks running from all corners of the Post Office with veries for him. Our little plot fouls up as he gets 16 veries on 15 reports. Flushed with success, however, he overlooks our faux pas. It's nice to be a new DXer who thinks everybody verifies and pastes reports on the wall with the XR license.

Michael P. McDpnald - Seven Star Lane - Concord, Massachusetts

Just thought I'd let any of you who may be wondering (?) know I have not been electrocuted or something. The trouble is my 35-year-old Sperton is not quite kicking as it should yet. Having exhausted all local means of help, I wrote to the manufacturers at an address provided me by another NRC member, to whom many thanks. They advised me to write Sams in Indianapolis (that's a familiar name) which I have just done. If they just have a circuit diagram for it I'll be back on the ether again (ouch!) I'm getting just about desparate enough to try my GE clock radio. D. John, do you know the Geo. Hasses on S. Lombard? Old friends of the family. I see in 1/27 Musings (on P. 1, yet) two more members from the Greater Boston area. We'll have to get together, Bob, Arthur. Ernie is probably having a fit at all this no DX, so 73s till I have son

Arthur Bjork Jr. - 31 Lyman Avenue - Medford 55, Massachusetts

Well, here I am again. One question: Does CM mean coverage map? (Yes -ed.) Put up a new antenna on 1/21, a 50' longwire, running N/S about 10' off the ground. As compared to my old 20-meter dipole, it adds about 10 to 15 db's or two S units to all previous signal strengths. Can anybody tell me what HJED's ID is? I can't make a thing out of all that Spanish. Glad I'll be taking it in school next year, hi. DX as follows: 1/21- YNX-750 12:31 (am., natch); WITH-1230 one hour later. 1/22- Another big DX AM - WMOG-1490 2:54, maintenance checks, report sent; CJFX-dx-580 3:05, report sent WTAR-790 3:30; WDAX, 1410 f/c, 3:39, report sent; WMFJ-1450, much too much WFPG for a report; CKBS-dx-1240, 4:27; WBAX-1240, 4:32; WATE-620 s/on, and WVLK-590 5:05. 1/27 WFAA-820 11 p.m. 1/28 KRLD-1080 1:30; WPYB-1580 ET asking for reports, so I gave 'em one; WWIN-1400, 2:31; KWK-1380 2:50. 1/29- WWOL-1120 4:55 pm., WANN-1190 5 s/off. 1/30- WHLI-1100 4:35 pm. V/cs from CKEW-dx and WRSC-dx (finally). V/1 from WDAX. Listening to WKBW-1520 at 4:10 p.m. on 1/29, and not having anything else to do, I sent 'em a report. Well, today's Friday, 2/2, and I'm looking forward to a big DX weekend (I hope!) so 73s and all that kind of stuff and I'll see you again in two weeks, probably

Sam Barto - 3 Glenwood Avenue - Naugatuck, Connecticut

Heard lately have been 1/6, WDOL-1470 ET 2:32 am. 1/22- KWRE-730 5:30-5:55 pm. 1/23- WNY-790 5:20-5:25 pm. 1/24- WFMD-730 6:25-6:25 pm. 1/25- WLIL-730 5:47 s/off. 1/27 CHFA-680 1:15 am, KING-1090 1:35-2 am. with CHEC; WBOF-1550 ET 3:27; WGRP-940 s/off 5:15 pm. 1/28 WVCH-740 s/on 7:17 am., WEEW-1320 6:27-6:32 am. Veries in from WSHN CKDM WMM WHP CHGB CHEC WERD BBC-Norden, Germany-1295 and from a BBC outlet on 1484 kc/s. - Barrow or Ramsgate? TAs have picked up considerably with 65 receptions noted from 1/20-28. (Sam, my BBC-1484 v/1 from about five years ago specifies Ramsgate-ed.)

Ben Dangerfield III - 202 Governor's Drive - Sproul Estates - Chester P.O., Pa.

It's difficult finding time to write any more - I hate to leave the radio for fear I'll miss something. Middle January was not outstanding, but DX really picked up after the third week began. 1/21 found a few BBC stations at 5:20 pm, including London-908 and Droitwich-1088, and at 5:30 heard s/off of WYNN-540 in Florence, S.C. 1/25: Cairo V again, on 818, so strong this time I even had them on the car radio at 7:30 pm. From 1/26 to 2/2 inclusive, the TAs have been rolling in from late afternoon to early AM by the dozens, and the LA splits have been exceptionally strong. Monday AM 1/29, one of the best ever for me, and no doubt for most of us. Between 1:20 and 3:20 am., I counted at least 44 TAs, in the clear, with signals of S-4 to S-9. Most of these I have either already verified or reported to. What really surprised me was to find LZD-1000, Tauranga, N.Z. coming through from 2:25-3:30 am. with an S-5 reading, and 4YA-780 Duredin, in the clear from 2:55 to 3:15, when someone turned a strong carrier on (and I went back to bed.) Also on 880, a Brazilian, PRU3, I think, at 3:15 being QRM-ed by LYC (pretty sure) with splatter from BBC-Wales-881. That's a real triple threat! 1/30 through 2/2 I would designate "East Germany Week." I had S 6-7 signals from Dresden-1043 Magdeburg-782 (Deutschlandsender) and to so-called clandestine "West German" on 904 which broadcasts from Magdeburg, East Germany, and IDs (in German) as "Nine Hundred Four." All these, along with Leipzig-575 (weaker signal) between 9:00 and 11:30 pm. On 1/31 there were weak signals from Poznan-737 and Vilnius-665 around 11:30-12:00. Domestically, the s/off of KWMT-540, Ft. Dodge was caught at 3:15 pm. on 1/31. Lots of interesting DX, as you can see, and CX still as good. Veries in from Lisbon I Norte I WLEO Daventry-647 Brussels-926 Hilversum-746 and CKEW. Happy DXing.

C. Alan Taylor - 2529 East 9 Street - Indianapolis 1, Indiana

Thanks, Bernie Duffy, Dave Lewis, Mike King, H.C., for your comments on JONES Listings. Where are the rest of you? We need your comments! I noticed the original trouble of duplication is showing up again little by little in the f/s list - watch out! Check back at least five issues before entering them. Yes Ernie, that's September 1-2-3, not 2-3-4 - proves how crazy I am. Have received Oldenburg-1586 Nice I-1554 Bordeaux-1205 BBC-Brookmans Park-1214 and 3AMs (Monte Carlo)-1466. Indianapolis the city for '62

Dallas John - 337 South Stewart - Lombard, Illinois

Veries: WADA-dx WLEO-dx KHAI KGA KEDD KGLU KXLY CHUM WTOD KKHI. DX: 1/19- OAXAA-854 11:55 pm. Also SSES on 965 1435 1185 1175, latter "La Voz de Centro America."

Tom Marn - 1801 East Jarvis - Apt. 202 - Milwaukee 11, Wisconsin

Commencing 2/1/62 WAWA-1590 will s/on at 6 am. and s/off at 6:15 pm. EST. If anyone wants addresses of any BCB station, kindly send me your request and a self-addressed stamped envelope (SASE). 73.

Andy Rugg - 16 Lakebreeze - Pointe Claire, Quebec

In the way of DX, lookie here! 1/20- WTOD-1560 through WQXR 4:45 pm. 1/22- Who had pulsating tone under WLM at 4:36 am.? Unm WCDL-1440 TT 4:45; unms WQOK-1440 s/on 4:54 for anyone who needs it. Only DX program heard was CKBS so finally got a report out to them. St. Hyacinthe is about 30 miles W of Northern Montreal Island if anyone wonders where it is. WKRK-1390 5:09 am., WDEA-1350 5:25; unms CKBW-1000 RS. 1/23: WMTR-1250 4:50 pm. s/off. 1/24- Who on 1230 s/off with Oh Canada 10:02 pm.? 1/25- If anyone heard what they thought was a TT on 1560 at 10:09, let me set you straight: WQXR was demonstrating two channel stereo sound and had brief periods of tone. 1/27: Heard unk TT on 1440, 12:15-12:53 am. when I quit it, who? Anyone got any ideas? Veries: TGJ-880 KWHT-540 WAMS-1380 CHOK-1070 KVOO-1170 CKBW-1000 WFAW-1470 KWK-1380 WDEL-1150 and WJMJ-1540. WAMS now verifies! I understand they were difficult previously. Thanks to Jim Ernst for nice CKBW v/1. 1962 WRH arrived here from Denmark on 1/27. Station count here is now 734/492; countries 26/12; states 42/39 and 20 litterboxes. Survey fans can add CKGM to their collection by dropping me a line. I now have 149 Contest points but Dave Gleason is still ahead of me. Yours truly shall start reporting to stations already verified to get more points.

Harold S. Williams - 50 Third Avenue - Seymour, Connecticut

This may not be in time for the 2/3 issue of DX NEWS but if not it can be used the week following. DX by dateline: 1/22- At 12:59 I was surprised to hear on 1600 kc/s. a man saying "Good morning, WHOL in Allentown, Pa. begins another day of broadcasting. station data, ownership, etc., then he said "WHOL is conducting a f/c." I thought perhaps they had been granted unlimited rights but soon found the engineer made a "fluff" in his opening announcement. They, or course, are not needed. WAVZ-1300 New Haven, is NOT silent Monday Ams. WBAX-1240 Wilkes-Barre, Pa. logged for the first time 1:45-2:15 a.m. on AN sked with fairly good signal for a surpsie. Fell asleep and did not wake up for needed CFGP-1050 CKBS-1240 and WMCR-1600, all needed. 1/23- WGHM-1440 Quincy, Ill. heard briefly with good ID at 1:15 but not enough for a report but on 1/26 I heard them again, evidently signing off, reported. On 1/23 WHHY-1440 Montgomery, Ala. unms, had a long ET. Three veries received, CKSB-1050 for NNRC DX of 1/8; WSMN-1590 Nashua, N.H. plus CM, both by letter. A plain card verie WRSC-1390 for NRC DX. This card from State College, Pa. reminded me my FIRST DX report and my FIRST verie was from WMAJ-1450 State College on 1/3/49 and verie #2,218 is also from State College. A great big thank you to Bernie Duffy for his tip on WOKC-1570. Just hope that friend XERF will be silent that morning, hi. 73 till next time.

Len Kruse - 1675 Glen Oak Street - Dubuque, Iowa

The WX at this location seems to bring some good DX. The latest loggings included: 1/21- Station WQTY-1220 Arlington, Fla. on test 3:39-3:51 a.m. Then on 1/22 Station WRSJ-1560 Bayamon, P.R. tested their new 5kw. XR from 3:32 to 4 a.m., completely in the clear. The same AM the new WIRD-920 Lake Placid, N.Y. was heard s/on RS at 5 a.m. in the clear for several minutes. Station WYSH-1380 Clanton, Tenn. was heard with a f/c on 1/25 from 2:25-2:30 a.m., with heavy KWK QRM. Also on 1/25 Station WDEW-1570 Westfield, Mass. was heard with a test 2:38-2:44 a.m., and with XERF silent this 1,000 w. daytimer came in well. The RS s/on of Station WWYN-1260 Erie, Pa. was heard on 2/1 from 4:45-5 a.m. with only slight WNDR interference. Then on 2/2 Station WROZ-1400 Evansville, Ind. was heard with an ET from 2:22-3:40 a.m. topping that frequency at this den. Station WSWV-1570 Pennington Gap, Va. was heard with a f/c-TT from 3:26-3:40 a.m. on 2/3. Then on the same AM Station WNTT-1250 Tazewell, Tenn. was heard with a f/c-TT from 4-4:15 a.m. with QRM from ANs WEMP/WRYT. Latest verifications were v/1s from WSIZ KCLU WQXQ WRSJ WRSL and v/c SFLX to bring my total veries to 3,577.

Bernie Duffy - 77 Livermore Avenue - Staten Island 2, New York

Latest veries received are a letter and picture folder from CHEC Lethbridge, Alta. and v/1s from CKBS St. Hyacinthe, Que., KPIG Cedar Rapids, Ia. and WLES, Lawrenceville, Va. WOKC, Okeechobee, Fla. sent a "mail-o-gram" card. Newest additions to my heard list (now 2,831) are: KJAY-1440, Topeka, Kans., WIIN-970 Atlanta, Ga., WYPR-970 Danville, Va. and WTKY-1370 Tompkinsville, Ky. They were logged 1/29 at these times: KJAY seemed to be on a prolonged ET. WYPR dominated all else on its channel at its daily 4 a.m. s/on and WIIN came to the top momentarily at 4:21. WTKY came in fairly well at its daily s/on at 5:15 a.m. All things considered, I've found DXing better this season than in many years part.

REMEMBER, IT'S THE LITTLE THINGS THAT COUNT. MAKE YOUR MUSINGS REPORT COUNT!

Fran Nittler - 2634 South Josephine Street - Denver 10, Colorado

DX real good here this week. Monday 1/29 I added four new ones. WJBC-1230 Bloomington Ill. running late with MD program with s/off at 3:41 and completely atop 1230. WING-990 Philadelphia heard on AN 4:20-4:50 with fairly good signal for a long-sought one. JOBB-830 Osaka in quite well at times between 3:57-4:30 for report. JOIB-750 also on with same program but JOBB a little stronger so reported it. HJCS-922 Bogota s/On 4:55 with mx but did not ID until 5:07 when gave s/on info giving only longwave frequency and then played NA. 2/1- Noted CKRD-850 Red Deer coming in with amazing 20 db over S-9 signal 2:10-3 so sent report as didn't verify in November. This AM 2/3 had good morning for a weekday with five reports out to WJUD-1580 St. Johns, Mich. on r/c; WEZJ-1440 Williamsburg, Ky. r/c, WSWV-1570 Pennington Gap, Va. ET 3:25-3:37, WJLL-1440 Niagara Falls ET 4:30-5 for third report but last one way back in 1956. Then, fifth report was to WSTL-1600 Eminence, Ky. s/on and RS at 5. Lots of testers this AM with KGUL-1560 on ET AN, KCRG-1600 ID at 3:23, KIQS-1560 ID at 3:25, KLIN WMIN KTUC noted AN on 1400, KONG-1400 s/off at 3:06, WFUR-1570 r/c, etc. Three veries this week and all v/1 from KOKX-1310 KJFJ-1570 KIRL-1070 for total of 2,091. CE John Tucker at KDAB is joining the NRC so a big welcome to John and you all have him to thank for your prompt v/s from KDAB. Hank Wilkinson of North Hollywood says he plans on attending the stupendous NRC Convention in Denver in 1962. Will you be there? CB73's.

Joseph Fela Jr. - 102 Hawthorne Avenue - Newark 12, New Jersey

Question: If tapes should not be sent to stations, what are you supposed to do if you can only catch a s/on, s/off or ID? This situation, to note, is particularly acute here in the East where you can hear as many as ten or more s/off's one after another and/or together on a frequency like 1580 or 1570 at any given time and date. Thus if you want to try to get a verie you have no choice but send a tape in many instances. However, I will go along with the point that if a report is possible, it should be sent in place of, or in preference to, a tape. It's cheaper, too! Veries, v/ls from WHSC-1450 WLRG-860 (CE sent a tape back too in which he gave various details about Laurens, SC.) and WDSK-1410. V/cs from CKBW-dx CBW-990, who also sent along a letter and CBC Times. DX: 2/3- WMC-790 topping frequency 6:35 p.m., KMMT IDs and believe s/off at 6:44. WWL-870 ending Spanish NX at 11 - guess we can look forward (?) to another Cuban jammer on 870 this time before long. CFRA-580 between 11:08-11:30 when WKAQ took over. 2/4- WENC-1220 s/off 5:59 pm., WBRO-1310 s/off 6:13, WALD-1220 s/off 5:14. CX noted very poor to North this evening with no CJBC-860 till past 3:30. I Guess here we go again with Aurorã DX. 11:07 pm., a minor miracle - WCOJ-1420 making it through the WNRJ mess. 2/5- 12:32 am., CKSO-790 pretty much in the clear. 12:51, WEVA-860 f/c-TT, frequent IDs, Chased a tester on 1460 between 1:07-1:55 playing rr/cw, not a word spoken when it seemingly went off at about 2. Anyone have any ideas as to who it was? Major surprise of the AM was when BBC-1450 IDed at 2 very weakly through QRM. No chance of report either by tape or letter - too weak. Also noted earlier were Monte Carlo-1466 also weak, and German at times behind a strong TT on 1440, could this be Radio Luxembourg-1439? That's it for this week so 73's for now.

Edwin H. Satterthwaite Jr. - 113 Sypherd Hall - University of Delaware - Newark, Del

Technical notes: I finally got the new IF stage into my receiver and working. The improvement in selectivity is noticable but less than expected, probably because I haven't been able to realign the IF yet. Increased selectivity was not even a design goal, but I have it. WMAQ WJW WGN WHCU CBM KDKA WWVA WHAM WKBW etc. were heard 2-3 pm. with readable signals using 6' of wire on the basement floor as an antenna. I had some trouble with IF oscillation, but this was cured by grounding the IF suppressor grids instead of tying them to the cathodes. The IF still goes into oscillation at maximum gain, but this is a cheap and easy BFO and perfectly controllable. Below this critical point, there is no evidence of birdies or instability. Incidentally, when the IF is oscillating and an incoming signal zero-beated on it, interference is greatly reduced and the signal is usually quite readable with the AF gain advanced. This effect seems quite similar to that with an OC. I have often noticed a station readable behind an OC disappears into the QRM when the stronger station pulls its carrier. This is probably the same effect noticed by the signal generator experimenters. My guess is it has something to do with the AVC voltage developed. Turning on the BFO without switching off the AVC should have the same effect also. Perhaps next vacation I'll build a negative bias supply to test my hypothesis. Note: WDVL-1270 will not DX. No reply from WKRN, WSUX. 73.

Larry Schwartz - 4819 Atlanta Drive - San Diego 15, California

Just got myself a Zenith 1000D so should get some better DX! No noise for two weeks, so maybe the city works fixed it, I hope! DX: 1/29- Heard KAST-1370 finally (Hi, Jim in Balto); KWIN-1400 TT again for another report; KIXX-1400 through the ness. On 610 KFRC was off! Heard rr and the announcer said, "Numer -- on the WSGN Top 20--" and then local KOGO-600 decides it's time to ET all AM! Will be listening again this Monday for them. KILT was heard weakly through KOGO's OC later. This AM 2/3 heard KONG-1400 s/off 3:05; CJGX-940 AN but um; and the best surprise KTKN-930 testing with 1,000w in Alaska! Noted from 3:20-3:30 when CJCA took over, wow, what a catch! KGUL-1560 boted AN with f/c but um; WRDW-1480 um; at 5 heard WIBB (or WIVB, which is it?) s/on but soon faded under XESM-1470; JOBK-670 through WMAQ's OC; and at 5:23 KNEA on RS with rr, with WMAY QRM. For 500w, WMAY sure packs a wellop of a signal out here! They are sure friendly, even ask for reception reports over the air. KNOK-970 s/on 5:30 but also um. Veries: WHYE-910 after two months, my coffee-stained report returned with 'confirmed' typed on it and signature from secretary. KAIM-870 also two months, both WHYE and KAIM sent and received the same day! KUKI-1400 from a 12/25 report, KXLY-920 v/q KRAZ-1580 KFRU-1400 KIQS-1560 250w. v/l's, WJAZ-960 verified on CM. KOVO-960 sent v/l and survey (Top 60) and lastly a QSL from KMA-960. If any of you has a 1000D rx, I'd appreciate a card or letter on your results with it. Can't make up my mind if it's better than the Telefunken; it certainly can tune out unwanted stations that's for sure! Thanks to Bernie Duffy who is always answering my questions! This AM local KGB-1360 was off AN, and I sure hope it's for good - man, what an image-maker! Now have only KOGO XETRA KDEO KCBQ AN, but strong ones as KNX KFI etc. make up for that. I noticed KFIV-1360 wasn't AN as I had thought, only KRUX/KXOL. KAPC-710 goes off tomorrow AM so I'm hoping for WHB! 73 to all of you.

G. G. Huycke - 188 Stuart Street - Kingston, Ontario

Thanks to all who sent letters and Christmas cards. If I haven't answered them yet I shall get around to it soon. The engineering studies take up about 90% of the available time. Only DX on weekends, and then on Monday AMs. DX: 12/25- CHRL CJCJ-920 WBAG-1150. 1/11- CJLR-1060 s/off 2:05 a.m., CFCN-1060, CFUN-1410, KBOE-740 test, WENN-1320 5 a.m. s/on, WDTI-970 DX, WNGA WHIE Radio Caribe-830. 1/12- WIRV-1550. 1/18- KMMJ-750 KSTT-1170 WANN-1190 10 kw., WHB 710 KUOM-770 WAMM-1420 WROM-710 WHFD-1060 WPAG WVOW WBI-1110. The rest I don't have the dates, just jotted them down when I got them: WTVL-1490 12:05 am. s/off, WFHR-1320 WPDR-1350 WDSK-1410 KXRA-1490 KBIM-910 test, RTF-836 Nancy, France, first European 1-1:30 am., CHED-1080 WKYW-900 VOA-1196 Munich copied solid 1-1:30 Monday AM, 300kw. WRAG-590 KWEM-990 WTTN-1580 at 10 am. on a Saturday! KQEO-920 2:30 am. Monday AM, RTF-1205 Bordeaux WLNH-1350 4VE-1035 weak in French, too much WBZ/WHO, YVLL-1020 CKBS-1240 KTAR-620 WEMJ-1490-dx WRSC-139-dx. -21° this morning 2/1; high at noon was -6°. Veries, CJIB-940 QSL, CJRM-570 CJCJ-920 KORL-650 CKSB-1050 CFCN-1060 card, CFUN-1410 CBU-690 Caribe-830 CFRN-1260 card, CHED-1080. There is some station here behind WOSC-1300. I wonder if this is WEEE. I can never make it out. 73 and good DX.

G. Harley DeLeurere - 1 East 8 Street - Mount Route 21 - Hobart, Indiana

Those stations which were confirmed since KANS are the following: KXIT-1410 KGUL-1560 KVSH-940 WDSK-1410 KPMC-1560 WSNE-1410 KUSD-690 KPRS-1590 KBEA-1480 CFRY-1570 KGBC-1540 KSIS-1050 KLGR-1490 WPUV-1580 KATQ-940 WHTC-1450 KIZZ-1150 KEYS-1440 KDET-930 WMRT-1010 KDHL-920 WYLD-940 WJBL-1260 WMGS-730 WHOT-1570 WBVL-950 WDXL-1490 KBOA-830 KCCR-1590 WKBH-1410 KPIK-1580 WLFA-1590 KUTT-1550 KGMO-1550 KLEE-1480 WEOL-930 WKYB-570 KFEQ-680 WPLO-590 CHUB-1570 WAAX-570 KMA-960 KESM-1580 WSON-860 WDSU-1280 WSHH-1570 WEVE-1440 KVFD-1400 CFGM-1310 WEGN-1600 WGEM-1440 CHVC-1600 KIXZ-940 WSPT-1010 KBMW-1450 WLBL-930 KDAB-1550 WFLI-1070 WVKO-1580 WDBJ-960 KNDY-1570 KKHI-1550 WSWV-1570 KCLU-1590. WKYB, Ky., was verie # 1,000 for me, and KCLU, Mo. was # 1,027. At the rate I'm going I'll reach 2,000 by 1970 or so. Oh well, that's something to look forward to. ~~NOTE~~ 680 KFEQ St Joseph, Mo will TEST from 0300 - 0330 E S T on February 13 1962. Info from Terrance Colgan - NNRC.

To Ev; The torn stencil last week was no fault of yours, Pop was a bit careless when he opened the envelope, and caught the stencil with the letter opener, and this after he had part of the envelope already open. With the inclusion of the latest CPs, lets hope DX News begins to get with the limit of 10 sheets of paper. However now that the F/C list Conditions of Frequencies and the CP list are now in your hands, guess we can take it a little easier at the publishers end. Now good DX all.

"Information for Members"

As of January 10th 1962 the Post Office Dept. put into effect this new regulation. "All 2nd and 3rd class mail that does not bear the notation "Return Requested" will be disposed of and not forwarded nor returned to sender.

Effective same date, all 2nd and 3rd class mail bearing the words "Return Requested" will be returned to the sender and there will be a fee of .08¢ that must be paid by same. However being that our envelopes bear the words "Return Postage Guaranteed" they will be treated the same as if the words "Return Requested" appeared, that is until our present supply of envelopes are used up, then the new order will have to read "Return Requested"

Because of this new postal regulation your Exec Sec has been paying .08¢ postage due on each issue of DX News that has been returned because of a member having a change of address, yet not notifying Club Headquarters. When this happens the first issue has not been returned until after the 2nd issue has been mailed, thus at least 2 issues are returned each costing the club .08¢ and in some cases it becomes 3 issues which boosts the cost up to a total of .24¢ in all.

Because of the cost to the club the following will be put into effect at once. When a member fails to notify Club Headquarters of a change of address and their issues of DX News are returned with the .08¢ postage due, his membership will expire 1/2 month earlier and if a 2nd issue is returned then their membership will expire another 1/2 month and if the 3rd issue is returned still another 1/2 month, thus by being lax in notifying your Club of a change of address can cost you from 1/2 month to 1-1/2 months loss in membership. Plus I will not be able to guarantee to replace the issues returned.

The above action might seem drastic but it seems that this kind of action must be taken in order to wake up you lads who fail to realize that the club cannot continue to pay out these fees without raising the yearly dues and the raising of the yearly dues is something that we are trying to prevent.

Again we remind you that when you have a change of address you must pay a fee of .15¢ for the new address plate. This is a MUST. However if you revert back to an address you had since OCT 1 1960, then no fee is required because we have all old addresses up or rather back to that date on file. Our address plate file ONLY dates back to Oct-60.

"KDAB" Radio has some very firm regulations regarding verification of DX reports and we think that you will agree that they are completely fair to all concerned. /POSTAGE.

- 1 - Verifications will not be made on any report not containing RETURN
- 2 - Verifications will not be made on any report postmarked more than 24 hours later than the ~~xxxx~~ reported time of reception (holiday exceptions are made)
- 3 - Verifications will not be made on any report containing less than 10 minutes of logged information except where the total broadcast time was 10 minutes or less, such as a brief equipment test.
- 4 - No incoming collect telephone calls are accepted.
- 5 - It is preferred that requests for verification be made on standard size 8-1/2 x 11 pages of paper so that filing may be expedited. The National Radio Club standard reporting form is preferred. EXCEPTION overseas mail may be on Standard International Air Letter forms.
- 6 - The first and only the first letter from any overseas DX listener need not be accompanied by return postage. We will mail, at our expense and on our own letter, verifications to overseas DX fans providing they meet the requirements of (2) through (5) above.
- 7 - Any letter requesting a waiver of item (2) must fully explain the circumstances. In no case will a postmark later than one week be accepted, and these only from overseas points. Signed J.P. Tucker. who also adds, regarding stations getting on the air, DX letters are about the least important thing in life of a rushed and harried engineer. Feel sorry for the guy, not mad at him. John P Tucker-C.E.-KDAB.

INTERNATIONAL DX DIGEST

Edited by Fred L. VanVoorhees, Box 132, Lemoyne, Pennsylvania, U. S. A.
BACK ON THE DX TRAIL

- 550 CFNB Heard with sport relay at 0200, 12/29. (RP) GMT
 566 Strong hetrodyne from about 0253 to after 0330 on 1/19.
 Too much WQAM to ID station but probably Athlone, Eire.(AM)
 575 DDR Leipzig, East Germany, picked up on 1/31 between 2230 and
 2321 with S-4/5 readings and report sent. (BD)
 638 Prague I, Czechoslovakia, a regular this past week, up to
 S-8 at times and heard well 2230 s/on to around 2400.(BD)
 640 CBN St. Johns, Nfld., heard with poor signal. (RP)
 647 BBC Daventry, England, fair at 1730 on 1/23. (AM)
 650 KORL Honolulu, Hawaii, verified promptly via form letter. (CMS)
 665 Lisbon with program in English, French, 0000-0100 "Voice
 of the West". (RP) (GMT)
 Vilnius, U. S. S. R., heard very weakly at 2330 on 1/31,
 but not readable enough for a report. (BD)
 Lisbon I, Portugal, sent another QSL card, this time for
 January report. Incidentally I note that RHM had a station
 on this freq. recently with a series of chimes at 0200.
 Roy, this might have been Lisbon, which signs on at 0200
 beginning with several chimes. (BD)
 674 RTP Rennes, I, France, fait at 1720 on 1/6. (AM)
 675 YND "Union Radio" holds the call YND, not YNDS, the change was
 made years ago. The letterhead of their verie has YND and
 not YNDS. Probably about 10 Kw. (CAT)
 690 XEAK Tijuana, with strong signal on 1/13 at 0300. (JRB)
 700 HCJB Quito, Ecuador, heard on top of WLW from about 0132-0137 on
 special DX program. (AM)
 710 WOR Good signal on 1/6 and 1/5 but QRM from beacon. (RP)
 720 "Radio Peking", best level any Chinese ever had; 1/30 at
 0518. (RHM)
 737 Poznan, Poland, brought in on 1/31 2400-0015, S-5 to S-6,
 and maybe just enough for a report. (BD)
 746 Hilversum I, Holland, verified by QSL card my 12/25 report
 for a new country. Logged at 1800 s/off, 1/31. (BD)
 750 JOIB Sapporo, Japan, 1/29 0430-0500 with audible signal but
 bothered by WSB OC. (FHN)
 765 YSKL San Salvador still AN 7 days here from 755 Kcs. and always
 strong here during AM. (FHN) Back here maybe AN as ID at
 0245 on 1/29. (RHM) Unknown SS noted in spots from 0015-
 0140 on 1/29 with orchestra music and ID as "Radio -----".
 Signal was very erratic going from unreadable to S-8. Any
 idea who this is? (JRB)(Yep, YSKL, see above-FV)
 730 HJCU "Radio Tricolor" in Bogota, noted from 0250-0309 on 1/20
 with weak signal. (JRB) (Sorry this is out of order-FV)
 770 WABC ABC news at 0200 GMT. (RP)
 780 4YA Dunedin, New Zealand (Verified last season) received in the
 clear, with S-4/5 signals, from 0255-0315 on 1/29. At 0315
 a strong U. S. carrier came on, so no more 4YA. (BD)
 782 Deutschlandsender, East Germany, rolled in with S-6/7
 readings on 1/31 from 2044-2145, and not too much WBEM QRM,
 either. Program featured pop music and such American tunes
 as "Puttin on the Ritz". (BD)(This is 250 Kw. in Burg, and
 originally supposed to be for Soviet troops in Germany-FV)
 810 CX14 Good signal. (RP)
 818 Andorradio, heard with fair signal on 1/19 at 0130. Talk
 by man till 0130 then women in French. (AM)
 820 HJED Faint signal on 1/10. (RP)

February 10, 1962

- 820 Station announcing as "Radio Caribe" heard from 0345, very loud in Spanish and giving call as HI8Z, the shortwave call of Radio Santiago. On 1/19. Wonder if this was "Radio Caribe" using the transmitter of Radio Santiago, HI9Z?(AM)
- 825 YNOL Managua, heard in English at 2320 on 1.19. Gave power as 15 Kw., and address as Box 607. (JRB)
- 830 JOBB Osaka, Japan, logged on 1/29 for report from 0357-0430 with around S-3 to S-4 signals most of the time. (FHN)
- St. Lucia, B. W. I., logged at fair volume on 1/10 from 2112 to 2118 and on 1/20 from 21-7 to 2120. (HJW)
- World News and commentaries by man and woman alternating from 1730-1745 on 1/17. This was in English and speakers had British accents. Announced as "-----Broadcasting Service" at 1745, but unable to read due to slopover from 820. Who is it? (JRB)(Looks like you heard St. Lucia, too-FV)
- 836 Nancy I, France, good signal on 12/25 at 0150. (AM)
- 840 HJBI Santa Marta, Colombia, was DP 10 over S-9 many times on 1/24 from 2153 to 2230. Report out via air-mail. (HJW)
- PRH9 Sao Paulo, Brazil, in at 0220 on 1/29 with positive ID as "Radio Bandeirantes" (BD) Heard at 0250 on 1/19, should be fairly easy for anyone needing Brazil. (AM)
- 865 "Radio El Mundo", this appears to be the new slogan for "Radio Centro", Tegucigalpa, Honduras, although Radio Centro is still mentioned frequently. (CMS)
- 872 AFN Frankfurt, West Germany, had a real nice signal at 0030 on 2/2, but I couldn't get rid of the WWL splatter to make a log. (BD)
- 880 1YC Auckland, New Zealand, on 1/29 all AM with good signal at times. (FHN)
- PRI3 Belo Horizonte, Brazil, I think, heard at 0315 on 1/29, but there was QRM from BBC (881) and a station on 880 quite possibly 1YC, so I got no report. (BD)
- WCBS Fairly good at 0100 with CBS news. (RP) (GMT)
- 890 HJCI Bogota, still heard strong here on Mondays "Cañal de Color" when WLS is off. (FHN)
- 900 CMJV Cuba, noted AN here on 2/2 over CHML at times. (FHN)
- 904 East German announcing as "Neun Hundert Vier" was heard quite clearly on 1/30 and 1/31 from 2300-2330. Signals up to S-7, German language, mostly pop music. Unlisted in WRH and supposed to be a clandestine "West German" with transmitter at Magdeburg, East Germany. (BD)(Also not in EBU lists-FV)
- 922 HJCS Bogota, now logging on 1/29 s/on at 0455 with Spanish music but no ID until about 0507 when gave calls, longwave freq. only and IDed as "Radio Continental" and then played National Anthem. (FHN)
- 926 Brussels, #II, Belgium, with a fair signal on 1/19 at 0150 (AM) Finally received a QSL card (very attractive) from this one for an October report, Country #50. (BD)
- 930 CJON Poor signal. (RP)
- 940 YVQT Carupano, Venezuela, 1/20 0534-0545, ID at 0545, chimes at 0537, Rumbos mentioned at 0544; Phillips ad at 0541, about S-3/6. (SB)
- 970 HLCA Seoul, South Korea, fair 1/31, 0625-0630 with 4 tone gong on the hour. (Korean Time)(RHM)
- 990 KOOD Honolulu, Hawaii, verified by card on a report of 11/27. Signer Henry Heeseman, Chief Engineer. (HJW)
- 1000 1ZD Was indeed surprised on 1/29 to find 1ZD, Taurenga, New Zealand, coming in most of the time between 0225 and 0320 at S/4-5, even with AN local WIBG on 990 Kcs. (BD)

- 1007 Hilversum II, Holland, with a fair signal on 1/19 at 0150. (AM)
- 1010 WINS Good signal very consistent. Have recorded this one. (RP)
- 1015 YSU Heard from 2320-2335 on 1/24. (JRB)
- 1020 TGUX Guatemala City, with news in English from 0122-0135 on 1/29 with good signals. (JRB)
- 1035 4VE Cap Haitien, Haiti, noted tentatively from 0620-0630 on 1/21 with news and weather in English followed by religious program. (JRB) "Radio Evangelique", "La Voix Evangelique". Correct call is 4VE, not 4VEH or 4VEC, both of which are SW. Correct call noted on verie. (CAT)
- 1040 Spanish Speaker still noted on here, seems to be AN. Can't seem to get an ID. (JRB) (Apparently neither can anyone else)
- 1043 DDR Dresden, East Germany, heard most of evening on 12/25. Signal very good about 2215. (AM) A regular this week in mid-evening. Seemed to alternate classical and pop music, including R&R. Have verie letter dated 1/60. (BD)
- 1050 WJGM Logged odd nights. (RP)
- 1052 BBC Start Point, England, with good signal at 1723 on 1/6. Hrd many evenings since then. (AM)
- 1070 CBA Good signal. (RP)
- 1088 BBC Droitwich, England, 1/27 0150-0315, pips at 0300, ID at 0300, 0200, Weather at 0156. S-2/8, (SB) Fair at 0205 on 1/19. Also has been heard in evening over WBAL on 1090. (AM)
- 1090 XERB Noted from 0215-0230 on 1/9. (JRB)
- WBAL Logged odd nights. (RP)
- 1100 HJAT "Radio Reloj", this station has moved from 1080 and is the "Reloj" station you people are reporting. Listen carefully and on hour and half-hour the ID "Esta Es Radio Reloj", 1100 kilociclos desde Barranquilla, Colombia". Call HJAT is used rather infrequently. (CAT)
- XERCN Heard with American pop music from 0215-0235 on 1/20. (JRB)
- 1110 WBF Logged odd nights. (RP)
- YVNN Punto Fijo, Venezuela, specifically verified via card from "Radio Rumbos" headquarters in Caracas. (CMS)
- 1140 CBI Good around 0100 GMT. (RP)
- 1144 Port-au-Prince, Haiti, at 1830. This on 1/4 in French. Does anyone know call and power. (AM)
- 1150 XEJP "Radio Variedades" heard from 0315-0327 on 1/20. (JRB)
- 1151 BBC North Ireland Service, 1/27 0200-0330, ID 0200, S-4/8. BEC on 1295 also heard at this time. (SB)
- 1160 CMBN "La Voz de INRA". I don't think the correct call is CMBN as call CMBQ has been heard on occasion, also 1010 is conspicuous because CMBQ is no longer there. The slogan "INRA" is correct. (CAT)
- "Radio Americas" heard in English 2330-0000 GMT on Sunday, very good signal. (RP)
- 1180 "Radio Mayrink Veiga", Rio, consistent. (RP)
- 1185 HRWW The current LA on here seems to be HRWW, "La Voz de Centro America", San Pedro Sula, Honduras. (BD)
- 1205 RTF Bordeaux, France, heard most nights over S-7 signing off at 1701. (SB) Heard from 0200-0220 with fair signal on 1/20. (JRB)
- 1210 WCAU Audible as early as 2345 GMT. (RP)
- 1214 BBC England, 1709-1900 s/off, ID at 1831, 1859, 1800, 1830; all classical music program heard. S-4/9. (SB)
- 1286 CS1 Prague, Czechoslovakia, heard at 1805 on 12/21. ID in English then program in Spanish or Portuguese. (AM)
- 1340 HCSN "Radio Sira", SW 3988. Ecuador, but location unknown. (WRH)

- 1367 Porto, Portugal, strong at 0205 on 1/29. (BD)
 1375 Still hearing heterodyne on this frequency in evenings. Fairly loud at times but too much QRM from US stations to ID. (AM)
 1376 RTF Lille, France, heard nightly with English/French language course 1730-1800, IDs in French and English. S/off 1801, usually S-7/9. (SB)
 1457 BBC Clevedon, England, good signal on 1/19 at 0155. (AM)
 1470 WLAM With ABC network shows. (RP)
 1484 A definite TA signal at 0128 on 1/29, but have no idea who. (BD)(about a hundred on here too-FV)
 1510 WMEX Fairly good at 0000 GMT. (RP)
 1520 WKBW Fairly good at 0030 GMT. (RP)
 1538 Strong heterodyne heard many evenings, but too much WPTR/KXEL/ZNS QRM to ID. (AM) (Ravensburg-FV)
 1560 WRSJ "Radio San Juan", Bayamon, Puerto Rico, verified promptly via letter from VP Cloment . Littauer. (CMS)
 2RE Tarree, New South Wales, verified reception of 12/1/61; state on 500 watts power. This my 2nd most distant of such power and one of my "top ten" veries. (RHM)
 WQXR Logged odd nights. (RP)
 1562 "Radio Veronica", at sea heard in the afternoon with Dutch commercials and pop music. (RP)
 1575 "Radio Porto" good in evenings with QRM from Radio Norway at 2300 GMT. (RP)
 1578 CSB5 Porto, Portugal, 1/27 0204-0233 below XEDM on 1580; Portuguese talks by man and woman at 0206, mostly music. (SB)

THE OVERSEAS MAILBAG

RP*-Conditions for TA reception quite good, quite a few state-side stations have been audible here every night. Some of them as early as 2345 GMT. Have managed to record some on tape as the signal was as good as some Europeans. Glad to say the snow has gone and the weather is a little warmer. Guess that does it for this week.

GENERAL

To Bob Leamy, your answer is on the way now via mail. Surely do appreciate the wonderful support you fellows are giving the DIGEST. We are really having a banner year with it, and I think that you are all getting a great deal from it. Several questions asked were answered in the same item above. If you watch the DIGESTs each week, you can do much toward identifying most of the stations you hear during your DXing. I must be out of town at a sales meeting and foresee some difficulty for the March 3rd issue of DX NEWS if we have one. I'll try, but I would appreciate it if you would get all of your material to me for the Feb. 24th issue to make sure it gets in as soon as possible. Don't forget to send your foreign contest entries to Roger Anderson as they come in so that you don't swamp him at the last minute. Also, get your supremacy ratings up to date with Hank Wilkinson. They should really be changing with all the good DX this season. That will do for this week. 73
