Mon. Jan. 3	W N X T	1260	Portsmouth, Ohio	5,000/1,000 U-4	2:00 - 2:30	N R C

NOTE: All the above info received from members of the NRC CPC  
KMER-950, for 11/22, is changed to 4:00-4:30 EST (2:00-2:30 MST) from what was previously listed to avoid interference from KIMN.

KBRV-540 Info on this TEST was received too late for last week's DX NEWS; accordingly a postcard was sent out telling members of it. KBRV hopes soon to move to 790 kc/s., w/1,000 watts, to avoid interference they are receiving from a new, near-by station's image on their present operating frequency. Address for reports: Richard E. Carr, Engineer, KBRV Radio - Box 977 - Soda Springs, Idaho - 83276. "The Voice & Choice of the Rocky Mt. Empire."

J. HATHAWAY

WTMB-1460 WTMB has an equipment test coming up on Sunday morning, 11/21, from 2:00 to 2:30, CST, and they would like for NRC members to tune for their signal on what we hope will be a clear channel. They hope, in fact, to be heard on both coasts. Be sure to give them a real good try, as their 1,000 watts ought to ring out loud & clear. Address is David Bluhm, Chief Engineer, WTMB, Box 588, Tomah, Wisconsin. Be sure to send return postage.

M. TILBROOK

WKSJ-1340 WKSJ is to conduct a DX-Test on Sunday 11/21, 3-3:30am EST for the NRC. Tone will be used to help the station cut through the many all-nighters on this crowded channel. Its pitch will vary from time to time. IDs will be made every three minutes, perhaps some in Morse Code with the tone signal. This'll be WKSJ's second NRC DX Test, so let's make this one successful by sending in those reports, with return postage, of course, to Burton Waterman, C.E.

W. HEINEN

KPLS-1150 Here is a seven-year-old station seldom DXed which is going to honor the NRC with a half-hour DX Test on Monday 11/22, 1-1:30am MST. They run 5,000w. days, but only 500 at night, and they'll probably use the nighttime 500 watt rig for this test broadcast. Address: Mr. Goward S. McCauley, Chief Engineer, Radio Station KPLS, Coddington Center, Santa Rosa, Cal. 95401. 1150 is usually pretty clear at this hour, so let's hope our luck holds. L. KRUSE

OVER

W S L T-1520 This station first went on on 6/12/64, & is hard to hear by DXers due to their daytime sked & directional array. However, on what should be a clear channel on Monday 11/22, from 3:20 to 3:40 a.m., EST, they will be conducting some tests, so here's the chance to log a really rare one on test. Send your reports to Mr. Larry U. Keene, General Manager, at WSLT in Ocean City, N.J., with return postage, of course. L. KRUSE

K M E R-950 This station was set to test an hour sooner, but when told KIMY is still on at that hour, they moved their equipment test run to 2:00-2:30am, MST on Monday 11/22. They are a daytime, non-directional 1,000 watt and should have a clear channel at this hour. Music & frequent IDs will be used. Since they have no frequency check sked, this is the time to hear KMER! Address reports to Mr. Bruce R. Hymas, Manager, KMER. G. JONES

W F B A-1460 This is a new station, which opened in March, 1965, & virtually no DXers have as yet heard WFBA. On what should be a clear channel, they'll run a special DX-Test on Monday 11/22, from 5:00-5:30am, AST, hoping to be heard at great distances. They are known as "Radio Pepino." Send your reports to Mr. Ricardo Vega, Manager, Radio Station WFBA, Box 127, San Sebastian, Puerto Rico, with return postage enclosed. L. KRUSE

C K B B-950 New CKCB relays the programs of CKBB, and this will undoubtedly be a simulcast, or network, DX Test. It is doubted separate IDs can be given. CKBB will be using their nighttime 2,500 watt directional pattern, while CKCB will be 250 watts, non-directional. Looks like KMER & CKBB will be on at the same time on the same frequency, so a dual logging should be possible. Reports for both CKBB & CKCB should be sent to CKBB, Barrie Broadcasting Co. Ltd., Box 519, Barrie, Ont. to Mr. Harold Atkinson. C.E.

#### NEW CALLS

1240 K M C L McCall, Idaho 1560 K D F L Sumner, Washington

Note: Some time back, Spring Valley, N.Y. - 1300 was listed as WRCC; it is WRRC. (FCC)

Ernest R. Cooper - 438 East 21 Street - Brooklyn, New York - 11226

One v/1, KFIP-1550, which I did need, after all! #3,460. Allen Nissen called during the Black-out here 11/9 & said WRKL-910 was on emergency broadcasting, having s/on at 6:28pm after having s/off as usual @ 4:45, & had almost a clear channel, w/WGBI/WSBA & WRCH all silenced by the power failure. Locals WEVD-1330 & WQXR-1560 off all during it, as their XRs are in New York City proper; no power. WJRZ-970 did a great job of covering it; & use their 5kw. daytime pattern by FCC permission. I couldn't type the stencils with two "two-watt" candles for light; hence, a one day hold-up on getting this section done - sorry, ni. DX: SM 11/7- WWHY-1470 s/on 5:58, soon covered by WSAN s/on 5:59. Noted um s/on @ 6:00, WBNP-1470 & WJPG-1440. MM 11/8- "A White Sports Coat & Pink Carnation" u/WTIC & o/KRLD @ 2:05am, who? Again I missed a 1500 Eter, at 2:53, he Ided, but I couldn't get it - anybody know who? I listened 58 minutes on 1510 for a sign of KDKO, & suddenly at 3:58, in it came, w/the volume of a dying gasp from a 99-year-old-woman under three feather mattresses, hi but c/w mx & several IDs caught. 11/10- WRCP-1540 logged, 3:47pm. Then, wowie, finally Andorra-818 made it in, & s/off w/an antelm at 7:02pm. It's tough w/the TV whistle from 819, but he made it. C U in 7.

GET-TOGETHERS: 11/26-28 in KANSAS CITY. F I N A L D E T A I L S F R O M E R N I E W E S O L O W S K I 11/20.

11/27, Noon-6:00pm, at 635 East 21 Street, Brooklyn; Apt. 4, 1st fl.

(3 of 'em!)

Around 12/25, at North Miami Beach, Fla. See Ron Schatz, Page 10.

November 13, 1966

John Draut - 210 West 251 Street - New York, New York - 10471

I haven't reported in a while due to school work. I'm in the scholarship class at De Witt Clinton High & I get about four hours of homework a night. This cuts down DX activities to the weekends & MMs. I ordered the report forms, & they are great! I save a lot of typing time & it gives the report a professional effect. I entered the Domestic Contests & I hope I'll have enough time to DX & get a score at least as high as my last year's contest scores. Anyway, enough gab & now to DX. 9/27- SS on 820 from 3:47-4:15 ID 'Radio Nacional Domenica'. Is this HIAZ? 10/11- WZOK-1320 @ 12:02am s/off; WKAT-1360 12:47-1:16 w/good signals; KOIL-1290 for State 34 from 1:27-1:56 fade-out; CJMS-1280 2:02-2:30 w/very good signals. 10/12- WGCH-1490 8:45-9:15am. Oops, I almost forgot to say that KOEL didn't make it on 10/11 due to another station signing on at the same time. 10/18- Logged CJCB-1270 2:16-2:44 w/very good signals, WKBN-570 2:58-3:02 when WMCA went off briefly but then went on again at 3:02 w/mx. No dice on WNIA DX due to WITH QRM. WMKT TEST was also a flop due to WBNX slopover. 11/1- KNWS-1090 TEST 3:03-3:21 weak but readable; WFKN-1220 test, good signals, 3:47-4:05, heavy QRM though. No sign of KBEA DX & WKBW was on, so KKKW wasn't heard. WGNV-1230 was heard 11:16-11:40am u/WFAS slop. I hope all of you have a good DX season. 73s.

William Alisauskas Jr. - 7 Avenue B - Haledon, Paterson, New Jersey - 07508

Hi gang! I've been a member for about a month now & found some time at last to get in a Musing. I've been in the hobby for almost five years now, have 716 stations logged & about 150 verified. RX is an RCA 86T, & antenna is a 30' copper wire. Most recent DX here is as follows: 9/21- WRRC-1300 @ 4:30pm EST (all time EST). 9/22- WBBF-950 at 10pm. 10/11- CHLO-680 @ 9:12pm. 10/13- WHBG-1260 @ 6:45pm s/off. 10/18- WBRE-1340 @ 3:40pm. 10/21- WIMA-1150 @ 9:47pm. 10/25- WOL-1450 @ 8:35pm. 10/28- WKRC-550 @ 3am, & CKDM-730 @ 3-3:32 for report, also WCIN-1480 at 5:50pm on car RX in front of house, no trace of WHOM. 10/29- WEXT-1550 @ 5pm, also WFWO-1080 @ 5:45pm s/off, and 11/1- WJPS-1330 @ 6:15pm, & WHEN-620 @ 8:10pm u/WVNJ. Latest reports out to WWNY WACK CKDM. No new veries here, but four for Pennsylvania post which I will explain in another Musing. They are WABC CHLO WHYL & CJMS (after 1 1/2 years). I hope you can read my writing, Ernie, as it would take a century to type, after taking it in high school for a year, hi! That's about all, but anyone at all who wants to write, please do so - I will answer fast. Also anyone w/good plans for a loop - HELP! These NYC locals are driving me crazy. That's all - glad to be an NRC member, I'll try to Muse often. Best of DX to all & 73s. (Welcome, William! We will watch for more Musings from you!-ERC)

Vinny Cavaseno - 111-20 124 Street - South Ozone Park, New York - 11420

Hi, fellow members! I haven't Mused since early this year, mainly because I haven't done much DXing. My loop is all finished & is mounted on my garage. It has 22 turns, 370' of wire, & is on 4 six-foot diagonals. DX since April: 4/21, near Kingston, N.Y., KWK-1380 @ 3:05am, WCRO 3:32, WENN-1320 5:02; WLAK-1430 5:15. Later that AM, WINR-680 10:01am very weakly. Back home: 5/18, unID rr on 680 around noon; unnn WTAR-790 1:30; WRCH-910 3:55; unnn WGHQ-920 3:59; WELV-1370 5:05; WBAZ-1550 7:02-7:15pm s/off, this one after years of trying. 9/22- WELD-690 6:15 s/off; WPDY-750 6:25 s/off; WKLO-1080 6:43-8am; WMBI-1110 @ 7pm s/off w/WBT looped out completely. 9/24- WFIF-1500 2:52pm; WTYM-1600 5:30 w/loop applied to WWRL. 9/26- WDBJ-960 12:07-12:10am s/off, BBC-1295 12:45 changing from FF to EE. 9/28- WBRC-960 1:34am, unnn WTLB-1310 2:30; WIRE-1430 3:00, unnn WABR 3:08. 9/29- WFLO-870 5:55pm. 10/1- Unnn WBUX 4pm. 10/2- WBRN-1460 2:15 r/c, WGHV-1370 2:45;r/c; unnn CFRA 3am; WOL-1450 3:18, unnn WKSC-1300 4:18; WRSJ-1560 s/on 4:35, unnn WTTC-1550 5:12. 10/16- WKIN-1320 12:45 f/c. TT on 1520 u/WKEW listed as WKJR, but no ID, @ 12:30. 10/17- WHP finally on 580, 5:35. Then two odd evenings: 10/19- KSL 8 pm, KFI 8:30, CBW-990 9:30. 10/21 same, but also KOA 8:15pm. 10/21- WJCW-910 5:56pm. 10/25- Two strange unIDs: one on about 1560 in what might have been FF playing pop mx (rr, etc.), the other on 1440 w/EE accent. Both of these heard 1-1:30am. HJAT-1100 2am; BBC-1457; VOA-960 s/off 2:30am. Veries: WMEX WJET WABR WBRC KTTT WKAZ. Good DX!

Stephen J. McIntire - 2225 Searle Street - Des Moines, Iowa - 50317

Well, school has taken its toll; I haven't even stayed up for Specials yet. This MM I think I'll finally stay up as it looks like quite a morning, hi. Latest DX: WISN-1130 on 10/12 @ WIDGY @ 8:10am. 10/13- WTAD-930 8am. 10/17- KLEO-1480 6:20am. WTTB-1460 6:29. 10/18- KLTR-1580 6:56pm s/off, KPIK-1580 7:02. 10/23- XET-990 7:50pm, WNOX-990 8pm, both clobbering the generally local-like CBW. Veries: v/q- KYW KXEL WTTB WMAQ WBBW WDAF. v/l- KRNT CKBI. 73s.

November 13, 1965

Walt Braville - 9127 Coral Drive - St. Louis, Missouri - 63123

Went on an enjoyable trip to Houston, 10/1-13, found the DX interesting & good considering Summer was just ending there in Oct. On MM 10/4, using a Zenith AM/FM table rx w/no external antenna, I noted stations such as KNBR WKEW (w/SS QRM, KOMA off) WBZ WCAU, a seesaw battle between CEM/WINZ, CBE CEW CBE WQAM & WACL-570, nearly all w/ good signals. There are quite a few SSES on the band there. Highlights included the Astrodome, of course, & a swim in the Gulf. The water was warm. Stations visited: KILT KPRC KNUZ KXYZ. At KNUZ-1230 I was able to take my time reading all the DXers' reports, including those from Roy Millar, Frank Merrill, Bob Foxworth, Kent Shirley, Ray Kraul & Ev Johnson, James Lee, which were the most distant, plus my own. The best was from New Zealand, where a ten-tube RX & 500' long 15' high antenna was used! KNUZ is erecting a new half wave antenna which will increase low-angle radiation & improve long-skip reception. I enjoyed visiting Dan Shoaf, & on the way home, Fred Nordquist in Tulsa. Thanks again for the overnight hospitality, Fred. DX back in St. Louis: 10/14- CJIC-1050 o/XEG 8:30pm. 10/16- WCIN-1480 11pm. SM 10/17- KTLW-920 "The Tall Texan" 6am w/c/w. MM 10/18: XEQR-1030 3am, KAKC-970 3:30 w/rr, WHBC-1480 O. 4:35, WPOI-1460 Mich. 4:50am. Then three 5am s/ons, all 1470: WDOL-Ga., WHUT-Ind., WEAG-Tenn. @ 5:02. WTJH-1260 Ga. 5:07, WCRK-1150 Tenn. 5:25, WAPO-1150 5:36am s/on. 10/21: KTRN-1290 Tex. 7pm rr. 10/22- WCAR-1130 6:50am, KPLR-1140 Oklahoma City 6:57, WSIV-1140 Ill. 7:07am. MM 10/25: WMEG-920 Fla. 4:15am, WEAM-1390 Va. 4:50 in w/good strength, WJED-1350 Ga. 6am. WPGC-1580 Md. 6:15, WLIJ-1580 Tenn. 6:52am. 10/27- WLCS-910 2:15 am. 10/28- KFDF-1580 Ark. 6:35pm. 10/30- WCOA-1370 Fla. 1:10am s/off, WKLO-1080 2:04 am, WBNS-1460 O. 2:25. MM 11/1: KNWS-1090 & WFKN-1220 both easily heard for first DX. TESTS of the season logged here, no sign of KBEA or KXKW. WPNX-1460 Ala. 3:46am s/on, WHBC-1480 4:29 s/on. WLCY-1380 Fla. in well @ 4:50, rr. Latest veries: WOKJ WCRK KMA WCUB WMHI for first Md., WCMB & WEAM. 73.

Fred Nordquist - 2001 North Mingo Road - Tulsa, Oklahoma - 74116

Heho from the Oil Capitol of the World! DX has been pretty good recently. A new 70' longwire added to my SX-110 peps up DX here; it's beamed ENE/WSW. EC stations in like locals now, 10/13- WBZ-Mass. 11:55pm w/pop mx. 10/14- WDAF-Mo. @ 11:20pm w/s-c mx (?) WLW, O. 11:55pm. 10/15- WRR-Tex. @ 8:22pm s-c mx, KSO-Ia. 9pm rr, 10/20- KXOK-Mo. @ 11:36pm, CEM-Que. 11:38 w/opera, WKYT-O. (?) 11:42pm in strong, KFH-Kans. 12:17pm s-c mx. 10/21- YNRPS-1285 9pm cl mx, ???-1325 9)30pm w/180cps het & FF speaker. 10/22- YND-655 in good all PM. 10/25- MM- ~~KONO~~ KONO-Tex. @ 2:58, CHML-Ont. 2:59, CBE-Ian. 3am, CBK & CBL, too. Recent veries: WRR WNAD KSPI vll; WKY WDAF WLW KSO KSL KRLD V/C. Rreports off to: WBZ KWKH KFH KYW\*Pa. CHUM WLS, report #2, WOWO & WDSU. It looks like a hot DX season for sure. Good luck DX-wise & 73 to all you "right-wing" dial spinners, hi. (Fred, what is "s-c mx"? -ERC)

Jerry K. Conrad - 712 South Limestone - Lexington, Kentucky - 40508

Back again for two weeks in a row & from the world's worst DX spot, a hospital. I am in the hospital w/Mononucleosis (Kissing Disease, hi) & will be here for at least another week & then a whole lot of rest for several months. I have my radio here & an "antenna" hooked to the window frame. Best DX here has been WCPC-940, Houston, Miss. @ SSS & WJAS-1320 Pittsburgh. There is solid noise from 540-900 kc/s, then it gradually drops off to a minimum around 1400, & back up after that. Some of you guys w/a little time on your hands, write & I'll try to answer for a change. Maybe next week I'll have a little more DX. 73. (Sorry to hear of your trouble, Jerry - get well QUICK! -ERC)

John D. Hathaway - 1116 Broadmoor - Apt. 1 - Champaign, Illinois - 61822

10/25- WOW-590 1:13, WWSW-970 1:33, KJLT-970 1:40-1:45 TT, KSTP-1500 2:14. 10/26- WPFH-910 12:12am. 10/28- WING-1410 4am, KWK-1380 4:01. 10/29- KXEL-1540 1:45; KIOA-940 8:32pm. 10/30- WXYZ-1270 2:11; WMBD-1470 2:15; WDAK-540 2:15, WONE-980 2:51, KSTL-690 11:38am, WMAY-970 12:16pm, WSMI-1540 12:34pm, WCTT-680 7:01pm, WPTF-680 7:05pm, KXOK-630 7:29 Qn, WMBD-1470 11:07am. Best 73 & DX.

Ray H. Kraul - 6423 33 Street - Berwyn, Illinois - 60403

It seems like a long time since I wrote a Musing, so I decided to make this deadline for sure. DX has not been too exciting as I've heard only a few new ones since the season started. MM 10/18- KXLR-1150 w/ETs 2:10-2:30. PM 10/18- KARE-1470 o/WMBD for a (P.5)

November 13, 1965

(Ray Kraul) few minutes 11:10-11:15. 10/23- A welcome catch in CFPR-860 intermittent from 2:05 to 2:15am s/off. Getting close to Alaska, anyway! Heard WPIT-730 w/ETs on 10/25 11:01-11:17pm & on, but only one ID at start of test. WFAA finally heard on the 570 outlet on 10/26 1:35-1:45am. KCJB r/c 10/28, 2:25-2:30 on 910. Final loggings were KNWS-1090 & WPKN TESTs on 11/1. There was no sign of KXKW which is needed here. No sign of either DX on 10/18 either. The CPC is off to a good start. This work is really appreciated by me, because Special programs are just about the only way left to hear some stations due to all the ANs. The verie situation is very bad. (No pun intended); WHLL & WFAA the only two in six weeks.

Fred L. Parsons - 229 Lincoln Street East - Welland, Ontario

For the last week or so of Oct. I did a lot of listening. In the AMs I used the SRS to log Western stations, & after school in the evenings I used SS to hear Eastern ones. Now that the times have changed, everything's haywire, at least until I figure out how going back to EST affects my recent DX habits. But up to 11/1 here's what I heard: 10/18- WKBE-800 Huntington, W.Va. heard 6pm w/rr u/CKLW. 10/20- WKIX-850 Raleigh at 5:37pm w/rr & IDs u/WJAC. 10/22- KCMO-810 Kansas City 6:30am w/religious program followed by "Mix from KCMO" u/o WGY. 10/26- WNOE-1060 New Orleans 6:45am w/rr u/o KYW. WAVA-780 Arlington, Va. w/NX & contest @ 4:46pm, much QRM. CHGB-1410 Ste. Anne de la Pocatiere, Que. 10:55-11pm s/off w/FF mx, IDs & Oh Canada in FF, good signals. 10/28- WSPA-950 Spartanburg, S.C. 10:40pm w/modern mx, ~~w/Town & Country Show, NX @ 6:30~~ announcer Moe Dell (?), fair signals, WKAZ QRM plus deep fades. 10/29- KLCN-910 Blytheville, Ark. 6:13-6:35am w/Town & Country Show, NX @ 6:30, good despite CHML QRM & fade. KSOO-1140 Sioux Falls, 6:45am w/Bobby Gay Show of rr, Mutual NX @ 6:30, good signal until 6:55 fadeout. 11/1- KNWS-1090 & WPKN-1220 TESTs heard OK, but nothing of KBEA, & if KXKW was on they were covered by WKEW OC/mx. RX- Heathkit AR-2; antenna: indoor LW & loop. And that wraps up this report. See you all again in couple of issues. 73, DX. Also, I must say how very sorry I was to hear about the tragedy of Ray Edge. He was truly a great man - I never knew him, but I wish I had - and his efforts for the NRC & DXing as a whole should never be forgotten. I was just shocked when I read of his awful accident. May he truly REST IN PEACE.

J. Warren Routzahn - 206 North Forrest Street - York, Pennsylvania - 17404

As the new season starts I'll say hello & wish all the best of DX. Last week's DX NEWS a tremendous shock here! Words & praise help very little & the Club knows it owes its life to Ray Edge & he gave much of his to the Club. When my thoughts go to him from now on I'll picture him & Kate happy in a land of milk & honey. Well, I expected to DX o/the Summer, but stopped 6/5 as reports were getting no replies. I think too many engineers vacation o/the Summer. The grand opening of the new season occurred here this AM & I proudly announce no loggings or reports sent! KBEA & KXKW washed out. KWIZ tested on 1480 so I guess some needed him. Two OCs on 1520, feel sure one was WKEW. WBCB topped 1490 @ 3:30, WCKY testing then. WPKN-1220 was strong starting about 3:48. WYZE-1480 & WCHB-1440 s/on 4am which was a sign to me to get in bed. DX here this season will be for NRC Specials mostly. Reception here is good but there are so many ANs there isn't much chance to use the real sensitivity of a RX. Tuning the split frequencies are the only answer but not w/my old radios & I'm not active enough to warrant a new RX so me & my radios grow old gracefully & watch w/real pleasure so many young fellows still taking an interest in DX.

Dave Schmidt - 44 Green Lane - Green Ridge - Chester, Pennsylvania - 19014

Hi there everybody! How goes DX? Since I joined the Domestic Contest, I thought it would be a good idea to start off this season w/a bang, not too loud, more like a sput, hi! DX since last issue: 10/25- KWLA-1530 f/c @ 2:14 in very nicely, report sent. KOIL-1290 @ 4:27am very good, report sent. KLOU-1580 kn very weakly but enough for a report around 2:45. WJVA-1580 f/c in like everything, report sent & verie received. CE says my report was third from around my area. 10/30- CBE-1550 was finally sent to. 10/31- SM- WPAC-1280 in o/WCLS until WPGC s/on @ 6:15. WFAS-1230 finally reported 6:30. All in all, not too bad, but it should be better. Veries when I get back some, maybe next time. I have a college friend who is a 50-50 DXer (not a member yet) in Millersville (near Lancaster) & he has done some studies on noise in dorms. For you guys bugged w/noise, try grounding your RX to the FACE-PLATE on the wall socket. Russ Edmunds, this might work for you. If it doesn't work, please let me know, you guys. Funny that the Voice of the Blue Eagle is classified. They were heard here one day in July. They were on for about 2 1/2 hours & I have a full tape. CX have improved(P.6)

November 13, 1965

D X N E W S

(Dave Schmidt) quickly this year; WMAQ is in all day! And one more thing before I go. Could anyone tell me where I could get a reconditioned HQ-145X? If so, I'd like to hear from you. My dad wants to get me one for a Christmas present. (Oh time, let's go!) So 73s to you & Al Wysocki, stay away from that food!

Jeff Kadet - 8047 Park Overlook Drive - Bethesda, Maryland - 20034

#4. Greetings again. Recent new DX: 10/27- Local NSP WOOK-1340 off from 5:25-7:10pm for a pleasant treat, but nothing IDed in the subsequent jumble. WMIE-1140 5:59pm, KWTM-540 6:20, KFDF-1580 s/off 5:45 thanks to DXDD. CSB5's het really messes up 1580 here. RNE-683 7:22. CMCH-790 7:43. 10/28- WRRZ-880 3:55pm, VOA-1180 9:05. 10/29- WWSR-1420 s/on 5:28am. WKIG-1580 6:01pm s/off, WAGC-1560 6:11, KFDF-1580 s/off 6:45 again. 10/30- The new WSMD-1560 @ 8:47am RS-rr format u/WAVA's harmonic. I understand the FCC is looking into it. WEEU-850 9:58am. UnID u/WVVA-1170 @ 5:13pm that sounded like "WATI, WATI-FM", please, who? WKAR-870 5:50. Who is the SS-rr u/WGY-810 nightly? WAGC-1560 again s/off 6:14. Surprised I could separate Luxembourg-1439 at 8:26 (country #36). After playing back the tape, it seems my previous unID on 925 was Brussels-926 (country #37). My SS unID on 1055 again, who? UnID SS on 1575 & loud at 9:53pm. who? WRGA-1470 11:21pm, WKMF-1470 11:59. SM 10/31- Local WGMS-570 on w/OC @ 12:43am. WBOY-1400 1:09. Who TT-f/c on 1010 @ 1:25? WIXN-1460 ET/TT/M 1:54. WVEC-1490 2:02. SS on 1460 @ 2:05, who? Who TT f/c on 910 @ 2:13? KGCL-1080 East Prairie Mo. ET/M 2:32. This isn't listed in my White's. KXLY-920 2:45 for shock of the morning, WDAE-1250 3:36. WGOV-950 4:03, CKLG-730 noted u/CKDM @ 4:20 both w/rr. KENO-1460 in the clear @ 4:35, thought they went off nightly? EE u/XESM-1470 @ 4:41, who? WDOL-1470 s/on 4:58, WDBM-550 easy @ 5:05, WPLO-590 5:28. WPMC-730 5:40pm, WAAV-1550 6:01, TVMF-1120, CHLO-680 o/everything @ 10:26. MM 11/1- WOC-1420 12:29am w/WHK off, KOMA-1300 u/WOOD's TT 1:10, WJCO-1510 r/c 1:29, WTTI-1530 ET/M 1:30, KRDS-1190 1:55 w/c/w mx (state #42), KCTX-1510 ET/TT/M 2:03 along w/WINU doing the same. CBNC-1190 terribly wasy @ 2:18. Is that KDON-1460 w/the "talk" program @ 2:34? KBEA-1480 DX 3am for my first DX Special ever. It was hard but I got a clear ID on tape. KNWS-1090 TEST 3:05 was no sweat. No trace of KXKW-1520-DX. CJLX-800 3:42 w/CKLW off, WPKN-1220 TEST in like a local @ 3:49, WPON-1460 s/on 4:30 in the clear, WPRO-630 u/o WAHQ 4:37, WRSJ-1560 @ 4:38 (country #38), WPMB-1500 ET/M 4:52, WJBK-1500 s/on 4:59 w/WTOP not on yet. Station total now, after 67 days, 811. 73.

Jeff Ross - 125-12 Cronston Avenue - Rockaway Park 94, New York

Greetings to you fellow NRCers. Under the persuasive influence of Saul Ash who is a good friend of mine, I joined the Club, & I am happy to say I think it is the best \$5 I have ever spent. I am 14 years old, & I am a sophomore at Far Rockaway High School. I have been DXing for 1 1/2 years w/an R-100/URR eight tube Navy surplus RX, & a recently acquired Magnavox nine tube job. For an antenna system I have two 100' long-wires, & the Popular Electronics loop that appeared in the 1/65 issue. I am sure this will come as a shock to Ron Sibbitt, but I find it to work very well. By the way, this is my first Musing in case any of you do not recognize me. My best catches are as follows w/veries underlined: KCUB-1290 Tucson, Ariz., KORL-650 Honolulu, KXL-750 Portland Ore., WSKP-1450 Miami, KV00-1170 Tulsa, WJNO-1230 West Palm Beach, My most recent catches also w/veries underlined are: 10/11- KOEL-950, ZEM1-1230 WJNO-1230 WJOY-1230 WQXI-790 WKYR-1270 WDOK-1280 WHWB-1000 CBD-1110 WFBC-1330. 10/16- WCGL-1440. 10/18- CJNR-730 WKAZ-950. 10/22- Radio Belize-834. 10/24- CJET-630. 10/26- KOA-850. 10/28- WYDE-850. 10/30- WJDY-1470. 10/31- WATE-620, WJTO-730. To my amazement many of the stations I sent to as much as seven months ago are starting to verify. I'm sure you've heard the expression "Silence is Golden." they should also say, "Patience is Golden." I guess I have bored you enough, so 73s & I hope to Muse again in the next issue. (Welcome, Jeff! But I'll bet you bored NOBODY! Do keep Musing! -ERC)

Jerry Starr - c/o WHOT Radio - Youngstown, Ohio - 44505

November 13, 1965

Duane Giese - 923 North Grant Avenue - Springfield, Missouri - 65802

DX the past week has been good w/the following stations added to my log. On 10/31, AM: KTLW-920 5:06 s/on, WOKJ-1550 7:18, KCCV-1520 7:42, Kansas City Christian Voice, & WJAG-780 8:15 excellent copy most of the time w/little interference from WBBM. I started November out w/a bang, some of the stations heard on MM 11/1 were: KQEO-920 1:05; WACR-1050 conducting a f/c @ 1:48 until 2am; KDEK-1150 2:15; KBEA-1480 w/DX, it was hard to copy at times due to KBOX; KNWS-1090 3:20, TEST; WFKN-1220 3:48am w/TEST, WBLY-1600 5:01 s/on & WRUF-850 5:37. No sign of KXKW, where they on? Then on 11/6, AM I had a Michigan day w/the following heard on r/c: WSHN-1550 1:16-1:31; WKPR-1420 1:32-1:45; WBRN-1460 2:15-2:30; WGHN-1370 2:45-3am. I'll bet I would not do that again for some time. All four from Mich. were never heard when I lived in Wisconsin, which might seem funny. KMON-KETS WHA WHA. 73.

Bob Zwier - 385 West 20 Street - Holland, Michigan - 49423

Hi gang! (Something original, hi). With the new RX DX has started to pick up. It goes like this: 10/30- KFH-1330 @ 2am; WIL-1430 @ 2:27, WMCA-570 @ 3am, WIFE-1310 @ 4:15, WQOK-1440 @ 4:50, WHLO-640 @ 6:10pm, & KWOC-930 @ 6:20pm. 11/1- CJLX-800 (CKLW was noted off) @ 3am, KNWS-1090 @ 3am w/the TEST, KBOX-1480 while trying for the KBEA DX @ about 3:15, WFKN-1220 @ 3:50, KLIF-1190 @ 4:15, WKRC-550 @ 4:30, WQAM-560 @ 4:38, and WPMB-1500 s/on @ 3:30am. I also passed the 200 mark w/about 50 added on the new RX since September. Veries are very slow s/none added since the last Musing. I do have about 15 reports out so they should start to pick up. I just decided to make a carbon copy of my reports so if I have to send a f/up, I know just what I sent in the first place. Thanks for the letter, Dick Cooper. I used to like weekends because I got more sleep but now that I am a DXer (?) I actually lose sleep. Well, I have some Latin to study, so 73 & good DX until next time.

Ken Butterfield - 624 Arthur Street - Plymouth, Michigan - 48170

DX good lately w/the addition of the following: 10/23- WPME-1540, 5:28pm s/off. 10/24- R.T. Morocco-935, 11:30pm, tentatively as it seems a bit early. ENR1578 11:48pm. 10/25 - Radio Free Dixie-690, 12:48am w/hate broadcasts in EE. KFSH-950, 1:01am f/c. XEABC "Radio ABC"-760, 1:24am. Radio Senegal-764, 1:28am. KFMB-760, 1:29. All these three above due to WJR's being off. KJLT-970, 1:40am f/c. KENO-1460, 1:52am w/"Ask the Professor" show for Nevada #2. Veries, v/q: WOIB. v/l- WJOB KWYO, & after only EIGHT days, RTF-1373. Total 919/846 & countries, 45/29. I hope to add two items to shack, one, a UHF/VHF 19" or 17" portable TV, preferably a Zenith, & an HQ-180-AC. How does the HA-180-AC compare w/the Hallicrafters S-76? Recently I noted TV DX w/WKWB/CFTO-TV added. Sorry to hear of death of Ray Edge. Well, that's it so 73 & see all in 7.

Bob Pietsch - 10 Millard Drive - #A1 - Mill Valley, California - 94941

Well, nothing too exciting from this den lately, but I am looking for DX to pick up, especially since we are finally back on Standard Time here. Latest new ones are: 9/27- KFJZ-1270 4:05am. 10/13- KVCV-600 12:15am way u/KOGO to complete Redding. 10/24, up from 3-8:30am, netting KSJB-600 even w/CFQC for my first North Dakota finally 5:16am, CHUM-1050 6:10am very strong for about ten minutes, then faded to CJIC, & KDOT-1440 8:01am s/on. 10/31- KTFI-1270 finally, 2:07am weak u/KCOK/XEAZ. Veries of recently are XED-1050 CJAT-610 KOAC-550 KOOK-970 signed by former NRCer Murray Mann, KFJZ-1270 KGW-620 KBOW-550 & KSJB-600. Totals now 560/343, states 37/35, provinces 5/5, countries 17/10. I am now in the process of revamping my log which has proven to be quite a chore, but which should be very complete when finished because of cross-referencing, etc. So far batting .000 on the Specials, but I am hoping for better luck, especially w/KYME on 12/20 & KMER on 11/22 (would be my first Wyoming, believe it or now. 73s, DX.

Wayne Heinan - 126 Linwood Avenue - Orchard Park, New York - 14127

Hello from the Land of Fe: Veries. Only veries are WJVA-1530 v/l & KGH-790 v/q from Ralphie's. DX 10/30 at Ralphie's: XEWA-540 solid 30 minutes o/everything @ 8:45pm. KSL-1160 @ 2am for state #39. 10/31- WIP-610 AN w/CKTB off @ 2:12am. KENO-1460 @ 2:30 for solid (almost) half hour, Noted WJRZ-970 AN @ 3:15am. WKMI-1360 w/WSAI off 3:30. KRUX-1360 half-hour good copy u/WKMI, state #41. KENO-1460 state #40. 11/1- 3:01am, KWIZ-1480 s/off w/"America" & KBEA-DX in quite poorly w/ report out. Noted KNWS on other RX very good, but daytimers can't have "DX Specials" so explain, Dave Schmidt. KXKW-1520 DX not noted after WKWB-1520 ended ET. Was it on? WFKN-1220 TEST @ 3:53am after wasting mych time on TT on 1440. States now 41/28, provinces 6/5 & countries 11/3 w/ over 25 reports out since 9/1. Well, I hope everyone's having a nice DX year & I hope KDKO makes it. 73.

November 13, 1965

DX NEWS

8

Gordon P. Nelson - 19 Irma Avenue - Watertown, Massachusetts - 02172

Even after taking into account the recent equipment changes here, it is now obvious reception during the past month or so has been much better than it was last year at this time. This is not at all surprising since sunspots do not really exert as much of an effect on DX CX as some "authorities" seem to think. While it's true I haven't personally BCB DXed through an entire sunspot cycle, I have a large mass of data from Tyndall that will convince even the most rabid "sunspot watcher" that he might as well not bother. Please no one misinterpret me - I'm not saying reception patterns of foreign DX are invariant of sunspot number; it has been well demonstrated that noise levels, critical frequencies, & other parameters are intimately connected w/sunspots. What is clear from the HTT data is any statement that foreign DX won't be quite as good this year as last simply because the average sunspot number has increased by a half dozen is just not valid. All of this will be set forth at great length at a later date. As I said, DX has been good lately, so good in fact I logged four new countries last week. Country 108 was Jordan-677V; #109 was North Ireland-1340; #110 was F.B.S., Benghazi, Libya-833 (lkw) & #111 was Radio Angola-872. At this rate I'll have 200 by next May, hi. Another catch I'm happy about is KZOO, lkw. in Honolulu on 1210 heard MM; almost positive that station u/KZOO was 250w. Thule, Greenland, but no positive ID. Also saw two carriers from Pacific area (& heard audio from one) on 1120 w/ KMOX off briefly around 4am that were almost certainly from 4BC, Australia, & WVUV, Samoa. New DF electronics has improved resolution of system; now I have a bit less than a degree of arc accuracy, e/g/ I can tell the difference between Zeaggoza & Barcelona or between Kaunas & Kiev. Libya-833 is definitely Benghazi, not Tripoli. Spyder: Your unIDs on 1223 & 1313 are definitely Falun & Stavanger; I was listening there that night. On 11/1 I experienced a remarkable phenomenon - while doing a DF experiment on Falun-1223, I observed a clear & stable bearing deviation of 16° lasting for almost ten minutes, was 55° and should have been 39°. I believe this very rare effect was due to very high auroral absorption which allowed a dawn tilt-mode signal through for ten minutes. Absolutely no sign of Asians later in the AM & I believe this effect may be a good way to predict Asian openings!

Charles R. Rader - 22 Robert Street - Hamburg, New York - 14075

Not too much DX since my last report, but here 'tis: 10/29- WSJS-600, w/High School FB game, at about 9pm, giving WCAO quite a battle. MM 11/1- WJRI-1340 1:04-1:16 f/c and only one ID; KNWS-1090 3:10-3:34, on TEST; and WFKN-1220 3:55-4:15 w/TEST using mx. I tried for KBEA-1480 & KXKW-1520 but nothing heard. 11/5- WGOE-1590 12:35-12:39:30 & on, w/ET giving IDs every 35 seconds. CHFI-1540 hasn't changed call to CHIN yet; as of 11/6. M. Tilbrook: I contacted WNXT-1260 too. The CE wrote me he'd do a DX TEST for NRC & NASA, on 1/3/66, from 2-2:30. (CPC members, I've also contacted WBCU KBOR & WIBV). R. Edmunds- align chance I'll be up to SU at the beginning or end of Thanksgiving vacation; I'll let you know if I'm coming. On 11/3 my father had to visit Warren, O. on business. I went along for the ride & took the car to Youngstown while he was in conference. I saw the facilities of Radio Youngstown (WKBN-570) & stopped at WHOT-1330 for a visit w/NRC members Wes Boyd & Jerry Starr. Neither was in, hi! Wes was expected shortly but I had to leave before he arrived. Jerry works evenings. Anyhow - a friendly gentleman gave me a tour of the station including NX room, studios, control room, etc. They use RCA equipment & must protect Erie, Pa. (WICU-~~1330~~) he said. He also mentioned they aren't too interested in DX; but do verify correct reports, most of which come from Ontario & Quebec. (WRED-FM is their affiliate). Perhaps I'll be able to stop by again sometime, when you're both in. Sorry I missed you, Wew & Jerry. (or is it Bob, hi). That's about it so good DX & 73s.

Steven Russell - 8914 Mohawk Lane - Bethesda, Maryland - 20034

Well, after being a member for five months, I guess it's about time I sent in my first report to the NRC. I'm 18 & a Senior in High School. RX is a Hammarlund HQ-145 & the antennas are a 100' longwire running E/W & a 15" box loop. Not much DXing done lately, because of homework, but I did stay up to try for the DX Specials on 11/1. KNWS-1090 @ 3:01-3:30am w/a strong signal; WFKN-1220 @ 3:45-4:15, also w/a strong signal. I tried for the KXKW Special, but did not get it. WKBW was testing on the frequency until 3:35am, then the frequency was completely clear. V/1- WNYC WABR WHYL (said in letter that a card would follow). 73, & Montreal in '66. (Welcome to the NRC, Steven, & we hope you'll be a regular Muser in these pages -ERC)

AS THEY SAY IN BARQUISIMETO, VENEZUELA, "YVMR." "YOUTHS, VETERANS - MUSE REGULARLY!"

W Y S L - 1400 - Buffalo, N. Y. back on all night

November 13, 1965

David Nager - 1160 Burke Avenue - Bronx, New York - 10469

Hi again, & I'm glad to be reporting again in Musings after a six or seven month leave of reporting, hi. From now on I'll try to report more often. Since I last reported in this section the big news at this den is a new RX, which by the way is a Lafayette HR-30. It's a pretty good RX but I've got antenna problems. Dave Gnauck gave me some suggestions on improving my antenna & these have helped tremendously. Recent DX is as follows: WKYC-1100 @ 8:15pm, KFJZ-1270 @ 2:15am, LOIL-1290 @ 1:21am, WAVY-1350 @ 1:25 am, WOL-1450 @ 1:45, WIL-1430 @ 1:48, WNUS-1390 1:55, WARK-1490 2:03, CHYM-1490 2:06am WSLR-1350 @ 2:25; WGNE-1480 @ 2:35, WABB-1480 @ 2:40, KOMA-1520 @ 2:50, WFIF-1500 at 8:30am, WMBT-1530 @ 5:50pm, WWL-870 @ 2am, KSTP-1500 @ 2:06, WHOT-1330 @ 2:15, WEEI-590 8:30pm, WLEE-1480 @ 11:30pm, WBIG-1470 @ midnight, WHHY-1440 @ 12:30am, WEXT-1550 @ 5pm, WSBA-910 @ 7:40pm, WEEL-1310 5:30pm, WCNX-1150 @ 9:28am, WSM-650 @ 10:34pm, KGHL-790 @ 1:50am, WINZ-940 2:29, WBLU-1480 @ 6:45pm, WCIN-1480 @ 6:46pm, WGOH-1370 at 7pm, WRDW-1480 @ 2am, WISM-1480 2:02, WBSM-1420 2:15, CKFH-1430 2:01am. Recent veries are WABB WWL WGNE KSTP WINZ. Reports out to WSM WBLU KGHL WGOH WBIG WOL & WNUS. Totals on BCB are 176 logged, 77 veried. By the way, thanks to George Greene, Frank Merrill Jr., Dave Schmidt, Jerry Bond & Mike Tilbrook for writing regularly. Any SCers please write. I've got plenty of WNCA & WABC traders. I'm also on the CPC but, I've had no luck so far on arranging a DX TEST, but I'm still trying. Also hurray for Montreal in '66. George Greene, Frank Merrill Jr. & I are trying to arrange a trip to the Convention - sure hope we can make it. Well, bye for now & I'll try to be back in this section more often. '73s.

David Gnauck - 444 Old Hook Road - Westwood, New Jersey - 07675

First off, before I forget, RHC, please note the Zip Code. I just noted myself that the bulletins have a different one on them (97657 to be exact). How do I get this corrected? Only one -1- verie in this week, WPAR-1450 for r/c. Things look a little better on the listening end. 10/25, MM, brought WDEF-1370 Tenn. on RS to s/off w/SSB @ 11:59 (this is actually PM 10/24) along w/WTTS, Ind. s/off midnight on RS. Looking around I then noted XERF-1570 again in the clear w/the old Wolfman "baby" at 100% readable w/the two Cs off. BBC-881, 2:08-2:26 on RS w/NX, etc. (60%) from Wales for a new country but who's counting? WGNE-1480, Fla. on f/c 2:40-2:47 s/off w/jazz very strong. WOL-1450 Washington, D.C. (70%) 4:10-4:28 on RS w/Church NX, hymns, 10/26, Tuesday (fourth) tried for r/cs. First attempt was WTMC-1290 Fla. & successful 12:15-12:26\*47 s/off, ~~both 100% readable~~ w/TT. For a bit of luck, WFIG-1290 S.C. was also running an f/c-TT 12:20-12:29:55 s/off, both 100% readable, w/only interference in the form of WHIO, Ohio. CKDM-730, Man. (75%) taken for second report on RS-rr 2:01-2:27 in clear. Noting CBF-690 off for the first time since they dropped this policy, heard a very old unreported friend XETRA, all NX & all alone except for Cuba. Using the loop I separated the two fairly well & reported "extra" 2:35-2:55. 10/28, I again tried for r/cs (fourth Thursday). First was WMBG-1380 Va. (100%) on r/c 12:30-12:47 u/WBNX, N.Y. whom I also reported for the first time. They are only one of my first ten stations. WISZ-1590 Md. ANing w/c/w (95%) 12:54-1:12, followed by WSWW-1590, Wis. r/c 1:12-1:25 w/TT (80% readable). 1:27, tuned in to TT on 1310 which was nice enough to ID as WDKD, S.C. on f/c 1:35:08 s/off. At 1:37:50-1:38 ~~whl~~1430 I caught the s/off ID of WBUG, S.C. also on f/c-TT. This though unlisted must be r/c so note it. 10/28PM, brought the 6pm s/off of WGOH-1370 w/SSB. That's about all for this week. C U in 7.

Allen Nissen - 265 Beverly Hills Road - Fort Lee, New Jersey - 07024

ERC, your unk on 1300 s/on @ 4:41am on 10/22 is NOT WRRC in Spring Valley. As far as I know, WRRC is a daytime only station. It s/on at sunrise & goes off at sunset (6:45 am-4:45pm during November). By the way, I haven't as yet heard WRRC here in Fort Lee. I can't hear them at all on the car radio until I come near the N.J./N.Y. state line along the Palisades Parkway. Then they begin to come in (only five miles SSE of their XR). Their pattern is pretty severe, that's for sure. So, that's it for now. I guess I'll be seeing you & all at the gabfest on 11/27. '73 & all that jazz.

Walter I. Goldy - 4156 East Pima - Tucson, Arizona - 85716

Upon my return from a trip to Europe, I found the DX NEWS w/the sad news of Ray Edge's tragic accident. To have his wife's death & his grandchildren also, is a very sad thing indeed. May their souls Rest in Peace. They may be gone but they will not be forgotten. The NRC has lost a true friend in Ray's energetic efforts & that too is true of his wife, Kate. I have no DX news to report for you at this time, but I will inform you when I do.

November 13, 1965

DX NEWS

10

Ron Schatz - Box 5308 South - University of Florida - Gainesville, Florida - 32603

Greetings, fine people, from a fine university! Thanks to hard study, my musings haven't graced these pages in ages (it rhymes!), but here I am. DX here hasn't been too great (what can you expect w/a Japanese portable after working w/an HE-30?), but I noted a few good ones. KFI broke through CMQ one night for Ken Simon to log & have verified. KPMC-1560 also shows up on occasion w/their hillbilly mx (I thought they quit experimenting in 1940!). Otherwise, nothing exciting here, although I did go bat-ty upon hearing on 820 kc/s. an RTF program in EE about Lindburgh. It turned out to be WOSU, darnit. The Akron station on 640 also makes it through at times; never heard in Miami. Local WRUF-850, directional up the EC (?) skeds 5:30-12:05 weekdays, later s/off on Saturday. Golden DX in the Golden Pages as always. The FBIS Log has been in for about a month now (Mike S., I've ordered yours - stand by). A good log as always, though their Cuban listings & Nicaraguan leave much to be desired. If the 1965 WRTH Cuban listing looks good, just guess why. Two more things before I go: I have word that quite a few members are gritting their teeth o/the fate of Miami in '66. True, it was a very disappointing loss, but despite any misgivings that exist, we lost to Montreal fair & square (17-13 votes) & our taking the news like gentlemen would be the most virtuous thing we could do. The loss hurt so only because we had the support of you wonderful people, & that's the best kind of defeat anyone could earn. However, u/tae circumstances, I'm doing something I've wanted to do for months: I am planning a Christmas get-together for all NRC & IRCA members to be held at my North Miami Beach home around 12/25, & depending upon the number who come, there may be a banquet (i.e., dinner at my place), visits to stations, etc. The get-together is definitely on, & I have several takers already. If you are coming, please contact me here in Gainesville as soon as possible so we can make arrangements, OK? Nice to see IRCA members Gray Scrimgeour & Bob Ziel reporting to our sections. The one thing important to a DXer is DX, & that's what the NRC offers its members. The interectidh domestic contest is a step in the right direction, & we should have more of the same. Well, now that you know how to spend your Christmas holiday, I'll return to my books. 73S & Miami in December!

Kenneth R. Simon - Box 5263 South - University of Florida - Gainesville, Fla. - 32603

Greetings & felicitations from the Home of Hominy, (i.e., GRITS). I've been saving my pennies & hope to join next week. In the past few weeks I've heard such goodies as XEPP XEW XEB XEQ XEQR XEWA XEG XEOY TIRICA TIW YNY YND YNM YSS TSNK 4VEH CQAN CQO CMBC Colon CMJL CMJN CMJE CMDE CMHK Perico CMCH ECEW2 HJBJ VOA-1196 & nets on 1466 548 584 638 647 & a few others. I've been trying to get QSLs from Cubans. Got QSL from VOA-1196 BBC-1295 (probably). Schatz & I both heard "Ici Londres" though. CBA SBL CJBC CBR CEW WRAJ f/c & KFI, my best comestic, came in @ 1:10 u/CMQ, veried w/letter and stamp. Does anyone know of a Nicaraguan on 600 kc/s. w/ID or program "La Voz del Sig-lo Veinte?" Anyone do much DX in cars? I found out where Radio Americas is- 101 Mad-era Avenue, Coral Gables, Fla., hi. Schatz & I did a down-the-dial check, logging a-bout 204 stations, 25 states, 20 countries, two TAs (CSB2, Dresden). This was done fo- one week & I will be glad to lend it to anyone interested; send SASE. Schatz & I may go on DXpedition tothe Land of XE but still in planning stage, probably in April. 73.

Len Kruse - Dubuque, Iowa

Shocked! Distressed! Words cannot express my sorrow to learn of the tragic accident on Columbus Day which took the lives of five people. Both Kate & Ray Edge will be sad-ly missed by so very many. To think just five weeks ago they had taken me home from Cedar Rapids & spent several hours here at out home, & enjoyed dinner w/us on Labor Day! It was nearly 25 years that Ray & I have been friends, & have visited their home on many occasions. The first was in 1945 when I was still a soldier. The NRC will not be the same without Ray. Both Ray & Kate have made the NRC what it is today.

Dave Whatmough - 284 Main Street West - Hamilton, Ontario

This is my first report since joining NRC last month. Equipment used, nine transistor portable Imperial, three band AM, FM, LW. Latest loggings: 10/11- CKCK-620 2:55am EDT. KXRA-1490 3am. KFRU-1400 3am. WOW-590 1am. 10/14- Belize-834 11:35pm s/off. 10/15- YVMF-1120 11pm. 10/24- XELO-800 11:55pm. 10/25- KGLC-910 1:40am. 10/26- CJET-630 6pm sports. 10/28- 4VEH-1035 7:45pm (no positive ID but heard religious program in FF).

10/27- WMTS-810 7:15pm s/off w/Dixie. KSIB-1520 7:30pm. 11/1- WEMD-750 KT (forgot to note time). KNWS-1090 3:10 loud & clear. No KBEA or KXKW, were they on? WKKW-1220 4:08am weak but enough. KIMN-950 2:45. first Col. this year. 11/4- WDSM-710 w/WOR @

I've been DXing about seven years, total 1,000 stations. Wish I had joined earlier. Two veries, CKCK 850. (We wish so too, Dave, but a big WELCOMES now! ERG

Steve Weinstein - 435 Jayson Avenue - Pittsburgh, Pennsylvania - 15228

Veries: v/q- KTYM; v/1- WDBQ KVGB WTIK KTOE WGUN WJNO. DX: MM 11/1- A great MM. BBC-881 @ good level @ 1:33, so I finally took them down. A surprise in KSTN-1420 1:42am u/WBSM. WHK was off again, the fourth or fifth month in a row they have been off at least once a month. Other than WBSM/KSTN, 1420 seemed clear. UnID s/offs on 1380 at 2am; one w/an instrumental SSB, the other w/a singing one. KRKO-1380 2:05am, rr. CFCN-1060 2:19am, rr u/KYW. SSB-1150 3am, probably KRKD, as noted many times last year. KNWS-1090 TEST was easy, S7-8 throughout. KBEA-1480 weak o/KBOX. No sign of KXKW-1520 DX. WFKN-1220-TEST easy during whole test, S7-8. CJLX-800 noted AN on otherwise clear channel. Weak, weak, weak good mx on 660, 4:05. I had to turn the audio all the way up to hear it, the first time that's happened. Possibility of 2YC, but it's pretty early in the season for them. I already have them veried anyway, so no tentative. I probably couldn't have gotten enough info anyway. WAPA-680 4:15am s/on w/SSB. WLEO-1170 & WITA-1140 noted, 4:20. A huge surprise in KTYM-1460 4:26am w/ET doing a simulcast of their RS FM program. WIVV-1370 4:30am s/on. AFCN-1200 4:30am s/on, then into c/w. 11/2- KWRG-1500 6:11pm s/off. 11/5- WDWS-1400 f/c-TT 1:45-2. KGHK-790 r/c-TT 2:22. WBOL-1560 r/c-M 2:30am. Later on, WGTO-540-5:30pm s/off o/WYLO-540 5:30 s/off. KDFN-1500 5:59pm s/off. KSIB-1520 5:59pm s/off. Poland-1502 clear, 6:20pm. BBC-1088 a fantastic S 7.5, the clearest TA ever heard here, 6:27pm, // to 1052, a new one for me. They were close behind @ S7. 11/4- WMRR-1540 5pm, just after CHFI s/off. WPMB-1500 5:22pm. 11/6- WAXU-1580 5:30pm s/off. WHBN-1420 5:30pm s/off. WFMW-730 5:44 s/off. KPGA-1580 6pm s/off. WESY-1580 5:59pm s/off. KFDF-1580 6:14pm s/off o/KLTR & KPIK. 11/7- An excellent SM. WEKY-1340 2am s/off. KENO-1460 AN on clear channel 2:02 am. KTAR-620 S5-6 p/W SUN 2:05. Heard SSB @ 3am so probably they. CHNO-900 2:05am rr & s/off 2:14. CFCN-1060 2:38 u/KYW & o/WNOE. KRUX-1360 weak 2:42 u/WKMI/WKAT ANs. WOHO-1470 AN-rr 2:55am, u/WKMF AN c/w. I think WMBD was off, for I didn't hear a peep out of them. KXLY-920 rr 3:13, but WCKY's OC ruined any chance of writing them down. WJRD-1150 AN 3:15. Later on, WJLE-1480 5:40pm s/off. WYZE-1480 5:31pm s/off. WFNC-940 5:35pm. UnID s/off 1580 5:46, believe WEYY. WABB-1480 5:56pm. KSIB-1520 o/WKWB 5:58. UnID s/off on 1590 5:59pm. I may have a TEST lined up from KTYM-1460 12/27. 73s

Mike Tilbrook - 261 Hoodridge Drive - Pittsburgh, Pennsylvania - 15234

DX seems to be better but veries still stink as only two this week. WJLE-1480 confirmed on back of an SC. WGUN-1010 on my own letter. My contest points total aren't very high at all yet but I sure hope they will rise. Now to DX. 11/1- CJLX-800 2:50am w/something u/it but could not dig out. Both umn KDON/KENO noted fair on 1460, 2:55am. KNWS-1090 TEST noted real easy At S-6. KBEA-1480 first noted 3:14, & went off @ 3:22. KMoe-1300 3:20am. KXKW-1520 just wasn't heard here because of some buzz & a stupid image from KXEL-1540. Had some Ala. tester @ 3:35 on 1480 w/TT, who? WFKN-1220 also very easy 3:45-4:15. WPMB-1500 heard ET 3:57. CHYM-1490 notes w/CBC NX 4-4:03am, then faded. Not too bad of a morning as three of the four TESTs heard, but Steve really had a fab morning, which was bad. Later in day, WRPL-1540 5:17pm s/off. Also possibly WIFM u/it as I thought I heard N.C. mentioned again. WYNX-1550 5:23pm. Has anybody got a verie from them yet? 11/3- RAI-1115 5:40pm only for a few minutes so not enough for a report. Umm WHOW-1520 5:45pm s/off. Umm WM00/WSAO-1550 6pm s/off. Poland-1502 noted real clear for only the second time ever heard here, 6pm. Radio Luxembourg-1439 also quite clear, 6:05. KWRG-1500 6:11pm s/off. 11/4- Umm WBAM-740 5:45pm s/off. KSIB-1520 finally heard 6pm s/off. 11/6- WAXU-1580 5:30 s/off. WFMW-730 5:45 s/off. KDFN-1500 5:47pm to 6pm s/off. Gene Woo, your FF u/KYW was CJLR, & on 859, CKVL. I agree w/those against use of the 24-hour clock in DX NEWS as it can get very confusing. As everybody else, I also was very shocked to hear of Ray Edge's tragic accident. Though I never knew him I know he was a fine person. That's it for this month, so 73s.

Roger Winsor - 7001 West Stanley Avenue - Berwyn, Illinois - 60403

Where did all the veries go? Sounds like a song, but really, all of a sudden they aren't there in the mail. After a bout w/a broken dial cord & then the RX to quit at 825 kc/s., which I found to be the variable capacitor to be rubbing, things have been going well. DX: 10/18- CHIC s/off 2:10, but nothing else that MM of interest. 10/24- WAIN-1270 Columbia, Ky. w/TT 1:26-1:36. 10/31- KIMO-1060 Longmont, Col. @ 5:45 w/Sport NX u/o KYW nilled out w/loop; love that loop! Also KWOA-730 SSS 5:50-5:55, lastly KLIK-1580 5:55-6:15pm s/off. 11/1- WFKN only TEST in here, KNWS umm. I guess KXKW is never going to be on. Notning on needed KBEA either. 11/2, one of the best catches this season & in several years in the form of CJET-630 Smiths Falls, Ont. way o/every-(P.12)

November 13, 1965

D X N E W S

12

(Roger Winsor) thing. They held from 12:30-lam s/off. I called them up & talked o/the air. The wife heard it at the same time. Awaiting KDKO 11/8, letters off to WOGA requesting a TEST. Veries came in this month at a slow pace, WDAY for 10/12, & KLIK back already. I've been sending out concise reports & trying for better logs, but it doesn't seem to help. Never send tentatives anyway. Other veries in October were KFEQ 10/18, WHBF Rock Island 10/21, KCNI w/poor scribbling on my report 10/22, & 10/23 WFMD KPET WRPB WCEN & CHIC. WCEN NXman James Hughes says he is a DXer & was asking about my antenna setup. Maybe a possible new member. Possibilities of a YL in the NRC w/the interest found in a member of my school class who has been listening for quite some time & knows a lot of stations. 73s, all.

Chris Lucas - Hall Hall Box 308A - R.P.I. Frosh Doms - Troy, New York - 12181

This week did not bring too many loggings, but I did get to the 250 mark, w/a goal of 300 for Thanksgiving. All loggings this week: 11/3- WCFR-1480 @ 12:44pm, WHLL-1600 @ 5:15pm, never heard at gone, also WSP-750 10:40pm. 11/4- CBO-910 @ 5:05pm, WSAY-1370 @ 9:35pm. 11/6- WNAC-680 @ 12:18am, they had an interesting show on UFOs, so I stayed tuned till lam. CHML-900 @ 1:06, WILS-1320 @ 1:30, CHUM-1050 killing WHN @ 1:14, CJRN-1600 @ 4:37pm, WEND-1580 @ 4:58pm, WDBJ-960 @ 9pm. SM 11/7- WTOB-1380 @ 4:08, tentative KIMA-1460 @ 5am. Anyone know if they're on then? WKMCpl370 @ 5:38, never heard them at home either. Tonight's DX will be at the end of the Musing. I sure hope to hear KDKO DX tonight, & I should if there isn't much electrical noise. No veries all week; kind of disappointing, but it leaves more to come this week, I hope, hi! Best 11 states/provinces so far are: N.Y.-54, Mass.-26, Pa.-17, Ont.-17, Conn.-16, Ohio-16 Ill-9, Que-9, N.H.-6, R.I.\*6, Vt.-6. What a long way I have to go to catch up w/my totals from Fairfield, Conn.! This past week local WHAZ-1330 has s/on before 8:30 instead of usual noon. Maybe they s/on at sunrise, so might be a possibility for some DXers. MM 11/8- No KDKO DX. I thought I heard TT 3:42-3:51, but no ID or anything else heard. The BFO definitely detected an OC, so they were on but not strong enough here. WPTR-1540 slop didn't help much. KBOX-1480 @ 2:54, WQXI-790 @ 3:03. WCAO-600 o/u WICC @ 3:30, WOW-590 3:31, WOR noted off, so WDSM-710 @ 4:06. Also noted weak rr on this channel, plus loud buzz, jammer or something. WLTC-1370 @ 4:14, making a big deal on how they s/on 4am Mon-Fri. 73.

Ernest J. Wesolowski - 1416 Pasadena Avenue - Omaha, Nebraska - 68107

DX the past week amounted only to the WFKN TEST which was heard at 8-9 & 100% radable on 11/1. Nothing heard from KXKW due to WKBW. Finally received a v/f from KATZ-1600 for a 11/6/63 report, thanks to Walter Breville. Plans are going well for the Thanksgiving Get-together in Kansas City. If you can attend, DXers from the Midlands will meet between 10am & noon on Friday 11/26. That afternoon, we'll visit Western Electric Co. & Commercial Radio Monitoring Co. in Lee's Summit. That night, slides & movies will be shown. Saturday there'll be station tours followed by a banquet that evening. The clan will leave for home about noon on Sunday. Hotel/motel to be mentioned next week on these pages. So far we have members coming from at least five states & maybe even six. Contact me soon if you can attend. Phone 402-733-9457. Ten DXers said they plan to attend.

Curtis D. Engberg - 80 Concord Road - Wayland, Massachusetts - 01778

Not many new ones to report even though CX have been excellent since my last report. 8/9- TGJ-880 & WEED-1390 s/off. 9/24- WFIF-1500 & WEND-1580 both @ s/off. 10/4- WINU-1510 in very loud @ 2am along w/unID SS on 1520. 10/10 finally pulled in Barbados-785 11/1- Still trying 1460 for KENO without any luck. At 2:55am KDON s/off in loud and clear, but as soon as they were off the frequency was covered by BBC-1457 who then ran into the Home Service NX @ 8am. Isn't this a little late for them at this time of year? The signal was the best TA I've heard this year. No sign of KBEA or KXKW DXes. 1520 covered by some OCplus WCKY testing. WFKN-1220 came through very well so I got one new station. Forgot CHEC-1090 at lam on 9/13 for first time here. Other good catches here though unnn were 9/6- WVON-1450 @ 3:15am; 9/24- WCRV-1580 @ 5:55. 11/6- Guadeloupe-640 in well @ 6pm before Duban & YVQO-650 very loud. Made business visit to Grand Forks, N.D. in Oct. & brought Hallicrafters WR-3000 w/me in hopes of hearing something different. Never use it for ECB DX at home but its the best I have for trips. Anyone know how it compares w/Zenith Trans-Oceanic or any other portable type? I need something smaller to carry on planes. And is the 180A really the best thing available for ECB. Will it really get that much more than my Ecophone I paid \$12 for? I've got 1,858 logged now (in 20-odd years of course). Comments, please. 73.

Alan Merriman - 6559 Montrose Street - Alexandria, Virginia - 22312

Well, I fooled around & missed a couple of deadlines but I hope this one makes it OK. First let me say there are now 28 working on the CPC. W/this many we should be able to look forward to many fine programs this year. I am very pleased w/the response so far & again let me invite anyone else who'd like to join to drop me a line & I'll be glad to get you started. How about some of our Foreign DXers working on some foreign stations for possible DXes? Now to my DX. 10/18- WJBK-1500 w/ET @ 1:46. WXLI-1230 at 2:30 w/ET while trying for WNIA DX. 10/23- WDSL-1520 w/ET @ 12:35am. 10/25- WWOK-1480 @ 12:04am for try for a verie from this one before call change. KWLA-1530 1:15 r/c. 10/27- KFYZ-550 a surprise o/everything at 12:30am. Later WKRC-550 @ 12:45. CKEY-590 w/another try for a verie @ 1:16. 10/30- WPTS-1540 Pittston, Pa. 12:40am PoP. 11/1- CJCB-1270 RS @ 1:20. KFJZ-1270 @ 1:40. CJLX-800 @ 2:25 apparently AN. KBEA-1480 DX in well @ 3:10. KWIZ-1480 s/off 3:02 just before KBEA DX. WPKN-1220 very good on TEST @ 3:50. Umm KNWS also heard but no sign of KXKW. I don't think they were on. 11/2- CJET-630 Smiths Falls a surprise u/local WMAL @ 1:10 s/off. 11/3- WIMA-1150 on late @/ER @ 1:45. 11/4- WTNS-1560 @ 5:15pm s/off u/WQXR. Some foreign goodies also but that info to John C. Veries: v/q- WNLC WTMB WTOB WRCP WKRC WDBJ. v/l- WXLI WDSL KWLA WNOH WPTS. v/f- WJPG WHYL. That's about it, I hope all CPCers are working real hard. 73.

Walt Snyder - 801 East Seneca Street - Ithaca, New York

Here's a rundown of two nights of roaming the dials w/no details on any one station & nd reports sent. 10/20- midnight-2am: YND-675 S-4, AFN-872 Frankfort S-2, ???-962 (maybe Finland or Tunisia), 675, probably Costa Rica, 1106, GFR Munich, 1125, ???; 1157 CMBM 10/S-9, 1165, Swan S-6, 1195, VOA Munich S-4, 1205 Bordeaux 10/S-9, 1214 England S-9, 1235 Bermuda S-9, 1252-???, 1295 BBC in German 10/S-9, 1322 Leipzig GDR S-6, 1376 Lille, 1385,???, 1403,???, 1457,???, 1466, Monte Carlo S-9 very clear, 1475 probably Wien Austira w/bells, then mx, 1485-???, 1555-???, 1585-GFRM w/mx, also 602, Lyon, at S-7 & fluctuating, & finally 584, believed Wien II Austria w/mx. 10/22- midnight-2am: YSS-655 S-4, 647 Daventry, 625, Costa Rica S-6, 875, TISS Costa Rica S-6, 908 believed Brookman's Park, 953 Prague S-6, 965, Panama; 1005, Ecuador S-8, 1015, El Salvador S-7 1025-???, 1106 Munich S-5, 1115-???, 1156- CMBM @ S-9, 1196 VOA Germany very clear at S-9, ID at midnight "You are listening to the Voice of America from Munich." 1205- Bordeaux very clear S-7, 1214, believed GB w/mx very clear at S-5, 1235 Bermuda S-7 NX at 12:10, 1367, possibly Italy w/mx at S-5, 1465, Ecuador S-7, 1295, BBC S-9 w/Greek broadcasting @ 12:10 & EE on Vietnam @ 12:55. Also SSes on 1225, 836-Nancy very clear, 928 Costa Rica S-5, 935-???, drums @ 12:15, 945 France? w/singing S-6. 728, GFR @ S-7, 683 SS w/EE-rr, 854 Greek, probably Cucharest S-6, 925-???, mx very classical. 935, singing???, 944 Toulouse S-6, 1035-???, 1043 GDR Dreden w/mx, 985-???, singing S-3, 836 Nancy very clear S-7, 775 possibly HRNQ w/singing, 887 Peter Paul & Mary on RIAS GFR very clear S-6, 1376 Lille strong S-9, 1457 GB w/strong S-9 talk on farming, new devil in seed, 12:50am. 1466, Moraco mx S-9, 1475, Wien S-8, 1448-???, 1403-???, 1124, TA, possibly USSR, 683, RNE Spain S-8, 692-GDR S-5, 735 Spain RNE S-6, 746 possible Holland, 818 Poland S-7, 863 Paris-I S-8, & finally 926, Brussels S-9. TAs have weakened since, & presently are hard to come by. LAs have been strong at times. Best DX, all.

John Pirnat - 22771 Nicholas Avenue - Euclid, Ohio - 44123

I was shocked to hear of the tragic death of Ray & Kate Edge & their grandchildren. Although I have been an NRC member for a very short time, I have read & heard much about Ray's tremendous contribution to the Club & DX hobby. My deepest sympathies to the rest of the Edge family. I have been up the last two NMs (10/25 & 11/1). The only DX TEST I caught was KNWS-1090 3:05-3:25 w/only a fair signal. Only briefly did they come in well. At 3:45am WPMB-1500 Vandalia, Ill. was coming in very well. I believe I heard KWIZ-1480 Santa Ana briefly @ 3:39am w/ID during test. Backtracking a bit, 10/25 NM @ 12:15am heard WRYT-1250. DX has been severely hampered here because the SX-110 has a broken dial cord. I've been able to maneuver the bandspread cord to get some DX; otherwise an eight-transistor standby has been put to use. Only one v/l: WPGC-1580, w/CM. 73s & good DX to all members.

John D. Hathaway - 1116 Broadmoor - Apt. 1 - Champaign, Illinois - 61822

11/1- WGAR-1220 8:02pm. 11/3- WFAA-820 9:15pm. WXYZ-1270 11:22pm. 11/6- CBF-690 FF @ 6:15pm; WHLO-640 6:35pm; WATE-620 7:19pm. 11/7- KIOA-940 2:27am, WPTR-1540 2:28; WIRE-1430 3:30; KFJZ-1270 3:34; WORX-1270 heard testing w/experimental program & asking for calls at 3:39 & 3:43; WXYZ-1270 3:49am.

OUR APOLOGIES FOR BEING ONE DAY LATE - YOUR EDITOR WAS "BLACKED OUT" TUESDAY PM 11/9!

## WHAT'S HEARD...

ALL TIMES E.S.T.

- 535 GRENADE. W.I.B.S., St. George's. Was heard strong and clear at 1930 11/4. (Dangerfield, Pa.)
- 540 COLOMBIA. HJKA, R. Horizonte, Bogotá. Had a strong signal 10/15 at 1730. Spanish announcer mentioned the city of Bogotá several times. There was slight CRM from WDAK. (Ziel, N.Y.)
- 550 CUBA. CMAN, Pinar del Rio. Was well over the jammer that is normally heard here on 10/11. (Ziel, N.Y.) Anti U.S. announcements between musical numbers, noted 10/25 0320. (Hathaway, Ill.) Note correct call and location, Jack. (Ed.)
- 584 AUSTRIA. Vienna. Almost -- but not quite -- overtaking R.N.E., Madrid, at 2343 11/1. (Dangerfield, Pa.)
- 615 NICARAGUA. YNM, Rdfa. Nacional, Managua. Finally made it here thru semi-local KPRC sideband on 10/22. S/off at ca. 2300. (Freeman, Calif.)
- 630 CUBA. CMIG, Santa Clara. Apparently the one very strong with good Latin American music 10/25 at 0322. (Hathaway, Ill.)
- 637.991 CYPRUS/CZECHOSLOVAKIA. D.B.C. Cyprus Relay measured here at 2154 s/cn on 10/23 but still not enough audio for formal log. But we shall overcome. (Nelson, Mass.)
- 640 CUBA. CMC, Habana. Apparently the one very strong S-9+20, wonderful Latin American music with good audio 10/25 0324. (Hathaway, Ill.) Has a local-like signal practically every night with slight WHLO CRM until the Ohio station s/off. No sign of KFI under CMC. (Ziel, N.Y.)
- 650 LIBERIA. ELBC, Monrovia. Noted again on MM 11/1 around 0130 with good clear ID; WSM TT on 0130:30 killed them. Since EC off DST, can expect holes in WSM's ET sked before 0130; suggest that you work hard on this one before HJKH decides to go AN again. No trace of previously reported unid. EE around 0400 on last two MM's tends to confirm my assumption that that unid. was not a spurious response. (Nelson, Mass.)
- 652 DOM. REP. La Voz de San Isidro, (HIFA, I guess), at this spot again, with clear signal. Heard on 11/3 1740-2200 with IDs. Quite excited at first, thinking I had Spanish Sahara, but not so. (Dangerfield, Pa.)
- 655 NORTH KOREA. K.C.B.C., Pyongyang outlet, surely, surged to readability 0359 11/8 with music, annot at 0359:55 by woman, pips at precisely 0400, then children's chorus to begin musical program with woman anncr, but faded out by 0403, and could get no more. No verie from last season. (Callarman, Texas)
- 656 ITALY. R.A.I. Common Wave quite good as early as 1647 on 10/29 with rather lively programming, featuring quite a bit of good Italian Rock and Roll. DF at this time indicated that most of power was coming from the Napoli transmitter. (Nelson, Mass.)
- 663V UNID. T.A. Weak T.A. heard from 1705 to 1730 f/out ors/off is probably Spanish Sahara, but for technical reasons, cannot get high precision DF on this channel. Freq. drifts badly; on 10/31 was on 662.98 at 1705 and up to 663.30 by 1728. There is audio there, but hard to read. May well be the same unid. as reported by BD on 668. (Nelson, Mass.)
- 665 WEST GERMANY. Sudwestfunk stations fairly strong and clear on 11/1 from 2345 to past 0100 on 11/2, but little loggable material, due to "blah" music and long periods of talking. Must be using 300 kw. (Dangerfield, Pa.)
- 670 CUBA. CMKP, Holguin. Noted 10/25 at 0325 with Latin American music. (Hathaway, Ill.)
- 676.59 JORDAN. Jerusalem finally formally logged here on 10/28 signing on with musical IS at 2228 (mostly woodwind instrument) and then into Arabic. Faded quickly, but positive ID on language this night. Freq. has been down from 676.95 since night of 10/19; seems to have settled down a bit; much less short-term drift than before. Might send tape of s/on were it not for the fact that I'm humiliated by amount of local WNAO slop that creeps in despite my extreme efforts...! Asian country #8 logged here, and Country #108. (Nelson)
- 690 MEXICO. XETRA, "Extra News", Tijuana. Now operating from new transmitter location, and claims 5 times more power over Los Angeles, equivalent to 200 kw., so must be directional toward Los Angeles now. Do seem some stronger days; nights seem same here. (Freeman, Calif.)
- 695 DOMINICA. W.I.B.S., Roseau. Best of all the outlets on 11/4 at 1930, with no sign of the Guatemalan. (Dangerfield, Pa.)
- 705 ST. VINCENT. W.I.B.S., Kingstown. Weakest outlet at 1930 on 11/4, and always has been. (Dangerfield, Pa.)
- 707 EGYPT. Cairo II. I presume the station heard here 10/19 from 1827 to 1833 with apparent Arabic programming was this station. Signed off at 1833. Moderate to heavy CRM from WOR, 710 kc. (Holbrook, Md.)
- 720 CUBA. La Voz de Cuba, Colon. Noted 10/25 0331 with Latin American music. (Hathaway, Ill.)
- 730 JAPAN. JOCK, Nagoya, had classical music parallel to JOCK-840, but weaker, at 0345 10/25. (Scrimgeour, Cal.)
- 746 SYRIA. Aleppo. Heard with typical Arabic orchestra and chanting from 1654 to 1707 on 11/1. Under HOLLAND, which was exceptionally good that date. (Robie, Mass.)
- 750 ALASKA. KFAD, Anchorage. Was audible easily but of about 1/3 the strength of JOIE at 0330-0400 10/25. Sent report with prepared card, but can only hope for a verie. (Scrimgeour, Calif.) Now on RS here from 730. Heard 10/31 from 0040 on. Audible only when WSB looped to minimum. (Freeman, Calif.)
- 764 SWITZERLAND. Sottens. Noted alone SM 10/31 at 0132; Dakar s/on late on SM and Sottens always has characteristic western programming in contrast to that of Dakar, which is heavily vernacular (Toucouleur language)

- 773 INTL. WATERS (England). Radio 390 tried 774, 776, and 782 to avoid interference with Stockholm-773, but now on 773, synchronized with Stockholm. Thus no heterodyne, but R. 390 can be heard quite strong under Stockholm even here some 30 miles from the transmitter. According to letter, operated by Estuary Radio Ltd., 14 Bouverie Square, Folkestone, Kent, but Sales organization is at 35a Bessborough Place, London, S.W. 1. Still announcing address as BCM 390, London, W.C.2 during daytime programs for women, but W.C. 1 during nighttime programs. (Hyden, Sweden) Now scheduled 0130-1900. (Blödnorn, W. Germany) :
- 780 CUBA. CMHB, Sancti Spiritus, L.V. Anti-US propoganda; music 10/25 0336. (Hathaway, Ill.)
- 785 BARBADOS. C.B.C., Black Rock, logged 10/19 with English announcer playing American R&R. The show was called Phillips Music Box. Signal was 60 db over S-9! (Ziel, N.Y.)
- 795 UNID. Oriental. Probably China. This "mystery" U.F.O. faded in with audio about 0459 11/3. Some time pips at 0500 (not clear). Chinese music, and man talking in Mandarin from 0545-0630. Perhaps ex-790 Peking? I'll keep trying. (Scrimgeour, Calif.) F.B.I.S. shows Shanghai local on this channel, Gray. (Ed.)
- 800 SPAIN. EAJ-7, R. Madrid, now here, ex-809, in wholesale change of frequencies by Spaniards. Ruic late into the night. CRM'd by Bonaire. (Blödnorn, W. Germany)
- 818 EGYPT. Patra. A regular most evenings around sunset. Usually can be held until 1850 s/off with anthem. (Robie, Mass.)
- 820 UNID. S.S. Noted 10/25 at 0338; probably HJED heard here before. (Hathaway, Ill.) Almost certainly. (Ed.)
- 827 BULGARIA. R. Sofia, heard 10/29 1712-1730. I think they signed off 1730. Program seemed to be in Italian with both man and woman talking, and some music. CRM from another European, probably Spain. (Merriman, Va.)
- 833.3 LIBYA. Forces Broadcasting Station, Benghazi, logged 2347-0013 on 11/4; pretty fair signals at times, but D.B.C. relay audio at 0000 was rather muddy. This is probably ~~not~~ Poses' 10/9 reported unid. on 835. Believe FES s/on 2330, and will check further. This one is everywhere listed at 1 kw. Country #110. Very slight CRM from TVI sweep on 834.75, and from unid. L.A. on 834.91. (Nelson, Mass.)
- 835 CHINA. This Peking outlet started fading in about 0500 11/3. Clear enough to get translation from Mandarin of snatches of the program schedule at 0503. Woman announced local news at 2220, rebroadcast of national news at 2300 -- no time zone given; (Peking time = GMT +8, I assume). "Chiang-shi Yung-ming Guang-bo Diang-tai (Kiangsi People's Broadcasting Station)" heard, but didn't get context. Don't think it was an ID. Chinese opera broadcast next, singing and talking alternate. Crying is depicted by a wailing-singing combination. (Scrimgeour, Calif.)
- 836 LEBANON. Beirut. Heard 11/3 1801-1830 s/off. Good signal over S-8. When the French station signed off, this one completely in the clear. Arabic music for about first 20 minutes, followed by announcement and Western style music. Off very abruptly at 1830, no anmt. or anthem. (Merriman, Va.) Heard often after 1800, but lost before 1830. Good signals; much better than at any time last year. (Robie, Mass.)
- 840 ARGENTINA(?) / BRAZIL. LV-4, R. San Rafael, San Rafael. Believed to be the Spanish-speaking station fighting PRH-9, R. Bandeirantes, Sao Paulo, 11/8 0117-0225. Played instrumental music, much of which was similar to that I used to hear on LRA-shortwave, with infrequent but lengthy announcements, one of which contained the phrase "diariamente de la Navidad." Did not seem to be commercial, so may be indication that may hold to late schedule until Christmas. Argentina was mentioned several times, and on one occasion, my tape gives what sounds like "Esta es Radio San Rafael" to start one of the lengthy speeches. I will have to recheck tape before sending the report to determine if broadcast had anything to do with the Chilean-Argentinian border clashes. PRH-9 was dominant, both were weak, and thunderstorm (which later passed directly overhead) made reception difficult. There was no sign of the Spanish-speaker after 0230, with PRH-9 clear. (Callarman)
- 843 CHINA. Kiangsi Regional, Nanchang. After hearing Larry Godwin's 843 tapes, I'm of the opinion we have only one station there. Language was Mandarin on his tape, where identifiable. Can't explain the "Stars and Stripes Forever" theme. I'll try later times (0700-0800) myself soon. (Takes a good clear recording to get a decent translation, and reception is not often that good.) (Scrimgeour, Calif.)
- 845 ITALY. R.A.I., Roma. Heard with fairly good signals on many occasions. May be equally good any time from sunset to late evening. Normally not well heard at this location so close to WHDH transmitter site. (Robie, Mass.)
- 850 CUBA. CMKC, Santiago de Cuba, dominant 11/8 at 0335 with La Voz de Cuba programming. (Callarman Texas)
- 854 SPAIN. EAJ-2, R. Espana, Madrid. In with especially good signal on 10/29 around 1900, to about 1920. And on 10/30 from 1800 to 1900. Sent report, but not optimistic about reply. (Dangerfield, Pa.)
- 872 ANGOLA/SPAIN/W. GERMANY. From about 1½ hours before local sunset, I see three carriers here. APN, Munich, on 872.002, s/off first, at 1900, leaving Angola on 872.084 and EAJ-101 on 872.004; the resulting 30 cps het makes a bad buzz. Angola 1st heard on 10128. With new equipment, can separate Angola from EAJ-101. Typical Lisbon home service programs until s/off w/choral version of "A Portuguesa." at 2000. Best heard on 11/5 when Luanda frequently overrode EAJ-101; very unlikely that this is only 10 kw. Must be new 100 kw transmitter. note that has not yet changed freq! Angola logged as Country #111, and fourth new one this week. (Nelson, Mass.)

- 877 U.S.A. Weak signal here is not foreign but ID's as KMLS with 250 watts in San Francisco Bay area, apparently a pirate. Signal here (100 miles away) suggests about 40 watts, but maybe inefficient antenna system. (Free-man, Calif.)
- 880 NEW ZEALAND. LYC, Auckland. Had a discussion program w/WCES 10/28 at 0225. Too poor for report. (Scrimgeour, Calif.)
- 890 COLOMBIA. HJCE, La Voz de Bogota, Bogota, noted AN'ing 0252-0258 11/8, with rarity for Colombians, a call-letter ID at 0258. Hum on channel was bad. (Callarman, Texas)
- 944 FRANCE. R.T.F., Toulouse. Good at 0030 on 11/2. (Dangerfield, Pa.)
- 950 JAPAN. JCKR, Tokyo. Was clear on 11/1 from 0425 to 0520. Some U.S. records after 0500. (Scrimgeour, Calif.) Strong enough 11/8 to penetrate through KIMN 0346 with what appeared to be drama, then even with KRSI under KIMN carrier around 0423 with man talking, musical bridge 0429, and man continued to talk afterward. (Callarman, Texas)
- 953 CZECHOSLOVAKIA. Drno, through WPEN at 2203 on 11/3. (Dangerfield, Pa.)
- 955 UNID. Some audio was very faintly noted around 0433 11/8, but could never bring it up to readability. (Callarman, Texas)
- 970 MEXICO. Who is one here? Gave time two hours behind EST; topped WFLA for a few minutes with Corona ads at 0623. (Silvera, Jamaica) XEJ, Juarez, could have been giving El Paso time. I don't know that they're on this early, however. (Ed.)
- 975 ECUADOR. HC2AW, Guayaquil, apparently the one mentioning "Guayaquil" many times in a newscast at 0005 on 11/2. Also mentioned "Rio Pamba" causing me to wonder if I might not have the Rio Pamba station listed for 980 kc. However, the ID sounded on tape like "Ondas del Pacifico," so guess it's HC2AW. **May try for better report.** (Dangerfield, Pa.)
- 1016 UNID. T.A. Noted with march music at 0042 on 10/22. Mainz, perhaps? Very weak. (Scrimgeour, Calif.)
- 1020 VENEZUELA. YVNZ, R. Calendario, Maracaibo, noted 11/1 at 0400 with very strong signal. May be a test program. Here, not on listed 1030. (Dangerfield, Pa.)
- 1034 PORTUGAL. CSB-2, R. Clube Portugues, Parede. Was in fairly well on 10/21 and 10/22 from about 2230. Surprisingly clear for only 25 kw. (Scrimgeour, Calif.) In response to the question in 10/30 IDXD re an UNID TA, I would suggest CSB-2, which is 24 hours; has been strong all season; and would be still there at 0130 in October. No sign of Tallinn here yet this season. (Dangerfield, Pa.)  
UNID. Suspect Tallinn was the northerly TA heard 10/18 and 10/19 until 0003 fade-out. Have tape, but not yet translated. Can anyone help? (Scrimgeour, Calif.)
- 1040 NICARAGUA. YNY, R. Mil, Managua, almost positive this one has moved here; only XEOY heard on 1000 lately. (Perhaps you can check with your better rx, John.) WHO and VOA jammer do not help a bit. (Silvera, Jamaica) I get WHO, TGXA, and VOA in that order, Mike. (Ed.)
- 1043 EAST GERMANY. Dresden surely the station heard with German news 0035-0037 on 10/22. Also music heard. (Scrimgeour, Calif.)
- 1097 SPAIN. EFE-14, La Voz de Madrid, ex-1079, now heard here, in big frequency shift. I guess Lars Ryden has sent you a complete list. (Bludorn, W. Germany) Many frequency changes are taking place in these days, but is still too early to give a list of new frequencies. (Ryden, Sweden)
- 1100 COLOMBIA. Unid. Spanish-speaker, bad line noise at time, was giving Radio Reloj call; gave time between musical numbers. Who? 10/25 0315. (Hathaway, Ill.) HJAT, Barranquilla, and HJCN Bogota both AN with different R. Reloj programming. The HJCN is more powerful, HJAT is generally the predominant one here. (Ed.)
- 1120 UNID. PACIFICS.(2). KMOX OC and TT off 0400 11/1 leaving two weak carriers from the Pacific. Weak English from one of them briefly at 0402, but no ID or good DF possible. On basis of DF, I believe that 4EC, Australia, was dominant, and that second carrier was from WVUV, American Samoa. DF shifted to Australia when audio up. (Nelson, Mass.)
- 1133 SPAIN. EFE-22, R. Oviedo, La Voz de Principado de Asturias, ex 1079, heard here with good signal 11/2 to 1955 EST closdown. (Bludorn, W. Germany)  
INTL. WATERS (England). R. London with fine signal on 10/13 from 2357 carrier, s/on 0000 to 0041. Moderate to heavy WNEW CRM on 1130 kc. On with 40-Star Survey. (Holbrook, Md.)
- 1158 SWAN IS. R. Americas. Heard at this freq. on 10/16. (Ziel, N.Y.)
- 1200 COLOMBIA. HJ??, R. Mil Doscientos, Cali, noted AN. Even topped Reloj! 10/30. Is it new? Anncts. seem to say so. (Silvera, Jamaica) No listing in WRTH Summer Supplement, the latest Colombian list available. (Ed.)  
SIERRA LEONE. S.L.B.S., Freetown, in with excellent signal on 11/1. No sign of Cuban or Venezuelan. News in native language followed by ID, local news in English, commercials, and BBC news relay at 0200. Log was from 0145, and signal still readable at 0210. (Merriman, Va.)
- 1205 ISRAEL. On 11/2, the Israel Broadc. Service remained on the air very long into the night with something like election-returns. In Hebrew. I heard it as early as 1830 on 1205, and it was still on the air past 2000 EST. Noted parallel 575 (Muhlacker and Leipzig both off Tun. nites) and 656. (Bludorn, W. Germany)

- 1210 HAWAII/UNID. 1-kw. KZOO in Honolulu logged 0250-0310 on 11/1 with Japanese programming. Casually stopped by here that AM and received a very great jolt to discover Japanese up high at 0250. Definitely not JOOR, as I got unambiguous DF for Honolulu throughout entire period of reception. Japanese talk and Western theme music to 0300, then man announcer and no drama. Unnaturally high and clear signals at this team, but bad CRN. No sign of either Cuban or HJ this night. Very weak second carrier visible around 0300 and weak English (American accent) and Rock n Roll up briefly; very strongly suspect 250 watt Thule AFRTS outlet, but too busy taping KZOO to check 1425. Have heard that KZOO s/off at 0300, but not so this night. No trace of JOOR later this AM, but best EC chance for Japan if LA's stay off. (Nelson, Mass.)
- UNID. S.S. With timesignals, noted 10/25 0310. Dad line noise. HJFF? (Hathaway, Ill.) CMHK, Reloj Nacional, Cruces, CUBA. (Ed.)
- 1214 ENGLAND. B.B.C. Light Programme. In answer to those hearing a I.B.C. station here in mid-evening, please be advised that it is the B.B.C. Light Service, which seems to run to about 2100 with music, and s/off just after final news. On later for special events. However, I see no way of determining whether it is Westerglen or Lond. (Dangerfield, Pa.)
- 1223 SWEDEN. Falun. Snyder, this is positively your unid. here on 10/18; I was taping there at the time that night while conducting DF experiment. (Nelson, Mass.)
- 1235 BERMUDA. ZIM-1, Hamilton, excellent 11/8 0246 without G-multiplier. (Callarman, Texas)
- 1268 YUGOSLAVIA. Novi Sad is always dominant here so far this season; no trace of Bamako even when 1415V is high; why, why, why? (Nelson, Mass.)
- 1270 UNID. S.S. Under Relj Nacional, runs AN. Could it be XEMH? Does not s/off at 0200. These 3 Relojs (1260, 1270, 1280) are my toughest customers. Strong NSP here. (Silvera, Jamaica)
- 1295 ST. MAARTEN. PJD-2, Phillipsburg. Almost local quality with well-known earned religious program 1935 on 10/29; still about 75 cps below HPC, which produces a nasty audible het at times. (Nelson, Mass.) Heard often but for short periods of time only. Not consistently good, but seems best around mid-evening. (Ben Dangerfield isn't the only onehaving trouble getting a verie from this one, hi!)(Robie, Mass.)
- 1313 MORRIS. Stavanger heard on 10/18 at 0040, believe sign on at this time. Signal good with news and easily recognizable music. First time heard here. (Merriman, Va.) Snyder: Your accordian player on 10/18 definitely was Stavanger. I also was continuously monitoring this outlet for DF experiment that night. (Nelson, Mass.)
- 1340 NO. IRELAND. B.B.C., Lisnagarvey. Me, too! Finally logged 0243 with interview with representative of the noise abatement society; they should do something about 1340, hi! In and out 0200-0247, but only rarely dominated the jumble. Best way to log this one is to sit on 1340 and wait for a very shallow and muddy-sounding audio to fade up; then pop up to 1457 and check for parallel. This one is very rough here due to U.S. clutter. Logged as country number 109; have now heard all DEC outlets on ECB. (Nelson, Mass.) There are, of course, times when the network splits for Northern Ireland Home service, in which case they would not be parallel to 1457. (Ed.)
- 1349 LATVIA/France. Mostly Riga here at 0111 on 10/31 with woman announcer in Slavic tongue, probably Russian; slight audio and much SAH from RTF. Virtually no trace of Nouakchott's 0130 s/on since Europeans in that late. (Nelson, Mass.)
- 1352.7 INTL. WATERS (England). Radio Essex opened on 10/27 with test transmissions. Heard all evening until 1900 EST. Announcing as "Radio Essex, Britain's First Local Commercial Broadcasting Station" on "222 meters medium-wave." Modulation is not perfect, and microphone announcements can hardly be understood. No address given so far, but presumed to operate from Shivering Sands, the fort once used by R. City. (Ryden, Sweden.) Heard testing here on 11/2 1215-1500 EST. "We will commence regular broadcasting shortly, they said. (Bludorn, W. Germany)
- 1358 ALBANIA/WEST GERMANY. Tirana is consistently good around 2330 almost every night; by 0115, tends to be over-ridden by Bremen. However, latter tends to give good and clear ID at this time nightly. Remarkably, quite a bit of German Band music heard from Bremen. Will award a medal to anyone who can get Ibadan here now! Power and/or antenna of Tirana must be truly remarkable to consistently put in a better signal than that of VOA-Munich! Tirana's music tends to sound "Arabic-ish" at times, which is a good tipoff, usually. Ibadan's music is always heavy on drums and English R&R-not similar to Arabic. (Nelson, Mass.) Tirana's carrier on at 2216 10/11, drowning out East German station. S/on at 2230 and logged until 2300 with strong signals. Program was mostly talking by a man and woman with occasional music. (Holbrook, Md.) Still heard at 2230 s/on. However, not nearly so well as during mid-October. Uses clarinet IS and in Russian language. (Robie, Mass.)
- EAST GERMANY. Berlin. Carrier on at 2155 10/11, with s/on at 2201 and logged until 2216, when the carrier of ALBANIA drowned them out. The German station had a fair to good signal at times. (Holbrook, Md.)
- 1367 PORTUGAL. CSA-215, Porto. 10/12 from 1806 to 1830, fair to good signals, but heavy WSAY ARM on 1370. CSA-215 had program of light classical selections. (Holbrook, Md.)
- 1370 JAPAN. NHK Synchro. Amazing S-8 level 0317 11/8, classical music, female annor. 0321. (Callarman, Texas)

- 1435 COLOMBIA. HJGH, R. El Comercio, Ducaramanga, is the Caracol I hear here, not very often. HJAP is definitely on 1430, strong days. (Silvera, Jamaica)
- 1440 COLOMBIA. HJGM, R. Sogamoso, Sogamoso. I heard it on this freq. 9/8, but only once. Moved?? (Silvera, Jamaica) Shown here WRTN Summer Supplement. (Ed.)
- 1450 COLOMBIA. HJFZ, R. Sintonia, Manizales. Call and location tentative. Manizales is mentioned in most ads. Heard 2327-0012 10/29. Belongs to Todelar network. (Silvera, Jamaica) HJNL, R. Sintonia, Villamaria Cds. listed here in WRTN Summer Supplement. (ed)
- 1457 ENGLAND/RUMANIA(tent.). According to DF, Bartley is first D.B.C. station to throw on OC around 0105 nightly. Unid. audio under Bartley and Clevedon's OC at 0106 on 10/31 is probably Craiova, Rumania, but no positive ID and out before DF. Most consistently readable D.B.C. channel. (Nelson, Mass.)
- 1475 AUSTRIA. Wein is consistently good around 0100 nightly. Much classical music. (Nelson, Mass.)
- 1480 JAPAN. JORF, Yokohama, quite good on 11/1 after KWIZ 0303 s/off. (Scrimgeour, Calif.)
- 1500 COLOMBIA. HJLU, noted testing for past four days with music. Only ID given is above call and cites frequency as 1520. Asks for reports to Apt. Aereo 219, Barranquilla. I assume this is one licensed as R. Calima, Darien. (Silvera, Jamaica) HJLC, R. Minuto, Barranquilla, is listed on 1520 kc. R. Calima's call listed as HJLJ. (Ed.)
- 1511 UNID. AFRICAN. Weak West African signing on MM 11/1 at 0028 is probably Niamey, NIGER, but too much 1510 for positive ID. Bears watching. (Nelson, Mass.)
- 1516 CHINA(?). Foreign Service in Russian of R. Peking can be heard here with a very strong signal, parallel to shortwaves. I heard it on Nov. 1 1600-1655 EST with USA-5, 11/2 1100-1155 EST ~~USA~~ 3-5. I wonder if it is Tirana, Albania? However, it does not have the "relay"-sound, e.g. VOA Relay stations. I couldn't note a single fading with the program, only the transmitter strength. Sounds as if it's coming directly out of the studio in Peking. (Blüdnorn, W. Germany)
- 1520 AUSTRALIA. 2CN, Deniliquin, N.S.W. heard fairly well 10/25 0410-0445. Older U.S. records, frequent IDs, and a local contest details. I'm happy to get this one. Aussies have been good to me at this end of the dial. (Scrimgeour, Calif.)
- 1529 VATICAN. Vatican City. High in II at 1640 on 10/31; always one of the earliest Europeans to be heard. I assume that Dangerfield's Musing ref. to Vatican on 1520 is typo. (Nelson, Mass.)
- 1546 ENGLAND. D.B.C. Noted 10/15 0054-0125. Carrier on 0054 with s/on at 0100. Fairly good to good signals. Heavy CRM from CBE on 1550, but got fairly good log. News followed by classical music. (Holbrook, Md.)
- 1562 UNID. This is probably R. Veronica, but not sure. Heard 11/3 between 1830-1900. Pop music, announcement by woman. Much WXXR splatter. I couldn't tell for sure, but one announcement seemed to be in English. Is Veronica on this late? (Merriman, Va.)
- 1565 ST. LUCIA. W.I.R.S., Castries, heard on 11/3 1843-1905. Weak and fading badly, but definitely identified. Severe CRM from US station and Unid. on 1562. Pleased with this one, as I have been after them for some time. (Merriman, Va.)
- 1570 MEXICO. XERF, Villa Acuna, Coah. with some wild U.S. music. 10/25. 0305. (Hathaway, Ill.)
- 1580 MEXICO. XEDM, Hermosillo, Son. heard 10/25 at 0302 announcing as "La Voz del Pacifico." (Hathaway, Ill.)

.....

V E R I F I C A T I O N S ...

- 764 IRAC. Baghdad. Finally received a CSL from chief engineer on which he specifically listed frequency, power, and date heard, as well as location. (Robie, Mass.)
- 1133 INTL. WATERS (England). R. London sent a specific CSL card for ~~my~~ 9/27 reception. No signal. Says 25,000 watts. A sticker says I am a member of the Wonderful Radio London Big L Club. (Dangerfield, Pa.)
- 1340 NO. IRELAND. B.B.C., Lisnagarvey. Nice letter verie from Belfast, signed by Virginia Hardy, confirming my 10/18 log. She says part of the programme I heard originated from London, and part from their own studio in Belfast. (Dangerfield, Pa.)
- 1350 VENEZUELA. YVWH, Ondas de Escalante, Santa Barbara del Zulia. Sent v/1 signed by Sn. Oberto Rivera Ocando. CTH: Calle Carabobo, Distrito Colon. Letterhead cites above as call, not YVWH. (Silvera, Jamaica)

.....

CLARIFICATION... Electronics Illustrated recently claimed first for Country List CRITERIA, not for Country List, period. Text of article your IDX D editor referred to two weeks ago read: "It seems we started something... maybe. A few months back EI came out with a set of rules for determining what counts as a country. As such, we were the first in DX listener circles to do so. But now the N.R.C. has come up with rules of its own making it the first independent organization to fill the void." Obviously, your IDX D editor erred in this respect regarding the previous editorial, and let some snide remarks slip out. I had not seen the EI country list or criteria, and circumstances allowed only a glance at the article. Consequently, in this instance, I misquoted C.M. Stanbury after mis-reading him. My apologies to Stan and other IDX D readers for this breach of accuracy and reasonableness. I'm afraid I let my reaction to criticism of the club's efforts temper my judgement in this instance. It happens.

Send your DXDD tips to J. W. Brauner, RD 1, Box 61, Punxsutawney, Pa. 15767
