COLLEGIAN GIVES "RAH-RAH" TO NRC

"Enclosed you will find my check for \$5.00 for my third year in the terrific NRC. I sure wish I had more time to spend DXing but this year I move on to college, which will probably mean I'll just be an interested reader of DX NEWS.

Notes on this week's tests will be found on Page 2. Please be sure to report to all TESTS heard, & if not heard, please drop the station a thank-you card. Thank you!

MAIL PROBLEMS AT 438 EAST 21?

If you have sent in a Musings letter to our Brooklyn address, addressed properly, including the ZIP code number and all, including my name and correct address, and it has been returned to you, please send me the envelope, as we are trying to find out what is going on in our Post Office. An official complaint has been lodged with Washington D.C., and any more such evidence will also be sent there.

PLEASE DOUBLE SPACE

There are a few, mostly new members, who are single-spacing their reports to me. I would appreciate it if you would please DOUBLE SPACE from now on. You may use both sides of the sheet, so no loss there. It makes it much easier to copy onto stencils.

TROUBLE WITH COOPER-TRENT

We have been receiving our FCC changes from Cooper-Trent, who have the contract to handle & sell all FCC information. We have been receiving all their NARBA releases at 3.9¢ a page, but every once in a while we get a tremendous volume listing ALL BCB U.S.A. stations, which in their listing runs about 225 pages. We also must pay the postage on all Cooper-Trent mail to us. We sent this back, as it could never be used by the Club as a whole, much to their chagrin. Recently, a similar large volume arrived, with a complete list of Mexican stations - by frequency, even including the latitude & longitude of the stations - but not their addresses. We also returned this as useless to the Club. Now we find that if we do not accept ALL of this service, we must pay for what we DO want - the changes only in U.S.A. & Canada - at the rate of 10¢ per page, plus postage. We are trying to get this straightened out with Cooper-Trent, pointing out that we are a non-profit hobby organization, but we have not as yet heard from them (over two weeks now), and in that time, no changes have come in either. We are sorry for this interruption in the service, & if any member has the new grants, we'd appreciate his sending them to us so we can get them to you.

JOIN the CPC!

Alan Merriman is still looking for more CPC men - how about you/ Anyone with only a little spare time, and the inclination to help the cause, should write to him, at Post Office Box 6 - Fairfax, Virginia - 22030. Let's get going, boys - we are running a bad second so far this year! But let's also remember to report to ALL TESTING stations no matter from whom the information comes - they're DXing for DXers!

Idea Rogers - 3406 Hoover Street - Riverside, California - 92504

Hi, my first Musing. First, on introduction, I am 26, an electrician by trade, and have numerous hobbies at least one of which we share in common. I have been interested in DX off & on for about ten years but only in the last 11 months have I become more interested & kept an accurate log. I have no urge to seek veries, I simply satisfy myself as to the ID of each station heard before it is logged. IDed stations are logged on 3x5 cards by frequency & by city. Also on a U.S. & Cal. map I mark cities received. As a result of intermittent DXing since 12/65 I have 114 U.S. stations plus some Mexican & Canadian stations. I added four stations this week: KFIF-1550 Tucson 7:40pm; KBVM-1380 Lancaster, Cal. 8pm apparent s/off; KSRV-1380 Ontario, Ore. 8:43pm; KWXY-1340 Cathedral City, Cal., 8:50pm. I'm happy to be part of this fine Club. 73. (Welcome to the NRC, Idea, & we are equally happy that you're happy, hi -ERC)

Donald K. Kaskey - Post Office Box 235 - West Sacramento, California - 95691

I've purchased a Hammarlund HQ-140-X & hope to have a decent aerial set up before long. So far not much distance received. Very sparse activity this Summer; KJOE-1480 w/TF 5/2 @ 4:50; KIMO-850 on RS 5/3 @ 3:55am; KLTZ-1240 f/c 5/23 4:30-4:45; KLOG-1490 RS 5/30 @ 4:40am, KBIG-740 ET 5/30 @ 5:22, KNEW-910 (ex-KEWB) RS on 10/23, KEND-1110 o/KRLA @ 1:05am on 10/24, KMBY-1240 no ed AN same day. KIQS-1560 RS daily here, same w/KWG-1230 & KZIN-1450 (ex-KAGR). KPUG-1170 has been noted on top of KLOK/KCBQ every night & after midnight. KEPO-1590 heard @ 8:59pm on 10/27, KAGO-1150 @ 9:25 same day. KFIL-1590 @ 11:30 10/27. 10/29- KAPT-1220 s/off @ 9:30pm, CHAT-1270 RS @ 2am, KRDG-1230 RS @ 2:31. 10/30 I caught KNPT-1310 ET 3:33 to past 4am, & CBC on 1270 which turned out to be CHWK, running AN. 10/31, I found KEZY-1190 u/KEX @ 8:40pm. 11/7- KAAA-1230 on f/c-TT 3:12 to at least 3:40. KYLT-1300 Mont. f/c through hash for two IDs @ 3:47 & 3:49. CFVR-1240 BC w/AN CBC programs from 4am on. Efer on 810 gave ID @ 4:29½ but I missed. 11/9 found KGAR-1550 w/rr 8am on, & on 11/10 XEGM heard s/off @ 4 am u/KJR. Veries in from KBUZ-1310 KDEO-910 KCUB-1290 KUMA-1290 & KWRO-630. Total now 1,687. My present antenna seems to be beamed directly into Seattle & is nulling Southern Cal. I'll be endeavoring to give the WCers some competition from now on & I will try to report more often. 73s.

John W. Hoogerheide - 15 Rustic Place - Eugene, Oregon

DXing the past two weeks has been rather sporadic w/average to poor CX plus a week's trip to Colorado Springs last week, & next week a week in San Francisco. Now to DX. Japanese & Oriental mx noted 2am 11/2 on 1210. It seemed much too early for a J-TF. Probably KZ00 though no ID noted. New call for KSMK-1340 Kennewick noted on RS w/c/w 2:05 11/2. On 11/4, BHBS noted 8-8:30pm on car radio between Portland & Eugene. Also noted was a Mexican on 830 definitely announcing as Culiacan & not Navojoa as in VJ. Call sounded like XEMS. This at 8:30pm. Jamaica-750 @ 10:40 on RS well o/WSB & unID SS. Barbados-780 10:35 w/no WBEM at all. On 710k, SS atop KIRO - this could ~~be~~ be a goodie, but who? Two more unID SS on 700 @ 10:30 - one w/sports event, other mx/talk. No WLW at all. 830k, Cuba in EEP loud @ 9pm. HJER-1025 Cali @ 10:45 w/bad XEQR slopover. KCUL-1540 Ft. Worth RS 11:30pm u/KPOL & probable ZNS (British accent). KRSC-1400 Othello @ 1am 11/5. KQMS-1400 Redding s/off 2am w/no anthem. However, loop was in E/W direction. KCMJ-1010 Palm Springs @ 2:08am after CBR s/off & all alone. KWSL-1340 Grand Junction on RS 2:15, very loud. No luck on either TEST. Kissimmee, Fla. was taped & after CKDA s/off the reequency was completely dead. Socorro NM TEST for IRCA showed onlu KCUB & nothing else. 73s to all.

Roy H. Miller - Box 6 - Marysville, Washington - 98270 (sorry Roy-ERC)

Hello! Probably many have observed the peculiarities of any contest based on geographical/political subdivisions such as current Contests #1 & 3, but it rather amazed me when I figured out the potential points loggable within, say a 1,000 mile range from, as an Example, Grand Rapids, Mich. as compared w/San Diego, Cal., or Seattle, Wash. Quite an eye-opener, but it still doesn't mar the feasibility of such contests in my humble opinion. After all, there are only just so many states, provinces, & capitals thereof that any of us can log, so let's all dig! New loggings since my last report: 10/27- YNKW-885 Managua, Nicaragua, w/fine signal, ID @ 11:02½ pm & reported. 10/30- WCNW-1560 Fairfield, O. ID @ 6:59am for third Ohio on 1560k. 10/31- KINN-1270 Alamogordo, NM, s/on 6:59am. 11/7- WAGG-950 Franklin, Tenn. ID 6:30 am (probably had just s/on). 11/8- KCCN-1420 Honolulu frequent IDs from 5:30am (about even w/WHK) until 6:01 (when nicely atop), promoting on the air all the time so like ly AN-7 Veries: KPAT-1400 (#51 on 1400) KDBM-1490 KQXI-1550 KBET-1340 KRIB-1490 KCKC-1350 KACE-1570 & CBUF-1340 (14th & most westerly LPRT verified). 73.

I've been trying for many of them, but no go (yet). Anyone planning an NRC get-together near here this season? I hope so! One final question: Who has a s/off on MM @ 2am w/SSB giving studio location as 2212 Walnut Street? 73 & good DX.

Len Kruse - 1675 Glen Oak Street - Dubuque, Iowa - 52001

The first NRC DX TEST of the new DX season, namely Station WJPB-1220 Kissimmee, Fla. was heard easily on MM 10/31 from 3-3:30am, in the clear, for a new addition to my DX log. It was a pleasure to listen to Roger Winsor on the TEST program from WNWI-1080 Valparaiso, Ind. on SM 11/6. Let's hope many of the members were able to hear WNWI for the first time, which took the air last January, as a result of Roger's fine efforts, & despite the strong interference from AN stations WTIC & KRLD. My most-sought-after station, the ONLY needed station within 100 air miles of my home, namely WRJC-1270 Mauston, Wis, was finally logged w/a test program, on Fri 11/4 from 3:24-4:15am, w/TT & OC, & an occasional announcement. WRJC ks but 95 air-line miles from Dubuque, but the first time I heard them, so it was quite a thrill to me! On 11/6 Station KICX-1360 McCook, Neb. was logged w/its first Sunday r/c-TT, from 1:45-2am, w/some from WSAI. The latest v/l received came from "The Big Karper" K-P-U-R-1440 Amarillo, Let's all make an effort to listen to ALL fine DXes & TESTs up-coming that are listed in the DX Calendar! (WWUN-1590 v/s is J. Boyd Ingram, a v/r -NRC)

Hello to all. You probably don't know who I am, since I am a new member of the NRC. I have been CXing for about three years, mostly on SW, & about one month on BCB. My equipment includes a Hallicrafters SX-99, a six transistor radio, a tape recorder that works once in a while, a 20 yard longwire outdoor antenna, & a homebrew loop antenna (thanks to Jack Keene for plans & advice). My veries include the following: v/c from KVOO WBBM KAAV WSM VOA-Marathon, Fla. WHB WABC WLW KWKH WSB WFAA WWL WHO WBAP XELO. v/l from KLVI & KGRT. KGRT sent a CM also. I am waiting for QSLs from R. Belize and WIBC. As a matter of curiosity, has XERF verified anyone's report? (Someone at Kitten nking had a v/l from them recently received, Walt -ERC) As for DX lately, I got WIBS in the Windward Islands on 10/28 at about 7pm EST w/mx program, very weak, SINPO 15111, Oh, I almost forgot, frequency 535 kHz (pronounced "cycles per second"). R. Senegal, Dakar-764 was weak here at 6:55pm. TGW was going right through CMQ-600 & a heterodyne was almost completely blocking out R. Belize on 834k. I noticed a "Radio Novelas" on about 1055k & have tentatively IDed it as TGZ as its ID gives the QRA as "Le capital de Guatemala, en Centro America." Thanks to Jack Keene on this one's ID as TGZ on 1063k. I'm a chess enthusiast & enjoy a chess-by-mail game w/anyone. Other interests include model rocketry, math, & all sciences. I'm a junior in High School & would like to correspond w/other NRCers. 73, good DX, etc. to all. (Welcome to NRC, Walt, & I hear Houston is really pushing Pittsburgh now as an NRC Haven.) -ERC.

Well, I hope those who heard WWNI were happy to add us to their logs. We had a ball. My CE has eyes as big as a pizza at the growing list of points of reception, & my boss is real happy. If WTIC ever decides to go off the air, I think they will be more than happy to arrange something else for those of you who did not hear us. Down to DX 11/1- KWRP r/c-TT 1:45-1:56, KPBM f/c-TT even w/CBL, mucho KRMG QRM, surprisingly enough. 11/2- CJNR in from 7:04-7:30pm for a log, o/u KEX. 11/3- WLXI ET-M, OE, 1:05-1:30 & on, but too much WWTC-CJMS CHIQ WADO yo copy. 11/5- WIBC Pop w/TT 1:23-1:27, then off. Signal was good S-7 o/CJRL/CJOC. Later that day, KHOZ-900 s/off @ 6pm. 11/6- Fantastic SSS. just like back in 1957. KGBC fighting it out w/KCUL/ZNS, w/no KXEL. KGBC has 14 local spots in 20 minutes of logging, nice of them. 11/7- WHRT-860 started out the AM @ 12-12:10am w/mx. WJRD-1150 ET/M 2:15-2:30, WFOX TEST in well, 2:31-2:59, same w/WTMJ DX 3:01-3:30. KBUN r/c logged 3:14-3:25. Other dibs & dbas heard: 805k, SS assumed to be YSR, but too faint to get ID, also SS-1075 nightly about 7pm, assumed well reported TIFC. Het is heard close to WGN nightly, but nothing separable yet for Surinam. 11/7- Trinidad AN for what sounded like elections, but signal was quite hard to understand. 11/6- Saw SS on 1355 1315 & 1575, Are these CA stations such as listed in the Yellow Pages? Only veries are v/l from WVNA KPMC v/q. The mailman has forgotten where I live, I guess. 73w & it was a ball!

Bob Zwieter - 383 West 17 Street - Holland, Michigan - 49423

Totals now are 524/180, states 45/36, provinces 7/5, countries 10/5. Well, I have to go to work now, so 73 & I hope to see you in seven.

Since last Muse the new ones are 10/18- WLAP-630. 10/19- WRAD-1460. 11/1- WHBQ. Then it perked up on 11/5. Midnight, WTAR-790, 12:09 PJB-800, 5:59pm, WPRW-1460, 8pm CBE-1550, 8:29pm, WDAK-540. If anyone would want some SCs from KQV KDKA or WJAS we have some extras. WJAS is in a limited supply though. Only on 3 report sent out since we last Mused. That is WAKR. Well good-bue & bdst of DX. 73s.

Stephen J. McIntire - 2225 Searle Street - Des Moines, Iowa - 50317

Greetings friends around the world! A bit of DX makes it here despite little time for listening. 11/6- WWNI-1080 just barely made it in w/Roger Winsor on the TEST 2-3(P.6)

DX NEWS

6-

(Steve McIntire) but fortunately the signal improved with time & was enough for a report. 11/7-MM- Unns WTMJ & KWFT-620 both made it in well during their DXes. Much needed KEEN-1370 fought severe QRN on its Special. It really took a long time to get enough info for a report, 45 minutes, hi. KARK-920 for a report on their AN Holiday Inn program 4:31. Let's not have any more Conventions in Holiday Inns! No sign kf WFOX-860 though Wayne Helnan got them from a greater distance. How did you do it, @ayne? 11/9- Aurora or something quite present in the evening as many TAs booming or just coming in. XELO was stronger than all but locals. YNKW-885 8:45 & TCHR-695 8:52 for two unreportable logs. ERC, the main ta k stations around here are ~~WEL/FO~~ & KDMI. Each has five hours daily in phone shows. KDMI also has five hours on the weekends, too. The "Election Marathon" at KDMI was quite a success, but it would have been much bigger had we not had some of our common equipment problems. cTo all those who have written: Hold on. I'll get the replies written soon, I hope, maybe before this reaches print. 73s to all & as the Wolfman would say, "Have mercy!"

George Greene - 1527 Sunsdn Avenue - Akron, Ohio - 44301

Hi all! I have not done too much listening lately, but have added a few new ones to my meager totals, hi. New stations since last time: YNOL-828 heard on 9/28. 10/14- KATZ-1600 @ 7:30pm for only fourth 1600k heard here due to nearby WAKR. 10/1 $\frac{1}{2}$ WBFO-1040 illegal. 10/28- CHEX-980, & 11/9, WFHG-980. YNOL is, of course, a new country. KATZ was heard w/considerable QRM from WAKR. At first I t ought it was WWRL, but then they IDed at 7:30pm, as KATZ. I couldn't get a log on them for a report, because WAKR covered them back up again a minute or so later. WFHG- $\frac{1}{2}$ 980 was heard w/a fair signal around 5:30pm, log taken & report sent to them. WDAK was noted quite strong on night of 11/5, so log was taken & report sent. Only new verie is from ZMS-1540 for a new country. I have entered Contests #1 & 2, & will have new current standing in soon. Dave Nager, hou owe me a letter. I have many traders of WWRL WIXY etc., SCers write! By the time you read this, I will be back from the gettogether in Kittanning, where I'm sure I will have had a great time. (You did, George, hi -ERC) I have a few corrections to make on the 1040 illegal situation in Cleveland. KCV-1040 was the station I heard last August; it has no connection w/WBFO. New call on KCV is now WNDI, Windy Radio. Frequency is still 1040 & they cover most of Cuyahoga Clunty quite well. Power is supposedly 8w. into 20' vertical antenna on a garage; location is somewhere on the W side of Cleveland. Other DX noted: WHOW-#520 was heard on 11/1 w/a strong signal at SSS for the first time in several years. Similarly, WCAW-680 was noted for several days also around that time 11/1 @ SSS. WGH-1310 was in the night of 10/17 I&C like a local for about two hours from 6:30-8:30pm w/no sign of usual WKNR. Allen Nissen, I am interested in the charter flight you are trying to get for the Eugene Convention. About what will the rates be for the plane? I guess that's about it. 73.

Jerry K. Conrad - Box 91 - Walton, Kentucky - 41094

WWTC-1280 @ 1:40am Minneapolis for new calls, WSIP-1490 Paintsville, Ky. @ 11:30pm on RS. 11/5- KBIM-1230 Jonesboro, Ark. @ 11:15pm on RS. WIXI-1280 Lancaster, Ky. 12:55pm on RS ruinging another daytime channel here, sounds like another c/w station. WKDZ-1110 Cadiz, Ky. @ 2:50pm also all day on WBT/WMBI null on the loop. #93 for Kentucky. I'm getting close to all of them now. KUSH-1600 Cushing, Okla. 6:10pm & KMDO-1600 Ft. Scott, Kans. @ 6:10, both s/off @ 6:15 this month. Paramaribo, Surinam-725 for a report till 10:30 s/off. TGO-795 Guatemala City @ 11:10pm. 11/7- WZKY-1580 Albemarle, NC @ 12:40 blasting in at 30db asking for reports. I asked him about a Special test, hi. I hope this one comes through because he really gets ojt & seems to be interested in reports. WOL-14050 Washington, DC 1:10am finally made it through WVON. WQUA-1230 Moline, Ill. 2am, one of three ETers there, all very weak. New veries, KACY for #28 verified from Cal., also CBM (would you believe) WSOQ KBIZ WHOP. Boy these things are slow coming back this season. I haven't heard from anyone on the contest not getting their prizes, so maybe most did after all, which makes me feel much better. Locals s/off at 5:30pm this month/for anyone who wants to know for the Cincinnati area. CUN. As they say in Sandusky, Ohio, WLEC. "We Like Ernie Cooper." 73.

Vin Cavaseno - 111-20 124 Street - South Ozone Park, New York - 11420

Greetings. The DX season is really starting to get under way here, w/more time put into DXing as the CX get better. There's lots of competition now w/five serious DXers in South Ozone Park & Richmond Hill. And all of us are within a ten block area). As for the Surinam station, thanks are in order to Ernie for the tip. I received them on 10/19 @ 10pm w/c/w mx. They are quite loud here, so I sent a report. Other DX: 10/15 - HJHJ-600 @ 11:30pm. 10/22- CJNR-730 weak @ 11:07pm s/off. 10/24- Nice reception all around, w/Caroline South-1187 in for a report 1:05-1:37am, unkn KXLF-1370 @ 1:59am s/off/ KDIPM-660 very loud @ 2:15am, XEJP-1150 @ 2:22 w/a SS version of "They're Coming to Take Me Away". 10/25- RJR-580 @ 10:30 w/unID SS behind mentioning Venezuela. 10/31- WJPB TEST-1220 w/quite a bit of interference (QRN & QRM), CMHK-1210, CMGB-1561 no comment on last two. 11/2- W.I.B.S.-535 in u/severe atmospheric noise @ 5:40pm, unkn WTMA-1250 u/WTAE, WDVA @ 7:02pm. 11/4- Unkn WTIK-690 atop at 6 11-6:13pm power cut. 11/6- WCBL-1290 Benton, Ky. heard on f/c w/piano mx 1:04-1:23am, WIRK-1290 w/NX ending @ 1:05am; & WWNI-1080 on TEST 2-2:37am. This one was very rough. WTIC cannot be completely nulled out here, & KRLD helped to promote the confusion, but I managed to scrape up a report. 11/7-MM- WINU-1510 r/c @ 2:01am, KENO-1460 in well enough for a report 2:23-2:59am s/off. WFOK-860 TEST-IRCA heard w/TT @ 2:40am, & I have also become a victim of the unID "Holiday Inn" TL on 1330. I heard them @ 3:45 but couldn't squeeze out an ID. Unkn WPET-950 @ 4:10am. There was still a lot of atmospheric noise on 1k/7, but CX seem to be improving. No sign of KEEN. There was an SS in front. Veries here nil. 73s & Wolfman Jack for President in '68. I think all five of us can get down to Brooklyn on 11/26.

John Javetski - 104-21 122 Street - Richmond Hill, New York - 11419

Hi. DX really seems to be picking up as I have logged 18 new stations this past week alone & have sent out six reports. It sure was nice meeting Artie Crass & Doug Lamerson on 11/5. Together with Vin Cavaseno, we constitute the South Ozone Park - Richmond Hill Chapter of the NRC, & by the way, Ernie, we all hope to make it to your place on 11/26. Down to DX: 10/25 AM, EDT - WDVA-1250 c/w @ 2am. 2:24, WOHO-1470 on equal terms w/WMBD. 2:45, WOL-1450 MN. 4:05, WRNY-1350 s/on. WSPD-3370 loud @ 4:20. WYSL, a toughie on 1400 @ 4:30 w/rr. Then a real catch. At 5:00 I caught a WRAD-1460 ID on a s/on right before WCMB s/on. WDEV-550 extremely loud @ 5:05. All following times EST, & PM. 10/31- WKLS-740 @ 5:50. 11/1- Noon, WCRV-1580. Another good one 11/2, WVOB-1520 s/off @ 4:45pm. 11/7- WANI-990 o/WIBG @ 4:55 w/MN. 5:00, WSGI-950 c/w. 11/8- WESR-1330 s/off while WPCW on. 11/9- 4:37, WCBG-1590. 4:45, WWHG-1320 s/off. WMBL-740 very loud 4:52-4:58 s/off, WBAM-740 5:00, WMNA-730 good 5:10. 11/10, surprise in WKLO & WEEP on 1080 @ 4:30 o/WTIC. WJAS was dominating 1320 that day w/no sign of WKAP. Also that day, WFHG-980 @ 4:41 & WKDE-1000 loud from 4:47-4:52. 11/11- WAIT-820 faint at 5:00 & an ID from 4VEH Cap Haitien on 1035k @ 6:15. 11/21, AM- WATE-620 s/off @ 1:03, WOKY-920 rr @ 1:40. My first Colombian, HJHJ-600 came at 1:15. v/1- WDEV. v/c- WPRO, WIOD. I only hope the sunsets stay as 1/2 productive as they have been. CU. 73, ---

Jeff Ross - 125-124 Cronston Avenue - Rockaway Park, New York - 11694

Howdy! CX seem to be on a nice upward swing at this time. Lately I've been noticing splits coming in on 645 695 755 & what I believe is 1570, all at SSS. At SSS there is usually something giving 1580 a strong het, & is definitely not an image. Portugal? On 11/8 I heard an SSB at 5:00 on 640k. I thought it might be (by some weird phenomena) WOI, but when the SSB was over an amnluncer got on saying: "Good evening, this is radio station W??? now beginning operations." After that they went into American rr & disappeared shortly after. Veries are getting abundant; two in one week, hi. v/q from WSAV after five reports, & v/q from CHSJ, nice card w/CM. 11/5- WAPI-1070 real nice o/mess @ 5:33pm. 11/9- Unkn WCPS-760 killing WJR @ 5pm s/off, last, KWAM-990 c/w @ 5:45. If they don't have 300% modulation, WWRL doesn't splatter! Also on 11/9, WTCR-1420 s/off @ 5:15 w/real nice signal. I noticed KSTP-1500 way o/everything else from 4pm to about 6:30, too. That about wraps it up here so 73s & good DX.

Andy Rugg - 16 Lake Breeze Avenue - Pointe Claire, Quebec

The combination of HNL, poor CX and heavy university study load has kept DX below my usual autumn level. 10/10- HJLQ-1515 AN, 1:30-2:10am. 10/23- WTAE-1250 AN, 12:41-12:56am. 10/31- WJPB-1220 TEST weak but audible from 3:05-3:35am. New veriers are non-existent. BCB DX here has fallen into a very lamentable state of affairs & I just don't have enough time to spend away from the books to improve upon it. 73. AS THEY SAY IN ELKHART, IND., "WTIC." "WE THANK RICHARD COOPER" for the fine time!

Doug Lamerson - 107-13 118 Street - Richmond Hill, New York - 11419

Hi everyone! This is my first Musing, having joined the NRC about a week ago. I guess some sort of introduction would be in order. I'm 18 years old & have been DXing the BCB actively for about 1½ years. For the past year or so I have been editing the BCB column of the Empire State DX Club (small plug, hi). Totals here are 545/174, states 35/30, provinces 7/7 & countries 19/7. Big Hi to fellow NRCers & DXCers Jim Neff, Bill Campbell, & Artie Krass. On 11/5 we had a very nice meeting w/other NRCers in this area, Vin Cavaseno, John Javetski, Bill Andres & Artie Krass at my QTH. We have a pretty good size NRC representation in this immediate area. I hope to see Musings from the rest of you guys. Well, I had better get to DX before I run out of space. 11/3- WESR-1330 @ 8:07am w/WEVD or WPOW (I can't keep track of which is which) off. At 6pm same day R. Trinidad-730 for country #15. R. Surinam-725 at 10:20pm to 10:28 s/off at good level w/American pop records. 11/4- YND-675 @ lam w/"Union Radio" ID. They have been heard here almost ightly but never bothered to ID them. 11/5- At sss, WPRW-1460 @ 5pm, WTMA-1250 @ 5:12, funny I never noted them before, they're regular here at SSS ever since. WFLI-10u0 @ 5:20 w/rr, WAPI-1070 @ 5:40 w/ tel. scoreboard, WCSC-1390 @ 7:05pm w/CBS NX, WMP0-1390 @ 7:30 w/NX. Are they daytime or not? (Yes; daytimer- ERC) 11/6- SM- WIST-1240 @ 1:15 rr, WCBL-1290 @ 1:21 w/ET/M, At SSS, WSVS-800 @ 4:53pm RS, WPIK-730 @ 5pm s/off, WHIY-1270 @ 5:16 RS, WAXE-1370 strong @ 5:20 but faded quickly u/WFEA to 5:30 s/off. MM 11/7- R. Trinidad-730 noted AN w/pre-election info, HJKX-1370 @ 1:56 w/mx & ID @ 2am. WIRL-1290 @ 2:19 w/rr, WKIX-850 @ 2:38 w/cw, WFOX-860 @ 2:48 w/IRCA TEST at fair level here w/CJBC QRM, WTMJ-620 w/DX at excellent level way o/WSUN, 3:37 noted Holiday Inn Show w/YL on 1330, no ID @ 3:30. Anyone have anything on this one? KFH-1330 @ 3:35 w/TTS (Tel. Talk Show), CHFI-680 @ 4:42 RS, WJRD-1150 @ 4:39 w/ET/M, WORD-910 @ 5:03 w/rr, WJWS-1370 w/5:58am s/on. 11/10- WSAV-630 @ 5:28pm RS, good till Cuban took over at 5:30, #SJS-600 @ 8:23pm w/RS, WIXY-1260 @ 11:53 w/WIXY 60 survery, rr. 11/11- WHOK-1320 @ 4am s/on, CKOC-1150 @ 4:04 w/NX, WCLS-1580 @ 4:27 rr weak, WCKI-1300 @ 5:03 w/Rebel Radio ID & rr, WIRC-630 @ 5:21w/cw, WRRR-1300 @ 12:07pm w/NX, absence of loop here makes this one tough. 11/12- WMAL-630 at midnight w/ID briefly. 11/13- JBC-750 w/lam s/off u/WSB. Anyone know whd the BCB is on 950? Heard here every AM without IDs. (CKBB-950 -ERC) RX is Lafayette HA-230 & 100' longwire. Well that's it for my first try. I hope all is in order. 73. (It surely is, Doug, & welcome to the NRC & I'll C U on 11/26, I trust! -ERC)

Dave Whatmough - 284 Main Street West - Hamilton, Ontario

I guess it's been four issues since I last Mused & some of you must wonder if I'm still around as I'm also two months behind in answering letters. Not too much DXing has been done ere as I've been experimenting w/different speaker systems on my stereo & have now installed a pair of Empires (\$650 worth). I'm very much impressed w/them. Last week I picked up a used Johnson Messenger CB init for my car & got it licensed last week (XM-43-316). A good percentage of my time has been spent fooling w/it. Veries received here since last Musing are v/q- KXOK CKSL WDAK. v/1- KPUR. v/f- WPGC w/CM for last December report. CJCS signed & returned my report. BX as follows: 10/5- ZNS-1540 S-7 & i/WPIR & no sign of KXEL. 10/11- WVAM-1430 ID heard during lull in CKFH 6:55 NXcast. 10/19- WDAK-540 booming in w/great signal from 8 pm, till after midnight. They must have accidentally stayed on daytime pattern all-evening. 10/31- WJPB-1220 heard w/S 4-5 signal. No WOTX heard here yet. 11/6- KCII-1380 TT heard lam to 1:15 but IDs not audible. WNW1-1080 S-7 signal clobbering KRLD nicely, while WTIC was looped out. The koop ks working much better than expected thanks to the info received from Gord Nelson at Montreal. 11/7- WLAV-1340 TT 1:20-1:30 on top of channel. WFOX-860 heard four or five times during the half hour period u/CBH's S-1 signal. WTMJ-620 w/S-4 signal. No sign of KEEN-1370. D heard something on 1370 but modulation was so weak I could not even tell kf it was EE speaking. It was in a SW direction using the loop. Here's hoping the Oregon Specials make it this year. 73 & good DX.

Bill Hutchinson - 2412 Ellis Road - Baltimore, Maryland - 21234

Hello Ernest - long time no Muse. Things are beginning to break here. 10/31- WAMS-1380 @ 6pm booming in o/heavy background. 11/2- WLIK-1270 @ 5:15pm Bonaire @ 6:10pm on 800 in Dutch & signal on 764k @ 6:30am must have been Dakar. 11/4- WDRC-1360 ib briefly @ 5pm & WWBZ-1360 in at 5:10pm. WNJR-1430 in good @ 5:33pm, good log taken, b t no report as I ran out of time. 11/7- CKPC-1380 @ 5:30pm good until 6. 11/11- WCHS-580 good @ 5pm & WCPC-940 o/CBM w/loop at 5:30am. WSYB-1380 was in at 5:45pm, but faded into the soup after ten minutes, & not enough detail for a report. Stan Morss, do you still have that picture of IBJ hanging on your wall? By the way, Ernie, I am now a postcard collector too! - 73. (Welcome back, Bill -ERC)

Dale Dawson - 4100 Milford Mill Road - Baltimore, Maryland - 21208

Hi. I had been putting off writing a Musing for too long so I decided now's the time. What really compelled me to write now is the way my name has been murdered in past DX NEWS issues. No offense intended, E nie, but you would have my eternal gratitude if you would set the record straight once & for all. (Sorry, Dale - I'll blame this new electric type-slider, hi -ERC) Anyway, on to DX. Plenty of new stations since my last Musing: 8/22- ZFBL-960, 12:20am. 8/27- WHEC-1460, 11pm. Hi gang! This is a long-overdue Mused, but there hasn't been too much to report since last time. New WJIC-1510 in here all day w/WTOP slop & WKIX-850 noted AN-rr. I hope to have more for next time. Nice meeting Mike Tilbrook, Frank Merrill & George Greene here on their way home from the Convention. All CM traders please write. 73.

Hi everybody. I'm a new member, so I thought I had better introduce myself. I'm a 20 year old college student (?) at U. of Oregon, majoring currently in Geography. I've been DXing for about three years, & the following are my best catches: R. Belize-834, WKPR-1420 WKVM-810 Vladivostok-548, KSKY0660 HJBI-840 KICY-850. I haven't done much DX lately, but plan to show tly, as the season is already here. My RX is a Lafayette KT-320 from a kit. Only two veries received this Summer: KAIM-870 & WCIS-1580. I have WPE cards to swap (WPE7CIG) & also SC & tapespond & things like that. Anyone, please write. 73s, more later. (We hope so, Carl, & welcome to the NRC, in our growing colony in Eugene, Convention City (67. -ERC)

It's I again. I forgot to mention WIHS-TV-38 in Boston has become WSBK-TV. Congrats to you Pete Taylor on your new job & welcome to the Home of the 1969 NRC Convention (I hope!) (What happened to 1968? -ERC) When you get in, call me. The number is 321-2624. I'm thinking of having a little DX get-together here on 12/10. Everyone in the Boston area, think about it. I've DXed twice since my last Musing. New catches are: I forgot to mention this one last time, YND-675 @ 11:25 on 8/24. 10/31- WRCP-1540 @ 5pm SSB/o SSB on 1290 @ 5:29 & WKO-1589 @ 5:30. 11/8-WDAS-1480 @ 4:34 and Surinam Broadcasting Co. @ 6:45pm. First noted at 5pm. I listened from 6:45-7:00. It was weak but clear w/a woman DJ in SS w/American jazz. The last song was "Davey Crockett" which in SS came out as Puncho Lopez. That evening I treated my parents to some DX from 6:30-7:00. They heard Senegal, Lisbon-755 & Surinam. Ralph Vatalaro from IRCA (Somerville, Mass.) was here 11/6. We saw Malden High play Spmerville. I've been telling him since Sept. we would beat them but we were upset 18-12. Somerville scored three times in the first 14 minutes. I challenged him to play some pool but we bowled instead. I'm pretty good at Candlepin Bowling but I haven't bowled since May. I won 91-79 & 95-79, way below my 98 average. I had four spares but I only got a 3, 1, 2, & 4 on them. I'm planning on getting a tape recorder, within the \$50-90 range, but I don't want a portable. These are a few I like: Aiwa Model TP-704, Isco Moxel CTR-5400, Morelco "Continental 95" & a Sony Model 900. I'll be joining the CPC shortly. Mt lines are about up so 73.

I have been absent from these pages for quite some time, having been busy w/technical improvements to my set-up so that I can follow in the footsteps of Gordon Nelson. I graduated from Rensselaer last Spring & have started here at Brandeis University on a Ph/D. program in Organic Chemistry. When I moved in here in Waltham I was eager to set up my equipment, but soon found that the area is infected by severe power line noise. Gordon came over & he & I wandered about with transistors trying to pin the source down. After discovering that the noise is somewhat concentrated about an area there being little noise associated w/the power lines as little as one block away, I presented my problem to the public relations department of Boston Edison. They promised to look into it & referred me to the man in charge in the Waltham area. After one month I called up to see how much they had done. Zilch of course. But then the man offered to come out himself & look into the matter. I met him at the door and armed with a transistor, & showed him around, buzzing loudly. I had the radio tuned to a station out of the local area so that the buzz could be heard properly. I carefully avoided showing him my DX den, as he would immediately assume that I was some kind of nut. He was becoming quite convinced until he took the radio & turned to WHDH. The noise level on the set magically dropped. So did my hopes of a settlement. He said, "Of course if you listen to the stations between the stations...". I didn't have the heart to tell him that I was really interested in the stations between the stations between the stations. However, I still was able to convince him that the matter should be looked into, so who knows what will come of it eventually. When I was only a freshman in college I came to the Thanksgiving gathering in Brooklyn & met you then ERC, but that time I was so young & had just braved the Subway for a trip more complicated than going from Penn. Station to Grand Central, I was so nervous that I couldn't remember the call letters of my own locals. I wish I could make it to one of your gatherings in NYC now. (So do I, Tom - try 11/26! -ERC)

Hi! DX has been at almost a complete standstill, although I did try for many of the TESTs. However, I have gotten off six CPC letters to WDEA KELO KWHN WNHV WDEV KEWI. No response as yet, but I am expecting WDEA & KELO to reply very soon. One UHF note: WIHS-38 in Boston is now WSBK, however, their mailing address is still 25 Granby St. Now to DX: WRDO-1400 11/2 @ 5pm w/NBC NX. R. Barbados-780 finally heard ID @ 5:11, TGXA-1040 @ 7:35, #2 from Guatemala. 11/3, at 7:20pm I heard an EE-speaking Bible program on about 1295k. ERC, is this PJD2? (That's they allrightie -ERC) I tried for all the TESTs, but I heard nothing. I had a good signal on 620 trying for a relog on WPMJ but CX & my RX prevented an ID from being heard. 11/8- Unn WSYB-1380 @ 6:28am WAWZ-1380 s/onOSSB @ 6:31. And finally, WWIL-1580 @ 9:10pm w/ER. Also on 11/8 I heard a new SS on 600 w/even signal, w/CMQ. I imagine it is YVQO. (YVQO is on 650 -ERC). Still on 11/8, @ 9:13pm on 1500k I heard an EE (I think) rr station, barely audible w/WTOP. Any ideas? (WJBK? -ERC) One verie in, WSAY-1370. -73s.

Hi gang. Little DX done due to worming & school. Here is the DX: 10/190 WIPS-1560 - 4:58pm. 10/31- SRS-725 7:34pm for country #81. 11/7- CBEL-1510 1:10am w/CBC programming. Where are they ERC? (Vermillion Bay, Ont. -ERC) Veries: v/q- DFR-1538 Yugo-917, Thule-1425 (country #73) & CBNE. v/1- WPAZ WKFR WIPR WJCD & WCNS. Totals are at 1432/1185, & countries are 81/73. I am still sending out lots of f/ups, & it is netting me about the same amount of veries as I would be getting from DX, so little difference known there. TAs seem strange this year. Sometimes they were in good, then on other occasions, I couldn't even get a signal from RNE-737-683 etc. The only one I'm wondering about is on 791 @ 1:30am. I think it is either RTF or Greece, but I tend to favor the RTF outlet. Anyone hear them lately? (What language used? -ERC) The other day I saw Ch 6 completely messed up almost like extreme skip coming through, but not on any other channels. Due MNE from Detroit, so I think it was Timmins, Ont, or who? Toronto? I doubt it was them. About it so 73, good DX & see you.

Sid Steele - 2408 Fourth Street - Charleston, Illinois - 61920

After collecting DX NEWS bulletins for many years, I find I have to dispose of the back issues. It occurred to me that someone might be interested in having them. So rather than throw them away, I am willing to give them away for whatever transportation charges would be involved. The set is complete from 1943 (Volume 11) on. All except the last five years are bound (after a fashion). Any or all can be had for the asking.

I thought I'd senc in another Musing to keep these pages thick. Has anybody ever heard of "DX Horizons"? They used to be in Modesto, Cal. in 1961 but I have been unable to locate them. They used to put out an interesting mag. Could somebody fill me in on a Q-Multiplier? What's it do, how's it work, & is it good on the BCB for DX? Also how successful are loops? Does anybody have plans for a good one? I would appreciate any other info on improvong DX reception. The Q-Multiplier & the loops I read about in the NRC. Hi. First to all, I made a mistake in my first Musing! I want to swap a tape of a Buffalo radio station for a Wolfman Jack Tape. I had it the other way in my first Musing. Now that that's all cleared up, here are my recent loggings: CHWO-1250 @ 6:53pm, WAPP-14?? @ 4:16pm, WBTS-1490 @ 6:16pm, battling it out w/XERF-1570 @ 1:56am. WERE-1300 @ 6:41am, WPRW-1460 @ 7:15am. Since my last Musing I received only two v/qs, & they are: WIFE & ~~XXXX~~ WOKY, member of the IRCA. That's it for now. Good DXing to everybody.

ASIDE TO THE FOUR MUSERS ON THIS PAGE- PLEASE DOUBLE-SPACE YOUR MUSINGS AS ITMAKES IT MUCH EASIER TO TYPE THEM ONTO STENCILS. THANK YOU, BOYS. ERC.

It's about time CX started picking up, & they did at around the end of September. 10/3- WBLF-1330 5:05-5:10pm rr; WRAA-1330 5:22-5:30pm c/w. 10/8- XERH-1500 11:14-11:38 $\frac{1}{2}$ u/WTOP, they IDed as "erreh atchey"; WEAW-1330 10/17 good signal during WEVD's Monday evening silent period 6-6:15pm, WJPS w/them 6:09-6:15 rr. 10/20- 4VER-1935 6:55-7:30 $\frac{1}{2}$ pm s/off. 10/22- WOB3-1360 from 5:55-6pm s/off, WBIG-1470 10:58-11:02pm; WLOA-1550 5:43 $\frac{1}{2}$ pm s/off. 10/26- WRIS-1440 5:45 s/off w/poor modulation; CKSO-790 5:38 $\frac{1}{2}$ -5:45pm rr; WTHM-1530 @ 5:30 on 10/28; 10/29, XEQR-1030 o/WBZ 10:30pm. CJSS-1220 4:25pm in the clear all the way to s/off past midnight. We were listening to their c/w all evening w/no interference. Now to verie them, hi. Speaking of veries, the situation is soem-thin' like this: v/q- WGTO WHYN WKBA WLAD WMEX WWL. v/l- WMEG WREV WSOQ. v/f- WSIG WIP (Cms w/both). Also WSWV v/q & CM, WBAM v/q & bumper sticker, WIRV v/l & CM. Steve McIntire said in his last Musing that KSO is now "extinct." I was wondering whether he means that they are off the air, or they just changed calls or something. Fortunately in either case, I have them veried, hi. 73; and as they say in Tifton, Ga. "WTF." Won't Testers Identify Frequently? - please? C U next time.

Dave Schmidt - 44 Green Lane - Green Ridge - Chester, Pennsylvania - 19014

Greetings! After that beautiful get-together at Kittanning, I must say a giant size THANK YOU to Mr. Cooper for his wonderful & well hosted job. It was good to see all the fellows there (especially you, Wayne). Hey Ralph, your'r going to need three radios to get Wolfman Jack as he's on three different stations. DX is better: 11/6- WNW1-1080 about 25% on their TEST, WMAK-1300 @ 3:31am, now AN. Also, WMAZ-940 @ 5:33 pm. 11/7- WFOX-860 & WTMJ-620 on their Tests, WFOX running a slight edge (about 40 S Units, hi). 11/8- WMPS-810 @ 5:12pm. Only two varies in (better than last time, hi). KCTA-1030 v/f & WKBA-1550 v/q. Total: 387. Gee whiz, Joe Cooper, I hope that's not the way your visitors have to get into WDAD - sorta scared Chuck Rader hi! Hey Chris, how about a letter? Mike Tilbrook: Don't you owe me about six or eight SCs? Richard Wood: Do you still want the plans on my koop that is outside? I'll be gald to send them. Well, enough of my ramblings, & again, many thanks Dick for your fine get-together & it was really good to see everyone who was there! 73s & good DX.

Hi. I had a great time at Kittanning even though I could only stay about three hours. Nice to renew old (about as old as Montreal, hi) acquaintances & meet some new faces. Thanks again, Dick Cooper. That reminds me - don't forget that only NRC TESTS & DXes count for extra points in the Domestic Contests. WJOB-1230 ET/M 2:44am. KEUB-1290 3am s/off for a nice catch. Tjey were o/WIRL most of the time. 11/8- WEAL-1510 5:07pm u/WLAC. WYTI-1570 5:08pm. WDSL-1520 5:11pm. WMNC-1430 5:15pm s/off. WILA-1580 5:16pm s/off. WEEZ-1590 5:17pm. WSWV-1570 5:29pm s/off. Toledo area daytime stations s/off in November at 5:15pm; in December, 5pm s/off. Also, a v/l from KLTR-1580 for SSS reception. Bill Raczkos said, "Why don't some Toledo NRCers Muse?" Bob Shaw - 234 Columbus Street - Elyria, Ohio - 44035

Hi. Not much DX time this week, but I did make a few new catches. 11/6- WGAI-566 @ 12:06am s/off. WNW1 TEST in about as well as could be expected, w/WIIC cn. Very little KR1D, though. - Logged for report, 2-2:32. Cuba-870 2:35 w/Rebelde Net - what's their call? 11/7- WFTC-960 r/c-TT on top 12:15. WNAB-1450, I believe, on top 12:58. TT-860 heard 12:53-1:00 but unID, WEVA? CMKJ-740 6:33pm. 11/9- CHIN-1540 s/off "O Canada" 4:58pm a/u WABQ. I plan to enter Contests #1 & 2, my biggest problem with Letterama will be U & Q, though, I think. Plenty of O & C traders, hi. 11/12, between 1:15-1:30, I counted no less than 11 TTs all over the band, & all unID! Oh yes, 11/11, there was an unID TT-1330 4-4:30pm & on - who might this be? 73.

Tom Birch - 17 Ritchie Road - Binghamton, New York - 13901

It's great to start the weekly sked again. The bulletin, which arrives on Monday, takes the place of verifications (unfortunatly). But, it takes the sting out of not getting anything! Varies: v/l- WJPS. v/q- WIBG. DX: 10/8- CJKL-560 Kirkland Lake, Ont. topping the channel @ 12:44am. 10/10- XENV-1550 @ 7:10pm. Early in October, I noticed SSS opening up, & then, bang! 10/25- WUNS-1010, Lewiston, Pa. on a loaded channel @ 5pm. 11/3- WNHC-1340 @ 8pm. 11/6- CBOF-1250 finally noted @ 8:45pm. (P.15)

November 19, 1966

After getting home from school, I flipped on the RX, to check the band. Wow! At 3:35pm I logged WBEC-1420, & stations began coming in one after another. WWSR-1420 @ 4:10pm. WREV-1220 @ 4:20. WKBK-1220 @ 4:21pm. WRIC-540 @ 4:35, WPIK-730 @ 4:42pm. WIDD-1520 @ 5:14pm s/off. Log taken on WMIR-1550 @ 5:30pm. I consider this one a good catch - not heard ever last year. WSAO-1550 heard finally @ 5:44pm after many months of futile attempts on SSS. WAAY-1550 @ 5:35 pm. 11/11- WRAJ-1440 r/c as listed @ 1:02am, IDed every two minutes. Dakar, Senegal, excellent level @ 6:03pm ID - good to 7pm s/off. Nancy-836 traces at 6:20pm. Tape recorder added here on 10/31 - a big help! - I now take it for granted - every station logged is on tape. S/off's can be taken down word for word. Well, adios & 73.

Walter B. Fair Jr. - 12022 Palmway Street - Houston, Texas - 77034

I decided to muse again in hope that the weekly bulletins will be a little larger. (Another reason is that I need typing practice for school, hi.) Only new verie here is a v/q from WIBC-1070. KIMO-1060 in Longmont, Col. is still coming in w/very good signals at SSS & we seem to have had a lot of WC openings here. Too bad my parents don't understand DX on the BCB, because I ended up doing Chemistry instead of listening. Well, such is life. I've only had a total of about four DX hours in the past week & it looks as if I'll have to give up homework, hi. Only things I've listened to lately were mostly semi-locals & also some for the domestic contests which should, in fact already have, proved most interesting. 10/28- WHB-710 @ 7:25pm w/KEEL looped; KFDI-1070 in Wichita, Kansas @ 7:35pm. KEAB-1110 @ 8:15, KADO-1410 & KWBB-1410 at about 8:30pm but I didn't catch KRIG which I need for a G in the Letterama. KGNC-710 Amarillo at 7:25pm on 11/10, & WOWO-1190 Ft. Wayne, at 1am on 11/12, were my only tries at DX here w/90% of it done while I was home from school sick (hi) on 11/8. Here in Houston our little group has been meeting every two weeks & it sure helps us. Boy, after three years of DXing alone I finally got mixed up with some other DXers. Oh, Randy Kane, how about some info on that Zenith portable if it's still for sale. Sounds about like what I've been looking for for a long time. Well it looks like I'm getting near the end of the paper so I'll give up for now. So, good DX to everyone & thanks for listening!

Jeff Kadet - 8047 Park Overlook Drive - Bethesda, Maryland - 20034

First, a tremendous time was had by all at Dick's on 11/12! A great crowd, and my heart-felt thanks to Peg & Dick for their kindnesses to us. It was a truly memorable day! Veries: v/1-SS w/pennant from HJBW-812; v/1 from WNW1-1080, thanks Roger! And a "v/d" from WRAA-1330. Well, a f/up is one way to get a reluctant verifier to do so, but this was a "follow-down" as I stopped in at WRAA on my whirl-wind trip through Va. and got him to sign my carbon copy of a three-year-old report. Chalk up another victory over a toughie! Virginia members, you have a beautiful, beautiful state! And Easterners, you should hear the mid-western twilight DX! It starts about 1½ hours before sunset, & continues that same time past it! NYCers WINS-WNEW-WQXR all were in at 4pm while driving through Cumberland, Md. with Old Sol brightly shining. xxxx DX is all on 11/14, w/an all-AM session. Tirana-1214 like 16/tons at 12-lam, with mostly talk, & the "Internationale" heard towards the end of this first hour. Slightback-ground from someone in foreign language, BBC still not on. Noted WHOM-1480 off before midnight Sndays! UnID TTer on 1590 12:20-12:22 o/WAKR. Noted semi-local WGBB-1240 s/off 1:03am. WCST-1010 a fine signal, on top some of the time, w/CFRB/CBR & one unID there which went off at 2am. I enjoyed your fine band music by Sousa, Robert Binau! But where was WCST @ 4pm 11/10 when I got WINS in Cumberland, hi? Finally, WIXY-1260 heard on an ET/OC/IT 2:50-3am u/WNDR. And who's the CBCer on 1350 u/WSIR? Unn WLEE-1480-ET/M 3:42-3:45. Still on hand here are articles by Gordon Nelson and Clarence Freeman and also more ANARC info. These items will appear in the coming weeks. Any member who wishes to contribute to this section should feel free to do so. All articles will be appreciated.

.....
Since the 1967 NRC Frequency Check List has been published, a good number of additions as well as a few minor corrections have been brought to the editors attention. Instead of a suppliment, a new list is now being considered for January publication as its felt that would be less confusing to the general membership. It would be very helpful if members having additions or corrections to the list either send them into the editor or mention them in their Musings so they can be included in the January list.

ANARC CODE OF ETHICS

(written by John Callarman)

After eighteen years of active DX'ing, a few things that have concerned me (assuming that most DX'ers are going to try to verify their catches) have been a proliferation of poor reports to stations, a gradual deterioration of the stations' respect for the hobby, and a continued bickering among various clubs and individuals over various issues.

I decided the Code of Ethics should not attempt to answer specific issues - such as "Should return postage be enclosed in all reports?" or "Should stations heard away from home count in the listener's totals?" The Code of Ethics, rather, should set guidelines, based upon responsibilities in relationship to others involved, which can operate as a temporizing influence on some of the excesses we find occurring throughout the hobby.

I have also included a section on the responsibility of the station because I feel many of us in the hobby do not understand one of the basic tenets of the game. Speaking both as a DXer and a news man at KILT in Houston, I can say that reception reports are of LITTLE VALUE to the stations who receive them. All BCB stations have adequate and accurate technical measurements of their coverage area, their frequency, their audio, etc. Hams and Utility stations are interested in establishing two-way contact, for business or pleasure, with others in the same service. FM and TV stations cannot sell their sponsors on the basis of occasional skip reception. SW home service transmitters are interested in their listeners (see definitions in code) and International broadcasters are actually interested in DX'ers as potential LISTENERS. It is a constant source of amazement to me that a station like, to use an example, WHOW in Clinton, Ill., or KFUN in Las Vegas, Nev., should print an attractive QSL card. For WHOW or KFUN, receiving a DX report can serve only as a curiosity, and has no bearing upon the success of the stations operation. That many stations are still tickled to get reports is something for which we should all be thankful, and should be on our guard to maintain. We must realize that in almost all instances, when we ask a station to verify our reports, we are asking a favor that we benefit us in the pursuit of our hobby, and will be negligible benefit to the station. I have not in the Code of Ethics that a verification is proof of reception; therefore, adequate transmission details to prove reception must be copied by the DX'er and sent by the station. Many stations, anymore, are verifying ANYTHING, and our NRC foreign contest manager last season began requiring contestants to keep a carbon copy of his report, which may be more adequate proof than a verie.

Another question that has occupied many of us, for many years, is the makeup of club government. This, too, is completely untouched in the Code of Ethics. The basic rule for survival for a club is: can it provide the services its members need? In one recent instance, a group of DX'ers disgruntled over the manner in which a club was governed, finally came up with the logical solution - they formed their own club. The original club has continued to serve its members in the same manner, the new club developed its own modus operandi and serves its members well, and both are thriving. Each knows it has to do a good job, or the member will shop elsewhere. Competition (no longer antagonistic) keeps both clubs on their collective toes.

The Code of Ethics follows:

OPEN HOUSE A SUCCESS! We are pleased to report that our DX Party in Kittanning was quite a nice occasion. We were surprised and pleased that so many attended, especially considering the distances traveled. The guest list included our faithful old editor Ernie Cooper and his mother (Elizabeth), Bob Stenger, Wes Boyd, Jerry Starr, George Greene, Tim Davisson, Joe and Marty Brauner, Jeff Kadet, Alan Merriman, Dave Schmidt, Joe Fela, Walter LaRoche, Steve Weinstein, Mike Tilbrook, Ralph Johanns, Chris Maslen, Wayne Heinen, Charles Rader, Rick Haneiko, Pat Flanagan, Bill Bens, Jerry Conrad, and Richard Wood. Also, we were pleased to talk long distance to Janette Edge, Wayne Plunkett, and John Callarman. We think all had an enjoyable time, and we want you to know that DXers are always welcome at our house.

DX STAMP SERVICE A. N. "Sax" Ringler (W2SAW) sends along a copy of his latest list and offers copies to any of our members interested in this service. In brief, Mr. Ringler offers a unique service for DXers who can obtain mint stamps from many foreign countries, which will prepay return airmail letter postage to the U.S. or Canada. These stamps have some advantages over International Reply Coupons. DXers interested in sending reports to foreign stations should consider this service. A copy of the list may be obtained by sending a self-addressed stamped envelope to DX STAMP SERVICE, 166 WEAVER ROAD, WEBSTER, NEW YORK 14580. There must be 175 countries on the list, so "Sax" must have them about all!

INTERNATIONAL DX DIGEST

INTERIM EDITOR: John A. Callarman, P.O. Box 454, Houston, Texas 77001

Ye ed had to cover the Ali-Cat fight Monday night, so these stencils are a day late. Quite a massacre. The champ made believers out of Houston. I was in the dressing room afterward when Ernie Terrell and Clay nearly had at it. Sometimes, this job is fun!

what's heard...

- 548 ALGERIA. Oran. Ends news 0121, male announcer; female introduces Algerian vocals. Noted with good signal at 0115-0145 10/24. (Richard E. Wood, 207 E. 16th, Bloomington, Indiana 47401)
- 602 FRANCE. O.R.T.F., Lyon. Noted with news 0115 10/24. Parallel others. (Wood, Ind.)
- 650 COLOMBIA. HJKH, Em. Monserate, Bogota. Assumed the Colombian noted briefly 11/13 1838 with St. Louis Blues. (Callarman, Texas)
- 660 CHILE. CE66, Nueve R. Chilena, Santiago. Noted with s/off anncts., anthem and gongs at 0004 11/7. Some QRM from WNBC. (Michael A. Silvera, 5, Grosvenor Heights, Kingston 8, Jamaica)
- ALASKA. KPAR, Fairbanks, hrd 11/7 @ 0419, w/pop music. (Randy Seaver, 2119 - 30th St., San Diego, Cal. 92104)
- 674 FRANCE. O.R.T.F., Marseille. "Inter-Service Jeunes" 0119 10/24. New here. (Wood, Ind.)
- +680 BOLIVIA. CP34, R. Mendez, La Paz. S/on MM 11/7 at 0410; at 0416 began a program "para Bolivia y para America" in what appeared to be an Indian dialect. At 0430, ID'ed as "Radio Mendez" and was in until 0450, with occasional QRM from 2KP and WAPA. Plays a short segment of a military march every 10 minutes or so. No time checks heard this AM, but MM 10/31 were EST +1½ hours, so apparently Bolivian DST is ½-hour advanced. Can't believe this one is only 10 kW, but that's the power in Feb. 1965, at least. (IRCA/Berkeley) Good signal after KNER s/off 11/14. Started long-play tape at 15/16 ips at 0100, got three hours of KNER, but one of this one. WAPA ahead most of time, and couldn't adjust the loop in my sleep. Where says "La Paz," seems to put emphasis on the "La" in the Indian dialect. WAPA, by the way, is using "Emisora Musical" slogan instead of "La Voz del Caribe." (Jack L. Keene, 4902 Eppes, Houston, Texas 77021) Logged 11/14 from KNER s/off to 0454, with WAPA looped out. Had hoped for s/on anncts., but apparently 0410 11/7 was late. Played two long-plays during first half hour, with only annct. at 0407. Had 20-second march IS at 0431, 0441 and 0450, interspersed in this period with talk and music. A time check 11/7 at 0438 ended with "veinte dos minutos", so I think it's on the even-hour now, at least. Signal was fair to good 11/14, but the Indian dialect, words like "Hal-ka-wa", etc., makes understandability nil. A few Spanish-like words creep in, a la Papiamento. I will support any anthropologist who relates Andean Indians to Oriental forebears, based on my observation of music and language. (Callarman, Texas)
- PUERTO RICO. WAPA, San Juan. SSB s/on at 0415 on 10/31, then a program of commentary. Music past 0430. I sent a taped report. (Gray Scrimgeour, 1105 Virginia Way, La Jolla, Calif. 92037). S/on heard 11/7 at 0410 (as listed in WRTH). SSB at 0415, following a martial anthem. Good strength. (Seaver, Calif.)
- 720 EL SALVADOR. Circuito YSR. ID as "YSR a traves de su Circuito Nacional" noted through WGN 0007 10/25. (Wood, Ind.)
- 725 SURINAM. SRS, Surinam Bestg. Corp., Paramaribo. In very well 2035-2100 on 10/24. Heard every evening since. Strong. 50 kW. (Alan Merriman, P.O. Box 6, Fairfax, Va. 22030) First noted 2210 10/26. Last ½-hr. is in Dutch. S/off annct. at 2227 includes, in part, "U luistert naar Radio Suriname uit Paramaribo, Suriname, op 725 kilocycles. Die studios van R.S. zijn ... in Paramaribo." Closes with two verses of "Brahms' Lullaby" at 2230. (Wood, Ind.) Heard 11/7 at 0438-0450 when bad atmospheric noise cut it down. (Seaver, Calif.) Telephone call to FBIS confirms "S.R.S.," (Stichting Radio Omroep Suriname) with 50 kW as station here, an advantage of living in Washington area. (Roger A. Anderson, 913 N. Larrimore St., Arlington Va. 22205) Noted nightly at 20db over S9. (Jeff H. Ross, 125-12 Cronston Ave., Rockaway Park, N.Y. 11694) Good 11/13 1843 with man in Dutch. (Callarman, Texas)
- +730 PANAMA. HP5C, R. Miramar, Panama. With good signal at 0230 11/5. Lively music and male announcer. (Silvera, Jamaica)
- 750 JAMAICA. J.B.C., Point Galina, logged on 11/9 1755-1815 with WSB looped out. Very good signals. (Merriman)
- 760 PANAMA. HOKO, LV del Istmo, Panam, with ID at 1800, then religious pgm; weak. Heard 11/6. (Silvera, Jam.)
- 773 SPAIN. R.N.E., San Sebastian. Noted with best signal this year 0110 10/24. (Wood, Ind.) Heard around 0102 11/15. No sign of Radio 3-9-0. (Jody Coles, 315 Bremond, Houston, Texas 77006)
- 780 BARBADOS. R. Barbados, Black Rock. Good signal 11/7 at 0422, with IS, then s/on at 0430. In (I presume) with religious program at 0502. (Seaver, Calif.)
- CUBA. CMJN, Camaguey. Heard MM 11/7 around 0415. Not heard before this time. (Coles, Texas)
- JAPAN. JOIU, Muroran. Heard NHK pips 11/7 at 0600. (Seaver, Calif.)
- 795 GUATEMALA. TGO, LV de las Americas, Guatemala. In very well on 11/3 2015-2045. (Merriman, Va.)
- 805 ECUADOR. HCFV1, Canal Tropical, Quito. Weak SS 11/6 at 0450. (Seaver, Calif.) Best signal yet 11/14 0309-0317. Time check this segment still off. Consistent here past three MMs. (Callarman, Texas)
- 818 ANDORRA. R. des Vallees, "Ma Michelle" and other French pops 0108 10/24. (Wood, Ind.)

- 835 HONDURAS. HRSP, R. Moderna, Tegucigalpa. Better than previously 11/14 0111-0123 when carrier appeared to be cut in middle of record. (Callarman, Texas)
- 840 COLOMBIA. HJBI, Ondas del Caribe, Santa Marta. ID and s/off with "El Himno Nacional de la Republica de Colombia" at 0004, noted 10/25. (Wood, Ind.)
UNID. SS here 11/6 at 0459 s/on, too weak to get ID. Cuban? (Seaver, Calif.)
- 845 UNID. Noted 0020-0040 11/10, a carrier, but no detectable audio. I know who I want it to be! (Coles, Texas)
- 854 PERU. CAX4A, R. Nacional del Peru, Lima. Logged 11/11 0015-0058 s/off with Natl. Anthem. RNE carrier on at 0023 & used slight het. Fair signal. (Merriman, Va.)
SPAIN. R.N.E., Murcia. In addition to numerous early morning loggings, is noted afternoons, e.g. at 1800 10/28. (Wood, Ind.)

Gentlemen, Ye Ed has just four more issues til Gordon Nelson takes over the column. I hope we can fill the next four with the kind of DX NRC'ers have been looking for in this IDXD column. By the way, have you noticed one thing about the IDXD column this season? The usual domination of same by DX'ers in Pennsylvania, New Jersey, New York Connecticut and Massachussets has diminished considerably. In fact, I'm getting a mere trickle of report from the Northeast. I wonder if it's a REVERSE psycholggical cascade effect!! Let's change that for the final four issues under my domain, huh? --- And let me leave the remainder of this space for R.H.C. -- 73, JAC.

ANOTHER HOUSTON MEMBER !! We are pleased to extend a most cordial welcome to the newest member of our growing organization - - from Houston - -

BILLY CAMPBELL, 7503 ELBERT, HOUSTON, TEXAS 77028

also a very large WELCOME BACK to

MIKE BUGAJ, RMSN, USNCS, BOX 40, MOROCCO, FPO NEW YORK, N. Y. 09544.

Mike writes "...it's been a year since my membership expired and it feels great to be back. I'm stationed at the Navy Communications Station here in Sidi Yahia Morocco and the tour id for 15 months. DXing on a 13 transistor AM/FM/SW I bought at Sears in San Diego. There are seven stations audible here daytimes on ECB; Rabat 701, Sebaa Aloun 602. Evenings are better but the band still isn't crowded. BBC 647 would have to be my best. If I can help any DXers back there I'll be more than glad. (Glad to have you back in active ranks again Mike, and be sure to send in reports of your doings. It's always interesting to read of our members from distant places.)

We also acknowledge receipt of dues from JEFF KADET, CHARLES RADER and LEWIS REWALD.
