VOLUME 36

MARCH 1, 1969

NUMBER 20

## Neither Rain Nor Sleet...

Can usually keep our printer from completing DX NEWS. Two weeks ago we had a very heavy snowstorm; we're currently experiencing the worst storm in New England history - and it's still falling at an inch an hour. There are reports that a glacier has begun to form on Beacon Hill and that mammoths have been sighted on the Boston Common. There has been no mail delivery for 5 days and this issue will go out late without a doubt. Last week's issue, dated February 22, was mailed at 2230 on 2/21.

## GPC needs you!

Jerry Starr reports that as of 2/25 the number of Specials arranged by the various clubs stood as follows (joint tests credited to each club, no credit for no show specials)

SRC	IRCA	NNRC	RLA	ASWLC
25	17	9	4	1

Jerry still needs more GPC workers, particularly in the West and part of the country. If you're interested just drop him a note and you'll receive full details and information along with GPC stationery; his address is on the back page.

## COMING SOON

We've finally put the finishing touches on our latest model BB111 super antenna and now have a perfectly stable model that can be built without special equipment. The new design incorporates several unique features never before incorporated in a loop, and its performance puts all previous versions to shame. It's good enough to knock out the strongest local, and gain from 10 to 100 over what you're using now. We logged WBBM last MM on 780 with the antenna by just connecting a crystal diode across the output and running that antenna as a simple amplifier. No radio necessary... the gain of the antenna is high enough and the tuning is so sharp that the antenna operates as a fairly good antenna when used as a crystal set. Detailed plans to appear in DXN as soon as the copyright clears. Washington. GPN

AIRMAN SAYS WE'RE FLYING HIGH

"DX NEWS and NRC in general have really progressed to professional status. Keep up the good work!" - A 1/C Doug Lamerson, Travis AFB, California.

NEW MEMBERS

JOHN H. WHITE 3634 Montclair Drive Jacksonville, Florida 32217
FELIX BRUCH 4305 Eighth Avenue Kenosha, Wisconsin 53140

SPECIALS

Table with columns: Day, Call letters, Frequency, Location, Power, Time, and Notes. Includes entries for Sun. March 16, Mon. March 17, and Mon. April 7.

CONGRATULATIONS

To Mr. & Mrs. Larry Godwin, on the birth of son David, on February 15th. If the young Godwin is only half the DXer his dad is, he'll be a wow! Our best wishes to the happy parents and to the newcomer!

CHANGES IN STATION DATA - FCC

NEW CALLS: 730 C K G A Gander, Newfoundland; 740 C B N M Marystown, Newfoundland. FACILITIES: 800 C J J C Langley, British Columbia, to 10,000 U-4, from 1,000 U-4.

A member who did not sign his work sent in some f/cs listed by members in DX Down the Dial and Musings of the Members which are not in Joe Fela's NRC F/C List. He typed or rather, hand-wrote them, and here they are:

Table listing various radio call letters, frequencies, and locations, such as 1430 W N A V Md., 1480 W A F T Mich., 800 K D D D Tex., etc.

We remind you that DX NEWS is yours - please join with the active members and write to the various sections!

Make those long-range plans NOW so that you won't be caught short... are Aug. 29th, 30th, & 31st, & Sept. 1st. It will be great fun, so make yourself a part of the festivities. Arrange for that vacation time NOW! It's never too early! C U N 7.

MUSINGS of the Members

MARTIN BLUMENTHAL - 10 Cutler Street - Worcester, Massachusetts - 01604

DX for the most part continues to be rather poor what with the Aurora & a horrible noise problem over the entire band. I think it's from a blinking traffic light, which raised all kinds of havoc the same time last year. (Why don't they get the blinking thing fixed? -ERC) DX as follows: 2/8- UnID TT u/CKIM-1570 @ 12:03am, 12:06-12:30 c/w mx o/u WCKY-1530, but no ID. I suspect WTTI as the only one w/enough power to really bother WCKY is WTTI. WKID-1580 r/c good @ 1:15. 2/9- WKAT-1360 dominant. Some weak mx there but no real sign of WLAW @ 3am. 2/10- BLIZZARD! Many locals & semi-locals on past s/off times, good for others, bad for me, hi. Somehow I did get a log on KLIF-1190 w/heavy WHAM slop @ 1:30. Only sign of KGYN DX was a weak TT on 1210 from 3:02 to 3:10, but no IDs. Were they on? 2/11 - The best Auroral CX of the season. WKBX-1500 o/WTOP @ 5:34pm. WTLK-1570 completely clear @ 5:51. WAGL-1560 s/off @ 6:15 u/WQXR. WAAY RS @ 6:23. 2/14- WJDY-1470 @ 5:30pm. WCMB-1460 @ 5:31. WLBR-1270 finally enough for a report 5:33-5:42 carrier cut. 5:52, WKYB-1000 alone. 6:01, WBAM-740 as usual too weak u/CBL for a report. MM 2/17- Auroral CX & my noise problem made this session a bust except for one curious item. From 12:49 to 12:55 I heard an ET on 1560 w/c/w. I couldn't catch call but gave location as Middlesboro, Ky. & power as 1,000/500. I know it isn't WDXR but WKDO doesn't figure either as they're supposed to be 250w. D. A new one? (Listed in Changes in Station Data in 1/25 DX NEWS as 1,000 D-1 -ERC) Only veries have been WSAW-1470 KLIF-1190 Honduras-834 & Barbados-780. Anyone have v/s for WFNC-940 WGTU-870 KHEY-690 WBYS-1560 WGOO-1090 & WCBG-1590? Any info will be most appreciated. Local WNEB-1230 is in deep trouble. Building on which site their XR sits must come down for urban renewal. They need \$75,000 for new facility construction & can't get a government loan. They may have to leave the air. Right now they're AN-7 & tower is a mile from me. Glad to see them go, hi. 73s from Worcester's finest (and only) DXer.

JOE FELA Jr. - 167 Goodwin Avenue - Newark, New Jersey - 07112

Recent veries are v/l's from WADE-1210 & WSIV-1520, v/l's from WREO-DX-970 & WKGX-1080, & a v/q from WCAP-1400. Recent DX: 1/20- 1:36am WSIV-1520 ending f/c-mx; 1:39 KIRL-1460 ET/mx all AM; 1:56 WMNI-920 ID on ET/OC u/CKCY; 2:09 WIRE-1430 ending ET/mx, very strong; 2:20 ET-1590 w/old rr, seemed to give an ID at this time but some electrical noise killed it, not WAKR or WEEZ as WEEZ started to come in I&C a few minutes later, who? 3:12, KECK-1530 TEST weak w/continuous IDs, 3:30 KGA-1510 apparently at s/off u/CJRS. 1/21- 12:13am, WCAP-1400 r/c-TT w/IDs every minute. 1/25- 2:02, WROL-1490 in the mess. 1/27- Midnight s/off of a Va. station on 1230 to return at 5, best guess is WODI. Is this their sked? (WNOR, no? -ERC) 12:10 WOR-710 off, XMP almost certainly the SS on the channel; 12:20 WYNS-1150 r/c-TT; 1:25 WCVU-1350 on, NBP? 1:31 WRDW-1480 on top, seemed to mention ITERS; 2:27 KPRC-950 first noted on NBP, much stronger here than WLOF ever was so now the channel is shot for sure. 2/1- 12:08 CHOW-1470 s/off, very strong; 12:24 WBSA-1570 TEST much easier than expected; 12:38 WKGX-1080 ET c/w mx u/WTIC but o/KHLD; 1:01 s/off of an FCC on 1450, probably CHEF; 1:12 WSHN-1550 r/c-TT; 1:56 WMOF-900 ending ET/mx; 2:08 WSEW-140 noted. 2/8- 1:38am, WCVL-1550 finally reported; 1:54 WCOP-1150 fairly strong & on top, rare. 1:58, TT-1480 ending, said audio tests, call sounded like WGSB except for last letter so tentative to same. 2/10- No KGYN/KOWB DXes, and WFAS-1230 WDRC-1360 WPEA-1370 WPOP-1410 AN for snow to boot. 2:51am, WDEM-1500 ET/c/w; 3:30 continuous mx on 1600, no IDs, a guess would be WBOB - was it? WWRL was off or on OC for most part. 2/13- 12:15am, WOTR-1370 f/c-TEST; 12:20 WNEW-1130 on OC only. 73 for now.

AS THEY SAY IN HUNTINGTON, WEST VIRGINIA, "WHY." "WE'D WELCOME HEARING FROM YOU." REMEMBER TO DOUBLE SPACE, PLEASE, and OUR 30 LINE LIMIT. DEADLINE EVERY MONDAY.

March 1, 1969

PAUL K. HART - 2105 Muse - Fort Worth, Texas - 76112

I would like to use v/tp to indicate reception of a station on tape w/call clearly heard & either frequency or location clearly stated. I re-run these onto a master tape which is kept along w/the list of stations claimed. I broke one of my own rules, & stayed up MM until 2:30 on 2/10. I have only been DXing from here since 12/1/68, but even so, I logged ten new stations. Since tape is used, all times are approximate. 2/10- KXEL-1540 in w/no sign at all of ZNS. WKBN-570 very nice signal when WFAA s/off. KCLIS-600 s/off, weak but good tape; about my best for 500w. KLZ-560 had solid signal for full tape of s/off. WIOD-610 IDed while testing w/OC. Without the tape I never would have caught it. WCCO-830; I waited until now for a tape without splatter from WBAP. KRMG-740, first time here because of their wild pattern- very weak, again I couldn't have caught it without the tape. KCBS-740 w/tremendous signal after the frequency cleared up after 1:30. Their pattern is a monster w/285kw. equivalent radiated bearing 147° true. WOR-710 on w/beautiful signal until MHB came back to TT @ 2. WGBS-710 on w/OC, voice ID @ 2:30. WGBS surely didn't have their might pattern in. I wrote letter to CE asking him what was being used. I have two DX setups that can be used to monitor frequencies AM. The SX-28 & loop are connected to an old TRL-A; I can get about three hours @ 3 3/4 ips with 3,600'. I also have a Fisher 90-T on a longwire w/an Ampex 750, I can get six hours @ 1 7/8 ips w/3,600'. Both setups use timers to turn on & off at preset times. On 2/11, v/tp KWHN-1320, KGKL-960 & WBRC-960, regionals on a night when things were pretty dead. On 2/12 I got WOC & KTOE-1420. KTOE topped through at s/off for acceptable v/tp. WOC s/off @ 1:40, not 1; phone talk program starts at 11:30pm t/s off. 2/15- KCBC-1390 & KTSA-550. Card from WNOE-1060 says they are off 1-6:30 MMs testing both patterns w/5 & 50kw XRs, OC w/IDs, also test lkw. standby XR on both arrays using TT. No RS, but if TT is used, the standby XR, lkw, is being used. Next time, about trip to North Carolina, 2/12 & 2/13.

GEORGE B. SHERMAN - 104 Pinewood Circle - Rosemount, Minnesota - 55068

I haven't sent in a Musing for a while because I've been busy w/DXing, writing reception reports, writing to members, CPC work, making new list of stations heard (all 631 finally re-copied after a month or so), plus going through old issues of DX NEWS to type of mx played by stations & verie policies, which I made notes of throughout my NRC Log. The CPC work has been fairly disappointing, as I now learn that most Minnesota stations have annual PoPs from Oct-Jan & all other tests are unsked, so three-four weeks is impossible. Maybe this Fall we will have some Minn. ETs. KPCR-690 said they were planning an ET soon & would use TT, but the CE said they would add some mx (c/w) & mention the NRC in a special DX TEST for us coming up soon (I hope.) Th CE said he would call back when the exact date & time is decided. They are directional towards Seattle & NYC. I think they should be heard from coast to coast as only US interference is WFIX/WAPE. DX on 1/18- WKDA-1240 Tenn. w.rr @ 2:47, this must be my unID heard MM 12/30. 1/20- KIJV-1340 SD @ 11:59, a surprise as CX were poor, & KROC much closer. 1/21- KSIB-1520 Ia. @ 5:33. KOIM-1520, Rochester's c/w station, really does reduce power from 10 to lkw. two hours before local SSS. I can sure tell it here as KOMA is usually heard u/o them shortly thereafter, so I guess that's who they protect. KOMA says they cover 22 states at night & I believe it, always strong here. KCTA-1030 Tex. claims a coverage area of 26 states, & they operate daytime only! 1/23- KCCR-1240 SD w/rr @ 7:10-7:45pm, almost as strong as my 50kw local WDGY! Also little fading & I'm 350 miles from Pierre. No verie yet. KPWO-1030 Wyo. @ 8 w/NBC NX, after just reading about all the places they received reports from in Richard Wood's Musing. 1/22- KNDY-1570 Kans. @ 6:18. 1/24- WSPT-1010 Wis. @ 8:45am before WJSW/KSMN s/ons. 1/25- WDBQ-1490 Ia. heard finally w/rr @ 12:05 after KIGR 12 s/off; WXYZ-1270 Mich. @ 1:15; KSND-1590 Wash. u/WAKR w/rr (both). 1/26- WSMI-1540 Ill. @ 6 s/off; KWHN-1320 Ark. I&C w/c/w @ 6:25. 1/27- WSDR-1240 Ill. @ 6:45. 1/28- KNEI-1140 Ia. @ 8:23am w/weak & fady signal before WDGY-1130 power/pattern change; KBRK-1430 SD @ 8:42. 1/29- KBTO-1360 Kans. @ 6:05. 73 till 7.

Louis!

AS THEY SAY IN COLUMBIA, MISSISSIPPI, "WFF". "WE'LL FIND FRIENDLY FOLKS" - at St.

March 1, 1969

ROGER W. WINSOR - 718 North Fremont Road - Valparaiso, Indiana - 46383

Well, my hiatus is long enough, now back to the Musings once again & I hope weekly. A change of jobs to a railroad in Gary put me on the extra board, & I worked 98½ hours in ten days, so not too much time to do anything! Such as it is, this is what I've heard in the last month: 1/17- WUFF-710 Ga. on SRS 6:34-6:45 when CKVM went 10kw. blotting them out. 1/27- Daytime DX saw WAFU-1600 Ind. o/WCOG, logged 1:19-1:48. Also I logged WAZY-1410 Ind. o/WRMN 1:56-2:08, severe WIMS slop, however. That same day saw KAGE-1380 Minn., one of my most wanted, in @ SSS 5:48-6 s/off. 1/29, I noted BHBS back on 834A again, nice to be able to listen to them again. 2/5- WLAS-910 NC surprise SSS 5:29-5:44 w/rr & local spots. 2/7-8, outstanding LA/CA CX, reported to Foxwirth. One good catch was XEAM-1310 Matamoros, Mexico, all alone! Where was WIFE? (Playing mah-jong -ERC) 2/8- WJMW-730 finally nipped on SSS 5:53-6:12 w/real southern announcer, hi. 2/10- March mx on 1490 1:20-1:30 which was WIGM, Medford, Wis. on f/c. Is this r/c? Good signal. WHK-1420 heard announcing s/off every third MM again for XR maintenance. Glad to get rid of them. Unk TT-1270 1:50-2 w/mx. IDed but het from KFJZ too much. It sounded like NY, so either WHLD or WDLA. (WDLA was ETing then, Roger -ERC) That PM I just happened up on WEBS-1110 Ga. wishing everybody a good night @ 6:30. I sure would have like to have gotten more. 2/11- r/c of WREL-1450 in weakly 1:10-1:15, not reported. Then newie WEKC-1560 O. 1:20-2 w/IDs only on ½-hour. Surprised that PM to log WBAC-1340 Tenn. 6:11-6:16 w/two local spots plus MBS NX. 2/13- I decided to attempt to verify WTVN/WDAF, both daytime regulars. Also logged WFWR-1090 Ind. 4:56-5:22 w/severe WNWJ QRM. hi. 2/15, brand new WAFI-1560 Middlesboro, Ky. logged on ET/mx 12:30-12:45. Later WGLB-1560 Wis. on for XR ET 1:55-2:04, both reported. Veries from WERX WJSM WJRM KDIM WPMO WJBL WUFF WJLA WAZY WJGM WJGM all v/1; v/g WACE CPBL. Totals now 2,421/764. So far I have sent out 109 reports since 8/1/68, 70 veries back. I need help on a few v/s: KRBB WCHS WYNZ WHHH WKNT KBAT CHAM WCRA WSLI KWFT KGNC KOAK KBHB. 2/15- KCAW-1510 Port Arthur, Tex. RS-SSS 6:52-7 s/off w/c/w, brand new. Address is 3333 25th Street, Port Arthur, Texas 77640. 73 till next.

MIKE BUGAJ - U.S.N.C.S. - Box 22 - F.P.O. N.Y. - 09571

Here it is, 2/12 @ lam, & I'm writing this as I'm DXing. CX have been Auroral I guess, w/Central Europeans all extemely weak, or just non-existent. It's now almost 1 & CBA-1070 is I&C w/drama program. BBC-1214 is fair & fading badly. CKOM-1250 Saskatoon is playing Leslie Gore S-5. They have WRKO-type jingles & format. R. Luxembourg weak. CKXL-1140 way o/AFN-1142, my strongest AFN outlet. Now it's 1:05am & Dolly Holiday is plugging her show on CFCN-1060. She must have a gigantic audience. Now 1:06 & CKSB-1050 FF coming in o/CJNB. CKY-580 now @ 1:10, my strongest, most consistent from Man. Greenland 570/650 very strong whenever CX are like this. Programs very little mx. 1:15am & CBR-1010 in strong. CPBL-1190 w/Top 40 in well @ 1:18. Does anyone know the call/location of Manitoba-950 IDing as CFAM /CHSM, heard 2/6 @ 9:07pm EST? That's CFAM's new frequency, ex-1290 -ERC) Now CFRN-1260 burying 1259 w/s-7 signal @ 1:22. Now WCFL-1000 Top 40 @ 1:40am, first time heard this Winter. Thule-1425/Sondrestrom-1420 both fair w/separate programming. Oh, the joy of not being bothered by semi-locals! C'mon to Iceland! I received the WRTH-'69 & the logs in back are great. DX NEWS' new shape is great, too! This is the biggest thing to happen to the NRC since I've been in the Club (1963 or 64). Now 3:10 & looks like the midwest Canadians have dropped out, replaced w/more eastern stations like WKBW WJR & more common Canadians from NB & Que. Tirana-1088 blasting in @ 3:15. New log in CJCA-930 IDs & contest 3-7 @ 3:20. WKBW & Prague-1520 battling it out @ 3:37am. Kuwait-1345 weak 3:40. Tirana-1394 pinning the meter @ slopping all over CJOC-1220 @ 3:45. CHQT-1110 Edmonton promo 3:15, good signal, new logging. CJOB-680 @ 4am. Remember, all times are Iceland Time - GMT. Well, I'm kinda tired, & I guess I'll go get some sleep. Good night, everyone, & 73.

BOB KARCHEVSKI - Box 342 - Belmont, Massachusetts - 02178

I finally got some DX to report. I received v/1 from WIAZ for a reception on 1/8/67. I really like the new-style bulletin, let a see more of those rare veries. Noisy power line limits listening to strong locals, so no DX. 73a.

March 1, 1969

DUANE GIESE - Box 69 - Columbia, Missouri - 65201

I missed sending a Musing in for the last few issues so I have a lot to report this time. 1/25-PM - KOSE-860 6, KOKO-850 6:15 w/KFUO malled out. KFRD-980 in I&C @ 6:32. 1/26 PM- WIMS-1420 5:05, KAWW-1370 6:17, KSTV-1510 6:45 s/off. MM 1/27- WLDY & WEVE-1340 r/cs heard I&C. CJVI-900 s/NX @ 2:59 but I didn't tune them in the morning before, just not in shape then, hi. WFDR-1370 ET 3:50-3:53 s/off. 2/1- WSSA-1570 TEST in fairly good here from 12:03 on w/s/off @ 1:17. KTRI-1470 1:07 s/off. WGNU-920 w/ET w/Jeanne C. Riley songs & carrier heard first at 1:25. CKBI-900 1:30. WMOP-900 ET o/CHML/CKBT from 1:40-1:57 s/off. WCBY-1240 r/c 2-2:15, TT heard good but I had to listen carefully to get the IDs. WSON-860 w/CBS NX @ 6pm, new WVOV-1000 Huntsville, Ala. w/NX @ 6:20. MM 2/3- None of the DX Specials heard but I did notice a TT on 790 when KBRV was to be on but not strong enough to cut up WTAR signal. WVJS-1420 1:01 s/off w/Old Ky. Home. KLWW-1450 in for a surprise w/s/off @ 2:01. KCPX-1320 2:28 which is not heard too much since WVOJ went NSP. KOLO-920 2:55. KLIR-990 w/test 3:38 & on. 2/8 PM- KSIB-1520 6:50 w/NX. KICA-980 7:24, KVOB-730 7:35, KAFE-810 7:40. All three NM stations in I&C just before s/off. 2/9 AM- WLAY-1450 2:05, WANS-1280 2:40. No WLAW TEST heard. PM, WRFD-880 6 s/off, WHNC-890 6:01 s/off, first time I heard WHNC in the PM. WENR-1090 6:06-6:15 s/off. WAPF-980 6:45 s/off. KNOK-970 6:51, WWJ-950 7, first time heard in a long time. KWDR-810 7:08. KPOF-910 7:14 w/WX. KCAD-1560 7:27 s/off w/NA. KMHT-1450 on top of mess @ 7:38. Since I've been in Mo. I found that Texas is the easiest state to hear as I have heard 90 so far. MM 2/10 not much heard. WLOK-1340 1:30 WOPA-1490 2:04. KOWB-1290 DX 3:07 in good on day pattern but not so good on night. Only KOIL noted at the time as WIRL must have been off. KGYN-1210 DX w/info about that part of the state. KGYN tested on their night pattern but still heard I&C here during the test time of 3-4am. LXXIII.

DAVE CARLSON - 516 Hickory Hollow - St. Louis, Missouri - 63122

Not too much to report, but I thought I'd better get in a Musing. I'm completely satisfied with the new offset printing & I think it's a great improvement over the former arrangement. Thanks to all the BPC for their fine efforts. A few new veries have straggled into here since last time. A round v/q from KWRC-940 for TEST for State #41 verified (also verie #300). v/1 from WPTL-920, WBHP-1230, v/q from WFBR-1300-DX, & a big surprise in R. Barbados w/a v/f several months after f/up. DX is just about nil save a few Specials. MM is the only time I do any DXing now at all because of a heavy workload from school. Plans are progressing steadily for the big-NRC Convention here in St. Louis at the end of August - start making plans to attend now. Unfortunately, Walt Breville will be doing the bulk of the work since we'll be moving to Springfield, Ill. in June. A big thanks to Bruce Reynolds for the nice time at his place back in January. Ernie, the METS may rhyme w/the JETS, but don't expect any miracles from them - wait'll St. Louis gets a hold of 'em, hi. Better run, so 73s. Keep up the good work, Ernie! C U in St. Louis!

KEN LYON - 5155 South Newstead - Akron, New York - 14001

Not too much luck on the Specials, in fact, none heard. WLAW not heard, even after WSAI s/off @ 3. KOFO & WONS not heard. Recent DX includes: 2/8- WXVA-1550 s/off @ 5:45pm, no SSB. 2/9- WJOY-1230 heard @ 1:29am o/u WCUM for my third Vermont & a welcome one. 2/10- KXRA-1490 heard on r/c-TT, in good for half hour, WPUV-1580 s/off @ 5:58pm w/SSB. 2/12- WFLI-1070 ET/mx @ 1:30-1:45, ID after each selection & quite strong. WEEP-1080 heard @ 1:39-2:30 w/ET/TT o/WVIC. 2/13- WCOY-1580 12:46-1:03 w/ET/TT, WEEP-1080 heard again w/ET c/w, 1:17-1:32am. 2/15- WKBA-1550 heard 12:56-1:20 w/ET/TT & very loud. Only one verie this week, WCHI-1350 Chillicothe, O., friendly v/1 for an ET heard here. Why doesn't the NRC list the names & addresses of its new members as it used to do? C U later. (No sooner asked than consumated, Ken - ERC)

LET'S SEE EVEN MORE OF YOU IN MUSINGS - DEADLINE IS EVERY MONDAY. ALL THE ABOVE TO THIS POINT (4 pages) RECEIVED IN BROOKLYN ONE DAY LATE FOR THE 2/22 DX NEWS, on 2/18.

March 1, 1969

RALPH B. SPERRY - 320 Warner Hill Road - Southport, Connecticut

I have been rather inactive during the past year, adding only 14 verifications in 1968, mostly nearby stations but including one long-sought, St. Pierre & Miquelon. My totals are 1,586 & I enjoy comparing figures with Frank Wheeler as we pass each other at a slow pace. I started DXing in 1933 and collected 382 veries before the war. In the years 1948-54, when we were getting up nights w/ babies, I became quite active and pushed my total to over 1,000. After moving to a new home, I had two good years in 1959 & 1960. Prior to 1958, I did little foreign reporting, having only three good catches, Hawaii, England & Brazil. During the 60s I have been concentrating on adding countries, picking up France, Portugal, Germany, Albania, Monaco, Senegal, Uruguay, Ecuador and others. Foreign reception, especially TAs, has been bad for the last two years. Thanks to Ernie Cooper and the rest of the crew for an outstanding job.

DAN PHILLIPS - 3809 Thomas Road - Apt. 3 - Huntsville, Alabama - 35805

Latest DX heard is as follows: 1/27- WMIS-1290 s/off 6pm. 1/28- WYXI Athens, Tenn. heard on f/c 12-12:05 & this is an r/c. That PM I sent report to YND-675 for reception at 10:30pm. 1/30- KXOW Ark. heard RS @ 6:15. 2/1- WRTH-590 heard on AN show @ 3:57am thanks to tip from Chuck Hutton in Atlanta. I went through Atlanta & talked to Chuck on the phone & when I told him he talked to ERC's mother on the phone, he didn't believe me, so how can we convince him you are not married, Ernie? (When we start printing members' pictures, Dan - he'll see NO hag-gard look on my face, hi -ERC) (Unless it's taken on a MM) 2/1, r/cs of WEZJ WKDO WDOC (yep, you had them, Ernie). Only new one was WKDO & had a hard time w/Wonderful WAAY booming in - boo hoo. How many of you have ever noticed on the f/c list that several stations from same state test on same morning? For example, the WEZJ WKDO & WDOC r/cs, all in Ky. Maybe if we listen with that in mind when trying for f/cs we could find some more stations. 2/3- I heard KBTA-1340 Batesville, Ark. on ET @ 2:02. Verie says the wish they had some of this Alabama sunshine, hi. It's rained straight for two weeks. 2/10- WDEM-1500 Macon, Ga. ET @ 4:05-4:15am w/same song over & over. CMKP-670 R. Progresso s/on @ 4:30. 2/11- KBOK-1310 s/off 7pm, KYAL-1600 s/off 7:15 & KUSH-1600 s/off @ 7:19. 2/13- KVOL-1330 RS @ 6:50-7. 2/15- WGOW heard 3:31am for call change. Finally KPWB heard while typing this @ 6:30pm on 1140 o/WRVA for #1,374 heard & 546 verified. New veries in from WJPF-1340 Ill., WYXI Tenn., KBTA Ark., & YND-675 Managua. YND received in ten days for a new record here, hi. Best of DX & see y'all in ST. LOUIS. Charles Reh, you had ZIZ because GPN heard them at the same time, see IDXD #17.

LARRY GODWIN - 5421 South Clinton Court - Englewood, Colorado - 80110

Greetings from the Denver area. The DX NEWS is looking very good, with the new offset format & I offer my congratulations to Gordon & Phil, particularly, who have made it possible. The bulletin generally arrives Mondays here and there is no problem with smudges on the outside pages. DX has been particularly good to deep SA during the past few weeks w/definite logs on CB04-840 & CB118-1180 as well as LV3-1210 (thanks to Glen Hauser's tip) all between 405am EST. Also CP57-1090 was in well in January every MM, but has been poor in Feb, also 4-5:30. Tentatively LV7-900, CX14-810 & LRA-870 have been heard during the same time period. In the Denver area, KOA-850 is AN-6 (off MMs @ 2) & KTIN-1280, KBTR-710 & KDIEN-1340-HI are NSP. KEIN shuts down once a month or so, though. I hope the good CX of this season continue through May-June when some DUs might come in. Good DX.

ANDREW F. RUGG - 16 Lake Breeze Avenue - Pointe Claire 700, Quebec

The Three Rivers, Que. station in 1150k is now using the call CJTR. It was formerly CKTR. I noted the switch at 3pm 2/16, for my 1,438th station logged. The only new verie is CJSA-1230. 73.  
WHEN LISTING NEW STATIONS ON THE AIR - KINDLY GIVE THEIR FREQUENCIES AND LOCATIONS SO THAT WE CAN PLACE IT IN THE "HEARD SINCE LAST ISSUE" COLUMN AND GIVE IT COMPLETE BILLING. WE DO NOT WISH TO TAKE THE TIME OUT TO LOOK THIS INFORMATION UP, SO WON'T YOU PLEASE SUPPLY THE FULL DATA? THANK YOU! DON'T FORGET TO MUSE REGULARLY!

March 1, 1969

JOHN SAMPSON - 4148 Wycliff Drive - Winston-Salem, North Carolina - 27106  
 Limited efforts have netted on 2/3, WKYB, Hemingway, SC, 7am s/on w heavy WKDE QRM. 2/7- WHBG-1360 Harrisonburg, Va. r/c to 12:15. 2/9- WRNC-1240 Raleigh very weak @ 2pm u/WIST. 2/13- WQIZ-810 St. George, SC 7am s/on w/WCEC/WKBC QRM. 2/16- WIXE-1190 Monroe, NC, in WSHL's null, WREV-1220 Reidsville, a semi-local, & WKMT, Kings Mountain, way beneath it. Latest veries include WTLN WJJK WKRB WKYB WLOD WHBG WNCB, & on f/up WLVA WKJK WCVL WASP. Total verified from NC now stands at 101 & combined with totals from Iowa, Nebr., Mass., Minn. NJ & Cal., grand total is 2,160. I haven't bothered to keep a "heard" list since my pre-verifying days in Des Moines, since it's not worth the effort involved. No PP/cs in the collection either - not because I don't think they have a place (if used judiciously), but because I think that, sooner or later, any given station will verify due to ownership, personnel change, etc. While on that subject, I logged WHOT in 1961 during their non-verifying days while they were on 1570k. Jerry Starr; do stations usually keep their records that long - eight years? 73.

JOHN W. HOOGERHEIDE - Box 941 - Marquette, Michigan - 49855

2/8- KFYO-790 w/Texas Tech - TCU BKB game 9:20pm. 2/9- WSWW-1590 s/off 11:30pm. 2/10- WING-1410 off today; WKBH/WPOP on 1410 for a good log from a rare state; CJRL-1220 all alone w/cl mx till 1 - a good bet here MMs; KWNO-1230 s/off 1:01 w/SSB, for Minn. #61; KLAQ-1600 an ID @ 1:30; WBKC-1560 playing pop mx & testing 1:30 on; WQUA-1230 f/c-TT 1:45-2; WDLA-1270 w/dance mx 1:45-2 ID; WPEW-950 @ 2:03; KTFI-1270 again s/off 2:13. This is still the best bet for Idaho boys. KHON-630 ID @ 2:35; KWMT-540 w/NX 6:05pm; WKRA-1110 s/off 6:43; WOKZ/KUXL-1570 s/off 6:45. 2/11- I had KWAD way atop 945k w/BKB for Minn. #62, leaving only KRAD-1590 KRMB-1410 WMKT-1370 KRBI-1310 & KCUE-1250 to complete Minnesota, from a non-graveyard basis. WVNA-1590 ID o/WAKR @ 10pm. 2/13- WDUZ-1400 ID briefly atop mess @ 1am; CTPA-1230 s/off 1:05; CFCH @ 6:30pm w/rr. 2/14- WNBFP-1290 w/Lackawanna BKB @ 9pm. 2/15- WKBA-1550 "KB Radio" on air 1:45 onwards w/mx & ETs, lots of IDs. 2/16- KATE-1450 ID 10pm, said ABC (not listed in NRC Log) & serving So. Minn. and No. Iowa. Boy, these CX the past two weeks have been so bad as to be unbelievable. Many nights the graveyard channels have been absent of stations save logs 70-80 miles away - ALL ALONE! Evenings these are never audible. Tonight the dial is a mess of nothing. Many frequencies had an absolute nothing! Only new log was KPRC-950 on AN c/w show per NRC tip, @ 3am.

DAVE WHAIMOUGH - 284 Main Street West - Hamilton 12, Ontario

Feb. 15 DX NEWS received today (2/17) but still no 2/8 bulletin as yet - I guess it's lost in the Boston snowstorm. DX has slowed down a little due to poor CX in this area, with graveyards sounding like clear channels at midnight. Since last report: 1/25- WALL-1340 had ET w/TT 1:34-1:36 s/off L&C. 1/29- WNAX-570 s/off even w/WKBN @ 1. 2/1- WSSA-1570 fair w/XERF/CKIM/CFOR for TEST. WJAB-1440 ET w/TT 1:05-1:15. MM 2/3- WFTC-960 r/c along w/WBRC the only items worth mentioning of the entire morning. 2/7- SSS log on KNOE-540. Strange, the only frequency affected. All others like daytime CX. Anyone got an explanation for this? 2/17- New WAFI-1560 Middlesboro, Ky. seems is now on the air, ETing w/TT & c/w mx from 12:48-12:55 w/signal o/S-9, stronger than WQXR's ET who were on at the same time w/OC. Veries since last report have slowed down also, #599 received today after two reports & f/up, a v/1 from CKPM-1440. I wonder who will be #600? Other veries: v/q- WCBI WNAX WAPI CJIC WOC. v/1- KIOA WJZM WSGO WSWW KPLC WFTC KNOE. v/f- WORD. A verie from WJAB on page of steno notebook. I am looking forward to seeing the plans for the PET loop booster. I have a copy of one from the last issue of Radio-TV Experimenter, but something tells me the one GPN has will be a little better.

STAN MORSS - Route 3 - Bradford, Massachusetts - 01830

2/4- WKPE-1550 Yauco PR "R. Cafe" easy on AN show, 3am, faint EE QRM.

WLIX-540 reported C SSS, some CBT QRM. 2/10- R. Nueva Continente-1460 Bogota AN show, copied nice signal w/two popular US selections. Verie, WQBA. 2/13- (con'd)

March 1, 1969

(Stan Morss) A R. Cadena Nacional AN on 990. (HJDB, Medellin -ERC) WNEW off w/SS through OC, not able to ID. Pretty v/q photo of station from WKFE.

GENE DeLORINZO - 35 Sylvan Drive - Hyannis, Massachusetts

Hi. A little DX done here lately on my broken-down SX-100 and a friend's S-38 D. Only one newbie in Jan., WFLR-1570 @ 5:03 s/off, on 1/3. Also, KFI was heard on 1/11 u/CMQ @ 12:27 w/BKB - Second time heard for this one. 1/31 was one of the better low-band TA days I've heard, although no one else mentions anything good on that day, except Aurora. I heard some good signals on 638 647 746 872 1007 & 1115 along w/the usual ones. 2/1- WBRE-1340 2/12:11am s/off. WKBN-570 most-wanted station finally heard 12:24 w/c/w. WHIO-1290 12:32. WBXY-1590, new call, 12:35, WHEC-1460 1:05, WPIM-1470 w/ET/mx 1:15-1:30. WSHN-1550 1:18 r/c-TT. 1550 was a mess all AM, from 12:30 to 1, there was an OC & a couple of ETs, one w/a comedy record. No KOB, hi, ERC! 2/11- WQXL-1470 @ 5:42, WONS-1410 w/6:30 s/off faded in while I was listening to EPOP, WM00-1550 6:31, plus unnn WBSC-1550 @ 6:33 after power cut, I guess. 2/13- Good Aurora that AM. WRKT-1300 @ 1:35, HJAZ-1160 w/Emisor Suni ID @ 1:55, w/TCS a couple minutes slow. 2/14- WKAJ-900 s/off 5:31. MM 2/17- A lot of static and Aurora but a few weird things happened, such as Tirana -1394 S-8 @ 12:04, 1457 was in too. How does this happen w/such strong Aurora? SSSes on 1157 & 1162 12:15. Unk SSSs on 1260 @ 12, 12:30 & 1:30, any help? XERH-1500 w/ID 1:01, WNKY-1480 w/r/c-TT 1:22. WFIN-1550 w/"Frequency Deviation Tests" @ 1:46. KWLA-1530 r/c-TT 1:50, WAAO didn't show though. KQV/WING both on, so no chance at KWYO. Nothing else heard, except static. I heard Argentina-1070 on Marc's HQ-129-X. Unfortunately, my SX-100 doesn't go below 1080, so I couldn't get a new country. Totals at 858 heard from 41 states & 42 countries. Support CPC! 73\*

CLIFF RENO - 75 Parish Road - New Canaan, Connecticut - 06840

Greetings DXers. Before I start out I'd like to compliment all the people concerned with the new DX NEWS format, & a special thanks to Ernie Cooper! DX not very good, mainly due to QRM & WK. SRS-725 must have a lot of extra time on their hands. I caught them on 2/11 playing Iron Butterfly's song "In-A-Godda-Da-Vida". It's 17 minutes long! New things: MM 2/16 (2/17? -ERC) YVKS-750 XERB-199Q Dang static, I couldn't get IDs from SSSes on 580 1070 1100 1210 1220 1590. Veries: v/q- CHUM-1050 WISN-1130 (new state!). For thr CPC, I wrote to WACE to TEST but while reading the past few DX NEWSes, I noticed that they just recently had one. When was it? (12/16 -ERC) 1/18, I received a v/q from WHAM saying the station I heard on 1180 was not they but a strong second harmonic of WROW (590 x2; 1180). 73. (Cliff, write Ray Moore, 116 Walnut St., Walpole, Mass. 02081 about the items in NRC New Member Kit you mentioned -ERC)

CHUCK HUITON - 1521 Fama Drive - Atlanta, Georgia - 30329

It's about time I dropped a note after making FIVE straight bulletins in a row late De. & early Jan. CX have been average; most of my newies are daytime. Today I took my third class exam & passed to get a job at WOMN Decatur on weekends. This shouldn't hurt my DX any, but it sure would help the old wallet. They have NEVER received any reception reports out of the Atlanta area so let's try to pick up their 6:15 s/off. 1/19- WKLY0980 Hartwell, Ga. in from 1:45-1:55 w/religious mx & WX. WGOG-1000 Walhalla, SC w/Viewpoint from 1:55-2:03, NX @ 2, followed by funeral notices. WVOV-1000 Ala. w/rr. WENR Englewood Tenn. 2:30-2:45 w/grocery/pharmacy ad, then NX. Congratulate me NRCers- that was #500, w/totals rapidly climbing. As of 2/18 they are 519/57 US. WGHG-1570 Ga. in w/3:30 NX from UPI, then pop mx. WJJC-1270 Ga. @ 3:01 w/Al Hirt & then light mx on Musictime program. WORG-1580 SC s/on 7:30 1/20. 2/1 brought the WSSA TEST I arranged. Veries will be sent only to those who mentioned the weird sound effects aired. These include gun shots, screams, car wrecks, etc. The CE will make out a v/f to be sent to all sending reports late this week. The WAVO TEST was not on & reset for 2/24. Please send good reports & everybody listen- there will be frequent IDs mentioning NRC. WLAW TEST in here well. beginning later than the CE told me but there was nothing (con'd)

March 1, 1969

(Chuck Hutton) to do about it. They test alternate SMs beginning w/the test date in DX NEWS. He will usually begin about 4:30am & mention the NRC every test. This should be heard by some of the northern DXers. Latest new station is WDSP-1280, DeFuniak Springs, Fla. w/daytime signal. Walter La Roche will be here for DX session this weekend so look out for some good DX from us two. His couplings live very near me. 73s and peace.

GLENN HAUSER - Box C 8638 - Lowry AFB Co. - 80230

Randy Seaver's 2/15 Musing spurs me to an overdue Musing of my own. I certainly agree w/him that a paragraph is just about the worst way DX info can be presented; the tabular format of DDXD is inherently superior, since info is arranged in categories, frequency, call sign, and one can easily spot what one seeks by simple vertical eye movement. My eyes are repelled from those Musings which are a mass of letters, numbers, @s, w/s, :s, etc; the ones I read first are the ones with conversational talk (like Seaver's); then if I'm feeling up to it, I force myself into the chaos of the others, all the while fervently wishing they would report their DX loggings to DDXD, where it can be presented in some kind of order. The inherent deficiencies of the Musing format are in no way a reflection on ERC, of course. I wouldn't go for splitting DDXD into sections by geographical area of the reporters, however. Such fractionalization again increases the burdens of anyone trying to retrieve a certain piece of info. Too, NRC should NOT be a carbon copy of IRCA! And those of you still reporting foreign DX in Musings, send it to Foxy first, please - OK? On a more positive note, Musing appears to be the only medium for getting a word in about harmonic DX, so here goes: four MW harmonics worth mentioning have been logged in the past bimonth. KCYN-1240 Williams Ariz. was first heard on 2480k 12/26 @ 9:24am, with a Seligman ad, 9:25 report from USWB, Flagstaff, 9:29 ID. Had a friendly verie from KCYN who estimate 20w on 2480. On 12/28, KDTA-1400 Delta, Col. was heard once again on 4200k @ 5:58pm w/ID, 6 Mutual NX. KGAK-1330 Gallup NM was heard on 8/2 @ 9:08am w/used car ad in NM, NX on 2660, also audible on 1330. A new one and currently best heard on the 2 MHz band is KOVO-960, Provo Ut. easy copy on 2880, 12/2 @ 8:50pm w/mx, 8:59 IDs "Sound of Kovo Radio for 1969." "In '69 everyone's listening to 96-KOVO, Number 1 Music Power", 9pm NX w/Ac insert, 9:05pm, rock mx, etc. logged through 9:30 and reported. 960 checked thrice and no sign of KOVO there. Watch for my harmonic article in the upcoming "How to Listen"! How about a photo gallery of NRC members now that we have the capability? Until the next, 73 de Glenn.

MARV GARBBER - 2539 Kessler Boulevard - Lincoln, Nebraska - 68502

Hi all! CX here very weird. The EC stations just aren't making it, & all I get are WC stations. Take for instance my recent DX. SM 2/16- KFAC-1330 Los Angeles dominating o/WLOL all AM w/ instrumental mx, KEEN-1370 dominating WSPD @ 3:15am. MM 2/17- KUPD-1060 Tempe, Ariz. good o/CFCN & unID SS (Cuba?) w/MOR @ 2:15am, KMJ-580 Fresno, o/all @ 3:15 w/ID. KRWB-980 Los Angeles w/superb signal w/its all-NX format from 3:15-3:30, KWIX-1480 Santa Ana on w/ET & ID @ 4:18 o/KBOX/WABB/WISM, & a tentative KFAR-660 w/rr. I thought I heard a WX report - temperature was said to be -40°. This was a very weak signal, less than S-1, but definitely an EE w/loop NW/SE. This @ 3:50. Then R. Progresso, Cuba s/on w/Rooster call IS @ 4:30, which killed any definite ID from the possible KFAR. I will keep trying anyway. Recent veries: WIND WINN KFRU KRLA WSBT KOFI WTIC (state #40) WQAM KVOX KOKX. KFAB had one of its rare SPs Fri. 1/31 & WBT KRLA were heard on 1110. WBT was dominating w/KRLA way underneath 2am on. An unID s/off-1110 was heard @ 3:05, all I heard was a "Good Night" & then SSB. This KBND KPOP or what? Any help, WCers? I almost forgot the v/1 from Barbados received for the 1/27 cricket matches. They say they are printing v/qs & they would forward me one later. Totals: 249 veries from 40 states, six provinces, and nine countries. ERC, why doesn't NRC have a big anniversary issue? That's it, 73. (EVERY NRC issue is a big issue, Marv, hi - ERC. Seriously, I doubt if anybody around now really knows what our actual anniversary date is!) DON'T FORGET TO MUSE OFTEN AND BE SURE TO GIVE DATES, TIMES, & FREQUENCIES OF DX!

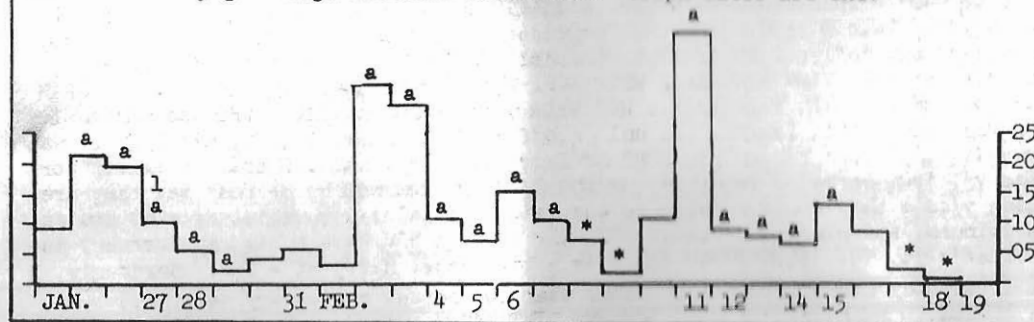

## INTERNATIONAL DX Digest

Propagation & Features:  
Gordon Nelson, 19 Irma Ave.  
Watertown, Mass. 02172

DX conditions here in the Northeast have been generally poor-to-fair on TA paths and good-to-excellent to Latin America. A fair TA opening was noted on the AM of 2/17, and a very good opening for TA's occurred on the morning of 2/24. Len Kruse in Iowa reports, "The DX on the ECB late afternoon both 2/15 and 2/16 was terrific! Stations from the South, especially Texas and Louisiana came in almost like locals..." [Classic "auroral" conditions, Len]. Glenn Hauser in Colorado says 2/11 "was a good auroral evening". Clarence Freeman in California says, "conditions here 2/12 and 2/13 were very auroral but by 2/17 conditions had changed greatly and some Canadians were noted like CBX through KCES on 740... conditions are looking up." Out in Hawaii, Richard Wood notes some very unusual reception, "Morning of 2/17. My best night's reception ever. A distance record set by excellent reception of Zahedan, Iran, on 777, about 8000 miles. New KICY pouring in. Other new catches included WSB and 5 new Cubans; Sint Maarten excellent. Burma good; Asians generally every frequency. On the other hand, Southern Hemisphere was very limited; nothing in LA south of Bonaire; no Tahiti or other Pacific Islands except weak Fiji, Majuro; no New Zealand; only 3 Australians, and no SEA south of Burma except fairly weak FARS-1580. India was not logged, as almost all even channels were blocked by powerful Chinese signals. Rather than Japan or Korea, the first evening opening to Asia was a Soviet on 1010, for which I suspect a quite northerly location, perhaps Magadan near Alaska." Here in Massachusetts we may have had a South or East African on 764 the same night, 2/17. (Ed)

Geomagnetic activity has fallen to a low level following the large disturbance on 2/11; as the absorption produced by that disturbance gradually died away, high latitude paths became open and "auroral" conditions were replaced by a more normal pattern. Note that the high latitude absorption had died away enough by 2/17 to permit receptions of the sort described above for that date. Judging from the TA opening on 2/27 observed here in Massachusetts, auroral activity must have been generally low 2/18 - 2/27. The following graph shows the level of daily geomagnetic/auroral activity as determined by the Fredericksburg  $A$  index measured by the U.S. Government's geomagnetic observatory at Fredericksburg, Va. Low values of  $A$  occur when auroral activity is low; high-latitude paths such as those from Europe to the West Coast and Asia to the East Coast are then possible.  $A$  values above 20 indicate high levels of auroral activity and associated high-latitude absorption of MW signals; MW reception from the south is usually enhanced during these auroral disturbances. A series of low  $A$  values is a necessary but not sufficient condition for high-latitude MW propagation. "a" indicates observed "auroral nights"; "1" indicates unusually good low-latitude reception (e.g., from Hawaii); stars indicate nights with relatively good high latitude conditions. Graph dates are GMT.

\*ANGUILLA. Exclusive information on a brand-new MW country is supplied to us by our member Bob Cooper, Jr., of the Virgin Islands:

"The island of Anguilla [near St. Maartin - Ed.] is now an independent 'country'. It was previously part of the St. Kitts and Nevis link up. One of my business associates down here told me today that the new Bank of America branch on Anguilla recently had a 2 MHz marine frequency radio telephone base station put in so they could communicate with the BCA branches here in the VI. One of the requirements of the Anguilla government, before they would authorize this two-way installation, was that the 60 watt Marine radio (a Fierce Simpson) be equipped to broadcast messages to Anguilla in the broadcast band. So my associate installed an end fed zepp and at their request supplied a 1500 kc/s crystal for the 60 watt set. Their schedule for some time will be intermittent - the system will be used mainly for government messages to the people on the island and will not be used for any type of entertainment broadcasting for at least the present time. This is probably wise - the Fierce Simpson set is rated for 10% ICCS duty anyhow!"

What is an event of importance on Anguilla, we wonder? This almost inaccessible little island made headlines around the world about a year ago when they declared themselves independent and applied for UN membership. Rebuffed at the UN, they next tried to get the U.S. to annex them, but we politely declined the offer for "legal reasons". The Police Chief of St. Kitts was all set to go over to Anguilla, bash in a few heads, and put an end to the revolution but the crafty Anguillans put a couple of rocks on the island's only landing strip (like the nearby island of Saba, Anguilla is almost inaccessible by sea) and preserved their independence. After having argued the point with several Anguillans in the past, the editor agrees that Anguilla is indeed independent. Those who wish to argue the point should be advised that Anguillans are unusually large and powerful people and are used to winning arguments... Ed.

\*SENEGAL. This country plans to install 11 more MW relay stations in the Northern, central, and southern parts of Senegal according to a broadcast from Lome. (Ed)

\*ALASKA. The following list of AFRS stations comes from the DOD (power in watts):

570	Campion	250	1400	Cape Lisburne	10
590	Lome	50		Cape Sarichef	10
860	Anchorage (Elmendorf)	50		Lonely	10
890	Adak	250		Tok Junction	10
960	Kodiak	250		Unalakleet	50
970	King Salmon	250	1400	Cape Newenham	10
980	Fort Greely	250		Driftwood Bay	50
1230	Fort Moller	10		Tatalina	50
1240	Cape Romanzof	50	1490	Ethel	50
	Fire Island	10		Chiniak	25
	Shemya	250		Clear	50
	Site Love	10		Cold Bay	10
1340	Fort Yukon	50		Eilson	50
	Notzetue	50		Indian Mountain I	50
	Nikolski	50		Tin City	50
	Fort Heiden	50		Wildwood	50
1350	Sparrevohn	50	1570	Murphy Dome	10
1360	Fort Richardson	50	1580	Indian Mountain II	10
	Fort Wainwright	50			

I wonder what you have to do wrong to rate being stationed at "Lonely"???

## THE DX SHOWCASE

### COMPAÑIA CHILENA DE COMUNICACIONES, S. A. CADENA RADIAL "LA VOZ DE CHILE"

GERENCIA GENERAL: VALPARAISO (CHILE) - CASILLA 37-V

#### TARJETA DE VERIFICACION

Valparaíso, Febrero 19, 1962.

Confirmamos su recepción de fecha Febrero 12, 1962,

de nuestra Emisora **CB 73, Radio Cooperativa, Valparaíso,**

en la frecuencia de **Onda Larga en 730 Kc/s**, la que está

correcta y conforme a la programación de ese día. (Special "DX"  
Programme).

Atmos. amigos

CIA. CHILENA DE COMUNICACIONES, S. A.

Gerente General

ABOVE: Bob Foxworth's QSL from CB73 in Chile. No receptions of this country have been reported from the East Coast in quite a few years because all of the best channels are blocked by AN'ers. Quite a few Chileans are heard on the West Coast after dawn has knocked out the QRM on channels such as 840, 1140, and 1180 however.

BELOW: QSL for the WCAS-740 NRC Special broadcast as received by Uncle Ralphie...

## IDXD Monitor Reports

Members' Loggings:  
Bob Foxworth, GPO Box 2111  
New York, N.Y. 10001

- 610 Japan. JOLK Fukuoka at 0715 2/17 // others (NHK I pgm)(Wood)  
620 China (Com.). Haerphn PJKT, Mao talk in Chinese 0500 2/17;  
Russian at 1100. (Wood, Honolulu Hawaii)  
625 No. Korea. Pyongyang, chorus in Korean 0550 2/17. (Wood)  
\*\* 630 Puerto Rico. WQBS new call for San Juan; ex-WKYN. (Edmunds, N.J.)  
640 Venezuela. YVQO suspected the one here under CMQ 2025 2/16.(Edmunds)  
670 Cuba. R. Progreso CMKP hrd at s/on 0425 2/10 with chimes, IS and  
a wild rooster call. (Dan Phillips, Huntsville, Ala.) (Hi, stranger!)  
675 China. Inner Mongolia "B" Service, Huhehot, in standard Chinese 0630  
2/17; played "East is Red" then continued.  
710 So. Korea. HLKA Seoul with KK comedy show, very good 0630 2/17 (Wood)  
760 Cuba. CMCD Reloj Nacional, Havana. One of 5 new Cubans logged 2/17  
bringing my total heard to 7. Usual continuous news 0530 2/17(Wood)  
770 Cuba. CMCD Holguín, Ote. with what appeared to be local program at  
0540 2/17. Especially with present Cuban DST, La Voz de Cuba should  
have finished by that time, right? Typical Cuban pseudo-commercials.  
Will try reporting to Holguín. (Wood, Hawaii)  
\* 777 Iran. Zahedan. Beautiful reception from my most distant catch yet  
at 1145 on 2/17. In Urdu (not Farsi) with clear local ID and con-  
tinued with a play or sketch in Urdu. Very good signal with no  
polar flutter. (Wood, Hawaii) (GPN tells me that this date was one  
of auroral quietness. Highest path-latitude would be over Sakhalin  
which is not really far-North. You should have more reception of this  
sort again, providing no recent auroral activity has occurred.-Ed.)  
785 No. Korea. In KK 0550 2/17 and still noted hours later. (Wood.)  
830 Haiti. Last 3 minutes of 4VEC test barely audible 0048-0051 2/18;  
asked that reports be sent to Postal Box 90-B (possibly 93 or 90-C  
or ?) in Port-au-Prince. Anyone else get correct mailing address.  
QRM primarily from CMCA with some WCCO, too. Reported to above ad-  
dress + 1969 WRTVH address in Cap Haïtien. (Gene Mattocks, Calif.)  
Station 4VEH hrd with religious pgms 2/19 with ID at 2130 mention-  
ing xmtrs near Cap Haïtien. Signals s-3, No QRM. (Bugaj,Iceland)  
830v Br. Hond. BHBS msd freq. 830.71 kHz evening of 2/24. (Nelson,Mass.)  
(Will probably Not be exactly here by the time this gets into print)  
840 Colombia. HJBI Ondas del Caribe, Santa Marta at 0415 2/17 with mx for  
carnaval; ID at 0426. AN? (Hauser, Col.) (Has been AN for past carn-  
avals in other years, has a good signal, too.)  
845 Italy/USSR. Rome and Kazan both strong at 2023 2/19 with Kazan over  
Rome most of the time with s-9+ signals. (Bugaj, Iceland)  
850 Alaska. KICY Nome new here with semi-local quality at s/off with SSB  
0503 2/17. Announced local time = EST - 6h. My 4th Alaskan and all  
alone on the channel. (Wood, Hawaii)  
880 Japan. JOPK Shizuoka at 0720 2/17 // others in NHK-I net. (Wood, Haw.)  
\*\* 890 Saudi Arabia. New station at Damman hrd atop the mess here at 2018  
2/19. Chanting, Arabic talking. Hrd s-5 with lots of Spanish under-  
neath. (Bugaj, Iceland.) (Located near Bahrain Island and Qatar etc.  
Can you try 610 and 674 next time you have an opening to Arabia, Mike?)  
920 Mexico. Clear channel cx allowed in XELT, Radio Tapatía, Guadalajara  
with ID and mx 0345 2/17. Yet, no sign of Paraguay, hi (Hauser, Col.)  
970 So. Korea. HLCA Suwon at 0715 2/17 excellent with play in KK.(Wood)  
973 Asian RSFSR. Yuzhno-Sakhalinsk with Russian classical mx 0745 2/17.  
(Wood)

- 975 China. Believed to be Liaoning PJKT Shenyang with Lin Piao  
harangue 0715 2/17. (Wood, Hawaii)  
980 China. Peking CJKT with Mao chorus 0745 2/17. (Wood)  
\*\* 980 USSR. Station here heard 1955-2030 fade 2/19. WRTVH says Krasnoyarsk  
but doubtful. Hrd with 2 men talking s-9+ 10. Had 6 short pips at  
2000 then a woman, then IS on what seemed to be an organ: 4 notes,  
pause, 5 more notes. At 2015 was hrd // to Perm-1088 with morning  
setting-up exercises. (Bugaj, Iceland)  
1000 China. Peking CJKT at 1145 2/17 with Mao talk. (Wood)  
1000 Virgin Islands. WBNB hrd with ID w/CKBW at 2117 2/19, s-5 and with  
heavy fading. (Bugaj, Iceland)  
1004 No. Korea. Pyongyang with KK talk 0505 2/17. (Wood)  
1007 Mexico. The ubiquitous parasitic of XECC-960 up to here at 0830  
2/14 with school lesson, and at 2130 2/18 with music and pre-  
recorded TC's by a girl. (Hauser, Col.)  
1010 Asian RSFSR. Unknown location, believe Magadan or a similar norther-  
ly site. Georgian songs at 0400 2/17, excellent and the first Asian  
to come in this morning. (Wood, Hawaii)  
1016 Azerbaijan. Baku hrd clear at 2110 2/19 with the German silent for a  
change. Was s-4 and // other Russians. (Bugaj, Iceland.)  
1020 China. Peking heard in KK service in Korean 0625 2/17. (Wood)  
1060 China. Kwangtung PJKT, Canton excellent with Internationale at  
0730 2/17. (Wood)  
\*\* 1080 unID USSR. Mayak Interval Signal at 1200 2/17. Very good signal,  
suspect location in Central or Western Siberia. Was not on 1079.  
(Wood) (No info here, Richard. They seem to be putting new xmtrs  
on the air so fast, even Moscow can't keep up to date, hi. -Ed.)  
1125 Costa Rica. R. Monumental at 2135 11 Feb; "desde las cinco de la  
mañana, alegría en la Monumental." (Hauser, Col.)  
1145 Honduras. HRQN La Voz del Atlántico, Puerto Cortés at 2138 ID 2/11,  
Hospital para Niños anct. 2141. Time check for 8:43pm, "Esta es  
la voz del Atlántico, saludando a Vd. con su música favorita."  
Ad for Banco Atlántida at 2146. Probably SILVERA's unID in the 17  
Feb 1968 IDXD. Listed 1150. (Hauser, Col.)  
1150 Asian RSFSR. Khabarovsk with orchestral mx 0740 2/17. (Wood)  
1155 Colombia unID. Maybe this is the Emisora Sinu, HJAZ Montería as  
reported by SILVERA in the same 2/17/68 issue. Hrd at 2155 2/11  
with CST TC, sports coverage, ID with chimes 2232, 2323 music after  
sports ended, carrier cut during organ (?) mx 0034 2/12. Aside to  
T.X.Thrush, chimes were not the R. Americas type (Hauser, Col.)  
(Who's T.X. Thrush? -Ed.)  
1160 USSR. Item here for Dushanbe should be listed as Tajik SSR. This  
was Mike's item last week. Counts as a separate country from USSR.-Ed  
1170 Alaska. Wierd Hawaiian mx caught my attention at 2130 2/13, then  
hrd a KJNP ID followed by news. Children's Bible class pgm at 2131.  
KJNP's TC at the time was 4:30pm Alaskan time. I guess this recep-  
tion qualifies as SSS. Stayed in for 20 minutes before f/out.(Bugaj)  
1180 U.S.A. VoA-Marathon in at 2200 ID 2/19 with ID and freqs given. Has  
"Columbia Gem of the Ocean" IS, mixed with another weak SS.(Bugaj,I.)  
1200 Venezuela. YVOZ R. Tiempo, Caracas in o/u WOAI and an unID SS, pos-  
sibly HIDV 2145-2210 2/18. Hrd an IS with stringed instrument and  
no news at 2200 on the unID. (Edmunds, N.J.)  
\*\* 1210 unID. Somebody here at 2110 2/13 with Louisville-Tulsa basketball  
game, s-3. Returned at 2205 just to hear s/off with SSB anthem.  
Sounds like it could be an AFRTS outlet somewhere but see none lis-  
ted. CX were good to the West (KJNP etc.) and a few weak SA's were  
audible. Help.(Bugaj,Iceland)(Greenland now on 1420;I've No Idea-Ed.)

- 1210 (cont'd) I talked to GPN about this and neither of us have any ideas who it could be. KGYN-1210 would seem to be a natural to carry a Tulsa BB game...but they would have had a 9pm s/off, and you are in their pattern null. A real mystery. New AFRTS list shows nil-Ed)
- 1220 China. Szechwan PJKT Chengtu with "East is Red" 0700 2/17 (Wood)
- \*\* 1295 China. Peking Urdu service noted at 1140 2/17. This is the Southeast Asian service freq. nominally on 1300. Very good signal. (Wood)
- 1310 China. Peking Korean service at overwhelming strength 0725 2/17, with JOLF in background. Must be at least 500 kW. (Wood)
- 1370 Japan. NHK 2nd network svce. at 0725 2/17. (Wood)
- 1420 Japan. JORF Yokohama at 0530 2/17, a Japanese talk station exactly like our local JJ talk stations here in Hawaii. (Wood)
- \*\* 1439 Marshall Islands. Some of you West Coasters should be glad to hear that WSZO, Majuro is drifting. This is often the best Pacific Islander here and should make it to the Mainland. Noted with Marshalllese chants 0430 2/17. (Wood, Hawaii) (These stations, being under supervision of the U.S. Dept. of Interior could be expected to correct this situation once they are made aware of it, I would surmise. Let us know if they continue to drift, Richard. -Ed.)
- 1550 Philippines. DYLA, Cebu city noted solidly on 2/17 0445 thru 1155 mostly in Cebuano. No other Filipino signals, including VoA, were heard. (Wood, Hawaii) (Still no other reports on this one to me-Ed.)
- 650 DOM. REP. Letter from HIAT signed by Ellis Perez, Director which mentions having spoken to César Objío by telephone. Expresses gratitude at knowing they reach so far. Much appreciated. (Cooper, N.Y.)
- '75 NICARAGUA. V/1 in 10 days for report of 1/27/69 from YND. Sked given (local time) as 0430-0000. V/s: Miriam Prado, Sec'y; address is Apto. 11-48, Managua. (Phillips, Alabammy)
- 730 MEXICO. Letter from XEX for Auroral reception, unreadable v/s but title is Sria. de la Gerencia. (Secretary to Manager)(Cooper, NY)
- 730 TRINIDAD. Nice, specific v/1 from E.R. McDowell back in 2 weeks and states they are definitely carried Australian-W.I. Cricket Test Matches. (Kilroy, D.C.)
- 1295 ENGLAND. BBCEuropean Svce. Regular v/q with frequency typed in; from Foreign Svce. (Kilroy, D.C.)

We have had 42 contributors in the past 6 issues (Nos 15 thru 20), namely: Martin Blumenthal, Mike Bugaj, Ernie Cooper, Isaac Eaves, Russ Edmunds, Curtiss Engberg, Bengt Ericson, Clarence Freeman, Glenn Hauser, John Hoogerheide, John Javetski, Ralph Johanns, Don Kaskey, Paul Kilroy, Gene Mattocks, Frank Merrill, Doug Meyer, Roy Millar, Ray Moore, Stan Morss, Jim neff, César Objío, Dan Phillips, Jim Renfrew, Cliff Reno, Bruce Reynolds, Hal Robie, Dave Roys, Chuck Sadoian, Fred Sawyer, Gray Scrimgeour, Mike Silvera, Jerry Starr, Phil Sullivan, Pete Taylor, Larry Van Horn, Frank Waldron, Frank Wheeler, Hank Wilkinson, Roger Winsor, and Richard Wood.

It is worth noting that 8 of our contributors are located outside the continental USA-Canada included-which fact makes IDXD even more valuable to all of us. I just want to mention how grateful I am for the support the DX Community has given this column. Incidentally, please add Admiral Nelson's name to the above list...that would be the one I'd leave out! Your Editor did some listening about 0110 2/24 and found CX good enough to pull audio from Luxembourg and BBC-1457...so skip must've been good then if I could bring in TA's in mid-city. I expect some good TA reports for this time period from our regular reporters. In the Errata department, credit the 910 item in last issue for WPRP to Roger Winsor, and correct the spelling to "Technische" in the 1421 Saar verie item, also last issue.

73 and 1439 DX, Bob

## after hours: midnight to sunrise

- \* 810 CHQR-Alta On MM 2/17 0428 ID; listed SP. (Glenn Hauser, Lowry AFB)  
920 KXLY-Wash ID, testing, OC, 0400 2/17; otherwise clear channel but for XELT. (Hauser, Colo)
- \*1070 WFLI-Tenn 2/12 w f/c-mx unlisted, very strong 0130-0145. (Lyon)  
CBA-NB ET/OC-TT-mx 0400 2/17, right into CBC mx without annct. (Jerry Starr, Youngstown, Ohio)
- 1080 WKGX-NC New, Lenoir; ET-mx hrd ending 0218 2/1; verie says RS should have begun 2/8, format is "Top Gun" C&W. (FW)  
WEPP-Pa Hrd 2/13 w/ET-C&W mx o/WTIC 0117-0132. (Ken Lyon, NY)
- \*1150 KXLR-Ark F/c-TT 0215-0231 2/17, not listed. (Starr, Ohio)  
1230 WJOY-Vt Heard 2/9 at 0129 w/QRM from WCUM. (Lyon, NY)  
1270 WDLA-NY ET-mx 0200 2/10. (Frank Waldron, Matawan, NJ)  
1290 KEOS-Ariz R/c-TT 0226 u/WIRL; my best DX. (Waldron, NJ)
- \* WDEC-Ga F/c-mx, hrd by Ken Lyon 1/20 @ 0100, also hrd here 12/16/68 0050+ so possibly 3rd Mon r/o. (John Javetski)  
1320 WWHO-NY ET/OC-TT 0130 2/9. (Waldron, NJ)  
1330 WTRE-Ind ET-C&W hrd 0250-0311. (Waldron, NJ)  
1340 WBRE-Pa S/off hrd 2/1 at 0011. (Gene DeLorenzo, Hyannis, Mass)
- \*1420 WHK-Ohio Had very rare SP 2/17. (Jerry Starr)
- \*1440 WHHY-Ala Was AN 2/13. (Starr, Ohio)  
1450 WTHU-Md F/c-TT 0001-0015:30 2/11 w/surprising signal at times for only 100w. (Starr, Ohio)
- WIZS-NC ET/TT/mx 0130-0150+ on 2/13. (Starr, Ohio)

Try a little Tenderness

- 1470 WPDM-NY ET w/mx 0115-0130 2/1. (G DeLorenzo, Mass)
- 1480 WNKY-Ky ET/C&W mx 0005-0100, then ran r/c til 0114 2/17. (\*)
- 1490 KXRA-Minn Heard 2/10 at 0136-0156 w f/c-TT. (Lyon, NY)
- + WKVT-Vt S/off 0100 SM 2/9. (Waldron, NJ)
- \*1520 WSLV-Tenn F/c-mx (Dixie) 0030-0040 3rd Mon per verie. (Starr)
- +1550 WKBA-Va TT 0100-0130+ 2/15. (Starr) Another ET/mx-TT-OC 2/15 0100-0150+ w/S9+60 sigs. (Javetski, Richmond Hill, NY)
- unID Strange ET 2/1 0030-0100, on top of OC and maybe CBE; had comedy record w/ID at 0040. (DeLorenzo, Mass)
- \*1560 WAFI-Ky Not on RS yet, but ET/mx hrd w/1kw 2/15 0007-0045+ w/good signals thru WQXR OC until 0027. (Javetski, NY)
- + WQXR-NY ET-TT/mx 0030-0055 2/17. (Starr, Ohio)
- WBKC-Ohio S/off is 0010 except SM at 0200, "lightened" format is only in late afternoon. (Javetski, NY)
- 1580 WSRF-Fla ET/mx again 0050+ 2/11 w/exercise record and female narrator. (Starr, Ohio) Sounds stimulating. (rk)
- \* CBJ-Que ET/TT-mx 0230-0300+ 2/17. Ran ID tape backwards, I had to run mine backwards too. (Starr, Ohio) Also had pieces of code IDs, etc; lots of fun. (rk)
- Was AN 2/14. (Starr, Ohio)

**sunrise and daytime**

- \*1070 WDIA-Tenn S/on 0500 2/17; no longer NSP? (Starr)
- +1240 WGBB-NY Now s/on 0500 daily. (Javetski, NY)

**sunset and evening**

- 900 WKAJ-NY S/off 1730 2/14. (G DeLorenzo, Mass)
- 930 KAFF-Ariz "Kaff Country" wx 2005 2/12: (Hauser, Colo)
- 960 KGWA-Okla Only my hometown hrd 2/12 2137 when checking fundamental of KOVO harmonic (hrd on 2880). (Hauser)
- 1140 KLUC-Nev 2/12 2013 local ad, s/off "most powerful Nevada stn." (Hauser, Colo)
- 1240 WVOS-NY On top 1727 2/18 w/local ads & nx. (rk)
- 1280 KNAK-Utah 0506 2/17 w/KTLN off; local ad, jingle, mx. (Hauser)
- 1340 WALL-NY Well on top 2/18 1730 w/nx & ads. (rk)
- 1410 WONS-Fla S/off o/WPOP 1830 2/11. (Gene DeLorenzo, Mass)
- 1430 unID OC noted on 1740 2/11- WHIL again? (GD) No se. (rk)

**schedules and other info**

- 1470 WBNP-Mass Is pgning light rock now. (DeLorenzo, Mass)
- +1510 WMEX-Mass Much stronger sig days- have they gone 50kw or is my waterpipe corroded? (Gene) They state that the new XR is "on & off", w/many MM ETs. (rk)
- 1560 WDXR-Ky Seems to have dropped RR for MoR. (Starr)
- + WBKC-Ohio Began RS 2/15, has MoR & Mutual net. Good signal. (\*)
- +1580 KTUF-Ariz CH power is 10000w. (Waldron, NJ)
- +1600 WXVI-Fla Ex-WHEW & re last week, changed to Ai net. (Waldron)
- WHRY-Pa Addr is Box 228, Elizabethtown Pa 17022 per verie. (\*)

Noted AN by Frank Waldron for the big storm 2/10: WFAS WDRG WPOP WFEA and WAAB. An immense (up to 30") snowstorm here has cut off 2/24 & 2/25 mail.

Many thanks to Dave Roys, Geoff Fox, and Bob Foxworth for a great time 2/22 weekend. It was very pleasant to meet John Tweedie and Frank Waldron, and to rap again with many old friends.

*73, Randy*

March 1, 1969

CARY PALL - 71 Hurlbutt Street - Wilton, Connecticut - 06897

Condolences to the weepers of spurious frequency and poor RXes. And, speaking of poor RXes, here is the poor DX: New locals here in Conn.: WLAD-800, WNLK-1350 & WMM-1260. All destroy DX here 20 kilocycles either side of channel. Reports sent out to WAVZ-1300 WADS-690 WROW-590 in daytime, beautiful w/no garbage from WICC-600. Other amazing daytime DX, WGCH-1490 in good, but not what I had expected, WPAC-1580 II low, WNAE-1450 Loud day & night, WNHC-1340 gets wiped off the face of the earth by WNLK, and not audible after WNLK s/off. I have WNHC verified from NJ but can't here, only 20 miles from their XR. It's enough to drive a DXer farther out of his mind than he already is. WNLK-1510 in good, also WPOP-1410, WATR-1320 WGLI-1290 WVIP-1310 WTRY-980 WPTN-1540, WKNY-920 (in my old old log I have them listed as WGHQ, how time slips away) WINE-940 (new station) w/promos for "Wine Radio" every second. (My WINE verie is dated 12/2/63 on RS -ERC) WHCU-870 Ithaca NY great in daytime, even WCAU in good. I can't say as much for night DX. 2/9 PM-WLAD-800 on for snow emergency & school closings; WILK-980 in good w/WTRY looped out both about 11:30pm. 2/10 AM-WPEA-1370 NH in good w/pop mx @ 12, also WEAM-1390 s/ off-SSB u/WFBR @ 12. I haven't noticed them off MMs for a long time. WENE-1430 in 12:15 w/rr & school closings. That's all the DX since the "Blizzard of '69", hi, since snow shoveling comes before DX according to my father. Oh well, 2/10 PM saw a power failure on my street, because of me, hi! I attempted to put up a CB antenna 2/10 PM & hit an exposed portion of a live electric wire. Antenna's OK, so am I, but it blew the transformer on the phone pole & power was out for five hours till the power company came to the rescue. Well folks, it looks like they won't get rid of me THAT easily, hi. Soixante-Treize, congrats to the BPC for keeping NRC #1.

CHARLES REH - 34 Garrison Avenue - Leamington, Ontario

DX since last report: 2/1- WSSA-1570 Ga. TEST 12:03am. 2/2- KCTO-1540 La. s/off 6:55pm w/Dixie. 2/3- WWGP not heard; PJC-7-1500 s/on 4:03am. 2/5- WOCN-1450 Fla. 2:20am; WJHO-1400 Ala. 2:30, log says s/off 1:07 so must be AN now. WBFN-1500 Miss. 6:40pm o/WJBK. 2/6- HJHL-960 w/NX 9-9:10pm. 2/7- WKGX-1080 (new, Lenoir, NC) ET-c/w 4:05am & on; Texan-970 7pm w/OK WX" so probably KNOK. 2/8- KOLY-1300 SD f/c 1:30-1:45am, this time it was 10° in Moberidge. 2/10- WBKC-1560 Ohio ET mx w/ID @ 1:31am, this one was my closest unheard @ 79 miles. That honor now goes to WSAJ-1340 @ 144 miles & a powerful 100w. 2/17- WAFI-1560 ET/mx 12:10am, not sure of call but it is the new station in Middlesboro, Ky. Semi-local WELW-1330 noted off the air due to thieves making off with most of the station. Mo 2/8 DX NEWS here yet but the 2/15 issue has already arrived. Till next time, best DX & 73. PS, I see where Ralphie is trying to quit smoking which is something I should do. I started at 16 (it was "the thing to do!") & now at 22 I really regret it. If any of you younger members are thinking of starting, forget it. Life is short enough. Puff, puff - cough, cough. 73. (You can do it, Charles - I did, too -ERC)

PAUL KILROY - 2113 Fort Davis Street N.E. - Washington, D.C. - 20020

The mail is picking up; three veries came this week. v/1- WKGX, NC, which plans RS the week of 2/10, all c/w. v/q- BBC-1295. v/1- R. Trinidad. They state they are definitely carrying the Australian games. This should clear any lingering doubts. Trinidad states they use two Redifon 6162 XRs in parallel into a "T" antenna 180' high. Only DX: 2/12- SBC-1562 @ 1:40am; only TA of late, & HJHL-600 @ 3:58am on 2/16 w/WCAO off, an extreme rarity. Now that DX NEWS is picking up momentum with this excellent format, would it be possible to incorporate a listing of best DX "Heard" as well as the regular Supremacy Ratings? I would like to see some comments in Musings on this, if even just a simple yes or no. This would be a different indication of each member's DX-ability by eliminating the chance element of the erratic verifying policies of foreign stations. This would not supplant Supremacy Ratings, and could appear even less often than once per month if necessary. Your comments would be appreciated both via mail or in DX NEWS. Last minute DX: 2/18- WBI-900 Ky., s/off @ 6:20pm.

AS THEY HOPE IN PITTSBURGH, "WAMO" - "WISHING ALL'd MUSE OFTEN!" HOW ABOUT YOU?

March 1, 1969

BRUCE REYNOLDS - Route 2 - Warrensburg, Missouri - 64093

The big 2/15 DX NEWS in on Monday, great except for two blank pages (6 & 27). In regard to Randy Seaver's comments, I see no reason why it should be mandatory for NRCers to report their DX in list form when there are many of us who prefer to report, and read, reports, in the more interesting Musings style. As it stands right now we have both types of reporting. Why should the NRC become another IRCA? Also, I doubt the offset publishing would have changed the minds of those who opposed the merger. A little DX here. I tried for WOTR, & a weak TT was noted u/the mess, but too weak to ID. WGOH was testing at the time, too. I fell asleep before the WONS TEST. MM 2/17 brought in XEFP-630 @ 1am s/off. CX to the SW were GOOD, & KLUB/KIAC combo were murdering the usually strong WKEN, 1-2am. A second report taken on KLUB. KUPD-1060 was in the best ever, but still weak. They s/off @ 2am am MMs for four hours. No go on KSIM. I did catch a few short periods of TT, but WNUS/KCBC were too much. Maybe KODL will make it! A major celebration occurred near my mail box on 2/15 when I received a v/q from XEWA. Only the second verie this month! Nice card, via airmail, & they returned my stamp. A v/1 today from KLUC-1140. December report to CE brought no response so I followed up to the GM & got the verie back from the CE, hi! The new Kansas City Royals BB net will have 48 stations; 22 in Kansas, 17 in Mo., 5 in Neb., 2 Ark. & one in Okla & 1 in Iowa. KMBZ-980 is the flagship station. 73s. (Send in the list, Bruce - we'll print it!)

GEORGE B. SHERMAN - 104 Pinewood Circle - Rosemount, Minnesota - 55068

Veries! v/1- KWLC-1240 (1/2 mo.), v/1-CM- KTCR-690; v/f- KIXZ-940 v/q- WIND-560 WJIM-1240 (2 mo.); v/c- KODY-1240, v/r- KROC-1340. My percentage of return is about 65%, excluding reports out last weekend to KWKH-1130, KRYS-1360, KKDA-730, KIGR-1490, KRBI-1310 & KDOM-1580. These last four I also sent a letter asking for test info for CPC. DX on 2/3- KNIR-1360 La. @ 6:50pm; KTGN-1530 Tex. @ 7:10; KCLR-1530 Tex. @ 7:15 w/c/w; KRBC-1470 Tex. @ 7:55 w/rr; WSMB-1350 La. @ 8:03, KRYS-1360 Tex. @ 8:06 w/rr. 2/4- WVOJ-1320 Fla. w/c/w & good signal @ 7:37, seems to be only station heard from Fla. during Auroral CX. 2/5- KKDA-730 Tex. (new call) @ 7:06, now I know why it didn't sound like KPCN. KWFR-1260 Tex. @ 7:30 s/off; KTUE-1260 Tex. @ 7:30 s/off; KBWD-1380 Tex. @ 7:42 w/rr; KPLC-1470 La. @ 7:58, gave me idea to tune to 1580 & hear KLOU w/rr @ 8; two Lake Charles stations in two minutes & neither heard before! 2/6- KBIZ-1240 @ 7:15, #19 on this frequency. 2/8- WILS-1320 Mich. finally heard w/definite ID & rr @ 2:45, WJAS too strong here; CJME-1300 Sask. w/rr @ 3:21, um. 2/9- WGEE-1590 @ 6:10-6:15 s/off w/NN or rr, I couldn't tell which. I thought it wasn't possible w/semi-local WIXX on, & I expected an earlier s/off from Ind. WKRA-1110 Mks. @ 6:45 s/off u/KFAB. 2/10- KXIC-800 Ia. @ 6:45 s/off w/WVAL; KGNO-1370 Kans. @ 7:05. 2/15- KELP-920 Tex. w/rr @ 2:50. MM 2/17- WDSU-1280 La. w/local WWTC @ 12:05am. This day was normal CX, but I heard Aurora anyway. Sound like it doesn't make sense? It does when it's KOBI-1430, Aurora, Col., hi, heard @ 10:30pm. Marc DeLorenzo's 1/26 s/off-1260 @ 12:31 is WNXT, Ohio, per NRC Log. In answer to Chris Lucas, WDGW-1130 received a letter from a listener in Rochester, NY, but it seems odd there aren't any DXers out there that hear them. Russ Edmunds' un-ID 1570 w/rr heard 1/9 @ 9:55 sounds like KXIF Mont., heard by many DXers all over the U.S. Daylight log soon. 73 & please write, someone!

DUANE GIESE - Box 69 - Columbia, Missouri - 65291

Hi y'all! Latest DX from here is as follows: 2/16 AM- WROL-1490 with record offer @ 3:47. KANE-1240 6am then followed by the s/of of WARP @ 6:01. WMUU-1260 heard w/WX, NX @ 6:08. WVNA-1590 7:24 s/on. KTLO-1490 7:31 s/on. The reason for this SM DX is that we had a small snowstorm in progress Sat. evening so I decided not to go out as I was afraid that it would turn into a large one. I had a little trouble staying awake that SM at times, hi. PM- WGOW-1150 (ex-WAPO) 6:25 w/NX. I had a little stay on 800 & heard WSHO/KAGH/KXIC all s/off about 6:45. After them KJEM was heard till s/off @ 7 15. KJEM had a good signal from 7 till s/off w/PJB nullled. MM 2/18- KOZA-1230 f/c heard from 3:50 till 4 s/off. WBOB-1310 w/r/c from 4-4:08. WSOC-930 4:30-4:37 w/NX & talk about the snow & more to come. WNOW-(con'd)

March 1, 1969

(Duane Giese) -1280 5-5:06 w/NX. Mo KSIM DX heard here. 2:18am, well, I finally did some DXing on 1400 when local KFRU is off. Heard during the time I was up be-3 & 4 are KTFB (now 1,000/250), KILE KCLA w/semi-c/w mx, by that I mean some rr & some country, & WBIZ-HI. These are the first four stations heard on 1400 since I have been here in Columbia. It's a little hard to do any DXing the day after MM but on occasion it's not too bad so I might try it again in a month. Best DX. 73.

ALAN MERRIMAN - Box 6 - Fairfax, Virginia - 22030

Well, here I am back again. DX & veries continue generally good at this location so without further ado here is what's been heard. First new veries received from KFRE WHUN WBYB WMNA WCIR WPLB WWGP XERF WAMS WBKC CBI WBTS KOWB. Here's DX: 2/3- WPLB-1380 w/f/c-TT 12:06 to 12:20 tuneout, still going strong. WWGP-1050 heard fairly well on TEST, on later than listed, 3:50 to about 4:02, announced operating with reduced power because of blown out power transformer. Also I got so bored this morning I sent reports to long-ignored XERF & XELO. 2/9- KLPW-1220 w/f/c 1:0701:15. WSRF-1580 finally up enough for a report @ 1:20. 2/10- WATS-960 r/c 12:23-12:36. WVOJ-1320 logged for report @ 1. WAMS-1380 w/ET/mx @ 1:35. WBKC-1560 ET/mx @ 2:23. Also again noted was KHOS-940 w/fantastic 20/S-9 signal @ 2:30, this one really gets out for 250w. KOWB-1290 managed one CW ID & some TT on DX, 2:58-3:14. 2/12- A surprise daytime catch in WJSM-1110 @ 2:15, severe WUST splatter. 2/15- WBYB-1590 way on top @ 5:40am. 2/17- WNKY-1480 w/r/c 1:08-1:23. WBTS-1480 r/c 3:14-3:20. Long-wanted CBI-1140 @ 5:10. WTZE-1470 w/r/c 5:45-5:59. KOIS-1570 w/f/c 15 minutes later than listed, 6:46-6:59am. 2/19- WMEN-1330 w/ET @ 12:52. Since I noticed someone mentioned a verie from WDOV-1410, I logged them for another report 9:15 to 9:45. 2/20- WDEH-800 w/f/c-DT 1:15-1:29. TGN, one of my most-wanted stations noted on 725k on this date in EE to 11:31 soff. That's it for now. See you again in a couple of weeks. One more thing, let me add my voice to the ones who think the new DX NEWS is just great. A sincere WELL DONE to all who worked so hard on this project.

A 1/C DOUG LAMERSON - CMR 3 - Box 6222 - Travis AFB, California - 94535

DK in general rather slow of late. I was unable to make ERBA thing in Sacto. much to my regret due mainly to work sked & recent illness. HA-230 yet to arrive but loop is already under construction. DX: 2/10- CKNW-980 @ 3:50am w/MOR style. 2/12- KOLQ-920 w/MOR @ 4:05am. 2/13- KFAC-1330 w/NX @ 5:05am followed by cl mx. 2/17- KSIM-1390-DX in well from 3:45 till 4 w/lkw, then booming in from 4-4:15 t neout w/5 kw. KYNO-1300 in a mess @ 4:25 w/rr, CKXL-1140 clear @ 4:33 w/rr. That's the latest. Veries: KQIK-1230 KTWO-1030 v/q & KFRC v/l. KQIK informs that r/c is first MM from 3 till 3:25. DX NEWS & NRC in general have really progressed to professional status. Keep up the good work. 73.

JOHN JAVETSKI - 104-21 122 Street - Richmond Hill, New York - 11419

To. DX CX here are very good, but "Never on Monday." On 2/14 AM R. Emisora Suni-1160 a good S-6 @ 1:10, as reported by Chris Lucas. That PM, New Englanders WILD-1090 & WCCC-1290 heard for first time @ 5:14 & 5:29 to complete Boston & Hartford here. 2/15- AM, cricket brought WBS-695 Dominica for Country #38. Unn WTAI-1560 Fla. had OC/rr ET @ 2:08 o/B-9. MM 2/17 was a waste, so I listened for an hour to diversified WHAM w/Albert King. Unns noted were WNKY-1480 r/c @ 1:11 WRAD-1460 Va. s/off @ 12:59. Unk TT on 1220 @ 1:20. KWLA-1530 r/c weak @ 1:45. WTYN-1550 r/c (?) @ 1:48 w/frequency deviation business. Also TTs on 1090 & 630 @ about about 2:15. 2/19 AM I had new WAFI-1560 Ky. w/another ET/mx 12:33 & on. Unn KWWL-1330 Ia. s/off 1:04. Unk TTs on 1570 1470 1400 860 1360 before 2. Unn KFGO-790 r/c noted C 2:50. 2/20 AM- I saw WMIC-1560 Mich. w/ET/OC/TT 1:45 past 2. WNEW-1130 off but testing. 2/21 AM- WNEW-1130 off again w/WISN Wis. way u/WCAR @ 1:05. WRRL-1600 had OC all AM. Under it were unns CJRN/WBCS/WINX. WNRJ-1430 also off by 2. Veries pouring in this week w/v/l's from WBLV WWJ KNOE KBIB WDLA WSEW WJRD R. Trinidad WVAK-1560 & KOWB DX. V/q from KOLL XEMO BBC-1295. V/scp (that's scrap of paper) from WXVA-1550. WVAK says tower height is only 100' w/250w. That's (con'd)

March 1, 1969

(John Javetski) totals now 1,029/290, states 44/42, provinces 9/8, countties 38/11. Start planning for St. Loo now, NRCers. I intend to be there for Labor Day reunion w/the King of Solano County, whoever that is. So 73s for now & for you foreign DX-ers, may "the hets just keep on comin'". (Oh brother). Ryc.

FRANK WALDRON Jr. - 65 Lakeridge Drive - Matawan, New Jersey - 07747

DX: (??) 2/15- The brand new WAFI-1560 Middlesboro, Ky. ET/mx heard 12:08-12:45, also approximately the same time on MM 2/17. They had an unusually strong signal for lkw. 2/16- WLLL-930 ET/mx/TT/OC o/u WBEN AN w/WPAT nulled down 1:45-1:55-plus. MM 2/17- A bad MM w/nothing new logged. A tentative report was sent to WBEC-1420 for a f/c @ 12:25, I couldn't salvage an ID u/WESM. Report gotten on CKCV-1280 FF @ 2:15 w/lack of anything else to do. On 540 from 2:30-3:10 there was an AN SS which I thought might've been HCAF2, but it probably was HJKA w/its own non-Caracol AN show. SSS, CX improved greatly. KLCN-910 actually atop the channel fairly strong 6:40-6:45pm s/off w/rr. 2/18- WELW-1330 ET/OC poor 12:28 to 12:42 but w/little QRM. Veries have been kind to me recently. v/q- KLIF-1190 XEWA-540 WILK-980 (in two days!) WEEU-850 WKTE-1090 & finally after four reports, WQAM-560. My thanks to Bill Higgs for the v/s. v/l- WFLB-1490 says AN-6, off MM until 5am, WICK-1400 WEUP-1600 plus a pen & about ten pages of station info, R. Trinidad-730 for country #14. v/f- KOKX-1310. Also, an FF v/l from CHRC-800. My specialty is reporting Quebec FF stations in FF w/IRCA FF report form, plus using my knowledge gained by taking FF in school. Totals 818/463, 41/41, 9/9, 23/14. 73, and how many of you have noticed that on WSM's vq that the calls appear to be exactly the same if turned upside down as they do when right side up?

RUSS EDMUNDS- Box 291 - Hawthorne, New Jersey - 07507

Hi gang. Big news (?) here is that some idiot smashed up the entire right side of my car in one swell foop, hi. I will likely be more than a month from this writing (2/20) 'ere it returns to health, so, no visits to NYC or elsewhere for a while. Now down to DX: 2/16- 8:07-8:23, an unID SS on 640, o/u WHAS. It wasn't the Cuban, but could have been YVNY, St. Lucia, HCN-32 YBP, per only country lists I have. (I'll bet on HJBI -ERC) Is there anyone who has a relatively up-to-date Colombian list for me to copy? 8:25-8:39, unID SS u/CMQ-640, best guess is YVQO, though I'm open to suggestions. 2/18- Interesting CX, not quite Auroral, as W & N were OK, but slop from WNBC WCBS WABC & WPAT was much less than normal. Same true for WMA. 9:05, WTAG-580; 9:07, WHP-580; 9:10-9:15 WMAQ-560 through unreadable WTL; 9:19, WEB-750; 9:23, CKVL-850 in FF w/EE rr; 9:25, CJBR/CRIS-900, both in FF; 9:29, WIRL-910; also formal loggings on CBW KYW KRLD KMOX KBL WOAL. 9:46-10pm, YVOZ-1500 w/an unID SS, probably HIDV. Neither had NX @ 10, & an unID had what sounded like an IS w/strongs. 10:07, CKGM-980; 10:14, WJAV-630; 10:17, CBT-540. WIOD-610 & WQAM-560 were readable most of the eve through locals (Phila.) WIP/WFIL. Total loggings 227. As of now, only two regulars here were not heard in Little Silver & vice versa, so difference is negligible, & I will spend much spare time in the next few weeks transferring the remainder of my IS log onto index cards for inclusion in a combined log which will cover both locations, since CX & regulars are so similar, so don't be surprised when my total goes up about 300 stations in a week hi. 2/19- Logged WNAR-1110; then to look where I kinda hit a gold mine, hi. 5:15, WIMS s/off; 5:28 WIOO on top; 5:28, WWHB soff, had been on top 5:16-5:28; 5:30 WIGT s/off, 5:31-6 s/off, WKYB SC in very well w/rr for a real surprise. As I move into the busy part of m work season, most DX will likely be SSS & early AMs, as much eve work is the rule from here on t rough May. After 2/19, I may just try sticking to one frequency for the entire SSS period per day. It pays off, hi. 73s.

Not only did "D" not sign his v/s list, but he did not specify the type of verie by the use of our official code letters. We ask everybody to send in his v/s, but to self-eliminate repeaters, and to double space them, & list the frequencies, & use our regular one-letter abbreviations for type of verie, & our regular abbreviations for the position of the v/s. Use a separate sheet of paper from your Musing report, & be sure to put your name on it!

Welcome to Dave Watmough and Cliff Reno. VAS = Verified all states; VCP = Verified Canadian Provinces. Next month, best Asia. Mail sent to me at Albuquerque will reach me, but with a delay. 73 and Aloha from rainy Hawaii.

You may already know how to listen to the World,  
but there is a book that will improve your knowledge.  
It's called:

## "HOW TO LISTEN TO THE WORLD"

Its full of Information, from the world's leading authorities'  
Over 180 pages of:

- ARTICLES
- EQUIPMENT
- T.V.
- DX CLUBS
- LANGUAGE LEARNING
- MEDIUM and SHORT WAVE RECEIVING

ALL THESE AND MANY MORE

Send an S.O.S. for a copy

IT'S A "MUST"

HOW TO LISTEN TO THE WORLD - published by World Radio Handbook - will be the most complete and up-to-date general reference book covering all aspects of DX'ing techniques. The MW section will contain the latest information on propagation, improving MW reception, etc. Containing sections written by NRC member's Glenn Hauser, Gordon Nelson, and Gray Scrimgeour, HOW TO LISTEN TO THE WORLD is available to NRC members at a special low price by special arrangement with the publisher. Regular price will be \$3.95; special price to NRC members is only \$3.05. Order from HQ today.
