HCJB-690-Quito, Ecuador will conduct monthly DX tests at various times. The tests will include Morse code ID's and "other unique items". Correct reception reports will be verified with a special QSL card. According to the station, if you hear code, you must report EXACTLY when you heard it and WHAT CHARACTERS you heard. Tape recordings are welcome, but tapes cannot be returned. Please include one international reply coupon (IRC) or first class postage in US or Canadian stamps for a reply to your reception reports, which may be sent to: Mr. Rich McVicar (HCJBMN) Frequency Manager - Attn: 690 DX test / o English Language Service HCJB - Casilla 17-17-691, Quito, Ecuador. Arranged by Mr. Rich McVicar of HCJB for the benefit of all DX'ers.

From the Publisher ... Don't forget to send Ron Musco your nominations for NRC International DX'er of the Year and Domestic DX'er of the year. All nominations must reach Ron by June 1, as the slate of nominations will be announced in the June 17 DXN, after which you may vote for your choice until August 15. The awards will be presented at the 1996 NRC convention in Knoxville. Please send all nominations (of NRC members, only) to Ron Musco at P.O. Box 118 - Poquonock, CT 06064-0118, or <<MUSCORJ@hstdwl.utc.com>>.

Effective immediately, anyone renewing after his / her subscription has expired must state which issues were not sent between the expiration date and renewal time in order to receive them. We keep no records of what issues have not been sent, and if you wish to receive a full complement of 30 issues per year, you must (1) renew on time, (2) accept a new, later expiration date, or (3) keep the same date and tell us which issue was the last one you received. For more info, see Ron's Musing in this issue. And remember, unless you want your renewal to be delayed, please send all renewal checks to Ron, not to the publisher. 98% of all members do just that, thank you!

We've been able to update all ZIP+4 addresses (except for one incorrect address) via the USPS web site <<<http://www.usps.gov/vcsc>>> which includes a database of all U. S. addresses and ZIP+4's. Although your carrier may remember

where to deliver your mail, you must provide a correct street or P. O. Box address in order for us to prepare correct mailing addresses and stay in compliance with USPS regulations. If you live in a rural area which has added 911 services recently, the address which you've been using forever may no longer be correct; please send all corrections to the publisher.

Be sure to check out the new DDXD addresses; both Bill and Dave have just moved. Also, the address for the NRC Web page has changed slightly: <<<http://wcoil.com:80/~gnbc/>>>. Don't type in the <<>>, of course.

Knoxville ... From 1996 convention host Steve Francis: "The 63rd annual NRC Convention welcomes you to beautiful East Tennessee, home of the most-visited national park in North America! On the edge of the Great Smoky Mountains, Knoxville is within an hour's drive of Dollywood, The Museum of Atomic Energy, Gatlinburg, Biltmore House, and so much more: lakes, majestic mountains—just about everything but the beach! Three major interstates, 40, 75 and 81, traverse East Tennessee. This year's convention site, the Ramada Inn, is at the junction of 40 and 75, just off Exit 378 at 323 Cedar Bluff Road, Knoxville, TN 37923. Special convention rates are \$48.50—single / double and \$56.50—triple / quad. Registration fee, including the banquet is \$40. The Ramada's telephone number is 423-693-7330. Specify the National Radio Club when making your reservation. Questions? Write Steve Francis, 1620 Lodge Street, Alcoa, TN 37701, or telephone 423-982-3122. See you August 30-September 2!"

DXChange ... Wayne Heinen - 4131 S. Andes Way, Aurora, CO 80013-3831 is offering for \$150 an R-390A recently tweaked, in non-military cabinet, fair to good condition. It works well on BCB and SW. Local pickup preferred, or will deliver locally.

Status changes in AM stations, supplied by the FCC and listeners

On the weekend usually set aside for doing this column, your editor ended up having two emergency eye surgeries. At first we thought there would not be an AMS for this issue, but since there is some very important material that shouldn't be held off and now that we are monthly it would make for a HUGE column in Issue 27, we will try to provide a bare bones column to at least get you the time critical items. Some things, particularly in Otherness, will have to wait until next month. There's a very limited amount of time I can spend reading and looking at a computer terminal during my recovery period. Fortunately the Expanded Band article that will follow this AMS was already completed before the emergency. Also, please excuse the typos. It's virtually impossible to run our spell checker on a column that contains large numbers of call letters and city names. (Hang in there, Jerry; we can wait! -pls)

APPLICATIONS FOR NEW STATIONS

870	SC Chesterfield: 400 D1
1060	SC Lancaster: 400 D1 (incorrectly shown as an App for a WMAP-1060 synchro; it is actually an application for a new station that is mutually exclusive with silent WMAP)

APPLICATIONS FROM EXISTING FACILITIES

550	WDUN GA Gainesville: day power to 10000 watts
730	WSTT GA Thomasville: city of license to Bechtou, GA
1050	WRPT NH Peterborough: frequency to 650 kHz, power to 250 watts, antenna to D3, city of license to Foxboro, NH
1200	WCNB MI Taylor: powers to 50000/2100
1230	KEXO CO Grand Junction: reduce powers to 680/680
1280	WNAM WI Neenah: day power to 20000 watts
1350	KDIO MN Ortonville: powers to 670/380 U1

GRANTS TO EXISTING FACILITIES

1110	KBND OR Bend: reduce day power to 13000 watts
1330	WMNN MN Minneapolis: powers to 9700/5100 U4
1380	WYSH TN Clinton: reduce night power to 80 watts, modifies existing CP for night power reduction

OTHERNESS

The FCC continues its housecleaning this month with another list of stations that it has begun license revocation proceedings against since they have been off the air over a year. The new Communications Act has a provision we'll detail next month which calls for license revocations for stations silent more than a year. These stations are indicated +++ below. Several more licenses have already been cancelled as you will see.

870	WGTL NC Kannapolis: license CANCELLED and call DELETED along with App for Rock Hill, SC synchro
930	WLLL VA Lynchburg: silent station is ON THE AIR
1000	WRNJ NJ Hackettstown: as already noted here, this station has been bought by WINS-1010 with the intention of taking it off the air to improve their coverage in NJ. A letter from Lawrence Tighe, CE, confirms that they will be off soon BUT they "are moving to 1510 on the AM dial, please let us know how you receive our new non-directional signal" There is an existing App for 900/230 U2 for Hackettstown so evidently WRNJ plans to move here but we have no official word that this has been granted.
1030	*App LA Bossier City: App for new station DISMISSED
1110	KGPL AR Dermott: +++
1150	WGBN PA New Kensington: silent station is ON THE AIR
1150	KUHD TX Port Neches: +++
1190	KMOA AR Kensett: +++
1200	*App KY Pleasure Ridge Park: App for new station has been DISMISSED
1240	WPBQ MS Flowood: granted CP to change proposed transmitter site, entry shown here since there has been a question if this long-standing unbuilt CP for a new station was still viable; evidently it is.
1270	WVKY KY Lousia: license CANCELLED and call DELETED
1270	KFCC TX Missouri City: presently running an STA for 300/300 U1 until CP for U4 facility is built
1280	KDYL UT Salt Lake City: CP for 10000/600 U4 is on
1330	KRDG CA Redding: +++ (station only recently became silent but according to the FCC attempts to reach the station have gone unanswered so their license was placed on the revocation proceeding list)
1350	WCRM FL Fort Myers: CP for 2000/150 U1 is on
1370	*App FL Henderson: application for new station DISMISSED
1370	KPPB LA Marksville: license CANCELLED and call DELETED
1410	WLBK KY Bowling Green: license CANCELLED and call DELETED
1460	KCCL AR Paris: +++
1460	WOLM FL Lake Mary: CP CANCELLED and call DELETED
1480	WSHP PA Shippensburg: station is SILENT
1510	KMRF MO Marshfield: CP for 1000 (400 CH) D3 is on
1540	KISA HI Honolulu: station is SILENT
1540	KCTO LA Columbia: license CANCELLED and call DELETED
1550	KZQQ UT Granger: FCC database shows this call rather than KRGQ and, as noted last issue, this city rather than West Valley City. Is this perhaps a very old file that the FCC never purged or were these changes never put into effect? How about it SLC members? MSJ also shows KRGQ West Valley City just as the NRC Log does.
1570	KMAR LA Winnsboro: license CANCELLED and call DELETED
1580	WCTJ NC Camp Lejeune: this long silent station has been heard testing with audio from WLOJ-1490 New Bern, NC as "New Light 1580 Jacksonville.: Since WLOJ also calls itself "Light" we might expect a new simulcast coming up here
1590	KJAZ CA McFarland: license CANCELLED and call DELETED (CP for 750 kHz is cancelled also)
1590	KDLB OK Henryetta: license CANCELLED and call DELETED

HERE WE GO AGAIN: EXPANDED BAND, PART TWO

The FCC has released the new reconfigured Expanded Band Plan. As expected, the new modeling of the band has resulted in the addition of only a few more stations than the original allocations. This time around there are 87 stations that will be afforded the opportunity to apply for a Construction Permit to operate in the Expanded Band. While this is only eight more stations than the original list, many are new additions. There are THIRTY ONE stations that have been dropped from the first list! As with the first plan, this one will be official barring any petitions for reconsideration. You may recall that such petitions resulted in the scrapping of the original bandplan. This list was released just a day after the copy deadline for Issue 25, and it has since been circulated by Internet and several trade magazines so you may have already seen the list. However, for your convenience in making entries in your Log we have sorted the stations by their PRESENT operating frequency. I don't believe the list in this format has appeared anywhere else. (Note: Jerry's list is followed by two lists, arranged by state and then by frequency, as I was able to download them from the FCC's Internet web site, juggle them in a database, and corrected them with data supplied by Wayne Heinen -pls.)

Several interesting things: There is only ONE station on 1610 kHz. KXBT, formerly operating on 1640, has been moved to 1630. You have probably noticed this change has already taken place. The FCC, in its unending quest for accuracy, listed well over a dozen stations with outdated calls, showing instead the call of the station when the original list was generated in late 1994. We have attempted to make the appropriate changes. The Internet posting and most trade magazines have simply passed along the wrong calls. All stations will be 10000/1000 U1.

*Notes WJRZ-1550 is the only station on the list that is a CP for a new station that was never built on its primary frequency.

KSHY-1530 reflects a CP to move to this frequency and city from the station's present 1370 Cheyenne operation that never took place. We don't know what effect WKZQ-1520's application to move to 1450 kHz will have on their allocation here. The FCC listed the city of license for WQOD-1090 as St Thomas which we believe is wrong. In late 1994 Fred Weinberg, the owner of KTRT-1270 Claremore, OK, a long time advocate of the expanded band, announced that he would drop 1270 and begin broadcasting immediately on 1640 kHz as soon as his license was issued. Before the FCC established the expanded band he wrote many letters to trade publications urging its approval. Once the legislation passed he was equally vocal in urging stations to begin using the band as soon as possible and announced his hope that KTRT would be the first station to operate on the band. He was, in short, one of the major cheerleaders for band expansion. Well, guess what? When the computing was all over for the reconfigured allocations KTRT was no longer among the those stations with an expanded band frequency. We imagine Mr. Weinberg is unhappy to say the least.

MEDIUM WAVE RAMBLINGS

- Apologies to those whose loggings were sent in time for the last edition but didn't see print. I guess I over estimated the power of the internet, and under estimated my ability to get thing all tied together on time. (No apology necessary, Bill; how you coped with the move and still got the column out on time is a mystery to us! -pls) I believe I've caught all the "left-over" loggings. If not... I'm sure you'll let me know.
- Results of a very productive DXpedition to Lemmonjoki, Finland have been received via the Net from **Mika Makelainen** of Vantaa, Finland. Also participating in the excursion was **Jorma Mantyla** from Kangasala, Finland. Mika had 3 NRD-535's, Jorma an Icom IC-R71E and a spare NRD. Antenna installations in the beginning of the expedition consisted of about ten beverage antennae each 1000 meters in length, directed to South America, Central America, North America, direct North and the Far East. During the week some of the antennae were taken down as ours was the last DXpedition to the location during this season. In the end only half a dozen beverage antennae were in use. Their DX Site was an isolated lakeside cottage on the edge of a place called Lemmenjoki, which can be translated as "Love River", location: N68.783 E26.333, 40 miles from the community of Inari, far above the Arctic circle in Northern Finland. This Love River is a national park but is also known for placer mining. In a vast area there are only a few houses but thousands of reindeer and unspoiled arctic nature. DXPEditions in the same small cottage have been held regularly since the 70's, ours was DXpedition number 96 - thus the abbreviation and signature "LEM96", which follows each logging, and does not refer to the calendar year. Not to be outdone, **Michael Rolph** wasn't satisfied with his recently-garnered GY records, so he ventured a few kilometers further into the Outback... and logged 'em again! All new Graveyard records appear at the end of this column. See... we not only get DX loggings here, but a touch of geography, too! **Kent** was touring western Wisconsin and passes along several updates. And The Boys from Manitoba ventured to "The Beach" again for an end-of-season DX session which garnered a few new ones. **Shawn** says the temperatures weren't too bad. Even the seat in the outhouse wasn't too cold!!!
- The FCC has decided to go ahead with their previous expanded-band plan. At least as near as I can figure out. One interesting note is they have KXRT-1190/1640 allocated to 1630. (See **Tim Hall's** logging in Special). Am sure **AM Switch** will sort things out for us. **Kent Winrich** sez: "Got an e-mail from the guy that runs the transmitter at CIAO... I... posted that the station runs 1kw into a single tower which has sloper wires and performs as a three tower array oriented north east. No deep nulls anywhere in the pattern, just some forward gain and a flattening towards Windsor (CBC 540). The transmitter is a Gates solid state. There is a stanby (sic) omni tower on site. Most of the old 790 towers are gone. I operate the TX site, so any questions just ask. Rob'." I haven't a clue who this "Rob" is, but the CIAO-530 tidbit may be a good trivia question sometime.
- Attention CPC Test Reporters - - - effective immediately, include ALL station data in the report. Meaning: CLs, state, city, date, time, and what you heard (or that the test was not heard). Also, report the city-of-license, NOT the mailing address. If you can't look this data up and include it in the reports, I can't either. Save your postage, or effort if e-mailing.
- The Graveyard record for WDSG Dyersburg, Tennessee has been vacated. So, it's up for grabs!
- Once again, I am "on the move". I'll be here in Alamogordo, NM for a few months, but ask that you send snail mail to the address shown at the top of the column. Letters are being forwarded via Priority Mail twice a week. The "30-day old" rule is being relaxed a bit during this period, but don't wait 'til the last minute when sending in your reports. See you next month.

The **NRC AM Radio Log, 16th Edition**, compiled from members' reports and from official sources so that it is the most accurate listing of AM stations on the market. Cross-referenced, 3-hole punched for standard binders. Only \$16.95 to U. S. and Canadian members; \$22.95 to U. S. and Canadian non-NRC members. Airmail to members: to Latin America, \$21.00; Europe, \$24.00; rest of the world: \$28.00. Order from: NRC Publications - Box 164 - Mannsville, NY 13661 (NY residents, please add sales tax)

680 WOGO WI Hallie - 4/5 1800 - High Country (Contemporary Christian Country). After a stop by the station, they have added affiliations with MRN, USA Network, and provide Morningstar satellite service. They also cover local sports, NASCAR, and Winston Cup racing. (KW-WI)
 1110 KFAB NE Omaha - 3/24 - Adds Dreamland with Art Bell Sundays per program today. (DP-HI)
 1190 KMFJ MN Wabasha - 4/5 1405 - IDs as Fox Country. (KW-WI)
 1220 WIMN MN Stillwater - 4/5 1455 - Still here; not on 1210 CP. (KW-WI)
 1440 WHYY AL Montgomery - For the first time in well over thirty years Montgomery, AL is without a Top40, CHR, or whatever you wish to call it. The legendary WHYY-FM changed call letters and is now CAT COUNTRY 102. They kept the WHYY calls on the AM and went with an automated 50-60-70S format. Many will remember this station for it's high shares and some great talent that came through here like Mark Thompson (Mark & Brian), Steve of Steve and DC, Jeff McCartney, Don Cox, Mark St. John, Steve Davis and lots more. Larry Stevens - GM WMXS-Montgomery. (Internet post via DS-TN)
 1450 KVEN CA Ventura - Adds Coast to Coast AM with Art Bell per program newsletter. (DP-HI)
 KMSL MT Great Falls - 3/26 - Adds Coast to Coast AM with Art Bell per program today. However, announcement on show 4/2 said the show was added THAT day. (DP-HI)
 1490 WKRO IL Cairo - 4/2 - Adds Coast to Coast AM with Art Bell per program today. Bell mispronounced the town name as Kiro, not Kay-ro as in syrup. (DP-HI)
 1630 KXBT CA Vallejo - 4/29 0302 - Noted here, ex-1640, with Solid Gold Soul feed, IDs. (TRH-CA)
 KXBT CA Vallejo - 5/3 0721 - With Solid Gold Soul. Frequency change from 1640. Heard most mornings with fair reception. (JR-OK)

UNIDs and UNID HELP

780 UNID ?? - 4/1 0618 - Male announcer airing AC music by Phil Collins, Andy Gibb, others, mixed with possible PSAs. Thought I heard him say at 0648... your bleeding heart. Remember... Let's go back to the '70's. Barbra Streisand, after putting... by Evergreen, 19-6-5 now on KNOM... Also heard time check at 0651 7 minutes before 3 o'clock. Mostly under KKOH-NV with Art Bell rerun.

Did KNOM up power or something? The next night I definitely heard the announcer give a time check that was one hour ahead of local time here. (DP-HI)

880 UNID ?? - 3/31 0742 - Nostalgia music such as *At Di La, Quiet Village* by Hawaii's Martin Denny, *Memories Are Made of This* by Dean Martin, *Can't Help Falling In Love* by Elvis plus big band. ID missed. Seemed automated. KIXI-WA? Poor, mostly under KRVN-NE. (DP-HI)
 1150 UNID ?? - 4/5 2130 - Opera program with different pieces from several opera. A mention of ??? Radio Network and into commercials. No ID at :00/ Who??? (MBDXP)
 1340 UNID ?? - 4/20 0710 - Continuous oldies, with *Oldies 1340* slogan. Faded into GY gravel about 0725. Again fading up at 0917, but now with *Cool 1340* slogan. Suspect someone within 100 miles, but can't isolate with these slogans alone. Looped east/west. [Ed.-NM]
 1570 UNID ?? - 4/23 2310 - Fair, with C&W music, hockey scores, TSN Sports, weather. (SP-WI) [My money would be on CKMW-MB - Ed.]
 1610 UNID TIS - 4/5 2005 - <cam and woman talking. Woman gave a phone number starting with 727 and man announced that you were listening to this information station for the city of New ????. Sounded like a possible WN call sign. (MBDXP)
 1650 DOB ?? - 4/5 1958 - Good, clear Morse code signal. Anybody know who this is? (MBDXP)

DX AND EQUIPMENT TESTS

720- WRZN- FL Hernando - 3/25 0000-0030 - Test not heard. (MS-CA)
 930+ WKXY FL Sarasota - 3/25 0127 - With CID. WKY and KLUP nulled. Last heard here in 1987. (BBM-TX)
 940- KSWM- MO Aurora - 4/8 0300-0330 - Nothing heard in the mess that sounded like a test. (FA-ID) ... Test not heard. (MS-CA)
 KSWM+ MO Aurora - (No date or time) - Very weak CID's every 5 minutes... really messy freq... new for me. (TB-TN)
 1200 KFNW+ ND Fargo - 4/6 0500-0600 - Test appeared at 0510 with tone, VID, CID, then progressive tones. 0530 mentioned pattern, then ID: *This is KFNW 1200 Fargo, North Dakota conducting equipment tests.* Signal then abruptly reduced. Called the, taped test, report sent. ND #3. (MS-CA)
 KFNW- ND Fargo - 4/6 0500-0600 - Nothing heard. Had thought this one would have a good chance to make it. (FA-ID)
 1260 WNRK+ DE Newark - 4/6 0020 - Poor signal, but did get a CID at 0020 and another at 0027. New state for Wayne! Best catch of the night. (MBDXP)
 WNRK- DE Newark - 4/6 0000-0200 - Nothing heard, and did not expect to. (FA-ID)
 1360 KNIR- LA New Iberia - 4/1 0100-0130 - Test not heard. (MS-CA)
 1570 WYTI- VA Rocky Mount - 4/8 0000-0030 - Nothing heard that might have been a station testing. Only heard two SS stations, suspect KCVR and KTGE. (BK-CA) ... not heard... suspect no-show as this one should have made it. (TB-TN) ... Nothing heard under CKTA, which was dominant at the time. (FA-ID)

- 1600 KNWA AR Bellefonte - 3/27 0732 - Heard only KNWA 1600, then fade-out. (JR-OK)
- 1640 KXBT CA Vallejo - 4/2 0020 - Probably this with what sounded like '60s classic rock. Also on 4/4 2340 with R&B oldie Me And Mrs. Jones. Male DJ. Faint underneath white noise. Only station in expanded band to be tentatively heard (1660 WJDM-NJ has to contend with second harmonic of KHVH-830). I do have to contend with a weird mixing product on 1630 of KGU-760 and KAIM-870. (DP-HI)
- 1660 WJDM NJ Elizabeth - 4/13 0547-0605 - Fair-to-good with fades. Bluegrass music. Missed CID on the hour. Into AC and talk with All-American Saturday Warm-up Show and Another fascinating fact from Radio Aahs. (JW-OR)

0800 TO 1600 HOURS ELT

- 670 KLTT CO Commerce City - 4/19 0820 - Excellent, with REL programming. Had been listening to KBOI when this guy powered up and blew them away. The railroad track must run out west of here, hi. [Ed-NM*]

The new address that you see above takes effect on May 25. Please send your reports to this address from this date.

Mark Burns writes to correct his WAKE logging several issues back ... it was indeed WAVG. And my apologies to Mark for misplacing two of his loggings last time.

Upcoming deadlines: June 4, July 2, July 30, September 3.

SPECIAL

- 560 WLLZ MI Monroe - 4/1 - Ex-WHND, heard call change during license renewal PSA. Now calls itself "WLLZ, Detroit's Wheels." Call and slogan come from a defunct AOR on 98.7 now playing jazz. They probably did this trying to solidify their image as a magnet for the classic car clubs in metro Detroit, a holdover from the old 50's and 60's format. Still SS 1200-1700, brokered the rest of the time to incompetent talent who can't keep the call change straight. (JL-OH)
- 610 WNTW VA Winchester - Adds "The Tom Leykis Show" per spokesman at Westwood One; ex-WUSQ. (DP-HI)
- 810 WISZ MI Rockford - 5/1 - Drops R. Aahs KID format for satellite NOS. (PB-MI)
- 930 WPAT NJ Paterson - 5/9 1600 - Now with SS programming, legal ID in EE at 1600 and 1601, but *not* // WADO-1280 as previously reported. Call IDs in SS and "La Emisora del Pueblo" IDs. (DY-CT)
- 1150 WMRV CT Middletown - 5/8 1106 - Heard with these calls, ex-WCNX, and not WCTX as in "AM Switch" last issue. Legal ID at 1100, UPI news, For the People promo, local ads, weather, several WMRV IDs. (DY-CT)
- 1550 WBBI PA Pittston - 4/4 1135 - While driving down I-81, heard with Bloomberg News Radio and positive ID at this time as WBBI between news segments. No ID on the hour at noon. (CDE-MA)
- 1580 WCTJ NC Camp Lejeune - 4/23 0900-0932 (carrier off), 4/29 1600-2040 tune-out, 5/1 1600 - Presumed ex-WWOF testing with GOS music and male announcer, ID as "This is WCTJ Jacksonville NC, testing," UPI news on the hour, and "UPI News Update" on the half hour. Signal strength up and down as if varying power, some canned music, announcements. Several promos as "The New Light 15-80, Jacksonville" in conjunction with "Light 14-90, New Bern," seems to be simulcast of WLOJ-1490. No ID heard throughout more than 4 hours on 4/29, legal ID 5/1 1600 seemed to mention Camp Lejeune first, then Jacksonville. Station was on and off and signal strength poor to excellent (power changes, I'm sure) and some WPGC QRM. Has been off since 5/1 just past 1600. (MH-NC)

DX TESTS

- 720 WRZN FL Hernando - 4/25 0000-0030 - *Not heard*. (MB-ON)
- 850 WRUF FL Gainesville - 3/25 0200-0230 - *Heard* code IDs at different audio frequencies, fair-good. Unneeded. (WPT-DC)
- 910 WSBA PA York - 3./25 0030-0130 - *Heard*, fair 0115 over CKLY's "Good Time Oldies" with repeated code IDs. Unneeded. (MB-ON)

- 940 KSWM MO Aurora - 4/8 0300-0330 *Not heard*, only "CBC Overnight" on CBM. (RA-MA) *Heard* with several periods of code IDs under WMIX, others, fair. (SF-TN) *Heard* code IDs about every five minutes starting at 0306. 1 kHz TTs at 0311, 0317, 0326. Weak under Cuba playing really atrocious music, CBM nowhere to be found. (JL-OH) (Cuba-940 is all news, Jeff. - DY)
- 1110 WTBQ NY Warwick - 4/1 0515-0545 *Not heard*, WBT reigns supreme. (WPT-DC)
- 1200 KFNW ND West Fargo - 4/6 0500-0600 - *Heard* between 0500-0520, QSL received. (QRD-IN)
- 1260 WNRK DE Newark - 4/6 0000-0030 - *Not heard* under strong WNDR, WNDE, and the Cleveland gospel station that seems to change calls religiously. (MB-ON) *Not heard*, dominant C&W station never IDed. (JL-OH)
- 1270 WMIZ NJ Vineland - 3/30 0000-0200 - *Not heard*, frequency dominated by WXYT. (MB-ON)
- WLIK TN Newport - 3/31 0000-0030 - *Not heard*, unneeded as heard on sunset skip in 1980. (MB-ON) *Heard* with "Kingsport" and "WLIK" in code 0016, fair in WWDC-1260 splash. #13 on the channel. (WPT-DC)
- 1280 WTMY FL Sarasota - 3/25 0130-0200 - *Heard* from 0155 with low frequency code ID, fair under WROC. #20 on the channel. (WPT-DC)
- 1290 WTMC FL Ocala - 3/23 0230-0300 - *Heard* 0240-0245 with code ID, fair under WFBC, #22 on the channel. (WPT-DC)
- 1360 KNIR LA New Iberia - 4/1 0100-0130 - *Not heard*. (RA-MA) *Not heard*. (WPT-DC)
- 1390 WZZB IN Seymour - 3/25 0030-0100 - *Not heard*. (MB-ON)
- 1570 WYTI VA Rocky Mount - 4/8 0000-0030 - *Very tentative* with some short periods of brief code and TT on a messy frequency; could not ID. *Heard* at sunset occasionally during winter months. (RA-MA) *Not heard* in what now sounds like a graveyard since the demise of CFOR, CHLO, and CKLM. (MB-ON) *Not heard* above unID with really lame GOS music. (JL-OH)

UNID and UNID HELP

- 740 UNID 4/29 0600 - ABC news on the hour over CBC Overnight's broadcast of Radio Australia. (WM-MD)

On frequent occasions I receive many nice compliments for this column. It's only possible because of all the excellent reporters we have, veterans and new-comers alike!

We have interesting reports from Jean Burnell who has heard some TAs from Cuba, and Ray Moore who has been hearing TPs from Florida. And John Wilkins adds AZ to our list of reporting states.

TRANS-ATLANTIC DX

- 183 GERMANY Saarlouis, APR 26 0326 - Good with man and woman in FF in what seemed to be a drama. Heard regularly. [Dangerfield-PA]
- 207 MOROCCO Azilal, APR 27 0332 - Loud and clear with what seemed to be a Moslem religious concert by an orchestra with chorus. Not in well like this before for me. Sometimes there is another station behind but I haven't gotten enough yet to copy. [Dangerfield-PA]
- 216 MONACO Radio Monte Carlo, APR 26 0306 - Fair with man in FF an then music with male vocal. Has been a regular. [Dangerfield-PA]
- 234 LUXEMBOURG Junglinster, APR 26 0348 - Good with man and woman FF, then vocal by man in FF. [Dangerfield-PA]
- 252 IRELAND Kilmessan, APR 11 0258 - Just booming in with pop music. Hasn't been as good since. [Dangerfield-PA]
- 531 ALGERIA, Ain-el-Beida, APR 28 0337 - AA female vocal; good, atop Spain. RVC-532 pest nulled. [Connelly*Y-MA]
- 549 ALGERIA Les Trembles, APR 6 0036-0049 - Loud and clear with man and woman in AA and ten second interludes of Middle Eastern music between items. APR 14 0430-0443 - Fair with AA vocals and violins. APR 15 0405-0418 - Fair, same program as APR 6. APR 18 0131-0152 - Loud and clear in long peaks with man in AA and Middle Eastern music. The easiest TA here in April. [DeLorenzo-MA]
- 558 SPAIN, RNE5 synchros, APR 28 0342 - bits of SS talk; poor. [Connelly*Y-MA]
- 585 SPAIN / TUNISIA (t), APR 28 0348 - woman in SS mixed with apparent AA vocal; bad low-pitched growl present. [Connelly*Y-MA]
- 603 SPAIN RNE5 synchros, APR 21 0235 - Fair; end of news/talk into Spanish pop music // 855. [Conti-NH]
- 612 MOROCCO Sebaa Aioun, APR 6 0054-0110 - Loud and clear with man in AA and lively Middle Eastern music. [DeLorenzo-MA]
- 612 IRELAND FM2 Athlone APR 10 0400 - good with news in EE by a woman, way over top of everything, best from this yet and much better than usual powerhouse 567. [Merriman-VA]
- 621 CANARY ISLANDS // SPAIN, RNE1 synchros, APR 28 0320 - SS talk; fair to good over WXLX/WZON/WVMT slop. [Connelly*Y-MA]
- 648 GAMBIA R Gambia, Bonto APR 9 2321 - two or more men in African language, 2325 woman joined in and spoke occasionally, at times this sounded like a ceremony of some kind with one speaking and the other responding, 2340 brief exchange by two men in accented EE which ended with one saying "thank you very much" then back to African language. Peaking over S9 and continuously readable to 2347 when faded for good. Senegal-765 very loud at this time. No ID but nothing else really likely and accented EE would seem to more or less cinch it. Hopefully will get definite ID one of these days. [Merriman-VA]
- 684 SPAIN, RNE1, Sevilla, APR 28 0315 - SS talk by man; fair in WRKO slop. SAH, bits of second audio under. [Connelly*Y-MA]

- 702 MOROCCO Sebaa-Aioun APR 13 2350 - Fair to good; Koranic chants, then 2400 sign-off with national anthem leaving Spain in clear. [Conti-NH]
- 702 MOROCCO Sebaa-Aioun C APR 14 2352 - AA sounding chant by a man, loud and // 827. This went from not being heard all winter to a nightly regular. [Merriman-VA]
- 702 UNID APR 10 0010 - two men in ??, 0015:30 woman in ?? with occasional brief comments by a man to fade at 0020. Was not Slovakia as 1098 checked and Morocco off at 0000. Probably the same station heard last night that I thought was in SS but this definitely not SS. If on at this time Turkey would seem most likely with 1200 kw but language didn't really sound like the Turkish I was able to hear on SW. 0050 back up again with man in ??, this time Slovakia behind with easy listening music. Ideas? [Merriman-VA] (See Station News below - Jim)
- 747 NETHERLANDS Flevoland, APR 10 0110-0205 - Loud and clear with man in DD and variety of music including pop vocals, Spanish guitar, New Age, and a ballad by Los Lobos. [DeLorenzo-MA]
- 747 CANARY IS RNE 5 Las Palmas APR 15 0002 - two men and a woman in SS with news, loud and alone and // other RNE outlets as I looked for Burkina Faso. [Merriman-VA]
- 765 SWITZERLAND RSR Sottens MAR 16 2305 - Fair; talk in Italian with Radio Classica mentions, classical music, verified as RSR La Premiere/Option Musique which includes some Italian language programming although majority of programming is in French. [Conti-NH]
- 765 SENEGAL Dakar, APR 18 2320 - Strong signal with man giving speech in African language. [Dangerfield-P]
- 819 EGYPT Batra MAY 5 0240 - Fair; epic Arabic music // 12050. [Conti-NH]
- 836 unID, APR 28 0545 - bits of music, het against 837; maybe Azores drifting again. [Connelly*Y-MA]
- 837 AZORES RDP Barrosa APR 14 0530 - Fair; telephone talk until 0540, then Portuguese vocal, // 666, over COPE. [Conti-NH]
- 855 SPAIN, RNE1 synchros, APR 28 0250 - SS vocal; fair. [Connelly*Y-MA]
- 864 EGYPT Santah MAY 5 0205 - Excellent! Koranic chants, not parallel 819 nor 12050. [Conti-NH]
- 882 CANARY ISLANDS // SPAIN, APR 28 0412 - fast SS talk by man; fair with WCBS phased. [Connelly*Y-MA]
- 891 ALGERIA, Algiers, APR 28 0243 - AA vocal; fair through slop. APR 28 0416 - AA male vocal at light audio level on massive carrier. [Connelly*Y-MA]
- 954 KENYA KBC, Kisumu/Nyamnia, APR 26 0159 - Flute and drums poking through the QRM, choral anthem at 0200; this was tentative during NF DX 4, but this time the signal was definitely // 4935 kHz and 1386 kHz; SIO 222. (I also discovered scraps of // audio on 747 kHz.) [Burnell-NF]
- 1008 CANARY ISLANDS R. Las Palmas, APR 25 2323 - "Star Wars" and "The Spy Who Love Me" themes, male announcer said this was a program of music from the cinema on "SER", but not // to the SER stations on 1575 and 1584 kHz; SIO 444 [Burnell-NF]
- 1026 SPAIN, SER synchros, APR 28 0514 - SS teletalk; fair with CCR-1025 pest off at the time. [Connelly*Y-MA]
- 1044 SPAIN, SER, San Sebastian et al., APR 28 0422 - man & woman in SS; fair over growl. [Connelly*Y-MA]
- 1044 MOROCCO Sebaa-Aioun MAY 4 2310 - Fair; lively Berber/Arabic music; 2355 Koranic chants; 2400 sign-off with anthem. [Conti-NH]
- 1062 DENMARK Kalundborg, APR 7 0420-0436 - Good with dance music, rock music, man in Danish. Apparently lost at transmitter sunrise after 0436. [DeLorenzo-MA]
- 1089 UNITED KINGDOM, TalkRadio synchros, APR 28 0430 - EE teletalk; fair through WBAL slop. [Connelly*Y-MA]
- 1107 SPAIN, RNE5 synchros, APR 28 0435 - excellent with flamenco guitar, SS male vocal; over others. There was a tremendous enhancement of mid-and high- band Spaniards in the 0430-0515 UTC period and some all-time signal strength records were probably broken. All this on an evening that had only been mediocre TA-wise earlier. [Connelly*Y-MA]
- 1116 SPAIN, SER synchros / probable ITALY, APR 28 0437 - man & woman in SS; good to excellent over classical music station. [Connelly*Y-MA]

- Jean speaks:* "I managed to take an afternoon off and I went down to Cappahayden, site of the "Newfoundland DXpeditions", for an evening of DX. Conditions were mediocre to the south, but decent antennas can still provide some reasonable DX for this time of year...even some "first-time" logs. I used both receivers at once, with tape running all the time on both."

PAN-AMERICAN DX

- 532 TURKS & CAICOS RVC, APR 11 0155-0201 - Loud and clear with SS discussion, EE ID at top of hour, into SS Christian programming. APR 17 0204-0210 - Very strong in SS with numerous IDs and station promos. Last month I mistakenly reported this as on 533 kHz - I was still learning how to use my new receiver. [DeLorenzo-MA]
- 535 GRENADA St. George's, APR 27 0042 - Very strong all evening with many programs, but at very best 2 hours later with religious songs. Never heard this as easily. [Dangerfield-PA] APR 28 0339 - energetic soca vocal with rhythm backing; to good peak with RVC-532 nulled. [Connelly*Y-MA]
- 580 MEXICO XEMU Piedras Negras COAH, MAR 22 0228 - Ads for Electrica Montz, Farmacia San Andres, and others; PSA for "Dia Mundial de Agua" (World Water Day); ad string continued past 0232 fadeout. Fair in QRM. [Wilkins*AZ]
- 640 CUBA, R. Progreso synchros, APR 28 0330 - "Nights in White Satin" by the Moody Blues, then SS ID "R. Progreso". This was followed by a female SS vocal. Excellent, over slight 641 het. [Connelly*Y-MA]
- 640 GUADELOUPE, RFO, Pointe-a-Pitre, APR 28 0556 - FF male vocal, then FF talk by woman; fair in mix with EE station that was probably CBN. [Connelly*Y-MA]

- 980 BRAZIL R. Nacional, Brasilia, APR 25 2312 - Man talking in PP, finally some music at 2318 but he talked all over that, too; SIO 444 [Burnell-NF]
- 1000 CUBA R Guama, Los Palacios, Pinar del Rio, MAY 1 1420 - dedicated network programming with M&W hosting "primero de mayo" parade festivities from downtown Habana live, but spending most of the time reading really silly scripted revolutionary slogans in banter-mode, parallel much stronger 1090. RHC (shortwave) and all of the national networks (Rebelde, etc.) noted with their own coverage, of course. [Krueger-FL]
- 1025 TURKS & CAICOS CCR, MAR 31 0400 - very strong with ID as "super power 1020". Now regular on split channel? [Clark-ON] APR 6 0318-0331 - With program "Chronicles of Revival" from Tampa FL, ID 0330 as "Superpower Christian Radio from Grand Turk Island, Turks and Caicos, British West Indies", fair to good signal. Mentioned 1020 kHz, but definitely closer to 1025. [Sorensen-ON] APR 12 0133-0155 - Loud and clear with preacher and hymns on "The Radio Bible Hour". WBZ sideband not a problem. [DeLorenzo-MA] APR 28 0038 - EE religious talk & requests for donations; loud, sometimes stronger than WBZ-1030. [Connelly*Y-MA]
- 1060 unID, APR 26 0231-0315 - Accordian and piano music, typical of the southern part of South America, no anmts at all except at 0301 when a gravelly-voiced man may have IDed, very poor but not inconsistent with "Radio Minería", but I can't be sure! QRM from a Brazilian, SIO 222-1 [Burnell-NF]
- 1090 CUBA R Guama, Santa Lucia, Pinar del Rio, MAY 1 1413 - coverage of May Day events, see 1000 log. Fair. [Krueger-FL]
- 1180 CUBA R Tafno, MAY 1 1350 - surprised to hear Tafno with their own, independent coverage in SP of May Day events in Habana and multi-IDs. Local level, as always. [Krueger-FL]

- 1290 MEXICO XEQIN San Quintan BCN, MAR 22 0310 - Trio music, woman announcer; 0314 "La Voz del Valle" slogan, generally good with QSB. [Wilkins*AZ]
- 1340 COLOMBIA RCN stn, more than one possible site, APR 10 0220 - Sports play-by-play, mentioned "Cadena RCN" and was // 770 and 1400; SIO 222 [Burnell-CUBA]
- 1375 ST. PIERRE & MIQUELON, RFO, APR 28 0454 - man & woman in FF with tinny audio typical of a speaker-to-microphone relay; excellent signal level as usual. [Connelly*Y-MA]
- 1390.22 unID, APR 26, 0012 - Suspect this was the R. Universidad Nac. de La Plata from Argentina, with classical piano music; SIO 232-1 [Burnell-NF]
- 1400 GRENADA Harbour Light of the Windwards, Carriacou, APR 26 0129 - Men's chorus with religious song then man with religious talk; SIO 322 [Burnell-NF]
- 1460 BRAZIL R. Alvorada, Cruz das Almas, APR 25 2144-0005 - Followed off and on for a long time, initially Brazilian music, later "A Voz do Brasil" program, but when this ended at 2304 heard "Radio Alvorada" jingle, at 2358- 0005 football (soccer) play-by-play with one team being from Bahia. This one listed as "construction permit" in WRTH'96. At best SIO 343 [Burnell-NF]
- 1500 VENEZUELA R. Dos Mil, Cumana, APR 13 2336 - "Radio Dos Mil" ID, ads with prices in Bolivares; SIO 333 [Burnell-CUBA]
- 1550 BRAZIL R. Gazeta, Areira Branca, APR 26 0035 - PP ads, deep-voiced DJ with 2 ID's at 0036, over another Brazilian; this Brazilian graveyarder is the easiest to hear, and unlike many of the smaller Brazilian stns, it IDs clearly and frequently! SIO 333 [Burnell-NF]
- 1570 DOMINICAN REP. R. Amanecer Internacional, Santo Domingo, APR 11 0055 - Choppy signal but dominated the freq with SS religion, ID at 0057; SIO 444-3 Only DR station I could find. [Burnell-CUBA]
- 1580 BELIZE VOA Relay, APR 12 0239-0245 - VOA in EE with newsmagazine; SIO 242 [Burnell-CUBA]

Terry speaks: "A very quick mid-morning check of MW events from territorio libre en América during May Day celebrations prior to my habitual bourgeois obsessive/compulsive departure for work." (Take the day off next year! - Jim)

Jean speaks again: "I was in Cuba a couple of weeks ago, and I had a great time at the beach! Between piña colodas I made some logs/observations, some of which may be useful! The MW band during daylight is dominated, of course, by many Cubans, but at night only the big network Cubans were clearly audible on their most local frequencies. Most channels yielded U.S. stations at night. Surprisingly, no Jamaicans were audible at night or during the day."

TRANS-PACIFIC DX

- 774 AUSTRALIA 3LO Melbourne, APR 3 1058 - Produced first spring TP audio on MAR 24 and has been almost a daily visitor since. Finally got good copy over the hour on APR 3. Discussion of UDOs and satellites at 1058, "weather over Victoria" just before the hour, brief orchestral piece with five time pips superimposed on the hour 1100, then "ABC News, Peter Lynch" into election news. [Moore-FL]
- 774 JAPAN FEB 4 1042 - Strong carrier with 0.5 SAH noted but could get no null. However, I could null the SAH at two bearings, 240 deg. (3LO) and 330 deg. (J0UB). From 1044-1045 3LO faded leaving only 330 deg. carrier with weak audio. Then 1056-1100 only 3LO's

carrier present. I had the same experience on FEB 3, MAR 7 and MAR 9 but no audio. Japanese carrier also noted on 693 kHz on each occasion. Hoping next fall will produce the first real good Japan tape for me. [Moore-FL]

Ray speaks: "Anyone interested in TP reception should try 774 kHz, 1098 (Marshall Islands), and 1548 (4QD) during the half hour before local sunrise. The TPs came through all summer last year with some of the best audio in June and July. I have noted as many as 43 TP carriers in a single morning (APR 1) this spring. The amazing thing about the TPs is their consistency. They are there day after day regardless of the A index, but are never very strong."

UNIDS, QUERIES, RESPONSES

GUAM 801 (tentative MAR 22 from Dale Park in Hawaii): This could well be the 1kW station in Nelson, New Zealand, part of the "Radio Rhema" religious network. Dale may be mistaking a New Zealand accent for an Australian one (kinda like getting Canadians & Yanks mixed up). [Andrew Gardener-NZ via e-mail]

LATIN AMERICA WEBSITE ANNOUNCED

Latin American Radio WWW site: Don Moore's "Patepluma International Radio" website is now on-line with over a megabyte of articles. While the focus is on Latin American shortwave broadcasting, there is plenty for the MW DXer as well, especially in the form of background information. MW specific information includes an extensive log of Venezuelan & Colombian MW stations heard by Don on a trip to Venezuela in 1/95 and an article about the use of US domestic radio in the 1924 presidential election. Photos and logo graphics of Latin American radio stations - SW and MW - are to be added soon. The URL is

HCJB TESTS CONTINUE

Correct reports for these tests are verified with a beautiful special 690 kHz QSL card depicting Quito at night. In order that QSLs retain their value, I am being very stringent about report details. Specific audio items heard should be reported to the second if possible. Tape recordings are welcome but tapes can not be returned.

Over the past few months, I've received a number of great reports from as far as Scotland and New Zealand. I've also been sent some amazing fabrications, one that went as far as to include paragraphs of English language identifications and HCJB historical material, none of which was aired! There has also been the possibility of one or more pirate HCJB DX tests originating in the U.S., making accurate reporting all the more important. The pirate operators could never guess what is aired, however, making the bogus transmissions easy to spot. What I do have on the tests includes unlikely code words and sound effects and songs that one probably wouldn't expect to hear on an HCJB DX test. You have the fun trying for the tests but I have a lot of fun producing them! Please send reports (with one IRC or first class postage in U.S. or Canadian stamps) to: 690 DX Test, c/o Richard McVicar, HCJB, Casilla 17-17-691, Quito, Ecuador.

Up-coming tests: June 2 0600-0615, July 7 0800-0815, August 4 0600-0615, September 1 0515-0530. [R.McVicar/HCJB e-mail]

Changes in programming status; reported by listeners

Mark Burns, of Terre Haute, IN, writes to note that KLBG - 580, Alexandria, LA., now runs a religion format. While DX'ing, he heard "Thanks for listening to KLBG, where God's word is first priority". Mark, I hope that they verified for you! And, here, my favorite radio station, WYNY - 103.5, New York City, dropped its country format, disc jockeys, and listeners at 6:04am, on Monday, March 10. At least Evergreen Media allowed the air personalities to broadcast their final shows over the weekend with many listeners calling in to say goodbye and express their sadness that this personable station, with its friendly announcing staff would be gone. Among advertisers on the final weekend was WGSM - 740, in Huntington, Long Island, hoping to get some of the dedicated WYNY listeners. At 6:04 AM, Evergreen introduced their new format with some foul mouthed individual named Mancow, who came on the air talking about male appendages and likening competing local morning radio hosts to rectums. I have not listened to the station since. The *Daily News* radio column listed eight or nine little thousand watt AM stations in the metropolitan New York suburbs which carry country music. WGSM is making an effort to replace WYNY, with PD Randy Turner in morning drive, with a show which is actually a more enjoyable show than the former Kat and Dave Morning Show on WYNY, and a few live assist hours in the afternoon. However most of the music is satellite - fed with generic hosts saying nothing of substance. I prefer my country music played by someone in the station's studio, with a local accent. WGSM cannot hope to replace WYNY...its 25,000 watt daytime signal, from a four tower array near the LIRR Huntington Station, protects Toronto, WVCH, Chester, PA, and Bob Bittner's WJIB in Cambridge, MA., and goes away from most of the New York City area. Additionally, WGSM probably could not afford to pay the ex-WYNY personalities. New York now has no FM country music station. By contrast, Portland, ME, has two FM country outlets - WPOR-101.9 and WHTT-106.5 - plus WPOR - 1490, which simulcasts its FM!

The first part of the annual railfan trip will be to Chicago, in June, where, along with enjoying METRA and the CTA, I hope to put together some Station Profiles of some more of the unique little AM radio station in the Chicago suburbs. Now, for the second part of the trip, in July or August, I hope to get to either Los Angeles and San Diego or Portland, Seattle, and Vancouver. And a request....does any NRC member know where the radio studio and transmitter location are, around San Diego and Los Angeles, or around Seattle and Portland. If so, please write!? I would love to do a Station Profile on XETRA - 690, San Diego - Tijuana.

This column comes to you from Dave Schmidt, the *M Street Journal*, and your editor. Here we go....

All for now! Thank you to Dave Schmidt and *The M Street Journal* for their contributions!! Please send your local AM radio format changes in to YOUR formats column! After all, if WOR-710 changes its format to a mix of Spanish Christian, Korean, Business News and Greek oldies, everyone in the NRC would like to know! Additionally, I owe several of you letters (and slides). I have labled the slides (of Ontario transmitter sites) and they are coming (like that verie for which you have been waiting for eight months!).

Finally, if you live around San Diego, Los Angeles, Portland (Oregon, not Maine!), Seattle, or Vancouver, could you please, should you know, let me know where your local stations' studios and transmitter sites are! Thank you very much! 73's!

Ken Onyschuk sent me a flagship list from the "Sporting News Yearbook". Ken's list has two differences from Rick's list: a: Ken Onyschuk lists 580 WIBW-KS for the Kansas City Royals. The flagship is WIBW in Topeka; WDAF in Kansas City is on the network but is not the flagship. b Ken Onyschuk lists 750 WSB-GA and 680 WCIN-GA for the Atlanta Braves. I guess WCIN carries the games when the Atlanta Hawks (NBA) are on WSB. I have minor league information, which will come in a future column.

Here are the two network lists that I have to date; please send me any others that you may have.

Here are some Major League Baseball network lists from Bob Galerstein (media guides), Tom Sanders, and Todd Brandenburg. Following these lists is information on Minor League Baseball. Remember that all of these lists are subject to change. Please send me any lists that you have. Thanks.

Fan Link bills itself as the home of Minor League Baseball on the World-Wide Web; the URL is <http://www/fanlink.com/>. I have seen a book that lists URLs for professional sports teams; there are too many URLs to list here. As FOX-TV will be telecasting the "game of the week", they probably have a WWW site with links to other baseball sites. A WWW search by any of the engines (altavista, lycos, yahoo, webcrawler, etc.) will find many WWW pages about major and minor league teams; but, alas, I have yet to find a network list for any team.

Carrier Current Stations

compiled by Christopher R. Cuomo

This is a list of carrier current stations edited down from a list of college radio stations posted as public domain on the World Wide Web, primarily for the use of independent record labels seeking to send their releases to college and other non-commercial stations. Only AM stations from that list and a few others reported in *DX News*, but not listed on that list, are listed here. The complete list is available at "<http://www.jett.com/collegeradio/clgradio.html>" and includes frequencies, complete addresses, and telephone and FAX numbers.

Carrier current stations radiate a signal, usually on the lower end of the AM band, into some sort of wiring, often the power wires, and can be received on any radio placed near the wires. They are most popular on college campuses and dorms, particularly at smaller schools and in large metro areas where the FM band is crowded. Some operate as an alternative to a school's licensed FM station. See John D. Bowker's recent series of articles on legal alternatives to pirate radio for more details on carrier current stations.

Keep in mind that none of these stations are licensed by the FCC or CRTC, their "callsigns" and frequencies are unassigned and can change at any time for any reason. Likewise, these stations come on the air and go silent with no public notice. Gathering information about these stations is obviously a challenge. NRC members are encouraged to supply any changes and corrections to this list to me at 670 Third Avenue, Verona, PA 15147-1349, or to Mike Hardester at 3118 Gaitway Court, Jacksonville, NC 28546-6973. Mike can be e-mailed at "2Lakota@Abaco.coastalnet.com". The unnamed author of the list requests corrections

sent to him or her at "MuzMorph@aol.com". City of locations of stations are only given when the city name is not part of the institution operating the station.

RICHARD W. TURNER - 286 HIXVILLE ROAD - N DARTMOUTH, MA 02747-1938

Hello, everyone. Well, the DX here is starting to wind down a bit and shortly I'll be putting the radio aside for the summer in order to pursue other interests and activities. Still, I count the year a very big success with the logging of about 70 new stations, of which 15 were graveyarders. Among the new stations heard in March were WHMP-1400, WLFH-1230 and WGBB-1240. I received a tape from ROCKY STONE on the 25th and gave him a quick buzz on the phone, talking with him about 15 minutes. Went to Plymouth, MA on the 26th for the purpose of conducting some research at the Society of Mayflower Descendants Library, but I got there early and so decided to do some DXing in the parking lot. The first thing that got my attention was the enhanced waterpath reception of stations from ME. WPOR-1490 completely dominated the frequency during the day. I have picked them up at night at my home den but nowhere near that level of signal strength. On 1450, WRKD and WBNP were fighting it out. 1400 was a complete waste of time, thanks to WPLM-1390. I have been trying for KXBT-1640, but so far, no luck. Hope everyone has a great summer. 73s

MORRIS SORENSON - 29 JANET BOULEVARD - SCARBOROUGH, ON M1R 1H7

As another DX season winds down, I decided I should write into MUSINGS. Highlights of the past season included reception of the U. S. Army station from Fort Meade, MD on 1670 and logging #500 from Scarborough, WKDR-1390. I started my Scarborough log 9/90 but have DXed from various locations since 1964. Recently I received my first AM verification in some time, a friendly letter from WJDM-1660. If anyone needs a few Canadian stamps for return postage, I would be pleased to provide them in exchange for U. S. stamps. 73

Well, its time to step up on the soapbox: don't know how a lot of our members DX when they can't read. How many read the back page of DX News? Renewals don't go to Topeka, KS; change of addresses don't go to Poquonock, CT. Do you know what it costs to

renew your membership? A lot of you don't....witness the money I receive. Checks made out to me are fine....I'm not a rich man. Sending cash to me is dangerous....one week I had almost a hundred dollars from some of you. One of these days I'm going to take it to the Indians in Ledyard, CT (for those of you now in the know, is a casino). DX TESTS is another sore point with me. 1. Reporting the times that you heard Morse Code being transmitted. A lot of our members send reports saying they heard code but they have no idea what it said. I sent a report to the KA2... test on 16__ and got back a verie and when AL MERRIMAN (all around nice guy) deciphered it, we figure I heard a fishing net buoy. So much for tentative reports to testing stations. 2. Tentative reports are being sent as well as THANK YOU notes to testing stations and veries are being received. Are you sure of what you heard? The HCJB-690 1/96 TEST was heard for 13 minutes and after MR. MERRIMAN deciphered the Morse Code there was no H-C-J-B mentioned....but 3 Japanese words were!! A nice card received for a taped report. 3. DX TESTS on Monday morning. Ha! Ha! Not this kid....if it ain't on Saturday or Sunday morning, forget it. I agree 9000% with ERC who says Monday mornings hasn't been the same in 20 years as far as stations signing off for maintenance. Anyone who thinks otherwise is way out of touch with the hobby. Guess I've got that off my chest. Veries in from Norway-1314, Montserrat-885, WVWI-1000-Test, St. Pierre and Miquelon-1375 and 'thanks for your report' from 1521. Many reports are out including K-TRUCK. The het from Syria-783 heard several times but no audio; 1640 has produced bits and pieces of urban contemporary but no IDs, just static crashes. Two new radios here, a 1935 Sterling made in Cleveland, OH and a 1937 Philco. Now for a Atwater-Kent!

I found AL GERMOND's comments about night conditions in the 3/18 DX News to be very interesting. In travels around the country over the past few years, it seems that most frequencies are nothing but noise and hash except the remaining clear channels. To hear a regional station at night, you practically have to have the lights of the city in sight (or the stations tower lights!) Here at my home, many of the regional frequencies, especially in the 1300-1500 range, sound just like local channels. By any measure, this has been a good DX season. I've let a couple of months go by without reporting due to a heavy work schedule, so I'll cover the highlights. 2/4 I tried for all the AK tests (the is the only state that hasn't been heard here) and didn't hear anything, except what I thought was a code ID from KYAK-650 at 3:34AM CST. This was during a comedy routine on WSM. I sent KYAK a tape, which they verified with a form letter. Later, ROB KRAMER and I tried to copy what sounded like the code using his audio filters, but we were unable to decipher anything. I've sent another report to KYAK to get a more definite verification. In the meantime, I have AK verified, but I'm not sure I heard it. Anyone else hear anything at this time? On 2/5, the KTRK-1670 test broadcast was heard here at 6:57PM with good signals. The WIRC-630, KCSR-610 and WTLA-1200 DX TESTS were all heard here. More recently, the following tests were tried and NOT heard here: KBSU-730, WTCH-960 (heard previously on reg. sked), KBTC-1250, WOPP-1290, WEAG-1490, WTMK-1290, WKXY-930 and WTMV-1280. Here's a target for any sports fan, I read that the new United Center had installed some kind of antenna above the upper levels to rebroadcast the AM signals of the Blackhawks and Bulls. I was there for a Blackhawks game on 3/11 and the signal of WMVP-1000 was much stronger than when I had taken the radio to other games, when I turned the Walkman on at 7:21PM. A week later, on 3/19, I was at a Bulls game and turned on WMAQ-670, which had a much stronger signal, but was subject to what sounded like pulsing, almost like a helicopter was overhead. 73 (The frequency was set too close for the synchro type transmitter system; the repeater should have been set a little further off from WMAQ-DWS)

MIKE SANBURN - PO BOX 1256 - BELLFLOWER, CA 90707

Greetings! I'm glad to see the NRC membership has surpassed 800. It appears that our hobby has a solid future. I have closed out the season by logging the KFNW

TEST. Other tests heard lately were KLVI and KBSU, and of course my local KBRT. It appears that this seasons KGYN test ran early and KFQD ran late. Hopefully, they'll test again someday. The expanded band has really grabbed U. S. all by the groundwires. In Feb., I was at DXer STEVE JARVIS' place listening to KTRUCK-1670 on his Sony 2010. Here at the shack, I keep picking up a carrier on 1660, likely WJDM. Of course, KXBT-1640 is a pest for me. Locally, Long Beach City College now has a small station on 1700 called KLBC. Like KCEB-1610 at Cerritos College, they might be silent through the summer months, but it's great listening during the semesters. The Anaheim H-A-R was recently testing on 1700 also. Recent additions to the collection here include a Pioneer SX203 receiver, mostly for making airchecks, and a Sony SRF42 AM Stereo Walkman. So far, I've made room reservations for 3 summer conventions, IRCA, WTFDA and NRC. Hope all are well attended. I sent a bunch of airchecks again this year for the auction. I have an idea for a project: what if each NRC member who knows of a station (local or otherwise) that has promotional items (stickers, keychains, magnets, buttons, pens, etc.) sends a letter requesting a few of those items be sent to the NRC convention c/o STEVE FRANCIS, including adequate return postage. If it works well, there will be plenty of items for the goodie table as well as the auction and everyone will benefit. I've already started the ball rolling by sending out several mailings myself. Good DX, 73

THOMAS E. CONNATSER - 2249 SHINBONE ROAD - SEVIERVILLE, TN 37876-8703

Greetings from the Great Smokies. It's been far too many moons since I've appeared in these pages. I've been DXing since 1970 and a NRC member since 1982. For the last several years I've been inactive, partially because my work took away some of the best DXing time, but my schedule has now changed to allow chasing CPC tests on Monday AM. Speaking of CPC tests, I spent a couple of interesting nights at the dial after seeing LEE FRESHWATER'S efforts in #23, Tried for 8 of the 10 tests he arranged and bagged 4 of them. I logged WMOP-900, WOCA-1370, WRUF-850 and WLUS-980. Of the bunch, WOCA

KAWL
RADIO YORK
PHONE 362-4433 YORK, NEBRASKA 6847-0544

was the easiest with a strong signal and no interference. WLUS was the toughest of the bunch, WYFN was putting in a monster signal that night. A hearty THANK YOU is in order to Lee for his fine work. Also looked for some of the other tests scheduled during this period with poorer results. WBSA-910 and WZZB-1390 were not heard, while WLIK-1270 and KNIR-1360 could be considered only tentative as I was able to copy only parts of the code IDs. Was really surprised by WLIK; for 5kw they have a really lousy signal. A couple of items of radio news from around here: WUTK-850 has been sold to Dick Broadcasting, which donated the station to the Univ. of TN 8 years ago when they moved WIVK to 990. Plans call for the station to replace CNN Headline News with the AP News feed. The move should take place in early May when new studios are finished. Report also has it that they purchased WXVO-98.7. WIMZ-1240 went all sports on 4/1. One error I noticed in the log is WECO-940; for the past couple of years this station has been fulltime gospel, and it runs live during AM drive and Sunday 8A-2:30P and carries the Reach satellite network the remainder of the day. The station still operates daytime only; engineer decided nighttime authorization of 16 watts wasn't worth the effort. I'm still working at WECO-FM 101.3, now on the air 11A-5P Saturday and Sunday. Equipment here is a Superadio II, now assisted with a Quantum Loop. Also have a Hallicrafters SX99 but it could use some work and definitely needs an alignment. Also have a Bose AWR1 Wave radio. This is the radio advertised by Paul Harvey and on several of the cable services. This radio has to be heard to be believed. While it is the size of a bedside clock radio, it has the sound of a pretty fair stereo system. I took it to WECO and compared it to our 12 inch 3 way studio monitors. The Wave won hands down! Was glad to see STEVE FRANCIS get the bid for the 1996 convention here in Knoxville. Guess that helped rekindle my interest in DXing. Am hoping to make it this Labor Day; will definitely be there if I can get off. If you don't see me there, try 101.3 FM and I should be there playing country's hottest hits. I guess that just about wraps it up from here for now. Will have to start checking in more often! Until next time, 73. (Welcome back to the fold again, Tom, we'll hold you to your promise to check in with us! -DWS)

WILLIAM WYLLIE - 95 PECK STREET - FRANKLIN, MA 02038-2217

This is my first MUSE, so an introduction is in order. I'm 44 years old, single, and work for Highwood I Condominiums as a

custodian (keep lights going in the halls, street lights, vacuum rugs in 5 halls, take care of 5 rear halls, keep lawn area picked up, there are 59 units). I wanted to write to tell members of the telephone call I got from Bill of WMIM-1590 (I think he was the CE). He said the station runs 1000 watts daytime and 17 watts at night, and I got them at 17 watts! He said he has gotten reports (2) from Cape Cod before. He said he was applying for the frequency of 830 and said it required 3 towers, I guess he doesn't have 3 towers. He asked me if the Cherry Valley station was on the air yet, WCRN, saying that construction permit has been around since 1987. I forgot to tell him it is now in Worcester, MA, but did mention that it simulcasts with WROL-950 during the day. He said he didn't have any bumper stickers but was filling out a prepared card. Very interesting talk. I guess he was surprised I got WMIM at 17 watts. I mentioned that the club might be interested in arranging a DX TEST and he seemed to like the idea. My local station WDIS-1170 'Discussion Radio' is back on the air now, they've been on for a week or two. As I understand, they were off due to money problems. I recently got a verie from WARM-590 for the 1/8 DX TEST, a nice letter, bumper sticker and filled out my prepared card. Also got a nice letter from WJDM-1660. Still nothing from the ARMY station on 1670 which I heard as ABS. I sent a cassette tape of my reception. I very much enjoy the MUSINGS column and particularly like read ERNIE COOPERS reports, I remembered he answered my report for WOMR-91.9 a few years back. That's all for now, hope this is of interest. (Your name has crossed my desk many times, William, I believe you received the last verification from WAMS-1380 before it closed down 4/91 while I was CE there. Anyway, welcome to the fold, do check in often!-DWS)

TOM MULVANEY (KR4BD) - 3525 CORNWALL DRIVE - LEXINGTON, KY 40503

I wanted to comment on some of my best DX in years past. I got into the hobby in the mid 50's with a cheap, 5 tube RCA table radio that I got for Christmas one year. I was only 7 or 8 years old living in Adrian, MI at the time and was always amazed at the signals that would come in at night. I was especially amazed to hear KSL-1160 boom in an hour or two after sunset when WJJD signed off. Of course, that was in the days of the "real" class

Many thanks to MARTY BASSIN for the detailed comments on the Ramsey Electronics loop antenna. After reading his experiences, I decided to spend the extra money and buy a Quantum Loop instead! I'm looking forward to getting it in the near future. A while ago, DAVE asked for a "strangest station" MUSING so here goes. On 4/4/68, I was listening to 730khz during the evening and found a very strong station on top of the frequency. As I recall, its programming didn't fit the mold of the stations usually heard there. I was really thrown when it gave an ID of WEJP. Now I was REALLY curious as there was no such listing in the log and assumed it was a call letter change that I had missed. I don't remember how I found out, but this station was a pirate operated by Vinnie Cavaseno (an NRC member in Queens!)

In response to my report, Vinnie sent a nice letter verification on very professional stationery in which he mentioned that regular programming began 11/67 and was terminated by the FCC 4/6/68 at 8:45PM. In addition, he mentioned that my reception report was the farthest that he knew of at the time. Regrettably, I don't have any notes about the power that was used or the type of antenna system. Perhaps if any of the old "Richmond Hill Gang" still belong to the club they can add some more details to this interesting stations history (BILL ANDRES, where are you?-DWS) Very little DX of note lately due to lack of time, work schedule, etc. Hope everyone has a nice spring (if winter ever lets go!) and I'll try to "MUSE" again soon!

ROBERT J. TIARA - 148 BEECHWOOD CIRCLE - HENDERSONVILLE, NC 28739

Not much to report DX wise since my last MUSE, weather has been quite unpredictable, either Springlike 70-80's (with S9+10DB static crashes) or mid-winter like (nice and quiet). I received a verie from KXBT-1640, a nice card giving the frequencies as 1190/1640 khz, 10kw days/1kw nights. They are quite regular here almost every evening, with audio first noted around San Francisco sunset, but best from midnight til 6AM ELT. Another hohum CA regular. Apparently, they believe they are authorized to be on 1640, no FCC info has been seen to acknowledge this however, get 'em while you can! They DO VERIFY at least until the novelty wears off or the FCC shuts them down. This should be an easy CA catch for the E Coast. I can even hear them on the car radio after midnight! Verie states that they are the 1st expanded band station W of NJ. We'll see how long it lasts, the RI station

1-A Clear Channel stations. In 1959, my family moved to Riverside, CA and I got a bit more sophisticated in my DXing. I acquired an old RCA ACR-111 16 tube (aka: boat anchor) general coverage receiver (1937 vintage) that was originally owned by W6AA, the first licensed ham in CA. I hooked this monster up to a series of longwires strung all over the place and was amazed at what I could hear. I joined the IRC'A when it first started in '64 as a charter member. I started sending reception reports, and the veries rolled in! Some of my best domestic verified catches included WCIN-1480, WSAI-1360, WING-1410, WFLA-970 and WYZZE-1480. Of course, all the clear channels (WBZ, KDKA, WLS, etc.) were easy, almost nightly, catches in the early 60's. I used to listen to Clark Weber on WLS-890 with his Silver Dollar Survey on the East of Midnight program nearly every night out there in S CA. I also verified several HI stations and KFAR 660. Monday mornings were always great for DXing as most stations signed off at midnight on Sundays (including the 'KFI Monster' on 640). It was a great time to look for frequency checks and stations on the air for test purposes. Once every month, every station would sign off at midnight Sunday for an hour, so the old EBS (Conelrad) system could be tested on 640 and 1240 khz. I also remember the old KGBS-1020, a daytimer then (now KTNQ), would sign ON at 9PM Sunday night with jazz music and stay on until 2AM Monday which coincided with KDKA's silent period (midnight til 5AM Eastern time) (and the only way I heard and verified KGBS!-DWS). In the mid 60's I moved to Warren, OH and went off to college and had little time for DXing. The interest was always there, however, and was rekindled several years ago when I joined the NRC. I am sure the real old timers in the club have even more interesting stories to tell, buit I really enjoy thinking about what the 'old days' were like for me in the hobby. One last item: I want to thank everyone who caught my DX TEST on WCGW-770 in December. I received about 26 valid reports with about 20 of them coming from NRC and IRCA members. All but one included return postage. All reports have been answered. I hope to do another WCGW test next winter. By the way, WCGW is licensed to Nicholasville, KY with studios in Versailles, KY and offices in Lexington. Several listings show Versailles or Lexington as the city of license. It's a LONG and CONFUSING story, trust me on this one! Hope everyone has a greta summer!

on 1110khz made it 10+ years without night authorization, so who knows! Recent veries in from WYAM, K1IF-570, WDAK, WTNN, WNAK, KBRT, WSBA and KXBT. Stayed up for DX TEST marathon of 3/23 and 3/25, all of the IRCA tests were heard except for WKXY-930 and WRZN-720, WRZN is somewhat regular at sunset, so I don't believe they were on. All the others were heard fairly well. The WZZB and WBLA NRC tests were not heard. Last weekend, KNIR and WTBO were barely heard. If I didn't know code or knew when to look for them, I would have missed them! 26 out of 49 reports back, 16 (all tests) still out. If all these make it back, it'll be 42 out of 49 or an 85.7% return rate. So much for now, til next time, 73s.

RICK DAU - 1703 HILLE AVENUE #34 - SPIRIT LAKE, IA 51360-1252

Not much new here to report in the way of DX. My DXing nowadays is pretty much confined to tests, only getting out of bed at sunrise whenever I really feel like it. I have logged KBRT-740, KBTC-1250, WSBA-910, WRUF-850 and WLK-1270 on recent DX tests, but those from the 610 stations in WA and UT were no-shows, as were WZZB-1390 and all the FL tests (except for the aforementioned WRUF). I've been mostly spending the last few weeks updating my IA City logbook, which has remained unchanged since I moved from there last May 20th. I managed to hear 1239 stations there from 10/26/85 to 4/30/95, a feat made more impressive by the fact that I didn't DX at all throughout 86 and most of 87. I'm glad to see 2 new Mid-W faces in the pages of *DX News* with SD's TERRY JONES and WI's SHERYL PASKIEWICZ. Always good to nab another member in the Coyote State; we don't seem to hear much from there except whenever BILL MOSER reports in. I met Sheryl at last year's Conrad Family Reunion in Appleton, WI. I do plan on attending this year's DX get-together in Davenport, IA 5/17-19 at the Holiday Inn, and I hope to see Sheryl, ERNIE WESOLOWSKI and many other NRCers there, as well. In recent weeks, I've noticed both WJDM-1660 and KXBT-1640 coming in with fair to good signals almost every night. This expanded band thing has me feeling like a kid in a candy store. I can just imagine what it must have been like for the veteran DXers when the AM band was in its infancy all those years ago. Thassit for now, 73!

TONY FITZHERBERT - 356 JACKMAN AVENUE - FAIRFIELD, CT 06432 (E-Mail coming soon!)

Hi! Time for a long overdue MUSE. Did little DXing this past season, partly because of

work and family demands, and partly because of limited DX conditions, what with the high number of local stations here. Oh, for 2 beverages and a high powered receiver in Big Delta, AK or a similar remote location! The only 2 veries in the past season were from WWCS-540 and WDAK-540, both heard on different nights in WLUX's null. A report was also sent to WWZN-540, also heard several times here. However, I got a letter from WBDN-760 saying that I did not hear them. Seems that WWZN is not at the address listed in the log, but WBDN is in that building, so they got the reception report and wrote that I did not hear them. Non-verifiers this past season are WCRN-830, CHSJ-700, WMXH-750, WIEZ-670. Tonight I got a report off to WQIX-820, for 25 minutes of good reception at sunset. If you hear the Rosary at 6:30 on 820, it is they. This summers railfan trip....part one will be to Chicago, in June. Along with the joys of the CTA, METRA Electric and the diesel operated commuter rail line, I hope to get station profiles from several more of the unique little local stations N and W of the city. Chicago has some of the most interesting little stations in the country. The 2nd part of the trip will be later in the summer, to either Los Angeles or San Diego or Seattle, Portland and Vancouver. Then, after the railroad and radio sights, my wife Ann will come out to spend some time sightseeing, and then back here. Now, please, if anyone knows where the radio stations - studios and transmitter sites are around Seattle, Portland, LA and San Diego, could you please write to me? I would like to see some of the radio stations around the LA area, especially, as there is another fertile area for some very interesting profiles. Thank you! One more comment....a hearty THANK YOU to PAUL SWEARINGEN, as he has performed the incredible task of getting to innumerable DX NEWS issues over the years. They do not just grow, but they represent a lot of work. (And thank YOU and all other editors and contributors for helping to fill it up! -pls) And, to everyone, please get your contributions in to the Formats Column! 73's for now.

Another DX season gone and the high point was hearing and verifying KXBT, my CA #100 after 30 years from the last one, in nicely on 1640, yet the new expanded band plan just received shows them to go to 1630. Is this another FCC foul-up? A neat blue and white card for a report and tape sent on the

last test day, signal had some fairly good peaks and not heard since! Verie total now at 4308 with the usual non verifiers WBBB, WBNW, etc. Sold a piece of rental property and will invest in a new Drake for the coming season. Farming fulltime daylight to dusk and the toughest spring has followed the toughest winter with snow 3 times in April so far, with 10in. on 4/10. A nice job on the pattern book, congratulations to all involved. Locally, Uncle Bob's "Talking About Radio" on WJIB was cut back to 30 minutes Sunday noon and I miss part of the show as customers usually show up at noon. Only 1 New England station on the expanded band list, WZNN for 1700khz. And a couple of odd ones, 1 listed for 1610 KALT in TX, and 2 VI to go, WRRR to 1620 and WGO1D to 1640.

DAVE SCHMIDT - PO BOX 11502 - WILMINGTON, DE 19850-1502

Greetings. Like STAN, my radio farming runs from 4AM til about 7 or 8PM most days, Monday thru Saturday. I've recently gotten back with WDSD/WDOVDover, DE due to a shake up with the previous CF (who I suggested for the job last Oct. when I went to SC), plus a rebuilding project at WJPY 1280/WSUX-98.3 Seaford, DE, who are tied in with WJDY-1470/WSBY-98.9 Salisbury, MD. Both 1280 and 1470 are SMN's "The Touch" urban format and ID as WJDY, except at legal ID time on the hour. Both are now on 24 hours, and as are usual with stations I get into, fully modulated! WSUX/WSBY are the "Oldies Giant". Reports are welcomed and would have a good shot at being answered if sent to the Seaford stations. This with the news shift mornings at WNRK and the other stations (about 10 now) kinda keep me busy again. After the disaster financially in SC, this is a welcome relief. The last deadline blew past me, completely forgot, must be the water! Due to the hectic work schedule, the WMIZ and WNRK tests didn't show up, but they will be rescheduled for early next season. One of our fellow NRCers sent a letter to Radio World a few months back, giving the hobby a very good shot in the arm, but one item was wrong. The article said that people writing for

verifications has dropped greatly and very few write reception reports. With most of the comments I can see in just the previous MUSINGS, it appears that verie requests are still a very big part of the hobby. Maybe the person that wrote the letter to Radio World isn't a verie collector, but there are still a lot who write for the "golden response". The owner of WRJM-1450 reports that they, too, will be moving to the expanded band, the longwave band! And in order to save money in reprinting stationary, the frequency will be 145, the person who sends out anything with the old frequency will be asked to cover the 0 in 1450 with White Out! That's all for this go-round. CUN4 - send in your reports! 73s (Will WRJM simulcast? Stay tuned for more! -pls)

ANARC REPORT.....ITEMS OF INTEREST FROM ANARC.....

About 200 radio hobbyists attended the Kulpville gathering 3/14-15-16; theNRC had a good representation present this year. The "10th Year" Winterfest is scheduled for 3/15-17/97 and is promised to be an extra special event. RICH D'ANGELO announced he will not be seeking another term on the ANARC Executive Board, which means they'll be looking for a new Chairman for 1997.

ANARC will be printing a special journal/program for the 1997 Winterfest,

NASWA and the Scanner Club have committed to ads to help underwrite it; I suggest the NRC do also with some type of small advertisement. For the last 4 years, NRC has been represented at the fest, and I feel we should continue to do so. A special THANK YOU to RON BAILEY and AL MERRIMAN who helped man the table this year, and all the NRCers that made it.

Respectfully submitted (4/28/96).....Dave Schmidt
