INTRODUCTION

I am proud and pleased to present my ninth study concerning the relationship between the ratings of an individual station and the revenue that station is able to gather.

Before you read the rest of this study, I urge you to keep the following points in mind:

- A. All revenue figures are gross. They are from calendar year 1997. They do not include trade dollars.
- B. The stations selected for inclusion in this report are from almost all of the Arbitron standard markets--over 150 markets in all. A total of 1,563 stations are covered in this report. To put it another way, this report includes data for over 14% of all commercial stations in the United States. Almost 47% of all reported stations in the Arbitron standard markets are included.
- C. The rating periods used for this study were Fall 1996, Winter 1997, Spring 1997, and Summer 1997. The number of rating periods used depended upon the number of times each particular market was surveyed.
- D. To be selected, a station had to meet two criteria. First of all, it had to be successful in its format. I estimate that around 85% of the stations are the ratings leader in its format. The remaining stations were also very successful stations, even though they were not the format leader in their market. Secondly, I only used stations whose revenue figures are, in my judgement, reliable and accurate. I have been making station revenue estimates for seven years and I believe that every year I improve my accuracy. There are going to be some errors but, in general, I feel very comfortable with these estimates.
- E. The audience share figures are 12+ Metro, Monday through Sunday, 6AM-Midnight, AQH.
- F. Remember that the revenue share is expressed as a percentage of the audience share. This is calculated by dividing the audience share into the revenue share.

The layout of this report is quite simple:

| | | |
|------------------------------|--------------------------|----------------------|
| INTRODUCTION | FORMATS: AC | Full Service/Variety |
| EXPLANATION OF METHODOLOGY | Oldies (50's & 60's) | Black/Urban |
| SECTION A: | Classic Hits | Black AC/Oldies |
| REVENUE SHARE/AUDIENCE SHARE | Soft AC | News & News/Talk |
| RESULTS/OBSERVATIONS | CHR/Top 40 | Talk & Talk/News |
| | Country | Standards |
| | AOR/Modern & Progressive | Hispanic |
| | Traditional/Classic Rock | Jazz |
| | Classical | |

SECTION B: INDIVIDUAL STATION AUDIENCE BREAKDOWNS

I urge you to carefully read the EXPLANATION OF METHODOLOGY SECTION which begins on the next page. You can not hope to make full use of this report unless you understand how the information was gathered and calculated.

I am sure you can find many uses for this data. I believe there are two primary uses: First of all would be format analysis I would urge you to review this data before you make any format changes. Secondly, I would recommend that you use this data as part of your budgeting and goal-setting process. Please do remember that we are presenting to you means (averages). All markets differ. However, I do believe that this report does offer an accurate and realistic portrayal of how the major formats perform.

I feel that this report makes an important contribution to the body of knowledge concerning the radio industry. As usual, I ask for your opinions concerning this work. I value and I appreciate your suggestions. Please give me a call.

EXPLANATION OF METHODOLOGY

To be very brief and simplistic, we took each station's audience share and divided it into its revenue share. The resulting percentage (or it can be called a ratio if you like) shows a mathematical relationship between the audience and revenue shares for an individual station and, if the sample is adequate, for various formats.

Station Selection

We chose stations which, in our view, are fairly successful--at least as far as ratings are concerned. Over 90% of the stations used were number one in their particular format. Most are among the highest rated stations regardless of format.

Another criterion for station selection was that I had to be very comfortable and confident about the revenue estimate for the station. This does not mean that every estimate is absolutely on target. I will probably hear from some of you about estimates that went astray. However, I believe that most revenue estimates are quite close to actual. My personal goal is to be within 5%.

MARKETS

Most of the standard Arbitron markets are included in this study. There are stations from more than 150 different markets.

Markets are broken down as follows:

| | |
|--------------------|---|
| MAJOR MARKETS | - Markets ranked 1-40 in radio revenue. |
| MEDIUM MARKETS | - Markets ranked 41-80 in radio revenue. |
| SMALL MARKETS | - Markets ranked 81-120 in radio revenue. |
| VERY SMALL MARKETS | - Markets ranked 121+ in radio revenue. |

The selected stations are grouped according to market size for most of the major formats. For the other formats this was not possible since there were not enough stations in each market size to have a decent sample. For them, there is just one grouping called "All Market Sizes."

REVENUE (97 REV)

Revenue estimates cover calendar year 1997. They are gross and they do not include trade dollars. Generally, they are the same estimates you found in the 1998 edition of Duncan's Radio Market Guide, although refinements have been made as needed.

As I said earlier, I feel quite comfortable with the revenue estimates. Most of them come from group owners, group CEO's and general managers whom I trust. I would make one other generality. I would say that the larger the market is, the more reliable is my revenue estimate.

REVENUE SHARE (REV SHARE)

This simply is the percentage of the market's total radio revenue (gross, 1997, no trade) that is controlled by the selected station. It is calculated by dividing the station's revenue by the market's revenue.

AUDIENCE SHARE (97 AUD SHARE)

This shows each station's audience share (12+ Metro, Mon-Sun, 6AM-Midnight). The rating periods used were Fall 1996, Winter 1997, Spring 1997 and Summer 1997. The number of rating reports used varies to the number of books in each market. The share is the average of the 12+ Share for each rating period. For two book per year markets I averaged the Fall 1996 and Spring 1997 Arbitrons.

ADJUSTED AUDIENCE SHARE

This figure is of the highest importance. If you do not adjust the audience share you end up with false data. There is not a single market in the country where 100% of all radio listening goes to local commercial stations which are listed in the Arbitron ratings books. In every single market there is what I call "lost listening." This lost listening includes the following:

- A. Non-commercial stations (college stations, NPR affiliates, some religious stations, etc.).
- B. Out of market or "below-the-line" stations.
- C. Local commercial stations which do not have enough audience to qualify for a listing in the Arbitron book.

Point C is usually of negligible significance and is impossible to quantify, so I have chosen to ignore it. Points A and B are very important and they must be accounted for.

THERE ARE NO MARKETS WHERE THE AUDIENCE BASE FOR LOCAL COMMERCIAL STATIONS IS 100 SHARE POINTS.

FOR THIS STUDY YOU MUST ADJUST THE AUDIENCE SHARE OTHERWISE THE DATA IS FALSE AND MISLEADING.

I have adjusted each sampled station's audience share. I took the 100 audience share points and subtracted listening to below-the-line stations. Then I subtracted listening to "non-listed" stations. The resulting figure was then divided into each station's individual share. The end figure is the adjusted audience share.

EXPLANATION OF METHODOLOGY (Continued)

Let us see how this works in a real market situation. We will use Akron:

AKRON

Revenue: \$12,700,000
WXXX has a 10.0 audience share and \$3,500,000 in revenue

| | <u>Without Audience Adjustment</u> | <u>With Audience Adjustment</u> |
|--|------------------------------------|---------------------------------|
| Station Revenue Share: | 27.6% | 27.6% |
| Total Audience Share: | 100.0% | 100.0% |
| Less Below-the-line Listening: | NA | -57.0% |
| Less Unlisted Station Listening: | NA | -9.8% |
| Resulting Total Audience Share: | 100.0% | 33.2% |
| WXXX Station Share: | 10.0% | 10.0% |
| Adjusted Audience Share: (Station Share divided by Resulting Total Audience Share) | 10.0% | 30.0% |
| Revenue Share as a % of Adjusted Audience Share | <u>276.0%</u> | <u>91.7%</u> |

You can see the tremendous difference between the two calculations. The adjusted share calculation is obviously more accurate and relevant.

Now, I must tell you that Akron is an extreme case which illustrates my thesis clearly and decidedly. However, every market will be influenced by lost listening. Let us review the results of stations in other markets:

Revenue Share as a % of Audience Share

| | <u>Without Adjusting Audience Share</u> | <u>With Adjusting in Audience Share</u> |
|--------------------------|---|---|
| A Station in New York | 115.4% | 111.3% |
| A Station in Los Angeles | 100.0% | 92.4% |
| A Station in Madison | 124.0% | 95.8% |
| A Station in Hartford | 137.9% | 111.1% |

The difference is very significant in each and every market. The calculation of an adjusted audience share is crucial to the viability of any revenue share/audience share study.

1997 12+ RANK

This simply shows the rank of the sampled station amongst all stations in its market.
We used the last available rating book (either Spring 1997 or Summer 1997).

REVENUE RANK

This figure shows how each station ranked in total revenue in its market. It covers the year 1997. Use this figure to compare and contrast with the 12+ rank and the revenue rank.

REVENUE SHARE AS A % OF AUDIENCE SHARE

This end result and most important figure is calculated by dividing each station's adjusted audience share into its revenue share. The resulting percentage/ratio shows the mathematical relationship between audience and revenue.

A mean is calculated for all of the sample stations in the particular format and market size. A median figure is also provided, although I feel the mean figure is more accurate if the station sample base is large enough.

SUMMARY OF 1997 CONVERSION RATIOS

| <u>FORMAT</u> | <u>MAJOR MARKETS</u> | <u>MEDIUM MARKETS</u> | <u>SMALL MARKETS</u> | <u>VERY SMALL MARKETS</u> | <u>ALL MARKETS</u> |
|---------------------------------|---|-----------------------|-----------------------|---------------------------|------------------------|
| <u>News & News/Talk</u> | | | | | 1.46 (23 stations) |
| <u>Sports</u> | (NOTE: If one excludes WFAN, WEEI, XTRA, KNBR and WQAM the Mean for Sports would be 1.02) | | | | 1.31 (28 stations) |
| <u>Traditional/Classic AOR</u> | 1.29 (46 stations) | 1.28 (40 stations) | 1.23 (33 stations) | | 1.27 (119 stations) |
| <u>Adult Contemp</u> | 1.17 (68 stations) | 1.34 (48 stations) | 1.31 (36 stations) | 1.26 (27 stations) | 1.26 (179 stations) |
| <u>Full Service</u> | 1.22 (24 stations) | 1.23 (15 stations) | 1.14 (30 stations) | | 1.19 (69 stations) |
| <u>Country</u> | 1.12 (61 stations) | 1.14 (55 stations) | 1.29 (46 stations) | 1.18 (40 stations) | 1.17 (202 stations) |
| <u>Classic Hits</u> | | | | | 1.11 (29 stations) |
| <u>Oldies (50s & 60s)</u> | 1.11 (40 stations) | 1.07 (33 stations) | 1.12 (34 stations) | | 1.10 (107 stations) |
| <u>Soft AC</u> | 1.06 (33 stations) | 1.03 (19 stations) | 1.05 (19 stations) | | 1.05 (71 stations) |
| <u>Talk & Talk/News</u> | | | | | 1.05 (104 stations) |
| <u>AOR/NEW ROCK PROGRESSIVE</u> | 1.02 (79 stations) | 0.97 (49 stations) | 1.14 (56 stations) | | 1.04 (184 stations) |
| <u>CHR/TOP 40</u> | 0.96 (54 stations) | 1.09 (33 stations) | 0.95 (30 stations) | 0.98 (26 stations) | 0.99 (143 stations) |
| <u>Hispanic</u> | | | | | 0.95 (49 stations) |
| <u>Jazz</u> | | | | | 0.83 (44 stations) |
| <u>Black/Urban/Black AC</u> | | | | | 0.74 (117 stations) |
| <u>Classical</u> | | | | | 0.64 (19 stations) |
| <u>Standards/Nostalgia</u> | | | | | 0.40 (76 stations) |

NOTES: Major Markets - Markets ranked 1-40 in total radio revenue
 Medium Markets - Markets ranked 41-80 in total radio revenue
 Small Markets - Markets ranked 81-120 in total radio revenue
 Very Small Markets - Markets ranked 121+ in total radio revenue

Mean: Average of the conversion ratios for all stations in format in specified market size.

Total number of stations in sample: 1,474
 Average (mean) conversion ratio for all stations in sample: 1.052

Figures show ratio between revenue share and audience share.

For some formats there were not enough stations in the sample to allow a breakdown for each specific market size.

745
1563

| FORMAT | HISTORICAL TRENDS | | | | | | | | | | |
|---|-------------------|------|------|--|------|------|------|---|---|-------------------------------|------|
| | 1997 | 1996 | 1995 | 1994 | 1993 | 1992 | 1991 | 1990 | 1988 | 1987 | 1986 |
| <u>Adult Contemp (All)</u> | 1.26 | 1.28 | 1.32 | 1.32 | 1.33 | 1.27 | 1.34 | 1.36 | 1.36 | 1.34 | 1.37 |
| Major Markets | 1.17 | 1.27 | 1.31 | 1.34 | 1.34 | 1.24 | 1.34 | 1.34 | 1.33 | 1.33 | 1.47 |
| Medium Markets | 1.34 | 1.29 | 1.39 | 1.34 | 1.33 | 1.29 | 1.36 | 1.45 | 1.49 | 1.46 | 1.37 |
| Small Markets | 1.31 | 1.35 | 1.33 | 1.34 | 1.26 | 1.30 | 1.36 | 1.38 | 1.34 | 1.25 | 1.21 |

| Very Small Markets | 1.18 | 1.18 | 1.23 | 1.18 | 1.07 | 1.04 | 1.09 | 1.07 | 1.17 | 1.16 | 1.10 |
| <u>Jazz (All)</u> | 0.83 | 0.89 | 0.83 | 0.97 | 1.03 | 0.99 | 1.04 | 1.04 | 1.13 | (Earlier years not available) | |
| <u>CHR/Top 40 (All)</u> | 0.99 | 1.01 | 1.03 | 1.00 | 1.01 | 1.04 | 1.02 | 1.00 | 1.03 | 1.03 | 1.08 |
| Major Markets | 0.96 | 0.95 | 0.97 | 0.91 | 0.89 | 0.91 | 0.98 | 0.98 | 1.02 | 1.13 | 1.09 |
| Medium Markets | 1.09 | 1.01 | 1.07 | 1.05 | 1.09 | 1.09 | 1.06 | 1.01 | 1.03 | 1.03 | 1.05 |
| Small Markets | 0.95 | 1.13 | 1.13 | 1.04 | 1.11 | 1.12 | 1.08 | 1.05 | 1.08 | 1.00 | 1.08 |
| Very Small Markets | 0.98 | 0.99 | 1.10 | 1.05 | 1.00 | 1.01 | 0.96 | 0.94 | 0.98 | 0.95 | 1.00 |
| <u>Hispanic (All)</u> | 0.95 | 0.89 | 0.95 | 1.03 | 0.98 | 0.95 | 1.01 | 1.03 | 1.07 | 1.10 | 1.03 |
| <u>Soft AC (All)</u> | 1.05 | 0.99 | 1.04 | 1.06 | 1.02 | 0.95 | 0.90 | 0.86 | 0.75 | 0.75 | 0.79 |
| Major Markets | 1.06 | 1.05 | 1.05 | 1.05 | 1.05 | 0.99 | 0.93 | 0.88 | 0.72 | 0.74 | 0.79 |
| Medium Markets | 1.03 | 0.99 | 1.04 | 1.00 | 1.00 | 0.90 | 0.87 | 0.84 | 0.74 | 0.75 | 0.76 |
| Small & Very Small Mkts | 1.05 | 0.90 | 1.04 | 1.14 | 1.00 | 0.91 | 0.87 | 0.83 | 0.79 | 0.77 | 0.81 |
| NOTE: Data from 1986-1988 was for EZ listening stations only. Soft AC's were added in 1990. By 1992 about 90% of the sample could be classified as Soft AC's. | | | | | | | | | | | |
| <u>Classical (All)</u> | 0.64 | 0.68 | 0.69 | 0.72 | 0.82 | 0.84 | 0.84 | 0.85 | 1.07 | 1.10 | 1.03 |
| <u>Black/Urban/BAC (All)</u> | 0.74 | 0.77 | 0.76 | 0.74 | 0.73 | 0.70 | 0.71 | 0.69 | 0.77 | 0.77 | 0.78 |
| <u>Standards/Nostalgia (All)</u> | 0.40 | 0.40 | 0.40 | 0.47 | 0.50 | 0.52 | 0.54 | 0.60 | 0.57 | 0.64 | 0.72 |
| <u>Sports (All)</u> | 1.31 | 1.24 | 1.27 | 1.08 (Conversion ratios from earlier years not available.) | | | | | | | |
| <u>Classic Hits (All)</u> | 1.11 | 1.11 | 0.98 | (Conversion ratios from earlier years not available.) | | | | | | | |

*Another Note: In 1997 we took out some "traditional AOR's" and combined them with Classic Rock.
This meant a drop of about 0.10 in the conversion rates.

CLASSIC HITSALL MARKETSIMPORTANT:

It is still too early to draw any conclusions from Oldies - 70's data.
 Many of these stations changed to the format during 1994. Few of the stations are mature.

| | | 1997 Median: 1.10 | | | 1995 Mean: 0.98 | | | | |

NOTE:

Use these figures with caution. Many of these stations have lost audience share in 1996 but revenues have not caught up yet. Thus the Conversion Ratios are skewed too high in my opinion.

SECTION B
RADIO STATION AUDIENCE BREAKDOWNS

SECTION B

RADIO STATION AUDIENCE BREAKDOWNS

All of the data presented in this section is from the Fall 1997 Arbitrals. There are 1,630 stations in the sample. This equals about 15% of all commercial radio stations in the United States. It also equals about 50% of all stations which show in standard Arbitron markets. Put another way this study includes around 80% of all viable stations in Arbitron markets which are surveyed two or more times per year.

The following information is included for each station:

TIME SPENT LISTENING (TSL): This figure shows the amount of time which an average listener spends with a given station during a week. The total is given in hours. This figure is calculated as follows: Average 1/4 Hr audience times 504 (the number of quarter hours in the Broadcast Week). The resulting figure is divided by the weekly Metro Cume. This figure is divided by four to come up with a figure in hours.

TURNOVER RATIO (T/O RATIO): This figure shows the relationship between a station's total weekly listeners and its average audience (1/4 Hr). It is calculated by taking the Metro Cume (12+ Broadcast Week) and dividing it by the Metro 1/4 Hr Avg (Broadcast Week).

PERCENT EXCLUSIVE CUME (% EXCL): This interesting figure indicates the loyalty of each station's audience. It is calculated by dividing the exclusive cume (12+ Metro Broadcast Week) by the Metro Cume (12+ Broadcast Week).

PERCENT 12-24, 25-54, 55+: This is simply the percentage of each station's total audience (12+ Metro AQH Broadcast Week) which lies in these demographic cells.

PERCENT MALE/FEMALE (%M %F): The methodology is the same as that for 12-24, 25-54, etc. NOTE: Because of a production problem these figures are not available for this edition.

% AT HOME: This is the percentage of each station's listening which takes place in the home versus in-car, office or other listening.

LEADING CUME SHARER: This shows the other station in the market with which the sample station shares the highest percentage of the sampled station's cume. Also shown is the format of the other station and the percentage of cume which the sample station shares.

Below are the format means for 1997:

RADIO PUBLICATIONS FROM DUNCAN'S AMERICAN RADIO

DUNCAN'S RADIO MARKET GUIDE

\$335.00

This is our flagship publication. Since 1984, **DUNCAN'S RADIO MARKET GUIDE** has been the standard reference for radio station buyers, sellers, lenders and brokers. **DUNCAN'S RADIO MARKET GUIDE** examines the economic conditions of nearly 190 radio markets. Here's just some of the information you'll find in it:

- Market radio revenue histories and projections covering a ten-year period (five years back; five years forward).
- Radio revenue projections calculated on three separate bases for greater reliability: historical (past performance), population growth (revenue per capita) and retail sales growth.
- Revenue estimates for more than 1,600 individual radio stations, plus viable operating entities (standalones, combos, duopolies and super-duopolies).
- Revenue estimates for competing media – television, newspaper, outdoor and cable TV.
- Radio station sales for each market during the past five years.
- Jim Duncan's comments about each market, as well as a 10-point mathematical grading of each market – a **Duncan's exclusive**.
- Population and retail sales histories and projections.
- Revenue-per-share point and revenue-per-AQH figures for each market.

And much, much more. Published every April – 400+ pages.

AMERICAN RADIO

Since 1976, **AMERICAN RADIO** has been the radio industry's most complete and timely source book for radio ratings and programming information. Published quarterly (plus an annual "Small Market" edition), **AMERICAN RADIO** is published within a month after issuance of the Arbitron market reports. Each report includes more than 30 ratings tables for each market, and after the Spring edition, our National Rankings report details nationwide format and station performances (it's free to anyone who receives the Spring report, but also is available separately). **AMERICAN RADIO** is considered the "bible" of the radio industry and is required reading for everyone involved with radio.

| Issue | Release Date | # of Markets | Price |
|--|--------------|--------------|---------|
| Spring Report | September | 170 | \$97.00 |
| National Rankings Summary (if ordered alone) | October | 170 | 25.00 |
| Spring Small Market Report | October | 99 | 55.00 |
| Summer Report | November | 94 | 55.00 |
| Fall Report | March | 170 | 97.00 |
| Fall Small Market Report | March | 96 | 55.00 |
| Winter Report | June | 94 | 55.00 |

DUNCAN'S RADIO COMMENTS

\$100.00

This is our latest addition – a publication that reads more like a radio journal than a newsletter. Jim Duncan offers his expert perspectives about events and trends in the radio industry, as well as in-depth analysis of issues. It is opinionated and well researched. **DUNCAN'S RADIO COMMENTS** gives Jim the chance to offer you interpretations and elaborations on the data we use in our other publications. We guarantee you will find it informative, interesting and useful. Six or more issues per year.

(**DUNCAN'S RADIO MARKET GUIDE** subscribers receive **COMMENTS** at no charge.)

DUNCAN'S RADIO GROUP DIRECTORY

\$150.00

DUNCAN'S RADIO GROUP DIRECTORY is a complete and comprehensive directory of group radio owners in the U.S. All groups with three or more stations in rated markets and revenues in excess of \$3,000,000 are included – more than 200 groups in all. **DUNCAN'S RADIO GROUP DIRECTORY** includes for each group: ratings performance; station purchase price and date of purchase; station revenue estimates; senior management; addresses and phone numbers; group financial data; major shareholders; boards of directors; key suppliers; company histories and far more. Published yearly in August.

AUDIENCE-TO-REVENUE CONVERSION/FORMAT PERFORMANCE ANALYSIS \$95.00

This annual report provides two important analyses. First, it examines the relationship between a station's audience share and its share of revenue (Conversion ratio, sometimes called "power" ratio). Over 1200 stations are listed, with all the following given for each:

- Call letters, market and format
- Revenue and revenue share
- Revenue rank, 12+ and 25-54
- Conversion (or "power") ratio

Additionally, national means are provided for formats by market size

The second part of this book analyzes the audiences of more than 1500 stations, with the following provided for each:

- Time Spent Listening
- Turnover Ratio
- % 12-24, % 25-54, % 55+ • Highest cume-sharing station
- % Male, % Female
- % Exclusive Cume
- % of listening at home

Finally, this report offers a comprehensive analysis of the concentration of both audience and revenue shares for all Arbitron-rated markets (262). Published every April.

THE FACILITIES OF AMERICAN RADIO - FM STATIONS, TOP 100 MARKETS \$335.00

A brand-new, total update of J.T. Anderton's 1989 classic "FM Map Book." City-grade and 1-millivolt contour maps for more than 1300 stations are provided, including over 250 new stations and 500 facility changes since the first edition. It also offers complete listings of station power, antenna height above average terrain, tower coordinates and height above ground, and our exclusive description of transmitter locations by address or physical siting, all gathered during exhaustive research of FCC technical files. It features new, custom-designed base maps for easy readability. The original and only publication of its kind; a must-have for station buyers, lenders and brokers; rep, network and group executives and radio consultants.

*Want more information about
DUNCAN'S AMERICAN RADIO?*

Find us on the World-Wide Web at
<http://www.duncanradio.com>

The Duncan's American Radio website on the World-Wide Web is the place to find out about the products and the people that make us the leader in radio audience, market and revenue analysis. In the website, you can:

- Meet our staff – Get to know the people who provide the best perspective on the state of the radio industry
- Peruse our on-line catalog – We have detailed information about the complete range of publications and services from Duncan's American Radio. You'll even see typical pages from each of our books with explanations, to help you determine which of them will help you most.
- Check out special offers – We parallel our mailings on our website. Right now, find out how you can save up to 18% by subscribing to the Duncan's American Radio publications.
- Purchase products right over the web – Choose our on-line order form, or print out the form and fax or mail it to us for speedy delivery.
- Review the information in our "Website Bonus" section. Currently, you'll find our landmark study of radio usage from the Spring 1997 Arbitron survey period, that includes top stations by share, average persons and cume, both overall and by format, FM's share of listening, listening by format and the "superpowers" of radio: the signals that cover the most land – and the most people. Then, post your comments on the "Radio Soapbox" section.
- E-mail us – Let us know what you think about our publications, our website or the state of radio. You can e-mail any or all of us right through the site.
- Look at our links – We've set up links to some of radio's most informative sites. And a few that are just for fun.

We're excited about our website and invite you to check it out. And come back to visit on a regular basis. We promise to keep it updated with news about Duncan's American Radio and the radio industry.

The Duncan's American Radio website: <http://www.duncanradio.com>. It may just be one of radio's latest hits.
