INTRODUCTION

This section contains data concerning the operation of broadcast networks and AM, FM, and TV stations during the calendar year 1949.

Part I, which deals with commercial AM broadcast stations and networks, covers the operations of 4 nation-wide networks, 3 regional networks and 2026 AM broadcast stations. Of the 2026 stations used in these statistics 2021 reported revenues and expenses, and 2017 stations reported owned broadcast property. As of December 31, 1949, a total of 2065 were on the air.¹ AM licensees also operating FM stations were permitted to file "joint reports" covering the consolidated operation of both stations when separate accounts for each station were not maintained. For this reason, the financial statistics pertaining to AM stations and networks include data with respect to 619 FM stations operated by AM licensees. In virtually all such cases, the two stations were jointly operated by the licensee, i.e., programs broadcast over the AM station were duplicated simultaneously by the FM station at no additional cost to the advertiser.

Part II summarizes the operation of (a) 164 FM stations (operated by AM licensees) for which separate FM reports were filed and (b) 104 FM stations operated by non-AM licensees.

Part III summarizes the operation of 4 TV networks and 85 stations for the year 1949.

¹*In addition, 35 AM stations operated non-commercially. Of these, 22 were licensed to educational institutions, 11 to religious groups and 2 to other non-profit organizations.*

¹Since the reports filed by the network key stations (i.e., stations originating most of the network programs) do not contain adequate segregations of expenses between station and network operations, financial data for networks and their key stations have been combined.
²Includes some nation-wide, regional and other network time sales reported by licensees of stations with total time sales of less than \$25,000.
³Since stations with time sales of less than \$25,000 for the year are not required to report details, this figure may include some amounts for national and regional.
⁴Of these amounts \$20,677,156 for 1948 and \$19,648,551 for 1949 is applicable to the sale of network time, columns 3 and 4, line 6, while the remainder and amounts shown in columns 9, 10, 15 and 16, line 14, are applicable to amounts reported on line 12, in respective columns.

¹ Does not include the operations of twelve key stations of networks, as the reports filed by them with the Commission do not include adequate segregation of expenses between station and network operations.

² Does not agree with region totals shown in state and region table as some of the metropolitan districts overlap two or more regions.

¹ Does not include operations of twelve key stations of networks, as the reports filed by them with the Commission do not include adequate segregations of expenses between station and network operations.

² Does not agree with region totals shown in State and Region table as some of the Metropolitan districts overlap two or more regions.

¹Since licensees with total time sales of less than \$25,000 for the year were not required to report details, this item may include some amounts for networks and national and regional non-network business; however, the greater portion of the revenue for these stations is from time sold to local users.

²Includes the operations of key stations of networks.

¹ Does not include the operations of the key stations of networks, as the reports filed by them with the Commission do not include adequate segregations of expenses between station and network operations.

² Since licensees with total time sales of less than \$25,000 for the year were not required to report details, this item may include some amounts for network, and national and region 1 non-network business; however, the greater portion of the revenue for these stations is from time sold to local users.

Note: Stations identical as to class and time and serving as outlets for nation-wide networks for both years (but not necessarily the same network) are included in this comparison.
 1 Does not include the property of 12 key stations of networks, as the reports filed by them do not include adequate segregation of property between station and network operations.
 2 Includes data of 1 50 kw., part-time station.
 3 Includes data of 2 50 kw., part-time stations.

Table 19.--Summary of broadcast revenues and expenses of 684 standard broadcast stations showing losses from broadcast operations by class and time, segregated between 417 stations serving as outlets for nation-wide networks and 267 stations not serving as such outlets

FM FINANCIAL DATA

Of the 733 commercial FM stations in operation on December 31, 1949, a total of 619 or 84.4 percent were authorized to licensees of AM broadcast stations operating in the same community and 114 or 15.6 percent were authorized to licensees having no AM broadcast interests.

Financial reports filed by FM licensees for the year 1949 indicated that in the majority of cases where FM stations were authorized to AM licensees in the same community, the two stations were "jointly operated", i.e., programs broadcast over the AM stations were duplicated simultaneously by FM stations.

Thus, of the 619 AM licensees operating FM stations, only 68 reported separate revenues from their FM operations for 1949. A summary of the financial information reported for these stations is as follows:

	Aggregate	Average per station
Total broadcast revenues	\$1,019,860	\$15,000
Total broadcast expenses	2,355,458	34,640
Total broadcast loss	1,335,598	19,640

Of the 68 FM stations, 41 were in operation for the full years 1948 and 1949. Data for 1948 and 1949 are available for 30 of these 41 stations. Average revenues per station for this group were \$13,483 in 1949 as compared with \$10,997 in 1948; average expenses were \$39,607 as compared with \$34,301 in 1948; and average losses were \$26,124 as compared with \$23,304 in 1948. Of the 68 stations reporting, four reported an income from FM operations during 1949.

An additional 96 AM-FM jointly operated stations submitted reports showing expense data only for their FM operations. These reports indicated that in 1949 FM costs for these stations averaged \$19,300.

The following table summarizes the 1949 financial information reported for 104 stations operated by persons having no AM broadcast interests:

	Aggregate	Average per station
Total broadcast revenues	\$1,394,167	\$13,405
Total broadcast expenses	4,968,475	47,775
Total broadcast loss	3,574,308	34,370

Of the 104 stations reporting for 1949, a total of 35 were in operation for the full years 1948 and 1949. Data for 1948 and 1949 are available for 32 of these stations. Broadcast revenues for these stations averaged \$21,178 in 1949 as compared with \$17,825 in 1948; average expenses were \$58,026 as compared with \$50,409 in 1948; and average losses were \$36,848 as compared with \$32,584 in 1948. None of the 104 stations reported income from operations in 1949.

TELEVISION FINANCIAL DATA

During 1949, the four TV networks and 98 stations (total on the air during the year) reported aggregate revenues of \$34.3 million, aggregate expenses of \$59.6 million and losses of more than \$25 million.

Of the \$34.3 million industry revenues, approximately \$7.6 million were derived from network programs with the remaining \$26.7 million sold directly by stations.

The distribution of total revenues, expenses and losses as between networks and stations was as follows:

	Revenues (millions)	Expenses (millions)	Loss (millions)
4 networks (including 13 owned and operated stations)	\$18.9	\$30.6	\$11.7
85 other stations	15.4	29.0	13.6
Industry total	\$34.3	\$59.6	\$25.3

The proportion of television broadcast revenues to total aural (AM or FM) and video (TV) broadcast revenues in cities served by TV rose from 4.4 percent in 1948 to 10.7 percent in 1949. In several of the large cities, TV station revenues for 1949 constituted a high proportion of the total revenues reported by all stations, both aural and visual. In Baltimore, Philadelphia and Washington, D.C., revenues reported by TV stations were approximately 20 percent of the combined revenues of all stations in those cities. In Los Angeles and New York the proportion going to TV was approximately 17 percent, while in Columbus, Ohio, and Chicago TV accounted for approximately 12 percent of the total revenues of all stations.
