INTRODUCTION

General remarks. -- This volume contains financial and operating data for the year 1945 compiled chiefly from annual reports filed with the Federal Communications Commission by telephone, wire-telegraph, ocean-cable, and radiotelegraph carriers, including reports submitted by the controlling companies of such carriers, also data taken from reports of standard broadcast stations and networks.

This is the seventh successive year that this publication has been issued, the initial issue being for the year 1939. It makes available a uniform presentation of comprehensive information on the communications industry. Before 1939, some of the statistics were printed in the Commission's Annual Reports to Congress and some were released through various mimeographed reports.

Jurisdiction over common carriers. -- According to the Communications Act of 1934, as amended, only those communication carriers engaged in interstate or foreign communication service are subject to the full jurisdiction of the Commission and are required to file annual and monthly reports. Practically all the wire-telegraph, ocean-cable, and radio-telegraph carriers are subject to the full jurisdiction of the Commission. There is a large number of telephone carriers, principally rural lines, engaged in intrastate service that are not subject fully to the Act and are not required to file reports. However, a few of the larger intrastate telephone carriers file annual reports and many of them file monthly reports voluntarily for statistical purposes. It is estimated that on the basis of plant investment and of operating revenues, the telephone carriers reporting annually represent approximately 95% of the telephone industry in the United States.

Annual reports of communication carriers. -- The more salient information contained in the annual reports is shown in this publication in summary form and by individual companies. Statistical data are shown in detail for telephone carriers having average annual operating revenues exceeding \$100,000 and for wire-telegraph, ocean-cable, and radiotelegraph carriers having average annual operating revenues exceeding \$50,000. Only limited data are shown for the smaller carriers, as they submit less comprehensive reports.

Bell System. -- Since the major portion of the telephone business in the United States is done by the Bell System, the summaries of telephone statistics published in this volume show

Bell System data separately. The tables also show the elimination of certain intercompany duplications of financial and operating data, so that the net result represents data for all large telephone carriers filing annual reports with the Commission considered as one system.

Monthly reports of communication carriers. -- Several summaries showing statistics compiled from monthly reports from communication carriers are contained in this volume. Monthly reports are filed by telephone carriers having annual operating revenues exceeding \$250,000 and by wire-telegraph, ocean-cable, and radiotelegraph carriers having annual operating revenues exceeding \$50,000. Owing to the difference in coverage, the cumulative monthly figures of telephone carriers for the year do not agree with the annual report figures, the former being slightly larger due to the fact that many intrastate carriers file monthly but not annual reports.

Holding companies. -- The companies which directly control communication carriers subject to the act are required to file annual reports. Holding companies reporting to the Commission are divided into two classes, those having large interests in the communications industry and those having nominal interests. Tables containing selected financial items relating to individual holding companies appear in this publication, also a table showing the intercorporate relations between the carriers and the holding companies.

Broadcast stations and networks. -- According to the act persons engaged in radio broadcasting are not deemed to be common carriers. Inasmuch as the annual financial and operating reports of standard broadcast stations and networks are filed with the Commission on a confidential basis, they are not available to the public. Therefore, the statistical data compiled from the reports are shown in this volume in summary form and not by individual stations and networks.

Recent developments in communications. -- Numerous technical improvements in communications, both wire and radio, as a result of electronic research during the war years have greatly stimulated the demand for current statistical data relating to the industry. The information contained in this volume will be of timely interest and will be helpful to other organizations of the Government, and a wide range of organizations interested in communication problems in various sections of the United States and throughout the world.

*Considered a Bell System carrier on the basis of ownership of more than 50 percent of voting capital stock by the American Telephone & Telegraph Co. or its subsidiaries.

¹/Indicates carriers subject only to the provisions of secs. 201-205 of the Communications Act of 1934, which file reports for statistical purposes.

¹/ Telephone carriers filing annual reports are classified as follows: Class A carriers are those having average annual operating revenues exceeding \$100,000; class B carriers are those having average annual operating revenues exceeding \$50,000 but not more than \$100,000; class C carriers are those having average annual operating revenues exceeding \$25,000 but not more than \$50,000, and class D carriers are those having average annual operating revenues not exceeding \$25,000.

²/ Carriers subject to the Communications Act of 1934 are required to file annual reports. Those carriers having annual operating revenues exceeding \$250,000 are also required to file monthly reports of revenues and expenses.

³/ Radiotelephone carrier.

⁴/ Merged with Illinois Telephone Company, Dec. 1, 1945.

⁵/ Discontinued filing monthly in Nov., 1945.

⁶/ Merged with New England Telephone & Telegraph Co. as of Aug. 1, 1945.

⁷/ Merged with Illinois Bell Telephone Co. as of May 1, 1945.

⁸/ Purchased by Ohio Consolidated Telephone Co. Jan. 31, 1945.

⁹/ Dissolved as of Oct. 31, 1945.

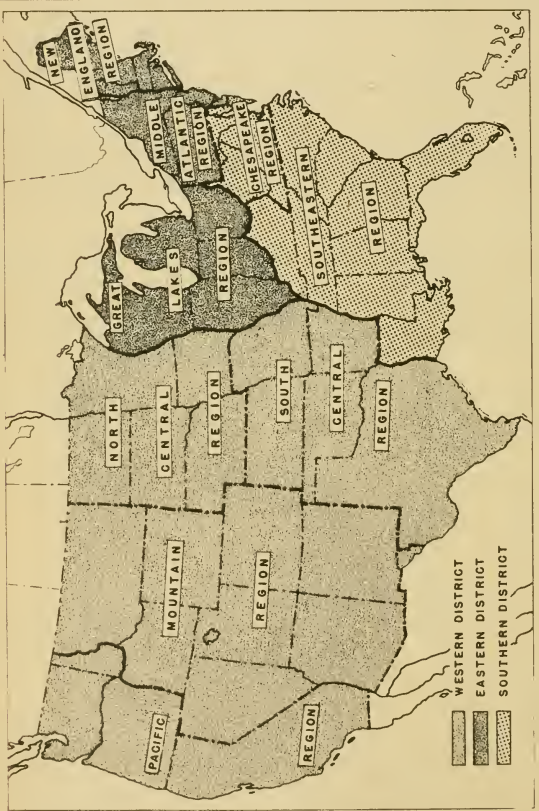

¹⁰/ Merged with Illinois Telephone Co. as of Dec. 1, 1945.

¹¹/ Western Light & Telephone Co., Inc. was incorporated Aug. 11, 1945 as successor to Western Light & Telephone Co.

¹²/ Merged with New England Telephone & Telegraph Co. as of July 1, 1945.

1/ Census figures for 1937 are the latest available, as the regular quinquennial census was not taken in 1942.
 2/ Not including 11,759 connecting lines having fewer than 5 telephones per line. In the count of systems, the 26 Bell System companies (as well as all other systems and lines) have been assigned to the States in which their operating headquarters are located. The Bell System, however, operates in every State.
 3/ Does not include 44,249 miles of single wire (estimated) on connecting lines having fewer than 5 telephones per line.
 4/ Does not include 29,201 telephones on 11,759 connecting lines having fewer than 5 telephones per line.

Table 4. -- Selected data showing the development through the years 1926 to 1945, inclusive, of Class A telephone carriers filing annual reports with the Commission 1/ (Data presented in this table represent combined amounts for the reporting carriers and intercompany duplications have not been excluded, but data for the years 1942 to 1945, inclusive, are also shown excluding such duplications.)

Source: Annual reports filed with the Interstate Commerce Commission through 1935 and with the Federal Communications Commission beginning with 1934. In a few instances data from unofficial sources or estimates were used.

NOTE.--The difference in the number of carriers reported to the Commission in 1945 in comparison with prior years is caused by mergers, consolidations, reclassifications, etc. profits or losses on intercompany transfers of plant have not been eliminated.

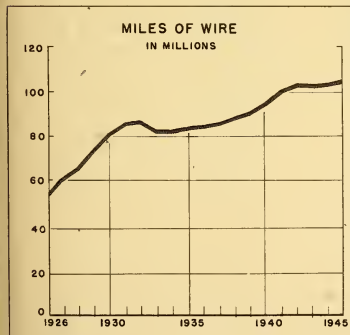

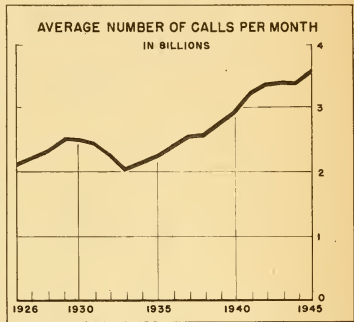

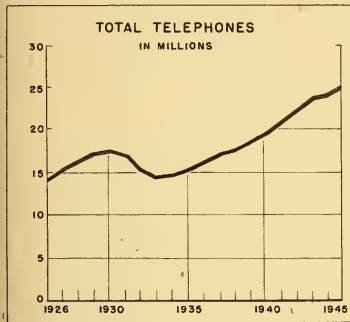

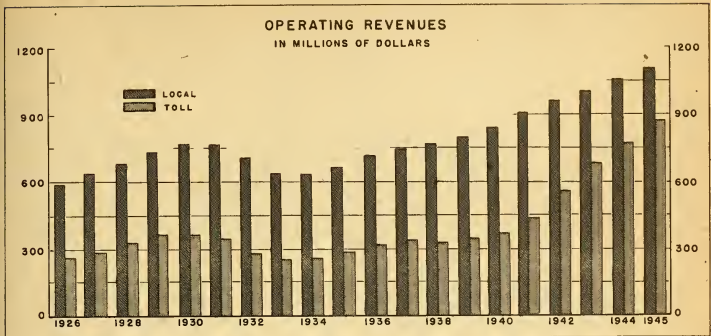

1/ Includes carriers consolidated and merged for which annual report data are available; 2/ In comparing data in this table, consideration may be given to the minor effect of the revisions of the Uniform System of Accounts, effective Jan. 1, 1933 and Jan. 1, 1937, excluding intercompany duplications

resulting in certain changes in and rearrangements of both the balance sheet and income statement.
 3/ The decrease reflected in data shown for the year 1935 is due mainly to the fact that prior to that year the total of calls jointly owned with other companies was included, whereas from 1935 on only the respondent's portion of jointly owned calls was included.
 4/ Partly estimated.
 5/ Data shown for years 1926 to 1932 inclusive include estimates.
 6/ Represents total compensation for the year divided by the number of employee.
 7/ Represents the number of employees at end of October.

1/ The intercompany duplications with respect to securities, receivables, payables, and items of income and expense, except in minor instances, have been eliminated. In the elimination of intercompany security holdings, the difference between the aggregate book cost as reported by the carriers owning such securities and the reported aggregate par or stated value, including ascertainable discounts and premiums applicable thereto, has been applied as a net reduction of the combined surplus accounts of the carriers.

2/ Bell System for the purposes of this statement includes all carriers filing annual reports with the Commission which are controlled by the American Telephone & Telegraph Co. or its subsidiaries through ownership of more than 50% of voting capital stock.

3/ Intercompany elimination applicable to specific accounts not ascertainable from reports.

4/ To apply all rent revenues, approximately two-thirds of which are intercompany, against rent expenses, to show net rent expenses in first two columns of figures.

5/ Averages for all companies combined not computed.

6/ Fairly estimated.

(1) Deficit or other reverse item.

^{1/} Includes carriers consolidated or merged for which annual report data are available. Intercountry duplications have not been excluded.

^{2/} Reflects transfer of \$38,000,000 to depreciation reserve from surplus by Western Union Telegraph Co.

^{3/} In comparing data in this table with returns for prior years, consideration should be given to changes in reporting requirements due to the Uniform System of Accounts effective Jan. 1, 1943.

^{4/} Includes net book cost of plant of Postal Telegraph, Inc. acquired by the Western Union Telegraph Co. in the amount of \$16,754,113 on basis of gross book cost of \$69,320,179 less tentative allowances for depreciation of \$52,566,056.

^{5/} Includes other long-term debt.

^{6/} Not comparable with amounts reported for December 31, 1943 because of accounting adjustments for Postal Telegraph plant purchased by the Western Union Telegraph Co. October 7, 1943; comparable 1943 amounts are \$177,431,438 and \$221,701,458, for plant and depreciation allowances, respectively.

^{7/} Computed from responses to Telegraph Division Order No. 12, annual reports, and correspondence. Represents principally data as estimated by reporting carriers on basis of actual count for test periods. Throughout the period stock and commercial news traffic (2,414,419 in 1945) and telephone toll messages (528,763 in 1945) are excluded. Domestic haul of mobile and foreign messages (10,697,725 in 1945) are excluded to avoid duplications.

^{8/} Data shown for years 1926 to 1933, inclusive, include estimates by reporting carriers. The average shown represent total compensation for the year divided by the number of employees at the close of June.

^{9/} Represents operating income before deduction of income taxes.

^{10/} Includes \$3,535,926 charged to capital surplus.

Source: Annual reports, correspondence, and other reports. Intercompany duplications, if any have not been excluded.

(1) Deficit or other reverse item.

1/ Includes other long-term debt beginning with the year 1940.

2/ Includes capital surplus beginning with the year 1940.

3/ Data not available.

4/ In comparing data in this table, consideration should be given to the effect of changes in reporting requirements due to the Uniform System of Accounts effective Jan. 1, 1940.

5/ The increase was due principally to adjustments made by Mackay Radio and Telegraph Co. (Calif.) and Mackay Radio and Telegraph Co. (Del.) in connection with the reorganization of Postal Telegraph and Cable Corporation and The Associated Companies.

6/ Beginning with the year 1940, the figures shown are before deduction of income taxes.

7/ Includes data estimated by reporting carriers.

8/ Represents estimated data for the years 1926 to 1933, inclusive.

9/ Represents total compensation for the year divided by the number of employees at the close of June.

10/ Includes \$3,600,000, \$300,000 and \$400,000 charged during the years 1933, 1934, and 1935, respectively, to surplus arising from reduction of capital stock.

11/ Includes \$150,000 and \$246,420 charged to capital surplus during the years 1940 and 1941, respectively.

2/ Words and messages are principally estimated by reporting carriers on basis of actual count for test periods.

3/ International messages (primarily Canadian and Mexican) transmitted in accordance with carriers' rules governing domestic traffic are included under "Domestic."

4/ Insular messages are included under "Foreign."

5/ Data not required in connection with "Domestic" classification.

6/ Includes longram service; Western Union Telegraph Co. reported 2,315,266 messages and tolls amounting to \$2,801,817.

7/ The revenue from ticker service has been deducted from the total in computing this average.

8/ The full rate ordinary classification average per word is low compared with that for deferred rates because of the inclusion of a large volume of low rate traffic handled wholly within certain Latin American countries for which there are no comparable deferred rates.

9/ Includes \$97,834 revenue for which the words and messages are not available.

10/ Revenue amounting to \$97,834 has been deducted from the total in computing this average, as the words and messages in connection with the revenue are not available.

Note.--The totals of the three respective classes of communication service in this table do not agree with corresponding totals in Table 37 because the data have been rearranged to show domestic haul separately under "Continental and insular fixed communication."

- 1) Deficit or other reverse item.
- 2) Represents data as reported by carriers and includes estimates in some instances.
- 3) Reported in minutes only: 281,443.
- 4) Reported in minutes only: 1,581,203.
- 5) Represents miscellaneous adjustments.
- 6) The revenues from news service (scheduled transmission) have been deducted from the total in computing the average, as the words and messages are not reported.
- 7) Number of words not shown.
- 8) Includes \$164,710 revenue for messages reported in minutes only.
- 9) The words, messages, and revenues from news service (scheduled transmission) have been deducted from the total in computing the average.

d Deficit or other reverse item.

Y/ Includes certain corrections not appearing in figures shown in the monthly releases.

Z/ Includes extraordinary income charges made during April 1945 amounting to \$1,206,039, resulting from an adverse decision of the Supreme Court with respect to The Western Union Telegraph Company's liability for the income taxes of two lesser companies, Gold and Stock Telegraph Co. and International Ocean Telegraph Co.

SECTION B

**Financial and Operating Data Relative to
Standard Broadcast Stations and Networks**

STANDARD BROADCAST STATIONS AND NETWORKS

General remarks.--Section B contains financial and operating data and information concerning the employees of 901 commercial broadcast stations, also of 4 nation-wide and 6 regional networks, for the calendar year 1945. The tables showing employee data by months are for 901 stations, while those showing functional employment and pay-roll data cover 876 stations. The information was compiled from reports filed by standard broadcast stations in accordance with the provisions of section 1.301 of the Commission's Rules of Practice and Procedure, and from financial statements submitted by the networks in compliance with the Commission's request for data. The following table indicates the number of existing licenses for stations and permits for new construction as of December 31, 1945:

Commercial broadcast stations included in summaries -----	901
Noncommercial stations (not included in summaries) -----	1 35
Extraterritorial stations (not included in summaries) -----	2
Incomplete reports filed (not included in summaries) -----	10
Construction permits for new stations (not included in summaries) -----	56
Total -----	1004

Geographical groupings.--The standard broadcast stations, which are included in the tabulations, have been grouped geographically into three districts for statistical purposes. These districts have been divided into seven regions, as follows:

Northeastern region.--Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont.

Great Lakes region.--Illinois, Indiana, Kentucky, Michigan, Ohio, West Virginia, and Wisconsin.

Midwest region.--Iowa, Kansas, Minnesota, Missouri, Nebraska, North Dakota, and South Dakota.

Southeastern region.--Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, and Virginia.

South Central region.--Oklahoma and Texas.

Mountain region.--Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah, and Wyoming.

Pacific region.--California, Oregon, and Washington.

¹ Includes 22 stations operated by educational institutions, 11 by religious groups, and 2 by other nonprofit organizations.

² These stations were not included in the tables concerning finances, operations, and monthly employee data for the year owing to deficiencies or other discrepancies in the reports.

1/ Does not include the operations of the key stations of nation-wide networks, as the reports filed by them with the Commission do not include adequate segregations of expense between station and network operations.
 2/ Since licensees with total time sales of less than \$25,000 for the year were not required to report details, this item may include some amounts for network, and national and regional non-network business; however, the greater portion of the revenue for these stations is from time sold to local users.
