(0268 42824)

Foreword

With this edition the INTERNATIONAL TELEVISION ALMANAC marks its 30th year, as the industry itself continues to grow in all kinds of directions. In 1984, for instance, cable television operating systems had 34,100,000 subscribers, representing 40.7 per cent of television homes, which had reached a tremendous 83,800,000. The number of commercial television stations was 844 in 1984, compared to only 411 in 1955. These and other statistics, along with numerous other sections, can be found in this year's book—the who, what, when and where of the industry.

—RICHARD GERTNER

Minerva

The "watchword for reliable service

RADIO • TELEVISION • FILMS

Model 107N

Full minute span with more definition on the minutes. Single dial reference for both minutes and seconds retains the mechanics familiar to Radio and TV but this Minerva timer is much easier to read and use. For spot timing, timing program segments. 1/5 second, Start-Stop-Start from crown - Fly Back to zero from button on side of case. 7 jewel lever movement, nickel chrome case and solid bridge construction for years of dependable service. Price \$89.10

Model 106F

The Filmmeter. This specifically designed timer has regular 1/5 second scale plus 90 and 36 ft. per min. scales to register footage for 35mm and 16mm film. Long hand completes one revolution in 60 seconds, small hand registers up to 30 minutes. "Time out" feature. Start-Stop-Start by depressing crown. Perfect Fly-Back to zero by depressing side pin. Non-magnetic, 7 jewel lever movement. Nickel chrome case. Price \$77.40

OVER 100 MODELS AVAILABLE

Write for catalog: Dept. RAY

OVER 100 YEARS OF PRECISION TIMING SERVICE

Exclusive, Non-breakable, "Coil Spring" mechanism for Economy, Durability and Accuracy. The result of 20 years of research, Minerva "coil" construction assures endless timing precision with less wear or friction under continuous usage.

**HEADQUARTERS
FOR
STOP WATCH
REPAIRS &
SERVICING**

Lifetime Guarantee. The coils in Minerva mechanisms are guaranteed against breakage and wear for the life-span of the timer. If any timer fails to give satisfaction within one year due to material or workmanship it will be repaired or replaced without charge.

EASTMAN Film.
There's nothing
to stop you...

but your
imagination.

The Möbius strip—symbol of infinity—also symbolizes Eastman film's ability to capture your unlimited visual imagination.

THE FILM LOOK: It shows you it's better. It reveals reality. It conveys fantasy. It captures everything in between. Eastman color negative film does it—beautifully and believably. It offers the broadest range of imaging—from delicate hues, subtle contrast and controlled depth, to brilliant color, sharp contrast and bold perspectives. This is why the film look is widely preferred for original production.

PORTABILITY: Whether for moon shots, ocean shots, action shots or location shots, the motion picture camera continues to be the most portable and rugged original production equipment.

FLEXIBILITY: Film is the production medium for the future, as well as the present. Your film original can be converted faithfully to videotape for television transmission without losing image quality, because of film's unique wide latitude. The superior resolution of today's original Eastman color negative films not only satisfies all of the technical requirements of existing TV standards, it also surpasses the requirements of the proposed high-definition TV systems of tomorrow.

THE STANDARD: Film represents the standard of image excellence. And the family of Eastman color negative films represents the quality, sophisticated technology, reliability and world-wide service that will continue to help your imagination become reality.

**Eastman film—the imperative,
not the alternative.**

Government Film Bureaus

DEPARTMENT OF AGRICULTURE:

U.S. Department of Agriculture Video & Film Division, Washington, D.C. 20250. Larry A. Quinn, acting chief, Video & Film Division.

USDA films are available through the cooperating extension libraries of the Land Grant Universities and are included in their respective catalogs. (USDA no longer issues a film catalogue.) Prints of the USDA films or replacement footage can be purchased from the National Audiovisual Center (NAC), General Services Administration, Washington, D.C. 20409. Contact NAC Sales Branch for prices and ordering procedures at (301) 763-1891. NAC rents 16mm films for a nominal fee and offers preview prints of selected titles. The Reference Section will direct inquirers to the closest free loan source, either commercial service or regional Federal agency loan library. NAC will also provide specialized research, using master data files of all available AV materials produced by the U.S. Government. Printed information lists, brochures, and catalogs listing titles by subject, media, or Federal agencies, are available. Call (301) 763-1896.

DEPARTMENT OF COMMERCE:

International Trade Administration, Office of Service Industries, 14th and E. Streets, N.W., Washington, DC 20230; (202) 377-4581. Theodore A. Nelson.

This division studies and reports statistics of the industry at home and abroad. The material gathered is published in department reports and is used with information from other Industries to help fulfill the function of "representing business to the government and the Government to business."

DEPARTMENT OF DEFENSE

The Pentagon Building, Washington, DC 20301-1400. Assistant Secretary of Defense (Public Affairs) Michael I. Burch.

Special Assistant (Audiovisual): M. Donald E. Baruch, Room 2E789, 685-2936; Acts on all requests for Department of Defense assistance from any segment of the motion picture and television industry concerned with dramatic productions and documentaries not dealing with news.

Radio-Television Branch: LCol. Daniel Braun, Rm 2E765, 695-0168. Responds to request for DOD assistance from major television/radio networks and other news documentary film/video productions. Arranges technical aspects of news conferences and media coverage at the Pentagon.

Media Support: M. Ed Michaelski, Rm 2E773, 697-1252. Obtains and releases Department of Defense still and motion picture/video out news and other media outlets.

ARMY AND AIR FORCE EXCHANGE SERVICE MOTION PICTURE SERVICES BRANCH, SERVICES DIVISION

(Under Board of Directors, Army & Air Force Exchange Service). Main Office: HQ Army & Air Force Exchange Service, 3911 S. Walton Walker Blvd. (mail address: Dallas, TX 75236-1598, (214) 780-2622. W. R. WOOD, Chief, Motion Picture Services Branch, David A. Bockhor, Film Procurement Officer, Motion Picture Services Branch.

DEPARTMENT OF HEALTH EDUCATION AND WELFARE:

330 Independence Avenue, S.W., Washington, DC 20201. (202) 245-6296.

Information Office: 963-4568. Sanford H. Winston, director; York Onnen, asst. director; Harry Bell, dir., (Audio Visual Services), 963-5319.

Health Services & Mental Health Administration: Dr. Vernon E. Wilson, administrator; Edward J. McVeigh, Director of Information; 443-2086.

HS and MHA produces and distributes film, audio and video tape, and multi-media materials on problems of mental and physical health by a combination of contract and in-house facilities.

National Institute of Health: Dr. Robert S. Stone, Director; Storm Whaley, Associate Director for Communications, 496-4461.

NIH's Audio Visual facilities are responsible for the production and distribution of motion pictures, slides and other materials depicting biomedical research and its implications.

Environmental Protection Agency: William D. Ruckelaus, administrator, 755-2700; Thomas Hart, dir. of public affairs, 755-2700; Luke C. Hestor, films, 443-4804.

EPA produces films on the environment and information lists for the public.

SOCIAL SECURITY ADMINISTRATION:

John A. Svahm, Commissioner; Russell R. Jalbert, asst. commr., Public Affairs (301) 594-1990; Robert Fenwick, Audio Visual Staff Chief, 944-5587.

SSA produces and distributes films for use throughout the country describing social security and its benefits.

SOCIAL AND REHABILITATION SERVICE:

James S. Dwight, Administrator; Robert A. Wilson, Director of Public Affairs, 962-4655.

SRS produces and distributes films on a wide variety of subjects, such as social welfare services. Medicaid, rehabilitation, juvenile delinquency and related topics.

OFFICE OF EDUCATION:

Terrel H. Bell, commissioner; Anne Graham, chief, office of public affairs, 254-5800.

Audio-Visual division: The Office of Public Affairs is responsible for clearance and monitoring of all motion picture and other audio-visual materials generated by OE contracts with, or grants to companies or non-profit organizations and Institutions. Distribution of these materials is made through the National Audio-Visual Center (located at the National Archives and Records Services) or by special arrangements with producers. Public use of OE audiovisual materials is approved by the HEW Office of Public Affairs.

Caption films division: Malcolm Norwood, asst. chief, 963-5230. This division publishes already produced films and captions them for use by the deaf.

DEPARTMENT OF THE INTERIOR

Bureau of Mines, Motion Picture Booking Section, 4800 Forbes Ave. Pittsburgh, Pa. 15213. Tel.: 412-621-4500. This is the main distributing center; however copies of some films are deposited at cooperating educational film distribution centers throughout the country.

The Bureau maintains a library of motion pictures depicting mining and metallurgical operations and related manufacturing processes. They are loaned free of charge, except for return postage (book rate) to educational institutions, industries, training workers, engineering, and scientific societies, civic and business associations, and other responsible organizations. The cost of production is paid by co-operating industrial concerns but the pictures do not carry trademarks, trade names or other direct advertising materials. William Gage, (202) 634-1335, officer in charge Bureau of Mines Audio-Visual Programs, Washington, is in charge of production.

DEPARTMENT OF JUSTICE:

Constitution Avenue and 10th Street, N.W., Washington D.C. 20530. William French Smith, Attorney General; Terence B. Adamson, Director of Public Information; 739-2014.

SMITHSONIAN INSTITUTION:

Washington, DC 20560, 628-4422. S. Dillon Ripley, secretary; Nazaret Cherkezian, Telecommunications coordinator, 381-2414.

Coordinates production on all motion picture and TV filming.

DEPARTMENT OF STATE:

21st Street and Virginia Avenue, Washington, D.C. 20503. George Schultz, Secretary of State.

OFFICE OF MEDIA SERVICES

Paul E. Auerswald, director, 632-2083. Provides State Department assistance on film and TV production. Produces an average of one film a year on foreign policy subjects and distributes them for public service TV and classroom use.

OFFICE OF INTERNATIONAL TRADE:

Dept. of State; 632-2543. (Concerned with commercial aspects of film industry, trade treaties, quotas, restrictions, etc.)

EXECUTIVE AGENCIES

FEDERAL COMMUNICATIONS COMMISSION:

1919 M St., N.W., Washington, D.C. 20554—Mark Fowler, Chairman; Samuel M. Sharkey Jr., Public Information Officer. (202) 632-7260.

Charged with regulating interstate and foreign communications including radio, television, satellite, cable and wire services. Licenses all standard, FM, and television broadcasting stations and services.

FEDERAL TRADE COMMISSION:

Sixth Street and Pennsylvania Avenue, N.W., Washington, D.C. 20580—David A. Clanton, chairman; Theodore O. Cron, director of information. 523-3625.

Administrators statutes designed to promote fair competition; institutes proceeding to prevent unfair or deceptive practices, combinations in restraint of trade, false advertising, and illegal price discrimination. Supervises associations of exporters under the Export Trade Act.

SECURITIES AND EXCHANGE COMMISSION:

500 N. Capital St., Washington, D.C. 20549; Harold M. Williams, chairman; George A. Fitzsimmons, Secretary (information), 755-1160.

Registers security offerings and supervises exchange trading in securities.

U.S. INFORMATION AGENCY:

1750 Pennsylvania Avenue, N.W., Washington, D.C. 20547—John E. Reinhardt, director. (202) 724-9042.

Motion Picture and Television Service: 376-7806. McKinney Russell, assistant director; Stanley Moss, deputy assistant director. Certifies exemption of import duties if film is educational in nature.

USIA produces and acquires about 200 film and television documentaries annually for information and cultural programs in 117 countries. In addition, close to 350 targeted, and 150 worldwide new clips are made for use on foreign television. These are seen abroad in commercial theatres, in television, in schools and community centers, and by clubs, universities, and other audiences.

LIBRARY OF CONGRESS

10 First Street, S.E., Washington, D.C. 20540. 202-426-5000. Daniel J. Boorstin, Librarian of Congress; Mrs. Mary C. Lethbridge, Information Officer. 202-426-5108.

This agency serves as the national library and includes the U.S. Copyright Office as one of its departments. In addition to registering

films for copyright and publishing a record of copyright registrations, the Library catalogs motion pictures and filmstrips, publishes printed catalog cards, book catalogs and machine-readable tapes for such materials, collects current film selectively, maintains an extensive archive of motion pictures from 1894 to date, and provides related bibliographic services.

Copyright Office—Barbara Ringer, Register of Copyrights.

Robert D. Stevens, Chief of the Copyright Cataloging Division, 703-557-8715, supervises the preparation of the semi-annual *Catalog of Copyright Entries: Motion Pictures and Filmstrips*, which is distributed by the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. This publication contains descriptive data for all theatrical and nontheatrical pictures registered for copyright during each 6-month period and includes renewal registrations.

Processing Department—Joseph H. Howard, Director.

Vivian L. Schrader, Head of the Audiovisual Section of the Descriptive Cataloging Division, 202-426-5238, supervises the cataloging of approximately 5,000 motion pictures, filmstrips, and sets of slides and transparencies a year, largely on the basis of information supplied by producers and media libraries.

Research Department—Alan Fern, Director.

Motion Picture Section in the Prints and Photographs Division, 202-426-5840, which has custody of the Library's collection of over 60,000 motion pictures. The collection is primarily an archive. It contains educational, scientific, religious, industrial, and documentary films, as well as newsreels and features. Chiefly American, it includes German, Italian, and Japanese films, and in it are historically important films preserved by the Library from the early days of the motion-picture industry. Since 1942, about 1,500 representative titles a year have been retained.

Distributors of 16mm Feature Films

STATISTICS

HISTORICAL DATES

FIRST OVER-THE-AIR TOLL-TV EXPERIMENTS: 1950, Skiatron system tested over WOR-TV in New York City. 1951, Telemeter system tested over KTLA-TV, Los Angeles; Zenith tested its system over its own experimental station in Chicago.

FEBRUARY 10, 1955: Federal Communications Commission started proceedings to determine whether it should authorize TV stations to transmit programs paid for on a subscription basis. Study involved 92 docket volumes reflecting the views of over 25,000 persons on legal, technical and policy questions.

MAY 23, 1957: FCC concluded it had authority to authorize use of TV broadcast frequencies for subscription operations if it found it were in the public interest to do so. Did not define whether this service should be classified as "broadcasting" or some other.

OCTOBER 17, 1957: FCC adopted its first report on the proceedings and declared it would consider applications to conduct trial pay-TV operations over TV stations provided certain conditions were met.

MARCH 24, 1959: FCC issued third report saying it was ready to consider any pay-TV application by a commercial TV station conforming with requirements, among which were limitation of three-year trial authorizations to markets where there were at least four commercial TV stations (including the pay-TV one), and one trial system allowed per market.

JUNE 22, 1960: Hartford Phonevision Co. (later RKO General Phonevision Co.), a licensee of WHCT (Channel 18), Hartford, CT, applied for authority to conduct a three-year trial subscription-TV operation. Application granted February 23, 1961. Operations began June 29, 1962, and concluded in January, 1969.

JULY 3, 1967: FCC's subscription TV committee submitted a fourth report proposing an over-the-air subscription TV service. Rules were designed to integrate subscription TV into the total TV system so good programming would continue to be available over regular TV stations.

DECEMBER 12, 1968: FCC formally established over-the-air subscription TV as a regular broadcast service.

Statistics for 1981 (supplied by FCC)*

Operating revenues totaled over \$3.5 billion, a 60 per cent increase over 1980 revenues. Total operating expenses were \$2.4 billion, leaving an operating income of \$1.2 billion or a 33.4 per cent operating margin before expenses of depreciation/amortization, interest and taxes.

Net income before taxes was approximately \$40 million and the cable industry's total assets had a book value of \$7.91 billion (up 78 per cent from 1980).

Pay cable services yielded revenues of \$1.17 billion or 32.6% of total revenues. The percentage of total revenues attributable to pay cable operations increased by 6.9 per cent in 1981.

The national average monthly subscriber rate for basic service was \$7.94 in 1981, ranging from an average low of \$6.50 in Vermont to a high of \$20.01 in Alaska. The national average cable television installation fee was \$18.32, ranging from \$11.45 in Rhode Island to \$40.00 in the Virgin Islands. That national average monthly rate for pay cable TV was \$9.56, ranging from \$6.00 in the Virgin Islands to \$12.93 in Alaska.

In 1981, pay cable services were offered by 2,406 financial entities comprising 9,264 communities in nearly every state. California, New York and Pennsylvania were the leading states in terms of pay cable revenues.

Approximately 12,000 communities with over 23 million subscribers (households) were served by cable television in 1981. These 12,000 communities were consolidated into 3,600 financial entities for reporting purposes. A financial entity is defined as one or more cable TV community systems which report to the Commission as one business entity—upon meeting certain ownership and technological requirements.

The average financial entity had approximately 6,500 subscribers and average operating revenues of \$996,900 in 1981.

Tables on the following pages (prepared by the FCC) provide details of financial data.

These financial reports are based on filings covering 88 percent of all cable subscribers in the nation. The remaining 12 percent are subscribers to systems whose filings are incomplete, inaccurate or delinquent. National totals have been estimated for the entire industry predicated on the large number of filings in the data base. The totals appear at the end of the second table under the heading "U.S. Totals Projected to 100%".

* The FCC ceased compiling financial data on the cable TV industry after 1981.

Office for Film and Broadcasting (OFB)

Suite 1300, 1011 First Avenue, New York, NY 10022; (212) 644-1880.

DIRECTOR

Rev. Patrick J. Sullivan S.J.

Office for Film and Broadcasting (OFB): A unit of the Department of Communication of the National Conference of Catholic Bishops and the United States Catholic Conference, was formed in January, 1972, through a reorganization of the former National Catholic Office for Motion Pictures and the National Catholic Office for Radio and Television.

OFB provides a national service of information, for diocesan communications offices throughout the country.

For the motion picture medium, OFB publishes the twice-monthly *Film & Broadcasting Review* which reviews all current nationally released 35mm films and provides information about resources for film utilization and education (16mm films, books, magazines, festivals). The critical reviews are addressed to the moral as well as artistic dimensions of motion pictures and are the result of a consensus based on the reactions of OFB's professional staff and board of consultants. All films reviewed are also classified according to the OFB rating system. Film classifications appear every month as part of the *Review*. In addition, the publication carries information and evaluative studies on trends and issues pertinent to television, with an emphasis on educational material.

The division maintains a 16mm film library of Catholic program material and a consultation service for educational and religious film program directors.

For the broadcast media, OFB is responsible for cooperating with the three major networks (ABC, CBS and NBC) in the production of all regularly scheduled network radio and television programs involving Catholic participation: (See Radio and Television).

For the Catholic press, OFB publishes a weekly film/broadcast service consisting of reviews, information, articles and photos. Special projects are undertaken with individual publications, religious and general.

OFB also plays a liaison role for the NCCB/USCC with the film and broadcasting industries, national media, and religious agencies and organizations. It is a member of OCIC and UNDA, the international Catholic organizations for film and broadcasting, respectively. Consultations and information services are also provided for the Pontifical Commission for Social Communications and the communications offices of national episcopal conferences throughout the world.

British Year in Review

1984 was another year of progress and profitability for the British television industry. The British Broadcasting Corporation financed by government grants related to the broadcast receiving license fees paid by members of the public, maintained a high standard of locally-produced programs.

BBC Enterprises—the commercial arm of the Corporation—again reported record profits. It has 10 sales divisions, with television program sales accounting for 70 percent of the annual turnover. The operation is London-based but there are offices in Canada and Australia and distributions in the U.S.A., Latin America, Brazil and Japan. With programs in demand throughout the world for non-broadcast use in education and training at all levels, the current catalog of material for sale ranges from Shakespeare to management skills for business and industry. The BBC film and video library is one of the world's largest. Items, footage, historic and archive material can be supplied to film and television producers in any format. Technical facilities, together with appropriate staff can be hired by visiting producers and are equipped for line standards conversion. BBC Video produces a catalog of titles mainly based on BBC programs. The material being specially edited, adapted or augmented for the video format. At the same time, the 15 ITV companies—commercial program contractors—also have buoyant revenues.

Commenting on the current situation, Lord Thomson, Chairman of the Independent Television Authority, stated: "Though the familiar broadcasting landscape is going to change, and there will, in future, be many more claimants for time on the television screen, the national broadcasting organizations occupy central territory that may be eroded but will remain the heartland of broadcasting. Certainly for the next decade, probably for a good deal longer, the IBA/BBC terrestrial services will continue to provide the main diet of television viewing."

There are a number of opportunities in prospect based particularly on domestic exhibition:

Video The video cassette has revolutionized the home entertainment market in the U.K. in the short space of three years.

DBS The Government has announced changes in the legislative arrangements which will enable a consortium of the BBC, ITV and other private sector companies to introduce a direct broadcasting service in 1987. This service will provide three new television channels one of which will be a film channel. The Satellite Broadcasting Board, which will supervise the new service, will have the same statutory duty as the IBA, namely to satisfy itself that proper proportions of programs of UK origin and performance are included in the services.

Cable The advent of cable television is providing an important new market for film.

Undoubtedly, DBS and cable will inevitably provide a valuable and growing stimulus to production, with feature films likely to be the most sought-after and marketable program sources. Moreover, traditional broadcast television itself has become a very important user of feature films. In terms of total audience, four billion individual film viewings a year is a reasonable estimate.

The trend of showing feature films on television began in the 1960s and has reached the stage where in 1983, BBC1 and BBC2 between them showed 786. In the same year the ITV companies showed between 325 and 360 films. In its short existence so far, Channel 4 has also become a significant user of films, showing over 380 in 1983, including 22 of their own commissioned "Films on Four."

Much film buying for the independent television companies is carried out centrally and this, taken with the BBC, means that the demand side of the market is essentially a duopoly. For a number of years there have been complaints from the film production industry that buying by television is collusive, except perhaps for a few major cinema successes in great demand for television showing, and there is little doubt that compared with cinema exhibition the *per capita* returns to producers from television showings historically have been low. Television interests claim that there is no collusion in buying; that film rights are mostly purchased in "packages"; that a proportion of the material sold in packages is unpopular or not suitable for family viewing; and that in any event prices paid for feature films for showing on television have risen significantly in recent years.

Video sales and distribution, principally of feature films, is a significant new sector of the industry and annual turnover is already estimated to be £200 million.

Moreover, there are signs that the gap between film and television is being closed. The BBC has begun to enter co-production agreements, though the bulk of its production continues to be in-house. Independent television program companies have produced program material, sometimes in cooperation with the independent production sector, which in terms of content is indistinguishable from feature film; and Channel 4 has already contributed substantially to the production of material by the film industry suitable for both cinema and television and is likely to make a growing contribution in future years. It is now becoming common for film production companies to make both films and television programs. It may well be that this interface of films and television is the key to much of the film production industry's future although the importance of theatrical exhibition in the cinema will remain. It is still in the cinema that a film establishes its reputation and its value to the small screen.

Sales of American programs to British television

is governed, to some extent by the limitation, by government decree, of foreign material. There is also the British cinema exhibition industry's embargo restricting the televising of any theatrical films to three-year-old productions. Even so, American films and series are among the biggest draws with viewers.

The British remain a nation of TV addicts. 92 percent of them put watching it as their favorite leisure activity. Their viewing ranges from 22 hours per week in the winter to 17 hours in the summer. It is not surprising, therefore, that advertising revenues of the commercial companies are at record levels.

INDEPENDENT BROADCASTING AUTHORITY

70 Brompton Road, London, SW3 1EY. Tel: 01-584 7011.

The Authority was created by Parliament in 1954 as the Independent Television Authority, to provide a comprehensive television service additional to that of the BBC. Under the terms of the Sound Broadcasting Act, 1972, the Authority was renamed the Independent Broadcasting Authority and its functions were extended to cover the provision of Independent Local Radio.

The Broadcasting Act 1980 provided for the setting up of the Channel Four Television Company as a subsidiary of the IBA; it started broadcasting in England, Scotland and Northern Ireland on November 9, 1982. A separate Welsh Fourth Channel Authority was also established by this Act: broadcasting on November 1, 1982. The Broadcasting Act 1981 has consolidated a number of Acts relating to the IBA.

The Authority selects and appoints the ITV & ILR programme companies; supervises the programmes provided by the contractors—and the Channel Four Television Company—and their scheduling; controls advertising, and builds, owns and operates transmitting stations. Fifteen ITV programme companies provide programmes in 14 regions of the United Kingdom (two companies operate in London). As a part of its review of the ITV system, the Authority, in December 1980, offered a contract to broadcast a new national breakfast-time television service, which started in February 1983, to TV-AM. In addition, changes were made to some ITV companies.

By July 1983, 40 Independent Local Radio stations were providing a programme service in areas of the United Kingdom (two companies operating in London). A further 29 areas will be covered by Independent Local Radio during the 1980s.

Both ITV and ILR are financed mainly by the sale of advertising time.

The Members of the Authority are appointed by the Home Secretary and consist of a Chairman and Deputy Chairman and ten other members, of whom three make the interests of Scotland, Wales and Northern Ireland, respectively, their special care.

Chairman: The Rt. Hon. the Lord Thomson of Monifieth

Director General: J. Whitney

Director of Administration: Mrs. S. Little

Director of Television: vacant

The World Market

- * MARKET ANALYSES
- * STATIONS
- * OUTLOOK
- * PROGRAM SOURCES

THE WORLD MARKET

AFGHANISTAN

People's Radio & Television Afghanistan, Post Office Box 544, Kabul; 8 stations, 12,000 sets.

ALBANIA

Radiodiffusion TV Albanais, Tirana, government-owned experimental station, broadcasts sixteen hours weekly to some 55,000 sets, many of them located in public places so that segments of the populace not owning sets can view the programs.

ANGOLA

Television Popular de Angola, C.P. 2004, Luanda; 23,000 sets.

ARGENTINA

After eight months in operation the democratic government has developed for exploitation to private activity Channel 9, one of the four existing channels in Buenos Aires. It was given to Alejandro Romay, who was the previous licensee before the military government took over the channels to be exploited by the State.

In the program of the U.C.R. (Radical Party), which is actually in the government, it sustains that two more channels will come under private management, and the remaining one (Channel 7) will be owned by the state, as the principal one of a chain to be handled by the government. To fulfill this it will send to Congress a new project for TV-Radio-diffusion in which the famous Art. 45 or the actual law will be modified, and which prohibits the owners of a newspaper, or other means of diffusion from owning a TV channel. This Art. 45 is considered—and always was—as unconstitutional. (This project will most surely not be discussed in Congress this year, for which reason it will be postponed to 1985; therefore the privatization of channels 11 and 12 will have to wait till then.)

Another outstanding fact is that the lessening of censorship has resulted in daily programs depicting political matters (which previously had been forbidden), divorce, infidelity, drug addiction and violence in family matters. Due to the situation inherited by the actual authorities in the government-administered channels, such as financial debts for the acquisition of color equipment, the provision of programs, etc., the channels are going through a serious financial situation. This obliges the government to facilitate funds so that they can function in spite of the chaotic financial situation of the country.

There is also noticeable a change in the bookings—that is, an increase in Argentine production which works against imported films, especially American series. This is due to a new concept or the instructions of the directives from the Public Information Secretary (SIP) and to the lack of foreign exchange currency which handicaps the contracts in U.S. dollars. These in most cases are made in Argentine in pesos, with certain exceptions which are made with forcing bonds of the Argentine Republic (Bonex) which can be negotiated in the secondary market at a price between 70 to 80% of their nominal value.

Another point in the evolution of the TV in this country is the granting of licenses for Pay-TV of which there are two already operating in northern Buenos Aires, one of which has already cabled part of the city. Several licenses have also been given in different cities in the country. The most important up to now is the VCC (Video Cable Communication), which operates in Buenos Aires for films, one for variety and the third for news.

AUSTRALIA

Industry Make-Up: Australia has three commercial networks: The Seven Network (owned by the Fairfax Group); The Nine Net (Consolidated Press Holdings); and Network 10 (News Ltd. and others). Government-owned networks: Australian Broadcasting Corp., and Special Broadcasting Service. Total number of commercial stations is 50; ABC has 274 stations including regional transmitters and translators; Special Broadcasting covers nine territories.

Viewing Patterns: Total TV households: 4,643,000; families viewing (aggregate): 4,537,000; families viewing (percentage): 97.7%. Average viewing time per week of all age groups is 19 hours, 20 minutes.

BAHRAIN

Bahrain TV, P.O. Box 1075, Manama, Bahrain, operates 1 channel and 1 relay for some 100,000 color sets.

BANGLADESH

Pilot station established in 1964 by government. Now includes originating station at Dacca with relay stations at Chittagong, Natore, Khulna, Sylhet, and Rangpur plus two under construction. Address Bangladesh TV, Television Bhaban, Rampura P.O. Box 456, Dacca.

BRAZIL

Brazil now has some 20,000,000 sets using PAL. The audience is estimated at about 80,000,000, which makes this country the highest selling and fastest growing market in Latin America.

Brazilian law requires that all owners of radio or TV stations be of Brazilian nationality. A further law stipulates that all foreign films shown on TV be dubbed, and that no station may transmit more than 22 half hours of foreign films for each 72 hours of weekly transmission time. Stations which transmit less than 12 hours per day have a corresponding lower quota. Seven sound studios, four in Rio de Janeiro and three in Sao Paulo take care of the dubbing of all American and some Italian, Argentine and Mexican films that come into the country.

Professional Association of Radio and TV Station Owners: Sindicato dos Proprietarios de Empresas de Radio Difusao a Televisao, Avenida Presidente Churchill 97 Sala 606, Rio de Janeiro.

BRUNEI

Established 1975 by governmental Radio TV Brunei, Bander Seri Begawan, Brunei. Two channels.

BURMA

Burma Broadcasting Service, Promie Road, Kamayut Post Office, Rangoon. One station.

CAMBODIA (Kampuchea)

Radio Kampuchea Television, 28 Ave Preah Mohaksatryany Kosonak, Phnom Penh City, broadcasts daily on Channel 8 with relay to Bokor. Sets are estimated at 35,000.

CHINA (Communist)

Peking TV, opened in 1969, consists of three stations, one purely local and the other two broadcasting by micro-wave to the rest of the country. Color broadcasts began in 1973. Shanghai, China's largest city, has two channels on the air for about 9 hours daily with some 50% of the programs listed as entertainment, 20% movies, news or documentaries, and 20% sports or children's programs, in addition to educational and foreign language-instruction programs. Chinese officials blame the Cultural Revolution for the slow growth of TV and say that after the Gang of Four was ousted in the following decade TV stations were opened in all 29 of China's provinces and private set ownership rose to 45 million tuned to 40 stations and 130 relays. Initial imports of the American "Man from Atlantis" and "Garrison's Gorillas" were big hits on TV with some 6 million viewers, almost as many as there were for later coverage of sports from abroad. In fact, the response was so great that they felt such a demand might be impossible to meet. Then came editorials about the use of violence in imported TV fare and whether or not such imports should be shown in theatres which would bring in needed revenue. As this is written no decision has been reached to cut TV imports.

A poll indicates 92% of Peking's residents watch TV regularly while in a nearby suburban area with only 6.7 sets per 100 households, 87% of residents watch TV. CBS sold Central TV 64 hours of sports and news which were broadcast on 2 channels to one-third the population at total estimated at 264 million viewers. CTV broadcasts 30 hours weekly, programming news, instruction, cartoons, variety and drama. Audience estimated at 800 million.

China now manufactures some 6.1 million sets annually and it is estimated that the number of sets will soon reach 45 million, including sets open to the public audience. Total number of nation-wide stations (including micro-wave relay stations) is over 40. Black-and-white sets sell for the equivalent of \$370 and color sets for about \$1,335 and there is a waiting list for the former. Domestic and imported films are broadcast from time to time, including American feature films occasionally.

Central Broadcasting Administration, Hsin Men, Peking, now offers nation-wide TV commercials at rates ranging from about \$625 for a 15-second spot to a full minute for \$1,800.

However, this rate does not always apply as evinced by the "trading" by the Columbia Broadcasting System of 64 hours of features, sports and TV movies in return for half of the receipts from commercial advertising which CBS estimates at \$3 million from 10 foreign

sponsors, including makers of soft drinks and running shoes. Features include Dr. Seuss, Quarterback Princess, Muggable Mary—Street Cop, and football games.

CHINA (Taiwan)

Television began in 1962 by the Educational Television Station which later became the private China Television Service in 1971. There are now three networks: Taiwan Television Enterprise (1962), China Television Company (1969) and China Television Service. All three act as private corporations deriving revenues from commercials. These three stations have 24 transmitters with total broadcasts of about 265 hours weekly for some 5.2 million set owners who pay about \$1.50 annually for a license. About 80% of the programs are domestic, with most of the imports from the U.S.A. Over one-third of the sets are color. Taiwan has two communication satellite stations. A new rule states that commercials must not exceed 15% total broadcast time. Movie theatre owners complain that the three imported feature films shown weekly on television hurt their box office.

All three networks broadcast in color. TTV and CTV 6 hours 25 minutes weekdays and 12 hours weekends and holidays while CTS broadcasts 10.15 hours weekdays, 15 hours on Saturday and 17 hours Sunday or holidays. News takes an average of 21% public service over 10%, culture and education 20%, entertainment 48%. TTV has 10 transmitters. CTV 6, and CTS 8, plus and equal number of relay stations.

New rules call for no commercials during programs of less than 30 minutes and all commercials to secure government approval. In the future, 80% of all programs must originate in Taiwan with entertainment programs taking up no more than 55% of broadcast time and 45% or more devoted to educational, cultural or news types.

With relay stations it is estimated that 100% of the island's population of 18 million receives TV reception. About 12% of programs are imports, mostly from America, and these are broadcast in the original English with Chinese captions, which has served to develop knowledge of the English language among the populace.

TV showings of full-length Chinese-language feature films imported from Hong Kong were stopped following retaliatory action by local cinema interests but the government may step in later and permit such showings, except on Sundays and holidays when the theatres reap their largest harvest. Inquiries should be addressed: Ministry of Communications, Taipei, Taiwan, Republic of China, or to: China Radio-TV Assoc. 6-144 Hsin Shen (South) Rd., Section 1, Taipei, Taiwan, Republic of China.

CONGO

Radio-TV de Congo, B.P. 2241, Brazzaville. One station.

EGYPT

Television in Egypt is attached to the Ministry of Information. The Chairman of the Board of TV is Mrs. Samia Sadek.

The Central station in Cairo transmits about 150 hours a week through two channels covering most of the Egypt areas including Asswan and Luxor. Sinai, and Saudi Arabia.

Egyptian TV follows the European technical transmission with an image of 825 scansions.

The TV receivers in use number over 10 million. The Arabic Department shoots a movie news review weekly and it is sent to 35 stations all over the world with which Arab TV exchange cultural and documentary materials.

ETHIOPIA

Ethiopia Television, Post Office Box 544, Addis Ababa. Two stations, 45,000 sets.

FINLAND

Finland has a two-channel television system that differs considerably from the other countries. There is at present in Finland one radio and television operation licence which has been granted to the Finnish Broadcasting Company, Oy Yleisradio Ab. The existence of MTV, Oy Mainow-TV-Reklam Ab, which is a private commercial TV company, is acknowledged in the same licence.

The basis for official relations between the companies were laid down in more detail in the basic agreement concluded in 1976. Television broadcasting in Finland is under parliamentary control. The Administrative Council of the Finnish Broadcasting Company appointed by Parliament is the highest organ exercising programme policy. It has two functions. The Administrative Council exercises programme policy control over both companies. In addition, as its name implies, it is the highest administrative organ in the Finnish Broadcasting Company.

MTV has its own corresponding administrative council.

As a bilingual country Finland also has programmes in Swedish on both TV-channels.

Some 19 hours per week—out of the total of 75—are sold by Oy Yleisradio Ab to MTV. At the end of 1981 a one-year price agree-

ment was signed, according to which MTV's levy to the Finnish Broadcasting Company is at least 191.2 million marks in 1982. MTV produces nearly 43% of its programmes.

Numbers of color sets is today about 0.9 million (57% of all sets). The Finnish Broadcasting Company: Head Office, Kesäkatu 2, 00260 Helsinki 26 (Telephone 441141) Broadcasting Center, Yleisradiokeskus, Pasila 00240 Helsinki 24 (Telephone 418811) TV 2 Television Center, Tohloppi, 33270 Tampere 27 (Telephone 445455), MTV, Oy Mainow-TV-Reklam Ab, Pasilankatu 44, 00240 Helsinki 24 (Telephone 15001).

FRANCE

Networks: France has three television networks, all state-operated, drawing funds from an annual tax on TV set owners and advertising. (Revenues from spot ads are limited to about 25% of the budget.)

The networks are TF-1, which was created first and led the field in audience numbers until the second channel, Antenne-2, overtook it in 1983. The third regional network is FR-3.

Networks are under the jurisdiction of the High Authority (HA) composed of nine members which has named their presents since 1982, before which the president of the republic made such selections.

Pay-TV: A pay-television private company called Canal Plus was scheduled to commence in November, 1984, as an over-the-air service which could eventually serve 1,000,000 subscribers or so a year. Signed up initially were 200,000 outlets. In addition to fees from subscribers it was to be financed by sponsored programs for the first time in France.

Canal Plus has a concession to run for 12 years initially. Its largest investor (40%) is the government-controlled conglomerate Havas. Most of the rest of the shares are held by state companies.

Production Companies: Societe Francaise de Production is the largest production facility in Europe. It is state-owned and has 2,500 employees. It receives no funds from the TV set fee, deriving 80% of its revenues from work for the state networks.

GHANA

Ghana Broadcasting Corporation, Broadcast House, Post Office Broad Box 1633, Accra. Four stations, 58,000 sets.

GREECE

TV is nationwide and the most popular and cheap entertainment of the Greek public, harming all other kinds of recreation—movies mostly, especially whenever it transmits via satellite international events like Olympic Games, European soccer championships, etc.

There are two TV stations in Athens operated by the Radio-Television Organization, the ERT 1 and the ERT 2. Both stations operate in color.

TV, like sound broadcasting, is controlled by the state and responsibility for both services is invested in both the above state units. The ERT 1 Station has a TV relay station in Thessaloniki also covering the news from northern Greece. Both stations operate a couple of channels with may relay stations and some towers and transmitters.

Each station puts on the air seven to ten hours of programs on weekdays and twelve or so on Sundays and holidays, which are mostly videotaped. About 60% of this programming is covered by news, educational subjects, discussion panels, local movies and serials and the rest is foreign films and serials. The most popular imported serials telecast during the last year were "The Thorn Birds", "The Winds of War", "Dynasty" and the Italian "Marco Polo".

The ERT 1 Station is a full member of the E.B.U. and transmits all important events of international interest. It is estimated that 800,000 color TV sets were sold in this country and the number of B/W sets had reached at 2,000,000 in a population of 10,000,000 people.

The ERT 1 head office and studio is located at Messougiou Avenue Aguia Paraskevi Attikis. Town office, 16 Mourouzi Str. Athens. Director General: Vassos Mathiopoulos; Assistant Director General: A. Paraskevopoulos. Alternate Director General: Vassilis Vassiliotis.

The ERT 2 Station is located at 136, Messougiou Avenue. Director General: G Tsouyopoulos.

TV Commercials: A great number of spots are sold daily by each of the above stations to several advertising agents at a price per minute which varies according to the time and the interest of the program.

Agencies: There are several agencies acting on behalf of various foreign TV companies: Hellas Television International, 96 Academias Str. Athens, representing MGM, Screen Gems, Warner Bros., Rai, Sacis, Paramount TV, EMI, Rank, Titmus, Egyptian TV, Australian TV, Spanish TV, Brazilian TC, World Vision, Romulus, Thames TV, World Fair Communications, Film Marketing Servicing, etc. Apollo TV International, 46 King Constantine Avenue, Athens, representing United Artists, Beta Film, etc. Yannis Triantafyllis, 8, Klissovus Str. Athens, agent of ITC TV. Dennis Petropoulos, agent of the N.T.A. Triboukis, agent of the German TV, etc.

Local TV Production: The ERT 1 Channel is producing several telepictures and serials in collaboration with various producers, which exports to foreign TV stations abroad. Hellas Television International, 96 Academias Str., Athens. Production manager: Andreas Lappas.

TVEM, 52 Skoufa Str., Athens. Manager: Mavili Photopoulou. De-

nnis Petropoulos, Lycavitou Str., Athens. Aris Tsopanellis, 5-7 Kapodistriou Str., Athens. DYAS Film, ASTYR TV, etc.

TV Studios: Television Enterprises S.A. offering facilities for all types of color and B/W films making films and serials mostly for Arabian producers. Head office: 28 Kapodistriou Str., Athens. General Manager: Christos Elmatzoglou.

ATA Lid Studios. Head office: 8 Omerou Str., Athens. General Manager: George Rallis. FIN Films Studios located in Spata Attikis. SKLAVIS Studio, 31-33 Peoniou Str., Athens. Rossopoulos Bros. Studio, etc.

GUAM (U.S. Possession)

Guam Television operates one station with two channels for 17 hours daily, servicing an estimated 152,000 sets in the hands of Americans and natives. Owner is Pacific Broadcasting Corp., Agana. Some color is broadcast. The Department of Education, Agana, operates Channel 12, some 14 hours daily.

GUINEA

Radio-Diffusion Guinienne, B.P. 391, Conraky, 7,000 sets.

HOLLAND

The number of TV sets was 6,400,000 in 1984, a small increase compared with last year's figure. These are the right figures from the official organization. The total Dutch population is almost 14,300,000. Practically every Dutch family has a TV set now; two sets per family is no longer an exception.

Competition of TV with motion picture theatres is strong, and the situation in the film business is very bad, also owing to piracy and video. In general TV competition is strongest in winter. Younger people usually don't stay home on Friday and Saturday nights.

German and Belgian TV can be received well by the Dutch border provinces in particular, but also where a central antenna system exists. The market for black and white sets seems saturated. A color TV of 66 cm cost about hfl. 2,500 (one dollar is hfl. 3.25 now). Various shops sell at lower prices than the "official" ones. There has not been an important raise of prices of TV sets during the last few years.

There are two channels, with commercials under the name of Ster-Televisie. Commercials are shown every night on both channels, except on Sundays. A program is never interrupted by a commercial.

The Nederlandse Omroep Stichting (N.O.S.) is the central governmental radio and TV organization, but there are eight main subdivision stations: a Roman-Catholic one (KRO); two political ones (left): VARA and VPRO; two protestant sections, NCRV and EO; and three neutral sections: AVRO, TROP and VOO (with a big number of popular youth programs, pop and country music in particular, this section is growing continuously). AVRO has the biggest number of members, closely followed by TROS. There are also some minor TV organizations.

Although NOS has an important part of the playing time, the eight stations are completely independent, as far as their activities are concerned. They are with NOS, the buyers on the international market. Of the educational and religious stations TELFAC (series of lessons in foreign languages, popular subjects, mathematics courses, etc.) and IKON (religious) are the most important ones.

The approximate cost of a black and white TV set, antenna included, is unchanged, from 250 (a small one) to 1,000 guilders. A yearly contribution of about hfl. 150 is due by the owner of a set, to be paid to the government. This is the fee for a radio set included.

As an average feature films are programmed two nights per week, and, in summer, now and then, also in afternoons (all ages films). On Wednesday nights only if there is no football game. The film industry organization (Nederlandse Bioscoopbond) has an agreement with the TV authorities that pictures can only be shown on TV 40 months or more after the first release date in motion picture theatres; exceptions are possible. Although showings of motion pictures on TV on weekends are not included in that agreement, the attitude of the Bioscoopbond has become more flexible. The countries of origin of pictures on TV differ, but American and English films are shown mainly, also TV series from these countries (Dallas, Dynasty and Falcon Crest, etc. are very popular), and German and Australian (growing) ones. Quality of programs is good. Also many comments on the political news. New on the Dutch TV market: Sky Channel. (on cable TV).

Radio and TV, as motion pictures, fall under the Ministry of Welfare, Social Health and Culture (WSC), the new name of the former CRM.

Due to the high standard of living many people can afford to buy a TV set with cash. Buying by installment has never, since the war, been popular here, though that system makes more clients gradually, mainly due to the still decreasing economic situation and the cost of living. The Dutch stations are in Hilversum, as is broadcasting. Philips is the most important manufacturer of TV sets. Big import from Germany and Japan. Nederlandse Omroep Stichting (NOS): 53, Emmastraat, P.O. Box 10, 1200 JB Hilversum, Holland.

About seven years ago the Nederlandse Bioscoopbond started a law suit against a local cable TV company in Amstelveen trying to obtain a sentence from a judge about the author's rights of a producer of a motion picture shown on cable TV. A final result has been reached

now: the highest court in Holland decided in favor of the Bioscoopbond and of, among others, the main American companies. Negotiations are now going on between the Bioscoopbond and the organization of TV cable companies about amount to be paid by the members of that organization.

The big problem, piracy of motion pictures, is still very actual. —PHILIP DE SCHAAP

HONG KONG

Established 1957 by Rediffusion (HK) as closed circuit, converted to conventional TV in 1974. Asia Television (ATV) Central P.O. Box 1414, Kowloon, Hong Kong. Additional outlets: Television Broadcast (HK-TV/B), 77 Broadcast Drive, P.O. Box 100, Kowloon, Hong Kong; and, Radio TV Hong Kong, Kowloon Central P.O. Box 200, Hong Kong (governmental unit acting as producer for above).

INDIA

At present, there are eight full-fledged TV stations located at Delhi, Bombay, Madras, Calcutta, Lucknow, Srinagar, Jullundur and Amritsar.

Apart from these, there are seven relay stations which were set up for the SITE (Satellite Instructional Television Experiment) programme which ran for one year, from August 1975. They are Jaipur, Hyderabad, Gulbarga, Muzaffarpur, Sambalpur, Raipur and Pij situated near Ahmedabad. At present, programmes for Hyderabad and Gulbarga in Telugu and Kannada are recorded at Hyderabad. Cuttack records programmes in Oriya and feeds Sambalpur. Jaipur, Muzaffarpur and Raipur are supplied with pre-recorded tapes in Hindi by Delhi. At Pij recording is done at the SAC (Space Application Centre) studios and telecast for one hour daily. Altogether, these terrestrial stations are covering forty per cent of the viewers formerly covered by the SITE programme.

Number of TV sets in India: 16,72,568

The launching of the Indian National Satellite System (INSAT-IB) early last year—February 11, 1984—has completely changed the electronic media scene, opening up new possibilities in mass communication. Already 21 low power transmitters of Doordarshan (Indian name for TV) and 24 stations of All India Radio broadcast national TV programs and news bulletins via INSAT-IB. By the end of next year, Doordarshan will put its programmes over 132 low power and 47 high power transmitters raising coverage from 19% to 70% of the population. In terms of number, the new expansion programme will cover a population of 480 million (260 million rural and 220 million urban). Probably nowhere else in the world has a government undertaken TV expansion on such a vast scale in so short a time.

New installations will cover all towns with a population of 100,000 or above. INSAT-IB has facilitated the national linkage with HPTs and LPTs relaying national programs from the Centre (Delhi), and serve the states with educational and area specific programs.

—B.D. GARGA

INDONESIA

The government-owned RRI-TV, on the air since 1962, in 1981 banned commercials, and in 1984 banned the showing of foreign-made TV series from 1985 on the grounds that the people preferred domestic-made fare. Up to the time of the ban a single American-made TV show daily had averaged an estimated 24 million viewers, a fact that tends to contradict the governmental view.

At present stations are operated on 2 channels in Jakarta, Bandung, Jogakarta, Semarang and Tjirbon, with some 100 relays (to be extended to 125). Broadcasting hours average above 40 hours weekly with some programs in color to sets estimated to number over 2 million. Programs are 50% entertainment, 25% educational, 25% public service, live 60% of the time, and 40% video-taped. With the departure of imported shows, the government will increase educational shows based on national culture. Inquiries to TV Republic Indonesia (TVRI), Yayasan Televisi, Senayan Jakarta.

IRAN

Islamic Republic of Iran Broadcasting, Post Office Box 98-200, Teheran. Sixteen stations, 2.1 million sets.

IRAQ

Iraq Broadcasting & Television, Broadcasting House, Salihiya, Baghdad. Six stations, 725,000 sets.

IRELAND

Telëfis Eireann is the official name of the television service in Ireland.

Television, like sound broadcasting, is run as an independent State Statutory body and responsibility for both services is vested in Radio Eireann, the Broadcasting Authority. This Authority, appointed by the Government, consists of nine members serving on a part-time basis

under a chairman selected by the Government. The present chairman is T. Andrews.

The Minister for Posts and Telegraphs, who is responsible for the autonomously operated Authority, reserves to himself the duties of fixing and collecting license fees from domestic viewers, licenses transmitting stations, and has a veto on the appointment and conditions of the Authority's top executive. The Director-General, Kevin McCourt, is employed full-time.

The television service began in 1962. It has five main high power transmitters and thirteen satellite "transposers," serving areas outside the range of the main transmitters. Its national coverage is estimated at 98 per cent of the population. The national technical standard is a 625 line one, but programs are also broadcast on a 405 line in the Eastern and Northwestern parts of the country.

The Authority, which has the responsibility of providing programs of suitable cultural and national content, transmits 44 hours per week, with occasional additional programs. In addition, educational programs for schools, two and a half hours per week, are broadcast for 33 weeks of the year on behalf of the Department of Education.

Of the 44 hours of weekly programs, 22 are of home origin. The balance are imported mainly from Great Britain and America.

There are about 350,000 receiving sets in operation, of which about 200,000 are able to receive programs from Great Britain's BBC-TV and Independent TV stations as well as Radio Telefis Eireann.

ISRAEL

Israel television broadcasts daily in Arabic and Hebrew. Arabic programs start at 18:00 and continue till 20:00. Programs include documentaries, round-ups, news, films, variety shows, discussions, games, etc. These programs include, as well, weekly interviews with various individuals of the Arab Israeli population who can convey regards to their relatives in neighboring countries, such as Egypt, Syria, Lebanon, Jordan, through this media.

At 20:00 the Hebrew programs begin and include same variety of broadcast as the Arabic language. Hebrew broadcasts continue up to 23:30 or midnight. The majority of Hebrew programs are subtitled in Arabic; and foreign language broadcasts, including films, are subtitled in both Hebrew and Arabic. Similarly, most of the Arabic programs have Hebrew subtitles.

Besides the above mentioned programs, television broadcasts every morning (except Saturday) educational programs beginning at 8:00 and continuing up till 16:00. This is followed by children's programs which continue till 18:30 and include films, puzzles, games, cartoons, etc.

ITALY

From its inception the Italian television industry was dominated by a public network agency—RAI— but toward the end of the 1970's its dominance was finally challenged by private broadcasting. Prime networks are Canale-5, Italia-1 and Rete 4. The first two are part of the Silvio Berlusconi conglomerate while the third is owned by the Mondadori publishing group.

Overseeing RAI is a parliamentary commission which elects 10 of its 16 directors. The others are elected by IRI (Institute for Reconstruction of Industry) which owns 99.55% of RAI, the rest being held by a publishing association. RAI gets its operating authority from the Ministry of Post & Telecommunications and its finances are reviewed by the Ministry of Finance. RAI is funded by license fees and advertising. (Ads are limited to 5% of airtime.)

RAI operates three TV networks: RAI-1, its main outlet and most successful; RAI-2, an alternate network; and RAI-3, whose viewers are few although it is the only one which does not carry advertising.

RAI has transmitters all over Italy and uses 21 regional offices. It has five production centers and provides the majority of its own programming, including that for a worldwide news service it operates.

Private TV companies are not subject to the same rule as RAI. For instance they carry up to 14-18% advertising in airtime.

Trends: TV in Italy has made tremendous advances in acquiring programming the last several years. It's reported public and private broadcasters have invested close to \$500,000,000 in foreign films and TV programs in order to attract TV viewers.

IVORY COAST

TV Ivoirienne, Television House, Latrielle, BP 8883, Abigan. Operates 11 stations. Sets estimated at 290,000.

JAPAN

Non-commercial TV broadcasting began in Tokyo Feb. 1, 1953, by the quasi-governmental Nippon Hoso Kyuokai (NHK) followed seven months later by the first commercial TV broadcast of Nippon Television Network (NTV). Broadcast time for NHK, which began with only 866 set-owners paying a fee of Yen 200 monthly, was 4 hours a day compared to six hours by NTV, which was affiliated with the Yomiuri newspapers. By 1960 NHK possessed 60 stations and there were 47 commercial stations broadcasting, while the number of sets had increased to about 7 million, topping the 10 million mark two years later.

Although commercial networks as they are established in the U.S.

are legally forbidden, there came about a nationwide grouping of commercial stations with the Tokyo stations acting as pivotal points and providing tieups and programs. Thus in 1959, 16 commercial stations formed Japan News Network which soon spread to other programming areas, with JOKR in Tokyo, followed by three other such groupings centering on NTV, Nippon Educational Television (re-named Asahi National Broadcasting in 1977), and the Fuji TV key stations in Tokyo. It was then apparent that several newspapers with national sales systems, through capital tieups, were virtually in control of the national commercial networks.

Educational broadcasts were begun by NHK in 1959, followed three weeks later by Nippon Educational Television, which later dropped the "educational" pretense and became a regular broadcaster, just as TV Tokyo (JOTX) did later, when it was found impossible to operate a private educational TV station in Japan for financial reasons.

Taking the Tokyo Metropolitan area, which comprises almost 30% of Japan's population of 119.4 million, we find it served by Channel 1 NHK general network station, Channel 3 NHK educational network station, Channels 4, 6, 8 and 10 operated by NTV, TBS, Fuji TV Asahi commercial network stations respectively, plus semi-independent TV Tokyo (JOTX) on channel 12 and TVK (UHF) 42 in Yokohama.

NHK's general programming lists 8 regional stations throughout the nation, 45 local stations and numerous relay stations in the VHF range to bring general programming to 3,437 outlets (2851 UHF outlets). NHK educational facilities comprise 8 regional stations, 37 local stations, 2,207 relay stations for a total of 3,360 outlets of which 2,778 are UHF, including use of mini-satellite relays. It must be emphasized that in most cases (but not all) the general and educational services make use of the same facilities.

There are 42 companies operating both radio and TV stations and 63 operating only TV stations. In the VHF sector some 48 companies operate 486 stations, in UHF 51 companies operate 4,998 stations, plus 9 SHF stations, a total of 5,562.

These four "networks" operate in the 8 key areas of Japan—Tokyo, Osaka, Nagoya, Fukuoka, Sapporo, Hiroshima, Sendai and Hokkaido—which are 4 commercial-station areas (plus NHK). Other stations located in less populous areas use a cross network arrangement by which programs from plural key stations are received. There is Asahi National Broadcasting with 18 stations, Fuji Telecasting with 27, Tokyo Broadcasting System with 25, and Nippon Television with 29 stations. In addition several independent stations have ties and non-commercial NHK covers 30 million of Japan's 37 million households.

In 1984 NHK launched its direct broadcasting satellite which beams two TV channels to people living in mountainous areas and remote islands who until then had had trouble receiving TV programs.

While NHK collects monthly fees from 30,808,304 registered sets, the Home Ministry estimates the total number is 62,495,000 (including households with more than one) of which 9,423,000 are black & white and 53,072,000 color sets. Some 98% of registered households possess one or more color sets for which they are assessed a flat \$4.25 a month versus \$3.00 for black-and-white sets. It is estimated that over 92% of all households are equipped with TV. Thus, it is no surprise that NHK is by far the wealthiest broadcasting corporation in the world with 16,500 employees and a 23-story broadcasting center in Tokyo. Revenues run about \$1.035 billion annually and latest figures show a deficit of \$43,620,000 for the year.

Monetarily speaking with 34.6% of the national advertising budget, TV is the leading advertising medium with designated prime time from 7:00 to 11:00 PM and ad spot buying rates determined on the gross rating point through, with a seller's market, card rates are often disregarded. Top rate for a 60-second network spot is \$35,000 and a 54-minute program for a month about \$1 million; generally contracts are for 6 months but recently 3-month contracts became available, there being waiting lists for sponsors. Sporting events, especially baseball, in non-prime time bring top prices due to good results. Though rules call for not more than 18% of broadcast time be devoted to commercials, this rule is only loosely followed. In addition some stations persist in intensifying audio volume for favored commercials. TV ad expenditures increased 6.2% to \$3,926,000,000. Advertising for household appliances and supplies, automobiles, department stores, cosmetics and detergents gained while pharmaceuticals, and entertainment industries waned, but the largest TV advertiser was the food-beverage industry. Spot commercials more than proved their worth.

Although an agreement was once reached to restrict broadcasting hours to 16.5 daily to conserve energy, many commercial station are broadcasting past the midnight deadline although NHK signs off by midnight. While TV is undoubtedly the most influential medium for both young and old, various polls disagree when attempts are made to determine the average daily time Japanese watches the tube. One reports this as 2 hours and 15 minutes daily for the French, and the American time period as 4 hours and 25 minutes; the Japanese national average is given as 3 hours 17 minutes on weekdays and 4 hours 5 minutes on Sundays and holidays. A study of Tokyo households, an area where 15% of the national TV audiences lives, indicates housewives in their 20s average 5 hours 18 minutes daily while women in their 70s spend 7 hours a day. Nielson, however, gives the Tokyo viewing time as 8 hours 12 minutes daily, taking into consideration the viewing by each household member. Their favorite shows have heered from soap operas to various kinds of emceed shows, including quiz shows, oriented to the female audience. The menfolk prefer sports shows, including baseball, sumo wrestling, golf, and, recently, American-style football, though old-type samurai dramas are still popular with both sexes. The younger audience spends much time watching cartoons before graduating to teen-age singing shows, con-

ests or quizzes. In the past year some 800 full length feature films and some 300 Japanese-made films were broadcast, about 640 from America and the rest from Italy, Britain, France, Germany, Hong Kong and other nations. These imports, especially those from the U.S. tend to be grade B films or worse. These are almost always dubbed into the Japanese language but a few are available in the original dialogue on a different wavelength for the benefit of TV sets equipped with multiplex receivers. After one network imported "Dallas" at great expense but met with a failure regarding viewers, and only mild success as regards "The Winds of War," interest in "Specials" dropped, although "The Day After," since it dealt with nuclear disaster, did quite well. The Los Angeles Olympic Games by satellite were extremely popular.

A glance at current current American TV shows, none shown in prime time, includes "Magnum P.I.," "CHiPs," "Bionic Woman," "This Is Your World" (extract from 60 minutes), "Charlie's Angels," "Love Boat," "M*A*S*H," and "The Blue Knight," "The Professionals," "Lost in Space" and others eliciting only mild interest.

If, as Harper's magazine states, Americans watched 213 billion hours of TV last year, Japan with approximately half its population must have spent at least half that number of hours at the tube, with increasing interest in quiz shows which offer, in comparison with the U.S., minuscule prizes.

There is little doubt that Japan, unlike most Asian countries, prefer their own programs to imports. One Time Shock (Japanese) in July 1984 reached its 800th weekly showing while the detective series Zenigata Heiji ended after 18 years and 888 showings, and the science fiction Ultraman animated cartoon is still going strong after 20 years.

Interest in CATV has reached a new peak with a number of large corporations outside the TV industry announcing plans to bring cable TV to various cities. Already 354 stations have been licensed, 17,801 registered and there are 12,833 applications for small community coverage. Originally CATV was considered only for dwellings with poor reception in remote areas or where high buildings interfere with reception or where established stations are unable to reach communities of under 20,000 subscribers. These subscribers number 3,655,755.

The Mainichi newspaper, Marubeni (trading), Suntory, Tokyo Broadcasting, and Seibu Railway have announced plans for a 30-channel CATV network to serve some 62,000 residences and 41,000 businesses in two of Tokyo's most prosperous and prestigious wards and will charge the former \$206 for installation and \$12.35 monthly, and the latter \$823 and \$20.60. Whether actual pay TV, as operated in America will be as great a success in Japan is still unknown but it would seem feasible in a country bound so closely to the medium. A joint poll by Nielsen and NHK asked people which they would keep, at the sacrifice of the others, naming TV, newspaper, phone, car or refrigerator. The Japanese polled answered in 37% of the instances that they would the TV set, compared to 3% of Americans.

Recently NHK and 4 commercial networks signed a joint contract with Intelsat for broadcasting events from America on a 24-hour basis. A similar contract will be negotiated with Europe in the future.

A survey indicates imported feature films shown on TV cost more than domestic movies but are shown more often so tend to dominate the medium, so it must be assumed their frequency on TV reflects a response to demand, even taking into consideration the reluctance of Japanese movie studios to contribute to the prosperity of what they consider a dangerous competitor to their own industry.

The NHK general network broadcasting hours average 17.28 hours daily with 32.7% of programs news or commentaries, 16.4% educational, 25.6% cultural and 25.3% entertainment. NHK educational network averages 18 hours daily with 15 news, 30% educational and 19% cultural subjects.

Average daily broadcast time for commercial stations averaged 19 hr. 21 min. since late-night broadcasting is not encouraged to conserve energy. Of this broadcasting average over 16 hours consisted of sponsored programs and 3 hr. of sustaining programs. Although broadcasters claimed that advertising commercials (including a daily average of 241 spot announcements) took only 10% of total broadcasting time of each station on the average, anyone with a stop watch knows that this is not true and over 60% of Japanese polled indicated an opinion that there were far too many commercials, while 50% objected to the ads shown in conjunction with kiddies' programs and thought such programs should carry no ads.

Commercial stations claimed that 46% of daily broadcasting time was devoted to entertainment, 24% to cultural subjects, 12.9% to news and 3.1% to sports. Sponsors of a 30-minute prime time show pay about \$6,500 on a Tokyo station with other spots going for \$2,700 per sponsor.

Production cost for a one-hour program is only \$60,000, about one-fifth of the cost in the U.S. Payments for authoring a 30-minute script is \$200 at NHK and as low as \$100 at commercial stations. However, writers with a national reputation get much more.

A study of 107 commercial TV stations reveals that although the UHF outlets located in the periphery of the large cities are doing only moderately well as regards operating profits, the older-established VHF stations, particularly those affiliated with networks and in Tokyo or Osaka, enjoyed a fair year.

Japan exports very few TV programs of its own but it is the world's largest exporter of TV sets and in addition sells TV equipment, complete broadcasting studios and nationwide setups abroad.

While a critic would rate Japanese TV in general as somewhat below the not very high American standard, and take umbrage at the great percentage of time taken by commercials on all stations except those of NHK, the average Japanese is satisfied with it. Lately, the

government has taken steps to prevent further intensification by stations of audio volume for commercials and limited them to 18% of total program time.

Quiz games usually have the highest average viewing rate (14.2%), followed by feature films 14%, sports programs 14.5%, samurai dramas 13%, specials 13%, action dramas 12.8%, children's shows 12.8%, cartoons 12.1%, variety shows 11.4%, musical shows 11%, news 10.6%, imported TV shows 8.9%, educational shows 8.8%, in the Tokyo area.

Addresses of the commercial networks can be found in the World TV Broadcasters list in this volume and additional information can be obtained from National Association of Commercial Broadcasters in Japan, Bungei Shunjusha Building, 3 Kioi-cho, Chiyoda-ku, Tokyo. All Japan TV Production Companies Assoc., Akasaka White House, 4-1-6 Akasaka, Minato-ku, Tokyo 107, or from Advertising Association of Broadcasters in Japan, 8-10 Nishi Ginza, Tokyo. For non-commercial TV information one should address Nippon Hoso Kyokai (NHK), 2-2-1 Jinnan, Shibuya-ku, Tokyo 150.

—A. C. PINDER

JORDAN

Jordan Television Corporation, Post office Box 1041, Amman. Four stations, 300,000 sets.

KENYA

Voice of Kenya TV, Broadcasting House, P.O. Box 30456, Nairobi. One channel, 6,500 sets.

LIBERIA

Liberia Broadcasting Corporation, Post Office Box 594, Monrovia. One station, 20,500 sets.

MADAGASCAR

Television Madagascar, P.O. Box 442, Tananarive, Madagascar, operates a single station and three relays.

MALAYSIA — SINGAPORE

TV Malaysia was established in 1963 and now serves an estimated 882,000 sets on an average of 6 hours daily, half of broadcasts are in color. Originating station is at Kuala Lumpur, serving three networks on the main peninsula. One network extends to Sabah, where there is also a secondary station at Kota Kinabalu, which operates a small network of its own, extending to Sarawak. Inquiries to TV Malaysia (RIM), Broadcasting Dept., Kuala Lumpur 22-10. Sets: 775,000.

TV Singapore went on the air in 1963 and now serves an estimated 700,000 sets on four channels in four different languages. One channel broadcasts 66 hours weekly the others 40 hours; of this total about 146 hours weekly are in color. Inquiries to Radio-TV Singapore, P.O. Box 1902, Singapore 11.

MEXICO

Television began in 1950. It is estimated there are now 6,500,000 sets. In Mexico City there are six over-the-air channels, of which four are run by the privately-held Televisa under government concession on the other two by the government. There are five cable channels in Mexico City, all under control of Televisa. In addition there are 29 independent stations around the country.

MICRONESIA

This Trust Territory administered by the U.S. has MICRONESIA Broadcasting Corp., Taga Hotel, Saipan, Mariana Islands, comprising 2 stations broadcasting 16 hours daily, on a commercial basis.

MONGOLIA

This small member of the Communist bloc established Radio-TV Mongolia in 1970 consisting of a single station with satellite connection with Soviet Russia. Address: Mongolian Radio-TV center, Ulan Bator. Sets number 6,090.

NEW CALEDONIA

Radiodiffusion Television Francais, Noumea, broadcasts about 30 hours weekly on three channels to some 40,000 set owners.

NEW ZEALAND

The state-owned and operated Broadcasting Corp. of N.Z. television service operates two national networks in color—the TV1 network which originates programs from the Avalon television complex in Lower Hutt (near Wellington), and the TV2 network which originates programs from the Auckland studios. TV1 transmits some 88 hours of programs a week, and TV2 about 71 hours. Five days are commercial. Sundays are non-commercial on each network. Friday are non-commercial on TV1, and Saturdays non-commercial on TV2.

Locally made programs are estimated at about 3,000 hours annually, which includes drama, news and current affairs, light entertainment, religion, service programs and sport. The balance of program output is purchased from overseas, mainly from Britain, the U.S. and Australia. Use of satellite links permits same-day presentation of world news items and live telecasts, particularly of sports.

NIGERIA

Western Nigeria TV Service, Television House, Bompai Road, Kano. Ten station, 1 million sets.

NORTH KOREA

Experimental telecasting, using Russian equipment since 1960s, followed by establishment of a national network of 20 stations with regional stations and relays. Korean Central Broadcasting Committee, Television Section, Pyongyang, Democratic Peoples Republic of (North) Korea.

OMAN

Oman Color TV, Ministry of Information & Culture, P.O. Box 600, Muscat, Oman. Three stations and 1 relay for 100,000 sets.

PAKISTAN

Television came to Pakistan in November 1964, when the first station at Lahore went on the air. There were hardly 500 sets then. In May 1967, Pakistan Television Corporation Ltd., a public limited company was formed with an authorized capital of Rs. 5 crores and a paid-up capital of Rs. 3.19 crore. The entire shares of the Corporation are held by the Government of Pakistan. It is now running all five TV centers in the country. These stations are at Karachi, Lahore, Rawalpindi-Islamabad, Peshawar and Quetta and transmit four to seven hours of programs, including canned foreign films. All these stations and 16 boosters/rebroadcast stations are equipped with modern technical facilities, including video tape recording, background projection and arrangement for showing both 16 and 35 mm films at the station. PTV derives its income mainly from two sources: the commercial service and the license fee charges on television receivers.

A major breakthrough in the field of TV communication was provided with the opportunity to link Pakistan with the outside world through satellite in the mid-1970s. On July 24, 1981, PTV, for the first time, introduced a new technique of showing an interview of the Pakistani ambassador to Britain (in London) which was taken live from Karachi via satellite. Now all the Pakistani viewers can see live programs (if PTV wishes) from abroad, as all the TV stations have been lined with the National Microwave Network. Most of the international events, such as Islamic foreign ministers conference, cricket matches, boxing, the President of Pakistan's foreign visits, Mehfil-e-Qirat, Haj, important speeches at the United Nations, reports from the war dronts of Lebanon, Iran, Iraq, Afghanistan, etc. are being telecast in cooperation with ABS, CBS, NBC, etc. direct (live) through satellite. Some of the Middle Eastern countries' television programs, including India, Oman, Dubai, Saudi Arabia, and Abu Dhabi, etc. are clearly visible in various parts of Pakistan with the help of boosters or high antenna. Indian (Amritsar) TV is clearly seen in Lahore and surrounding areas even without the help of boosters.

One of the major goals of PTV has been to extend its service deeper inside the rural areas. PTV has been successful in achieving this to a high degree by setting up 16 powerful boosters/transmitters which act as rebroadcasting stations and are linked to the five main TV transmission centers. Meanwhile over 100 cities, towns and thousands of villages of the country are covered by telecast. As already mentioned, the total population now covered is about 82% or about 76 million, out of which nearly 62 millions are in electrified areas. Programmes of special interest to rural folk such as water logging, fertilizer usages, improving seed methods, cooperative measures, etc. are regularly telecast. Maximum playing time, 22.72%, was consumed by foreign films.

Survey has shown that colour TV has reached most of the well-to-do houses throughout Pakistan and black and white TVs are installed in almost every average house. PTC is being run as a commercial service. Advertisements can be shown in breaks or between the programmes. An average 9 to 12 minutes in an hour is consumed by commercials on Karachi TV. The pressure on other stations is much lower. The 15% increase in the rate of commercials in 1984, along with censorship of TV programmes and commercials under Islamic laws have affected the business.

News readers and announcers (women) have to wear full sleeve-

shirt and cover head with Dupatta and start the bulletin with the name of Almighty Allah and "Assalam-o-Alaikum" (Hello). The approximate number of receiving sets in the whole of Pakistan is 1,500,000 more than 65% of which are licensed sets. The license fee has remained the same—Rs. 200 per year during the year under review. Of these between 25 to 30% sets are colour. Eight viewers approximately watch one TV. Pakistan manufactured 117,421 TV sets during the year 1983. At present PTV extends technical cooperation to Uganda, Libya, United Arab Emirates and International Telecommunications (ITC).

For the first time colour programmes were introduced on PTV on December 20, 1976. Today there are five full-fledged colour centres at Karachi, Lahore, Rawalpindi/Islamabad Peshawar and Quetta which telecast colour programmes. The Quetta Centre is the biggest centre (area wise) in Pakistan. It also has a technical institute with the building. Nine new boosters/rebroadcasting centres are scheduled to be installed within the next four years. These boosters will not only take the TV signals in the less developed regions of the country but will also meet the needs of the remote areas of the NWFP, Baluchistan, Azad Kashmir, and Northern Areas. Most of the canned and domestic programmes are telecast in colour daily from all the stations/centres. The number of colour sets is estimated to be between 300,000 to 400,000 throughout the country. Government charges 80% duty of black and white and colour TV sets brought into the country as personal baggages. However, there isn't any duty on the locally manufactured, B/W and colour sets.

A number of PTV programmes have won International Awards, including at 9th Hollywood Festival of World TV (1974), Golden Prague Festival (1976), Asian Broadcasting Union Japan (1972), Prix Futura Berlin (1974), Festival of Folk Art TV Programmes, Moscow (1979).

LATEST: To encourage the educational programmes, the Government of Pakistan has in its budget for 1984/85, reduced the import duty from 125% to 85% on the import of VCRs, and to make their use legal a license fee of Rs. 200/- per year has also been imposed. There are approximately over 500,000 VCRs in the country, of these 60% were illegally imported.

A.R. SLOTE

PHILIPPINES

Broadcasts began in 1953 by DZAQ-TV then owned by Alto Broadcasting. At present 40 stations are on the air for commercial broadcasting and one government station; most are located in Manila. Number of sets is estimated at over 3,600,000. ABS-CBN was replaced by KBS. Others are Associated Broadcasting, Inter-Island Broadcasting, Metropolitan Broadcasting, Philippines Broadcasting, Radio Mindanao Network, Republic Broadcasting and Southern Broadcasting. More provincial outlets are planned.

PUERTO RICO

Television started in 1954, and there are about 700,000 sets in Puerto Rico. Most of the public places such as restaurants, clubs, have television sets for their patrons and the medium is available in local hotels upon request.

Even though most Puerto Ricans know English, and the number of persons who will acquire a working knowledge of English will increase considerably through intensification of English instruction in public schools and the migration of Puerto Rican families to the United States, and workers who come back from the States with more knowledge of English, television programming is in English and Spanish. WKAQ-TV, owned and operated by the newspaper El Mundo, on channel 4, has 30 per cent programs in English of which 10 per cent have Spanish sub-titles. There are 10 private stations in all.

Kinescope versions of top North American television shows are represented on both stations.

Cable television is on the rise here. The largest operator is Cable TV of Puerto Rico, which by the end of 1982 had 66,000 subscribers. It is owned by Harris Cable of Los Angeles, which bought the San Juan franchise in 1976, starting with some 8,000 customers.

Cable programming is also being expanded. At first the cable company offered only HBO and Virgin Islands stations. Receiving stations were built to bring in programs by satellite and by 1980 programs were being funneled from the states. Puerto Ricans now have a choice of 21 cable channels.

Cable TV charges its subscribers \$11 a month for a basic package of 12 channels. HBO and Galavision cost \$9.95 each additionally. Cable currently reaches greater San Juan, Bayamon, Carolina, Trujillo Alto and Guaynabo, which have an estimated 300,000 homes.

QATAR

Qatar TV Service (governmental), Ministry of Information, P.O. Box 1836 Doha, Qatar. Color since 1973. One station and relay.

SAMOA (AMERICAN)

Three TV stations serve some 40,000 sets on the American part of this Pacific island as well as a number of sets on the part administered by New Zealand. The station is also used daily for educational in-

structions to local schools. Address: Television of Samoa, Pago Pago. There are six channels.

SAUDI ARABIA

Established 1957, now 7 government stations and 1 private station. General Directorate of TV, Ministry of Information, P.O. Box 570, Riyadh. Saudi Arabia: ARAMCO-TV, Box 96, Dhahran, Saudi Arabia.

SOUTH KOREA

Commercial TV broadcasting began in 1956, but the station burned three years later and it was not until 1961 when the government established the Korea Broadcasting Service (KBS-TV) network. The commercial network of Tongyang Broadcasting Co. (TBC) began in 1964 and was followed by the commercial Munwha Broadcasting Co. (MBC) in 1969. The American Forces Korea Network (AFKN-TV) was also established to serve American troops, and now comprises 6 stations.

KBS-TV has its key station in Seoul and 21 local stations and there are 5 other local stations, making a total of 26 TV stations, including those operated by MBC and the former TBC. Color broadcasting started in 1980. Almost 10 million sets are in operation, covering almost every household. If armed forces of USA are counted, the total stations number 32.

Korean broadcasts are limited to 6.5 hours of evening time and 4 hours mornings on weekdays, 11 hours on Saturday and 17 on Sunday. Monthly fees of about \$1.00 are collected and advertisements accepted.

In 1981 the Republic of Korea "consolidated" all news media and took over the private stations, so daily listings read: KBS-1 TV (7 cities), KBS-2 TV (2), KBS-3 TV-UHF (6), MBC-TV (6). Korean Broadcasting Advertisement Corporation handles all TV and radio advertising.

SIERRA LEONE

Sierra Leone TV Service, New England, Private Mail Bag, Freetown. One station, 29,000 sets.

SPAIN

The first time Televisión Española—(now Radio-Televisión Española, RTVE)—transmitted on a regular basis was October 29, 1956, on a scan system of 625 lines at 25 frames per second. That program lasted three hours with a range of 70 kilometres, broadcasting for about 400 sets. The First Channel (VHF) was followed by a Second Channel (UHF) in 1967, complementary at first, but then sort of competitive and with a clearer trend towards "culture." Channel 1 covers now all of Spain, including the Balearic and Canary Islands. Channel 2 is reaching 80 per cent of national territory. According to the Director of Television, Channel 2 has a ceiling of 85 per cent of territory, since the investment costs double when the 70 per cent level of covering is reached.

RTVE is now an autonomous agency under the Ministry of Culture, Paseo de la Castellana 109, Madrid 16. All programs are controlled by a Censorship Board. Drama, films and episodes of series are classified according to ratings: "general" (no sign on the screen), "older than 14" (a small lozenge), "older than 18" (two small lozenges).

The official number of sets was 10,960,000 at the beginning of 1984. There are no official figures for color sets (German PAL system). They are gradually substituting old black-and-white ones which no factories produce now, except for small, portable battery sets.

In 1984 the production of programs will be entirely financed by advertising and tie-in merchandising, since the government withdrew the annual subsidy. Both channels carry ad spots. Due to nocturnal habits of Spaniards, the costliest time comes around 10:30 p.m. The ad spots appear on the screen at regular half-hour or one hour intervals, till 7 p.m. Later the spots rhythm accelerates, mainly during feature films in spite of audience and film directors protests.

Staff and Studios: Director General of the Autonomous Agency RTVE (officially called "Ente", Italian style) is José María Calviño, target of constant attacks from the rightwing opposition party. Director of TVE is Antonio López.

The ruling Socialist Party controls the TVE Council, a multi-partisan body which applies the 1981 Statute of Television. Home rule in Catalonia and the Basque provinces opened the door to regional independent TV centers. Even the Andalusian parliament asked for a Third Channel covering the South of Spain.

RTVE built in Madrid a 210 meter high tower ("Torrespaña") for news and live broadcasts. This "Towerspain" is now one of the landmarks of the capital of Spain.

TVE has ten news broadcasting stations in provinces. The Canary Islands set up their own programming. National Headquarters are at Prado del Rey, Madrid 24, with general offices and nine studios with total area of 3,000 square meters. Additional studios are in Barcelona.

Fixed, salaried personnel is about 2,300, with other estimated 5,000 contributing freelancers. An important group of steady contributors got permanent status by sentence of the Supreme Labor Court.

Programming Schedule and Contents: Channel 1 broadcasts 76 h 45' weekly, with accent on week-ends. Same happens with Channel 2, which broadcasts 46 h 45' weekly. Total of weekly broadcasting time: 123 h 30'. Special programs such as prize boxing bouts, sports championships, bullfights, royal and political messages, etc., move or remove normal programming.

Many broadcasting hours consist in theater movies (about seven features weekly) and filmed foreign production, including American series as "Flamingo Road", "Winds of War", "Masada", "The Martian Chronicles", etc. TVE broadcasts too many debate and panel shows, too many heavy music meetings, but they lack comedy fare. From 1982 the Ente has invested in prestige Spanish features, which first are being shown in theaters and then will be adapted to television as miniseries. Many of them got awards at international Film Festivals.

Price range for half hour of screening time is \$1,500-\$2,000. One-hour series generally brings twice the half-hour price. Price range for feature films is \$7,800-\$17,000, dubbed into Spanish at Madrid studios. Only "Film Society" screenings (Channel 2) accept foreign prints with Spanish subtitles.

Foreign Markets: The estimate of TVE foreign sales for 1985 surpasses \$5 million, the estimate for 1984 is \$3,860,000. The whole TVE sales team goes in force to world markets like MIP-TV. But the main problem in Spain is the proliferation of video-recorders and the underground market of bootleg cassettes, in spite of frequent raids by police and Justice officers. Cable TV is not even mentioned here, and for the time being the Socialist government has ruled out private TV networks.

—MARIANO DEL POZO

SWITZERLAND

The Swiss Broadcasting Corporation (SBC) holds a State concession for sound and television broadcasting. The SBC handles all programme matters, while the PTT enterprises are responsible for the transmitters and relay facilities.

As of April 30, 1983, there were 2,072,181 TV sets in operation in Switzerland and 1201 transmitters and booster on the air. The French and German language-stations schedule about 65 hours weekly, each. The Italian language transmitters have about 60 hours of programming each week (without Eurovision—European TV Programme exchanges.)

February 1, 1965 commercial TV was introduced on a limited basis. From January 1, 1974, 20 minutes on weekdays at the utmost. It 17,400 francs per minute from 1/1/80. Annual licenses cost 174 francs from 1/1/82 for private sets.

About 81 per cent of all households have colour TV sets.

—GERDA GOEPFERT-KLIMISCH

TAHITI

Office of Radiodiff-Télévision Française, Papeete, operates four channels 34 hours weekly to serve the estimated 22,000 sets of this French possession. It is owned by the government and buys its censored programs in Paris.

THAILAND

Thai Television Company (government-owned) opened its first station in 1953 and now operates four stations (two using color) and 8 relays on a commercial basis. Stations are also operated under names of Bangkok Broadcasting & TV, Bangkok Entertainment Co. and Thai Army, all located in Bangkok. Sets are estimated at 2.4 million, some color.

In 1980 a ban on broadcasts from 6:30 to 8:00 PM, as a power-saving measure, allegedly improved "family relationships" so at present broadcasts are limited to 8 hours on weekdays, and 16 hours on weekends and holidays.

UNITED ARAB EMIRATES

Established 1969 by Thompson TV International and Abu Dhabi TV Service. In 1971 United Arab Emirates TV Service, P.O. Box 637 Abu Dhabi established separate facilities which now consist of three stations and three relays. Dubai Radio and Color TV, P.O. Box 1695, Dubai, now broadcasts on two channels from 1 station and 1 relay in Arabic, French and English.

VIETNAM

Since 1968 the Government Information Department of the Democratic Republic of Vietnam has operated one non-commercial station in Hanoi. Number of sets is about 510,000.

A second station was added in Saigon (now known as Ho Chi-Min City) when South Vietnam was "liberated" and the divided country became one.

WEST GERMANY

Latest statistics on television in Germany:

TV Households: Out of approximately 24,000,000 German households, 23,000,000 have at least one television set. Of these, about 16,000,000 have at least one color set. Some 23,000,000 households have at least one radio. Total TV set sales per year: about \$2.2-billion.

Transmission: Only over-the-air TV transmission operates in Germany. Cable and satellite transmission is being planned, but neither form is likely to appear in significant commercial terms until after 1985. After five years of discussion, pilot cable projects are underway in Ludwigshafen, Dusseldorf and Berlin. First German TV satellite

won't be launched until 1984, with serious technical consideration of the form getting underway in earnest by about 1986.

TV Networks: Germany has no networks similar to webs in the U.S. In fact, there are no privately-owned commercial TV stations; all telecommunication is state-owned. Basically, the two national TV outlets are: ARD, the national hookup of nine regional stations; and ZDF or second channel, a single nationally-beamed station based in Mainz near Frankfurt. ARD's nine stations each contribute to one joint national broadcasting operation, five regional channels and several radio channels. ARD has a budget of about \$1,640-billion; ZDF, \$556,000,000. Commercials are aired on both stations in sharply limited timeslots. Stations are supported largely by \$6.50 monthly license fees paid by TV set owners.

***“...Nosotros Los Queremos Mucho
Y Les Damos Las Gracias
Con Todo El Corazon.”****

****“Dear Variety Clubs International,” they wrote,
“we love you very much and we thank you with all our hearts.”***

All 16 happy, healthy hearts! These 16 Colombian children, brought together for a reunion in San Gil, are well again and leading normal lives. All of them, over the past three years, received life-saving open heart surgery at the North Shore University Hospital on Long Island, New York, through the Variety Children's Lifeline Program. Lifeline provided transportation for the patient and a parent. The hospital and dedicated doctors

contributed the surgery and medical care. The program, initiated in 1980, is aiding needy youngsters from all over the world and has expanded to include hospitals and physicians throughout the United States, Canada and Great Britain. To reduce the long waiting list of desperate children who will die prematurely without help, Variety Children's Lifeline is seeking additional funds. You can play an important role in this vital project.

**Send your contributions to Variety Children's Lifeline,
c/o Variety Clubs International, Suite 23C, 58 West 58th St., New York, NY 10019
(The Heart of Show Business) (212) 751-8600.**
