PREFACE

This *North American Radio-TV Station Guide* has been prepared from official FCC information. Every effort has been made to make it as complete, accurate, and easy to use as possible. All TV, FM, and AM stations in the United States and its possessions, as well as Canada, Cuba, Mexico, and the West Indies, are indexed by geographic location and call letters. The handy pages for notes at the end of each section can be used to log stations received, insert new stations on the air, or for any other purpose you may devise.

All stations currently on the air, plus those which have temporarily ceased operation, and those which plan to start within the next year are included in this book. Important statistics, such as frequency, power, and network affiliation are given for each station. In addition, FM stations broadcasting stereo and AM and FM stations specializing in country and western music are indicated. Thus, regardless of where you travel, by consulting this handy book you can select the stations providing the type of programming you desire.

The completely-integrated alphabetical listing of all TV, FM, and AM stations is an important feature of this book. It provides a comprehensive one-source reference to all commercial broadcast stations. In order to make the listings in this edition as complete as possible, changes have been inserted right up to press time.

NORTH AMERICAN RADIO-TV STATION GUIDE

by VANE A. JONES

ABOUT THE AUTHOR

Author Vane Jones has prepared 5 previous editions of the *Radio-TV Station Guide*; the first edition was published in 1958, as a result of his DX'ing activity. Since that time, his list of followers has grown rapidly, due primarily to the personal attention he has paid to hairline accuracy and completeness. Mr. Jones is a member of the National Radio Club and the Newark News Radio Club.

This invaluable handy-size book contains over 7,500 listings, including over 5,000 AM radio stations by city, state, and frequency; over 1,500 FM stations by city, state, and frequency; and nearly 1,000 VHF and UHF TV stations. If you want to know the channel number, call letters, etc. for any TV station in the country . . . frequency, call letters, location, etc. for any AM or FM station, keep this book close at hand for fingertip reference while traveling, enjoying your hobby of DX'ing or working in the broadcast field.

The listings encompass all stations now operating, those which are temporarily off the air, and those which are scheduled to start operation within the year. The entire U.S. and its possessions, as well as Canada, Cuba, Mexico, and the West Indies, are covered. Such important statistics as frequency, day and night power, network affiliations, and construction-permit data are all included.

A special feature of this third edition is the designation of all stations that feature country and western music as all or part of their programming. FM stations broadcasting in stereo are also designated for your convenience.

North American Radio-TV Station Guide is a convenient reference that will serve a myriad of needs for radio and TV technicians, DX'ers, travelers, broadcast station personnel, radio and TV time buyers, and anyone interested in broadcast station data.
