Today there are over **13,000** radio stations
 in the U.S. and Canada

and more than **30,000** General Managers,
 Program Directors and Sales Managers.

Guess what...

They **MOVED** yesterday,
 changed jobs this morning,
 flipped formats two days ago,
 added a satellite service,
 applied for new calls
 and...just started an LMA
 with the other stations you can't find.

How did you keep track of the thousands of changes to phone and fax numbers, addresses, owners, formats, call letters, and personnel last year?

We used over 200 stringers and reporters...made thousands of phone calls...drove through hundreds of markets...poured over several tons of FCC filings....

Whew!

Where'd you find the time?

Today there are over **13,000** *radio stations*
 in the U.S. and Canada
 and more than **30,000** *General Managers,*
Program Directors and Sales Managers.
Guess what...

They *MOVED* yesterday,
 changed jobs this morning,
 flipped formats two days ago,
 added a satellite service,
 applied for new calls
 and...just started an LMA
 with the other stations you can't find.
