How did you keep track of the thousands of changes to phone and fax numbers, addresses, owners, formats, call letters, and personnel last year?

We used over 200 stringers and reporters...made thousands of phone calls...drove through hundreds of markets...poured over several tons of FCC filings....

Whew!

Where'd you find the time?

How did you keep track of the thousands of changes to phone and fax numbers, addresses, owners, formats, call letters, and personnel last year?

We used over 200 stringers and reporters...made thousands of phone calls...drove through hundreds of markets...poured over several tons of FCC filings....

Whew!

Where'd you find the time?

Integrating M Street into Your Sales Plan.

THE M STREET RADIO DIRECTORY

Addresses, phone numbers, fax numbers, personnel, formats, facilities, ownership (current and pending), markets and ratings for more than 15,000 stations and nearly 400 radio markets across the U.S. and Canada.

THE M STREET JOURNAL

Industry news summarized in an easy-to-read weekly newsletter format. This publication catalogs every change in format and network, call letters, LMA, ownership and station facilities, new frequency allocations, translators, construction permit activity, station applications, grants, FCC, regulatory and industry news.

M STREET

Introduced in January, 1998, this publication gives you the latest news, puts it in context and explains it with up-to-the-minute expert analysis by M Street's News Editor, Tom Taylor, delivered to you each morning via fax. You get actionable information on programming offerings, people moves, ownership changes, and statistics that help you market effectively to our changing industry.

M STREET GROUP DIRECTORY

A comprehensive listing by owner of all station groups, where they operate, what they own, their formats and markets and how to contact them. This bound report includes a "Pending Sales" field for those stations in the process of sale. Other fields include over 700 group names, phone and fax numbers, market reference information, call letters, and frequency.

M STREET MAPPING SERVICE

Clear, attractive, understandable color maps using the most current data from the FCC. Underlays may be created such as: field strength, terrain, soil conductivity or population density.

DATA ON DISK, CUSTOM MAILING LISTS & LABELS, and FAX LISTS.

We make changes to our data daily. We customize our services to meet the needs of our clients. You can license the database, giving you access to more than 100 pieces of up-to-the-minute information on every station in the U.S. and Canada, and receive it as often as you need it with built-in flexibility that allows you to easily tailor reports to fit your needs or link to your own station information. If you need a station list one-time only, we can sort or pull data in list form or printed on mailing labels by: format, market, and more. And, if you need to deliver your message by fax, we can do it for you.

BROADCAST FAXING

And, if you need to deliver your message via fax, we provide high-quality broadcast fax services.

THE POWERFUL RADIO WORKBOOK

The new release from Valerie Geller, author of *Creating Powerful Radio* which sold thousands worldwide. This book is a result-oriented guide to getting results in areas relating to developing strong on-air personalities, building exciting programming, creating powerful news, identifying winning talent, increasing your audience and more. Visit us on the web: www.gellermedia.com.

*Hey Pops,
You wanna
know what
radio station
I bought
this week?*

Read about it...

**The
M Street Journal**
RADIO'S JOURNAL OF RECORD

Weekly answers to radio's little mysteries.

Together, let's make great radio!

NexGen
DIGITAL
Broadcast

- Compressed or non-compressed audio
- Real-time status of up to 128 local network workstations
- Redundancy using multiple file servers
- Individual user preference records
- CD/Extractor-high speed digital audio extraction
- Voice-track recording concurrent with programming
- Instant and seamless mode and shift changes
